

I Play Yu-Gi 481

Chapter 481: Have A Baby?

Catkin-like snow fell from the sky, and the wind blew the snowflakes to the streets and alleys of the city. Dominos urban area was covered with snow, the earth seems to be covered with a layer of snow-white curtains, and the boundary with the sky has become blurred.

Christmas quietly visited this city.

Not only the local NPCs, but even those screwball players who were cheerful and noisy every day like a festival, seemed to be infected by the atmosphere and enter the rhythm of Christmas.

The most obvious change was that there were more Santa Clauses of different shapes on the street these days. In addition, some screwballs had reindeer headgear on their heads there was no such headgear of this shape before, and it may be a limited fashion during the festival.

There was another girl player in a hurry on the street with a bag of Christmas pudding in her hand.

It may be a mission prop, or it may be her own meal.

Players did not need to eat, but in the ultra-realistic game world of World Link Online, players could taste the food.

This is simply the gospel of countless foodies whatever you eat, you wont get full or fat. This must be heaven, right?

Of course, the premise was that you have enough money to afford

There were indeed many players who loved to eat. Their biggest goal when playing games was to earn money by doing quests and playing cards, and then use the money to buy all kinds of delicious food

So Yuei Vu took the initiative to step forward: Sell me this pudding.

The girl turned her head and couldnt help being pleasantly surprised when she saw him clearly.

Its Yuei Vu-san!

AWSL, Yuei Vu-san took the initiative to talk to me

If you dont mind, you can even take me to your house to eat

Of course, in the end, Yuei Vu still paid her.

Came to the store, when Chika took the bag of pudding from him, even her breathing seemed to become short.

She found that this bag seemed to be her favorite flavor.

She blinked nervously: This is for me?

Merry Christmas. I happened to see it on the way here and bought it at random.

Oh.

Chika responded, but her eyes were still full of enthusiasm as if she didn't care about Yuei Vu's answer.

Although he refuses to say it, let's assume he bought it for me!

Thinking of this, she felt more energetic in her work all day today.

Not long after, a private car stopped not far from the store.

It was Little Judai and his parents who got out of the car.

GX animation once explained that when Judai was a child, his parents were very busy with work and often had no time to accompany him. Now it seemed that this was the case, and even at Christmas, they would not be able to make time for their son.

So they called Yuei Vu yesterday, saying that they hoped that Judai could spend Christmas with Yuei Vu.

Of course, Yuei Vu didn't have any opinion on this.

After all, he was his cute little apprentice, Yuei Vu was always welcome him.

When getting out of the car, Judai's father touched his son's little head: I'm sorry, my mother and I really don't have time, and we can't even be with you at Christmas

You must be obedient to Mr. Yuei Vu, and don't cause trouble for others, do you understand?

Yes. Judai nodded.

I can't spend Christmas with my son, so as a parent, I still feel somewhat guilty.

Even if Judai is such a cheerful and cheerful child, even if he doesn't show it on his face, he will still feel a little lonely and lost in his heart, right?

Then he saw Judai run towards the card shop with joy, with a bright and excited smile on his face, and waved his hand vigorously: Yuei Vu-sensei! Here I come!!!

He looks pretty happy to be able to spend Christmas with Yuei Vu-sensei!

But is this too happy?

Judai's father:

Seeing Little Judai running into the door excitedly, China also nodded slightly. Although she had no expression, she looked at the head of this little jellyfish very kindly.

Since taking the child to the Kaiba Land with Yuei Vu last time, Chika's affection for the child has also grown day by day.

Although she thought he was a troublesome child when she first went to Kaiba Land (even wanted to throw this little jellyfish to The Center of Lost Children), after getting along with him for a long time, she thought this child was quite innocent and cute.

Hi, sister! Judai greeted loudly.

He caught a glimpse of Yuei Vu behind the counter, trotted forward, and carefully took out a deck of cards from his small schoolbag.

Sensei, my new deck!

Oh? Finished so soon?

Yuei Vu took the deck of cards from his little hand and flipped through them one by one.

Little Judais eyes widened beside him, not daring to breathe, as if he was standing in the office waiting for the teacher to check his homework.

After a while, Yuei Vu finished checking the deck and nodded slightly: Well, its considered qualified.

Although the construction was still difficult to say rigorous, and there were still many unknown meaning things, at least it has improved a lot compared to before.

Judai took over the deck that was approved by the teacher and jumped up and down in excitement.

Maybe the child was a little too noisy. The store manager came down the stairs stretching his waist and yawning. He seemed to be muttering about whose children were so noisy.

As a result, when he went downstairs, he saw Chika who was putting breakfast on the table, and the little jellyfish head jumping around Yuei Vu, and he couldnt help being a little dazed for a moment.

The store manager rubbed his eyes, thinking for a moment that he was awake.

Whats going on?

When did my granddaughter and this brat have a baby this big?

After a while, the store manager figured it out anyway.

Isnt this kid that brats apprentice?

Hey, take a closer look, this kid looks quite pleasing to the eye, with the demeanor of my youth.

For a while, he even thought that it would be great if this kid was really his granddaughters baby

Chika sat at the dining table with her head buried like a little ostrich, her delicate face flushed red.

Grandpa likes to think about dirty things all day long!

Everyone sat down at the table and prepared to start. Judai held the stool under his little buttocks and moved toward his teacher.

Yuei Vu-sensei! He said, I want to continue listening to the story from last time!

Chika and the store manager also pricked up their ears, a little curious about what he was talking about.

Yuei Vu raised his eyebrows: The story from last time?

Yes, yes! Its the story of five hundred years or something

Oh. Yuei Vu was stunned, You mean Being Overpowered, I Was Banned for Five Hundred Years?

Yes, yes, thats the one! Judai nodded vigorously.

Okay. Yuei Vu picked up a piece of toast in front of him, and said, Once upon a time, there was a super duelist who called himself Great Sage Equaling Heaven. His talent attracted the attention of duelists from all over the world, including the biggest organization Heavenly Court

Chapter 482: Why Did You Go To Such An Extent?

Yuei Vu Boy! I have something very important to tell you, Desu~

The day after Christmas, Yuei Vu clicked on the video in the email from Pegasus, and it was the opening lightning strike.

In the video, Pegasuss expression was very serious, but his only eye was covered with a heavy dark circle, and his white hair was also a bit messy. He had the face of a man who suffered from severe malnutrition every day.

Yuei Vu almost wanted to call and ask: Pegasus, did someone raid your bedroom at night on Christmas Eve?

As a result, he pressed down and listened, and found that Pegasus was really raided at night. And the one who attacked him was none other than President Kaiba

Yuei Vu summed up what Pegasus said, mainly accusing Kaiba of not having the honor of a duelist, and suddenly flew to the island in the middle of the night to play night raids, insisting on grabbing Pegasus to play cards with him.

Its okay to just play cards, but Kaiba still has to gamble on cards. Pegasus said that he wasnt completely awake at the time, his whole mind was blurred, and he was beaten by Kaiba when he was confused, and the card that was just printed was snatched away by Kaiba.

Speaking till this point, if Yuei Vu still didnt understand what happened, then the time he spent watching Yu-Gi-Oh animations in his previous life might be all in vain.

It seemed to be the same as the plot of the Pyramid of Light movie. In order to find the card that could conquer the three Egyptian Gods, President Kaiba made a special trip to Pegasuss castle to find the possibility of surpassing the three Egyptian Gods.

Then Pegasus really happened to have just printed a card that was said to have the strength that surpassed the Egyptian God, and it happened to be a new vest of White Bride, the famous Blue-Eyes Shining Dragon.

In the movie, Anubis secretly stuffed a Pyramid of Light card in Pegasuss stack of cards in order to borrow Kaibas hand to kill Yugi, but now Anubis was solved by Yuei Vu and died in the tomb. The Pyramid of Light card was also in Yuei Vus hands at the moment, obviously, there was no chance for him to make trouble.

So he guessed that what Kaiba snatched from Pegasus should be only one Blue-Eyes Shining Dragon.

"

"

In fact, it was not incomprehensible that Kaiba was so anxious.

After all, for the sake of career development, Kaiba forced himself to concentrate on building Kaiba Land and developing Kaiba Corps economy.

However, during the long period of more than one hundred hours when he retired (after all, he broke the precept midway), he saw with his own eyes that his card friends, Yusei Kaido and Yugi, who were recognized by him, had more and more trump cards in their hands. The strength of the two would skyrocket out of control.

President Kaiba felt a deep sense of crisis!

However, Kaiba tried his best to find a way to suppress Yugi, but in fact, losing to Yugi has almost become a habit, and it didn't really matter.

In the Pyramid of Light movie, President Kaiba, who got a new cheat, excitedly locked Yugi up and played cards with him.

During the period, Yugi lost steadily and was almost defeated by Kaiba. Instead of being excited about finally winning against the archenemy, Kaiba looked angry and shouted something like too disappointed and totally boring

Maybe Kaiba just thought he wanted to win the game once, but he was not happy if he really won.

Sometimes men are just that weird. If you can't get it, you will do everything possible to get it; when you really get it, it's just a climax, and then it's dull

At the end of the video, Pegasus solemnly warned Yusei Kaido, saying that he must be careful when he was around Kaiba these days!

Maybe because the company's affairs have finally been arranged in place, and the construction of Kaiba Land has also been on the right track step by step, Kaiba immediately returned to the spot, directly releasing the card addiction that had been suppressed for nearly a week, and specially arrested people to play cards!

What? Do you ask how serious the comeback of the president's card addiction is?

Looking at the dark circles under the eyes of Pegasus, who is suspected of being severely malnourished, you should probably be able to guess it

Received a warning from Pegasus, Yusei Kaido faintly felt a catastrophe was coming.

At this moment, Kaiba has just lifted the seal, which was the time when he was excited the most, especially when he snatched White Bricks' new vest from Pegasus. He was impatient to find an opponent who could fight to enjoy himself.

This must not be a good idea.

Should I make up a reason and go out of town to avoid the limelight for two days?

No, if the president is determined to play cards, let alone go to other places, even going to the underworld is useless

Yuei Vu rubbed his temples, feeling a headache.

But when it came to the underworld, he suddenly had another idea.

Wait a minute, Yami Yugi hasn't returned to the underworld yet!

Then how about find a way to make him go up first?

Maybe the president will be beaten by Yami Yugi again, and he will stop troubling me for the time being when he is satisfied.

Just as he was thinking, his Duel Disk suddenly rang.

Recently, thanks to the future Duel Disk given by Yuei Vu to Kaiba Research, the development of Kaiba's new generation of smart Duel Disk was progressing very smoothly.

Now the first test machines have been developed and released to some internal personnel.

For example, Kaiba and Mokuba, the two brothers were now using a new generation of smart Duel Disks.

In addition to the update of the dueling performance of the new Duel Disk in the trial stage, its main special feature was the ability to remotely chat with friends in the duelist list.

Originally, according to Yuei Vu's suggestion, the group chat function may be opened later, but it has not been implemented yet.

However, Yuei Vu brainstormed the scene after the group chat function was opened and felt a little bit pained.

Imagine one day in the future, there was a Legendary Duelist chat group.

Admin Seto Kaiba said: Yu Gi ! Yuei Vu ! Hurry up and come to fight me!

Then there was a bunch of audience gathered with popcorn in hand, including legendary duelists such as Jonouchi, Mai, Ryuzaki, and even Doma Three Swordsmen.

That's too much.

Yuei Vu picked up the Duel Disk and took a look, and found that it was a message from Mokuba of course, there were only Kaiba and Mokuba in his friend list at the moment.

My brother said that if it is convenient, come to the company immediately!

Yuei Vu immediately replied without thinking: It's not convenient.

Not long after, Mokuba sent another message: He said if it was inconvenient, still come here immediately.

Yuei Vu:

Before he could reply, he saw Mokuba sent another message: Brother said, if you wont be here in ten minutes, he will change the access code of the companys card library in the future and order the card library manager not to tell you the new password

Yuei Vu: ???

Kaiba, you are too ruthless!

Isnt it just to play cards with you? Why did you go to such an extent?

Chapter 483: I Believe You My Ass

So a few minutes later, Yuei Vu came to the headquarters of Kaiba Corp with a darkened face.

It was the same as when he came to the company in the past, Mokuba was still waiting for him in the lobby downstairs. But this time he was obviously a little embarrassed. When he saw Yuei Vu entering the door, his tone of greeting didnt seem to be as energetic as when he saw Yuei Vu in the past.

Brother Yuei Vu. He was a little embarrassed, My brother he insisted that you must come over

He wants me to fight him, right? Yuei Vu said helplessly, Did he get a new card?

Mokuba was a little surprised: Huh? How do you know?

But after thinking about it, he seemed to understand: Oh, Pegasus told you, right?

Mokuba knew that Yuei Vu has cooperated with Pegasus. He also knew that his brother ran to find Pegasus in the middle of the night to play cards, so it was not surprising that Pegasus told Yuei Vu about it.

Mokuba didnt say anything more for the time being. He led Yuei Vu through the lobby, all the way to the elevator dedicated to the upper floors. He verified his identity, pressed the button, and the two stepped inside.

Until the elevator climbed to the tenth floor, there was an embarrassing silence in the elevator.

This was quite abnormal in general. Mokuba was usually very happy when he saw Yuei Vu, and he was also very talkative. They talked about everything work, life And he rarely couldnt find a topic.

It wasnt until he was about to reach the destination floor that he hesitated and said, That Brother Yuei Vu.

Um?

Be careful this time. He whispered, My brother today is stronger than ever You might really lose.

As a younger brother, Mokuba of course hoped that Kaiba could win. But to be honest, he didnt really want to see Yuei Vu lose either

Well, thank you for the reminder. Yuei Vu smiled, I will.

In fact, even if he didnt need to remind him, Yuei Vu was still mentally prepared.

Not to mention that the performance of Kaiba in Pyramid of Light was really impressive, just thinking about how many new vests Kaiba printed for White Bride during this period of time, Yuei Vu also knew that he must not underestimate the enemy.

The current Kaiba was definitely not at the same level as the Kaiba who fought against him in the past.

It was important to know that the growth and upgrading speeds of these characters in the original animation were also monster-level.

But when the elevator door opened, Mokuba led the way to the corridor but suddenly hesitated again.

Ehhow about we wait for my brother

Yuei Vu was taken aback: Is Kaiba busy?

He called me over in such a hurry before he finished his work? Does the president have such a little patience?

Its right. Mokuba broke into a cold sweat.

Seeing his reaction, Yuei Vu suddenly realized something, and couldnt help being speechless for a while.

Forget it, it doesnt matter, Ill go in and wait for him.

Mokuba didnt say anything more. The two walked through the corridor, entered the password to verify their identities, unlocked a heavy alloy door, and came to a huge and empty experimental duel field.

At this time, the huge duel arena was supported in the air by heavy metal pillars, just like the open-air duel platform on the airship during the Battle City competition.

President Kaiba was standing on the mid-empty field at the moment, with arms crossed, behind him was the Neo Blue-Eyes Ultimate Dragon with its teeth and claws open, and the three heads of the white dragon simultaneously let out a mighty roar like a demonstration.

And across from him

Standing opposite him was the Yuei Vu Bot who has received countless upgrades and patches

Mokuba covered his face and turned his head away.

Although his elder brother usually has the habit of practicing with Yugi Bot and Yuei Vu Bot from time to time, playing with AI privately and playing AI in front of the real thing were different. Mokuba really felt too ashamed

Especially when Yuei Vu Bot said some weird lines.

For example

The path forward of a righteous hero will never stop. Even if a god stands in the way, I will defeat it! Come on, Kaiba! Just hit me with everything you have!

This was the speech of AI at this moment.

Yuei Vu:

This is malicious slander! Such a chuunibyou line is the style of the president, right?

I really never said such a sentence. JPG.

Of course, the result of the duelyou could figure it out with your toes.

Neo Blue-Eyes Ultimate Dragons three Hyper Ultimate Bursts swept everything on the Yuei Vu Bots field like a broom and directly blasted all the monsters in the field to ashes. Even the image of the AI Bot seemed to be submerged in the white light of destruction and then disappeared.

Another day of abusing AI Bot.

As the duel ended, the raised platform also began to drop in height. The metal support rods began to shrink, and the field slowly fell back to the ground.

But President Kaiba was very handsome. Maybe because of his different physique, before the dueling platform was lowered to the ground, he jumped and fell down.

The president only slightly bent his knees, and landed firmly on the ground without even rolling over. With this physique and leg strength, if he ever wanted to join the Avengers next door, he may be able to skip the assessment period and go straight to work.

Although this was nothing compared to the daily routine of jumping off a plane, Yuei Vu still couldnt help but want to remind him that Mr. Newton

Oh wait, this is Domino City, sorry to bother you.

This site may not be under the control of Mr. Newton, because he may not be able to play cards.

Seeing the end of the presidents abuse of the AI Bot, a bunch of scientists came up to congratulate him, saying that the new AI Bot patch of Kaiba Corp was very successful. According to their calculations, they could already simulate more than 90% of the strength of the Duel King himself.

They also said that the performance test of the new generation of Duel Disks was also perfect, and it should be officially released in a short time, and it would cause a huge impact on the market by then.

Kaiba listened, but suddenly flew into a rage.

90% strength? Nonsense! After all, its just a computer! He snorted angrily, Even if you win against something like this, it doesnt mean anything at all!

A group of researchers were stunned by the sudden outburst of the president, so they quickly shut up and dared not speak.

But they all looked at the companion who said something wrong between them with complaining eyes.

Why dont you think before opening your mouth? Why do you want to compare AI with the real thing?

Dont you know that the president cant hear someone saying that our companys Duel King is not good?

Visually, it seemed that this group of people didn't notice that he was there, and Yuei Vu's face became darker and darker.

So President, you know that it is meaningless to beat the computer, why do you have to abuse it every few days?

At this time, Kaiba also noticed that he was in the room, and looked over at a glance.

Yuei Vu !

He ignored a group of researchers and strode forward. The white windbreaker was fluttering without wind, but it did reveal the arrogance of a modern king.

I've been waiting for you for a long time! He said loudly, lifting the dueling disk in his hand, Come on, this is our final battle! This time, I must make a break with you!

The final battle?

Yuei Vu rolled his eyes and complained from the bottom of his heart.

I believe you my ass

Chapter 484: Rematch With President Kaiba

Duel! x2

Yuei Vu, LP 4000

Kaiba, LP 4000

According to the Duel Disk, this time it was Yuei Vu who got the first turn.

Hmph, are you the one who attacked first? Kaiba hugged his arms and snorted coldly, Then try to attack me with all your strength, Yuei Vu ! I can't accept it if you go easy on me!

Yuei Vu: President, why do you think that I will go easy on you

However, although President Kaiba has a basket of new cards in his hand these days, his strength must be stronger than before, during this period of time, Yuei Vu was not idle either, and the new cards he bought were not much less than Kaiba.

Moreover, after the harvest a wave in the limited-time events on this trip to Egypt, the crystals in his inventory also ushered in a super peak after a long absence. After opening packs for two days, he now had a lot of new cards.

Then, as the president wishes, I'll let him have a good time.

I'll go first, draw! Yuei Vu drew and played a card without thinking, Spell Card Pot of Greed. Draw two cards from the deck.

The corner of Kaiba's mouth twitched: Hmph, you still like this kind of card as always.

He has carefully studied Yuei Vu's style long ago, and he thought he knew the latter well.

"

"

He found that no matter what deck he used, Yuei Vu seemed to, especially like this kind of card that could speed up drawings and increase the number of cards in his hand.

This was not difficult to see from the record of cards that Yuei Vu took from Kaiba Corps storage each time

Hmph, Yuei Vu , I figured out your depth a long time ago!

Quick-Play Spell Hand Destruction! Yuei Vu showed the next card in his hand, Both players send two cards from their hands to the graveyard, and then draw two cards from the deck.

Changing the hand again? Kaiba picked out two cards to discard, drew cards from the deck, and sneered at the same time, It really fits your style.

At this moment, Yuei Vu drew a card, and then played another card, Quick-Play Spell Thirst for Compensation! It can be activated only when the opponent adds a card(s) to their hand by a card effect! Special Summon up to two monsters from the hand in face-up Defense Position! (animation card)

Yuei Vu pulled out two cards in one breath, flipped them over, and showed them: Come on! Elemental HERO Blazeman! Elemental HERO Shadow Mist!

There was a swirling pillar of fire, and the flaming hero in red tights appeared on the stage with a loud shout. A ghostly black mist appeared beside him, and the curvaceous young lady hero who was wrapped in black tights appeared in a half-squatting defensive posture.

[Elemental HERO Blazeman, DEF 1800]

[Elemental HERO Shadow Mist, DEF 1500]

The effect of Blazeman! A card automatically popped up in Yuei Vus deck, If this card is Normal or Special Summoned: I can add 1 Polymerization from my Deck to my hand.

Kaiba watched him show the spell card and add it to his hand but didnt make a sound.

Then there is the effect of Elemental HERO Shadow Mist! If this card is Special Summoned: I can add 1 Change Quick-Play Spell Card from my Deck to my hand.

Yuei Vu drew another card that popped up, and the deck was automatically shuffled.

I add Mask Change to my hand.

Accurately retrieved two cards to start his hand, and he then drew out one of the cards in his hand.

Set a card, I end my turn.

Mokuba, who was watching the battle from the audience, murmured: Mask Change, the key card of Brother Yuei Vus HERO deck. It can transform heroes on the field into a powerful Masked HERO at any time

He looked at the two heroes, one FIRE and one DARK, on Yuei Vus field, and thought to himself.

That is to say, 90% the set card in the back row is Mask Change. Brother Yuei Vu wants to choose a suitable hero to transform according to the situation in my brothers turn

Kaiba naturally also thought of it.

Mask Change was a Quick-Play Spell Card. Even if the opponent destroyed it with a typhoon, it could be activated immediately, allowing the heroes on the field to transform.

In this way, it could even neutralize the other party's typhoon and consume the other party's resources.

Kaiba narrowed his eyes.

But!

If you think that this ordinary trick will work for me, Seto Kaiba, then you are underestimating me!

It's my turn, draw! He drew a card from his hand and shouted coldly, Activate the Spell Card Night Beam! This card can destroy 1 Set Spell/Trap the opponent controls. The opponent cannot activate the targeted card in response to this card's activation!

Mokuba's eyes lit up: It's amazing, brother! In this way, even the Mask Change can't be activated

The Spell Card emerged, and a piercing golden light shot out from the card surface, like a laser beam locked on the target, flying straight towards the card in Yusei's back row!

But Yusei's only the corners of his mouth raised slightly.

That's not necessarily true.

Kaiba's eyelids twitched.

Although he heard these words so much that he was about to have a physical reaction, it seemed that this was the first time he had heard such a sentence from the opposite side just after the duel had just begun.

In his impression, it was usually the critical moment when the two sides were fighting in full swing, and the other side would recite such a line to mess with his mentality

Seeing the golden beam hit the set card directly and the card smashed to pieces by the high concentration of energy, Kaiba's pupils shrunk.

That card was not a Mask Change as he thought.

It turned out to be a red trap card.

The set card you just destroyed is the Continuous Trap Mirror Force Launcher. Yusei waved his arm, and the image of the destroyed trap card appeared in front of him.

When this Set card is destroyed by the opponent's card effect and sent to my GY: I can Set this card from my GY. The Set card once again appeared at Yusei's feet, and then

His Duel Disk automatically retrieved and shuffled, and a card was ejected from the deck into his hand.

When this effect is activated, I can Set 1 Mirror Force from my hand, Deck, or GY. Moreover, the card that was set by this effect can be activated during this turn!

A golden light flashed at his feet, and another card appeared at his back row.

Hahaha! President, you didn't expect this, did you?!

This is the holy power of Hanoi!

As previously mentioned, after getting the Mirror Force, Yusei Kudo card pool already unlocked the Mirror Force series.

This Mirror Force Launcher card was opened shortly after he returned from Egypt. It has a powerful effect that could retrieve and recover the Mirror Force.

It's just that Mirror Force was a trap that could only be triggered by an attack declaration, and concealment and surprise were also part of its strength. If you used this continuous trap to search, the opponent must have already known that what you set on the field was a Mirror Force, and the effectiveness would naturally be discounted.

But even so, this was already a very useful dedicated trap.

You see, even Kaiba was tricked by this card and showed a healthy and happy smile

Hahahaha!!!

Kaiba raised her head and let out a series of three-stage laughs.

Interesting, you satisfy me so much, Yusei Kudo ! Kaiba laughed.

Always be one step ahead of me, this is the opponent I want!

If it is not a man who is above me, then there is no value in defeating him!

Kaiba snorted and sneered.

But that's all.

After today, I will surpass Yusei Kudo!

After all, he, Seto Kaiba, was not a man who would be willing to be suppressed forever by others.

Summon the Archfiend Cavalry!

What appeared on Kaiba's field was a skeleton demon in red armor, with scarlet light shining from the deep-set eye sockets. He held a spiral spear that looked like a white bone, and a blue-skinned horse straddled his body, with a strange blue flame burning on the horse's head.

[Archfiend Cavalry, ATK 1900]

A monster with a low level and high attack power fit Kaiba's personal preferences very well.

The level of the Archfiend Cavalry is 4, but its attack power is 1900. Mokuba murmured, But Brother Yusei Kudo back row has a Mirror Force, if you attack rashly

Huh, if you are timid, you will never be able to take a new step. My duel has always been to move forward! Kaiba shouted, Battle! Archfiend Cavalry, attack the Elemental HERO Blazeman!

Eh!? Mokuba showed surprise.

Yusei Kudo watched the blue horse sprinting with blue flames floating on its head, his face was expressionless, but his action did not disappoint the president.

Open the set card! Yusei Kudo waved his hand, and the towering blue light released by the flipped card in front of him instantly enveloped the audience, Trap Card Mirror Force! When the opponent declares an attack, destroy all the opponent's Attack Position monsters!

Chapter 485: Mirror Force Again?

Mirror Force!

The superior trap released a divine light that seemed to destroy the world, and the hemispherical protective cover that received the attack reflected overwhelming brilliance. A mighty wave of blue light swept across the audience, pushing flat against the ground.

The powerful demon had no ability to resist that brilliance and was blasted to pieces under the sweeping waves in just a moment.

Sure enough, its the Mirror Force Mokuba was a little worried for his brother, In this way, there will be no monsters on the field for my brothers next turn.

He has no doubts, with Yvei Vus strength and the explosive power of his deck, if Kaiba let his field empty, he would undoubtedly be OTKed in the next turn!

But Kaiba immediately shouted: The moment the Archfiend Cavalry is destroyed, his effect is activated! When this card on the field is destroyed by a card effect and sent to the GY, I can target 1 Archfiend monster in my GY, except Archfiend Cavalry; Special Summon it!

The Archfiend monster in the GY thats right! Its the card that was discarded in the last turn by the effect of Hand Destruction! Mokuba was excited again, As expected, my brother actually made preparations a long time ago!

The demon cavalry was wiped out under the divine power of the Mirror Force, but the soul did not disappear. It seemed to be transformed into a ghost, spinning half a circle on Kaibas field, opening a vortex leading to the underworld on the ground, and calling out a certain huge force from it.

A huge phantom appeared from the darkness, and the projected giant shadow instantly covered the audience like a black cloud!

It has a dark and solid body, obsidian-like sharp claws, wings that cover the sky like a fallen angel, and a golden crown on its ugly and ferocious head.

Like a king from hell!

[Annihilator Archfiend, DEF 3000]

The monster that was Special Summoned according to the effect of Archfiend Cavalry cannot attack this turn, so I summon it in the defense position. Kaiba snorted, My Battle Phase is over

but! If you think my attack this turn is over, then you are wrong, Yvei Vu !

He drew two cards from his hand.

I set two cards on the field! He waved his hand and put down two cards, Then I will activate the effect of Annihilator Archfiend! Once per turn, I can target 1 card I control and 1 card the opponent controls; destroy them!

He pointed to a card at his feet.

I will destroy this set card and your Elemental HERO Blazeman! Kaiba raised his voice, Disappear, miscellaneous fish! Double Destruction!!

The demon spread his arms and wings, raised his head, and let out a low roar. The chaotic vortex rose from the ground, engulfing the set card in the back row of Kaiba and the flame hero on Yuei Vu side at the same time.

The hero struggled to resist using his power of fire, but his little flame was almost negligible under the majestic demonic power. His defense line was torn apart in an instant, he raised his head and let out a groan, his body was thrown high into the air, and he was twisted into pieces in the darkness.

Its not over yet! Kaiba shouted, The set card on my field that I just destroyed through the effect of Annihilator Archfiend is the Trap Card Statue of the Wicked!

When this set card is destroyed and sent to the Graveyard, Special Summon 1 Wicked Token!

The pure gold statue of the evil god appeared on Kaibas field with the activation of the trap effect, blocking the front in a defensive state.

[Wicked Token, DEF 1000]

I end my turn!

Yuei Vu narrowed his eyes slightly.

Even if you have to destroy your own cards to activate the effect of Annihilator Archfiend, can you still summon a Token through the last word effect to minimize the consumption of your own resources?

From this point of view, President Kaiba seemed to have become a lot stronger.

However, at the same time, Yuei Vu only felt

Damn it, the president isnt losing cards as crazy as before

President, what is your signature four-for-one? Isnt it your daily route to use four cards in exchange for a Normie with an attack power of 4500?

You are so dull, this kind of duel cant bring me a smile

My turn, draw! Yuei Vu photographed a monster, Summon Elemental HERO Liquid Soldier!

Bluewater gushed like a fountain, and a slender hero wrapped in blue tights came to the field.

[Elemental HERO Liquid Soldier, ATK 1400]

The effect of Liquid Soldier! Yuei Vu said, When this card is Normal Summoned: I can target 1 Level 4 or lower HERO monster in my GY, except Elemental HERO Liquid Soldier; Special Summon it. Come back, Blazeman!

The roiling flames, flaming heroes in tights, and golden goggles also returned to the field.

[Elemental HERO Blazeman, Defense Power 1800]

The effect of the Blazeman If this card is Normal or Special Summoned: I can add 1 Polymerization from my Deck to my hand.

Because Yuei Vu had already taken a Polymerization last round, so this time he chose a different one.

I added Fusion Substitute to my hand. Yuei Vu said, This card is treated as a Polymerization according to the rules. Then I activate Fusion Substitute!

I fuse the Elemental HERO Shadow Mist and Elemental HERO Liquid Soldier on the field!

The Shadow Mist and Liquid Soldier both left the ground, and the two beams of light merged in mid-air, bursting downward with a blue light as bright as ice crystals.

The fusion condition is 1 Elemental HERO monster + 1 WATER monster!

Yuei Vu raised his arms.

Born from the cold abyss, a hero who dominates everything with absolute power of ice and snow!

Fusion Summon! Elemental HERO Absolute Zero!

The hero wrapped in silver armor slowly flew out of the frozen water, with a snow-white cloak fluttering behind him. The hero folded his arms and landed slowly in mid-air. Before his toes landed, clear ice crystals appeared on the ground.

[Elemental HERO Absolute Zero, ATK 2500]

Absolute Zero. Kaiba looked up at the hero who ruled the severe cold, Is this your new trump card?

The effect of Elemental HERO Shadow Mist! If this card is sent to the GY: I can add 1 HERO monster from my Deck to my hand. I add Elemental HERO Stratos to my hand.

The card in the deck popped up, and he showed Kaiba the Sky Hero.

The corner of Kaibas mouth twitched: But with this kind of attack power, it cant defeat the Annihilator Archfiend with a defense power of 3000 points.

I know. Yuei Vu showed the card retrieved last round, Quick-Play Spell Mask Change! Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute.

I send Elemental HERO Absolute Zero to the GY!

Transform! Masked HERO Vapor!

The cloak flutters behind the snow-white hero, surrounded by the light effect released by the magic effect. The water turned into blue and white armor covering him, wearing red goggles, an X-shaped belt, and water around his feet.

[Masked HERO Vapor, ATK 2400]

At this moment, the effect of Elemental HERO Absolute Zero is activated! Yuei Vu said, When he leaves the field, all monsters on the opponents field will be destroyed!

Ah!? Mokuba was startled, Destroying all the monsters so strong!

Isnt this stronger than the Mirror Force?

The boundless chill was released from the feet of Vapor, like a billowing white wave! When the white air wave swept across, everything was instantly frozen, as if even the air was about to be frozen into a solid body!

Brother Yvei Vu still has a Polymerization card in his hand Mokuba held his breath nervously, If all the monsters of my brother are wiped out, Yvei Vu will summon another Fusion monster to launch a total attack Its my brother who lost!

He never expected that the rhythm of this duel would be so exaggerated.

Its only been a few rounds of confrontation, and Kaiba was already in danger as if if he made a wrong step or were a little careless, he would be killed by Yvei Vus heroes immediately on the spot!

But Kaiba was certainly not so easy to be defeated. He raised the volume and swept his arms across: Open the set card! Quick-Play Spell Card of Guard! Discard 1 card. This turn, monsters I control cannot be destroyed by battle or card effects!

Moreover, I take no battle damage this turn! (animation card)

A card was discarded, and two green shields appeared in front of the Annihilator Archfiend and the Wicked Token respectively. The torrential wave of ice and snow collided with the shield, like a torrent colliding with a tenacious rock. The two solid shields were immediately frozen, but the monster guarded behind it was not damaged at all.

After all, in the original animation, this Card of Guard could even block Osiriss Thunder Bullet unscathed, so Absolute Zero was not a big deal at all.

Monsters cannot be destroyed in any form, nor can they inflict battle damage. Yvei Vus attack this round is basically blocked.

So he simply gave up the attack for the time being: Then I will activate the card that was re-Set in the last round. The Continuous Trap Mirror Force Launcher is activated!

Another effect of this card. Once per turn, during my Main Phase: I can discard 1 monster; add 1 Mirror Force from my Deck or GY to my hand.

"

"

Yvei Vu discarded a card in his hand, and the Mirror Force used last round immediately popped back into his hand from the graveyard.

Kaiba watched him take the Mirror Force back into his hand again, and his expression turned serious.

Mirror Force again?

Then I set two cards, and I end my turn!

Chapter 486: Absolute Zero!

My turn, draw!

After Kaiba drew the card, he squinted his eyes and looked at the two face-down cards in Yvei Vus back row.

He clearly knew that one of them was Mirror Force.

If my brother attacks rashly, all the monsters will be wiped out. Mokuba also looked worried.

Kaiba snorted.

I, Seto Kaiba, am not a duelist who would retreat in a place like this!

Activate the Spell Card Pot of Greed, and draw two cards from the deck! After replenishing the cards in his hand, Kaiba raised his hand, I tribute the Annihilator Archfiend and the Wicked Token on my field!

Come! Dragon Spirit of White!

Appeared!

New vest for the White Bride!

Shining white light shot up into the sky, and the noble dragon seemed to be a solid body condensed from countless flying light particles. It flapped its broad bony wings, raised its noble head, and the radiance that emanated from its body was as dazzling as an incandescent sun.

Dragon Spirit of White, ATK 2500

The effect of Dragon Spirit of White! Kaiba said, When this card is Normal or Special Summoned, I can banish 1 Spell/Trap on the opponents field!

Kaiba narrowed his eyes and stared straight at Yusei's two cards.

Although Yusei's Mirror Force Launcher had the effect of retrieving the Mirror Force from the deck or GY, according to Kaiba's understanding of Yusei's, he thought that Yusei would only put one Mirror Force in the deck.

That was to say, as long as he could accurately pick the Mirror Force from these two cards, the Mirror Force Launcher on the field would become a piece of waste paper .

In addition, if he didn't get rid of that Mirror Force now, he couldn't take the initiative to attack at all.

The probability is 1/2. Mokuba continued to sweat for his brother, Can you choose it right?

Kaiba's eyes narrowed into slits.

If you are a real duelist, there is no reason why you cannot choose it right!

He raised his hand and pointed to the set card in the middle: Dragon Spirit of White! Get rid of that card for me!

The white spirit dragon made a melodious moan, and its body released a dreamy and sacred white light!

It was like an invisible whirlwind captured the set card, and the card flew up into the air weakly, turned into an illusion under the white light, and disappeared out of thin air.

Everyone saw it clearly, it was indeed a Mirror Force.

Okay! Mokuba clenched his fist, My brother has chosen it right!

Hmph, of course!

Kaiba's mouth was twitching, as if it wasn't him but someone else who was so nervous that he held his breath just now.

Battle! Kaiba carried out his forward-looking style, Dragon Spirit of White, attack Masked HERO Vapor!

The white spirit dragon opened its mouth, and the incandescent impact was like a high-density anti-aircraft gun, blasting from above!

Vapor crossed his arms in front of him, and his body retreated continuously amidst the white light. His armor screamed, and it was damaged in many places. Shards of metal flew in all directions, and the red eyepiece was also broken.

The Masked HERO let out a miserable snort and exploded in that beam of light.

Yuei Vu, LP 4000 LP 3900

The follow-up effect of Dragon Spirit of White! Kaiba continued, When the opponent has a monster on the field, use this card as a sacrifice, and I can special summon 1 Blue-Eyes White Dragon from my hand!

This effect can be used during either players turn!

Yuei Vu: I have Elemental HERO Blazeman on my field

Take the Dragon Spirit of White as a sacrifice! Kaiba raised a card in his hand and shouted, Come down, my most loyal servant! Blue-Eyes White Dragon!

The body of the white spirit dragon dissipated in the pure light, and the white dragon with blue eyes flew out! The huge wings flapped a graceful arc high in the air, its body was as strong as steel, and the strong wind rolled up yellow sand below it.

Blue-Eyes White Dragon, ATK 3000

Continue the attack! Kaiba shouted, Blue-Eyes White Dragon, smash that miscellaneous fish to me! Burst Stream of Destruction!!!

The white dragon opened its huge mouth, and the azure storm brewed in its mouth into a dazzling energy sphere.

That was the shattering storm that was said to be comparable to the god in ancient Egypt! For ordinary creatures, even the thought of resisting would be obliterated in front of such power!

White light swept across the field, and the stereoscopic image left a cracked track on the ground. Yuei Vu instinctively raised his arms to protect his face, and when the impact dissipated, the flame hero had already left the stage again.

White Bride has appeared on the stage. Although it was only a Normie, it seemed to have given the president a lot of confidence.

Set a card, I end my turn! he said.

Wait! Yuei Vu interrupted him, At this moment, I want to activate this card. Trap Card -Necro Fusion!

Its the fusion of dead souls? Kaiba said calmly.

This card allows me to Fusion Summon 1 Fusion Monster from my Extra Deck, by banishing Fusion Materials listed on it from my GY face-down. Yuei Vu said, I banish Masked HERO Vapor and Elemental HERO Liquid Soldier from my GY!

Both the Masked HERO and Elemental HERO who control water appeared in the form of phantoms, and under the guidance of the effect of Necro Fusion, they turned into water and fly up, intersecting in midair.

The fusion condition is 1 Elemental HERO monster + 1 WATER monster!

Returned from the cold abyss once again, dominating everything with the absolute power of ice and snow!

Fusion Summon! Elemental HERO Absolute Zero!

The ice crystals surged, and the severe cold storm swept across. The snow-white hero returned again, bringing an extremely cold field that seemed to freeze even the molecules, and stood up to the white dragon king.

Elemental HERO Absolute Zero, ATK 2500

The second Absolute Zero!

Hmph, the monsters summoned by Necro Fusion cant attack in the turn they are Fusion Summoned. Kaiba said lightly, Is that why you activate it in my End Phase? To avoid side effects?

As long as that hero leaves the field, all the monsters on my brothers field will be wiped out. Mokuba clenched his fists.

Kaiba raised his head, looked at the Absolute Zero on the opponents field, and also frowned involuntarily.

A powerful hero who can instantly wipe out opponents and bring devastating blows.

Yuei Vu , is this the strength you have now?

Thinking of this, Kaiba couldnt help smiling again.

The stronger Yuei Vus strength and the greater the pressure on him, the more excited he was.

He couldnt wait to fast-forward to the glorious moment when he won the victory and stomped this former opponent under his feet!

At this time, Yuei Vu

Yuei Vu looked at the Favorability +1, +1, +1 popping up from time to time on Kaibas head, and couldnt help but fell into deep thought.

Chapter 487: Attacking Masked HERO

Come on, Yuei Vu! Kaiba shouted loudly, I know your strength is not only this much! Show me your full strength now!

Yuei Vu:

Although he was quite touched by the presidents enthusiasm, the tone and the lines always made him feel a little awkward.

But since the president has asked so sincerely

Okay. Yuei Vu thought for a while, then closed his eyes lightly, Then, here I come, President.

Kaiba folded his arms and laughed: It should be like this from the beginning.

My turn, draw! After drawing a card, Yuei Vu waved his hand directly, The effect of Fusion Substitute in the graveyard is activated! Banish this card from my GY; return 1 Fusion Monster in my GY to the Extra Deck, then draw 1 card.

Two cards popped up in the GY area, namely his first Absolute Zero and Fusion Substitute.

I return the Elemental HERO Absolute Zero to the Extra Deck and draw a card!

After Yuei Vu drew the card, he chose to use it directly: Spell Card Spell Books from the Pot! Both players draw 3 cards.

Kaiba drew cards with him: Oh? With so many cards drawn, Im curious to see what kind of lineup you can arrange.

As you wish. Yuei Vu took a card, Summon Elemental HERO Stratos!

In a milky white cyclone, a hero in technological battle armor and carrying metal wings descended from the sky. Before landing, there was a gust of wind and airwaves, a standard superhero landing.

[Elemental HERO Stratos, ATK 1800]

The effect of Stratos! Yuei Vu said lightly, When this card is Normal or Special Summoned, add 1 HERO monster from my Deck to my hand.

I choose Elemental HERO Solid Soldier.

As Yuei Vu said, the card group automatically ejected the Solid Soldier for him. After he took it away, the deck shuffled automatically.

Quick-Play Spell Mask Change! Yuei Vu played the key card for transformation again, Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute!

Kaiba narrowed his eyes: Do you want to use Absolute Zero to transform again?

No, this time the one I want to transform is Elemental HERO Stratos! Yuei Vu raised his hand, The WIND attribute Elemental HERO Stratos is sent to the GY!

The lonely hero puts on the mask of vengeance, and turns into a cutting wind to tear the evil!

Transform! Masked HERO Blast!

The gorgeous green whirlwind wrapped Stratos and transformed into a Masked HERO in green in an instant. There is a red streamer around his neck, a striking green armor, and there seems to be an undulating light green cyclone around his body.

[Masked HERO Blast, ATK 2200]

Hmph, a Masked HERO with the WIND attribute, Kaiba said.

Although he has studied Yvei Vus Masked HERO series for a long time, and watched the battle many times, it was the first time to fight in person. When they faced off last time, Yvei Vu didnt have this series in his hand.

The effect of Blast. Yvei Vu said, If this card is Special Summoned: I can target 1 face-up monster the opponent controls; its ATK becomes half its current ATK. I will halve the attack power of the Blue-Eyes White Dragon!

The green whirlwind roared and swept away, engulfing the white dragons body in an instant. Blue-Eyes White Dragon roared and flapped its wings to resist, but it still couldnt completely counteract the force of the wind controlled by the hero, and its power was limited a lot.

[Blue-Eyes White Dragon, ATK 3000 ATK 1500]

Damn it. Kaiba pouted.

Masked HERO Blasts another effect! Yvei Vu said, Once per turn, I can pay 500 LP, then target 1 Spell/Trap the opponent controls; return it to the hand! Hurricane Burst!

Yvei Vu, LP 3900 LP 3400

Ah! Mokuba said, If Blue-Eyes White Dragons attack power is halved, and the set card is blown back, my brother will have no means of defense!

He couldnt help glaring at the Masked HERO with flying ribbons and a handsome back on Yvei Vus field.

So strong!

Having the ability to halve the attack power and clean the back row, Yvei Vus Masked HERO is simply ridiculously strong!

and so handsome!

Of course, Mokuba still hasnt forgotten to worry about his brother.

The set card was blown away, and White Brides attack power was halved. He had no doubt that Yvei Vus heroes could finish killing this round.

Its another crisis!

Mokuba couldnt help feeling a little dazed.

When did Brother Yvei Vu become so strong? Why does it seem that from the first turn, every round is an OTK threat?

Its completely different from the duel in my impression!

Kaibas face froze, and he snorted: Its a good idea, but it doesnt work for me! Open the set card: Trap Card Waboku!

Before the blast from the Masked HERO hit, Kaibas set card flipped over by itself. Three nuns in blue robes appeared around the president, closed their eyes, and chanted a spell peacefully, releasing a transparent protective field to protect Kaiba in the middle.

By the effect of Waboku, I take no battle damage this turn, and my monsters cannot be destroyed by battle this turn. Kaiba laughed loudly, Its a pity, it seems that your full strength is still not enough to break through my defenses after all!

It seems to be so. Yuei Vu shrugged, But you seem to have misunderstood a little bit, President. This is not my best yet.

Huh? Kaiba raised his eyebrows.

Although the battle is meaningless, my turn is not over yet. Yuei Vu calmly drew another card, Spell Card The Warrior Returning Alive. Add 1 Warrior monster in my GY to my hand.

A card from the Duel Disks grave area was returned.

I return Elemental HERO Shadow Mist to my hand.

Kaiba frowned.

This kid what else do you want to do?

Activate the Spell Card from the hand Double Summon! In this turn, I can conduct the second Normal Summon. Yuei Vu drew out the card that was retrieved in his hand at the beginning of the round, Come on! Elemental HERO Solid Soldier!

There was a flash of crystal-like special effects, and a white hero covered in steel armor, like copper skin and iron bones, came to the field. With a shake of his arms, a circle of pale white energy exploded.

[Elemental HERO Solid Soldier, ATK 1300]

The effect of Solid Soldier! Yuei Vu said, When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower HERO monster from my hand.

Come here! Elemental HERO Shadow Mist!

The black mist burst out, and the hero lady in black came to the venue again.

The effect of Shadow Mist! A card in Yuei Vus deck popped up, If this card is Special Summoned: I can add 1 Change Quick-Play Spell Card from my Deck to my hand.

I added the third Masked Change from the deck to my hand!

Kaibas complexion gradually became serious: Is the third Mask Change

Quick-Play Spell Mask Change! Yuei Vu typed it out directly, This time, I sent the EARTH attribute Elemental HERO Solid Soldier to the GY!

A hero who is as bright as a diamond and shines with eternal glory!

Transform! Masked HERO Dian!

The special effects of this transformation surround the body of Solid Soldier. The crystal light enveloped him, and the indestructible steel armor covered his body. The silvery white shining sword was condensed into shape from the flash, and the sword energy when swung was as if even diamonds could be shattered.

[Masked HERO Dian, ATK 2800]

Mokuba looked at the Absolute Zero, Blast, and Dian on Yusei's field. There were so many powerful heroes, and the powerful aura rushing toward him, made him dazzled.

He actually summoned so many ace-level powerful heroes in an instant

But even so, Yusei still has no intention of stopping!

The effect of Elemental HERO Solid Soldier! Yusei said lightly, If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO monster in my GY, except Elemental HERO Solid Soldier; Special Summon it in Defense Position.

Come back to the field again, Elemental HERO Stratos!

The white whirlwind rolled and the hero in a high-tech armor squatted back to the field again.

[Elemental HERO Stratos, DEF 300]

Then its Stratoss effect again! Yusei said, When this card is Normal or Special Summoned, add 1 HERO monster from my Deck to my hand!

Yusei's deck was automatically retrieved again, and a card was ejected. Yusei took it in his hand and showed it.

I added the second Elemental HERO Shadow Mist to my hand.

Looking at the five Monster Zones filled to the brim, even Kaiba couldn't help but feel the pressure.

A kind of great pressure when facing heroes who called helpers to attack together, the famous righteous gang-up

But even that was not the end!

Spell Card Mask Change! Yusei said, Add 1 HERO monster and 1 Change Quick-Play Spell Card in my Graveyard to my hand.

Two more cards were popped from his grave area.

I return the Quick-Play Spell Mask Change and Elemental HERO Blazeman to my hand.

Kaiba saw that he took back these two cards especially the Mask Change, and couldn't help but twitched his eyes again.

Could it be that he will continue to

Since I said I will go all out, of course, I will not break my promise. Yusei added the two cards to his hand and said, So I will show it here, President. I have never used it on anyone else. Yes, this is a new hero.

He raised his hand and played this Mask Change again.

Quick-Play Spell Mask Change! Send 1 HERO monster I control to the Graveyard, then Special Summon 1 Masked HERO monster from my Extra Deck with the same Attribute!

This time, whom I'm going to transform is an Elemental HERO with the DARK attribute, Shadow Mist!

A pitch-black storm swept the Shadow Mist, and a black vortex rose into the sky. An astonishing force was brewing in that storm as if a powerful hero was about to arrive!

A knight born from the abyss, the embodiment of the law of darkness!

Yuei Vu raised his arms.

Arrival! Masked HERO Dark Law!

Chapter 488: The Card That Turns The Table

Black armor, fang-like steel blades on the arms and thighs. The hero was dressed in pitch-black armor, the exoskeleton shaped like a beast, and the shape of the helmet was more like a wolf ready to choose someone to eat.

Masked HERO Dark Law is summoned!

[Masked HERO Dark Law, ATK 2400]

Looking at this new DARK attribute Masked HERO, although his attack power was only 2400, which seemed not high among the Masked HEROes, Kaiba had a very ominous premonition.

For some reason, this black Masked HERO made him vaguely feel something was wrong.

And Mokuba was even more shocked when he saw this luxurious lineup.

[Elemental HERO Absolute Zero, ATK 2500]

[Masked HERO Blast, ATK 2200]

[Masked HERO Dian, ATK 2800]

[Masked HERO Dark Law, ATK 2400]

[Elemental HERO Stratos, DEF 300]

Hmm, it seemed that something strange has been mixed in.

Stratos: Quietly mixed into it.JPG.

There were so many powerful monsters, and the five Monster Zones were filled to the brim, which was quite rare in this era.

In this day and age, if you could summon five monsters in a single turn, even if there were all five miscellaneous fishes, you were already a great master. Not to mention that each of the heroes summoned by Yuei Vu was powerful enough to be the ace of the deck.

I end my turn.

Finally, after a long absence, Kaiba heard Yuei Vus ending declaration.

It was indeed a long turn.

Facing the formation of heroes like an iron wall, Kaiba narrowed his eyes, his fighting spirit burning like never before.

Thats it! This was what he was after!

It was as if every cell in his body was stimulated to the extreme, allowing him to unleash the deepest potential in his body!

Its my turn, draw ! Kaiba looked at the cards in his hand and snorted, I Set a monster, and then change the Blue-Eyes White Dragon to defense position.

A horizontal defensive monster was set on the field, and the white dragon also crouched down and took a defensive posture temporarily.

[Blue-Eyes White Dragon, ATK 1500 DEF 2500]

This was an extremely rare sight. The Blue-Eyes White Dragon has always been an invincible sword in Kaiba's hands, and once the sword was out of the sheath, it would hurt people, and it was rarely used by him for defense.

Suppressing my brother to this point I am afraid there are not many people in the world who can do that. Mokuba thought.

When looking at Yūei Vu and the heroes covering the field at the same time, his eyes subconsciously became more admirable.

Set three cards, I end my turn! Kaiba directly waved.

Yūei Vu said, At this moment, activate the effect of Masked HERO Blast! Once per turn, pay 500 LP, then target 1 Spell/Trap the opponent controls; return it to the hand!

This effect can also be used during the opponents turn!

Hurricane Burst!

Yūei Vu, LP 3400 LP 2900

Blast rolled up a green whirlwind with electric current, and it came straight toward the set card designated by Yūei Vu.

A Quick-Play Spell or Trap Card couldn't be activated the turn it was Set, so whatever that card was, Kaiba had to watch it get blown back into his hand.

And if it was bounced back in the End Phase, he must wait till his next turn to set this card again.

He glanced at the card that was bounced back in his hand, snorted coldly, and did not speak.

It's my turn, draw! Yūei Vu raised his hand, Masked HERO Blasts effect is activated again! Pay 500 LP, and a set card will bounce back to your hand!

Yūei Vu, LP 2900 LP 2400

Didn't it blow two cards in this way?! Mokuba was a little anxious for his brother.

These Masked HEROes are they too strong?

But at the moment when the cover card was selected by the green storm, Kaiba's pupils shrank: Open the set card: Trap Card Threatening Roar! This turn, the opposing player cannot make an attack declaration!

An invisible sonic shock erupted from the trap card, and the sharp and ear-piercing loud noise swept across the entire field where the heroes stopped!

As expected of President Kaiba. Yūei Vu chuckled, You survived another round safely.

Kaiba snorted, still a little upset.

After all, even if he managed to survive the attack of these powerful heroes, he was still the one who was beaten.

This was not the duel rhythm he was always familiar with. He was more accustomed to holding the dominance of the duel firmly in his own hands through violent attacks.

Even in the duel with Yu Gi , although he often lost in the end, he still held the initiative in the process anyway and was always able to suppress Yugi with strong strength for a while.

Instead of being in a completely passive position like facing Yuei Vu now.

but not forever!

Even if he couldn't attack, Yuei Vu didn't intend to just end this turn.

Activate Spell Card Polymerization! Yuei Vu said lightly, Fuse Elemental HERO Stratos and Elemental HERO Absolute Zero!

Kaibas eyelids twitched.

The fusion condition is 1 Elemental HERO monster + 1 WATER monster!

Dominate everything again with the absolute power of ice and snow!

Fusion Summon! Elemental HERO Absolute Zero!

The hero of gale flew up and merged into the fusion vortex with Absolute Zero.

Two figures, one ice and one wind, flew into the air, and after merging, they turned into the extreme cold of the abyss again, bursting out large ice crystals, and the cold air seemed to be visible to the naked eye.

In the violent wind and snow, the dense snowflakes seemed to be connected into a white cloth. The snow-white hero charged straight out, his figure twirling, his cloak flying.

Mokuba was stunned: Use the Absolute Zero to fusion summon another Absolute Zero?

The effect of Absolute Zero! Yuei Vu said, When this card leaves the field, all monsters on the opponents field will be destroyed!

"

"

The cloak fluttered behind the Ice Hero, and the cold air burst out with a large area of ice crystals!

Instant Freeze!

The Blue-Eyes White Dragon was instantly frozen. It resisted with all its strength, sending out a dragon roar that shook the sky, but it was powerless to resist the ice climbing up its silver-white body.

In just a moment, the whole body of the Blue-Eyes White Dragon was frozen into a crystal ice sculpture, just like an ultimate work of art. After a while, its body was covered with cracks, and it shattered with the crisp sound of click.

The effect of Masked HERO Dark Law!

Yuei Vu pointed to this brand-new pitch-black hero, and the black armor radiating a disturbing and gloomy atmosphere.

As long as this card exists on the field, any card sent to the opponents GY is banished instead!

!

Kaiba glanced at the Blue-Eyes White Dragon that was ejected from the GY, then at the Dark Law, and gritted his teeth.

He had grown to hate the dark Masked HERO.

Of course, Blue-Eyes White Dragon was not the only one frozen by absolute zero.

The monster that was covered by the Kaiba last turn didnt even have a chance to turn over. It was frozen by the ice and blasted to pieces.

"

"

At this moment, the image of the monster flickered briefly on the field. Yusei Kaido was also able to see his real body clearly.

That monster was

Cyber Jar!

Cyber Jar, at the moment of being flipped face-up, destroys all monsters on the field. After that, each player draws five cards from the deck, and Special Summons all level 4 or lower monsters among these cards.

In the DM animation, it was one of the most powerful killers in the hands of Kaiba. In real life, it was one of Thousands of Years Banned Cards!

This card was enough to wipe out Yusei Kaido's entire lineup in an instant, and at the same time, it could replenish resources for Kaiba in one go, and even has the super ability of multiple special summons!

It seemed that Kaiba just defended passively, but if Yusei Kaido didn't use the effect of Absolute Zero to blow up Cyber Jar this turn, this card was enough to change the situation!

Of course, now this Cyber Jar was also removed from the game by the invincible Masked HERO Dark Law.

So dangerous, so dangerous. It's a pity, President, it is indeed a killer move to turn the tables. Yusei Kaido said, If I accidentally step on it, it might really be over.

Hmph. Kaiba didn't speak.

I end my turn.

Chapter 489: Exchanging Gifts

Cyber Jar was indeed a divine draw of Kaiba last turn, a card that could instantly rewrite this extremely unfavorable situation on the field.

Use the trap card Threatening Roar to prevent Yusei Kaido from attacking, and in the next Kaiba's turn, he could take the initiative to Flip Summon Cyber Jar and use its Flip Effect to destroy this

luxurious lineup of heroes on Yusei's field in one go, at the same time regain the initiative of the duel.

It's a pity that this killer move was also dismantled by Yusei.

But Kaiba still didn't back down, there was not even the slightest sign of retreating in his eyes.

If it's not successful in this turn, then wait for another turn. If one trick fails, then continue to look for the next trick to reverse the situation.

As long as there was LP left, he would go forward and never look back. Whether it's a duel or a life, Seto Kaiba has walked this way all the way.

My turn!

Kaiba drew a card, moved his eyes, and then waved his hand.

Spell Card Card of Demise: I can draw cards until I have 5 cards in my hand!

Appeared! Kaiba's iconic comeback card!

Seeing Kaiba quickly filling up his hand, Yusei was not surprised.

Rather, he has been wondering when Kaiba would get this card.

"

"

But at this moment, the effect of Masked HERO Dark Law is also activated.

Yusei said, the dark hero on the field once again erupted with the thick darkness, like black flames exploding around him, shattering the ground under his feet.

Kaiba was slightly startled: It still has other effects!?

The second effect of Masked HERO Dark Law Once per turn, if the opponent adds a card(s) from their Deck to their hand, except during the Draw Phase: I can banish 1 random card from the opponent's hand!

Yusei pointed to Kaiba's hand.

The second card from right to left, just remove that card from the game.

The selected card in Kaiba's hand immediately flew out, spinning and flying into the air.

It turned out to be a Blue-Eyes White Dragon!

The White Dragon seemed to roar unwillingly, but it didn't get a chance to play at all, and it was powerless in front of an evil force ah, no, a dark hero like Dark Law.

Mokuba was nervous: Ah! My brother's second Blue-Eyes White Dragon has also been removed from the game

This Masked HERO named Dark Law is also ridiculously strong!

Hmph! It's just a small trick!

Kaiba shouted loudly, and suddenly drew another card from his hand and showed it to Yusei.

Its still a Blue-Eyes White Dragon!

Yuei Vu still admired President Kaiba for being able to touch the three Blue-Eyes White Dragons as usual. Even so, he didnt quite understand

so why show me this card?

Could it be that you just want to say that it is useless to banish one or two, because you have three wives?

The president was probably not that kind of man

Sure enough, the president immediately raised his hand and took out the next card.

This card can be Special Summoned directly by revealing the Blue-Eyes White Dragon in my hand to the opponent! Kaiba shouted loudly, Use the soul of the dragon as a guide to come, my new servant

Blue-Eyes Alternative White Dragon! ! !

The blue light spread like ripples on the water, and the figure of the white dragon soared out! It had an angular body like an exoskeleton, and its shining bone wings were made of alloy. When it took off, it was surrounded by waves of blue energy, and its roaring mouth was full of sharp teeth!

Blue-Eyes Alternative White Dragon, ATK 3000

The president has really printed a lot of good things these days Yuei Vu looked at the valiant and mighty white dragon, and couldnt help talking to himself.

Go! Kaiba shouted, Blue-Eyes Alternative White Dragon, crush Masked HERO Blast for me!

The white dragon opened its mouth, and a blue cannon shot spewed out from the black mouth! The impact even eclipsed the sky and the earth seemed to be an endless river rushing out of the dragons mouth!

Although Blast was powerful, he was not particularly good at frontal combat. The white dragons shot broke through his defensive line, and the stream of light and airwaves blew him high into the air, and the armor crackled and shattered.

Yuei Vu, LP 2400 LP 1600

Then activate the set card! Kaiba seemed to have found the rhythm of the counterattack, and waved his hand, Trap Card Parasite Mind! Target 1 face-up Continuous Spell Card or Continuous Trap Card the opponent controls, this cards effect becomes that targets activated effect! (anime card)

Kaiba pointed straight at Yuei Vus field.

I want to get the effect of the Continuous Trap Mirror Force Launcher on your field!

Yuei Vu: !

Two vine-like tentacles protruded from the card, quickly entangled the Continuous Trap on Yuei Vus field, pulled it over in the air, and replaced the Parasite Mind on Kaibas field.

According to the effect activated by the Mirror Force Launcher obtained from the Parasite Mind! Kaiba said loudly, Once per turn, during my Main Phase: I can discard 1 monster; add 1 Mirror Force from my Deck or GY to my hand!

I discard the Blue-Eyes White Dragon in my hand, and add the Mirror Force from the deck to my hand!

Yuei Vu: !?

Kaiba, you thick eyebrows and big eyes, why did you bring Mirror Force?

Kaiba also discarded the third Blue-Eyes White Dragon from his hand of course, according to the effect of the invincible Masked HERO Dark Law, this white dragon was also banished.

Then the trial-type new Duel Disk he was wearing also started to execute the search procedure, and a piece of Mirror Force popped up in the deck.

Awesome! Mokuba was pleasantly surprised, In this way, Brother Yuei Vu cant attack rashly!

Set two cards, I end my turn!

Kaiba waved his hand, and there were two more cards in front of him.

Then he crossed his arms, wishing to have his nostrils upturned: If you have the courage, call me bravely! Yuei Vu !

Looking at two set cards in Kaibas back row, Yuei Vu raised his eyebrows lightly.

There was no doubt that one of them was Mirror Force.

Before, he used a Mirror Force to restrain Kaibas hands and feet, but he didnt expect the situation to be reversed so soon, like exchanging gifts, which was really retribution

Its my turn, draw. Yuei Vu drew two cards from his hand, I will set two cards on the field first. Then activate the Spell Card Card of Sanctity: Each player draws until they have 6 cards in their hand.

At this moment, the ability of Dark Law will trigger, and a random card in your hand must be banished.

Another card was banished from the game, but the president only snorted, expressionless.

After drawing the card, Yuei Vu closed his eyes, thought for a moment, and then directly shouted: Battle! Elemental HERO Absolute Zero, attack the Blue-Eyes Alternative White Dragon!

Mokuba: Eh!?

Chapter 490: Ultimate Overdragon

Absolute Zero! Yuei Vu ordered, Attack the Blue-Eyes Alternative White Dragon!

Mokuba was shocked.

Absolute Zeros attack power was lower than that of Blue-Eyes Alternative White Dragon. At first glance, rushing up here was suicide, but with the special effect of Absolute Zero, it is a self-destruct attack that was enough to clear the field in an instant.

As long as Absolute Zero was defeated by Blue-Eyes Alternative White Dragon, his effect would be triggered at that moment, destroying Kaibas Blue-Eyes Alternative White Dragon. In that way, the remaining heroes on Yuei Vus field would launch a total attack, which would directly establish the victory.

Thats what he said, but such a simple and crude tactic was impossible for Kaiba to not see through.

You know, Kaiba also had a Mirror Force!

Hmph, although I don't know what you're planning. Kaiba raised his voice suddenly, Open the set card: Trap Card Mirror Force!

This old but powerful trap appeared again in this duel! Boundless sacred radiance was released, forming a hemispherical shield to resist the attack of Absolute Zero, and turned into a hundred times and thousand times more violent light curtain overwhelming back!

Mirror Force will destroy all the heroes of Brother Yui Vu. Mokuba held his breath nervously, and the effect of Absolute Zero will destroy the Blue-Eyes Alternative White Dragon

The ending was a mutual kill?

Of course that wouldn't happen.

Quick-Play Spell My Body as a Shield! Yui Vu waved a card, When the opponent activates a Spell/Trap Card or monster effect that would destroy a monster(s) on the field: Pay 1500 LP, negate the activation and destroy that card!

Yui Vu, LP 1600 LP 100

I negate the activation and destroy the Mirror Force!

Kaiba pouted: Damn

At this moment, I chain another Quick-Play Spell Emergency Provisions! Yui Vu continued, Send any number of other Spell/Trap Cards you control to the Graveyard; gain 1000 LP for each card sent to the Graveyard this way.

I sent the Continuous Trap Mirror Force Launcher on the field and the Quick-Play Spell My Body as a Shield which is just activated to the graveyard to restore 2000 LP!

Hmph, even if the activated card is sent to the graveyard, it will not affect the resolve of the effect. Can you cleverly use this to avoid the side effect of paying most of your LP for My Body as a Shield?

It was obviously a situation that was not good for him, but Kaiba showed an expression of approval instead.

However, my counter is not over yet! He raised his hand, Open the set card: Counter Trap Negate Attack!

When an opponent's monster declares an attack: Target the attacking monster; negate the attack, then end the Battle Phase!

Fierce spell and trap sparring, a series of offensive and defensive swaps. Absolute Zero's attack was blasted back by Mirror Force, and then he was protected by a golden aura created by My Body as a Shield which scattered the reflected attack into a sky full of light spots.

With the activation of Emergency Provisions, Yui Vu's LP first fell to the bottom, but then rose like a roller coaster. The Mirror Force was shattered, and Absolute Zero pursued relentlessly, but then bumped into the white whirlwind released by the Negate Attack, and had to retreat temporarily.

Yui Vu, LP 100 LP 2100

But in the end, Yusei's attack obviously failed.

Honestly speaking, it was really admirable that Kaiba could defend till this point. Although Yusei has always had the upper hand on the scene, Kaiba gave him the impression of a steel plate that could not be chewed.

For example, the Cyber Jar just now

Yusei intentionally or unintentionally glanced at the two set cards at his feet.

He now had a killer combo that was about to take shape, and he has required most of the components in hand.

As long as I can draw that card next turn!

Wait, did I just say something I shouldn't have said?

Set a card, I end my turn.

My turn!

Kaiba's card drawing this time was completely different from the previous one.

The moment the card was drawn from the deck, it seemed as if a transparent cyclone was brought out, lifting the hem of his windbreaker.

It may be a bit exaggerated to say so, but his action really gave people an illusion for a moment, as if drawing a card this time opened up the world.

"

"

As a top duelist, it's expected for him to be able to perform divine draw at critical moments.

Looking at the drawn card, Kaiba first hummed a few times, then raised his head and laughed hahahaha.

Yusei was no stranger to this. He folded his arms, tapped his toes on the ground in boredom, and patiently waited for the president to finish laughing.

Anyway, I am an employee, so my duty here is just to make the president happy. It's good that the president can have fun

Hmph, I've seen your progress, Yusei. Kaiba said, But the current me is very different! Let you see, my current strength!

He waved his hand.

The first is the effect of Blue-Eyes Alternative White Dragon! Once per turn, at the cost of sacrificing its chance to attack, destroy a monster on the opponent's field!

Disappear for me, Masked HERO Dark Law!

President's pronunciation of Dark Law was extremely heavy, it could be seen that he may indeed be annoyed by this black Masked HERO

The shattered light bullet roared out from the white dragons mouth, dragging several white airwaves visible to the naked eye. A bullet of light pierced the armor on Dark Laws chest, pierced through his back, and black metal fragments flew around.

The dark hero let out a muffled grunt, dissipating with the loud explosion and the wave of blue light.

An end to evilah no, a life of justice.

In this way, the annoying interference effect will no longer exist. Kaiba shouted, And now is the highlight! Watch me, Yuei Vu!

Spell Card Dimensional Fusion!

Yuei Vu:

Again, Thousands of Years Banned Card from Kaiba Seto in DM

Pay 2000 life points, and both players Special Summon as many of their removed from play monsters as possible!

Kaiba, LP 4000 LP 2000

If placed in ancient times, perhaps this was a powerful magic capable of rewriting the laws of space. The powerful magic power seemed to have turned into an invisible hand, forcibly tearing open a huge crack in mid-air, calling back the exiled soul from another dimension!

Three pillars of light descended from the sky, and three majestic white dragons flew out from the waterfall-like light curtain, like a divine soldier descended from the sky, instantly dominating the battlefield!

Blue-Eyes White Dragon, ATK 3000x3

Cyber Jar, DEF 900

Although the Cyber Jar was also called back, this monster could only activate its effect when it was flipped from its face-down state. Now its just coming back to make up the numbers.

I have Masked HERO Vapor and Elemental HERO Liquid Soldier in my banished zone. Yuei Vu said, But they are banished through the effect of Necro Fusion. According to its effect, Fusion Material monsters must be banished face-down, so they cannot be Special Summoned by Dimensional Fusion.

"

"

Kaiba looked calm, and held up a card in his hand: Activate Spell Card Polymerization! Fuse the three Blue-Eyes White Dragons on the field, and summon the strongest dragon that transcends time and space!

Blue-Eyes Ultimate Dragon! ! !

The three white dragons merged into a beam of light, releasing a dazzling brilliance! The white dragon raised its three heads, its body covered the sky and the sun, and the superimposed dragons chant seemed to penetrate the sky!

Blue-Eyes Ultimate Dragon, ATK 4500

Yuei Vu raised his arms, facing the manic wind and the oppression brought by the ultimate dragon comparable to the phantom god, he couldn't help squinting his eyes.

Kaiba summoned the Blue-Eyes Ultimate Dragon instead of the more powerful Neo Blue-Eyes Ultimate Dragon, which meant that was not his real purpose.

Sure enough, Kaiba laughed again and then raised a card in his hand.

A card that shone brightly and shocked the audience before it even appeared.

The invisible sense of oppression seemed to be a phantom vaguely floating above Kaiba's head, and even Yuei Vu couldn't help but recall the courage of the first duel with Kaiba and the appearance of Obelisk the God of Destruction.

The dragon of light that will erase everything, summoned from the ultimate monster!

Kaiba shouted loudly.

Blue-Eyes Shining Dragon!!!
