

Infinite Job Transfers Starting from Mechanic #Chapter 121 - 91: Critical Situation! The Miracle Creator—Su Yu! - Read Infinite Job Transfers Starting from Mechanic Chapter 121 - 91: Critical Situation! The Miracle Creator—Su Yu!

Chapter 121: Chapter 91: Critical Situation! The Miracle Creator—Su Yu!

Two human-shaped demons with formidable power and terrifying aura appeared on either side of Li He, reaching the top tier of the three-star level. They were none other than.

The two loyal vice-captains of the Night Slayer Team, He Xiang and Mo Yun.

However, both of them have now become puppets of Li He, and are the two most powerful ones at that.

However, the stronger a demon is, the more severely they had been eroded by Ghost Energy in their previous life, and the more intense the pain they endured during the transformation process.

He Xiang and Mo Yun were originally just two-star Transcendents.

But now they have both been elevated to the top tier of the three-star level.

It's not difficult to imagine the intense pain they endured during the transformation process.

Not to mention Su Yu.

Even the manager, Lang Yun, Hu Wen and others couldn't help but change color slightly after seeing the fate of He Xiang and Mo Yun, feeling a sense of doom!

If even He Xiang and Mo Yun were transformed into this state.

If they were to lose here, their end would be even more tragic than He Xiang and Mo Yun's!

"Being ruthless enough? Su Yu, what are you talking about?"

Feeling the coldness in Su Yu's eyes and the others, Li He sneered coldly, with an undisguised tone of righteousness: "Becoming a demon and serving my great lord is a supreme blessing for them!"

"Moreover..."

Li He's smile turned ferocious, staring at Su Yu, the killing intent and jealousy in his eyes equally intense to the extreme!

"You don't need to worry, soon, all of you will become like them, not one will be spared!"

"Before that, you just resist, but your resistance will only end in failure!"

Li He said.

Suddenly waved his hand!

"Shua!"

Under the lead of the transformed demons of He Xiang and Mo Yun, a cluster of dozens of elite demons roared and charged like a tide towards Su Yu and the others.

Even Lang Yun and Hu Wen, these two four-star Transcendents, couldn't help but change color slightly, not to mention Hu Yueshan and the others on the side!

And what's even more despairing for them.

Was that at the same time this group of demons charged up.

Li He also moved!

The battle had reached this point, and Li He wasn't planning to hold back anymore, wanting to wipe out Su Yu and the others in one fell swoop.

Originally, the group of demons led by He Xiang and Mo Yun was already making Lang Yun and the others feel unable to hold on.

Adding Li He to the mix?

"It's over, how could this be resisted!?"

The three-star Transcendents like Hu Yueshan all showed obvious signs of fear.

It's not that they were too timid or weak in character.

The gap between their strength and the enemy in front of them was simply too huge!

Even the manager showed eyes of despair.

But, at this moment!

"Tat-tat-tat-tat-tat-tat——!"

The sound of machine gun fire, as dense as rain, suddenly erupted.

In an instant, it blocked the offensive of the demon cluster that surged forward like a tide.

And in the midst of this dense machine gun fire, there was also the muffled sound of sniper fire from Su Yu, targeting those three-star ghost demon beast kings.

Sniper bullets and machine gun flames intertwined.

Not only did this slow down the demon cluster's charge, but it also brought the manager and others out of despair, waking them up!

"It's not the final moment yet, and you're already conceding? Are you willing to let Li He turn you all into the tragic state of He Xiang and Mo Yun!?"

Su Yu's voice was calm, but at this moment, it was this calm voice that allowed everyone present to regain their spirits and confidence!

"Don't worry about these demons! Leave them to me to handle! You just follow the old man and Captains Lang Yun and Hu Wen, and block Li He and the three of them: He Xiang, Mo Yun! Once I finish off these demons here, I'll come to support you!"

Su Yu said.

Without waiting for them to respond.

He directly waved his hand, commanding the cavalry regiment to charge against the current, gunfire erupting, bullets slicing through the air, and under the suppression of the firepower net, pushed the defensive line back a considerable distance towards Li He's position!

"Mr. Su..."

Looking at Su Yu's resolute figure.

Even the manager couldn't help but take a deep breath, his gaze returning to Li He in the distance, with the same fierce fighting spirit in his eyes!

"To live all these years in vain, and to be outdone by a young man here, would be truly disgraceful!"

The old man murmured softly to himself, then.

"Boom!"

The prosthetic armor spat out flames at this moment, raising its output to the limit, instantly reaching peak moment!

The aura of a four-star top-tier Extraordinary of Physical Body burst out at this moment, and the prosthetic armor on the old man kept heating up, causing moisture in the air to evaporate into wisps of white smoke, transforming into heat flows swirling around the old man's body, looking overwhelmingly potent!

After Su Yu's maintenance and care, although the prosthetic armor couldn't keep the old man in four-star top-tier combat power at all times.

But maintaining it for a period of time was still doable.

And with the four-star top-tier Extraordinary of Physical Body's strength, combined with the innate resistance to Spiritual Energy attacks from the armor's boost for the spirit-type Transcendent.

At this moment, the manager also regained confidence and fighting spirit!

"Li He is mine! You take on He Xiang and Mo Yun!"

Chapter 122: Chapter 91: Critical Situation! The Miracle Creator—Su Yu!_2

The old man let out a thunderous roar.

After speaking, just like Su Yu, he wasted no time and charged into the Ghost Demon cluster!

Originally seeing Su Yu leading the cavalry battalion charging uphill, Li He had already prepared to strike and eradicate this variable of Su Yu once and for all.

Unexpectedly, he felt a wave of heat rushing towards him and instinctively wanted to dodge it, but there was no way to escape!

Before he realized it.

"Bang!"

A heavy steel fist had already descended heavily upon his body!

At this moment, Li He's entire body was covered in substantial Ghost Energy Crystals. With a height of over three meters and armor made up of Ghost Energy Crystals on his surface, his body weight exceeded a thousand pounds, yet under the impact of the old

man's punch, Li He's body was forcibly knocked back over ten meters, leaving deep furrows on the ground!

"Night Slayer Captain, if you want to act against Mr. Su, you'll have to get past this old man first!"

"Could the old man's strength... really be this strong?"

Seeing the manager punch Li He back.

Lang Yun, Hu Wen... and the remaining Hunting Captains all had their eyes light up, each of them bolstering their spirits as instructed by Su Yu earlier, charging towards the positions of He Xiang and Mo Yun, the last two Ghost Demons under Li He not yet engaged.

For a time.

The previously one-sided situation.

Was truly dragged back to a balance by them!

Witnessing this scene.

The manager felt a moment of relief in his heart.

But he didn't let his guard down, maintaining a deep apprehension as he eyed Li He.

Although he had just punched Li He back over ten meters.

The old man knew perfectly well that normally, a punch like that, even if Li He were a true top-tier four-star Radiation Beast Lord, would at least make him spit some blood.

Yet Li He?

Though he was knocked back.

He had already stood up again by now, his eyes shining brightly, only having shattered part of the Ghost Energy Crystal armor he had condensed.

Apart from that, he didn't have a single trace of injury!

If it weren't for the fact that during the direct confrontation, the old man could clearly sense from Li He the level of his Spiritual Ability.

The old man would almost suspect that the Li He before him had already stepped into the five-star level!

"Your strength, old man, is quite impressive, but unfortunately, with this bit of ability, you're still miles away from contending with me!"

Li He noticed the heaviness in the manager's gaze and showed a savage grin!

Although, under Su Yu's command,

The battlefield's situation was temporarily halted, yet Li He remained unfazed.

He could already tell.

The manager's power, though capable of inflicting some damage.

Would take dozens or even hundreds of punches to severely injure him.

But the question is.

"Can your prosthetic body support you in delivering so many attacks?"

Li He spoke.

And directly raised his hand.

"Swish!"

His lower body, with Ghost Energy Tentacles like octopus arms supporting his form, shot out like sharp arrows!

A full three tentacles extended over ten meters in an instant, resembling the sharpest spears aimed at the spot where the manager stood.

The manager's eyes suddenly turned cold, and his body moved like lightning. With the aid of his prosthetic body, he quickly leaped to another area, avoiding the thrusts of the three tentacles.

"Crack" sounded.

Where he originally stood, the three Ghost Energy Tentacles left deep holes! Over half a meter deep, causing the old man's brows to twitch fiercely!

This destructive and penetrative power.

Was comparable, if not equal, to that of a true top-tier four-star Extraordinary of Physical Body!

"This is my current strength. Blessed by my master, I not only possess Transcendent Spiritual Power, but even in physical form, I'm still formidable!"

"Manager, considering your significant strength, I'll offer you one last chance: swear allegiance to my master, and you can enjoy the glory bestowed upon you by the great sovereign!"

Li He's tone unmistakably brimmed with a seductive charm.

Given the power he exhibited, which could only be described as terrifying, the allure was surprisingly potent.

However, upon hearing this, the old man simply scoffed, his eyes filled with disdain to the utmost degree!

"If the so-called glory bestowed by your sovereign is to become an existence like your grotesque human-demon hybrid, then I'm sorry, but I find that my enhanced body outshines your so-called glory by far!"

"Oh, is that so?"

Listening to the old man's taunting words, Li He didn't get angry this time, only slightly smiled.

In his view, he already held the winning hand.

No matter what the manager said, to him, it was nothing more than the wailing of a defeated dog in its final moments. Naturally, he wouldn't take it to heart, even looking at the manager with eyes full of sympathy, as if watching a lamb lost in its ways.

"Then I can only turn you into the lowest class of Ghost Demon, what a pity indeed!"

Saying this.

Li He waved his hand once more.

"Whoosh, whoosh, whoosh—!"

This time.

More than ten Ghost Energy Tentacles simultaneously extended from all directions, like a rainstorm of arrows or a forest of guns, violently stabbing towards the manager!

Although the manager dodged timely.

Chapter 123: Chapter 91: Critical Situation! The Miracle Creator—Su Yu!_3

But it was still unavoidable that two Ghost Energy Tentacles injured him, even if they only scraped past the sharp tips of the Ghost Energy Tentacles.

Yet the corrosive Ghost Energy still left deep marks on the Mechanic's prosthetic armor.

If such damage were to happen a few more times.

The Mechanic had no doubt that his prosthetic armor could be directly destroyed by Li He's Ghost Energy Tentacles!

"I must find a way... close combat is necessary!"

The elder's heart was exceptionally heavy.

He instinctively turned to look for any teammates.

But with this glance, half his heart turned cold.

Over by Lang Yun and Hu Wen, although other Hunting Team Leaders and Three-Star Level Transcendents were assisting.

However, with the blessing of Ghost Energy, despite He Xiang and Mo Yun's Spiritual Levels being only at the pinnacle of Three-Star Level.

Their displayed strength was akin to Radiation Beast Lords, at the pinnacle of Three-Star Level, yet enough to contend with Four-Star Level human Transcendents.

Moreover, under the natural corrosive property of Ghost Energy and the environmental effects of this radiation fog.

He Xiang and Mo Yun, though outnumbered, still held considerable advantages.

In a few brief combat engagements.

Lang Yun, Hu Wen, and others not only failed to achieve merit but were again severely wounded by He Xiang and Mo Yun, forcing two teammates to withdraw from the battlefield!

As for Su Yu's side.

The elder did not pay any attention at all.

Even though Su Yu said, after dealing with the other Ghost Demons, he would rush to support as quickly as possible.

Neither the elder nor Li He himself actually believed that Su Yu alone, with those cavalry, could solve all the other Ghost Demons.

They just took Su Yu's words as a comfort to stabilize morale at a critical moment.

In fact.

Su Yu being able to hold off those Ghost Demons for even a few more minutes was already considered a remarkable achievement!

In conclusion.

If Lang Yun and Hu Wen hadn't gained the upper hand.

Then on the Mechanic's side, there were no other reinforcements to rely on!

"Is there really no hope..."

Just when the Mechanic felt inevitable despair rising again in his heart.

Li He's voice, full of mockery and sarcasm, quietly came from the side: "Why despair so quickly, Mr. Mechanic? Have you forgotten that there is still someone you can rely on for now? It's your pillar, Su Yu!"

"Earlier, he was so confident about handling those Ghost Demons under my command alone. Perhaps he could create a miracle?"

Li He's tone was filled with a mocking ridicule.

While speaking.

Li He also glanced in the direction where Su Yu was, then his brows furrowed.

In his line of sight.

On the battlefield where Ghost Demons and cavalry clashed.

Although the battlefield situation seemed unfavorable for Su Yu, the cavalry were shrunk around him, leaving only a narrow two or three meters of distance.

If Li He wanted, he could directly manipulate some strong Ghost Demons to storm the defensive line and attack Su Yu, the Mechanic!

But, despite the defensive line being compressed to this extent, at least the battle between Ghost Demons and the cavalry remained deadlocked, without many signs of defeat.

This was unacceptable to Li He.

He wanted to see not a deadlock, but Su Yu thoroughly suppressed by the Ghost Demons, preferably torn to pieces by them; that was the best scene!

"Unexpectedly, Mr. Su really has some skills, still holding on until now? In that case, how about I add some pressure?"

Li He said.

As soon as his words fell.

"Swoosh swoosh swoosh—!"

Along with the sound of Ghost Energy piercing the air.

In the almost utterly despairing gaze of the Mechanic, stream after stream of gray-brown Ghost Energy surged out from Li He's body, shooting like a starry rain, pouring down on the Ghost Demon cluster encircling Su Yu in the distance.

As these Ghost Energy streams split off.

Li He's aura inevitably diminished a bit.

If originally Li He was at a high Four-Star Level, just a small step from the pinnacle.

Now his Spiritual Energy fluctuation had already fallen to mid Four-Star, still a small step from high Four-Star Level!

However.

There wasn't a trace of joy in the Mechanic's eyes, only an overwhelming heaviness in his heart.

First, because in this radiation fog, all Ghost Demons, once dead, their Ghost Energy would return to Li He's body, consuming only a portion.

Though Li He's strength decreased a bit, as long as he wished, he could rise back to his previous level anytime.

Second, as those endless streams of Ghost Energy flew off, landing in the bodies of those Ghost Demons.

The auras of the Ghost Demons besieging Su Yu then surged, becoming more powerful!

Their star levels were already generally at the peak of Two-Star or even Three-Star Level.

And now.

With the empowerment of Ghost Energy.

The strength of those Ghost Demons increased further!

The Ghost Demons attacking Su Yu had completely evolved to Three-Star Level at this moment!

"It's over..."

Looking at nearly a hundred Three-Star Level Ghost Demons launching an assault on Su Yu's cavalry battle group.

Whether it was the Mechanic or further away, the other Hunting Team Leaders engaged in fierce battles with Lang Yun and Hu Wen, were utterly desperate!

Nearly a hundred Three-Star Level Ghost Demons attacking simultaneously.

No matter how strong Su Yu is, he absolutely cannot withstand such a scale of destruction.

Even if they joined, it wouldn't be possible!

The combat power of this cluster of Ghost Demons, excluding Li He and the duo of Three-Star pinnacle Ghost Demon deputies, He Xiang and Mo Yun.

The cluster alone was enough to tear apart, except for Su Yu and Mechanic, all of Su Yu's Team and a formation of sixty cavalry—

At least.

In the eyes of Lang Yun, even Li He and the elder Mechanic, the situation was like this.

However.

"Goodness, Ghost Energy can be used like this?"

Seeing the Ghost Demon cluster in front of him, whose aura had suddenly surged.

Su Yu's eyes showed surprise, but beyond that surprise, there was a touch of amused intrigue!

"In that case, I won't be polite!"

He raised his hand slightly.

At this moment, the Spiritual Energy quietly spread, falling onto the nearest forty cavalry—

"Whoosh whoosh whoosh—!"

Chapter 124: Chapter 92 Electromagnetic Fury! Cavalry Mobilize! Art is an Explosion! Thousand-Handed Prosthetic Activate!

One by one, the intelligent chipsets flew out from the core positions of these forty rangers, all falling into the small box that Su Yu had long prepared for storing these intelligent chips under his spiritual energy guidance.

The entire process was unbelievably swift.

After completing the chip recovery work, Su Yu did not delay any longer and immediately snapped his fingers.

The forty rangers covered by spiritual energy immediately entered the state of [Electromagnetic Fury]!

Under the influence of electromagnetic fury.

The combat power of these forty high-quality rangers, already astonishing, soared once more, and under Su Yu's command, they charged head-on toward the group of ghost demons!

"Dare to engage my ghost demons up close? You're courting death!"

Seeing Su Yu's actions.

A hint of confusion flashed in Li He's eyes.

Not to mention his ghost demons, which had just been strengthened with ghost energy, further enhancing their power.

Even before their power had been enhanced.

The combat strength of these ghost demons was not something ordinary rangers could contend with.

They could only rely on the advantage of distance, using firearms to snipe and halt the advance of these ghost demons.

But now.

Given the ghost demons' increased power.

Su Yu still dared to let his rangers engage these ghost demons in close combat?

Li He immediately thought back to not long ago, when Su Yu had used similar tactics, maneuvering a few rangers to heavily damage his ghost demon beast kings' army, which still made him feel the pain in retrospect.

"But this method shouldn't be able to cover such a wide range, meaning that only a small portion of these rangers, those that have been enhanced, are mixed in to prepare for a surprise attack on my ghost demon beast kings..."

In a flash of inspiration, Li He quickly guessed, or thought he guessed, Su Yu's tactical thought process, with a mocking glint flashing in his eyes.

"A nice idea, but unfortunately, at this point, no matter how many of my ghost demon beast kings you kill, what difference does it make?"

Li He no longer cared about the loss of a few ghost demon subordinates.

As long as he could eliminate Su Yu, the final variable, in the shortest time, he wouldn't feel any pain even if all the ghost demon beast kings died!

"Die in despair and regret!"

Li He let out a cold laugh and no longer watched the battle situation on that field.

In his eyes, Su Yu's fate was already sealed.

However, just as Li He withdrew his gaze.

"Puff!"

The sound of flesh being torn suddenly came, followed by the uncontrollable wailing and painful cries of the ghost demons, echoing across the battlefield at that moment, causing Li He to sharply turn his head towards that area, a look of undeniable shock in his eyes!

"How is this possible!?"

At the end of Li He's line of sight.

He thought theoretically only a few, at most a dozen rangers, were enhanced, and the rest were merely a facade, a cluster of rangers.

But at the moment they clashed with his elite ghost demons.

Every ranger exploded with unimaginable combat power, enough to suppress the terrifying combat power of a three-star ghost demon beast king!

In just ten seconds.

The ranger battle group cut through nearly a hundred elite ghost demons like they were nothing, reducing their number by a fifth!

Though the dead ghost demons could still provide Li He feedback with ghost energy.

This back-and-forth loss was much greater than Li He had anticipated!

If a ghost demon, upon giving Li He ghost energy feedback, typically resulted in only a ten or twenty percent loss.

Then, when a ghost demon died.

With good luck, the ghost energy feedback to Li He might reach around thirty or forty percent.

If unlucky, and the ghost energy feedback only managed to reach ten or twenty percent, that would already be fortunate.

Such results were incredibly painful for Li He!

However.

While he was feeling this pain.

Another dozen or so ghost demons fell under the assault of Su Yu's ranger battle group!

This was truly a one-sided slaughter!

Moreover, Su Yu had been using spiritual energy all along to maintain control over each of his rangers.

With the spiritual energy maneuvering, these forty rangers maintained a fearless and frenzied combat stance.

But they always kept a wedge formation, continually advancing, tearing through the ghost demon cluster's formation.

Until they reached the center of the ghost demon cluster.

A slight smile appeared at the corner of Su Yu's mouth, as he waved his hand lightly.

"Disperse!"

"Shua!"

Instantly.

The rangers, who had been maintaining formation and advancing steadily, suddenly dispersed, with the chain saws accelerating to high speeds, like sickles harvesting wheat, cutting through the ghost demons without any resistance.

However, although the combat power of these rangers was astonishing.

Without the support of the formation and other rangers' assistance.

Alone, although they could barely hold on against the ghost demon cluster's assault.

It was clear to any observer.

Within another minute or two at most, these isolated rangers would be torn apart into pieces by the ghost demons, who've been driven to madness by the death of their companions and the threat of the rangers!

"What, what is happening?"

"What tactic is Mr. Su trying here?"

Seeing the scene before them.

In the distance, not just the managers.

Even Lang Yun, Hu Wen, and the others were somewhat stunned, unable to comprehend Su Yu's arrangement.

Chapter 125: Chapter 92 Electromagnetic Fury! Cavalry Deployed! Art is an Explosion! Thousand-Handed Prosthetic Activated! _2

The only exception was Li He.

After a brief moment of shock, he immediately recalled the recent loss that pained him greatly, and his face twisted even more. Instinctively, he wanted to use Ghost Energy to command those Ghost Demons to swiftly distance themselves from the isolated cavalry units, not to charge at them again.

Unfortunately, his reaction was ultimately a step too slow.

Those Ghost Demons had already been driven mad by the killings of the cavalry and were out of control.

Seeing the isolated cavalry rushing up, how could they be willing to fall behind, to retreat? One by one, the Ghost Demons roared, driven by an instinct for slaughter and destruction, constantly surging towards the cavalry.

Watching this scene.

Su Yu smiled slightly and gently waved his hand.

The range of influence of the Spiritual Energy instantly spread to every corner of this battlefield, using Spiritual Energy as a guide, silently activating the self-destruct devices inside these cavalry units.

Then.

"Boom!"

"Boom boom boom boom boom——!"

The continuous explosions echoed across the whole battlefield at this moment!

In the dazed gaze of Li He and under the intersecting shocked sights of Yang Lie, Lang Yun, and others.

A total of forty cavalry units simultaneously self-destructed at that moment, the explosive sound almost instantly blew Li He's most elite nearly a hundred Ghost Demons into a splash of Ghost Energy fragments!

"Swoosh swoosh swoosh swoosh swoosh——!"

As the bodies of those Ghost Demons shattered and were destroyed.

The residual Ghost Energy inside them, after death, passively turned into streams of light, integrating into the surrounding radiation haze, waiting for Li He, their master, to refine and absorb.

But this back and forth loss had already made Li He feel heartache to the extreme and further enraged to the extreme!

"I really didn't expect... your strength would be so formidable! I really shouldn't have held back back then!!"

Although Li He's voice was still calm, anyone could hear the overwhelming fury and killing intent in his tone!

At the moment when his voice fell!

"Boom!"

In Li He's mind, the Blood Pool condensed by the Meditation Technique at this moment boiled to the extreme!

Just like a volcanic eruption!

The blood-red Spiritual Energy erupted from Li He's body at this moment, blending with the Ghost Energy from the outside world.

Immediately.

Li He's aura began to surge dramatically at this moment!

In the radiation haze, the residual Ghost Energy inside the dead Ghost Demons was drawn entirely back into his body at this moment.

In a short time, he managed to restore his strength back to four-star advanced level.

And after that.

Li He did not stop the operation of the Meditation Technique but continued to drive it, extracting more Ghost Energy from the radiation haze!

As streams of Ghost Energy were drawn out.

The originally extremely dense and dark radiation haze, making it impossible to see the surroundings, gradually brightened considerably.

And those streams of Ghost Energy, gathered into two Ghost Energy Light Balls under Li He's manipulation, were directly absorbed into his body!

"Boom!"

After these two Ghost Energy Light Balls were absorbed.

Li He's already extremely powerful aura surged once again!

Originally, his Spiritual Level, due to the massive elimination of elite Ghost Demons by Su Yu, had insufficient Ghost Energy to return to his original level, just a small step short of reaching the four-star top Spiritual Level.

But now.

With Li He further extracting the stored Ghost Energy from the radiation haze.

Not only did his Spiritual Level fully return to its peak moment, but it went a step further.

The Ghost Energy Armor on his body at this moment began to burn fiercely, transforming into pitch-black and dark yet incredibly bizarre Ghost Energy Flames, making Li He look like a demonic god, with an unimaginable oppressive aura and swirling Ghost Energy waves.

Just standing there made Lang Yun and the others present feel suffocated!

"Su Yu... die for me!"

Li He let out a long howl.

Feeling the unprecedentedly powerful strength with the vast Ghost Energy enhancing him, the killing intent in his eyes was pouring out without reservation. At the instant his voice fell, his whole being shot towards Su Yu like an arrow leaving the bow!

"No good!"

Seeing this scene.

The administrator's face changed instantly, disregarding everything else. At that moment, the Prosthetic Armor also ramped up to the limit, and the whole person, likewise turning into a stream of light, rushed after Li He's figure.

At the same time, he didn't forget to remind Lang Yun and the others!

"Don't worry about He Xiang and the others! Just stop Li He first!"

Su Yu had just dealt with so many Ghost Demons.

Now likely at a moment of weakness.

But.

Su Yu's terrifying destructive power previously displayed also gave the administrator and others hope of winning this battle!

Su Yu now still had seventeen cavalry units in hand.

Moreover, the most crucial Combat Chips had not been destroyed.

Plus, with the big box of parts that Nuonuo brought along.

Su Yu could completely manufacture new cavalry units on-site to assist in the battle.

In fact.

After ordering the cavalry units to self-destruct, Su Yu had already synchronized a command for Nuonuo to start producing new cavalry units.

Anyway, these cavalry units weren't intended by Su Yu for long-term combat; just enduring this battle would be enough.

Without worrying about their rank, Nuonuo's efficiency in producing cavalry units was quite high.

In just a few minutes, two brand new cavalry units were already crafted.

Chapter 126: Chapter 92 Electromagnetic Fury! Cavalry Deployed! Art is an Explosion! Thousand-Handed Prosthetic Activated! _3

Although their rank is only at the beginner level.

The destructive power of their self-detonation is still astonishing.

If it buys Su Yu enough time.

Relying on these cavalry's self-detonation offensive, maybe they can actually solve Li He!

The administrators and others, realizing this, exerted all their strength to protect Su Yu.

Li He, likewise, realized this too.

Naturally, he couldn't just let Su Yu stay there, continuously creating new cavalry by hand!

However, things didn't go as he wished.

Under the administrators and others' desperate defense.

Especially the old administrator, pushing the prosthetic armor output to its limit.

His speed even surpassed Li He's, truly intercepting Li He halfway!

"Boom!"

Fists and Ghost Energy Tentacles suddenly clashed mid-air.

This time, Li He wasn't sent flying over ten meters by the old man's punch like at the start.

He merely took a few steps back.

But the fact that Li He's actions were intercepted by the old man was undeniable.

Afterwards, Lang Yun, Hu Wen, and others had also caught up, surrounding Li He, each with unwavering determination in their eyes!

Su Yu had now become their last hope.

"Even if it costs our lives, we cannot let you cross this line!"

Lang Yun gritted his teeth and said.

However, seeing the determination in their eyes.

Li He's eyes didn't show much fear or disappointment, quite the opposite.

Having seen the administrators with Lang Yun and others catch up to him and successfully intercept him halfway.

Li He even allowed himself a complacent smile!

"Not let me cross this line? Alright, as you wish then!"

Having said that.

Li He raised his hand directly.

"Swoosh!"

Under the puzzled gaze of the administrators and others.

The Ghost Energy Armor that had been burning fiercely on Li He's body suddenly stopped burning.

The two Ghost Energy Light Balls that were integrated into his body were forcibly expelled, and then.

"Swoosh swoosh!"

The two Ghost Energy Light Balls erupted with unimaginable speed.

In an instant, they entered the bodies of He Xiang and Mo Yun, the two humanoid Ghost Demons chasing over!

"Roar!"

Empowered by the two Ghost Energy Light Balls.

He Xiang and Mo Yun, who were already at the three-star pinnacle, both unleashed beast-like howls of rage.

The Ghost Energy fluctuations around them surged violently, and in an instant, they broke through the bottleneck, reaching the four-star beginner level.

Then, under the near-desperate gazes of the administrators and others.

These two humanoid Ghost Demons, after enhancement, burst forth with unimaginable speed, like two falling meteors.

In the blink of an eye, they appeared just over ten meters away from Su Yu!

"It's over!"

Although Su Yu had a few newly assembled cavalry in front of him serving as a line of defense.

But this line of defense was obviously extremely fragile.

Against He Xiang and Mo Yun, it could only stall them for a few seconds at most!

A few seconds.

They obviously could not reach Su Yu in time to support him.

Moreover.

Just as He Xiang and Mo Yun launched their final assault towards Su Yu.

Li He simultaneously took action on his side.

A multitude of Ghost Energy Tentacles erupted and extended from his body, transforming into a forest of sharp spear-like tendrils, directly blocking everyone present!

"This battle is over!"

Li He's lips curled with a mocking smile as he spoke softly, and when his words fell, his tone was filled with unbridled pleasure, watching He Xiang and Mo Yun charging towards Su Yu as if he had already witnessed Su Yu being torn to pieces in the next second by his two subordinates!

His gaze bypassed the administrators and others in front of him.

Staring intently at Su Yu in the distance, wanting to see Su Yu's expression of despair and fear.

However, to Li He's disappointment.

Seeing He Xiang and Mo Yun closing in on him.

Su Yu's eyes showed not much fear, but rather an eager anticipation!

"Is this guy crazy?"

Suspicion flashed through Li He's eyes.

But, in the next second, this suspicion turned into uncontrollable astonishment!

Almost at the moment when He Xiang and Mo Yun engaged the newly formed beginner cavalry in front of Su Yu.

Su Yu suddenly raised his trench coat, revealing something fastened at his waist...

A metal belt?

"A belt!?"

Everyone present, including Li He, was dumbstruck.

But before they could react.

Su Yu's voice had already reached them!

"A belt? This is no belt!"

"Nuonuo, prepare for prosthetic interface!"

"Received!"

A smooth and emotionless electronic synthesized voice emanated from Nuonuo at this moment.

This voice usually came off as mechanical.

But in this desperate battlefield situation, it seemed exceptionally reliable!

As Nuonuo's voice rang out.

Nuonuo, who had been frantically wielding mechanical arms to assemble makeshift cavalry from a pile of parts, suddenly turned around.

"Clatter!"

A large suitcase tipped over by a robotic assistant was turned upside down onto the ground, then tossed aside violently by a mechanical arm, accompanied by the clatter of parts and materials hitting the ground.

At the bottom of the case, eight incredibly heavy folded metal mechanical arms were revealed. Nuonuo grabbed them, aimed at the prosthetic interface on her master's back, and then!

"Boom!"

The air exploded with a fierce sonic boom!

Just as He Xiang and Mo Yun shattered the newly assembled beginner cavalry into pieces.

Simultaneously, with the sound of mechanical clicks, those eight mechanical arms connected with Su Yu's prosthetic core!

"Thousand-Handed Prosthetic activated, entering—"

"Combat mode!"

As the deep synthesized electronic voice rang out from the prosthetic's intelligent control core.

Su Yu's figure suddenly rose three meters, meeting Li He's eyes, four weapon-module-loaded mechanical arms flailing behind, while the other four arms propped up Su Yu's body, letting him stand in mid-air, like a War God dominating the machinery realm, standing amidst this expanse of gray mist!

Chapter 127: Chapter 93: Battle Against a 4-Star Ghost Demon! Su Yu's Powerful Physical Body, the Might of the Thousand-Handed Prosthetic! The Final Madness!

"Hoo..."

Taking a deep breath, feeling the boost brought by the Thousand-Handed Prosthetic.

Su Yu slightly clenched his fist, looking at He Xiang and Mo Yun, who had already dismantled the few beginner Cavalry units he had arranged into pieces. In his eyes, there was an undisguised battle intent, emerging!

Previously, before Su Yu became a Wilderness Hunter, with the assistance of the Thousand-Handed Prosthetic, his combat power was already able to contend with a four-star beginner Extraordinary of Physical Body.

Now, Su Yu had not only become a Wilderness Hunter.

In this wave of battles, relying on the experience harvested from the Ghost Demons, especially previously when Su Yu detonated a full forty Cavalry units under his command, causing massive damage to nearly a hundred Elite Ghost Demons, gaining massive experience points.

Allowing Su Yu's level as a Wilderness Hunter to directly surge to lv19!

Although still 70,000 experience points away from the max level,

just the physical enhancement brought by lv19 Wilderness Hunter,

already boosted Su Yu's combat power to the peak level of three-star!

"Three-star peak physical foundation, plus the auxiliary effects of the Thousand-Handed Prosthetic."

"A four-star beginner Transcendent can't last three rounds in front of me, but..."

With Spiritual Energy as the guide, Su Yu aimed the four armed mechanical arms at He Xiang and Mo Yun, who were approaching slowly, battle intent blazing in his eyes. At the moment his words fell, he already charged towards He Xiang and Mo Yun!

Four-star beginner [Extraordinary] of Physical Body, with Lang Yun and Hu Wen as references, Su Yu could still estimate, but going beyond four-star beginner, he had no reference points.

But that's not a problem.

"As long as I take you two down, I'll know just how strong my combat power is now!"

"Ka-cha!"

Accompanied by Su Yu's explosive shout.

The four mobile mechanical arms beneath him exerted force simultaneously, supporting Su Yu's body like a spider demon, bouncing over ten meters in the air, with two mechanical arms equipped with Thermal Energy Beam Guns locking onto He Xiang and Mo Yun below in an instant, pulling the trigger!

"Swish, swish!"

Two high-temperature thermal rays streaked through the air, shooting towards He Xiang and Mo Yun. The terrifying heat caused the air to sizzle with white smoke, making the distant spectators unconsciously hold their breath. The shock and excitement in their eyes were undeniable as they watched Su Yu!

And Li He, at this moment, also widened his eyes, staring intently at Su Yu in the distance, the shock in his eyes equally intense to the extreme!

"Swipe!"

The thermal rays descended in an instant.

But, He Xiang and Mo Yun's abilities are not to be underestimated either.

Under Li He's manipulation and Ghost Energy augmentation, their powers had also reached four-star beginner.

In terms of combat power, they were capable of contending with Radiation Beast Lords of the same star level.

Moreover, as humanoid Ghost Demons,

their reaction speed and evasion ability far exceeded ordinary Radiation Beast Lords.

Even Lang Yun and Hu Wen, these two four-star beginner Physical Body Transcendents, seemed riddled with flaws in front of them.

With such astonishing reaction speed enhancement.

Though the thermal rays were fast,

eventually, they were no match for their evasion speed.

In a moment before the thermal rays hit, He Xiang and Mo Yun jumped backward together, avoiding this strike, and furthermore, each maneuvering Ghost Energy to form gray-brown energy beams, shooting towards Su Yu in the air!

"Mr. Su, be careful! These Ghost Energy beams can also spread out!"

Seeing this scene.

Lang Yun and Hu Wen both changed color instantly, promptly speaking out in warning.

It was Su Yu's first encounter with He Xiang and Mo Yun.

But they had already clashed with these two Ghost Demons before, most familiar with He Xiang and Mo Yun's tactics.

Upon hearing his teammates' warning, Su Yu was prompted, the interfaces of the prosthetic at his back instantly powered up, a burst of airflow spraying out, causing Su Yu's body to plunge downward rapidly, dodging these two Ghost Energy beams!

And just as Su Yu evaded.

The two Ghost Energy beams, as Lang Yun and the others had said, directly spread out in mid-air, covering an area exceeding ten meters.

If Su Yu had not dodged decisively, or Lang Yun and the others hadn't warned in time,

even with the impressive defense of the Thousand-Handed Prosthetic, being corroded by these Ghost Energy beams would have caused considerable wear and tear!

"A four-star level Ghost Demon indeed isn't easy to deal with!"

Looking at the area covered by Ghost Energy beams, with white smoke continuously rising from the corroded state,

Su Yu couldn't help but sigh, but in his eyes, there wasn't a trace of fear; rather, he grew even more delighted!

"It's precisely such opponents that can truly test the current combat power of my Thousand-Handed Prosthetic!"

As the words fell,

Su Yu roared again, driving the Thousand-Handed Prosthetic, charging directly towards He Xiang and Mo Yun!

After witnessing the astonishing long-range attacks of these two Ghost Demons,

Su Yu also abandoned the idea of using the Thermal Energy Beam Gun to snipe these Ghost Demons from afar, deciding to engage them in close combat!

The corrosion capability of the Ghost Energy was formidable.

But the close-combat weapons equipped on the Thousand-Handed Prosthetic, those two Chain Saws, had also been infused with numerous rare minerals like Tungsten Blood Steel by Su Yu, greatly enhancing their toughness and spiritual resistance.

Ghost Energy is also a type of Spiritual Energy, just a tainted version!

Although He Xiang and Mo Yun's Ghost Energy attacks would also affect the Chain Saws, at least during this battle, such impact is negligible, far from affecting the combat power of Su Yu's Thousand-Handed Prosthetic!

Chapter 128: Chapter 93 Battle with Four-Star Ghost Demon! Su Yu's Powerful Physique, the Might of the Thousand-Handed Prosthetic! The Final Madness!_2

"Clang clang clang clang clang——!"

In an instant.

On the battlefield, the sound like the clash of metal resounded through the space filled with thinning gray mist.

Among it was also the unique whooshing sound of Su Yu's thermal ray firing.

With the augmentation of the Thousand-Handed Prosthetic, Su Yu's figure appeared immensely large, yet in reality, his mobility was astonishingly high.

And its defensive power was just as Su Yu had anticipated.

Whether it was He Xiang or Mo Yun.

Even though they continuously attempted to corrode Su Yu's prosthetic armor with Ghost Energy during the battle.

In the end, they all failed, and even found themselves in precarious situations.

If not for the cooperation between the two Ghost Demons.

Su Yu reckoned he would have already slain them on the spot!

"My God, am I seeing this right?"

"Mr. Su actually... has He Xiang and Mo Yun, those two Ghost Demons, at a disadvantage?"

"Unbelievable! Unbelievable!"

Lang Yun, Hu Wen, and all the captains of the hunting teams were dumbfounded.

Even the old master, the manager, was shocked by this scene.

Being a modified person from Dawn City.

He was well aware of the enhancement effects that prosthetic components could bring.

However, Su Yu's current Thousand-Handed Prosthetic was an external prosthetic that wasn't implanted into Su Yu's body.

Normally, an external prosthetic, no matter how much it's adjusted, would compromise mobility.

But what about Su Yu?

The eight mechanical arms paired with the Thousand-Handed Prosthetic in his hands were like he truly had eight additional steel arms!

The mobility, fighting power, and reaction speed were so remarkably fast that even the old master found it incredible!

Su Yu himself was utterly thrilled in his heart.

After all.

There are two opponents in front of him.

Two four-star initial level Ghost Demons equivalent to Radiation Beast Lords joined forces.

And they all were being suppressed by him.

Doesn't that mean.

"Now, with the augmentation of the Thousand-Handed Prosthetic, my individual combat power has already reached the level of a four-star intermediate Radiation Beast Lord!"

And a Radiation Beast Lord at this level, under normal circumstances.

A typical four-star advanced Extraordinary of the Physical Body facing off one-on-one would stand at most a fifty-fifty or sixty-forty chance of winning!

The Radiation Beast Lord, holds the sixty percent chance!

"Damn it! How can this Su Yu be so powerful!? Damn it! Damn it!"

Amidst everyone's shock and amazement.

Li He also felt a trace of panic arising in his heart!

The strength displayed by the manager had already made him wary.

Although the manager's four-star pinnacle combat power couldn't last long, before the manager's battle strength diminished.

Li He had to be fully alert facing the manager.

And now, there's an additional Su Yu who could take on two and still suppress He Xiang and Mo Yun.

This change made Li He unwilling to delay any further!

"Can't wait anymore... must end this battle quickly!"

Li He took a deep breath.

A strong killing intent emerged in his eyes!

At the moment of determination.

"Whoosh!"

Li He's figure suddenly sprang up, breaking out of the encirclement in an instant, charging straight towards Su Yu!

"Stop him!"

"I knew this guy might bite when cornered!"

Seeing Li He's movement.

The manager and others, who were initially blocking Li He's path, all took action simultaneously!

There was satisfaction in their eyes!

The arrogant demeanor of Li He had been noticed by everyone earlier.

Now, although Li He was still looking superior.

His current actions revealed his true thoughts completely!

Immediately, the manager and others all took action.

Seeing they were about to intercept Li He midway.

But, just then.

"Boom!"

A huge mass of grayish-brown Ghost Energy erupted from Li He's body, transforming into a gray mist, directly intercepting everyone's attack!

Meanwhile, Li He's form took advantage of this to break through the encirclement and reached the rear of He Xiang and Mo Yun!

"Not good! He's escaped!"

"Something's off, he released this part of Ghost Energy to temporarily stop us, but his strength also dropped to four-star initial level!? What use is this strength?"

The crowd burst out of the Ghost Energy gray mist, looking toward the distance where Li He stood together with He Xiang and Mo Yun, with confusion in their eyes.

That mass of Ghost Energy gray mist indeed had an astonishing delaying effect.

But the energy contained within it was also quite substantial, directly dropping Li He's strength by two star levels!

With this kind of combat power, even if he joined forces with He Xiang and Mo Yun, they couldn't possibly take down Su Yu in a short time, and wouldn't change the current situation!

While everyone was puzzled.

"Boom!"

After clashing with Su Yu once more, He Xiang and Mo Yun simultaneously retreated, just in time to fall back in front of Li He!

"Not good!"

Compared to the shock of the manager and others in the distance.

As a Transcendent of the spirit type as well, Su Yu had a keener perception.

Before the others could react, Su Yu had already sensed Li He's intentions and his expression changed instantly!

He immediately urged the Thousand-Handed Prosthetic to charge forward.

But seemingly, he was a step too slow!

At the very moment Su Yu reacted, Li He also made his move simultaneously!

"Crack!"

The countless Ghost Energy Tentacles beneath him, like a forest of spears at this moment, shot out directly, penetrating both He Xiang and Mo Yun, then fiercely yanking back!

Chapter 129: Chapter 93 Battle with Four-Star Ghost Demon! Su Yu's Powerful Physique, the Might of the Thousand-Handed Prosthetic! The Final Madness!_3

Under the stunned gazes of the others, He Xiang and Mo Yun were directly absorbed into his body!

At the same time.

Within the grey mist, the last remnants of Ghost Energy, along with the portion Li He previously separated to block the others, were once again absorbed into Li He's body.

In just a few seconds.

Li He's aura returned to a four-star advanced level and steadily surged towards an even higher state!

"He... he actually absorbed He Xiang and Mo Yun?"

"Weren't they still alive? Can Li He still absorb them directly?"

The scene caught everyone present by surprise.

Even Su Yu was taken aback but quickly regained his composure.

Looking at Li He, there was a coldness in Su Yu's eyes.

"Was all that a deliberate ruse to trick us into thinking your Ghost Demons could only be absorbed after death?"

"Hehehe, you could understand it that way!"

Feeling the surging Ghost Energy within himself,

Li He's expression returned to its former arrogance. Staring at Su Yu, beyond the initial killing intent, there was now greed!

The Ghost Demons he transformed.

Like He Xiang and Mo Yun.

To Li He, they were like a reserve supply that could be absorbed at any time.

However, these reserves could also train and become stronger.

The stronger the reserves,

the greater the benefits Li He would receive by absorbing them.

Previously, Su Yu killed so many of his Ghost Demons, causing Li He great distress.

Not just because the Ghost Energy fed back by dead Ghost Demons was too little.

More importantly, every Ghost Demon that died meant his growth was slowed!

And if Su Yu killed He Xiang and Mo Yun, these powerful Ghost Demons, Li He would be even more heartbroken.

Seeing them both unable to deal with Su Yu while working together.

To prevent further unforeseen events,

Li He decisively absorbed these two reserves.

Though he couldn't avoid feeling a bit of pain.

After all.

He Xiang, Mo Yun, Lei Wu, Li Yao...

These individuals.

Were the most loyal to him, and the extent to which they were spiritually eroded and controlled by him was also the highest.

The Ghost Demons transformed by him grew much faster than others.

It's a pity that Lei Wu died too early.

And Li Yao was too useless, with too low a starting point.

In the end, only He Xiang and Mo Yun were worth cultivating.

If cultivated well,

He Xiang and Mo Yun both had the potential to grow to a four-star peak level.

By then, to absorb them in one go,

he would reach the five-star level without a hitch.

But now, those plans had to be set aside.

Fortunately...

Li He's gaze returned to Su Yu in front of him, and his greed only intensified!

"Su Yu, although you've cost me dearly, it's of no consequence!"

"As long as I capture and completely subdue you, I believe the return from transforming you into a Ghost Demon with your talent will surpass all my previous losses!"

As Li He spoke,

he began to approach Su Yu step by step!

"No! We must go help immediately!"

Seeing Li He's actions.

The administrators and others could no longer sit still.

Everyone rushed forward, intending to help Su Yu fight Li He.

But before they could get close.

Beneath Li He.

"Rustle!"

One Ghost Energy Tentacle after another surged forth, transforming into a dense ghostly forest that intercepted the administrators and others halfway!

Despite their frantic efforts to cut through the tentacles to reach Su Yu,

the regenerative speed of the tentacles, fueled by Li He's ever-growing Ghost Energy, was beyond imagination!

Their speed couldn't even keep up with the regeneration, and they could only watch as Li He closed in on Su Yu, step by step.

And Su Yu seemed to be intimidated by the power Li He displayed.

Standing there, motionless.

Witnessing this scene.

Li He's heart filled with increasing pleasure.

"Well, Su Yu, I'm offering you a chance. Willingly open your mind and let me leave a mark in your consciousness!"

"This way, your transformation won't be too painful! What do you say? Consider my sincere invitation?"

Li He gazed at Su Yu with an enticing tone.

To him, Su Yu should be utterly hopeless now.

However.

"Sorry."

"I refuse!"

Su Yu's calm voice quietly rang out, with a detached tone and firm resolve, causing Li He's expression to stiffen for a moment, but he quickly returned to calmness and said coldly, "Alright, then don't blame me for being ruthless!"

With that,

Li He slightly waved his hand.

"Whish!"

The Ghost Energy Tentacles originally blocking the administrators' path retracted rapidly to surround Li He's body, then suddenly surged toward Su Yu to pierce through him!

"It's over!"

Seeing this,

Lang Yun and others couldn't help but close their eyes in despair.

The leading administrator exerted all his strength, pushing his prosthetic to the limit.

Trying to rush over to shield Su Yu from the attack.

But he ultimately missed the timing and could only watch as countless Ghost Energy Tentacles fell upon Su Yu, momentarily enveloping him.

Yet Li He, sensing the despair around him, felt more joy.

In the next moment!

The expected sound of the tentacles tearing flesh wasn't heard; instead came a crisp, metallic crash!

"Crack!"

Chapter 130: Chapter 94: Electromagnetic Fury! 100 Strikes in a Flash! Tail-biting Pursuit!

"Crack!"

A crisp shattering sound quietly resounded.

Li He's expression suddenly froze, and he quickly lowered his head to look. His eyes involuntarily widened to the fullest, a look of incredulity emerging from his eyes!

Below, at the moment when Li He was driving his Ghost Energy Tentacles toward Su Yu's chest.

Behind Su Yu, those eight mechanical arms almost simultaneously began to operate at a speed far beyond Li He's imaginative limits.

In an instant, they struck hundreds of times!

Each strike hit precisely on the weakest stress point of Li He's Ghost Energy Tentacles!

Hundred strikes in an instant!

Such a speed of attack, not to mention a Four-Star level Extraordinary Life.

Even a Five-Star level Extraordinary Life couldn't possibly achieve that!

"How, how is this possible for you!?"

Amid the continuous sound of explosions and shattering.

The endless astonishment in Li He's eyes could no longer be restrained, staring at Su Yu as if he had seen a ghost!

"How did you achieve this?"

Su Yu stood on the ground.

Behind him, the eight mechanical arms were all activated at this moment.

Even the four mechanical arms for mobility were also used by Su Yu as weapons, with spear-like sharp points glowing at their tips, slowly retracting from Li He's Ghost Energy Tentacles.

At this moment, each mechanical arm was flickering with electricity.

Reflecting Su Yu, as if he were a Mechanical God wielding thunder.

The sense of oppression exceeded even that of Li He in front of him!

And listening to Li He's question.

Su Yu couldn't help but let out a cold laugh, his gaze falling on his Profession Panel.

In the equipment column of the Profession Panel, in front of [Thousand-Handed Prosthetic], there was a status message—

[Electromagnetic Fury·Thousand-Handed Prosthetic]!

"A Thousand-Handed Prosthetic with triple power enhancement, it's truly terrifying..."

Looking at Li He below, one after another shattering.

The Ghost Energy Tentacles he effortlessly cut through in an instant.

Then looking at Li He's expression, horrified to the extreme.

Su Yu couldn't help but feel a sigh in his heart.

He felt that even if a true Five-Star level Extraordinary Life confronted him now.

He could easily slash and obliterate it!

Hundred strikes in an instant is not the most exaggerated aspect.

The truly terrifying thing was that hundreds of rounds of attacks in this instant each precisely hit the weak points of Li He's Ghost Energy Tentacles!

And all of this was thanks to the support of [Electromagnetic Fury]!

The Thousand-Handed Prosthetic was originally equipped with an Advanced Universal Intelligent Chipset.

Under the triple enhancement of Electromagnetic Fury.

The computing efficiency of this Advanced Intelligent Chip was pushed to the limit, and its computing power was developed to the extreme, even comparable to the computing power of that Special Grade Intelligent Chip within Nuonuo.

It was precisely this computational efficiency that created such exaggerated combat power.

But the downside is, once the effect of Electromagnetic Fury ends, this Advanced Universal Intelligent Chip is likely to be scrapped.

However, there is no other way.

Hundred strikes in an instant, with each strike precisely hitting the weak point of Li He's Ghost Energy Tentacles.

Such computing power has already exceeded Su Yu's strength limit.

Not to mention that his current Spiritual Ability level is only at the Three-Star level.

Even if elevated to the Four-Star level, achieving this would be quite difficult.

It can only be achieved with the help of the Intelligent Chipset.

Fortunately.

Su Yu looked at Li He opposite him.

After this round of truly rainstorm-like offensive ended.

The Ghost Energy Armor constructed by Li He's Ghost Energy Tentacles was already shattered.

Li He's aura had also weakened significantly.

Although he could still maintain Five-Star level strength.

But, without the defense of Ghost Energy Armor.

Li He now was like an ordinary Spiritual Transcendent.

If someone got close, even a common Four-Star Advanced, no, Four-Star Intermediate Extraordinary of Physical Body could likely easily crush him!

"Captain Li He, our battle isn't over yet, such doubts should wait until we're done fighting to discuss!"

Su Yu said.

"Swish!"

Under the support of Electromagnetic Fury·Thousand-Handed Prosthetic.

Su Yu's figure, at this moment, was like a phantom, disappearing from Li He's line of sight in an instant, making the bottom of Li He's heart feel ice-cold. Without thinking more, he immediately mobilized the Ghost Energy within, setting heavy Ghost Energy barriers around himself, trying to block Su Yu's attack!

One must admit, Li He's response was indeed excellent.

He could see that Su Yu's state was also time-limited and couldn't last too long.

As long as he could withstand until the time for Electromagnetic Fury ended, Su Yu without the Thousand-Handed Prosthetic's assistance would eventually be defeated by him.

And surrounding himself with Ghost Energy defense, although energy-consuming, was stable and safe.

Unfortunately.

Li He never calculated that.

After Electromagnetic Fury, the Thousand-Handed Prosthetic not only had its destructive power tripled but its defense also tripled!

"Puchi!"

With a dull tearing sound.

Supported by the Thousand-Handed Prosthetic, Su Yu's figure, like an iron thunderbolt, penetrated the Ghost Energy Barrier set by Li He in an instant, appearing directly behind Li He!
