

## I Play Yu-Gi 1001

Chapter 1001: Eat Each Other's Monster To Show Friendship

Judai was a little confused.

The Philosopher's Stone... Sabatviel?

He thought that when Daitokuji gave him this card, it was stuck in the alchemy book of Daitokuji. The teacher said that this card could only be used by the ultimate alchemist. It was a legendary artifact "Philosopher's Stone" that existed in countless parallel worlds.

But the problem was that this card has nothing written on it except the card name and card picture. Judai didn't know how to use it at all...

At this time, there was an extra line of text in the originally empty text frame below the card.

"When a 'Winged Kuriboh' is destroyed, add this card from your Deck to your hand."

That's all.

So what's the use of adding the card itself to my hand?

Judai was a little confused.

And even if it is added to the hand, this card is still a Spell Card, right?

Theoretically speaking, as long as it is a Spell Card, it will be negated by "Kozmo Dark Planet", regardless of whether it is a Philosopher's Stone...

But he still had time to think about it slowly, because next is Yuei Vu's turn.

"My turn."

At this time, their total LP was below 1000, and they have met the conditions for the activation of the Duel Skill "God's Anger". But even if he activated his skills here and added "Obelisk" to his hand, under the restriction that his side was completely empty and spells and traps were fully sealed, Yuei Vu had no way to summon Obelisk for the time being.

But it didn't matter.

The moment his fingers touched the card deck, a hot impulse spread throughout his body along his fingertips.

Yuei Vu's mouth curled up slightly.

"Only when facing this kind of opponent, you guys can be considered more useful."

He took a deep breath and became serious.

"Draw!"

"No matter what you draw, it's useless." The Light of Destruction said dryly, "You have very few LP left, and there is nothing on the field."

Now that spells and traps are completely blocked, all you can rely on are monster effects. But without the support of spells and traps, you can't summon monsters enough to defeat the 'Dark Planet'.

Give up and accept the baptism of light. This is a gift, an opportunity that allows you to enter the inevitable destiny of the universe in advance..."

"That's not necessarily true." Yuei Vu smiled.

The Light of Destruction: "..."

"Cost Release is the scariest thing about the Kaiju series, the most powerful way to clear the field... But you don't think this is your exclusive weapon, do you?"

".....what you up to?"

"That's what it's about."

Yuei Vu's eyes flashed, and he raised a card in his hand high, blooming with a dazzling golden light like the rising sun in the east!

"I sacrifice the three monsters on your field, 'Kumongous, the Sticky String Kaiju', 'Kozmo Dark Eclipser', and 'Kozmo Dark Planet'! Tribute Summon!

The ever-changing fire of heaven and earth turns into eternal light to illuminate the earth——

The Winged Dragon of Ra – Sphere Mode! "

Under the gaze of countless people in shock and awe, the spider Kaiju disappeared, the giant battleship disappeared, so did the planetary fortress. They were all burned up in the ever-changing fire of heaven and earth!

Instead, suspended over the field on the side of The Light of Destruction was a golden egg that bloomed with endless brilliance!

The Light of Destruction: "..."

Everyone burst into cheers!

One card, just one card completely changed the desperate situation!

This was the Supreme Egyptian God, possessing the eternal fire that could burn everything in the world, The Winged Dragon of Ra!

"Furthermore," Yuei Vu pointed directly at the backfield of the Light of Destruction, "because of the effect of the 'Remove Brainwashing' you activated, all monsters on both sides of the field are returned to the original owner!

So 'The Winged Dragon of Ra – Sphere Mode', return to my field! "

The Light of Destruction: "....."

After eating the three big monsters on the Light of Destruction field in one go, the spherical Winged Dragon immediately jumped back to Yuei Vu... even relying on his own trap effect.

Just very comfortable.

Maybe this was "treating others in their own way".

"The effect of 'The Winged Dragon of Ra – Sphere Mode' is activated." Yuei Vu said, "Use it as a sacrifice and Special Summon 1 'The Winged Dragon of Ra' from my hand or Deck, ignoring its Summoning conditions!"

The huge sphere began to deform! The smooth spherical shell began to have cracks, deformed and disintegrated, and spread its wide wings as if a noble golden bird had hatched from the egg shell!

The Winged Dragon of Ra, descended!

"The Winged Dragon summoned by this effect has both ATK and DEF increased to 4000!"

[The Winged Dragon of Ra, ATK 4000]

"Then activate the Spell Card 'Card Destruction'. Both players discard as many cards as possible from their hands, then each player draws the same number of cards they discarded." Yuei Vu waved his arm, "Then enter the Battle Phase!"

When the words "Battle Phase" appeared on the electronic display of the Duel Disk, almost everyone held their breath at this moment.

This was their best chance so far in the duel!

The interstellar warships of the invaders could not be selected as effect targets, and they all had troublesome last will effects when they were destroyed. They were like endless locusts. And now that the power of the Sun God has burned down the entire opponent in one breath, this was the best opportunity to attack!

"But the opponent still has set cards on the field..." someone quickly suggested.

"It doesn't matter! Traps are of no use to gods!"

"..."

What they said was indeed true. The Sun God in Yuei Vu's hand was an enhanced version based on the effects of real-life cards. Although it was still not as fancy as the Sun God in the original work, which had complex effects that could not be written on a single card, it still had the general resistance as a god.

Yuei Vu waved his arm.

"The Winged Dragon of Ra, attack directly! God Blaze Cannon!!!"

The energy condensed into a golden ball of light behind the Winged Dragon, and was continuously charged into its open mouth! The flames swirled, and the golden energy flame was like a flaming cannon running through the galaxy!

"Open the set card: Trap Card – Back to the Front!" The Light of Destruction said, "Target 1 monster in my GY; Special Summon it in Defense Position."

"Eh?" Judai was nervous, "Is he going to summon the Dark Planet again..."

"Although I really want to do that, Dark Planet cannot be Special Summoned through effects other than its own." The Light of Destruction said, "So what I want to resurrect is... 'Kozmo Dark Eclipser'!"

[Kozmo Dark Eclipser, DEF 2600]

The Eclipser was indeed a very powerful main force in the fleet, but it was obviously still inferior to the Supreme Egyptian God. The main shield of the ship was quickly melted through by the power of the God Blaze Cannon, and the dark ship was sunk.

"When the Eclipser is destroyed, banish it from my Graveyard; add 1 Level 8 or lower 'Kozmo' monster from my Deck to my hand."

The voice of the Light of Destruction was like a machine with no warmth in its tone.

"I added a 'Kozmo Dark Destroyer' from the deck to my hand."

After a pause, he pointed to the Continuous Spell next to him.

"Then there is the effect of 'Supply Squad'. If my monster is destroyed by battle or effect, draw a card."

"Open the set card: Trap Card – Sixth Sense!" The Light of Destruction said, "Declare two numbers from 1 to 6, and then the opponent will roll the dice.

If the number rolled happens to be one of the numbers I declared, I draw that number of cards.

If not, send a number of cards from the top of my Deck to the Graveyard equal to the result."

Yuei Vu raised his eyebrows.

Good guy, is this one possessed by a gambling monster again?

"The numbers I declared, of course, are 5 and 6."

Seeing the huge dice appearing in mid-air, Judai geared up and said, "It's impossible to hit 6 this time!"

Yuei Vu... Yuei Vu said that he would not make any remarks.

The dice stopped spinning.

...another 6.

"Based on the effect of 'Sixth Sense', I draw six cards." The Light of Destruction said calmly.

"Ah!?" Judai said stupidly, "Is this person really not cheating?"

Yuei Vu coughed dryly.

Even a small BOSS like Saio had the ability to freely control the result of coin tosses and dice rollings. It was not surprising that The Light of Destruction, as the boss behind the scenes, also had this ability.

It definitely has nothing to do with my Lucky 20. It would be the same for anyone else. I shouldn't bear the blame...

...right?

"It's really difficult to deal with." Yuei Vu frowned slightly, "Set a card, I end my turn."

Chapter 1002: You Barely Survived

"My turn, draw."

The Light of Destruction moved mechanically and calmly, like a cold machine that operated with the ultimate goal of victory, without any panic.

"I banish Level 6 'Kozmo DOG Fighter' and Level 8 'Kozmo Dark Destroyer' from my hand!

Descend again, the ultimate weapon to conquer the galaxy, planetary fortress——

——Kozmo Dark Planet!!!"

The artificial planet has arrived again, menacing like the god of death. Half of the super fortress leaned down from the sky, facing the Sun God from afar!

[Kozmo Dark Planet, ATK 4000]

"We finally defeated the Dark Planet, yet it came out again..." Judai said.

"But this should also be his third Dark Planet." Yubel said, "In other words, this is the opponent's final trump card. Maybe that guy has spent all his cards and has used up all his strength."

"But we still have The Winged Dragon of Ra here, so it's not that easy..."

Yubel pondered briefly, but she didn't seem so optimistic.

Sure enough, immediately afterward, the Light of Destruction raised a card in his hand again: "Use 'The Winged Dragon of Ra' as a sacrifice, and special summon this card on your field——

——Jizukiru, the Star Destroying Kaiju!"

The noble divine bird screamed helplessly, and the Winged Dragon used its last strength to bloom its own flames, but in the end, it was helpless and dissipated in mid-air.

The mechanical Kaiju fell from the sky like it was crossing the galaxy, and hit the field in front of Yuei Vu hard!

[Jizukiru, the Star Destroying Kaiju, ATK 3300]

"At this moment, the effect of 'Remove Brainwashing!'" said The Light of Destruction, "'Jizukiru, the Star Destroying Kaiju' returns to my field!"

The scene of the fall of the Egyptian God was repeated again, and the field on Yuei Vu and Judai's side became empty again. The scene was simply despairing.

"Why is this, even the Sun God..."

"Could it be that the earth...is there really nothing we can do about it?"

However, when Yuei Vu saw this scene, his expression remained calm.

"You solve the god directly through Kaijus again... It is indeed almost impossible to defend against. But if you underestimate me too much, it will also be a headache."

"Oh?" said The Light of Destruction, "are you saying that you have specially prepared a strategy for this this time?"

"Exactly."

Yuei Vu waved his hand.

"The moment you sent 'The Winged Dragon of Ra' as a sacrifice to the GY, the 'Immortal Phoenix' sleeping in my GY had already awakened!"

Reborn in Nirvana, burn everything with the flame that purifies all things——

——The Winged Dragon of Ra – Immortal Phoenix, summon! ! ! "

A beam of light shot straight into the air from the GY area of Yuei Vu's Duel Disk, and the moment it bloomed, it lit up the entire sky! The clouds all over the sky seemed to be ignited, and the burning and erratic flames transformed into the form of a phoenix, spreading its flaming wings condescendingly!

[Winged Dragon of the Sun God-Phoenix, ATK 4000]

"Oh oh oh!" Judai's eyes lit up, "Even if it can't prevent the Winged Dragon from being destroyed by the Kaiju, will it evolve into a stronger form instead?"

As expected of Yuei Vu-sensei! "

"Not only that." Yubel said, "At the end of the turn, Immortal Phoenix will send itself to the graveyard to resurrect 'The Winged Dragon of Ra – Sphere Mode' from the graveyard, ignoring its Summoning conditions.

It's literally an 'immortal phoenix'."

"So that's it!" Judai suddenly realized, "In this way, even the Kaijus can't defeat the Winged Dragon!"

"...Have you prepared some countermeasures against the Kaijus?"

The Light of Destruction raised his head and looked directly at the firebird in mid-air that looked like it had been reborn from Nirvana.

"The attack power is 4000, and no card effect can affect it. Indeed, the 'Immortal Phoenix' is stronger than the Winged Dragon.

But it would be naive to think that this level can block our fleet. Battle Phase! "

The Light of Destruction raised its arm again.

"'Kozmo Dark Planet', attack 'The Winged Dragon of Ra – Immortal Phoenix!'"

The Death Star started up again as if the sleeping beast in the starry sky was awakening. Huge energy was input into the terrifying super laser cannon, which locked the position of the Phoenix.

That was a star-destroying blow! Even as a duel monster, under the constraints of the rules of this game, it still had terrifying power that shook the world!

Not to be outdone, the phoenix's armor of flames burned with unprecedented intensity, and the impact of the flames was like burning up the clouds in the sky, and it charged forward with the star-destroying light cannon!

"Both have an attack power of 4000... Will it be a mutual kill!?" Aster said anxiously on the ground.

"Oops, if the phoenix is killed here, then they will have to directly face the attack of the Star Destroying Kaiju..." Misawa said in a panic.

"Mamma Mia! The world is really going to end, nanone!" Professor Chronos bit off another section of the handkerchief.

The Egyptian God in the form of a phoenix and the world-destroying Death Star fought with all their might in the sky. The energy fluctuations of both sides were intertwined with each other and spread to all directions. The energy shook the heaven and the earth!

The college volcano roared restlessly, and the earth shook like an island about to be torn apart. The sea surface was turbulent and the sky was reflected in a golden color.

"Mutual kill? That is not a tepid tactic we would adopt." said The Light of Destruction, "What we want to achieve is the ultimate annihilation. All things will be destroyed in the divine light of destruction, even gods are no exception!"

Activate the Quick-Play Spell 'Concentrating Current'! Target 1 face-up monster I control; it gains ATK equal to its current DEF, until the end of this turn!

I increase the attack power of 'Kozmo Dark Planet' by its defense power, which is 4000 points!"

[Kozmo Dark Planet, ATK 4000 → ATK 8000]

The originally evenly matched confrontation instantly became completely one-sided due to the intervention of magic assistance!

"Oops!" x10086

The hearts of countless people were lifted to their throats in an instant.

If the Winged Dragon is defeated here, it will directly cause 4,000 points of combat damage. In that case, this duel...

"But now that the Eclipser has been defeated, the trap blockade has been lifted." Yuei Vu waved his hand, "Open the set card: Trap Card – Power Wall!"

During damage calculation, when I would take battle damage from an opponent's attacking monster: Send 1 card from the top of my Deck to the GY for every 500 damage (round up) I would take, instead!"

The duel disk had already smartly popped up the cards he needed, and he grabbed them all and pulled them out.

"I'll send eight cards to the graveyard!" Yuei Vu said, "It will offset 4,000 points of battle damage!"

The Winged Dragon was scattered into sparks under the doubled amount of world-destroying light cannons, and its terrifying power continued unabated. But the barrier built by the flying cards stubbornly withstood the terrifying impact, and the bombardment was deafening.

The body of the Winged Dragon was shattered and the flames were dispersed. The scattered flames and the terrifying impact gathered together to form a white light that engulfed the world. When it swept in, it almost paralyzed Yuei Vu's five senses.

And at the moment when the disappearing Winged Dragon entered the GY, he felt a kind of throbbing, and some kind of powerful and restless force impacted his internal organs.

This feeling was not unfamiliar.

That was the power of the three Egyptian Gods that have been sleeping in the GY one after another during this duel.

When he opened his eyes, he saw a white light curtain, filled with white light, but soft and warm, completely different from the violent "Light of Destruction" that was full of destructiveness.

He saw a face with soft, feminine lines, as kind as a god, and seemed to be smiling.

But before he had time to think about what was going on, the light curtain disappeared. He felt dizzy, and then returned to reality.

The Light of Destruction pondered for a moment without speaking.

"...Tough humans." He spoke after more than ten seconds. "In the turn when 'Concentrating Current' is activated, other monsters on my field cannot attack... You barely survived.

Maybe this turn really shouldn't be the end of your destiny. "

He waved his arm: "Set two cards, I end my turn."

Chapter 1003: The Philosopher's Stone

"...my turn."

In fact, Judai's physical strength was a little exhausted by this time, and fatigue came in like a tide.

But he knew he couldn't fall yet.

This was the most powerful enemy he had ever faced in his life and the heaviest responsibility he had ever shouldered, but this was also the first time his teacher had allowed him to fight alongside him.

For Judai, dueling has always been a joy. Even if he was trapped in darkness, even if he faced a life-threatening duel accompanied by pain, he never lost his enthusiasm for enjoying the duel.

This was the first time in his life that he was truly in a duel, and he clearly felt unparalleled pressure and responsibility.

He would never allow himself to become a burden to his teacher.

"Draw!"

Judai's eyes were firm, without any confusion.

Perhaps only a young man like Yuki Judai could withstand so many expectations and carry the weight of the whole world on his shoulders.

As long as Dark Planet was there, any Spell Card will be invalidated. This was very unfriendly to both his Elemental HERO and Neo-Spacian system. It was not an exaggeration to say that most of his combo has been blocked.

Under such circumstances, it was indeed quite difficult to defeat a big monster with 4000 ATK and the resistance to all target effects.

Judai glanced at his hand, not forgetting to check the cards Yuei Vu piled into the graveyard in one go in the last turn, and quickly thought of various possible ways to counterattack in this situation.

Now he has "Elemental HERO Liquid Soldier" in his hand. If he used this effect to resurrect the Blazeman in the cemetery, he could retrieve the "Polymerization" from the deck. This was also a common counterattack routine for his Elemental HERO.

But now as long as Dark Planet is around, fusion cannot be used.

At times like this, it would be nice if there was a powerful hero that could be summoned without a Spell Card, like Aster's Plasma...

Just as he was thinking of this, Judai suddenly noticed that a card in his hand seemed to have some reaction.

It's the "Sabatiel – The Philosopher's Stone" given to him by Daitokuji.

The rules of tag team battles differed from those of battle royal battles. In team battles, if a card such as Card of Sanctity or Card Destruction was activated, only the operating duelist in the same team needed to accept this effect.

That's why Judai's "Philosopher's Stone" was not discarded by Yuei Vu's Card Destruction in the last turn.

Judai picked up the card and looked at it blankly, but saw bursts of golden light flashing from the card. Then he saw helplessly that this Spell Card... whose card surface actually started to rewrite itself!

It was clearly a Spell Card, but it gradually transformed into a monster card. Lines of text emerged, and the card picture also changed accordingly.

In the blink of an eye, the card switched to the "Destiny HERO Plasma" he had just thought about!

[Yuei Vu x Judai, LP 800 → LP 400]

The moment he noticed the change in life points, Yuei Vu realized what had happened.

Sabatiel – The Philosopher's Stone, one of the strongest cards in the GX series. The original only appeared once, when Judai fought against the three Sacred Beasts alone.

According to Daitokuji, this card could only be controlled by the "ultimate alchemist" and was a miracle of alchemy. In the hands of the Ultimate Alchemist, it could transform into any card the holder could imagine, but at the cost of losing half of life points.

This ability could be used up to three times.

Because the three Sacred Beasts were previously dealt with by Yuei Vu alone, this card was saved for Judai. Unexpectedly, it would come in handy at this most critical moment.

The corners of Yuei Vu's mouth raised slightly.

Yuki Judai... is truly my most reliable disciple.

Of course, The Light of Destruction also noticed the change in the opponent's LP, which attracted his attention.

"I summon the 'Elemental HERO Liquid Soldier!'" Judai began the operation.

[Elemental HERO Liquid Soldier, ATK 1400]

"The effect of Liquid Soldier – When this card is Normal Summoned: I can target 1 Level 4 or lower 'HERO' monster in my GY, except 'Elemental HERO Liquid Soldier'; Special Summon it!" Judai said, "I special summon the 'Elemental HERO Blazeman!'"

[Elemental HERO Blazeman, DEF 1800]

"The effect of Blazeman – If this card is Normal or Special Summoned: I can add 1 'Polymerization' from my Deck to my hand."

"But even so, as long as the 'Kozmo Dark Planet' is around, you won't be able to perform a fusion summon."

"I know!" Judai said, "Yuei Vu-sensei, lend me your power again! I activate the effect of 'Destiny HERO Malicious' that Yuei Vu-sensei sent to the graveyard last turn!

Remove the Malicious from the game and special summon a card with the same name from the deck! "

[Destiny HERO Malicious, DEF 800]

"No matter how many miscellaneous fish you summon, it's useless." Light of Destruction said, "No matter how many heroes are summoned, you can't fuse..."

"Yes, but I can summon this guy!"

Judai raised the card in his hand.

Aster! Lend me your strength!

"I offer 'Elemental HERO Liquid Soldier', 'Elemental HERO Blazeman', and 'Destiny Hero Malicious' as sacrifices!

The power of destruction brings about the end of the fate of all things, turning into the ultimate hero and coming——

——Destiny HERO Plasma! ! ! "

"Nani!?"

When they saw the dark hero rising from the bloody mud and spreading out his wide and terrifying bone wings, people who were familiar with Yuki Judai almost exclaimed at the same time.

Especially Aster.

"This guy Judai...when did he have my Plasma!?" He was shocked, "Did Yuei Vu-sensei give it to him?"

Plasma appeared on the stage, raised his head, and roared wildly, and the bloody field erupted, covering the entire field of The Light of Destruction in an instant!

Even the huge Death Star couldn't escape the territory of Plasma. Several engines stalled and there was an explosion like a short circuit inside.

[Destiny HERO Plasma, ATK 1900]

"When Plasma is on the field, all monster effects on the opponent's field are negated!" Judai said, "This way my Spell Cards can be used!

So I set a card on the field and activated the Spell Card 'Card of Demise' from my hand! I can draw cards until I have 5 cards in my hand. During my 5th Standby Phase after activation, send all cards in my hand to the Graveyard. "

After looking at the drawn cards, he then revealed one of them: "Spell Card 'Foolish Burial' sends a monster card from the deck to the graveyard.

I send the 'Elemental HERO Neos' to the graveyard again! "

Judai followed up with a big wave of his hand.

"Furthermore, Plasma can absorb a monster on the opponent's field as equipment once per turn!"

"Beautiful!" Aster clenched his fists, "Dark Planet cannot be the target of card effects, but if it is negated by Plasma's ability..."

At this moment, Aster's pride arose spontaneously.

Although I don't know why Judai has Plasma, but he won with my monster!

Sure enough, my Destiny HERO is the strongest!

However.....

"Open the set card: Counter Trap – Divine Wrath!" The Light of Destruction revealed a backfield card, "When a monster effect is activated: Discard 1 card; negate the activation and destroy that monster.

Although it is a very powerful monster, it is better to withdraw from the game. "

The thunder came down and hit the body of Plasma. The hero trembled violently, groaned miserably, and was blown to pieces in the white light of thunder.

Judai: "Ah, Plasma was..."

"I don't know what you intend to do, but it's useless." Light of Destruction said, "The outcome of this duel and the fate of this world have already been decided.

You think you are resisting according to your own consciousness, but no one can resist fate or the will of the universe..."

Judai ignored the other party.

He once again took out the "Sabatiel – The Philosopher's Stone" in his hand.

That's right, after using it just now, this card did not disappear but still stayed in his hand.

It was equivalent to conjuring a "Destiny HERO Plasma" out of thin air.

But since this card has not disappeared, that means this ability...maybe it can still be used?

Chapter 1004: It's Not My Turn

Maybe the power of this Philosopher's Stone has not disappeared and can still be used?!

Judai's duels have always been arbitrary. There was no careful calculation and no pursuit of the most perfect results. He often played unconstrainedly and did whatever came to mind.

For example, at this moment, when he looked at the high-attack monster with multiple resistances on the opponent's field, he suddenly had an idea and thought of a way to get past this layer of defense.

Of course, he didn't forget that all Spell Cards were unusable now.

So if I want to summon a high-attack monster without relying on Spell Cards...

Just when he thought of this, the card in his hand flashed with golden light again and changed its pattern.

[Yuei Vu x Judai, LP 400 → LP 200]

The Light of Destruction remained silent but still paid attention secretly.

The LP value has been halved again? What happened this time?

"I set three cards on the field." Judai shouted, "Then due to the effect of the Field Spell 'Temple of the Kings', trap cards can be activated during the turn they were Set!

First, I activate the Trap Card 'Reckless Greed'. Draw 2 cards and skip the next 2 Draw Phases.

Then I activate the Trap Card 'Gift of The Mystical Elf'! Gain 300 LP for each monster on the field! "

[Yuei Vu x Judai, LP 200 → LP 800]

"Finally, I activate the Continuous Trap 'Ultimate Offering'!" Judai said, "Pay 500 LP and get an additional chance of Normal Summon/Set!"

[Yuei Vu x Judai, LP 800 → LP 300]

"I pay 500 LP to normal summon 'Neo Space Connector' from my hand!"

[Neo Space Connector, ATK 800]

"The effect of Neo Space Connector! When this card is Normal Summoned: I can Special Summon 1 'Neo-Spacian' monster or 1 'Elemental HERO Neos' from my hand or Deck in Defense Position."

Judai drew a card that popped up in the deck.

"I special summon 'Neo-Spacian Glow Moss'!"

[Neo-Spacian Glow Moss, DEF 900]

"Neo Space Connector's subsequent effect!" Judai said, "Tribute this card, then target 1 'Neo-Spacian' monster or 1 'Elemental HERO Neos' in my GY; Special Summon it in Defense Position!

I Special Summoned the 'Elemental HERO Neos' in the GY! "

A black vortex opened on the ground, and the silver-white hero rose into the sky along the beam of light.

[Elemental HERO Neos, DEF 2000]

"Very good, just keep going like this!" Judai raised his fist, "Return 'Elemental HERO Neos' and 'Neo-Spacian Glow Moss' on the field to the deck!

Contact Fusion! Borrow the power of light...

Elemental HERO Glow Neos! ! ! "

After gaining the power of light, Neos's whole body shines with brilliance, like a transparent stream of light swirling around his body.

[Elemental HERO Glow Neos, ATK 2500]

"This Neos... so your tactic turns out to be like this."

As Neos's old enemy, the Light of Destruction seemed to recognize this form.

"Glow Neos' effect – Once per turn, during my Main Phase 1: I can target 1 face-up card the opponent controls; destroy that target and obtain the corresponding effect.

If a Monster Card is destroyed, this card cannot attack this turn.

If a Trap Card is destroyed, change this card to Defense Position.

But if it is a Spell Card that is destroyed, Glow Neos can attack directly this turn!"

The Light of Destruction glanced at his own back row.

"By destroying the Continuous Spell 'Supply Squad', Glow Neos will gain the ability to attack me directly. In this way, no matter what kind of defense there is, I will lose."

"So that's it! There is still this move!" Some people started to gasp, "If you can attack directly, no matter how strong the monster is, it won't be able to defend its master!"

"Can he still find such a beautiful reversal against such huge resistance?"

"What a great boy!"

"Beautiful!" Even Manjoume began to cheer for Judai without realizing it, "If we use the 'Glow Neos' to attack directly, it will be over immediately!"

The move that reversed the situation again was also a blow that carried the expectations of the entire planet!

Everyone held their breath and stared straight at Glow Neos's glorious back like prisoners on trial anxiously waiting for the verdict.

"You can actually do this. As an opponent, let me express my admiration."

The Light of Destruction paused for a moment.

"But I said, your fate has been decided a long time ago. What you are trying to fight against is the will of the universe itself." He waved his hand, "Open the set card: Continuous Trap – Oasis of Dragon Souls!

Special Summon 1 monster in my graveyard in Defense Position, and it becomes Wurm-Type! "

A card popped out of his graveyard, and a dark vortex opened on the ground.

The Light of Destruction said coldly: "I resurrected the 'Kozmo Dark Destroyer'!"

"Ah!?" Judai was shocked, "Resurrecting the Dark Destroyer at this juncture..."

The sharp-edged warship rose from the black whirlpool, and its blue tail flame was like an icy will-o'-the-wisp!

[Kozmo Dark Destroyer, DEF 1800]

"The effect of Dark Destroyer." Light of Destruction said dryly, "When this card is Normal or Special Summoned, a monster on the field is destroyed."

He slowly raised his right hand and clenched it into a fist.

"Disappear, Neos."

Boom!

Glow Neos didn't have time to activate his ability, and his body was penetrated and torn apart by the laser cannon with a groan of "Uh ah ah" and exploded.

What seemed to disappear along with it was the spark of hope that had just been ignited in everyone's hearts.

"How come he can even defend against this move?"

What is more cruel than despair is the despair after hope has been extinguished.

"Then open the set card: Trap Card – High Speed Aria!" Judai had no choice but to activate the final set card, "Send 1 Spell Card from my hand to the Graveyard; this card's effect becomes that Spell Card's effect when that card is activated.

The Spell Card I discarded was 'Reverse of Neos'. When a face-up 'Neos' Fusion Monster I control is destroyed, Special Summon 1 'Elemental HERO Neos' from my Deck in Attack Position!"

In the dissipated flames, the beam of light erupted like a waterfall again, and Neos flew out from it, crossed his arms and landed again.

"The attack power of the 'Elemental HERO Neos' Special Summoned by this effect increases by 1000 points, but it must be destroyed at the end of the turn."

[Elemental HERO Neos, ATK 2500 → ATK 3500]

The Light of Destruction calmly looked at Neos who appeared again.

"I see, by activating the effect of the Spell Card through a Trap Card, you can avoid the fate of being negated by the 'Dark Planet'.

It is indeed a beautiful method, but it seems that this is your limit. "

The Light of Destruction said calmly.

"But if the attack power is 3500, it can only cause me 200 damage at most and then it will self-destruct at the End Phase.

In the next turn, you will face a beautiful ending with an empty field.

Like I said, you try your best, you resist just like countless civilizations before you have done, but the result is in vain.

Because this is the fate of all things in the world..."

"Bullsh\*t!"

A loud shout, amplified by a loudspeaker, sounded in the air, reverberating like thunder throughout the sky.

Everyone's eyes were attracted.

A silver-white jet that had broken into the battle at some point. It had silver-white wings and a dragon body, like a steel white dragon made of alloy.

That's President Seto Kaiba's "Blue Eyes White Dragon" jet!

The high-tech jet slowly rose from below. Seto Kaiba stood outside the open cabin with his arms crossed and an extremely show-off pose, his windbreaker flying against the rapids.

"Destiny? Stop making me laugh so hard!" Kaiba sneered, "Yuei↑ Vu↓! You are not a duelist who will be defeated by such boring things, show me some demeanor as a Duel King!"

Yuei Vu: "..."

President, even if you say so, it's not my turn now.

Chapter 1005: Light of Creation

"The legendary duelist, Seto Kaiba?" The Light of Destruction glanced sideways at Kaiba.

Kaiba looked contemptuously at this humanoid whose body was made entirely of white light, and sneered: "Destiny? That kind of thing may exist. But even if it exists, it must obey me!"

A truly strong person will take control of his future with his own hands, and even his destiny can be shaped into the shape he needs! "

"Even the legendary duelists in this world are just frogs in the well." The light of destruction said, "After all, they are only human beings and cannot understand the laws and will of the universe.

But there is no room for you in this universe. The creation of chaos and the birth of life were all completely wrong from the beginning.

This is why we, 'The Light of Destruction', exist. We are created by the universe itself to correct these wrongs. "

"Maybe." Yuei Vu shrugged, "Maybe you are right, I have heard too many similar words like this."

Indeed, what The Light of Destruction said was indeed in line with the main line of the entire "Yu-Gi-Oh!" series. Almost all villains and all bosses have predicted that the fate is unshakable and the future is doomed to destruction.

But at the same time, these wavers also proved that they were wrong about just one thing.

That's the duel itself.

"Maybe in your opinion, 'Duel' is just a tool to prove destiny, but that only proves your superficiality." Yuei Vu said, "Because in this world, 'Duel' is the only thing that anyone and any existence can do, yet it is impossible to be truly seen through.

Nothing can predict or limit the direction of the duel, not even the will of the universe. "

"That's right!" Judai became excited as soon as he said this. "The biggest charm of duels is that the future is always uncertain! As President Kaiba said, maybe there is such a thing as fate.

But I feel that even fate can be changed by dueling! Isn't this the most interesting part of dueling? "

President Kaiba narrowed his eyes and looked at the jellyfish head.

These words were quite to his liking. Coupled with the fact that the jellyfish head has outstanding talent and plays cards well, the president almost started to like him.

*It's a pity, after all, he is still a student of the hateful Yuei↑ Vu↓.*

"Sensei, you told me that dueling is not only fun, but sometimes it may also require a lot of things and responsibilities that only come with being a duelist.

Now, I seem to finally be able to understand it a little bit. "

Judai looked down at his palms and clenched his fists.

"The opponent this time is strong, very strong. I don't know if I can handle him. What's more important is that if I lose here, then my companions, my family, and thousands of others will suffer. Billions of people must bear the consequences of my loss, right?"

Yuei Vu raised his eyebrows.

*Um? This carefree child actually became enlightened in advance?*

Yubel looked at Judai silently from behind and said nothing.

"Now I seem to understand a little bit what you mean. Sensei, you have been carrying these battles until now, right?"

But even so, you never gave up your love for duels. Even in the most difficult dilemma, you never gave up hope and could always find a way to fight back. "

Judai raised his head and smiled.

"And I am the man who would be the Duel King! In the future, I want to become as powerful and reliable as Yuei Vu-sensei. How can I shrink away because of this little pressure?"

Kaiba stood on the plane nearby and tilted his mouth.

"While accepting the responsibilities of a duel, can he still enjoy the duel itself under such circumstances?"

The president once again silently affirmed the jellyfish head from the bottom of his heart.

*That Yuki Judai kid is not bad.*

*He has the same demeanor as I did back then.*

In an instant, Yuei Vu felt that the energy surging in his body seemed to expand to the extreme.

It was as if a certain being could no longer hold back and break free. He felt that he briefly lost control of his arm, and the Duel Disk he wore on his hand seemed to be pulled by a magnet and moved uncontrollably into the air.

The red, blue, and gold light pillars soared into the sky and converged into one place. The white light curtain poured out, and the domain expanded rapidly, and everything in the world seemed to disappear within it.

Pure and extreme white light, so soft that it seems to embrace all things.

The Light of Destruction, which had remained calm throughout, finally seemed a little shocked.

"Is this... light!?"

The light curtain came and went quickly, disappearing in the blink of an eye.

The duel arena reappeared. The three monsters on the other side of the Light of Destruction were still standing there, and the duel continued.

After a brief moment of shock, The Light of Destruction quickly dismissed a terrible thought that came from the bottom of his heart.

*No, impossible.*

*"That one" has disappeared for long.*

*Even if she hasn't disappeared yet, there is absolutely no reason for her to be here.*

But Yuei Vu, who had the system, was now extremely confident.

It was unmistakable, that power came from the origin of the Three Egyptian Gods, the incarnation of the ultimate power of light in the world, and the great being that Zorc mistakenly recognized him as his spokesperson.

Holactie the Creator God of Light.

The reason why he was so sure was because there was a new option in the skill interface that he had not touched for a long time.

[Duel Skill: Light of Creation]

[Skill description: This skill can only be unlocked in a team duel with Yuki Judai. It can only be activated if your LP is below 1000. When there are 3 monsters whose original names are "Osiris the Sky Dragon", "Obelisk the Tormentor", and "The Winged Dragon of Ra" in your Graveyard, add 1 DIVINE Fusion Monster to the Extra Deck.]

The light curtain that encompassed all things just now was exactly the effect of this skill being activated.

But maybe it was because this was Judai's turn, or maybe because Holactie took a fancy to this jellyfish head. Anyway, that card was stuffed into Judai's Extra Deck.

Judai couldn't help but feel a little dazed when he saw this newly printed card with gorgeous light effects and warm heat.

"This card..."

He looked at Yuei Vu-sensei in confusion, only to see his teacher nodding affirmatively at him.

Judai took a deep breath.

He closed his eyes lightly and used up the last effect of "Sabatiel – The Philosopher's Stone".

[Yuei Vu x Judai, LP 300 → LP 150]

The Philosopher's Stone turned into a trap, a shining trap surrounded by golden light.

"Set a card onto the field." Judai shouted, "Then according to the effect of 'Temple of the Kings', trap cards can be activated during the turn they were Set!

So I activate the Trap Card 'Hope for the Future!' ” (animation card)

This was a trap that originally appeared in the final BOSS battle of GX. What was summoned through this card was the miraculous Elemental HERO who defeated Nightshroud and saved everyone on the earth from falling into an infinite illusion!

"When there is an 'Elemental HERO Neos' on my field, by discarding 1 'Polymerization', I can send, from my Deck to the Graveyard, as many Fusion Material Monsters listed on a 'Neos' Fusion Monster Card in my Extra Deck as possible!"

Judai pulled out a lot of cards from the deck in one breath.

"I will send all the remaining 'Neo-Spacian' monsters in my deck to the graveyard!"

Then he showed the new card he had just obtained, and the shining light covered the entire card surface.

"This card can only be Special Summoned from my Extra Deck by returning 1 'Elemental Hero Neos' you control and 6 'Neo-Spacian' monsters with different names from my side of the field or Graveyard to the Deck!

I return 'Elemental HERO Neos' on the field, and the 'Neo-Spacian Air Hummingbird', 'Neo-Spacian Water Aqua Dolphin', 'Neo-Spacian Flare Scarab', and 'Neo-Spacian Grand Mole', 'Neo-Spacian Glow Moss', 'Neo-Spacian Dark Panther' from my GY to the deck!

Ultimate Contact Fusion! ! ! "

"Sevenfold Contact Fusion!?"

Everyone who saw this scene stared wide-eyed.

*There are also monsters that can be fused with seven material monsters!?*

Neos, as well as the six colorful Neo-Spacians, all appeared together, and each of them turned into energy light groups and gathered into the core of Neos' chest.

The sacred colorful stream of light enveloped Neos' entire body, and the rippling colored light converged into one place and turned into a pillar of incandescent light reaching into the sky!

What a divine radiance that is! Powerful yet warm and radiant, the image transformed by the light stands between heaven and earth, as if it is integrated with the world.

It's as if the world itself was derived from that light.

Elemental HERO Divine Neos was summoned!

[Elemental HERO Divine Neos, ATK 3000]

Although the name contained the word "divine", originally, whether it was animation or real-life version, Divine Neos' attribute was LIGHT.

However, the "Divine Neos" summoned by Judai here had DIVINE attribute. Yuei Vu speculated that this might be the back door opened by the big shot Holactie.

And the effect of this Neos seemed to be different from the animated or real card version in Yuei Vu's memory.

"Elemental HERO Divine Neos' effect is activated!" Judai shouted, "Banish 1 'Neos', 'Neo Space', 'Neo-Spacian', or 'HERO' monster from my Graveyard; this card gains 500 ATK!"

I banished all the 'Neos', 'Neo Space', 'Neo-Spacian', and 'HERO' monsters in my graveyard, and each one increased its attack power by 500 points! "

All the heroes in the GY so far have emerged one by one, turning into golden rays and flying into the body of "Divine Neos". With each beam of light entering, the brilliance around Divine Neos has become more brilliant, as if it was dispelling the haze that hung over the entire planet.

The total number was as many as seventeen!

[Elemental HERO Divine Neos, ATK 3000 → ATK 11500]

"Attack power 11,500!?" Countless spectators exclaimed.

"That's it." Yuei Vu understood.

The "Divine Neos" who was buffed by Holactie not only received the DIVINE attribute, but his effect seemed to be stronger than in the original work.

This effect was actually closer to the real card effect than the animation effect, except that the "once per turn" restriction was deleted.

"Furthermore, Divine Neos also gains the banished monster's effects until the End Phase! The first is the ability of 'Destiny HERO Plasma', which negates the effects of all monsters on the opponent's field!"

The field of light expanded, sweeping across the entire field like an irresistible transparent wave. All the monsters on The Light of Destruction's side seemed to be dimmed, and their power was suppressed.

Even The Light of Destruction itself seemed to be suppressed in this field of light. The body composed of light particles began to flicker and disappear, and it seemed a little difficult to maintain.

"And if the effect of 'Dark Planet' is negated, Spell Cards can now be used!"

Judai showed "The Philosopher's Stone" in his hand.

As Daitokuji said in the anime, after the alchemist's three wishes were granted, the Philosopher's Stone would release its true power.

"The final effect of 'Sabatiel – The Philosopher's Stone' is activated!" Judai said, "Select 1 face-up monster on the field, and multiply its ATK by the number of monsters the opponent controls! I choose 'Elemental HERO Divine Neos'!"

There are three monsters on your field, so the attack power of 'Divine Neos' is tripled! "

[Elemental HERO Divine Neos, ATK 11500 → ATK 34500]

"Is the attack power thirty-four thousand five hundred?"

The Light of Destruction looked up at the Ultimate Neos who was getting bigger and bigger, and his eyes gradually became blurred.

Now he was convinced.

*There is no mistake, this is the power of "that being".*

*But why?*

*Could it be that the fate of the universe is not as we predicted?*

"Next is the effect absorbed from 'Glow Neos'. Once per turn, I can target 1 face-up card the opponent controls; destroy that target, and obtain the corresponding effect.

I destroyed the Continuous Spell 'Supply Squad', and Divine Neos gained the ability to attack directly! "

The Continuous Spell was destroyed, and Judai smiled at the same time: "Of course, it doesn't matter that much now."

Light of Destruction: "..."

"The fate has not yet been decided. The duel is like this, and the future of mankind is like this!" Judai shouted, "Our future, whether it is light or destruction, will be controlled by our own hands!

Go for it, Divine Neos! Direct attack! ! ! "

Divine Neos crossed his arms and spread them out laterally. Colorful lights shone on his chest, seven-color light pillars flying out from the blue and clear energy core, overwhelming the sky and sweeping toward The Light of Destruction, just like the creation of all things.

"Are we really wrong?" The Light of Destruction muttered to himself.

**【The Light of Destruction, LP 2000 →LP 0】**

Chapter 1006: Let's Talk

**【The Light of Destruction, LP 0】**

The body made of light was fragmented, like a lonely boat being rolled up high in the storm. He was engulfed in the light of Divine Neos, wrapped in the whirling beam of light, and launched diagonally downward all the way to somewhere on the island.

With an explosion-like roar, he fell downward like a falling meteorite and landed on the Duel Academy Island. The entire island seemed to sink, and the waves along the coast rolled up.

We won.

The moment they came back to their senses, the whole world burst into cheers.

We won!

This was the first battle in the history of the earth against alien invaders, a defense war with the theme of "Dueling Monsters".

Although the enemy was unprecedentedly powerful and the process was extremely tortuous, they won!

The greatest guardian of this planet ruthlessly defeated the invading enemies and successfully defended this blue planet!

Some people hugged each other, some rushed to tell each other, and even more people admired the hero who won the duel.

Needless to say, Yuei Vu's already famous name was even more dazzling this time. In the eyes of many people, he has almost been mythicized and has become synonymous with invincibility.

In contrast, the one who would be more affected in the future would probably be Judai.

Judai's most public appearance so far was when he won the first KC Cup when he was a child. However, because his name has not been in the public eye for so many years, he has basically been forgotten now.

But after today, there was no doubt that he would become popular.

Within a day, his name would become a celebrity's name. Wireless signals and fiber optics would spread this name around the world, and the whole world would know that it was this young man named "Yuki Judai" who stepped forward at the critical moment and fought off the strong men from outside the world.

And he even delivered the final blow!

But in this case, after today, Yuei Vu no longer needed to hide the fact that Judai was his apprentice.

Originally, he didn't hope that this title would put unnecessary burdens on Judai's academy life, but now that Judai has earned a more shining name with his own strength, there was no need to hide this relationship.

Like it or not, after today he would be a shining star in the world. Maybe tomorrow reporters from all over the world would swarm in and people would elevate him to the top of the dueling world.

Of course, Judai-san himself obviously couldn't have thought that far ahead.

At the end of the duel, Judai once again pulled out "The Philosopher's Stone" from the Duel Disk, an alchemical artifact that brought miracles.

But at this time, the card had lost its luster and dimmed, and then it was petrified, turning into powder and dissipating in the wind.

"Ah." Judai was startled, "The card given to me by Daitokuji-sensei..."

"The power must be exhausted." Yubel said, "Things like 'The Philosopher's Stone' that go against common sense should not exist in the first place, and releasing its power once should be its limit.

But its mission has almost been completed here. "

"oh oh."

Judai nodded confusedly, thinking that it would be a pity to lose such a useful card after using it once...

At this time, Yuei Vu had already chased the direction in which The Light of Destruction fell.

After being defeated, the alien crashed onto the island, immediately causing a sensation in the Duel Academy.

The shelter has not yet been opened, and ordinary students cannot come out, but the duelists who just fought on the island have begun to rush towards the crash point.

However, their movements are not as fast as those of the players.

Even before The Light of Destruction touched the ground, the players were already running after the trajectory in the sky, as if they were rushing to reincarnate, for fear of falling behind.

That's a super BOSS!

Whether it was "Kaiju" or "Kozmo", they are super powerful series that do not belong to this entire era, and their terrifying strength was witnessed by everyone in the duel just now.

...Yuei Vu-san will definitely like it!

Miss Yuehua was running around among the crowd, but she didn't forget to continue the live broadcast.

Although this card game could be watched live everywhere in World Link Online, there were still some netizens who were not online or did not even have accounts but wanted to follow this card game, so people who came in and out of Miss Yuehua's live broadcast room today were still quite a few.

At this time, all the online viewers were in an extremely excited state.

"Judai is so handsome!"

"Call Judai like crazy!"

"He's almost as handsome as Yuei Vu-san!"

"I'm going to lose my mind..."

"..."

At the same time, many people were frantically urging Miss Yuehua, saying that she must run faster, otherwise their equipment would be picked up by others...

The Light of Destruction fell into the dense forest of the island and lay motionless on its back.

In his current state, he has tried his best to keep himself from dissipating. The energy that made up this body has almost fallen apart under the blow of Divine Neos, and he was completely unable to move.

He lay on his back and stared at the sky above, which was so clear that it seemed transparent.

"Has fate... been shaken? No, or... has it been this way from the beginning?"

The figure that had just given him the fatal blow could not help but reappear in his mind. The dazzling light that surrounded his whole body was like the holy light conceived by all things.

Although that was also light, it was completely opposite to him who represented "destruction".

"Did we make a mistake from the beginning..."

Just as he was thinking about it, a burst of chirping noise suddenly came from the side.

He reluctantly turned his head and saw a large group of strange humans running towards this side, chasing each other, just like a long-distance running event at a kindergarten sports meeting.

He saw the leader rushing to his side and squatting down, grabbing his deck without any explanation: "I am number one!"

"F\*ck you! Everyone has seen that I am number one!" Almost at the same time, another person started to grab his deck.

Then someone else gathered around. A large number of idiots swarmed up, hugging the duel disk, and pulling out the deck. They were noisy and cursed while grabbing the duel disk, and it was so lively.

The Light of Destruction: "..."

I haven't died yet, can you please respect me?

"Yuei Vu-san is here!"

Someone shouted, and a large group of screwballs quickly retreated, jumping to the side one by one and standing at attention.

Someone immediately came forward with a smile on his face and handed the cards he had just pulled out to Yuei Vu.

Not to mention trading to crystals, it would also be good to gain some favorability.

Yuei Vu rolled his eyes at them.

Good guys, you pick up equipment from the corpses of the monsters I fight, and you want to use them to get benefits from me after you finish the job?

How can such a good thing happen in the world?

Accepting the cards handed over by the screwballs, Yuei Vu strode towards the light of destruction.

After being defeated, The Light of Destruction knew that it was all over and could only watch Yuei Vu walking towards him calmly.

Thinking on the bright side, at least the Duel King appears, and these idiots don't seem to dare to do such shameless things as pulling out decks in front of him...

Just as he thought that, he saw Yuei Vu leaning down... and pulling out the entire Duel Disk.

The Light of Destruction: "..."

Yuei Vu conveniently threw the Duel Disk he had pulled out back, and Miss Yuehua, who appeared there without knowing it, quickly took the Duel Disk thrown by Yuei Vu-san into her arms.

While holding the Duel Disk tightly, she proudly raised her little tablet towards the screwballs around her.

Hey, did you see that?

This is the bond between Yuei Vu-san and I!

And it attracted envious looks from around her.

"Okay." Yuei Vu lowered his head and looked at The Light of Destruction, "Let's talk."

Chapter 1007: Wait For Me!

The body of the Light of Destruction is still flickering and extinguishing, and it seems that it may dissipate at any time.

At that time, Judai also arrived. Neos took him to a smooth landing slightly behind Yuei Vu.

He followed Yuei Vu, craning his neck to look at the half-dead invader lying on the ground.

Hmm, the Duel Disk is gone. As expected of Yuei Vu-sensei, he is quick with his hand.

"I lost." said The Light of Destruction. "I have never encountered such a failure in any galaxy. Maybe Earth is indeed different, and my prediction is indeed wrong.

The will of the universe is unpredictable, and sometimes small probability events that are beyond my prediction are not impossible..."

"That's not what you said in the duel just now." Yuei Vu shrugged.

"...Then I was wrong." The Light of Destruction said, "Just as the universe occasionally has small probability events that jump out of the fateful path, I will also make mistakes in rare cases."

Even though he seemed to be hanging on with only one breath left, his tone remained calm, as if it was not him but someone else who had failed miserably, and he was just a bystander.

The Light of Destruction pondered for a moment then lay in the pit and turned his head to look at Yuei Vu with difficulty. After a while, his eyes turned to Judai.

"For a moment, you really made me think that fate had taken a turn. You summoned a miracle beyond my imagination, some kind of supreme power that should have long since ceased to exist.

I once thought that my understanding of the will of the universe was deviated, but now looking at you and observing your future again, I find that I was not wrong.

The fate has not changed. All things in the universe are still being carried forward in the irresistible torrent towards a ruined future, and everything will still be reduced to nothingness. "

These were things Judai was not willing to listen to. He was about to his mouth to refute, but Yuei Vu raised his hand to stop him.

"Maybe you won't believe it," Yuei Vu said, "but I think you might be right."

Judai looked at his teacher in surprise.

"Oh?" The Light of Destruction was also a little surprised, "As a human being, can you actually see the future determined by the will of the universe?"

"Because more than one person has made similar predictions to me, and they...let's put it this way, everyone's words are very weighty." Yuei Vu said.

This was the truth. The thousand-year-old king Dartz, the great evil god of darkness Zorc, and the last human being in the world Z-ONE, any of them was a big shot.

The Light of Destruction: "If you know, then why..."

"Because I don't care." Yuei Vu said, "As we just showed in the duel, the only thing that cannot be determined by fate is the duel itself.

If the future is destined to be a broken destiny, then we will crush that destiny in a duel. "

"..."

The Light of Destruction was briefly silent.

"Do you think you can do it?"

"Of course!" Judai shook his fist, "No one knows what will happen until the end of the duel, and the same goes for fate! The future can be changed!"

The Light of Destruction looked at the jellyfish-headed boy again.

The sharp gaze penetrated him, as if penetrating the veil of fate, and saw the future trajectory of this young man.

He saw a dark and lightless world, with a dark dome covering the barren and empty land. There seemed to be no breath of living people between heaven and earth.

The young man was wearing heavy black armor and a heavy helmet, and his cloak was flying like a flag.

He stood on top of the rugged and ghostly castle, overlooking the entire world from a high position. His empty golden eyes seemed to be burning with golden flames. His eyes were cold and violent but seemed to be filled with sadness.

Like a general who has conquered all directions and is invincible, suddenly looking back, he was alone, with only mountains of bones beside him.

The Light of Destruction withdrew its gaze.

"Destiny...is not that easy to shake." He said.

"Maybe, but even if we fail, at least we will fail in our efforts." Yuei Vu said, "You are wrong to say that the universe determines the existence of life. Whether it is true or not does not matter to us.

Life has no meaning, it is we who give it meaning.

Whether the future is darkness or light, hope or destruction, it is up to us to decide. "

"..."

The Light of Destruction seemed to be thinking for a moment.

"I see what you mean," he said. "Well, good luck to this planet—and to you who live on it."

After saying this, he seemed to have finally exhausted the last bit of strength to maintain his physical existence.

The body made of light suddenly collapsed and cracked, splitting into countless golden light spots, and finally dissipated.

President Kaiba listened to the conversation from a distance and felt very satisfied.

This is indeed the man I recognize, Yuei↑ Vu↓!

To be honest, after watching this game, the president was now boiling with blood and thirst, and every card-playing cell in his body was restless. He couldn't help but want to catch Yuei Vu playing cards on the spot.

But he also knew that Yuei Vu must be very weak after just playing such a life-betting game, and his mental state was not good and he was not at his peak.

Yuei Vu in this state could not satisfy him at all!

“Brother?” Mokuba asked quietly from behind.

Kaiba swung his windbreaker and turned his head.

“It’s okay here, let’s go.”

As he walked, the president clenched his fists.

Although Yuei Vu was unable to satisfy him now, the president's card addiction has been aroused. It was so intense that he had to find a way to alleviate it.

Go back and abuse Yuei Vu AI Bot?

No, this was no longer the level that a mere AI Bot could help him relieve. The president had to find someone who could fight him...preferably someone whom he couldn't win against.

It would be better if the game could make his card addiction disappear immediately, or even make him not want to touch the Duel Disk again within the course of treatment.

Then there seemed to be only one answer——

——Wait for me, Yu ↑ gi ↓!

I will come to you to settle our matter!

...

It has been a while since The Light of Destruction fell and disappeared completely. Other teachers and students on the island who got the news also swarmed over, and the grove was filled with excitement for a while.

Yuei Vu and Judai have undoubtedly become the focus of everyone's attention.

The true hero!

Stand up bravely in the face of the unknown invader, and perfectly defeat the opponent in the eyes of the whole world. At this time, in the eyes of teachers and students of the school... no, in the eyes of the whole world, they were heroes!

"Judai!"

“Aniki!”

The three friends from school who were on Judai's side were at the front of the queue.

"Sho! Asuka! Everyone!" Judai waved his hands vigorously.

A passerby named Misawa: So I am "everyone"?

Judai smiled happily and stepped forward to greet him enthusiastically. Unexpectedly, as soon as he took two steps, his legs and feet suddenly went weak, his vision went dark, and then the world began to spin, and he fell headlong.

Chapter 1008: GX Champion

After this fierce death match, Academy Hero Yuki Judai suddenly fainted and was immediately sent to the school hospital for treatment.

Fortunately, after Chika-chan went to check, she found that he was fine... at least he was in good health.

If there was any problem, it must be a mental injury.

Even if Judai was the reincarnation of the Supreme King and had extraordinary talents, he was still a child after all.

This top-level life-betting card was indeed a little early for him. Although he won, the mental loss was definitely unavoidable.

But at least they won this game, so generally speaking, it wouldn't be a big deal.

The Shadow Game was like this. As long as you won, the mental damage would be recovered after a few days of rest. Only the loser would fall into the abyss of eternal destruction.

After confirming that Judai was fine, Chika immediately turned to Yuei Vu who was guarding Judai's bedside: "You must have been injured a lot after the duel just now, right? Let me check you out too!"

Yuei Vu shook his head and said no. After all, unlike Judai who had only played a few life-betting games when he was just starting out, he could already be said to have experienced hundreds of battles. Although he was very tired from this game, he was not likely to be injured.

But Chika didn't listen and held his arm in her arms and insisted on checking.

Let me heal you a bit, just a bit!

At that time, she decided to study medicine because she considered that such a time might come.

She knew that with Yuei Vu's strength and identity, he often had to face some very dangerous card games, and there may be very powerful enemies that he needed to defeat.

Card playing was a high-risk occupation where injuries were frequent, and it was impossible not to have a healer behind you.

She studied hard these years and entered Duel Academy as a health teacher after graduation. Why? Isn't it just to give him a little help at the critical moment?

However, Yuei Vu insisted on evading that there were still many follow-up matters that needed to be dealt with, so Chika gave up for the time being.

However, she was still mumbling "Even if you won't let me check it out, it would be the same if I checked you when you get home at night"...

Yuei Vu: "..."

In the past two days since the alien invasion, all investigations and clean-up work have been almost completed, and the GX competition, which was temporarily suspended due to the accident, was immediately resumed.

Just after this round of alien catastrophe, the atmosphere of the competition has changed slightly.

The professional players who were originally high-spirited and aiming for the championship, had their momentum somewhat dampened after the battle with the aliens.

After watching the battle of the century between Yuei Vu, Judai, and the interstellar fleet commander, many people suddenly realized that they were like frogs in the well before, guarding the only blue sky, thinking they had seen the whole world.....

If I were in a duel of that level, I would probably be torn into pieces within two turns at most, right?

The strength of the alien powerhouse was obvious to all, and the Duel King Yuei Vu has been famous for a long time. However, the student named Yuki Judai made it difficult for the professional masters to let go.

The small duel academy has such a monster-level genius!

Judging from this performance, this guy is at least a world champion... No, at least he has to be a legendary duelist, right?

And it's a serious legend! There is a huge difference from some stinky fish and rotten shrimps who got into this category just because "I was beaten by Muto Yugi"!

However, what was interesting was that this superstar who saved the world and was the center of attention was absent from the GX competition at the climax of the competition.

Because Judai was seriously injured in the battle with The Light of Destruction and had to rest in bed.

Although he himself was extremely desperate when he heard that he "cannot play cards for a whole week", trying to sneak out of the hospital bed to play cards secretly more than once, Judai couldn't find any chance to run away. Because Chika-sensei from the health room stayed by the bed almost all day long...

This news came out and immediately caused direct changes in the pattern of the GX competition.

The first person who heard about it was Aster Phoenix – when Judai was bedridden, he would run to the health room every two days, and he would always "drop by" for some inexplicable reason.

As Judai gave up and stopped participating, Aster seemed to suddenly feel that this competition was boring and there was nothing to start with.

His secretary was also very sensible. She stood up at the right time, and while writing something on the schedule, she suggested: "The schedule may be a bit tight in the next few days.

Sir, do you think that if the time cannot be arranged, the GX Tournament should be postponed first?"

"Well, let's do that." Aster agreed without thinking, "I'm already a world champion, and a mere academy tournament is nothing more than a pastime."

"Yes, sir."

As a qualified secretary, she did not ask something stupid like "Sir, that's not what you said before you entered the competition." Instead, she simply deleted the competition from her schedule.

In fact, originally, Yuei Vu held this competition in the hope that students—especially his own students—could gain experience, and the ranking was not important in the first place.

Now, after an interstellar duel, Judai has not only achieved the glory that far exceeded that of "GX Champion", but has also withstood the biggest test in his life so far, thus this competition naturally seemed useless, so it's okay not to participate.

Aster, who originally joined in the fun just because he wanted to compete with Judai, now naturally has no reason to continue fighting.

He's not even here, so why should I play this game?

The time of a world champion is very precious! (Referring to visiting the health clinic three times a day)

Then the next step was the world timeline closing.

After such a series of changes, and the plot has shifted 180 degrees compared to the original work, the dust of the GX competition has settled, and the two historical lines have overlapped again.

The throne of the GX champion was just like in the original work. After the previous big players abstained one after another, it fell to Manjoume's hand.

However, unlike in the original work where he easily won the championship after just torturing a large number of passers-by, this time Manjoume at least actually defeated Mr. Marik on the field and won the championship.

This still surprised Yuei Vu.

Although Mr. Ma was said to be an "unwinnable legend", not only did he lose when he played cards, he also came with the debuff of "anyone teamed with me will lose"... but he was also a legend after all, right?

Moreover, Yuei Vu personally tested Mr. Ma's strength before the game and felt that he was at least worthy of the title of "Legendary Duelist".

Yuei Vu was very sure that if it were the Manjoume of this period in the original work, he would definitely not be at the level of Marik. So his current improvement could only be attributed to President Kaiba's good education.

It's just that even if he won the championship as he wished, Manjoume himself didn't seem to be satisfied.

Even on the day he won the championship, he clenched his fists and gritted his teeth.

"Yu ↑ ki ↓ Ju ↑ dai ↓!"

How dare you run away from our fateful duel!

Unforgivable! ! !

Chapter 1009: Back To The Past

Snow Wave looked at the little pendant that was hugging his arm expressionlessly and said in a cold voice: "From now on, I will count to three, and you must let me go.

One! Two! three! "

Not only did Mia not let go, but her arms hugged her even tighter, and her little head tried her best to get into the teacher's arms.

"I said, I will never let you go again!" Mia shouted.

Snow Wave looked into the distance helplessly.

Oh my God, what have you done?

I can swear for the sun and the moon that I'm innocent! Yuei Vu-san, you must believe me! I really just want to play cards!

But this rebellious disciple is after her master's body!

Snow Wave looked at his student who was stuck to his arm like a piece of brown candy and couldn't help but sigh.

From the end of last semester, when the main storyline of the invasion of The Light of Destruction ended, Mia has become like this.

At that time, there was a large-scale invasion by the alien fleet, and a large number of aliens were air-dropped onto the Duel Academy island. The screwballs took the lead one by one and became the main force in the card game against the alien duelists.

The gap in strength among those aliens was also quite large. The weak ones were like scum, while the strong ones were quite difficult to deal with. Players were occasionally unlucky and bumped into some strong ones. Coupled with the unlucky brick hand accidents, they died on the spot.

Although Snow Wave was well-known as the lucky boy in his small circle, the probability of getting a Heavenly Hand was not small, but he couldn't stand against the law of truly large numbers.

He may have been braver in charging that day, but he encountered an alien who might be an elite monster. In short, it was more difficult to fight than he thought. After a few rounds of dead draw, he was defeated by the aliens and died.

After the battle, Mia couldn't find her teacher anywhere. She thought he died heroically yet tragically in the fight with the alien army. At that time, she couldn't help but burst into tears from grief.

As she was crying, she saw Snow Wave-sensei, whose resurrection time had just been refreshed, hurriedly go online to redeem rewards. She was overjoyed and cried out, then went up and hugged the teacher tightly, and refused to let it go.

Snow Wave was shocked at the time: "Hey, what are you doing in front of everyone? Let me go!"

"NO! Waah waah waah, where have you been, sensei? I thought you had... you had..."

"Hey, didn't I just die? What are you making all the fuss about?"

Snow Wave was in a hurry, signaling: say anything you want, but please don't cry, and don't squeeze me with your fat lumps of meat!

Mia was stunned for a moment, then burst into tears and smiled: "Sensei, you really know how to joke."

Of course, he was definitely not the only cannon fodder who rushed forward and died, but as soon as the resurrection time came, these heroic mentors all came online one after another, and there was no big trouble.

With one exception.

That was "Just A Sandbag", the president of the Knights of Hanoi Guild.

This president's luck was truly bad. He usually played cards well, but every time he got into critical gambling situations, he always had mishaps with his cards.

In fact, the strength of his deck was pretty good among players, but somehow he was always the first to die.

As a result, right after the plot ended, Coke Sprite received a private message from President Sandbag.

"Damn it! I have used up the number of resurrections per week, and I will not be able to go online until next week!"

Coke Sprite was shocked.

President, what have you been doing this week? Do you sneak into the Kaiba Corp to steal the Blue-Eyes White Dragon?

Is it possible to die so many times in a week in this game?

"What? The president died again?" Some guild members asked at that time.

"Yes, and this time he was completely dead, and the resurrection was exhausted." Coke Sprite said helplessly, "I guess I will have to act as president from this week on."

"A moment of silence for the president."

"Press F to pay respect."

Unfortunately, these words were heard by Izayoi Sakura, who was looking for her teacher everywhere. She covered her mouth at that time: "Ah? Sensei... sensei, he..."

"Eh? You misunderstood!" Coke Sprite quickly coaxed her, "Your teacher, uh, he just went to a far away place and will be back after a while."

As soon as she heard this, Sakura's tears started to flow down her face. She cried: "Sprite-sensei, you don't have to lie to me. Sandbag-sensei... he is dead, right?"

Coke Sprite was in a hurry: "No! No, really not! The president... okay, he is dead, but not completely dead! This situation is very complicated."

Sakura sobbed and wiped her tears: "I understand, he will always live in our hearts."

Coke Sprite: "..."

In fact, similar things were not rare. After all, after Yuei Vu expanded its recruitment, there were a lot of player tutors, and many students easily found that their tutors were missing after the battle. It's just that the only one who stayed died for a week was President Sandbag.

In a blink of an eye, it's a new semester.

Just as the academy was about to welcome the new semester, many abnormalities began to appear in the Duel Link system.

Some duelists reported that when playing online in "Duel Link", the virtual space suddenly began to experience chaos, the sky flickered, and the space seemed to burst.

Some duelists reported that they saw phantom monsters flashing through "Duel Link", some dragons with unprecedented shapes, and some troops composed of warriors holding cold weapons.

Some people also reported seeing strange sights that they couldn't understand, such as solar storms, aurora and so on. Some people thought it may be a little easter egg placed in the game by Kaiba Corp, but others suggested that this was abnormal data and that they may have been hacked.

These things were basically the focus of Kaiba Corp this month. The Kaiba brothers and the professional technical team spent a lot of time studying the causes of the incident, and it was not until these two days that they finally got a clue.

Mokuba mentioned this matter while chatting with Yuei Vu that day.

"Quantum Cube?" Yuei Vu asked, "Is this thing causing the anomalies in 'Duel Link?'"

"Yes." Mokuba said, "Brother speculated that 'The Light of Destruction' might have done something when he took away the cube, which affected the way the cube operates.

Our study of Quantum Cube cannot be said to be very thorough, and now it is even more confusing.

It may be that alien interference has changed the original operation of the Quantum Cube, and now it is becoming unstable. "

"So what are the consequences?"

"Who knows? Maybe it will create a dimensional rift? Or open a time tunnel? Everything is possible." Mokuba half-joked, "Maybe it will also send us a 'Terminator', haha, it might be quite exciting."

At the same time, in a deserted corner of the Duel Link world.

The space was distorted like a mirror being punctured. A swirling bright light broke through the space, as if it spread out its burning red wings, and rushed out with the roar of a spinning engine.

There was a sharp and piercing sound of braking, and the red motorcycle stopped in the empty virtual world.

The driver stopped the motorcycle, looked around, and took off his helmet.

Hidden inside the helmet was an unconventional explosive crab head.

"Is this the past?"

Chapter 1010: Students From Other Branches

The GX competition has ended and the new semester has begun. Samejima, the old principal, was planning to cause trouble again.

No wonder many viewers thought that the principal was a hidden BOSS. It was true that the principal's action in the GX plot was too suspicious.

In the original "The Light of Destruction" arc, there was a vital chess piece in Saio's plan to destroy the world. He was a small country's prince named "Ojin", who held in his hand a super satellite that could level the world.

Originally, this guy was not on the invitation list for the GX competition, but Principal Samejima insisted on inviting him.

In fact, when the GX competition was held last semester, Principal Samejima also thought about inviting this prince to participate. After all, he was not only the crown prince, but also an important official of the world government, and also a famous master in the dueling world.

But this decision was rejected by Yuei Vu with one vote.

So even when Duel Academy was in the most chaos caused by the Light of Destruction, there was no scene like in the original work where Saio hijacked satellites and tried to lay waste to the world.

But this time the work was not done yet. Then in the new semester, Samejima's trouble-making soul began to burn brightly again.

At the beginning of the alternate dimension chapter of the GX animation, in order to "promote the growth of Yuki Judai", the old bald man Samejima invited the special lecturer "Professor Cobra" from the Western Branch of Duel Academy.

It was said that this professor once joined the army and single-handedly raised the level of the entire Western Branch. He was an expert with extremely rich practical teaching experience.

From the end of this season's animation, it could be said from a conclusion that Samejima's old bald man's plan was successful. He really "promoted the growth of Yuki Judai", and in a way that was almost completely reborn. It's just that the price was that Judai the sunshine boy became autistic.

What's even more shocking was that Principal Samejima brought a lot of world-destroying troubles to the academy every time, and every time something happened, he ran away, either on a business trip or on his way there. Then a large number of teachers in the entire school were unreliable, and they all had to rely on a student like Yujo Judai to wipe everyone's butt.

Previously when Samejima wanted to invite Prince Ojin to participate in the competition, Yuei Vu directly refused, but this time Samejima wanted to invite Professor Cobra, and after thinking about it, Yuei Vu didn't stop him.

After all, the reason why Professor Cobra became the villain in the original work was because the darkness in his heart was exploited by Yubel who returned from the outside world, and he became Yubel's puppet.

But now Sister Yub has not gone to the sky at all, she just stayed next to Judai obediently. Yuei Vu thought about it and felt that Professor Cobra probably had no chance of becoming a villain.

Even if this person really wanted to take revenge on society, he was just a retired military officer. His dueling skills may be a bit strong, but that's all. Without the support of the blackened Yubel, it probably wouldn't be able to make much of a splash.

So Yuei Vu didn't stop the old bald man in the end, but kept his cautious secretly.

In the new school year, another group of lovely first-year students have entered school.

This time there was no superstar like Aster who held the title of "World Champion", but there is a fair-skinned, beautiful, lively and cute "little junior sister" who should only exist in legends.

Her name was Rei Saotome, the representative of the freshmen in the new school year.

This junior sister did not hide her passionate feelings at all. After enrolling, she entered the Osiris Red Dormitory directly. On the first day, she went straight to the legendary senior Judai who she had admired for a long time.

She had to sit at the same table as Judai when eating, sit next to Judai in class, and live next door to Judai in the dormitory.

Even when she took the stage to speak as a representative of freshmen at the opening ceremony, she was secretly flirting with Judai!

Asuka-san frowned when she looked at the little sister who was blinking at Judai as she walked down the podium.

How could this junior sister do this?!

But what made her happy was that the junior sister's performance might have been in vain, because Judai didn't see anything.

At this moment, Judai was sitting upright in his seat. On the surface, he seemed to be listening carefully. However, in fact, he was fast asleep. He just had a pair of eyes drawn on his eyelids.

But with Judai's level of nerve, even if he saw it, it would actually be nothing.

Anyway, there were more and more friends hanging around him every day (Judai treated everyone equally as his friends), such as the younger brother Marufuji Sho who was the first to recruit, such as Asuka, Aster, Manjome, and the junior brother who was recruited last semester – Kenzan.

That boy was an excellent student who played the Dinosaur deck. Last semester, he led a group of boys in the academy forest to block the road and steal the Duel Disks from passers-by.

Judai happened to be passing by at that time. Kenzan blocked the road and tried to steal Judai's Duel Disk. Unexpectedly, Judai was extremely excited and shouted, "What a coincidence, you actually like to steal Duel Disks too."

The plot after that was simple. Kenzan was taught by Judai why roses were so red through a duel. After that, he immediately changed his past and accepted Judai as his eldest brother. He vowed never to steal a Duel Disk again.

At the end of last semester, after Judai won the interstellar duel, his number of fans increased exponentially. For a while, on the way to the cafeteria every day, he would meet a bunch of elementary school girls who confessed their love in the street.

Judai slept through almost the entire opening ceremony.

Until Principal Samejima personally came on stage to speak: "Everyone knows that our Duel Academy has branches all over the world, and some top masters often appear among them.

This year our school welcomes the top students from various branches, in other words, the champions of each academy branch.

We hope to promote common progress for everyone through duel exchanges."

Judai, who was sleeping soundly as he said this, suddenly opened his eyes: "Ah! The champions of each academy! Where are they? Can we duel!?"

The junior brother Kenzan next to him looked ashamed: "Aniki, you are too excited."

The principal then introduced the top experts from each branch.

Student representative from Eastern Branch, Adrian Gecko.

Student representative from Western Branch, Austin O'Brien.

Student representative from Southern Branch, Jim Crocodile Cook.

Student representative from Northern Branch, Jesse Anderson.

These students were all champions of each branch, the elite among the elite, and their performance in the animated series was indeed worthy of this title.

It could be said that the appearance of these duelists directly raised the strength level of the GX resident characters by a whole level. At least in the original animation, Judai's friends at the Duel Academy headquarters were not the opponents of these foreign school champions at all.

The last person to appear was Professor Cobra, who had a rough appearance and looked like a villain at first glance. He was a special lecturer invited from the Western Branch of Duel Academy.

This professor seemed to be the kind of ruthless character with strong action. As soon as he took the stage, he unexpectedly dominated the atmosphere.

After Principal Samejima's introduction, Professor Cobra spoke directly.

"I can make some meaningless pleasantries here, but they will be of no benefit to everyone. I prefer actual combat to boring conversations.

As a duelist, only duels can best test the results of teaching. This is my consistent policy.

Now, let's get to that goal! We'll hold an exhibition competition immediately, and let me designate an opponent at will! "

As soon as this statement came out, the whole place couldn't help but burst into an uproar.

"What? Exhibition competition?" Professor Cronos muttered, "I've never heard of such a thing, noone."

He looked at Napoleon, the academy instructor next to him, and then at Principal Samejima, and found that everyone was as confused as he was.

Is this foreign professor just giving orders so familiarly?

"The opponent I want to fight is Jesse Anderson." Professor Cobra's eyes were as sharp as a knife, "And Yuki Judai!"

Principal Samejima on the stage hesitated to speak, seemed to have thought about it for a long time, and may have decided to give this special lecturer some face and said nothing about this sudden decision.

But just because he didn't say anything, it didn't mean that no one would say anything.

"Actual combat? Okay, I also admire actual combat the most."

The sound came from the side of the arena.

Everyone in the audience looked up.

Duel King Yuei Vu!

The legendary first-generation Duel King who saved the world countless times, a living legend in this academy!

Especially the champions from foreign schools and the freshmen who had just entered the school when they saw me for the first time couldn't help but gasp.

Hiss~ So terrifying!

Professor Cobra bowed his head: "The legendary Principal Yuei Vu actually agrees with my point of view. I'm really flattered."

"Of course, as a duelist, no matter how well you learn theory, it is meaningless if you don't have the corresponding practical ability." Yuei Vu paused, half-smiling, "But compared to forcing designated students to fight, as a teacher, should we set an example?"

Professor Cobra was stunned: "What do you mean?"

"I have long heard that Professor Cobra has extraordinary strength, a strong combat expert in the duel department in the army. Later, when you were transferred to the academy, you also had practical abilities that far exceeded those of ordinary professors."

Yuei Vu smiled and gestured to the Duel Disk in his hand.

"I wonder, do I have the honor to be able to have a sparring with you in front of the students?"

Professor Cobra: "!"
