Chapter 111: Chapter 87 Li the Good Samaritan! Rapid Level Advancement!_3

Unfortunately, his luck was bad, and he encountered Su Yu.

Under the blessing of the perception abilities [Perception of Killing Intent] and [Holographic Perception].

No matter how the radiation fog changed.

Li He, or those Ghost Demons he controlled, in Su Yu's vision, were like fireflies in the night, shining brightly, completely exposed!

"Won't you lose track of my position?"

Deep within the gray fog.

Taking advantage of the Ghost Demons, Li He, who was almost omniscient within the fog, heard Su Yu's words and couldn't help but let out a cold laugh as if he had heard the funniest joke!

But, thinking of Su Yu previously leading the sixty Cavalries steadily advancing, causing losses to his Ghost Demons.

And before, when the ninth squad repeatedly escaped from his grasp.

Li He did not want to underestimate Su Yu.

"Being cautious is always good!"

Even though he didn't think Su Yu had any means to track his position in such an environment.

Li He still chose to act cautiously.

After all, he hadn't yet transformed to the most perfect stage.

His strength was fluctuating between a four-star intermediate and a four-star peak level and had not yet stabilized at the four-star peak level, requiring more sacrifices to complete the transformation.

With a thought.

"Swish!"

His body started to slide silently through the gray fog.

That's right.

Slid.

Under the influence of the radiation fog, the ground in this area had also been filled with substantial Ghost Energy.

For Su Yu and other Transcendents, this Ghost Energy was like a quagmire, greatly slowing their movement speed.

But for Li He and his Ghost Demons, this Ghost Energy was like the perfect ice, allowing them to move swiftly!

And now, Li He was starting a rapid transfer on this ice formed by Ghost Energy.

"Even if you happen to find my position after I move, I can relocate to a new position again!"

Li He muttered to himself.

Imagining Su Yu and others painstakingly searching for him in the gray fog, struggling against the effects of the radiation fog, and failing over and over, eventually exhausted and despairing.

Li He's eyes were filled with eager anticipation!

However, what Li He didn't know was.

Just as he began to transfer and move quickly.

Su Yu also suddenly widened his eyes, a light of indescribable surprise bursting forth!

"This kind of tactic!?"

In Su Yu's Holographic Perception.

Li He, thinking he was well concealed, had his intent of killing represented by a point of light, which within about ten seconds moved into the gray fog in the southwest direction.

But this wasn't the main point.

The main point was.

When Li He finished transferring and stopped, planning to move again in fifteen minutes.

Su Yu's Profession Panel also simultaneously refreshed with new information!

[The target you were tracking has lost its trace, please begin tracking again...]

[You have successfully tracked the escaping target, currently evaluating the target's level... Evaluation complete]

[Current target level: Four-star advanced]

[Congratulations, you have gained skill experience (Wilderness Survival Elite): 21,000 points]

[You have accumulated enough experience points, your Professional Skill: Wilderness Survival Elite Level has increased]

[Wilderness Survival Elite current level: Lv5 (60%)]

"..."

Five consecutive notification messages appeared in Su Yu's sight.

Leaving Su Yu momentarily speechless.

A thousand words condensed into one:

"Captain Li He is truly a benevolent man!"

Su Yu never expected to have such an opportunity to level up his skills!

And with one go, he gained 15,000 experience points!

"It's a pity that Captain Li He probably will only change direction once..."

Su Yu sighed a bit dejectedly.

But then a thought hit him, and he suddenly came up with a good idea!

"In this radiation fog, using those Ghost Demons, Captain Li He could probably detect our position, even to an extreme, hear our tactical discussions, so..."

Su Yu pondered, and an impeccable idea was already in his mind!

He immediately waved his hand, directing Yang Lie and others to gather around him, leading the Cavalry towards the southwest direction where Li He had moved.

However, Su Yu didn't lead the group directly southwest initially; instead, he advanced in steps.

First, he turned west, then slightly south, gradually shifting, finally targeting the position where Li He was, and began accelerating towards it.

Upon sensing the change in direction of Su Yu and the others.

Hidden in the shadows, Li He was indeed deceived by Su Yu's maneuver!

"Damn it! This kid actually figured it out!?"

Watching Su Yu leading Yang Lie and the others, though slowly, steadily approaching his direction.

Li He's eyes were filled with uncontrollable indignation and anger.

Fortunately, he had planned for this and immediately manipulated Ghost Energy to transfer once more.

In just a moment, he was once again in another area of the radiation fog!

After Li He completed the transfer.

Su Yu also paused slightly before unfolding the [Holographic Perception] again.

Thus.

[Ding!]

[The target you were tracking has lost its trace, please begin tracking again...]

[You have successfully tracked the escaping target, currently evaluating the target's level... Evaluation complete!!]

Chapter 112: Chapter 88: Forceful Breakthrough! Li He's Helplessness and Shock!

[Current Target Level: Four-Star Intermediate]

[Congratulations on gaining skill experience (Wasteland Survival Elite): 15,000 points]

[Your skill experience has accumulated to full...]

Watching the skill level smoothly upgrade from Lv5 to Lv7.

Su Yu nodded in satisfaction, but soon after, he noticed the difference in the amount of experience gained this time.

"Four-Star Intermediate?"

Su Yu furrowed his brow slightly.

"I remember, last time when I tracked Li He, his level should have been Four-Star Advanced..."

Recollecting the information he gathered using the Profession Panel, while checking the Ghost Demon Cluster before.

In Su Yu's mind, the clues began to form a line, allowing him to grasp the key!

"That's it!"

"Li He's current situation is still far from being at its perfect state!"

Originally, Su Yu thought the strength assessment of the Ghost Demon Cluster showed [Four-Star Intermediate ~ Four-Star Peak] because there were too many Ghost Demons, with varying strengths.

When dozens of One-Star Ghost Demons form a Ghost Demon Cluster and attack, it's clearly different from when a cluster of dozens of Two-Star Ghost Demons strikes.

The former might only have an overall combat power of Four-Star Intermediate, but the latter could very well be close to Four-Star Advanced or even Peak.

But now it seems.

This strength assessment, I completely misunderstood!

"This is not the strength assessment of the Ghost Demon Cluster, but of Li He!"

"This Captain Li He's strength is quite fluctuating! Although he has broken through to the Four-Star level, his power has not yet fully stabilized!"

Su Yu's eyes grew brighter!

He was originally puzzled.

Since Li He created so many Ghost Demons and formed this massive Ghost Demon Cluster, directly approaching the Sanctuary.

In Su Yu's view, Captain Li He, if not flattening the Sanctuary with overwhelming force.

At least should have appeared openly and decisively to crush these enemies.

But when Su Yu led Yang Lie, the old manager, and others directly into the gray fog.

This Night Slayer Captain was still yet to show himself.

It was quite inexplicable.

And now, Su Yu finally understood why.

"This Captain Li He might have seen a sudden surge in power with Ghost Energy technology, but he hasn't fully mastered this power yet!"

If at this time, his team could launch a strike right in front of Captain Li.

The chances of victory in this battle would be higher than Su Yu originally expected!

"Mr. Su, which direction do we move next?"

Just as Su Yu discerned Li He's situation.

Bai Hong and others' voices came from beside him.

Su Yu had now become the backbone of this team, even the manager seemed to center on Su Yu.

Although they have not yet found any trace of Li He.

Under Su Yu's leadership, utilizing Holographic Perception.

As Su Yu and his team progressed, they couldn't avoid the attacks from Ghost Demon Clusters, but the incoming Ghost Demons were generally selected by Su Yu as having lower difficulty.

Although they were quite troublesome, under Su Yu's control, they managed to progress without anyone getting injured, naturally raising Su Yu's prestige among the group.

Hearing everyone's voices, Su Yu regained his focus, eyes slightly narrowing, looking towards where Li He shifted, his gaze thunderous and commanding, making everyone present hold their breath involuntarily.

"Just follow me!"

Su Yu spoke in a deep voice, leading Yang Lie and the others to switch direction once more.

He didn't immediately head towards Li He's position.

Although knowing that if they could strike near Li He now, the odds of winning would be higher.

But after "witnessing" Li He's two rapid shifts.

Su Yu understood that in this radiation gray fog, Li He's mobility might surpass everyone on his team combined.

So, even if Su Yu could pinpoint Li He's location and charge all the way there.

By the time they truly reached Li He, he could have easily moved himself to another place, wasting their efforts.

So, after a brief consideration, Su Yu decisively chose another path.

"Continue with the original plan, but with increased efficiency."

Originally, Su Yu spent tens of minutes, changing his direction seven or eight times, before finally "luckily" locking onto Li He's direction.

But now, Su Yu didn't intend to spend that much time anymore.

He planned to increase his "luck" a notch higher!

In the following hour.

Li He was surprised to find that Su Yu's luck, or sixth sense, was so good it frightened him!

In just one hour.

He was forced by Su Yu to change his direction three times!

Originally Li He intended to let his Ghost Demons hold off Su Yu's team, creating an opportunity for his next transformation.

But now, in order not to let Su Yu's team reach him prematurely, he had to change positions frequently, with no chance to solidify his Ghost Energy for a new transformation.

Watching as Su Yu and his team, with each course change.

Chapter 113: Chapter 88: Strong Advancement! Li He's Helplessness and Shock!_2

Once again, he "luckily" found his position.

In Li He's eyes, there was an irrepressible anger, almost turning into a tangible overflow!

"Damn it! This Su Yu! What's his deal!? Why can he locate my position time and time again? Is his luck just this good... no, that's not it!"

At the peak of fury.

Li He's mind, instead, calmed down, and in a flash of insight, he "saw" Su Yu's group in the gray fog again locking onto his position and heading swiftly toward the area where he was located, cold light flashing in his eyes!

"This isn't something that can be explained by luck!"

Once is luck, twice is luck, what about the third and fourth time?!

Counting this time.

Su Yu had already identified his position six times in quick succession!

If by this point, he still simply attributed Su Yu's actions to luck.

Li He wouldn't have been able to grow step by step in Shelter No. 73 to his current level of strength!

"Though I don't know how this kid named Su Yu does it, there's no doubt he can quickly pinpoint my location and complete the tracking!"

Li He's voice was brimming with boundless rage, and a hint of regret he could hardly conceal.

Today, the shocks Su Yu brought him were simply too many.

Upon entering the radiation gray fog, the astonishing destructive power displayed by Su Yu's ranger battalion had already made Li He somewhat regretful.

And now.

Su Yu used some ability to locate that Li He couldn't detect at all!

Such power on a young man under twenty.

How could Li He not feel regret?

If he had known earlier about Su Yu's terrifying potential.

Back then in the sanctuary, he would have disregarded everything, even if it meant starting a war with the administrators early, he would have made sure to kill Su Yu!

But now, it's too late to regret.

Fortunately, Li He wasn't just anyone; he quickly adjusted his mindset, relying on the ghost demons hidden in the gray fog, locking onto Su Yu's team with unconcealed cold gleams in his eyes!

"Since you've found my location, fine! Let's have a head-on confrontation!"

Li He murmured softly.

At the moment his words fell!

"Swish, swish, swish——!"

The eerie gray fog created by the surrounding ghost energy radiation started churning like boiling lake water, and after a moment, a cluster of ghost demons more powerful and hideous than the radiation hyenas that attacked Su Yu and others previously began to emerge from the fog!

If Su Yu were here, with just a glance, he would likely turn a bit pale in shock.

Only because.

The ghost demon cluster appearing before Su Yu now, each possessed the strength of a high one-star level!

And the leading batch of over ten ghost demons had all reached the two-star rank.

With the radiation gray fog boosting them, their combat power would become even more terrifying, at least one or two levels higher than their original star rank!

"Go! Rip Su Yu and those with him to shreds for me, use their flesh and blood as a sacrifice for the great priest's opening for my master!"

With Li He's command howling like that of a fierce ghost.

The ghost demons roared wildly, like beasts.

And charged at Su Yu's position at high speed!

...

[Ding!]

[The target you are tracking has lost its trace, please restart tracking...]

[You have successfully tracked the escaping target, determining based on escape target level... Determination complete]

[Current target level: Four-star top level]

[Congratulations, you have gained skill experience (Wilderness Survival Elite): 21000 points]

[Your experience has accumulated sufficiently, your professional skill: Wilderness Survival Elite level has increased]

[Wilderness Survival Elite current level: Lv13 (70%)]

Just as Li He began issuing commands, summoning a more powerful batch of ghost demons to launch a fiercer attack on Su Yu's team.

On Su Yu's side, as he confirmed Li He's position once again.

Another wealth of skill experience was also gained by Su Yu.

[Wilderness Survival Elite], though a purely auxiliary ability.

But as it improved.

Su Yu clearly felt that his physical attributes had grown considerably.

As for sight, hearing, smell, and the like, his five senses had increased astonishingly!

"It's a pity, but the captain Li He has probably found out about my situation by now!"

Su Yu regretfully withdrew his gaze from the profession panel, and the holographic perception ability silently activated, turning his vision into a three-dimensional, almost x-ray-like view.

Within his field of vision, all extraordinary life forms within hundreds of meters to a kilometer range were now exposed.

And among them, Li He, who bore a deep murderous intent toward Su Yu, stood out the most.

However, in several previous tracking attempts, every time Li He realized his position had been detected by Su Yu, he would decisively choose to relocate.

Chapter 114: Chapter 88: Strong Advancement! Li He's Helplessness and Shock!_3

But this time, Li He did not choose to relocate but stayed directly in place.

Moreover, he directly deployed powerful Ghost Demons previously positioned in other areas, gathering them before him.

The blood-red killing intent represented by those Ghost Demons, commonly one-star or two-star, began to converge toward his location to launch an attack.

If by this time, Su Yu still couldn't figure out Li He's intentions,

then it would be impossible for him to have come this far!

"Interesting, it looks like we're up for a siege battle next!"

Su Yu murmured softly.

In his eyes, there was no fear, only a burning battle spirit blazing endlessly!

After all, he had already achieved his objective.

Altogether six times, interrupting Li He's attempt to consolidate his Ghost Energy into further metamorphosis, which was a rather perfect outcome.

And during these six interruptions.

Su Yu also hunted down many Ghost Demons, further enhancing his strength.

Although these Ghost Demons were generally low-level,

the accumulated experience over time allowed Su Yu to successfully elevate his Wilderness Hunter level to Lv10.

A Lv10 Wilderness Hunter, combined with the skill amplification of the Lv13 Wilderness Survival Elite.

Su Yu's fleshly strength alone had already reached the level of a three-star advanced tier!

As a Mechanic, his greatest weakness was individual combat power, which had been greatly compensated for, giving Su Yu more confidence in the upcoming siege!

"What needs to be done next is to do everything in one's power and let fate decide!"

Exhaust all battle power to break through the Ghost Demon defense line Li He set up as quickly as possible.

If he could reach there before Li He's transformation was complete, that would naturally be great.

Even if not in time, it's no matter.

Su Yu focused on Li He's location, slightly tightening the grip on the handle of the Electric Sniper Cannon, which had been well-hidden, wrapped in gray cloth on his back.

Even if Li He's transformation was completed and his strength was consolidated to a four-star peak.

"With Electromagnetic Fury, Electric Sniper Cannon, and a full sixty Cavalry units along with self-destruct attack traits, plus even if I haven't reached Lv20, I can attain Wilderness Hunter level at Lv15 or 16, providing a power boost."

"So what if they are four-star peak Ghost Demons; it's not like they can't truly be killed!"

Slightly calming the turbulence in his heart.

Su Yu waved his hand decisively, shouting loudly!

"Everyone, get ready!"

"Prepare to face the onslaught of the Ghost Demon Cluster!"

As Su Yu's alert fell.

The administrators and others turned pale, raising their firearms and aiming forward, while those Cavalry units also aimed their gun muzzles at the pitch-black radiation gray mist ahead.

Then,

"Whoosh whoosh whoosh——!"

Sharp, piercing sounds of air breaking suddenly came, and Ghost Demons charged out from the pitch-black gray mist, howling and pouncing from different angles, heading straight for the center of Su Yu's Team.

Although Su Yu had already alerted everyone.

The strength of this group of Ghost Demons was undeniably a notch stronger than any they had encountered before.

Caught off guard, more than seven Ghost Demons managed to infiltrate the middle of the team, instantly knocking away two deputy captains of the hunting squad rushing over to protect Su Yu.

Then, these seven Ghost Demons split into two groups.

Five Ghost Demons blocked Bai Hong and others rushing to provide support, while the other two, with excited and sharp cries, viciously lunged toward Su Yu!

Deep in the radiation gray mist.

Watching this, Li He's lips involuntarily curled into a satisfied smile.

"Do you think you're the only one capable of playing tricks?"

After realizing that Su Yu might have some ability to sense his position,

Li He also guessed that even in this radiation gray mist, Su Yu might manage to detect the movements of the Ghost Demons he commanded.

So, Li He simply turned the tables.

He had his Ghost Demons charge straight toward Su Yu's Team's battle formation.

At first glance, it appeared like before, purely intending to engage in a straightforward clash of brute force against Su Yu's Team's firepower network.

But in reality, this was merely Li He's smokescreen.

His true target had long been locked on Su Yu.

The dense firepower network indeed killed more than twenty one-star high-level and even some one-star peak Ghost Demons in the first instance.

But those few two-star level Ghost Demons, except for a few unlucky ones, with stronger Ghost Energy protection, not only survived but also smoothly infiltrated Su Yu's Team's interior.

Under Li He's orders, they directly regarded the rest primarily as meat shields, willing to exchange life for life tactics, intending to assassinate Su Yu, the core of this Team, directly here!

"Roar!"

Neither Bai Hong nor the administrators expected that these Ghost Demons, normally supposed to be irrational, blind carnage and destruction machines,

actually knew how to use tactics and understood the principle of 'capturing the leader first.'

Unprepared, they truly found themselves intercepted by those few Ghost Demons.

Even though it only took a few seconds for those Ghost Demons to be blasted into bloody mists by the administrators' full-powered assault,

the remaining two, particularly powerful two-star high-level Ghost Demons successfully charged close to Su Yu, lunging toward him amid howls and roars!

"It's over!"

Seeing this scene.

Everyone present felt their hearts sink to the bottom.

Only Yang Lie, initially worried as well,

noticed the power levels of those two Ghost Demons, and his expression turned peculiar.

"Don't worry, let's handle the remaining Ghost Demons first!"

Yang Lie said as he grabbed his firearm, starting to shoot the surrounding one-star Ghost Demons regrouping under Li He's command.

These one-star Ghost Demons were intended by Li He to annihilate Su Yu's Team completely by seizing the chaos after Su Yu's supposed death, entirely unaware that even under assault, Yang Lie could maintain composure, and even initiated a counterattack.

Caught unprepared,

the Ghost Demons summoned by Li He almost willingly ran into Yang Lie's line of fire.

These one-star Ghost Demons were no match for the power of Yang Lie's heavy machine gun bullets modified by Su Yu, being shattered to pieces in one burst, leaving Li He distressed as he consoled himself that killing Su Yu would be a great success.

But, the next second.

"Bang!"

"Bang bang!"

The sound of flesh bursting rang through the battlefield, causing Li He's expression to instantly freeze!

Chapter 115: Chapter 89: Another Promotion! Li He's Regret and Anger!

Accompanied by the dull sound of bones shattering.

Under the shocked gaze of everyone present, the two two-star top-level Ghost Demons that had charged into the formation and attacked Su Yu did not cause the heavy damage they had anticipated once they got close to him.

On the contrary.

They didn't even have a chance to strike.

The moment they approached Su Yu, he moved like lightning, grabbing their necks, and then exerted sudden force!

Directly crushing their throats.

Then, without letting go, Su Yu picked them up by their necks and brought their heads in intimate contact with the ground!

The bodies of these Ghost Demons had already been completely eroded by Ghost Energy.

Simply crushing their necks or piercing their hearts made it difficult to kill them completely.

Only by smashing their heads could these creatures be thoroughly ended.

This was something Su Yu had long known while he was killing his way here, collecting experience, and at this moment, his melee move was extremely smooth.

By the time everyone present came to their senses.

The two two-star top-level Ghost Demons had completely lost all signs of life. Their bodies shattered, their remains dissolving into large clouds of Ghost Energy mist, which then merged with the surrounding radiation mist, just like the other dead Ghost Demons before them.

"Su...Mr. Su?"

No time to worry about the fate of those Ghost Demons.

Among those present, apart from Yang Lie, who was already aware of Su Yu's extraordinary physical prowess.

The others, even the manager, found it difficult to remain composed.

Back in his days in Dawn City, he had seen many so-called genius Transcendents.

He had also seen those who practiced both the Physical Body and Spiritual Ability.

But those Transcendents usually had one main path, either physical or spiritual, which was typically much stronger than the auxiliary one by a star level or more.

And as for Su Yu, his Spiritual Ability being at three stars could be forgiven.

But even with that series of seamless melee attacks earlier, not even a typical early three-star Extraordinary of Physical Body could be a match for him, right?

"Is it possible that on this godforsaken planet, there still exists such a genius?"

The manager looked at Su Yu, his eyes filled with an indescribable brightness!

Meanwhile, in the depths of the gray mist, Li He was furious, almost to the point of madness!

"Damn, damn, damn! This Su Yu...if only I had killed him earlier, there wouldn't be so many variables today!?"

Under the influence of the god he worshiped.

Li He, who was usually able to maintain his calm with his Spiritual Ability, found himself walking down the same extreme and frenzied path as those subordinates he once controlled.

Seeing the extraordinary power and talent demonstrated by Su Yu.

Li He's heart was almost filled with regret.

Yet, beyond this regret, Li He felt even more jealousy!

How much had it cost him to reach his current strength through hard work?

And Su Yu?

From the moment he stepped into being Transcendent until now, it hasn't even been half a year! He already possesses such strength!

"That boy named Su Yu really deserves to die..."

Li He's voice became increasingly sinister and crazed.

Nonetheless, no matter how furious he was, it couldn't change the situation. Fortunately, Li He understood this, watching as Su Yu dealt with those two attacking Ghost Demons, showcasing his strength, reinvigorating the team, and directing his teammates to continue advancing.

Li He suppressed his inner rage slightly and waved his hand again!

"Go! Continue the slaughter for me!"

"If one ambush doesn't work, try a second, if that doesn't work, go for a third!"

The number of Ghost Demons he had converted was in the hundreds, and the ones lost so far weren't even a fifth!

This number of subordinates allowed Li He to retain considerable confidence!

"So what if he's an Extraordinary of Physical Body at three stars? With so many Ghost Demons attacking, even if it's just through attrition, we can grind him down to death!"

"Moreover..."

Li He glared at Su Yu's team, focusing on the cavalry outside the perimeter, serving as both a guard and a first line of defense, with a cold voice: "In the end, the fundamental reliance of your team is still these so-called cavalry!"

As long as these cavalry are destroyed.

No matter if Su Yu's team doubles in size now, it is destined to be annihilated under the overwhelming numbers of the Ghost Demon army Li He commands, crushed with ease!

"Roar!"

"Howl!"

"Rustle, rustle, rustle!"

Immediately, under Li He's command.

One Ghost Demon after another rushed out quickly from the depths of the gray mist, attacking where Su Yu and his companions were.

Under the fearless assault of these Ghost Demons.

Very quickly, more than ten cavalry units began to suffer damage one after the other.

Seeing this scene, the expressions of the manager and the others turned somewhat grim.

This time, Li He indeed targeted the right weak spot.

Su Yu's team had been able to make it this far largely thanks to the cavalry corps acting as a shield, blocking more than seventy percent of the Ghost Demon attacks.

Without the support of the cavalry corps.

Even if they could persist until now, the casualties would surely be far more severe than they currently are!

"Mr. Su, should we have the cavalry fall back, and I'll take the front?"

The manager couldn't help but whisper.

Up until now, the manager had not truly taken action, leaving the cavalry to hold the first line.

Chapter 116: Chapter 89: Another Promotion! Li He's Regret and Anger!_2

This was specially arranged by Su Yu.

Although the old man's strength had been restored, it hadn't reached its peak state.

If there is too much consumption now, and a real crisis or Li He personally takes action, failing to deliver strength would be the real trouble.

"Don't worry, the cavalry can still hold on!"

Su Yu spoke deeply, his tone extremely confident as he ordered.

"Nuonuo, start the repair!"

"Roger!"

Receiving Su Yu's command.

Nuonuo, who had been waiting for a long time, decisively opened the suitcase she had always been carrying, revealing its contents.

"This is..."

Everyone couldn't help but turn and look. Upon seeing the suitcase's content, the managers' eyes widened.

The suitcase, more than a person in length, was piled with a large number of metal materials and spare parts, which Nuonuo grasped with her eight mechanical arms, quickly beginning operations and repairs.

The efficiency was so exaggerated that, in everyone's view, it seemed like a silver whirlwind swept into the frontline cavalry squad, swiftly completing repairs wherever there were damages!

"This efficiency is too exaggerated!"

Even the managers couldn't help but exclaim, suspecting if their eyes had problems.

"Mr. Su, can such rapid repairs be effective?"

"Old sir, you can rest assured."

Hearing the manager's incredulous words, Su Yu smiled faintly, his eyes full of strong confidence, looking at Nuonuo from afar: "Leave it to Nuonuo, everyone can rest easy!"

This was not Su Yu boasting.

These cavalry had stayed within a 150-meter radius around Su Yu from beginning to end.

In this area.

Su Yu could instantly take control of each cavalry, commanding them under the blessing of spiritual energy.

Combined with the [Cluster] trait brought by the Combat Swarm.

The flexibility of these cavalry could be said to be quite high.

Fighting until now, although there were damages.

The most critical intelligent chip sets were undamaged.

This level of repair, simply put, was just about patching.

With Nuonuo's repair efficiency, naturally, this simple work was completed quite quickly!

Besides.

"I brought enough spare parts with me this time to ensure each cavalry has at least three quick repair opportunities!"

"I want to see, Captain Li He, whether you have more Ghost Demons to send to their deaths or I have more spare parts!"

Anyway, that suitcase full of parts wasn't carried by myself, so when equipping various weapons, Su Yu naturally went all out, ensuring Nuonuo had the maximum load without affecting her mobility and repair efficiency!

Initially, even Su Yu felt whether he had brought too many spare parts.

But now, Su Yu only wanted to admire his foresight and preparation!

Hearing Su Yu's mocking words.

In the depths of the gray fog, Li He couldn't help but grit his teeth!

"I really underestimated you... Since that's the case..."

Li He's gaze shifted from Su Yu to Yang Lie and the others beside him.

Since he couldn't kill Su Yu or deal with these cavalry for now.

Li He decided to target Su Yu's teammates!

"Let's deal with these people first!"

Killing the living.

Even people like Hu Yueshan and Bai Hong could greatly please the master he worshipped and receive his blessing!

With this in mind, Li He commanded the Ghost Demons to launch a new wave of assault!

Not only that.

This time, as these Ghost Demons charged ahead and were about to die in battle.

"Bang! Bang! Bang!"

One by one, the Ghost Demons exploded directly on the battlefield!

At the moment of their self-destruction, the flesh corroded by Ghost Energy inside them also burst out, like fragment grenades!

Although the instantaneous damage wasn't strong.

But the flesh corroded by Ghost Energy, after falling, directly caused severe continuous damage to Yang Lie and others.

The most miserable was Hu Yueshan, whose arm was affected by Ghost Energy, unable to hold a weapon steadily, plunging him into mental chaos!

"These Ghost Demons can self-destruct!?"

Everyone, shocked by this sudden Ghost Demon attack, changed their expressions, even Su Yu frowned intensely.

Without thinking much, he stepped forward and spread his fingers, releasing spiritual energy condensed by his Steel Meditation Technique.

Though the spiritual energy of the Steel Meditation Technique didn't have tangible attack power, it could counteract other meditation-derived spiritual energy effects. Since the Ghost Energy within these Ghost Demons was a form of spiritual ability, under Su Yu's Steel Meditation Technique's assistance,

soon, Hu Yueshan's mental state improved considerably.

However, his arm injury couldn't be remedied without adequate time, despite emergency bandaging.

The conditions of other Hunting Team Leaders weren't much better either.

Only Lang Yun and Hu Wen, these two four-star Hunting Captains, remained unharmed due to their skills.

Seeing Su Yu successfully rescue Hu Yueshan from chaos.

Everyone present sighed in relief.

Chapter 117: Chapter 89: Another Promotion! Li He's Regret and Anger!_3

But before they could relax, the roars and howls of the Ghost Demons were heard again from afar!

"Another batch of Ghost Demons is coming!"

"Everyone stay alert!"

Everyone present changed their expressions, even Su Yu felt a headache.

The fact that the Ghost Demons could self-destruct really exceeded his expectations!

"Mr. Su, this is not the time to hesitate!"

Seeing those Ghost Demons approaching again.

The old administrator couldn't sit still any longer and volunteered.

"Alright, then I'll leave it to you, old man, to clear the way!"

Su Yu pondered for a moment, then spoke decisively, no longer hesitating.

The current situation couldn't afford any more delays.

Yang Lie and the others present, including Lang Yun and Hu Wen, were all flesh and blood.

Even if they could kill those Ghost Demons, once hit by the corrosive Ghost Energy released from their self-explosion, they would inevitably be dragged into a chaotic mental state.

But the old administrator, protected by Prosthetic Armor, didn't have to fear this!

Those corrosive Ghost Energies couldn't penetrate the Prosthetic Armor on his body surface!

"Boom!"

Following Su Yu's nod.

The eager old man stepped forward directly, leading the charge, and in an instant, blew up three Ghost Demons with one punch, and then his figure flashed continuously.

Using the terrifying power brought by Prosthetic Components, his figure flickered like a silver-gray light in this pitch-black gray mist.

Every time he appeared, a heavy punch fell. Whether it was a two-star junior or a two-star top-level Ghost Demon.

Under the old man's fist, there was only one equal end, which was being shattered into pieces by him!

As for those corrosive Ghost Energies, they didn't affect the old man in the slightest, just as Su Yu predicted!

In the depths of the gray mist.

Li He also saw this scene, his eyes narrowed slightly, staring at the administrator's figure, watching him blow up his Ghost Demons with punch after punch, yet there wasn't much pain of loss in Li He's eyes.

Li He was also aware and extremely wary of the administrator's powerful Prosthetic transformation.

Now being able to use these Ghost Demons to consume the old man's energy, in Li He's opinion, although the "expense" was a bit high, the gain was considered worth it.

But gradually.

Li He's gaze began to change, the eyes staring at the administrator's figure became increasingly cold, until the end.

The anger in his eyes almost materialized, about to pour out from his eyes, carrying boundless ferocity and rage in his voice!

"This old ghost..."

"How can his strength be this poor!?"

"Why is he only... at the four-star mid-level!?"

...

Anger!

Incomparable anger!

This was Li He's mood at this moment!

Why did he choose to be cautious and use various roundabout methods to swallow other hunting teams even when he had already gained considerable strength advantage in the Sanctuary?

Why did he hesitate to act against Su Yu despite perceiving his threat and talent?

Why did he repeatedly demand his subordinates leave no trace when acting outside?

At the root of it all.

Wasn't it because he feared the administrator's strength!?

Four-star top-level, highly Prosthetic transformation, a super transformed life form from Dawn City.

These each carried substantial deterrent power.

It's precisely these titles that suppressed Li He, making him dormant until now in the Sanctuary.

But now.

The administrator finally stepped up to showcase his strength in front of his Ghost Demon army, protecting his companions.

Yet the strength he displayed was only at the four-star mid-level.

Of course.

This could also be explained as the administrator trying to deceive him, wanting to disguise his strength.

Even Li He initially thought so, but...

Li He looked behind the old man.

Although the old man was fighting desperately.

In front of Li He's Ghost Demon army, there were still inevitable fishes that slipped through the net, infiltrating the administrator's team, causing considerable damage to Bai Hong and others, and resulting in the first death of a vice-captain!

If it was to disguise strength, it wouldn't go this far, as those few Ghost Demon's attacks earlier directly cost Su Yu's team not only a sacrificial victim but also rendered two three-star Transcendents completely unable to fight, and they were placed by Nuonuo in the trunk of spare parts for protection!

If this was also a disguise.

Then this disguise seemed too costly!

All these situations placed before Li He.

Even with a slow reaction, Li He realized.

The administrator's past years of strength situation was likely considerably poor.

Perhaps even the four-star mid-level strength he was displaying now was only restored with the help of this variable, Su Yu.

His cautiousness in the past few years, from beginning to end, was nothing more than battling wits and courage with air, being intimidated by the administrator's past might!

Enraged and humiliated!

This was Li He's most direct inner portrayal at this moment!

"I must kill you all! Only then can I alleviate the resentment in my heart!"

Li He murmured.

Amongst beast-like roars.

"Boom!"

At this moment, his body transformed once again!

Li He's body, originally, had condensed tentacle-like limbs under the erosion of Ghost Energy, but those newly born limbs were still unstable, like swamp mud, ready to collapse back into Ghost Energy at any moment.

But now.

Li He began to recklessly activate his Meditation Technique.

Under the influence of the Meditation Technique.

The residual Ghost Energy within the originally dead Ghost Demons in this radiation gray mist, which gathered in this area, making the radiation gray mist denser and its effects further enhanced.

But this amplification didn't directly feed back to Li He.

It was all used to slow down Su Yu's team's progress.

But now.

Li He forcibly extracted all this Ghost Energy using his Meditation Technique, gathering it into his own body, and with this massive amount of Ghost Energy bolstering him, Li He's aura gradually increased, and his entire figure began a new transformation and ascension!

No data found.

Chapter 118: Chapter 90: Ruthless! Humanoid Ghost Demon!

"Swish, swish, swish—!"

Strands of Ghost Energy were extracted from the radioactive gray mist.

With the operation of Li He's Meditation Technique, his body at this moment seemed like a bottomless black hole, madly devouring the Ghost Energy gathered around with an unimaginable efficiency.

Under this surging influx of Ghost Energy, Li He's originally unstable body became increasingly stable.

The aura of his entire being gradually intensified!

Feeling the steady increase of Ghost Energy within himself, Li He showed a trace of ecstasy in his eyes, but there was also some regret.

According to his original plan,

he intended to slowly accumulate and consolidate, absorbing and transforming the Ghost Energy in the gray mist bit by bit.

This transformation, although slower in efficiency and taking longer, could enhance his strength in one go to the top level of four stars or even higher.

However, now, by rapidly devouring the Ghost Energy in the gray mist through the Meditation Technique, although the efficiency increased greatly,

at most, it could only raise his strength to the advanced level of four stars.

But at this moment, Li He no longer cared about such details.

"I'll deal with these people in front of me first!"

"Besides..."

Li He's gaze turned icy, looking at the distant approaching Su Yu's Team, with murderous intent surging in his heart.

Previously, he always wanted to transform to the most perfect state, only entering battle at the top level of four-star strength.

To a large extent, it was just out of concern for the managers.

Against a top-level four-star manager, even with the support of Prosthetic Armor, Li He didn't have absolute confidence in victory. Only reaching the four-star top level made Li He feel secure.

However, after realizing the current strength of the managers, that caution was no longer necessary.

"Without the constraints of the managers, it doesn't matter if I don't reach the top four-star level!"

Li He muttered softly.

As his words fell,

"Boom!"

in his mind, the Blood Pool symbolizing the Brutal Evil God's resting place suddenly boiled, like a volcanic eruption, and an indescribable devouring power surged out from that blood pool, causing Li He's already astonishing speed of absorption to skyrocket once more!

"Fifteen minutes at most!"

"I can completely transform and slaughter Su Yu and his team!"

Li He spoke.

He waved his hand once more!

The hidden Ghost Demons within the gray mist behind him no longer concealed themselves. One by one, under Li He's summon, they emerged from the dense gray mist, baring their teeth, roaring, and charging toward the position of Su Yu's Team.

After all, when these Ghost Demons died, the Ghost Energy within them would still return to the gray mist, ultimately becoming the resources for his transformation.

It was merely an additional layer of loss in between.

But right now, compared to this minor loss, using a portion of the Ghost Demons' sacrifice to delay Su Yu and his team's advance and give himself time for transformation was the primary task!

...

"Aowoo!"

"Roar!"

Following Li He's command,

over a hundred Ghost Demons fearlessly launched a charge toward Su Yu's Team.

The strength of this batch of Ghost Demons was even more exaggerated and formidable.

Besides the two-star top-level Ghost Demons,

there were even more than a dozen Ghost Demons transformed from three-star initial Radiation Beast Kings!

Although these Ghost Demons lost their intelligence after transformation, their combat power further increased.

The combat power unleashed by each Radiation Beast King rivaled that of a three-star mid-level or even three-star high-level Radiation Beast Lord, and to match with a human Extraordinary of Physical Body, only a three-star top Extraordinary of Physical Body could stand against them.

With so many Ghost Demons charging together,

even if Su Yu immediately ordered the Cavalry squad to form a defensive line, it was impossible to completely defend against them.

Moreover, having witnessed Su Yu's previous impressive efficiency in quick repairs,

Li He was particularly decisive this time!

"You can repair? Then let me see if you can repair them after I dismantle all your Cavalry into pieces!"

Li He whispered.

He commanded a few three-star Ghost Demon Beast Kings to encircle a Cavalry, about to dismantle it into pieces!

And the other three-star Ghost Demon Beast Kings followed suit, forming hunting squads, with a few Beast Kings attacking one Cavalry each.

They were on the verge of completely destroying the several Cavalry that had been surrounded.

But just then,

Su Yu made a move!

"Nuonuo, prepare to receive the chipsets!"

Su Yu shouted in a low voice. As he gave the order, he invoked his Spiritual Energy, and in an instant, the combat-specific intelligent chipsets at the core positions of the Cavalry that had been surrounded were extracted by Su Yu using Mechanical Spiritual Power condensed from the Steel Meditation, landing into Nuonuo's hands, who had been ready to receive them.

With the most important intelligent chipsets retrieved,

Su Yu didn't hesitate and directly activated [Electromagnetic Fury] on these Cavalry!

Instantly,

the few Cavalry encircled by the Ghost Demon Beast Kings, which were at an absolute disadvantage, suddenly had their output surge dramatically!

The combat power of these Cavalry was only at the two-star initial level.

Even with the support of the [Cluster] trait and the enhanced output from backup energy overload, they could at most contend with a two-star high-level Radiation Beast.

But at this moment,

under the influence of [Electromagnetic Fury], their strength was already sufficient to face the three-star Ghost Demon Beast Kings head-on!

Infinite Job Transfers Starting from Mechanic #Chapter 119 - 90: Ruthless! Humanoid Ghost Demon!_2 - Read Infinite Job Transfers Starting from Mechanic Chapter 119 - 90: Ruthless! Humanoid Ghost Demon!_2

Chapter 119: Chapter 90: Ruthless! Humanoid Ghost Demon!_2

"Roar!"

"Crack!"

The Beast King roared, claws sweeping down, but each strike was precisely dodged by the cavalry, while the cavalry's swinging chain saw could inflict considerable damage on the Beast King.

Even without the aid of intelligent chipsets.

But under the influence of spiritual energy, Su Yu momentarily multitasked, personally taking over the operation of several cavalry. For a time, he managed to turn what was originally a one-sided battle into an even match!

"Are these cavalry units really so powerful?"

Behind Su Yu, the administrators and others were momentarily stunned.

Li He, in particular, couldn't believe his eyes.

However, as time passed.

Under the influence of Electromagnetic Fury, the cavalry began to show unnatural sparks and stiffness, and the previously balanced battlefield started to tip once more toward the Ghost Demon side.

Seeing this scene.

Li He also realized something.

"That's it, the combat power of these cavalry must have been enhanced by Su Yu's Meditation Technique!"

"But this enhancement clearly comes with significant side effects..."

Li He murmured, his eyes growing increasingly excited!

He was already impatient to see the scene of the cavalry, who had inflicted considerable damage on his Ghost Demon legion under Su Yu's command, being torn to pieces!

However, in the next second!

"Boom!"

"Boom boom boom!"

A series of explosions, accompanied by soaring flames, erupted across the battlefield!

The few cavalry deeply surrounded, in the moment when the amplification effect of the Electromagnetic Fury was about to end, suddenly self-destructed in unison.

The self-destruction attack came so unexpectedly.

Even though Li He could command the movement trajectory of each Ghost Demon.

When he realized and tried to withdraw the few three-star level Ghost Demon Beast Kings, which were quite precious to his Ghost Demon legion, it was already too late.

He could only watch helplessly as those five cavalry, in the moment of self-destruction, took down as many as seven or eight three-star level Ghost Demon Beast Kings, and although a few Ghost Demon Beast Kings remained alive.

Their state was extremely miserable.

Before they could retreat, they were sniped from afar by Su Yu driving the Thousand-Handed Prosthetic with the Thermal Gun!

[Ding!]

[You successfully killed a three-star beginner Ghost Demon Beast King, you gained 11,000 points of professional experience!]

[Ding!]

[You successfully killed a three-star intermediate Ghost Demon Beast King, you gained 19,000 points of professional experience!]

[Ding!]

[You successfully killed...]

A series of notifications appeared on Su Yu's profession panel.

Making Su Yu's eyes even brighter!

Under Li He's command, the attacking Ghost Demons, who were swarming toward Su Yu's team, were extremely powerful overall.

Yang Lie and others were fighting arduously.

Even Su Yu was forced to self-destruct the cavalry, merely preserving their most important and rare intelligent chips.

But despite the huge cost.

The gains were equally astonishing!

Not to mention the experience points Su Yu gained from this round of self-destruction.

Even before the self-destruction, the experiences from the one-star and two-star Ghost Demons sniped by other cavalry under Su Yu's command added up.

They allowed Su Yu's [Wilderness Hunter] profession level to soar and surge!

And following the end of this wave of self-destruction.

The attacking Ghost Demons' offensive was temporarily repelled.

And Su Yu's profession level successfully ascended to...

"lv17!"

Looking at his profession panel, Su Yu's gaze shifted directly to the most crucial attribute, and a bright smile emerged on his lips!

With the level soaring.

Su Yu's physical abilities successfully rose to the three-star advanced level.

Moreover, after leveling up by more than ten levels.

Su Yu's spiritual ability also finally experienced new growth, having smoothly stepped into...

"Three-star intermediate level!"

Under the three-star intermediate spiritual ability's enhancement.

Although Su Yu lost seven cavalry, the remaining cavalry's attack speed, dodge capability, and other comprehensive attributes, aside from the attack power that depended on their equipment which couldn't be enhanced through spiritual energy.

The other comprehensive attributes rose significantly under Su Yu's spiritual energy amplification once again.

Thus.

Though it couldn't completely compensate for the loss of seven cavalry, compensating for six or seven-tenths was more than sufficient!

Moreover...

Su Yu closed his eyes, feeling the ever more refined iron gears in his mind, feeling the range of spiritual energy that could gather with the rotation of the gears. When he reopened his eyes, the light in them was even sharper!

"Three-star beginner spiritual power only allowed me to simultaneously control twenty-five cavalry without intelligent chip assistance while maintaining above-standard combat power."

"But three-star intermediate spiritual power can increase that number to forty!"

What does forty mean?

It means that if Su Yu needs to, he can completely, like before, control forty cavalry with their core component, the intelligent chipset, in Electromagnetic Fury's amplification, initiating a self-destructive charge!

Moreover, with this batch of intelligent chipsets in hand.

Su Yu can also use the existing mechanical parts to quickly assemble a new batch of cavalry and rejoin the battlefield in a short time.

Chapter 120: Chapter 90: Ruthless! Humanoid Ghost Demon!_3

By that time, after a round of suicide charges, Su Yu estimated his enemies were already in a scattered mess, with their defenses in shambles.

Even if the newly assembled cavalry could reach an intermediate level, it was already a stroke of luck, but against an equally battered enemy, they could definitely finish the job effortlessly!

Just as Su Yu contemplated the tactical arrangements ahead, considering his newly transformed strength.

The cheers from Bai Hong and others came from behind!

"Hahaha! Those Ghost Demons are starting to flee!"

"These beasts, they actually know fear. That's rare!"

Su Yu couldn't help but look up.

He saw that those Ghost Demons that had been blocking their path, having lost a dozen or so three-star Ghost Demon Beast Kings and a large batch of two-star Ghost Demons, suddenly changed their fearless stance.

Wave after wave of Ghost Demons began retreating toward the gray mist, reducing the pressure on Bai Hong and others who were in hard battle. Upon witnessing the Ghost Demons' retreat, they couldn't help but cheer!

Even the leaders breathed a sigh of relief, quickly recovering their stamina.

However, just as everyone slightly relaxed.

Su Yu's pupils contracted slightly, and he suddenly raised his hand!

"Everyone, retreat immediately! Stay on guard!"

In Su Yu's view, beyond the pitch-black gray mist, a large, blood-red dot symbolizing a hostile target was rapidly approaching the position where Su Yu's Team was!

Without thinking, Su Yu knew who that blood-red dot represented!

"Li He... is coming!"

"Hmm!?"

Upon hearing Su Yu's warning.

The leaders and others all changed colors, immediately taking a step back, with the injured members positioned in the center of the team, gripping their firearms. Meanwhile, the less injured or uninjured members like the leaders, Yang Lie, Bai Hong, Lang Yun, and Hu Wen took their place on the outskirts of the team, standing ready under the cover of the cavalry.

Yet, one second passed, then two.

Within the gray mist, it remained completely silent without the slightest noise.

This caused everyone's taut spirits to relax slightly.

However, in that instant of slight relaxation.

"Roar!!"

From the thick, mud-like gray mist came a beast-like roar, suddenly breaking the silence. Along with that roar, a monstrous, over three-meter-tall giant tore through the mist, revealing its horrifying form!

This giant, over three meters in height, was covered entirely in dirty, chaotic gray-brown Ghost Energy armor. Beneath the armor were hundreds of tentacle-like Ghost Energy Crystals forming tendrils.

These tendrils supported the giant's body, though they didn't make it appear majestic.

Instead, they highlighted the giant, making it more terrifying and sinister.

This massive figure was paired with a head of normal human size.

Yet the head was eerily strange no matter how one looked at it.

It seemed like a head entirely molded from Ghost Energy, with Li He's face drawn upon it.

At the moment it—or rather, "it"—appeared.

Several members of Su Yu's Team, already affected by Ghost Energy Erosion, suddenly had a moment of mental daze, instinctively clutching their heads and crying out in agony!

"Stop the noise! Stop the noise!"

"I heard so many voices! So noisy! So noisy!"

Seeing those few members instantly falling into chaos.

The leaders and Su Yu acted almost simultaneously, each making their move, knocking those individuals unconscious!

"A four-star spirit-type Transcendent, combined with filthy Ghost Energy... is surely terrifying!"

Once those comrades fell unconscious, peace returned, allowing Su Yu and the leaders to breathe a sigh of relief, their gazes returning to Li He.

Yang Lie and others also exhaled lightly, stepping behind Su Yu and the leaders, looking at Li He with uncontrollable shock and fear!

Although no actual confrontation had occurred yet.

One had to admit.

Li He's entrance directly forced Su Yu and the leaders into wasting several team members' fighting capabilities, dealing a heavy blow to Su Yu's Team's morale!

"Su Yu... and the leaders, it's been a while! You've truly given me a tremendous surprise!"

Seeing the heaviness in Su Yu and the others' eyes.

Li He's face broke into a proud smile, speaking softly as.

"Swishhh!"

The Ghost Energy mist behind him began churning anew!

"As repayment for the surprise you gave me, I have a gift for you!"

"Go forth, tear these people apart completely! But leave Su Yu and the leaders; I have a special treat for them!"

Li He spoke softly.

His words sounded friendly, but his tone was bone-chillingly cold!

As he finished speaking.

Within the churning gray mist.

One, two, three...

Another dozen or so three-star Ghost Demon Beast Kings slowly emerged.

Yet this was not the end.

Following the emergence of the three-star Ghost Demon Beast Kings.

Li He waved again.

Fifty-three two-star elite Ghost Demons followed right after those Beast Kings, and then two humanoid Ghost Demons emerged, causing every member of Su Yu's Team to instinctively change colors!

"Captain Li He, you truly have a ruthless hand!"

Su Yu looked at the two humanoid Ghost Demons that appeared last, a complex expression in his eyes as he softly addressed Li He, his tone filled with admiration, but also with a sinister killing intent!
