

Infinite 421

Chapter 421: Inauguration Success, Mutation! Heavenly Punishment War Mechanic!_2

Seeing that the ritual was about to be completed, Su Yu would soon become a War Mechanic.

Normally, the ritual for a third-tier profession shouldn't be this fast and simple.

However, Su Yu was originally a Seven-star Transcendent, with formidable strength, which naturally made returning to perform the ritual much simpler.

But as the ritual neared completion, Su Yu noticed that the state of those Heavenly Punishment believers was becoming increasingly erratic.

There were so many of them, and although the casualties were heavy, most people were actually unscathed.

So... they were not satisfied with the speed of their deaths.

To the point of disliking how slow they were dying!

This group of people was truly mad.

Perhaps they were not only influenced by the War Mechanic ritual but also by the Heavenly Punishment Evil God Origin, causing such madness.

Because they were dissatisfied with how slow they were dying, these Heavenly Punishment believers began to turn their guns on their companions and themselves!

Mutual slaughter!

"Great God of Heavenly Punishment, you are the eternal shadow in the sky above the planet, the origin of all Mechanical Creations, the ultimate destiny of all life..."

"Great God of Heavenly Punishment, please send down heavenly punishment upon us..."

These frenzied Heavenly Punishment believers shouted prayers as they pulled the trigger on themselves and their companions.

Boom!

There was an explosion within the ranks of the Heavenly Punishment believers.

A vast amount of ammunition and weapons, under their own control, exploded in succession, causing massive casualties.

Though these people died, their faces wore smiles, truly dying with a smile.

With their deaths, a large number of believer light points appeared in Su Yu's consciousness space.

The quantity... exceeded two hundred thousand!

These fanatic believers, upon death, had their souls reborn in Su Yu's Evil God Origin.

Boom!

Su Yu felt that his Heavenly Punishment Evil God Origin had truly and completely formed!

At this moment, he was the true Heavenly Punishment Evil God!

At the same time, the fissure space seized from the City Lord of Heavenly Punishment was swiftly moving towards the Subspace.

In a short time, this fissure space had entirely moved into the Subspace.

Its position in the Subspace coincidentally matched the location of the War Mechanic's Subspace Imprint!

This fissure space began to fuse with the War Mechanic's Imprint, merging into one in a short time.

The originally murky Subspace Imprint immediately became incredibly clear, almost identical to the City of Heavenly Punishment in reality.

There was only a mechanical space at the city's center, emanating the aura of heavenly punishment.

At the same time, the progress of the War Mechanic's ritual on the talent panel reached 100%!

[Congratulations to the host, the ritual is complete: War Mechanic.]

[Would you like to take up the position?]

The talent panel immediately popped up with a prompt.

Su Yu, without a second thought, promptly ordered, "Take up the position!"

However, Su Yu did not immediately complete the job advancement.

Because the talent panel issued another prompt:

[Warning, the War Mechanic ritual has been interfered with by the Heavenly Punishment Evil God Origin, resulting in an anomaly.]

[Would you like to continue the job advancement?]

Su Yu was slightly shocked upon seeing this prompt.

The ritual was interfered with, resulting in an anomaly?

"What kind of interference? Could it lead to job advancement failure?"

Su Yu hastily inquired.

[The Heavenly Punishment Evil God Origin has fused with the War Mechanic's Subspace Imprint.]

[If you proceed with the job advancement, the War Mechanic will gain the Heavenly Punishment Evil God's traits, fusing the two as one.]

[The job advancement will not fail, and the profession will become stronger after the advancement. The downside is that future advancements will be challenging. To advance, you will need to conduct two rituals simultaneously.]

[Would you like to continue the job advancement?]

The talent panel promptly provided an explanation.

Su Yu pondered for a moment and realized that this anomaly seemed to have no significant downside.

The fusion of the Heavenly Punishment Evil God Origin with the War Mechanic, becoming stronger, was a good thing.

At most, future advancements would be more difficult, requiring double preparations for the rituals.

But since Su Yu already had multiple professions, he would be performing many rituals in the future, so this wouldn't be too significant.

"Advance!"

Su Yu ordered again.

[Congratulations to the host, you have successfully advanced, your current profession is: Heavenly Punishment War Mechanic (lv1: 0/100000).]

[Congratulations to the host, you have successfully awakened the core ability: Power of Dominator! In the mechanical domain and on the battlefield, you possess the power of domination.]

[Power of Dominator: (lv1) As a War Mechanic, you are the true dominator of the mechanical domain. You can make nearby Mechanical Creations of a lower tier than yourself obey without conditions. You can force Mechanical Creations to operate in defiance of physical and Spiritual Energy laws.]

[You can research and manufacture Seven-star level Mechanical Creations.]

[The War Mechanic is not only the dominator of mechanics but also the dominator of the battlefield. Everything on the battlefield will project into the Subspace Imprint and become chess pieces in the hand of the War Mechanic, influenced and controlled by them.]

[The War Mechanic can manipulate any friendly unit from a higher-dimensional perspective, performing enhancement, healing, supply, transportation, etc. They can also interfere with enemy units, performing actions such as curses, weakening, etc.]

[They can also influence both sides of the war's emotions, morale, and state, making the enemy frantic, chaotic, and weak, while making the allies precise, efficient, and powerful.]

With the prompt from the talent panel, Su Yu felt a shock throughout his body, with power surging madly.

This was the enhancement of his being following a successful job advancement.

At this moment, he truly possessed two powerful third-tier professions, naturally leading to a significant increase in strength.

At the same time, within Su Yu, a second Subspace Gate opened out of thin air.

This Subspace Gate was completely different from the previous one associated with the Ghost Hidden Blade. Upon its appearance, it established a solid connection with the imprint battlefield in the Subspace.

In the Subspace, the numerous blurry figures on the imprint battlefield now became entirely clear, identical to both sides of the battle in reality.

Su Yu felt that he could use the projections on the imprint battlefield to influence the real people on the battlefield, thereby impacting the battle situation.

This influence was tremendously powerful.

With just a thought, a combatant from the Mechanical City, who was previously injured, suddenly became lively and robust under Su Yu's power, the injury healing without medicine, and his strength even increased significantly.

Looking at the Heavenly Punishment believers, with another thought, some fanatic believers suddenly weakened, barely able to stand.

This was the power of the battlefield dominator!

Truly able to dominate the battlefield, controlling everything!

"Feels like playing a strategic game..."

Su Yu, experiencing this entirely new ability, felt a bit peculiar.

The whole battlefield, involving hundreds of thousands of combatants, felt like a real-time strategy game he played in his past life with just his thoughts.

All the combat participants were like game units, manipulable with a "mouse" click.

Truly worthy of being a battlefield dominator, treating the battlefield like a game.

Moreover, this Power of Dominator could still be wielded in the mechanical domain.

It could even create Seven-star Creations.

Yet, such power would need to be verified gradually in the future; currently, being on the battlefield offered no time for research and development.

While Su Yu was savoring this newfound power, further updates from the talent panel appeared:

[Congratulations to the host, due to the fusion with the Heavenly Punishment Evil God Origin, the War Mechanic's Power of Dominator has undergone an anomaly.]

[Anomaly 1: Mechanical Origin. After fusing with the Heavenly Punishment Evil God Origin, the War Mechanic becomes the origin of Mechanical Creations. Faith Power can be obtained from Mechanical Creations. Additionally, mechanical blessings can be bestowed on believers. Blessed believers, if they are Mechanical Creations, will gain life and intelligence. If they are flesh and blood beings, they will become mechanized under the blessing power.]

[Anomaly 2: Destiny of Living Beings. After fusing with the Heavenly Punishment Evil God Origin, the War Mechanic becomes the destiny of living beings. All units that die on the battlefield will be reborn in the Subspace Imprint battlefield, becoming part of the War Mechanic's power.]

[Anomaly 3: Power of Heavenly Punishment. After fusing with the Heavenly Punishment Evil God Origin, the War Mechanic possesses the Power of Heavenly Punishment. Influence on the battlefield is greatly enhanced, capable of directly bringing down heavenly punishment to destroy everything. It can also bestow blessings on friendly units, allowing them to possess the Power of Heavenly Punishment as well.]

Chapter 422: Breaking Through to 8 Stars! Subspace Domain!

[Mutant Ability will synchronously improve with the increase of profession level...]

Seeing the hint on the talent panel, Su Yu felt even more delighted.

These three major mutations were like gaining three profession abilities out of thin air. .

[Mechanical Origin], this ability can bless Mechanical Creations, bestowing them life and intelligence, and even gain faith from them, which is incredible.

In the future, Su Yu could create his own believers, no longer having to worry about not having enough believers and slow upgrades.

Moreover, this Mechanical Origin can also bless flesh and blood creatures, mechanizing them, an ability that seems somewhat sinister.

But used well, it can significantly enhance the power of Su Yu's subordinates.

Originally, he was considering how to enhance the strength of the Mechanical City's residents, and now with this Power of Blessing, it's much more convenient.

A single blessing could transform people into Mechanical Creations, greatly increasing their strength.

However, the specific strength post-blessing and any side effects still need time to verify.

Thinking of this, Su Yu's research desire surged, eager to start studying this new ability immediately.

As for the remaining [Destiny of Living Beings] and [Power of Heavenly Punishment], they were nothing extraordinary, just inherent powers of the Heavenly Punishment Evil God Origin, now fused into the War Mechanic's strength.

It seems, this [Mechanical Origin] power is the new ability produced after the fusion of War Mechanic and Heavenly Punishment Evil God Origin.

Indeed, it fulfills "the origin of all Mechanical Creations," this phrase of prayer.

Su Yu pondered to himself, while his strength continued to rise.

At this time, he already held three professions/god positions: Ghost Hidden Blade, War Mechanic, and Heavenly Punishment Evil God.

His power had already reached the pinnacle of Seven-star, and with the triple stacking, it was actually beginning to advance towards the Eight-star level!

Boom!

In deep thought, Su Yu suddenly heard an ear-splitting thunderous sound.

But listening carefully, this thunderous sound came from within his body.

His body, under the transformation of powerful strength, was becoming ever stronger.

Bones grinding, muscles growing, blood flowing like mighty rivers, heart beating like an engine roaring, these sounds combined like thunder, soul-stirring.

This indicated that the strength of his body had significantly improved, far surpassing the Seven-star level.

At this moment, his body strength could almost engage in direct combat with the Brutal Battle Armor!

The Brutal Battle Armor was an Eight-star level formidable armor.

Yet now, Su Yu could engage it in battle with his flesh alone! How formidable is this!

Back in the day, Tie Long, as a melee profession Galaxy Warrior, had a very robust physique, but compared to the current Su Yu, he was far inferior.

Su Yu didn't need armor, just with hand-to-hand combat, he could easily handle Tie Long, potentially killing him barehanded in no time!

Furthermore, not only did Su Yu's body become formidable.

His Spiritual Energy, spirit, thinking speed, perception ability... all aspects were enhanced.

After all, Su Yu had multiple professions stacked, having no weakness or shortcoming.

At this moment, he was confident that if he encountered his former self, just three moves would suffice to slay him.

Indeed, even if his former self was wearing the Brutal Battle Armor, the current Su Yu was confident to give it a go.

Moments later, the thunder within Su Yu's body gradually subsided, indicating his body transformation was complete, and his strength had truly soared.

"Finally reached Eight-star!"

Su Yu smiled and murmured to himself.

He knew that he had finally broken through and reached the Eight-star level!

His strength had once again leaped forward!

At this moment, with the addition of the Brutal Battle Armor, he could potentially unleash Nine-star level combat power!

Such terrifying strength!

Originally, for a Seven-star Transcendent to reach Eight-star required an extremely difficult ritual.

But Su Yu, through multi-profession stacking, had broken through to Eight-star with just a Seven-star ceremony!

"Since I've broken through, this war can now end."

Su Yu came back to his senses, looked towards the battlefield, preparing to order a halt to the war.

There were still many frenzied Heavenly Punishment believers remaining, not completely wiped out, but Su Yu was no longer interested in them.

Although these people could provide Su Yu with a substantial amount of faith power.

But with the [Mechanical Origin] ability to harvest faith from Mechanical Creations, he had no regard for these lunatics.

Naturally, this did not mean Su Yu would spare them.

These guys were all extremely guilty, deserving of death, let Xie Yitian use them as vessels.

With a thought, Su Yu was about to give the order.

However, just as he prepared to send out the information, he suddenly felt a tremor in his spirit, seemingly resonating with a certain mysterious space.

Simultaneously, above the entire battlefield, winds suddenly surged and clouds rolled, revealing astonishing changes.

The combatants on both sides, everyone felt a shock in their spirits, stopping their actions, and looked up at the sky.

Boom!

Above the battlefield, a huge rift appeared in space.

In that rift was a space containing endless mysteries, endless knowledge, and endless power...

It was Subspace!

A large amount of pure Spiritual Energy leaked from this rift, spilling over the fighters on both sides.

Among the tens of thousands of fighters on both sides, most were ordinary people with no Extraordinary Ability, relying on technological weapons to fight.

However, now, being infused with this pure Spiritual Energy, especially after gazing into the mysteries and knowledge of Subspace, many people started to manifest Spiritual Energy out of thin air.

Chapter 423: Breakthrough to 8 Stars! Subspace Domain!_2

Awakening! They've awakened their spiritual energy! They've become Transcendents!

Some who were already Transcendents have seen their power soar, even rising a whole star level!

"I've awakened? Haha, I've awakened?"

"How could I suddenly awaken? What's happening?"

"I've actually reached four stars! How is this possible..."

"This fissure is?"

The combatants from the Mechanical City suddenly awoke from their previous mechanical and rational states.

Upon awakening, they discovered they had awakened spiritual energy, filling them with immense joy.

Yet, they were also perplexed. Why did these abilities awaken suddenly?

However, they were only confused for a moment before they realized the problem.

Because...

If so many of them have awakened, then what about those from the City of Heavenly Punishment?

The number of believers in Heavenly Punishment is vast. If they awaken en masse, to what extent will their power escalate...

They quickly looked towards the followers of Heavenly Punishment.

As expected, on the side of the Heavenly Punishment believers, there were waves upon waves of spiritual energy.

They too had awakened en masse!

"Have we awakened? What is going on..."

"It's a blessing! It must be the great God of Heavenly Punishment, bestowing blessings upon us!"

"It seems that this offering has greatly pleased the God of Heavenly Punishment!"

These fanatics attributed all their transformations to the blessings of their god.

"The God of Heavenly Punishment has blessed us, seemingly wanting us to continue acting on His behalf and imposing divine punishment on mankind!"

"Looks like we won't have the chance to head to the divine kingdom for now..."

"Yes, we can't die just yet; we must continue serving the god."

"Those guys earlier were really lucky..."

Amidst their excitement, the Heavenly Punishment believers felt a tinge of regret.

Since the "God of Heavenly Punishment" bestowed blessings to enhance their power, it implied that the god did not wish for their deaths now.

Otherwise, wouldn't the blessing be redundant?

Thus, they regretted that they couldn't die now nor visit the divine kingdom.

Meanwhile, Su Yu's ritual was nearing completion, but the frenzy amongst these fanatics seemed to have not waned...

The Heavenly Punishment believers sighed for a moment, then shouted to the people of the Mechanical City:

"Brothers on the other side, the god is pleased with our offering. It seems there's no need to continue fighting; let's cease fire..."

They were actually proposing a truce.

To them, this war was essentially a ceremonial offering to the God of Heavenly Punishment.

Now that the god was satisfied, there was no need to continue the battle.

The people of the Mechanical City frowned deeply upon hearing this.

What madness is this?

The people of the Mechanical City were initially worried that the large-scale awakening of the Heavenly Punishment believers might boost their power and reverse the battle situation.

Yet now, these folks were proposing a truce?

And these lunatics were even calling them brothers?

Despite the prolonged fierce fighting and heavy casualties, these lunatics addressed them so warmly?

The people of the Mechanical City felt a chill and were unsure how to respond.

At that moment.

Boom!

The subspace fissure in the sky changed again!

A city appeared in the fissure, indistinctly.

This city resembled the City of Heavenly Punishment, yet it also looked somewhat like the Mechanical City.

Surrounding the city were heavenly thunder meteors, radiating an immensely awe-inspiring and terrifying aura.

Inside the city, many figures could be vaguely seen kneeling in solemn prayer.

The Heavenly Punishment believers, seeing this city existing within the subspace, became extremely excited and immediately knelt down:

"This is the divine kingdom! It must be the divine kingdom of the great God of Heavenly Punishment!"

"Sure enough, those who died earlier have returned to the divine kingdom, becoming holy spirits under the divine presence!"

"Great God of Heavenly Punishment, you are the eternal shadow over the planet, the source of all mechanical creations..."

These Heavenly Punishment believers, sensing the 'divine' aura within the city, held no doubt that this was indeed the divine kingdom.

The silhouettes within must be those who perished earlier, now enjoying themselves in the divine kingdom.

The living Heavenly Punishment believers became even more envious.

This was because the city was too distant and blurry.

If they could see a bit clearer, they would realize that the kneeling figures inside the city were not praying, but crying out in agony!

This was not an after-death divine kingdom at all, but Hell!

...

"What is that city? It seems so familiar, so dear..."

"It's the aura of the Administrator. Why is this happening..."

"Could our recent awakenings all be due to the power of the Administrator? But..."

On seeing the city within the subspace fissure, the people of the Mechanical City were also stunned.

For they sensed a familiar aura within it, the aura of the Administrator Su Yu.

Instantly, they understood that the widespread awakening earlier was certainly due to the Administrator Su Yu's power.

Who else but Su Yu could possess such power to awaken so many at once?

However, the people were still somewhat puzzled because...

"But why do those from the City of Heavenly Punishment say it's their divine kingdom? And many of them have awakened too..."

"Could the Administrator have become the so-called God of Heavenly Punishment?"

...

Meanwhile, within the subspace, the gathering hall.

The members of the Transcendent Union watching the live stream also saw the city within the spatial fissure.

They were all perplexed, unable to comprehend the sudden occurrence of such a change.

Why did a fissure suddenly appear in the subspace, connecting with the material world?

And what was this city existing within the subspace?

Among them, only Xiao Shengyin, the eight-star expert, seemed to realize the truth.

He was so shocked that he stood up abruptly and exclaimed:

"This is... the Subspace Domain!"

"It's Mr. Su Yu's Subspace Domain!"

"Only an eight-star Transcendent can possess their own domain within the subspace."

"Mr. Su Yu, just after completing his ritual, has actually broken through to eight stars! He possesses a Subspace Domain now!"

"But why is his domain so vast? And why does it manifest in the material world? Could it be so powerful that it resonates with Mr. Su Yu, linking to reality?"

Xiao Shengyin, in utter shock, voiced a string of revelations.

Upon hearing, the others quickly understood and were utterly astonished.

"What? Is Mr. Su Yu eight stars already?"

"Is this his Subspace Domain?"

"President, your domain is just this hall, while Mr. Su Yu's domain is a city!"

"Just how powerful is Mr. Su Yu, for his domain to be so vast, even connecting to the real world..."

The assembly finally grasped what the city truly was.

The Subspace Domain!

Transcendents at seven stars have a permanent mark in the subspace.

At eight stars, this mark is greatly enhanced, transforming from a mere mark into a domain, a personal domain of an eight-star Transcendent within the subspace!

Xiao Shengyin, being the only eight-star among them, naturally possessed a domain, which was this hall.

And now Su Yu had a domain too, which was a city!

This was truly astounding.

According to Xiao Shengyin's prior assertions, the larger and more resilient a Subspace Domain, the stronger and more potential the Transcendent has.

Possessing such a solid hall was pride enough for Xiao Shengyin.

But Su Yu possessing a city, what did this mean?

The city's power was even strong enough to breach the barrier between the material world and the subspace.

Causing the subspace to manifest in the real world, spiritual energy leaked, awakening many ordinary people!

This power was like... that of a deity!

In fact, they didn't know that Su Yu's domain city was different from the usual eight-star domains as it was fused with the God of Heavenly Punishment's divine realm space, resulting in differences.

"Previously, in the information provided to Mr. Su Yu about Transcendents, the topic of domains wasn't mentioned, nor did Mr. Su Yu inquire at all. It turned out it wasn't even worth asking about."

"With his domain being this powerful, my limited knowledge wouldn't mean much to him..."

Xiao Shengyin, watching the stream, wore a face full of sighs.

Chapter 424: The Mastermind Emerges! Subspace Battle!

Earlier, when Su Yu attended the meeting for the first time, Xiao Shengyin gave Su Yu a lot of knowledge and information about Transcendents and Subspace.

But there was no mention of the Subspace Domain.

In other words, Xiao Shengyin "held back some information."

In fact, Su Yu still doesn't know anything about the Subspace Domain.

He's still perplexed and doesn't know what's happening right now.

What's going on with this Subspace fissure and that city? How did they come about?

However, with Su Yu's intelligence and being involved in the situation, he was only confused for a moment before quickly deducing the reason and understanding everything.

"So, at the eight-star level, one will have such a Domain Space in Subspace?"

"Is my Domain Space this city?"

"The Temple Space of the previous City Lord of Heavenly Punishment City served this purpose, right?"

"And the castle hall for Chairman Xiao's meetings is also such a domain?"

Su Yu thought quickly and figured it out in an instant.

In fact, he had always been curious about how that meeting hall worked.

Being able to establish such a safe and stable meeting place in the chaotic Subspace is not easy.

Su Yu had long reached the seven-star level, but he didn't have such an ability.

But now, with a domain of his own, Su Yu has come to understand.

The meeting hall was actually Xiao Shengyin's Subspace Domain.

"So, Xiao Shengyin secretly withheld information about the Subspace Domain..."

...

At this moment, Xiao Shengyin began to feel regret.

If he had known Su Yu was so capable, why would he have kept information back, making himself seem stingy?

"At the time, it was because Mr. Su Yu was coming to my Domain Space for the meeting."

"So I hid details about the domain to avoid revealing my weaknesses to him..."

Xiao Shengyin reflected inwardly.

The reason he withheld information was primarily to guard against Su Yu.

After all, the meeting was to be held in his domain, so he had to be cautious.

But just when he thought of this, Xiao Shengyin suddenly found something was amiss.

"Wait a minute, if I was wary of Mr. Su Yu, I shouldn't have let him into my domain at all!"

"He shouldn't have been allowed to attend the meeting!"

"Merely not telling him about the Subspace Domain—what kind of precaution is that? What's the point?"

"And even if initially wary, after resolving the misunderstanding, I could have told him."

"Why didn't I ever mention it?"

"What's going on? How could I have made such a big oversight?"

Thinking of this, Xiao Shengyin felt a chill in his heart.

He realized that there's something wrong with him intentionally withholding information!

His thoughts and memories seemed to have been interfered with by something!

...

In the material world, Su Yu continued to ponder.

"Why didn't Chairman Xiao inform me about the Subspace Domain in the materials he provided me earlier?"

"Was he guarding against me?"

"But I can move freely in his Domain Space. What sense does this kind of precaution make?"

"There's something wrong here..."

Su Yu, ever-perceptive, immediately identified the issue.

Such matters could have many explanations, like Xiao Shengyin forgetting, or perhaps he was just stingy and didn't want to tell Su Yu.

But Su Yu instinctively felt it wasn't that simple.

Especially when there's a certain hidden mastermind lurking in the dark, plotting against the entire Transcendent Union.

"Could it be that Chairman Xiao Shengyin is the mastermind behind it all?"

"Is his withholding of domain information related to his secret?"

Su Yu speculated in his mind.

At this moment, a mutation occurred!

In Subspace, the meeting hall suddenly underwent a drastic change.

What was a bright hall suddenly turned incredibly dim.

The surrounding walls turned dark red and changed material.

The walls became flesh, constantly wriggling.

The entire meeting hall seemed to transform into some biological organ, turning sinister, bizarre, and terrifying.

"What's happening?"

"Chairman! Chairman!"

The crowd was immediately frightened.

As they exclaimed in shock, they looked toward Xiao Shengyin.

But they found that facing such a mutation, Xiao Shengyin was stunned in place.

His eyes were devoid of any life, as if he'd become a wooden sculpture.

The others were terrified; the strongest chairman had quietly fallen into a trap.

What exactly happened?

"Not good! Run!"

They immediately focused their minds, preparing to leave this place and return to reality.

With the trait of Subspace, they only needed to recall the coordinates, and they would instantly move, escaping with incredible speed.

However, their figures only blurred for a moment, then became clear again, still standing in place without returning to reality.

At the same time, they felt their thinking speed beginning to slow down, and even their memories started becoming blurry.

"Not... good..."

"We can't escape!"

"It turns out that the mastermind had been hidden in this meeting hall all along..."

Only then did they realize, the mastermind plotting against them and treating all their members as sacrifices was...

not somewhere else, but had been lurking in this meeting hall the entire time.

Or rather, the entire meeting hall was the mastermind.

This Subspace Domain belonging to Xiao Shengyin, at some point, had already been controlled by this terrifying mastermind!

But, it was too late for them to realize this.

Moments later, everyone in the meeting hall turned into something akin to wooden sculptures, frozen in place.

Even their real-world bodies became lethargic, seemingly about to turn into wooden sculptures as well.

On the walls of the meeting hall, countless dark red eyes suddenly opened within the flesh.

These eyes squinted simultaneously, as if they were laughing.

Chapter 425: The Puppet Master Appears! Subspace Warfare!_2

Then, the entire gathering space suddenly contracted and turned into a mass of dark red twisted flesh.

This mass of flesh looked like a heart, yet also like a brain, incredibly large, like a small hill.

Its surface was covered with twisted tentacles, and the tips of the tentacles were covered with human faces.

Upon its appearance, it instantly teleported away from its original location.

The next moment, it unexpectedly appeared next to Su Yu's subspace domain!

Then, a ferocious maw opened on this mass of flesh, its fangs menacing, biting towards Su Yu's subspace domain.

It actually wanted to devour this city within the subspace domain.

However, even with its maw open to the limit, it was utterly powerless against such a vast city of Su Yu's.

Completely unable to swallow it, it was far too beyond its capacity.

After a few attempts, this mass of flesh could only give up helplessly.

"Divine Domain, Domain!"

"Su Yu can actually combine these two, why! How did he do it! What is his background!"

"Unfortunately, he spent too short a time at the gathering, leaving too little of a presence in the main hall, and I haven't had the chance to invade his mind."

"Damn it, this domain is too large; I can't swallow it!"

The mass of flesh let out an angry roar.

"Who!"

At this moment, in reality, Su Yu suddenly sensed something was wrong.

With a mental move, a projection of his will appeared in the subspace domain.

This subspace domain is a space unique to him, making it very convenient to enter and exit.

Upon arriving at the subspace domain, Su Yu immediately noticed the twisted flesh.

"What the hell is this? A subspace demon?"

Su Yu was taken aback but didn't recognize this thing as the previous gathering hall, thinking it was some powerful subspace demon attacking.

"Su Yu, submit to me..."

The mass of flesh, upon seeing Su Yu appear, immediately emitted a sinister voice.

This voice carried a strange spiritual power, seemingly trying to invade Su Yu's will and forcibly control him.

However, Su Yu was completely unaffected: "What the hell are you, daring to ask me to submit..."

With a mental move, he immediately launched an attack.

What he launched was the Power of Heavenly Punishment.

This kind of power excels in frontal assaults.

In this subspace, he had no mechanical creations or Brutal Battle Armor, making this power just right to use.

In an instant, various Heavenly Thunder Meteors fiercely bombarded the mass of flesh.

"Overestimating yourself..."

The mass of flesh let out a disdainful laugh, neither dodging nor evading, ready to take Su Yu's attack head-on.

"Is it really that strong?"

Su Yu was taken aback by its confident demeanor.

He pondered whether to run if he couldn't win.

However, the next moment...

Roar!

The mass of flesh let out a deafening roar.

Under the bombardment of the Power of Heavenly Punishment and Heavenly Thunder Meteors, the surface of the twisted flesh was scorched, and many tentacles were blown off.

"What thing, almost got bluffed..."

Su Yu was speechless upon seeing this.

If you're this weak, why put on such airs?

"What kind of power is this, able to be used freely in the subspace, clearly you're just an eight-star..."

The mass of flesh now realized something was wrong; Su Yu could actually attack it!

It let out an angry roar, its form suddenly becoming blurry, seemingly preparing to escape.

But how would Su Yu give it a chance?

With a mental move, more Heavenly Thunder Meteors bombarded it.

The mass of flesh, already becoming blurry as if about to teleport away, quickly solidified again under the fierce barrage.

The attack of the Power of Heavenly Punishment was so fierce that it forcibly interrupted the teleportation of the twisted flesh!

In subspace, teleportation is extremely simple, just recall the coordinates to complete it.

However, there is ultimately a process of recalling the coordinates.

As long as the attack is strong enough and fierce enough, causing intense pain and damage, not giving the enemy a chance to calmly think, it can interrupt this teleportation!

Seeing the teleportation interrupted, Su Yu's spirit lifted, launching his power with all his might, scorching the mass of flesh inside and out.

"Su Yu, you court death..."

The mass of flesh roared madly.

It also attempted to counterattack, its various tentacles wildly flailing, releasing various thick beams.

These attacks were astonishing in might, even seemingly more fierce than Su Yu's Power of Heavenly Punishment.

However, these counterattacks were terribly inaccurate, all just grazing the edges, unable to hit Su Yu's subspace city at all.

Meanwhile, Su Yu's Power of Heavenly Punishment seemed to have tracking navigation, hitting its mark every time.

In a short time, it shattered a small part of the mass of flesh.

"So weak? Where did this 'master of grazing' come from..."

Su Yu found it odd and amusing seeing this.

This mass of flesh appeared eerie and formidable, at least at the level of an eight-star, possibly stronger.

But in combat, it behaved like an idiot, only blindly attacking, unable to hit Su Yu, just taking a beating passively.

Quite a waste of its appearance.

"It seems it's not that it's too weak, but that its attacks can't hit me."

"Subspace... I see now..."

After a moment, Su Yu figured it out.

In subspace, coordinates are chaotic, space is twisted.

Fighting in subspace is completely different from in reality.

In this environment, trying to hit an enemy in battle is entirely "up to fate."

An attack might directly hit the enemy or miss by thousands of miles.

No matter how you aim, it's useless because space keeps changing, unaffected by personal will.

That's why the mass of flesh wanted to swallow Su Yu's domain whole.

Within the domain, space is stable, allowing for normal fighting.

Unfortunately, Su Yu's domain is too large; it couldn't be swallowed.

Then Su Yu appeared, and they fought directly in subspace.

This mass of flesh was initially indifferent to Su Yu's attacks.

After all, Su Yu couldn't hit it anyway.

But soon, it was shocked to discover that Su Yu's attacks were completely unaffected by the chaos of subspace, striking true every time.

Meanwhile, it could only attack by chance.

Naturally, it could only take a beating.

After understanding all this, Su Yu couldn't help but chuckle.

He was an Evil God, and also a Ghost Hidden Blade, Heavenly Punishment Evil God, with two divine positions layered on top; returning to subspace was like coming home.

His battle in subspace naturally wouldn't face any restrictions.

However, this mass of flesh, though it appeared eerie, didn't seem to belong to the Evil God category, so it was still restricted.

"So weak, yet daring to trouble me, meet your demise under Heavenly Punishment..."

Su Yu spoke softly, making his attacks even more fierce.

Since this mass of flesh was momentarily careless and suppressed by Su Yu, he wouldn't give it a chance.

He would just kill it!

But at this time, the mass of flesh seemed unable to endure the attacks any longer, suddenly squirming and spitting out a castle.

This castle was exactly Xiao Shengyin's subspace domain.

After spitting out the castle, the mass of flesh rapidly became blurry.

No matter how fierce Su Yu's attacks were, he couldn't stop it.

"Su Yu, you will pay the price..."

The mass of flesh left a harsh remark and then disappeared.

"Escaped pretty fast..."

Su Yu shook his head, knowing that he let the thing escape.

Although he didn't manage to kill it, Su Yu still won this subspace battle.

Su Yu retracted the Power of Heavenly Punishment, then looked at Xiao Shengyin's domain castle.

With a flicker of his figure, he was already at the castle gate, casually pushing it open to reveal the hall inside.

As the door opened, the people in the hall, like sculptures, suddenly jolted, coming to their senses, regaining their ability to move, and taking deep breaths.

Even though they didn't need to breathe in subspace.

But the feeling of being unable to move, unable to think, unable to breathe just now was terrifying, leaving them with lingering fears.

Then they saw Su Yu standing at the door and immediately exclaimed:

"Mr. Su Yu!"

"Was it Mr. Su Yu who saved us?"

They immediately understood that in the current situation, it was surely Su Yu who saved them, and there was no other possibility.

"That's right, I saved you."

Su Yu nodded.

"Just now, you were swallowed into the belly of a mass of twisted flesh; do you have any clues about it?"
