

Infinite 376

Chapter 376: Is there a 7-star powerhouse you don't like? Introduce me.

Su Yu was very pleased with this change, feeling even more adapted to the subspace environment!

With the Evil God Origin, returning to subspace felt like coming home. Recognizing directions seemed normal.

Not only could he discern directions in subspace, but there might also be more hidden benefits waiting for Su Yu to discover.

Su Yu carefully sensed this change for a while, then began to walk through subspace.

In the past, he would use the method of recalling coordinates to teleport to the gathering hall.

This time, he wanted to walk through subspace by following the directions and "walk" there.

In subspace, instant teleportation is not difficult.

Simply recalling the coordinates would transport you to the corresponding place, provided the coordinates are indeed safe; otherwise, transporting to a dangerous location would be like delivering oneself to the doorstep.

However, walking step by step in subspace is truly challenging. Without the ability to discern direction and coordinates, one might walk in circles for a lifetime.

And now, Su Yu finally had the ability to stride through subspace, which was a significant progress.

This is what true subspace travel is like.

As he walked, Su Yu suddenly extended his hand and grabbed a mass of energy.

At the core of this energy was a writhing mass of rotten flesh, which possessed considerable strength as it squirmed, but to Su Yu, this strength was akin to an ant.

The mass of rotten flesh struggled for a moment, realizing that Su Yu's immense power was insurmountable, and immediately began to tremble in fear.

Su Yu examined the mass closely, sensing that it was purely composed of various energies, emotions, concepts... within subspace.

There was not a trace of real-world material; it was purely a product of subspace.

It seemed to possess life and thought.

However, its intelligence was low, and upon sensing Su Yu's powerful aura, it was scared half to death, trembling incessantly.

"Is this... a native creature of subspace? A subspace demon?"

Su Yu looked at the mass of rotten flesh, curious, recalling some knowledge.

Earlier, Xiao Shengyin mentioned in some data given to Su Yu that besides the Evil gods, there were some native creatures in subspace called "demons."

They were far less powerful than the Evil gods, but for ordinary people in reality, they were also very troublesome and even terrifying.

They were born from emotions, so they were extremely erratic and filled with malice towards living beings.

If one of these demons came to the real world, it would cause a terrifying massacre.

In fact, Ghost Demons are also a type of subspace demon, but they are transformed from real-world creatures.

Previously, without the ability to walk through subspace, Su Yu could not discover these native demons, but now he finally saw one for the first time.

He found out it wasn't that difficult to deal with; it looked quite timid.

He forgot to consider that he was now a true Subspace Evil God, a high-level powerful being.

Ordinary demons saw him as a natural enemy and didn't dare to cross him.

After observing for a while, Su Yu casually infused it with active Ghost Energy, transforming this demon into a believer, then tossed it into the depths of subspace.

This thing was also life, and naturally could become a believer.

Moreover, as subspace natives, they are more adept at being believers.

After being transformed by Su Yu, this creature immediately made gurgling sounds, seemingly praying to and praising Su Yu, then disappeared into the depths of subspace.

This thing would "spread the faith" for Su Yu in subspace, converting more believers to provide power to him.

Su Yu's believers were finally expanding into subspace.

It's unknown how many demons are in subspace, and whether there are enough for Su Yu's advancement.

Although Su Yu had become an Evil God, he was unwilling to convert humans into believers, as it might affect his psychological state, making it not worth the risk.

Those Radiation Beasts and subspace demons were the best choices for believers for Su Yu.

If they all died, Su Yu wouldn't even bat an eyelid, completely unaffected psychologically.

After releasing the subspace demon, Su Yu walked step by step into the depths of subspace.

With the guidance of coordinates, he was not worried about not finding the place.

Walking in subspace was not like in reality, where each step left a mark.

Each step could cover an uncertain distance.

It might be just half a meter, or it might be hundreds of kilometers.

After walking for a while, Su Yu's vision suddenly blurred, and a tall building appeared before him, a uniquely styled castle, quietly standing in the depths of subspace, its gates firmly shut.

Su Yu smiled slightly, knowing he had found the place.

This castle was the meeting venue of the Transcendent Union.

Previously when Su Yu attended gatherings, he always teleported inside. Today was the first time he saw the castle from outside.

...

At that moment, inside the castle hall.

The members of the Transcendent Union were already seated.

The group had not yet begun formal trading exchanges and were chatting leisurely.

The topic of conversation was Su Yu.

"Why hasn't Mr. Su Yu arrived yet?"

"Did something happen?"

"No need to worry, perhaps in the next moment, Mr. Su Yu will suddenly appear before us."

"Haha, the last two times we upgraded the defenses to make Mr. Su Yu use the main entrance, but it was useless. This time, we sealed the main entrance entirely, and we all teleported in for convenience..."

Everyone was discussing animatedly.

Xiao Shengyin listened to their conversation, smiling faintly.

The defenses he prepared the last two times were entirely ignored by Su Yu, so this time he just gave up and sealed the main entrance.

Chapter 377: Do you have any 7-star powerhouses that you find disagreeable? Introduce me_2

Even an eight-star powerhouse can't push the door open for a while.

Then everyone can just teleport in.

That way it's more convenient, and also safe.

Unless someone knows the exact coordinates of the hall, no one can come in.

But why hasn't Su Yu arrived this time?

This time, Xiao Shengyin resolved in his heart not to be startled by Su Yu's sudden appearance.

After all, everyone is teleporting in this time, who would scare whom?

Just as he was thinking this, creak...

The tightly closed castle door was slowly pushed open by two massive tentacles.

Everyone was shocked.

Wasn't the door sealed shut? How was it opened? What opened it?!

Everyone quickly turned to look.

They saw a strange figure, six meters tall, looming outside the door, overlooking everyone.

The door itself was just about six meters high, nearly the same as this figure.

This figure, with tentacles writhing all over, had an indistinct face, surrounded by numerous light points, from which came frenzied chants of praise and prayer.

Around the light points was a deep black mist, seemingly capable of devouring all emotions, turning people into thoughtless zombies.

With the appearance of this bizarre figure, a cold, chilling, indifferent, oppressive, and majestic aura instantly filled the entire hall.

Everyone in the hall, upon seeing this figure, felt an impulse to kneel and worship.

As if lower beings had encountered a lofty deity, instinctively wanting to submit, worship, and believe.

However, everyone was a seven-star powerhouse, with firm resolve, and quickly shook off this mindset, but then became even more terrified.

Who is this?

No! What is this?

This aura of majesty and loftiness... Could it be the real Subspace Evil God?

Brutality?

The embodiment of the Brutal Evil God has found their gathering and charged over?

"We're done for!"

"Run!"

"Evil God! So this is the true Evil God! It just casually pushed open the sealed door!"

"I always said that gathering in Subspace wasn't safe..."

Everyone was alarmed, various thoughts flashing through their minds in an instant.

Then almost simultaneously, they disappeared from the hall.

They had already escaped via Subspace teleportation.

"..."

Su Yu walked into the hall, looking at the empty long table, speechless.

He had gone to great lengths to push open the door, why did everyone run?

Did his slight increase in height make him so frightening?

He was also puzzled, why was this door so tightly shut?

Did others have to struggle this much to get through?

He didn't know that the door was originally sealed, and even eight-star strength couldn't easily push it open.

But now, with the Evil God Origin, his power in Subspace was hard to measure.

So although it felt a bit strenuous, he still normally pushed open the door and walked in.

It just gave everyone else a big scare, causing them to all run away immediately.

Su Yu stayed silent for a moment, casually found a high-backed chair to sit down, waiting quietly.

He believed that those who had just fled would soon return.

Sure enough, after a while, the members of the Transcendent Union who had fled returned to their senses.

That figure just now seemed to be Mr. Su Yu!

It just changed too much, especially the aura, making them not recognize him at first, fearing that an Evil God had descended, scaring them immensely.

Now that they had calmed down, they realized they had made a fuss over nothing.

Though it wasn't entirely unwarranted.

Su Yu always teleports to the gatherings, who would have thought he'd walk through the door this time?

Wasn't it said that even an eight-star couldn't open the door? Why didn't it work! President, are you reliable?

The key issue is why does Su Yu undergo massive changes every week, with increased strength and altered appearance.

This time was especially outrageous, he didn't even look human, which made them fail to recognize him! Almost scared to death.

After a while, people gradually returned to the hall.

Everyone looked somewhat embarrassed.

Xiao Shengyin also returned to his position, having been the one to flee the fastest.

He sat in the main seat, looking at Su Yu's towering figure, feeling a bit powerless and helpless.

Three times!

Since Su Yu joined the Transcendent Union, he had prepared three times for gatherings in the hall, and each time Su Yu ignored him.

If this keeps up, his old dignity as president will be completely lost.

Exhausted...

"Ahem, let the exchange begin!"

Xiao Shengyin didn't dwell on what had just happened, instead directly announcing the start of the exchange.

At his words, everyone fell silent, turning to look at Su Yu.

Su Yu also fell silent, why does it seem like this every time? Why is everyone looking at me?

Originally, everyone had things to discuss and trade.

But with Su Yu's sudden appearance, they completely forgot about it.

Now, they only wanted to know what exactly had happened to Su Yu?

What's his true strength?

"Last time we heard Mr. Su Yu was already at eight stars, then we learned it was the power of his armor. But this time, it seems his body is eight-star too?"

"Isn't it ridiculous, in just a few weeks! Next time will he reach nine stars!"

"Mr. Su Yu's aura is terrifying, yet he's usually such a gentle person in reality..."

Everyone looked at Su Yu, their eyes flickering, with their minds racing.

Tie Long was also filled with excitement: "

I'd love to spar with Mr. Su Yu like this again, but no, I fear I'd be beaten to death. Unless I summon my armor, but it only has a few uses left, each time is one less..."

"I really don't know how Mr. Su Yu trains to improve his strength so quickly, is he truly an Ancient One awakening, regaining his power? But it's so fast..."

Despite being extremely curious about Su Yu's situation, no one dared to directly ask him.

After all, such personal strength-related secrets are not to be queried casually.

Finally, after Su Yu grew weary of everyone's gazes, he spoke up.

"Everyone..."

Su Yu began calmly.

At his words, everyone immediately became alert!

Here it comes!

Mr. Su Yu is speaking!

In the previous gatherings, whenever Mr. Su Yu spoke, it was earth-shattering.

This time, what astounding information will he reveal again?

"I plan to find a seven-star powerhouse and their guarded city, to start a war involving hundreds of thousands of people!"

"Do any of you have good suggestions?"

Su Yu scanned everyone as he expressed his request.

His Ghost Hidden Blade was now fully leveled, and it was time to conduct the War Mechanic ritual.

Since that's the case, he might as well inquire at the gathering.

At his words, everyone was suddenly taken aback.

Starting a war with a seven-star powerhouse? Does Mr. Su Yu plan to act against them!

Is this a declaration of war?

In their shock, they almost fled once again.

But upon reflection, they realized Su Yu wasn't targeting them but was consulting for opinions, seeking a suitable opponent.

At this moment, Xiao Shengyin's eyes lit up: "Mr. Su Yu, are you planning to conduct a ritual?"

At his words, Su Yu nodded: "That's right, my Ghost Hidden Blade is fully leveled."

Upon hearing this, everyone took a deep breath.

For they knew that not long ago, Su Yu had conducted a ceremony to ascend to seven stars.

Now he was fully leveled again and planning another ritual?

"Mr. Su Yu, are you about to ascend to eight stars?"

"Aren't you already eight stars?"

"Not eight stars, yet so powerful, if eight stars..."

Everyone couldn't help but exclaim in surprise.

Originally, they guessed Su Yu was eight stars, but now it seemed he hadn't ascended, yet was already this powerful?

What level of strength will he reach after ascending?

Su Yu, hearing everyone's exclamations, shook his head: "It's not eight stars; my Mechanic profession is about to ascend to seven stars."

"Do any of you know any seven-star powerhouses you don't get along with, and can introduce me?"

Su Yu's bold declaration didn't hide his intention to perform the ritual.

Chapter 378: The Origin of the Mastermind, The Strong Lurking in the Shadows!

At the rank of seven stars, any major moves are almost ceremonial requirements, easily guessed by others.

Attempting to leave your mark in the Subspace through a promotion ceremony often creates a great stir, impossible to conceal.

So Su Yu has no need to hide when holding a ceremony.

Saying it directly instead can intimidate others.

However, when people heard Su Yu was not advancing to eight stars but that his Mechanic profession was promoting to seven stars, they were even more shocked.

After all, multiple vocational abilities are truly rare, something they had never seen before.

They have seen eight-star Transcendents, considering they have Xiao Shengyin as the president.

But a dual seven-star profession powerhouse, they had truly never encountered.

At the last gathering, Su Yu claimed his Mechanic profession was close to seven stars, making everyone skeptical.

And now, just a week later, Su Yu's Mechanic profession is about to hold a ceremony to promote to seven stars?

So Su Yu's so-called "close to seven stars" was really that close? Just one ceremony away!

Moreover, holding a ceremony to promote to seven stars requires engaging in a great battle with other seven-star powerhouses? What kind of profession is this brutal!

It must be a profession extremely good at combat; otherwise, it wouldn't have such a requirement!

Thinking back to the last time Su Yu held a promotion ceremony, battling the Evil God for a month, such outrageous ceremony requirements explain why Su Yu is intimidatingly strong.

And now, is Su Yu holding another ceremony...

Wait, when Su Yu first joined the Transcendent Union, could it be that he was looking for a target for the ceremony?

If there is no suitable target, would he consider them?

Tie Long suddenly felt uneasy.

His War City is less than a thousand kilometers from Su Yu's Mechanical City.

This close proximity is very suitable for Su Yu to hold a ceremony!

Recalling the last time Su Yu held a ceremony and battled the Evil God for a month, turning the Ghost Tribe directly into a large lake.

Tie Long felt a shiver in his heart.

His War City, would it also turn into a War Lake...

After Su Yu obtained the Evil God Origin, his image changed dramatically, exuding an overwhelming aura.

This made everyone uncontrollably speculate, fearing Su Yu might use them for his ceremony.

For a moment, no one spoke.

Su Yu waited for a while, feeling a bit helpless, had to coldly speak again: "City Lord Xie."

"Mr. Su Yu, you speak..."

Xie Yitian was startled.

He almost thought Su Yu was declaring a war on his Illusion City for a ceremony.

But he quickly recalled that Su Yu recently saved Illusion City, making it unlikely that Su Yu would target Illusion City, or else saving Xie Yitian would be redundant?

Su Yu looked at Xie Yitian: "The Data Life 'Illusion' of Illusion City has been corrupted. I suspect it's not the Evil God personally, but another seven-star powerhouse plotting in secret."

"That powerhouse intends to target Illusion City, with the ultimate goal of wiping out the entire city! Likely planning to use the entire city's population and City Lord Xie as sacrifices for their promotion ceremony."

"If this is true, the secretly plotting powerhouse is insidious and formidable, a worthy adversary."

"Do you have any clues about this matter? Have you offended any powerhouses?"

Su Yu directly exposed that the corruption of 'Illusion' was the work of a hidden mastermind.

He wanted to ask Xie Yitian if he had any enemies, so Su Yu could help him solve it and tackle his ceremony at the same time.

"Huh? Not the Evil God, but someone scheming in secret?!"

"How could it be, I haven't offended anyone! Besides the Transcendent Union, I've barely seen any other seven-star powerhouses..."

Upon hearing this, Xie Yitian looked utterly surprised, seemingly having no clue at all.

Hearing this, Su Yu scanned the faces of everyone, trying to discern any signs from their expressions.

He suspected that a member of the Transcendent Union might be the hidden mastermind.

After all, you can't judge a book by its cover.

"What? Not the Evil God's doing, but someone scheming? I haven't offended any seven-star powerhouses..."

"Someone intends to use the Illusion City's millions as sacrifices, such a ruthless intent!"

"Is it possible that person is trying to ascend to eight stars?"

Everyone else was also taken aback, engaging in a flurry of discussions.

Previously, Xie Yitian had intended to inquire Su Yu about the Evil God's corruption. Others had similar thoughts.

They were all worried that their own cities might also suffer from the Evil God's corruption.

But now, with Su Yu revealing that it's not the Evil God's doing but a man's hand?

To some extent, such a truth is even more unsettling.

Everyone looked at each other vigilantly.

Evidently, they too had thought of one possibility—the hidden mastermind might be among them!

If someone harbors malice, wanting to use seven-star members and a large number of humans as sacrifices.

It would undoubtedly be more convenient to target familiar members of the Transcendent Union!

Xie Yitian couldn't help but think back to when he had invited other members to visit Illusion City as guests.

Could it be that the corruption was planted at that time...

Su Yu meticulously observed their expressions but found no flaws, indicating that this slight probing revealed nothing substantial.

So he spoke again: "The one who chose to corrupt in secret likely doesn't possess strong direct combat capabilities or is unwilling to reveal their identity."

"Everyone should thoroughly inspect their cities, searching for potential threats of corruption."

"From the experience of Illusion City, such corruption seems to require considerable time to develop and grow. As long as it's discovered early, it can be removed."

Chapter 379: The Origins of the Mastermind, the Powerful Lurkers in the Shadows!_2

"Moreover, I found an invisible city five thousand kilometers northwest of Illusion City, capable of rendering the entire city invisible, possibly with a seven-star stronghold. The corrosion of Illusion City might be the work of this stronghold."

"There is no need for everyone to suspect each other and ruin the harmony."

Su Yu was reassuring everyone to prevent them from suspecting each other, which would be pointless.

Indeed, upon hearing Su Yu mentioning other seven-star strongholds, everyone felt significantly relieved.

At the same time, they were very surprised: "Mr. Su Yu, are you serious? There are really other cities with a seven-star stronghold?"

Even Xiao Shengyin wore an expression of surprise.

It seemed unbelievable that besides the Transcendent Union, there were other seven-star strongholds on this planet.

Su Yu was somewhat puzzled: "Why, are other seven-star strongholds on this planet such a strange thing?"

Everyone exchanged glances, and finally, Xiao Shengyin spoke: "Mr. Su Yu, indeed, we have never seen other seven-star strongholds."

"The entire Transcendent Union is all the seven-star Transcendents I have seen over the years."

Hearing this, Su Yu frowned deeply; this didn't make sense!

Seven-star Transcendents have a long lifespan, at least counted by millennia.

On such a large planet, accumulated over so many years, there are only these few seven-star Transcendents?

Xiao Shengyin noticed Su Yu's confusion and explained: "After being promoted to an eight-star Transcendent, I, taking advantage of my profession, traveled around the Ruins Star back then."

"I saw numerous ruins of big cities all over the planet."

"Judging from the size of those ruins, it's estimated that they all once had a seven-star stronghold."

"Just like my Holy Hidden City and Xie Yitian's Illusion City, they each had populations of at least hundreds of thousands to a million."

"But later, these big cities were destroyed for unknown reasons, and the seven-star strongholds vanished without a trace."

"After Mr. Su Yu joined the Union, upon learning the truth about this planet, I thought those cities and seven-star strongholds touched a taboo and were destroyed by the creations Zhang Chenfeng left behind, but..."

Xiao Shengyin's words carried an unfinished meaning.

But Su Yu understood and nodded:

"But now it seems those cities were destroyed, but the seven-star strongholds, with their strong vitality, might not have truly died..."

"These strongholds, with their cities obliterated and families wiped out, could have been heavily injured, filled with anger and hatred."

"The key is, they don't know who their enemy is."

"If these people survived, the hatred in their hearts is imaginable. Such hatred, accumulated over hundreds or even thousands of years..."

"Having survived such tribulations, these strongholds would likely not dare to risk establishing cities again. They might be lurking in the shadows, searching for their enemies, and looking for ways to advance."

"So, there is actually such a hidden force on this planet. It's unknown how many of these strongholds are lurking in the dark..."

Actually, what Su Yu said was all speculation.

But the more he analyzed, the more he felt it was highly possible!

If Su Yu didn't know the truth about the planet's lockdown, and when his Mechanical City thrived with millions of residents, suddenly one day, divine force descended, obliterating the Mechanical City, turning familiar friends into ashes.

He himself would be grievously injured and on the verge of death.

After surviving such a disaster, Su Yu would undoubtedly no longer dare to emerge and establish cities, but instead, lurk in the dark, searching for his enemies.

Given Su Yu's persistence, such deep hatred would surely be avenged, be it a thousand or ten thousand years later!

Now, those seven-star strongholds in hiding might think the same!

Moreover, having hated for so long, their minds might have been completely twisted, maybe even having turned to the Evil God!

"What? There actually exists a group of such strongholds?"

"Mr. Su Yu makes sense. If my city were destroyed one day, what would I do..."

"Those guys must be twisted by now. No wonder they want to target Illusion City, using a million people as sacrifices..."

"Could our cities also be targeted by them?!"

Upon hearing Su Yu's analysis, everyone suddenly felt a chill down their spines.

Everyone was smart and quickly realized that what Su Yu said could very well be the truth.

There truly might be a powerful force hidden in the shadows!

And the cities of the Transcendent Union members were exposed in the open, with basically no concealment. After all, given their strength, the planet had few things that could threaten them, so what was there to hide?

But now knowing that a strong force in the shadows has its eyes on their cities, and their lives, is terrifying.

Fortunately, Mr. Su Yu joined the Transcendent Union, letting them know the truth about the planet's lockdown, thus deducing the existence of this force.

Otherwise, they wouldn't even know how they died.

Just like Illusion City, without Su Yu, it might one day become a dead city without anyone realizing what happened.

Everyone fell silent, clearly digesting this shocking news.

Even Su Yu was deep in thought.

His recent actions were quite significant, engaging in a major development of the Dead Silence Wilderness.

Could he also have been targeted by the hidden force?

Although the population of the Mechanical City is currently small, that might not be the case in the future.

After a while, Xiao Shengyin suddenly spoke:

"Mr. Su Yu, could I invite you to my Holy Hidden City to check for hidden dangers? You are an expert in the Ghost Energy field, my insight is not as sharp as yours. Of course, we would not let Mr. Su Yu make a trip for nothing; appropriate remuneration will be provided."

Hearing this, Su Yu was about to consider the offer when everyone else's eyes lit up, and they quickly said: "Yes! Mr. Su Yu, please come to my city for an inspection as well..."

"And mine..."

"Same here..."

Everyone began to invite Su Yu to their cities.

Apparently, Xie Yitian resolved the "Illusion" threat with Su Yu's help, giving everyone some inspiration.

In terms of the Ghost Energy, corrosion, and Evil God's domains, who could compare to Mr. Su Yu?

Right now, Mr. Su Yu simply seems like an Evil God himself, and that's what you call expertise...

Hearing these words, Su Yu felt a mix of amusement and helplessness.

How, in such a short time, did he become so popular?

Initially, everyone was quite afraid of Su Yu, worried he might use them for some ritual.

Yet now, they were all eagerly inviting Su Yu to visit their cities as a guest.

The change was too drastic.

But on second thought, he could understand everyone's mindset.

Su Yu's image and aura displayed, although intimidating, were actually quite friendly in attitude.

Su Yu hadn't done anything harmful to others; he even saved Xie Yitian's life.

In contrast, the force lurking in the shadows was much more frightening.

Illusion City nearly faced total annihilation!

If they don't uncover the hidden dangers, who knows when their cities might turn into death zones.

For the sake of safety and survival, they could only cling to Su Yu's powerful support.

"Certainly, but given so many cities, I will need time to visit each one and conduct inspections."

Su Yu thought for a moment and nodded in agreement.

After all, he now has great mobility, capable of flying at multiple times the speed of sound, covering the globe.

Visiting other cities wouldn't be too troublesome.

Moreover, Su Yu was curious about the cities established by other seven-star strongholds and wondered how they compared to Illusion City.

It's a good opportunity to gain some knowledge.

"That's great!"

"Thank you, Mr. Su Yu!"

"We're always ready to welcome Mr. Su Yu's presence..."

Hearing this, everyone breathed a sigh of relief and thanked him in unison.

Su Yu nodded and spoke again: "There's no need for formalities, everyone."

"Before visiting your cities, I have one more thing to do!"

"And that is to explore the invisible city five thousand kilometers northwest of Illusion City!"

Previously, Su Yu had only speculated the invisible city had a seven-star stronghold but hadn't investigated to avoid alerting them.

After all, not knowing the background of that city made it imprudent to be too rash.

But now, Su Yu had decided to go directly to their doorstep!

Chapter 380: New Arrangements for Mechanical City! Exploring Invisible City!

The Invisible City that Su Yu discovered earlier seems to very much match the definition of lurking in the shadows.

The entire Transcendent Union had not previously discovered that city, indeed it was covert and hidden enough.

If Su Yu hadn't been able to fly and see the flaw from above, perhaps they would still be in the dark now.

Could it be that a certain seven-star strongman, after their city was destroyed, devoted themselves to researching advanced invisibility technology and then rebuilt the city?

However, that strongman didn't seem to consider the flaw from the sky.

Maybe he himself couldn't fly and couldn't see the flaw.

"Mr. Su Yu, are you going to investigate that Invisible City?"

"There might be the murderer of Illusion City hiding in that city, please take me with you when you go, Mr. Su Yu!"

Xie Yitian, hearing this, hurriedly said.

Su Yu, upon hearing this, glanced at him and noticed his determined expression, hiding a deep-seated hatred.

Xie Yitian's Illusion City was nearly wiped out, so it would be strange if there was no hatred.

So when he heard Su Yu was going to seek out the mastermind, he couldn't sit still and wanted to go see for himself.

If there was a chance, it would be best to personally take revenge.

"Alright."

Su Yu nodded, if Xie Yitian wanted to go, then he could go.

But if Xie Yitian wanted to personally take revenge, it might not be easy.

Xie Yitian's combat ability isn't great, even if they find the murderer, he might not be able to win.

Unless he could bring all the weapons from Illusion City, but that would cause too much commotion.

Su Yu then looked at the others: "Ladies and gentlemen, if there's nothing else, I'll be heading back to prepare for exploring that Invisible City."

"As for investigating the potential threats in your cities, it will have to wait for a few days."

Hearing this, the others hurriedly said: "Mr. Su Yu, please go ahead, we are in no hurry here."

Su Yu nodded slightly, his figure disappearing from the hall in an instant.

He had already left there.

"Everyone, I must also go back to prepare. Farewell!"

Xie Yitian called out and left as well.

The remaining members looked at each other and saw the worry in each other's eyes.

"To think there are so many hidden dangers around us."

"The blockade by Zhang Chenfeng, threats from the Brutal Evil God, and the seven-star strongmen lurking in the shadows... This planet is really full of dangers!"

"Indeed, if Mr. Su Yu hadn't joined the union, we would still know nothing, perhaps never knowing until we died..."

Everyone sighed for a while, then Xiao Shengyin announced the end of the meeting.

They needed to hurry back to investigate hidden dangers and increase their vigilance.

...

In Mechanical City.

Su Yu snapped out of his thoughts, turned to look around, and was also a bit suspicious, worrying that his Mechanical City had also been targeted by strongmen in the shadows.

He spread his spirit throughout Mechanical City and carefully checked it over; fortunately, he didn't find any traces of Evil God corruption or other seven-star strongmen's presence.

Only then did he feel at ease.

In fact, he was overthinking it; with Mechanical City's small population, it hadn't even qualified to draw attention.

However, this inspection did reveal some issues with the city's residents.

"Why do they all have dark circles under their eyes?"

"And those development teams from War City, even darker circles, they look utterly dejected."

"And that Yue Cheng who came to form an alliance earlier, why does he look like a ghost..."

Seeing these abnormalities in the residents, Su Yu felt a bit alarmed.

Could there really be pollution and corrosion?

Something even he couldn't detect, how terrifying!

He quickly checked the surveillance to find the reason.

But soon, he was laughing and crying.

It turned out these residents and the development teams had been working overtime every day recently, overworking themselves, hence the deep dark circles.

In fact, the work Su Yu arranged for them wasn't heavy at all, even quite easy.

After all, with various Intelligent Mechanics to assist, many times these people just had to supervise to prevent accidents.

Eight hours a day, with weekends off.

The conditions were incredibly good in this era.

After all, from Su Yu's perspective, people don't live to work.

Logically, under such good conditions, they should be full of energy and vitality every day.

But they couldn't help but stay up late and work overtime every day voluntarily! Forcing themselves to look like ghosts...

Su Yu, having many Believers among the Radiation Beasts in Radiation Land, could transport a lot of high-quality materials every day.

The others didn't know these internal matters, they only saw large amounts of resources being transported back continuously.

It immediately made them feel immense pressure.

They were busy every day, yet the resources they collected were less than a third of the total.

The other two-thirds were all transported from who knows where.

Moreover, those inexplicably appearing resources were increasing.

These residents and development teams were thus stimulated, working overtime voluntarily, and not sleeping at all.

Because the living conditions in Mechanical City were too good, so good that they felt guilty.

They feared being useless one day and being abandoned by their leader.

In this era, living a good life in Mechanical City wasn't easy; they didn't want to lose this precious home.

"Tsk tsk, these people are even competing with the Radiation Beasts? They can't outdo them..."

Understanding these internals, Su Yu was at a loss for words.

These people voluntarily engaged in "inner cycle," whereas the competition was against a group of life-disregarding Radiation Beasts, winning seemed impossible—they'd exhaust themselves sooner or later.

However, their worry about being useless and being abandoned by Su Yu was actually justified.

In fact, these people were really not that useful to Su Yu now.
