

I Play Yu-Gi 241

Chapter 241: It Will End Soon

My turn, draw!

When it was Aaron's turn again, he snorted and smiled, with an expression of success.

Such a fierce attack from the very beginning. It is indeed powerful, but you have fallen into my trap. He sneered. First of all, in my Standby Phase, the effect of Treeborn Frog that entered the graveyard last turn will be activated!

During my Standby Phase, when there are no Spell or Trap Cards on my field, Treeborn Frog can be revived from the graveyard!

The holy light that fell from the sky guided the frog that fell into the underworld to return to the field. The little frog with the halo on its head crouched and landed in front of Aaron,

[Treeborn Frog, DEF 100]

Activate Spell Card Pot of Greed, and I draw two more cards from the deck.

Then there is this fate-determining card. Activate Field Spell Card The Seal of Orichalcos!

The Field Spell was inserted into the Duel Disk from the side, and sky-high energy was released from the Duel Disk. The green light swept across the ground like mountains and seas, like magnificent waves. The huge energy field drew a circular magic circle on the ground, excluding anyone other than the two warring parties from this independent space.

The Seal of Orichalcos, the greatest gift given by God to mankind. Of course, you don't need me to repeat its ability, do you?

Aaron drew another card from his hand.

Next, I will use Treeborn Frog as a sacrifice, and perform a Tribute Summon! A powerful emperor who freezes everything and has the ability to freeze the world.

Mobius the Frost Monarch!

The figure of the Treeborn Frog disappeared in the whirlwind of ice and snow, replaced by a giant shadow descending from the flying ice and snow! The burly ice emperor stepped heavily on the ground, and the ice released from his feet covered the ground, and the thick layer of ice seemed to freeze the air.

[Mobius the Frost Monarch, ATK 2400 ATK 2900] (enhanced by the effect of The Seal of Orichalcos)

At this moment, the set card in Yusei's back row was also frozen by the cold air that descended from the emperor and shattered into pieces with a crackling sound.

Impressively, it was the Counter Trap Card Negate Attack.

Spells and traps will not work in front of the Frost Monarch. Aaron sneered. When this card is Tribute Summoned: I can target up to 2 Spell/Trap Cards on the field; destroy those targets.

This surprised Yusei a little, he didn't expect this guy to use Frognarch's deck.

Although the Monarch series had been used in Yu-gi-oh! GX, ZEXAL, and ARC-V; the Frognarchs deck that paired Frog and Monarch has never appeared in the animation. This was one of the meta decks a long time ago, and it also had a good combat power in the environment at that time.

It's no wonder that the players were not the rival of this guy. It was still a little difficult to win against Frognarchs with the existing decks of players.

Hey, and because of Orichalcos strengthening, Mobius attack power has already surpassed that of Bladedge but this is just the beginning.

He showed another card in his hand: Activate Spell Card Double Summon! In this turn, I can conduct the second Normal Summon

I use the Mobius the Frost Monarch on the field as a sacrifice!

Yuei Vu raised his eyebrows.

To actually use the Frost Monarch as a sacrifice again

This time it is the emperor who is in charge of thunder and punishes with lightning

Zaborg the Thunder Monarch!

The wind and snow disappeared, and the huge body of the ice emperor dissipated into nothingness in the white storm. Then the sky thunder crashed, and a huge body appeared from the thunder, and the heavy steps were like thunder.

[Zaborg the Thunder Monarch, ATK 2400 ATK 2900]

The effect of Zaborg the Thunder Monarch is activated! Aaron said, If this card is Tribute Summoned: Target 1 monster on the field; destroy that target! Disappear, Bladedge!

The Emperor of Thunder raised his hand and blasted out thunder and lightning. The thunderbolt submerged the metal heros body, and Bladedge let out a soft snort and was smashed to pieces under the bombardment of the thunderbolt.

In this way, Yuei Vus field was cleared.

If you think that after being attacked by Zaborg, you can still have some LP left to survive, then you are completely wrong. Aaron said lightly, showing the card in his hand, Activate Spell Card Monster Reborn!

Resurrect from the cemetery and bring the ice and snow back to this land! Rise again, Mobius the Frost Monarch!

The storm rolled up again, and the white emperor of ice and snow returned from hell.

[Mobius the Frost Monarch, ATK 2400 ATK 2900]

Battle! Zaborg the Thunder Monarch, attack directly!

A churning thunder appeared between the palms of the Emperor of Thunder. Lightning blasted through the air. A cloud of thunder traversed the exposed field, exploding directly on Yuei Vus face, causing him to retreat a few steps, with black smoke rising from his body.

Yuei Vu, LP 4000 LP 1100

Aarons pupils shrank, and his expression turned ferocious with ecstasy.

Final blow! Mobius the Frost Monarch, finish him!

The emperor of ice, bound by the power of Orichalcos, let out a roar, and the hexagram magic circle on his forehead seemed to spin. A strange magic flow passed through his whole body.

The icy storm was released from his palm, and seemed to change into countless whips and blades in the wind. They swung towards Yuei Vu one after another.

At this critical moment, a miracle happened!

The Kuriboh in Yuei Vus hand actually moved again by itself. Without a word, it jumped out of his hand. A small and soft cute, yet extremely strong creature appeared and withstood the bombardment of all the ice and snow!

How touching, I am afraid that only the bond between the real duelist and the card can summon such a miracle.

Kuriboh: Kuri Kuri! (I knew it was me being beaten again==)

What? Seeing Yuei Vu who was unharmed after the storm dissipated, Aaron was surprised, Why havent you become Orichalcos sacrifice yet?

Discarding the Kuriboh from the hand, Yuei Vu explained, can reduce Battle Damage inflicted to my Life Points by 1 of the opponents monsters to 0.

Did you actually block the pincer attack of the two emperors? Seeing Yuei Vu relying on the Kuriboh to block the finishing blow, Aaron was a little upset, Cutdamn, its just a little bit Then I set a card and end my turn.

For some reason, had an extremely bad premonition at the moment when he finished his declaration and handed over the control right to Yuei Vu.

Even if there were two powerful emperors with an attack power of 2900 on the field, they couldnt stop him from feeling unsafe.

It felt as if as if this duel was over.

My turn Draw! Yuei Vu glanced at the drawn card, Summon Elemental HERO Liquid Soldier in attack position.

A stream of water emerged from the ground, transforming into a figure of a hero wrapped in tights and flowing with water all over his body.

[Elemental HERO Liquid Soldier, ATK 1400]

The effect of Liquid Soldier. Yuei Vu said, When this card is Normal Summoned: I can target 1 Level 4 or lower HERO monster in my GY, except Elemental HERO Liquid Soldier; Special Summon it Come on, Elemental HERO Shadow Mist!

The flowing water created a black vortex on the ground, and a cloud of black mist emerged, and the graceful female hero wrapped in tight armor flew back to the field.

[Elemental HERO Shadow Mist, ATK 1000]

Then there is the effect of Shadow Mist. If this card is Special Summoned: I can add 1 Change Quick-Play Spell Card from my Deck to my hand.

Yuei Vu pulled out the deck, found the Mask Change from it, and smiled slightly while showing it to the other party.

Dont blink, He shuffled the deck and inserted it back into the Duel Disk, it will end soon.

Chapter 242: How Can Such A Great God Be Gone?

Seeing Yuei Vu showing the card found in the deck and adding it to his hand, Aaron couldnt help but gritted his teeth.

After two rounds of fighting with Yuei Vu, Doma was no stranger to the characteristics of his new deck.

Aaron clearly knew that this Mask Change was the core of the deck. That card contained quite powerful power. It could instantly transform a hero into a Masked HERO of various attributes during the battle. Not only could it avoid traps and attacks by transforming, but also increase the number of attacks. A versatile card with terrible performance.

But now he has two emperors with an attack power of 2900 on the field, there should be only a handful of monsters that could exceed this attack power, and it shouldnt be so easy to defeat

Activate Spell Card Polymerization, Yuei Vu pulled out a card in his hand.

Aarons eyelids twitched.

Not Mask Change?

I fuse the Elemental HERO Liquid Soldier on the field with Elemental HERO Avian in my hand!

The fusion condition is 1 Elemental HERO monster + 1 WIND monster!

Fusion Summon! Elemental HERO Great Tornado!

The two heroes turned into the azure water flow and green whirlwind respectively and merged along the fusion vortex. A howling gust of wind blew up in space, and the tornado soaring into the sky was like an inverted funnel. The cloak fluttered behind the hero who controlled the gust of wind and slowly descended in midair.

[Elemental HERO Great Tornado, ATK 2800]

An Elemental HERO with an attack power of 2800 But even so, he is still inferior to my Monarch Aaron seemed to suddenly think of something at this point, and couldnt help shrinking his pupils, Oops, this guys special effects

Thats right, the effect of the Great Tornado, Yuei Vu said, When he is summoned, the attack power and defense power of all monsters on the opponents field will be halved!

The howling wind swept towards the opposite field, blowing the huge bodies of the two emperors tottering in the wind.

[Mobius the Frost Monarch, ATK 2900 ATK 1450]

[Zaborg the Thunder Monarch, ATK 2900 ATK 1450]

Aaron gritted his teeth: The attack power of my emperors How dare you

Battle! Yuei Vu waved his hand and ordered, Great Tornado, attack the Mobius the Frost Monarch!

The hero who controlled the storm flew up out of thin air under the action of an invisible force, and a whirlwind was brewing between his palms. The pitch-black storm was like a long dragon, roaring and charging toward Mobius with its teeth and claws.

Its not that easy! Activate Continuous Trap Spirit Barrier!

The trap card in front of Aaron was revealed. At the same time, Mobius and Zaborg each opened a transparent shield, protecting him at the rear.

As long as I control a monster, I will take no battle damage!

Then I just need to get rid of all the monsters. Yuei Vu said lightly, First is Mobius. Great Tornado, continue to attack!

The storm submerged Mobius's body and easily tore his body apart. The white imperial hero turned into nothingness under the gust of wind, and the domain of ice and snow also disappeared.

The storm continued to rush towards Aaron like a frenzied tide mixed with countless sharp blades, but all of them hit the transparent barrier in front of him without causing any substantial damage.

Because of the effect of Spirit Barrier, the damage I receive is 0! Aaron gritted his teeth.

Its not over yet! Quick-Play Spell Mask Change! Yuei Vu played the spell card in his hand, Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute!

I send Elemental HERO Shadow Mist to the graveyard!

Transform! Masked HERO Anki!

A cloud of black mist enveloped the shadow mist girl, and the mist transformed into a solid dark armor and put it on her body. The heroine changed suddenly and instantly switched to the pose of a Masked HERO.

[Masked HERO Anki, ATK 2800]

Continue to fight! Yuei Vu said, Masked HERO Anki, attack Zaborg!

The black hero took a run-up, then jumped up, his body huddled in a series of gyrations in mid-air, followed by a flying kick and swooped down, fiercely going through the huge Thunder Emperors forehead.

The latter endured the strong kicking force, and his body slid back a long way like a runaway train. He roared unwillingly, his body was overwhelmed, and exploded under the force of the hero's kick, his body was shattered into countless pieces.

Of course, the sweeping impact was still blocked by the transparent barrier in front of Aaron.

Again, because of the effect of Spirit Barrier, I take no battle damage.

Although he said so on his lips, Aaron knew clearly in his heart that this was his last struggle.

This was already the limit of what he can do, his full strength. But at this moment, he knew that he had lost, completely lost.

Im sorry, Lord Dartz. Aaron put down the Duel Disk, looked at the opponents hero, and muttered to himself, Im too useless. I failed to protect the branch you entrusted to me, nor can defeat the most powerful enemy

My guilt is beyond reproach. But at least, in the end, let me offer my soul with devotion to be part of the great blueprint of Orichalcos future.

The effect of Masked HERO Anki! Yuei Vu opened the deck at this time, Once per turn, when this card destroys an opponents monster by battle and sends it to the GY: I can add 1 Change Quick-Play Spell Card from my Deck to my hand.

I added the second Masked Change to my hand.

Then activate Quick-Play Spell Mask Change! Send Anki to the graveyard!

Appear again, Masked HERO Anki, No. 2!

The transformation effect of the black mist once again wrapped the black hero, transforming him into another set of Anki armor. With a flick of his arm, he domineeringly swept away the black mist surrounding his body, and when he reappeared, he had transformed into a brand new Anki.

Masked HERO Anki, Yuei Vu pointed at Aaron, Attack the player directly!

The second Anki jumped up, very high, very high. He huddled his body and whirled in mid-air to accelerate, and then he kicked down, like a shell fired from a chamber, and fell towards Aaron with an indomitable momentum.

The heros flying kick hit Aarons chest firmly. The latter let out a muffled grunt and was kicked flying out like a broken rag. His back slammed into the invisible wall of the enchantment, and he fell back to the ground.

[Aaron, LP 1500 LP 0]

The outcome of a game was decided, and The Seal of Orichalcos also responded at the same time. The circular magic circle slowly rotated and shrank towards the soles of Aarons feet.

It was at this moment, outside the building, somewhere in the depths of the sky, a deafening roar sounded, and the thunderous roar spread throughout the city.

Everyone was attracted by that voice. Everyone looked through the window, only to see that the sky outside the window was covered with colorful aurora at some point, like dazzling curtains.

A huge eye opened in the dark sky as if a demon from another dimension coveted this world maliciously.

Hahahaha!!! Aaron, whose soul was about to be taken away, started to laugh at this time, Its too late, its too late! The great god of Orichalcos has awakened, and this wrong world will finally be erased! Under the guidance of Orichalcos, we will move toward the correct future!

Great and Almighty God! Accept my humble soul and give this world divine punishment!

Yuei Vu gave him a blank look.

Why are you so excited? Your great god has only opened one eye now, how can he do anything but look?

Yuei Vu was planning to close release Osiris, and send his own sky dragon up to welcome the big eye with the Superconducting Wave Thunder Cannon, but he didn't expect someone to be faster than him.

A giant dragon soaring into the sky in the night sky, flying over the city, opened its mouth without saying a word, and a golden shock wave hit the big eye in the sky.

Yuei Vu recognized it at a glance. It was the Legendary Dragon Timaeus!

It seemed to be the same as the animation plot. At this moment, Muto Yuki has gone to the Duel Monster Spirit World to unlock the seal of Timaeus, and summoned this legendary dragon to fight against the evil god who was awakening.

The invincible evil god seemed to be in pain, screamed, and quickly closed his eyes and retreated.

The aurora in the sky and all kinds of visions disappeared instantly as if nothing had happened.

It felt as if the evil god, who had been asleep for thousands of years, had just woken up and inquired about the situation sleepily, only to be squirted all over the face by the legendary dragon, so frightened that he hurried back to sleep.

God of Orichalcos: Slip Away.JPG

If the God of Orichalcos was fully revived, a mere legendary dragon wouldn't be worth his attention at all, but it was obvious that he has only opened one eye now.

Of the Thirty-Six Stratagems, fleeing is best. It was shameful to run away, but it worked

Aaron, who had laughed wildly just now, froze for a moment, and his smile gradually disappeared.

What about our god?

How can such a great god be gone?

But he didn't have a chance to figure it out.

The Seal of Orichalcos finally closed, and his soul was drawn away by the green light soaring into the sky and flew into the sky. The loyal believer got his wish and flew across the ocean to the temple of Domas headquarters, where he was engraved on the slate and became one of the countless sacrifices.

Chapter 243: Legendary Dragons

The god of Orichalcos was pushed back to his lair just after showing his eyes. At this time, in Domas headquarters, Dartz's face was also terribly gloomy.

In fact, he never thought that he could revive the God of Orichalcos so easily. If it was really that easy, then he has no reason to wait for more than 10,000 years.

This wave of attempts to call the God of Orichalcos was just a test, to detect how strong his enemies were.

However, he didn't expect that the great god would run away without even taking a chance

The legendary dragon Timaeus Dartz looked a little displeased, as if recalling some bad memories, Are these abominable guys also awakened?

As a result, the situation seemed to start to become more unclear. Even their ancient opponent, the legendary dragons who should have been sealed for thousands of years, has come back to life as if fate was deliberately thwarting Dartz's plan.

Dartz snorted softly, waved his arm, and the torch on the altar was extinguished.

Never mind.

Although the power of the legendary dragon was troublesome, it was not a big threat and would not directly interfere with his plans.

In comparison, the three Egyptian gods were more troublesome. The fully revived God of Orichalcos could ignore any legendary dragons, but three Egyptian gods were still worth being afraid of.

The best result was of course to be able to snatch the three God Cards directly, but it didn't hurt even if they didn't. Dartz also prepared a strategy to deal with the three Egyptian gods.

Dartz stepped down from the altar and walked slowly outside the temple. The heavy stone gate opened slowly, and the torches on both sides of the temple were also extinguished one after another.

The day of resurrection is coming soon.

It won't be long before this wrong world will usher in Orichalcos's cleansing.

Although Yui Vu was far away and couldn't see the situation on the scene, he didn't need to confirm with his own eyes, since he probably knew what was going on there.

It must be Yugi Muto and Yami Yugi who went to the Duel Monsters Spirit World hand in hand, liberated the seal of the legendary dragon, and brought out the newly acquired cheat tool The Eye of Timaeus by the way.

After coming out, they happened to see the big eye of the God of Orichalcos very arrogant in the sky, so they directly summoned the legendary dragon Timaeus, opened his mouth, and sent the evil god back to his lair.

There were three cards of the Legendary Dragon, namely The Eye of Timaeus, The Claw of Hermos, and The Fang of Critias. The holders of the three cards in the animation were the three protagonists Muto Yugi, Jonouchi Katsuya, and Kaiba Seto.

As we all know, for the cards in the Yu-Gi-Oh animations, the more blurred and unclear the card text, especially when the writing was so incomprehensible, the stronger the card.

For example, for the Three Egyptian Gods, not only the cards' effect was not written clearly, but it was also written in hieratic characters, which normal people couldn't understand at all.

Okay, it's fine to use hieratic text (which only Egyptian priests could read), but The Winged Dragon of Ra even went further. Its effect was like a quantum mechanic: sometimes it was written, sometimes not.

Back then, Marik had held The Winged Dragon of Ra in his hand for so many years, but he didn't know that The Winged Dragon of Ra actually had a second and third effect.

In short, although it is not written on this card, but I can use this effect

And these three Legendary Dragons were even more awesome. These three cards were simply blank with nothing written on them.

Yes, thats right, it just didnt write anything.

The three cards had no Type, no Attribute, no ATK, no DEF, and no card text It did not even have color to show that it was a monster card, a Spell card, or a Trap card.

According to the original work, its power could only be harnessed in the hand of qualified duelists chosen by the legendary dragon. These three cards did appear out of nowhere in their decks in the game.

So here Yui Vu could make a reasonable guess based on the common characteristics of the Yugi, Kaiba, and Jonouchi. The so-called qualified duelists may refer to big shots whose BISS ability reached Rank 8 or above.

There was nothing written on the card, so the meaning was to let the duelists use BISS freely!

Starting with a piece of paper, the effect depended entirely on weaving. Anyway, the card was blank and nothing was written on it, so shouldnt it be the user who had the final say?

Because the legendary dragons chose masters by themselves, even if Yui Vu wanted these three cards, there was no way to get them.

In the animation, Yugi all of a sudden appeared in front of the legendary dragon, and when he regained consciousness, this card was automatically added to the deck.

Besides, Yui Vu actually didnt think these three cards could be used by himself.

Long ago, Jonouchi used the effect of Time Wizard to destroy the Dark Magician of Yugi, but by the power of BISS, the Dark Magician actually upgraded into Dark Sage directly. And when Jonouchi used the exactly same move to deal with Yui Vus Dark Magician Girl, she exploded on the spot

It could be seen from this that not everyone could do a BISS, and this thing was more metaphysical like The Force or Haoshoku Haki. Only the chosen one could control the power of BISS.

In addition, these three legendary dragons actually a bit predestined with the three protagonists.

The animation explained that the legendary dragons were not originally dragons. They were originally three powerful knights, but they lost their original form over the long years and then became legendary dragons.

And then when the seals of the three legendary dragons were released and changed back to the original knight form, the audience would be surprised to find

Isnt this Yugi, Kaiba, and Jonouchi wearing armor! ?

The three knights who lifted the seal actually looked the same as the three of them in the game. Yui Vu would not believe that these three cards were not appointed by the three of them

With Aarons defeat, the raid on Domas branch basically came to an end.

So far, the Doma forces in the entire city have been basically eradicated. Although it could not be ruled out that there may be scattered members lurking in other corners, at least Domas influence in Domino City has undoubtedly taken a serious hit.

With the fall of Aaron, the remaining miscellaneous fish on the side of the Doma branch had no morale left, and it was only a matter of time before they were wiped out.

The raid in the Domino City area caught Doma completely by surprise. Before many branches had time to react and resist, people were dragged into the Shadow Game one after another.

Thanks to the input of many players, this wave can be said to be a complete victory.

Of course, it was impossible for Nightcrawler World and Industrial Illusions to have only players participating in the battle. There were still some losses here. Some Shadow Duelists were defeated in Orichalcoss barrier, and their souls were drawn to Domas headquarters.

In addition to the victory on the surface, this all-out war has greater significance.

Just a short moment after the war between the two organizations broke out, the Camp Battle module was quickly activated in the quest panel on Yuei Vus side.

This was nothing unusual, there were similar things in many online games and mobile games, which were somewhat similar to gang wars in traditional games.

Players who participated in the camp battle could get extra rewards in addition to the regular killing tasks, and could also get certain contribution points during the camp battle. After the Camp battle was over, the contribution points could be converted into experience, crystals, and other rewards.

But this was not the most important.

Most importantly, when the Camp Battle system was opened, all the congregants and believers of the Doma organization became red-named NPCs in their eyes!

This means that players could directly use the naked eye scanning method to find out Doma believers from the crowd at a glance!

And all players who participated in the Camp Battle should have activated the same system.

In this way, as long as the battle between the two camps was fully started at that time, all players participating in the war would automatically become humanoid Doma Radar!

At that time, none of Domas minions would be able to escape!

Before the battle here was over, Yuei Vu was going to solve a few more by himself.

Anyway, they were all living experience points and crystals. He walked around, OTKed a few small fries, and by the way, gained a wave of popularity among players, giving them some pretense materials to brag about on the forum.

As a former player, Yuei Vu deeply understood that players were actually very forgetful and extremely easy to be arrogant.

A topic that was once hot may not appear on the hot search for a week or two, and players might forget it when they look back.

Yuei Vu could foresee that when his Elemental HERO card box was sold out for a while, players would have a few Elemental HERO cards in their hands. After Pegasus hero series was officially released, most players would be able to unlock the Elemental HERO series. There would definitely be some players who became arrogant, thinking that he couldn't keep up with the version, and would soon become an outdated NPC.

In order to prevent that, it was also necessary to show off some new tricks appropriately.

For example, this set of Masked HERO that would soon become the personal symbol of the Duel King.

Anki, unstoppable!

Koga, full firepower!

Sounds very handsome.

Yuei Vu just killed two small fries in seconds and was about to pick the next unlucky disciple from the remaining minions, but at that moment his cell phone rang.

It turned out to be President Kaiba.

As an employee, the president's call must not be ignored. Yuei Vu directly clicked on the connection: Hello?

Get ready, President Kaiba said concisely, were leaving.

Chapter 244: Get Hit Just By Passing By

Get ready, were leaving.

Ah? Where are you going?

The United States. Kaiba said lightly, I don't trust that Gekko guy. I want to go to Industrial Illusions to see for myself.

But it certainly could not be said. Yuei Vu coughed: This If possible, please wait a little longer, President Kaiba, I am busy here.

There are many powerful characters on Doma's side, and the situation here is very tense. Let's not talk about it, I'm in a Shadow Game, wait for me to call back.

Of course, this was Yuei Vu lying casually to fool the president. In fact, he didn't play cards with anyone when he answered the phone, and the situation here was basically settled.

He just wanted to stay and collect a few more heads and get some rewards.

Before he finished speaking, he heard the wind blowing outside the window, and the roar of engines and propellers swept across the room.

The black helicopter with the KC logo printed on it had already flown to the outside of the building, and the dazzling searchlight pierced through the glass curtain wall and shone in.

President Kaiba was standing outside the open door of the helicopter in an extremely cool posture, his windbreaker fluttering in the strong wind.

Yuei Vu:

So embarrassing.

It felt a bit like the boss calling to ask about the progress of the project. You flicked and said that it was almost ready, and then hurriedly opened the computer to create a new folder. Then you were horrified to find that the boss was standing behind you.

Just a daylight horror story.

President Kaiba's helicopter stopped outside the window and he jumped into the building. It's quite impressive, like a superhero in the comics.

But at the same time, Yuei Vu was also a little curious: Why President Kaiba has never sat down honestly in the cabin? Why did it seem that every time the president is on the helicopter, he would always stand outside the aircraft?

Now that the boss has personally come to catch him, Yuei Vu naturally had no reason to continue fishing, so he had to follow the president on the plane honestly.

When he left, a group of screwballs next to him were still pointing and laughing happily, and they seemed to be very excited and talking about something.

Yuei Vu couldn't help but want to roll his eyes a little bit.

Laugh, what are you laughing at?

Have you never seen a lazy worker caught by the boss?

President Kaiba handled affairs swiftly and resolutely, and the itinerary has always been arranged on the fly.

Less than an hour ago, Yuei Vu followed the president and left the building of the tobacco and alcohol company for a while, and at this moment he was already flying over the Pacific Ocean in President Kaiba's Blue-Eyes White Dragon jet.

Taking the Blue Eyes White Dragon jet with President Kaiba, Yuei Vu always felt that something was a little weird.

Kaiba was still the same, getting on the plane and focusing on flying the plane without saying a word. Those who didn't know may think that the president was a pilot specially hired by the company.

Blue-Eyes White Dragon was the exclusive aircraft of President Kaiba. The system of the operating console must be authenticated by himself before it could be unlocked. No one else in the world could make this plane move.

President Kaiba never allowed anyone to touch his plane, so stubborn that he was almost paranoid on this point.

Kaiba didn't say a word during the flight, but his younger brother Mokuba was as talkative as ever.

Now Mokuba didn't treat Yuei Vu as an outsider at all and told him almost everything.

Chatting to the point of excitement, Mokuba almost exposed Kaibas dark childhood history. All of a sudden, Yuei Vu seemed to notice the presidents looming murderous intent from the cabin mirror and quickly diverted the topic wittily without letting Mokuba continue.

So dangerous, but fortunately, I respond quickly, otherwise this chat almost turns out to be life-threatening!

Mokuba, you are still so pure. How can these words be said casually?

Even if you have to say it at least wait until the president himself is absent!

By the way, Mokuba remembered something, Earlier tonight when my brother was dueling, there was an extra card in the deck that I had never seen before!

Yuei Vus eyelids twitched.

What, is it already here?

The Fang of Critias?

Kaiba, who was flying the plane, silently took out the card. There was no title, no data, and no card text on the card, only a dragon picture.

The Fang of Critias, Kaiba looked at the card and frowned, Why do I know its name?

There was clearly no word written on the card, but its name instinctively appeared in Kaibas mind and how this card popped into his deck before that was also a mystery.

Everyone knew that President Kaiba only believed in science. Now he is trying to find a reasonable explanation from his rich knowledge reserve

Its destiny, maybe. Yuei Vu said, Maybe there is a certain connection between this card and you, and it is destined to be your thing.

Kaiba rolled his eyes at him, snorted, and put away the card.

Starting to say these supernatural things again? He snorted coldly, Boring! There is no such thing as past life or fate in this world. The so-called fate is just an excuse for cowardly people to find for failure!

Yuei Vu:

President, cant you hear your White Bride crying

But that being said, there are quite a few dragons who have a relationship with the president. In addition to the Blue-Eyes White Dragon, the legendary dragon Critias suddenly appeared here I dont know what Kisara would think.

Blue-Eyes White Dragon: Aww~Ah~ (The dragon roared to announce the status of the official wife)

When they arrived at the destination, the USA branch of Kaiba Corp here has already been notified to arrange the reception work.

The branch here arranged the top-level suite for them early in the morning and led them to the resting place after the three of them landed.

When a group of black suits from Kaiba Corp passed by the hotel lobby, Yuei Vu heard two foreign girls behind the counter still discussing.

I heard that is Seto Kaiba? The president of Kaiba Corp?

Huh? Who is that?

Dont you know? The organizer of the Battle City Competition, one of the top duelists in the world!

Ah, its him! So young!

Yeah, he became the president of a large corp at a young age. He is also very temperamental, and he is also very good at duels

Sure enough, in this world, there were extra points for being able to play cards.

If you wanted to say that you are the president of a Fortune 500 company, maybe not everyone knew it. But if youre a world-class duelist, youre a celebrity everywhere you go

President Kaiba obviously also heard the discussion, he snorted disdainfully and seemed not to care, but the upturned corners of his mouth have already revealed his mood

In fact, Kaiba was a very tsundere guy. Although he pretended to be disdainful, when he heard someone praise him especially his dueling skills, he could raise his tail high.

But then they heard the girl say again: Ah! That person next to him, that super handsome Isnt that the Duel King?

Really! The other girls eyes lit up, He is even more handsome than in the photo! And it seems that hes ridiculously strong in duels. I heard that even Kaiba is no match for him at all!

President Kaiba: The smile gradually faded.JPG

Yuei Vu:

MD, these two girls are deliberately arranged here to bully me, right?

How can I get hit just by passing by?

Chapter 245: A Small Incident

Not long after Kaiba, Yuei Vu, and Mokuba went to the room, the young lady behind the counter who was in a nympho suddenly realized something: Oh.

What? asked her companion.

President Kaiba and Yuei Vu, their room keys I seem to have their rooms mixed. According to the reservation, President Kaibas room is 1102, and Yuei Vus is 1106. But I handle the key to 1106 to the president

Eh, its just a small incident. The room number is also posted on the key, which is just a room exchange. The two suites are exactly the same, there should be no problem right?

Thanks to the lady at the front desk setting this up, Yuei Vu really had a big problem here

The top suites of first-class hotels were indeed different. When Yuei Vu opened the door and entered the room, the floor height of the room was at least three meters. The living room was very open and bright, with intricate patterns printed on the plush carpet.

The walls of the bedroom were covered with camphor wood panels, and the sofa was soft and comfortable. The latest super large-screen TV was hung on the wall, and there was a bar counter and wine cabinet in the corner of the entrance, which contained world-famous wines from various countries and regions.

As expected of a room prepared for the president. From the moment of entering the door, this suite has highlighted the theme of one word, that was rich.

Yuei Vu turned on the latest ultra-clear TV set hanging on the wall with great interest, only to find that all the channels were broadcasting the traditional classic Big Wave Washing the Sand scene, nothing else.

Could this be poor signal reception?

Will there be such a problem in such an awesome suite?

Yuei Vu thought for a while, and came to the phone by the bed, ready to call the front desk in the lobby to inquire about the situation.

But no matter how he dialed, there would always be endless busy tones on the phone.

The phone is also hung up?

Yuei Vu began to realize that something was wrong.

This kind of development really had a sense of horror movies. Yuei Vu felt like the kind of cannon fodder who was the first one to be separated from the group

But this alone was not certain. It might really just be that the TV and the phone used the same cable which was broken. Although it was a small probability event, it was not impossible.

So Yuei Vu got up and was about to go out and go downstairs to ask, but when he grabbed the doorknob and pressed it, he found that the door lock seemed to be stuck and couldn't be opened at all.

Well, now he could be sure that this was not accidental.

If a normal person was trapped in this situation alone, they might be a little panicked, but fortunately, Yuei Vu was not completely alone here.

The Dark Magician Girl floated out: Master, be careful, there are enemies the same group as last time!

Ah, I know. Yuei Vu nodded.

If he didn't realize that something was wrong, then he might be no different from a dead person.

Yuei Vu retreated to the living room and immediately saw the handsome red-haired man behind the bar with his legs up. This guy was sitting in the chair, with a very flirtatious pose, and he got a glass of red wine from the wine cabinet with a suspected four-figure price and was drinking it slowly.

That was Alister, one of the Three Swordsmen of Doma, one of the big figures in the whole organization only under Dartz.

It seemed that Doma finally sent an important figure to act.

It's really a surprise that you will be caught here. Alister chuckled, It was Seto Kaiba I was waiting here but it's okay if it's you.

Yuei Vu: ?

What, do you mean this arrangement was supposed to be used for ambushing Kaiba? As a result, I, an unrelated passer-by, was inexplicably taken the bullet for some unknown reason?

It doesn't matter, anyway, you two will be defeated sooner or later. Alister said while sipping red wine, Although my primary target is Kaiba but sooner or later I have to beat you, it's not bad to warm up first.

He put down his wine glass, stood up, and opened the Duel Disk.

Come on. He sneered, Come and let me see how good the so-called Duel King really is.

At this moment, the green light condensed into a magic circle on Alister's forehead, turning into the engraving of a hexagram.

A majestic momentum erupted centered on him, pulling the curtains like a storm, and blowing the notes and tissues on the table flying all over the room.

As expected of Doma's Three Swordsmen, even without The Seal of Orichalcos, they could use such a powerful force, and they were indeed not at the same level as other minions.

Master, this person's force as a duelist is very strong! Dark Magician Girl reminded.

Ah, I know. Yuei Vu put on the Duel Disk and inserted the deck into it.

There was no need to remind him, of course, he also knew that the opponent was not a small fry.

After all, this guy was one of Doma's Three Swordsmen. In the animation, Alister pretended to be Pegasus and played against Kaiba, mixed Pegasus deck with his own deck, and even forced Kaiba into a dead end.

In the end, Kaiba performed an extreme card printing and drew a Legendary Dragon Critias that was not in his deck at all, but he was only tied with Alister.

This was enough to show the strength of this Doma follower.

There was no room for carelessness in this duel.

Duel! x2

It's me who goes first, draw!

Alister took the initiative. He glanced at the cards in his hand, grinned, and directly played a card in his hand: Activate Spell Card Card Destruction. Both players discard all cards in their hands, and then draw out the same number of cards.

Yuei Vu discarded all the cards in his hand, and then drew the same number of cards, feeling a little strange at the same time.

Replacing the hand this soon? Could it be a brick hand?

Or is it deliberate grave-feeding? Or speed-check to find a specific card?

For example The Seal of Orichalcos?

I summon Cyber Soldier of Darkworld in defense position!

A mechanical warrior with blue armor on his upper body appeared on Alister's field, and the invisible power of darkness overflowed from the armor. It crossed its arms in defense in front of Alister.

[Cyber Soldier of Darkworld, DEF 1200]

Set another card, and I end my turn, Alister said.

My turn. Yuei Vu drew the card and glanced at the set card in the back row of Alister.

I summon Elemental HERO Heat!

Accompanied by a special effect of flames, the hero controlling the flames flew out, and his fists seemed to be burning.

The effect of Heat. Yuei Vu said, This card gains 200 ATK for each Elemental HERO monster on my field.

[Elemental HERO Heat, ATK 1600 ATK 1800]

Elemental HERO Heat, attack Cyber Soldier of Darkworld!

The Heat flew up, shooting a swirling flame from his palm. The robot soldier's armor was burned through, his body was melted by the flames, and he exploded with a groan and disappeared from the field.

The set card was not activated. Isn't it a trap?

Or does the opponent feel that there is no need to waste it on low-level monsters?

Set a card, I end my turn.

My turn, draw Activate Pot of Greed and draw two more cards from the deck.

Alister drew two cards, glanced sideways, and immediately started laughing.

In this way, it is completed. This card is enough to determine the outcome of this duel! The components required for victory have been collected in my hand.

Yuei Vu: ?

Are you so confident?

First of all, it must be this card Alister held up the card he had just drawn, Activate Field Spell The Seal of Orichalcos!

Chapter 246: Alister's Revenge

The Seal of Orichalcos launched by Alister, one of Domas' Three Swordsmen, was not in the same breath as other Domas minions.

A dazzling green light burst out, shattering the glass of the bar counter, wine cabinet, and windows. Countless glass shards scatter in all directions like a rain of flowers, and the green magic circle

visible to the naked eye spread close to the ground, overturning the coffee table and the imported leather sofa, and piercing through the walls from the living room to the bedroom, branded the ceiling.

Such a big movement should naturally attract attention. The two Kaiba brothers quickly came out of their room and noticed the movement here at a glance.

The Seal of Orichalcos Domas people? Kaiba stepped forward with arms folded, Is their first target Yuei Vu?

However, there was no movement in the other rooms where The Seal of Orichalcos was activated like an explosion, so it could be seen that either the entire floor has been contracted by Kaiba Corp, or other irrelevant people had been cleaned up by Doma in advance.

In the animation, the Three Swordsmen of Doma also like to clear the field before playing cards. Several people in the game sit on the train, then all the other passengers disappear. The same went for the Kaiba brothers, they were flying on the plane, and suddenly there were only the two of them left on the whole plane.

Alister narrowed his eyes and stared coldly at Kaiba.

It finally appeared, Seto Kaiba. He said coldly, You were originally my opponent for revenge. It was an accident that I met the Duel King first, and it should have been you standing in this barrier at this moment

But it doesnt matter anymore. When I knock him down, you will be next, Seto Kaiba. Before that, you just wash your neck and wait.

Mokuba was taken aback: Revengeis the target brother?

He cast a questioning look at Kaiba, who folded his arms and snorted disdainfully: I dont remember, its just some clown.

These words seemed to further arouse Alisters anger. He took out a dark, worn-out toy from his arms, which looked a bit like a mobile suit in traditional animation, but it was seriously faded and lacked arms and legs.

Do you know what this is? Alister asked coldly.

Hmph, rubbish. Kaiba sneered, Its the same as what youre about to turn into. Although Id be happy to beat you up like that myself, its a pity that you cant win against the man in front of you right now.

Yuei Vu:

Although the presidents confidence in Yuei Vu was very touched, every time he played cards, the president would place many flags on his head, and he always felt a lot of pressure

In your eyes, this is just rubbish!? Alister was furious, gnashing his teeth, This belongs to my own brother, the only relic left after he was brutally killed by your Kaiba Corp!

Kaibas eyelids twitched.

There were not many things in this world that could make President Kaiba lose his composure. Yugi counted as one, the White Bride counted as one, and the younger brother also counted as one.

Yes, you read that right, the younger brother may only be the third place

By the way, now we may have to count a passerby with the Yu- prefix whose presence is constantly rising in the eyes of the president.

Next, Alister began to talk about his backstory.

Generally, good-looking villains always had a bitter and tragic past behind them, and Alister was no exception.

According to him, in his childhood, he lived in a peaceful and beautiful country that suddenly ushered in war one day. The war took everything from him, the flames of war burned his entire life.

His parents, family, friends, everything was burned. And just when he had accepted the reality and fled on the battlefield with his only remaining brother, his brother was also killed by an unknown AOE, leaving only the broken toy in his hand now.

You may have to ask at this time, so did this have anything to do with the president?

Then Alister explained that his whole family was killed by the weapons sold by Kaiba Corp!

So this responsibility should be borne by Kaiba Corp!

The whole family was shot, shouldn't they go to the gun maker to settle the score? (Tony Stark posted an Angry emoji)

When he grew up and gained strength, he came back and found that his old enemy Kaiba Gosaburo had already been buried in the ground, and the grass on the grave was several feet high.

That's okay, let's continue to seek revenge on Seto Kaiba, who took over the company!

What? You said he stopped selling weapons and switched to the gaming business?

Um

still doesn't matter! Anyway, I just want to kill him!

So Kaiba Stark Seto, the president, took the blame in a daze

The kind-hearted Mokuba couldn't help feeling a little sympathetic after hearing this story: This person is also a victim of Gosaburo

Kaiba frowned and did not speak in silence.

So wait for me, Kaiba, there is still a long score to settle between us. It will be your turn next. Alister said coldly, The duel continues!

I summon Gorlag in attack position!

It's a fluffy red demon with white horns on its head.

[Gorlag, ATK 1000]

Because of the effect of The Seal of Orichalcos, the attack power has increased! Alister said.

The imprint of the six-pointed star appeared on the top of the demon's head, and the evil energy entered the monster's body, and its eyes turned red.

[Gorlag, ATK 1000 ATK 1500]

Very good! Mokuba said, In terms of attack power, Yvei Vus monster is still higher

Stupid! Alister said, Gorlags monster effect This card gains 500 ATK for each face-up FIRE monster on the field!

Gorlag itself is a FIRE monster, and if Im not mistaken

He sneered and pointed at the heroes on Yuei Vu field.

Your Elemental HERO Heat is also a FIRE monster, isnt it?

Yuei Vu:

Although he really wanted to use BISS and say that Heat was actually a WATER monster, the flame effect on Heat was so obvious that he himself couldnt even believe it

So Gorlags attack power increases by another 1000 points!

[Gorlag, ATK 1500 ATK 2500]

Mokuba was shocked: All of a sudden, it is a monster with an attack power of 2500

Battle! Gorlag, attack Elemental HERO Heat!

The demon with a red body rushed forward with a loud shout, and the flames conjured up a swaying and intangible sword in his hand. The flame sword slashed across the hero, killing him on the spot.

Trap Card Defense Draw. Yuei Vu flipped over the set card on the field, This card can reduce the damage of a battle to 0, and then I can draw a card from the deck.

A transparent barrier emerged, protecting him in the middle. The flames scattered from the shield in all directions.

This trap was also quite common in the current environment. What made it stand out from many traps of the same type was that it could not only block a knife once, but also replaced itself and caused no loss at card advantage.

My Battle Phase is over, but this is just the beginning of Gorlags ability. Alister said, When this card destroys an opponents monster by battle and sends it to the Graveyard, Special Summon that monster to my side of the field in face-up Attack Position at the end of the Battle Phase, but its effect(s) is negated.

Then the attribute of all those monsters becomes FIRE!

Nani? Mokuba was shocked, Isnt such an ability too overpowered!?

Take the opponents monsters through battle, and the more you have, the higher your attack power will be. Kaiba commented lightly, Dormas gang really has some troublesome cards.

I end my turn, Alister said.

Gorlag was also a card printed by Doma. Being able to continuously capture the opponents monsters through battles, and thereby continuously increase ones own attack power, seemed to be really strong and unsolvable.

But in fact, Yuei Vu didnt think it was so difficult to solve. First of all, this thing had no resistance, and based on this alone, there were many ways to get rid of it. Secondly, the attack power of 2500 was not very high, and it was not difficult to defeat it through battle.

It's my turn, draw! Yuei Vu immediately prepared to launch a counterattack, From my hand, activate Spell Card Polymerization

That can't be done! Alister yelled, Open the set card! Continuous Trap Imperial Order!

The trap card was turned over, and a powerful and invisible force immediately imprisoned the Polymerization card played by Yuei Vu. The powerful magic power could not be released, and finally, the Polymerization card turned into ashes and exploded.

Alister smiled triumphantly: As long as this trap card is on the field, all Spell effects on the field will be negated!

Yuei Vu raised his eyebrows slightly.

Damn, this guy actually brought such a discordant thing.

Well, this time it might be a little troublesome.

Chapter 247: Spell Sealing

Hahahaha, when I realized that the opponent was you, Yuei Vu, I had already adjusted the deck. Alister sneered, You use some HERO decks of unknown origin, of course, we, Doma, have specially studied them.

The main strategy of the HERO series was to fuse weak individuals into powerful heroes by Spell Cards. Then the core of the Masked HERO series lies in the Masked Change, which can transform your hero into a Masked HERO during battle, or switch forms according to the actual situation.

He paused and smiled without concealing his pride: But the biggest weakness is that whether it is fusion or transformation, it must rely on Spell Cards as the medium.

With the presence of the Imperial Order, all your means of summoning powerful heroes have been blocked!

After a pause, he added: Of course, although The Seal of Orichalcos is also a Spell Card, once activated, it cannot be stopped by any means and cannot be destroyed, cannot leave the field, and its effect cannot be negated. And as long as The Seal of Orichalcos exists on the field, new Field Spell Cards cannot be activated.

So that's the case, it seems that he has really used his brain. Yuei Vu said calmly.

Hmph, are you pretending to be calm? The demeanor and psychological qualities of the Duel King are worthy of recognition. Alister snorted, But it won't change anything. You have already lost this duel.

Yuei Vu was unmoved: Then I will summon Elemental HERO Sparkman.

There was a burst of blue electricity jumping on the field, and the hero in golden armor and blue tights appeared on the stage handsomely, squatting halfway in front of Yuei Vu.

Sparkman said that although he knew that the character he played this time must be cannon fodder again, he made up his mind to leave the stage with a handsome enough posture even if he sent it off, at least not to embarrass the owner

[Elemental HERO Sparkman, DEF 1400]

Set two more cards, and I end my turn. YUEI VU said.

Mokuba was anxious at the side: Whatwhat to do, brother! YUEI VU's heroes can't be fused or transformed, isn't it helpless?

Quickly use your invincible super brain to find a way, brother!

Imperial Order I didn't expect that you have this kind of card. It seems that you have indeed studied the countermeasures. Kaiba sneered and looked at Alister through the barrier, But from this point of view Although you say it so beautifully, you are still scared in your heart, right?

Alister got angry when he heard Kaiba's voice: What did you say?

I said you were scared. Kaiba sneered, Neither you nor Doma is as confident as you said. The card Imperial Order on your field is proof.

Because you are afraid of YUEI VU and the absolute strength symbolized by the title of Duel King, you have racked your brains to study and use this boring method to win.

Alister snorted, You can say whatever you want, Kaiba. It's just a dueling tactic, as long as it brings the victory, it's a good tactic.

Oh? Do you really think you can win with this so-called tactic?

Alister gave him a sideways look but ignored him.

He hated Kaiba from the bottom of his heart, and he would only get angrier when he talked to him.

My turn, draw! Alister temporarily returned his attention to the duel, At this moment, the side effect of the Imperial Order was activated. During each of my Standby Phases, I have to pay 700 LP, or this card is destroyed. (pre-errata effect)

Alister, LP 4000 LP 3300

Battle! Alister said. Gorlag, attack Sparkman! Then give me control over him!

Sparkman gritted his teeth, his whole body was crackling with electric currents. He crossed his arms in front of him, and unconsciously straightened his back.

Activate Trap Card Impenetrable Attack! YUEI VU turned over the trap card, During the Battle Phase, I can choose to activate 1 of these effects. Making 1 monster on the field unable to be destroyed by battle or by card effects during this Battle Phase, or I take no battle damage during this Battle Phase.

I chose to make Elemental HERO Sparkman unable to be destroyed in any way during this Battle Phase!

A transparent shield appeared in front of Sparkman. The sharp blade of the flame slammed down, violently impacting the shield, but it had no effect except for splashing a few sparks.

Did you manage to get through with the trap card? But it's just lingering. I end my turn. Alister snorted, As long as you can't use Spell Cards, your deck has no threat to me.

Really?

What?

Its true that the hero deck relies on Spell Cards for both fusion and transformation but do you think I cant think of this myself?

Alister frowned: Could it be that you have prepared countermeasures for this situation

Its my turn, draw! Yuei Vu said, I summon Elemental HERO Clayman in attack position.

The ground cracked, and a solid clay hero appeared on the field with two punches in the air.

[Elemental HERO Clayman, ATK 800]

Next is this set card Yuei Vu waved his hand, Trap Card Alternate Fusion! Fusion Summon 1 Fusion Monster from my Extra Deck, using monsters I control as Fusion Material! (manga card)

Alister was shocked: A Trap Card version of Polymerization?

The corner of Kaibas mouth curled up, and his appearance even seemed a little smug.

Huh? I knew it, Yuei Vu. If you cant even consider this level of strategy, then you are not worthy of being a duelist recognized by me!

I fuse Elemental HERO Sparkman and Elemental HERO Clayman on the field! Yuei Vu raised his hand, Fusion Summon! Elemental HERO Thunder Giant!

The two heroes turned into golden light and shot into the air. Under the effect of the trap card, they merged into one. The thick light beams fell on the ground with the rushing lightning, and the golden giant in thunder armor sprayed an invisible airflow from his feet and fell to the ground, golden electric currents danced all over his body.

[Elemental HERO Thunder Giant, ATK 2400]

The effect of Thunder Giant. Yuei Vu said, Once per turn, by discarding a card, Thunder Giant can choose a monster on the opponents field that has lower attack power than itself and destroy that card.

Alister gritted his teeth: Gorlags original attack power is only 1000

Thats right. Yuei Vu said I destroy Gorlag with Thunder Giants effect! Vapor Spark!

The hero who controlled the thunder let out a low drink, and thunder blasted out of his palm. Gorlag was blown to pieces under the electric light, and the remaining flames before his death unwillingly turned into a hideous and distorted face, but he was finally wiped out under the electric light.

Battle! Yuei Vu said, Elemental HERO Thunder Giant, attack! Lets liberate the controlled Elemental HERO Heat!

The thunder giant stretched out its fists, and the scorching lightning pierced through the air and bombarded it. The golden lightning pierced through the space and hit the Elemental HERO Heat who was taken away. The latter was leaping with flames all over his body and was shattered under the electric shock a moment later.

Alister, LP 3300 LP 2500

Alister relied on his strong body to withstand the impact of the current, and curled his lips slightly: Damn, what a low trick.

Chapter 248: Just A Stray Dog

I end my turn.

The thunder giant who finished the attack slowly landed in front of Yuei Vu.

Alister's expression became serious: It's my turn, draw.

At this moment, the effect of the Imperial Order is activated. Due to its side effects, you have to deduct another 700 LP. Yuei Vu chuckled, Of course, you can also choose not to pay this price to let it be destroyed.

Alister said with a cold face, I choose to pay LP to maintain the existence of Imperial Order.

Alister, LP 2500 LP 1800

Mokuba's eyes lit up: Sure enough, Yuei Vu is really powerful, brother! Facing such a powerful monster and spell sealing, he actually gained an advantage one step ahead.

Hmph, it's not just that. The effect of the Imperial Order is two-way. Kaiba analyzed, In other words, it is also effective on Alister.

I see! Alister can't use magic cards either!

But Kaiba still had the second half of the sentence.

That's what I said, but since he actively chose to pay LP to continue to maintain the existence of the trap, it means that Alister also has his own plan.

Kaiba narrowed his eyes.

"

"

Then let me see the strength of the so-called Three Swordsmen of Doma.

You can push me to this step, let me praise you first.

Sure enough, Alister didn't panic at all and even sneered.

It's really superb to be able to summon a Fusion Monster under the spell sealing of Imperial Order to defeat my Gorlag. But if you don't have this kind of strength, this duel would be too boring.

He showed the card he had just drawn: I summon the KC-1 Crayton! (anime card)

Appearing on Alister's field was a military green heavy tank with turtle-like armor, two tracks, and a huge metal barrel.

Then because of the effect of The Seal of Orichalcos, the attack power of KC-1 Crayton increases!

[KC-1 Crayton, ATK 1500 ATK 2000]

The next thing I want to activate is this set card. He pressed the button on the Duel Disk, flipping over the card, Trap Card Tank Corps!

This card can only be activated while KC-1 Crayton is on the field. Special Summon 3 Tank Tokens to my field!

Three gray tanks immediately appeared on both sides of the Crayton, like an iron wall.

[Tank Token, DEF 1200]

Then there is the effect of KC-1 Crayton! Alister said, This card gains 500 ATK for each Tank Token I control!

[KC-1 Crayton, ATK 2000 ATK 3500]

Battle! KC-1 Crayton, attack the Thunder Giant!

The heavy gun barrel fell slowly, locking onto the target. Dazzling flames erupted from the black gun barrel, and the shells pierced through the air and hit the thunder giant. With a bang, the flames and gunpowder smoke exploded into the sky.

Yuei Vu, LP 4000 LP 2900

Set a card, I end my turn.

Alister sneered.

So do you understand? Your struggles are in vain. Heroes only exist in fairy tales, and reality is always cruel. There is no place for heroes in this sad reality, only endless oppression, full of pain. Its just a life that hurts!

Oh? Yuei Vu raised his eyebrows, So thats why you agreed to join Doma to destroy the world?

Alister narrowed his eyes: It sounds like you know something about us. Huh, it doesnt matter, yes, this is what we have to do, this wrong world needs to be cleaned.

Oh. Yuei Vu nodded, Then let me translate a little bit to see if I understand correctly. Are you planning to kill the parents and brothers of people all over the world, like how Kaiba Corp killed your parents and brothers?

Alister was caught instantly, and even the scarlet eyes eroded by Orichalcos power flickered for a moment.

IIno, thats not it. Alister gritted his teeth, Its not killing, but resetting! This world is wrong, its hopeless! It can only be corrected by resetting everything

Then Ill change it. Yuei Vu interrupted him, If your younger brother didnt die tragically under the weapons of Kaiba Corp, and your family managed to survive the war, then what? Do you still want to reset the world, even if that means killing your own family?

Ah? Alister petrified instantly, This

Actually, you understand it from the bottom of your heart. Yuei Vu said coldly, The crime you keep talking about is that Kaiba Corp killed your family You know that this kind of reason is baseless.

Not to mention that there is no reason to hate the man who made the gun, even if you want to do that, then your target of revenge should be Gosaburo, who was in power at the Kaiba Corp at the time. But that man was already finishedit was thanks to Seto Kaiba, whom you hated.

So you are just making trouble for no reason, looking for an outlet to vent your sorrow and anger.

If the world is really full of mistakes as you said, then President Kaiba, who overthrew the military factory of Kaiba Group and transformed the arms company by himself, is the one who is really trying to correct the mistakes, and is doing his best to make the world become better for humanity.

And you? Youre just a stray dog.

What are you talking about!? Alister seemed to have been poked into a sore spot, his eyes turned fierce, and the mark of Orichalcos on his forehead seemed to become more dazzling with his emotional fluctuations.

Mokuba couldn't help being moved after hearing these words, and even felt his nose a little sour: Yuei Vu

Kaiba snorted: This kid is quite good at talking.

(The favorability of Kaiba and Mokuba also increased significantly)

Hearing the president's muttering, Yuei Vu couldn't help but feel ashamed.

Good at talking? This was originally the president's line in the animation.

He was just upset at this unreasonable Doma swordsman, and felt that what he said made sense from the bottom of his heart. Yuei Vu just copied it with style

Alister gritted his teeth for a long time but couldn't seem to find a way to refute, and finally had to hum: You can say whatever you want! But the reality is that you and your hero have been completely suppressed!

With the Imperial Order, you can't fuse or transform, and I have KC-1 Clayton with an attack power of 3500 on the field! Under such shackles, you can't summon a hero with more attack power than that, and you have no hope in this duel.

Look, this is the truth! War and destruction, which are created by humans, will destroy everything, the so-called heroes can do nothing at all!

Since this is the case, then you should keep your eyes open, to see what is the true power of being a hero! Yuei Vu said as he drew a card, My turn, draw!

First, I activate a Spell Card in my graveyard Galaxy Cyclone!

Alister was taken aback, and even President Kaiba, who had a poker face, couldn't help showing a look of surprise.

Activate Spell Card from the graveyard?

Alister was stunned: Is this the card you discard in the last turn as the price of the Thunder Giant effect? At that time, you actually thought about the next step

Imperial Order can only negate the effect of Spell Cards on the field, which means it cannot negate the effect of Spell Cards in my graveyard. Yuei Vu pointed to the trap on the opponent's field, Galaxy Cyclone's effect Banish this card from my GY, then target 1 face-up Spell/Trap on the field; destroy it.

The card I want to destroy is Imperial Order!

That's why! Because all the Spell Cards on the field will be negated, even cards like Mystical Space Typhoon or Heavy Storm can't destroy the Imperial Order. Mokuba's admiration for Yuei Vu has already broken through the limit, But activating magic cards from the graveyard is a different matter!

Unleashing a Spell Card from the graveyard, no one can imagine such a thing, right?

The pitch-black vortex opened, and the magic cards swirled and flew out of the graveyard, turning into golden light and exiled from the game. But the white whirlwind it rolled up also blew the Imperial Order into the air and tore it into pieces.

In this way, the spell sealing will disappear. Yuei Vu said, Activate Spell Card Pot of Greed, and I draw two cards.

In fact, this pot was already in his hand in the last round, but he couldn't use it because of the presence of the Imperial Order.

Then I activate Spell Card Graceful Charity! Draw three cards, and then discard two cards!

I summon Elemental HERO Solid Soldier!

A storm of mud rolled up, and a hero in solid steel armor appeared, arms crossed in front of him.

[Elemental HERO Solid Soldier, ATK 1300]

The effect of Solid Soldier When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower HERO monster from my hand!

Yuei Vu showed another hero in his hand.

I special summon Elemental HERO Shadow Mist in defense position!

This time, following a billow of black air, wrapped in tights and with a good figure, the hero lady appeared on the field.

[Elemental HERO Shadow Mist, DEF 1500]

Then there is the effect of Shadow Mist, Yuei Vu said, If this card is Special Summoned: I can add 1 Change Quick-Play Spell Card from my Deck to my hand.

I add Form Change to the hand.

Hmph, are you ready to transform? Alister snorted coldly, But even if you destroy the Imperial Order, I still have an absolute advantage.

Let me remind you in case you forgot. As long as the Tank Token is on the field, the attack power of the Crayton will increase. But because of the effect of The Seal of Orichalcos, you can't attack the Tank Token in the rear position.

He said and narrowed his eyes.

That is to say, you must first defeat the KC-1 Crayton whose attack power is 3500!

Ah, I know. Yuei Vu added the Spell Card from the deck to his hand, and said lightly, You don't need to tell me, I plan to do that now.

Chapter 249: Air Fortress Ziggurat

Alister narrowed his eyes.

The attack power of KC-1 Crayton has reached 3500 under the boost effect, and because of The Seal of Orichalcos, the three Tank Tokens were all covered in the back row, so Yuei Vu could only attack KC-1 Crayton.

Under such circumstances, was he actually able to defeat the KC-1 Crayton?

Activate Quick-Play Spell Mask Change! Yuei Vu said, Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute!

I sent Elemental HERO Solid Soldier to the GY!

Transform! Masked HERO Dian!

Gorgeous transformation special effects wrapped Solid Soldier, transforming him into a hero with a diamond-like armor covering his body, holding a white sword blade, and behind him was a fluttering blue cloak.

[Masked HERO Dian, ATK 2800]

Then at this moment, the effect of Elemental HERO Solid Soldier is activated. A card popped up in Yuei Vus GY area, If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO monster in my GY, except Elemental HERO Solid Soldier; Special Summon it in Defense Position.

I revived Elemental HERO Blazeman in defense mode.

Flames burst out on the ground, and the hero in red uniform returned to the field following the flames, crossing his arms in front of Yuei Vu.

[Elemental HERO Blazeman, DEF 1800]

The effect of Blazeman. Yuei Vu said, If this card is Normal or Special Summoned: I can add 1 Polymerization from my Deck to my hand.

He pulled out the deck and found Polymerization from it.

Alister sneered: The Masked HERO with an attack power of 2800 is indeed very powerful. But this attack power cant defeat my KC-1 Crayton.

I have studied your tactics. Masked HERO is a series in which you can retrieve Change Quick-Play Spell Card through battle, and perform multiple transformations to increase the number of attacks.

But this characteristic is restrained by The Seal of Orichalcos. As long as there is this layer of enchantment, you will not be able to attack any of my monsters except KC-1 Crayton

Of course, I know, but heroes have more than one form. Yuei Vu played the card in his hand that was just retrieved by the effect of the Shadow Mist, Quick-Play Spell Form Change!

Return 1 HERO Fusion Monster I control to the Extra Deck, then Special Summon from my Extra Deck, 1 Masked HERO monster with the same Level as that monsters original Level, but with a different name!

I return Masked HERO Dian to the deck. Transform!

Cut through the darkness with Huishis sharp sword and bring light

Masked HERO Koga!

Dian gave a clear cry, and the heros armor immediately bounced off. A strong golden light surrounded him, and the armor turned into a shining golden under the scorching light effect.

The precious Dian switched forms in the golden light, and the armor on his body changed into a platinum and white pattern. There are two golden sharp blades on its arms, like shining fangs, cutting off all evils in the world.

[Masked HERO Koga, ATK 2500]

Alister obviously already knew this Masked HERO: Damn it, its this tricky guy again

The effect of Masked HERO Koga! His attack power will increase the number of monsters on the opponents field x500! Yuei Vu said, Now you have KC-1 Crayton on the field, as well as three Tank Tokens. Therefore, Kogas attack power has increased by 2000!

[Masked HERO Koga, ATK 2500 ATK 4500]

Attackattack power 4500!? Alister lost his composure.

Its not over yet! Masked HERO Koga, the follow-up effect! Yuei Vu raised the volume, Once per turn, I can banish 1 HERO monster from my Graveyard, then target 1 face-up monster on the field; that target loses ATK equal to the ATK of the monster banished to activate this effect, until the end of this turn!

What!?

I removed the Elemental HERO Thunder Giant from the game, and the attack power of the KC-1 Crayton will be decreased by the attack power of Thunder Giant, which is 2400 points!

[KC-1 Crayton, ATK 3500 ATK 1100]

Alister, LP 2500

This blow will cause 3400 points of damage! Mokubas eyes lit up. He looked at Yuei Vu as if he was looking at a great superhero, Yuei Vu won!

Battle! Yuei Vu shouted, If you dont have the courage to face this reality, let someone who has courage do it! The so-called hero is someone who not only be able to clearly recognize the cruelty of reality, but also be able to bear the burden without hesitation!

Masked HERO Koga, attack KC-1 Crayton!

The masked hero of light flew forward, dragging a shining trail behind him, and his figure turned into a golden afterimage.

He jumped high and came to the top of the army green tank, his blades staggered and slashed downward. The sharp golden light left a crossed X on the thick metal turtle shell, and the boundless golden light bloomed from the crack. It blasted the heavy tank into pieces, engulfing Alisters figure as well.

Koga jumped back from the strong light and smoke screen. He fell to Yuei Vus side with his arms folded.

However

Alister, LP 2000

When the smoke cleared, the huge tank disappeared, but Alister still stood, and his LP was also unscathed.

Its really dangerous. I really shouldnt be careless at all. Alister said blankly, At that moment just now, I also activated Trap Card Defense Draw. It can reduce the damage of a battle to 0, and let me draw a card.

Yuei Vu let out a foul breath.

As expected of one of Domas Three Swordsmen, he was so difficult to deal with. Even Kogas killing blow could not finish him.

I end my turn. Yuei Vu said, Because KC-1 Crayton was defeated, the number of monsters on your field decreased, so the attack power of Masked HERO Koga decreased too.

[Masked HERO Koga, ATK 4500 ATK 4000]

In fact, he could have activated Polymerization to fuse Shadow Mist and Blazeman, and summon Elemental HERO Nova Master for another attack.

However, the opponent had three tokens in the defense position on the field. Even if they were destroyed, he would not take further damage. On the contrary, if the Elemental HERO Shadow Mist Girl was used for fusion now, her retrieval effect would be wasted.

Shadow Mist had two effects: One was to retrieve a Change Quick-Play Spell Card from the deck when it was special summoned, and the other was to retrieve a HERO monster from the deck when entering the graveyard. A player could only use 1 Elemental HERO Shadow Mist effect per turn, and only once that turn.

Yuei Vu has already used her first effect this turn, so if she was sent to the graveyard now, he could not activate her second effect. Therefore, its better to let her stay on the field for now.

My turn. Alister slowly drew a card, glanced sideways, and then raised his head.

I admit that I have underestimated you a bit, he said, The research on tactics and strategies to deal with you is far from enough. You are not an ordinary duelist, but an opponent worthy of my full strength.

He took out a card in his hand.

So Ill let you have a special experience with this card, which I have never used in front of anyone.

While Alister was speaking, he glanced at Kaiba intentionally or unintentionally.

Kaiba, by the way, watch carefully. This is the last trump card I prepared for you, but now Ill let you take a look at it first.

He stared coldly and raised his right hand.

Activate Spell Card Sky Union!

While he was shouting loudly, the card in his hand shot a golden light straight into the sky!

I use three Tank Tokens on the field as sacrifices, and special summon from the deck

Air Fortress Ziggurat! (anime card)

Chapter 250: Kaiba's Worries

When Alister aggressively called out his monster to the field, Yuei Vu didnt even realize where the monster he summoned was at first moment.

Until a shadow covered the sky and the sun came in from the window, like a dark cloud covering the sun, then he noticed it. The big steel body fell down in black, like a suspended metal island. It was so big so big that it reminded people of the little monsters in Ultraman.

Air Fortress Ziggurat, summon!

The huge aircraft hovered outside the building as if a giant beast was peeping through the window to see what was going on indoors.

Such a huge size was really hard to be ignored, and it must have attracted the attention of many people in the nearby buildings and blocks at this moment.

This was the true ace monster of Alister. It was a monster conceived from the deepest darkness in his own heart after he took refuge in Doma and gained the power of Orichalcos.

The priests of ancient Egypt believed that many spirits were born from the human heart, and people with enough hatred and scars in their hearts could breed extraordinary evils by relying on that darkness.

Doma apparently also learned this skill. Domas Three Swordsmen all had unbearable pasts, coupled with their natural aptitude in this area and Dartzs intentional guidance, the three of them had a deep and dark heart that ordinary people couldnt compare.

The monsters bred under such conditions were naturally unusually powerful.

[Air Fortress Ziggurat, ATK 2500]

Because of the effect of The Seal of Orichalcos, the attack power of Air Fortress Ziggurat will increase!

The imprint of the six-pointed star appeared at the front end of the mechanical fortress, and the evil force enveloped the entire fortress, and its entire aura changed.

[Air Fortress Ziggurat, ATK 2500 ATK 3000]

Then because the three Tank Tokens became the sacrifices to summon Air Fortress Ziggurat, the number of monsters on my field was reduced to one Alister sneered, You know what this means, dont you?

Yuei Vu narrowed his eyes: Masked HERO Kogas attack power will decrease accordingly.

[Masked HERO Koga, ATK 4000 ATK 3000]

Hahahaha, let me tell you in particular, Air Fortress Ziggurat is unaffected by the opponents Spell and Trap Cards! Alister shouted, Battle! Air Fortress Ziggurat, attack Masked HERO Koga!

The huge fortress slowly descended, and the barrels protruded from both sides of the fort one after another, locking onto the Masked HERO on the ground.

The energy shells were ready to go, the pulse energy was brewing in the barrel, and the missiles were in place one after another, ready to carry out a carpet bombing at any time.

The attack power is the same, do you want to cause a mutual kill? Mokuba shouted outside the barrier.

No, I didnt intend to die let my monster die. In fact, the duel will end in this turn! Alister played a card in his hand, Quick-Play Spell Blind Spot Strike! Select 1 face-up Defense Position monster the opponent controls and 1 face-up Attack Position monster I control. The monster I control gains ATK equal to the opponents monsters DEF, until the End Phase!

Air Fortress Ziggurat was unaffected by the opponents Spell and Trap Cards, but the effects activated by the controller himself were still effective.

Outside the barrier, Kaiba gritted his teeth: Alister you bastard! There are two monsters in defense mode on Yuei Vus field, Elemental HERO Blazeman and Elemental HERO Shadow Mist

I select Elemental HERO Blazeman, and 1800 points are added to the attack power of Air Fortress Ziggurat!

[Air Fortress Ziggurat, ATK 3000 ATK 4800]

Mokuba exclaimed: Its attack power surpasses that of Koga!

And its not over yet! Alister yelled, showing another card in his hand, I still have this card Quick-Play Spell Concentrating Current! Target 1 face-up monster I control; it gains ATK equal to its current DEF, until the end of this turn. Other monsters I control cannot attack during the turn I activate this card.

Air Fortress Ziggurats defense power is 2000 points, so its attack power has increased again by 2000!

[Air Fortress Ziggurat, ATK 4800 ATK 6800]

Attack power 6800!? Mokuba was taken aback, B Brother Yuei Vu!

Even Kaiba was a little moved, and subconsciously moved to the edge of the barrier: Yuei Vu!

All the barrels were locked, and the beam rained down! Air Fortress Ziggurat fired a full salvo, bombing like a storm. The hero of light was instantly devoured, the white and gold armor was torn apart by the artillery fire, and the heros body was also smashed to pieces under the fierce fire bombardment.

Hahahahaha! This is the end! Alister laughed, Said so many beautiful words, but in the end, you cant do anything?

There is no such thing as a hero in this world! No one will save

! ?

The smoke and flames from the bombing of Air Fortress Ziggurat disappeared, and he was shocked to see that Yuei Vu was still standing behind the smoke screen.

Although he was covered in black smoke and looked a little embarrassed, he was also panting heavily due to the double consumption of physical and mental energy in the Shadow Game

but he still stood, like a piece of tough bamboo.

Yuei Vu, LP 700

Whywhy!? Alister was shocked, Why havent you been defeated yet?

Could it be that this man is really immortal?

Yuei Vu breathed a sigh of relief, and said: The effect of Masked HERO Koga can also be activated during the opponents turn.

Although your Air Fortress Ziggurat is unaffected by the opponents Spell and Trap Cards, monster effects can still apply to it.

Yuei Vu took out a card from the card box behind him and showed it to Alister.

At the moment when the battle happened just now, I banish Elemental HERO Heat from the graveyard. So now the attack power of Air Fortress Ziggurat is

[Air Fortress Ziggurat, ATK 6800 ATK 5200]

Mokuba let out a long sigh of relief: So dangerous. Just a little bit more Masked HERO Koga What a powerful hero! He can even activate his effect in the opponents turn

Hmph. Kaiba folded his arms and returned to his indifferent face, as if he wasnt the one who almost wanted to rush into the barrier just now.

Mokuba suddenly realized something: Brother, you justwere also worried about Yuei Vu?

Kaibas eyelids twitched, and he snorted coldly: I wont allow him to lose to anyone other than me!

Mokuba said oh.

Since my brother said so, then it should be so.

Damn, I set a card and end my turn. At the End Phase, the attack power of Ziggurat will be restored to its original state.

[Air Fortress Ziggurat, ATK 5200 ATK 3000]

But at this moment, another effect of Ziggurat is activated. I special summon 1 Robot Token in Defense Position!

As soon as Alister finished speaking, a hatch at the bottom of the huge fortress opened. A red and blue robot was thrown from the bottom, half crouched and landed on the field in front of Alister.

[Robot Token, DEF 0]

Taking a closer look, this robot was obviously the relic left by his dead brother that Alister showed them before.

This was also proof that each of the ace monsters of the Three Swordsmen of Doma was born from the darkness in their hearts. This Air Fortress Ziggurat symbolized the pain and sorrow in Alisters heart.

As long as there is a Robot Token on my field, the opposing player cannot choose other monsters than it as attack targets. Alister said, This is the strongest shield of the Air Fortress Ziggurat. Even if you can call out more powerful monsters, if you dont defeat the tokens first, you wont be able to hurt the Air Fortress.

"

"

At this point, Alister paused, snorted, and looked at Yuei Vu coldly, Why dont you just concede? Why are you so stubborn?

Yuei Vu rolled his eyes.

Isnt that nonsense? Knowing the ability of The Seal of Orichalcos, how can I concede?

But in this way, his LP has dropped below 1000, which was already like a candle in the wind

You know what I mean.

At this moment, in his menu, the button of Duel Skill Draw of Fate was already lit up.

Yuei Vu raised his hand and put it on the deck, and was about to activate the duel skill, but suddenly he seemed to sense something and paused.

He felt a certain kind of power, a kind of mysterious power that came from nowhere, swiftly passing through his internal organs, making him feel that the impulse of power and even destruction was continuously coming up.

In an instant, he realized the source of that power.

This power comes from the God Card that he snatched back from Doma and has stayed in his hand ever since.

Obelisk the Tormentor!
