

I Play Yu-Gi 651

Chapter 651: The Trash That Cannot Even Act As A Wall

There was still an hour left before the opening of the celebration of the first anniversary of Kaiba Land, but as the organizer, Seto Kaiba was still sitting in the company's office working overtime.

But this was also President Kaiba's normal behavior. No matter what kind of event he attended, he was often accustomed to flying in a helicopter and appearing on the spot, and his appearance must be high-profile and grand, attracting the attention of the whole audience, and showing that he was different from others

Generally, it was by jumping directly from the plane.

At this moment, President Kaiba actually only appeared to be working overtime in the office. In fact, he was currently sitting in his chair with his fingers crossed, staring intently at the duel video being played on the computer screen in front of him.

The video of his own duel with Yugi back then.

Few people know that President Kaiba has saved all the videos of every duel Yugi has had in public. He even has a special folder in which all the duel videos are neatly arranged in chronological order, followed by a large number of insights he summarized after studying the video data.

It was precisely because the president had studied the duel of Yugi so carefully and thoroughly, and strived to restore every detail, that he could now create an AI Bot that was extremely realistic and had a near-perfect restoration of the real thing.

It's a pity that it couldn't help him win against Yugi even once.

Ever since he logged into the Duel Link system yesterday and saw a blurry image of that guy, President Kaiba's mind was no longer on work. Since arriving at the company today, he has been playing back over and over again every video of the duel between himself and Yugi. At the same time, the more he watched it, the more he felt thirsty for card addiction.

While Kaiba was studying the Duel Link system and planning to use high technology to bring someone back from the underworld to play cards with him, he never forgot the traditional method

That was, digging a grave.

Not long after Atem left, Kaiba Corp immediately found the location where the battle ceremony had been carried out the gate to the underworld had been opened, and a construction site was set up there to dig graves frantically.

Kaiba gave a death order even if you dig three feet into the ground, or even dig straight to hell, you must dig up that guy's Millenium Puzzle for me!

"Onii-san!"

Mokuba rushed in in a panic, with an anxious expression as if someone wanted to take him hostage again.

"What's up?"

Kaiba asked without raising his head, while his fingers were tapping something quickly on the keyboard the duel video on his screen had been turned off at some point.

It looked like he had been working hard on his computer all day.

However, Mokuba seemed to have no time to pay attention to this: "There seems to be something wrong with the haunted house facilities in Kaiba Land!"

"What's the problem?" Kaiba frowned, "Has someone invaded our system again?"

It could be seen from the word "again" that even President Kaiba has begun to feel that his company was like a bus. When the park was first completed last year, Siegfried appeared and hacked their system. Could it be that someone is causing trouble again this year?

"No." Mokuba shook his head, "There is no problem with the system, but the person who entered has disappeared! The staff can't be found, and there is no trace in the surveillance. It's like disappearing out of thin air!"

"Interesting." Kaiba leaned back in his chair, "Recently, many people have disappeared in Domino. Could it be another supernatural phenomenon?"

Since Atem's departure, President Kaiba's unwavering "scientific world view" seemed to have begun to show signs of loosening.

When Atem was still there, whenever a metaphysical topic with the word "Shadow Game" was brought up, President Kaiba would always react with a "I don't accept or listen to these nonsense chanting sutras" reaction.

As a result, now that Atem was no longer around, the president actually started to take the "supernatural" into consideration.

President: It is absolutely impossible for me to believe in metaphysics, even in this life.

""

"Alsoand," Mokuba said anxiously, "the person who disappeared inside is Brother Yuei Vu!"

Kaiba's eyelids twitched.

He only had two approved card friends in total. One of them disappeared last year. Is it possible that the remaining one will also disappear this time?

"Prepare the plane, Mokuba." He said in a deep voice, "Let's go to Kaiba Land now."

Yuei Vu opened the Duel Disk and stood in front of the guy in black tights.

The space in this scene in the haunted house was sealed and there was no exit. It seemed that the only way to leave was to defeat the guy in black in front of him.

Is it a Shadow Game?

Ora Dimension Duel?

Yuei Vu remembered that the villain "Aigami" in the movie liked to play this trick relying on his metaphysical power to move the dueling parties into a space he called a "higher dimension", and carry out a "Dimension Duel" with different rules.

No matter what, just win this duel first.

Seeing Yuei Vu come forward, a group of passers-by felt as if they had taken reassurance.

We have a Duel King!

It's stable now. After all, who can beat the Duel King in duels?

Yuei Vu, LP 4000

Man in Black, LP 4000

The smart Duel Disk automatically determines the order of action. Yuei Vu confirmed with a glance: "It looks like you are the one who takes the lead."

The man drew a card dully, which counted as taking the initiative, but did not say a word.

Then he took a stunning card as soon as he came up.

"Activate the Continuous Spell Future Fusion!" he said, " Show 1 Fusion Monster in my Extra Deck and send the Fusion Materials listed on it from my Main Deck to the GY.

During my 2nd Standby Phase after this card's activation: Fusion Summon 1 Fusion Monster from my Extra Deck with the same name as the selected Fusion Monster. (old version effect)

A card that allowed monsters to fuse in the future.

But the really cool thing about this thing was not the effect of "Fusion Summon monsters after two turns", but the fact that you could send any fusion materials from the deck to the graveyard. The resources you needed were piled into the graveyard, which was a heaven-defying divine card for earning resources!

"The monster I chose to fuse is," the man in black took out a Fusion Monster card, flipped it over and showed it, "Five-Headed Dragon!"

Yuei Vu: "!"

Five-Headed Dragon? So, this guy is not the Aigami?

After all, as we all know, the representative deck of the villain Aigami in the "Dark Side of Dimensions" was "Cubic".

Other passers-by were even more excited.

"Five-Headed Dragon!"

"The legendary monster with the highest attack power! Even stronger than Seto Kaiba's Blue-Eyes Ultimate Dragon!"

"Who is this person? There is such a legendary monster?"

The passers-by were all looking horrified, but Little Judai, who was held in Chika's hand, remembered what Yuei Vu had said to him, and couldn't help but shake his head: "Five-Headed Dragon? The trash that cannot even act as a wall?"

The excited passers-by immediately shut up and turned to look at the innocent-looking little jellyfish in unison

Chapter 652: Dragon's Feast

Kid, someone immediately began to correct him, have you never heard of the name Five-Headed Dragon?

Passers-by felt that Judai's words were unreasonable the Five-Headed Dragon was a legendary monster, how could it be a trash that couldn't even act as a wall?

The attack power is five thousand! A whole five thousand!

Such terrifying attack power!

Judai-chan looked confused.

But thats exactly what Yvei Vu-sensei said

"Based on the effects of Future Fusion'."

The man in black spoke coldly, and five cards popped up from the deck on the Duel Disk.

"The fusion material of Five-Headed Dragon' is 5 Dragon monsters, so I sent 5 Dragon monsters from the deck to the graveyard." He said slowly and showed five cards to Yvei Vu.

"I sent Red-Eyes Wyvern, Red-Eyes Black Dragon, White Night Dragon, Darkblaze Dragon, and Prime Material Dragon to the GY, so that they can be fused in the future after two rounds.

In my 2nd Standby Phase after this, the Five-Headed Dragon will be Fusion Summoned. "

Yvei Vu was surprised for a moment when he saw clearly the five cards he threw down.

Red-Eyes Black Dragon?

Although this thing was not as rare as President Kaiba's Blue-Eyes White Dragon, which only had a few copies in the world, it was still a USR-level ultra-rare card. In the entire DM anime, only Ryuzaki had one in his hand, but he lost to Jonouchi in the Duelist Kingdom arc and then became the ace of Jonouchi's deck.

This guy actually has a Red-Eyes Black Dragon?

Who is he?

"Spell Card Pot of Greed. I draw two cards." The man in black drew two cards, and then quickly revealed one of them, "Summon Troop Dragon' in attack position."

The dragon with green scales and armor stepped onto the field, holding a silver-white sword in one hand and a shield as bright as a mirror in the other.

[Troop Dragon, ATK 700]

"I banish the Troop Dragon' on the field from the game." He raised his arm and held up a card in his hand, "Special Summon from the hand

Red-Eyes Darkness Metal Dragon! "

The Troop Dragon was swallowed by the dimensional whirlpool, and a mass of darkness was released. A pair of dark red eyes lit up from the darkness, and black iron-colored metal wings cut through the darkness.

The black dragon flew out of the darkness boldly. Its whole body was covered with red lines, and its body seemed to be covered with a layer of pitch-black armor. It stretched its wings and looked down from a high position. The dragon's curves and the angular metal are perfectly combined, revealing a domineering and powerful beauty.

[Red-Eyes Darkness Metal Dragon, ATK 2800]

Yuei Vu was surprised again.

There is even a Red-Eyes Darkness Metal Dragon?!

Not only it was an ultra-rare card of the Red-Eyes series in the animated worldview, but it was also the big brother in various Dragon decks in the real card environment. Its effect was simple, yet powerful and extremely versatile, making it a universal hero for the dragons.

It seems that this duelist has quite a lot of background.

Then if I pull out this guy's deck, wouldn't it be a bloody gain?

"The effect of Red-Eyes Darkness Metal Dragon." The man in black continued, "Once per turn, I can Special Summon 1 Dragon monster from my hand or GY.

I special summon the Prime Material Dragon' in the graveyard. "

The dark steel dragon's red eyes flashed briefly, it flapped its wings, and the dragon king's domain was released domineeringly. That was the ultimate tyranny, a powerful force that could even change life and death.

A black vortex opened on the ground, and a brand new dragon flew out of it. It had a noble golden body, red eyes, and a long tail swaying behind it.

It didn't look like a dragon, but looked a bit like a fox with nine tails.

[Prime Material Dragon, ATK 2400]

The man in black continued: "Activate the Spell Card Return of the Dragon Lords'. Target 1 Level 7 or 8 Dragon monster in my GY; Special Summon it.

I specially summon the White Night Dragon in the GY! "

A storm of ice and snow rolled up, and a dragon that seemed to be frozen and as clear as an ice sculpture jumped out. The wings covered with thick ice crystals flapped continuously, and the swing of the long tail sprinkled ice shards, which beat and scattered on the ground.

[White Night Dragon, ATK 3000]

"The effect of Neo Kaiser Glider' in the hand." The man in black continued to show a card in his hand, "Discard this card and 1 monster, then target 1 Dragon Normal Monster in my GY; Special Summon it.

He sent the two cards in his hand to the graveyard, and a black-red mist erupted from the graveyard area of his Duel Disk, followed by the rare dragon card whose reputation and status closely matched the "Blue-Eyes White Dragon"!

"Appeared from the graveyard." The card of the man in black was placed on the Duel Disk, "Red-Eyes Black Dragon!!!"

Darkness erupted from around his feet like lava-like pillars of fire. The majestic dragon's body was covered with pitch-black scales, its powerful tail made cracks in the floor, and its ferocious dark red pupils seemed to have lava rolling in them.

[Red-Eyes Black Dragon, ATK 2400]

"Wow! This person is so powerful!" Judai's eyes widened, "There are so many powerful dragons right from the start!"

Not to mention the passers-by, where have these local duelists seen such an exaggerated battle? They were stunned for a moment, their tongue seemed to be curled up, and they couldn't even speak.

Four high-level monsters jump out from the starting hand!

I've never even heard of such a thing!

"Nice move." Yusei Kudo also nodded slightly.

Although these dragons were all top rare cards in this world, they were all familiar to Yusei Kudo.

White Night Dragon, when the opponent player selected another monster as the target of attack, it could forcefully transfer the attack target to itself by sending a Spell/Trap Card to the graveyard.

In addition, when White Night Dragon became the target of a Spell/Trap Card, that card would be negated and destroyed.

With an attack power of 3000 points, a certain resistance to magic traps, and the ability to protect other monsters, it was indeed a very good choice among dragons.

Another bit of trouble was the "Prime Material Dragon". Prime Material Dragon could negate and destroy any card containing the effect "destroy monsters on the field" by discarding cards, which was equivalent to putting a protective shell on itself.

Of course, a line-up of this level was not difficult for Yusei Kudo.

"My turn!"

Yusei Kudo directly drew two cards from his hand.

"Summon the Elemental HERO Solid Soldier!"

[Elemental HERO Solid Soldier, ATK 1300]

"The effect of Solid Soldier," he said, "When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower HERO' monster from my hand."

Special summons Elemental HERO Blazeman! "

[Elemental HERO Blazeman, ATK 1200]

"The effect of Blazeman If this card is Normal or Special Summoned: I can add 1 Polymerization' from my Deck to my hand." Yusei Kudo said, "I added Fusion Substitute' to the hand."

Then the Spell Card Fusion Substitute is activated! I fuse Elemental HERO Blazeman' and Elemental HERO Solid Soldier' on the field!

The fusion condition is 1 Elemental HERO' monster + 1 EARTH monster! Fusion Summon

Elemental HERO Gaia! ! ! "

With the combination of elements, the heavy steel shadow fell, and the huge body was like a black steel fortress!

[Elemental HERO Gaia, ATK 2200]

"The effect of Gaia." Yuei Vu said, "When this card is Fusion Summoned: Target 1 face-up monster the opponent controls; until the End Phase, its ATK is halved and this card gains the same amount of ATK.

The target I chose is White Night Dragon! "

The resistance of White Night Dragon was only effective against spell and trap cards and was helpless against monster effects.

The black hero raised his steel fist high and punched it down hard on the spot.

Gaia Shock!

Chapter 653: Strongest Dragon

Gaia Shock!

The impact of the hero's heavy punch cracked along the ground, and White Night Dragon accidentally fell into it, and his body as bright as an ice sculpture was immediately stuck in it and unable to move.

[White Night Dragon, ATK 3000 ATK 1500]

[Elemental HERO Gaia, ATK 2200 ATK 3700]

"The effect of Elemental HERO Solid Soldier' If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO' monster in my GY, except Elemental HERO Solid Soldier'; Special Summon it in Defense Position." Yuei Vu said, "Come back again, Elemental HERO Blazeman!"

[Elemental HERO Blazeman, DEF 1800]

In this way, White Night Dragon's attack power could be broken through.

"Battle!" Yuei Vu waved his hand, "Elemental HERO Gaia, first attack the Red-Eyes Darkness Metal Dragon!"

A heavy low roar came from the earth hero's armor, like the heavy hum of an engine that had been dormant for a long time when it restarted. The huge fist hit the dark steel dragon's metal body hard, and the black dragon staggered away with a muffled sound.

[Men in Black, LP 4000 LP 3100]

The LP was reduced, and the damage caused by the monsters was undoubtedly transformed into actual damage through the duel. But the man took the damage completely without even bending his knees, and only said calmly: "Another effect of the Return of the Dragon Lords' in the GY.

If a Dragon monster I control would be destroyed by battle or card effect, I can banish this card from my GY instead. "

The image of the Spell Card appeared, turning into a burst of pale golden light and dissipating. The dark steel dragon's body was protected by the faint golden light, and it seemed that it did not cause any real damage.

"Then activate the Quick-Play Spell Mask Change'." Yuei Vu continued, "Send 1 HERO' monster I control to the Graveyard, then Special Summon 1 Masked HERO' monster from my Extra Deck with the same Attribute.

I sent Elemental HERO Gaia' to the GY, transform!

Show up, Masked HERO Dian! "

The heavy black iron armor exploded, and dazzling light surrounded the hero who emerged from it. Diamond-like armor covered his body inch by inch, transforming into a shining mask and a crystal long sword.

[Masked HERO Dian, ATK 2800]

"The hero transformed during the battle phase can also attack." Yuei Vu waved his hand, "Continue fighting! Masked HERO Dian, attack the White Night Dragon!"

White Night Dragon's attack power was only halved during this round. At the End Phase, the effect of Gaia would end, and its attack power would return to 3000.

So naturally Yuei Vu had to take advantage of it when it was weak.

The Masked HERO spun forward magnificently, his blue cloak like undulating waves, and the flashing sword light smashed the ice crystal dragon into pieces with just one blow!

Men in Black, LP 3100 LP 1800

"The effect of Dian!" Yuei Vu said, "When this card destroys an opponent's monster by battle and sends it to the GY: I can Special Summon 1 Level 4 or lower HERO' monster from my Deck.

I Special Summon the Elemental HERO Shadow Mist! "

The diamond worn on the diamond belt shines brightly, and the power is activated. The heroine surrounded by shadow mist and wearing tight black armor appeared on the stage.

[Elemental HERO Shadow Mist, ATK 1000]

"The effect of Shadow Mist! If this card is Special Summoned: I can add 1 Change' Quick-Play Spell Card from my Deck to my hand." Yuei Vu said, "I added the second Mask Change' to the hand, and then activated it!

The image of the mask-changing spell appeared again, this time in an unbiased position behind Shadow Mist. Darkness swirled, armor was worn, black waves erupted from the soles of her feet, and the swirling hero transformed into a ghost.

[Masked HERO Anki, ATK 2800]

"Continue to attack!" Yuei Vu waved his hand, "Masked HERO Anki, attack the Prime Material Dragon! Rider Kick!"

Anki kicked his feet, jumped up high, and swooped down from the sky with a flying kick. The Prime Material Dragon was kicked head-on, groaned, and immediately turned into golden smoke and dispersed.

[Men in Black, LP 1800 LP 1400]

"The effect of Anki!" Yuei Vu said, ". Once per turn, when this card destroys an opponent's monster by battle and sends it to the GY: I can add 1 Change' Quick-Play Spell Card from my Deck to my hand.

I chose the third Mask Change and added it to my hand from the deck! "

The card popped out of the deck and were quickly inserted into the Duel Disk without even being looked at.

"Activate the Quick-Play Spell Mask Change again!" Yuei Vu said, "Send the Masked HERO Anki' to the GY, transform!

The hero returns in the mask of a ghost

Masked HERO Anki, summon again! "

There was another burst of transformation special effects, covered in armor, and the dark hero shook off a burst of purple-black flames before falling again. Although nothing seemed to have changed on the surface, his attack permission had been reset.

Transformation during the combat gave him the power to attack again.

"Additional battle!" Yuei Vu said, "Masked HERO Anki, attack again! This time I will use another effect of Anki!

Masked HERO Anki can bypass monsters and attack players directly, but the Battle Damage of that attack is halved! "

[Masked HERO Anki, ATK 2800]

Men in Black, LP 1400

A killing blow!

The onlookers were dumbfounded.

Even with all their poor imaginations, they couldn't imagine that a duel could be like this.

Summoning four dragon monsters in one turn, which most of them considered to be ace-level dragon monsters that could influence the outcome of a game and then being killed instantly in the next turn! ?

Is this the strength of the Duel King?

The macho guy who said "The Duel King is nothing more than that" before couldn't help but shut his mouth and even couldn't help but swallow a mouthful of saliva.

Yes, they all knew that the title "Duel King" meant absolute strength and superiority over all duelists.

But at least we need to talk about some basic laws, right?

And based on the current situation, it feels like what they are not playing the same game with us at all!

Anki flew up lightly, fainted in front of the Red-Eyes Black Dragon and the Red-Eyes Darkness Metal Dragon, and then disappeared on the spot. A flash appeared in the air, and like a bomber, he locked the man in black with a flying kick!

The opponent stood there and slowly took out a card from his hand.

"When the opponent declares a direct attack," he said calmly, "discard the Swift Scarecrow' from my hand. Negate the attack, then end the Battle Phase."

Yuei Vu: "!"

Nani? How can you have such a thing?

Is this really a card from this era?

Of course, Yuei Vu had an impression of this divine card. This thing could not only block attacks like Kuriboh and Kiteroid but could even forcefully end the Battle Phase. It was also a popular hand trap in the real card environment back then.

It was worth mentioning that this thing in the anime came from of the hand of 5DS protagonist Fudo Yusei.

Who is this guy in front of me?

Yuei Vu temporarily suppressed the questions in his mind.

No matter what, I still have to win this duel first.

At the same time, his eyes had been fixed on the Duel Disk worn by the man and the deck inside it.

No matter who the opponent was, he could tell at a glance that this guy must be the legendary money-spending boss the kind where all the cards in the deck were rare cards.

To deal with such people, Yuei Vu usually had a mature and complete plan

"You want my deck, right?" The man in black actually said.

Yuei Vu raised his eyelids.

"It seems like you know me quite well."

He didn't hide his intentions there was no need to hide them.

Anyway, the title of "Duel Disk Hunter" has long been spread among underground duelists

"If you want it, come and get it." The man in black continued, "Only if you have the ability."

"It seems like I'm really underestimated." Yuei Vu shrugged indifferently.

The Battle Phase was forcibly ended, and he could not continue to attack even if he still had transformation cards in his hand not to mention that all three "Mask Changes" in his deck had been played, and the number of transformations had been exhausted.

"Then let me see what you are capable of. Set two cards, I end my turn."

"Then it's up to me." The man in black drew the card, glanced at it, and turned it over. "Spell Card Card of Demise. I can draw cards until I have 5 cards in my hand."

Looking at the opponent's card-drawing actions, Yuei Vu couldn't help but become more suspicious.

Good guy, are you robbing Kaiba Corps card library?

There is a bunch of rare dragons and this "Card of Demise", which seems to be somewhat similar to the president's style.

"Activate the Spell Card Polymerization', and fuse the Lord of D' and Divine Dragon Ragnarok' in my hand." The man in black said, "Fusion Summon! Arrive, King Dragun!"

Two beams of golden light flew into the air, and a demon with a human upper body and a dragon body descended, holding a golden dragon summoning flute in his hand, and was accompanied by countless golden electric snakes.

[King Dragun, ATK 2400]

"When King Dragun exists on the field, the opponent cannot target Dragon monsters with card effects." The man in black paused, "Of course, it is also a dragon itself, so it will be protected by its own effects.

He then waved his hand.

"The effect of Red-Eyes Darkness Metal Dragon! Once per turn, I can Special Summon 1 Dragon monster from my hand or GY.

Resurrect, Prime Material Dragon! "

A beam of golden light burst out from the dark vortex, and the gorgeous golden dragon returned to the venue, with several long tails swinging together!

[Prime Material Dragon, ATK 2400]

"When Prime Material Dragon exists on the field, during either player's turn, when a card or effect is activated that would destroy a monster on the field: I can send 1 card from my hand to the Graveyard; negate the activation and destroy it."

"Cannot be targeted by card effect, cannot be destroyed by card effects aren't they invincible!?" Passers-by began to worry for Yuei Vu.

There were so many high-level dragons, and they also had such invincible protection. When a normal person saw this kind of lineup, he could just give up and surrender.

After hearing this, Chika glanced at the person who spoke and didn't say anything, but she felt calm and didn't panic at all.

Although her dueling skills were average and she didn't know how to solve this kind of lineup, she felt that Yuei Vu's words were absolutely fine.

Because he is the strongest!

"That person also has Future Fusion'," A girl reminded in a low voice, "In the next round, the legendary Five-Headed Dragon' will ..

"No need for another turn."

The man in black said calmly and drew another card.

"Activate Spell Card Dragon's Mirror"! Fusion Summon 1 Dragon Fusion Monster from my Extra Deck, by banishing Fusion Materials listed on it from my field or GY."

Everyone: "!!?"

"White Night Dragon', Darkblaze Dragon', Divine Dragon Ragnarok', Neo Kaiser Glider' from the GY, as well as the Masked Dragon' discarded by the Neo Kaiser Glider', five dragons are removed from the game!

The fusion condition is 5 Dragon monsters! Fusion Summon!

Coming

Five-Headed Dragon! ! ! "

Chapter 654: The Eldest Brother Scored A Quadra Kill!

The elements were in chaos, the storm was sweeping, and the shattered glass shards everywhere were beating restlessly as if they were trembling for the coming existence.

Earth, water, fire, wind, and darkness, the light pillars representing the five attributes rise into the sky! The noble dragon with a god-like appearance fell from the air, its clawed feet broke the floor, five heads of different colors twisted and stretched, and its solid and huge body was as shocking as a god!

[Five-Headed Dragon, ATK 5000]

The onlookers were frightened and fell to the ground, all stunned. It was the terrifying pressure brought by the King of Dragons who stood at the top of duel monsters. It was a mythical beast that ordinary people might not have the chance to see even if they dueled for a lifetime. It was a legend that countless duelists looked up to and worshiped.

This was the Five-Headed Dragon, a powerful being with the highest original attack power!

And it was completely different from the Egyptian Gods whose animation abilities were incredible and who were called the "Three Good-for-Nothing Brothers" as soon as they became real cards. Whether in the real-life card or in the animation

Five-Headed Dragon was trash.

As a fivefold Fusion Monster, the only effect of this thing was that it "cannot be destroyed by battle with a DARK, EARTH, WATER, FIRE, or WIND monster." This effect could only make it barely not a Normie.

The most awesome thing about this thing was its fusion condition, which was "five dragons of any kind". So as long as you had a "Future Fusion", you could accurately throw any five dragons from the deck to the GY and earn a lot of resources.

It was precisely because of this that this trash, which should theoretically be made by exchanging six for one, had a place in the Extra Deck.

However, when summoned in this situation, 5000 ATK was still very high, at least it could be regarded as a high-quality fighter.

"Battel!" The man in black said, "First, Five-Headed Dragons', attack Masked HERO Dian'."

The five mouths opened at the same time, and the beams of the five attributes of earth, water, fire, wind, and darkness were sprayed at the same time, merging into one place and sweeping across. Dian was unable to resist in the face of such exaggerated power, and even the armor was blown to pieces in an instant.

[Yuei Vu, LP 4000 LP 1800]

The impact of five colors swept through him like a hot wind hitting his internal organs. He bent his knees slightly and curled his lips slightly.

"Red-Eyes Black Dragon." The man in black said, "Attack the Elemental HERO Blazeman'!"

The poor Blazeman seemed to have mistakenly entered the scene where the boss was fighting again, hit a dark and hot "Black Flare Blast" head-on, and was blown to pieces on the spot.

"Red-Eyes Darkness Metal Dragon, attack the Masked HERO Anki'!"

[Red-Eyes Darkness Metal Dragon, ATK 2800]

[Masked HERO Anki, ATK 2800]

The Dark Steel Dragon opened its mouth and spat out jet-black flames, but the Masked HERO rushed forward without fear and blocked the flames back into its mouth with a flying kick, and both of them exploded on the spot.

But then Yuei Vu's field would be empty.

"The final blow." The man in black said, "King Dragun, directly"

"Don't worry." Yuei Vu snapped his fingers, "Open the set card: Trap Card Hero Signal! When a monster I control is destroyed by battle and sent to the GY: Special Summon 1 Level 4 or lower Elemental HERO' monster from my hand or Deck.

Special summon Elemental HERO Stratos! "

[Elemental HERO Stratos, DEF 300]

"The effect of Stratos." Yuei Vu said, "When this card is Normal or Special Summoned, add 1 HERO' monster from my Deck to my hand. The one I want to add to my hand is Vision HERO Faris'!"

That's right, it's the Vision HERO he just acquired.

It came in handy right away.

The attacks of King Dragun continued, and the hero of the sky tried his best to block it. Although his defense power of only 300 made the resistance seem futile, at least he used his body to withstand the attack before exiting, blocking all battle damage for his master.

The attack was blocked again, but the offensive of the men in black was still not over.

"Prime Material Dragon," he said, "attack directly!"

All the tails of Prime Material Dragon stood up at the same time, and the golden stream of light filled the mouth from the tail, turning into a whirling ball of light and roaring out.

"Open the set card." Yuei Vu said, "Trap Card Defense Draw! Make the battle damage I take from this battle 0, and I can draw 1 card!"

The milky white shield was violently washed away by the golden beam, but it failed to leave even a scratch.

"Did you manage to survive?"

The man in black didn't look surprised in fact, he didn't seem to show any mood swings since the duel began. He felt like a ruthless card-playing machine.

"Set a card, I end my turn."

He said, paused, and the figure of a black flying dragon appeared behind him.

"At this moment, the effect of the Red-Eyes Wyvern' in the graveyard is activated." He said, "Once per turn, during my End Phase, I can banish this card from your GY, then target 1 "Red-Eyes" monster in my GY; Special Summon that target.

Back on the field! Red-Eyes Darkness Metal Dragon! "

The image of the red-eyed flying dragon flashed away, and its steel body spread its wings and flew out, spinning and landing on the field.

[Red-Eyes Darkness Metal Dragon, ATK 2800]

The Red-Eyes Darkness Metal Dragon was back!

The five Monster Zones were packed to the brim, all filled with powerful dragons. Not only that, now they all had certain resistances, which could be called an iron wall.

Even others who did not directly face the battle felt the despairing oppression.

"What is the origin of this person? He is too strong"

"It's not on the same level as ordinary duelists at all!"

Even Yuei Vu had to admit this.

With such a level and such strength, no matter how you say it, he should be a respectable figure, which was very different from a passerby duelist.

But who he met was Yuei Vu.

"It's my turn." Yuei Vu said, "Activate the Spell Card The Warrior Returning Alive. Target 1 Warrior monster in my GY; add that target to my hand.

I return Elemental HERO Shadow Mist' to my hand. "

Miss Shadow Mist's card popped up and was taken into his hand. Then it was revealed at the same time as another card retrieved from the last round.

"The effect of Vision HERO Faris Discard 1 other HERO' monster; Special Summon this card from my hand."

He returned the newly recovered Shadow Mist to the GY again.

"I sent the Shadow Mist' to the GY!"

[Vision HERO Faris, ATK 1600]

"The effect of Shadow Mist when entering the graveyard, add the hero' monster from the deck to the hand." Yuei Vu said, "The one I want to add to the hand is, Destiny HERO Plasma!"

The card of Plasma popped out from the deck and was drawn into the hand by Yuei Vu. While the deck was automatically shuffled, the image of the bloody hero behind him briefly flashed.

"The effect of Faris." Yuei Vu said, "If this card is Normal or Special Summoned: I can place 1 Vision HERO' monster from my Deck, except Vision HERO Faris', in my Spell & Trap Zone as a face-up Continuous Trap. I chose Vision HERO Increase'."

Seeing the phantom of a hero emerge in Yuei Vu's back row, passers-by immediately expressed that they had once again touched upon a blind spot in knowledge.

Monster placed in the S/T area?

What the hell kind of operation is this?

"The effect of Increase!" Yuei Vu said, "During the Main Phase, if this card is treated as a Continuous Trap: I can Tribute 1 HERO' monster; Special Summon this card!

I used the Vision HERO Faris' as a sacrifice to Special Summon Vision HERO Increase!' "

Faris disappeared from the field, and the phantom in the back row turned into a heroic entity wearing blue armor.

[Vision HERO Increase, ATK 900]

"Another effect of Increase! If this card is Special Summoned from the Spell & Trap Zone: I can Special Summon 1 Level 4 or lower Vision HERO' monster from my Deck.

I special summon the Vision HERO Vyon!' "

[Vision HERO Vyon, ATK 1000]

"The effect of Vyon! If this card is Normal or Special Summoned: I can send 1 HERO' monster from my Deck to the GY. I send the Destiny HERO Malicious' to the graveyard!"

Yuei Vu drew the card from the deck and sent it to the graveyard area of the Duel Disk. The deck was shuffled rapidly, and his operations did not stop.

"Another effect of the Vyon! Once per turn: I can banish 1 HERO' monster from my GY; add 1 Polymerization' from my Deck to my hand.

I removed Elemental HERO Blazeman' from the game and added a Polymerization' card to my hand. "

Yuei Vu waved his hand, and another card popped up in the graveyard.

"I then activate the effect of Destiny HERO Malicious'. Banish this card from my GY; Special Summon 1 Destiny HERO Malicious' from my Deck!"

[Destiny HERO Malicious, ATK 800]

"Then I haven't done a normal summon this round yet." Yuei Vu said, "I usually summon the Elemental HERO Liquid Soldier!"

The effect of Liquid Soldier When this card is Normal Summoned: I can target 1 Level 4 or lower HERO' monster in my GY, except Elemental HERO Liquid Soldier'; Special Summon it.

Special summons Elemental HERO Stratos! "

[Elemental HERO Stratos, ATK 1800]

"The effect of Stratos! When this card is Normal or Special Summoned, destroy Spells/Traps on the field, up to the number of HERO' monsters I control, except this card!

Now, besides Stratos, I have four heroes on the field, including "Increase", "Vyon", "Malicious", and "Liquid Soldier", so I can choose up to four Spells/Traps to destroy! "

"Really?" The man in black seemed to have expected it, "Then open the set card! Trap card Reckless Greed! Draw 2 cards and skip the next 2 Draw Phases."

Stratos's whirlwind swept away, tearing "Future Fusion" and "Reckless Greed" into pieces.

"Have you guessed a long time ago that I will clean up the backcourt, did you deliberately deceive Feng?" Yuei Vu said.

"That's right." The man in black drew two cards, "And the Prime Material Dragon' has the ability to negate monster-destroying effect by discarding a card in the hand. And now I have two more cards in my hand. ..

"That is to say, none of your monsters will be destroyed by card effects. And because the King Dragoon' is present, the dragon cannot be the target of card effects."

To be honest, this resistance was quite disgusting and not that easy to solve.

But Yuei Vu didn't take it to heart at all: "Activate the Spell Card Fusion' from your hand, and fuse Elemental HERO Stratos' and Elemental HERO Liquid Soldier'.

The fusion condition is 1 Elemental HERO' monster + 1 WATER monster! Fusion Summon!

Born from the extremely cold abyss, freezing everything with the absolute power of ice and snow Elemental HERO Absolute Zero! "

With a whirlpool of ice crystals and an extremely cold storm, the hero who controlled the absolute zero temperature arrived heroically!

[Elemental HERO Absolute Zero, ATK 2500]

"Absolute Zero is a super powerful hero who can destroy all opponent's monsters in an instant." The man in black said in a hoarse voice, "But as long as the Prime Material Dragon' is around, this ability will not work."

"I know." Yuei Vu raised his hand, "But this works! I Tribute the Vision HERO Increase', Vision HERO Vyon', and Destiny HERO Malicious'!

The power of destruction brings about the end of the fate of all things, turning into the ultimate hero of destiny

Destiny HERO Plasma! ! ! "

The figures of the three heroes disappeared out of thin air, and a bloody quagmire appeared on the ground. Dragon-like arms protruded from it, and the hero's blood-red body emerged from it, with ferocious bone wings spread out behind him!

[Destiny HERO Plasma, ATK 1900]

Little Judai was immediately amazed by this hero who he had never seen in actual combat.

"That's amazing!" He said blankly, "Is this also a hero?"

In fact, from the ferocious and bloody image, it may be more appropriate to say that he was an "anti-hero". The domineering aura of a villain, the ferocious and bloody image, and the manic atmosphere were fundamentally different from the "Elemental HEROes" series that Judai loved.

"When Destiny HERO Plasma is on the field, the effects of all monsters on the opponent's field are negated."

The boundless blood filled the area, and the blood mist enveloped the entire place. Those powerful dragons have lowered their noble heads in this heroic realm and lost their power.

In this way, both the King Dragon's ability and the Prime Material Dragon's ability were all reduced to nothing by the power of this hero.

"Another effect of Plasma! Once per turn, I can select 1 monster on the opponent's side of the field and equip it to this card, then Plasma's attack power will increase by half of the equipped monster's attack power."

Yuei Vu raised his hand and pointed straight at the Dark Steel Dragon.

"What I want to absorb is the Red-Eyes Darkness Metal Dragon!"

The blood-red tentacles flew from the broad bone wings, capturing the body of the dark steel dragon without any explanation, and absorbed the huge dragon into the wings of Plasma in one breath, turning it into the nourishment of the hero.

[Destiny HERO Plasma, ATK 1900 ATK 3400]

"Quick-Play Spell Form Change." Yuei Vu said, "Return 1 HERO' Fusion Monster I control to the Extra Deck, then Special Summon from my Extra Deck, 1 Masked HERO' monster with the same Level as that monster's original Level, but with a different name.

I return Level 8 Elemental HERO Absolute Zero to the deck, transform! "

The man in black also reacted quickly: "When Absolute Zero left the field"

"That's right." Yuei Vu nodded, "Destroy all the monsters on the opponent's field!"

The hero's white body turned into a phantom and disappeared, the field of ice crystals spread rapidly, and the extremely cold space froze everything, freezing all the dragons that were crowded in the opponent's field!

The eldest brother of Elemental HERO scored a quadra kill!

At the same time, the hero of Absolute Zero exits, his body is surrounded by light, and a new heroic posture will also appear here!

"The sharp blade cuts through the darkness and brings light

Masked HERO Koga! "

The golden armor, the diamond-blue eyepiece, and the sharp blade wrapped around the golden light flow are like sharp teeth, cutting away all the darkness in the world!

[Masked HERO Koga, ATK 2500]

The overall situation has been decided. The man in black has used up all his resources and his field has been cleared. There was no longer any suspense left.

But he still showed no sign of panicking. Cold and strange eyes shot out from under the black eyepiece and swept over Yuei Vu.

Then he spoke in a low voice as if talking to himself.

"It's just like what she said Duel King Yuei Vu does have observation value."

What's the meaning?

Yuei Vu was confused for a moment, but this would not let him let go of the victory.

"Masked HERO Koga." He raised his hand and gave the order, "Attack directly."

The Masked HERO flew out like a beam of golden light, and his sharp sword was like biting teeth, slashing across the man in black.

The figure in black was hit head-on, and golden light exploded in his chest. Without making a sound, he lifted his body off the ground, flipped continuously in the air, and crashed the wall behind him like a kicked ball, then fell to the ground with the stirring dust.

[Man in Black, LP 1400 LP 0]

Chapter 655: Not Found A Way Yet

The LP value returned to zero, and the body of the man in black was knocked away from the distance. His body hit the set's crumbling, moldy walls, sounding like some heavy metal falling.

He rolled several times among the masonry ruins on the ground, hit a cloud of dust, and lay there motionless.

The game was over, the winner was decided, and the infinite loop of closed space returned to normal.

Several passers-by were stunned and could not extricate themselves from this duel that was beyond their imagination for a long time. Little Judai proudly put his hands on his hips and said that after all, Yuei Vu-sensei was the most powerful, and it was natural for him to be able to do such a thing.

Only then did passers-by realize that this child was actually a disciple of the Duel King. They were immediately in awe and began to boast that it was no wonder that he was so young and promising and had such superb card-playing skills. He must be a King like his teacher in the future

Yuei Vu ignored them, stepped forward, and leaned over to check on the opponent who had just been defeated.

From the brief encounter and the only conversation, it could be seen that this guy probably came after him. Moreover, the other party held dozens of rare cards, each one of them could attract

tycoons from everywhere whenever it was put on the market. There was even a "Swift Scarecrow" that even Yuei Vu had never seen before. It really made people curious.

Therefore, as the first-generation Duel King, the manager of the Duel Monsters Department of Kaiba Corporation, and a duelist with honor and justice, Yuei Vu felt that it was necessary to confiscate the opponent's deck and take it back for inspection

Of course, he also cared about the other party's identity.

Yuei Vu leaned down and turned over the guy who was lying motionless on the ground like a dead pig. But with just such a simple movement, a crisp sound like something cracking was heard coming from the body.

A dark ball rolled over against the floor.

It's that person's head.

His neck broke and his head rolled out like a football.

"Ahhhh!!!"

Some timid girls screamed. The girlfriend of the muscular man from before quickly turned around and tried to hide behind the man, but she didn't expect that the man was faster than her and had already taken the lead and hid behind her.

Girl: ""

Yuei Vu picked up the head, and several wires protruded from its broken neck, crackling with electric sparks.

"Robot," he said.

"Eh?"

The panicked passers-by finally calmed down.

"It turns out to be a robot"

"I was scared to death. I thought someone was dead."

"I'm just telling you, how can someone die in a duel"

The macho passerby held his head high and walked again: "I knew it, I just realized something was wrong"

Maybe he was trying to save his image, which had fallen into the eighteenth level of hell, but he only got a blank look from his girlfriend who, after today, may become his ex-girlfriend

Yuei Vu turned the head and found the model and number from behind the helmet it was wearing.

It's a Kaiba Corp's dueling robot equipped with artificial intelligence that was an early AI Bot that fought against President Kaiba during the Battle City period. However, with the upgrading of the company's technology, this kind of robot has long been eliminated. Now this kind of robot was only arranged to duel with tourists in various places of the park.

It was obvious that someone had just manipulated the machine.

There was no clue who the other party was, but at least they generously left behind a priceless set of rare cards. Since the other party didn't even attend in person, then Yuei Vu naturally didn't have the courtesy to talk to a scrapped robot.

Confiscated immediately!

Although he didn't know who the manipulator behind the scenes was, Yuei Vu couldn't help but want to say "thank you" because he made a special trip to send him so many good things.

To be honest, as his card library became more and more abundant, Yuei Vu couldn't find any deck that really aroused his interest.

Unlike when he played cards with Malik and his subordinates in Battle City, every win was a good harvest. Then Mr. Ma continued to work tirelessly to send people to harvest, and the express delivery came with free shipping. It was simply the little warmth left in this materialistic world.

Two minutes later, the staff of the haunted house finally came over and led them to the exit.

Soon after coming out, Yuei Vu saw President Kaiba. In fact, it was difficult for you to ignore him. After all, the president was so arrogant that just standing in the crowd would automatically create a force field of "keep strangers away".

Yuei Vu glanced at his watch and stepped forward: "President, you came early today. The opening ceremony will be in a while."

According to the usual practice, shouldn't the president descend from a helicopter at the beginning of the opening ceremony?

Mokuba spoke immediately: "Yes, we are originally planning to come back for the opening ceremony. But my brother heard that something happened on your side, so he immediately put down other things at hand"

"Don't get me wrong." Before Mokuba could finish his words, he was blocked by his brother. He saw Kaiba holding his arms and pointing his nostrils in the sky. "It's just that I have other things to deal with before today's opening ceremony. I just stopped by to take a look."

As he said this, he rolled his eyes at Yuei Vu.

"Hmph! If you can't handle such a small accident, you won't be worthy of the title of Duel King!"

Mokuba: ""

To be honest, Mokuba has never really understood why his brother refused to express his concern frankly about Yugi and Yuei Vu.

We have experienced so much together, haven't we already been friends through life and death?

"So what happened inside?" Mokuba asked, "You suddenly disappeared from the surveillance, and the staff couldn't find it. Where did you go just now?"

The two Kaiba brothers were considered his boss, so there was naturally nothing to hide from them. Yuei Vu explained everything inside, including the mysterious man who borrowed the Kaiba Corp's robot to play cards with him.

"Someone actually uses our duel robot to do such a thing?" Mokuba expressed surprise.

"Well." Yuei Vu pondered for a moment and said, "Maybe it's better to be cautious about this conference. Maybe someone is planning something."

In fact, this cannot be said to be a problem of Kaiba Corp. "Every conference will cause trouble" was almost a common practice in any work of the same type.

But the president didn't seem to take it to heart as always.

"Huh! They're just rats, let them come if they dare!" Kaiba couldn't help but drag him, "That will be the biggest mistake in their lives!"

After saying that, he didn't wait for Yuei Vu to answer, just turned around with a flick of his windbreaker: "Let's go, Mokuba."

He had an attitude of "We have important things to take care of and don't have time to waste here." It looked like he was really just stopping by to take a look.

"Hey, but brother, we don't seem to have anything to do before the opening ceremony, right?" Mokuba reminded, "How about let Brother Yuei Vu go with us?"

Kaiba: ""

One day I will sell this brother on eBay. JPG.

But anyway, Yuei Vu really didn't plan to go to any other facilities. After all the trouble, he didn't have the energy to do anything else, so he might as well just go to the venue with the Kaiba brothers.

After a while, they returned to the square they had passed through and saw the sign with "Navigation Map of Kaiba Land" painted on it.

They were surprised to find that the girl from before was still there.

At this moment, she was helpless in front of the navigation map. She looked like like a candidate who just went to the high-level mathematics examination room without any preparation.

The girl noticed them, couldn't help but say "Yeah", blushed, and waved her hand in embarrassment.

Yuei Vu: ""

Could it be that shehasn't found a way yet?

Chapter 656: President's Biography

Yuei Vu heard someone say a long time ago that having no sense of direction actually divided into levels.

On a scale of zero to Zoro, a person at Level 4 might be able to ride the wrong bus 180 times a year. For Level 6, it all depended on luck when you went out. You never knew your destination.

Yuei Vu had always thought that level only existed in funny jokes, but he never expected that he actually bumped into one today.

The helpless girl in front of him, who was still spinning in circles after struggling for so long Yuei Vu felt that she should have exceeded the above-mentioned categories.

She might be the type that no one would dare to send her to buy at a shop across the road otherwise, she would not be able to come back.

"You haven't found the place yet?" Yuei Vu asked tentatively.

The girl's face was hot, and she lowered her head and nodded.

"Then come with us. We are also preparing to go to the central venue now."

"Umthank you."

The girl nodded politely. She raised her clear big eyes and secretly looked at President Kaiba who was accompanying them. However, she was immediately frightened by the president's fierce face and looked away. She lowered her head and did not dare to speak.

"By the way, I don't know your name yet."

Chika walked closer to the girl.

"Me? I" She hesitated for a while, "My name is Natsuki! Ayumu Natsuki!"

Do you even need to think to remember your own name? Chika was a little confused.

"Itou Chika."

Chika said, comforting her: "It's normal not to be able to understand the map. I always can't remember the way when I go out."

She was a little embarrassed when she said this: "I have gotten lost on the way home from school"

"Ah." The girl nodded with understanding, "That must be very hard, right?"

"Wellactually it's not bad." Chika thought about it seriously and replied, "Because there aren't many times when I need to memorize the route by myself. Anyway, Yuei Vu is here, so I will follow him wherever he goes"

Ayumu Natsuki: ""

Yuei Vu walked in front without saying a word, but his heart ached after hearing what Chika-chan said.

Yeah, you dont have to memorize the route by yourself. When you got lost on the way to school that day, didn't I pick you up?

Unfortunately, it was raining heavily that day. After calling Chika for a long time, she couldn't even describe where she went. Asked her what reference objects were nearby, and she said there were cars, trees, and a trash can

In the end, Yuei Vu spent a lot of effort to find it for her.

At that time, he wanted to complain "You are almost graduating and you still get lost when you get home from school?!", but when he saw Chika with her head lowered and a pitiful expression that said "I was wrong" on her face, he felt so pitiful and couldn't spit it out.

In the end, he had no choice but to sigh: "Go back to the store, it's getting dark."

"Yes." Chika nodded and followed obediently without saying a wordbut actually, she was still a little happy in her heart.

""

After hearing what Chika said, Natsuki hesitated to speak. In the end, it seemed that he had lost interest in the conversation closed his mouth, and remained silent for a while.

There seemed to be a faint sour smell in the air, which smelled a bit like lemonade

"snort."

Kaiba walked in front, folded his arms, and started humming again.

"boring."

Natsuki boldly glanced at President Kaiba again and asked in a low voice: "A person like the president must be very popular with girls, right?"

"Of course."

As soon as he heard someone say good things about his brother, Mokuba immediately became excited.

"My brother is known as the White Dragon of Domino'. Every year, he is ranked among the top five in the list of the most popular people in the city no, in magazines all over the country!"

After all, President Kaiba was young, handsome, and rich.

The inspiring story of Seto Kaiba was almost universally known. Almost everyone knew that the president started in an orphanage and gained his current wealth and status all by his own hard work. He was simply a legend.

Now, President Kaiba was just eighteen years old. He was handsome, talented, rich, and powerful. His influence and status were at the top of the world. More importantly, he could play cards well.

He was almost a collection of all the excellent qualities of a man, and of course, he would be regarded as the dream man by countless young girls.

"Hmm um." Natsuki expressed understanding softly, "Excellent people will naturally become the center of attention wherever they go."

However

"boring!"

The president groaned without looking back, almost startling her.

President Kaiba strode forward, his nostrils pointing to the sky, and the hem of his windbreaker undulated behind him like a king's cloak.

His eyes were full of determination and there was no trace of confusion.

There was a saying that best describes a person like Kaiba.

"Women can only slow down my card-drawing speed."

The president was obviously the most loyal believer in this cautionary saying, and he has always set an example and practiced it with his own actions.

After all, he has never won against Yugi yet!

He didnt even win against the abominable Yuei Vu!

Falling in love? A waste of time!

Rather than wasting precious time on eating and shopping with a woman and making vows, it would be better to catch Yuei Vu and play with him a few more times, develop new tactics and optimize the construction of the deck.

This was why Chika had never liked President Kaiba very much.

The difference in outlook and incomprehensible behavior were secondary. What she cared about more was

This guy likes to drag my Yuei Vu to play cards whenever he has nothing to do!

Who would get up in the middle of the night to play cards?

Just incomprehensible.

Natsuki was thoughtful and seemed to understand, saying softly: "Dueling is the art of creating a future, and duelists are artists. Even if you are satisfied with your current achievements for a moment, you will be left behind immediately."

"Oh?" Kaiba moved his eyebrows and looked over.

These words indeed spoke to his heart, and they were consistent with the life creed that Kaiba had always adhered to. This made him take a good look at this female passerby for the first time.

it's actually quite pleasing to the eye.

This may be the highest praise that President Kaiba can give.

Natsuki was struck by his naturally ferocious look and was so frightened that he lowered his head and did not dare to look at him.

"Yesit's written in the president's biography." She shook her head, "The biography contains the president's classic quotes."

Everyone looked like "That's it".

Let's just say, how could anyone have the same brain circuit as President Kaiba

"By the way, I have another question I wonder if I can ask the president?"

Kaiba glanced at her and hummed, which seemed to be permission.

"There are rumors that Duel King Muto Yugi once had the soul of a nameless Pharaoh in his body. That is the opponent you recognize, but now his soul is no longer there."

The girl looked at Kaiba secretly and asked cautiously.

"Someone said you wanted to bring him back, is that true?"

Kaiba narrowed his eyes and glanced over again with that sharp and cold gaze. The girl was so frightened that she quickly lowered her head to avoid looking at him.

To be honest, Kaiba's fierce face was quite lethal to ordinary people. But not everyone was like Yuei Vu, who could listen to the president's lectures while thinking about what to eat at night.

Kaiba said coldly: "The road to becoming a strong man requires evenly-matched opponents."

You said "evenly-matched opponents", but in fact you have never won even once, right? Yuei Vu thought from the side.

"Oh." Natsuki nodded, thought for a moment, and then asked, "But in the biography, you seem to have said, There is no need for two kings on the road to the throne?"

Kaiba: ""

The president may have never imagined that one day he would be choked by his own words and become speechless

"It's none of your business." Kaiba finally said fiercely.

"Ohoh." The girl shrank her neck and remained silent obediently.

Yuei Vu couldn't help but look at Natsuki in surprise.

Did this girl probably memorize the president's entire biography?

Do you remember everything the president said so clearly?

Chapter 657: Friend Or Foe?

Gorgeous fireworks exploded in mid-air, and images of Blue-Eyes White Dragons in various vest shapes roared and flew through the blue sky. A wave of shouts and applause roared in, sweeping across the entire venue.

The steel wings cut through the fireworks and images, and the jet in the shape of a Blue-Eyes White Dragon passed by with a roar and two long tail flames.

The propeller on the tail of the aircraft was changed to point vertically downward, and the jet hovered over the stage out of thin air in a very anti-physical posture, and the hatch was opened downward.

Then, President Kaiba Seto in the cabin jumped down in an even more physical-defying posture. He landed in the middle of the stage in a squat position without even rolling, his windbreaker flying behind him.

But now Yuei Vu was standing in the background watching, and he was even used to it.

I just remember that when we first met, the president just jumped out of a helicopter, but now he is no longer satisfied with that, now he wants to jump out of a jet.

I wonder what it will be like in another two years

Yuei Vu seriously suspected that President Kaiba might have become addicted to showing off. Everyone has already arrived at the venue, but they still have to go back and fly back before the opening to make a grand entrance. It's really not troublesome

"He is really persistent towards the Blue-Eyes White Dragon." Chika stood expressionless in the audience.

In fact, she wanted to complain early on. Kaiba Land looked like a large-scale confession venue for the president to marry in vain. It was not too much to even use it as a wedding venue with a little decoration and modification.

"I don't know what Seto Kaiba is thinking"

Chika suddenly paused mid-sentence. She turned her head and found that the friend she had just met, Ayumu Natsuki, was lowering her head, her face was red to her ears, and her little head was steaming like a red-hot engine.

Chika: "?"

What's going on with this girl? Heatstroke?

At this time, President Kaiba had already stepped onto the stage and began to deliver an impassioned speech.

At this celebration of the first anniversary of the completion of Kaiba Land, the president also plans to briefly introduce and promote the new generation of Duel Disks that will be released soon. According to the slogan in the advertisement, this Duel Disk has "epoch-making significance" and will have an impact on the existing duel world.

It's just that President Kaiba's promotional speech this timewelllet's put it this way, it's a bit unique.

"Since birth, people have been bound by a cage called the body. The body is a cage that the soul cannot escape until death!" Kaiba stood on the stage and shouted loudly.

"We fight to protect the important people! The body takes up arms to protect the soul, people start to repeat stupid wars, people kill each other, the history of the battle keeps repeating"

""

President Kaiba became more and more excited as he spoke, while Yuei Vu heard from behind was having more and more question marks.

No, President, please wait a moment

Its not that the presidents speech was not passionate enough, nor that there was anything wrong with the great truth he said, but the key issue was

What you are talking about has nothing to do with the Duel Disks sold by our company!?

Who can understand this?

President, look at it, all the children in the audience are confused.

The onlookers were all stunned and then there was actually one person who was applauding vigorously.

All eyes were focused on Natsuki who was applauding vigorously, and it was as if countless spotlights were focused on the girl's feet, making her look particularly eye-catching.

Chika, who was standing next to her, couldn't bear the pressure of all the attention, so she moved aside in small steps without saying a word. But the girl with skin as good as snow still clapped vigorously, as if she really agreed with this passionate speech from the bottom of her heart.

Kaiba paid attention to her and continued speaking without pausing.

"The irony is that even the winner will not be liberated from the cage of lifelong imprisonment." President Kaiba changed the topic and raised the Duel Disk prototype in his hand.

"But, gentlemen! Because of Kaiba Corp's new generation Duel Disk, the soul has been liberated from the body!"

Finally, it has something to do with our Duel Disk.

When Yuei Vu heard this, he almost wandered away to play chess with Duke Zhou.

"We have escaped from the imprisonment of the body and ushered in the era of coexistence in the online world! This Duel Disk will lead us to transcend any boundaries such as thought, language, country, etc., and move towards a new future!"

"Oh oh oh!!!"

The entire audience began to cheer and applaud thunderously, and the wave of sound gradually flooded the entire venue.

Most of the audience didn't understand the long series of esoteric and obscure foreshadowing. Until now, they only understood that the next-generation Duel Disk was awesome, and from now on, card playing would evolve into a new era.

If you intercept part of President Kaiba's impassioned speech, you wouldn't be able to imagine that this was actually a toy advertisement. With these ambitious lines and the unusual enthusiasm of the audience, those who didn't know it thought it was some kind of large-scale missionary scene.

Stirring up the atmosphere, President Kaiba stepped back and continued: "Then, this stage will be handed over to the man who stands at the top of the world. The ultimate goal that all duelists yearn for, the one with the supreme title King!"

The audience's emotions once again reached a new climax.

This time, Chinka-chan was the first to stand up and take the lead in applauding. Her little hands were so hard that they turned red, which attracted a sideways glance from Natsuki next to her.

Yuei Vu rolled his eyes at Kaiba before taking the stage.

The man at the top of the world? The ultimate goal that all duelists yearn for?

You've never called me that in the company.

All you said was "Yuei Vu! Come and duel"

Yuei Vu walked up to the stage, coughed twice, and said "What the president said was already very good. I will add a few more points based on what the president said"

Of course, he couldn't learn such high-level and puzzling philosophical speeches as Kaiba. Yuei Vu's speech was simple and direct. After repeated over and over again, it can be summed up to one core

Buy, buy, buy!

Dominos latest online dueling card game was now online!

It supported face-to-face, friend battles, room reservations, and online connections, and was a great companion to relieve card addiction when traveling at home!

The original price was 998, the current price was 998, if you say there was no discount, there would be no discount!

Action spoke more than a thousand words, so why not pick up your mobile phone and pre-order?

Then everyone in the audience was excited.

Buy buy buy! If you don't buy it, you are not human!

""

Yuei Vu stood on the stage to promote the president's new Duel Disk. The footage of the celebration was attached to the wings of electrical signals and flew along the optical fiber path to live broadcasts around the world.

A petite girl was wearing a loose robe, leaning against the setting sun, and sitting on a seat in an outdoor cafe, quietly reading a big book.

Yuei Vu's voice came from the TV behind the window. She briefly retracted her gaze from the book and turned to look at the TV screen.

"Duel King Yuei Vu." The girl said to herself, "Will your existence lead the history of the world to a new stage or will it gradually come to an end?"

"That's sister."

A childish voice drew the girl's attention. She turned her head and saw a little loli licking a lollipop lying on the table. She had cute twin tails on her head.

"Sister, what's your name?" Little Loli asked.

"Me?" The girl smiled softly, "My name is Sera."

"Sister Sera, you seem to have been reading here." Little Loli continued to come forward and tilted her head curiously, "Is it a very good book?"

"Um."

Sierra closed her book and stood up from her chair.

"But it's almost time for me to leave. "

"Eh? Are you about to leave?" Little Loli seemed a little disappointed.

"Yes. But I have finished reading this book. If you like it, can I give it to you?"

"Really?"

"right."

Little Loli happily accepted the thick book and held it carefully in her arms. After a moment, she suddenly realized that she seemed to have forgotten something, and then turned around: "Thank you, sister?"

She tilted her head, blinked her big confused eyes, and found that in less than two seconds, there was no one behind her.

The girl Sera stood on the top of the building under construction, stepping on high scaffolding, and the Q version of the Blue-Eyes White Dragon construction logo wearing a safety helmet was posted on the outside of the staggered steel bars.

"Duel King Yuei Vu is also a target that must be contacted, right? Is he friend or foe"

Chapter 658: Dimension Duel

After working all day at Kaiba Land, Yuei Vu sent Judai home. When he left the card store at night, it was already past eleven o'clock in the evening.

Even the streets have become a lot deserted without the screwballs. This area was not close to the commercial area. At this time, the good children have already finished counting sheep and are immersed in their own dreams.

It began to drizzle in the sky. The rain wasn't heavy, but it didn't stop all night.

Yuei Vu declined Chika's invitation to stay overnight at the card shop because he had some things to deal with when he went back in the evening. But at Chika's insistence, he still took her umbrella with him when he went out.

To be honest, Yuei Vu refused in his heart to go out under this umbrella. The rain was actually not too heavy, and he didn't mind it that much. In comparison, he only felt that the umbrella Chika gave him was a little too girly. It was pink and printed with cute cartoon patterns, which really didn't match the image of a macho man like him

It doesn't matter, as long as Chika is happy.

Besides, in the middle of the night, there might not be anyone on the street

"Are you Yuei Vu?"

The girl's clear and tender voice sounded.

Yuei Vu: ""

Okay, what did I just want to say?

He stopped helplessly and turned around in the direction of the question.

Drizzle continued to fall from the night. The petite and cute girl stood in the rain, wearing golden jewelry, and the rain slid down her healthy wheat-colored skin.

Yuei Vu recognized her.

"Sera?"

The girl's beautiful eyes widened slightly, showing some surprise.

"You know me."

"So be it."

Sera was the sister of the villain Aigami in the "The Dark Side of Dimension" movie.

Speaking of this brother and sister duo, we had to mention the grave keeper named Shadi in DM.

One of the biggest unsolved mysteries of "Yu-Gi-Oh! DM" that screwball players often like to discuss whether Shadi is an enemy or a friend?

If you wanted to say he was an enemy According to the final explanation of the plot, Shadi, as a tombkeeper, has always had the purpose of helping the Pharaoh regain his memory and return to the underworld. Logically speaking, he should be on the good side.

But you wanted to say that he was a friend All the troublesome villains in DM seemed to relate to this guy.

First of all, Pegasus's Millennium Eye was given by Shadi, and Pegasus was the villain of the Duelist Kingdom arc of the animation. Then Marik, the villain of the battle City arc, also misunderstood because of an unclear line left by Shadi, and mistakenly believed that his father was killed by the Pharaoh, and then he wanted to seek revenge from Yugi.

In the end, you even find out that the great evil god Zorc could find Bakura as his host, and from then on, Yami Bakura, the rabbit-eared demon king, was born. Shadi was involved in this case too.

Then, a series of bad things happened in the "The Dark Side of Dimension" movie. Strictly speaking, it was all Shadi's fault.

According to the movie plot, a group of orphans including Aigami and his sister Sera were all adopted by Shadi. They have received Shadi's education since childhood, saying that this world was turbid and full of war, but they were all the chosen children, with the talent to transcend the constraints of this dimension.

As long as the Pharaoh returned to the underworld, the door to the new world would open, and the chosen ones would transcend this turbid world and go to a higher dimension without disputes, wars, or language barriers.

These chosen ones were collectively called "Prana".

So although Aigami was the villain of this work, he couldn't be considered a villain. He had only one purpose, and that was to stop President Kaiba from digging the Pharaoh's grave.

Shadi told them that if the gate to the underworld opened again and the Pharaoh who had returned to the underworld came to the world again, the dimensional gate to the higher world would be closed forever. They Prana would be trapped in the current dimension forever, with no chance to evolve.

So of course they needed to do everything they could to prevent the resurrection of the Pharaoh.

Five years ago, when the sleeping evil spirit of the great evil god Zorc awakened in the Millennium Ring, Shadi's physical body was already dead, leaving only a soul body that remained in a half-dead state to complete the duty of "sending the Pharaoh back to the underworld."

But now that this mission has been completed, the Millennium Item that has been helping him stay in the land of living has also disappeared from the world, and his soul has also disappeared.

"Duel King Yuei Vu, you are indeed as extraordinary as my companions said."

Sera smiled and raised an arm slightly. The golden light path swirled around her slender arm, and the golden light condensed into the entity of the Duel Disk, which was assembled on her arm.

It was some kind of Duel Disk that Yuei Vu had never seen before. Compared to science, Yuei Vu prefers to think that this thing was a metaphysical prop.

"As expected, we still need to duel?"

Yuei Vu put away the pink umbrella and temporarily threw it at his feet. He took a deep breath and opened the Duel Disk as well.

"Okay, then I'll leave the questioning part after this."

"Duel!" x2

Yuei Vu, LP 4000

Sera, LP 4000

The Duel Disk was activated and the moment the duel began, Yuei Vu noticed a surge of energy sweeping away from Sera's petite body in the form of a shock wave.

The venue looked like it had been rendered with some kind of special effects, with blood-red particles flying through the space. The rain and night were shut out, and all the buildings in the neighborhood disappeared. A blood-red vortex opened in the sky, like a bloody mouth.

Yuei Vu looked around the venue: "This is"

"Dimension Duel." Sera explained, "This is our Prana's duel method, which is a little different from the duel rules you are familiar with.

No sacrifice is required to summon monsters above Level 4 here. The battle between monsters on both sides will not cause combat damage to the player, but when the monster is destroyed, the player himself will be hurt by the attack power of that monster. "

"Did you use the power of Prana to overwrite the duel rules?" Yuei Vu understood.

The rules of duel were part of the laws of the world, but the laws in different dimensions may also be different.

Yuei Vu speculated that maybe Prana has the power to move dimensions and overwrite reality, so they could rewrite the rules of duel to a certain extent.

Of course, Yuei Vu was mentally prepared for this kind of thing.

"I am the first to strike." Sera took the initiative and said, "Draw."

Yuei Vu watched her actions intently, his mind racing.

Sera was Aigami's sister. If he remembered correctly, the deck she used should be the same as Aigami. They were both embodied by the power of Prana, a deck called "Cubic".

Sure enough, Sera had played her first card.

"Summon Viam the Cubic Seed' in attack position!"

Countless particles behind the girl were stirred, and a golden vortex formed in the space. Inch by inch, the golden light transformed into a steel-like entity, and deformed monsters appeared in the gaps between dimensions.

[Viam the Cubic Seed, ATK 0]

Although Viam seemed to be a one-star hot chick with only 0 attack power, in fact, it was the starting point for most strategies of the Cubic deck and was a crucial core monster.

"Set a card, I end my turn."

Chapter 659: Cubic

"My turn."

Yuei Vu drew a card, glanced sideways, and then took out one of the cards in his hand.

"Summon the Berry Magician Girl!"

In the transparent magic circle, the small and exquisite magic girl flapped her transparent wings and flew out to the venue like a butterfly, dragging a crystal-clear trajectory.

"In our Dimension Duel' venue, how much attack power the monster can exert depends on the duelist." Sera explained, "The attack power of the monster will increase with the duelist's spirit energy."

Yuei Vu also knew this. In the animation, when Yugi and Kaiba engaged in a "dimension duel", every time they summoned a monster, they shouted "Ahhhhh" like a Super Saiyan, and then the attack power of the monster they summoned increased from 0.

However, there was an upper limit to this improvement. No matter how powerful the duelist was, the upper limit of the attack power of the monsters they summoned could only be increased to the value of the attack power of the card.

But according to Yuei Vu's understanding, the so-called "duelist's courage" here was more specific, and may refer to the duelist's "force".

If the Duelist Rank was high enough, the attack power of the summoned monster would naturally be increased to the maximum.

Therefore, this kind of rule restriction was completely redundant for a high Rank player like Yuei Vu today and could be ignored directly.

[Berry Magician Girl, ATK 0 ATK 400]

"The effect of Berry Magician Girl If this card is Normal Summoned: I can add 1 Magician Girl' monster from my Deck to my hand." Yuei Vu drew a card that automatically popped up from the deck.

"I add Dark Magician Girl' to my hand."

The blond elf girl floated behind Yuei Vu in a ghostly form, holding a small staff in both hands: "Master, come on!"

"Spell Card Monster Gate"! Tribute 1 monster; excavate cards from the top of my Deck until I excavate a monster that can be Normal Summoned/Set. Special Summon it, also send the other excavated cards to the Graveyard."

Yuei Vu pointed at the petite magical girl on the field.

"I sacrificed the Berry Magician Girl', and the effect of Monster Gate is activated!"

The berry girl's body disappeared, the magic circle opened, and a portal formed by energy accumulation opened in mid-air.

Yuei Vu quickly started flipping through cards from the top of the deck, and on the second card, he found a monster that met the conditions.

"The card I excavated is, Chocolate Magician Girl'." Yuei Vu slapped that card on the duel plate, "According to the effect of Monster Gate', it will be Special Summoned directly!"

The portal in mid-air burst out with energy and disappeared out of thin air. Soon the door transformed into the shape of a magic circle, and the magical girl who looked like a little devil flew out of the magic circle, landing lightly on the ground with her suspender boots on.

[Chocolate Magician Girl, ATK 0 ATK 1600]

"Did the monsters summoned in the Dimension Duel' easily raise their attack power to the limit?" Sera murmured, "You are truly worthy of being the king of duels."

"The effect of Chocolate Magician Girl." Yuei Vu said, "Once per turn: I can discard 1 Spellcaster-Type monster; draw 1 card."

The chocolate girl waved her staff gently and cast her most proficient spell. Yuei Vu discarded a card from his hand into the graveyard, and then drew a card.

"Set two cards, I end my turn." Yuei Vu said.

"Aren't you going to attack?"

Sera glanced at "Vijam the Cubic Seed" whose attack power on the field was only 0, and couldn't help but ask.

Attack it? Why?

Although the animation was very vague, Yuei Vu knew the effect of this "Vijam the Cubic Seed". Although this thing had only 0 attack power, it could not be destroyed by battle, and it could also in the words of the anime "de-dimensionalize" the monsters it has fought with.

Monsters that have been "de-dimensionalized" could not attack and their effects were negated, which was equivalent to being tied by a "Fiendish Chain".

If it were a normal duel, battling would at least cause combat damage. However, under the "Dimension Duel" rules, the battle between monsters would not cause damage. Only when the monster was destroyed, the controller would take damage equal to the attack power of that monster.

So even attacking here was meaningless.

Sera naturally didn't think that her opponent knew the rules of "Dimension Duel", and even the details of her "Cubic" deck had been figured out by Yuei Vu. She could only attribute this to Yuei Vu's own caution.

"I see, you are worthy of being a Duel King. It is indeed a terrible intuition."

Sierra raised her little hand.

"My turn, draw!"

She added a card to her hand and then waved her hand.

"Battle! I use Vijam the Cubic Seed' to attack the Chocolate Magician Girl!"

[Vijam the Cubic Seed, ATK 0]

[Chocolate Magician Girl, ATK 1600]

There was a huge difference in attack power, but the deformed square monster showed no fear at all. The chocolate girl raised the staff in her hand to defend against a counterattack, and the dazzling light rushed out like the water stream.

Vijam would not be destroyed by battle, and monsters would not cause damage if they were not destroyed in "Dimension Duel". But if this battle was successful, the Chocolate Magician Girl would be "de-dimensionalized" due to Vijam's effect, unable to attack or use her effects.

So why not simply use her effects here first to earn more resources?

"Activate the effect of Chocolate Magician Girl'." Yuei Vu said, "Once per turn, if this card is targeted for an attack: I can target 1 Spellcaster-Type monster in my Graveyard, except Chocolate Magician Girl'; Special Summon it.

After that, change the attack target to it, and the attacking monster's ATK becomes half its current ATK. "

The cards that Yuei Vu had just discarded to the graveyard in the last round popped up quickly.

"The one I want to special summon from the graveyard is, Lemon Magician Girl'!"

Magic power surged, the golden magic circle opened, and a magical girl in a glittering golden mage outfit flew out, spinning lightly.

[Lemon Magician Girl, ATK 800]

"Then Vijam's attack target will change to Lemon Girl." Sera said, "But Vijam's attack power is originally 0, so there will be no change even if it is halved."

But Yuei Vu is not done yet: "The effect of Lemon Magician Girl Once per turn, if this card is targeted for an attack: I can Special Summon 1 Spellcaster-Type monster from my hand, but its effects are negated, then change the attack target to it, and the attacking monster's ATK becomes half its current ATK."

Yuei Vu showed another card in his hand.

"Come on! Dark Magician Girl!"

In the black magic circle with clear lines, the magical girl finally got a chance to appear on the stage full of energy, holding the small staff tightly and being very energetic.

[Dark Magician Girl, ATK 2000]

"After that, Vijam's attack power was halved, and the target of the attack was forcibly changed to the Black Magic Girl'." Yuei Vu said, "Of course, Vijam's attack power is still 0."

Vijam's sprint target shifted again, this time to the Dark Magician Girl who had just appeared. The blond magical girl puffed her mouth, raised her hand, and fired a magic light bomb towards her face.

If the battle was established in this way, Vijam could only neutralize the effect of the Dark Magician Girl.

The effect of the Dark Magician Girl Yuei Vu said it's useless anyway.

In addition, before that, when she appeared through the effect of "Lemon Magician Girl", her own effect was already negated.

But Sera seemed to have other plans.

"Open the set card!" Sera waved her arm and turned over the cover card in front of her, "Counter Trap Cubic Defense! If a monster I control would be destroyed by battle: Make that monster unable to be destroyed by that battle, and Special Summon 2 monsters from my hand with the same name as that monster." (Animation Card)

Her slender fingers pulled out the other two cards in one breath.

"Special Summon the other two Viam the Cubic Seed!"

A cubic defensive formation withstood the impact of magic light bullets in front of Sera, and the torrent of magic washed away along the defensive shield. Immediately afterward, two more beams of golden light shot out from her hands, transforming into dark and deformed entities, revealing a huge one-eye, and transformed into two other "Viam the Cubic Seed" appearing on the field.

[Viam the Cubic Seed, ATK 0] x2

In this way, there were three Viams on the Sera field.

"When there are three Viam the Cubic Seed' on my field"

Sera raised her little arms, and a dark storm blew her sleeves and robes to dance violently.

"Special summons

Buster Gundil the Cubic Behemoth! ! ! "

Chapter 660: Is That So?

"Buster Gundil the Cubic Behemoth, summons!"

Thunderclouds gathered in the sky of another space, and an eye seemed to open in the bloody whirlpool in the sky.

The sky was torn apart by lightning, and some kind of giant existence emerged from it.

It was a mythical monster beyond the constraints of common sense, and its twisted shape seemed to be full of destructive impulses. Its body suspended in mid-air looked like a suspended island, sending down pale lightning towards the world.

A golden eye lit up on Sera's forehead.

It looked like the unique emblem of the Millennium Items.

"Buster Gundil the Cubic Behemoth's effect its attack power will increase by the number of equipped Cubic' monsters x 1000 points," the girl said.

The real-life Cubic monsters had to send other Cubic monsters on the field to the graveyard before they could be Special Summoned, but the description of the effect in the animation was even weirder.

Although Sera used the word "equipped" here, it was not "equipment" in the ordinary sense like Equip Spell cards. Here, she stacked "Buster Gundil the Cubic Behemoth" on top of the three "Vijam the Cubic Seed" to summon.

Then, "Buster Gundil the Cubic Behemoth" would increase its attack power by the number of monsters overlapped below it x 1000 points.

This was a method unique to the Cubic. The "Vijam" was used as a weapon accessory and embedded into the bodies of other Cubic monsters to enhance their abilities. It was an original creation of the animation move. It was somewhat similar to "attach" in Xyz Summon.

There were now a total of three cards stacked underneath "Buster Gundil the Cubic Behemoth", so its attack power also increased accordingly.

[Buster Gundil the Cubic Behemoth, ATK 0 ATK 3000]

"You suddenly created something troublesome." Yuei Vu muttered as he looked at the giant guy with claws and teeth.

In the real card environment, one of the most fatal and major problems of the well-known "Cubic" deck was hand jamming.

The core of the Cubic deck's strategy was the ability to start with low-level monsters and continuously summon a series of high-level Cubic monsters from the deck, which have strong attack power and excellent killing capabilities.

Starting from "Vijam the Cubic Seed", this deck could continuously summon a series of excellent thugs.

Of course, that's just the beautiful fantasy of players.

The real situation in an actual duel was often that the starting hand contained a dozen "Cubic Emperor", "Cubic Beast", "Cubic King" and other things that could not be Normal Summoned/Set, but had no Vijam. The player then died suddenly on the spot due to the dead draw.

Of course, those were problems only ordinary players had.

With major characters in the anime, it was naturally impossible for them to miss key cards.

For example, Sera here, not only did she get the key card "Vijam the Cubic Seed" with her starting hand, but she also drew three copies directly

"Battle!" Sera stretched out her finger, "Buster Gundil the Cubic Behemoth', attack the Lemon Magician Girl!"

Flames wrapped around the body of the Cubic Behemoth like a burning dragon, and the twisted suspended body seemed to be burning. Three fire pillars twisted and wrapped around each other, converging into one place, forming a dazzling and hot fire that erupted loudly!

The lemon girl's petite body was evaporated and destroyed in an instant, and the mighty wave of flames rolled over Yuei Vu's body.

[Yuei Vu, LP 4000 LP 3200]

As mentioned before, when monsters fight each other in a Dimension Duel, players will only take damage equal to the attack power of the destroyed monster. Because Lemon Magician Girl's attack power was 800, the damage Yuei Vu received was also 800 points.

But this was just the beginning.

"The effect of Buster Gundil the Cubic Behemoth." Sera said slowly, "It can attack up to three times during each Battle Phase.

Go ahead, Buster Gundil, attack again. This time the target is Chocolate Magic Girl!"

The huge Cubic Behemoth took action again, the fire pillar wrapped around it, and the three flames merged into a twisted fire dragon and flew out!

How could a chocolate girl be a match for a monster of this level? Her defensive spell was shattered like glass in just a moment, and she was blown away.

The impact of the second wave felt like facing the crater of a volcano head-on. Yuei Vu felt that the heat wave almost drowned him, and the hot air choked his breathing, making it almost impossible for him to stand firm.

Yuei Vu, LP 3200 LP 1600

The Chocolate Magic Girl's attack power was 1600, which was the amount of damage he had suffered.

But it's not over yet.

The Gandhar of Destruction still had the power to attack for the third time!

Although it was a bit difficult to summon this thing, it was still very lethal. Three consecutive shots with 3000 ATK, without even being restricted from direct attacks, were still quite deadly as a thug.

"Yuei Vu, will you become the leader of the future or will you stop here?" Sera closed her eyes briefly and then opened them quickly.

"The battle begins. Buster Gundil the Cubic Behemoth, attack the Dark Magician Girl!"

The body of the square realm super beast was buzzing, and the flames clung to it and rose rapidly, rising into the sky.

Of course, the power of the Dark Magician Girl was completely insufficient to withstand this huge beast. Once the attack passed and Dark Magician Girl was knocked down, 2000 points of damage equivalent to her attack power would immediately come back to bite Yuei Vu, and that would be the end of this duel.

The fire was approaching rapidly, and the light of the scorching and distorted space was clearly reflected in the dark wizard girl's large, clear eyes. She hurriedly placed her little wand across her violently undulating chest and quietly glanced at Yuei Vu from the corner of her eye.

Master he should be able to find a way, right?

Yuei Vu did not let her down: "Open the set card: Trap Card Impenetrable Attack! During the Battle Phase, I can choose to activate 1 of these effects: Making 1 monster on the field unable to be destroyed by battle or by card effects during this Battle Phase, or I take no battle damage during this Battle Phase.

I use this effect to protect the Dark Magician Girl from being destroyed. "

The trap effect was released, transforming into an invisible shield to protect the magical girl from behind. The mighty flames of the Cubic Behemoth hit the shield head-on, hit the wall firmly, and were ejected in all directions.

The girl who was so frightened that she closed her eyes carefully opened her eyelids, her beautiful big eyes blinked, and her long eyelashes moved.

The girl was a little happy and her heart was beating wildly.

Master, did he keep this trap specifically to protect me?

Sure enough, I am the trump card that the master values most

"Dimension Duel' will only cause damage to the duelist when the monster is destroyed." Yuei Vu said, "If the battle destruction is invalid, no damage will be caused."

"Is that why you left this trap to the Dark Magician Girl' with the highest attack power to reduce the damage?" Sera nodded, "It seems that you have quickly mastered the rules of Dimension Duels."

Dark Magician Girl: 0.0

Is that so?
