

## I Play Yu-Gi 171

### Chapter 171: Walk Down The Process

What a terrifying duel. Kujaku Mai, who was watching from the audience, folded her arms and commented, Both sides summoned a Level 6 monster in an instant, and they launched such a fierce attack and defense.

Whats even more frightening is that this is even the first round, the battle is already so fierce, and both sides have lost nearly half of their health I am afraid that in this duel, as long as a person who is a little careless will be instantly defeated by the opponent.

Miss Anzu looked worried: Yugi

However, Yami Yugi on the stage was not nervous at all.

Youre right, Yuei Vu. He smiled lightly, Im in a hurry, the duel has just begun. Then Im going!

My turn, draw! I use Pot of Greed to draw two more cards from the deck!

Next up is this card Card Destruction! Both players discard all the cards in their hands, and then draw the same number of cards from the deck!

Watching Yugi insert this classic card into the Duel Disk, Yuei Vu frowned slightly as he looked at the set card at Yugis feet with an ominous premonition.

Then I activate the set card! The Yugi really pointed to the set card, Trap Card Disgraceful Charity! Both players add all cards from their Graveyards that were discarded by the effect of a Spell Card activated this turn to their hands!

Sure enough, Yuei Vu guessed it.

For a bigshot with a true duelists hairstyle like Yugi, lacking resources was never a problem, and the cards in hand have always been able to be supplemented at will according to the atmosphere

But in fact, this wave was also profitable for Yuei Vu, because the combined effect of Card Destruction and Disgraceful Charity was aimed at players on both sides, which meant that he also added cards to his hand.

And because the card draw effect was activated by Yugi and consumed Yugis resources, Yuei Vu got a net +2 advantage without having to do anything.

*Of course, this was under a normal situation.*

*However, think about it carefully. How could two cards drawn by the average person be of the same quality as the two cards drawn by the Pharaoh?*

*Could you guarantee that every one of your cards is just right and all of them are divine draws?*

*Even if you could divine draw, could you print the cards you will draw next?*

Its coming! Pharaoh began his performance, First activate the Spell Card from the hand Monster Reborn! Resurrect the Queens Knight in the graveyard!

A female knight with blond hair and red armor appeared on the field, holding a long sword with a blank face, valiantly.

[Queens Knight, ATK 1500]

Yuei Vu's heart was clear. It seemed that it was a card discarded from the graveyard by the effect of Graceful Charity at the beginning of the last turn.

Sure enough, Graceful Charity was really a divine card in the literal sense

Then I normal summon Kings Knight!

Yugi slapped the monster card on the Duel Disk, and the armored knight with golden armor and a golden beard flew out from the light and shadow and slammed the long sword in his hand.

[Kings Knight, ATK 1600]

Kings Knight's monster effect is activated! Yugi pulled out the deck from the Duel Disk, and picked out a card at a glance, When this card is Normal Summoned while I control Queens Knight, I can Special Summon from my Deck

Jacks Knight!

This time, it was a warrior in white armor, with a handsome face, a straight waist, a sturdy physique, and a silver-white long sword in his hand.

[Jacks Knight, ATK 1900]

Amazing! Jonouchi expressed his admiration, As expected of Yugi, three monsters were summoned in an instant!

Kaiba didn't say a word, but he also snorted with his arms crossed: So that's the case, after taking Obelisk from my hands, are you ready to summon the god so soon?

Yuei Vu was also secretly wary in his heart.

Appeared the famous combo of the Yami Yugi in the animation, which was called Three Musketeers of Summoning God, or in short, the Tributed Trio

But the normal summoning of this round Yugi has already been given to the Kings Knight, even if there were three sacrifices, there should be no way to continue the summoning

Activate a Spell Card from the hand Double Summon! With a wave of Yugi's arm, a Spell Card appeared on the field, During the turn this card is activated, the player can perform a maximum of two Normal Summons!

Yuei Vu:

*Well, it really shouldn't be a fluke.*

*I'm still too naive!*

*Who is on the other side? I'm afraid that if the number of duelist stars will be displayed, normal people will be scared shitless. Why do I hope that he can not do a combo?*

Yuei Vu, you are one of the strongest duelists I have ever seen. So with you as an opponent, I will not go easy, and use all my strength to fight you in a dignified battle!

He glanced off the field: Kaiba! Your power Lend it to me!

Kaiba snorted and seemed very upset.

His card was snatched by the recognized man #1 to deal with recognized man #2, and then the president could only watch the game with his arms folded in the audience, enduring the addiction to cards. It felt so bitter that it was called inhumane suffering

Yuei Vu held his breath.

*Its coming!*

I offer Queens Knight, Kings Knight, and Jacks Knight as sacrifices! Bring oppression with absolute power, and come to the earth as the Lord of Power!

God of Destruction Obelisk the Tormentor! ! !

When Yugi placed the card on the Duel Disk, the majestic and sacred blue beam of light swirled into the sky! The strong light dispelled the clouds as if piercing the sky. The image of the giant came to the earth with a thunderous roar and an earthquake-like tremor, as if riding on that beam of light.

[Obelisk the Tormentor, ATK 4000]

Speaking of which, this was not the first time that Yuei Vu has met Obelisk. Strictly speaking, it was still the first Egyptian God he has fought against, but the duel was interrupted when this guy just appeared

However, the current Yuei Vu was completely different from that time. At that time, he only had one spirit Dark Magician Girl, but now he had the power of two Egyptian Gods in his deck (although not complete). Facing the god, he was not as powerless as before.

Battle! Attack the Dark Magician Girl with Obelisk the Tormentor!

The God of Destruction threw a huge blue fist, and the blue impact with a spiral on the fist slammed down like the top of a mountain.

This time, Yuei Vu had no means to keep the Dark Magician Girl. The girl seemed a little unwilling to end her role early, bit her lip, and waved to Yuei Vu with some reluctance, and then her body was engulfed by the blue light smashed by the divine fist and disappeared.

But before the shock wave swept over, Yuei Vu waved his arm: Activate Trap Card Damage Diet! Halve all damage I take this turn!

Yuei Vu, LP 2500 LP 1500

Although blood locking was a good thing in principle, it was not suitable to do it after only one round of fighting. Therefore, Yuei Vu should first converge a little and walk down the process.

But even if its not Yami Yugi, the impact of the illusion was still terrible. Obelisks punch fell into his soul. If it werent for the protection of the Dark Magician Girl, plus the damage and slimming buffer, Yuei Vu would almost have fallen like the six-year-old who was beaten by the giant soldier in the animation

At this time, the card has just been sent to the graveyard, and the Dark Magician Girl spirit has floated out: Master, are you okay?

Its okay, how about you? Yuei Vu asked.

After all, she's the one who was punched by Obelisk just now. Speaking of which, Phantom God was really ruthless. Seeing such a cute girl, yet he didn't even know how to strike lightly.

I'm fine. Dark Magician Girl stuck out her tongue and then said worriedly, Compared to this, the master seems to be a little bad now. That god is so scary.

Don't worry, we still have a chance.

Hearing what he said, Dark Magician Girl felt relieved.

*Yeah, what's there to worry about?*

*My master is the best! And the most handsome (although that doesn't seem to matter)!*

*Whether it's God or something else, it can be solved in minutes!*

Okay, I end my turn.

Yugi folded his arms, and the giant god behind him stared at him.

Come on, Yusei! he said, If you can defeat God, let me see it!

Chapter 172: The President Is Sour

My turn, draw! Now it was Yusei's turn.

Obelisk, the God of Destruction, had a basic attack power of 4000 and a strong resistance to the effects of Trap Cards and monsters below level 10.

Even if you used a Spell Card, you couldn't solve it directly, as the effects of Spell Cards could only affect it for one turn.

Such a powerful monster standing on the field was still quite scary, and even Yusei felt hard to solve it. Although the combination of Card Destruction and Disgraceful Charity in the last turn of Yugi also allowed Yusei to replenish the cards in his hand, even so, there was no method to directly remove Obelisk in his hand now.

First of all, I also use Graceful Charity, Yusei said, draw three cards, and then send two cards from the hand to the graveyard.

I'm summoning Elemental HERO Solid Soldier in defense position! Yusei showed two monster cards from his hand, When this card is Normal Summoned, I can Special Summon 1 Level 4 or lower HERO monster from my hand! Special Summon Blazeman in defense position!

With a burst of light and fire special effects, the hero in hard armor and the flame hero wearing goggles both came to the field, squatting and blocking Yusei in a defensive posture.

[Elemental HERO Solid Soldier, DEF 1100]

[Elemental HERO Blazeman, DEF 1800]

Then the effect of Elemental HERO, Blazeman is activated! Yusei pulled out the deck. If this card is Normal or Special Summoned, I can add 1 Polymerization from my Deck to my hand.

This scene seemed to be a bit familiar. The two brothers appeared to act as cannon fodder for Yusei.

But Yuei Vu really didnt have a better choice here. If he used Solid Soldier and Blazeman as Fusion materials, you could summon either Gaia or Nova Master.

However, Nova Masters attack power was not enough. Although Gaia has the effect of taking half of the attack power of the opponents monsters and strengthening himself, his level was only 6. Monster effects below level 10 were ineffective against gods.

Therefore, instead of wasting resources to summon more monsters, it was better to save resources to consolidate defenses and wait for the opportunity to counterattack.

And he happened to have the cards in his hand that could create opportunities.

I set three cards on the field! Yuei Vu added three more cards in the Spell Trap Zone, Then I activate Continuous Spell Mirage of Nightmare!

This time, a new banned card appeared on the Yuei Vu field, and it was also one of the most commonly used cards of Yuki Judai, the protagonist in Yu-Gi-Oh! GX.

Mirage of Nightmares effect! During the opponents Standby Phase, I can draw cards until you have 4 cards in your hand. Yuei Vu explained, However, during my Standby Phase, I have to discard the same number of random cards you drew with this cards effect.

Yugi frowned slightly.

Drawing cards on your opponents turn, but you must discard them all on your turn Is there any special meaning?

I end my turn. Yuei Vu declared.

Yugi put down his arms: My turn, draw!

At this moment, the Mirage of Nightmares effect is activated! Yuei Vu pointed to the Continuous Spell Card beside him, I draw four cards!

Yugi glanced at the cards he had drawn and smiled slightly: Although I dont know what youre thinking, Yuei Vu. But if you cant take this move, our decisive battle may end here.

Yuei Vu frowned.

Activate a Spell Card from the hand Stray Lambs! Yugi inserted the Spell Card into the Duel Disk, Special Summon two Lamb Tokens on my field!

[Lamb Token, DEF 0] x2

In the turn when this effect is activated, I cannot summon other monsters. Yugi smiled, Of course, I have no monsters to summon right now.

Two Lamb Tokens

Yuei Vu gritted his teeth.

As expected of the pharaoh, performing divine draw was a normal action for him.

Even thinking with his feet, Yuei Vu could guess what Yugi was going to do.

Im going to activate the special ability of the God of Destruction! Yami Yugi shouted loudly, Offer the two monsters on my field as sacrifices, and give up Obelisks right to attack in this turn. Destroy all monsters on the opponents field and inflict 4000 damage to them!

As soon as the voice of Yugi fell, all the onlookers were shocked.

Because Kaiba had not had time to use this ability in the previous duel, this was the first time everyone present had witnessed Obelisks special ability.

Even Jonouchi, who supported Yugi, felt outrageous: This such an effect isnt it invincible?

Destroy all monsters and give 4000 points of damage!? Kujaku Mai looked horrified, Does this monster have the ultimate ability to ignore any restrictions and end the battle in an instant?

Its not a monster, its a god! Kaiba corrected, Yes, Obelisk is the God of Destruction with instant killing ability, and has the power to absolutely suppress any opponent!

Jonouchi gave him a side glance: Then Kaiba, you had Obelisk in your hand before, why did you still lose to Yugi?

Kaiba:

Maybe thats why the president hates the horse bone so much

At this time, Obelisk has already grabbed a lamb in each hand, and the two poor little lambs instantly turned into the nutrients of the gods, turning into blue light spots and blending into the giant fists of the Obelisk. Boundless blue energy surged along his thick arm, followed by a roar that shook the world.

Come on, Obelisks special ability! Dark Yugi waved, Soul Energy MAX!

Obelisk roared and punched out.

The sacred blue ray came like an endless sea storm. Facing the boundless divine light, Yusei Fudo felt that he was as small as a drop in the ocean under the boundless divine might, as if he would be submerged by the wave of light in just one breath.

The moment Solid Soldier and Blazeman touched the divine light, they vanished into ashes, and the blue wave continued to roll toward Yusei Fudo.

Dark Magician Girl exclaimed: Master!

Yusei Fudo gritted his teeth: Open the set card

Boom! ! !

In theory, it should be a three-dimensional image, but it seemed that a hurricane really rolled down from the stage, blowing the crowd to the point where they couldnt open their eyes and felt hard to breathe.

Only the invincible referee, Mr. Isono, was still standing on the duel stage with his hands on his back, and his expression was still indifferent.

Then Obelisk withdrew his fist. Yugi stood still, watching the dust in front of him.

Did I make it?

Everyone in the audience held their breatheven President Kaiba, who pretended not to care. Countless pairs of eyes were staring nervously at the side of Yuei Vu, who was bombarded by divine fist, waiting nervously for the result.

Everyone felt the same

With such a terrifying effect, in such a situation, it should be the end of the game, right?

However

Yuei Vu, LP 500

The smoke dissipated, and Yuei Vu stood staggeringly, panting heavily, but he was able to carry it down anyway and even achieved blood lock by the way.

*Thank you, brother Yugi. It has been unlocked.*

Huh, its amazing to actually withstand the power of Soul Energy MAX. Yugi didnt appear too surprised, he just asked with a smile, How did you do it?

Yuei Vu also smiled and a trap card popped from the graveyard.

He picked up the trap card and turned it over to show it to Yugi.

Damage Diet? Yugi raised his eyebrows, But this card has already been activated in the last turn, so it should be in the graveyard.

It is a meaningful effect that needs to be in the graveyard. Yuei Vu said, The first effect of Damage Diet halved all the damage I receive in the turn it was activated.

But it also has another effect. Banish this card from the graveyard, and all the effect damage I take during this turn is halved!

But even if it is halved, the damage of Soul Energy MAX is still 2000 points. Yugi said, Your LP at the time was 1500, which is still not enough to withstand this damage.

I know, thats why I activated this at that moment. Yuei Vu smiled and popped another card from the graveyard, Quick-Play Spell Emergency Provisions. Send any number of other Spell/Trap Cards I control to the Graveyard; I gain 1000 LP for each card sent to the Graveyard this way.

At that moment, I sent the Continuous Spell Mirage of Nightmare to the graveyard and recovered 1000 LP. So, before taking the damage of Soul Energy MAX, my LP returned to 2500.

Thats it, its really beautiful.

President Kaiba didnt talk nonsense and praised it: Mirage of Nightmares effect let him draw four cards in the opponents turn, and then he must discard all of them in his own turn.

So he sent the Mirage of Nightmare to the graveyard with Emergency Provisions, which not only restored his LP but also avoided the side effect of having to discard his hand cards.

Thats it! Jonouchichi suddenly realized, In this way, not only did he not lose any card, but also his LP was restored by the way!

In addition, the Damage Diet which was sent to the graveyard last turn is also a preparation to survive the divine fist. Kaiba continued, If any part of this is missing, he would be crushed by the gods fist by now.

Kaiba spared no effort to boast and glanced at the Jonouchi with disdain.

Of course, a horse bone like you cannot understand such a delicate tactic.

Jonouchi was still immersed in admiration for the defensive iron wall arranged by Yuei Vu, and after hearing this, he was ready to tuck his sleeves: What did you bastard say!?

His good brother Honda hurriedly came up and held it again, the expression on his face was like saying, Forget it, Brother Jonouchi

Its actually calculated to this point, and even the response to Soul Energy MAX is ready. And is it still a trap in the graveyard? Yugi smiled, I was right, you are indeed a suitable opponent for me in the final battle!

President Kaiba under the stage snorted a little unhappily when he heard this as if he was still a little sour

I end my turn. Yugi said, Its your turn, Yuei Vu, dont be merciful and attack with all your strength!

Chapter 173: Battle of Two Gods

Yuei Vu took a deep breath and stood up straight.

The soul of the Pharaoh that resided in Mutos Yugi, plus Obelisk the Tormentor Sure enough, against this world protagonist, there was no time to breathe.

But thanks to the four cards replenished in one go the last turn, plus this wave of extreme blood lock, now Yuei Vu has a reversal move in his hand.

Thats right, thanks to the blood lock, his skill Draw of Fate was now available!

My turn, draw! Yuei Vu pressed the button immediately after drawing a card and flipped the set card on his side, Open the set card: Continuous Trap Call of the Haunted! Special Summon a monster in my graveyard in attack position!

I resurrect the Card Blocker in the graveyard!

The Card Blocker who appeared in the duel with Marik not long ago reappeared and appeared on the field with a clear shout.

[Card Blocker, ATK 400]

Card Blockers effect When this card is Summoned: Change it to Defense Position.

[Card Blocker, DEF 400]

Continue to consolidate the defense? Yugi said, but you cant defeat Obelisk like this.

Ah, I know. But Yuei Vus operation was not over yet, So Im going to use this Spell Card Downbeat!

Tribute 1 face-up monster; Special Summon from my Deck, 1 monster with the same original Type and Attribute, that the Tributed monster had on the field but 1 Level lower!

Yugi muttered: Card Blockers attribute is EARTH, and its Type is Warrior

And its Level 3, so I can Special Summon a Level 2 EARTH Warrior monster from my deck!

While speaking, Card Blocker had dissipated under the effect of the spell, turned into a beam of golden light, and shot into Yuei Vu's deck, calling out the new power that was sleeping in this deck.

I Special Summoned from the Deck Hero Kid!

The voice fell, and a young hero dressed in a space suit and a glass helmet had flown out of his deck and landed on the field in a half-squat, and his small body was fearlessly blocking the front of the God of Destruction.

[Hero Kid, DEF 600]

Hero Kid? Yugi wondered, It's a monster I haven't seen before.

This was also a card that Yuei Vu opened from the card pool a long time ago. It was a card related to the Elemental HERO series, and it had a good appearance rate in the GX animation.

At that time, Yuei Vu felt that this card also belonged to the unknown meaning cards category, and even if it was presented in the store, no players would be interested.

But now times have changed.

With the replacement of his deck and more and more cards obtained, the Hero Kid who was not useful at the time also has a role to play.

The special ability of Hero Kid is activated! Yuei Vu pulled out the deck again, When this card is successfully Special Summoned, I can Special Summon any number of Hero Kid from the deck!

I Special Summon the other two Hero Kids!

Yugi was surprised: It actually hides such an ability!

Yuei Vu smiled and said, Heroes can call their friends and accompany them (referring to the righteous gang-up). Come on, my heroes! (1)

Two more beams flew out, one left and one right beside the Hero Kid on the field. The three Hero Kids squatted side by side in a defensive posture, looked at each other, and nodded, and they seemed to have a tacit understanding.

[Hero Kid, DEF 600] x3

Yugi frowned: Three monsters were called out in an instant

And this turns Normal Summon opportunity hasn't been used yet. President Kaiba said, Have you found a way to collect the sacrifices faster than Yugi's three Musketeers of summoning gods?

Everyone realized what was going to happen next even heaven seemed to be vaguely aware of it.

Yuei Vu hasn't played a card yet, but thick clouds have already gathered in the sky, with looming lightning flashing between the clouds.

Yuei Vu drew out a card in his hand: I will sacrifice the three Hero Kids Run through the underworld and the world, and come in the chaos of heaven and thunder

Osiris the Sky Dragon! ! !

The blue lightning fell with the sound of thunder, and the clouds penetrated as if the sky itself was torn apart.

The huge fiery red body slowly fell from the sky, and the majestic image of the dragon appeared in the sky. The moment of roaring seemed to disperse the scattered clouds, and the sound was captivating.

[Osiris the Sky Dragon, ATK 3000]

Okay its amazing, Kujaku Mai inhaled a deep breath, Osiris and Obelisk, two gods confrontation

Sister Shizuka whispered: What a terrible feeling

Its okay! Honda quickly seized the opportunity, I will protect you no matter what happens!

Jonouchi couldnt help but feel touched when he heard it Honda is indeed a good buddy! He cares so much about my sister!

Hmph, Osiris was called out in this situation. President Kaiba muttered to himself, chuckling admiringly, Thats right.

To be able to summon a god under Obelisks oppressive power, you make me admire even more from the bottom of my heart, Yui Vu. Yugi smiled, But I still have to remind you that Osiris attack power is based on the number of cards in the players hand.

Now you only have three cards in your hand, so Osiris attack power is only 3000, not enough to defeat Obelisk.

Ah, of course, I know, so now this is my killer move. Yui Vu took out the two cards in his hand, First, I set a card on the field! Then I activate a Spell Card from the hand Card of Sanctity!

When this card came out, everyone was shocked.

The best card to replenish your hand. Kaiba narrowed his eyes. After calling Osiris, do you replenish your hand to the upper limit in one go, so that God can gain the ultimate offensive ability?

Yugi gritted his teeth and filled his hand with six cards along with Yui Vu.

Although it was very dangerous to let Yugi draw more cards, if Yui Vu didnt do this, he really had no other way to remove Obelisk, and the next turn may be game over.

So now he could only hope that this blow was enough to establish the victory!

[Osiris the Sky Dragon, ATK 6000]

[Obelisk the Tormentor, ATK 4000]

Yugi, LP 2000

Osiris the Sky Dragon, attack! Yui Vu waved and shouted, Superconductive Wave Thunder Cannon!

The sky dragon opened its huge mouth, and golden lightning flashed from its mouth, like a clap of thunder that pierced through the sky at any time!

Obelisk, not to be outdone, raised his fists to fight back, but before he had time to charge his fists, Osiris tail had already crawled onto him unconsciously.

The God of Destruction sensed something was wrong and wanted to break free, but it was too late. The sky dragon with an attack power of 6000 has completely surpassed him in strength. The red dragons body wrapped around the blue giants body in circles, tightly bound like a rope.

This trick has a nickname strong dragon lock soldiers.

The sky dragon firmly bound Obelisk, opened its mouth, and the superconductive wave was ready to go. Yuei Vu was already holding his breath at this time

He is only one blow away from the position of Battle City champion and the title of Duel King!

The card on Yugis field was set four turns ago. If it was a card that can counterattack, it should have been used long ago. Moreover, Yuei Vus Sky Dragon had obtained the unaffected by Trap Cards resistance, even if there was any trap, it could be ignored.

This is my opportunity!

However, at the moment when his breathing almost froze, Yugi also moved!

Open the set card! A card that have been set long ago was activated, Trap Card Life Shaver! (animation card)

Yuei Vu was startled: What?

Yugi said: The opponent must discard 1 card from their hand for each of my turns that this card has been Set!

This card has been set for a total of two turns of mine, so you must discard two cards from your hand, Yuei Vu! The attack power of Osiris dropped along with it!

[Osiris the Sky Dragon, ATK 6000 ATK 4000]

Yuei Vu gritted his teeth: Uh

Fight back, Obelisk! Yugi raised his hand, God Hand Crusher!

Chapter 174: His Mood Was Extremely Bad

Fight back, Obelisk! Yugi shouted, God Hand Crusher!

Obelisk whose attack power equalized immediately broke free from the shackles of the dragon, pulled out his huge fist, and roared in dissatisfaction, and blasted his fist toward the sky dragons open mouth.

Not to be outdone, the sky dragon sprayed directly without saying a word. A beam of lightning slammed into the giants detonating fist, and the golden and blue lights were intertwined.

Kujaku Mai in the audience couldnt help raising her hand to cover her face: Does Yugi also guard against the opponents tactic of summoning Osiris from the very beginning, so he set the Life Shaver so early, weakening Osiris attack power?

Facing the strong light in the sky, Kaiba narrowed his eyes: The attack power of the two gods is equal

At this time, everyone was a little nervous seeing the sky-high beam-o-war of the two gods.

Looking at this shocking scene at this time, this terrifying coercion that seemed to be directly acting

on the depths of peoples hearts, was not like a three-dimensional image, but the end of the world came into reality.

Honda panicked a lot, but at this time, of course, he had to calm down in front of the girl whom he liked, and even wanted to smile and comfort Shizuka, pretending that nothing happened, and harvesting the favorability of the girl

Eh? Where was Shizuka?

At this time, Shizuka has already rushed into the arms of Jonouchi: Brother, its terrible! Will something bad happen?

NoNo, dont worry. Jonouchi patted his sisters back, Its just an ordinary duel, there wont be any problems!

Honda:

In fact, Yuei Vu unintentionally restored the famous scene in the original work Osiris and Obelisk, who had the same attack power, mutually killed each other in a duel, but the power of God broke through the boundaries of time and space and dimension, and Yugi and Kaiba were dragged into the memory image of their fateful battle three thousand years ago.

However, Yugis opponent here was Yuei Vu, not Kaiba. Yuei Vu was just a passerby, and he had nothing to do with the thousand-year blood war, so naturally, there was no supernatural phenomenon happening here.

The light finally disappeared, and the divine power dissipated between heaven and earth. The power of the two gods canceled each other out, and their images turned into illusions and disappeared.

In fact, it was fortunate that this was a battle bound by a card game called Duel Monster, otherwise the sky dragon in Yuei Vus hand, which only has partial power unlocked, must have been suppressed by the full-powered Obelisk in Yugis hand.

But in the card game, the rule triumphed all. As long as the attack power values were the same, they would definitely destroy each other, and there would be no other ending.

The two gods disappeared simultaneously, so the troublesome Obelisk in Yugi was finally solved.

But Yuei Vu also lost his Sky Dragon, and now he had an empty field with only 500 LP left. If he ended his turn like this, Yugi only needed to summon a monster that was only a little stronger than Kuriboh, and the duel was over.

Of course, Yuei Vu still had other cards to play: My turn is not over yet! I will open the card set on the field here. Spell Card Polymerization! I fuse Elemental HEROAvian and Elemental HERO Burstinatrix!

In the last turn, he retrieved a Polymerization from the deck by the effect of Blazeman. A green Spell Card appeared, releasing a gorgeous vortex of fusion. The green and red heroes appeared from Yuei Vus hand respectively, and their figures turned into two beams of light and merged into the vortex, giving birth to a new power in the strong flash.

Come on, the hero guarding the top of the skyscraper! Fusion Summon! Elemental HERO Flame Wingman!

The hero with the green body flew out of the light, and the flames dragged under him forming a pillar of fire with the rotation of the body. He flapped his wings and hung in the air, and with a clear drink, the flames around him exploded quickly.

[Elemental HERO Flame Wingman, ATK 2100]

A powerful monster that deals damage to the opponent equal to the destroyed monsters attack power. Yugi already knew this hero, Did you already prepare a backhand just after the god left the field? You are indeed a true duelist.

At this time, Kaiba was unhappy again.

When they were dueling before, he immediately summoned the Neo Blue-Eyes Ultimate Dragon with an attack power of 4500 as soon as his Obelisk was dismantled.

But what did Yugi say to him in the last duel?

To be honest, I'm a little disappointed in you, Kaiba.

In short, his mood was extremely bad.

I still have 2000 LP left. If you attack directly, I will lose. Yugi smiled, But the fusion monster can't attack during the turn it is summoned. It's a pity, Yuei Vu.

Yuei Vu:

This was undeniable.

If he said he didn't feel pity at all, it must be a lie, because it did give him the illusion that I am one step away from the Duel King title.

He didn't have the idea of winning the title of Duel King at the beginning. Even if he stopped here, this trip would be worthwhile with no dissatisfaction.

But even so, since he has already stood on the final stage and reached this step, being only one step away from the top of the mountain, he had to try his best.

If it ended so easily, it would still be a little regretful, right?

I end my turn. Yuei Vu said lightly.

Your full strength, your determination as a duelist, I have truly seen it. Yugi said solemnly, Then as a duelist, I will also take out everything I have, surpass my limits so far, and use my full strength to answer!

My turn, draw!

I want to activate the Spell Card Double Spell from my hand! This card can only be activated by discarding a Spell Card in my hand, and I can use a Spell Card in my opponent's graveyard!

Yuei Vu, the card I want to choose from your graveyard is Polymerization!

Yuei Vu's eyelids jumped.

*What the fuck? Did Yugi want to use fusion too? What would he fuse?*

Thinking of this, he suddenly remembered that Jonouchi's Red-Eyes Black Dragon was still in Yugi's hand

*Masaka (It cant be)!?*

*Yugi wouldnt print a Red Daddy on the spot, right?*

*Then here I can really give up the struggle and directly surrender*

But fortunately, even with such a true duelists hairstyle, as the originator of the Yu-prefix duelist, being such a ruthless card printing machine, Yugi still had a bottom line.

Things like Red-Eyes Dragoon would seriously damage the current environment. If Yugi really printed it right here, the DM era could end early.

I fuse Dark Magician and Gaia the Fierce Knight in the hand!

Fusion Summons! Super Magical Knight Dark Cavalry!

The genuine magician in purple and black robes appeared beside Yugi with his arms in his arms, and beside him was Gaia, another famous monster who was also used by Yugi.

The two monsters turned into two light beams, one black and one gold, respectively, which rotated in opposite directions and merged into the vortex of fusion. The magic power of the dark chaos erupted, and the warriors wearing black magic armor and holding spiral double spears charged out from it, riding horses under them, the momentum was like a rainbow and unstoppable.

[Dark Cavalry, ATK 2800]

Yuei Vu:

At this time, Yuei Vu even wanted to drag the president under the stage to talk about life.

In the last game, Dark Paladin was printed to deal with Kaiba, and Dark Cavalry was printed to deal with Yuei Vu this time.

*Fortunately, this is the end of the finals, otherwise, Im afraid he may really print the Red-Eyes Dragoon*

Chapter 175: Breakthrough

Fusion Summon! Super Magical Knight Dark Cavalry!

The domineering and mighty Dark Cavalry landed on Yugis field on a steed, dressed in black armor in the style of a Dark Magician, but what he held in his hand was not a staff but a spiral spear.

In fact, since he was called Dark Cavalry, you should be able to guess at a glance that this is a melee mage specializing in hand-to-hand combat.

Someone seemed to be a Spellcaster on the surface, but in fact, the ultimate skill was a spiral spear strike.

Dark Cavalrys effect! Yugi raised his hand and shouted loudly, This cards attack power is increased by the number of spell and trap cards in both graveyards x 100 points.

Yuei Vu gritted his teeth.

The duel has reached the late stage, and the Spell Traps in the graveyards of both sides could be packed into a deck. God knew how much his attack power would increase

However, the system immediately counted the specific values. One after another, Spell and Trap Cards floated in the air in the form of projections, floating in the sky over the duel arena, and each card turned into a golden light that flew into the Dark Cavalrys spiral spear.

Every time a card was absorbed, the golden light attached to the weapon in the hands of the Dark Cavalry became brighter. In the end, the entire spear in his hand shone with a golden spiral of brilliant light, as if it were enough to penetrate everything in the world.

The total number of Spell Traps in both graveyards is 22! Yugi raised his hand, So the attack power of Dark Cavalry will increase by 2200 points!

[Dark Cavalry, ATK 2800 ATK 5000]

The audience under the stage was shocked.

The Egyptian God has just been gotten rid of, yet he immediately summoned such a powerful monster? Kujaku Mai looked at the back of Yugi on the stage and was a little lost, What kind of terrifying duel is this?!

Miss Yuehua is a little more polite: Yuei Vu wont you lose?

Howhow is it possible! Snow Wave said this, but he was not as confident in Yuei Vu as before, He definitely wont lose! It should be

President Kaiba looked at the Dark Cavalry on the stage, and couldnt help being a little lost for a while.

Yugi, is this your full strength?

How far am I from you?

This is my full-strength blow. Block it if you can, Yuei Vu! Yugi spoke loudly, Battle! Using the Spell Card Quick Attack to give Dark Cavalry the ability to attack immediately! Destroy the Flame Wingman!

The black steed charged, and the dark warrior raised his spear, which was attached to a vortex of chaos. He was like a gust of wind, and behind him dragged the black lightning of magic power.

The difference in attack power was more than twice, and the Flame Wingman had no resistance at all under such a huge gap. The dark magic power pierced through and shredded the flames heros body, and continued to rush toward Yuei Vu

Everyone in the audience held their breath and widened their eyes, for fear of missing any moment in the next frame.

Is the victory or defeat already decided? Kaiba whispered.

but it doesnt matter!

At this moment, Yuei Vu burst out with the ultimate hand speed that could only be cultivated by being single in two lifetimes, and shoved a hand card into the graveyard with lightning speed

-Kuriboh, save me! ! !

Kuriboh! Another all-purpose Kuriboh!

The invincible Kuriboh appeared out of thin air, proudly holding his head high, and with his small body he forcibly endured the surging magical impact of the Dark Cavalry!

The soft cry of Kuri Kuri seems to be saying to the audience tell me loudly who is the eternal god?

Yuei Vu, LP 500

The magic power was scattered, the smoke screen dissipated, and Yuei Vus front field became empty, but his LP was still unscathed.

Did you block the damage by relying on Kuriboh? Yugi applauded, I heard that good duelist will have similarities in the choice of cards. Sure enough, we are very similar.

The president listened and snorted disdainfully: Hmph, have you survived a turn with the ability of the trash monster?

He said so, but the president was already hesitating secretly in his heart.

Should I

go back today to collect a Kuriboh?

Anyway, its not a particularly rare card. With the financial and resources of the president, let alone a Kuriboh, even collecting a warehouse of Kuriboh must be a matter of minutes.

However, the president pointed at the Kuriboh and scolded the trash monster so many times. To collect the Kuriboh now, he may not be able to bear the shame

The more he thought, the angrier he was. The president glanced at the Kuriboh that was gradually becoming transparent and disappeared on the Yuei Vus field, and couldnt help but snorted even more angrily: What a trash monster!

Then I set a card and I end my turn!

Yami Yugi inserted the card into the Duel Disk, and there was another set card at the foot.

Yuei Vu took a deep breath and looked down at his deck.

With 500 LP remaining, there was no monster on the field, only one set card, and one last card left in the hand. And there was the invincible Dark Cavalry with powerful resistance on Yugis field, not to mention its attack power was as high as 5000.

The effect of the Dark Cavalry, by discarding a card from the hand, could negate the activation of the card effect that targeting the card on the field.

It should be noted that the effect did not say targeting the Dark Cavalry, but targeting the cards on the field, which meant even trying to destroy a Spell Trap with a typhoon, or equipping an Equip Spell to ones own monsters would be invalidated.

On Yuei Vus side, he even used up the Draw of Fate skill, which could only be used once in a duel. Now its really a game that was close to hopeless.

In the past, he must have directly abstained and surrendered now.

But not now.

He has grown up more than once since he fought all the way from the Battle City to now. Not only did he gain more powerful cards, but he was also blessed with the power of the Egyptian gods. He had his own spirit partner. The Rank of the duelist was close to seven stars.

Yuei Vu held his breath and placed his finger on the top card of the deck, feeling something he had never felt before that a card could be so heavy.

He seemed to finally understand a little bit, what kind of mysterious feeling the duelist in the original said said the moment you draw a card is the creation of the world.

A slender, clear, and transparent hand gently rested on the back of Yuei Vu's hand.

Yuei Vu turned his head to the side, and unexpectedly found that the spirit of the Dark Magician Girl had appeared beside him at some point, with a small hand on his back, and seriousness was written on her little face.

This was all her force, the limit she could help the master.

Yuei Vu smiled slightly.

My turn draw!

His breathing stopped, it seemed that time itself was frozen, and the cards that were drawn out slowly passed in front of Yuei Vu like a slow-motion camera.

This was the first time in history that Yuei Vu experienced the mysterious feeling of being responded to by the deck.

At the same moment, his duelist Rank officially broke through the bottleneck and reached the 7 stars level in the panel.

Boundary breakthrough!

YaDaZe (successful)!

President, lend me your strength!

I set the field with a card in my hand, and then activate Card of Demise!!

This was a card presented by the Kaiba brothers before the final, which was enough to create a miracle of reversal in any situation!

Moreover, unlike the Card of Sanctity designated by the Destiny Draw last turn, this time it came from the power of himself and his spirit partner. A true divine draw!

Yuei Vu said: Card of Demise is a card that allows me to draw cards until you have 5 cards in my hand. But during my 5th Standby Phase after activation, I must send all cards in my hand to the Graveyard!

Drawing a Card of Demise in such a desperate situation. Yugi smiled approvingly, Sure enough, you are also a true duelist!

After all, true duelists created their own cards even when they drew cards, so there was no possibility that they would not be able to draw a comeback card while empty-handed.

Yuei Vu drew five consecutive cards in one breath, and his hand was refilled, thus there was another chance for a comeback!

*This duel I still have a chance to win!*

## Chapter 176: A True Duelist

Seeing the subtle change in Yusei's expression after replenishing his hand card, Yugi also realized something.

This reaction was there a way to break this situation?

Thinking of this, Yugi even faintly looked forward to it, as if his soul as a duelist was eager to see what Yusei might use next.

Yusei glanced at Dark Cavalry on Yugi's field, pondered for a moment, then looked at the only two cards left in Yugi's hand, and fell into thought.

Dark Cavalry had the ability to negate effects targeting cards on the field, but each time he used his effect, it consumed 1 card in the hand.

Now there were two cards left in Yugi's hand, in other words, the Dark Cavalry still had two chances.

Since that was the case

Activate from the hand, Quick-Play Spell Forbidden Chalice! Yusei turned over a card in his hand and revealed a Spell Card, Target 1 face-up monster on the field; until the end of this turn, that target gains 400 ATK, but its effects are negated!

Of course, the one I want to target is Dark Cavalry!

It turns out that, although the attack power is increased, if the effect is negated, the attack power of the Dark Cavalry will decrease. Yugi smiled, But you can't make it so easy.

He discarded one of the two cards in his hand to the graveyard, and then raised his finger to the Dark Cavalry: Dark Cavalry's monster effect is activated!

When a card effect targeting a card on the field is activated, discard a card to negate the activation of that effect and destroy it! Black Magic Counter!

Forbidden Chalice released light green energy that surrounded the entire body of the Dark Cavalry. But this move was completely ineffective for the knight who was proficient in magic. The latter swept the spear and burst into magic, instantly twisting the green light around him into pieces.

Forbidden Chalice was hit by the rebound, and the card was split into pieces on the spot.

My god what a powerful monster. Kujaku Mai in the audience was shocked, Not only does it have such a terrifying attack power, but it can even negate other cards' effects?

Then I summon Elemental HERO Liquid Soldier!

The water flow gathered from all around, and gradually condensed into an entity on the field, transforming the figure of a water hero. The flowing water turned into an entity, and the hero in light blue armor appeared half-squatting on the field in front of Yusei.

[Elemental HERO Liquid Soldier, ATK 1400]

Yugi frowned: A hero I haven't seen before

Liquid Soldiers effect is activated! When this card is Normal Summoned, I can target 1 Level 4 or lower HERO monster in my GY, except Elemental HERO Liquid Soldier; Special Summon it!

As Yuei Vu spoke, a whirlpool of water opened up on the field in front of him. A solid and steady figure in hard armor flew out of the vortex vertically.

I resurrected the Elemental HERO Solid Soldier from the graveyard!

[Elemental HERO Solid Soldier, Attack Power 1300]

Then open the card set on the field! Yuei Vu pressed the Duel Disk button and activated the card he set on the field before using the Card of Demise, Polymerization! I fuse Elemental HERO Liquid Soldier with the EARTH attribute Elemental HERO Solid Soldier.

Fusion Summon! Elemental HERO Gaia!

The two Elemental HERO monsters turned into light beams and were involved in the vortex on the ground, and the burst of energy projected the image of the earth cracking.

After all, its the Elemental HERO Gaia, and it must be common sense to bring the Earth Destroyer.

The dark, heavily armored hero emerged from the ground, and the three-dimensional image effect looked like the earths crust was changing, as if the entire dueling field would collapse with the appearance of this big guy.

[Elemental HERO Gaia, ATK 2200]

Elemental HERO Gaias effect When this card is Fusion Summoned: Target 1 face-up monster your opponent controls; until the End Phase, its ATK is halved and this card gains the same amount of ATK!

Gaia roared dully, and the huge iron fist slammed into the ground. The heavy punch shattered the enemy, and the crack spread toward Yugis field at a speed visible to the naked eye, and it seemed that the Dark Cavalry was about to sink into the crack.

Its useless! Yugi continued to wave, I activate the effect of Dark Cavalry again! Discard a card to negate the effect of Gaia and destroy that card! Black Magic Counter!

The Dark Cavalry snorted, the spiral spear swept away, and the dark magic power seemed to release an absolute command to remain still.

The crack that spread suddenly stopped as if it had been subjected to a powerful force majeure. The long spear slammed into the ground fiercely, and the domineering magic power surged with its teeth and claws, and backtracked in the direction of the crack. It could not help but penetrate Gaias black heavy armor, penetrating him front and back.

The hero of the earth has just debuted, but before he can show off his abilities, he was penetrated by the Dark Cavalry and killed on the spot.

This is too powerful, isnt it? Miss Yuehua was shocked, How can there be such a BUG card?

On the side of the Tomb Keppers, Sister Ishizu, who had been watching quietly, said softly, But in this way, the two cards in Pharaohs hand are also consumed. The effect of the Dark Cavalry can no longer be used.

At this time, Yugi was also holding his arms, carefully looking at Yuei Vu's reaction, while still thinking quickly.

Like what Ishizu said, now his hand was zero, Dark Cavalry could not continue to negate the effect of other cards.

But Yui Vu's cards have been negated twice, could he really still have the chance to fight back?

Although Gaias' effect has been invalidated, the chain is not over yet! Yui Vu waved his hand, The effects of Elemental HERO Solid Soldier and Elemental HERO Liquid Soldier are activated!

In fact, in theory, the effects of these two heroes have already been activated at the moment of fusion summoning. It's just that Yui Vu couldn't shout aloud like Duel King, so he didn't have time to explain. ..

But it didn't matter anyway. In the animation, people didn't have the concept of timing, and the effects that should be activated were definitely indispensable.

Yugi's eyelids moved.

*Can you continue to operate?*

First, the effect of Elemental HERO Liquid Soldier is activated. When this monster is sent to the Graveyard as a fusion material, I draw two cards from the deck, and then discard one card from my hand.

Yui Vu drew two cards from the deck and then sent a card in his hand to the graveyard.

Immediately after that, he waved his hand again: Then there is the effect of Elemental HERO Solid Soldier! If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO monster in my GY, except Elemental HERO Solid Soldier; Special Summon it in Defense Position!

I resurrect the Elemental HERO Flame Wingman!

The fusion hero who just retired from the last round quickly returned from the graveyard under the effect of his companions. A pillar of fire shot up from the ground, and the hero who controlled the wind and fire spun out and landed on the ground half-squatting.

[Elemental HERO Flame Wingman, DEF 1200]

The Flame Wingman in reality had the condition Must be Fusion Summoned and cannot be Special Summoned by other ways, but Yuki Judai, in the second episode of Yu-Gi-Oh! GX animation, was going to use a Monster Reborn to resurrect the Flame Wingman, which showed that there was no such restriction in the animation.

Next is the Spell Card Fusion Recovery! The Polymerization in my graveyard, plus Elemental HERO Liquid Soldier which was sent to the graveyard as fusion material, are added back into my hand!

And then I activated Polymerization again!

Yugi gritted his teeth: Can you continue to fuse?

I fuse the Elemental HERO Flame Wingman on the field with the Elemental HERO Sparkman in my hand!

Second fusion with fusion monsters!? Jonouchi felt that his three views had been refreshed again.

Sister Shizuka's gaze towards Yugi Muto was also a bit complicated: Yugi Muto, he is also a duelist who can constantly challenge our cognition and exceed our expectations from time to time.

The Flame Wingman and the Sparkman who just appeared both flew up, turned into flames and golden light, rolled into one place respectively, merged into one, and burst into a shining holy white light, and at the same time gave birth to astonishing energy.

Yugi Muto raised his hand and pointed to the vortex of holy light shining in midair: The hero of justice appears in the divine light, piercing the darkness and bringing light

Elemental HERO Shining Flare Wingman!

The hero in white mechanical armor with holy wings behind him flew out vertically, swirling up, hovering condescendingly in the air.

[Elemental HERO Shining Flare Wingman, ATK 2500]

Chapter 177: Last Turn

Fusion Summon! Elemental HERO Shining Flare Wingman!

It looks like a powerful monster. Sister Shizuka whispered, and it's so warm.

Yeah. Jonouchi also nodded and said, And he's very handsome! Yugi Muto uses some super handsome heroes! But even so, the monsters in Yugi have higher attack power!

However, Yugi was not as optimistic as his friend was at this time.

No, this monster born from double fusion must have hidden powerful special abilities!

The effect of the Shining Flare Wingman, Yugi's commentary immediately confirmed his conjecture, For every Elemental HERO monster in the graveyard, his attack power will increase by 300 points!

While speaking, the Elemental HEROes who were sleeping in his graveyard had turned into phantoms and appeared on the field.

Solid Soldier, Blazeman, Avian, Burstinatrix, Gaia, Flame Wingman, Sparkman, and Clayman who was discarded by the effect of Liquid Soldier.

There are eight Elemental HERO monsters in my graveyard in total. So the attack power goes up 2400 points! Yugi Muto shouted.

[Elemental HERO Shining Flare Wingman, ATK 2500 ATK 4900]

Attack power 4900!? The audience was shocked.

What kind of fight I saw today!?

The Egyptian gods exited the stage one after another, but I didn't expect that it was just the beginning!

The exchange of moves and the reversal of trump cards in this duel simply exceeded the limit that all ordinary duelists in this era could imagine!

Regardless of the outcome, the gold content of this battle has already reached a new height. No matter which of the two sides won, no one dared to be not convinced.

Is this your full strength, Yuei Vu? Sure enough, you are very strong. Yugi smiled, But you should also know that even so, the attack power of the Shining Flare Wingman can't surpass that of Dark Cavalry!

Not only that! With the use of Spell Trap Cards, the attack power of the Dark Cavalry will be further improved!

After summoning the Dark Cavalry in the last turn, Yugi used the Spell Card Quick Attack, and one more card was set on the field, so the attack power of Dark Cavalry increased by 200.

The Spell Cards used by Yuei Vu in this turn were Card of Demise, Forbidden Chalice, Polymerization, and Fusion Recovery, a total of four cards, so the attack power of the Dark Cavalry has been increased by 400 again.

[Dark Cavalry, ATK 5000 ATK 5600]

Snow Wave under the stage clenched his fists in anger: Damn! Shining Flare Wingman's attack power is already 4900, but it still lacks 700 points!

It's not over yet, Yugi. Yuei Vu chuckled, In order to respond to your full strength, I have to go all out on my side, show the limit that I can achieve now, and use my true full strength to deal with it!

So, look at it, this is my limit!

Yuei Vu inserted the card into the Duel Disk and shouted: Equip Spell Favorite Hero! This card can be equipped only to a Level 5 or higher HERO monster. I will equip it for Elemental HERO Shining Flare Wingman!

Equip Spell? Yugi was stunned for a moment, then suddenly realized, That's it! That's why you forced me to use the effect of the Dark Cavalry

That's right, Yuei Vu smiled, If you still have cards in your hand, you can now use the special ability of the Dark Cavalry to negate Favorite Hero.

So it is your true purpose. Yugi understood.

Entering the Battle Phase! Yuei Vu shouted, At this moment, the effect of Favorite Hero is activated! I can activate 1 Field Spell directly from my hand or Deck!

Field Spell? So you say it's coming? said Yugi, A stage suitable for heroic battles?

That's right, it looks like you know it too. Yuei Vu also smiled, I'm going to activate Field Spell Skyscraper from the deck!

The earth trembled, and the reinforced concrete building rose up in an instant. The dark building, the steel structure, and the image of the bright moon hanging in the sky, and the hero who shines with divine brilliance floats in the air.

Next is the effect of the Favorite Hero! Yuei Vu continued, If there is a card in my Field Zone, the equipped monster gains ATK equal to its original DEF, also the opponent cannot target it with card effects!

The Shining Flare Wingman's DEF is 2100, so now his attack power

[Elemental HERO Shining Flare Wingman, ATK 4900 ATK 7000]

Jonouchi was dumbfounded: Attack attack power 7000!?

*What kind of monster is this?*

*It turns out that there is still such a terrifying attack power in this game?*

Facing such a power, even the most powerful monster of Kaiba, Blue-Eyes Ultimate Dragon, is nothing but a small fry, right?

Attack power 7000 Yugi said solemnly, Sure enough, Yusei, you are the strongest duelist I have ever fought against.

You are praising me too much, its just luck.

Yusei said with a smile, and at the same time, intentionally or unintentionally, turned his head to look at the Dark Magician Girl beside him.

*Of course, I have to thank my spirit partner to a large extent.*

Dark Magician Girl also blushed pretty at this time, and seemed to be excited about the duel that was gradually entering its climax. She clenched her fists and cheered her master silently, and at the same time hoped that this attack would directly establish the victory and decide that her master would directly win the title of Duel King

*Speaking of which, what did the master keep watching me?*

Because of the appearance of Skyscrapers and Favorite Hero on the field, the attack power of the Dark Cavalry has been further improved.

[Dark Cavalry, ATK 5600 5800]

Of course, the impact of this improvement has been minimal.

The Shining Flare Wingman also inherited the effect of its fusion material Flame Wingman and could deal damage equal to the original ATK of the monster destroyed in battle.

If this blow was passed, the victory would be established directly!

Continue to fight, this is the last blow!

At least thats what Yusei hoped from the bottom of his heart.

Shining Flare Wingman, attack Dark Cavalry! Yusei gave the final attack order for this duel, Shining Flame Shoot!

The metal hero received the order and launched an extremely fast charge!

He turned into an afterimage, with a transparent white flash behind him, like a bullet piercing through the space, roaring and charging towards the magical cavalry.

Facing the aggressive charge of the high-tech warriors in front of him, the faithful servant on the magic side was not far behind, with a pitch-black flame all over his body, he raised his spear and launched a charge.

The two forces, one light and one dark, collided violently, the light and dark broke out alternately, and the surging energy was released.

What how is it? Jonouchi forced himself to open his eyes with difficulty, trying to confirm the situation on the field.

This was also the question that everyone was most concerned about.

*What was the result of the duel?*

*Did Yugi lose?*

The terrifying energy of the two collisions gradually dissipated, the smoke screen gradually dissipated, and the image on the duel field recovered.

The first thing that grabbed everyones attention from the smokescreen was the Shining Flare Wingman with holy light shining all over his body and gorgeous special effects. At a glance, everyone saw that this handsome hero was still safe and sound on Yusei's field, and Yusei, who was guarded by him behind him, looked equally safe.

Yusei, LP 500

Jonouchi was surprised: Then Yugi is lost???

No that's not right. President Kaiba couldn't keep his composure at this moment, his eyes widened, and he wished he could quickly climb up the stage to personally confirm the situation.

Immediately afterward, the figure of Yugi also appeared, and he was also safe and sound. Even the Dark Cavalry on his field was still there.

Yugi, LP 2000

It's a pity, you indeed had a good chance of just now. Yugi smiled and expressed appreciation, and at the same time a card in the GY area popped up, But the moment the attack is declared, I used the Electromagnetic Turtle's effect!

Once per Duel, during the opponents Battle Phase, I can banish this card from my GY to end the Battle Phase!

Electromagnetic Turtle Kaiba retracted the neck that stretched like a giraffe, folded his arms, and returned to a calm look, This is a card previously discarded as the cost of Dark Cavalry's effect?

Hmph, the calculation is quite far, and when the attack power of the Dark Cavalry still has an absolute advantage, he has already been on guard against such a move.

But he is Yugi after all, so it's only natural to do this

As expected of Yugi. Yusei closed his eyes gently, smiled, and then suddenly opened his eyes.

*But, yes, it doesn't matter!*

*Today I will also perform a real divine draw!*

Yusei raised the card in his hand the last card in his hand.

Activate Spell Card Surprise Attack from Beyond! (animation card)

What!? Everyone was shocked at the same time.

There have been too many reversals in this round. The fierce offensive and defensive exchanges were dizzying, and the unexpected unfolding one after another even made everyone feel a little numb.

But this card was definitely the most familiar to Marik.

In the original animation, it was Yami Marik who used this card in the final, giving the Sun God in the form of a phoenix a second chance to attack Yugi.

Since Marik had consciously handed over the entire deck to Yuei Vu at the end of the match, this card naturally changed its surname to Vu.

Surprise Attack from Beyond can only be used at the end of the battle phase! explained Marik's friend in charge, who had been washed white. The player can conduct the Battle Phase again, then only one monster summoned within this turn can attack again!

It can attack again!?

Miss Anzu was so worried that she couldn't help but cried out, Yugi!

Fight again! Yuei Vu shouted loudly, Elemental HERO Shining Flare Wingman, attack! This time, destroy the Dark Cavalry for real!

[Dark Cavalry, ATK 5800 ATK 5900]

Because of the appearance of Surprise Attack from Beyond, the attack power of the Dark Cavalry continued to increase.

In most situations, 5900 ATK was insurmountable. However, at this time, it was meaningless in front of the Shining Flare Wingman.

[Elemental HERO Shining Flare Wingman, ATK 7000]

This time, Yugi finally had no means to resist this attack. Shining Flare Wingman's charge ripped apart the magic power blasted by the Dark Cavalry, knocked off the spiral spear, and the latter swirled continuously in mid-air.

The silver bullet-like impact ripped apart the body of the cavalry, and the horse let out an unwilling cry before dying. Technology triumphed over magic, and the invincible knight was torn to shreds in the sky-high blast.

Yugi, LP 2000 LP 900

Yugi subconsciously raised his hand to block in front of him, and at the same time, his body took another half-step back due to the impact.

This is the real end! Yuei Vu continued shouting, Shining Flare Wingman's effect is activated! If this card destroys a monster by battle and sends it to the GY, inflict damage to the opponent equal to that monster's original ATK in the GY!

The original attack power of the Dark Cavalry is 2800. So take 2800 effect damage, Yugi-san!

After breaking through the obstacles, Shining Flare Wingman soared high into the air, then dived and fell to the front of Yugi, folded his arms, and his whole body shone with light.

Yuei Vu's pupils shrunk, feeling as if his heartbeat had disappeared.

*I win!*

*This time I really won!*

*I really did it! I become the champion of the Battle City and get the title of Duel King!*

I see, there is such an effect Yugi suddenly said to himself.

Obviously, he didn't know that the Shining Flare Wingman had the effect of additional damage before.

Yugi suddenly raised his head and chuckled lightly.

It is indeed a very powerful special ability. If a duelist is not careful, he may be killed instantly. But at this moment, this powerful effect has become a burden.

Yuei Vu had an extremely ominous premonition, and at the same time, his eyes quickly focused on Yugi's feet

There is also a set card!

Throughout the history of Yu-Gi-Oh, has there been a duel in which the set card was not useful in any way?

It seemed that there was no one.

At the moment when your Shining Flare Wingman activates the effect, my set card also activates! Yugi shouted, Counter Trap Face-Off!

If a Spell/Trap Card, or monster effect, is activated when two monsters are fighting: Negate the activation and destroy that card!

What!? Yuei Vu was taken aback.

*Did Yugi still have this trick?*

According to real-life rules, it should be a card that can only be activated during the Damage Step of the battle. And after the Dark Cavalry was destroyed, the Damage Step should also be over.

However, the battle process in this period of DM was obviously not so carefully divided. Many cards in real life would be stated in the actual card text that it could only be activated at the time of the attack declaration or when the damage is calculated, but in the manga, it would be described simply as when two monsters are fighting.

It's a pity, Yuei Vu, if the effect is successfully activated this time, I will lose 2800 LP and lose this duel, Yugi said, but according to the Face-Off, the activation of the ability of the Shining Flare Wingman will be invalidated, and it will also be destroyed.

And because this effect doesn't target a specific monster, your Equip Spell Favorite Hero can't protect your monster from this effect!

Beautiful counterattack! Jonouchi was overjoyed. As expected of Yugi, there is still a trump card like this in the end!

Kaiba also snorted: Is the outcome finally decided this time?

Shining Flare Wingman was destroyed, and Yuei Vu had no cards left in his hand, so he could only face the next turn of Yugi with an empty field.

Moreover, he had only 500 LP left. In such a situation, it was basically equivalent to a death sentence.

By this time, the reversal of this duel was enough.

Both sides in this duel have exhausted everything, and they have used all their cards. Even if they were defeated now, absolutely no one would underestimate Yuei Vu because of this result.

But is this really the end?

Okay, you are really good. Yuei Vu smiled helplessly, I originally wanted to take a gamble, surpass my limit in this, and try to see if I have a chance to defeat you

but unfortunately, it always seems to be lacking a little bit. It is really not that easy to surpass the Duel King.

But at the same time, I have tried my best. Yugi laughed, You have played well enough. This is also my last resort, and I have no other trick left.

The implication was that this is my last printed card, and even I feel it is too much to print again

Yuei Vu closed his eyes.

Since that's the case then let me show the respect you deserve. He opened his eyes, and showed a solemn expression.

*Let me borrow your power again, President Kaiba!*

Open the set card! Yuei Vu shouted, Trap card Ring of Destruction!

What!?!? x10086

Everyone in the audience was shocked, especially President Kaiba who entrusted his younger brother to hand over this Ring of Destruction to Yuei Vu.

Actually at this last moment, was there a Ring of Destruction hidden?

Yugi immediately understood: Is it a card that has been set in the last turn?

That's right. Yuei Vu smiled, Ring of Destruction is a card that destroys a monster on the field and inflicts damage equal to the monster's ATK to both players.

Originally, before you summoned the Dark Cavalry, I had the opportunity to try the Ring of Destruction to blow up the Flame Wingman on my field, which will also directly lead to the current ending.

But I still want to try to surpass you but I still can't do it.

After all, he used a Thousands of Years Banned Card. There was a reason why Ring of Destruction was called Ring of Forced DRAW.

Yuei Vu shrugged helplessly.

Humans always had to know and be content.

At this point, he has done everything he could, and he had nothing to regret.

So in the end, at least allow me to turn the table over.

So it is. Yugi smiled lightly, and closed his eyes, That one blow full of your fiery determination, Ill do it next!

Favorite Hero would make the equipped monster cannot be targeted by the opponents effect, but the Ring of Destruction was activated by Yuei Vu himself, so he could still target the Shining Flare Wingman.

Originally, according to the actual card rules, Ring of Destruction, as a Normal Trap Card, could not be activated as a chain to the Counter Trap Card Face-Off. However, there was obviously no statement about the Speed Spell in the current duel rules.

If it must be judged according to the actual card rules, in fact, both sides had used their BISS ability, and no one had the right to complain

Ring of Destructions effect is activated! Yuei Vu raised his hand and shouted, Destroy my own Shining Flare Wingman, and then both of us will simultaneously receive damage equal to the current attack power of the Shining Flare Wingman

thats a total of 7000 damage!

The Ring of Destruction was launched, and the flashing hero exploded in the center of the field, bursting into a group of sparkling fireworks, and at the same time bringing the end of the long duel.

Yugi, LP 900 LP 0

Yuei Vu, LP 500 LP 0

Chapter 178: Who Is The Champion?

Ring of Destructions effect is activated!

This was Yuei Vus last card, the last move he could use in this duel, and the moment he used this move, it meant that he has given up the idea of defeating Yami Yugi.

Ring of Destruction can destroy a monster on the field, and deal damage to both players by the amount of that monsters ATK! I destroy the Elemental HERO Shining Flare Wingman on my field, and both of us will receive the ATK of the Shining Flare Wingman thats 7000 damage!

The ring fell on the neck of the Shining Flare Wingman, and a circle of grenades hanging on the ring detonated in unison. The flashing hero exploded on the spot, all the power contained in his body was released, and the strong impact of the outbreak knocked both sides to the ground at the same time.

[Yuei Vu, LP 0]

Yugi, LP 0

The thick smoke of the explosion swept the audience, and the light effects and airwaves were so overwhelming that everyone in the audience could not raise their heads for a long time.

The smoke screen dissipated, and the duel was over. All the stereoscopic projections on the stage have been automatically turned off, and the images of monsters and cards have disappeared.

Leaving only Yugi and Yuel Vu, lying on both sides of the duel arena.

For a long time, there was a strange silence in the field.

This was mutual kill!?

Everyone was dumbfounded for a while, not even the referee, Uncle Isono, reacted.

No one expected such an outcome at all, and it was impossible for anyone to predict it in advance. After all, DRAW was a scarce result in the Duel Monsters card game, and generally speaking, it was not considered at all.

Uncle Isono hesitated for a while until President Kaiba said indifferently: What's the matter, Isono? Hurry up and announce the result.

Ah? Oh, yes

If the boss has spoken, then a wage earner couldn't neglect his words. So Uncle Isono quickly raised his hand: In this Battle City competition, the result of the decisive battle is a DRAW!!!

What? Kujaku Mai in the audience was shocked, The final result is it a draw?

Jonouchi was stunned: Then how will the bonus be divided?

As soon as these words came out, he immediately attracted the contemptuous eyes of President Kaiba.

The president snorted.

*What an incompetent horse bone!*

*Look, besides you, who else among the honorable duelists here cares about bonuses?*

*These things are just icing on the cake! The duelists who came here to win, who did not fight to the end with all their might for the supreme glory?*

At this time, the relaxed Yuel Vu, who finally finished Yugi, lay on his back on the dueling platform and looked at the clouds drifting leisurely in the sky, thinking: Jonouchi was right! What about the bonus? Do I need to share half with Yugi?

Yuel Vu took a deep breath, sat up straight again, and found that Yugi also happened to sit up in the same posture as him.

Both sides kept a half-lying and half-sitting position, looked at each other from the air, and suddenly laughed together.

Sure enough, even if his Rank has improved so much, and he has breakthrough to Rank 7 like a traditional hot-blooded protagonist, it was still a little difficult to beat Yugi at this stage.

It was thanks for the Card of Demise and Ring of Destruction in the box of cards that Mokuba gave him after leaving Noah's virtual world. If Yuel Vu lacked one of them, the result must be his defeat.

Especially the Ring of Destruction. Because it had almost no restrictions on its use, could forcefully explode monsters and cut down LP without thinking, and occasionally even force a DRAW with self-destruction like Yuel Vu, it has also been a frequent visitor in the forbidden list since the DM era.

Until 2015, Consortium K modified the effect of Ring of Destruction, adding the restrictions of can only be activated in the opponents turn and the attack power of the destroyed monster must be less than or equal to the opponents HP, and the effect processing was changed from both sides reduce LP at the same time to Reduce your own LP first, and then reduce the opponents LP.

That was to say, if your HP was reduced to 0 first, then you would be sentenced to lose. Therefore, after modifying the effect text, the Ring of Forced DRAW no longer existed.

Fortunately, the Ring of Destruction that Yui Vu got in his hand was sponsored by the president, so it was the anime version. Otherwise, it may not be so easy to make a DRAW.

That was a fun Duel. Yui Vu couldn't help but utter a certain Yu-Gi-Oh! line but he said it from the bottom of his heart.

There was no Shadow Game, no risk of life, no punishment for defeat, only the strength of the duelists on both sides.

Perhaps this was precisely the arrogance of the game called Duel Monsters.

Ah, I think so too.

Yugi stood up, stepped forward, and shook hands with Yui Vu.

The end of this journey is a duel with you. It's really nice.

It was often said in the world of Yu-Gi-Oh that for duelists, a duel was also a process of in-depth communication between the two sides, a collision of souls. Through duels, even opponents who met for the first time could understand each other's personalities and thoughts.

So now Yui Vu and Yami Yugi can barely be regarded as good partners who have played cards together.

From the establishment to the sublimation of revolutionary friendship, it all depended on a card.

Hmph, was it actually a tie in the end? The president stepped onto the stage and hummed, It's really boring.

Kaiba. Yugi turned his head sideways.

Don't worry, it's a bit unexpected, but since the result is like this, so be it. Kaiba said lightly, The champion of this Battle City competition is the two of you.

After a pause, he glanced sideways at Yui Vu: Congratulations, you and Yugi share the title of Duel King from today At least for now.

Yui Vu raised his eyebrows.

*What does the president mean by this?*

For Yugi, President Kaiba has never won once in the many times they dueled. But how could the president be willing to bow before someone who had never beaten him?

Sooner or later, as long as Yui Vu still had the title of Duel King on his head, the president would definitely find a chance to play cards with him.

Thinking of this, Yui Vu couldn't help but feel a chill under his body for no reason.

Being targeted by the president I'm afraid I won't be able to escape even if I go to the world of the dead

but that's something to consider in the future.

Yuei Vu coughed twice: Well, President. Since the game is over, about the reward

What he was concerned about by now was what would happen to the monetary prize for the champion. To Yugi or to himself?

At this time, Yugi has switched from battle mode back to the usual cute appearance. The main personality Yugi Muto generously waved his hand: I don't need the bonus, you can just take it, Yuei Vu.

Ah? Yuei Vu was embarrassed to take it after he said that. Isn't that bad?

It doesn't matter, I'm not short of money. Yugi Muto smiled honestly, Because I won Pegasus in the Duelist Kingdom before, according to the bet with Pegasus, I have 60% of the shares of the Industrial Illusions, so money does not matter.

Yuei Vu:

*MD, I thought everyone was poor, but I didn't expect everyone except me to be rich!*

*Yugi, you are so rich, why do you dress like a normal student?*

Hmph, since we promised the championship bonus, Kaiba Corp will naturally not break his promise as the organizer. Kaiba snorted coldly, Since there are two champions, you will all receive the bonus.

Yuei Vu immediately respected the president.

*As expected of the president! The president is awesome!*

*The bonus was given out in double, and he didn't even blink an eye!*

Yuei Vu wanted to express his thanks, but the president waved his hand impatiently and interrupted: No need to decline or something. It's very troublesome. Anyway, I've already made up my mind, so I'll do it this way.

Yuei Vu:

*President, why do you acquiesce that I want to decline before I speak?*

Sure enough, the brain circuits of rich people were different from ordinary people.

Chapter 179: This Thing Tricked Me!

Ding!

Hidden Achievement Achieved: Destroy the Destructor Defeat Yami Yugi and Obelisk the Tormentor in a duel!

Hidden Reward: [Obelisk the Tormentor]. Please check it in the system card library.

This time, Yuei Vu was a little surprised.

He originally thought that the final achievement would not be able to be completed in a draw in this game, and he would not be able to get the last Egyptian God. He was a little regretful that he could not achieve the Obelisk.

But he didn't expect the system to be so generous. Although the result was a DRAW, it seemed that as long as the LP of Yami Yugi was reset to zero, the achievement is considered to be completed, so the system still spat out this Obelisk.

Of course, it was the real-life version.

However, correspondingly, Yuei Vu was not considered to have won the duel. According to the rules of Battle City, the winner could take a rare card from the loser. But since no one won, neither side could take the rare card from the other side.

At this time, Yugi was a little hesitant, and after a long struggle, it seemed that he made up his mind and said, That Yuei Vu, although it is very willful and presumptuous to say that, but I have a request. It's about the god cards, right? Yuei Vu interrupted.

Yugi was stunned for a moment, then nodded lightly.

You have won all the way here, the God card is indeed your property. But these three cards are very important to the other me, so

Yami Yugi, who was in the spiritual state behind his back, was a little moved at this time: AIBO

Although Yami Yugi still couldn't remember who he was, for the time being, he already knew that the Three Egyptian God Cards were the key for him to retrieve his memory and piece together his life.

In fact, including this entire Battle City competition, everything had nothing to do with Yugi Muto. So far, they have risked their lives to win the battle of the gods and Shadow Games, in fact, all to retrieve the lost memory of Yami Yugi.

Sure enough, AIBO is the best

It's okay, I understand. Yuei Vu shrugged, When you need it, just come and borrow it from me at any time.

Yugi's eyes widened: Is it really possible?

No problem, but there is a condition. Yuei Vu smiled lightly, You borrowed Gods cards because you need them as keys to open the door to the pharaoh's lost memory, right?

Yugi nodded: Yes.

Then when you are ready to go to Egypt and open the door of memory, I want to go with you. Yuei Vu said, I also want to witness it myself.

In fact, this was the original use of Three Egyptian God Cards.

Anyway, these arrogant gods couldn't be commanded. If you wanted to use them in a duel, you would get divine punishments. Even if you didn't use them and left them in your pocket, you would attract unwanted attention from every kind of underground force.

But in addition to their practical value, these three cards were SSS-level quest items that ran through the entire Yu-Gi-Oh! DM!

If Yusei Kashi lost to Yugi in the final, then the final ending would be the same as the animation Yugi took the God cards and went to Egypt with his friends to open the Memory World, triggering the plot of Pharaohs Memories arc.

Obviously, in that case, the final mission would have nothing to do with Yusei Kashi.

But now that the two god cards were in Yusei Kashi's hands, he naturally had the right to speak.

Although these two cards were temporarily useless, they were the ticket to the plot of the final chapter.

And through this Battle City match, Yusei Kashi also discovered a fact.

According to the animation settings, the three god cards were all unique and only one copy existed. In the finale of Yu-Gi-Oh! DM, all three cards were taken to the underworld by Atem, and the Egyptian gods have disappeared from this worldview since then.

But if the card was gone, it didn't mean that the Egyptian gods didn't exist anymore.

For example, in Yu-Gi-Oh! GX, under very special circumstances, a character used a copy card to call out The Winged Dragon of Ra.

For example, in the movie Yu-Gi-Oh! The Dark Side of Dimensions, one year after the god card disappeared in the underworld, President Kaiba also performed the unique skill of printing card from the floor, and summoned Obelisk the Tormentor.

This meant that even if the card was gone, the Egyptian gods always existed. They just lost the medium to descend to this world.

But it's different now. In addition to the three original God cards, Yusei Kashi also had three God cards from the system reward. It has also been discovered through the previous duels that the cards rewarded by the system were also recognized by the Egyptian gods, not fake cards or copies, and can also be used as a medium for the Egyptian gods to descend.

So when Pharaoh returned to the underworld with three original god cards, the cards in Yusei Kashi's hand would become a unique existence in the world.

At that time, the three Egyptian gods produced by the system may be strengthened like the Sky Dragon in Yusei Kashi's hand and because it was produced by the system, even if Yusei Kashi was neither a priest nor a Millennium Item holder, he should be able to control the gods.

So from Yusei Kashi's point of view, the advancement of the plot would definitely benefit him, it's just a matter of how much benefit he got.

Strictly speaking, he was actually selfish.

But the kind-hearted Yugi didn't think so at all, and he looked overjoyed: Thank you! Thank you so much! It's true what Jonouchi said, Yusei Kashi, you are really a good person!

[Favorability +1, +1, +1, +1]

Yusei Kashi:

Yugi's words made Yuei Vu feel a little embarrassed, and even wanted to say: No, no, let's be honest, I'm just greedy for the body of your Egyptian gods, but they refuse to obey me now

And you're so strong in a duel. Yugi said with a smile, I've never seen the other me being defeated until now

Yami Yugi, who was in the spirit state, pouted and folded his arms a little unhappy: It's just a draw, I didn't lose

(Yami Yugi's favorability towards Yuei Vu has dropped slightly)

Sure enough, you are the strongest duelist we have ever encountered. Yugi continued, But we will continue to become stronger! Sooner or later, we will have a chance to fight again, right? We will definitely win next time!

Before Yuei Vu had time to answer, he suddenly felt a chill somewhere behind him for no reason, and had an extremely bad premonition. He turned his head subconsciously and saw the gloomy president staring at him with death glares

He didn't know what the president was thinking, but he could probably guess it.

*The strongest duelist? Does it mean that I, Kaiba Seto, don't count?*

*And*

*Damn Yuei Vu, how dare you take my Yu gi!*

*Unforgivable!*

Yuei Vu:

At this moment, Yuei Vu suddenly realized that this was a very serious problem.

*I want to ask, what should I do when I travel through the Yu-Gi-Oh! DM world, and at the same time, I am targeted by boss No. 1 Yami Yugi and boss No. 2 Kaiba? It's a hurry, I'm waiting online*

He looked back at Yugi Muto, who looked harmless to humans and animals, and even looked at himself with respect. Yuei Vu suddenly couldn't help thinking

*This thing tricked me!*

In just a few words, he made Yuei Vu attract the aggro from the two bosses. The degree of black belly was terrifying!

In this way, the Battle City Tournament was officially over.

President Kaiba generously said that the bonuses for both of them would not be small. Originally, only one pure gold trophy was prepared. He also arranged for someone to step up and make an identical one.

However, from the fact that there was no selling tickets or broadcasting, the only thing the president cared about was the card game itself, and he has never been interested in formal things.

Such a grand event didn't have even a serious award ceremony. The referee made an oral announcement, issued a trophy, a bouquet of awards, etc., and then the Kaiba Group announced it to the world, even if the coronation ceremony of the Duel King was completed.

Because there was only one winner originally, there was only one trophy and one bouquet for the time being. So everyone summed it up, the trophy was taken back to the Yugi first, and Yuei Vu first got the champion bouquet specially designed by the flower master of the Kaiba Corp.

Although Yuei Vu didnt care about this kind of thing, he received a large bouquet of flowers from the president It felt a little weird

## Chapter 180: There Is A Duel King In The House

The Battle City competition officially ended. Optical fiber and electrical signals are like wings, and in the blink of an eye, the battle report of the final flew around the world and flew to the players forums.

At this time, the players were in a state of extreme excitement.

Duel King! Yuei Vu got the Duel King title!

Look, have I said it long ago? Yuei Vu is the real protagonist of the world!

Miss Yuehua, who was brought aboard by Yuei Vu as a camera tool, was really ecstatic now.

Her live broadcast room was the most popular one in history!

Its the number one in her partition No, its number one on all platforms!

Happiness came too suddenly, and life suddenly reached its peak. And all of this was thanks to Yuei Vu-san.

Now she was standing under the stage, blushing to look at Yuei Vu, her heart was racing.

She now thought that even if Yuei Vu wanted to ride on her, she might agree

Snow Wave on the side even held his head high, walking like he was looking down on everyone.

He, Snow Wave, the man who almost beat Marik, almost took The Winged Dragon, and almost entered the semi-finals of the Battle City!

But more importantly, from now on

He was the servant of a Duel King!

*No, no, no, just need to stop but its driving me crazy*

A tournament like Battle City was already the top DM competition in the world at present No, or it should be said that it was the only one.

After all, its not like there were other organizers with the power and wealth to stop the daily operations of an entire city and make way for all the cards.

A competition of this scale and level would naturally attract the attention of the whole world, especially the inner world of underground duelists.

In fact, this game has a closely related impact on the world. After all, this game involved the Tomb Keppers clan; Marik Ishtar, the leader of the Ghouls, who was rumored to hold The Winged Dragon of Ra; and the one who defeated the father of Dueling Monsters Pegasus; the one who was regarded as the strongest Shadow Duelist Yugi Muto.

Almost everyone knew that the Ghouls were established by Marik in order to avenge the Pharaoh whose soul resided in Yugi. For this purpose, he did not hesitate to mess up the entire underground world a while ago.

So no matter what the result of the game was, it would definitely have a big impact on the entire world.

However, those influences were also follow-up. The most direct and closely related influence on the duelists in the world was

about the bet on this game!

One side was Yugi Muto, who won against Kaiba Seto many times and then overcame all obstacles in the Duelist Kingdom to defeat Pegasus, the first one who held the title of Duel King. The other side was Yusei Fudo, who only had one encounter with Kaiba Seto and the result of that duel was undecided

Any gambler with a good mind must know which side to buy. Almost no one felt that Yusei Fudo had the slightest hope in this final.

However, the Nightcrawler World association was different.

The men of the Nightcrawler World, led by President Kawasaki, all bet on Yusei Fudo spontaneously.

Although they didn't have much hope for Yusei Fudo in this game, it didn't matter. After all, he was one of them, and they should support him.

Every time the situation changed, LP dropped or situation reversals in the whole game gave heartache to gamblers all over the world.

When Yugi called out Obelisk and used the Soul Energy MAX ability, everyone thought the game was over at that time.

None have expected that Yusei Fudo not only blocked this move, but even called out the Sky Dragon very quickly, and the two gods perished together.

Immediately after that, Dark Cavalry was printed on Yugi's right on-site. Yusei Fudo fought tit-for-tat, deceived the cavalry's two negations, and called out the Shining Flare Wingman, and then there was the final attack and defense of the two sides

Without 30-50 quick-acting heart-rescue pills at hand, most people may not be able to watch this final till the end.

However, the update of the battle report, the change of data, everything was not as terrifying as the final result.

A draw.

At this moment, the organizer Kaiba Corp officially announced the battle report. A new Duel King was born.

The Nightcrawler World side was silent for a while, then the whole house burst into cheers.

*Duel King! There is a Duel King among us!*

Because a draw was almost unprecedented, and it has never happened in dueling monster competitions, there was no rule on how to deal with this situation.

After a temporary emergency discussion, the final result was that the bet was also treated as a draw, and all the principals of both sides of the bet were returned.

Although they didnt make any money, it didnt stop the men in the world of Nightcrawlers from raising their glasses excitedly.

Look at Mr. Kurota, he didnt wear a shirt, held up a glass of wine that was suspected to be able to be ignited, and shouted, Drink! Everyone must drink today!

Yuei Cannot Escape Fae, the player who has become a good brother to him, threw the glasses in his hand to the ground, and raised his glass with the same excitement: Come on! Well go wild tonight. Dont think to go back with your clothes on!

There was also a group of muscular men hugging each other excitedly and playing a wrestling game of unknown meaning.

It was said that Manager Nanmoku was originally with his Mimi or Meimei at this time he didnt seem to remember clearly. But after receiving the news, he put down the affairs at hand without saying a word and quickly ran back to the headquarters to celebrate.

President Kawasaki Gai sat in his chair when he saw the battle report, and after a while, he grinned stupidly and laughed dryly.

*Duel King!*

*Although I have long thought that Yuei Vu is very powerful, the problem is that this is too powerful!?*

President Kawasaki Gai quickly regained his senses, slapped his head, and cursed himself twice.

*Why am I giggling alone here?*

*Hurry up! Its time to show off!*

So he immediately called the leader of another underground organization he knew: Hello? Thats right, its me, hahaha! Did you hear that too? Oh, Im so worried, this new kid really knows how to cause trouble for me. I didnt expect that he accidentally fought a Duel King, hahahaha

President Gai kept spitting nonsense for a long time and hung up the phone after saying a lot of unnutritious content, but he still didnt know what to do, so he called another organization leader.

Is it President Ping Hai? You know it too? Hahaha, the news of this era spreads so fast! Who knows? Suddenly, there is a duel king in the house

Oh, by the way, the annual friendly match between our organizations is about to be played, isnt it? I remember that you guys won last year, right? Your newcomer last year was very fierce!

Lets continue to learn from each other this year! The game punishment dont go too far, after all, a friendly match is just a little interesting. Its better that those who lose will never have hair, hahahaha

President Ping Hai on the other end of the phone:

*A friendly match? Friendly my ass!*

*You have a Duel King! A Duel King! Who is stupid enough to fight with you?*

At this time, President Ping Hai used his eloquence as a high-level leader to say that he has been busy with organizational affairs recently, and he really couldn't make the time. Although he really wanted to play this game, he had no choice but to decline

President Kawasaki Gai said that he understood, and at the same time he thought to himself

*Busy? Busy my ass! I know you are afraid of our Duel King!*

Thinking of how this guy won the game last year and looked so arrogant, President Kawasaki had one word in his heart at this moment

Satisfied!

Of course, his show-off has not finished yet. There was also a list of elders in his contact list. It seemed that he was busy enough today

The only fly in the ointment was that he could only find one person at a time, which was time-consuming and labor-intensive.

The president even started thinking, if he could create a group chat to pull all the miscellaneous presidents, bosses, leaders, etc. into the group. Everyone would listen to his show-off together, and even show mutual admiration in the group. Wouldn't it be beautiful?
