

## Infinite 391

Chapter 391: Ancient God Su Yu? The First Assassination of the Evil God!\_2

"What's going on? There seems to be something nearby, attracting me..."

"I am now considered a Subspace God, possessing the Divine Origin."

"The thing attracting me seems to be a type of Divine Origin and is very compatible with me!"

Like Su Yu, he also sensed the attraction of the Evil God Origin to himself.

If he could devour Su Yu, he could immediately enter the subspace completely and become a true Evil God, no longer being stuck in the crevice like now.

"Why can't I find it? This is my Divine Kingdom, any anomaly shouldn't escape my perception!"

"Who's there! Come out!"

The City Lord of Heavenly Punishment searched for a while but couldn't find Su Yu, becoming restless.

He suddenly roared, and the Heavenly Thunder, meteors, and light surrounding his body erupted violently!

Boom, boom, boom!

Intense explosions sounded, making the entire temple seem like it was experiencing doomsday. Infinite Heavenly Thunder and meteors descended from unknown places, brutally bombarding every inch of the temple.

The temple was devoid of any scenery, filled only with blinding light, as if a sun had suddenly exploded there.

The whole temple was on the verge of collapse under this terrifying attack, as if it could disintegrate at any moment.

From the looks of it, if this had erupted outside, it could have wiped a city of millions off the map!

This is the City Lord of Heavenly Punishment's Divine Power, the Power of Heavenly Punishment!

After an unknown amount of time, this terrifying Power of Heavenly Punishment finally subsided, revealing the interior of the temple.

The originally magnificent and luxurious temple interior was now in shambles, with almost nothing left except walls and murals, all other decorations and utensils vanished without a trace.

The entire temple was almost torn down by the City Lord himself.

This guy truly is a half-crazed Evil God, even going so far as to wreck his own home in a frenzy.

As the aftermath of the attack cleared, two figures were revealed, precisely Su Yu and Yitian.

"I almost thought I was going to die just now, didn't expect..."

Xie Yitian murmured, looking at Su Yu beside him like he was a monster.

Under that terrifying Power of Heavenly Punishment attack just now, there was nowhere to escape, and Xie Yitian was instantly submerged.

In front of this power, his body probably couldn't withstand it for even a second, being immediately shattered.

Moreover, Xie Yitian had a premonition that this Power of Heavenly Punishment could, after destroying his body, follow the connection to attack his true body hidden somewhere unknown!

The City Lord of Heavenly Punishment was originally a Seven-star Transcendent, but after becoming a god, who knows if he counts as an Eight-star? Or even stronger?

In any case, his strength is unbelievably powerful.

Xie Yitian felt he had no power to resist in front of the City Lord, unable to escape anywhere.

He could only hopelessly await the arrival of death.

He truly deserves the title of Heavenly Punishment Evil God!

However, just as Xie Yitian turned these thoughts in his head, he was stunned to find those terrifying attacks took a strange turn just before reaching his body, bypassing him entirely.

Only a light breeze was stirred, causing no harm at all.

And beside him, Su Yu was the same.

Even though surrounded by violent attacks, their bodies remained extraordinarily calm.

Like the eye of a storm, no matter how rough the waves outside, the core remained serene.

"Could this be... invisibility?!"

Xie Yitian quickly realized, this was definitely a power from Su Yu, the power of invisibility!

Ordinary invisibility targets only the naked eye.

A more advanced form of invisibility could target infrared, radar, sound waves, data... in various domains.

Conducting all-around invisibility.

But Su Yu's current invisibility was even stronger, ridiculously strong.

It's already at the ridiculous level of being "invisible" in front of the City Lord's attacks.

Ordinary invisibility means being "unseen".

Su Yu had already reached the realm of "untouchable".

Those attacks couldn't touch Su Yu and Xie Yitian, naturally unable to harm them.

"Incredible, to be able to go invisible in the face of attacks..."

Xie Yitian was utterly amazed.

Is this even possible?!

"Right, it seems it really can't touch us."

Su Yu looked at the result, nodding in satisfaction.

Just now he purposefully leaked a little of his aura to test the City Lord's reaction and to test his own ability.

Now it seemed the result was excellent, Su Yu could almost completely ignore the City Lord's attacks.

Of course, this required Su Yu's full ability activation to ignore the City Lord's attack.

In fact, Su Yu's ability could no longer be considered just invisibility.

It was an advanced use of the Ghost Hidden Blade ability.

Or one might say... the Divine Power of the Evil God!

As a Ghost Hidden Blade, after acquiring the Evil God Origin, the emotion Su Yu wielded was "no emotion", which is extreme calm.

This "lack of emotion" made him an absolute anomaly in a subspace filled with the emotions and thoughts of countless beings, making him difficult to detect, discover, or touch.

Thus, the Ghost Hidden Blade is the best assassin of the Evil Gods.

This profession is completely invisible in front of Evil Gods.

If the City Lord hadn't become a god, perhaps he might still have a chance to discover Su Yu.

But now that he possessed the Evil God Origin, no chance, he couldn't even touch Su Yu with his attacks.

"Tsk tsk, a Ghost Hidden Blade, truly lives up to the name of an assassination profession."

"Today, I'm going to assassinate a true Evil God..."

Su Yu murmured to himself and stepped forward, walking towards the City Lord.

His heart stirred with a slight excitement.

Having been a Ghost Hidden Blade for so long, finally going to perform his primary duty.

To assassinate an Evil God!

However, Su Yu's assassination was not about cautiously sneaking for a surprise attack.

But to boldly walk directly to the City Lord, and slay him head-on!

As long as the guy couldn't see Su Yu, it counted as an assassination.

No argument there.

Su Yu, while walking, drew the high-frequency Chain Blade from behind, aiming at the City Lord's head.

Buzz...

Under the urging of Ghost Energy, the high-frequency Chain Blade vibrated rapidly, quickly reaching its highest frequency.

At this moment, it was capable of cutting through anything.

Completing the preheating of the high-frequency Chain Blade, Su Yu did not immediately launch an attack.

Instead, he activated another legendary weapon of the Brutal Battle Armor.

The heavy blasting Ghost Energy cannon!

The eerie barrel also aimed at the City Lord, beginning to charge.

At the same time, Su Yu activated the overload function of the Brutal Battle Armor.

Then activated the skills:

Hidden Kill! Electromagnetic Fury! Convergence! Full Firepower!

Except for not using the Superior Level Chip as ammunition, this time, Su Yu was indeed going all out, aiming for a one-hit kill!

The last time Su Yu used his abilities like this was against the Ghost Tribe, wiping out a city in a single strike.

At that time, Su Yu was only a six-star, and his armor was the Azure Oath.

Now, Su Yu had advanced to a seven-star, clad in an eight-star Brutal Battle Armor, wielding legendary weapons.

With these abilities combined, Su Yu himself wasn't sure what kind of power this strike would wield.

Since creating the Brutal Battle Armor, he hadn't gone all out like this.

After all, Su Yu hadn't encountered an opponent worthy of his all-out effort before.

Moreover, in reality, he couldn't unleash the full power of his armor, or it would cause terrible pollution.

But in this peculiar crevice space, Su Yu was free of any concerns.

Behind him, Xie Yitian watched Su Yu and was startled.

The serious Su Yu emanated an endlessly terrifying aura.

From afar, Xie Yitian felt suffocated, unable to imagine the pressure if facing Su Yu directly.

He knew Su Yu was about to take action.

His heart raced with excitement, stealthily stepping back a few steps, and released Spiritual Energy to add multiple layers of protection for himself.

"Mr. Su Yu is going to make a move against the City Lord!"

"This is an Evil God! Mr. Su Yu's aura, does it mean he intends to slay a God?"

"Am I truly fortunate enough to witness a God-slaying battle?!"

Xie Yitian kept his eyes fixed on Su Yu, afraid to miss any detail.

And at this moment, Su Yu finally prepared and launched an attack!

Chapter 392: "Assassination" Successful!

Ch!

With a soft sound, Su Yu swung the high-frequency chain blade.

At this moment, the Brutal Battle Armor, along with the weapons mounted on it, expanded with Su Yu's body within this peculiar interstitial space, growing to a height of over six meters.

This was a fundamental form, more powerful than in the material world.

The high-frequency chain blade was no exception, also six meters long, appearing incredibly fierce.

The six-meter-long chain blade was swung at such a high speed that even the afterimages could not be seen, as if it had disappeared from Su Yu's hand.

The flight speed of the Brutal Battle Armor could reach thirteen times the speed of sound, using its power to drive the melee weapons with strength and speed that were unbelievably strong.

Coupled with various skill enhancements Su Yu had just used, the speed was immeasurable, slashing over a thousand times in an instant, yet only making a single sound.

Boom!

As Su Yu's thousand blades descended, in the next instant, a catastrophic explosion occurred.

This was an explosion more intense than when the City Lord of Heavenly Punishment released his power before!

Each of Su Yu's thousand blades, at speeds many times the speed of sound, collided at high speed with the surrounding air and energy, generating intense heat, and the energy of the thousand blades condensed in the narrow space, resulting in the explosion!

Su Yu used a melee weapon to achieve the effect of a long-range high-explosive weapon!

The shockwave and light from the explosion instantly filled the entire temple space.

"!..."

Seeing this, Xie Yitian quickly retreated in fright, but how could he be fast enough?

The explosion caused solely by Su Yu wielding a melee weapon was even more terrifying than the Heavenly Thunder Meteor previously unleashed by the City Lord!

Although Su Yu did not target Xie Yitian, the mere aftermath was enough to utterly crush him.

"Thankfully, the invisibility power given to me by Mr. Su Yu is still there..."

Xie Yitian quickly noticed that the explosive forces unleashed by Su Yu bypassed him.

It seemed Su Yu's invisibility state was still protecting him.

However, this protective power seemed somewhat shaky as well.

The catastrophic explosion brushed past Xie Yitian's body, nearly affecting him.

This was Su Yu's own power clashing.

What would happen when Su Yu's attack met his own invisibility power?

Luckily, the invisibility power on Xie Yitian's body did not shatter in the end.

Even though the explosion was Su Yu's attack, in the end, it was just the aftermath, unable to break through the invisibility power's defense.

This allowed Xie Yitian to breathe a sigh of relief.

His body carried most of his consciousness and the Spiritual Energy accumulated over a hundred years; it would be a significant loss if it were shattered.

After passing this crisis, he immediately looked up in the direction of the City Lord of Heavenly Punishment.

He was intensely curious, as even the aftermath almost shattered him.

How would the City Lord of Heavenly Punishment, directly hit by Su Yu's terrifying attack, fare?

However, when Xie Yitian looked toward the City Lord of Heavenly Punishment, he saw nothing, only explosions—endless explosions!

In truth, the City Lord of Heavenly Punishment's body no longer existed.

When Su Yu's attack struck him, thousands of blades hit simultaneously, the terrifying speed, strength, and high temperature directly evaporated his body into gas, scattering away with the explosion!

Directly using a melee weapon to slice the enemy into gas!

Su Yu's attack power was simply brutal to the extreme.

This was Su Yu's assassination!

Directly walking up to the enemy and slicing them into gas with a blade!

However, despite being hit by such a brutal attack, and the body becoming vaporized,

the City Lord of Heavenly Punishment did not die!

Having already possessed the Evil God Origin, his vitality was astonishing!

A moment later, the light from the explosion dissipated, revealing the true form of the temple.

Xie Yitian found that the walls of the temple were already somewhat damaged and crumbling.

The aftermath of Su Yu's attack had already shattered this strange space!

The entire temple was now shrouded in a red gas, with faint flashes of thunder and fire on the surface of this gas.

A moment later, the red gas began to condense into writhing flesh, attaching to the walls.

The temple walls, now covered with writhing flesh, became bloody and disgusting.

On that flesh were randomly growing eyes and mouths that roared angrily: "What's happening! Who's attacking me!"

"How dare you offend the great God of Heavenly Punishment, courting death!"

Then, the voice changed tone and became trembling: "This is Heavenly Punishment, the true God of Heavenly Punishment has come!"

"The last time was like this, with invisible attacks descending from the sky, destroying my city..."

"Great God of Heavenly Punishment, I have sinned; I shouldn't have aspired to become a god..."

It was that cowardly personality mistaking Su Yu's attack as divine retribution.

He recalled a long time ago, when he was still a normal Seven-star Transcendent, ruling over a city of hundreds of thousands named Night Concealing City, bringing prosperity to the city, rapidly discovering.

Then, one day, an attack descended from the sky, with no communication, no mercy.

Only destruction!

Until Night Concealing City was destroyed, he crawled out wounded from the ruins, not knowing why the attack had come.

He wandered the ruins for countless days until one day, he realized.

Those attacks were heavenly punishment, a cleansing of humanity's sins.

From that day forward, he went mad.

The City Lord of Night Concealing was dead, and the only one that survived was the City Lord of Heavenly Punishment!

After the cowardly personality said a few words, it immediately switched back to the arrogant persona.

He was filled with rage: "Shut up, you useless thing!"

Chapter 393: "Assassination" Successful!\_2

"Even if the God of Heavenly Punishment himself comes, I'll fight him to the death!"

"Do you think that by repenting, He will spare you?"

This personality is rather stubborn.

However, when he spoke, his voice trembled slightly, revealing his true thoughts - he was also afraid.

Because until now, he hadn't found where the attack came from.

Could it really be that the God of Heavenly Punishment came to purify his sins?

He was also lost in memories.

He remembered when he became the City Lord of Heavenly Punishment City, frequently using the name of heavenly punishment to conquer other human settlements and cities.

Throughout the years, he had killed countless people, at least a million lives at his hands.

At first, he was somewhat uncomfortable with it, but later on, he watched those humans die, not knowing where the attack came from or why they were dying.

He even gradually developed a twisted pleasure from it.

He began to enjoy this feeling, even wanting to become the true God of Heavenly Punishment, to deliver divine punishment to all humans, to purify their sins!

Mastering the life and death of countless people was intoxicating to him.

Yet at this moment, he realized that he was the one being purified.

Considering sins, who on this planet was more sinful than he was?

And after the arrogant personality finished cursing, it immediately switched back to the timid personality, which continued to repent and pray incessantly:

"Great God of Heavenly Punishment, you are the source of all Mechanical Creations, you are..."

"The God of Heavenly Punishment must have heard my prayers and stopped the attack."

The arrogant personality hesitated at these words because the attacks indeed ceased.

Could it be true?

He pondered whether he should also become humble and pray a bit?

But after Su Yu's strike, he didn't continue to attack, not because of the City Lord's prayers.

He looked at the City Lord of Heavenly Punishment, who was in chaos, and pondered.

"Hasn't this guy discovered me yet? Even though I've already launched an attack..."

Actually, according to Su Yu's expectation, the invisible state should have lost its effect after one strike and would be discovered by the City Lord of Heavenly Punishment.

Then the confrontation would begin.

However, up till now, the City Lord of Heavenly Punishment was still bewildered, completely unaware of Su Yu's existence!

In fact, at the moment Su Yu launched the attack, his invisible state was lifted.

After all, to attack, there must be a collision and interaction with other substances, and with this, the so-called invisibility naturally becomes non-existent, can be sensed, and attacked.

If Su Yu could maintain an invisible and untouchable state while attacking, that would be too against the rules, essentially making him invincible, only able to attack others while remaining unattackable himself.

This is clearly unrealistic.

If an enemy can seize the moment Su Yu attacks, there's a chance for a counterkill.

But Su Yu's attack was too swift and fierce, at that moment the City Lord of Heavenly Punishment was dazed, unable to react in time.

So even now, he hasn't discovered Su Yu.

"Tsk tsk, it seems my assassination skills are indeed extraordinary, a god gets cleaved open face-on and doesn't even know who did it..."

Su Yu felt slightly pleased, his first experiment with "assassination" seemed quite successful.

Even though it made such a big commotion, as long as the enemy didn't discover Su Yu, it was an assassination!

No mistake...

However, after coming back to his senses, Su Fu looked at the blood and flesh on the wall and frowned slightly.

With just one blow, he turned the City Lord of Heavenly Punishment into this state, yet this guy not only did not die but was enthusiastically arguing with himself.

The Evil God Origin wasn't leaking at all, seemingly not in this guy's body.

"How can I obtain the Evil God Origin?"

Su Yu frowned, pondering.

A moment later, he suddenly looked up, gazing at the temple walls, and a flash of inspiration struck him.

Earlier, the City Lord of Heavenly Punishment's body emerged from the murals.

The Evil God Origin of the City Lord of Heavenly Punishment isn't in his body but in this temple, in those murals.

It seems to obtain the Evil God Origin, the temple needs to be dismantled.

Su Yu knew what to do.

The Blast Ghost Energy Cannon, which had been charging, suddenly fired at the surrounding walls.

This legendary-level energy cannon had six barrels, capable of firing thousands of energy shells per minute in full-auto mode.

This insane barrage was even more terrifying than the previous explosions.

The power of each energy shell was comparable to the previous one, and it was rapid-fire!

The High-frequency Chain Blade is ultimately a melee weapon.

In terms of explosions and firepower, it's the long-range weapons that matter!

Boom boom boom boom...

Explosions were happening one after another, and this wasn't just any energy explosion, but a high-level ghost energy-induced explosion, not only carrying high heat and shock but also a corrosive attack!

The entire temple space was twisting, shattering, and corroding in these explosions!

"Who? Who on earth!"

"No, no..."

Amidst the explosions, the City Lord of Heavenly Punishment continued to shout.

But no one could hear his words anymore, not even Su Yu himself.

The power of the Blast Ghost Energy Cannon was truly astonishing, so much so that Su Yu himself couldn't hear a thing.

Su Yu also tested this cannon for the first time.

If it were outside, this salvo could annihilate a large city like Illusion City in an instant, leaving a terrible pollution, just as if heavenly punishment had descended to cleanse the world.

In contrast, the City Lord of Heavenly Punishment's attack was far too weak.

"Oh no, Xie Yitian!"

Su Yu suddenly snapped back, turned to Xie Yitian, and found him already gone...

In such terrible explosions, the defensive power Su Yu left for Xie Yitian was completely useless, shattered in an instant, and Xie Yitian's body couldn't last long.

However, Xie Yitian wasn't entirely gone.

His consciousness transformed into data, hiding in a chip, frantically transmitting data messages to Su Yu: "Mr. Su Yu..."

But these data were immediately drowned by the surrounding explosions, unable to reach Su Yu's consciousness at all.

Fortunately, Su Yu remembered him, and quickly stretched out his hand, summoning the chip to protect it.

The chip was somewhat damaged, but fortunately not scrapped yet, and Xie Yitian's consciousness was still inside.

"Tsk tsk, my assassination power is too strong, almost killed my teammate..."

Su Yu couldn't help but complain inwardly.

This assassination was indeed extraordinary.

"That was close, almost finished..."

Xie Yitian inside the chip also felt relieved.

Even though his body was now destroyed and almost all his energy depleted, leaving him with virtually no combat power, at least he hadn't been completely annihilated and could continue to watch the battle, witness this god-slaying fight.

He suddenly felt a wave of sadness, bringing a hundred years of accumulated energy, along with a meticulously designed machine, to seek revenge against the City Lord of Heavenly Punishment.

Yet not even one strike was made, and his teammate rendered him to ruins, leaving him only to spectate, what was this?

The key was his teammate wasn't even intentionally attacking him, just collateral damage from the attack wave he couldn't withstand.

Considering this fact, Xie Yitian felt a pang of existential crisis.

Not being Su Yu's match was one thing, but not even able to withstand the attack's ripples...

And at this time, Su Yu's Blast Ghost Energy Cannon continued its bombardment.

After a full minute of bombardment, destroying the entire temple space almost completely, he finally stopped.

When the explosion dissipated, the disgusting flesh on the temple walls had disappeared.

The walls were covered with cracks, seemingly ready to collapse at any moment.

One by one, light spots were seeping out from the walls.

"Evil God Origin..."

Su Yu looked at those light spots, his face showing joy.

He hurriedly extended his hand, and those light spots immediately gathered towards him, forming a ball of light containing thunder, meteor, and radiance.

This ball of light was neither energy nor matter, seemingly a convergence of some concept.

This was the Evil God Origin of the City Lord of Heavenly Punishment! Containing the will of punishment!

"Judging by its intensity, it's close to eight stars. Feeding this to Brutal Split Mind will surely make the Brutal Battle Armor stronger..."

Su Yu held the light spots, quietly thinking to himself.

With this gain, this trip was indeed worthwhile.

"This counts as a successful assassination!"

Su Yu realized that with the appearance of the Evil God Origin, the City Lord of Heavenly Punishment was truly dead.

This "assassination" against the Evil God was a success.

However, a god just died without a ripple like this? Wasn't that a bit too easy? Su Yu found it somewhat perplexing.

Just then, a chaotic voice came from the surrounding walls once more:

"You are the eternal shadow above the planet, the source of all Mechanical Creations, the final destination of all life..."

Chapter 394: A Substitute, Double Evil God Overlay?

It's the prayer of the Heavenly Punishment City Lord!

Su Yu's expression instantly turned cold. This guy, with the Evil God Origin already drawn out, yet he's still moving?

But the Evil God is undying, which seems normal.

This kind of entity seems to only be sealed.

Yet when Su Yu scanned the surroundings, he could only hear the voice, but couldn't see the form of the Heavenly Punishment City Lord.

This guy's invisibility is also very strong, and Su Yu found it hard to locate him at the moment.

However, Su Yu was unconcerned. His entire being surged with energy, ready to deal the City Lord another heavy hit, to draw out his true form for sealing.

Just as he was about to act, he suddenly paused, carefully listening to the City Lord's prayer.

Very soon, Su Yu discerned that the City Lord seemed to have both personalities utterly terrified.

Praying in unison to the so-called "God of Heavenly Punishment."

Originally, their prayers had nothing to do with Su Yu.

But suddenly Su Yu noticed a new prayer light appearing beside him.

From within the light, the chaotic voice of the City Lord emerged:

"You are the eternal shadow above the planet, the source of all Mechanical Creation, the final destination of all life, the embodiment of punishment..."

Su Yu was shocked.

The City Lord's prayer, how come it was directed towards him?

Could it be that the City Lord became his Believer?

Su Yu frowned and thought, suddenly realizing, as a flash of inspiration hit him through the Evil God Origin in his hand.

The original City Lord believed that the "God of Heavenly Punishment" was the creation of Zhang Chenfeng and the Brutal Evil God.

At that time, the City Lord's prayers indeed had nothing to do with Su Yu.

But now, Su Yu had already inflicted "punishment" on the City Lord, bringing out his Evil God Origin.

In this situation, the City Lord could only believe Su Yu to be the God of Heavenly Punishment descending punishment upon him.

Though he hadn't yet discovered Su Yu's position, he was effectively praying to Su Yu.

After all, Su Yu was the true source of the "punishment" he received.

Most importantly, Su Yu now held the City Lord's Evil God Origin, which inherently contained the will of punishment.

By holding this origin, Su Yu was effectively half a God of Heavenly Punishment.

Thus, he received the City Lord's prayer.

If Su Yu were to devour this origin, he could immediately replace the City Lord and become the true God of Heavenly Punishment!

While Su Yu was pondering, the surrounding environment suddenly changed.

Originally, this Temple Space belonged to the City Lord and had been shattered by Su Yu's relentless attacks.

But now, it was self-repairing.

And while repairing, it was also changing its appearance.

The transformed Temple Space looked increasingly familiar to Su Yu.

Why did it resemble the Mechanical Space?

Indeed, Su Yu's home base, the Mechanical Space!

This Temple Space was actually turning into the Mechanical Space!

Moreover, Su Yu began to feel a connection to this space, as if he could control it.

"So, now this place also belongs to me?"

"Subspace and Evil God affairs are truly unpredictable."

Su Yu felt a sense of wonder.

It seemed, not only had he snatched the Evil God Origin, but he had also seized the divine position, and this "temple."

Even Su Yu himself hadn't expected such an operation.

"Could this be the true ability of the Ghost Hidden Blade?"

"Assassinate Evil Gods, then seize their divine positions?"

"Although Evil Gods are undying, stealing their divine position is as good as killing them."

"This profession is truly full of secrets..."

Su Yu guessed that his ability to usurp the City Lord's position was not just a coincidence.

The abilities of the Ghost Hidden Blade were undoubtedly involved.

The Human Empire originally designed this profession with considerable deep intent.

Also, it was uncertain whether the Ghost Hidden Blade can advance further; and if so, what profession would it become?

At that time, the prayer light point of the City Lord became larger, eventually condensing into a phantom form, kneeling before Su Yu.

This form was very small, only the size of an insect, yet contained tremendous power.

With his prayer, Su Yu felt his own power continuously increasing.

Just this one Believer was equivalent to thousands of Radiation Beasts.

"Is this the true form of the City Lord? Before I even found him, he appeared himself."

"Indeed, he's already become my Believer, and the entire Temple Space has been appropriated by me, so naturally, he can't hide in front of me."

"Tsk tsk, recruiting an Evil God as a Believer?"

Su Yu looked down at the form of the City Lord, feeling very novel.

Seeing the prayer light point condense into a form was a first for Su Yu.

It was estimated that the City Lord's level was too high, thus enabling such an ability.

The City Lord was originally a seven-star Transcendent who had become an Evil God, with formidable strength.

Su Yu had never before recruited a Believer of such a level.

After the phantom form of the City Lord condensed, he seemed a bit perplexed and suddenly looked up to see Su Yu!

At that moment, he saw Su Yu's form for the first time!

Then, he immediately showed fear and began to tremble.

Because, at this moment, his body was too small, only the size of an insect.

While Su Yu was over six meters tall, brimming with tentacles, and clad in mighty Brutal Battle Armor.

From the City Lord's perspective, Su Yu's body was like a divine mountain, overwhelmingly oppressive.

"Is this the true God of Heavenly Punishment?!"

"Truly a great and supreme being, it's laughable that I once thought I could replace him. How utterly delusional I was."

Chapter 395: A Substitute, Double Evil God Overlay?\_2

"Is this... the Divine Kingdom of the God of Heavenly Punishment? Am I dead and have come to the Divine Kingdom?"

At this moment, the Punished City Lord's heart was filled with nothing but shock and fear.

He mistook Su Yu for the true God of Heavenly Punishment.

But after a moment of fear, he suddenly turned his head and saw other prayer light spots beside him.

With his level, he quickly understood what these light spots represented.

This was a symbol of faith.

And he himself was also a part of these light spots.

Suddenly, he showed a look of ecstasy:

"I can feel it, I have become His believer! I understand, the God has accepted me..."

"You are the eternal shadow over the planet, the source of all Mechanical Creations, the ultimate destiny of all life..."

The Punished City Lord kowtowed frantically and prayed and praised Su Yu.

He thought that Su Yu, this "God of Heavenly Punishment," had already accepted him as a believer and would not punish him anymore.

"How ridiculous."

Su Yu looked at this guy's appearance and couldn't help but shake his head, it was too disgraceful.

Such a thing dared to consider itself a god, killing millions of people.

Although the Punished City Lord had his own tragic past, what did that have to do with Su Yu?

Su Yu would not have any extra sympathy for such a character.

When the Punished City Lord slaughtered millions, when did he ever show mercy?

Killing intent surged in Su Yu's heart, and with a thought, Ghost Energy Flames immediately ignited around the Punished City Lord's body.

He wanted to try to erase the Punished City Lord's personality!

Although the Evil God is undying, the personality of the Evil God can be annihilated!

It's better for such a character to be dead!

As the Ghost Energy Flames ignited, the Punished City Lord immediately let out a scream.

This kind of flame was transmitted across space using the connection between the god and the believer.

Igniting from within the soul, it could not be avoided or hidden from.

In an instant, the Punished City Lord was burned to only a single point of light.

"So the god summoned me to His realm, to put me to death..."

"No..."

Before dying, the Punished City Lord's heart was filled with boundless fear.

After burning him to death, Su Yu was about to contemplate how to handle that Evil God Origin.

Yet the Punished City Lord's light spot suddenly grew stronger again, and moments later, a form was reconstituted.

The Punished City Lord looked at his body in shock, and soon his shock turned to ecstasy: "I... am I alive again?"

"Haha, I am undying! My previous god-making ceremony was already successful..."

This guy indeed resurrected.

Moreover, his personality was somehow retained!

Seeing this, Su Yu immediately frowned.

With a thought, the Punished City Lord's body once again ignited in flames.

The Punished City Lord screamed and turned into a light spot once again.

Soon, he reformed into a body once more.

And then Su Yu burned him again.

In a short time, the Punished City Lord died and revived over ten times.

"I... I..."

After dying over ten times in a row, he seemed to have lost some of his memories, and even his speech became somewhat incoherent.

But he quickly recovered, looking at Su Yu with terror, begging for mercy: "Great God of Heavenly Punishment, please for..."

"Ah!"

Before he could finish, Su Yu once again ignited the heavenly

"Is this the undying nature of the Evil God? And it seems somewhat special..."

Su Yu mused to himself, knowing that after all, it was impossible to truly kill the Punished City Lord.

Even with the origin being drawn out, he would not die, and even if he died, he would be reborn.

However, when an Evil God is reborn, they should theoretically appear in the depths of the Subspace and lose their memories.

But the situation with the Punished City Lord was different; he hadn't completely become a god and had not entered Subspace.

So when he was reborn, it was in the same place.

Moreover, the Punished City Lord believed in Su Yu; after being killed by Su Yu, he seemed not to completely lose his personality and memory but to be reborn with memories.

This was a punishment of the god as well as a blessing.

Becoming a believer of an Evil God had its advantages after all.

Of course, it was because the Punished City Lord had already become a god that he could be revived with memory, an ordinary believer would not enjoy this treatment.

It is estimated that those true Great Evil Gods, like the Brutal Evil God's true form, had quite a few subordinate Evil Gods like the Punished City Lord as followers.

"This way, he seems to be able to endure more torment, doesn't he?"

Seeing that the Punished City Lord couldn't be wiped out, Su Yu was not disappointed.

This way, living with personality and continuously being killed and reborn doesn't seem like a boon.

The Punished City Lord, such a creature, had committed too many sins.

Su Yu always felt that directly killing him seemed a bit too easy for him.

Since this guy had such a strong vitality, then let him slowly perish.

To enjoy torment in eternal death.

This was the punishment he deserved.

With a thought, Su Yu directly solidified those Ghost Energy Flames on the Punished City Lord.

Causing him to continuously die and continuously live, eternally existing in pain and fear.

Then Su Yu blocked the screams of the Punished City Lord to avoid being disturbed himself.

"Hehe, Punished City Lord? More like a City Lord being punished."

"Having committed so many sins, slowly go to your punishment."

Su Yu gave him a name with a touch of malicious humor in his heart, Punished City Lord...

While in the midst of life and death, the Punished City Lord continued to beg for mercy and pray, and these prayers were all transformed into Su Yu's power, truly not wasted at all.

After arranging the Punished City Lord, Su Yu looked up at this Temple Space.

At this moment, this Temple Space had almost completely transformed into the form of Mechanical Space, entirely belonging to Su Yu.

Su Yu could feel that this space was continuously moving towards Subspace.

Once it moved into Subspace, Su Yu would immediately become the new "God of Heavenly Punishment," truly having another divine position!

Su Yu even felt a new kind of Evil God Origin was being formed within him.

This was Su Yu's own "Heavenly Punishment Evil God Origin."

He had seized the divine position of the Master of Heavenly Punishment, even taking the temple, and even the Master of Heavenly Punishment had become his believer.

In this situation, Su Yu had already replaced the Master of Heavenly Punishment and was on the same path to becoming a god.

All the Punished City Lord's previous machinations had become the groundwork for Su Yu.

Under such circumstances, although Su Yu had not devoured the Evil God Origin of the Punished City Lord,

Su Yu himself started to generate his own Heavenly Punishment Evil God Origin.

This change was very wondrous.

Also, it was a result of the Punished City Lord's own doing; if he hadn't initiated prayers towards Su Yu, this wouldn't have happened.

"Heh, now I not only have multiple professions stacking but also multiple divine positions stacking!"

Su Yu felt a bit curious in his heart; when he truly became the Heavenly Punishment Evil God, what would happen if two kinds of Evil Gods were combined into one?

Would he turn mad?

This was Su Yu's main concern.

Becoming an Evil God is not a good thing for normal people, especially since Su Yu would hold two divine positions.

However, after sensing carefully, Su Yu found that this newly born "Heavenly Punishment Origin" was somewhat fused with the Ghost Hidden Blade's origin, tinged with calm and desolate emotions, not leading to madness.

Indeed, the Ghost Hidden Blade is his safeguard for retaining his humanity.

The Evil God Origin of the Ghost Hidden Blade mastered the emotions of calmness and patience, possessing a strong inclusivity that wouldn't easily be disturbed by other emotions.

With this, Su Yu was at ease.

Moreover, Su Yu had a feeling that once he truly became the God of Heavenly Punishment, his offensive power would further increase.

The God of Heavenly Punishment was not an assassination deity, but a god of strong attacks.

When Su Yu holds two major Evil God positions, his combat power might reach eight-star!

However, that requires this crevice space to completely move into the depths of Subspace and complete the ritual.

But this process of moving is very slow. Su Yu estimated it would take at least one or two years to be done.

It seems he can only wait or think of a way later.

"Speaking of which, my Ghost Hidden Blade didn't go through this process at all..."

Su Yu suddenly thought of something else.

His Ghost Hidden Blade profession could also be considered as an Evil God.

But back then, it didn't go through this process and directly gained an Evil God Origin.

"Could it be that my Ghost Hidden Blade is actually not perfect?"

"Or maybe the ceremony of the Ghost Hidden Blade to become a god requires assassinating an Evil God who is in the process of becoming a god, to seize his origin and temple, and replace him?"
