

I Play Yu-Gi 911

Chapter 911: What Else Are You Trying To Summon?

Maybe time has been stopped, maybe time has been accelerated, or maybe time has been erased

It didn't matter what happened, but in short, the result was that Yuei Vu's turn was directly skipped, and it was Saio's turn again.

In other words, the attack authority of "Arcana Force XXI The World" has also been reset!

"It's almost time for the curtain of destiny to fall!" Saio shouted, "Go! Arcana Force XXI The World', attack directly!

Over Catastrophe! ! ! "

Saio looked ferocious, and the shattered white beam of light shot out towards the hole that was blasted through in the ceiling! The earth trembled, the space roared, and The World's attacks were overwhelming, like the final judgment sent down by the gods.

"Successful!" Many members of the Society of Light began to cheer.

The only thing they didn't directly say was "Congratulations on the victory, Saio-sama" in advance.

"Activate the effect of Swift Scarecrow'." Yuei Vu calmly drew a card from his hand, "When an opponent's monster declares a direct attack: Discard this card; negate the attack, then end the Battle Phase."

The mighty attack hit the scarecrow's barrier, and the energy vortex was scattered in all directions. The display on the Duel Disk automatically switched to "Main Phase 2".

"Nani!?"

Saio's exaggerated smile suddenly froze.

Wait, the Duel King has always had this card in his hand, so why didn't he activate it when he was directly attacked by "Chocolate Magician Girl" last turn?

Could it be that he already knew the ability of "The World"?

It doesn't make sense!

The Arcana Force was a series unique to Saio Takuma. This was the deck given to him by fate, and it was the ultimate tool he used to write his future.

No one knew the hidden abilities of each Arcana Force card, especially the "Arcana Force XXI The World" which he saved as a trump card. He has never used the power of "The World" in front of other people.

Saio believed that it was impossible for Yuei Vu to know the ability of "The World" in advance. He could only attribute this to Yuei Vu's extraordinary intuition as a Duel King.

"It's such a terrible intuition. Your life was saved by experience and instinct." Saio silently drew two cards from his hand.

"Set two cards, I end my turn."

The members of the association looked at Yuei Vu in shock.

"The Duel King is indeed no ordinary person. He can actually take this kind of attack."

"Well, Saio-sama must have already figured it out at this level. The fate has been decided long ago, and so is the outcome of this duel! You can tell by looking at Saio-sama's calm look!"

Saio: face art-ing.

"My turn, draw." Yuei Vu said, "I summon the Keeper of Dragon Magic'."

[Keeper of Dragon Magic, ATK 1800]

"The effect of Keeper of Dragon Magic' If this card is Normal or Special Summoned: I can discard 1 card; add 1 Polymerization' Normal Spell Card or Fusion' Normal Spell Card from my Deck to my hand."

A card in his hand was discarded to the graveyard, and then Yuei Vu drew a card that popped up in the deck.

"I add the Spell Card Double Fusion' to my hand." (Animation card)

"Then I activate the follow-up effect of Keeper of Dragon Magic! Once per turn, I can reveal 1 Fusion Monster in my Extra Deck; Special Summon 1 of the Fusion Materials mentioned on that monster from my GY in face-down Defense Position!"

Yuei Vu displayed a fusion monster: "I reveal Dark Cavalry', and special summon the fusion material Dark Magician' that I just discarded to the graveyard!"

The Keeper of Dragon Magic swiped the spear in his hand, and his cloak flew behind him. The black vortex pointed to his side opened up, and the black-robed magician flew out with a staff in his hand. After a brief appearance, it quickly covered the field and became a card.

"Then the Spell Card Double Fusion' is activated!" Yuei Vu said, "Pay 500 LP, and I can use the Polymerization' effect twice this round!"

Yuei Vu, LP 1800 LP 1300

"I fuse the Elemental HERO Sparkman' with Elemental HERO Liquid Soldier'!

The fusion condition is 1 Elemental HERO' monster + 1 WATER monster! Fusion Summon!

Born from the extremely cold abyss, freezing everything with the absolute power of ice and snow
Elemental HERO Absolute Zero! "

The hero of lightning and water flew into one of the double whirlpools in mid-air. The wind roared, and the ice turned into a white whirlwind and fell. The hero in plain white armor floated to the ground, accompanied by snowflakes all over the sky.

[Elemental HERO Absolute Zero, ATK 2500]

"The effect of Elemental HERO Liquid Soldier' If this card is used as Fusion Material for a HERO' monster, and sent to the GY or banished: I can draw 2 cards, then discard 1 card."

After completing the operations of checking and discarding cards, Yuei Vu raised his finger again to point up to the vortex in the air.

"The effect of Double Fusion' continued! I fused the Dark Magician' of the field with the Elemental HERO Absolute Zero!"

Saio couldn't help but be surprised: "The fusion of a Dark Magician and an Elemental HERO!?"

"The fusion condition is Dark Magician' +1 Warrior monster!

Fusion Summon! The black magic knight who tramples the mountains and rivers

Dark Cavalry! ! ! "

The black-robed mage and the azure warrior flew into the air and merged again. The beam of light almost penetrated the ground, and the sharp spear opened the light curtain. The dark warrior sat astride the back of the horse, trampling with iron hooves in the air.

[Dark Cavalry, ATK 2800]

Saio frowned: "What do you want to do?"

"The effect of Elemental HERO Absolute Zero!" Yuei Vu said, "When Absolute Zero leaves the field, all monsters on the opponent's field are destroyed!"

All the association members were shocked: "There is actually such a combo?"

"Oops, if Saio-sama's monster is destroyed, he will have to directly face the attack of the Dark Cavalry!"

"Oh, is this the idea?" Saio said in a tone, "But! Destiny has to be one step ahead! Open the set card: Trap Card Hierophant's Wand! The opponent draws 1 card. This turn, cards on my field cannot be destroyed!" (animated card)

The invincible Hierophant's Wand!

Absolute Zero's frozen wave rushed towards him, but Saio only laughed wildly and kept repeating "muda muda muda", and the cold wave was all bounced away.

"Cannot be destroyed?" Yuei Vu said as he drew a card.

"That's right!" Saio groaned, "And compared with your Dark Cavalry', my Arcana Force XXI The World' is superior in both strength and speed!"

Well, he must be referring to the attack power, right?

Then there is also the effect of the Dark Cavalry. This card will gain 100 ATK for each Spell/Trap on the field and in the GYs.

There are now a total of seven Spell and Trap cards in the graveyard on both sides of the field, so the attack power increases by 700. "

[Dark Cavalry, ATK 2800 ATK 3500]

Saio, who had just boasted, couldn't help but curl his lips: "Tsk, are you overtaking it?"

But Yuei Vu's operation was not over yet: Then I remove Keeper of Dragon Magic on the field from the game, and I can special summon this card in my hand

Red-Eyes Darkness Metal Dragon! ! ! "

Saio almost screamed.

What else are you trying to summon??

Chapter 912: Is This Also Part Of The Destiny?

A pillar of fire rose into the sky, and the black iron bone wings cut through the flames. Looking down with red eyes, the steel-black dragon descended into the white light-filled palace with a scorching storm!

[Red-Eyes Darkness Metal Dragon, DEF 2400]

"Red-Eyes?" Saio frowned attentively, "You even have such a legendary monster? But this kind of monster is useless. The World' is the most powerful power of Arcana Force."

"Red-Eyes Darkness Metal Dragon's effect is activated!" Yuei Vu shouted, "Once per turn, I can Special Summon 1 Dragon monster from my hand or GY!

I Special Summoned Curse of Dragon, the Cursed Dragon' that was just discarded by the effect of Elemental HERO Liquid Soldier'! "

"Nani!?"

In Saio's shocked eyes, a pillar of lava fire rose into the sky. The golden dragon spread its wings and soared, its skeletal wings spreading red hellfire.

[Curse of Dragon, the Cursed Dragon, ATK 2000]

"The effect of Curse of Dragon, the Cursed Dragon' is activated!" Yuei Vu said, "If this card is Normal or Special Summoned: I can add 1 Spell/Trap from my Deck to my hand, that specifically lists the card Gaia the Dragon Champion' in its text.

A card popped out of the deck and was drawn into Yuei Vu's hand.

"The Spell Card Spiral Fusion' is added to the hand," he said.

"Is it Gaia this time?" Saio's eyelids began to twitch a little.

Dark Magic, Red-Eyes, Magician Girl, HERO

This Duel King gave him the feeling that he was performing a set of super acrobatics that was extremely difficult and should not be imitated by non-professionals!

But this incredible set of acrobatics actually worked for him in a decent way, and even gave people the illusion that several systems could be linked to each other.

So what is he going to do now?

Saio subconsciously swallowed his saliva, a little nervous for no reason.

Until now, he was used to playing cards with people whose fate he could see through and who could predict the outcome. Playing cards with a person he could not see through like Yuei Vu made him very uncomfortable. Yet the other party didn't even play like a human being, he never knew what was going to happen next.

It felt like you were playing poker with someone. You had a four-of-a-kind, but then the opponent revealed five pieces of Exodia and delacred victory.

"The Spell Card Spiral Fusion' is activated!" Yuei Vu directly played this Gaia-specific fusion, "I fuse Arisen Gaia the Fierce Knight' in the hand and the Curse of Dragon, the Cursed Dragon' on the field!

The fusion condition is 1 Gaia the Fierce Knight' monster + 1 Dragon monster! Fusion Summon!

Sky Galloping Gaia the Dragon Champion! ! ! "

Yuei Vu thought that the shout of "Gaia~ya" should be quite powerful and full of voice, so Gaia's appearance was also very impressive. The knight sitting on the dragon's back seemed to be swooping down from the sky, stirring up thousands of feet of dust when he landed.

[Sky Galloping Gaia the Dragon Champion, ATK 2600]

"The effect of Sky Galloping Gaia the Dragon Champion'!" Yuei Vu had already drawn a card from the deck when he spoke, "If this card is Special Summoned, add 1 Spiral Spear Strike' from my Deck or Graveyard to my hand.

In addition, the name of Sky Galloping Gaia the Dragon Champion' can be treated as Gaia the Dragon Champion'. And the Gaia the Dragon Champion' fusion summoned by Spiral Fusion' gains 2600 ATK, also it can make up to 2 attacks on monsters during each Battle Phase! "

Saio's expression changed: "What the hell!?"

[Sky Galloping Gaia the Dragon Champion, ATK 2600 ATK 5200]

"There is also the effect of Curse of Dragon, the Cursed Dragon'!" Yuei Vu said, "If this card is sent to the GY: Target 1 Gaia the Dragon Champion' in mt Monster Zone; negate the effects of face-up monsters the opponent currently controls with ATK less than or equal to it until the end of this turn!

In other words, all effects of your monsters with attack power below 5200 are negated! "

The phantom of the cursed dragon appeared overwhelmingly, and the powerful pressure of the dragon clan enveloped the entire place. The World was oppressed by that power and suddenly became a lot darker.

Of course, the effect of The World could not be used during the opponent's turn anyway.

"Then the Continuous Spell Spiral Spear Strike' is activated!" There was another Spell Card in front of Yuei Vu, "As long as this card is on the field if a Gaia The Fierce Knight', Swift Gaia the Fierce Knight', or Gaia the Dragon Champion' on my field attacks a Defense Position monster, inflict piercing battle damage to the opponent!"

"Attack power 5200, multiple attacks, and piercing damage!?" The members of the association found it incredible.

"Hey, hey, wouldn't that mean Mr. Saio will?"

"Not only that." Yuei Vu continued, "Because the number of magic and trap cards in the graveyards on both sides has increased, the attack power of the Dark Cavalry' has further increased!"

[Dark Cavalry, ATK 3500 ATK 3700]

"Battle!" Yuei Vu said, "Dark Cavalry, attack Arcana Force XXI The World!"

The magic cavalry launched a desperate sprint, with complex black magic incantations sticking to the surface of the spear and whirling, and a shot with surging magic power hit "The World" hard!

The power of Arcana Force was violently shaken, the huge body buzzed, and the body was pushed back.

"But because of the protection of Hierophant's Wand', Arcana Force XXI The World' cannot be destroyed!" Saio gritted his teeth.

"But Battle Damage still needs to be calculated."

Saio, LP 2950 LP 2350

Then comes the attack of Sky Galloping Gaia the Dragon Champion!

The dragon knight Gaia was like a spear that breaks through space. The cursed dragon flapped its steel-like bone wings. The knight's spear was attached to the spiral flames and hit the "The World" hard!

Saio, LP 2350 LP 250

The powerful impact directly sent Saio flying away! He fell heavily to the floor, his body rolling hard on the ground.

"Lord Saio!" Many people screamed in surprise.

The faithful were in disbelief.

Saio-sama was actually beaten to the ground and rolled all over the floor?

Is this also part of destiny??

The remaining LP was 250, and the person has been hammered like 250 (1). No matter how you look at it, this is a rhythm that is about to get cold, right?

Saio stood up with black smoke all over his body, his hair disheveled, and his facial muscles had been severely distorted to a level that was almost impossible for humans to do.

Maybe this was a sign of being angry.

But it's not over yet!

"The effect of Spiral Fusion' the Gaia the Dragon Champion' summoned through this effect can attack monsters up to two times in one Battle Phase."

"Oops!" Many members of the association have begun to change their expressions. "If they fight again, Mr. Saio will"

The Dragon Knight has launched another charge!

The sharp sound of breaking through the air and the roar of the cursed dragon were like the horn of victory!

But Saio's pupils shrank and he shouted again: "Muda Muda! Arcana Force XIV Temperance'!!!"

The brand new Arcana Force monster jumped out of thin air without any warning. Its body stood in front of Saio like a shield, completely blocking Gaia's fatal charge!

Chapter 913: The Last Arcana Force!

Arcana Force XIV Temperance!

"The effect of Temperance!" Saio said as a card disappeared into the graveyard of his duel disk.

"During damage calculation, discard this card and I take no battle damage from that battle."

It had the same effect as the Kuriboh no, it's even stronger.

Kuriboh could only block damage when the opponent actively attacked, while "Arcana Force 14 Temperance" could block damage as long as the battle occurred, which was considered a little stronger.

Nowadays, as the times change, the types of hand traps become more and more diverse. Even Kuriboh, the originator of hand traps, is gradually being challenged

"Then set a card, I end my turn." Yuei Vu said.

"My turn."

Saiou stood up straight and glanced at the luxurious lineup of monsters on Yuei Vu's side, even with some lingering fear.

Duel King Yuei Vu what a terrible man. Not only was his fate impossible to discern, but his duel was also almost flawless, completely different from any duelist I had encountered so far.

Of course, he had to carefully hide these in his heart and not show them.

After all, fans were still watching.

"It's all in Saio-sama's plan!" someone said.

"Destiny is about to usher in its final chapter!"

""

Fans had so much confidence in him that Saio naturally could not give in. He could only continue to act like everything was going according to plan.

"Open the set card!" After Saio drew the card, he opened the trap on the field, "Trap Card Sixth Sense! Declare two numbers from 1 to 6, and the opponent rolls the dice!

If the result is one of the numbers I declared, I draw that many cards. Otherwise, send a number of cards from the top of my Deck to the Graveyard equal to the result! "

"The numbers I declared are 5 and 6." Saiou took a step forward and laughed ferociously, "Come on! Roll the dice!"

A huge white dice appeared out of thin air above Yuei Vu's field. Yuei Vu let it fall without thinking. The cube rolled on the ground and quickly stopped.

A big "6".

"Hahahaha! The number rolled is 6!" Saio laughed, "Therefore, I draw six cards from the deck!"

After drawing six consecutive cards in one breath, Saiou felt so happy that he couldn't help but laugh loudly: "Did you see it? Fate is still on my side, which indicates that the fate of this duel is also unchangeable!"

The members of the association also took this opportunity to brag, saying things like how awesome Saio-sama was.

But what made Saio most dissatisfied is that Yue Vu seems to be completely indifferent to this.

To be fair, all the Arcana Force monsters that he has summoned so far ended in positive positions that were beneficial to him. If he throws the dice casually, he will get a 6. Shouldn't normal people feel that it is extremely unfair at this time? Call him cheating?

Being completely calm like Yuei Vu made Saiou feel frustrated.

Especially the impatient expression on Yuei Vu's face was almost like saying: "What are you bragging about? Isn't it something everybody can do as long as they have hands?"

Because the luck value was too low, tossing coins and rolling dice was not Yuei Vu's strong point, so to a certain extent, he may be the nemesis to Saio.

This was similar to how the noble Blue-Eyes White Dragon could not be bound by the effect of the "Skill Drain"

"Is it finally here?"

Seeing a new card, Saiou's expression couldn't help but become even more exaggerated. His facial muscles were stretched as if he was trying to compete with his six-year-old senior who was already cold.

"The Field Spell Light Barrier' is activated!!!"

The venue changed, and a beam of incandescent light rose into the sky! The light curtain pushed out in all directions with Saio as the center, like turbulent waves, swallowing up the outlines of all things.

The "Light Barrier" card appeared in mid-air, but this time it didn't rotate and stayed in the right position.

"The Field Spell Light Barrier' will randomly switch between the upright position and the reverse position during the Standby Phase of each of my turns. If it ends up in the reverse position, all effects of the barrier will be negated." Saio shouted, "Of course it doesn't matter, because it's been decided a long time ago!"

Of course, it would be in the upright position.

"The upright position effect of Light Barrier!" Saio shouted, "Except for the Arcana Force' monsters, the effects of all monsters on the field are negated!" (Animation effect)

This was quite an anti-meta effect. If it were to be turned into a real card according to this effect, it would be a powerful member of the "Anti-Social" group. The effect of this card alone could kill a large number of meta decks in an instant.

Although Yuei Vu's lineup was extremely luxurious, it could not compete with the power of the Light of Destruction in the barrier. The monsters were restrained one after another, and even their colors dimmed a bit.

"Because his effects are negated, the attack power of the Dark Cavalry has dropped back to its original value!" Saio shouted.

[Dark Cavalry, ATK 2800]

"But the power of Sky Galloping Gaia the Dragon Champion' does not come from its own effect, but from the Spell Card Spiral Fusion'." Yuei Vu said, "So Gaia's attack power will not decrease."

[Sky Galloping Gaia the Dragon Champion, ATK 5200]

"What troublesome monster, let's get him out of the field first." Saiou waved his hand, "Activate the Spell Card Tribute to The Doomed"! Discard 1 card, then target 1 monster on the field; destroy it!

Disappear, Sky Galloping Gaia the Dragon Champion! ! ! "

Originally, with the "Dark Cavalry" on his field, Yuei Vu only had to discard one card in his hand to negate this effect. However, the cavalry was now restrained by the power of the Light Barrier, and he could only watch the invincible Gaia being blasted on the spot.

"In this way, the biggest trouble is solved." Saiou narrowed his eyes, "The next step is the final moment! Duel King Yuei Vu, you should be honored that you are the first human to witness it with your own eyes.

This great, ultimate light has the power to turn everything in the world into nothingness and guide mankind to the final chapter of its destiny! "

Yuei Vu: "?"

"With the effect of Makyura the Destructor' I just discarded, during this turn, I can activate Trap Cards from my hand!"

Saiou waved his hand, and two more cards appeared in front of him.

Saio pointed to the card on his left, "Trap Card The Material Road'!

This card can only be activated if there is a Level 4 or lower Arcana Force' monster in my Graveyard". (anime card)

Saio then pointed to the card on his right: "Trap Card The Spiritual Road'!

This card can only be activated if there is a Level 5 or 6 Arcana Force' monster in my Graveyard". (anime card)

Then he drew a card from his hand and raised it above his head.

"The Spell Card The Heaven Road' is activated!!!" (animation card)

The moment this card was raised, the entire space of the Light Barrier began to turmoil!

The white light beam shot straight into the sky, penetrated the building, and seemed to penetrate the clouds. It rushed out of the atmosphere and sank into the depths of the universe, as if it was echoing some great existence on the other side of the distant universe.

"This card can only be activated if there is a Level 7 or higher Arcana Force' monster in my Graveyard!"

The two-color light pillars also rushed into the sky one to the left and one to the right, as if echoing the soaring light pillar in the center.

"I offer these three cards as a sacrifice to heaven, calling upon the ultimate hidden power of Arcana Force, the end of all things

Arcana Force EX The Light Ruler! ! ! "

Chapter 914: The Light Ruler

The three light pillars merged into one, and the ferocious giant monster seemed to fall from the sky, blasting the earth into pieces.

The black monster of steel appeared in front of Saio. In the center was a rotating one-eye and two black dragon heads rising and falling, with overwhelming momentum.

[Arcana Force EX The Light Ruler, ATK 4000]

The power derived from the Light of Destruction, the new power of the mystery the ruler of light!

"Finally done!" Saio said with an arrogant expression and a ferocious face, "The Light Ruler cannot be Normal Summoned. It can only be Special Summoned through the effect of the Spell Card The Heaven Road'.

The Heaven Road', by sending itself along with 1 face-up The Material Road' and 1 face-up The Spiritual Road' on my field to the graveyard, special summon 1 Arcana Force EX The Light Ruler' from my hand, deck, or graveyard! "

Saio raised his hand and pointed at the huge monster: "The effect of Arcana Force EX The Light Ruler'! When this card is Summoned, different effects will be obtained depending on the upright or reverse position!

At this moment, another effect of the Field Spell Light Barrier was also activated! When I Summon an Arcana Force' monster, I can choose the upright position or the reverse position to apply the effect accordingly! "

After a pause, Saio sneered: "Of course, even if I don't use this effect, the result will not change at all. Because the fate has already been determined!"

Yuei Vu rolled his eyes, thinking that this was the first time he saw someone who could talk about their cheating so nice

"Battle!" Saio shouted, "Arcana Force EX The Light Ruler' attacks the Dark Cavalry'! The End of Ray!!!" "

The two heads of The Light Ruler raised respectively, and two beams of white rays hit the cavalry's body at the same time.

The power of the Dark Cavalry was greatly weakened by the "Light Barrier", and its attack power was suppressed back to the original value. It was no match for The Light Ruler.

The white ray suddenly pushed back the cavalry, and the majestic white light curtain exploded, crushing the cavalry and the horse under his crotch into pieces at the moment of contact.

Yuei Vu, LP 1300 LP 100

A wave of brilliance swept over him, and the impact of destruction seemed to choke his breath.

"The upright position effect of Arcana Force EX The Light Ruler! When an opponent's monster is destroyed by battle, add a card from my graveyard to my hand. However, the card added to my hand by this effect cannot be used during this turn." (animation effect)

A card popped up from the graveyard area and was drawn by Saio into his hand and revealed.

"I add Hierophant's Wand' to my hand."

At the same time, the huge barrier also began to react. Strong waves of light traveled around in the closed barrier, turning into energy and pouring into Saio's body.

"Another effect of the Field Spell Light Barrier! If my Arcana Force' monster destroys an opponent's monster by battle: I gain LP equal to the destroyed monster's original ATK!"

Saio, LP 250 LP 3150

And his offensive continued.

"Then I will use Arcana Force XXI The World' to attack Red-Eyes Darkness Metal Dragon!"

The world fired a laser light cannon, and the hot energy penetrated the dark steel dragon's solid shell. The real red eyes screamed sharply and were blown to pieces under the impact from the inside out.

Of course, because the dragon was in Defense Position, it did not cause damage.

But it could lead to the restoration of life.

Saio, LP 3150 LP 5950

"The last 100 LPs!" a member of the association said, "Saio-sama is just one point away from winning!"

"The Duel King's LP is already like a candle in the wind. As expected, as Mr. Saio said, his fate has already been arranged!"

"Sure enough, Lord Saio is confident! Such a step must be an arrangement of fate!"

This group of people has obviously been completely brainwashed into the shape of Saio. Every sentence they said included "Saio", "fate", or "destiny".

"Oh, it's coming soon, only the last bit is left." The reduction in Yuei Vu's LP seemed to give Saio his inflated self-confidence again.

Soon, the Light of Destruction will fill the Duel King's body, and he will become my own servant!

"Set two cards, I end my turn."

Yuei Vu moved his joints, stood up straight again, and looked at Saio.

"My turn, draw!" He showed the drawn card with no expression on his face, "Activate the Spell Card Card of Sanctity! Each player draws until they have 6 cards in their hand."

As Yuei Vu drew cards, his eyes swept across the white circular field around his feet.

This troublesome field must be dealt with first. Otherwise, any monster he summoned in this field would be "skill drained", and there was no way to counterattack.

And the solution was actually very simple

"The Field Spell Gateway to Chaos' is activated!!!" Yuei Vu stuffed a new field into the side of the Duel Disk.

It was the power of chaos that opened up the world, violently impacting the space of the barrier, tearing the barrier apart like countless vertical and horizontal cyclones. The realm of chaos swept across the place, occupying the entire space.

After all, this was still the GX era, and Field Spells were incompatible with each other. As long as a new Field Spell was activated, the existing Field Spell would be sent to GY.

Saio snorted in displeasure.

"When Gateway to Chaos' is activated, I can add 1 Black Luster Soldier' Ritual Monster or 1 Gaia The Fierce Knight' monster from my Deck to my hand!"

A card popped up from the deck and was revealed by Yuei Vu.

"I add Charging Gaia the Fierce Knight' to my hand."

Putting the card in his hand, Yuei Vu then pulled out another one: "The Spell Card Pre-Preparation of Rites' is activated!

Add 1 Ritual Spell from my Deck to my hand, and add 1 Ritual Monster whose name is mentioned on that Ritual Spell from my Deck or GY to my hand. "

He drew two cards in one breath, and the deck continued to be automatically shuffled one after another.

"I added the Ritual Spell Black Luster Ritual' and the Ritual Monster Black Luster Soldier' to my hand!"

With two new cards in hand, Yuei Vu played them without thinking.

"The Ritual Spell Black Luster Ritual' is activated! Tribute monsters from my hand or field whose total Levels equal 8 or more to Ritual Summon Black Luster Soldier'!

I used the Level 7 Charging Gaia the Fierce Knight and the Level 4 Evening Twilight Knight in my hand as sacrifices! Ritual Summon!

One soul leads the light, one soul leads the darkness, and the door to chaos opens here

Black Luster Soldier is coming! ! ! "

Black and golden souls intertwined and disappeared into the air, the ritual altar was lit, and the firelight lit up the sky. A chaotic cyclone erupted, and a golden beam of light fell down like it penetrated the sky and the earth. What fell from that light was the so-called ultimate swordsman!

[Black Luster Soldier, ATK 3000]

Chapter 915: Fate Has Been Decided!

Black Luster Soldier was summoned!

The blue-armored warrior boots landed gently on the ground, his cold expression was like cast iron, and a whirlwind of chaos lingered around him.

"Have you even brought out the legendary warrior?" Saiou frowned, but still just hummed, "He is indeed a powerful swordsman, but it is meaningless in front of the powerful ruler of light."

"The effect of Charging Gaia the Fierce Knight' is activated." Yuei Vu said, "If this card is Tributed, I can add 1 Black Luster Soldier' monster from the deck to my hand."

Another card popped out of the deck.

"I added Black Luster Soldier Envoy of the Beginning' to my hand."

The warrior who once dominated the environment, "Envoy of the Beginning", was added to his hand, and Yuei Vu immediately glanced calmly at the two set cards in the opponent's back row.

One of them should be "Hierophant's Wand", the card that Saio returned to his hand through the effect of "The Light Ruler" in the last turn. It had the ability to protect all cards on Saio's field from destruction within one turn.

But it was only limited to "destruction".

"The Black Luster Soldier' summoned using Evening Twilight Knight' as a Ritual Material can obtain new effects." Yuei Vu said, "Once per turn, I can remove a monster on the field from the game!"

With a wave of his hand, he pointed directly at the behemoth with claws and teeth on Saio's field.

"I remove Arcana Force EX The Light Ruler' from the game!"

The Black Luster Soldier raised the sword in his hand, and the whirlpool of chaos gathered in his hand as if being pulled, spiraling around the long sword he raised high. The sword energy went straight into the sky, and the moment the sword light fell, the space was also displaced!

Chaos Dimension Slash!

"It's within my expectation!" Saiou clenched his fist with his right hand, "Open the set card: Trap Card Reversal of Fate! This card can swap the positive and reverse position effects of 1 Arcana Force' monster on my field!

Based on this effect, I exchanged the forward and reverse position effects of Arcana Force EX The Light Ruler' to obtain the effect of the reverse position! "

Saio's voice instantly rose several degrees.

"The reverse position effect of Arcana Force EX The Light Ruler'!" he shouted, "When this card is targeted by a card effect, negate the effect that targeted this card, and destroy that card!

The Light Ruler roared! The two dragon heads were raised proudly together, the incandescent light beam rushed into the sky, and the sword energy of Chaos Dimensional Slash was torn apart instantly. The tyrannical light backfired, and the Black Luster Soldier was chopped into pieces.

Normally, most of the Arcana Force series had beneficial effects in the positive position and side effects in the reverse position, but The Light Ruler was an exception.

As the ultimate Arcana Force numbered "EX", The Light Ruler had a powerful positive effect regardless of its positive or reverse position.

"As expected of Saio-sama!" A younger brother immediately praised him again.

"There is a huge difference in LP, and Saio-sama's The Light Ruler is completely invulnerable! Even the Duel King is only a mortal after all, and cannot change his fate!"

[Arcana Force EX The Light Ruler, ATK 4000 ATK 3000]

"Every time The Light Ruler negated a card's effect, his attack power must be reduced by 1000 points." Saio hummed, "But even if the attack power is reduced, it is still comparable to the legendary Blue-Eyes White Dragon. It is completely enough."

Before he could finish speaking, Yuei Vu interrupted rudely: "I banish the LIGHT-attributed Charging Gaia the Fierce Knight' and the DARK-attributed Evening Twilight Knight' from the graveyard, and Special Summon this one from my hand

The heaven and earth are opened! Bring the souls of light and darkness as sacrifices to the Gateway to Chaos! The legendary strongest warrior

Black Luster Soldier Envoy of the Beginning! "

The figures of the knight and the black dragon appeared separately and disappeared from the field in an instant. The chaotic field rotates rapidly, and the majestic energy explodes like the world is opening up, and the swordsman who opens up seems to step out of the void!

[Black Luster Soldier Envoy of the Beginning, ATK 3000]

"Evening Twilight Knight's effect is activated!" Yuei Vu said, "If this card is banished from my Graveyard: I can add 1 Ritual Monster from my Deck to my hand.

I added the Ritual Monster Black Luster Soldier Super Soldier' to my hand. "

Yuei Vu drew out the automatically retrieved card from the deck and then launched another attack.

"Envoy of the Beginning's effect is activated!" Yuei Vu said, "Once per turn, one monster on the opponent's field is removed from the game! Remove the Arcana Force EX The Light Ruler' from the game!"

The swordsman opened up raised the sword in his hand, and the sword light distorted the space and swung down for the second time!

"Oh, it's the same no matter how many times you come! The effect of The Light Ruler is activated! Negate and destroy Black Luster Soldier Envoy of the Beginning'!"

The Chaos Dimension Slash was blocked again! The sword light of the distorted dimension shattered, The Light Ruler exploded with all his strength, and the Black Luster Soldier who had changed his vest was once again shattered by the backlash!

"But the attack power of The Light Ruler' must also be further reduced." Yuei Vu said.

[Arcana Force EX The Light Ruler, ATK 3000 ATK 2000]

"In addition, each time a Monster Card is sent from the hand or field to the GY, Gateway to Chaos' will place 1 Spell Counter on itself for each of those cards." Yuei Vu said, "I activate the effect of Gateway to Chaos'!

Once per turn: I can remove 3 Spell Counters from this card; and add 1 Ritual Spell from my Deck to my hand.

I added the Ritual Spell Super Soldier Ritual' from my deck to my hand! "

Yuei Vu immediately showed off the Ritual Spell that was retrieved.

"The Ritual Spell Super Soldier Ritual' is activated!" Yuei Vu raised the card above his head,
"Tribute monsters from my hand or field whose total Levels exactly equal 8 to Ritual Summon 1 Black Luster Soldier' monster!

At the same time, a card popped up in Yuei Vu's GY area.

The effect of Arisen Gaia the Fierce Knight in the graveyard When I Ritual Summon a Black Luster Soldier monster, I can banish this card from my Graveyard as 1 of the monsters required for the Ritual Summon!

So I used the level 1 Super Soldier Soul in my hand, and the level 7 Arisen Gaia the Fierce Knight in the graveyard as sacrifices! Ritual Summon

Black Luster Soldier Super Soldier, arrives! ! ! "

Another Ritual Summons, the third coming of the warrior of chaos!

The strongest warrior seemed to have gained further strength through continuous training. The swordsman descended from the sky, waving his long sword, and the sword energy spread across the field, creating a realm of chaos!

[Black Luster Soldier Super Soldier, ATK 3000]

After two consecutive shots were ineffective, the attack power of The Light Ruler has dropped below that of Black Luster Soldier!

"Battle!" Yuei Vu waved his hand directly, "Black Luster Soldier Super Soldier, attack Arcana Force EX The Light Ruler!"

The super warrior struck out the sword in his hand, and the sword energy that broke through time and space hit the body of the ruler of light, and the two-headed dragon let out a shrill scream.

And Saio's final trap was activated as expected: "Open the set card: Trap Card Hierophant's Wand! The destruction of The Light Ruler is nullified!"

"But battle damage still needs to be calculated."

Saio, LP 5850 LP 4850

Saio made a ridiculed face at: "Too weak, too weak! The so-called strongest warrior' is nothing more than this after all, and is completely vulnerable to the powerful ruler of light!

Okay, I think this should be your last attack method, right? It is indeed a very beautiful offensive, but it is simply impossible to shake the huge destiny just by human delusion"

"Oh? Really?" Yuei Vu smiled, "Well, since you claim to be able to see through fate, you must also know what my last card is, right?"

He pointed to the set card at his feet.

Saio: "!"

He had to admit that he was frightened and panicked for a moment.

"Hmph, it doesn't matter what it is." Saiou began to say harshly, "Fatesometimes doesn't let me see all the minor detailsbut that doesn't matter!"

The endpoint of destiny will not change, everything will turn into nothing under the Light of Destruction"

"Minor details? I understand." Yuei Vu nodded, "So it seems that you don't know why I have to use Black Luster Soldier to attack again and again?"

"?"

Saio sensed that something was not right in the atmosphere.

"I constantly summon new Black Luster Soldier to test your layout and defense, and at the same time consume your power. Every time you resolve my attack, the attack power of The Light Ruler' will decrease and you also have more trap cards in your graveyard."

"so what?"

"That will directly lead to this ending."

Yuei Vu waved his hand and inserted two cards into the Duel Disk.

"Set two trap cards onto the field."

Saio's eyelids twitched.

Why does he deliberately emphasize that these two are trap cards?

"I sent the Continuous Trap Magicians' Defense' on the field and two set trap cards to the graveyard as sacrifices to summon the Sacred Beast that controlled the trap

Uria, Lord of Searing Flames, summon! ! ! "

"Sacred Beast!?"

Saiou's eyelids twitched sharply, and his expression tensed instantly.

The flames soaring into the sky were like gushing volcanoes! The blazing plume of smoke broke through the venue, as if a fire dragon was twisting and rising into the sky, and red ashes were flying all over the sky!

The crimson dragon rushed out of the smoke screen, and with a condescending roar, it exploded with red-hot sound waves, sweeping across everything!

"SSacred Beast!?" Someone in the audience began to exclaim.

"Don't don't worry, it's fate, it's all fate! It's all within Saio-sama's plan!"

However, Saiohe was also stunned!

His expression turned extremely ugly.

The Duel King actually called out the Sacred Beast at this last moment Fate has not explained this kind of thing to me!

Having said that, it seemed that fate didn't explain anything to him in this duel

"Uria, Lord of Searing Flames gains 1000 ATK and DEF for each Trap Card in my Graveyard." Yuei Vu said, "Now, there are three Trap Cards in my graveyard, so the attack power is 3000!"

[Uria, Lord of Searing Flames, ATK 3000]

The Lord of Searing Flames roared proudly and defended Yuei Vu domineeringly as if it finally had a chance to go out for a walk and was determined to seize this opportunity to perform and ask for credit from his master.

So this Sacred Beast was actually very realistic. When it was first taken into the pocket by Yuei Vu, it was so firm in its stance of resistance, but somehow now it was so submissive, even trying to steal the limelight

Saio quickly calmed down.

There is nothing to panic about, even the Sacred Beast's attack power is only 3,000

"Quick-Play Spell Surprise Attack from Beyond!" Yuei Vu said, "During the End Phase, conduct a second Battle Phase. A monster which was Normal Summoned, Special Summoned, or Flip Summoned may attack again as if it were a new turn!" (animation card)

Yuei Vu waved his hand.

"Battle! Uria, Lord of Searing Flames attacks the Arcana Force EX The Light Ruler!"

The Lord of Searing Flames opened his mouth, spitting out flames, spinning pillars of fire, and his wings fluttered with flames.

"Muda!" Saiou shouted, "The Light Ruler will not be destroyed this turn!"

"Battle damage still needs to be calculated!"

"Ha, adding another 1000 points of damage won't hurt at all"

But before he finished speaking, Yuei Vu had already flipped his last set card!

"Continuous Trap Hyper Blaze!" Yuei Vu said, "Once per battle, when an attack is declared involving my Uria, Lord of Searing Flames', I can send 1 Trap from my hand or Deck to the GY!

Uria's ATK/DEF become the number of face-up Traps on the field, and in the GYs x 1000, for the rest of this turn! "

"The total number of trap cards on both fields and both GYs multiplied by one thousand!?" Saiou's expression twisted instantly, "Nani!?!?"

Traps appeared one after another, and were ignited by flames one after another! They burned quickly, like volcanic ash swirling around the gushing lava, and all the energy poured into Uria's body!

On Saio's side, there was "Sixth Sense", "The Material Road", "The Spiritual Road", plus "Hierophant's Wand" and "Reversal of Fate" that Saio just activated this turn.

On Yuei Vu's side, there was "Super Flame Wave" itself, as well as a trap card sent from the deck via its effect.

"The total attack power of Uria, Lord of Searing Flames has increased by seven thousand points!!!"

[Uria, Lord of Searing Flames, ATK 3000 ATK 10000]

"Attack power 10,000!!??" Saio was dumbfounded.

The flames in the Lord of Searing Flames's mouth suddenly grew several times stronger, and the pillar of fire pierced The Light Ruler with one blow! The power of destruction was instantly suppressed in front of the Sacred Beast, and the so-called ultimate Arcana Force was like a joke under Uria's power!

"Impossible impossible!"

Saio's face was twisted under the impact of the high temperature, and he screamed strangely at the top of his lungs.

"The fate is determined, it has been decided a long time ago. It is impossible for me to be

Ahhhhh! ! ! "

Saio, LP 4850 LP 0

Chapter 916: Muda Muda Muda!

Saio, LP 0

He lost.

The attack of Uria, Lord of Searing Flames, the ultra-violent flame wave penetrated the power of his last Arcana Force. Saio's whole figure was blown away like a piece of white feathers, and his body was flying in the air in the scorching storm. His eyes were wide open and his face was full of disbelief.

At this moment, Saio seemed to feel his innate and unique power slowly passing through his fingertips.

That was what he called "destiny", or the power he used to perceive and control the direction of fate. But now, with the attack of the Lord of Searing Flames sweeping through everything, he actually felt as if that power was being taken away from his body.

It was as if there had always been an invisible rope connecting him to his so-called fate, but now that rope seemed to be shaky.

Could it be said that fate has been shaken!? This terrifying possibility popped up in Saio's mind.

In the past, this thought would have only struck him as ridiculous.

The reason why fate was terrifying was that it was unshakable. Most prophets believed that fate was God's will, an established route planned by a being much greater than human beings. Everything in the world could only move along this trajectory, and everyone was a puppet on a string.

Even the prophets themselves could not change fate at will, they were just puppets who could clearly see the strings being pulled.

For example, the original Saio. He foresaw his fate many years ago, knowing that he would fall into the control of the evil, and that he would be destroyed sooner or later. But even so, there was nothing he could do but watch his prediction come true.

Even if history has been deflected Yuei Vu killed the Light of Destruction that resided in the Plasma card and caused changes in the world timeline, the fate predicted by Saio has still not been shaken.

Originally, Saio's talent was only to be able to glimpse the outline of fate. It was the arrival of the Light of Destruction that gave him the ability to rewrite fate, and at the same time, it also gave rise to his current twisted personality.

But this was supposed to be his exclusive ability as Saio!

However, based on the current situation, it seemed like

It seemed that fate had rebelled and gone to the Duel King! ?

It's impossible to say that the goddess of fate weighed his fate and felt that he couldn't beat Yuei Vu at cards, so she switched sides, right?

That's too ridiculous!

But no matter what, Saio lost. He was completely defeated, defeated head-on in his base camp, and had no power to fight back.

The worst thing was that he didn't even have time to do any bad things!

Is this the so-called "death before departure"?

No, to be more precise, he was beaten to death in his living room before he even had time to depart!

Saio was blasted away, his back hit the floor violently, and the white floor tiles were smashed into pieces.

He lay on his back and looked at the holed ceiling in the hall. Thick and pungent dust particles filled the air, and the white light that filled the hall seemed to dim.

He felt so unwilling nor could he be willing to accept this.

He had the mission to destroy everything and the ambition to devour the entire world. But as the big BOSS who was supposed to be strategizing behind the scenes, he was killed before he even had time to do a serious bad thing

As if this was not the end. When he lay on the ground and turned his head, he saw the abominable Duel King walking towards him unhurriedly, with a relaxed and casual smile on his face, and his gaze

unabashedly fell on the deck of cards in Saio's Duel Disk.

Saio's body shook violently.

Hey guy, you tore down my house, went to my living room, and beat up my people and now you want my deck!?

The anger seemed to turn into substantial energy, bursting out from his body in the form of white Light of Destruction. Saio, who was already extremely weak after the duel, was filled with anger and suddenly squeezed out strength from nowhere. The burst of energy shattered the surrounding floor into pieces!

How can this be true? It simply cannot be true!

If he, Saio, was caught by Yuei Vu when he went out to cause trouble, and his skills were inferior to others and he was beaten down, then he would admit it.

The key was that he was inexplicably beaten in his own home even though he had done nothing!

"Arcana Force" was his most important deck. Saio even thought that this deck was concrete proof of his control over the power of destiny. Even if he risked his life, he would never let it be taken by this shameless Duel King!

He, the Light of Destruction, has never suffered such injustice!

ZA WARUDO!

Like a final struggle, the remaining power of the Light of Destruction in his body exploded without reservation! The intense and scorching white light turned into a giant steel shadow, and "Arcana Force XXI The World" crashed down!

The sharp claws of The World tore through the space and fell straight towards Yuei Vu's face!

Clang!

With the crisp sound of metal collision, The World's attack was blocked by the arm in the dark armor, and bright sparks burst out in the air.

Masked HERO Dark Law!

Muda muda muda muda muda muda muda!!!

Saio shouted loudly, and the thick steel arm of The World fell down again!

Masked HERO Dark Law didn't give way even half a step, and deflected the blow with his backhand. The World's arm slammed to the side, causing waves of dust to rise into the sky.

Ora ora ora ora ora ora ora!!!

"The World has endless power, and a mere Masked HERO can't stop it!" Saio's voice has begun to deform and twist, "Tear this hateful Masked HERO and the Duel King to pieces!"

The World accelerated its offensive, its tentacles swiping more intensively. But the Masked HERO's counterattack was equally airtight. Both sides moved as fast as afterimages. Arms and arms collided intensively and continuously, and a large number of sparks flew away.

Until Dark Law seemed to make a mistake, The World stabbed with his right arm without even thinking.

Dark Law jumped back, and The World's arm suddenly stabbed into the air, piercing the wall with a "clang". And behind the Dark Law that jumped away, there was the Lord of Searing Flames with his mouth wide open and flames boiling in his mouth!

Hyper Blaze! ! !

Almost as soon as the Masked HERO jumped away, the Lord of Searing Flames launched an attack from behind him! The moment Dark Law got out of the way, the blast of flames followed, and The World had no chance to deal with it!

Even if he was known as the strongest one in the "Arcana Force" series, he was still not enough in front of the Sacred Beast. The Lord of Searing Flames's blow completely enveloped it, and the

world's solid outer shell was blasted with countless cracks by the torrent of flames. It cracked and shattered little by little until it turned into molten steel and was washed away along the light beam.

Uhhhhhhh!!! Saio's expression was twisted and he was knocked away again.

The blast of flames hit him unabated. Saio's whole body seemed to be on fire, his body was wrapped in flames and he was rolling rapidly against the floor tiles.

Seeing the leader howling and rolling around, all the association members were stunned.

Ah, this

Is this also an arrangement of fate?

At this moment, a sudden change occurred.

Even Yuei Vu didn't expect what happened next. The process was so fast that he couldn't even react immediately.

The powerful energy impact shattered the walls from the outside, golden lightning penetrated the hall, and a large number of stones rumbled and smashed into pieces on the floor.

The golden three-headed dragon descended from the sky! It brought lightning and strong winds and tyrannically blasted a gap outside the hall!

Thunder King, the Lightningstrike Kaiju!

It moved very quickly and its goal was very obvious.

Almost the moment it appeared, thunders struck in the direction of Yuei Vu. The Lord of Searing Flames and the Masked HERO beside Yuei Vu pulled back to block him, but they didn't expect that it was just a feint.

While Yuei Vu was distracted and resisting, the head in the middle of the Thunder Dragon King suddenly fell

and swallowed Saio who was rolling on the ground in one breath!

This time it was Yuei Vu's turn to be dumbfounded.

Chapter 917: This Is My Escape Route!

Thunder King, the Lightningstrike Kaiju!

Yuei Vu never expected that the three-headed dragon would dare to attack the city so arrogantly as it was never defeated in Antarctica last time.

The key was that it actually dared to steal his loot right under his nose!

he saw King Ghidorah suddenly bursting through the palace, falling with storm and thunder, and with lightning speed, swallowed Saio into its bloody mouth

then turned around and ran away!

Well, that's right, the king of monsters arrived in a domineering manner, but it had no intention of fighting at all. He couldn't even see its face clearly, and it was ready to turn around and run away.

The majestic Ghidorah may also be a little scared. After all, it was beaten badly by the sky dragon in the last fight.

As the saying goes, "Once bitten by a snake, you will be afraid of the rope for ten years". Last time, Ghidorah was sprayed with breath from the sky dragon's mouth, and it also had a psychological shadow. Now that it saw the "Uria, Lord of Searing Flames" behind Yuei Vu who looked so much like the Sky Dragon, it couldn't help but feel a bit timid.

Maybe when Ghidorah fell from the sky and saw the Lord of Searing Flames, it would shout in its heart

Do you think that just changing your vest can make me unable to recognize you?!

I am such a noble dragon that I don't want to fight with a nether god. Conquering the earth to dominate the universe and so on, I can think about it in the future. It is more important to save my life

Of course, Yuei Vu couldn't just let it run away.

Masked HERO Dark Claw was not powerful enough to fight against a Kaiju of Ghidorah's level, and it was obviously impossible to summon other high-level monsters in this flash of lightning.

The only thing he could count on was the Lord of Searing Flames who happened to be summoned in the duel just now and has not left the field yet.

Yuei Vu waved his hand directly

Uria! Shoot it for me!

The Lord of Searing Flames Uria has also been preparing for its attack. Although it was slightly delayed in turning its head to help Yuei Vu block Ghidorah's lightning, it quickly completed charging.

The Sacred Beast opened its mouth, and invisible waves erupted toward the sky, scattering the clouds in the sky!

The scorching flames penetrated the remains of the building, and the steel structures along the way were melted and dripped down. The churning fire dragon chased the three-headed dragon, and a super-high temperature line divided the sky into two, like a fallen angel bringing God's judgment on earth!

But the Lightningstrike Kaiju was not a weakling either!

The dark clouds gathered like iron filings that sensed the magnetic poles, and golden electric light erupted from east to west, one after another at the king's command!

In addition to the head that swallowed Saio, the other two heads of the Thunder King simultaneously sprayed out gravitational electric shocks! Lightning strikes and flames collided in the air, and impacts erupted centered on the contact point.

Pillars of fire pierced the streets below, lightning strikes shattered buildings, and endless dust fell.

Ghidorah hurriedly fought back as he was escaping, perhaps not using all his strength. On the surface, it seemed that the Lord of Searing Flames had the upper hand this round.

From the results, although the repulsive force of both sides was strong, it did not cause substantial damage to the thick-skinned and thick-skinned Kaiju after being mostly offset.

On the contrary, the aftermath of the powerful impact hit Ghidorah and unintentionally added kinetic energy for the three-headed dragon. The speed of the big guy suddenly doubled in mid-air, and it took advantage of the power of this "Hyper Blaze" to accelerate away and disappear in mid-air.

Seeing this scene, faced with this situation, Yuei Vu seemed to have imagined in his mind that Saiou, covered in bruises and bleeding, was lying on Ghidorah's head, shouting at him

Hahaha, Yuei Vu, you didnt expect it, did you? This is my escape route!

If this was really the escape plan planned by Saiou, then Yuei Vu had to admit that Saiou may be hundreds of steps ahead of him literally.

He estimated that at Gidorah's speed, he should be almost in the atmosphere now

Realizing that the opponent would just run away without fighting, the Lord of Searing Flames immediately flew out and chased him without thinking. A long red and domineering dragon rushed out after Ghidorah's back with great momentum.

Then he came back in a few seconds, wagging his tail dejectedly, shrinking his head, and looking at Yuei Vu.

The Thunder King was originally flying very fast, but Uria himself fueled the fire and fired this shot, which made it even faster. It couldn't catch up at all, and it disappeared in the blink of an eye.

Yuei Vu rolled his eyes at it: "It's really useless. You're still a Sacred Beast, yet you can't even chase Sparkling Plane, so what's the use of you?"

Sparkling Plane was the nickname given to Ghidorah by the majority of netizens because it was covered in gold and always liked to discharge electricity, making it look so bright and shiny.

If it's Osiris, Sparkling Plane would have been killed long ago!

(Sky Dragon: Thats right!)

Uria lowered his head: "Ouch"

But Yuei Vu was not inclined to think that this was Saio's own prior arrangement.

First of all, Saio looked extremely unwilling and angry when he was defeated, and it didn't look like he was pretending. He had even summoned "The World" in a desperate attempt to fight back.

In addition, Yuei Vu also felt that the Thunder King should not be in Saio's hands if it was, he should have taken out this powerful killer weapon during the duel.

And if this was really the escape route arranged by Saio, then it would be too miserable to be eaten alive by Ghidorah

So Yuei Vu believed that this was a third party besides himself and Saio.

A person or organization conquered King Ghidorah who had awakened from the frozen state in Antarctica, and became an unidentified force in the chess game.

Saio may not have expected the intrusion of such a mysterious player.

The duel was over and things had basically settled. Department D and Monarch have been belatedly arriving.

No, it could not be said that it was too late. Perhaps it should be said that their timing was just right and they happened to catch up with the part of the work that they were responsible for.

Such as sweeping the floor, closing the stall, and wiping buttocks.

My luck is too bad. Yuei Vu shook his head, his face full of regret.

"Yes, we are only a little bit close to catching that guy." Dr. Serizawa walked to him, patted his shoulder, and comforted him, "But you have already dealt him a heavy blow, and his Society of Light has been destroyed.

From my point of view, I think this is a success, Mr. Yuei Vu. Although Saio's whereabouts are unknown now, he has also been seriously injured"

Yuei Vu rolled his eyes: "I mean it's a pity for his deck."

Serizawa: ""

Logically speaking, Yuei Vu didn't really care about the Society of Light. He never took these minions to heart from the beginning.

From the very beginning, his target was Saio Takuma, or to be more precise, it was the Light of Destruction in his body

And he didn't mind collecting a deck of "Arcana Force" by the way.

Fujino interjected: "I thought Mr. Yuei Vu always scorned this kind of deck that relies on luck to determine the direction?"

He knew that President Kaiba looked down on gambling cards very much. In this regard, Kaiba has also openly expressed his appreciation for Yuei Vu because Yuei Vu was obviously not compatible with gambling cards.

And Arcana Force unfortunately was a whole set of gambling cards.

Yes, I do hate it. But that doesn't stop me from owning it, right?

Yuei Vu put his hands into his trouser pockets and spoke in a matter-of-fact tone.

President Kaiba still hates the Duel King, but do you think he will fire me?

Fujino:

Chapter 918: Shooting Star

The actual and spiritual leader of the organization was blasted in a face-on battle, and finally, he was eaten alive by a three-headed dragon that sprang out of nowhere. That made the members of the Society of Light who firmly supported Saio could not help but collapse in belief.

WTF? Saio-sama was eaten like this?

What about the promised destiny? Where has the goddess of fate gone?

It's just that all the members have been brainwashed by the power of the Light of Destruction. Even if their faith was so impacted, the brainwashing was not so easy to remove. Someone was even looking for excuses.

"Maybe this is part of fate?"

"Saio-sama must have known that things would develop like this! I understand, this is actually his escape route!"

"Saio-sama is awesome!"

""

To be honest, Yuei Vu didn't expect them to continue to bootlick Saio. He could only admit that Saio's training skills were in place, and the loyalty of his followers was off the charts.

But after all, it was already a leaderless organization. Without the leadership of Saio and the Light of Destruction, the remaining people were nothing to worry about, and Yuei Vu didn't bother to ask any more questions.

Regarding the final decision-making power and the ownership of the case, he believed that Department D and Monarch were still noisy enough, and Yuei Vu was too lazy to get involved in these matters.

Anyway, after Saio ran away, what was left was just a bunch of trash. If they couldn't deal with these trash, then these departments could really be disbanded.

In fact, Saio may not be without merit as a BOSS.

In the original animation, he brainwashed so many students, and all of them were loyal to him and didn't even dare to say a word of doubt. Especially Asuka-san, when the brainwashing was at its most severe, the sparkle in her eyes was gone, and she was just like a puppet of Saio, doing whatever he said.

However, facing such a sweet-looking and obedient servant, our BOSS focused on Yuki Judai all day long, thinking about his plan to destroy the world.

The work he asked Asuka to do was nothing more than running errands, passing messages, occasionally playing cards to win over new people, etc. It was almost as good as the integrity of Mr. Ma who brainwashed Anzu

However, Saio might not be upright, but he really had no intention of doing so.

After all, unlike Mr. Ma, Saio's negative personality was derived from "The Light of Destruction" deep in the universe. As the negative energy that claimed to destroy the universe, the Light of Destruction's brain capacity may be completely filled with impulses such as destruction and destruction, leaving no room for anything else.

If Mr. Ma was like Liu Xiahui, an upright gentleman who stayed calm even when a naked woman sat on his laps, then Saio may be closer to Sun Wukong after casting a full-body binding technique to hold the seven beautiful fairies, making them unable to resist, he actually went to steal peaches

The matter here came to an end, and Yuei Vu took his leave for the time being.

Originally, according to President Kaiba's request, Yuei Vu had to go back to Domino to report to him after he was done. But Yuei Vu decided to skip this step on his own initiative. He just made up a reason why he urgently needed to take action and rushed back to the academy instead of meeting the president.

He could tell with his butt that the President couldn't care less about the results of his operation. The so-called report was false, catching him to play cards was true

So Yuei Vu decided not to give him this chance and flew back to the academy directly.

I'm so witty. JPG.

Of course, President Kaiba may be angry, but just be angry.

Anyway, its not once or twice.

As he told Fujino before, the president hated the Duel King, but he still had to have the Duel King.

The trajectory of destiny may have shifted, but the wheel of history continued to move forward.

To some extent, Saio may be right, some things were really meant to be.

The entire universe was like an extremely large and extremely sophisticated computer program, or dominoes. The program operated, the dominoes fell, events happened one after another, and everything was destined.

The starting point of everything only required the input of a variable, or a gentle push.

Or it could be a rocket that soared into the stars six years ago, carrying a cosmic hero sketched in a child's tender strokes.

In six years, fate went round and round and found its destination.

A meteor cut through the night as if falling from the stars, dragging a beautiful and eye-catching long trail of flames, like an accurately guided missile, clearly knowing its route and target.

Duel Academy.

Dazzling light pierced the sky, and the firelight illuminated most of the night sky. The momentum was quite magnificent and astonishing. Many teachers and students in the college who were still awake witnessed this scene, and many people clasped their fingers and closed their eyes to make a wish to the shooting star that might not be seen in a century.

Among those who were awake was Yuki Judai, the eldest brother of Duel Academy and the number one troublemaker.

"Wow! Look, Sho! It's a shooting star. What a big shooting star!" Judai excitedly pulled Sho's arm.

Their other roommate, Koala Brother Maeda Hayato, had graduated at the end of last semester and was personally recommended by Professor Chronos to join the Industrial Illusions to print cards eh, to be a card designer.

So now he could only grab Marufuji Sho and go out to explore in the middle of the night.

Sho couldn't wait to take a step and yawned three times. He was already suffering from neurasthenia due to being tortured by his mentor Native Noragami, and his mental state was

seriously poor. He couldn't sleep in the middle of the night and had to be taken out by his elder brother to explore. His whole body was in bad shape.

But seeing the shooting star did cheer him up a little.

"Indeed." Sho Marufuji thought for a while, "You have to make a wish when you see a shooting star, right? It is said that making a wish is particularly effective at this time"

"Is that real!?"

Judai's eyes lit up, he quickly clasped his palms together, and closed his eyes with a pious expression.

"Then, I want the canteen to have fried shrimp every day"

Marufuji Sho was ashamed: "Aniki, your wish is too wasteful, isn't it?"

"Really? Then I'll change it."

Judai was easy to talk to, so after thinking about it, he immediately changed to another one.

"The one just now doesn't count! I want a new hero, who is as handsome and powerful as Yuei Vusensei's Masked HERO'!"

Judai was concentrating on making a wish when he suddenly heard Sho Marufuji speak again this time his face turned pale and his voice was distorted: "AAAniki, something seems not right.

That meteor is it coming towards us?? "

"Be quiet Sho, I haven't finished my wish yetNani!?"

Judai's eyes widened, and he was astonished to see a ball of blazing flames, dragging the tail flames that tore through the night, hitting his head accurately and straightly!

If you were hit head-on by something like this, not even the ashes would remain, right?

"OMG!"

The two quickly turned around and ran away.

boom! ! !

The scorching ball of light hit the ground, and the dazzling light stung their retinas. Their vision was paralyzed, followed by their hearing, and all their senses were shut down in turn.

Judai was pretty sure he had been hit, but surprisingly the flames and impact didn't hurt at all, instead, they felt soft.

His vision returned to functioning within seconds.

Judai found himself in some kind of strange space, surrounded by nothing but beautiful colorful auroras.

A pair of eyes appeared in the space in front of him, followed by a round blue crystal it seemed to be placed right on the visitor's chest.

A man whose whole body was bathed in golden light and whose entire body was covered appeared in front of him. It looked as if his body was entirely made of photons.

Judai was a little confused: "Whatwhat happened? Am I dead?"

"No." The man of light spoke, "I finally found you Yuki Judai!"

Chapter 919: Call My Name!

Marufuji Sho didn't understand what happened at all. The strange unfolding tonight was really beyond his ability to understand.

He first saw a shooting star while exploring the mountains with Judai. He didn't know whether his Aniki's wish was too much, but the meteor actually hit them both.

The meteorite that fell from such a high place and was still burning exploded less than a few meters behind them. Normally, Sho Marufuji felt that he must definitely die, but when he came back to his senses, he realized that he was still standing there, nothing happened.

It's just that his Aniki was gone.

Sho was confused for a long time. It was not until he turned his head and saw the red sphere suspended in mid-air and the outline of a supine figure faintly visible in the light sphere that he finally guessed it.

His Aniki seemed to have been sucked into the sphere somehow.

Sho Marufuji panicked and quickly turned around to find a professional for help. But before he could even run a few steps, he suddenly felt the ground shaking beneath his feet, the trees on both sides shaking violently, and fallen leaves flying and falling.

Sho's heart was ringing with alarm bells. He forced himself to muster the courage to turn his head, and suddenly he saw another ball of light swooping down in the dark night. This time it was blue, and the faint blue light dragged out a twisted trajectory in the night, like a death bringer.

"OMG!"

Sho Marufuji ran away.

Who did our academy offend tonight? Why are meteorites lining up to come to my door?

Boom! ! !

There was another violent vibration, and the entire island seemed to sink a little. Waves of dust rose into the sky, transparent blue flames swept across, and something wrapped in the cold light descended on the island.

Marufuji Sho rubbed his eyes and couldn't believe what he saw in front of him.

The space seemed to be distorted, and a huge black giant as tall as a building stood among the dense forests of the island. He towered like a chicken among the trees, and the space around him was constantly distorting, making his image look blurry and flickering, like a TV screen when the signal connection was poor.

Radian, the Multidimensional Kaiju!

As mentioned before, the designs of monsters in the Kaiju series were all derived from various famous large creatures in tokusatsu works, and Radian was naturally no exception.

Radian's prototype design came more from the alien Gyaos in the "Godzilla 2000" movie setting. It was not officially adapted into the movie, but the name may be familiar to most people.

But it had another source of inspiration, a cosmic being who was more familiar to tokusatsu viewers.

That was Baltan, a line of space ninja aliens from Planet Baltan. From grandparents to grandchildren, they were almost all executed by M78 civil servants.

Of course, whether it was Gyaos or Baltan, Sho Marufuji would definitely not recognize it. He was so frightened that he didn't dare to turn around and run away.

Fortunately, someone soon appeared and attracted Radian's attention.

Two tail flames pierced the night sky, and the silver-white battleship flew out spraying flames. The aircraft locked on the target, the main gun and the auxiliary gun barrel locked on the target at the same time, and several laser blasts hit Radian's erratic and flickering body at the same time.

B.E.S. Big Core MK-2!

It's the academy's security force. The security forces patrolling nearby had already rushed here when the red light ball fell, and launched an attack as soon as they discovered the unknown monster invading the academy island.

This "B.E.S. Big Core MK-2" was the ace summoned by the captain of the team relying on the black technology Duel Disk of Kaiba Corp!

It's a pity that this ship looked handsome and majestic, but in fact it was completely useless. Radian glanced disdainfully, flipped his palm, and a wave of dimensional distortion immediately captured the high-speed flying battleship, and immediately exploded the battleship into pieces.

Other members of the team also immediately joined the battle. Everyone's Duel Disks all activated the actual combat mode, and each summoned a high-quality materialized monster to fight. Things flying in the sky, crawling on the ground, dinosaurs, birds, battleships, cavalry, and charging warriors all appeared.

The duel monsters quickly fought against the villain from another dimension, but the difference in strength was obviously very different.

Their attacks obviously did not pose any effective threat to this powerful alien Kaiju. On the other hand, a casual blow from the Multidimensional Kaiju could cause huge damage, exploding a large area along the woods and knocking all the monsters off their feet. They turned into pieces and disappeared.

They won't last long.

...

Yuki Judai was floating in the red ball of light, staring blankly at the human figure bathed in golden light that appeared in front of him.

"Um... I'm sorry, do we know each other?" Judai scratched his head.

“Of course.” The other party replied in the affirmative, and then said, “Judai, we need your help.”

“My help?” Judai pointed to himself.

“That’s right. The confrontation between good and evil in the universe has reached a critical juncture. The war is about to begin... no, it has already affected the Earth.

But evil is too powerful, and we need righteous, kind, and powerful warriors to fight against evil. So we need your power, Judai! ”

Judai was stunned for a moment: “What? Who fought with whom on Earth?”

“The Darkness of Justice that defends the order of the universe, and the Light of Destruction that tries to subvert everything and destroy the universe to nothing!”

“Alien!?” Judai was shocked and waved his hands repeatedly, “Then you have found the wrong person. I don’t have that ability.”

Judai: I only play cards, so how could I be involved in something as high-end as Interstellar War?

As a result, the other party became anxious and quickly said: Boss, don’t belittle yourself, we are looking for a card player!

“The duel you learned is the key to the battle!” the other party explained, “we just need strong duelists to help us win this battle!”

Judai blinked twice and caught up with the rhythm.

Oh, I just need to play cards with the aliens.

You should have said that earlier, I thought I would drive a space battleship or a mobile suit and carry a lightsaber up there to fight the aliens...

But then he was confused again: “If you are looking for a powerful duelist, why don’t you find Yusei Kensei? He is the most powerful duelist in the world!”

“Because duelists we need not only be powerful but also have the ‘darkness of justice’ in their bodies! Only people with the darkness of justice can fight against The Light of Destruction!”

Judai didn’t understand it, but he still roughly understood the meaning: “Oh, you mean it’s not just about being able to duel? Then it has to be me, right?”

“That’s right.” The other party seemed pleased that Judai had finally caught up with the rhythm, “Then now is the moment when your power is needed.”

As he spoke, he stretched out a golden hand and pointed to the side.

Following the direction of his finger, Judai could barely see the tall Multidimensional Kaiju walking among the woods through the light ball he was in, fighting fiercely with the monster summoned by the academy's security guards.

“This is... Duel Academy!?” Judai became anxious, “Ah, then we have to help them!”

“That's right! That's why I need your power, Judai! Lend me your power, and we will defeat the evil enemy together!”

Judai nodded in agreement without thinking: “Okay, okay, what should we do?”

The situation was urgent. After receiving Judai's consent, the mysterious man didn't explain much and immediately spread his arms. The golden light all over his body swelled up and instantly broke into countless light spots.

But the light spots did not dissipate, but quickly gathered and reorganized into a small metal sphere in Judai's hand.

It was a metal sphere that looked like it had been around for some time, like a palm-sized flight capsule. Whatever material it was made of, it had very high quality. Although the surface seemed to be a little faded, the overall appearance was still quite complete.

There was also a line of words printed on the surface of the sphere.

Judai squinted his eyes and read out: “Ba...Ba Co?”

He quickly realized that part of the middle was blocked by dirt, and quickly reached out to wipe the dirt away, only to see clearly: “...Kaiba Corp!?”

He finally remembered.

Six years ago, when he was still a child, President Kaiba Seto stood in front of all the children around the world and made an impassioned speech, sincerely inviting them to use their imaginations to create the duel monsters of their dreams. Kaiba Corp would launch the ship into the depths of the universe to receive special fluctuations.

After so many years, there was no news. Judai always thought that his design was not adopted after all. Although he felt regretful, it was not surprising, and he gradually forgot about it.

He never expected that the package he sent back then... would now be back!

And in the way he could only dream of!

Thinking of this, Judai looked at the small space capsule in his hand with burning eyes, and the duelist's soul burned brightly.

This was his creation! Designed by himself!

The most powerful and perfect hero in his dream, the brand new hero that only belonged to him!

The excitement was hard to contain. He opened the cabin without thinking – as if waiting for him to open it, the door opened without any obstruction.

There lay a deck of cards quietly inside, traveling through time and space and across the stars and back to this blue planet, as if it has been waiting for the right owner for so many years.

Without thinking, Judai directly inserted the deck into his Duel Disk. The Duel Disk was activated immediately, and the card deck shuffled automatically in the slot. Countless light particles flew out of the deck, and the glowing human figure appeared behind him again, with a blue crystal shining brightly on his chest.

“Call my name, Judai!”

Judai raised the shuffled Duel Disk.

“Elemental HERO——

——NEOS! ! ! ”

The fiery light ball exploded instantly! The surging energy was overwhelming, like a torrential river sweeping along the woods and mountains, affecting the entire island in a matter of seconds!

An unprecedented brand-new hero rushed straight out of the sky-high pillar of light like a cannonball hitting the Multidimensional Kaiju’s jaw!

Chapter 920: Bet On The Fate Of This Planet!

Bang!

Like a loud bang from a blunt object, a figure wrapped in a golden afterimage slammed into Radian's jaw. A golden halo of light erupted from the chin of the Kaiju, and the black giant stumbled back, falling to the ground with the sound of landslides and ground cracking.

The dazzling golden light gradually dissipated, and a brand new hero appeared in mid-air.

He had a silver-white body with red stripes, and the round blue crystal on his chest looked like a smart eye.

A brand new warrior, a cosmic superman from beyond the sky

Elemental HERO Neos!

Yuki Judai jumped down from where the red light ball disappeared and landed on the lawn. He waved his arms toward the sky excitedly: "Neos~ Please!"

The Multidimensional Kaiju regained his strength and stood up again. His scarlet eyes flickered, but there was a clear hint of ruthlessness in his eyes.

Obviously, he came to Earth chasing Neos. The two sides represented good and evil, light and darkness, absolutely opposing camps, and the contradiction was irreconcilable.

Well, although the alien ninja looked dark and ghostly, he actually represented light. When Neos appeared, his whole body was shining with golden light that blinded people, but in fact he represented darkness.

Enemies are extremely jealous when they meet, and there is no need for words.

Radian flipped his palm, and some kind of weird wave suddenly erupted. Neos's body turned into an afterimage, and he moved sideways in the air. His original position was swept by the wave almost in the same second, and the space folded and the dimensions were distorted.

Neos's figure suddenly disappeared. There was a muffled "bang" sound in mid-air, and at the same time, a milky white hemispheric barrier erupted it was a loud noise that broke the sound barrier!

The silvery white afterimage charged in a straight line. Radian's huge palm dragged strong wind pressure and tried to block it, but Neos deftly avoided it.

Neos appeared in front of Radian as if teleporting and a series of combination uppercuts hit the Kaiju's cheek.

The Multidimensional Kaiju's body became even more erratic as if this series of heavy punches had almost completely cut off his already poor signal source. His dark body was blurred like a mosaic, and he staggered back, his huge feet plowing up the roots of the trees behind him.

Neos took advantage of the victory to pursue, but he did not expect the Kaiju's counterattack to be so fast, and its huge slap swung out as if it appeared out of thin air.

He didn't have time to dodge, so he had to raise his arms to protect his head in a blocking motion. The Kaiju's huge slap fell on his arm, and transparent airwaves exploded with a roar.

Neos's body swayed slightly, but he still caught it tenaciously. But before he could fight back, Radian punched him in the chest again. The transparent air ring exploded in the air, and the white afterimage flew out diagonally downwards, and shot into the ground with a bang, looking like projectiles being fired from the barrel of a gun.

"Neos!"

Judai quickly approached the past.

The cosmic superman shook his head. Although he seemed to have fallen a bit hard, it seemed to be nothing serious.

"I can't beat him in this state, I have to use all my strength, Judai!" He stood up and said seriously, "Lend me your force", Judai!"

"Eh?" Judai blinked, "Ah, I have no problem, but what should I do"

"Just leave it to me."

Neos took a deep breath and stepped forward again, folding his hands in front of his chest.

The golden light all over his body rose again, and his body was completely wrapped in the dazzling light. Then Judai watched in astonishment as his figure continued to grow and grow as if he was about to break through the sky.

He didn't stop until he reached the same size as Radian.

Judai's eyes widened with joy, and it took him a while to hold back a sentence: "Oh oh oh, you are so handsome!!!"

"But this state can't last long." Neos clenched his fists and explained to his master, "With the current state, it can only last for about three minutes. We must fight quickly."

"Oh, that's right." Judai nodded, "Come on then!"

Behind the scenes, Sister Yub was unhappy. She folded her arms and floated behind Judai, commenting on the huge Neos: "Oh, it's flashy, but big size does not directly represent strength.

Well, as a monster spirit, this guy does have one or two tricks"

Unfortunately, Judai didn't seem to hear what she was saying at all, and was still waving his fists and shouting like a cheerleader: "Neos, come on!"

Yubel: ""

Sister Yub didn't say anything, but her eyes became obviously unhappy when she looked at Neos who was fighting with the Kaiju.

She has been by Judai's side for so many years. Of course, Yubel also knew that Judai personally designed the Neos and launched him into the depths of the universe.

She could see that this new Elemental HERO was extraordinary and contained infinite possibilities. Of course, she was happy that Judai could have such a powerful right-hand man, but

the premise was that he never threatened her position!

Sister Yub has already made up her mind.

When I go back tonight, I have to make a three-part agreement with this newcomer to tell this cosmic person who is the number one spirit around Judai!

Facing Neos who suddenly exploded into the same weight class as himself, the Multidimensional Kaiju finally couldn't resist it.

The chest and abdomen were hit by Neos's uppercuts continuously, followed by another "Double Peak Piercer" on the forehead. The Kaiju was completely dizzy and couldn't find its way.

Neos then grabbed his head and hit the Kaiju's face with a powerful knee strike with a thunderous roar. Finally, he grabbed the Kaiju's head and threw it to the ground with a beautiful over-the-shoulder throw.

The entire island trembled, a large area of trees fell down, and the dust stirred up like the curtain wall of a tsunami.

Radian fell to the ground, seemingly losing the strength to struggle. His body blurred, there was a violent flash, and the space he was in began to rotate and twist.

The entire huge body of the Kaiju was shrunk in, turning into a small black sphere, which seemed to be pulled by an invisible force and flew into the air.

Judai saw a slight distortion in the space above his head, and for the first time, he thought he was dazzled. He rubbed his eyes, but he didn't expect that the distortion would become more obvious.

A spaceship appeared in the sky out of thin air. It seemed that it had always been parked there, but now it had removed its optical camouflage and appeared openly in front of everyone.

The disappeared Radian was absorbed into the interior of the spacecraft.

"UFO?" Judai was extremely looking forward to the unexpected unfolding, "Will there be aliens from space!?"

There really was. A circular gap opened at the bottom of the spacecraft cabin, a beam of light was dropped, and something between a machine and a living thing was dropped.

It's wearing some kind of special alien gear on its arms. Although Judai had never seen alien technology, judging from the five grids and obvious slots, he had reason to believe that was the alien version of Duel Disk

"Is there one on this planet too? Warriors of the Darkness of the Universe." The alien spoke, lifting the Duel Disk as if he were playing cards, "Come on! Bet on the fate of this planet!"
