

I Play Yu-Gi 921

Chapter 921: Neo Space!

Two meteors fell, and Neos and the aliens fought on the island. This huge movement attracted the attention of the entire island, and the screwballs in the stronghold were also no exception.

Online players rushed to the scene as soon as possible. Players who were not online quickly got the news through various channels such as the forum or friends and went online quickly, and came to the front row to watch.

Professional cameraman Miss Yuehua was still in bed when she suddenly received a call saying that something important had happened and she had to get up. The streamer was so frightened that she jumped out of bed and went straight to the game cabin in her pajamas.

Then as soon as she went online, she saw the daily life of Ultraman beating monsters.

Miss Yuehua quickly opened the live broadcast room and logged into the game, and the forum was quickly detonated by the news. Many players came over after hearing the news and prepared snacks and beverages to watch this historic moment through live broadcast.

The debut of Ultraman (Yu-Gi-Oh version)!

This was not a show you could watch every day.

Unfortunately, by the time they arrived, the brawl of spirits seemed to be over. The Multidimensional Kaiju was thrown to the ground by the famous Elemental HERO Ultraman. It groaned, unable to get up for a few seconds, and soon disappeared with the distortion of the dimension.

Immediately after he disappeared, a spaceship appeared, and the figure was cast down along the light beam and landed on the ground.

Looking at the alien jumping in front of Judai and arrogantly opening the duel disk, the players immediately started discussing.

Hey guys, aliens from space also play cards?

In the world of Yu-Gi-Oh, those who don't play cards are all idiots.

In the anime, the first battle after Judai gained Neo Space power was to fight aliens too, isn't it? Its just that the opponent was a scumbag at power level 5. How come this alien from space looks like a duel master?

Even M78 civil servants have to play cards when running a business

As expected, Elemental HERO Ultraman quickly de-enlarged and landed next to Judai.

Judai! The next step depends on you!

"Eh? Rely on me?" Judai pointed at himself in confusion, and then pointed at the opposite side, "Do you mean you want me to duel with that guy?"

"That's right!" Neos nodded repeatedly, "The enemy is The Light of Destruction', an evil force from the universe that wants to destroy everything! Now they have set their sights on Earth. If they are not defeated here, the consequences will be disastrous!"

Oh oh oh, you mean to protect the Earth, right?

It was said that every boy has a heroic dream hidden in his heart, especially for children like Yuki Judai.

Once he heard that this was a life-threatening situation for the whole world, Judai became even more energetic and eager to fight the aliens.

Then leave it to you, Judai. I believe in you.

Neos nodded to him, and then his body turned into countless golden light points and dissipated, all of which disappeared into the deck loaded on Judai's wrist.

Okay! Judai was eager to give it a try, Then come on, the guy from outer space!

Duel! x2

Judai, LP 4000

Alien, LP 4000

Im the first to go, draw! The alien took the initiative.

Since we knew that the opponent used Kaiju, there was no need to say more about the starting move.

The Field Spell Kyoutou Waterfront is activated!

The topography of the duel arena changed instantly. All the surrounding jungle trees disappeared, steel buildings soared into the sky, and waves crashed onto the coast.

By the way, why is Tokyo Bay the location of the aliens? The players chatted one after another.

"Who knows, maybe aliens also have a special liking for Tokyo. The monsters and aliens in tokusatsu like it there. Have you heard of "The Day Tokyo Sinks"? Aliens all love this."

"Set one monster onto the field." The alien drew three cards in one breath, "Set two more cards onto the field, and my turn is over."

What will the duel of aliens be like? Im so looking forward to it! Judai was still excited.

My turn, draw! Judai drew a card, and then quickly revealed one of the cards in his hand, The Spell Card Take Over Five is activated!

Send five cards from the top of the deck to the graveyard. "

Five cards were drawn out in one breath and sent to the GY one after another. The tomb area in Judai's Duel Disk quickly lit up with golden flashes.

One of the cards I sent to the graveyard is Dandylion! He said, When Dandylion is sent to the graveyard, two Fluff Tokens are Special Summoned on the field!

Fluff Token, defense 0x2

Two elves with 0 defense and as harmless as dandelions landed on You Yu's field, but caused a large number of players to gasp.

The root of all evil! The root of all evil!

Fuck, I didnt know until today that such a terrifying thing was actually designed by Judai!? As expected of the Supreme King, even the printed cards are so cruel.

That's right, this "Dandylion" that Judai drew casually when he was a child turned out to be a feared frequent visitor to the ban list in a real-card environment!

Because its effect was so overwhelming, it only needed to be sent to the graveyard to unconditionally Special Summon two tokens. It could be triggered whether it was sent from the field, from the hand, or from the deck to the graveyard.

This meant that it did not occupy the Normal Summon opportunity and could create two monsters for you out of thin air, which would be of great use in various deck systems in later generations.

Who could expect that this kind of Thousands-Of-Years Banned Card that made people frightened was actually the masterpiece of "just a guy who's a duelist for fun" Yuki Judai?

The Spell Card Neospace Wave is activated! (animation card)

Judai explained: This card can only be activated when the number of Neo-Spacial' monsters in my Deck is greater than the number of monsters I control!

Destroy all the monsters on my field, and then Special Summon the same number of random Neo-Spacial' monsters from my Deck.

So I destroyed the two Fluff Tokens on the field, and Special Summoned two random Neo-Spacial' monsters from the deck! "

The two Fluff Tokens on the field disappeared one after another, and a burst of colorful light flashed in Judai's deck. Two cards popped out of his deck one after another, were drawn into his hand, and were immediately revealed.

The monster I got randomly is

Neo-Spacial Aqua Dolphin!

And Neo-Spacial Grand Mole! "

The water surged, and a dolphin with an aqua-blue body jumped out of a violent wave. Then the earth was drilled open, and a khaki-colored mole emerged with a spinning drill bit on its head, like a hard-working earth driller.

Neo-Spacial Aqua Dolphin, ATK 600

Neo-Spacial Grand Mole, ATK 900

As soon as the two new space heroes appeared, they immediately caused quite a commotion in the surrounding area.

Worship the Mole Boss!

Brother Dolphin: Is your hand still there?

Although their attack power was very low and their combat effectiveness seemed to be poor, the single-target capabilities of these new space warriors could not be underestimated.

Especially this yellow-haired mouse. It looked innocent and posed no threat, but in fact, it could make people shut themselves up.

Chapter 922: Clear Arrangement

"Neo-Spacians?" The alien's eyes flashed twice, "Abominable Neo-Spacians, I will destroy you all here!"

Brother Dolphin actually spoke: "Judai, the future of the Neo Space and this planet is in your hands! You must defeat the evil Light of Destruction!"

Judai was startled: "Wow! The dolphin is talking!"

He was still surprised, but he didn't expect the Grand Mole next to him also speak: "Please Judai, now is the time to rely on the power of your companions!"

"What? Even the mole okay, never mind."

Judai seemed to accept this setting quickly, and he patted his chest.

"Don't worry, leave it to me!" He chuckled, "I don't dare to talk big about other things, but if it's a duel, that's a different matter.

After all I am the student of the strongest duelist in the world! "

He drew another card from his hand: "Activate the Spell Card O Oversoul! Special Summon 1 Elemental HERO' Normal monster in my graveyard!"

One of the five cards that he had sent to the grave popped out, and the moment he took it back into his hand, it seemed to bloom with a golden light.

"Since the opening, my palms are sweating as I wait for the last three minutes of the debut! A brand-new hero in the new space universe is born from the other side of the distant star

Elemental HERO Neos! "

The vast starry sky seemed to be drawn closer in an instant, and the night sky was magnified infinitely. A golden beam of light erupted from the center of the galaxy like a meteor. It accelerated downward and exploded on the ground in front of Judai.

The silver warrior appeared from countless scattered light spots, with his hands on his hips and the core of his chest shining like diamonds!

[Elemental HERO Neos, ATK 2500]

The mood of the screwballs reached its highest peak.

"Checked the stats.Result: it's the protagonist's ace's attack power!"

"Salute to the birth of Ultraman!"

No expression or emotional change could be seen from the alien's machine-like face, but his tone was gradually getting lower: "Elemental HERO Neos', the guardian of the Neo Space What a troublesome guy."

"Battle!" Judai waved his hand, "I use Neo-Spacion Grand Mole' to attack the face-down monster!"

"Aha, you were fooled." The alien couldn't help but feel proud.

The monster he set was "Marshmallon". Not only would it not be destroyed by battle, but the face-down Marshmallon could also inflict 1000 points of damage to the opponent when being attacked. It could be said to be the favorite of autism

Nani!! ?

The alien was shocked to see that his "Marshmallon" didn't even have a chance to flip over, so it disappeared out of thin air and bounced back to his hand with a golden light.

The mouse burrowing into the ground on the opposite side also disappeared, turning into a card and returning to Judai's hand.

"The monster effect of Neo-Spacian Grand Mole'." Judai smiled, "At the start of the Damage Step, if this card battles an opponent's monster: I can return both the opponent's monster and this card to the hand!"

This thing has such a wretched effect!?

A second ago, he thought that Marshmallon was autistic enough, but he didn't expect that this mole was more autistic he was autistic to the point of being autistic!

Many players even shook their heads and expressed their sympathy for this hard-working alien.

"Neo-Spacian Grand Mole" was recognized by everyone as the most effective echelon of Neo-Spacian, with quite unreasonable field-clearing abilities.

First of all, its effect was not destruction, so a dozen big monsters that "cannot be destroyed by effects" could be instantly killed by it.

Then his effect was "during battle, both sides return cards to their hands." From the description, it could be seen that this effect did not take any targets, so even big monsters that "cannot be the target of the effect" could be easily defeated by it.

You have been busy for a long time and spent a lot of effort (maybe even lost all the cards in your hand) to make an awesome monster. Just when you were about to put your hands on your waist, you saw the other party casually slap a monster. The inconspicuous mouse kicked your big monster back to your hand, and while kicking it, he muttered "fancy"

The most annoying thing was that this mole's effect activated at the start of the Damage Step, meaning the battle damage did not calculate. Moreover, he bounced himself back into the hand along with the opponent. This meant that he kicked your big monster away this round, and when you tried your best to make a big monster next round, hey, this rat was back again, and he would give it another simple kick, then your big monster was back to the hand again.

In the slow environment of the GX era, although the Neo-Spacian system has always been relatively unpopular, Brother Mole still had a place, and even entered the limited card list for a time.

Sometimes if you are unlucky, you can be driven crazy by the mouse on the opposite side

"Neo-Spacian Aqua Dolphin, attack directly!"

Although the attack power was only 600, Brother Dolphin still went up and punched the spaceman handsomely, hitting the opponent's head and face with his iron skull.

Alien, LP 4000 LP 3400

"Then comes the Elemental HERO Neos'," Judai said, "attack directly!"

Neos accelerated into the air, dived like a silver bullet, and a transparent wave of air exploded behind him. He spun around in the air, adjusted his posture, and chopped off the alien's head with a hand knife, and the latter howled in pain.

Alien, LP 3400 LP 900

"It's not over yet!" Judai said, "The effect of Neo-Spacial Aqua Dolphin' is activated! Discard 1 card; look at the opponent's hand and choose 1 monster.

If I control a monster with ATK greater than or equal to the ATK of the chosen card, destroy the chosen card, and inflict 500 damage to the opponent! "

This was quite a wretched effect.

Not only could it confirm the opponent's hand, but it could also interfere with it and destroy it, which could be said to be quite disgusting from the enemy's perspective. Not only could you spy on the opponent's tactics, but you also could blow up key cards to disrupt the opponent's plan. With the advent of the Yu-Gi-Oh hand trap era, Brother Dolphin became the natural enemy of hand traps.

You know, the attack power of powerful hand traps is generally not high even mostly 0.

For example, Kuriboh, known as the originator of hand traps, only had 300 ATK. Brother Dolphin could blast the entire Kuri family in the opponent's hand, one at a time

There was even a special emoticon package for Brother Dolphin among the players, with the words: "Is your hand still there?"

Judai discarded a card from his hand into the graveyard and shouted: "Echolocation!"

Brother Dolphin opened his mouth and released transparent sound waves, quickly detecting the status of all the cards in the opponent's hand. The poor alien's cards were exposed to the wretched Brother Dolphin like a girl who had been stripped naked, and he quickly located the "Marshmallon" that was bounced back into his hand by the Grand Mole.

"The attack power of Marshmallon' is only 300, which is not as high as the monsters on my field." Judai said, "So destroy Marshmallon!"

Pulse Burst! "

Using echolocation and precise strikes, Brother Dolphin exploded the Marshmallon in the opponent's hand with a sound wave.

Grand Mole was responsible for kicking the opponent's cards back into his hand, then Brother Dolphin was responsible for exploding the cards in his hand. The duo of Neo-Spacial brothers made clear arrangements for Marshmallon, and they were blown to pieces without even having a chance to show up.

Neo-Spacials: All Villains. JPG.

"Damn it! Then I discard the Hanewata' in my hand. I take no effect damage this turn."

With only 900 LP, it was obvious that this alien no longer dared to risk even a little more damage.

"Then I activate the effect of Neo-Spacian Aqua Dolphin' again!" Judai shouted, "Discard another card from my hand! Echolocation!"

Now the players were not calm anymore.

"Damn! Isn't Brother Dolphin's effect once per turn?"

Some people even hurriedly ran out to read the original information.

"Damn! It seems that the Brother Dolphin in the animation really didn't say about it!"

"No limit on the number of times in one turn? Can't this thing blow the opponent's hand into pieces?"

The more active players have even begun to think about how to use this effect of Brother Dolphin to make a show. For example, building a dolphin gimmick deck that specialized in blowing up cards in the hand so that the opponent had no monsters to play

The remaining card in the alien's hand was "Berserk Gorilla", a very high-quality Level 4 monster with an attack power of 2000.

It's a pity that it's still not as high as Neos.

"Because I have Elemental HERO Neos' on the field, which has higher attack power than Berserk Gorilla', so destroy the monster in your hand!"

Judai waved his hand.

"Pulse Burst!"

Another precise blast, and the "Berserk Gorilla" was also blown into powder.

"Damn it" the alien muttered, "but because of the protection of the Hanewata', the damage is still 0."

"I know." Judai smiled, "But in this case, you will have no cards in your hand!"

Alien:""

Indeed, after being bombarded by the shameless Brother Dolphin, he now had nothing in his hands

"I end my turn." Judai smiled brightly, "Okay, it's your turn, Mr. Alien!"

The onlookers looked at each other in confusion.

They had an ominous premonition.

After getting such a new power, Judai-san would probably go further and further down the road of autism

Chapter 923: Multidimensional Kaiju

Mr. Alien was angry, very angry.

Not only did he kick my monster back, but he also wanted to peek at my hand!

And he even blew up my hand after taking a peek!

Is this how you Neo-Spacians play cards?

Do you dare to confront me openly and openly?

He was angry, but he didn't give up.

After all, he was the heir of light, with an unbreakable will that would not waver no matter what.

I wouldn't be knocked down by shameless darkness like this!

"My turn, draw!" The alien's mechanical arm waved, "Each time a card is sent from the field to the GY, 1 Kaiju Counter is placed on Kyoutou Waterfront'.

So its number of Kaiju Counters reached the maximum of five in the last turn!

Activate the effect of Kyoutou Waterfront! Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 Kaiju' monster from my Deck to my hand. "

"Kaiju?" Judai expressed doubts about this term.

"Be careful, Judai!" Brother Dolphin held his breath, "It's coming!"

The lights on the towers standing in Tokyo Bay flashed, and all the blocks, every building, and the whole city seemed to be shaking!

I added Radian, the Multidimensional Kaiju from the deck to my hand!

The moment the card was pulled out of the deck, Judai saw the fleeting shadow behind the alien. He was stunned for a moment, then suddenly came back to his senses: "Ah! Is that monster the same one just now"

"Kaiju can be Special Summoned from my hand to the opponent's field in Attack Position, by Tributing 1 monster they control!"

"Eh!?" Judai was shocked.

Isn't that like my Lava Demon? So strong!

"I offer Elemental HERO Neos' as a sacrifice and special summon Radian, the Multidimensional Kaiju' on your field!!!"

Waves of dimensional distortion appeared on Neos. He groaned "Uh-huh," and his body was uncontrollably sucked into the dimensional vortex and disappeared out of thin air.

A black shadow gradually emerged, and the Kaiju with red eyes appeared ferociously on Judai's field, taking Neos's place.

[Radian, the Multidimensional Kaiju, ATK 2800]

"Neos!"

But Judai quickly came to his senses.

Wait, this Radian's attack power seems to be higher than that of Neos?

Although he felt a little sorry for his new ace for thinking this way, he suddenly felt that the Kaiju given to him by the other side seemed to be more useful than Neos

Of course, the other party wasn't such a kind person: "Open the set card: Continuous Trap Remove Brainwashing! Control of all monsters on both sides returns to the original owner.

Come back, Radian! "

Radian's figure quickly disappeared and shrank into a point in the twisted space. Then he was released in a whirlpool and jumped back to his master's field.

Judai:""

Okay, it makes sense now.

"The effect of Radian, the Multidimensional Kaiju'." The alien said, "Radian is a space ninja with the ability to clone!

Once per turn, by removing 2 Kaiju Counters, I can Special Summon 1 Radian Token' on my field!
"

Radian stood up straight and transformed into a brand new body like a mirror image. The new Radian seemed to be walking out slowly, opposite to the original body. No matter in appearance, movements or aura, it was exactly the same as the original one.

It was said that this was the clone technique inspired by the "Space Ninja Baltan".

[Radian Token, ATK 2800]

But this gave Judai a chance. He waved his hand: "At this moment, I activate the trap card Torrential Tribute! When a monster is summoned, all monsters on both sides of the field will be destroyed!"

The trap was activated, causing turbulent waves in the seaside area! A wall of water tens of meters high surges from the sea outside Tokyo Bay, threatening to submerge everything in the city!

But the alien had also prepared: "Then I activate my trap card too! Counter Trap The Huge Revolution is Over! When a Spell/Trap Card, or monster effect, is activated that would destroy 2 or more cards on the field: Negate the activation and banish it!"

The power of Torrential Tribute was countered, and the trap card was instantly blown to pieces.

Judai raised his arm to block his face: "Hey, you are even prepared for this. Aliens from space are so powerful"

"I normal summon Chainsaw Insect' in attack position!"

A Level 4 big electric bug with an attack power equal to "Red-Eyes Black Dragon". Yuei Vu even made a fortune with this thing during his DM days.

But after so many years, this card was no longer uncommon.

[Chainsaw Insect, ATK 2400]

"First, I use the Chainsaw Insect' to attack the Neo-Spacian Aqua Dolphin!"

The huge bug launched a charge, and the two serrations on its forehead were buzzing. Poor Brother Dolphin is a good peeper, but he is not very good when it comes to fighting. He was crushed to pieces by the Chainsaw Insect without much counterattack.

[Judai, LP 4000 LP 2200]

"Of course, as a Level 4 monster that has 2400 ATK, Chainsaw Insect' also has side effects." The alien said, "When it battled, the opponent player can draw a card.

So you can draw now. "

"Ah? Is that okay?" Judai was still a little dazed when he saw the word "DRAW" popping up on the Duel Disk.

"Hmph, move faster." The alien was very arrogant, "This is also the last card you draw."

"Then I won't be polite~" Judai pulled out the card.

The alien's eyes flashed and he shouted: "The battle continues. Radian, the Multidimensional Kaiju', attack directly! Use light to completely destroy the darkness!"

The Kaiju opened his right palm, and the jet-black light stream pierced Judai's face like a spear that cut through the sky!

Judai threw the card he just drew without thinking: "I discard the Kiteroid' from my hand, so the battle damage of a direct attack becomes 0!"

Ha, you don't expect it, do you? I have my little brothers card!

(Marufuji Sho: Why do I feel like my card appearance rate is getting higher and higher recently)

One attack was negated, but it didn't matter. The alien curled his lips and snorted: "What a lucky boy. But Radian is a space ninja with a clone technique, and his clone hasn't attacked yet!

Radian Token, attack directly! "

The Kaiju Token next to him, who was like a twin brother, also launched an attack, with the exact same pose and the exact same attack move

and then ran into the exact same obstacle.

"The effect of the Kiteroid' that exists in the graveyard!" Judai showed the card in the graveyard.

"When it exists in the graveyard, it only has one chance to reduce the damage of a direct attack to 0!"

Two consecutive shots were blocked one after another, and the alien couldn't help but become a little angry.

"Damn it, you lucky kid, if I can attack you one more time" He sounded very unwilling.

Judai: If you can attack one more time, you will meet the "Necro Gardna" in my GY

Chapter 924: The Form of The Earth, The Power of Courage!

"Huh~ I finally got through it." Judai breathed a sigh of relief and smiled confidently, "Okay! Then it's time for me to counterattack!

My turn, draw! "

After drawing a card, he glanced at it and said: "At the Standby Phase, activate the effect of the Spell Card Take Over 5' in the graveyard!

Banish this card in the graveyard and a card with the same name in the deck, and draw a card from the deck! "

He immediately showed the card he had just drawn.

Spell Card Spell Books from the Pot, both players draw three cards from the deck!

The alien drew three cards, and his eyes moved slightly after catching a glimpse of the hand.

Hehe, he actually took the initiative to send resources to the enemy. I'm afraid he didn't know how he died

I summon the Cross Porter in attack position!

Cross Porter, ATK 400

Cross Porter's effect is activated! Judai said, Target 1 monster I control; send that target to the GY, and Special Summon 1 Neo-Spacial' monster from my hand!

I sent the Cross Porter itself to the graveyard and Special Summoned the Neo-Spacial Grand Mole in my hand! "

The transport warrior in red armor disappeared from the field, and the yellow Neo-Spacial once again penetrated the streets of Kyoto and rushed out. He fell on the street, and the metal drill protecting his head split to the left and right, turning into shoulder armor on both sides.

Neo-Spacial Grand Mole, ATK 900

Its this despicable Neo-Spacial again! The alien was a little annoyed.

But it didnt matter. The Grand Mole could only bounce one monster back to the hand in one turn, and no monster on the alien side was afraid of this effect.

Chainsaw Insect was a Level 4 monster, so it could be summoned back the next turn even if it was kicked away. It would be even better if Judai chose "Radian, the Multidimensional Kaiju", in that case, the alien could use Radian to eat one of Judai's monsters in the next turn and because of the Continuous Trap "Remove Brainwashing" was present, Radian who ate the opponent's monster would immediately return to his side of the field.

As for the Radian Token, it would be directly destroyed. But as long as Radian was there, a new Token could be created in the next turn.

The second effect of Cross Porter! Judai said, If this card is sent to the GY, add 1 Neo-Spacial' monster from my Deck to my hand.

I added "Neo-Spacial Flare Scarab" from the deck to my hand! " (anime effect)

The aliens became alert.

Is it the new Neo-Spacial again?

"Activate the Spell Card Miracle Contact'!" Judai said, "Shuffle into the Deck, from my hand or GY, the Fusion Materials that are mentioned on an Elemental HERO' Fusion Monster that mentions Elemental HERO Neos' as material, then Special Summon that Fusion Monster from my Extra Deck, ignoring its Summoning conditions!" (animation effect)

Miracle Contact, a rare case of the real-life card was stronger than the animated card. In the anime, this was basically the Neos version of Miracle Fusion, which could only fuse monsters on the field and in the graveyard. But the real-life Miracle Contact could even use Fusion Materials from the hand.

Of course, what Judai got here was the animated version.

The Neos card that the Multidimensional Kaiju ate in the last round popped up from the graveyard, and the shadow of the Elemental HERO appeared on the field.

Let the Elemental HERO Neos in the GY and the Neo-Spacian Grand Mole on the field come into contact and fuse!

The starry sky was getting closer again, and the Milky Way seemed to be within reach. Neos and the Grand Mole both flew up and turned into two beams of golden light and sank into the center of the galaxy.

The form of the earth, the power of courage! Judai raised his fist high, Fusion Summon

Elemental HERO Grand Neos! "

Powerful energy exploded in the star space as if setting off a storm of light in the vacuum of the universe! The light beam soaring into the sky fell like a waterfall, and Neos seemed to land with great momentum. He was dressed in heavy green armor, and his right hand was equipped with a silver-white auger bit. When he landed, he stirred up a tomb of dust.

Elemental HERO Grand Neos, ATK 2500

The alien's face was confused: "Did he actually change his form But even if he changed his form, the attack power is still not enough"

"The effect of Elemental HERO Grand Neos'." Judai smiled slightly, "Once per turn, I can return a monster on the opponent's field to the owner's hand!"

The alien gritted his teeth: "It's this despicable effect again"

I return the Radian Token to your hand. Judai paused, Of course, because Token cannot be returned to the hand, it is destroyed directly!

Nebulous Hole! "

The Grand Neos raised his right hand high, and the drill on his right arm was spinning at high speed!

Golden energy was extracted from the ground like water and quickly attached to the surface of the spinning drill bit. Neos's arm was thrust out, and the spiral beam hit the Kaiju's clone without any explanation.

A dark vortex suddenly opened behind the derivative, like a small black hole. The strong gravity pulled him backwards, and the fierce golden light pushed him inside. The Radian Token was instantly absorbed by the hole and crushed into pieces by the powerful pressure.

Of course, the effect of Grand Neos was only once per turn. And Ultraman could only fight for three minutes on earth Eh, I meant the Neos Fusion monster could only exist on the field for one turn.

This was obviously not enough to directly determine the outcome.

"Quick-Play Spell Contact Out!" Judai said, "Return 1 Neos' Fusion Monster on my field to the Extra Deck, and Special Summon all the Fusion Material Monsters listed on that Fusion Monster from my Deck!"

I canceled the fusion of the Elemental HERO Grand Neos! Come back to the field, Neos! Grand Mole! "

The Neos of the Earth suddenly split into two, with one on the left and one on the right transforming back into the forms of Neos and Grand Mole respectively.

Elemental HERO Neos, ATK 2500

Neo-Spacial Grand Mole, ATK 900

The aliens understood and felt that he had seen through the opponent's tactics.

If the fusion was canceled, Judai could use the Grand Mole to attack and bounce away a monster on his field.

But that didn't matter. Neither Chainsaw Insect nor Radian were afraid of this effect. Anyway, he could easily summon it back next round.

Continuous Spell Common Soul. Judai waved his hand, Special Summon a Neo-Spacial monster from the hand.

I Special Summon Neo-Spacial Flare Scarab! "

The ground broke open, and a figure that looked like it was wrapped in magma rushed out. With a roar, the flames wrapped around its body dispersed, and it turned out to be a human figure wearing black beetle armor.

Neo-Spacial Flare Scarab, ATK 500

"The effect of Flare Scarab This card gains 400 ATK for each Spell/Trap the opponent controls!" Judai said, "Now you have Kyoutou Waterfront' and Remove Brainwashing' on the field, so Flare Scarab's attack power increases by 800!

Neo-Spacial Flare Scarab, ATK 500 ATK 1300

The alien was disdainful: "Oh, even if the attack power is increased, it is still trash"

The subsequent effect of Common Soul! Judai smiled, The Neo-Spacial summoned through this effect can bestow its attack power to another monster on the field.

So according to this effect, the attack power of Elemental HERO Neos increased by 1300 points! "

Elemental HERO Neos, ATK 2500 ATK 3800

Nani!? The alien was shocked.

Neos! Judai shouted, Attack the Radian, the Multidimensional Kaiju!

Flare Scarab clenched his fists with both hands and burst out a roar, and the increased energy was transmitted to Neos through the power of Neo Space.

Neos' whole body was wrapped in flames. He raised his right hand high, and the flames flowing around his body were quickly drawn out, spinning and condensing in his palm, and soon transformed into a huge burning fireball!

"Kiai!"

Neos threw the fireball with all his strength. The trajectory of the flames distorted the space, like a sure-fire hit from a pitcher.

Radians body was overwhelmed by the weight and was torn apart by the flames. The black body was broken into countless pieces. The impact flames continued unabated, knocking the alien into the air and exploding into gorgeous fireworks in mid-air along with a series of vague and sharp screams.

Alien, LP 900 LP 0

The spacecraft that followed him seemed to realize that something was wrong. It quickly ejected tail flames from the bottom and rose into the sky. The surface of the entire ship flashed as if it was preparing to enter the optical camouflage state again and run away stealthily.

But that's too late.

Neos, who had completed the kill, was still unabated, and flames erupted from his body. He continuously shuttled up and down the spacecraft, knocking the spaceship out of several holes one after another. The entire ship was leaking from all directions and teetering precariously in mid-air.

In the end, Neos was flying in the air, looking down from a high position. The two Neo-Spacians took action at the same time, and energy continued to pour into his body. Then Neos spread out his arms, and the light energy in the blue crystal on his chest burst out, piercing through the spaceship that was riddled with holes, and it finally exploded and disappeared into thin air.

Chapter 925: Neos

When Yuei Vu heard the news and rushed back to the Duel Academy Island, it was almost dawn.

He had already been briefed on the plane and had a rough idea of what happened on the island last night. After landing on the island, the principal and some dorm leaders were already waiting in the conference room and once again described the information they had on hand to Yuei Vu face to face.

Of course, they didn't know much. To be precise, they may not even know as much as Yuei Vu.

According to the intelligence collected by the leaders, it seemed that two uninvited guests visited Duel Academy Island last night. An alien descended from the sky in a spaceship and arrogantly threatened to flatten the planet.

By playing cards.

Then Yuki Judai encountered another friendly alien, who seemed to have voluntarily become his spirit, giving him new powers.

As representatives of the academy and even all mankind, Judai defeated the malicious alien in the duel and defended the island.

The news quickly spread like wildfire, and Judai, who was already the eldest brother of the college, once again aroused a heated discussion among the students. Especially first-year girls who have just entered school. Many of them may not have even seen this legendary senior, but when Judai's name was mentioned, their eyes began to glow with love, and they admired him beyond measure.

Neos, who grew to a height of more than fifty meters in the first show and stole the show, naturally became a hot topic of discussion for everyone.

With his outstanding performance, Elemental HERO Neos quickly gained a large number of fans among the academy students, and it was even foreseeable that the news would spread outside the school within a day.

“The Giant of Light”, “The Elemental HERO from the Starry Sky”,... these entries were enough to shock the whole world. What happened in Duel Academy that night was so important that it was an earthquake to the astronomical world that doubted the existence of alien creatures and the duel world itself.

These would naturally bring about controversy.

If other students encountered this, the school and even the group behind the school might have to take immediate measures. After all, no one had had contact with aliens before, and it was impossible to judge the real purpose of the dueling monster spirits from the universe and whether they posed a threat to humans just through a game of cards.

Perhaps it would be wiser to temporarily confiscate and control these space heroes and conduct further testing.

However, the board of directors took into account the special status of Yuki Judai and told his teacher Yuei Vu the news before making a decision.

Yuei Vu certainly did not have these concerns.

Malicious aliens?

What bad intentions can Ultraman have?

He waved his hand and said: Let’s disperse, don’t worry, just leave it to me.

So that morning, Judai was dragged to Yuei Vu’s office yawning before he woke up.

The very carefree Judai obviously didn’t think there was anything wrong with taking in a bunch of space people. He lived his life as he should, and he slept soundly last night.

Hearing Yuei Vu mention his new deck, Judai jumped up and couldn’t wait to take his deck out of his pocket.

“I’m telling you, sensei, this deck is amazing!” He started chatting instantly, sweeping away the slump that seemed like he hadn’t woken up just now. It seemed like he was no longer sleepy as soon as he said this.

“These are all friends from the Neo Space, as well as the miraculous Elemental HERO who connect the Earth and the Neo Space!

The most important thing is, do you know where they came from? Hehe, don’t be shocked if I tell you...”

Yuei Vu’s face was expressionless: “Are they the paintings I asked you to submit to the Kaiba Corp a few years ago?”

“That’s right! I drew it when I was a kid,” Judai said as he realized something was wrong, “Eh!? Sensei, how did you know?!”

Yuei Vu casually took the deck of cards from him and looked through them one by one: “Oh, do you think you can hide your affairs from me?”

Judai thought about it, and it seemed to make sense. After all, Yuei Vu-sensei knew everything. When he was a child, he secretly asked Aster to help him with his homework, but Yuei Vu caught it every time.

Without getting hung up on these details, Judai said excitedly: “Sensei, what do you think of my deck? I went to sleep so late to build the deck last night!”

Yuei Vu currently has a thick stack of cards lying in his hand. From a visual inspection, there should be about sixty cards.

He briefly looked through it and soon had an idea in his mind.

This deck was similar to the deck used by Judai in the later stages of the anime. It mainly consisted of two almost unrelated systems to form the Elemental HEROes and Neo-Spacians that Judai has just started. The two systems were incompatible with each other, and there was no linkage at all except Neos, not to mention that he has stuffed a bunch of unclear things that have nothing to do with either system.

Yuei Vu’s lips curled up slightly.

Heh, you have my demeanor.

Although the structure was also a mixture of dual systems, it was still a lot better than the unclear card pile of Judai in the original work. It could be seen that Judai now at least had clear strategies and ideas in terms of deck configuration, unlike in the anime where he just messed around.

Well, of course, there were still a lot of red traps.

Judai’s “no, no, no” attitude at the beginning has gradually turned into “really good”. Now when building a deck, if he didn’t put a lot of red traps in it, he always felt that something was missing and felt uncomfortable.

Of course, Yuei Vu thought about it and felt that there were still areas that could be optimized.

After flipping through it for a while, he found that he couldn’t find the card he wanted, Yuei Vu raised his head and asked, “Is that all?”

“Huh?” Judai was stunned for a moment and said, “Well, there are also some other cards, but I haven’t figured out how to use them yet. Because there are not enough slots in the deck, I haven’t put them in yet.”

“Is there a card called ‘Elemental HERO Neos Alius’?” Yuei Vu asked.

Judai was even more shocked.

Fuck, I just printed the card last night... no, I mean I just picked up this new deck last night. How could Yuei Vu-sensei even know the card name so clearly?

Yuei Vu-sensei is awesome!

“Yes, yes!” Judai took out the card.

Elemental HERO Neos Alius, Level 4, ATK 1900.

Whether it was the name or the image, it could be easily seen that this was the weakened form of Neos. As a low-level monster, its stats were quite good, but it's a pity that the effect was too salty.

Neos Alius was a Gemini monster and needed to be Normal Summoned for the second time to obtain the effect. And his effect was only "This card's name becomes 'Elemental HERO Neos' while on the field."

"This card is very useful." Yuei Vu said seriously, "If you can, it's best to insert three of them into your deck."

Yuei Vu said it in a rather vague way since things like printing cards shouldn't be said in public. But the meaning was clear: If you could get your Neo Space friend to print two more copies, you'd better print them quickly.

Jushidai was confused: "But this is a 'Gemini monster'. Sensei, didn't you say that because of the flaws of the system itself, all Gemini monsters are not easy to use?"

"That's right, but this one is different! Anyway, you are right to listen to me."

Yuei Vu smiled, took out a few more cards, and stuffed them into Judai's hand.

"I also have 'Gemini Spark', 'Hero Blast', and so on. Take them all and fill them up immediately. You will definitely need them."

"oh oh."

Judai looked at the few cards in his hand and was a little confused for a moment. He still didn't understand how this was played.

But since the teacher asked him to stuff a few cards, he must be right. After all, what Yuei Vu-sensei has said so far seems to be right. The Lava Golem that he disliked so much before has now become a regular member of the deck.

Judai obviously didn't know that the system that Yuei Vu asked him to insert into his deck now has a well-known name – "HERO Beat", also known as "Miracle Gemini".

It was once the glory of HERO in the early days, a high-end deck that once thrived in the real-life environment and became a nightmare for countless players.

The entire deck was made up of "Elemental HERO Neos Alius" as the key card, and even the entire system was centered around Neos Alius, with "control" as the theme throughout, allowing the opponent to usher in deep doubts about life.

It even inexplicably matched Judai's current dueling style.

Chapter 926: He Printed Cards Again?

There was quite a buzz about the alien battle on the Duel Academy island last night, but until the next morning, Aster Phoenix had not heard of it.

As a popular star among the freshmen in the academy, Aster may be the only one designated as the busiest among the first-year students. Under the arrangement of his agent, he accepted a cooperation project with a large enterprise. He couldn't shirk it and had to attend a grand banquet last night.

After the banquet, he boarded the luxury ferry at Domino Pier with his secretary in the early morning and rushed back to the academy overnight.

Because he didn't want to miss the first class of the new semester.

After finishing washing, Aster came to the dining room from the room, and the secretary was already waiting here.

We should be able to arrive at the academy's port within half an hour. The secretary stood beside him respectfully.

Aster took a bite of his breakfast sandwich and glanced at his watch.

Very good, I should be in time to catch the first class in the morning.

Tomorrow there is a duel-themed charity fund-raising event in a city, and the mayor would like to invite you to attend the event. The secretary continued, Shake hands or something like that.

That mayor has always taken great care of us, and the remuneration is not cheap"

Tell him I don't have time, Aster replied without thinking while eating his sandwich. I have to go to class.

The secretary said: "Actually, you should know that Principal Samejima has specifically stated that if you are busy with business, it will be okay if you don't go to class"

"That won't work!" Aster said righteously as if this was a matter of principle, "I chose to enroll in school so that I can better temper myself, receive systematic education in this top academy, and complete my career sublimation.

If I don't go to class because of my privilege, then there is no point in my enrollment. "

He has been a good student with excellent academic performance since he was a child. His grades have never been ranked below the first in the school. There was no such thing as skipping classes!

The secretary had no choice but to change her perspective: "According to my research, it seems that Yuki Judai doesn't go to class very much."

Aster's movements froze for an instant.

He turned his head and raised his silver-white eyebrows: "Judai he usually doesn't go to class?"

Most of the time. In the rare case when he goes to class, he seems to be sleeping .

"

Aster finished his sandwich in silence.

I thought about it, if I don't tell the mayor about tomorrow's activities, I'd better go there.

The secretary smiled: "The courses at the academy"

"Professors and principals will understand if I don't go occasionally." Aster said seriously, "I thought about it, maybe charity activities are more important.

Since I'm a public figure, I have to consider doing my best to benefit as many people as possible. This is a very meaningful activity, not for me personally, but for more people in need.

I think this is more meaningful than my personal improvement"

Thats what I thought too, sir.

A few minutes later, the secretary suddenly seemed to have discovered something.

Sir, I thought you might like to take a look at this.

She held the tablet and handed it over.

Aster glanced at it casually, but before he could read the content clearly, when he saw the words "Yuki Judai" in the large text, he immediately froze as if he was electrocuted, and snatched the tablet from her hand.

Duel Academy is attacked by aliens? Are aliens coming from space? Yuki Judai, a student at Duel Academy, steps up to defeat his opponent

using brand new heroes from the universe!?"

Aster stood up from his seat with a "snap".

Did he secretly print new cards behind my back again?

And its a new hero!?

Aster was almost a bit paranoid when it came to "HERO". More than once, he wanted to prove that his heroes were stronger than Judai's.

Part of the reason may be that Aster's father was himself the card designer of the HERO series, and Aster spared no effort to prove that his father's design was the best.

Another part of the reason was that their common mentor and idol, Duel King Yusei Kaido, was the originator of the HERO series.

The relationship between Aster and Yusei Kaido was similar to that of master and apprentice in everything but the name. Yusei Kaido never promised, but after all, there was a tie between them. Aster has always regarded himself as Yusei Kaido's student.

In fact, he had a chance to become Seto Kaiba's apprentice before.

At that time, President Kaiba was paying attention to the new stars in the duel world, trying to find a good candidate to compete with Yusei Kaido's students. During this period, he also noticed Aster a young rising star who performed extremely well and was even one year younger than Yusei Kaido's jellyfish head!

President Kaiba was really excited at the time and had the intention of taking this child under his wings. It wasn't until he learned more about it that he discovered that Aster was actually a staunch user of the "HERO" deck.

At that time, President Kaiba snorted and looked away, showing no interest in the silver-haired young boy.

Why did you have to play HERO when you were still so young?

No future! Not interesting!

....

So when Aster played against Judai, he always liked to say, "My Destiny HERO is much stronger than your Elemental HERO."

Judai never cared about this aspect and always gave way to Aster. Every time Aster said this, he would not refute it, but just smiled and agreed.

The idea of Judai was also very simple. He had played with Aster since he was a child and had always treated him as a brother.

Since they were like biological brothers and he was one year older than Aster, he should naturally be the older brother.

Isn't it natural for an elder brother to give in to his younger brother?

Aster said that his Destiny HERO was stronger, saying that he always had a better chance of winning when they fought, and Judai never refuted it.

So you can imagine what kind of feeling Aster felt when he saw that the Judai got new heroes from the universe.

The first reaction was that he was actually happy for Judai. At the same time, somewhere in his heart, he still had great expectations, just like a child who sat in front of the TV every Saturday anxiously waiting for the hero who only appeared for the last three minutes. He really wanted to know what Judai's new heroes looked like and how strong they were.

But at the same time, he felt uneasy.

It's over, Judai secretly printed a new card behind my back. From now on, will I have to be under him?

That won't work!

He dropped the tablet and said with a serious expression: "Make a reservation for me at the academy's dueling arena, the best one. I'll use it this week."

Already made an appointment.

Being worthy of being a professional who "worried the boss' worry", the secretary had already guessed the boss's intention before he spoke.

It was very obvious that Aster was planning to catch Judai and play another card game and it may be on a large scale, and there may be a lot of spectators.

The world champions debut in Duel Academy would definitely be big news.

Should we inform Judai in advance? the secretary asked, make an appointment with him? We don't know yet whether he agrees

"He'll agree," Aster said firmly.

Dare to disagree?

That Yuki Judai is the only old rival I recognize. How dare he try to disagree?

Chapter 927: Want To Duel?

Duel Academy.

Last night, the fight between outer space visitors on the island continued to escalate, attracting more and more attention. While this incident proved to everyone the real existence of aliens from the universe, it also made many people start to think about whether there is a connection between aliens and Duel Monsters.

Astronomy and aerospace experts have also begun to think about whether it would be more appropriate to focus their research on star exploration in the field of dueling monsters in the future.

At times like this, President Seto Kaiba's far-sightedness could be highlighted even more. As early as six years ago, President Kaiba had already started to get involved in the aviation field. Although many people have always questioned that a game company engaged in aerospace research was like adding points to the wrong tech tree. Now looking back, it seemed that the president was the right one.

The senior leaders of Duel Academy also mentioned this matter again at the meeting held today.

"Don't worry about Judai." Yusei Kaido said, "He has completely controlled those visitors from the extraterrestrial world. He can control them. Those Neo Space residents are not a threat."

All the leaders nodded.

Since the Duel King expressed this, everyone naturally had no objections. No one ignorantly said the opposite, saying that Yusei Kaido was abusing his power and that aliens must not be trusted and we had to capture them for testing and research.

It was well known that behind Yusei Kaido was the Duel Academy's financial backer, President Seto Kaiba. The president said that he was not concerned about the accident at the academy and that he didn't care about what happened here, but you couldn't really take his words seriously.

Otherwise, if you really tried to go against Yusei Kaido, it guaranteed that there would be a hundred ways for you to fail in the academy.

So everyone wisely did not bring up the topic of Judai anymore, but shifted their focus to the other side, that was, the alien who fought against Judai.

The Neo Space friends patiently told Judai the story of the confrontation between good and evil and the battle between light and darkness in the universe. Judai also told this story to the academy leaders earlier.

So now everyone knew that there was something called "The Light of Destruction" that was eyeing the Earth. This time, what Judai destroyed was only the vanguard soldiers they sent to explore the road, which were no more than scouts at best.

In case the Earth aroused the other party's interest, the next time it came, it may be a mighty cosmic army!

No one knew the true appearance of "The Light of Destruction", and no one knew how powerful it was. However, according to the description of Neo-Spacians, it was an indescribably powerful evil force whose goal was to "destroy everything in the existing universe."

Destroy the universe!

You could tell he was an awesome BOSS as soon as you heard it. After all, even for a BOSS as awesome as the Great Evil God Zorc, his scope of vision was only this Earth at best. As a result,

The Light of Destruction, who would wipe out the entire universe as soon as it came, must not be weaker.

However, what made everyone happy was that this round of battle between Judai and the alien at least made them sure of one thing

Aliens also play cards.

As long as they were willing to play cards, its easy to say. What humans were afraid of was that aliens didn't play cards at all, and if they came up with Star Destroyers, the Earth would obviously not be able to withstand it

Of course, Yusei Kuchiki had no worries about this. After all, whether it was the earth or the universe, as long as they were still in the Yu-Gi-Oh world, they would still have to play cards no matter what.

"Since it can be solved through a duel, then there is nothing to be afraid of." A senior executive flattered him half-jokingly, "With Mr. Yusei Kuchiki and the Duelist Alliance here, there must be nothing to be afraid of even if the aliens invade in large numbers! "

As soon as this statement came out, it immediately aroused the agreement of senior executives.

But Yusei Kuchiki was not so optimistic.

At this time, he didn't know how many times he had cursed the whole family of the screenwriter of GX Animation who dug a hole but didn't fill it. It was because this guy had dug a sinkhole for centuries and never filled it up in the end that Yusei Kuchiki's understanding of "The Light of Destruction" was almost zero, and he didn't even have a clue what deck they use.

90% of the duelists regarded Yusei Kuchiki as a god, thinking that he represented the pinnacle of the Duel Monster game, the ceiling that could be achieved by technical strength in this card game, and was synonymous with invincibility.

But Yusei Kuchiki himself knew very well that he was still far away from that.

Its true that he could be on the top of Earth, but what if the Light of Destruction himself directly played "Red-Eyes Fusion" and flew out a "Red-Eyes Dark Dragoon"?

Then Im going to be cold

Oh, wait a minute, even if he takes out the Red Daddy, I think I can turn it into a sea turtle?

(Liked by Gameciel, the Sea Turtle Kaiju)

Then thats okay.

However, after so many years of development of Yu-Gi-Oh cards, the advanced decks in the later stages have become more and more vicious. Powerful high-level decks could often create ultra-luxurious lineups that duelists in this era could only dream of, integrating burst-damage OTK, interruptions, endurance, and pressure resistance capabilities.

It's okay if ordinary players held this kind of deck, but if a BOSS with a Duelist Rank of ten or above popped up with this kind of deck, it would be a big problem.

So Yusei Kuchiki deeply felt that he still had a long way to go toward the goal of a full-card library. He must not be complacent because he stood tall, he must still be down-to-earth and pay attention to the accumulation of every bit.

In addition, Judai, who was one of the most powerful generals on their side, could not be left behind.

Yuei Vu has already contacted President Kaiba and Tenma Yako. He planned to combine the capabilities of the two top printing card manufacturers, Kaiba Corp and Industrial Illusions, with black technology and metaphysical power to help Judai develop a new universe series of cards that have not appeared in the original animation as soon as possible.

Luckily for Judai, both Kaiba and Yako were very interested in the "Neo-Spacian", an alien deck series. Both parties immediately allocated a large number of manpower and invested a large amount of money to set up a special team to develop the hidden potential of Neos day and night.

The joint efforts of these two printing card factories would surely yield results soon.

Another thing mentioned at the meeting was the recruitment of a new batch of mentors.

Since the guidance of the first batch of tutors last semester was very good and the students' strength has indeed improved significantly, Yuei Vu decided to expand the scale this year and recruit more players into the school as student tutors.

But this decision caused some controversy.

I agree with Principal Yuei Vu's decision. Someone said, For schools, improving the quality of students is always the most critical thing.

"But those teachers don't look like teachers at all!" Some people objected, "They behave strangely, gossip, and sometimes a bit immoral"

Many people agree with this point. They have long felt that these instructors are out of their minds.

That's why I won't let them enter the classroom. Yuei Vu said, We can also further improve the rules and regulations to constrain their behavior.

Teachers expressed doubts: Will they obey the rules?

In their impression, they obviously thought that players were geniuses who were informal and whose brain circuits are different from ordinary people, and geniuses were often not willing to follow rules.

"Don't worry, they are very cooperative. They will do anything you ask them to do, and you can put them into any pose you like." Yuei Vu smiled, "You just need to find the right method."

All the teachers looked at each other as if they felt a little weird.

Others have doubts: "According to school regulations, such a recruitment review does not comply with the rules. There must be more stringent assessment and review steps. A written examination must be conducted first and then two rounds of interviews"

The school rules also say that when there are differences of opinion, the decision can be decided by a duel.

Yuei Vu took out the Duel Disk from somewhere and placed it on the table in front of him.

He did not continue, but the meaning conveyed by his eyes and movements was already very clear

If you have any objections, how about we follow the school regulations?

Sure enough, no one spoke.

Okay, then its unanimously approved. Yuei Vu smiled, Its been decided happily!

Chapter 928: I Understand What You Mean

Saturday.

All the teachers and students who had free time gathered at the academy's duel arena, and the huge venue was once again blocked. The audience prepared popcorn and Coke and watched the "battle of the century" within the academy from the front row.

At the end of last semester, the academy's last eldest brother, "Kaiser" Ryo Marufuji, graduated and lost convincingly to Yuki Judai, a first-year student at the time, in the Graduation Duel Center. Since then, Judai has taken over the banner of the academy's big brother and has become the recognized leader of the academy in the minds of the students.

But before Judai's position as the eldest brother had time to become popular, he faced a huge challenge.

That's Aster Phoenix.

A well-deserved rising star among the new students, the latest World Champion in the professional league, and one of the most dazzling stars in the dueling world in the world today.

Even the staunchest supporters of Judai had to accept that perhaps it was time to change the position of the eldest brother in the academy.

What else can be done? He is a world champion!

No matter how awesome the eldest brother is, he is still the eldest brother only in the Duel Academy. No matter what, it is impossible to win the world championship in the professional circle, right?

In fact, Judai himself didn't care about these. He sometimes heard some comments from students, but he usually just smiled.

Anyway, he never thought about calling himself the eldest brother in the academy from the beginning, and other students called him that without permission. If Aster liked this title, he didn't mind giving it to him.

Of course, it's obviously impossible to let others down while playing cards.

The word "going easy" did not exist in the card player's dictionary.

And today was the day when Aster officially challenged Judai.

For Judai, this might just be another mediocre card game. He and Aster had been fighting each other since childhood, and they had fought against each other more than countable.

Although they hadn't seen each other for a long time, he was looking forward to the duel with Aster, who now had the crown of "World Champion" on his head, but he didn't think it was anything special.

But the audience didn't think so.

This is a powerful showdown between their academy's eldest brother and the league world champion! Its even the decisive battle for the next eldest brother of the academy!

Under the hype of the paparazzi in the school newspaper, some gossipy students (mostly girls) believed that the two people on the court had a past that they didn't want to talk about.

In the academy's forum, the touching stories of Judai and Aster were now flying all over the place!

The two people, who were similar in age and were once very good friends, separated due to some force majeure factors and went their separate ways. When they met again many years later, they were already strangers, standing on opposite sides of each other

Perhaps no matter which parallel time and space, women's brainstorming abilities are top-notch.

The audience was here and both contestants were in place.

"It's so lively!" Judai looked left and right when he came on stage, his face full of anticipation, "Speaking of which, we haven't played against each other for many years, Aster"

"Hmph." Aster said, "I am different now than I was in the past. I will definitely win this time!"

Judai tilted his head: "Huh? But didn't you say last time that you won more before"

Realizing that he had spilled the beans, Aster immediately changed his words with a snort: "I mean, I will win this time! It doesn't matter even if you gain a new power!"

"Oh, that's right." Judai smiled and nodded, "Because Aster's Destiny HERO is the strongest."

"That's right!" Aster was satisfied.

After a short exchange before the start of the game, the two sides stood apart. Professor Chronos blew the whistle to start the war and fled to the auditorium. The decks of both sides were automatically shuffled, and two Duel Disks unfolded at the same time.

"Duel!" x2

Aster, LP 4000

Judai, LP 4000

"I'm the first to go, draw!"

Judai thought for a moment after seeing the cards in his hand, then raised his head: "Here I go, Aster!"

"Oh, don't hold back, just come here, Judai!" Aster said confidently, "I can block your attacks no matter how many!"

"Then let's go! I normal summon Elemental HERO Blazeman!"

[Elemental HERO Blazeman, ATK 1200]

"The effect of Blazeman If this card is Normal or Special Summoned: I can add 1 Polymerization' from my Deck to my hand." Judai pulled out the fusion card that popped up from the deck, "Then I activate the Spell Card Polymerization!"

Fuse Elemental HERO Blazeman' on the field and Elemental HERO Liquid Soldier' in the hand!

The fusion condition is 1 Elemental HERO' monster + 1 WATER monster! Fusion Summon!

Born from the extremely cold abyss, freezing everything with the absolute power of ice and snow
Elemental HERO Absolute Zero! "

The elements of fire and water disappeared in the whirlpool, and the hero in plain white armor appeared in the wind and snow, with an inviolable ice domain beneath his feet!

[Elemental HERO Absolute Zero, ATK 2500]

There was a sudden commotion on the field.

"He calls the Absolute Zero from the get-go!" a passerby named Misawa commented, "Sure enough, Judai is serious."

"The effect of Elemental HERO Liquid Soldier"! If this card is used as Fusion Material for a HERO' monster, and sent to the GY or banished: I can draw 2 cards, then discard 1 card."

A card from Judai's hand was discarded into the graveyard, but in the blink of an eye the card popped up again.

"The card I discarded to the graveyard is the Spell Card Card of Compensation'." Judai said, "When this card enters the graveyard from my hand, draw two cards from the deck!" (Manga Card)

Aster watched Judai continue to draw cards and couldn't help but narrow his eyes: "Tsk, after the fusion summons, you have more cards in your hand than before"

Judai, its true that you have never slacked off around Yusei Vu-sensei.

But I didnt waste my time either!

"Set two cards, I end my turn," Judai said.

"Then it's my turn!"

Aster raised his voice while drawing cards as if he wanted to push Judai down first in terms of momentum.

"At this moment, open the set card!" Judai waved his hand.

Aster's eyelids twitched slightly.

Are you going to launch an attack so soon, Judai?

"Continuous Trap Sea Stealth Attack!" Judai shouted, "When this card is activated, I can activate from the deck

Field Spell Umi! "

The Field Spell card popped out of the deck and was inserted into the Duel Disk. The three-dimensional projection transformed into a boundless blue ocean, submerging the entire arena where the two sides were fighting in an instant!

Elemental HERO Absolute Zero crossed his arms and placed his feet lightly on the undulating sea. The place where his toes touched was immediately frozen, and a foothold made of ice crystals appeared on the sea surface.

"It's here! The absolute blockade constructed by Aniki's Absolute Zero' and Sea Stealth Attack'!" Sho Marufuji said excitedly.

Sea Stealth Attack: Once per turn: You can banish 1 WATER monster you control until the End Phase; this turn, face-up Spells/Traps you control cannot be destroyed by your opponent's card effects.

Elemental HERO Absolute Zero: When this card leaves the field, all monsters on the opponent's field are destroyed.

The combination of these two cards was almost any duelist's nightmare.

"Using such a strong combo from the beginning, Judai, do you really attach great importance to the duel with me?" Aster snorted, "You really should!

Activate the Spell Card Card Destruction! Both players discard as many cards as possible from their hands, then each player draws the same number of cards they discarded. "

The cards in the hand were changed, and then a card popped up from Aster's graveyard: "The effect of the Spell Card Card of Compensation! When this card is sent from my hand to the Graveyard, I can draw 2 cards!"

"Huh? The same type of Spell as mine!" Judai smiled stupidly, "Hey Aster, we really have a good understanding of each other, and our card choices are very similar"

While Aster was drawing cards, he said disdainfully: "Oh, it's just a coincidence, you and I are different! My Destiny HERO is much stronger than your Elemental HERO!"

"Yeah, I guess so." Judai smiled.

"Then I'm going to do it too! The first person I want to summon is this guy"

Aster drew out a card with a big wave of his hand.

"Elemental HERO Stratos'!"

Judai:""

Onlookers: ""

I understand what you mean, but can you please get rid of Brother Sky first

Chapter 929: Conquer The Sea!

Aster said that Destiny HERO was stronger than Elemental HERO, and then he took out Brother Sky, which made the scene look very weird

Of course, the man himself didnt seem to think there was anything wrong: The effect of Elemental HERO Stratos When this card is Normal or Special Summoned, add 1 HERO' monster from my Deck to my hand!

I added Vision HERO Faris' from the deck to my hand! "

Judai began to look forward to it: "Oh, is it coming?"

As the saying goes, even if you have never eaten pork, you have seen pigs running away. Although Judai did not have Vision HERO, he had seen this process a lot. He still knew the classic process of "one card created all things".

Then the next step was the operation engraved in the DNA of any HERO user.

"Activate the effect of the Vision HERO Faris! Discard 1 other HERO' monster; Special Summon this card from my hand!"

[Vision HERO Faris, ATK 1600]

"The effect of Faris! I place Vision HERO Increase' from the deck in my Spell & Trap Zone. Then I use Faris as a sacrifice to special summon Increase"

"Wait a moment!"

Judai accurately interrupted Aster's smooth chanting.

"Open the set card: Trap Card Dust Tornado! Target 1 Spell/Trap on the opponent's field; destroy that target!"

Aster's eyelids twitched: "A Spell/Trap on the field It cannot be!?"

"That's right! When the Vision HERO' monster exists in the Spell & Trap Zone, it is treated as a Continuous Trap Card." Judai chuckled, "So through the effect of Dust Tornado', I destroy Vision HERO Increase'!"

The blue storm enveloped the fluttering leaves and swept the entire court toward the heroic phantom in Aster's back row that had not yet had time to transform into reality!

The "Dust Tornado" of Judai was chained to the activation of the effect of "Vision HERO Increase", and at this time, Faris had been Tributed as a condition for the activation of Increase's effect.

In other words, if this move was successful, not only would Increase fail to be summoned successfully, and the subsequent operations would be interrupted, but Faris would also be sacrificed in vain.

For Aster, it was a devastating card loss disaster.

Aster frowned: "You've already known that I would use the effect of Faris to start my combo, and deliberately chose this moment"

"Because I think if you were Aster, you would definitely use Vision HERO." Judai smiled.

"I see, it seems that you have studied me carefully." Aster smiled mysteriously, "But this is also within my expectations!"

Seeing the phantom on the field dissipate, a ferocious steel body like an executioner appeared behind Aster.

Makyura the Destructor!

"The card I discarded to the graveyard through Card Destruction' is this Makyura the Destructor'." Aster said, "In the turn this card is sent to the graveyard, I can activate Trap Cards from my hand.

Based on this effect, I activate the Trap Card Driving Snow' from my hand! "

The weather on the field suddenly changed, with winds and clouds surging on the sea, white snow falling, and a white storm like transparent ice crystals heading towards Judai.

"The effect of Driving Snow!" Aster shouted against the strong wind, "It can only be activated when 1 or more of my Trap Cards are destroyed and sent from the field to the Graveyard by a card effect the opponent controls. Destroy 1 Spell or Trap Card on the field!

I destroy the Field Spell Umi!" "

Many viewers were immediately in an uproar.

So this was Aster's original purpose? Sho Marufuji understood. Indeed, if Umi is not on the field, all the effects of Sea Stealth Attack will be nullified.

And if he doesn't solve the combo of Sea Stealth Attack and Absolute Zero first, no matter what monster he summons, it will be meaningless

"But it's useless." Asuka frowned, "Judai can also use the effect of Sea Stealth Attack"

Sure enough, Judai waved his hand immediately: "Then I activate the effect of the Continuous Trap Sea Stealth Attack! Once per turn, I can banish 1 WATER monster I control until the End Phase; this turn, face-up Spells/Traps I control cannot be destroyed by the opponent's card effects!"

The trap's effect was activated, and the figure of Absolute Zero gradually faded until it completely disappeared. Water columns rise from the rough sea level, forming a water array curtain wall to withstand all the blizzards released by Aster!

In this way, Umi will not be destroyed by the effect of Driving Snow, Judai smiled, and when Elemental HERO Absolute Zero leaves the field, all monsters on the opponent's field will be destroyed!

What a pity, Aster, it's just a little bit short"

"No." Aster chuckled, "That's fine."

"Eh?" Judai was stunned.

That's right, if you want to preserve this system built around the Absolute Zero, you can only activate the effect of Sea Stealth Attack to protect it.

But I have already reached this level, and my duel will go further! "

Aster quickly drew another card: "Quick-Play Spell Mystical Space Typhoon! Target 1 Spell/Trap on the field; destroy that target! I destroy the Field Spell Umi!"

A dark tornado fell from the sky, carrying pale lightning like a silver dragon!

"Beautiful!" Misawa almost jumped out of his chair, "The effect of Sea Stealth Attack' hasn't been resolved, so the resistance of Spell/Trap on the field has no time to take effect, and Umi' will be destroyed first!"

"Aster had a Mystical Space Typhoon' in his hand from the beginning, but he knew that if he used it directly, it would only be resisted by the effect of the Sea Stealth Attack' and would have no effect."

Asuka also had a look of admiration on her face.

"World champion Aster Phoenix is truly extraordinary, he made no unnecessary moves. His purpose was very clear. From the very beginning, he was aiming to dismantle Judai's tactical system. His ideas were clear and extremely precise."

As she spoke, she became a little worried again.

"Judai it should be fine, right?"

The strong wind whipped up waves all over the sky. The storm seemed to contain some irresistible force. Tons of seawater scattered in all directions and soon disappeared from the scene.

"Awesome, Aster!" Judai rubbed his nose, "But as a condition for activating the effect of Sea Stealth Attack', Absolute Zero has also been banished from the game."

He waved his hand.

"So at this moment, the effect of Absolute Zero is activated!"

The sea disappeared, but Judai also launched a counterattack. The ice and snow instantly froze the entire arena, turning the entire Aster's field into a ten-mile glacier, and then all shattered into bright ice slag.

Everyone held their breath for fear of missing important details.

"Is it such a fierce exchange of offense and defense from the beginning?" Misawa swallowed, "It's really scary, both of them."

Manjoume, who was sitting higher up in the auditorium, gritted his teeth and clenched his fists so hard that his bones rang. He was so frightened that the boys next to him didn't dare to touch him.

Damn it!

The opposite side of Yuki Judai should have been my position

The field was completely swept away, but without giving anyone a chance to breathe, Aster immediately took out another card: "Activate the Spell Card Doctor D'! Banish 1 Destiny HERO' monster from my GY; add to my hand or Special Summon 1 Destiny HERO' monster from my GY!"

Two cards popped up in the graveyard area at once.

"I banished the Destiny HERO Captain Tenacious' from the graveyard, and resurrected Destiny HERO Dasher'!"

A slender black shadow flew out of the GY. The hero was covered in black armor and stepped on a spinning pulley. He stopped in front of Aster with a graceful drift.

[Destiny HERO Dasher, ATK 2100]

"Can he call out the higher-level monsters to attack again immediately!?" Misawa sat up straight.

"Battle!" Aster waved his hand, "Destiny HERO Dasher, attack directly!"

The Absolute Zero in the front row was removed from the game, and there was no set card left in the back row. There was no obstacle in front of the Dasher, and he drew a straight arc straight towards Judai's face!

"Judai!" Asuka subconsciously shouted.

But of course, it wouldn't be that easy!

"Discard the Kiteroid' from my hand," Judai said. "Reduce the battle damage I take from a direct attack to 0!"

Dasher swept towards Judai like an afterimage. He supported on one leg and spun around. The pulley under his feet made a tooth-breaking sound when it rubbed on the ground. The other leg swept towards the enemy like an iron rod, only to be blocked by a transparent shadow!

"Tch, you're a tenacious guy." Aster was a little disappointed, but he didn't seem surprised. "After Dasher attacked, he must change to Defense Position at the end of the Battle Phase."

[Destiny HERO Dasher, ATK 2100 DEF 1000]

"My turn is over!"

Chapter 930: Again?

The first intense exchange of offense and defense ended. The situation on the field continued to change, but the LP of both combatants did not change at all.

This was just the beginning.

"At the end of your turn, the effect of Sea Stealth Attack' ends, and Elemental HERO Absolute Zero' returns to the field!" Judai said.

"That won't work." Aster's voice once again overshadowed him, "Quick-Play Spell Burial from a Different Dimension! Target up to 3 banished monsters; return them to their respective owners' graveyards!

I returned the Elemental HERO Absolute Zero' from the banished zone to the graveyard! "

Obviously, if he was returned to the graveyard, Absolute Zero would be beyond the scope of the "Sea Stealth Attack" effect and could not return to the field.

"Ah, even this was taken into account!" Judai admired, "Aster is indeed as powerful as ever! I have always thought that the combination of Absolute Zero and Sea Stealth Attack is impeccable."

"For ordinary people, maybe." Aster smiled gracefully like a nobleman, "But this little trick is useless against me."

Indeed, this tactic was extremely autistic. It combines powerful field-clearing interference and self-protection capabilities. It may be enough to trap 90% of duelists into autism.

But Aster understood Judai so well that he even thought that he was the person who knew Judai best besides Yusei. After all, they grew up together, and he knew Judai's various tactics and methods, and he also knew how to break them.

At least until today.

Aster felt a little irritated. He crossed his arms and said, "Okay, there is no need to bring out those tactics that we all know. Come on, let me see the power of your so-called new heroes!"

"Don't worry, Aster." Judai smiled, "The fun has just begun! It's my turn, draw!"

He added that card to his hand and then took out another card.

"Since you have asked for it, let's take a look at my brand new partners from the Neo Space!" Judai raised his fist, "I summon the Elemental HERO Neos Alius!"

The sky briefly turned pitch black, filled with twinkling stars. A ray of white light pierced the starry sky and swooped down, exploding like a meteor falling to the ground.

It had a white body, red stripes, light blue oval eyes, and a round crystal on its chest.

[Elemental HERO Neos Alius, ATK 1900]

The teachers and students were immediately attracted, and Aster also became serious and looked at the silver-white hero carefully.

Everyone had already heard the story about Yuki Judai acquiring an alien duel monster spirit. The students and teachers were extremely curious and eager to know what the dueling monsters from beyond the stars would look like.

"Activate the Continuous Spell Common Soul!" Judai said, "Special Summon a Neo-Spacial monster from the hand!

I special summon Neo-Spacial Grand Mole! "

The ground was drilled open, the white electric drill whirled, and scattered into shoulder armors one on the left and one on the right. A fluffy yellow mole jumped in front of Judai.

[Neo-Spacial Grand Mole, ATK 900]

The Neo-Spacial summoned through this effect can bestow its attack power to another monster on the field!

I superimposed the attack power of the Grand Mole' onto the Neos Alius! "

[Elemental HERO Neos Alius, ATK 1900 ATK 2800]

"Neo-Spacial?" Aster said without blinking.

"That's right! Watch out, Aster, these are my strongest new partners!" Judai waved, "Battle! Use Neo-Spacial Grand Mole' to attack Destiny HERO Dasher'!

"Attack with a monster with lower attack power?" Aster smelled a conspiracy.

"The effect of Neo-Spacial Grand Mole!" Judai said, "At the start of the Damage Step, if this card battles an opponent's monster: I can return both the opponent's monster and this card to the hand!"

"Nani!"

Aster looked at the flying mole, his eyes becoming frightened.

Hiss~ Where did Judai get such an autistic thing?!

"I know, Aster, when the Destiny HERO Dasher' exists in the graveyard, a monster you draw during your Draw Phase can be Special Summoned, right?"

Judai rubbed his nose and chuckled.

"I remember all your monster effects clearly!"

"Cut it."

Aster looked at the Dasher whose card was bounced back into his hand, and he didn't know whether to be happy or angry.

Of course, because the Grand Mole was also bounced back to the hand, the attack power of the Neos Alius dropped back to its original value.

[Elemental HERO Neos Alius, ATK 2800 ATK 1900]

Judai waved his fist in the air, "Elemental HERO Neos Alius, attack directly!"

The small Neos flew up, jumped across the field with a high jump, and hit Aster head-on with a "Superman Punch" gesture.

The powerful three-dimensional image penetrated the impact, causing Aster to stagger back half a step and cover his heart.

Aster, LP 4000 LP 2100

"Are you okay Aster?" Judai expressed concern.

"Tch, instead of worrying about me, it's better to worry about yourself!" Aster curled his lips, "I'll play your loan back with profits next round!"

As he spoke, two cards popped up from the graveyard on his Duel Disk at the same time.

The moment I received battle damage, the effects of Vision HERO Increase and Vision HERO Minimum Ray in the graveyard were activated!

He briefly displayed the two cards, and then inserted both cards into the slots of the Duel Disk.

Two black hero phantoms appeared in the trap area in the backcourt at the same time.

"Then I'll set two more cards, and my turn is over," Judai said.

Aster stood up straight and took a deep breath.

"I won't lose to you, Judai." He muttered quietly, then raised his voice, "My turn, draw!"

He immediately showed the card he had drawn.

"Then comes the Spell Card Spell Books from the Pot'. Both players draw three cards from the deck!"

Aster quickly picked out another card in his hand.

"Summon Destiny HERO Diamond Dude!"

[Destiny HERO Diamond Dude, ATK 1400]

"Diamond Dude's effect Excavate the top card of my Deck, and if it is a Normal Spell, send it to the GY, otherwise place it on the bottom of my Deck. During the Main Phase of my next turn, I can activate the effect of that Spell in my GY! "

Of course, since he was a child, Aster has never touched a card other than Normal Spell so far.

So he drew one here, and the result was as expected: "What I drew is the Spell Card Card of Sanctity', which allows players on both sides to draw cards from the deck until their hands are filled with six cards!

I sent this card to the graveyard! "

Aster then pointed to the heroes on his field.

"The effect of Vision HERO Minimum Ray' in the S/T area! Use the Destiny HERO Diamond Dude' on the field as a sacrifice and special summon Minimum Ray from the S/T area!"

When the Minimum Ray was successfully Special Summoned, it could destroy 1 Level 4 or lower monster on the opponent's field. Aster could use this effect to blow up the Neos Alius on Judai's field

"Open the set card!" Judai raised his hand, "Quick-Play Spell Gemini Spark"! Tribute 1 face-up Level 4 Gemini monster, then target 1 card on the field; destroy it!"

He pointed straight into Aster's back row.

"I sacrificed Elemental HERO Neos Alius' and destroyed the Vision HERO Minimum Ray' that was placed as a Continuous Trap!"

Aster: "!"

Damn it, again?
