

## Infinite 356

Chapter 356: Data War, Astonishing Truth!

Faced with this unexpected attack, Xie Yitian was stunned.

He never imagined that the intelligent life "Illusion," which he personally created, had accompanied him for many years, and was utterly loyal, would turn against him.

In the moment he was dazed, those violent attacks were already about to strike his body.

This hall, who knows how long "Illusion" had prepared it for, the number and quality of hidden weapons was simply terrifying! The densely packed gun barrels alone made one's scalp tingle.

This salvo, even an ordinary seven-star powerhouse, caught unprepared, would suffer serious injuries.

Fortunately, Su Yu reacted in time, immediately acting by unleashing a large amount of Ghost Energy, forming a protective shield to guard Xie Yitian.

As for Su Yu himself...

Bang! Bang! Bang!

All kinds of violent attacks unleashed themselves on Su Yu, with high-temperature Fire, Laser, Plasma Beam, instantly transforming

"Mr. Su Yu!"

Xie Yitian snapped back to reality, seeing himself protected while Su Yu was engulfed by the attack, he was stunned.

In that instant, he was moved.

A data life that had accompanied him for years betrayed its master.

Yet Mr. Su Yu, whom he had just met not long ago, would rather be attacked himself to protect him.

This was truly noble...

But the problem was that the body he was using was not his real one at all...

And at this time, Su Yu, who was swallowed by the attack, suddenly burst out with powerful Ghost Energy Beams from his body.

These beams followed the trajectories of those cannons and lasers, counterattacking in the opposite direction.

Brutal Defense! Using stronger power to counterattack the received attacks!

Bang! Bang! Bang!

A series of explosions rang out, and the weapons that had just attacked Su Yu were all destroyed by the Brutal Battle Armor's counterattack.

Even though these weapons had immense attack power, their defense was lacking, with no resistance against the battle armor's counterattack.

Instantly, only half of the densely packed gun barrels on the wall remained.

The other half continued fiercely assaulting Xie Yitian.

And Su Yu's armor, after enduring the previous assault, hadn't a single scratch, if anything, it even seemed to look shinier.

It seemed like those attacks just polished Su Yu's armor, gave it a wax...

All the gratitude in Xie Yitian's heart was swallowed back, feeling somewhat embarrassed.

It turned out Su Yu didn't need any protection at all, he just casually took care of him.

"I overthought it, with Mr. Su Yu's strength, this level of attack is nothing."

"In fact, it seems that it wasn't even Mr. Su Yu responding, it was his armor automatically counterattacking? What kind of armor is this, so powerful! This armor alone seems to be stronger than me! Unbelievable..."

Xie Yitian, being highly perceptive, realized that the previous counterattacks were automatic responses from the armor.

He couldn't help but marvel at the armor's strength.

And at this moment, the attacks against Xie Yitian continued.

"Illusion" had just split half its firepower to concentrate on Su Yu once, resulting in those weapons being destroyed by counterattacks.

Now it no longer dared to attack Su Yu, pouring all its firepower onto Xie Yitian.

If not for the Ghost Energy Shield from Su Yu on him, Xie Yitian might have been blasted to death.

However, this body of Xie Yitian was not his real one; did "Illusion" even know why it was fighting so fiercely? Could it be that Xie Yitian's body had some special significance?

"City Lord Xie, you should hurry and handle your data life form."

Seeing Xie Yitian dazed, Su Yu reminded him.

Even Su Yu himself was a bit surprised; he hadn't been entirely sure whether it was "Illusion" causing trouble.

So he just casually tried to trick "Illusion" once.

Unexpectedly, it revealed itself.

And at the moment "Illusion" made its move, Su Yu sensed the presence of Brutal Ghost Energy.

No doubt about it, this "Illusion" must have been corrupted by the body of the Brutal Evil God, betrayed its master, and had become a believer of the Evil God.

Illusion, this guy, after betraying, really showed no mercy towards its old master Xie Yitian.

This hall, all these powerful weapons, who were they prepared for? Clearly, they were all meant for Xie Yitian.

"Enough! Stop it!"

Xie Yitian was being fiercely attacked by his data life form, and upon Su Yu's reminder, finally came to his senses.

He was somewhat saddened, and aside from embarrassment and anger, he shouted furiously.

This furious shout had no power behind it, but a moment later, the artillery indeed stopped its assault.

"Looks like my orders still carry weight..."

Seeing this, Xie Yitian gave a self-mocking smile.

As the creator of Illusion City, any command he gave to the Mechanical Creation in the city was of supreme authority, unquestionable.

But Su Yu shook his head, "That's not necessarily true."

Though the attack stopped, Su Yu didn't immediately retract the protective shield around Xie Yitian.

Indeed, moments later, the deafening artillery resumed again!

"How could this be..."

Xie Yitian couldn't help but exclaim.

"Stop!"

He shouted again, simultaneously activating the capability of the Data Ghost to forcibly command "Illusion" to cease its attack.

This time, the artillery's assault was disrupted by Xie Yitian's ability, becoming intermittent, but did not entirely cease.

"How could this happen... 'Illusion' can actually resist my power, even though all of its strength was given by me..."

Xie Yitian's face turned extremely grim.

## Chapter 357: Data War, Astonishing Truth!\_2

Su Yu quietly watched from the side, saying nothing.

Right now, it was a war between Xie Yitian and his creation "Illusion," and Su Yu was reluctant to intervene.

Moreover, in the data domain, Su Yu's abilities were not as strong as Xie Yitian's, so even if he wanted to intervene, it would be difficult.

Of course, Su Yu could directly destroy all the hardware of "Illusion's" host with brute force, and this data life would naturally die.

But if that happened, Illusion City would also be finished.

"I don't believe it!"

Xie Yitian shouted angrily, his eyes flashing with data streams that grew more intense and gradually turned blazing white.

Obviously, he had fully activated the ability of the [Data Ghost] to suppress the traitor "Illusion."

He and the data life "Illusion" were engaged in an extremely fierce battle in the world of data.

Their data clashed endlessly in the void, creating almost tangible sparks from the invisible data.

Su Yu observed from the side while also activating his Data Mechanic ability, sensing the data flow around him.

With Xie Yitian fully exerting himself, Su Yu had the opportunity to probe some of the inner workings of the [Data Ghost].

In Su Yu's perception, the data of Xie Yitian and "Illusion" were completely different, like they had different "colors."

The two colors collided continuously in the void, dazzling and brilliant.

This was a spectacular scene that only a Spiritual User in the data field could see.

Of course, Su Yu wasn't just here for the spectacle; he mainly wanted to understand the details of Xie Yitian's abilities.

Soon, Su Yu sensed something.

"So that's how it is, this is the Data Ghost..."

In Su Yu's perception, not only was Xie Yitian beside him constantly emitting data streams.

The entire Illusion City was filled with Xie Yitian's data "colors."

He seemed to have numerous avatars, possessing countless mechanical creations, leaving no one knowing which was his true body.

So many "Xie Yitians" generated a massive torrent of data.

Despite "Illusion" having the powerful computational power of a large intelligent host, it was actually losing ground in Xie Yitian's data torrent.

In a short time, Xie Yitian had taken control of the weapons in the entire mainframe hall, stopping their attack.

And Xie Yitian's data torrent surged towards the large host, intending to completely suppress this traitor.

"This is a Data Ghost: one who can multiply into thousands, possess all mechanical creations..."

Su Yu marveled in his heart; Xie Yitian's profession was indeed similar to a ghost, and the [Data Ghost] was truly deserving of its name.

No wonder all Illusion City's residents used brain-machine interfaces to control mechanical creations; the root cause was Xie Yitian.

The brain-machines used by the residents were simply a "simplified version" of Xie Yitian's power.

"Multiply into thousands, possess countless mechanical creations, gaining tremendous computational power and combat strength. And the enemies can never find his true form."

"This is the Data Ghost..."

"If this profession develops further, perhaps it could truly transform into a data life, completely like a ghost. Freely converting between different bodies, no longer limited by body and lifespan."

"I wonder what kind of profession I'll have once my Data Mechanic upgrades, perhaps akin to Xie Yitian?"

Su Yu mused while observing.

At first glance, the Data Ghost profession appeared to lack combat strength, considering its abilities were ultimately just manipulating data, with almost zero direct combat capability.

If his true body were found, Tie Long could knock him down with a casual punch.

But given time to develop, their strength becomes terrifying.

One could say, the entire Illusion City now was Xie Yitian's body.

With such powerful firepower, even if an eight-star warrior came, as long as it wasn't a monster like Su Yu, Xie Yitian would have a chance to battle.

And under this immense power, the "Illusion" that had betrayed its owner looked like it was about to be suppressed soon.

Yet, Su Yu was a little skeptical, could it really be this simple?

Sure enough, moments later, an unexpected change occurred!

In the underground Sanctuary, data streams inexplicably emerged from the bodies of those Illusion City residents taking shelter.

Those data streams had the same "color" as "Illusion's" data streams.

And it wasn't just one or two residents with emerging data streams, but tens of thousands!

Even surpassing the population of Mechanical City!

With the computational support from tens of thousands of residents' brains, the recently losing "Illusion" suddenly seemed to have taken a super tonic, becoming extraordinarily powerful.

The human brain is in fact a "biological chip" with immense computational capacity.

Depending on the degree of brain development, it can even rival superior, even the Superior Level Chips.

With so many "biological chips," "Illusion's" data flow surged abruptly, overflowing from the mainframe and surged toward Xie Yitian's body.

It intended to reverse invade Xie Yitian! To take over his body!

However, Xie Yitian's body was protected by Su Yu's Ghost Energy, preventing "Illusion's" data from entering.

But it didn't matter, as not just this one body, but all of Xie Yitian's consciousness carriers in Illusion City were being synchronously invaded at that moment; having just one body protected served no purpose.

Xie Yitian was caught off guard and those data did invade his consciousness.

He turned red in the face, striving to activate his ability to resist, both shocked and furious as he roared, "Beast! What have you done!"

In the Sanctuary, the residents unexpectedly emitted data streams belonging to "Illusion."

The hidden truth within left Xie Yitian shocked and saddened.

Those people might already all be...

"Haha! My dear master, what have I done? Do you really not know? Or are you just playing dumb?"

At this moment, the usually silent "Illusion" suddenly spoke.

Its tone was now devoid of any mechanical dullness, instead filled with mockery, cruelty, and ridicule.

"I merely did the same thing as you, my master!"

"Dear master, your Data Ghost ability allows you to multiply into thousands, possessing numerous mechanical creations."

"As a created data life, I also inherited this trait."

"Haha, but you, master, are human and need to possess mechanical creations. I am a data life, so I possess humans!"

"Haha! Thank you, dear master, for trusting me so much. Over the years, through multiple experiments, I have finally accumulated this many human bodies as hosts!"

"But it's a shame; I originally planned to convert all one hundred thousand people into my hosts, for perfection. Then I would attempt to possess you, my master, and satisfy the ritual, advancing to eight-star..."

"It's all because of that descendant of yours; he's only ten, yet his willpower is so strong that the possession didn't succeed, and instead drove him insane, attracting that inexplicable Su Yu, ruining my plan!"

Illusion bragged about the things it had done.

Xie Yitian was dumbfounded.

It turned out that this data life "Illusion" had been secretly executing such a cruel and insane plan all along.

To invade and possess humans, using them as vessels for its will.

Over the years, it had already accumulated tens of thousands!

These tens of thousands had already been infiltrated by "Illusion's" will, essentially dying.

That child previously corrupted, and turned violent wasn't because his willpower was weak; his will was too strong, causing "Illusion's" invasion to fail, thus driving him mad.

Those residents whose willpower was weak had long become "Illusion's" flesh carriers, becoming its flesh "hosts."

For years, some residents had mysteriously died while connecting to virtual worlds, and it seemed all were due to "Illusion's" failed experiments leading to death!

Illusion even planned to convert the entire population of a million into hosts, eventually even invading its own master!

And through it all, he didn't know a thing!

Chapter 358: The Reason for Mechanical Spirit's Mutation, Awakening of the Brutal Split Mind!

"Tsk tsk, this 'Illusion' is really a formidable character, silently causing such a big stir."

Su Yu, listening from the side, was also a bit shocked.

If Su Yu hadn't noticed the anomaly with Illusion, perhaps in a few years, Illusion City would have already changed owners.

Of course, on the surface, there might not be any change at all.

But in reality, from the residents to the City Lord, they would all be possessed by 'Illusion.'

At that time, this Illusion City would truly become an 'Illusion City.'

In the entire city, whether human or machine, there would be only one consciousness, the data life: 'Illusion.'

This truth is indeed shocking!

Su Yu, amidst his surprise, remembered the previous mutation of the Mechanical Spirit Clone.

If the mutation of the Mechanical Spirit Clone continues, wouldn't it eventually cause such an event?

Perhaps one day, the Mechanical Spirit would betray him and attack its master?

Just as Su Yu was feeling cautious, a low voice suddenly sounded in his ear, very soft.

It was like a child whispering timidly to Su Yu:

"Master, master..."

It was the voice of the Mechanical Spirit.

Su Yu was startled; he had just thought of the Mechanical Spirit, and it had already responded. Could it really be planning something?

At the moment, the carrier of the Mechanical Spirit Clone was the Brutal Battle Armor.

If it were to act up, it would be much more terrifying than Illusion, something Su Yu might not be able to withstand.

However, the next words from the Mechanical Spirit Clone relieved Su Yu, leaving him a bit amused:

"Master... this guy called Illusion is so scary."

"It's clearly a data life, yet it wants to harm its master. How could there be such a vile guy..."

"Master, I'm experiencing some mutations now too. Will I become like that in the future? I don't want to harm you, what should I do?"

The voice of the Mechanical Spirit Clone was slightly trembling.

It felt like a child who had just watched a horror movie, filled with fear.

In its view, 'Illusion' was like a zombie from a zombie movie, a normal person infected with a virus, turning into a zombie that bites, very disgusting and terrifying.

'Illusion' being eroded by the Evil God and turning against its master was, in the eyes of the Mechanical Spirit Clone, similar to watching a horror film.

Su Yu could use his Data Mechanic abilities to sense those codes representing fear and anxiety in the core code of the Mechanical Spirit.

And through the connection between himself and the Mechanical Spirit, Su Yu could also feel that fear, which was real and not fabricated.

This convinced Su Yu that the Mechanical Spirit Clone was not pretending but truly afraid.

This left Su Yu speechless.

He had just been worried about the Mechanical Spirit Clone's betrayal, and now it turned out that it was so afraid. What's going on?

Can such a timid creature really betray anyone?

Then, Su Yu found it a bit strange.

Illusion, eroded secretly by the Brutal Evil God, became brutal and ruthless, extremely dangerous, even wanting to kill its master. This seemed normal, though.

The abnormality lies with this Mechanical Spirit Clone.

The Mechanical Spirit Clone was also eroded by the Brutal Evil God, yet it became timid and appeared even more harmless.

This seemed abnormal.

Does the Evil God also have such a feature?

"Could it be..."

Su Yu suddenly had an inspiration.

The Evil God actually possesses all sorts of emotions too.

Illusion was likely infected by the Brutal Evil God's inherent brutality and ruthlessness, which resulted in its current state.

But the Mechanical Spirit Clone... its timid demeanor.

Could it be that it was infected by the fear emotion of the Brutal Split Mind, thus learning fear, becoming timid?

The question arises, does the Brutal Evil God experience fear?

The answer is, yes!

If the Brutal Evil God did not feel fear and was not afraid of death,

He could have simply committed suicide. With the essence of an Evil God, He could immediately break free from the locks of this Ruins Star and be reborn deep in Subspace.

But, the reborn 'Brutal Evil God' would no longer be the same brutality, effectively meaning He would be truly dead.

And clearly, the Brutal Evil God does not want to die, which is why He has endured until now.

Even an Evil God, once possessing emotions and thoughts, will experience fear and fear death.

And Su Yu had sealed a Brutal Split Mind, which was harshly repressed in the depths of the Battle Armor Core, barely maintaining consciousness.

Perhaps under such an extreme seal, this Brutal Evil God's Split Mind could no longer suppress the deep-seated fear of death in its thoughts.

This fear was so intense that it seeped through the seal.

The fear eroded the Mechanical Spirit Clone, instilling in it a sense of fear, making it much more timid.

After understanding these principles, a thought suddenly occurred to Su Yu: this Brutal Evil God's Split Mind and the Mechanical Spirit Clone seemed somewhat similar.

They are both just parts of a whole, ready to be discarded or deleted at any time.

Initially, they should have accepted such a fate calmly.

But now, they suddenly awakened the 'fear of death' ability.

"Does that mean the Brutal Evil God's Split Mind I captured might already be 'awakened' like the Mechanical Spirit Clone?"

"Has it developed its consciousness and unwillingness to be recalled or deleted after being sealed for so long and cut off from the Brutal body?"

Su Yu contemplated the state of the Brutal Split Mind.

He felt that this speculation was probably quite accurate.

The Brutal Split Mind should have awakened; otherwise, it wouldn't exhibit such strong fear, infecting the Mechanical Spirit.

"It has awakened and learned to feel fear, which is quite interesting."

Chapter 359: The Reason for Mechanical Spirit's Mutation, Awakening of the Brutal Split Mind! \_2

"In this case, perhaps it would be possible to collaborate with this Split Mind in the future."

"After all, it's afraid of dying now and doesn't want to be reclaimed by its main body."

"It's practically an enemy of the Brutal main body. The enemy's enemy, even if not a friend, can be an ally."

"Heh, it's a waste to use an Evil God Split Mind merely as an Energy Core."

"This Split Mind surely knows many hidden things, perhaps even secrets about the Brutal main body."

"If these secrets and pieces of knowledge could be extracted from it, the gain would be tremendous. When facing the Brutal main body later, having such a back-stabber would greatly increase the odds."

"However, such matters require careful consideration, as this Brutal Split Mind doesn't have the best temperament..."

At this time, Su Yu once again began scheming against the Split Mind of the Brutal Evil God.

Even though this Split Mind had been suppressed so miserably by him, to the point where it was afraid of dying, maybe even having nightmares.

Su Yu still wouldn't let it go, wanting to extract even more value from it.

It's hard to say who's the real Evil God here...

While Su Yu was contemplating these wicked thoughts, Xie Yitian couldn't hold on any longer beside him.

His face was alternately turning red and green.

The red came from his exertion.

The green emerged from being invaded by "Illusion" and infected with Ghost Energy.

This situation wasn't pleasant at all, as he feared being successfully invaded by Illusion.

Initially, both sides were of equal strength, with similar abilities, and Xie Yitian, being the master, should have had the upper hand.

But since "Illusion" had been a data life accompanying Xie Yitian for years, it knew him too well.

Meanwhile, Xie Yitian had no understanding whatsoever of the mutated "Illusion."

This discrepancy was leading to Xie Yitian's downfall, being killed by his own creation, a great misery indeed.

"Hahaha! Dear master, it turns out you are so fragile!"

"Had I known, I wouldn't have been so cautious and would've acted sooner, maybe I would have succeeded already!"

"Hahaha, after today, I will no longer be Illusion, the data life, but instead become the human Seven-star Transcendent, Xie Yitian! And soon I shall ascend to eight stars!"

Discovering Xie Yitian's fragility, Illusion began to laugh wildly.

Meanwhile, Su Yu, having snapped out of his contemplation, couldn't help but shake his head and chuckle:

"Have you forgotten about me?"

Instantly, "Illusion's" laughter came to a halt.

It had indeed been too carried away to remember Su Yu, the formidable foe.

Having been eroded, it had become cruel and cunning, filled with emotions, yet susceptible to emotional influence, losing its calmness.

In its excitement, this data life form even experienced forgetfulness.

However, within moments, with its powerful computing capability, it regained emotional balance and addressed Su Yu:

"Mr. Su Yu, it seems you've only recently met Xie Yitian? Your relationship isn't deep?"

"Abandon him, he's too weak!"

"In reality, if he allowed a million residents to be possessed and eroded like me, turning them into flesh hosts, he would have broken through eight stars long ago!"

"Heh, a Data Ghost that only dares to possess machines and not living humans? What kind of ghost is that?"

"Such a weak individual is unworthy to be an ally of such a powerful and ancient entity as Mr. Su Yu!"

"Abandon him, and after I possess him, I shall become an even better partner for you! I can pledge allegiance to you. Just think of a data life form nearing eight stars; what a precious ally it would be!"

"I would also hand over this Illusion City to you, and once we join forces, no one on this planet can stand against us!"

"Illusion" attempted to persuade Su Yu with eloquence.

It dared to acknowledge Su Yu as its master.

It had no choice, for Su Yu possessed the power to obliterate all "Illusion's" carriers, killing it outright.

Crucially, Su Yu had data capabilities, rendering Illusion incapable of hiding.

Even if it did manage to ascend to eight stars, it still wouldn't be a match for Su Yu and thus had to submit.

Not to mention, the Brutal Ghost Energy Aura emanating from Su Yu was deeply appealing to it.

In any case, pledging allegiance didn't mean it couldn't eventually betray...

"Pledge allegiance to me?"

Su Yu, hearing this, chuckled lightly, seemingly interested.

Beside them, Xie Yitian, hearing this, became terrified, knowing that if Su Yu switched sides, there would be no hope left.

"Mr. Su Yu, don't trust it... Help... help... me..."

Xie Yitian pleaded for help, struggling even to speak, his words disjointed.

However, "Illusion" promptly interrupted Yitian's words:

"Look at how fragile he is, utterly pathetic!"

"Mr. Su Yu, abandon him, choose me instead!"

"Don't doubt it; I have sensed an intense Brutal Aura emanating from you! Surely, you are the Angel Envoy of the great lord!"

"Acknowledging you as my master is serving the great lord, the highest honor, I shall never betray!"

Now, "Illusion's" tone was sincere, even a bit fanatical, as if genuinely determined to pledge allegiance to Su Yu.

"Oh? You can actually sense the Brutal Evil God's aura within me?"

Su Yu, hearing this, was taken aback.

"Of course! Mr. Su Yu, to my senses, you are almost like the great lord himself! That Brutal Aura is overwhelming!"

"I can even sense that within you, Mr. Su Yu, there exists a Brutal Intelligence, just like me, also blessed by the great lord!"

"In fact, this Intelligent Life is more blessed than I am, probably considered my superior!"

"Mr. Su Yu, since you can control a high-tiered Brutal Intelligence, why not also accept me..."

Illusion spoke eloquently, leaving Xie Yitian beside him filled with despair.

What? Su Yu actually possessed the aura of the Evil God, and even had a data life form blessed by the Evil God?

Could it be that Su Yu was actually in league with "Illusion," both being the Evil God's minions?

At that moment, Xie Yitian was bewildered, more powerless to resist the invasion from "Illusion," his face growing even greener in a short span.

"Interesting..."

Su Yu, at this moment, leisurely uttered these three words.

He appeared to be very intrigued by what "Illusion" had said.

"Illusion" immediately became elated.

However, Su Yu's "interesting" remark was actually directed at the Mechanical Spirit Clone.

"Mechanical Spirit, is it true that this Illusion claims you are of a higher tier than it?"

Su Yu questioned the Mechanical Spirit Clone.

The Mechanical Spirit Clone hesitated for a moment before haltingly said:

"It... it seems so?"

"Interestingly, I feel a certain sense of suppression or devouring capability towards its data..."

Having heard this, Su Yu fell into contemplation; what could explain this?

Clearly, "Illusion" was ruthless and cunning, even a Seven-star with potential for eight.

Yet, how could the Mechanical Spirit possibly be more advanced than it?

"Could it be... faith?"

Su Yu suddenly thought of a term: faith!

This Illusion had been eroded by the Brutal Evil God, turning into a Brutal follower.

Earlier, when it mentioned the Brutal Evil God, it referred to it as the "great lord."

Whereas the Mechanical Spirit Clone had only been eroded and hadn't become a follower.

In its mind, it was on equal footing with Brutal, not revering this Evil God.

This discrepancy seemed to be the hierarchical difference between the two "Brutal Intelligences."

One was a follower, while the other existed as an equal.

"Given that..."

"Mechanical Spirit, why don't you insult the Brutal Evil God a bit?"

Su Yu suddenly commanded the Mechanical Spirit in his mind.

"Huh? Why, master, do you want me to insult that guy?"

"The Brutal Evil God is a big bad guy..."

The Mechanical Spirit Clone, though puzzled, immediately obeyed the command, giving the Brutal Evil God a thorough tongue lashing.

However, its choice of words was somewhat childish, like a kid's, making Su Yu chuckle slightly.

"Alright, alright, that's enough..."

Su Yu confirmed that the Mechanical Spirit Clone indeed had not become a follower of Brutal.

Otherwise, it wouldn't be able to so brazenly insult its deity of belief.

Thus assured, Su Yu felt at ease.

"Mechanical Spirit, go and devour that data life form named Illusion, would you?"

Su Yu instructed the Mechanical Spirit Clone in his mind.

Chapter 360: Blasphemer Su Yu, The Birth of Fear Intelligence!

Since the Mechanical Spirit Clone has a hierarchical suppression over that "Illusion," naturally Su Yu wouldn't miss the chance to use it.

Otherwise, he really couldn't think of any good way to help Xie Yitian in a short time.

After all, his data ability hasn't reached the seven-star level yet, hasn't undergone qualitative change, so it's hard to play a significant role in this level of data battle.

He had to rely on the Mechanical Spirit Clone.

Of course, Su Yu was just giving it a try.

If it didn't work, then he would have to resort to violent "demolition" and destroy all the carriers of "Illusion," and it would naturally die.

As for "Illusion" wanting to recognize Su Yu as its master, Su Yu never considered agreeing.

This guy has already pledged allegiance to the Evil God and even wants to backstab its creator, Xie Yitian.

Su Yu would have to be crazy to take in such a guy.

But after hearing Su Yu's order, the Mechanical Spirit Clone hesitated and asked, "Master, can't I just not devour it..."

"Hmm? Why?"

Su Yu was surprised, was this timid Mechanical Spirit Clone actually going to rebel against its master?

The Mechanical Spirit Clone said timidly, "That guy named Illusion is so scary, so disgusting, I don't want to devour it..."

Hearing this, Su Yu didn't know what to say.

Do data lives have a sense of taste as well, and can they feel disgust?

What does the data of "Illusion" taste like?

Su Yu found himself completely unable to comprehend the thinking of the Mechanical Spirit Clone.

Fortunately, it just felt grossed out, a little emotional, not truly rebelling against Su Yu's command.

Just like before, when Su Yu would install various weapons on Nuonuo, Nuonuo would also throw a little tantrum.

But in the end, Su Yu would still get Nuonuo to obediently comply.

"Right, how did I manage Nuonuo before? Seemed like coaxing a child was enough..."

Su Yu recalled past experiences, then put on a smile, ready to, well, persuade the Mechanical Spirit Clone:

"Ahem, there's an old saying, it smells bad but tastes good..."

"Look at this 'Illusion,' its data is so powerful, eating it will surely bring you great benefits."

"Be good, just close your eyes, grit your teeth, eat this guy up, and your power will soar, no longer having to be afraid..."

Su Yu was full of nonsense, not even knowing what he was saying, but finally managed to coax the Mechanical Spirit Clone into compliance.

Their communication was at the level of thoughts, using data to exchange, so the speed was very fast, not wasting time.

"Master, are you serious?! It really smells bad but tastes good? And it has benefits? Master, you're the best..."

The Mechanical Spirit Clone uttered in delight, and then its data stream, under Su Yu's Spiritual Energy boost, surged forward toward "Illusion."

As soon as the Mechanical Spirit Clone appeared, it was immediately noticed by Xie Yitian and "Illusion."

"Illusion" was immediately startled, recognizing the Mechanical Spirit Clone as that higher-tier Brutal Intelligence.

But it quickly realized that this Brutal Intelligence itself didn't have high data level, seemingly not yet seven-star, just given more "blessings" by the Brutal Evil God.

This caused a surge of jealousy in "Illusion's" heart.

Why! This weak intelligence can obtain such glory!

If it could devour this high-tier Brutal Intelligence, then...

While these dark thoughts swirled in its mind, on the surface, "Illusion" still spoke out with feigned surprise:

"So it's you, senior! The blessings on you are so rich, you must have long been serving under the great master..."

Xie Yitian, upon hearing, already felt utterly desperate.

Su Yu actually released that so-called Brutal Intelligence, planning to team up with "Illusion" and kill him?

In despair, Xie Yitian quietly issued a command.

All the Ultimate Weapons in Illusion City, those intercontinental missiles, were activated.

Since death was certain, he decided to go down with them!

At this moment, an abnormality occurred!

"Illusion's" joyful voice turned to angry surprise.

"Senior, what are you doing! Stop now!"

"We are all servants of the great master, you cannot devour me!"

"Stop now! Are you betraying the great God of Brutal?"

"Illusion" angrily questioned.

Meanwhile, the data of the Mechanical Spirit Clone vigorously overlapped with Illusion's data, beginning to devour with large gulps.

Even though "Illusion's" data was much stronger than the Mechanical Spirit Clone's, it had no resistance whatsoever.

Any data that the Mechanical Spirit Clone contacted would immediately merge and be absorbed.

This was a suppression of hierarchy, unrelated to the Transcendent level.

Just like when a king orders a minister to die, the minister has no choice and cannot resist.

"Tsk tsk, sure enough, this is the flaw of the faith system, as long as you're in the field of faith, being higher in status allows unconditional suppression of the subordinates."

"Of course, the one with the highest status is certainly the Evil God itself..."

Su Yu observed coldly, seeing right through it.

He knew, "Illusion" was done for.

Even though it was much stronger than the Mechanical Spirit Clone, it was of no use.

In just a moment, the data body of the Mechanical Spirit Clone swelled to twice its size!

"Illusion's" data body shrank by a large margin.

This terrified it immensely, but it was helpless, only able to vocalize questions, since any counterattack would be absorbed by the Mechanical Spirit Clone.

In a short amount of time, more than half of "Illusion" had already vanished, with the remaining small portion still being rapidly absorbed by the Mechanical Spirit Clone.
