Chapter 386: Mysterious Land, 2 Planets, Witness the Truth Behind Zhang Chenfeng's Seal!

The content of Su Yu's words was quite shocking because they involved the term 'Evil God'.

Xie Yitian was stunned for a moment and hurriedly asked:

"Mr. Su Yu, what do you mean? Evil God? That City Lord of Heavenly Punishment became an Evil God? Can humans become Evil Gods?"

"And what is the gap between the material world and subspace? I haven't heard of it..."

In his two short sentences, he asked a bunch of questions, showing his shock.

Su Yu did not answer, sensing for a moment again, nodded, and thought to himself:

"That's right, it's the aura of the Evil God Origin!"

It turned out that Su Yu had just sensed the Evil God Origin underground!

This is a fundamental power that only a true Subspace Evil God can possess, at a very high level.

Su Yu was also able to sense it because, after reaching the maximum level with his Ghost Hidden Blade, he also possessed the Evil God Origin.

"I didn't expect this City Lord of Heavenly Punishment to have reached this level..."

Su Yu was secretly alert in his heart.

Actually, he hadn't taken this City Lord of Heavenly Punishment seriously.

After all, judging by various behaviors, this guy seemed like a lunatic scared by Zhang Chenfeng's creations, and his strength wasn't remarkable.

Previously, he even had to secretly erode to take on an Illusion City.

So, after locating the City Lord of Heavenly Punishment, Su Yu didn't hesitate and immediately went underground to confront him.

Anyway, he was confident in his strength to deal with the City Lord of Heavenly Punishment.

According to Su Yu's plan, he would first find the City Lord of Heavenly Punishment, get rid of him, and then have the Mechanical City declare war on the City of Heavenly Punishment to conduct the War Mechanic's ritual.

But unexpectedly, this lunatic City Lord of Heavenly Punishment defied his expectations.

Could it be that the faith in the God of Heavenly Punishment actually turned himself into an Evil God?

Are all the actions of the City of Heavenly Punishment some sort of ritual?

Or is there no ritual at all?

It's just that the intense imprint of the City of Heavenly Punishment in the subspace fits some rule so well that it's more effective than a ritual, causing the City Lord of Heavenly Punishment to become a god directly?

Su Yu thought to himself, "It seems my previous judgment was wrong."

Su Yu realized that the Fear Intelligence had sensed the fearful emotions of the City Lord of Heavenly Punishment not because he was timid.

But because the essence of the City Lord of Heavenly Punishment was already close to that of an Evil God.

And the Fear Intelligence is extremely sensitive to the fear emotions of Evil Gods.

Even though the City Lord of Heavenly Punishment wasn't in the material world, the Fear Intelligence sensed him.

After contemplating for a while, Su Yu finally spoke, answering Xie Yitian's earlier question, "Of course, humans can become Evil Gods. Am I not one?"

When Su Yu said this, Xie Yitian just felt a chill run down his spine.

Mr. Su Yu said he's an Evil God?

He admitted it! He really admitted it!

At this time, Su Yu spoke again, "Don't be nervous..."

By now, Su Yu's voice had already changed, turning into the voice of an Evil God, as if thousands of mentally ill patients were singing in unison.

When Xie Yitian heard this voice, he smiled bitterly in his heart, realizing that Su Yu was showing his true form and not pretending anymore!

"Could it be that the question I asked hit upon Mr. Su Yu's greatest secret?"

"The City Lord of Heavenly Punishment became an Evil God, and it involves secret matters of the Evil God. So, Mr. Su Yu wants to silence me?"

Xie Yitian speculated in his heart.

Since Su Yu had already revealed his true identity as an Evil God, naturally, what followed was silencing.

"It's over..."

At that moment, Xie Yitian just felt darkness before his eyes, as if death was approaching.

Although he was underground and it was already dark before his eyes... and now he didn't even need a coffin.

Xie Yitian had no intention of resisting.

He only felt a sense of 'as expected', indeed Mr. Su Yu was an Evil God!

Ever since Su Yu joined the Transcendent Union, all members had suspected whether Mr. Su Yu was not human but an Evil God?

After all, Su Yu's appearance in the subspace was really too horrifying and bizarre.

But later, after interacting with Su Yu, everyone found that Su Yu was quite approachable, completely unlike the legendary brutal, bizarre, and bloody Subspace Evil Gods.

So later on, everyone thought of Su Yu as an ancient transcendent who had awoken, assuming his profession was special, which made his subspace form so terrifying.

After a period of interaction and exchanges with Su Yu, Xie Yitian had completely regarded Su Yu as a trusted elder in his heart.

But just now, Su Yu said something: Of course, humans can become Evil Gods. Am I not one?

He truly admitted it! That he was an Evil God! He stopped pretending!

And by now, Su Yu had already extended his tentacle and grabbed Xie Yitian.

Xie Yitian just felt a terrifying, cold, dead silent Ghost Energy infusing his entire body, an endless stream of hallucinations surging into his mind.

Xie Yitian didn't struggle at all, facing this dead silent Ghost Energy, all his emotions seemed to be obliterated, without any motivation to resist.

And even if he struggled, it would be useless.

Being a data class, being approached at such a distance was equivalent to death.

Although Xie Yitian was not present in his main body at the moment, he had no doubt that Su Yu had the ability to obliterate his main body through their connection.

The former 'Illusion' also had numerous avatars, yet wasn't it obliterated by Su Yu in the blink of an eye?

Xie Yitian felt that he too would soon be fed to that 'Fear Intelligence'.

"Well, since Mr. Su Yu saved my life, I'll just repay it to him."

"But if he was going to kill me, why did he save me in the first place..."

"It's all my fault for speaking too much, for asking this question!"

"No, I shouldn't have come at all. If it weren't for encountering the City Lord of Heavenly Punishment becoming a god, Mr. Su Yu probably wouldn't have silenced me..."

Chapter 387: Mysterious Land, Two Planets, Witnessing the Truth Behind Zhang Chenfeng's Blockade!\_2

"Thinking about this is useless. Anyway, I'm about to die. So cold..."

Xie Yitian's mind was filled with chaotic thoughts, flickering like a carousel lamp.

Then... after a long turmoil, as the carousel flickered for ages, he revisited all his life memories.

Xie Yitian was shocked to find that he wasn't dead yet?

He realized that Su Yu had already released his tentacles.

However, that cold, deathly silent feeling still lingered around Xie Yitian's body.

Instinctively, he looked up and discovered that he was no longer underground but inside some building.

The building appeared to be a temple forged of alloy, grand and majestic.

Through the temple's window, the outside scenery could be seen; it seemed to be... a grey planet slowly rotating outside.

As the planet rotated, it emitted a captivating power, as if one glance would draw one's soul into it.

Xie Yitian merely took one look and then turned away, not daring to look again.

The walls of the temple were engraved with complex murals.

The paintings depicted scenes of cities being destroyed by powerful forces such as heavenly thunder, meteorites, divine light, and more.

Those mighty forces originated from the sky. Above the sky, a magnificent and terrifying figure was faintly visible.

The murals were not static; they seemed to be constantly wriggling and changing.

If you got distracted, diverted your gaze, and looked again, the details of the murals appeared different.

It seemed as if it was alive.

The terrifying figure in the murals seemed to want to walk out of the paintings.

Looking at these bizarre scenes, Xie Yitian's mind was in a daze.

Where is this place? Wasn't I underground? How did I get here?

At this moment, Su Yu spoke:

"This is where the City Lord of Heavenly Punishment hides, and it's also where he becomes a god."

"As he becomes a god, this place is being pulled into the gap between Subspace and the material world, transitioning towards Subspace."

"This place is very peculiar. If I didn't also possess the Evil God Origin, I wouldn't be able to come here."

Su Yu looked around at his surroundings with some amazement.

This was also his first time being here.

Upon hearing this, Xie Yitian turned his head to look, and was immediately so startled that he shouted:  
"Mr. Su Yu, you..."

It turned out that at this moment, Su Yu was no longer in his previous human form, but was instead the hooded, tentacled, six-meter-tall eerie figure from Subspace.

However, at this moment, this figure was also covered with a ghostly green nearly black armor, from which numerous crimson, skinless arms and blood-red savage eyes emerged densely.

The entire form appeared bizarre yet mighty, serene yet brutal.

Looking at this figure, Xie Yitian's mind could only conjure two words: Evil God!

If this wasn't the Evil God, then who was?

Moreover, Su Yu had already admitted it himself!

However, Xie Yitian was puzzled as to why Su Yu, having revealed his cards, hadn't killed him.

Hearing this, Su Yu also turned his head to look at Xie Yitian, speaking softly:

"Don't be nervous. My profession is just special, having a bit of the Evil God Origin, but I can still retain my sanity."

"I and the City Lord of Heavenly Punishment's Evil God Origins resonated, causing some changes."

After speaking, Su Yu again looked at those murals and the planet outside the window.

Su Yu discovered that there was not just one planet outside the window but two.

One appeared very illusory and twisted.

The other was real and substantial.

The temple where Su Yu and Xie Yitian were located was positioned between these two planets.

"Is this the material world and Subspace?"

Su Yu gazed intently at those two planets, lost in thought.

He instinctively knew, thanks to the Evil God Origin, where this place was.

This was the gap between Subspace and the material world.

The City Lord of Heavenly Punishment became the Heavenly Punishment Evil God, and his temple was dragged by mysterious forces from the material world towards Subspace.

However, it seemed that the City Lord of Heavenly Punishment hadn't fully become a god yet, still on the "road."

This "road" was precisely the gap between Subspace and the material world.

This place seemed only accessible during the process of becoming a god.

Su Yu had ventured into Subspace several times before but had never come here.

This time, he was due to the benefit of the City Lord of Heavenly Punishment.

At this moment, the two planets outside the temple window, one was Ruins Star of the material world.

The other was the projection of Ruins Star in Subspace.

Both Ruins Stars appeared simultaneously within sight.

This kind of scenery was extremely rare.

In the material world or Subspace, there were always seals preventing one from straying far and from seeing the entirety of the planet.

Only in this gap between the two spaces, this Mysterious Land, could one behold such a sight.

"Hovering above the planet is..."

Su Yu's eyes at this moment focused on the atmosphere of Ruins Star.

Beyond the atmosphere, little starlights seemed to orbit the planet.

When Su Yu concentrated further and clearly saw those starlights, he gasped.

Outside the atmosphere, these were not starlights?

They were numerous space stations, satellites, orbital cannons, battleships, mechas...

These high-tech Mechanical Creations had bodies of enormous size.

After all, being visible to the naked eye against a planetary background, what kind of scale was that?

Moreover, in a glance, the numbers appeared almost endless, completely surrounding the entire planet!

"These are the Mechanical Creations left by Zhang Chenfeng, the ultimate seal of this planet..."

Su Yu looked at the terrifying number of Mechanical Creations, unable to help but express admiration.

"What?"

Nearby, Xie Yitian was taken aback upon hearing this.

He couldn't afford to ponder over the difference between Su Yu and the actual Evil God and hurriedly looked over.

Earlier, when he gazed at those two planets, he almost had his soul absorbed, not daring to look again.

But now, after hearing words like Zhang Chenfeng and ultimate seal, how could he care about that?

When he clearly saw those creations, he was so astonished he almost jumped up.

"We need to overcome these things to break through the seal?"

"Are these things something we can really overcome?"

It was the first time Xie Yitian witnessed what the so-called seal really looked like with his own eyes.

Instantly, a chill rose in his heart.

Just from seeing it from afar, he felt an overpowering sense of being completely overmatched welling up from within.

This was his instinct as a Data Ghost!

Within those Mechanical Creations must be extremely potent data entities, any one of which surpassed Xie Yitian in strength!

And the number...

How can this be fought?

Su Yu ignored Xie Yitian and once again turned his head to gaze at the Subspace Planet projection.

Looking closely, he noticed that even outside the Subspace Planet was no exception, with the endless Mechanical Creations sealing the planet.

However, the Mechanical Creations outside the Subspace Planet all seemed distorted, looking incredibly peculiar and bizarre, almost fully merging into Subspace, forming part of the background, encircling the projected planet as a "shell."

"Those Mechanical Creations all have Subspace Imprints."

"Utilizing countless Subspace Imprints to seal Subspace as well, what a skillful move..."

Su Yu sighed once again.

He now understood how Zhang Chenfeng was sealing Subspace.

Subspace Imprint!

Regardless of people or objects, once reaching Seven-star, they would possess a solid and nearly indestructible imprint in Subspace.

Each Mechanical Creation left by Zhang Chenfeng was at least Seven-star, possessing a Subspace Imprint!

These imprints combined together, astonishingly encircled the entire Ruins Star's Subspace, sealing it tightly!

"What?"

Xie Yitian heard this and was even more shocked, turning his head rapidly again to look at Ruins Star's Subspace projection.

With Su Yu's hint, he quickly understood.

Suddenly, his heart grew even colder.

He was a Seven-star powerhouse, having painstakingly gained a Subspace Imprint over a hundred years.

Yet Zhang Chenfeng effortlessly used endless Subspace Imprints to seal a planet?

Is this even humanly possible?

What kind of realm and power did that Zhang Chenfeng possess?

Was his seal something that the small group from the Transcendent Society could break through?

Chapter 388: The City Lord of Heavenly Punishment City Appears! Xie Yitian's Trump Card!

Xie Yitian was deeply shaken at this moment, filled with despair.

Such an opponent is utterly unbeatable!

He couldn't help but turn his head to look at Su Yu beside him.

He found that Su Yu was gazing at the Mechanical Creations with eager eyes.

He even walked to the window, observing carefully, seemingly considering if he could go out and approach those terrifying Mechanical Creations.

"Mr. Su Yu, are you thinking about going out to fight those things?"

Xie Yitian was startled.

Su Yu indeed had this thought.

However, he was considering whether he could use the Mysterious Land to bypass the Mechanical Creations and head into the Universe, leaving the Ruins Star.

But after testing the window, Su Yu found it impossible.

Outside the temple, what appeared to be a vast space was actually a visual illusion.

This temple was the entirety of this Subspace created by the City Lord of Heavenly Punishment City during his ascent to godhood, a temporary creation as he entered Subspace from reality.

Once outside the temple, one would either enter Subspace or return to the Ruins Star, making it impossible to bypass the blockade and directly leave the Ruins Star.

"What a pity, I can only watch but can't go out."

Su Yu sighed.

Upon hearing this, Xie Yitian breathed a sigh of relief, truly worried about Su Yu jumping out to fight those creations.

If he were left here alone, he really wouldn't know what to do.

Now hearing Su Yu say he couldn't go out, he felt reassured.

At the same time, the despair he felt earlier had eased considerably.

The creations left by Zhang Chenfeng were powerful, but the mysterious Mr. Su Yu seemed entirely unafraid!

Su Yu, discovering he couldn't go out, wasn't too disappointed either.

Not being able to go out was actually normal.

If Zhang Chenfeng's blockade had such a huge flaw, it would've long been broken through by the Brutal Evil God.

"By the way, speaking of the Brutal Evil God, where is this guy's body?"

Su Yu suddenly recalled the Brutal Evil God.

Zhang Chenfeng's creations were primarily for blocking the Brutal Evil God, but now the creations had appeared; where was the Evil God? Why hadn't it shown up?

Logically speaking, from this perspective, one could see through two worlds, seeing many things previously unseen.

It should also be possible to see Brutality's true form.

But after looking carefully for a few moments, Su Yu saw only two planets and those Mechanical Creations.

The Brutal Evil God was nowhere in sight.

But after watching a bit longer, Su Yu suddenly realized.

He hadn't not seen the Brutal Evil God, but had seen it from the very start!

He shifted his gaze, no longer looking at Zhang Chenfeng's creations, but at the atmospheres of the two planets.

Thick radiation clouds enveloped both planets like dark clouds, covering the sky for who knows how many years, making sunlight hard to see on the Ruins Star.

These clouds rotated and wriggled continuously, forming bizarre patterns.

Just a glance could draw one's mind in, making one afraid to look too long.

Su Yu had previously glanced at the clouds twice, then looked at those Mechanical Creations.

Now, understanding, he endured the feeling of being drawn in and observed carefully, finally making a discovery.

As the clouds wriggled and rotated, enormous tentacles could occasionally be seen flickering inside.

With the planets as a backdrop, the size of these tentacles was absolutely astonishing!

Each time these tentacles flickered, the Mechanical Creations in orbit subtly adjusted their positions, aiming all their cannons and weapons at those tentacles.

"This is the true form of the Brutal Evil God..."

Su Yu murmured softly to himself.

He understood that hidden within the clouds was the true form of the Brutal Evil God!

This Evil God had been lying within the radiation clouds, watching over this planet!

"What? Brutal Evil God? Mr. Su Yu has seen the Brutal Evil God again? Why haven't I seen it..."

Upon hearing this, Xie Yitian was astonished once more.

The name Brutal Evil God sparked extreme sensitivity in him as well.

He quickly followed Su Yu's gaze toward the two planets, yet he couldn't see any trace of an Evil God.

As he pondered in confusion, he suddenly understood and looked toward those clouds.

Moments later, a massive tentacle wriggled once more within the clouds.

"So... this is the Brutal Evil God? It's been hovering over the planet, watching all of us?!"

Xie Yitian's face revealed horror once more.

Even more than when he first saw those Mechanical Creations, he was filled with fear and despair.

There's a kind of fear that intensifies upon reflection.

From birth until now, Xie Yitian had long become accustomed to the radiation clouds over the planet's sky.

He assumed these clouds were merely air pollution, somewhat unsightly but nothing more.

As a child, he often gazed at the sky, dreaming of one day flying to the cloud's edge to see the sea of clouds described in ancient books.

But now, knowing the truth about these clouds, recalling his past life, his heart grew increasingly cold.

It turned out that his hundreds of years of life had been lived under the shadow cast by the Evil God!

Indeed, all life on the Ruins Star lived under the Evil God's shadow, unable to escape.

If one day, the Evil God were to awaken slightly and extend its divine might, they wouldn't even know where to run!

Truly, no way to heaven, no entrance to the earth.

Whether Zhang Chenfeng's creations or the Brutal Evil God, they were incomprehensibly powerful, enveloping and sealing the entire planet.

In the face of such might, ordinary humans were indeed insignificant, and even a Seven-star Transcendent fared little better.

Chapter 389: The City Lord of Heavenly Punishment City Appears! Xie Yitian's Trump Card! \_2

This Ruins Star is truly despairing.

The stronger you become, the more you know, the more desperate you feel.

However, Su Yu noticed Xie Yitian's expression and comforted him, "Don't worry, most of this Evil God's consciousness is likely already sealed, having fallen into slumber."

Xie Yitian snapped back to reality and nodded slightly.

He knew Su Yu was right.

If the Brutal Evil God were in a normal state, with its terrifying form covering the entire planet, there would likely be no normal life on the surface, only Evil God followers and Ghost Demons.

Only with the Evil God's slumber is there space for human survival.

"But the Evil God is undying; it will eventually awaken one day."

"And we are confined to the surface by Zhang Chenfeng's creations. What do we do then?"

Xie Yitian still found it hard to shake off the despair in his heart.

Hearing this, Su Yu agreed and nodded, "Indeed, it will awaken one day."

"Then before it awakens, continuously become stronger, strong enough to be qualified to fight it head-on! To completely seal or even kill it!"

Su Yu's words were resolute, as if he possessed boundless fighting spirit and confidence; no obstacles could impede his progress.

Upon hearing Su Yu's words, Xie Yitian felt instantly reassured.

Although Su Yu's appearance was now strange, Xie Yitian felt as if Su Yu was emitting a dazzling light, dispelling the darkness in his heart.

However, Xie Yitian couldn't understand how, in the face of such a terrifying enemy, Su Yu maintained such fighting spirit and confidence.

Just as Xie Yitian was shocked and puzzled, another voice suddenly appeared out of thin air in the temple.

This voice trembled, seeming to contain endless fear:

"Great God of Heavenly Punishment, I am your devoted believer. In your name, I have cleansed the sins of a million people. Please, in light of my devotion, do not rain down heavenly punishment on me, do not... do not... do not..."

This voice, towards the end, kept repeating the words "do not," sounding somewhat delirious.

After repeating "do not" dozens of times, this trembling voice suddenly changed, becoming cruel and arrogant:

"God of Heavenly Punishment, you ultimately refuse to spare me! Indeed, you spare no one!"

"Since that's the case, I no longer believe in you! I will kill you and become the new God of Heavenly Punishment, becoming an eternal, undying deity. Hahaha..."

"I succeeded; ordinary people can indeed become gods!"

"Hahaha, I felt it, I am heading to the Divine Domain deep in the Subspace. Since I have ascended to the divine throne, I will forever escape the cycle of life and death!"

"This Heavenly Punishment Temple will become my Divine Kingdom..."

After saying these, the voice changed again, reverting to the previous trembling tone, and seemed even more frightened:

"Great God of Heavenly Punishment, I finally see your true form! You are the eternal shadow in the sky above the planet, the source of all Mechanical Creations, the ultimate end of all life."

"I wish to repent, I am guilty, I dare not entertain blasphemous thoughts, I wish to repent..."

...

Su Yu and Xie Yitian, upon hearing this voice, immediately realized it originated from that City Lord of Heavenly Punishment.

This guy seems somewhat mentally divided, with one personality trembling in fear, while the other dreams of ascending to godhood.

Judging from this strange interstitial space, his dream of becoming a god has already half succeeded.

But the timid personality is still deeply entrenched and hasn't disappeared with the deification.

"The eternal shadow in the sky? The source of all Mechanical Creations?"

Upon hearing this, Su Yu pondered and looked out the window at the two stars.

This so-called eternal shadow likely refers to those dark clouds.

The source of the Mechanical Creations probably refers to the creations of Zhang Chenfeng.

It seems the City Lord of Heavenly Punishment regards these two terrifying things as part of the "God of Heavenly Punishment."

No wonder he's so frightened.

The City Lord of Heavenly Punishment likely experienced a change in mindset, attempting to become a god himself.

Whatever ritual he performed had already mostly succeeded, even acquiring the Evil God Origin.

But upon arriving in this strange interstitial space and witnessing the horrific truth shrouding the planet, the guy was once again scared insane.

"No wonder this guy hasn't truly become the Evil God yet, stuck here due to having been scared half to madness."

Su Yu chuckled inwardly.

Beside him, Xie Yitian was not as carefree as Su Yu, hurriedly turning his head to search for the source of the voice.

Yet the voice seemed omnipresent, having no specific origin, or rather, being everywhere.

Seeing Xie Yitian's actions, Su Yu explained, "No need to look, the City Lord's stealth ability has further enhanced after becoming godlike. He has completely lost his form, becoming some kind of concept and imprint."

"Or rather, this temple itself is equivalent to his body; we are all inside his stomach."

Su Yu, too, possessing the Evil God Origin, could sense many things.

"Inside his stomach?"

"Wouldn't we be 'digested' by him?"

Xie Yitian was shocked upon hearing this, and sharply noticed the issue.

Being inside an Evil God's stomach is no trifling matter.

Su Yu nodded, "Of course, in fact, ever since we entered, everything here has been attempting to digest us."

"However..."

Su Yu hadn't finished saying "however."

Suddenly, on the walls of the temple, the majestic figure from the sky depicted in the fresco became clear, and actually formed a physical shape, stepping out from the fresco.

This figure was a giant six meters tall, about the same height as Su Yu then.

He was surrounded by the Heavenly Thunder Meteor, seeming to be the incarnation of disaster and death.

Upon stepping out, the figure first looked at the two stars outside the window and immediately trembled, his whole body turning translucent as if about to disappear.

He quickly turned his head, not daring to look further, emitting gritted-teeth sounds, "I am about to become a god soon, God of Heavenly Punishment. No matter how strong you are, I will kill you and replace you..."

Apparently, this was the City Lord of Heavenly Punishment with his arrogant, god-seeking personality.

The other timid personality seemed to have completely hidden, not showing itself.

Upon the appearance of the City Lord of Heavenly Punishment, Su Yu and Xie Yitian's gazes immediately locked onto him.

After exploring for so long, this was the first time they saw his true visage.

He was a rather handsome middle-aged man, possessing a dignified aura cultivated from holding high office.

There was also an aura of sheer brutality, as if wanting to destroy everything, that was the Evil God Origin.

"His divine position is the God of Heavenly Punishment, governing over destruction and death, so his aura is quite similar to the Brutal Evil God."

"He probably absorbed some of the brutal aura to congeal such a divine position, becoming godlike on this planet. How could he avoid the Brutal Divine Power?"

"The so-called Heavenly Punishment Divine Power is likely part of the Brutal Divine Power."

"If this guy truly becomes a god, would he directly transform into a fragment of brutality?"

Upon watching the City Lord of Heavenly Punishment, many thoughts flashed through Su Yu's mind.

Beside him, Xie Yitian was already extremely tense, his Spiritual Energy about to burst forth.

The "big boss" had appeared; it was time for the ultimate battle!

Xie Yitian raised his arms, with barrels popping out from each arm.

Su Yu glanced at them, slightly surprised.

He observed that the ammunition in Xie Yitian's barrels were chips.

Special Grade Chips!

Inside those chips were stored vast amounts of Data Spirit Power.

Noticing Su Yu's gaze, Xie Yitian quickly transmitted a stream of data to explain:

"This is my trump card: storing Spiritual Energy accumulated over a century in chips, and using them as ammunition at critical moments to unleash terrifying power."

"However, my Spiritual Energy is limited; I only accumulated these hundred shells. Later, I will attack with all my might to hold him back; the rest is up to you, Mr. Su Yu..."

It turns out Xie Yitian dared to come here to avenge himself on the Heavenly Punishment City Lord, not relying solely on Su Yu, but having a trump card.

As a Data Ghost, he could use Data Spirit Power, storing it in chips to become highly compressed Spiritual Energy bombs with terrifying power.

However, without the Brutal Core's infinite energy, Xie Yitian needed to painstakingly extract all his Spiritual Energy from the Subspace.

Thus, after a century of accumulation, he had these hundred "shells," and a Seven-star Transcendent's century-long accumulation of Spiritual Energy, when released instantaneously, its power was truly unimaginable.

Taking these shells out meant he was about to go all out.

However, when facing the City Lord of Heavenly Punishment, who had already become an Evil God, Xie Yitian had no confidence whatsoever.

He only dared to say that he could help hold back the City Lord of Heavenly Punishment, with the main offense relying on Su Yu.

Once done, he was ready to fire.

But Su Yu extended a hand to stop him:

"No rush, haven't you noticed he hasn't discovered us yet?"

Chapter 390: Ancient God Su Yu? First Assassination Attempt on the Evil God!

Just as Xie Yitian was about to launch his attack, he was taken aback:

"What? They didn't detect us?"

He quickly halted the weapon fire command and carefully studied the City Lord of Heavenly Punishment.

Sure enough, although the City Lord of Heavenly Punishment was not far from Su Yu and the others, he had not glanced in their direction at all, as if they didn't exist.

"What is going on?"

Xie Yitian was baffled. Could the City Lord of Heavenly Punishment possibly be blind?

Su Yu, however, smiled slightly: "It's simple. In this space, my invisibility ability is stronger than his!"

At this moment, this Temple Space was a gap between subspace and the material world, possessing the properties of both spaces.

Here, Su Yu could fully unleash the unique abilities of the Ghost Hidden Blade, just as he would in subspace.

Thus, he directly rendered himself and Xie Yitian invisible.

This invisibility ability was Su Yu's core power as the Ghost Hidden Blade, extremely powerful.

Even though the City Lord of Heavenly Punishment had become an Evil God, he still couldn't detect Su Yu and his group.

"To think even an Evil God can't detect..."

Xie Yitian was astonished.

It's worth noting that the City Lord of Heavenly Punishment was now an Evil God, and even before becoming a god, he was very adept at invisibility. After becoming a god, that ability was probably even more formidable.

For Su Yu to make an Evil God skilled in stealth unable to detect him, what kind of method was this?

To defeat an opponent outright in the domain strongest to an Evil God, what kind of power was this?

Xie Yitian suddenly recalled what Su Yu had said before, and his expression changed again: "Mr. Su Yu said he was also considered an Evil God..."

"So this City Lord of Heavenly Punishment is just a novice in the domain of Evil Gods, no match for Mr. Su Yu."

"Unexpectedly, Mr. Su Yu is not only a veteran in the Transcendent domain but also a senior figure in the realm of Evil Gods..."

"No! In the domain of Evil Gods, one shouldn't be called a senior."

"Rather... an Ancient God?!"

Xie Yitian's mind was filled with bizarre thoughts.

At this moment, in his mind, Su Yu had transformed from a veteran Transcendent to an Ancient God!

An ancient Evil God!

If not an ancient Evil God, how could he handle the newly risen City Lord of Heavenly Punishment so easily? Standing right in front of the City Lord of Heavenly Punishment, yet remaining unseen, the disparity in level was too great.

And Su Yu, unaware of his swift rise in status in Xie Yitian's mind, had become an Ancient God.

Ultimately, emphasizing a state of not being human...

Currently, Su Yu was looking at the City Lord of Heavenly Punishment with a curious interest, as if observing something novel.

The Evil God Origin of the City Lord of Heavenly Punishment seemed to inexplicably attract Su Yu, tempting him to devour it.

If he were to devour the origin of the City Lord of Heavenly Punishment, Su Yu's Ghost Hidden Blade could possibly advance again, maybe even reaching eight stars without a ceremony.

"Evil God Origin, it can actually be strengthened through mutual devouring?"

Su Yu pondered.

It was his first time sensing such an attraction.

After all, he had never before had the chance to witness an Evil God's true form so closely.

Evil Gods possessing an origin were incredibly rare on this planet.

Besides the City Lord of Heavenly Punishment, there was only Su Yu himself; finding another would require seeking out the Brutal Evil God's true form, which was tantamount to seeking death.

In this regard, the City Lord of Heavenly Punishment was indeed a rare "treasure" to Su Yu, an excellent supplement.

Yet, faced with such a "treasure," Su Yu did not feel tempted.

He was concerned that this kind of devouring might lead to contamination and erosion.

After all, since the City Lord of Heavenly Punishment was already mentally fragmented, what good would consuming his origin bring Su Yu?

If, after devouring, he gains immense power only to become insane, turning into a true Evil God, it would not be worth the loss.

"So, I must refrain from devouring!"

"Anyway, with the Profession Panel, upgrading is easy; there's no need to take such a shortcut."

Su Yu immediately resolved internally.

He was not in a rush to upgrade, unwilling to be hasty and greedy.

However, it seemed a pity to let such a rare "treasure" go to waste.

"Speaking of which, I think I have something that can also devour the Evil God Origin..."

Suddenly, Su Yu lowered his head, looking at the chest of his armor.
