

I Play Yu-Gi 1131

Chapter 1131: Super Polymerization, Activate!

"I use the effect of the Spell Card 'Spider Web' to add 'Super Polymerization' from your graveyard to my hand!"

The white spider silk pierced out and shot straight into the Supreme King's Duel Disk. The green card flew out with a swish and was added to Judai's hand.

Super Polymerization was acquired!

The Supreme King's face was gloomy for a moment, and then he said lightly: "It's useless, that's not a card that a guy like you can control."

Judai knew that this guy might not be bluffing.

Super Polymerization was a card that contained power that he may not be able to understand. Now just holding it in his hand, he could feel the pressure on his body suddenly increase, as if the whole person was surrounded by an invisible dark miasma, pressing him to suffocate.

This card is not a joke.

That power... maybe I really can't control it.

But...

"Yubel said, you are an illusion of my past."

Judai raised his head and looked directly into the golden pupils of the Supreme King without fear.

"Yubel believed me. if she thought that I could do it, then to live up to this trust, I must try my best..."

No, I must successfully do it!"

Judai took a deep breath and played the card without hesitation.

"I discard a card as a price to activate the Quick-Play Spell 'Super Polymerization'!"

The sky and the earth were wailing, the earth was cracking, the distant sea was surging, and the lava broke through the mountain and rushed into the sky.

As if the black clouds ignited by flames rolled down, the entire dimension seemed to be pushed to the edge of collapse in one breath.

The card was inserted into the Duel Disk, and countless light spots turned into the shape of a card beside Judai and rose into the air with the whirl, but at the same time, he felt a sudden increase in pressure for no reason.

It was as if the energy in all the cells in his body had been drained out, and an indescribable feeling of exhaustion came like a tide, and the huge pressure made it difficult for him to even move his fingers.

Judai tried his best and forced himself to roar. He squeezed out more power from somewhere, and energy continued to flow out of his body to fill the gaps that were constantly being drained by Super Polymerization.

He didn't notice that at that moment his eyes briefly turned into a golden, shining gold – just like the man in front of him.

But the Supreme King noticed it, and there was a fleeting surprise in his eyes: "You..."

"I fuse 'Elemental HERO Storm Neos', 'Neo-Spacian Glow Moss', 'Neo-Spacian Dark Panther', and the 'Evil HERO Malicious Bane' and 'Evil HERO Malicious Fiend' on your field –

– Five-fold fusion!"

Everyone was stunned.

Fuse all the monsters on the field?

"The light of creation that gave birth to all things, once again gave me a miracle, and turned into the ultimate hero to descend–

–Elemental HERO Divine Neos!!!"

Five figures were involuntarily drawn into the vortex of Super Polymerization, like being thrown into a super blender beyond the dimension.

The ultimate fusion card was also the ultimate hero. Even the most extreme darkness of the evil demons was transformed into light, and the color of miracles shone across the sky of the dark world!

The strongest Elemental HERO, whose body was shrouded in golden light, slowly descended, and even its appearance was almost impossible to see clearly. The dark clouds in the sky seemed to be torn open, and the hero bathed in the divine light slowly lowered the height from the cave, with a soft but inviolable light.

[Elemental HERO Divine Neos, ATK 2500]

"In this way, the Supreme King field is cleared!" Marufuji Sho said.

"No, there is also 'Dimensional Wall'," said Misawa, "a trap that can bounce battle damage back to the opponent. If this trap is not resolved, Judai still can't attack."

"Divine Neos' effect is activated!" Judai said, "Banish 1 'Neos', 'Neo Space', 'Neo-Spacian', or 'HERO' monster from my Graveyard; this card gains 500 ATK! Furthermore, Divine Neos also gains the banished monster's effects until the End Phase!

I banish 'Elemental HERO Storm Neos', 'Elemental HERO Brave Neos', 'Neo-Spacian Dark Panther', 'Neo-Spacian Glow Moss', 'Elemental HERO Shadow Mist', plus 'Elemental HERO Bladedge' and 'Neo-Spacian Grand Mole' discarded to the graveyard through 'Take Over Five'——

——A total of seven cards, all removed from the game!

Divine Neos's attack power increases by 3500!"

[Elemental HERO Divine Neos, ATK 2500 → ATK 6000]

The Divine Neos in Judai's hand was the version enhanced by Holactie. Rather than the animation effect, it was actually the real-life effect without the "once per turn" restriction.

Of course, even so, this thing was far from being very strong from the perspective of the real card environment. The cost of summoning was not proportional to the strength, but at least the explosive power was acceptable.

"Then activate the effect of 'Elemental HERO Storm Neos' obtained by Divine Neos!" Judai said, "Once per turn, all Spells and Traps on the field are destroyed!

Ultimate Typhoon!"

The ability of Storm Neos was once again applied to Divine Neos, and the storm surrounded by shining golden light swept in all directions. The lonely back row card of the Supreme King was opened again, and the "Dimensional Wall" was blown into pieces under the power of the shining typhoon.

That was the last line of defense of the Supreme King. Now that even that has been broken, he was equivalent to being naked!

"Go ahead, Divine Neos!" Judai swung his fist, "Attack the Supreme King directly!"

Divine Neos stood like a god, with his fists clasped in front of his chest. Rippling golden light gathered from all directions and condensed into a sphere with sun-like brilliance at the energy core in his chest.

With an attack power of 6000, just one shot was enough to resolve the battle!

"...Then the effect of the 'Juragedo' in my hand is activated." Supreme King showed another card, "This card can be Special Summoned from the hand during either player's Battle Step, and I will recover 1000 LP."

"It's no use trying to block the attack with a wall monster," Judai shouted, "Divine Neos obtained the effect of 'Elemental HERO Bladege', so when attacking a defense position monster, he can deal piercing damage!"

"I know." Supreme King said in a deep voice, "So I summoned the 'Juragedo' in attack position!"

Only half of the purple-black demon appeared on the field, crossing his arms to block Divine Neos's attack trajectory.

[Juragedo, ATK 1700]

[Supreme King, LP 4000 → LP 5000]

But this low-level demon certainly couldn't stand and was evaporated on the spot by the golden light curtain almost the moment it appeared on the field, and was shattered like filth washed away by water.

The golden beam of light burst out from the energy core in the chest of Divine Neos, crushing the demon and hitting the Supreme King head-on. The latter held on for a moment but was finally blown away, falling heavily to the ground with his armor, making a violent metal collision sound.

[Supreme King, LP 5000 → LP 700]

Chapter 1132: Counterattack

Boom! ! !

With a divine blow, the impact cyclone blasted out by the ultimate Neos smashed the only obstacle in front of the Supreme King with great force, blasting him away and knocking him to the ground.

The heavy black armor rubbed violently on the solid rocks on the ground, dragging a long string of sparks. More than 4000 battle damage, under normal circumstances, was more than enough to kill any duelist with full health.

In addition, the power of the Divine Neos came from the "Light of Creation", which may have an additional bonus for the Supreme King whose power was darkness. It may not be surprising that the opponent died on the spot after this attack.

"Did it succeed?" Marufuji Sho swallowed his saliva as he looked at the Supreme King who was temporarily unable to get up.

If we don't need to reduce the opponent's LP to 0 and can win by beating him directly, it would be the best.

Of course, that was obviously a bit too idealistic.

In just a few seconds, the Supreme King slowly stood up. He twisted his neck, and the armor made a slight sound of metal friction.

For a man whose health suddenly dropped by 4300 and whose resources were running out, he still looked very calm.

"Activate the Continuous Spell 'Mirage of Nightmare!'" Judai continued, "During the opponent's Standby Phase, draw cards until I have 4 cards in my hand.

But during my Standby Phase, I must randomly discard to the Graveyard the same number of cards I drew with this card's effect."

He then waved his hand: "I set four cards on the field, and my turn is over."

"My turn, draw."

Judai: "At this moment, the effect of 'Mirage of Nightmare' is activated! I draw cards until I have four cards in my hand!"

"During the Standby Phase, 'Evil HERO Infernal Gainer', which was removed from the game by its own effect two turns ago, also returns to the field." Supreme King said.

[Evil HERO Infernal Gainer, ATK 1600]

"Then activate the Spell Card 'Legacy of a HERO'. When there are two or more level 4 heroes in your graveyard, draw three cards from the deck."

The Supreme King raised his eyelids and looked at Judai grimly.

"I underestimated you." He said in a deep voice, "But that's all. I activate the Spell Card 'Monster Reborn' to Special Summon a monster in either GY!"

Judai held his breath: "Are you going to revive the monster in the graveyard?"

But if his Evil HERO is similar to my Elemental HERO, then those Evil HERO Fusion Monsters should not be able to be Special Summoned by means other than fusion, and they cannot be resurrected by "Monster Reborn".

In other words, the monster that the Supreme King is most likely to revive is...

"Become my slave again and revive on the field!" The Supreme King raised his arm and shouted in a deep voice, "Yubel!"

The chaotic energy column broke through the ground, and the black flame spread. The demon slowly rose from the ground, spreading her wide black wings, and gritting her teeth but was unable to do anything.

After all, the rules of the duel are absolute. Whether she was willing to help the Supreme King or not, as a duel monster, she must fight since she has been summoned to the field.

Judai: "Yubel...."

"Use the power of this traitor to bring you an end." The Supreme King shouted, "Yubel, attack the 'Elemental HERO Divine Neos'!"

Yubel spread his wings and flew into the air, his heterochromatic eyes glowing red. Divine Neos's eyes glowed with the same light, weird and dangerous.

"Judai!" Yubel shouted in the air while launching an attack, "Get out of the way!"

"I know."

Although it felt a bit strange to accept instructions from the opponent in a duel, Judai still did it. He raised his arm and flipped over one of the cards in the backfield.

"Activate the Trap Card 'Mirror Force'!" Judai shouted, "When the opponent's monster declares an attack, all Attack Position monsters on the opponent's field will be destroyed!"

A hemispherical energy shield appeared in front of him. Before it took effect, Judai looked at Yubel apologetically: "Sorry, but..."

"That's good." Yubel faced the life-threatening blue light, but only curled his lips, "Teach this bastard a lesson, Judai."

The energy of Mirror Force was released, and the overwhelming blue light surged out, instantly submerging Yubel's body and shattering it in the light curtain.

Very good, this guy will have no means of defense left. In the next round, I can just use Divine Neos to launch an attack...

But the next second, Judai found that he was ridiculously optimistic.

The Supreme King's pupils were wide open, and the majestic dark power erupted from his body like a tsunami! A black vortex was forcibly stretched out on the ground in front of him, and Yubel was pulled out of the vortex with an unwilling roar, and struggled back to the field.

Judai was stunned.

What is going on? Supreme King's superpower?

How can he use his own strength to pull monsters back from the graveyard during a duel? What is this? Duel Skill?

But he soon discovered that it seemed to be more than that.

Things could be even more desperate.

The terrifying dark power that the Supreme King erupted surrounded Yubel and continuously filled her body. She held her head and tried to resist, but finally lost.

Her body began to undergo visible changes, and her human-shaped body began to rapidly become larger and grow sharper claws. She opened an eye on her chest, like the eye of Satan peeping at the world from hell. Two dragon heads broke out of her head and neck, and their mouths were full of sharp fangs.

"Yu... Yubel?" Judai's eyes widened in disbelief.

Yuei Vu also frowned slightly: "In this situation, he summoned the 'Phase 2'?"

It was well known that Yubel has three stages, but in the original work, it was the mutation after receiving the evil power of "The Light of Destruction" in the universe.

But perhaps that was Yubel's original potential, and the Light of Destruction was just a stimulant to trigger evolution.

And now, this stimulant has become the Supreme King.

"Yubel, when she is destroyed by an effect other than her own," said the Supreme King expressionlessly, "can evolve into the second stage—

—'Yubel – Terror Incarnate'!"

[Yubel – Terror Incarnate, ATK 0]

"The battle continues," the Supreme King continued, "Yubel – Terror Incarnate, attack again! Attack 'Elemental HERO Divine Neos'!"

[Elemental HERO Divine Neos, ATK 6000]

Divine Neos can obtain the effect of that monster for a single turn by banishing heroes from the graveyard, but the effect of increasing ATK by 500 was permanent. Therefore, even in the next turn, Divine Neos's ATK would still remain at 6000 points and will not decrease.

It could be inferred that Yubel in the upgraded state should also inherit the ability of the first stage – cannot be destroyed by battle, and battle damage will also be reflected to the opponent.

If this battle had been established, 6000 points of damage would have been directly reflected to Judai!

Seeing that the giant dragon's eyes had lit up, and Divine Neos was about to launch an attack under the temptation, Judai waved his hand again and turned the field: "Then open the set card: Trap Card – Doble Passe!

When an opponent's monster declares an attack on a face-up Attack Position monster I control: Make the opponent's attack a direct attack instead!"

The red light in Yubel's eyes disappeared immediately. Even after evolving to the second stage, her attack power was still 0, and her direct attack was of course meaningless.

"Then inflict damage to your opponent equal to the ATK of the attack target I control!"

"The attacked monster is Divine Neos!" Jesse's eyes lit up.

"That means 6000 points of damage!"

Extreme counterattack!

"Go!" Judai shouted, "Divine Neos, counterattack!"

Chapter 1133: Phase Two

Divine Neos, counterattack!

Doble Passe could almost be said to be a trap tailor-made for countering Yubel. After all, Yubel's attack power was 0 in any form, and she could only deal damage by fighting monsters. Direct attacks were basically equivalent to ineffective attacks.

On the other hand, as the attacker, the Supreme King had to take the 6000 points of damage!

"Then discard the 'Hanewata' from my hand." The Supreme King threw a card indifferently to the graveyard, "I take no effect damage this turn."

The soft white cotton ball jumped out, and Divine Neos's attack slammed into the phantom. The transparent impact burst out along with the golden beam.

"It's temporarily blocked." Judai smiled and rubbed his nose, "But since you know me so well, you should know, right? Doble Passe has follow-up effects.

The monster selected as the target of the attack – that is, 'Elemental HERO Divine Neos' – can attack directly in my next turn!"

"Awesome." Frontline commentator Misawa continued to give comments, "Divine Neos's attack power is 6,000! If he attacks directly in the next turn..."

"Then it's fine to end it in this turn." Supreme King didn't care, and waved his hand, "The effect of 'Evil HERO Infernal Gainer'!

During my Battle Phase, banish this card from the field, then target 1 Fiend monster I control; that target can make a second attack during each Battle Phase as long as it is face-up on the field!"

He pointed to the Evil HERO who had just returned to the field this turn.

"I banish Evil HERO Infernal Gainer, and 'Yubel – Terror Incarnate' can attack a second time."

Everyone's heart, which had just been put down, instantly rose to their throats again.

"It's bad," said Jim, the crocodile brother. "If Divine Neos is attacked again, Judai can't wait until the next turn..."

"Then I activate the Continuous Trap 'Scrubbed Raid'!" Judai shouted, "The effect of this card can only be activated during the battle phase. Send a card on my field to the graveyard to end the Battle Phase." (anime effect)

He pointed to his side: "I send the Continuous Spell 'Mirage of Nightmare' to the graveyard to force the battle phase to end!"

The Continuous Spell turned into golden light spots and dissipated, and the invisible force field enveloped the entire field. Yubel's attack was stopped abruptly as if the stop button was pressed, and retreated back to the Supreme King's field.

"Great! If the battle phase is forced to end, even Yubel's effect will be useless." Marufuji Sho said, "And in this way, even the side effect of 'Mirage of Nightmare' is avoided. You are worthy of being my Aniki!"

"That's right." Kenzan also said, "This way the situation is reversed again. If the Supreme King can't take the direct attack of Divine Neos in the next round, it will be the defeat of him!"

Supreme King put another card on the field, and then said expressionlessly: "Do you think you can block the attack at this level? It's not that easy.

At the end of the turn, the effect of 'Yubel – Terror Incarnate' is activated!"

The dragon raised both heads at the same time and let out a shrill roar like a wail. The transparent impact spread in all directions with the dragon at the center, as if to shatter everything in its path.

"Yubel – Terror Incarnate's second effect." Supreme King said, "At the end of the turn, all monsters on the field except her are destroyed!"

"What??" Marufuji Sho was shocked, "Not only can it not be hit, but it also has such a strong field-clearing ability?"

"Oh no, what if Judai loses Divine Neos here."

But Judai also has a countermeasure: "Then activate the trap card 'Safe Zone'! After this trap is activated, equip it to 'Elemental HERO Divine Neos'!

The equipped monster cannot be the target of the opponent's card effect, cannot be destroyed by battle, and cannot be destroyed by card effects!"

This was an equipment trap that provided almost the strongest resistance. The card's special effect was transformed into high-tech armor and was equipped on Divine Neos.

Yubel's destruction wave swept in, but the armor power was running, and the light blue energy formed a transparent barrier, and the impact wave was completely blocked by the barrier.

"But that card also has a price." Supreme King reminded, "Monsters protected by the 'Safe Zone' effect cannot attack directly."

The two sides exchanged offense and defense continuously, and the result after several rounds of confrontation was a compromise – Judai successfully protected Divine Neos from being destroyed with the "Safe Zone", but as a price, Divine Neos could not attack directly in the next turn, wasting the second effect of "Doble Passe".

Kenzan swallowed his saliva: "It was a terrible duel with no gaps at all."

Now the problem was back to Judai. If he couldn't attack directly, he had to think of other ways to break through Yubel's defense.

"My turn, draw!" Judai immediately took action, "Activate the Spell Card 'Pot of Acquisitiveness'! Target 3 banished monsters; shuffle all 3 into the Deck, then draw 1 card."

I return the 'Neo-Spacial Dark Panther', 'Elemental HERO Shadow Mist' that I removed from the game, and the 'Evil HERO Infernal Gainer' that you removed from the game to the deck, then I draw 1 card!"

Manjoume nodded slightly: "In this way, that guy can't keep using the effect of 'Infernal Gainer' to give his demons the ability to attack continuously."

Three golden rays shot back to the owner's deck, and the decks of both parties were automatically shuffled in the duel disk slots, and then Judai drew a card.

"Then I Normal Summon 'Elemental HERO Solid Soldier'!"

[Elemental HERO Solid Soldier, ATK 1300]

"Solid Soldier's effect – When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower 'HERO' monster from my hand." Judai said, "I Special Summon 'Elemental HERO Prisma' from my hand!"

The radiant hero flew out onto the field, its crystal clear body reflecting a diamond-like brilliance.

[Elemental HERO Prisma, ATK 1700]

"Prisma's effect! Once per turn, by revealing 1 Fusion Monster from my Extra Deck, send 1 of the Fusion Materials whose name is mentioned on that card from my Deck to the GY."

Until the end of the turn, Prisma can be used as a card with the same name as the monster sent to the Graveyard.

The monster I want to show is 'Elemental HERO Dark Neos', and I send 'Elemental HERO Neos' as the Fusion Material from the deck to the Graveyard!"

Neos, who had previously been in contact with the Fusion Material as Storm Neos, returned to the deck, but before he rested for long, he was dragged out by the boss to continue working overtime.

After sending Neos to the Graveyard, the image of the white body flashed briefly and was reflected on Prisma.

"This turn, Prisma can be used as 'Elemental HERO Neos'." Judai continued, "Then activate the Spell Card 'EN Shuffle!'" (Animation card)

"Shuffle 1 'Elemental HERO' monster I control into the Deck and Special Summon 1 'Neo-Spacial' monster from my Deck with its effect negated!

I return the 'Elemental HERO Solid Soldier' on the field to the deck, and Special Summon a Neo-Spacial from the deck!

Come on! Neo-Spacial Dark Panther!"

Solid Soldier turned into golden light and returned to the deck, and Black Panther leaped out with an agile leap.

[Neo-Spacial Dark Panther, ATK 1000]

"Then return the 'Elemental HERO Prisma' treated as Neos and 'Neo-Spacial Dark Panther' from the field to the deck! Contact Fusion!

Embrace the darkness and turn into light——

——Elemental HERO Dark Neos!!!"

Chapter 1134: The Extremely Sorrowful Dragon

Neos and Dark Panther both flew up, and Dark Panther turned into a chaotic beam of light and merged into Neos's body. The stripes on Neos's body changed rapidly until his body was engulfed in a chaotic storm, and a dark chaotic column swooped down from the sky!

Neos, who was completely black, appeared from the dark curtain, with bat-like black and wide wings, and his head was somewhat similar to a black panther.

[Elemental HERO Dark Neos, ATK 2500]

"Dark Neos' effect is activated!" Judai said, "Target 1 face-up Effect Monster on the field; negate its effects while I control this face-up card!"

"According to the effect of Dark Neos, I choose 'Yubel – Terror Incarnate!'"

Dark Neos flew into the air and extended his right palm through the air. The dark waves gathered from all sides like shackles, imprisoning the actions of the Terror Incarnate.

"In this way, Yubel can be destroyed by the battle, and can also be hurt!"

Everyone held their breath here, staring wide-eyed for fear of missing even the next moment of change.

The duel has once again come to a life-and-death moment! Now there were Divine Neos with 6000 ATK and Dark Neos with 2500 ATK on the field of Judai. As long as any of the Neos's attacks pass, it would directly determine his victory!

"Go, Divine Neos!" Judai shouted, "Free Yubel from the curse!"

The Divine Neos crossed his arms in front of his chest, and the majestic golden energy gathered in the energy core in his heart, like a flood about to burst the dam!

The Supreme King raised his head, his golden pupils staring directly at the energy accumulated in the chest of the tall and sacred Neos, and narrowed his eyes slightly.

"I said, it was all a futile attempt. Every time you try, all the things that seem to be hopeful, in the end, it just deepens the despair when you lose."

He paused briefly, and then the tone suddenly rose.

"Activate the trap card 'Destruct Potion'! Select 1 monster I control, destroy it, and I gain Life Points equal to its ATK.

I destroy the 'Yubel – Terror Incarnate' on the field!"

Divine Neos didn't even have time to make a move before the two-headed dragon was blown to pieces with a sharp wail. The flames and smoke from the explosion quickly swept across the entire field on the Supreme King's side.

"What!?" Misawa was shocked, "He actually destroyed his own monster?"

"And Yubel's attack power is only 0!" Kenzan was also confused, "Even if he destroys it with 'Destruct Potion', he cannot restore any LP."

"Wait, that's not right." Aster noticed something was wrong.

The thick smoke on the field gradually dissipated.

A silhouette appeared on the Supreme King's field.

It was an extremely huge shadow, like a towering mountain, majestic and insurmountable. It has skin and scales as strong as a dragon, claws sharper than steel armor, two ugly and terrifying dragon heads, and several eyes that make people's sanity go crazy.

"This is Yubel's third stage, the final form." The Supreme King said coldly, "Yubel – The Ultimate Nightmare!"

Ugly but majestic, terrifying but not losing the oppressive force of the god, the perfect combination of majesty and horror, displayed vividly on this huge body, just looking at this existence, people can't help but rise from the bottom of their hearts indescribable fear.

"Yu... Yubel."

Judai gritted his teeth.

The monster didn't give him any response, and all its eyes were filled with violence and hatred. He knew that Yubel couldn't hear his voice, and he didn't even dare to be sure whether Yubel was still in there.

But he knew that he would definitely save her.

No matter the cost.

"Battle Replay occurs." Supreme King reminded, "Do you want to continue attacking? Or give up?"

[Yubel – The Ultimate Nightmare, ATK 0]

The attack power was still 0, but everyone could guess that the third stage should also inherit the common effects of the first two stages – it cannot be destroyed by battle, and all battle damage will be rebounded to the opponent.

"I... end the Battle Phase."

Judai had no choice.

"Set two cards, I end my turn."

He looked at the dark hero next to him helplessly.

"Elemental HERO Dark Neos can only stay on the field for one turn. At the End Phase, he must return to the deck."

Seemingly exhausted, Dark Neos half-knelt on the ground with difficulty, and his figure gradually turned into a shadow and dissipated.

"Like I said, it's a pointless struggle." The Supreme King said, "Even if you try your best, it's nothing more than this. In the end, the laws of the world have never changed.

The strong prey on the weak, that's why you can only be a shadow. Only the strong are qualified to decide everything!

My turn!"

He directly showed the card he drew: "Activate the Spell Card 'Card of Sanctity', both parties draw cards from the deck until they have six cards in their hands."

After replenishing the hand, he raised his hand to open the set card: "Spell Card 'Dark Calling'! Fusion Summon 1 Fusion Monster from my Extra Deck that must be Special Summoned with 'Dark Fusion', by banishing the Fusion Materials mentioned on it from my hand and/or GY.

I remove the 'Evil HERO Malicious Fiend' and 'Evil HERO Malicious Bane' in the graveyard from the game. Dark Fusion!

Devour the debris of the past and bring the dark abyss to the coming again——

——Evil HERO Malicious Bane!"

The two Evil HEROes merged, and a terrifying dark storm broke out in the vortex. The pitch-black demon roared out of the abyss, and once again came to the core of this duel, roaring angrily at the sky.

[Evil HERO Malicious Bane, ATK 3000]

Judai: "It's this guy again..."

"Malicious Bane is the strongest Evil HERO, the proof of my strength!" Supreme King said coldly, "But you have no chance to end up in his hands.

The one who wants to end your soul is the most suitable monster——

——Go, Yubel – The Ultimate Nightmare! attack the 'Elemental HERO Shinyuxia'!"

The two heads of the dragon roared at the same time, which sounded like an extremely sad wail. The sky and the earth resonated, and several lightning bolts fell together, crackling and exploding around the dragon.

"But I still have 'Scrubbed Raid'!" Judai shouted, "Send a card on my field to the graveyard, and the battle phase will be forced to end."

"It's useless." Supreme King said coldly, "I activate the Quick-Play Spell 'Mystical Space Typhoon' from my hand! Target 1 Spell/Trap on the field; destroy that target!"

'Scrubbed Raid' is a Continuous Trap. If the Continuous Trap is destroyed, the effect will no longer apply."

Supreme King's eyes turned cold.

"It's over!"

All the eyes on the dragon's body lit up with a strange red light, and the black transparent cyclone swept towards the Divine Neos. Neos automatically defended, and the powerful golden energy gathered in his palm, as if it would turn into a deadly ray burst at any time.

Once again, it was a moment of life and death!

"'Scrubbed Raid' is a Continuous Trap. If it is destroyed, the effect will become invalid, but the cost of activating the effect before that will still be paid!" Judai shouted.

"What?" Supreme King frowned.

"When I activate the effect of 'Scrubbed Raid', this card is sent to the Graveyard as the price to pay!" Judai pointed to another card beside him, "Continuous Trap 'Safe Zone'!"

"What?" The younger brother Kenzan took the lead in confusion, "What are you going to do by sending your own trap to the Graveyard?"

"Safe Zone's subsequent effect!" Judai said, "When this card leaves the field, the equipped monster must be destroyed!"

Therefore, 'Elemental HERO Divine Neos' is destroyed!"

Chapter 1135: Past and Present Life

"Because the 'Safe Zone' was sent to the graveyard, the 'Divine Neos' that was equipped by it was also destroyed!"

The shining light burst out from the inside out, and the Elemental HERO Divine Neos was like an exploding supernova. The boundless golden light expanded from the inside until his entire body was decomposed into countless light points under the sacred halo and dissipated.

"As 'Elemental HERO Divine Neos' disappeared from the field, now there is no monster on my field." Judai said, "The Battle Replay occurs!"

If you want to continue the attack, Yubel can only continue to attack me directly."

Of course, everyone knows that it was meaningless.

Even in Yubel's final form, the attack power was still 0.

However, the Supreme King did not seem to think so.

“Then the battle continues.” The Supreme King said coldly, “Yubel – The Ultimate Nightmare, attack directly.”

“What!?” Many people showed astonishment.

"Why?" Marufuji Sho was surprised. "Obviously, the attack power is 0, so even if you attack, you can't cause damage."

"No, it's just that the LP value can't be damaged." Yuei Vu frowned slightly.

This was the same as when the six-year-old used the God Phoenix with an attack power of 0 to attack directly in the Battle City. Even if the attack power was 0, the mental impact of the Egyptian God was genuine. Under the circumstances that it has been greatly enhanced by the blessing of the Shadow Game, ordinary people can't withstand such a mental impact.

The same is true here.

"This bastard! Does he want to directly impact Judai's mind through Yubel's attack?" Aster quickly realized it.

The two-headed dragon roared, and both mouths opened at the same time. The dark impact hit Judai head-on, and the overwhelming darkness followed.

It's like the soul was burned by the cold hellfire, like countless sharp needles pricking the nerves.

Judai felt as if he was surrounded by Yubel, the storm and shock penetrated his body, and he felt that his breathing was almost cut off.

Hearing was the first to go offline, followed by vision. There was a constant irritating buzzing sound in his ears, and there was complete darkness in front of him, as if he was trapped in a world where all light sources were swallowed up.

But soon, the pain disappeared.

What followed was a huge emptiness, speechless fear, and sadness.

Is that what Yubel felt?

Being trapped in the endless dark quagmire, there was no hope, only surrounded by huge sadness and emptiness, and couldn't even find the direction to work hard.

Judai felt dizzy. He felt his feet leave the ground, and the whole world seemed to be thrown into a blender.

When he came to his senses, he had come to an unknown world, on top of an ancient castle.

Judai swore that he had never been to this place, but walking in this castle, he felt a strange sense of familiarity in his heart.

"The universe was born from 'nothingness', separating light and darkness." The king said as he stood on the city wall, "Darkness fills the universe and breeds countless lives. But the light, which has overwhelming power, is always ready to move, intending to destroy everything in this world."

"Yes."

The person who answered was a petite young man – it was a little difficult to tell whether it was a boy or a girl just from the appearance, but in Judai's opinion, she had beautiful eyebrows and a light voice, so he was more inclined to think it was a girl.

"Your most cherished companion, he has a gentle and kind darkness, and deep in his heart is sleeping a very powerful power, the power of the Supreme King, and one day he will save our universe.

But before the boy's heart matures, someone must protect him."

"King, please allow me to accept this mission."

"But in that case, your body must be transformed into a solid skin that no one can hurt. You will lose your young and beautiful body and become an ugly dragon that no one can look directly at."

"I don't care." She said seriously, without any hesitation.

"..."

Judai remembered.

That was Yubel.

The boy they mentioned, the one who "possessed the power of the Supreme King", was exactly himself in his previous life.

All the images were distorted and disappeared, and the world was spinning again. Judai felt his feet land on the ground again. He staggered back two steps, then half-knelt on the ground, breathing heavily.

The Supreme King on the opposite side seemed to have noticed something, and his poker face that had been frozen for thousands of years could not help but loosen, revealing a look of astonishment.

"Those memories?! Why do you have those memories too?" He frowned, "You are just a temporary container before I wake up, a shadow that has lost its value."

"Who knows? But it seems that this is not the case."

Judai stood up and slowly raised his head.

When he opened his eyes again, his eyes turned into golden pupils. But unlike the hollow golden pupils of the Supreme King, his eyes were more fierce, burning with a flame of determination.

"Impossible." Supreme King lost his composure and said in a deep voice, "Does it mean that there is still a remnant of my power in your body?"

"It's hard to say," Judai smiled, "Maybe you actually are a remnant of me."

The moment the golden eyes awakened, he seemed to have changed into a completely different person, and his temperament was completely different from before.

"Ridiculous."

Supreme King's face regained its indifference, but he looked more like he was forcing himself to be calm.

"No matter what, as long as I defeat you here, I will completely destroy you right here and now." Supreme King raised his voice, "It doesn't matter what happened in the past, only the strong are righteous!"

Go! Evil HERO Malicious Bane, attack directly!"

Although Judai avoided the 6,000 damage of the battle with Yubel by making Divine Neos self-destruct, there was still the Malicious Bane left on the Supreme King's side that had not been attacked.

The attack of the strongest Evil HERO was still enough to directly determine the outcome in this endgame!

"Judai!"

"Aniki!"

Many people shouted.

But facing the vast and terrifying darkness and the trembling evil power, Judai actually smiled.

Yes, it was like a mocking smile.

"Is the past not important? This part may indeed be as you said." He muttered to himself.

"What?" Supreme King frowned.

"What I was in the past is all in the past." Judai said seriously, with a firm and unshakable light in his golden eyes, "But at least now, I can decide what kind of person I am."

He waved his hand.

"Activate the Trap Card 'Graceful Tear'!" Judai said, "Add 1 card from my hand to the opponent's hand, then gain 2000 LP!"

Everyone was stunned.

Choose a card from your hand and give it to the opponent?

Many people's first reaction was that maybe at this time, they should put a useless card like "Pot of Generosity" to disgust the opponent, which should be the correct way to use it.

But Judai didn't do it.

"The card I'm going to give you is the one I just drew from your 'Card of Sanctity'!"

He showed a card in his hand.

"Trap Card – Karma Cut!"

Everyone: "!!!"

Chapter 1136: Karma Cut

Trap Card – Karma Cut!

Today, no one was unfamiliar with this card. A super powerful trap that could remove any face-up monster on the field from the game at the cost of discarding a card in hand. Many students who have played cards with Judai were impressed by this card.

This was also one of his favorite and most frequently used cards among the many traps that Yu Yu gave him.

"But 'Karma Cut' should be very useful to Aniki himself!" Marufuji Sho was surprised, "Why give such a strong card to the other party?"

After a brief silence, Aster said, "It's because Judai wants to express his determination."

"Cutting off the karma between him and the existence called 'Supreme King'. That's what it means." Manjoume said.

"...Stupid."

Supreme King looked at the "Karma Cut" that appeared out of thin air in his hand and snorted disdainfully.

[Judai, LP 1600 → LP 3600]

"Then the battle continues. 'Evil HERO Malicious Bane', attack directly!"

The attack continued, and Judai's body was once again engulfed by the overwhelming darkness. The absolute darkness released by Malicious Bane made him almost unconscious for a short moment, and he didn't even feel the pain when he was knocked to the ground on his back and his body kept bumping during the continuous rolling.

[Judai, LP 3600 → LP 600]

Seeing him be knocked away again, all the onlookers were nervous, and everyone screamed again.

But soon Judai got up, and stood straight again. Although his body was shaky, he seemed particularly tenacious, and the golden flame in his eyes stubbornly refused to go out.

"Main Phase 2." Supreme King said nothing, ending his Battle Phase gloomily, and continued, "Activate the Spell Card 'A Feather of the Phoenix' from my hand.

Discard a card to return a card in my graveyard to the top of my deck."

A card in the graveyard was ejected.

"The card I want to return to the deck, of course, is this one –

– **Super Polymerization!**"

Manjoume narrowed his eyes: "It's that troublesome card again."

"Must I use that card to decide the outcome anyway?" Aster said.

Indeed, in this battle between the two personalities inside and outside, no card was more suitable than "Super Polymerization" to put an end to this game.

Super Polymerization was a card that contained god-level power, the ultimate crystalization of the power called "Darkness of the Universe".

This card was also a symbol of Supreme King's power, and a reflection of the dark side of Judai's heart.

Watching Supreme King insert that card back into the deck, everyone held their breath as if the air was so heavy that it was difficult to breathe.

"Will it be drawn back to the hand next turn?" Misawa said.

"Set three cards, I end my turn."

Everyone's eyes were focused on the three extra face-down cards in the Supreme King's back row.

"One of the three cards is the 'Karma Cut'," Misawa said.

No one spoke.

Although they understood Judai's determination through "Karma Cut", the burden of actively giving this powerful trump card to the opponent was self-evident.

As a trap card, Karma Cut could remove the opponent's monsters at will during the opponent's turn, forming an extremely powerful interference. Maybe you spent a lot of resources to make a big monster that could turn the tables, but just a trap can make all your efforts come to naught.

But Judai seemed to be confident.

"It's my turn, draw!"

Judai added the drawn card to his hand, and immediately showed the other hand: "Activate the Spell Card 'Spell Books from the Pot'. Both players draw three cards from their decks."

"Huh!?" Kenzan said in surprise, "Both players draw cards at the same time, doesn't that mean..."

"You actually asked me to add 'Super Polymerization' to my hand." Supreme King accepted this effect, drew three cards, and said coldly, "You will regret this stupid decision."

"That's not necessarily true." Judai smiled, "I will set three cards on the field, then activate this card next—

—Spell Card 'Exchange'!"

"What?" Supreme King's face sank.

Others also showed a surprised expression of "I see".

Judai's target was also Super Polymerization!

"Each player picks a card from the other player's hand and adds it to their hand."

"Want my 'Super Polymerization'?" said the Supreme King, "Not that easy. Open the set card: Quick-Play Spell – Hand Destruction! Both players discard two cards, and then each player draws two cards."

The effect activated later would be resolved first. In other words, before "Exchange" took effect, both players would have to discard two cards according to the effect of "Hand Destruction".

There was no doubt that the card that Supreme King was about to discard was "Super Polymerization".

Watching Supreme King draw out two cards after discarding two cards, Marufuji Sho couldn't help muttering: "'I'd rather discard it than give it to you', is that what he means?"

"Of course." Misawa hugged his arms, "Super Polymerization was the ultimate fusion card that has the final say and directly determines the power of victory or defeat. It naturally can't be handed over so easily."

While speaking, the cards of both players have turned into virtual projections floating in front of each other.

Judai saw that among the cards that appeared in front of him, there was indeed no "Super Polymerization", which had obviously been thrown to the graveyard by Supreme King.

"Then I will add the Spell Card 'Silent Doom' in your hand to my hand," Judai said.

Supreme King silently glanced at the three cards Judai had just set in the backfield.

Have you set all the cards you need first?

But not all cards can be set on the field.

"Then I choose this card." Supreme King said, "Lava Golem!"

Lava Golem, an invincible field-clearing card that could clear any two monsters on the opponent's field. After being almost forced to put a Lava Golem into the deck by Yuei Vu at the beginning, Judai has realized the abnormality of this card more than once, and now it can be regarded as one of his deck's trump cards.

In this way, no matter how powerful the monster Judai summoned this turn, it would definitely become the nourishment of Lava Golem in the next turn.

Judai continued: "Activate the Spell Card 'Silent Doom'! Special Summon 1 Normal Monster from my Graveyard in Defense Position.

I Special Summon 'Elemental HERO Neos'!"

A huge beam of light pierced the sky, and Neos worked overtime again.

[Elemental HERO Neos, DEF 2000]

"It's this monster again." Supreme King said in a deep voice, "If this monster is the symbol of your deck, then I'll use this card of yours to cut it off!"

Open the set card: Trap Card – Karma Cut!

Discard a card, and banish a face-up monster on the opponent's field.

Disappear, Neos!"

It was indeed that Karma Cut!

The power of the trap locked Neos, and the energy fluctuations spread like ripples, dragging him into the abyss of another dimension without any explanation.

"Damn it," Kenzan slapped his palm in annoyance, "Sure enough, it had the opposite effect."

"And the card that was just discarded by the effect of 'Karma Cut' is 'Skull-Mark Ladybug'." The Supreme King said, "When this card is sent to the Graveyard, restore 1000 life points."

[Supreme King, LP 700 → LP 1700]

"Then activate the Continuous Spell 'Spell Economics'! As long as this card exists on my field, I do not need to pay Life Points to activate Spell Cards."

Judai pressed the button on the duel disk and waved his hand to open the set card.

"Activate the Spell Card 'Dimension Fusion'! Pay 2000 LP, and both players Special Summon as many of their removed from play monsters as possible!"

The Supreme King said coldly: "Have you prepared a countermeasure against 'Karma Cut'?"

"Because I have 'Spell Economics', I don't need to pay life points. "Judai said, "I will special summon 'Elemental HERO Neos', 'Neo-Spacian Grand Mole', 'Neo-Spacian Glow Moss', and 'Elemental HERO Bladedge'!"

[Elemental HERO Neos, ATK 2500]

[Neo-Spacian Grand Mole, ATK 900]

[Neo-Spacian Glow Moss, ATK 300]

[Elemental HERO Bladedge, ATK 2600]

Supreme King said: "Then I special summon the 'Evil HERO Malicious Edge'."

[Evil HERO Malicious Edge, DEF 1800]

Although there were other Evil HEROes in the banishment zone, they were all fusion monsters that could only be summoned through "Dark Fusion", so they couldn't return from the different dimension.

The same was true for Brave Neos and Storm Neos in the banishment zone of Judai.

"Defense Position?" Judai smiled, "That's really not like Lord Supreme King's style."

Supreme King said nothing.

"In that case, I'm going to attack without hesitation!"

Chapter 1137: The Duel Is Not Over Yet!

"Let's go!" Judai shouted, "Activate the Spell Card 'EN Shuffle'!"

Shuffle 1 'Elemental HERO' monster I control into the Deck and Special Summon 1 'Neo-Spacian' monster from my Deck with its effect negated!" (anime effect)

Judai waved his hand.

"I return the 'Elemental HERO Bladedge' on the field to the deck, and Special Summon a Neo-Spacian from the deck!"

Come on! Neo-Spacian Dark Panther!"

[Neo-Spacian Dark Panther, ATK 1000]

"No matter how many of these small fries..."

"That's not necessarily true."

Judai smiled and once again looked at the teachers and companions around him who were willing to stand up for him and come to this dimension at the risk of their lives.

"Yusei's words made me understand." He said, "The real strength of a duelist lies in the bond between his companions! Everyone helps each other, competes with each other, and makes progress together.

It is precisely because of these most precious companions that I can fight to this point."

Judai clenched his fists and raised his voice.

"I return three monsters, 'Elemental HERO Neos', 'Neo-Spacian Grand Mole', and 'Neo-Spacian Dark Panther', from the field to the deck! Contact Fusion!

Show up here, Neos's most powerful form——

——Elemental HERO Nebula Neos!!!"

Borrowing the power of their companions, the two Neo-Spacians turned into light and merged into Neos' body, and the hero's silver-white body quickly deformed. Heavy armor covered Neos' body, and it was like a giant wrapped in golden light falling from the sky and suddenly slammed into the ground.

[Elemental HERO Nebula Neos, ATK 3000]

"Nebula Neos' effect is activated!" Judai said, "If this card is Special Summoned from the Extra Deck, I can draw cards equal to the number of cards the opponent controls!

You have four cards on the field, so I draw four cards from the deck!"

The hand cards were replenished in one breath, and Judai waved his hands non-stop.

"The subsequent effect of Nebula Neos – Negate the effects of 1 face-up card on the field until the end of this turn."

Aster: "If the effect of 'Yubel – The Ultimate Nightmare' is negated here..."

"She will become a Normie with 0 attack power!" Marufuji Sho was excited, "Aniki won!"

But unexpectedly, Judai said: "I will negate the effect of 'Evil HERO Malicious Bane'!"

Neos raised his right hand and made a "rise" gesture with his palm. The rainbow-colored brilliance rose from the ground, covering the entire Evil HERO, like a cage, and restricting his ability.

"In this way, Malicious Bane can be destroyed by the battle!"

"Eh?" Marufuji Sho was stunned, "Why not choose Yubel?"

"Eighty percent of it is because the Malicious Bane is a symbol of the Supreme King himself."

Aster murmured, "Compared to winning the duel, Judai hopes to defeat the Supreme King head-on and save Yubel."

"That's it!"

"I haven't finished yet! Activate the Equip Spell 'Favorite Hero'," Judai turned over a set card on the field again, "Equip it to 'Elemental HERO Nebula Neos'!"

The card turned over, and the power of the Equip Spell turned into a colorful light effect that wrapped Nebula Neos's body.

"Go, Nebula Neos!" Judai directly entered the Battle Phase, "Attack 'Evil HERO Malicious Bane'!"

Nebula Neos raised his palm high, and the unpredictable light condensed in his palm. The dark clouds were pierced, and the mysterious cosmic light fell from the sky into his palm, and the energy was ready to move.

"For a defective shadow, you are quite stubborn in a fight." Supreme King frowned.

"I said, I would defeat you and free Yubel!" Judai shouted, "Before that, no matter how many times I will keep trying!"

At the start of the Battle Phase, the effect of 'Favorite Hero' is activated!

I can activate 1 Field Spell directly from my hand or Deck."

Judai drew the card that popped out of the deck.

"Field Spell 'Temple of the Kings'!" (Animated version)

The terrain changed, and the golden temple was quickly built with a rumbling hum, becoming the stage for the two sides to decide the victory.

"At this moment, the follow-up effect of the Favorite Hero!" Judai said, "If there is a card in my Field Zone, the equipped monster gains ATK equal to its original DEF!"

[Elemental HERO Nebula Neos, ATK 3000 → ATK 5500]

"And, Nebula Neos equipped with 'Favorite Hero' cannot be targeted by the opponent's card effects!"

"I see!" Marufuji Sho's eyes lit up, "In this way, it doesn't matter who he attacks. Defeat the Malicious Bane, and the Aniki wins!"

Nebula Neos has already charged up, and the extremely gorgeous light is like a long river, rushing towards the demon on the Supreme King's field!

Everyone held their breath again, their hearts were in their throats for the Nth time, staring at the remaining LP of the Supreme King, imagining that value falling to 0 in the crisp and pleasant sound effects.

But at this last moment, the result was unexpected to anyone.

"Open the set card," Supreme King said calmly, "Trap Card – Trap of Darkness."

Judai's pupils shrank.

He recognized the card and it was natural for him to recognize it.

Because it was also the card that Yuei Vu gave him.

"Trap of Darkness can only be activated when my LP is 3000 or less." Supreme King said, "Pay 1000 LP, then target 1 Normal Trap in my GY, except 'Trap of Darkness'; this card's effect becomes that target's activated effect, then banish that target."

"Normal Trap card in the graveyard..."

Judai quickly replayed the process of the duel in his mind and instantly guessed which card the opponent was going to choose.

In the previous round, he summoned "Storm Neos" to destroy all the set cards on the opponent's field, but triggered the "Boo-Boo Game", which when destroyed, could Set other traps in the graveyard to the field.

Immediately afterward, the trap was immediately cracked by "Divine Neos", but if that card was used here...

"That's right."

[Supreme King, LP 1700 → LP 700]

The trap card in front of the Supreme King quickly rotated and soon changed into another trap. Dimension Wall.

"I want to obtain the effect of the trap card 'Dimension Wall'." Supreme King shouted, "When the opponent declares an attack, the damage caused by that battle will be borne by the opponent!"

[Evil HERO Malicious Bane, ATK 3000]

[Elemental HERO Nebula Neos, ATK 5500]

The last reversal at the last moment, a development that no one expected. The friends shouted one after another, but the sound was swallowed up in the torrent of explosions.

The power of Neos and the Evil HERO blasted against each other, and the light and dark energy that almost tore the dimension exploded.

Judai's vision was a little blurred. He felt as if his body was penetrated by an endless torrent, and even his heart seemed to stop beating. He almost instinctively looked at the teacher and the companions who supported him.

"Everyone..."

He felt his consciousness sink to the bottom of the valley.

[Judai, LP 600 → LP 0]

Everyone was stunned.

With wide eyes, they forced themselves to look directly at this fact.

They saw the light and darkness collide, the shock wave swept across, and then after hitting the trap barrier of the Supreme King, it rebounded back in a mighty way.

Judai was hit by the rebounding energy, his body was blown into the air, and fell back to the ground like a lead ball.

Judai, he... lost?

"After all, it's just a shadow." The Supreme King looked at the fallen Judai and said coldly, "Be gone, loser!"

"That's not necessarily true."

The Supreme King tilted his head and found that Yuei Vu was speaking.

Yuei Vu said lightly: "Judai hasn't given up yet."

"?"

The rules of the duel are absolute. Zero life points mean defeat, and no matter how strong the will is, it cannot be reversed. No matter how unwilling he was to admit defeat, how could he...

Supreme King: "!"

His golden pupils shrank, because he saw that Judai, who was lying on the ground, actually got up again with amazing willpower!

"It's useless." Supreme King didn't realize that his cold voice had become a little impatient, "You have already lost when your LP value becomes zero, and no matter what you do, it's useless..."

[Judai, LP 0 → LP 100]

Supreme King: "!"

How can such an operation be possible?

Dead, but not completely dead?

Judai took two heavy breaths, wiped his mouth, and laughed.

"What's wrong, Supreme King? The duel is not over yet!"

Chapter 1138: Bond Beyond Time And Space

[Judai, LP 100]

Everyone was stunned.

Supreme King stared at Judai's LP, which had been restored, with his eyes wide open, unable to speak for a long time.

"Impossible, your life points have clearly been reduced to zero..."

"Ah, I know." Judai smiled and pointed to the card beside him, "But I activated the trap card 'Hero Soul'." (manga card)

"Hero Soul?"

"This card can only be activated if there is a 'HERO' monster on my field was destroyed this turn," Judai smiled, "If the player's LP hit 0, they receive an additional 100 LP."

"But that trap should only be set during this turn..."

At this point, the Supreme King's eyes swept across the huge golden palace surrounding them, and he seemed to understand something instantly.

"The effect of 'Favorite Hero' activated 'Temple of the Kings' from the deck, so Trap Cards can be activated the turn they were Set."

Supreme King frowned: "You are such a persistent guy, you just won't fall down obediently, right?"

"I told you, I will get up no matter how many times before I defeat you and rescue Yubel!" Judai shouted.

"It's useless." Supreme King said, "Your attack is over, and your Neos must return to the deck at the end of the turn."

All this is just a meaningless struggle, just lingering and delaying your destined fate."

"That's not necessarily true." Judai forced his trembling legs to stand firm, and smiled, "How do you know that I put all my hopes for victory on this attack, not on other places?"

"But now it has entered the battle phase, and you have no other monsters on the field that can be used to attack..."

At this point, Supreme King noticed the remaining set cards in Judai's backfield.

It was also the card that he had set on the field earlier in this turn.

Combined with the tactics that Judai used in the past, he quickly thought of something: "The equipment of the 'Favorite Hero'... Could it be that from the very beginning, your goal was not to attack itself, but the 'Temple of the Kings'?"

"That's right," Judai said, "Because there is the 'Temple of the Kings' on the field now, Trap Cards can be activated the turn they were Set!"

So this is the end of our fate, the real ending of the story! Activate the trap card –

——Graverobber!"

"What!?" The Supreme King's pupils shrank.

No additional explanation was needed, he already understood what would happen next.

The most suitable ending for the end of their duel.

"Graverobber allows me to obtain a card from the opponent's graveyard and use it at any time during this turn when the activation conditions are met." Judai shouted, "The card I want to choose is, of course –

——Quick-Play Spell 'Super Polymerization'!"

The big-headed and small-bodied graverobber jumped out with a strange laugh, waved a small shovel and started digging, and in a moment he ran back with the "Super Polymerization" in his hand.

The Supreme King's face was gloomy as if it was about to drip: "You!"

"Sure enough, Aniki still wants to use 'Super Polymerization' to end this duel!" Marufuji Sho said.

Misawa said excitedly: "If he uses Super Polymerization in this situation... this time it's really over!"

"Activate the Quick-Play Spell 'Super Polymerization'!"

Judai waved his hand, and the Spell Card spun rapidly in front of him, spinning and rising into the air.

The spinning Spell Card was like a propeller running at full speed, rolling up a hurricane on the ground of the temple. The black whirlwind shook the hall, and the dome was shaky, as if it would be overturned at any time.

"Discard 1 card; then Fusion Summon 1 Fusion Monster from my Extra Deck, using monsters from either field as Fusion Material!" Judai shouted, "I fuse 'Elemental HERO Nebula Neos' and 'Yubel – The Ultimate Nightmare'!"

Two distant souls intertwined with each other, and the bond beyond time and space awakened here, turning into a new miracle!"

Nebula Neos flew into the air, accepted the pulling force of Super Polymerization, flew into the air, and took the lead in turning into a beam of golden light and shooting into the vortex in the air.

Golden lightning burst out from it, and the storm captured the two shadows like an invisible big hand, dragging them into the center of the storm.

Souls merged, and the power of miracles was bred in the Super Polymerization vortex. The energy storm quickly expanded its radius, and even the entire temple seemed to collapse.

The two-headed dragon was also drawn into the vortex and absorbed by the irresistible fusion force.

The ugly and hideous shell was disappearing, like being stripped of layers of heavy outer clothing. Under the guidance of "Super Polymerization", the power of Neos merged in, gradually melting the dragon's scales.

Yubel, who was sleeping deep in the body, slowly woke up and slowly opened her heterochromatic pupils.

Like a thirsty and desperate traveler in the desert saw the phantom of the oasis, in this endless cold darkness, Yubel saw... light.

She saw Judai and heard him calling her name gently.

In a trance, she saw that Judai in front of her overlapped with a shadow in her past life. That was the prince she swore to protect, with the clearest eyes and the gentlest voice in the world.

"My prince..."

She stretched out her hand involuntarily.

Their palms met in the center of the super-fusion storm, and their fingers were tightly clasped, as if they would never separate again.

"..."

Boom! ! !

A huge hole was created in the sky, and a beam of light fell from the sky, like a heavy hammer hitting the earth.

That was the new form of Neos after another upgrade. On his chest was still the blue spherical energy core as a symbol of identity, but compared with other forms, this form was fused with more demonic elements.

He just crossed his arms and slowly descended, as if a wise man from outer space was watching everything in the world without joy or sadness.

[Elemental HERO Neos Kluger, ATK 3000]

Neos Kluger's fusion condition was "Elemental HERO Neos" plus "Yubel".

If it was a Super Polymerization of real cards, such an operation would not work – real cards must strictly use "Neos" and "Yubel" to fusion summon Neos Kluger.

Of course, the anime "Super Polymerization", as the ultimate fusion card, naturally did not have such a low-level limit.

Nebula Neos was one of the evolutionary forms of Neos, and "Yubel – The Ultimate Nightmare" was also the final form of Yubel. Even in different forms, they were still Neos and Yubel in essence. There was no way Super Polymerization couldn't recognize them just because they have changed their vests.

Supreme King: "Did you let Yubel fuse with that Elemental HERO..."

"Not only that," Judai said.

People who were familiar with him noticed that from this moment, Judai's temperament had changed a little.

He slowly raised his head, revealing the face that was just covered by the shadow.

Supreme King's golden eyes shrank, and he said in surprise: "You..."

It was Judai's eyes.

It was no longer the same golden eyes as Supreme King, but beautiful but strange heterochromatic eyes... just like Yubel's eyes.

At the moment when the "Super Polymerization" was activated, Yuki Judai himself, as a duelist, also merged with Yubel's soul.

The world line converged. Although it was a different experience and process from the original work, in the end, Judai finally merged with Yubel and became his most complete and ultimate form.

This also meant that Yuki Judai's evolution as the protagonist of the world had come to an end.

Yubel's shadow appeared behind Judai again after a long absence.

"It's so slow, it took so long." Yubel rolled his eyes at Judai, "It seems that you really can't do without me."

"Yeah, it's quite tough."

Judai smiled and glanced at her sideways.

"......Welcome back."

Yubel: "......"

Supreme King said coldly: "Did you merge your soul with Yubel's... But you are a defective container, a betrayer, even if you merge into one, what can you do?"

Your existence has no value, just destroy them all!"

Judai and Yubel looked at each other.

"Let's talk about the past later." Yubel said, "You're going to win, Judai."

"Ah," Judai said, "Let this guy see the power of you and me, the crystallization of the irreplaceable bond between us!"

Judai and Yubel swung their arms together, and the two spoke in unison, and their two pairs of heterochromatic eyes lit up in unison as if calling each other.

"Elemental HERO Neos Kluger, attack 'Evil HERO Malicious Bane'!!!"

The embodiment of the power of the two, Neos Kluger flew into the air with a handsome spin, and all the free particles in the air gathered towards his interlaced palms, forming a cyclone of light visible to the naked eye!

"The attack power is the same. Is your goal to die together?" Supreme King said, "Then Malicious Bane, fight back!"

Malicious Bane was not to be outdone and also made a charging action. Dark miasma enveloped the Supreme King's body, and the explosion of darkness was like the explosion of Saiyans, and energy was continuously input into the body of Malicious Bane.

That was also Supreme King's full strength, a desperate struggle with everything he had, and the terrifying energy almost made all dimensions tremble.

Judai and Yubel's voices rang out again in unison: "At this moment, the effect of 'Elemental HERO Neos Kluger' is activated!"

If Neos Kluger battles an opponent's monster, before the damage calculation step, he inflicts damage equal to the attack power of that monster to the opponent!"

"What!?"

Supreme King's icy poker face collapsed instantly.

The battling monster, Malicious Bane, had an attack power value of...

...Three thousand!?

"Go, Neos Kluger!" Judai shouted, "Ultimate Nova!!!"

Judai's heterochromatic eyes seemed to burn, and a surge of light burst out from Neos Kluger's hands! The light hit Supreme King head-on, blowing him and his armor away. He was in the air, and his face was full of disbelief.

"I actually lost to a mere shadow..."

【Supreme King, LP 700 → LP 0】

Chapter 1139: The Road Of The King

[Supreme King, LP 0]

His HP dropped to 0. This time there was no reversal. It did not miraculously recover to 100. This value truly represented defeat, and in this world, it also represented a death sentence.

Supreme King was blown into the air. He took a last look at Judai. From behind the boy who looked exactly like him, he could vaguely see the shadow of Yubel.

Finally, the king gently closed his eyes.

"You fought beautifully."

That was the last sentence left by the king who ruled over twelve dimensions before his life ended.

Then his body dissipated, and under the irresistible laws of this world, it decomposed into countless golden spots of light, as if iron filings were pulled by a magnet, all absorbed into Judai's body.

The only person left now was Supreme King Yuki Judai.

He was unique.

The dust settled, and the winner was decided, but the field was not as agitated as it should have been.

The remaining army of the Dark World looked at this scene in shock, watching the top powerhouse Supreme King they worshipped as a god defeated and dissipated, and even his energy was absorbed into the body of the boy in front of him.

What does this mean?

The Supreme King fell?

Or is it that the boy with the exact same appearance has become the new Supreme King?

As the victorious party, Judai's companions were not sure what had just happened.

Until Yuei Vu stepped forward and patted Judai on the shoulder with a smile.

"Congratulations," he said. "You have just passed the biggest test of your life. From today on, you have officially graduated. From now on, I may have nothing to teach you."

Judai turned around, changed his casual attitude, and bowed seriously: "Thank you, Yuei Vu-sensei. You always help me. Without you, there would be no me today."

He paused, as if he realized something, and glanced at Yubel beside him.

He smiled slightly: "No, it should be 'we'."

"It was your own choice, and you won the duel yourself. The victory today is also made by your efforts, so does your path as a duelist." Yuei Vu said softly.

At this time, his friends seemed to come to their senses and came up one by one.

"Aniki... you are still Aniki, right?" Marufuji Sho said with a little uncertainty.

"Of course, it's me, Sho." Judai turned his head and smiled easily.

At this time, all the students rushed up and surrounded Judai in the middle.

"Big brother, I was so worried just now!" Kenzan said, "I almost had cardiopulmonary arrest several times! It turns out that watching big brother's duel is not good for the heart."

"Ha, I firmly believed that Aniki would win from the beginning!" Marufuji Sho said loudly.

"This is worthy of my recognized opponent, Yu↑ki↓ Ju↑dai↓!" From Majoume.

"You have gained new power and become stronger, Judai." Aster also smiled slightly, "Then let me, as a professional champion, test your current power after we go back!"

"Ha, if we go back now, tomorrow will be the day to eat fried shrimp!"

While Marufuji Sho was talking, he wanted to give his Aniki a hug, but he found that someone had already done it. The first-year girl Saotome Rei had already pounced on Judai, and buried her little head in his arms, leaving no chance for others.

So Marufuji Sho had to give up in disappointment and said, "This time, I will give all my fried shrimp to my Aniki!"

"Haha, thank you very much." Judai smiled and said, "But it may not work for the time being.

Everyone go back first, I may have to go back later."

The enthusiastic atmosphere suddenly froze. Everyone fell silent.

"Aniki, aren't you going to go back with us?" Marufuji Sho asked.

"Yes." Judai looked at Yuei Vu and asked, "Sensei, I have something to deal with here. Can I go back later?"

Yuei Vu looked at him, thought for a while, and asked, "Is it about the Supreme King?"

"Yes." Judai said, "In the duel just now, I remembered a lot of things, and there are many responsibilities that belong to me. If I don't deal with them properly, I can't leave here with peace of mind."

Yuei Vu quickly understood that he was referring to the stability of these twelve dimensions.

Although the Supreme King might be a cruel and unkind king, after seeing and hearing the situation in multiple dimensions these days, everyone also understands that this king may really be indispensable to the twelve dimensions.

It was because of the Supreme King that so many dimensions, so many kingdoms and races can maintain peace and stability. Now the return of the Supreme King was good news for the people of countless dimensions who have suffered from war. If they defeated the Supreme King and just left, more people would inevitably die.

So now, Yuki Judai, who defeated the Supreme King and accepted everything from him, was the new king of these twelve dimensions.

"Lord Supreme King."

Vampire Fraulein suddenly appeared. The little miss knelt on one knee, knelt down in an elegant posture, and lowered her beautiful head.

"Vampire Fraulein, at your service."

As one of the strongest people in the twelve dimensions, Fraulein was still well-known among the residents of the major dimensions.

The Dark World soldiers, who had no leader, had already lost the desire to resist after witnessing the duel just now. Now that a big shot had already taken the lead, they naturally bowed down in fear of being left behind, and expressed their loyalty in a chaotic manner.

When Judai saw Fraulein, he remembered something: "Ah, it was you in the old school building before..."

"Yes." Fraulein lowered her head, "Because at that time we really needed Lord Supreme King to come back to take charge. But no matter what, I did offend Lord Supreme King, and I am mentally prepared to bear any punishment.

No matter what punishment Lord Supreme King gives me, I will never complain."

Hearing this, the passers-by who had watched the CG scene became excited all of a sudden.

"Punish! Punish her!"

"Lord Supreme King, listen to me, you must not be lenient today!"

A group of screwballs clearly called Fraulein "waifu" affectionately before, but now they acted like having a great hatred to Fraulein. When they heard that there was a punishment, they were excited as if they had been injected with drugs, saying something confusing like "bondage", "BDSM", "dog training" and so on.

"It's okay. I know your situation." Judai smiled and touched Fraulein's head, "I forgive you."

"Thank you, Lord Supreme King." Fraulein's head drooped even lower. If it weren't for the fact that there was really nothing, it would probably be pressed against her chest at this moment.

However, Yubel didn't seem to be very satisfied with this decision. If she were to say it, she would probably give the little miss' butt at least fifty slaps so that the latter couldn't get out of bed for ten days or half a month.

She muttered something vaguely, but Judai didn't take it to heart.

The matter was settled, and Judai had a lot of things to do next, so he prepared to send everyone back to the academy first, and he would stay in the other dimension for a while.

"Don't take too long." Yui Vu said seriously, "If you miss the final exam, you will be held back. Don't think that I can let you off just because I'm your teacher."

"Yes, sensei." Judai nodded obediently.

"And don't forget, we still have a fight after we come back, Judai!" Majoume reminded.

"Okay, got it, Majoume." Judai smiled.

"It's Thunder!" Majoume reminded.

Very rarely, President Kaiba actually spoke up: "After that, if you still win, Yuki Judai, let me test your strength myself."

Majoume was surprised: "Sensei?"

The other people accompanying him also showed surprise.

This legendary Kaiba Seto actually personally named Judai to be his opponent!?

Chapter 1140: The Closed Road

Judai was also a little surprised by the president's nomination.

Yuei Vu glanced at Kaiba and said, "Isn't this inappropriate, President Kaiba? The other party is a student who hasn't graduated yet."

"Humph, this guy has already won the qualification." Kaiba crossed his arms and looked at Judai with a flame of fighting spirit in his eyes.

He glanced at Yuei Vu coldly; "You should know your students best, Yuei↑ Vu↓. His strength is no longer on the same level as other so-called "students".

No, he is not even on the same level as most duelists in our world and these chaotic dimensions.

Now he is definitely qualified to stand on our stage!"

When this evaluation came out, everyone was even more shocked.

It was well known that Seto Kaiba rarely gave positive comments to people. If he said "not bad" to you, then you might be able to brag about this word for the rest of your life.

And now, Kaiba obviously meant that he had recognized Judai, a student of the Duel Academy who had not even graduated yet, as the world's top-level duelist, that was, a legend on par with Muto Yugi, Kaiba Seto, and others!

However, this evaluation also made some people feel uncomfortable.

For example, Aster. For example, Manjoume.

"Not on the same level as other students", didn't that include the two of them?

Manjoume looked at Judai and bit his lip.

Does it mean that Kaiba-sensei also feels that he can no longer compete with this guy on the same stage?

But what he didn't know was that Kaiba had been waiting for this moment for many days.

Many years ago, at the first KC Cup, Kaiba met Yuki Judai for the first time, which has left a deep impression on him so far.

The overwhelming strength, the spirit that only top masters have, the sparks that collided with him during the duel, and the irreplaceable restlessness in his blood vessels when his life value returned to zero, are still fresh in his memory today.

For so many years, he has been waiting for this little jellyfish head to grow up.

And today, at the end of this duel, he finally met the powerful opponent who had only played cards once but made him dream.

Especially when he saw the "Super Polymerization" activated and the final fusion of Judai and Yubel, Kaiba's eyes widened at that time

There is no mistake!

This aura! This feeling!

This is the opponent I met in the KC Cup that year!

"Okay, I am also looking forward to dueling with a legendary duelist like Kaiba President." Judai was eager to try, "But I still have to wait until I go back."

"Humph."

Kaiba didn't say anything else, but soon his eyes swept to Fudo Yusei who was silent and seemed to be reducing his presence.

"And you, the 'Riding Duel' that was scheduled before." The president said coldly, "Don't forget it."

Yusei: "..."

The president's eyes were still circling, but when he turned to Yusei, he interrupted the president without waiting for him to say anything, pointing at himself and saying: "And me too I can't run away either, president."

"Humph."

The president seemed to be satisfied with his self-awareness and didn't say much.

It was much easier to go back from the other dimension than to come here.

At that time, they couldn't find the key points, and they broke through the dimensional barrier by measuring the Planetary Particles and huge size generated by Yusei and Yusei's Riding Duel.

But now it's not necessary, after all, now they have a door opener.

In the early stage of the Different Dimension arc, Yubel had the power to uproot the entire Duel Academy and throw it to the other dimension with a snap of her fingers. In the end, Judai, who accepted the power of the Supreme King and merged with Yubel, could also cross the dimension by his own power.

After all, the Supreme King was the ruler of these twelve dimensions, and it was natural that he had the ability to move freely between dimensions.

The group stood in an open space and saw Judai's eyes light up with a different color, and his arm suddenly raised, and an invisible force suddenly erupted with him as the center.

The ground seemed to sink a lot, and the dark clouds trembled and condensed into a ball in the sky as if with the king's action, the world obeyed his command.

The incandescent light column fell from the sky like a waterfall hitting the ground. The energy swept like a white wave, and for a short moment, it pierced everyone's eyes.

Judai put down his arm and turned around, his eyes were still as beautiful as gems.

The little friends were shocked by this scene.

"So awesome." Marufuji Sho was stunned, "Did you do this, Aniki?"

"Yeah. I'm a little different from the past."

Judai subconsciously turned his head to the side, as if he wanted to hide his different-colored eyes in front of his companions.

Asuka was the first to come to her senses and smiled: "Don't worry. No matter what happens, you are you. At least for me, you will always be the Yuki Judai I am familiar with."

Her words did seem to make Judai feel a little relieved.

"Thank you." Judai smiled and pointed to the light curtain that fell behind him, "After passing this, you should reach the island of Duel Academy directly.

Don't worry about me, I will go back after I finish my work."

"Wait a minute, Judai." Yubel suddenly appeared, his voice serious, "Something is wrong."

"Huh?"

Judai also quickly found out what she was referring to.

It was the beam of light he had just summoned for everyone, the dimensional gate leading to Duel Academy.

The huge beam of light began to distort as if it was interfered with by something else. The light curtain became illusory and unstable, and it looked and felt like a holographic projection with poor quality.

"What's going on?" Judai was surprised.

"Someone is interfering with our power," Yubel said in a deep voice, "It seems that someone doesn't want us to go back like this."

The next person to react was Yusei Fudo.

Yusei showed a look of surprise: "No, no. It shouldn't be at this time, and it shouldn't be here...

How could he be in this dimension?"

"Who?" Yuei Vu frowned, "Who are you talking about here, Yusei?"

A loud explosion interrupted Yusei's answer. It was the explosion from the beam of light. After continuous distortion, the dimensional channel finally lost its stability. With the sound of the explosion, it decomposed and turned into countless white light spots and gradually disappeared.

The few people standing closer were caught off guard by the energy aftermath and were thrown to the ground.

But Yusei's answer was soon unnecessary.

Because the culprit appeared in front of them in the next second.

That was a face that was no longer unfamiliar to Yusei, in fact, it was the same for Yuei Vu and even President Kaiba.

A huge mechanical device slowly descended like a god, and the device it carried was like a steel ammonite shell, with a cold iron mask covering the face of its user.

Z-ONE.
