

Infinite 426

Chapter 426: The Secret of Twisted Flesh, Astonishing Ritual!

Hearing Su Yu's words, everyone exchanged glances, all feeling a bit awkward.

Su Yu's question was clearly asking them if they recognized that distorted flesh, or knew its origin.

However, they didn't even have the power to resist earlier; they were directly controlled, unable to even see the enemy's face, and could only wait for Su Yu to rescue them.

How could they answer Su Yu's question?

This situation made them feel extremely frustrated and powerless.

After a while, Xiao Shengyin spoke with some shame: "To be honest, we didn't even see the enemy's face earlier, so we can't judge its origin..."

Upon hearing this, Su Yu nodded, then his eyes focused, releasing a stream of data that formed an image in the air.

It was the battle scene between him and that mass of flesh earlier.

Seeing this, the members quickly focused their attention on watching.

They also wanted to know, who exactly was this terrifying enemy that appeared out of nowhere?

"Mr. Su Yu was actually able to fight normally in Subspace!"

Before they even saw the distorted flesh, the group first saw Su Yu battling normally in Subspace, and they were all astonished.

They were well aware of Subspace's chaos, and fighting normally there was almost as hard as reaching the heavens.

Among them, only Xiao Shengyin, the strongest, could barely fight in Subspace, but his "accuracy" wasn't great. Compared to Su Yu, there was still a large gap.

"Truly amazing, no wonder he was able to save us..."

After marveling for a while at Su Yu's strength, the group finally looked at the distorted flesh.

"This is..."

When they saw the mass of twisted flesh, they all quickly looked bewildered.

It seemed that some hidden memory was awakened.

A moment later, the confusion on their faces turned to fear, apprehension, disbelief, and more.

"What, you recognize this thing?"

Seeing their changing expressions, Su Yu couldn't help but ask.

Hearing Su Yu's voice, they finally came back to their senses.

They exchanged glances, and finally, Xiao Shengyin spoke with difficulty: "I have indeed seen this thing before."

"That was more than eight hundred years ago, before I broke through to become a Seven-star Transcendent."

"Back then, I stumbled upon an ancient relic and obtained the data and knowledge of the [Navigator] occupation from it."

"At the deepest part of the relic was this mass of twisted flesh. I was enveloped by its tentacles, and extraordinary knowledge was infused into my mind..."

After Xiao Shengyin finished speaking, the others quickly chimed in:

"Two hundred years ago, my master, the last generation's [Extreme Ice Agent], taught me all kinds of extraordinary knowledge, and I respected him greatly. Until one day, I unintentionally discovered that my master's true form was actually a mass of twisted flesh."

"He usually disguised himself as human, wearing human skin. At the time, I was extremely terrified and took a long time to gradually accept it..."

"Same here, before I became a Data Ghost..."

Everyone started to speak up.

According to them, when they became Seven-star Transcendents, it was all because of that mass of twisted flesh.

As they spoke, they projected the scenes from their memories for Su Yu to see.

Watching those memories, Su Yu noticed that it was indeed the same mass of twisted flesh he had fought earlier, although it was much smaller in size, the appearance and "aura" were unmistakably the same.

"Tsk tsk, so, this twisted flesh should be your 'master'?"

Su Yu couldn't help but say.

It seemed quite remarkable.

It spent nearly a thousand years teaching so many Seven-star Transcendents.

At his words, the group looked immediately strange.

After a moment, they reluctantly nodded: "It seems that way."

"We became Seven-star Transcendents, all guided by it."

"It guided us to become Seven-star Transcendents just to make us sacrifices for a ceremony?"

The group found it unacceptable.

Their years of hard cultivation were all under the guidance of this mass of twisted flesh, all to become sacrifices?

Their expressions changed, clearly showing they were deeply disturbed emotionally.

Su Yu, however, was pensive. After a while, he suddenly spoke: "Are you sure your memories are real?"

Su Yu's words suddenly awakened them.

Indeed!

Earlier, their memories were affected, and they had forgotten the deceased Zhao Shuangming.

In that case, memories related to the twisted flesh could also be false!

Earlier, due to emotional turmoil, they hadn't considered the possibility of false memories.

With Su Yu's reminder, they immediately realized this.

They tried hard to recall, attempting to discern the authenticity of their memories.

After a long time, they said helplessly: "There's no way to be sure..."

Those memories were so vivid that they couldn't tell the real from the fake.

Even Xie Yitian, a master in the field of data, couldn't do it.

Thus, the group became even more confused, not knowing whether their memories were real or fake. It was no wonder they were so perplexed.

They even began to doubt, how much of their past life was real, and how much was false?

This was truly questioning their own lives.

Even as Seven-star Transcendents, suddenly discovering that their memories might all be false, forced them to doubt their existence.

Seeing their confused and pained expressions, Su Yu comforted them: "Don't worry too much."

"I suspect that the memories related to that mass of flesh are all false. They were implanted by it as fake memories."

"The occupational ability of this thing should be related to memory, which is why it has such power."

"It must be a bizarre ceremony to invade and alter your memories."

Chapter 427: The Secret of Twisted Flesh, Astonishing Ritual! _2

Upon hearing Su Yu's words, everyone gradually calmed down and spoke:

"Mr. Su Yu, we must have seemed ridiculous... Please forgive our lack of composure."

Su Yu nodded, indicating his understanding.

If one day, his own memory were altered and he couldn't distinguish between reality and falsehood, he would likely doubt his own existence too.

In his heart, he pondered silently:

"I really don't know what kind of bizarre ceremony this is, that it actually requires altering the memories of a group of Seven-star and even Eight-star Transcendents to complete..."

Su Yu was extremely curious about this ceremony.

It involves so many Seven-star experts, altering their memories and plotting against their lives.

What kind of ceremony is this?

If this ceremony is completed, what effect would it have?

At the level of a Seven-star Transcendent, the abilities of Spiritual Users are indeed each more magical and bizarre than the last, each ceremony more peculiar.

Su Yu, having seen much of the world and mastered quite a few third-tier professions, was still clueless about this ceremony involving numerous Seven-star Transcendents.

While Su Yu was pondering, the others suddenly underwent a change!

They had all projected that twisted mass of flesh from their memories into the air.

Initially, these were only illusory projections, without any power or substance.

But at this moment, the projected twisted flesh began to slowly become real from a mere shadow!

It seemed as if it wanted to "step out" from past memories.

The twisted mass of flesh from everyone's memory fused together in the air, becoming larger and more tangible.

In a brief moment, it truly descended upon the gathering hall.

Although much smaller than the previous hill-like form,

its imposing aura was not inferior; by mere feeling, it was clear this entity's power surpassed Seven-star, possibly even surpassing Eight-star.

"Daring to appear again?"

Seeing this, Su Yu's expression turned cold, and he was about to activate the Power of Heavenly Punishment to give it a fierce strike.

At present, the space in this gathering hall was stable, allowing for normal battle.

If this twisted flesh exerted its true power, who knew how terrifying it would be? Naturally, Su Yu wanted to strike first to gain an advantage.

However, moments later, Su Yu halted his action, realizing that although this mass of twisted flesh had an intimidating presence, it still lacked authenticity.

Evidently, it still fell short and hadn't truly stepped out from past memories to descend upon the gathering hall.

At this moment, it was still a shadow.

The twisted flesh, though not entirely real, opened several eyes on the tips of its tentacles, looked at Su Yu, and then made a sound:

"Su Yu, you are discussing Me? Discussing My ceremony?"

"You wish to know what effects My ceremony will have upon completion? What power it could grant Me?"

Seeing that this entity wanted to converse with him, Su Yu replied, "Yes, what is it you wish to say?"

Upon hearing Su Yu's response, the mass of flesh erupted in earth-shattering laughter: "Hahaha!"

"With your shallowness, how could you possibly comprehend My tremendous power?"

"Discussing among yourselves won't lead to uncovering the truth, not even in a lifetime!"

"Hahaha..."

It laughed for a while, noticing Su Yu's expression growing colder, stopped laughing and solemnly said:

"My great ceremony has already ventured into the supreme Time Domain!"

"In Subspace, not only space is in chaos, time is chaotic as well! Utilizing this chaos grants a chance to gain power beyond time!"

"I've implanted false past memories into members of the Transcendent Union, thus affecting their Subspace Imprints."

"After the Subspace Imprint changes, through the chaotic nature of Subspace, it will affect the real past! Altering the past!"

"How could you possibly deduce such a supreme Extraordinary Secret?"

"Just wait, once My ceremony is complete, I will become a great Transcender surpassing time..."

"Then, I will control you in the past, and from your very birth, you'll be subservient to Me! With no possibility of resistance!"

"I could even erase you before you are born!"

Having said these few words, it began to dissipate, returning to an ordinary memory projection.

It seemed its presence was merely to convey these words, revealing the secret of its ceremony to everyone.

And indeed, its secret was shocking enough.

Whether it was Su Yu or the others, all were shaken to the core upon hearing.

This mysterious ceremony involving the twisted flesh actually delved into the Time Domain? Power of Time?

Changing the past!

If this entity wasn't lying, such power would be incredible!

If it indeed succeeded, would it not become invincible?

Everyone understood why its ceremony necessitated altering their memories.

It intended to use falsehood to create reality, altering the past with false memories?

People were implanted with false memories, which were entirely different from actual past events.

But if they genuinely "believed" in these false memories, it would influence their Subspace Imprints.

The Subspace Imprint, being akin to one's secondary life, also possesses "memory."

If people believed in the false memories, so would their Subspace Imprints.

In Subspace, chaotic not just spatially but also temporally,

the false memories, "planted" in the present,

could exist in the distant past due to the chaotic time within Subspace.

Leveraging this time chaos presents an opportunity to alter the past.

Of course, executing it is not as simple as it sounds.

Undoubtedly, a particular strong, bizarre Extraordinary Ability is needed for coordination.

The twisted flesh's recent descent from people's memories is such an ability.

It materializes from the phantom memory, turning illusion into reality.

But its manifestation at the "present" time is hardly remarkable.

If its ceremony succeeded, it could descend from "past" people's false memories,

traversing time and arriving at the past, thus altering it.

This is the true core secret.

Even though it uses false past memories to change real past events,

such a theory seems fantastical, bordering on absurdity.

But who knows? Extraordinary Ability inherently defies logic; perhaps such a possibility exists!

"This is actually possible..."

Xiao Shengyin and others were tremendously shocked in their hearts.

Thinking about their involvement in such a magical ceremony, their previous terror dissipated.

They even harbored a longing, hoping the ceremony would complete, to witness if such time-transcending power exists!

As Transcendents, the allure of such great power was immense for them.

Even Su Yu was stirred.

Such a power exists? Transcending time?

Using Subspace's chaos to affect time? Is there such a method?

However, Su Yu quickly regained his composure:

"If this guy were truly that powerful, I would already be dead."

"Even a trace of time power would make it unbeatable for me. Yet earlier, I beat it as if it were nothing. Clearly, its ceremony is far from success."

"Talking a big game."

"However, the theory is interesting, possibly worth exploring..."

Su Yu's mind whirled, immediately deducing that most of the twisted flesh's former statements were boastful.

Becoming a formidable existence surpassing time? Certainly not so easily achieved.

Still, its words gave Su Yu a new perspective.

This path might actually hold potential for success!

Thinking of this, Su Yu felt a surge of excitement, Power of Time! If he could truly grasp it...

"Don't even think about running!"

While pondering, Su Yu noticed the twisted flesh starting to dissipate and quickly unleashed an invisible, formless power.

It was his trump card, the Power of Nihility!

Under this mystical power, the mass of flesh only dissolved halfway before suddenly vanishing entirely.

Before completely disappearing, it was transferred by Su Yu into the Nihility Space.

Within the Nihility Space, a half-phantom, half-real mass of flesh quietly remained.

"Captured a fragment of its will, let's see if it can be used to sense its true form..."

"Perhaps, even explore the mysteries of time through it..."

Chapter 428: "Subduing" the Transcendent Union!

Su Yu was very tempted by the Power of Time, a power of extremely high prestige.

The chaos of the Subspace was such that even the Time Domain was chaotic.

This was something Su Yu had never imagined before.

Now, with the reminder from the twisted flesh, Su Yu realized for the first time that the inherent chaotic distortion of the Subspace far exceeded his imagination.

By harnessing this chaotic distortion, one could obtain unimaginable power.

Now that Su Yu had captured a portion of this twisted flesh's consciousness, he naturally would not let it go easily.

He would find a way to extract the secret of the Power of Time from this guy's mouth.

However, Su Yu also knew that even if he did manage to get the exact secret out.

To truly obtain the power of Time, there was still an incredibly long way to go.

But it's better than nothing.

Moreover, Su Yu wasn't just curious about the mystery of the Power of Time; he was also extremely curious about the origin of that bunch of twisted flesh.

This guy didn't seem like an Evil God, nor like a Human Transcendent. What exactly was its origin?

If given the chance, Su Yu would certainly find a way to uncover its origin as well.

"Speaking of which, does that Brutal Evil God, as a powerful Subspace Evil God, possess the Power of Time?"

Su Yu suddenly thought of the Brutal Evil God.

If the theory about the twisted flesh related to the Power of Time was true, then perhaps the Brutal Evil God's true form might also possess this terrifying power.

The previous Brutal Split Mind was likely not at a high enough level to wield this power.

But if it were the true form, it's a different story.

"It seems like there's still a long way to go before defeating the true form of the Brutal Evil God..."

Su Yu sighed inwardly.

He had thought that as long as he kept getting stronger, he would eventually be able to defeat the true form of the Brutal Evil God.

But now it seemed that the true form of the Brutal Evil God might even be able to wield the Power of Time.

There might even be more terrifying methods.

To defeat such a terrifying existence, Su Yu must also master equivalent high-level powers to counter it!

...

"What a pity, it escaped..."

At this moment, others nearby noticed the disappearance of the twisted flesh and looked on with regret.

As Seven-star Transcendents, they naturally also wanted to explore the secret of the Power of Time.

Unfortunately, the twisted flesh had already left.

They didn't know that Su Yu had used the Power of Nihilism to capture the projection of that twisted flesh. They just assumed that the twisted flesh had escaped.

Su Yu was not about to deliberately explain the secrets of his powers to them.

After a few sighs, the group turned to Su Yu and solemnly said:

"Mr. Su Yu, we have a favor to ask of you..."

Su Yu was slightly taken aback, then immediately guessed what they wanted, so he nodded and said, "Go ahead."

The group exchanged glances, and then Xiao Shengyin spoke, "Mr. Su Yu, after this incident, we've realized that this meeting hall is no longer safe."

"So I wanted to ask if, in the future, we could..."

It turned out they wanted to ask this.

Previously, they had been in the meeting hall, only to be wiped out by the twisted flesh.

They naturally no longer trusted the safety of this meeting hall.

So they wanted to find another safe place to meet.

Upon hearing this, Su Yu considered it for a moment and then nodded, "Fine, from now on, you can meet in my Subspace Domain."

His Subspace Domain was much larger and sturdier than Xiao Shengyin's meeting hall.

Meeting in his Subspace Domain naturally offered much more safety.

After he finished speaking, Su Yu directly transmitted the coordinates of his Subspace Domain to them.

In the future, they only needed to enter the Subspace and recall the coordinates in their minds to enter Su Yu's domain.

Of course, this required Su Yu's permission; otherwise, they wouldn't be able to enter and would even be met with retaliation.

Unless they had the capabilities of a Ghost Hidden Blade, allowing them to invade others' domains silently and undetected.

In truth, allowing gatherings in the Subspace Domain was a bit risky.

If the twisted flesh still had some method left on any members of the Transcendent Union, it might use this to invade Su Yu's Subspace Domain.

Moreover, some members might harbor ill intentions, wanting to sabotage Su Yu's domain during a gathering, which would also pose a hidden risk.

But how could Su Yu be afraid?

In the Subspace, he was like a true Evil God, strong and formidable, having already driven away that twisted flesh.

He was confident that even in the face of danger, he could resolve it.

Su Yu even hoped the twisted flesh would indeed come.

If that twisted flesh truly intended to invade Su Yu's domain, it would be a perfect opportunity for Su Yu to capture its true form for thorough research. That would be ideal.

"That's great, thank you, Mr. Su Yu!"

The group was filled with joy upon hearing Su Yu's agreement.

Now their safety during gatherings was assured.

Actually, if they were to pursue safety diligently, they could choose not to gather anymore in the future.

But when that twisted flesh attacked before, even their real bodies in reality were affected.

Now, they dared not skip gatherings.

Otherwise, each member was separated by thousands of miles across different places.

If something happened, no one else would know.

Having weekly gatherings, especially under the protection of Su Yu, greatly increased their safety.

In case of complications, they could ask Su Yu for help at any time.

Seeing the joyful expressions on their faces, Su Yu mused to himself, "So, it looks like I've already taken control of the entire Transcendent Union?"

"Or should I say, they've now 'pledged allegiance' to me?"

Right now, the strongest member of the entire Transcendent Union was Su Yu.

Chapter 429: "Subdue" the Transcendent Union!_2

After all, Su Yu is now an eight-star, equipped with the Brutal Battle Armor, who can be his opponent?

The strongest power with the most "ancient" background.

Even the meeting venue is now provided by Su Yu.

All members of the Transcendent Alliance need Su Yu for protection.

Looking at it this way, the Transcendent Alliance has basically become a force under Su Yu.

Xiao Shengyin's role as president is practically unnecessary.

Su Yu becoming the president would make more sense.

"When I first joined the Transcendent Alliance, I was a bit nervous, even afraid they'd be against me, so I pretended to be a big shot, acting mysteriously."

"Tsk tsk, who would've thought that in just a few weeks, I'd already subdued this powerful force..."

Su Yu reflected and realized that only four or five weeks, about a month, had passed since he first attended the meeting.

And he'd already subdued this force.

Initially, Su Yu was just "pretending to be a big shot," but gradually, he unknowingly became a true big shot.

The entire alliance needed him as a protector, which stirred things up...

It wasn't just Su Yu thinking this; others were also having the same thoughts at this moment:

"Mr. Su Yu has only attended a few meetings, yet it seems we've already become his subordinates?"

"Every time Su Yu attends a meeting, it always results in earth-shattering events or he announces some stunning news. This time, he directly subdued the entire meeting..."

They reflected on the events since Su Yu began attending, realizing that more had happened in those few weeks than in their past hundred years.

Truly a resurrected ancient big shot...

At this moment, Xiao Shengyin suddenly spoke:

"Mr. Su Yu, since we're meeting in your Subspace Domain from now on, my position as president..."

Xiao Shengyin, being an astute individual, immediately sought to "abdicate and yield to the worthy."

"Ahem, that's not necessary..."

Su Yu hastily declined.

He felt it was better to stay low-key; he'd been in the alliance just a few weeks and already took over the president's position.

It wouldn't sound good to say this out loud...

Anyway, having the title of president or not made no difference to him.

In fact, Su Yu was not too concerned about the Transcendent Alliance at this moment.

Because Su Yu's power had increased so rapidly, the originally formidable Transcendent Alliance seemed just average after his power surged.

Of course, that's not to say that subduing the Transcendent Alliance was of no use to Su Yu.

The power and technology of so many Seven-star Transcendents were naturally a strong support for Su Yu.

However, Su Yu understood that the most important thing was still his own strength.

"Alright then, since Mr. Su Yu declines, leave it at that."

"Mr. Su Yu, there's one more thing. Our city might have hidden dangers buried; what do you think..."

Seeing Su Yu unwilling to accept the presidency, Xiao Shengyin didn't press further and instead brought up another matter.

They had previously requested Su Yu to inspect their city for hidden dangers.

Su Yu went to Jiguang City and was almost fooled, so he didn't continue afterward.

Now, after this incident, Xiao Shengyin and the others were more concerned about their safety, so they brought it up again.

Su Yu, upon hearing this, immediately said, "In the next few days, I'll be visiting your cities for inspections."

At this moment, having completed the ceremony and risen to eight stars, with a surge in power, Su Yu naturally needn't worry too much about unseen threats.

So he's planning to visit the other cities one by one soon.

In fact, Su Yu hopes that those cities do have methods of twisted flesh hidden.

So he can take advantage to trace the original of that entity.

Moreover, visiting the cities of each member allows him to see more sights, interact with those members, and acquire precious knowledge and technology.

Now that Su Yu is the big shot overseeing the Transcendent Alliance, when he visits the cities of the members, they naturally would offer something as hospitality...

Following more exchanges among the group, the thrilling meeting finally ended, and everyone returned to reality.

...

Su Yu and Xie Yitian naturally returned to the battlefield of the City of Heavenly Punishment.

At this moment, on the battlefield, that enormous subspace rift had already closed.

The subspace rift emerged because Su Yu's Subspace Domain, being overly strong during his ascension, sensed mutual resonance with his body.

Coupled with the power of the ceremony, it tore the barrier between the material world and the subspace, bringing the subspace into actuality.

Now that Su Yu's ascension is complete and the ceremony's power has faded, the rift naturally closed.

Though the rift is closed, the battlefield is still filled with pure Spiritual Energy.

This Spiritual Energy had leaked out from the previous subspace rift.

In essence, Su Yu opened a giant Subspace Gate, extracting a large amount of Spiritual Energy out.

So much pure Spiritual Energy caused numerous warriors to awaken their Extraordinary Abilities.

Ordinarily, gazing into subspace would drive a person insane.

Previously, on the battlefield, the Heavenly Punishment believers were already insane.

The soldiers of the Mechanical City, however, were able to maintain composure before the subspace rift thanks to Su Yu's "Mechanical Blessing."

At this moment, the battle on the battlefield had concluded.

Whether the Heavenly Punishment believers or the soldiers of the Mechanical City, both sides are sitting on the ground, focusing on absorbing the pure Spiritual Energy to enhance their power.

This much pure Spiritual Energy must not be wasted.

Even the lunatic Heavenly Punishment believers understand its preciousness.

In fact, these believers regard this Spiritual Energy as divine grace, so they dare not waste it at all.

Seeing this scene, Su Yu's mind stirred.

If such a large subspace rift occurs several more times, it would potentially create limitless Spiritual Users.

However, upon pondering for a moment, Su Yu realized it wouldn't work.

The previous giant subspace rift borrowed the power of the ceremony.

Now, after the ascension with no ceremony, tearing such a large rift is naturally impossible.

However, as Su Yu sensed a bit, he realized that while creating a large rift wasn't feasible, a smaller one was possible.

With a single thought, a man-sized subspace rift opened before him, and pure Spiritual Energy leaked out.

Previously, as a seven-star, Su Yu could open the Subspace Gate but only internally; now, he could project it outwardly.

However, opening such a rift consumed extra energy from Su Yu, making it somewhat unworthwhile.

Yet this Subspace Gate looked somewhat familiar to Su Yu.

During the previous subspace "delivery" from Xiao Shengyin, such a rift appeared out of thin air, through which various resources were transmitted.

"It seems Xiao Shengyin's subspace transmission also borrowed the power of the eight-star Subspace Domain."

"Now that I've reached eight stars and possess the domain, perhaps learning Xiao Shengyin's technology could allow me to use such methods too?"

"Once I visit Holy Hidden City, I'll find a chance to try it out..."

After some reflection, Su Yu closed the subspace rift.

Though the idea of extracting Spiritual Energy through subspace rifts and creating limitless Transcendents might be unrealistic.

That doesn't mean Su Yu couldn't find another way.

He still possesses the ability to convert Ghost Energy into Spiritual Energy.

And Xie Yitian could convert Spiritual Energy into data; the two could collaborate to also achieve infinite pure Spiritual Energy.

This energy could be used to create Spiritual Users and power various constructs.

Su Yu had been contemplating this for a while, though he'd been preoccupied preparing for the ceremony.

Now that the ceremony is completed, it's finally possible to bring this plan into action.

"City Lord Xie..."

Thus, Su Yu sent a stream of data to Xie Yitian, discussing the cooperation matters.

"Mr. Su Yu, this is a great thing! I have no problem with it at all!"

"Haha, infinite Spiritual Energy, truly a..."

"Mr. Su Yu is amazingly capable to convert Ghost Energy into pure Spiritual Energy..."

Xie Yitian was understandably extremely pleased to hear Su Yu's words.

This collaboration almost signifies limitless energy.

There's no need to elaborate on the importance of energy.

"Very well, then I'll return to the Mechanical City; there are other matters to handle."

"I'll leave the cleanup of this battlefield to City Lord Xie; once I finish inspecting the hidden dangers of each city, we'll begin our collaboration."

Su Yu exchanged a few more words with Xie Yitian, then gave the command to the soldiers of the Mechanical City to conclude the battle.

Then he activated his battle armor and returned to the Mechanical City.

He plans to return and start studying that twisted flesh to extract its secrets!

Chapter 430: The Origin of the Twisted Flesh Mass! 4th Tier Profession!

After Su Yu left, Xie Yitian began to "clean up the battlefield" as instructed by Su Yu.

This so-called cleaning up the battlefield was actually... to completely wipe out the residual believers of Heavenly Punishment!

These madmen were notorious, their hands stained with blood, responsible for the destruction of numerous human settlements.

Leaving such characters behind would only bring disaster.

Now that Su Yu's ritual is complete and they are no longer needed, he left their cleanup to Xie Yitian.

Xie Yitian wanted to ascend to eight-star, requiring a sufficient number of flesh and blood carriers, and these believers of Heavenly Punishment were just right for the job.

None of these guys should think about surviving.

However, saying it's a complete wipeout, it's not actually that gory.

Xie Yitian activated his ability, fully unleashing the power of the Data Ghost, swiftly invading the brains of those believers of Heavenly Punishment.

With his ability, he could complete the invasion instantly, making their deaths silent and undetected.

Currently, in the City of Heavenly Punishment, there are still hundreds of thousands of surviving believers.

After all, it's a big city with nearly a million population; although the previous battle caused heavy casualties among the believers, it was far from complete annihilation.

Xie Yitian swiftly invaded the brains of these believers, borrowing their brains to boost his computational power.

Ten thousand, twenty thousand, a hundred thousand...

As the number of carriers he invaded grew, Xie Yitian felt his computational power increasing.

For a [Data Ghost], computational power is strength, so his Spiritual Energy was continuously enhancing.

Finally, as Xie Yitian's computational power broke through a certain limit.

He felt as if he were about to open up a data space, a data domain of his own in the subspace!

"Is this the subspace domain of eight-star..."

Xie Yitian understood that this was a sign of breaking through to eight-star.

As long as this subspace data domain is truly established, he will break through to eight-star.

Xie Yitian felt excited and pushed his power even harder, wanting to invade all of the believers of Heavenly Punishment.

For a powerful Data Ghost, invading hundreds of thousands of people wasn't too difficult.

Those few six-star "Heavenly Punishment Admirals" attempted to resist, but only caused him to expend a bit more effort, without posing a real hindrance.

The power of the Data Ghost is quite adept at "destroying weaklings".

The power of data is formless and shapeless; without being at least seven-star, there's practically no way to resist it.

These believers of Heavenly Punishment, though numerous, had no power to resist at all.

Such efficient slaughter, Su Yu without his powerful Brutal Battle Armor, might not even surpass it.

Su Yu indeed chose the right person to clean up the battlefield.

Very soon, among the hundreds of thousands of believers in the City of Heavenly Punishment, there was only the will of Xie Yitian.

Despite possessing hundreds of thousands of carriers, his subspace data domain was not truly completed.

Naturally, he had not advanced to eight-star.

"It seems the number of carriers is still insufficient..."

Xie Yitian sighed.

His ritual required at least a million carriers.

Now these hundreds of thousands of believers of Heavenly Punishment barely completed half of it, leaving a large gap.

"Alas, finding so many carriers again won't be easy..."

Xie Yitian sighed in his heart.

His ritual required the slaughter of a large number of humans.

And according to Xie Yitian's conscience, these humans must be utterly sinful for him to invade and slaughter without guilt.

If he brutally slaughtered ordinary people, he would inevitably become psychologically twisted, driven to madness, and breaking through then would be meaningless.

And these believers of Heavenly Punishment were simply the perfect carriers.

Now that the believers were gone, Xie Yitian truly did not know where to find another tens of thousands to fill the gap.

"Never mind, as long as I stick with Mr. Su Yu, there'll be a way sooner or later."

Xie Yitian didn't dwell on it too much.

Anyway, Mr. Su Yu is vastly capable, perhaps he'll solve this issue within a few weeks.

Following the "big boss" is truly a relief.

After dealing with these believers of Heavenly Punishment, Xie Yitian controlled a carrier and walked towards the combat personnel of the Mechanical City.

At this time, those combat personnel in the Mechanical City had already heard Su Yu's ceasefire order and were unsure about what to do next.

Because Su Yu only informed them that the battle was over, then there was nothing more.

Battle over, and then?

Are they going back to the Mechanical City, or what?

At this time, they saw a few believers of Heavenly Punishment approaching and immediately became tense.

Although Su Yu said the battle was over, these lunatics of the City of Heavenly Punishment wouldn't follow Su Yu's orders!

And Xie Yitian, controlling the carrier, spoke to the crowd: "Ladies and gentlemen, I am Xie Yitian, an ally of Mr. Su Yu."

"Now all these believers of Heavenly Punishment have been controlled by me and pose no danger anymore."

"The earlier battle was a ritual by Mr. Su Yu, and now that the ritual is complete, there's no need for further combat."

"Mr. Su Yu's order is that you will now garrison in the City of Heavenly Punishment, occupy this city, and transform it into the second Mechanical City."

"There are still some residents in the City of Heavenly Punishment; you can subdue them and integrate them into the Mechanical City..."

"If there is anything you need, feel free to ask for my help..."

Xie Yitian explained Su Yu's plan in detail to everyone present.

Since they had already taken the City of Heavenly Punishment, it shouldn't be wasted. Therefore, these ten thousand combat personnel would station here to develop and transform it.

"What? All hundreds of thousands of them were controlled?"

The people from the Mechanical City were startled upon hearing Xie Yitian's words, hurriedly looking towards those believers of Heavenly Punishment.
