

I Play Yu-Gi 971

Chapter 971: The Real Battle Has Just Begun!

The ultimate demon of Arcana Force, the ruler of darkness, Arcana Force EX – The Dark Ruler!

Its shape was exactly the same as The Light Ruler. The huge monster had two ferocious heads, but its body was not completely black like The Light Ruler, but more reddish.

This scene was very strange for a while. Neos who clearly belonged to the "Darkness of the Universe" used the power of light, while Saio's side was known as the "Light of Destruction", but his ace was "The Dark Ruler".

Anyway, someone must be on the wrong team.

Saio: The more I pursue the ultimate light, the more I realize that the power of light has limits, so I won't be a light anymore!

[Arcana Force EX – The Dark Ruler, ATK 4000]

"With the effect of 'Light Barrier', when I summon an 'Arcana Force' monster, I can choose the upright position or the reverse position to apply the effect accordingly!" Saio shouted, "I choose the upright position!

Arcana Force EX – The Dark Ruler's upright position effect! This card can attack twice during the same Battle Phase! "

"With an attack power of 4,000, it can still shoot two consecutive shots?" Judai said in surprise.

"Come on! First, The Light Ruler will attack Brave Neos!" Saio shouted, "Go to death with your Neo Space partner, Yuki Judai!"

But Judai was also unambiguous: "Open the set card: Quick-Play Spell – Mystik Wok!"

Brave Neos whose effect was negated had only 2500 ATK. If he was knocked down, it would directly cause 1500 battle damage. Judai, who had only 1200 LP left, would immediately lose.

In that case, rather than being eliminated by The Light Ruler, it would be better to fry it yourself.

"Mystik Wok's effect is activated! Tribute 1 monster. Select either its ATK or DEF and gain that many Life Points!"

Brave Neos nodded toward Judai as if to indicate, "You're welcome, please feel free to use my body."

"I will Tribute the 'Brave Neos' to restore 2500 LP!"

A large pot appeared at Neos's feet, and flames quickly rose from the bottom. Brave Neos quickly disappeared into the cauldron that was burned red.

[Judai, LP 1200 → LP 3700]

"Oh, is this your last struggling before the death?" Saio said disdainfully, "Battle! The Light Ruler, attack 'Elemental HERO Flare Neos'!"

All the Neoses in the Light Barrier were unable to exert their own strength. Even the Flare Neos, who was famous for his attack power, had been weakened. He had no room for resistance in front of The Light Ruler, and his body was pierced in an instant.

[Judai, LP 3700 → LP 1200]

"The upright position effect of Arcana Force EX – The Light Ruler! When an opponent's monster is destroyed by battle, add a card from my graveyard to my hand. However, the card added to my hand by this effect cannot be used during this turn."

Saio drew the card that popped up from the graveyard, "I add 'Hierophant's Wand' to my hand.

And the effect of 'Light Barrier' is activated at this moment! If my 'Arcana Force' monster destroys an opponent's monster by battle: I gain LP equal to the destroyed monster's original ATK!"

[Saio, LP 700 → LP 3200]

"Then the battle continues! Arcana Force EX – The Dark Ruler, attack 'Elemental HERO Grand Neos'!"

The Lord of Darkness also raised his two heads and opened his bloody mouth. Two beams of chaotic impact erupted from the dragon's mouth, and the Earth hero was also blasted into pieces!

[Judai, LP 2200 → LP 1700]

"Activate the effect of 'Light Barrier' again!" Saio said, "I gain LP equal to the attack power of 'Elemental HERO Grand Neos'!"

[Saio, LP 3200 → LP 5700]

"This is the end!" Saio shouted, "'Arcana Force EX – The Dark Ruler, direct attack!

It's over, Yuki Judai!"

The light of destruction erupted, but the white light seemed to contain the darkness of world destruction!

"Necro Gardna's effect is activated!" Judai showed the card that popped up from the graveyard, "During the opponent's turn, I can banish this card from my Graveyard; negate the next attack this turn from a monster you control!"

The shadow of the undead guardian appeared on the field, and the impact of darkness was washed away like water hitting a stubborn rock!

"Nani? You actually have a backup plan?" Saio was shocked.

There were endless hand traps and grave traps that were hard to guard against, coupled with the rapid swarming and luxurious burst-killing ability. At this moment, Saiou looked at Judai, and he had the same illusion as when facing Yuei Vu.

At such a young age, he has actually obtained the true inheritance of the Duel King!

Saiou felt more and more horrified, and then thought that the other party even possessed the power of "Darkness of the Universe" and was the master of the Neo Space heroes.

If he grows up in the future...

Hiss~ This kid must be eliminated!

"If The Dark Ruler battles twice using its own effect, it is changed to Defense Position at the end of the Battle Phase."

[Arcana Force EX – The Dark Ruler, ATK 4000 → DEF 4000]

"Set two cards." Saiou paused and said coldly, "You still have that 'Gameciel, the Sea Turtle Kaiju' in your hand. If you use it to eat my monster again, it will be troublesome."

So I activate the Spell Card 'Card Destruction'! Both players discard as many cards as possible from their hands, then each player draws the same number of cards they discarded! "

"Ah." Judai glanced at the "Gameciel, the Sea Turtle Kaiju" in his hand, and reluctantly threw it away to the GY.

Just a few seconds ago, he was actually planning to use it to eat The Dark Ruler.

"I end my turn."

"Huh~ It's so dangerous, so dangerous." Judai breathed a long sigh of relief, but then he gained more momentum, "Okay! Then it's my turn, prepare to counterattack!"

Saio couldn't help but frown when he saw the boy looking full of energy and eagerness to try.

Hasn't this kid realized the seriousness of the problem?

Now that we've reached this point, he can still play cards so happily? Is he a fool?

"My turn, draw!" Judai said.

At this time, Neos in the ghost state floated out again: "Judai, we must first find a way to solve the 'Light Barrier'! If we are restricted by this barrier, we can't do anything!"

"Yes, I know!" Judai nodded vigorously, then showed a card, "Activate the Spell Card 'Convert Contact'! This card can only be activated when there are no monsters on my field."

Send 1 'Neo-Spacion' from my hand and 1 'Neo-Spacion' from my deck to the graveyard, then draw two cards from the deck! "

Judai sent two cards into the graveyard.

"I send the 'Neo-Spacion Dark Panther' in my hand and the 'Neo-Spacion Glow Moss' in my deck to the graveyard, and draw two cards!"

Then I activate Spell Card 'Legacy of a HERO'. If there are 2 or more Level 4 or higher 'HERO' monsters in my Graveyard, draw 3 cards!" (manga card)

Then activate the Spell Card 'Silent Doom'! Target 1 Normal Monster in my GY; Special Summon it in Defense Position!

I Special Summon the 'Elemental HERO Neos' that was sent from the deck to the graveyard through the effect of 'Hero Mask' last turn! "

A waterfall-like beam of light erupted, and Neos made a gorgeous appearance again!

[Elemental HERO Neos, DEF 2000]

"It's him again." Jaiou snorted, "Now that things have happened, what else can a mere Neos do?"

"Don't worry, this will let you see the power of Neos!" Judai shouted, "Activate the Spell Card 'Wrath of Neos'! Target 1 'Elemental HERO Neos' in my Monster Zone; shuffle that monster into the Deck, and destroy all cards on the field!"

"Nani!?" Saiou was shocked.

This Neos actually contains such powerful power?

More importantly, this ability came from Neos's exclusive support Spell Card rather than the monster effect. Neos himself was a noble Normie with no effect, so the restraint of "Light Barrier" had no effect on him.

Saio saw Neos flying into the air, arms spread out, and the blue crystal on his chest burst out with sparkling light! A storm of energy raged along the entire site, and the entire barrier was crumbling.

The Light Ruler, The Dark Ruler, Light Barrier, everything he has worked so hard to build will be wiped out by Neos's full blow!

"It's not that easy!" Saio shouted, "Open the set card: Trap Card – Hierophant's Wand! The opponent draws 1 card. This turn, cards on my field cannot be destroyed!" (Animation card)

He laughed.

"It's such a pity. You're only a few steps away from being able to turn things around. It's a pity, but I'm still the more skilled one."

"Judai!" Neos shouted in mid-air.

"I know!" Judai shouted, "Quick-Play Spell 'Mystical Space Typhoon'! Target 1 Spell/Trap on the field; destroy that target!

I will destroy the Field Spell 'Light Barrier'!"

Saio: "!"

He understood the tactic instantly.

"Hierophant's Wand" was the card that Saio recovered from his hand through the effect of "The Light Ruler" in the last turn. How could Judai not know that he had this protective shell?

Judai deliberately activated "Wrath of Neos" first, tempting him to use "Hierophant's Wand" for protection, and then used "Mystical Space Typhoon" to chain "Hierophant's Wand", blowing it away before this layer of enchantment had time to take effect.

Saio: I was completely fooled!

While thinking this, Neos turned into a beam and flew back to Judai's deck. At the same time, the barrier on the field was also shattered by the whirlwind and was chopped into pieces by lightning.

"Very good! This way my monster effects can be used!" Judai was full of confidence, "The real battle has just begun!"

Chapter 972: Wrath of The Earth!

"The real battle has just begun!"

Saiou snorted: "Yeah, you just destroyed the barrier of light, but don't get carried away. I still have The Light Ruler and The Dark Ruler on the field here.

And don't forget, the effect of 'Spell Card' has taken effect, and no cards on my field can be destroyed during this round! "

"I know!" Judai laughed, "But the strength of my new space partners is not just this level! I activate the Spell Card 'Contact Gate' from my hand!"

The colorful aurora emerged in mid-air and condensed into a ring, forming a shape similar to a door, with colorful streams of light rippling.

“‘Contact Gate’ allows me to banish 2 ‘Neo-Spacial’ monsters with different names from my GY; Special Summon 2 ‘Neo-Spacial’ monsters with different names from my hand, Deck, and/or GY!”

Judai revealed the two cards discarded to the graveyard by "Convert Contact".

"I banished 'Neo-Spacial Dark Panther' and 'Neo-Spacial Glow Moss' from the GY, and special summoned two Neo-Spacials from the deck!"

Two cards popped out of the deck one after another and were drawn into his hand.

“‘Neo-Spacial Grand Mole’ and ‘Neo-Spacial Flare Scarab’, come back to my field once again!"

The two Neo Space heroes who retired in the last round soon appeared again. The mole burrowed through the earth's crust and emerged, and the black-armored beetle came back again wrapped in a ball of fire.

[Neo-Spacial Grand Mole, ATK 900]

[Neo-Spacial Flare Scarab, ATK 400]

Saio said: "It's these two troublesome Neo-Spacials again."

"Activate the Spell Card 'Space Gift'!" Judai said, "For each type of 'Neo-Spacial' that appears on the field, I can draw a card from the deck!"

Since there are two types of Neo-Spacial monsters on the field, Grand Mole and Flare Scarab, I draw two cards from the deck! "

After drawing the card, he showed another one.

"Activate the Spell Card 'O – Oversoul'!" Judai said, "Special Summon 1 'Elemental HERO' Normal Monster in my GY.

Come on, 'Elemental HERO Neos Alius'! "

A huge letter "O" appeared on the field, and the entire letter package was wrapped in purple-black flames and burned brightly. A dark vortex opened, a purple-black beam of light erupted, and a diminutive Neos landed lightly on the field.

[Elemental HERO Neos Alius, ATK 1900]

“‘Elemental HERO Neos Alius’ is a Gemini monster. When it exists on the field, it can be Normal Summoned again to obtain new effects!" Judai said, "I will Gemini Summon Neos Alius!"

His name becomes 'Elemental HERO Neos' while on the field! "

Judai raised his arms.

"I return the three monsters on the field, 'Neo-Spacian Grand Mole', 'Neo-Spacian Flare Scarab', and the 'Elemental HERO Neos Alius' treated as a 'Elemental HERO Neos' to the deck!

Triple Contact Fusion!

Erupting from lava, golden storm...

Elemental HERO Magma Neos! ! ! "

The Neos Alius was in the middle, the Grand Mole was on the left, and the Flame Beetle was on the right. The three beams of light shot straight through the sky and flew into the Milky Way.

Neos Alius: Flame Beetle-san! Grand Mole-san! Lend me your strength!

After three light pillars were swirled by flames, they combined into one and descended from the sky! The blazing pillar of fire seemed to penetrate the ground, and the impact of the flames swept across. The huge Neos fell heavily to the ground, his body seemed to be burning.

[Elemental HERO Magma Neos, ATK 3000]

"Activate the Equip Spell 'Favorite Hero' from the hand and equip it to 'Magma Neos!'" Judai shouted, "Then enter the Battle Phase directly!

At this moment, the effect of 'Favorite Hero' is activated!

I can activate 1 Field Spell directly from my hand or Deck! "

A card popped out of Judai's deck and he quickly inserted it into the Duel Disk.

"I activate the Field Spell 'Fusion Gate' from the deck!"

A huge vortex appeared in mid-air, a dark fusion hole that seemed to lead to another dimension.

"When there is a Field Spell in my Field Zone, the monster equipped by 'Favorite Hero' gains ATK equal to its original DEF, also the opponent cannot target it with card effects!"

[Elemental HERO Magma Neos, ATK 3000 → ATK 5500]

"Then there is also the effect of Magma Neos itself!" Judai said, "He gains 400 ATK for each card on the field!"

At this moment, there were a total of 6 cards on both sides: Elemental HERO Magma Neos, Fusion Gate, Favorite Hero, The Light Ruler, The Dark Ruler, and a set card.

"Magma Neos' attack power increases by another 2400!"

[Elemental HERO Magma Neos, ATK 5500 → ATK 7900]

"The attack power is actually 7,900?" Saio was shocked.

"Battle!" Judai waved his fist, "'Elemental HERO Magma Neos', attack 'Arcana Force EX – The Light Ruler'!"

Magma Neos raised his palm high, powerful light gathered in his hand, the lava flowed, and flaming energy beams shot into his palm, turning into an astonishingly huge fireball!

Super Heat Meteor! ! !

A blow with an attack power of nearly 8,000 seemed to be enough to melt everything on the duel arena!

"Muda!" Saiou raised his hand, "Open the set card: Trap Card – Altar for Tribute! Send 1 monster on my field to the Graveyard and increase my Life Points by an amount equal to the original ATK of that monster!"

Judai: "!"

It's actually the same type of card as my Mystik Wok?

"I sent 'Arcana Force EX – The Light Ruler' to the GY!" Saio shouted, "Restore my Life Points equal to its attack power, which is 4,000 points of health!"

[Saio, LP 5700 → LP 9700]

Nearly 10,000 LP!

"Hahahahahaha, then Magma Neos's attack will be in vain!" Saio laughed, "Although a Battle Replay occurred, even if the attack continues, Magma Neos can only attack 'Arcana Force EX – The Dark Ruler'.

But The Dark Ruler has changed into a defensive position through his own effect, and because of the effect of 'Hierophant's Wand', he cannot be destroyed this turn! "

After a pause, Saio curled his lips and said with a sinister smile: "And if I remember correctly, Neos' activity time seems to be limited, right?"

At the end of this round, Magma Neos will have to return to the deck due to the limitation of his own activity time. Hehe, you will be helpless. "

Faced with Saio's ridicule, Judai did not seem to be panicked. He just scratched his head and said, "Oh my, it seems that something is really wrong."

"We are really underestimated." Yubel floated behind him and said calmly, "Although what he said is indeed true, this spaceman is a waste with only three minutes of endurance, but our Judai is not a man who is helpless at this level."

Neos: "..."

I'm really sorry that I only last three minutes.

"I told you," Judai smiled, "The real battle has just begun!"

Saio: "?"

I have The Dark Ruler whose butt is as strong as 4000 and is indestructible, which is extremely terrifying.

In this situation, can you still OTK me?

Although Saio had flagged himself to death more than once, no one could resist the temptation of raising a flag.

After all, this time, he felt that he was really stable.

My wall is a big monster with 4000 DEF and can't be destroyed; my LP is as high as 10,000. The sea turtle has been thrown away, and the Battle Phase has passed. How can this situation be overturned?

"There is no point in continuing to attack the 'The Dark Ruler', then my Battle Phase is over." Judai said, drawing out two cards in his hand, "Enter the Main Phase 2!

Here I want to use the effect of the Field Spell 'Fusion Gate'! By banishing Fusion Material Monsters from my hand or field, Fusion Monsters can be Fusion Summoned without using 'Polymerization'! "

Saiou frowned.

He plans to Fusion Summon in this situation?

"Then there is the effect of the 'King of the Swamp' in the hand! This card can be used as a substitute for any 1 Fusion Material!" Judai said, "I use 'King of the Swamp' as a substitute for 'Elemental HERO Flame Wingman', and fuse with 'Elemental HERO Sparkman' in the hand!

Illuminate the darkness with your ultimate brilliance and turn it into light to tear apart the darkness...

Elemental HERO Shining Flare Wingman! ! ! "

The black demon king emerged like a ball of mud, and soon transformed into the form of the Flame Wingman, and both he and Sparkman were sucked into the vortex of fusion. A flash of brilliance erupted, and the silver-white wings tore open the sky. The Elemental HERO in silver armor swooped down from mid-air, with the light wings trailing a crystal flash of light behind him.

[Elemental HERO Shining Flare Wingman, ATK 2500]

"The effect of Shining Flare Wingman!" Judai said, "His attack power will increase by 300 points for each 'Elemental HERO' monsters in my graveyard!"

Now in Judai's graveyard there were Brave Neos, Grand Neos, Flare Neos, as well as Blazeman, Liquid Soldier and Avian who were discarded to the graveyard by "Card Destruction" in the last turn, a total of six.

"The Shining Flare Wingman's attack power increases by 1800!"

[Elemental HERO Shining Flare Wingman, ATK 5500 → ATK 7900]

Saiou frowned: "Humph, the attack power is pretty good. But The Dark Ruler cannot be destroyed, and your Battle Phase is over."

"I know." Judai said, "The effect of 'Fusion Gate' is activated again! I fuse the 'Elemental HERO Ocean' and 'Elemental HERO Woodsman' in my hand!"

Saio: "!"

This fusion condition... don't tell me...

"This is the unique miraculous Elemental HERO that Yusei Kato-sensei gave me!" Judai shouted, "The miracle of the third planet, the hero of the Legendary Planet series..."

Elemental HERO Terra Firma! ! ! "

The earth shook, the earth's crust shattered, lava rose into the sky, and countless rubbles and dust flew around the white giant!

[Elemental HERO Terra Firma, ATK 2500]

"Legendary Planet series?" Saio was stunned, "That Yuei Vu actually gave you this kind of card?"

"Elemental HERO Terra Firma's effect!" Judai said, "By Tributing 1 face-up 'Elemental HERO' monster; this card gains ATK equal to the Tributed monster's ATK, until the End Phase!

I Tribute 'Elemental HERO Magma Neos', and the attack power was superimposed on Terra Firma!"

The Magma Neos's body was covered in flames, as if it had turned into countless red-hot light particles and disintegrated, and with the surging lava, all the energy had entered the Terra Firma's body!

[Elemental HERO Magma Neos, ATK 7900]

Terra Firma's white body instantly burned red, white smoke hissed under his feet, and the steam puffed out from behind distorted the space!

[Elemental HERO Terra Firma, ATK 2500 → ATK 10400]

"And the effect of Terra Firma is not limited to once per turn!" Judai said, "Terra Firma's effect is activated again! Use the 'Elemental HERO Shining Flare Wingman' as a sacrifice to increase its attack power!"

Because Magma Neos entered the GY, the attack power of Shining Flare Wingman has been further increased.

[Elemental HERO Shining Flare Wingman, ATK 4600]

[Elemental HERO Terra Firma, ATK 10400 → ATK 15000]

"Attack power 15,000!?" Saio was horrified for a moment, but he quickly calmed down, "Oh, it's just flashy. No matter how high the attack power is, the Battle Phase is over and there's nothing you can do."

"Quick-Play Spell 'Surprise Attack from Beyond'! During the End Phase, conduct a second Battle Phase. A monster which was Normal Summoned, Special Summoned, or Flip Summoned this turn may attack again as if it were a new turn!" (Animation card)

Saio's expression changed slightly: "Wait a minute, even so, The Dark Ruler cannot be destroyed. If it is in Defense Position..."

"The Spell Card 'H – Heated Heart'." Judai smiled, "It will increase the Terra Firma's attack power by another 500 and give him the ability to inflict piercing battle damage."

Saio: "!!!?"

Is there such an operation?

[Elemental HERO Terra Firma, ATK 15000 → ATK 15500]

It cannot be!

I have a wall with 4000 DEF and more than 10,000 LP, how can I be...?

"Another fight!" Judai shouted, "Elemental HERO Terra Firma, attack 'Arcana Force EX – The Dark Ruler'!"

Terra Firma's body has turned red, and white steam was shooting out from behind! The lava turned into a sharp sword, and he slashed with scorching heat in his hand, as if the earth itself was wrathful!

The so-called ruler of darkness had no ability to resist under the power of that sword. The boss of the Society of Light arc, Saio Takuma, finally failed to escape from his so-called "destiny" after the timeline was closed, and even his screams were swallowed up by the Terra Firma's sword that destroyed the world.

[Saio, LP 9700 → LP 0]

Chapter 973: A True Hero Can Be Big Or Small

"Oooohhhhhhhhhh!!!"

Terra Firma's scorching blow split open The Dark Ruler's huge body, and the impact shook through Saio's body unabated.

Saio's expression was distorted in an extremely exaggerated manner, his body rolled in an extremely exaggerated posture, and he let out an extremely exaggerated howl.

Those who were not sure may think that it was an operation in a slaughterhouse.

Logically speaking, this was a data world, everything was virtual, and there must be no impact on the duelist's body. But this duel involved the extraordinary power of The Light of Destruction. It was essentially another form of Shadow Game, a duel in which the survival of both parties was at stake.

Even across the Internet, losers would be instantly wiped out by forces beyond human understanding and plunge into a state of eternal destruction.

...Of course, it's just that the very carefree Judai didn't seem to realize the seriousness of the consequences until the end of the duel.

At this moment, Judai was still posing with his hands on his waist: "Gotcha! That was a fun duel!"

However, Saio's side took a hit from Terra Firma with an attack power of 15,000, and more than 10,000 LP were instantly wiped out. At this moment, he had not yet recovered from the scorching impact and was rolling around screaming, and at the same time, his heart may still be roaring——

——Fun duel my ass!

Do you have the guts to give your pile of Grand Mole, Sea Turtle, Gamini Spark, etc. to the labor and management, let's see if it's still interesting!

Perhaps realizing that it was about to be doomed, as usual, The Light of Destruction separated from the host's body again and turned into a beast with bright fangs and rushed towards him!

Even if it died, it wanted to take this abominable jellyfish head down with it!

But who was Yuki Judai? The protagonist, the child of the world. How could he be taken down by someone who was not the last BOSS?

A flash of colorful light on Judai's Duel Disk, and the light quickly condensed into the posture of "Elemental HERO Neos" in front of him! Neos turned into a physical entity in the light, gave a clear roar, extended his right palm, and a laser beam shot out of the palm!

"Ah ah ah ah ah!!!"

The Light of Destruction was hit by the blue ray, and its body began to twist in pain. It struggled desperately, trying hard to step forward against the ray, but in the end, it seemed unable to resist in front of Neos. In the end, its body broke apart and dissipated unwillingly.

"Oh oh oh!" Judai applauded from behind like a crowd, "Neos is so strong and has great legs!"

Yubel watched from the back row the whole time, with no intention of taking action. She groaned in displeasure: "Tsk, it's just a matter of killing a dying guy who was hanging with only one breath left. There's nothing to brag about.

If I take action..."

Judai: "Neos is so strong! You can actually shoot laser beams, you're so handsome."

Neos: "This is a sure-kill skill. It consumes a lot of energy, so it can't be used often."

Judai: "Haha, it doesn't matter, it still feels so awesome! By the way, I saw how big you became last time, so can you become smaller?"

Neos: "Yeah, it's theoretically possible."

Judai was even more awe-struck.

He can be stretched or contracted, can be long or short, and has the unique skill of shooting white beams. He is indeed the strongest Elemental HERO I designed!

Hmm...it's just that he's a bit short on durability, but that's a minor issue and nothing serious.

A certain behind-the-scenes spirit who was ignored was gnashing his teeth from behind, staring at Neos viciously without blinking... all three eyes stared at the same time.

It's a pity that it still didn't seem to attract any attention.

Yubel coughed heavily and said displeasedly: "Okay, now that the enemy has been dealt with, how long do you plan to continue to watch?"

"Eh?" After hearing her words, Judai was stunned for a moment and turned his head.

After a while, the data on the side began to fluctuate, and three figures appeared out of thin air on the empty street.

It was Noah Kaiba, Yuei Vu, and Mizuchi who came from another scene after playing cards.

"Oh, you're quite sensitive." Yuei Vu smiled, "You actually noticed me?"

Yubel snorted: "Of course, I have been looking after Judai's back!"

While speaking, all three eyes glanced at Neos next to her intentionally or unintentionally.

It's like saying: Do you hear that? I was the one who came first! You who jumped out of nowhere can never replace me!

Neos directly used "Deck Escape" and retracted directly into Judai's deck.

It seemed that after being on Earth for such a long time, Neos has become accustomed to dealing with this senior whose gender was unknown but played the role of a crazy-jealous girlfriend every day.

In short, just stay away as long as possible. He had always avoided arguing with this weird-tempered senior.

At this time, The Light of Destruction seemed to be finished. Saio's facial muscles had returned to normal and he was lying on the side unconscious.

Before, it had a chance to run away with its life like an invincible weakling when it lost a card. However, this time it encountered its natural enemy Ultraman. Not only did it lose the card game, but it was also dealt a supplementary shot of Spacium Beam, so it looked like this thing was completely out of the question.

"See, I told you." Yuei Vu shrugged when turned to Kaiba Noah, "My student doesn't need my protection."

To be fair, Saio in the original work was originally defeated by Judai, and Judai was the real nemesis of Saio. Something went wrong here, making Saio get the idea to capture Judai as a hostage...

So it's not surprising that he ended up like this.

"Elder brother!"

Mizuchi rushed directly to the unconscious Saio and pulled him into her soft arms.

Saio's eyelids moved and he reluctantly opened his eyes.

"Mi...Mizuchi?"

His consciousness was still weak, but he seemed to have recovered.

It's not someone else manipulating him, or a personality derived from The Light of Destruction, but the real Saio Takuma, the hard-working fortune teller who was taken offline from the moment he appeared on the scene.

"Elder brother!"

Seeing that her brother, who had been offline for so long that people thought he had burped, came back to life, Mizuchi was moved and subconsciously increased her strength to hug him into her arms.

Fortunately, this was a virtual world. Otherwise, in reality, the half-dead Saio would have to be suffocated to death by her two airbags.

"Great, great. I thought you had..."

Mizuchi was moved to tears. Saio struggled to reach out and touched his sister's head. He might have wanted to say something, but his mouth and nose were blocked and he was a little speechless...

After a long while, Mizuchi let go of his brother and turned to Yuei Vu and Judai: "Thank you for liberating us from the hands of the devil."

Saio's face turned a little purple from holding himself back. After a long time of calming down, he finally seemed to remember something. He quickly raised his head and said to Yuei Vu: "By the way, Mr. Yuei Vu, there is something very important."

It's regarding the person who controlled Monster Zero to snatch me away, another puppet possessed by 'The Light of Destruction'..."

Yuei Vu pricked up his ears: "Who?"

"A person you are familiar with, a person who is perfectly hidden between you." Saio said with a serious expression, "A person you would never expect."

Chapter 974: Ambushed Monarch

Yuei Vu didn't realize until now that he had been in a blind spot all along.

The man who took away King Ghidorah, rescued Saio, and now may even have stolen the "Quantum Cube" kept by Kaiba Corporation, has always been like a shadow. It felt like he was everywhere, but when you looked carefully, you couldn't find any trace of him.

It was clearly shown in the original work that the Light of Destruction has extremely strong parasitic ability. They could attach to any human or spirit.

It could be anyone, any card.

Or maybe even someone you know well.

This was the blind spot in Yuei Vu's thinking – ignoring that people he thought he was familiar with may also become suspects. It wasn't until Saio's light personality was defeated and Saio himself revealed the name of the person behind the scenes that he suddenly realized.

Now Yuei Vu finally saw the facts clearly and knew what the problem he ignored was, but it may have taken too long. He had to fill in the omission, and he just hoped it wasn't too late.

And it just so happened that at the same time that the chaos on the academy side was coming to an end, Yuei Vu received new news.

Another news from Mokuba – Mokuba has almost become the official contact person between Kaiba Corp and Yuei Vu. If there was anything he thought Yuei Vu needed to know, he will be notified immediately.

"Brother Yuei Vu, we just received a distress signal!"

"Distress signal?" Yuei Vu was stunned, "Who sent it?"

"It comes from an organization called 'Monarch', located in the Pacific. It seems that their Pacific Sea Base was attacked."

Considering that their distress signal was sent to us, it was probably an accident related to the Shadow Game or Duel Monster spirits. "

Monarch was attacked?

Yuei Vu pondered briefly and said, "I know. Send me the coordinates and I'll go over and have a look."

The location of the Duel Academy island was not too far from the coordinates of the base. Seeing that the Saio siblings were defeated, and there were masters in the academy including the Ishtar siblings and his reliable apprentice Yuki Judai, there must be no other troubles, so Yuei Vu left the mess and rushed straight to that coordinate.

He had a strong premonition that he would meet the person he was looking for in the Monarch sea base that was attacked.

...

Monarch organization, Pacific Sea Base.

Three minutes ago, a sudden sneak attack came to this base.

The first thing that came was extremely bad weather. It was rare weather that a person might rarely see once in his life, with strong winds and roaring waves on the sea. The golden tornado seemed to be hanging upside down between the sea and the sky, with tons of seawater flying around the outside of the tornado.

The sea base did not initially realize the seriousness of the problem. At first, they only thought that this might be a once-in-a-century severe weather event, and no one connected it with the horror that was about to strike.

And they were also confident in the disaster resistance of this base. This sea base was the pinnacle of current human technology and could withstand any storm.

But it didn't take long for them to realize that this view was a little too optimistic.

"Wait a minute, that storm is a little weird!" Someone on the boat suggested, "This reading... this doesn't look like an ordinary storm!"

An accompanying expert quickly came to the computer and quickly checked various values.

"This is... a moving gravitational field!" The expert's face changed suddenly, "It's not a simple storm. There is some kind of gravitational field that is moving with something in the center of the storm... It's fast!"

"It's coming our way!"

"The life signs of a large creature have been detected!" Someone said in a panic, "That tornado is alive!"

At this moment, a bolt of golden lightning tore through the sky, like a glorious sword striking the outer protective shield of the base. The impact wave spread like ripples against the protective layer, making a heart-stopping "sizzling" sound.

"Monster Zero." Dr. Serizawa's face turned cold.

There was no doubt. Not only did all the instruments and readings display like this, but he could feel that his old friend, the "Dogoran, the Mad Flame Kaiju" residing in his deck, seemed to be gradually heating up, roaring and shouting in the void, as if eagerly begging for battle!

The tornado was torn apart by silver-white wings, and three ferocious heads poked out of the whirlwind!

Monster Zero – a.k.a Thunder King, the Lightningstrike Kaiju – rushed out with its huge bone wings flapping, roaring as if it had lightning in its mouth!

Another impact caused the entire base to shake violently!

The blue protective shield struggled to withstand the bombardment of the Lightningstrike Kaiju, but it only lasted for about three to five seconds, and was quickly disintegrated under the terrifying impact.

The turbulent water crashed onto the deck, as if several meteor hammers were taking turns pounding the foundation of the steel building.

With no more obstacles in front of him, the Thunder King roared proudly, dragging the golden lightning downwards and launched a charge!

The sea water seemed to be burned red-hot for a brief moment, and the energy impact of the flames burst out from under the sea surface! The beam hit the diving Thunder King head-on. The three-headed dragon screamed sharply and was pushed back by the beam.

Atomic Breath!

The sea water was broken open, and the hot body came out of the water with a hissing sound of evaporating water. The dinosaur-like beast glared at the three-headed dragon, roaring in protest, and the sound waves seemed to turn into waves sweeping across the sea.

Dogoran, the Mad Flame Kaiju was summoned!

Thunder King adjusted his posture, flapped his wings and charged again. Water warfare was Dogoran's specialty, and it was not to be outdone, roaring and flying towards it.

The two Kaijus fought fiercely!

As the saying goes, when gods fight, mortals suffer. The protective cover of the sea base had already been destroyed, and the buildings were also damaged to a certain extent by Thunder King's lightning offensive.

At this time, two such large Kaijus were fighting fiercely next to each other, and the aftermath of every move may bring extra burden to the building.

And the problem Monarch had to face was not just the Monster Zero.

While the two Kaijus were fighting, new attacks also followed. Multiple entrances to the base were blasted open at the same time, and a group of ordinary duel spirits jumped in and quickly started an ambush.

The enemy quickly broke into the headquarters.

The door to the command room was blown open, and everyone stood up nervously. The guards in the room all pulled out their sidearms and pointed them at the door at the same time – even though

they all knew that guns were of little use in this situation. At best, they only served to embolden themselves.

A figure appeared at the door.

Dr. Serizawa's face changed slightly: "Is it you?"

"Yes, it's me."

The man simply ignored the muzzles pointing at him in a circle next to him, and slowly raised the Duel Disk in his hand.

"Dr. Serizawa, this is the end of your organization." He paused and said, "And your 'Dogoran, the Mad Flame Kaiju', I'm afraid you have to hand it over to me as well."

Chapter 975: The True Enemy

When Yuei Vu's helicopter landed at the sea base, he immediately saw a large transport aircraft parked steadily on the tarmac. The black shell was printed with the word "D", which was the logo of Department D.

He knew that he might have come a little too late for the Monarch.

At this time, the sea surface has returned to calm, and the huge Kaiju has disappeared as if it had never existed. But the huge base was already riddled with holes, and many parts of the building structure were burned to black, leaving traces of being swept by flames or struck by lightning.

Whoever the enemy was, it looked like they were gone. The entire facility was now under the control of Department D, and Yuei Vu could see their soldiers everywhere.

But these soldiers may have received instructions from their superiors, and no one stopped Yuei Vu. This allowed Yuei Vu to come directly to the command room relatively unimpeded.

Officer Fujino was in the command room of this base. The surroundings were in a mess. The big screen was blown to pieces, the cracked console exposed the wiring, and the inside seemed to be roasted to a crisp.

"We are late." Fujino seemed not surprised by Yuei Vu's arrival and said straight to the point, "When we arrived, everyone alive in this facility had fallen."

There are traces of a fierce battle between the giant beasts outside, and there are also traces of a Shadow Game in the command room – and it is a very high-level one.

It seems that Dr. Serizawa, as a representative, had a big battle with someone here, but judging from the result, he may have lost.

Dr. Serizawa, like everyone else, is now in an unexplained coma. My men just took them away..."

Yuei Vu listened to his words without saying a word, only looking at him expressionlessly.

"Hell, we are always one step behind them." Fujino was a little anxious, "Although I don't like Monarch, let alone Dr. Serizawa whose overly idealistic theories make me feel sick, there is no denying that he is a powerful guy, a truly ruthless character. Even you might have to be careful. I know you are the Duel King, but Serizawa is no ordinary duelist either. To be able to defeat him in such a short period of time, it must be an extraordinary opponent..."

Yuei Vu finally spoke: "Let's cut out the nonsense, Fujino... Or do you prefer the name 'The Light of Destruction'?"

Fujino suddenly shut up, with an expression as if he had swallowed a pound of nails alive.

He looked at Yuei Vu in surprise: "What are you talking about?"

Yuei Vu observed Fujino's surprised reaction and felt that he was not deliberately pretending.

"I thought it was strange before. Although I have never had a good impression of your Department D, at least you have been somewhat useful in some incidents in the past."

Yuei Vu said slowly.

"Even if there are loopholes in your intelligence system, you shouldn't be as blind as this time. Whether it's the intelligence of Monster Zero, the intelligence of the Society of Light, or the traces of Saio, you are slow in all aspects."

"...Wait, is that just because of this?" Fujino frowned, "Maybe we did make some omissions, but just because of this, you suspect... that I am the enemy's mole?"

Yuei Vu did not answer his question but continued on his own: "Monster spirits will not leave the duelist very far. Dueling monster spirits have something similar to a 'range' in our world. The farther away the force will be, the weaker it will be.

And there is no way for a spirit that has left too far to escape back to its master's deck immediately.

In other words, when I summoned 'Osiris' in Antarctica and beat Monster Zero to the point of dying, it disappeared out of thin air – which meant that the duelist holding it was very close to where we were fighting."

Yuei Vu paused and narrowed his eyes.

"You and I were standing in the same cabin when we were attacked by Monster Zero."

Fujino's expression became even more incredible: "Do you think I was the one who released Monster Zero... and then attacked the aircraft I was riding on?"

"You know I will stop it." Yuei Vu said calmly, "And even if I don't, I believe you must have insurance measures."

"Absurd!" Fujino shouted.

"The incident with Saio Takuma was also the same." Yuei Vu said, "He had already lost the duel. If Monster Zero hadn't appeared in time, I would have eliminated Saio Takuma's light personality there.

At that time, Monster Zero also disappeared quickly after kidnapping Saio. Looking back now, maybe the duelist holding Monster Zero was also near the headquarters of the Society of Light at that time. "

Yuei Vu looked directly at Fujino without blinking.

"After Saio Takuma was kidnapped, you showed up immediately with your subordinates, right?"

"...I don't know what to say."

Fujino was speechless.

"What you said...how to put it? It's very imaginative, but don't you think there are a lot of loopholes? Or maybe these are just coincidences?

You also know that I am the head of this department, and my task is to handle extraordinary matters. Of course, I would be present at places where unusual events occurred, but that didn't mean anything.

Your far-fetched logic is like saying that if you see bad things happening wherever the police are present, you simply blame them on the police..."

"Maybe, it's true that these don't mean anything. I just raised some doubts that I just recalled. Maybe it's just a coincidence. Of course, these don't mean anything." Yuei Vu shrugged.

But before Fujino could breathe a sigh of relief, Yuei Vu followed up and said, "But the problem is Saio Takuma has already confessed about you."

Fujino: "..."

"I believe you may really not know these things." Yuei Vu said lightly, "You may really know nothing, and it is not your intention to be a traitor among us.

So now I am not talking to you, but to the other you in your body. "

Yuei Vu narrowed his eyes.

"The Light of Destruction possessed Saio Takuma and gave birth to a personality that was beyond his control.

When Saio Mizuchi was possessed, a new personality was also born, overriding her original self.

So there is no need to pretend, I know you're in there, The Light of Destruction. Let's solve it quickly."

As he spoke, he had already raised the Duel Disk. The Shadow Game was activated at the same moment, and the invisible realm instantly covered the entire command room, locking both sides in the middle.

"Or, I can force you to come out." Yuei Vu said.

"..."

Fujino said nothing for three to five seconds and closed his eyes.

When he opened his eyes again, they were already red, and a transparent shock wave swept along the command room.

"In that case, then as you wish, Duel King!"

His facial muscles were distorted, giving off a standard "Light of Destruction" look, and his voice became powerful and rough.

He raised the Duel Disk in his hand.

"Come, king of this world! Everything will be assimilated by the supreme light – you are no exception!"

Chapter 976: Rival From Ancient

"Duel!" x2

【Yuei Vu, LP 4000】

【Fujino, LP 4000】

Fujino himself was not much of a duel master, and Yuei Vu knew this. This guy was nominally the leader of the government's Department D in charge of duels, but in fact he was mainly responsible for office tasks.

To put it simply, his usual job just required him to show his face, negotiate with people, hold meetings and shake hands. In fact, there was nothing that required him to go into battle personally. If there was any real danger that required a duelist to play cards or fight monsters, he would actually have his subordinates responsible for that.

But Yuei Vu clearly knew that the opponent he was facing now was not actually the real Fujino.

What he faced here was "The Light of Destruction" from the depths of the universe – the evil force that resided in the body of "Thunder King, the Lightningstrike Kaiju" that came to the earth in ancient times.

After Monster Zero, which may have been frozen in Antarctica, awakened, the first host chosen by the Light of Destruction was Fujino, the leader of Department D.

Yuei Vu could only assume that this guy should be stronger than Saio.

But what was relatively good news was that the random result of the Duel Disk gave the opponent the first move. If Fujino was still using the "Kaiju" deck at this time – and there was a high probability that he should be – then it will be more uncomfortable to go first.

The specialty of Kaiju was that it could eat any monster on the opponent's field, but on the other hand, if the opponent did not have a single monster on the field, the Kaiju monster could easily be stuck in the hand.

"I'm the first to go, draw!" Fujino showed a card without thinking, "The Field Spell 'Kyoutou Waterfront' is activated!"

The site was turbulent, with the azure sea stretching as far as the eye can see, buildings rising from the ground, and the bustling Tokyo Bay covering the entire site.

"I summon the 'Sangan' in attack position!"

[Sangan, ATK 1000]

"Then activate the Spell Card 'Tribute Doll'!" Fujino said, "Tribute 1 monster and Special Summon 1 Level 7 monster that can be Normal Summoned from my hand!"

I offered the 'Sangan' on the field as a sacrifice—

——Radian, the Multidimensional Kaiju is summoned!!! "

Sangan disappeared from the field as a sacrifice, followed by a burst of dimensional distortion. Black figures emerged as if countless figures overlapped at the same spatial coordinates.

The humanoid Kaiju suddenly landed, its scarlet eyes seeming to pierce through people.

[Radian, the Multidimensional Kaiju, ATK 2800]

"The effect of 'Sangan' – If this card is sent from the field to the GY: Add 1 monster with 1500 or less ATK from the deck to my hand." Fujino pulled out a card that popped up from the deck, "I added 'Dark Mimic LV3' to my hand."

After retrieving this card, he then revealed another card in his hand.

"Activate the Spell Card 'Allure of Darkness'. Draw 2 cards, then banish 1 DARK monster from my hand.

If there is no DARK monster to banish, all cards in my hand must be sent to the graveyard. "

He drew two cards and revealed the monster card he had just retrieved.

"I banish 'Dark Mimic LV3' from my hand!" The card in Fujino's hand turned into golden light points and dissipated. He then raised his hand and pointed at the bustling coastal city.

"The effect of Kyoutou Waterfront! Each time a card is sent from the field to the GY, place 1 Kaiju Counter on this card for each sent card!

So far this turn, 'Sangan', 'Tribute Doll', and 'Allure of Darkness' have entered the graveyard, so the number of Kaiju Counters placed reaches three! "

Sure enough, at this time, three golden lights were lit up on the towering tower in the center of the city, eye-catching like a beacon in this reinforced concrete jungle.

"Another effect of 'Kyoutou Waterfront'!" Fujino said, "Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 'Kaiju' monster from my Deck to my hand.

I added 'Jizukiru, the Star Destroying Kaiju' from my deck to my hand! "

After another search, a Kaiju card was drawn out, and the deck was automatically shuffled.

"Then there's the effect of 'Radian, the Multidimensional Kaiju'!" Fujino said, "Once per turn, Radian can remove 2 Kaiju Counters from anywhere on the field to summon its own clone!

I removed the two Kaiju Counters from 'Kyoutou Waterfront' and Special Summoned 1 'Radian Token'! "

The Multidimensional Kaiju's body began to shake more violently, and an afterimage split from his body, transforming into another "Radian, the Multidimensional Kaiju" not far away, which looked exactly the same as the original one.

[Radian Token, ATK 2800]

"Set a card, I end my turn." Fujino continued to maintain a "The Light of Destruction"-style grin, "Okay, it's your turn!"

"My turn, draw!"

Kaiju had an almost invincible ability to clear the field. Every monster was very easy to summon and had high attack power and powerful effects.

In addition, unlike decks like Orichalcos or Malefic, which couldn't fight without the field, the Kaiju series did not rely on their field that much. Although the absence of Kaiju Counters would limit the abilities of Kaijus, it did not affect their terrifying ability to eliminate the enemy's big monsters by eating them, nor did it affect the ability of big Kaijus with high stats to jump out almost unconditionally.

Moreover, Kaijus could activate their effects as long as they had Kaiju Counters, and "Kyoutou Waterfront" was not the only card in the Kaiju series decks that could place Kaiju Counters. In addition, "Kyoutou Waterfront" itself had a resistance that could "remove a Kaiju Counter instead of destroying it", making it even more difficult to solve.

So if your opponent used a Kaiju deck, you must attack as quickly as possible here.

"Activate the Spell Card 'Graceful Charity'. Draw 3 cards, then discard 2 cards.

Next is the Spell Card 'E-Emergency Call', which adds an 'Elemental HERO' from the deck to my hand. "

Yuei Vu drew a card that popped up in the deck.

"I added 'Elemental HERO Stratos' to my hand.

Then I summon the 'Elemental HERO Blazeman'."

[Elemental HERO Blazeman, ATK 1200]

"The effect of Blazeman – If this card is Normal or Special Summoned: I can add 1 'Polymerization' from my Deck to my hand."

Yuei Vu pulled out the card he searched from the deck and then showed the other card in his hand.

"Spell Card 'HERO's Bond'! If there is a face-up 'HERO' monster on the field: Special Summon 2 Level 4 or lower 'Elemental HERO' monsters from my hand."

Yuei Vu took two monster cards in one go.

"Come, Elemental HERO Stratos, Elemental HERO Shadow Mist!"

[Elemental HERO Stratos, ATK 1800]

[Elemental HERO Shadow Mist, ATK 1000]

"The effect of Stratos – When this card is Normal or Special Summoned, add 1 'HERO' monster from my Deck to my hand. I added 'Vision HERO Faris' to the hand.

The effect of Shadow Mist – If this card is Special Summoned: I can add 1 'Change' Quick-Play Spell Card from my Deck to my hand. I added 'Mask Change' to my hand. "

Seeing three heroes popping out of Yuei Vu's side at once, and the cards in the deck flicking out, Fujino couldn't help but snorted.

"Ha, are you ready to fight with all your might?" He stuck out his tongue and licked his lips, sneering, "Then go ahead, Duel King!

If you don't fight with all your strength, you won't be able to understand what true despair is!"

Chapter 977: VS Kaiju!

"Discard 1 other 'HERO' monster, and Special Summon 'Vision HERO Faris'. Then the effect of Faris will place the 'Vision HERO Increase' from the deck in my Spell & Trap Zone as a face-up Continuous Trap."

"The effect of Increase – Tribute 'Vision HERO Faris' to special summon himself from my Spell & Trap Zone. After that, special summon 'Vision HERO Vyon' from the deck!"

"The effect of Vyon – Send 'Destiny HERO Malicious' from the deck to the graveyard. Then banish 'Vision HERO Faris' from the graveyard, and add 1 'Polymerization' from my Deck to my hand!

I added the Spell Card 'Fusion Substitute' to my hand. "

"Then use 'Elemental HERO Shadow Mist', 'Vision HERO Increase', 'Vision HERO Vyon' as sacrifices!

The fate of destruction brings the end of all things, the ultimate D——

——Destiny HERO Plasma! "

The three heroes disappeared from the field, and the bloody mud slowly opened up. A bloody monster emerged from the mud. The hero was dressed in black exoskeleton equipment, with wide bone wings spread out behind his back, and blood dripped to the ground.

[Destiny HERO Plasma, ATK 1900]

"When Plasma is on the field, all monster effects on the opponent's field are negated!" Yuei Vu said, "Then Plasma's second effect is activated!

Once per turn, I can select 1 monster on the opponent's side of the field and equip it to this card, then Plasma's attack power will increase by half of the equipped monster's attack power! I will absorb 'Radian, the Multidimensional Kaiju'!"

Plasma opened his wings, and countless slender tentacles quickly captured the Multidimensional Kaiju's body. Radian roared angrily, but was unable to resist the hero's strange ability. His entire huge body was condensed into a small black sphere, which was absorbed into the bone wings of Plasma under the blood mist.

[Destiny HERO Plasma, ATK 1900 → ATK 3300]

Yuei Vu then played the card that he just retrieved: "The Spell Card 'Fusion Substitute' is activated! I fuse 'Elemental HERO Blazeman' and 'Elemental HERO Stratos' on the field!

The fusion condition is 1 'Elemental HERO' monster + 1 WIND monster! Fusion Summon!

Arriving in the storm——

——Elemental HERO Great Tornado! ! ! "

The tornado dropped from the sky like a dark inverted funnel and landed on the city streets. The hero's cloak fluttered behind him, his arms were folded and hanging in the air, his eyes as cold as a knife.

[Elemental HERO Great Tornado, ATK 2800]

"The effect of the Great Tornado." Yuei Vu said, "If this card is Fusion Summoned, the ATK and DEF of all monsters on the opponent's field will be halved!"

The storm swept out, sweeping over the remaining Radian Token. The huge body of the Kaiju flashed erratically, staggering back in the wind, and couldn't help but reach out to hold the building next to it.

[Radian Token, ATK 2800 → ATK 1400]

Fujino frowned slightly.

He clearly knew that Yuei Vu also held a "Mask Change" in his hand, which could transform the hero monsters on the field in time after the battle to further attack.

Do you want to OTK me?

"Then activate the Spell Card 'Card of Burial Magic'." Yuei Vu said, "Banish 3 Spell Cards from my Graveyard and draw two cards from the deck." (Animation Card)

Three cards popped up from the GY one after another and were picked up by Yuei Vu and displayed.

"I removed the three cards 'E-Emergency Call', 'HERO's Bond', and 'Polymerization' from the game and drew two cards!"

He drew two more cards and added them to his hand, then waved his hand.

"Battle!" Yuei Vu said, "Elemental HERO Great Tornado, attack the 'Radian Token'!"

The Great Tornado man spread his arms, and the storm swept along the block. The strong wind blew up the telephone poles and street lights along the way, the road cracked, and the glass along the way cracked.

Super Cell!

"Open the set card: Counter Trap – Negate Attack!" Fujino said, "When an opponent's monster declares an attack: Target the attacking monster; negate the attack, then end the Battle Phase!"

The white air flow formed a whirling vortex. Even if the tornado thunderstorm of the Great Tornado hit this vortex, it would only return in vain.

The electronic display on the Duel Disk jumped to the words "Main Phase 2".

"Set two cards, I end my turn." Yuei Vu said.

"Then it's my turn, draw!"

Fujino glanced across Yuei Vu's field and sneered softly.

"You are the Duel King after all, so I really can't be careless at all. Even if you didn't finish the kill, you still left a troublesome character like 'Destiny HERO Plasma' on the field.

But no matter how strong the monster is, it is meaningless in front of the powerful Kaiju! "

He held up a card in his hand, and it turned out to be the Kaiju retrieved in the last turn.

"'Jizukiru, the Star Destroying Kaiju', eat 'Destiny HERO Plasma' for me!"

An offensive method with almost no stopping means, it could be called an invincible solution. Even though Plasma had the ability to negate the effects of all monsters, he couldn't resist the rule of the game and could only become the ration of the newly appeared Kaiju.

This Kaiju seemed to be made of steel and iron, with a special alloy covering its body. It has retractable tentacles on its head, its shoulders are bulging, and its arms are like sharp spears. All light paths flash dazzlingly on its body.

[Jizukiru, the Star Destroying Kaiju, ATK 3300]

"The effect of the Field Spell 'Kyoutou Waterfront'!" Fujino said, "Once per turn, while 3 or more Kaiju Counters are on this card: I can add 1 'Kaiju' monster from my Deck to my hand.

I added 'Gadarla, the Mystery Dust Kaiju' from the deck to my hand! "

Pulling out the card that popped up in the deck, he slapped it down without thinking.

"Come on! 'Gadarla, the Mystery Dust Kaiju'!!!"

A colorful light curtain appeared in the sky, like an erratic and flashing colorful aurora. The rippling wings slowly spread out, with a wingspan of a hundred meters, just like a silk moth surrounded by extremely gorgeous light effects.

This appearance and special effects should be said to be very realistic, allowing people to see at a glance the corresponding prototype of this Kaiju in the parallel universe——

——The giant moth monster Mothra!

[Gadarla, the Mystery Dust Kaiju, ATK 2700]

Because there was a Kaiju on Yuei Vu's side, all the Kaijus on Fujino's hand could be Special Summoned from the hand unconditionally.

Yuei Vu snapped his fingers: "Open the set card: Trap Card – Floodgate Trap Hole! When the opponent Summons a monster: Change that monster to face-down Defense Position. Monsters changed to face-down Defense Position by this effect cannot change their battle positions! "

"Then I chain with the effect of 'Gadarla, the Mystery Dust Kaiju'!" Fujino said, "Once per turn, remove 3 Kaiju Counters from anywhere on the field; the ATK/DEF of all other monsters on the field become halved! And this effect can also be activated during the opponent's turn!"

Gadarla's mouthparts moved slightly, and crystal-colored powder poured out from the sky, covering the entire place instantly. All other monsters on the field were disrupted.

[Elemental HERO Great Tornado, ATK 2800 → ATK 1400]

[Jizukiru, the Star Destroying Kaiju, ATK 3300 → ATK 1650]

[Radian Token, ATK 1400 → ATK 700]

But at the same time, a black hole opened up under Gadarla. It barely had time to finish spitting out the dust, and then was overturned.

But Fujino didn't panic, and then drew another card and raised it high.

“When the opponent controls a ‘Kaiju’ monster, I can special summon this guy from my hand——

——Kumongous, the Sticky String Kaiju! ! ! ”

Chapter 978: I Negate Your Negate!

Kumongous, the Sticky String Kaiju was summoned!

A huge spider web has formed above the numerous buildings in the city. A huge spider-like beast was entrenched in the center of the web, like an extremely dangerous predator in the jungle.

[Kumongous, the Sticky String Kaiju, ATK 2400]

"Battle!" Fujino shouted, "Kumongous, the Sticky String Kaiju, attack the Jizukiru, the Star Destroying Kaiju!"

Compared to the Great Tornado, whose effect could only be activated at the moment of fusion, it was obvious that the Star Destroying Kaiju given to Yuei Vu by Fujino himself was more threatening.

Jizukiru, the Star Destroying Kaiju: When a card or effect is activated that targets 1 card (and no other cards): You can remove 3 Kaiju Counters from anywhere on the field; negate that effect, and if you do, you can destroy 1 card on the field.

The powerful effect of Star Destroying Kaiju was undoubtedly a time bomb and must be resolved first.

But Yuei Vu didn't let him succeed so easily: "Open the set card: Quick-Play Spell Mask Change! Send 1 HERO' monster I control to the Graveyard, then Special Summon 1 Masked HERO' monster from my Extra Deck with the same Attribute!

I sent the Elemental HERO Great Tornado' to the graveyard, transform!

The lonely hero puts on the mask of revenge and rides the wind to cut through the evil!

Masked HERO Blast! ! ! ”

The gorgeous special effects of the green whirlwind surrounded the Great Tornado whose attack power had been reduced by half, enveloping his entire body in the storm. Armor was transformed into the whirlwind, and pieces of it were dressed on the hero's body.

With a golden belt, a red scarf fluttering in the whirlwind, and dark green armor covering his whole body, the Masked HERO made a handsome appearance surrounded by the whirlwind!

[Masked HERO Blast, ATK 2200]

"What's the point of summoning such a hero?" Fujino frowned.

"Masked HERO Blast's effect is activated!" Yuei Vu said, "If this card is Special Summoned: I can target 1 face-up monster the opponent controls; its ATK becomes half its current ATK!

I halved the attack power of the Kumongous, the Sticky String Kaiju! ”

The Masked HERO's effect was triggered, and he jumped up lightly, spinning rapidly in mid-air! The storm carried leaping green lightning, and the whirlwind was like countless transparent sharp blades slicing toward the Kaiju!

"I see, if the attack power is halved, then my Kaiju's attack power is lower than yours." A white light flashed in Fujino's eyes, "But my Kaiju's ability is better than your Masked HERO!"

The effect of Kumongous, the Sticky String Kaiju is activated!

When the opponent Normal or Special Summons a monster: I can remove 2 Kaiju Counters from anywhere on the field; until the end of the next turn, that monster cannot attack and its effects are negated! "

Facing the storm created by the Masked HERO, the Kaiju launched a fierce counterattack! It entrenched on the network in the center of the city, opening its mouth, and the milky white spider silk struck like lightning!

The spider threads penetrated the green storm like lightning, binding the Masked HERO's body one by one. Blast's body was covered with spider silk and tied up, and he had to stop turning.

The whirlwind also stopped abruptly.

"In this way, the effect of Blast is negated, and the attack power of the Sticky String Kaiju remains the same!" Fujino laughed loudly, "The attack continues! Kumongous, the Sticky String Kaiju, attack Jizukiru, the Star Destroying Kaiju!"

Kumongous sprayed out spider silk again, but this time the penetrating effect was stronger! Like being pierced through by a white spear, Star Destroying Kaiju was penetrated by one blow.

[Yuei Vu, LP 4000 LP 3250]

"Then change the Radian Token' to Defense Position, and I end my turn."

[Radian Token, ATK 700 DEF 0]

The Token whose attack power has been reduced to 700 was obviously no longer of much use. Instead, it would become a weak point that was broken through first, so its better to switch to a Defense Position to act as a wall.

Fujino said: "See? This is the power of the Kaiju! Whether it is effect suppression or attack power, it is better than your Masked HERO!"

Yuei Vu ignored him: "My turn, draw!"

"Activate the Spell Card Legacy of a HERO'. If there are 2 or more Level 4 or higher HERO' monsters in my Graveyard, draw 3 cards!" (manga card)

After looking at the drawn card, he waved his hand, and a card from the graveyard popped out.

"The effect of Fusion Substitute' in the graveyard is activated! I can banish this card from my GY; return 1 Fusion Monster in my GY to the Extra Deck, then draw 1 card."

He showed the Fusion Monster card that popped up in the graveyard.

"I return the Elemental HERO Great Tornado' to the deck and draw a card!"

After drawing the card, Yuei Vu glanced at the cards in his hand, and then his eyes briefly stayed on the Sticky String Kaiju on the opponent's field.

The effect of Kumongous was quite powerful, and there was no once-per-turn limit. No matter what monster was summoned, they would be silenced by it, maximizing its interference performance.

On Yuei Vu's side, there was only one "Masked HERO Blast" who had been silenced. Until the end of this turn, his effects were negated and he could not attack. Even if he summoned a new monster, it would follow the footsteps of Blast.

But he still had countermeasures.

"Activate Spell Card Polymerization!"

After that, Yuei Vu directly showed another card in his hand.

I fuse the Masked HERO Blast on the field and the Masked HERO Gust in my hand!

The fusion condition is two Masked HERO monsters!

From light to darkness, and from darkness to light! Fusion Summon

Contrast HERO Chaos! ! ! "

Extreme light and darkness intertwined into a black-and-white storm. The whirlwind rose into the sky, and the sharp blade sliced through the storm. The black and white hero slowly fell down, and the blue eyepieces were filled with crystal flashes of light.

[Contrast HERO Chaos, ATK 3000]

The ultimate form of Masked HERO, Contrast HERO Chaos!

"Muda!" Fujino yelled, "At the moment you performed the Fusion Summon, because three cards entered the graveyard, the number of Kaiju Counters in Kyoutou Waterfront' has reached five again!

At this moment, the effect of Kumongous, the Sticky String Kaiju is activated!

When the opponent Normal or Special Summons a monster: I can remove 2 Kaiju Counters from anywhere on the field; until the end of the next turn, that monster cannot attack and its effects are negated! "

Spider silk spewed out from the mouth of the Sticky String Kaiju, forming an overwhelming web and pouring towards the chaos hero!

But the chaos hero simply crossed his arms, the white fang knife on the back of his hand flashed, and he easily cut the bunch of spider silk into pieces!

"Nani?" Fujino was shocked, "How could it be?"

"The effect of Contrast HERO Chaos Once per turn, during either player's turn: I can target 1 face-up card on the field; negate that target's effects until the end of this turn."

Yuei Vu pointed at the huge spider-shaped Kaiju.

"So by using this effect, I negate the effect of Kumongous, the Sticky String Kaiju!"

Chapter 979: The Strongest Kaiju

"Use the effect of 'Contrast HERO Chaos' to negate the effect of 'Kumongous, the Sticky String Kaiju!'"

Seeing Kumongous dim under the power of the chaos hero, Fujino could not help but curl his lips.

"Tch, what a convenient hero."

"Activate the Equip Spell 'Favorite Hero' and equip it to 'Contrast HERO Chaos', then enter the Battle Phase directly.

At this moment, the effect of 'Favorite Hero' is activated!

When entering the Battle Phase, I can activate 1 Field Spell directly from my hand or Deck. "

A card popped out of the deck and was pulled out by Yuei Vu into his hand.

"I activate the Field Spell 'Temple of the Kings' from the deck!"

The field card was inserted, the space vibrated, and the earth trembled. The towering buildings collapsed, and the Kyoto broke. The earth shattered, the steel bars broke, and the waves along the coast receded. Simple palaces rose from the ground, and majestic sculptures replaced reinforced concrete buildings.

"Kyoutou Waterfront" had the effect of offsetting destruction by removing one Kaiju counter, but that was limited to effect destruction. When a new field appeared, the old venue must be destroyed. This was a rule-level destruction and there was no way to avoid it.

"In this way, 'Kyoutou Waterfront' will disappear, and your Kaijus will be unable to activate their effects." Yuei Vu said.

"Damn," Fujino muttered softly.

"Then the follow-up effect of the Equip Spell 'Favorite Hero'!" Yuei Vu said, "If there is a card in my Field Zone, the equipped monster gains ATK equal to its original DEF, also the opponent cannot target it with card effects!"

[Contrast HERO Chaos, ATK 3000 → ATK 5600]

"Contrast HERO Chaos, attack the 'Kumongous, the Sticky String Kaiju!'"

The chaos hero jumped up and spun at high speed in mid-air as if riding a black-and-white storm! The two-color whirlwind of chaos engulfed the Kaiju entirely. In the storm, the hero staggered and kicked with his feet. A series of consecutive kicks struck the Kaiju's body continuously, triggering a series of dull explosions.

【Fujino, LP 4000→LP 800】

The damage exceeded three thousand in one breath, and the impact that turned into actual damage was relatively powerful. Fujino's whole body was blown away by the aftermath of the impact, and he rolled on the ground several times in embarrassment.

But he quickly stood up unsteadily and wiped his mouth: "Hey, it feels good now, this is what makes it fun."

Nobody knew whether he was like this by nature, or it was because he was possessed by The Light of Destruction and was broken by it.

Yuei Vu's movements continued: "The subsequent effect of the Equip Spell 'Favorite Hero'! When the equipped monster attacks and destroys an opponent's monster by battle: I can send this card to the GY; the attacking monster can make a second attack in a row!"

He sent the "Favorite Hero" card into the graveyard.

[Contrast HERO Chaos, ATK 5600 → ATK 3000]

Yuei Vu said, "Contrast HERO Chaos, attack 'Gadarla, the Mystery Dust Kaiju' that is in face-down Defense Position!"

Although the remaining monster on Fujino's side was in Defense Position and could not cause damage even if they were attacked, thus it seems like a loss to abandon the "Favorite Hero" here, considering that the opponent was using a "Kaiju" deck, no matter what kind of monster he used, there was the possibility of changing into rations in a second. So it was better to take the opportunity to make more cuts to weaken the opponent's defense.

"Set a card, I end my turn." Yuei Vu said.

Fujino wiped his mouth: "As expected of the Duel King, it's such an effective attack. It does hurt. But... hehehe."

He stood up straight and his expression seemed even more exaggerated.

"Draw!"

As expected, as Yuei Vu expected, even the legendary gods couldn't stop the invincible Kaiju, so naturally his Chaos hero couldn't survive a single round.

"I Tribute the 'Contrast HERO Chaos' on your field and special summon on your field...

...the second 'Radian, the Multidimensional Kaiju'!!!"

The dimensional space was distorted, and the vortex of the black hole opened. "Contrast HERO Chaos" was instantly sucked in and disappeared from the field with a groan.

A black shadow replaced it, its figure was erratic, its eyes were scarlet, and a low and weird laughter came from its throat.

[Radian, the Multidimensional Kaiju, ATK 2800]

"This way, the troublesome chaos hero will disappear, and my card effects will not be negated." Fujino hummed and slowly drew out a card.

"Spell Card 'Terraforming'! Add 1 Field Spell card from my deck to my hand!"

Yuei Vu narrowed his eyes.

Coming again?

"I added the second 'Kyoutou Waterfront' from the deck to my hand." Fujino raised his voice, "Then activate the Field Spell 'Kyoutou Waterfront'!"

The royal temple had just been completed, yet it was immediately crushed to pieces in the re-expanding steel city. Buildings collapsed, towers collapsed, and dust flew everywhere.

“Activate the Spell Card ‘Sacred Sword of Seven Stars’! Banish 1 Level 7 monster from my hand or face-up on my field; draw 2 cards!

I banished the Level 7 ‘Radian Token’ and drew two cards from the deck! ”

The Radian Token that has been struggling until now finally completed its mission and exited the stage, and its value became two cards in the owner's hand. Of course, since it was a token, it was not removed from the game but directly destroyed when it left the field.

"Spell Card ‘Card of Adversity’! If I control no monsters and the opponent controls a Special Summoned monster: Draw 2 cards."

"Spell Card ‘Pot of Greed’! Draw two more cards from the deck."

Two new cards came into play, and he immediately played one of them: "The Continuous Spell ‘The Kaiju Files’ is activated! Each time a ‘Kaiju’ monster is Special Summoned from the hand and/or GY, place 1 Kaiju Counter on this card.

However, like Kyoutou Waterfront, the upper limit of counters that can be placed on this card is also five!

Then, because you have ‘Radian, the Multidimensional Kaiju’ on your field, my Kaiju can be Special Summoned from my hand unconditionally!

So I Special Summoned the ‘Kumongous, the Sticky String Kaiju’ again! ”

The Sticky String Kaiju, who had just exited the field in the last round, has arrived again and is entrenched in the huge spider web formed over Tokyo Bay!

[Kumongous, the Sticky String Kaiju, ATK 2400]

"Due to the special summoning of Kumongous, a Kaiju Counter is placed on ‘The Kaiju Files’." Fujino shouted, "Then the second effect of ‘The Kaiju Files’ is activated!

Once per turn: I can target 1 ‘Kaiju’ monster on the field; destroy that monster, then Special Summon 1 ‘Kaiju’ monster with a different original name from my Deck to its controller's field! ”

Fujino pointed to the "Kumongous, the Sticky String Kaiju" on his field.

"According to this effect, I will destroy Kumongous!"

As soon as he finished speaking, the huge spider exploded out of thin air, with bloody pieces flying everywhere.

The corners of Fujino's mouth raised, revealing a dangerous sneer as if a treacherous plot had succeeded.

"It's finally time to show up. Don't blink, Duel King, because what you are about to see next is the strongest Kaiju in history, the messenger who descended from ancient times to bring destruction!"

The card automatically popped out of his deck and was drawn into his hand, held high above his head.

Thousands of golden thunder fell from outside the sky of Tokyo Bay.

"Thunder King, the Lightningstrike Kaiju is summoned!!!"

Chapter 980: Gravity Lightning Strike!

The sky over Tokyo Bay seemed to suddenly darken, and thunder penetrated the sky. Lightning crackled along the block, shattering countless windows into smithereens along the way.

A dark storm fell from the sky, and a gravitational field covered the entire city. The cracked bricks flew into the air and were struck by lightning in mid-air, shattering into powder one after another.

What descended from the darkness was an indescribable monster! Three heads poked out of the darkness, roaring as if they had lightning in their mouths! The huge body descended in the storm of fluttering wings. The moment it landed, a hemisphere of electric light spread out, knocking down the surrounding buildings and being crushed into pieces in the raging field of electric light!

Monster Zero, King Ghidorah was summoned!

[Thunder King, the Lightningstrike Kaiju, ATK 3300]

"Is it finally here?"

Yuei Vu looked up at the huge three-headed dragon that towered into the clouds, but the dragon was also looking down at him, its eyes full of malice and anger, as if it couldn't wait to eat him up.

Considering that this guy's previous experience with Yuei Vu was not very pleasant, it was understandable that he would hate Yuei Vu so much.

But now it appeared on the duel field as a duel monster. The rules of duel were the supreme laws that everything in the world must abide by. Even if you were the God of Creation, you must follow the rules honestly when it came to the game of cards.

So no matter how impatient this Lightningstrike Kaiju was, it could only intimidate Yuei Vu with its resentful eyes.

Of course, this level of impact could basically be ignored... Just kidding!

Yuei Vu: I didn't show any fear when I faced off against the great evil god Zorc, so who do you think you are?

"The moment Thunder King, the Lightningstrike Kaiju is successfully summoned, a Kaiju Counter is added to 'The Kaiju Files'." Fujino said, "Then because 'Kumongous, the Sticky String Kaiju' entered the graveyard, a Kaiju Counter has been added to 'Kyouitou Waterfront'!"

The Kaiju Counters on both cards are increased at the same time, so the total number of Kaiju Counters on the field reached three.

"Now the preparation is complete." Fujino laughed loudly, "Look out, Duel King! This is the ability of the strongest Kaiju, the absolute power to suppress everything and kill everyone in an instant!

Thunder King, the Lightningstrike Kaiju's effect is activated! Once per turn: I can remove 3 Kaiju Counters from anywhere on the field; the opponent cannot activate cards or effects for the rest of this turn!

Moreover, in this turn, 'Thunder King, the Lightningstrike Kaiju' can attack monsters up to three times! "

This was a very powerful effect. Even in the entire Yu-Gi-Oh card pool, it was very rare.

Card effects could not be activated, which meant that whether life-saving artifacts in the form of Quick-Play Spells and Traps hidden in the back row, or various hand traps and grave traps, they were all useless.

Coupled with the powerful effect of three shots in one round, it was simply an OTK divine weapon!

If he was still preparing to activate any effect, then this moment before the Thunder Dragon King's restriction took effect was Yuei Vu's last chance.

Thinking for a moment, he immediately waved his hand: "Open the set card: Trap Card – Damage Diet! During this turn, all the damage I received will be halved."

A layer of transparent irises appeared in front of him, forming layers of buffer zones.

Theoretically speaking, Ghidorah's multiple attacks could only be performed on monsters, and Yuei Vu only had a lone "Radian, the Multidimensional Kaiju" on the field. After Radian was defeated, Ghidorah could not continue to attack, and the combat damage was actually not high.

But his intuition told him that things might not be that simple.

"Did you still choose to activate the trap? As expected of a Duel King, your intuition is very accurate." Fujino chuckled and showed another card in his hand.

"Quick-Play Spell 'Half Shut'! Target 1 face-up monster on the field; it cannot be destroyed by battle this turn, also its ATK is halved until the end of this turn!"

Yuei Vu narrowed his eyes.

Sure, the effect of this card and Ghidorah is a perfect match.

After all, Thunderstrike Kaiju could only attack additionally when the opponent had monsters on the field, and "Half Shut" could not only prevent the opponent's monsters from being destroyed by battle and increase the number of attacks of Thunderstruck Kaiju, but also halve its attack power and increase battle damage.

"I'll halve the attack power of the 'Radian, the Multidimensional Kaiju' on your field!"

[Radian, the Multidimensional Kaiju, ATK 2800 → ATK 1400]

"Battle! Thunder King, tear him apart for me!" Fujino yelled, "Gravity Lightning Strike – three consecutive shots!"

The three mouths of the silver dragon opened at the same time, and golden thunder rolled in its throat!

"First shot!"

Lightning blasted out and hit the Multidimensional Kaiju on Yuei Vu's side head-on! Radian's body swayed, like countless ghosts imposed. The aftermath of the current swept through him and the buffer zone of "Damage Diet" to hit Yuei Vu.

【Yuei Vu, LP 3250 →LP 2300】

"Second shot!"

Lightning struck out again, and two bolts of lightning hit the Multidimensional Kaiju's body at the same time! The Kaiju's body split into countless afterimages, and the lightning struck through Yuei Vu's body again.

【Yuei Vu, LP 2300 →LP 1350】

"Third shot!"

Lightning penetrated Radian's overlapping body like a javelin, hitting Yuei Vu again! Yuei Vu was knocked back by the sliding steps, black smoke dispersed, and his windbreaker flew behind him.

【Yuei Vu, LP 1350 →LP 400】

As a duel monster spirit, Ghidorah was quite powerful. Even if the damage was halved, the three consecutive Gravity Lightning Strikes had an output of close to 3,000, and the real pain was far beyond the damage that ordinary spirits could inflict.

"You actually withstand the attack of the Thunder King?" Fujino frowned and snorted, "Set a card, I end my turn."

Ghidorah also roared at Yuei Vu again, seeming to be very dissatisfied with not being able to successfully kill the opponent in this round.

King Ghidorah was known as "the strongest Kaiju". His huge size and aura could put quite a lot of pressure on people. The entire duel venue was covered by its gravitational field full of thunder and lightning, as if it would be electrocuted into powder if you were not careful.

"It's my turn." Yuei Vu glanced at the drawn card and activated it without thinking. "Activate the Spell Card 'Spider Web'! Select 1 card in the opponent's Graveyard that was sent there the previous turn, and add it to my hand." (Animation card)

A white thread shot out from the card, entered Fujino's grave area, and quickly drew out one of the cards.

"The card I want to get is the Spell Card 'Sacred Sword of Seven Stars'." Yuei Vu said, smiling slightly, "I will use the Kaiju you gave me without any courtesy.

I activate the effect of 'Radian, the Multidimensional Kaiju! Once per turn, remove 2 Kaiju Counters from anywhere on the field and Special Summon his own clone!

I removed two counters on 'Kyoutou Waterfront' and Special Summoned a 'Radian Token!'"

The two indicator lights on the Tokyo Tower went out one after another, and the Multidimensional Kaiju twitched violently, and soon separated, and a ghostly black clone appeared on the side.

[Radian Token, ATK 2800]

"Then the Spell Card 'Sacred Sword of Seven Stars' is activated! I banished the Level 7 'Radian Token' and drew two cards from the deck!"

Fujino began to feel unhappy: "You actually used my card without permission..."

What Yuei Vu used was his card, what Yuei Vu spent was his counter, and it's Yuei Vu who gained benefits.

Fujino snorted.

Unhappy, in short, very unhappy!

"Activate the Continuous Spell 'Card of Safe Return'!" Yuei Vu continued, "As long as this card is on the field, every time a monster is resurrected from the graveyard, I draw three cards from the deck.

Then I summon the 'Elemental HERO Liquid Soldier'! "

[Elemental HERO Liquid Soldier, ATK 1400]

"The effect of Liquid Soldier – When this card is Normal Summoned: I can target 1 Level 4 or lower 'HERO' monster in my GY, except 'Elemental HERO Liquid Soldier'; Special Summon it!" Yuei Vu said, "Special summon 'Elemental HERO Blazeman'!"

[Elemental HERO Blazeman, DEF 1800]

"The effect of the Blazeman – Add 1 'Polymerization' from my Deck to my hand when summoned." Yuei Vu said, "Then there is the effect of the 'Card of Safe Return'.

Because there are monsters resurrected in the graveyard, I draw three cards! "

The fusion magic popped out of the deck and was drawn into his hand. The deck was automatically shuffled quickly, and then the three cards at the top popped up, signaling Yuei Vu to draw cards.

"The Spell Card 'Take Over Five' is activated. Send the top 5 cards of my Deck to the Graveyard."

Five cards were sent to the grave one after another, and Yuei Vu showed the next card.

"Activate Spell Card – Polymerization! I fuse 'Elemental HERO Blazeman' and 'Elemental HERO Liquid Soldier' on the field!

The fusion condition is 1 'Elemental HERO' monster + 1 WATER monster! Fusion Summon!

Born from the extremely cold abyss, freezing everything with the absolute power of ice and snow

——Elemental HERO Absolute Zero! "
