

Infinite Job Transfers Starting from Mechanic

Chapter 51: Chapter 48: Shock

At the very beginning of taking the job as a 'Battlefield Mechanic', under the spiritual energy distilled by the Steel Meditation Technique, Su Yu's repair and manufacturing efficiency was about five times the normal rate.

And now, this efficiency has increased to over ten times.

"Although still a bit behind Nuonuo with her eight hands, the gap is narrowing!"

Su Yu stretched lazily, shut down the Profession Panel, and stood up from the workbench.

"Master, are you not continuing to work?"

Seeing Su Yu's movement.

Nuonuo beside him also stopped her octopus-like hands and asked in a mechanical electronic voice.

"No need, we've been busy for half a month; it's time for us to rest. Nuonuo, go and recharge yourself."

Su Yu said with a smile.

He then went to the dedicated bathroom in the station, preparing to take a good shower to eliminate his fatigue.

In the Sanctuary, and even throughout the entire Ruins Star, for ordinary people, taking a shower is quite a luxurious enjoyment.

But for Su Yu, this experience is not just for enjoyment but also to quickly restore his state.

Compared to the contribution spent on taking a shower, maintaining his energy is far more important!

After the shower, feeling much refreshed, Su Yu wasted no time and went outside the repair shop to call Nuonuo, who was almost fully charged. Together, they sorted and packed all the items Su Yu had made in the past half month.

In the end, one person and one machine managed to sort and pack a total of ten human-height boxes.

They looked unbelievably grand!

These ten boxes.

Are Su Yu's achievements over half a month, and also the supplies needed to be delivered for these eighteen orders!

That's right.

After half a month's effort.

Su Yu successfully completed all the orders he received from the Sanctuary!

"However, with so many things, there's no way I can transport them alone..."

Looking at the row of boxes in front of him, Su Yu had a peculiar expression.

Any one of these ten boxes falling over could probably crush an ordinary person, or even a one-star Extraordinary of Physical Body.

This is not something I can handle alone, even with Nuonuo, it's not possible!

Fortunately, during this period, Yang Lie and the others, as instructed by Su Yu, stayed in the station without going out.

They just happened to be able to help.

"Brother Su needs us to help move the supplies to submit the orders at management?"

Upon hearing Su Yu's words.

Yang Lie and others, who were practicing in the station's training ground, were all taken aback.

Even Li Mao, Zhang Wu, and Wang Shan, who were doing rehabilitation exercises, couldn't help but follow over.

Arriving in front of the repair room door, the first thing they saw were the boxes being pushed out by Su Yu and Nuonuo together.

Their mouths all formed an "O" shape.

"This... this is Brother Su's work results over half a month?"

"My God, how much stuff is in one of these boxes!?"

Yang Lie and others were dumbfounded.

Although they had witnessed the extraordinary techniques displayed by Su Yu before.

They still didn't have a clear understanding of Su Yu's work efficiency.

Until now.

Seeing Su Yu directly pushing out a human-high box.

They finally realized what it means to be an Extraordinary Mechanic!

"There must be hundreds of firearms in just one of these boxes..."

Even Zhang Wu's mouth was wide open, his glasses almost slipping off his nose bridge.

While they were marveling.

Su Yu and Nuonuo successfully collaborated to move this first box out of the repair room and sent it to the passage at the front door.

And it was at this moment that people noticed Nuonuo's form.

The eight octopus-like mechanical arms, reflecting a metallic gleam in the dim light.

With nearly half a human height, it wasn't considered massive.

But the various repair tools attached to those eight arms were enough to stir imaginations.

If they could attach repair tools.

Then they could also attach various weapons and gear.

In other words.

This seemingly harmless repair robot, after Su Yu's modifications, could transform into a powerful battle machine at any time.

And such a mechanical creation was beyond the imagination for Yang Lie and others.

Shelter No. 73 had previously discovered remnants of the old era.

But those combat machines could no longer operate, at most only a few parts could be salvaged from them.

Su Yu practically figured it out on his own, completing such a transformation.

Just with this, calling Su Yu the No. 1 Mechanic of Shelter No. 73 now wouldn't be an exaggeration!

"Brother Su, we're here to help!"

After slightly calming their shocking hearts, Yang Lie and others didn't delay any further, all stepping forward to help Su Yu push this box to the prepared cart at the door.

Yet, before they could leave, Su Yu called them back.

"Uncle Yang, don't hurry to leave, there're more things behind!"

"More?"

Yang Lie and others were stunned, turning back in unison, only to see the rest of the nine big boxes lined up behind in the repair room.

All of them were so shocked their eyeballs nearly popped out!

"T-ten boxes?"

"Brother Su, how many orders did you complete in these two weeks?"

Even Yang Lie's voice was trembling uncontrollably.

Su Yu smiled slightly, spread five fingers, then formed a fist.

"Eighteen orders have been completed, so there's hard work ahead for everyone!"

"Gulp..."

Listening to Su Yu's reply.

Even though Yang Lie and others had already estimated Su Yu's work efficiency, their shock was still hard to calm for a long time.

But soon, they couldn't stay surprised by Su Yu's work efficiency.

Because during the transport process that followed.

It took all of Yang Lie's strength to move even one of these boxes.

And Nuonuo?

Only needed three arms to easily lift one.

As an assistant, it could move two boxes, while freeing two arms to help Yang Lie and others with another.

"How... how strong has Nuonuo become now?"

Watching Nuonuo effortlessly carrying three boxes with Wang Shan and Wu Yue heading to the outside cart.

Even Yang Lie couldn't help but look at Su Yu, with shock and undeniable curiosity in his eyes!

The other logistics staff felt similarly.

They were not unfamiliar with Nuonuo, the assistant robot.

In fact, during the first hunt after forming a partnership with Su Yu, the Ninth Squad brought Nuonuo along to hunt in the wilderness.

At that time, they had observed Nuonuo's strength.

To put it bluntly, a Radiation Hyena without a star rating could topple Nuonuo.

But now, don't even mention a Radiation Hyena.

Even if a two-star Radiation Wolf King came, it might not stand a chance against Nuonuo!

#Chapter 52 - 49 Nuonuo - Read Infinite Job Transfers

Starting from Mechanic Chapter 52 - 49 Nuonuo

Chapter 52: Chapter 49 Nuonuo

"What is Nuonuo's power level?"

Seeing the curiosity in Yang Lie and the others' eyes, Su Yu smiled slightly, estimated in his heart, and said with a smile, "In a confrontation with a two-star primary Radiation Beast, even without weapons equipped, Nuonuo has a more than seventy percent chance of victory."

"With weapons equipped, even a two-star intermediate Radiation Beast would be a match for Nuonuo."

Listening to Su Yu's estimate.

Yang Lie and the others were increasingly shocked.

Su Yu, however, smiled and shook his head inwardly.

Actually, the numbers he mentioned weren't even Nuonuo's full power state.

When he was modifying Nuonuo, the parts he chose were all the best.

Its actual strength, as per Su Yu's test, was enough to contend with a Transcendent whose physical strength had reached the two-star peak.

The reason he said that even with weapons it could only match a two-star intermediate Radiation Beast.

Was because Nuonuo hadn't been tempered through actual combat.

And its Intelligent Core is unlike the chipsets of the [Cavalry], which were programmed for combat from the start.

Although the grade of the Intelligent Core is not bad and is highly intelligent.

In actual combat, how much it could perform, without the test of real battle, Su Yu couldn't judge.

But do not forget, apart from the eight mechanical arms equipped.

Nuonuo now also has an extra backup battery pack.

When activated during repairs, this backup battery can greatly enhance Nuonuo's repair efficiency.

Correspondingly.

If this backup battery is activated during combat.

Su Yu feels that even a Transcendent with physical strength at the two-star peak might not gain much advantage over a fully armed Nuonuo!

However, this is something that even Nuonuo, as one of his trump cards, need not flaunt to the world.

Although Su Yu hid this aspect.

The two-star intermediate combat power still left Yang Lie and the others in awe.

But they did not remain excited for long and instead quickly brought Su Yu's ten packed boxes to the management office.

Along the way, many Sanctuary residents were also shocked by the ninth team's convoy.

The hunting team going out, bringing trailers to set up camps, and transport loot was not unfamiliar to them.

But seeing the trailers brought back to the Sanctuary was a first.

Moreover, those ten person-high boxes on the trailers, and the octopus-like Nuonuo following alongside.

Also attracted countless gazes.

"What's with that hunting team? Where did they get those ten boxes from?"

"Don't you know, they're the ninth team! The ones in a standoff with Night Slayer, still lively till now!"

"Are they the ones who cleared out the mechanical orders from the management office this month?"

The residents of the Sanctuary were whispering to each other.

Looking at Su Yu and his team's group with irrepressible astonishment in their eyes.

And soon, they connected Su Yu taking on eighteen orders from the Sanctuary with those ten large boxes on the trailer, feeling disbelief surging in their hearts.

"Could these ten boxes contain the materials he needs to submit to the management office?"

"Does that mean he completed all eighteen orders within half a month?"

"How is that possible!?"

The entire Sanctuary was in an uproar!

Sanctuary management office.

At this moment, Eisen, Li Yao, Lei Wu, and others were gathered together, discussing the upcoming matters.

In the past half month, Li Yao and the others hadn't paid attention to Su Yu anymore.

In their view, Su Yu was no longer a threat, and once this month ends, he would be executed as a slave by the Sanctuary, and the entire ninth team would be completely eliminated by Night Slayer.

They weren't discussing the ninth team at this moment, but rather the other hunting teams in the Sanctuary.

In the past half month, Night Slayer Team focused on continuing to annex other hunting teams.

Even though previous management, along with Lang Wen, Hu Yun, and others' warnings, made the Night Slayer Team restrain themselves, no longer deliberately assigning people to lure strong Radiation Beast hordes to ambush and cripple other hunting teams while they were out hunting, then smoothly annex them.

But in the past two-plus months.

The Night Slayer Team had already taken advantage of several hunting trips, luring powerful Radiation Beast hordes to the Sanctuary's surroundings, making the previously safe hunting grounds around the Sanctuary exponentially more dangerous.

Additionally.

The Night Slayer Team, as they did against the ninth team before, cooperated with the high-ups in the management office and raised the hunting targets needed to be completed by several other hunting teams significantly within their jurisdiction.

Forcing those hunting teams to risk hunting stronger and more dangerous Radiation Beast hordes.

Over time.

In just half a month, the damage ratio of various hunting teams reached more than twice that of before.

There was even a hunting team that was forced to join the expanding Night Slayer Team voluntarily.

Even the management couldn't find fault with this because they couldn't complete their hunting targets for the month, according to regulations, the entire hunting team would be disbanded.

Night Slayer Team taking them over had no procedural errors that could be picked on!

And with this hunting team's addition.

As Li He's strength grew again, Night Slayer Team's prestige surged significantly.

So much so that when Li Yao and Lei Wu arrived at the management office this time, right after Eisen relayed the news, the real powers in the management office rushed over without delay.

Treating Li Yao and Lei Wu with reverence, almost to the point of flattery!

"There's no need for the managers to be so courteous, we're all allies after all, a happy cooperation and mutual benefits should be the priority, right?"

Li Yao and Lei Wu looked even prouder seeing the several respectful real powers in front of them.

Though they said there was no need for such courtesy, even Eisen beside them could see the pride in their eyes!

"By the way, Vice Captain Lei, Young Master Li, should we continue to put more pressure on the ninth team?"

A real power manager rubbed his hands, cautiously asking.

"What does Director Liu mean by this? Could it be sympathy for the ninth team?"

Li Yao raised his eyebrows, looking at the real power manager.

The real power manager quickly laughed awkwardly: "No, no, Young Master Li misunderstood, it's just that the ninth team now has only a few members left, even Su Yu has left the ninth team."

"Last month, setting them such high hunting targets was reasonable, but continuing this month, I'm afraid it won't be easy to explain to the leader..."

Listening to the difficult words of the real power manager, Li Yao and Lei Wu sneered coldly in their hearts!

Chapter 53: Chapter 50 Uprightness

Having trouble explaining things to the management?

Is it that you guys aren't satisfied with the perks you've received?

However, both of them don't believe that Squad Nine has any chance of turning the tables now, and they're unwilling to waste their contribution points on bribing these directors.

After exchanging glances and some thoughts.

Lei Wu simply waved his hand and said, "Since that's the case, there's no need to make any arrangements for Squad Nine next month!"

Anyway, according to our captain.

By the end of next month at the latest, he will break through to the four-star level.

By then, even if Squad Nine hasn't been stripped of its status, with Li He on their side and Su Yu in Squad Nine, they still won't be able to escape the grasps of the Night Slayer Team!

Hearing Lei Wu's words, the director's face showed obvious disappointment.

Clearly, Lei Wu and Li Yao guessed what he was thinking.

The fear of management questioning is fake; wanting to use this as an opportunity to raise prices is his true intention.

However, he wasn't disappointed for long, as the urgent knocking on the door outside the reception room abruptly interrupted his thoughts!

"What's going on?"

Inside the reception room, as the urgent knocking sounded.

The few people discussing various "cooperation" matters all furrowed their brows.

"What's going on? Don't you know that several directors are discussing important matters?"

Eisen quickly got up and yelled towards the door.

"Director Eisen, please have those gentlemen come outside quickly! Something big has happened!"

The staff member who came to report from outside was almost stumbling over their words.

"Something big? What could have gone wrong?"

Eisen's brow furrowed as one, pushing the door open, and impatiently asked as he walked out.

"It's Squad Nine, the people of Squad Nine are all here!"

"Squad Nine? That squad of Yang Lie's?"

Eisen was momentarily stunned before he realized which squad it was, a hint of disdain in his eyes: "What tricks could they still pull to scare you like this? Can't you have a little backbone?"

"No... Director Ai, just go and see for yourself! They, they brought over ten crates of supplies!"

"What did you say? Ten crates of supplies?"

Eisen was stunned.

Then, finally realizing the situation was not right, he hurried back into the office without further questioning.

A moment later.

Led by Eisen, Li Yao, Lei Wu, and the few real power directors from the management department hurried outside, only to see Su Yu and Yang Lie following behind Nuonuo with a heavy cart.

Slowly making their way from the distant street.

The ten person-high crates, reflecting the sunlight, were so dazzling they almost blinded their eyes!

...

"Is this... the work result of that Su Yu in half a month's time?"

"Impossible, absolutely impossible!"

"In just half a month's time, even if the entire Sanctuary's mechanics were gathered together, it would be impossible to complete those eighteen orders!"

Li Yao and Lei Wu were completely dumbfounded.

The sight of ten person-high crates lined up one after another was unimaginable in terms of visual impact.

Especially as these ten crates were opened one by one, revealing the firearms and equipment inside.

The entire management department's regular order platform was packed full.

And this was just half a crate of equipment and firearms!

"Impossible to complete?"

Hearing Li Yao's nearly frenzied words, Su Yu smiled slightly, giving Li Yao a cold glance: "That's because you're not skilled enough. Do you think everyone is as foolish as you?"

"You!"

Li Yao's face turned ashen after being mercilessly mocked by Su Yu, and he instinctively wanted to retort.

But before he could finish speaking, Su Yu interrupted again.

"I'm here to submit orders to the Sanctuary, not to argue with you. If you want to debate with me, wait until you've left the Night Slayer Team and become a staff member of the management department!"

After finishing.

After speaking, Su Yu's gaze turned to the directors standing beside Li Yao and Lei Wu, smiling slightly: "Can the directors now arrange personnel to inspect the equipment and confirm if the orders are completed?"

Hearing Su Yu's voice, those few directors finally came to their senses.

Each looked at the supply crates brought by Su Yu with an undisguisable shock in their eyes.

Especially Director Liu Tianzhang, who initially wanted to use the chance to pressure Night Slayer for more benefits by stepping on Squad Nine, now felt his heart undergo a sudden change when looking at these crates before him!

"It seems... this Su Yu isn't as insignificant as Li Yao and Lei Wu made him out to be!"

Putting everything else aside.

To complete the eighteen orders issued by the management department in just half a month.

Such talent would be considered top-notch even in larger settlements than Shelter No. 73!

Is it really necessary to further offend someone like this over the little benefit given by Night Slayer?

While Liu Tianzhang was wavering.

Li Yao beside him suddenly coughed.

Liu Tianzhang was startled, instinctively turned his head, only to see Li Yao sneaking a fist gesture at some point.

In their transactions, this indicated that Li Yao was willing to offer up to a thousand contribution points to buy off Liu Tianzhang, to trouble Su Yu and the others in the following order submissions!

A thousand contribution points, this number was not insignificant.

Under normal circumstances, a hunting team with dozens of members might only spend three to four thousand contribution points monthly to maintain team targets alongside the costs of food and supply.

If it was before, seeing Li Yao's offer, Liu Tianzhang would have eagerly agreed.

But this time, Liu Tianzhang acted as if he hadn't seen Li Yao's gesture, his expression becoming extremely serious, with a business-like tone: "Please, Mr. Su, wait a moment, the supplies you brought this time are too many. We need to gather more personnel."

Saying that, Liu Tianzhang glanced back at Eisen: "Director Ai, what are you spacing out for? Go call someone, bring over all the available staff, make sure to verify everything today, and settle the contribution points due to Mr. Su, understood?"

Hearing Liu Tianzhang's words.

Li Yao and Lei Wu's expressions changed immediately.

Especially Li Yao, who looked as if he had just been bitten by the dog he had raised for years!

Meanwhile, Yang Lie and the others were also stunned.

They had all prepared to be troubled by the management department's people.

This wasn't something they hadn't done before.

Especially Yang Lie, who had vivid memories of his last visit to the management department to take next month's hunting target.

The director who assigned the highest standard hunting list to Squad Nine was none other than the very upright-looking Liu Tianzhang in front of them!

Since when did this person become so just and unyielding?

Chapter 54: Chapter 51: Fortunate

Yang Lie and the others were all extremely perplexed.

But Su Yu's expression remained quite composed.

The true power holders in the management office were all clerical officers.

Their abilities, however, varied in strength.

But without sufficient power to protect themselves, they were destined to be like blades of grass swaying in the ruins.

In a situation where their strength did not match that of Nightshade, they naturally were eager to help Nightshade deal with him.

But now, as he showcased sufficient strength and substance.

These power-wielding supervisors became sensible, which was no surprise!

Seeing Liu Tianzhang's solemn demeanor, Su Yu was struck by the thought of helping Yang Lie to resolve the ant poison issue.

The antiviral serum had an extremely high price, requiring at least three thousand contribution points, and a queue was necessary. Of course, how to queue, and for how long, involved many considerations.

At the very least, if only Yang Lie applied.

Even if he managed to gather three thousand contribution points, he would be pushed to the end of the line, waiting for half a year or even a year or two.

By that time, Yang Lie's grave would probably be covered with weeds five feet high.

So despite the large number of contribution points he would earn upon submitting the order this time.

Su Yu was still a bit troubled with how to procure the antiviral serum.

But now, seeing Liu Tianzhang's and several other true authority figures' brilliant performances.

Su Yu felt his previous worries were somewhat unnecessary.

As long as he demonstrated sufficient power this time.

Acquiring the antiviral serum wouldn't be an arduous task!

Su Yu pondered silently.

Meanwhile, listening to Liu Tianzhang's righteous words and seeing the just stance of the management office figures behind him.

Li Yao and Lei Wu nearly lost their composure!

Especially Lei Wu.

If it weren't for Li Yao holding him back, he would have rushed forward to grab Liu Tianzhang's collar and question him thoroughly.

"We can't go! At least not now!"

Li Yao held Lei Wu tightly, whispering.

"Why not?"

"Fool, look at how many people Su Yu has standing behind him!?"

Li Yao growled softly.

Lei Wu instinctively turned his head and finally realized.

This time, Su Yu was not fighting alone.

Behind him was nearly a hundred Sanctuary residents.

These onlookers might just be here for the spectacle.

But if they openly fell out with Liu Tianzhang and others now.

The news of Nightshade colluding with the upper management of the sanctuary would likely spread throughout the sanctuary before tonight.

By then.

The power-holding supervisors in the management office would not have a good ending.

But the two of them might also be scapegoated by Nightshade to temper public anger temporarily.

Even if they wouldn't lose their lives, their fate would probably be quite miserable!

Listening to Li Yao's reminder.

Lei Wu came to his senses.

But watching Liu Tianzhang and others command management office staff sternly to check the equipment and materials delivered by Su Yu, he couldn't help but feel a surge of uncontainable anger.

"So what do we do with this anger? Are we just going to watch these people perform here!?"

"That's not necessarily the case."

Li Yao's face was full of indignation too, but he remained slightly calmer than Lei Wu, whispering coldly, "Don't forget, Liu Tianzhang and the others are opportunists!"

Opportunists know best how to read the winds.

And today's act, from Li Yao's perspective, was far from over!

"Liu Tianzhang and the others being fair now is a good thing!"

"I just don't believe Su Yu can complete all eighteen orders with quality and quantity within such a short time!"

Upon hearing Li Yao's words.

Lei Wu paused, and then a ruthless light appeared in his eyes!

"Exactly!"

The reason why Liu Tianzhang and others aren't making things difficult for Su Yu now, even standing on his side, acting fair and upright,

ultimately boils down to being overwhelmed by Su Yu's presence.

Completing eighteen orders in half a month, with over a thousand pieces of equipment delivered.

Such an accomplishment was shocking even to Li Yao and Lei Wu, let alone these clerical officers who weren't even transcendents?

But what if this achievement was inflated?

"Not much is needed; just two or three tenths of exaggeration could shake their resolve!"

"Then we can deal with them when the time comes!"

"Don't forget, if the submitted equipment has a high defect rate, the management office also has corresponding penalty regulations!"

Li Yao spoke, a repressed delight in his beady eyes.

As if he'd already seen Su Yu's miserable state when the defects in the equipment were discovered!

No one knew about Li Yao and Lei Wu's discussion.

But Liu Tianzhang and others indeed shared similar concerns as Li Yao, worried that the vast amount of equipment Su Yu delivered might contain too many defects.

However, they also prepared themselves.

Showing an impartial and neutral stance was their choice.

In this way, if Su Yu truly couldn't deliver quality, they could always quickly realign with Nightshade.

The reasons would be perfectly justifiable.

Su Yu brought so many sanctuary residents; under the public eyes, they had to play the part.

Of course.

Should Su Yu truly succeed with a defect rate below three percent,

they could indeed pause their cooperation with Nightshade.

After all, a technical expert of such caliber was nearly as crucial to a settlement as a Li He!

With this mindset.

Liu Tianzhang and others oversaw the inspection with utmost meticulousness.

However.

An hour passed, two hours passed, three hours passed...

Each box of equipment was counted painstakingly.

And Li Yao, Lei Wu, Liu Tianzhang...

Even those who had come simply to spectate, Sanctuary residents, felt uneasy as time dragged on.

These Sanctuary residents, though not professional mechanics or combat personnel.

They understood that losses and defects were typical in any mechanic's order.

While the sanctuary management's official orders demanded rigorous standards, a three percent defect rate was still permitted.

But now.

The diverse range of firearms and equipment Su Yu brought in, totaling at least five to six hundred sets, had been meticulously checked.

Yet not a single defective piece was found!

All the assets and all the equipment.

Their quality could be described as perfect!

So much so that half a day later.

With the final piece of equipment tallied.

Even Li Yao and Lei Wu were left speechless!

"Zero..."

"Zero defect rate!?"

Li Yao's lips trembled.

Looking at Su Yu standing before the neatly arranged shipment crates and the meticulous equipment and firearms within, his voice quivered!

Unlike others,

Li Yao, though an idle and arrogant playboy,

was ultimately a mechanic with a reasonable level of skill.

It was exactly because of this.

That he could better understand just how astonishing a zero defect rate among over a thousand pieces of equipment truly was!

Bluntly speaking.

Even if Li Yao's current skills doubled, no, tripled, or quadrupled!

Achieving what Su Yu did would still remain impossible for him!

"How on earth did he do it!? Just by relying on that eight-armed repair robot!?"

Li Yao stared intently at Su Yu and at Nuonuo beside him, mentally shouting in disbelief.

Meanwhile, Liu Tianzhang and others exchanged bewildered glances. As the final piece of equipment was inspected, they instinctively took a deep breath.

In their hearts, besides a sense of relief, there was nothing else!

Chapter 55: Chapter 52: Success

They are relieved, glad that they were decisive enough to choose neutrality after seeing Su Yu submit his orders so grandly.

Otherwise, given the level of technical skill Su Yu has demonstrated, to put it bluntly, the Night Slayer Team might still be able to continue battling with Su Yu.

But if they, these few directors with real power, angered Su Yu, and the manager found out,

even if they had the backing of other Sanctuary higher-ups, they would be forcibly stripped of their power and positions under the pretext of appeasing Su Yu.

And those other higher-ups in the Sanctuary wouldn't be able to find any fault with the manager!

This is the importance of high-tech talent!

"Unbelievable... we have truly witnessed something extraordinary today!"

The Sanctuary residents were also shocked.

They had no interest in the grudge between Night Slayer and Team Nine.

But in this entertainment-poor Sanctuary, this kind of spectacle is a rare show for them.

Although it took half a day,

they did not feel the slightest regret; instead, they felt it was truly worth it!

In the past, could they have imagined that a Mechanic could achieve this?

"Mr. Su, here are your contribution points as a reward for completing the orders, please accept them."

The onlookers were utterly astounded.

Meanwhile, over on Liu Tianzhang's side, after the final piece of equipment was checked and accepted, there was no delay.

He returned Su Yu's Sanctuary resident card with the fastest speed.

Su Yu took the identity card and casually swiped it on the terminal nearby.

"Beep, contribution point balance: seventeen thousand points."

Upon seeing the number appear on the terminal screen,

Su Yu's lips curled into a faint smile.

And the onlookers surrounding him, though unable to see the exact number,

looked at the identity card in Su Yu's hand with unabated envy in their eyes.

Eighteen orders.

Even if each of these eighteen orders earned the minimum contribution points, it would still amount to nearly ten thousand in rewards.

Moreover, they had heard in advance that the final reward for Su Yu's orders would be nearly twenty thousand contribution points!

Such wealth made them tremble at the thought!

But, excitement aside,

when they looked at the combatants of Team Nine, including Yang Lie, protecting Su Yu like bodyguards,

the Sanctuary residents prudently suppressed any greed and restlessness in their hearts.

As for any underhanded schemes, they didn't dare even to think of them!

"Mr. Su, you've worked hard. Next time, if the management issues any mechanic-related orders, I will definitely contact you first!"

Liu Tianzhang said warmly to Su Yu with a broad smile.

"Thank you, Director Liu."

Feeling Liu Tianzhang's deliberate camaraderie and flattery, Su Yu did not play coy; he nodded with a smile, then suddenly stepped forward, approaching Liu Tianzhang.

"Director Liu, would you be willing to do a transaction with me?"

"A transaction?"

Liu Tianzhang was taken aback, then his eyes lit up.

"I wonder what Mr. Su wishes to transact. Let me make it clear; neither I nor anyone else dares to suppress the Night Slayer!"

"Naturally, I wouldn't make things difficult for Director Liu and the others. I just want to exchange for a bottle of Antiviral Serum. Of course, I understand the rules; I intend to give each director a gift of two hundred contribution points. I wonder how soon I could receive that bottle of serum?"

Su Yu said softly.

His words made Liu Tianzhang start a little.

Antiviral Serum? What does Su Yu want with that?

And only two hundred each? Normally, to quickly obtain an Antiviral Serum, one would need to give at least five hundred each!

As Liu Tianzhang silently grumbled, thinking Su Yu misunderstood the market,

He suddenly noticed Su Yu's gaze had shifted to Yang Lie, causing his body to tense.

"Exactly, it's not for me; it's for my Uncle Yang."

"And as for how my Uncle Yang was forced to succumb to Ant Poison, Director Liu should know, right?"

"This... this is Night Slayer's matter, and has nothing to do with me, Mr. Su..."

Liu Tianzhang's expression became stiff.

But Su Yu merely laughed coldly, "Maybe the mastermind behind it is the Night Slayer, but Director Liu and several others have done so much for Night Slayer before. Now you want to clear the slate with just this one official affair, don't you think you're getting too much of a bargain?"

Hearing the chill in Su Yu's voice at the end,

Liu Tianzhang couldn't help but shiver, but dared not say a word, repeatedly nodding, "T-this, Mr. Su misunderstands. I hesitated just now because I was thinking about the queue for the Antiviral Serum, nothing else!"

"A bottle of Antiviral Serum, right? No problem, just as Mr. Su said, three thousand contribution points, no need for any gifts. With Mr. Su's ability, securing priority in obtaining the Antiviral Serum is not an issue!"

That said,

Liu Tianzhang called over a trusted aide, gave her a knowing look, and she hurried away, returning shortly with a bottle of silver-gray potion, which she handed to Su Yu!

"Is this the Antiviral Potion?"

Su Yu glanced at the potion, looking at the identification information displayed on the Profession Panel.

[Antiviral Potion]

[Type: Medicine · Technological Creation]

[Grade: Primary (Capable of curing poisons from Transcendent-level flora and fauna below three stars, while also having certain curative effects on radiation sickness and other ailments)]

After confirming the potion was without issues, Su Yu didn't delay, directly storing the potion, settling the payment through a card swipe, then smiling, patted Liu Tianzhang on the shoulder.

"I appreciate Director Liu's good intentions, please convey to the other directors that our past grievances are settled!"

After speaking,

Su Yu no longer tarried, turning promptly, under the complex gazes of Liu Tianzhang and others, and left gracefully with Yang Lie and the others!

"It's just... it feels like a dream just thinking about it..."

The other directors who were aware of Su Yu's transaction conditions beside Liu Tianzhang also agreed tacitly with the deal in the management office, looked at Su Yu's departing back, feeling a mix of emotions!

Before today,

if someone were to tell them that a resident who was almost unable to survive in the Sanctuary could, in just over a month, grow to a level capable of contending against the hunting team led by the top experts of the Sanctuary,

they would surely think the person was delusional.

But now, seeing the living example of Su Yu, they all deeply realized the unpredictable and unfathomable changes in life's encounters!

Chapter 56: Chapter 53: Breakthrough

"Four thousand contribution points, just for a bottle of this? This... this isn't worth it, Brother Su!"

The Ninth Squad base.

Looking at the bottle of antiviral serum Su Yu took out, Yang Lie's lips moved, but he was speechless for a long time.

Su Yu and Director Liu's final trade, not to mention Li Yao and Lei Wu.

Even Yang Lie and the others didn't see clearly.

All they knew was that in the end, Su Yu went to the office again with Director Liu.

When he came back, Su Yu's face was filled with a mysterious smile.

This made all the members of the Ninth Squad curious, thinking Su Yu had struck some cooperation with Director Liu or received a high-return order.

They never expected that the final item Su Yu traded would be this bottle of antiviral serum!

"Not worth it? Why not worth it?"

Su Yu waved his hand, looking serious.

"Uncle Yang, don't underestimate yourself. If you fall now, our team's spirit will scatter!"

"Scatter? Isn't Brother Su you still here?"

Yang Lie couldn't help but say.

But Su Yu laughed: "I don't have as much charm as you, Uncle Yang. Without you leading us, everyone would feel unsettled!"

"Brother Su is right, Brother Yang, stop being modest!"

"Exactly! Contribution points can be earned again, but if we lose you, Brother Yang, where can we find a new captain?"

Beside, Li Mao, Zhang Wu, Wang Shan, and Wu Yue, among others from the Ninth Squad, echoed in agreement.

Redeeming an antiviral serum for Yang Lie was not a whim of Su Yu but a planned decision.

And what Su Yu said about the Ninth Squad being hard to maintain without Yang Lie was not an exaggeration.

He had only helped the Ninth Squad a few times.

But Yang Lie, over the years, had helped almost every member of the Ninth Squad.

It was precisely for this reason that the Ninth Squad could withstand Night Slayer's repeated targeting until today.

If it were left to Su Yu alone.

No matter how capable Su Yu was, relying solely on himself, it would be utterly impossible to keep the Ninth Squad united under continuous suppression.

Moreover, although Su Yu's strength was increasing rapidly, he was ultimately still at the two-star intermediate physical level.

His spiritual energy might be high, but due to the Battlefield Mechanic's professional characteristics, the spiritual energy condensed through the Steel Meditation Technique can't be used directly in combat.

In such circumstances.

Relying on the ant poison to boost his strength rapidly, now nearing the two-star top level, Yang Lie was an indispensable powerful force.

Listening to Su Yu and the sincere words of the team members, Yang Lie felt deeply moved.

He took a deep breath, said nothing more, just solemnly received the bottle of antiviral serum, took the syringe, and with Su Yu's help, completed the serum injection.

As the serum was injected.

Not long after.

"Ah ah ah!!"

As the drug took effect.

Yang Lie felt his brain, originally agitated under the ant poison's influence, calmed down.

However, in contrast, the removal of this heat, as the serum took effect, triggered a severe rejection reaction in his body.

He felt alternately hot and cold, as if countless radiation ants were gnawing at every inch of his skin, seemingly trying to consume his flesh and bones completely!

Yet, with his tenacious will and a robust physique already at the advanced two-star level, he bit the bullet and endured.

It wasn't until an hour later, already sweating heavily, that Yang Lie finally withstood until the ant poison was entirely cleared.

The strange feeling of illness sweeping his body vanished at this moment.

And besides that...

"Whew..."

Yang Lie exhaled heavily, stood up from the bed under the expectant gaze of Su Yu and others, slightly clenched his fist, and his eyes shone with unprecedented brightness!

"Brother Su, and all my brothers... I, Old Yang, have not failed you!"

He said.

Then he led Su Yu and the others to the training ground, aimed at the specialized training target for testing the strength of the extraordinary of the physical body, and exhaled and shouted.

"Boom!"

Under the shocked gaze of Su Yu and others.

This punch landed, directly hitting the target back three posts!

"Three-star..."

"Three-star level strength of the physical body!?"

Looking at the third post, although still firm, not entirely knocked back, ultimately skewed by the impact.

Even Su Yu couldn't contain his surprise, exclaiming as he nodded at Yang Lie, with delight apparent in his eyes!

Three-star physical-level strength, although not yet enough to face Li He.

But to deal with Li He's sub-commanders, it's more than sufficient!

In this light.

"That Radiation Ant Queen that poisoned Uncle Yang wasn't his bane but can be considered a blessing for you!"

Su Yu couldn't help but joke.

And Yang Lie also couldn't help but smile, feeling his surging strength, amusement evident in his eyes.

A little over a month ago, he was merely a hunting captain ranked at the bottom, not even reaching two-star.

But now, with his strength, looking around the nine remaining hunting teams in the Sanctuary.

With a three-star physical level, he absolutely could rank among the top!

"However... the Night Slayer Team still can't be underestimated!"

Taking a deep breath, calming his inner joy.

Yang Lie's expression turned serious, solemnly saying.

Su Yu also nodded slightly.

This time they went to the management office to submit an order, and apart from earning some contribution points,

they also conveniently gathered some intelligence about the outside world.

While Su Yu was repairing and crafting various equipment at the base, on the other side, the Night Slayer Team's expansion activity hadn't stopped and was steadily progressing also.

In just a few days, another team was swallowed up by them.

"I really wonder why the Night Slayer Team is merging with so many teams. Do they have too many contribution points to spend?"

Feeling the pressure from the Night Slayer Team.

Members of the Ninth Squad were all worried.

Zhang Wu couldn't help but vent his frustration.

The Night Slayer Team absorbed numerous hunting teams, integrating their members.

But these members, to put it bluntly.

They might not necessarily generate enough contribution points for the Night Slayer Team to offset the cost of keeping them in the Sanctuary!

"Surely it's not because Li He suddenly developed a kind heart and wants to select suitable members from those newly joined to teach his meditation technique and cultivate students?"

Zhang Wu ridiculed, and Li Mao joined in, half-jokingly.

"Teaching a meditation technique? Cultivating students? Li He's character, how's that possible?"

Yang Lie was amused by Li Mao's comment and waved his hand repeatedly.

However, Su Yu, who had remained silent, suddenly had a gleam in his eyes when Li Mao's words fell!

"No, that's not right!"

"Brother Li Mao might really have guessed something similar this time!"

"Huh?"

Chapter 57: Chapter 54 Flaws

"Did Li Mao guess correctly?"

"Su Yu, what do you mean by that?"

"Could it be that Li He is really planning to select suitable people to train as students?"

Upon hearing Su Yu's words, it wasn't just Yang Lie who was taken aback.

Even Li He, who initially proposed this idea, felt a bit unsettled.

He had just said that in jest.

But what does Su Yu mean by this?

Did he actually take it seriously?

Su Yu waved his hand, yet a sharp gleam appeared in his eyes.

"During this period, besides repairing equipment and supplies, I've also taken the opportunity to understand the past of the Night Slayer Team."

The aggressive expansion of the Night Slayer Team started in recent months.

But before that, the Night Slayer Team had always been continually absorbing new members.

Being ranked among the top three in the Sanctuary isn't just because Li He is the only three-star spiritual-based Transcendent in the Sanctuary.

It's also because the number of people in the Night Slayer Team is the largest among all thirteen hunting teams in the Sanctuary.

Their overall strength might not be too strong, with several deputy captains being only two-star Transcendents.

But their numbers are large enough that during hunts in the wilderness, they can even completely annihilate typical Radiation Beast hordes.

This is also why when the Night Slayer Team started annexing other hunting teams in recent months, many Sanctuary residents didn't have many thoughts besides feeling that the team was domineering.

They just thought that the Night Slayer Team gained an advantage from their numbers earlier and wanted to further expand this advantage.

Even Su Yu thought so.

But now, after hearing Li Mao mention Li He's Meditation Technique, Su Yu realized.

"Just to expand the Night Slayer Team's numerical advantage doesn't justify annexing other hunting teams! It doesn't make sense!"

Relying on a numerical advantage can provide leverage in wilderness hunts, but this advantage has its limits.

Once a hunting team's size grows too large, even Radiation Beast packs led by lords won't attack anymore.

And those daring to attack wouldn't be weak.

After a fierce battle, casualties are inevitable despite any numerical advantage.

In the end, it's more prudent to maintain the current team size and focus on training more outstanding members based on that.

"Li He has been a Hunting Captain for so many years; he surely understands this principle, yet he still merged Night Slayer with other teams. This indicates he must gain benefits from other aspects!"

As Yang Lie had pointed out.

Li He is not some benevolent saint.

He aims to gain benefits, either by boosting the Night Slayer Team's strength, allowing him as captain to earn more spoils,

Or he, as the captain, gains profits from the increasing Night Slayer Team members!

With this,

The fundamental reason for Li He's continuous expansion of the Night Slayer Team becomes easier to guess!

"His Meditation Technique likely requires his team to have enough members; the more team members he has, the stronger he becomes, or the more outstanding the effects of his Meditation Technique, or both..."

Listening to Su Yu's analysis.

Yang Lie and others were also taken aback.

Initially, they thought Su Yu's speculation might be a bit far-fetched.

Yet, after calming down and thinking carefully,

They had to admit that Su Yu's speculation was the most likely scenario!

"But the problem is, now that we know this, what's the use?"

"How is it useless?"

Su Yu smiled slightly, his eyes shining with brilliance!

"I now have a rough idea why the Night Slayer Team has been targeting us repeatedly."

The existence of the Ninth Team has always been a reputational blow to the Night Slayer Team, making their steps in annexing other teams more challenging.

Correspondingly,

"If we are prominent enough, the expansion of the Night Slayer Team will inevitably be slowed."

"Li He's strength growth rate will also decrease!"

As Su Yu spoke, he suddenly looked up, staring at Yang Lie with fervent eyes!

"And now, we happen to have a few eye-catching events we can showcase!"

...

The entire Sanctuary was in an uproar that day.

On that morning, the Ninth Team, which had repeatedly clashed with the Night Slayer Team, led by their Permanent Mechanic Su Yu, delivered a whole cartload of supplies.

Within half a month, they completed eighteen orders of supply delivery.

And that was not all.

Later that afternoon,

Sanctuary residents and other hunting team members were shocked to find out.

Yang Lie, who was previously considered doomed after being poisoned by Ant Poison, appeared vibrant, full of energy, and exceptionally healthy in public.

That was not all.

Yang Lie even single-handedly pulled a cart, delivering the first batch of payments for the equipment Su Yu prepared to offset the next two installments, to each hunting team's base personally.

For a moment,

The entire Sanctuary was abuzz!

Not just because Yang Lie was cured of the Ant Poison, but also because Yang Lie displayed power during the delivery that already reached the level of a three-star Transcendent!

Three-star.

Even as a physical-type Transcendent,

This level of power is enough to stand among the forefront in the Sanctuary!

Not to mention, the quality and grade of the firearms and equipment Yang Lie delivered.

They were sufficient to significantly enhance the strength of the various hunting teams!

"How...how did Su Yu manage to do this?!"

Captain Hu Yueshan of the Eighth Team looked regretful beyond concealment!

Previously, when Su Yu expressed his intention to cooperate with them,

Upon hearing that Su Yu had taken on eighteen orders, he and another captain didn't even bother listening further and turned away on the spot.

At the time, he thought he was quite justified.

But looking back now,

He just wants to slap his past self!

Given the current situation,

Snubbing Su Yu back then was that justified?

It was a missed precious opportunity for his team's equipment upgrade, alright!

He already received word.

Other hunting teams, after replacing Su Yu's delivered equipment, even though they hadn't yet tested it in actual wilderness combat, just their performance in the training grounds had already significantly improved!

Mind you, it's still unclear whether it was the Night Slayer Team's clandestine mischief or some genuine environmental change near the Sanctuary.

The Radiation Beasts appearing around the Sanctuary had grown increasingly formidable.

Even Hu Yueshan couldn't guarantee his team's safe return from future hunts.

As for Captain Lin, who had also snubbed Su Yu alongside him, his situation was even more tragic, having become disabled and only managing to maintain his Sanctuary citizenship with previously saved contribution points.

His team members, forced by circumstances, joined the Night Slayer Team, becoming their cannon fodder group.

With these "pearls,"

How could Hu Yueshan not be anxious? How could he not regret it?

Just then, there was a sudden urgent knock on Hu Yueshan's door!

"Captain, someone is here for you!"

"Who is it? Coming at this time? Can't it wait until tomorrow?"

Hu Yueshan was in a bad mood, and being interrupted made his tone indignant, but the next second, his expression changed.

"The visitor is... Captain Yang Lie of the Ninth Team!"

"Please ask him to wait; I'm coming! Right away!"

Chapter 58: Chapter 55 Late

"A bunch of fools! Fools!"

"What did I tell you? What we're supposed to do now is to avoid paying attention to the Ninth Squad as much as possible, don't give them any opportunity!"

"What you should do is continue as I arranged before, forcing other squads to join our Night Slayer Team. As for the Ninth Squad, just leave them alone for now! But you? You're still giving them chances!"

Night Slayer Team's base.

Li He was genuinely frustrated.

He had been meditating and cultivating the Meditation Technique, already feeling he was just a step away from breaking through that spiritual energy bottleneck.

But suddenly.

His spiritual energy became unstable.

By the time he came to his senses, his realm had directly fallen from top tier three-star to high-grade three-star.

Fortunately, during this time, part of the fallen spiritual energy had recovered a bit.

This barely allowed him to maintain the level of top-tier three-star.

But this fluctuation almost gave Li He a heart attack, so he had to stop meditating to come out and understand the situation.

Then, he learned about the series of maneuvers Su Yu did today.

"This... really can't blame us, brother!"

Hearing Li He's complaints.

Li Yao and Lei Wu felt they were wronged.

They really hadn't been targeting Su Yu or the Ninth Squad much during this period.

Today's events were completely due to Su Yu single-handedly reversing the situation.

Who could have imagined that he could complete all eighteen orders in just a month, no, to be more precise, in just half a month!

With such achievements.

The entire Sanctuary was unsettled, and Liu Tianzhang and others stopped cooperating with the Night Slayer Team, which was perfectly normal!

Hearing Li Yao and Lei Wu's defense, Li He also calmed down a bit.

Although a bit depressed.

But he had to admit, his brother wasn't wrong this time.

This turmoil today, after all, was because they underestimated Su Yu's strength.

This was also a downside of his Meditation Technique.

The Meditation Technique he mastered could secretly erode and control one's spirit.

Eventually.

The person would completely become his spiritual puppet, serving as an endless source of spiritual energy for him.

But before the opponent's spirit and emotions were completely controlled by him.

Once his prestige and imprint left in the opponent's heart wavered.

Li He's spiritual energy foundation would also be shaken and affected.

And what Su Yu did today.

Submitting orders, Yang Lie breaking into the three-star level.

And this afternoon, Su Yu sent a batch of modified equipment to various hunting teams.

These three strikes combined made it perfectly normal for those newly absorbed into the Night Slayer Team to start having second thoughts.

Now that the situation was settled, no matter how angry he was, it wouldn't change anything.

Continuing to vent his anger on Li Yao and Lei Wu would only make those newly recruited subordinates even more unstable if word got out.

The urgent matter is to find a way to rebuild the prestige he lost today.

Fortunately, he had a backup plan ready!

Li He thought, his gaze falling on Li Yao and Lei Wu in front of him, speaking gravely.

"You two, don't dwell on Su Yu's situation anymore, head out now and find Captain Hu Yueshan of the Eighth Squad, tell him."

"If he joins our Night Slayer Team now, I'll give him a vice-captain position, and his team members and trusted followers can follow his orders."

"But, if he remains oblivious to the current situation, when I come to incorporate the Eighth Squad again, don't mention the vice-captain position, he might end up following the same path as that fool named Lin!"

Hearing Li He's words.

Li Yao and Lei Wu were both suddenly excited.

They had long had some opinions about their captain's way of doing things.

Under the influence of Li He's Meditation Technique, Li Yao, Lei Wu, and these Night Slayer Team veterans were inherently loyal to Li He.

But correspondingly.

Their emotions also became impulsive and extreme due to the spiritual energy erosion, quick-tempered and easily angered.

Li Yao and Lei Wu were among those in Li He's team who still had some sense left, able to somewhat control their emotions at crucial moments.

Other Night Slayer Team veterans were essentially powder kegs waiting to explode.

This was the fundamental reason why Li He didn't overly blame Li Yao and Lei Wu.

In the land of the blind, the one-eyed man is king. Among his subordinates, those both loyal and useful, besides Li Yao and Lei Wu, he truly couldn't pick many more.

But Li Yao and Lei Wu were still inevitably affected by Li He's spiritual imprint.

In their view, with Li He, who was about to step into the four-star level, at the helm.

The expansion and annexation steps of Night Slayer should be sped up.

If anyone disobeys, just deal with it directly!

As for how to deal with the Sanctuary's higher-ups afterward, they didn't care, mainly focusing on satisfying the immediate gratification.

Regarding Hu Yueshan leading the Eighth Squad, Li Yao and Lei Wu held the same opinion.

Seeing Li He finally nodding to put pressure on Hu Yueshan, they couldn't wait!

"Rest assured, brother! We'll handle this beautifully!"

However, half an hour later.

Just as Li Yao and Lei Wu arrived at the Eighth Squad's base.

They witnessed Hu Yueshan, whom they had assumed was already in their grasp, was with the Night Slayer Team, cheerfully and gratefully seeing Yang Lie off!

"Captain Yang, please relay my gratitude to Mr. Su, both I, Hu Yueshan, and everyone in the Eighth Squad hold his kindness dearly!"

"Captain Hu, you're too polite; no need to say such things, we're allies now."

Yang Lie smiled slightly, reminding: "However, don't forget our agreement today, Captain Hu. Mr. Su is still in need of various mechanical parts, the sooner you send them over, the sooner Mr. Su can start work."

"And the sooner Mr. Su starts, Captain Hu, the sooner you can get the new equipment prepared for your Eighth Squad brothers, right?"

Hearing Yang Lie's words, Hu Yueshan nodded repeatedly: "Yes, yes, Captain Yang is right. Rest assured, Captain Yang, I will deliver all agreed mechanical parts to Mr. Su by tomorrow morning at the latest!"

Yang Lie smiled slightly, said nothing more, just waved at Hu Yueshan, then turned to see the approaching Li Yao and Lei Wu, his eyes full of playfulness.

"Young master Li, Deputy Lei, what brings you here?"

"Could it be that you're here to recruit Captain Hu?"

Hearing Yang Lie's playful words.

Li Yao and Lei Wu's hearts sank, seeing Hu Yueshan's face, which had turned from full of spring breeze to cold as ice upon their arrival.

Their originally excited minds instantly plummeted to rock bottom!

Chapter 59: Chapter 56 Visit

Is it better to submit to the Night Slayer Team, or to choose cooperation with Su Yu?

In this matter, after Su Yu completed the eighteen orders taken from the management office within half a month, it was practically a no-brainer for Hu Yueshan.

The grand opportunity that Li Yao and Lei Wu originally imagined turned into nothing, and they could only return dejectedly to the Night Slayer Team.

Faced with this outcome, Li He was also helpless.

Moreover, since he couldn't annex the fourth team led by Hu Yueshan, the only thing he could do now was to ensure those already absorbed team members maintained their reverence for him and weren't further influenced by Su Yu's exploits.

For this reason, the day after Su Yu submitted the orders to the management office.

Li He personally led his team for the first time in a while, taking his subordinates out in full force to begin a hunt in the wilderness!

Although the means Li He used to annex these hunting teams were rather devious.

For the people on Ruins Star, relying on the strong has always been a given.

As long as he could display sufficient strength.

Winning over these newly-absorbed members of the Night Slayer Team wasn't a particularly difficult task!

And just as Li He led his team away from the Sanctuary.

The administrator immediately received the news!

"Did Li He leave the Sanctuary?"

The administrator slowly got up, looking at Bai Hong who had come to deliver the message, and spoke softly, his tone tinged with an uncontrollable excitement.

Bai Hong was a bit puzzled, not understanding why the administrator was so pleased about Li He leaving.

But he didn't ask further, simply dutifully bowing and saying, "To report to you, sir, the information is confirmed. Just an hour ago, the Night Slayer Team moved out in full force!"

"Good!"

The administrator said softly.

His eyes were filled with a shining light!

"Captain Bai, next, please stand guard in front of my room. Tell anyone who comes to see me that I am resting and to come back tomorrow."

"I have something I need to do now!"

Bai Hong was taken aback, unable to resist asking in a low voice, "May I ask what you need to do, sir?"

The administrator smiled slightly, "This, you will naturally know in the future, but for now, allow me to keep it a secret!"

The administrator said.

Yet in his heart, there was an undeniable sense of joy!

Upon learning that Su Yu had submitted the equipment materials for eighteen orders to the Sanctuary and all had passed the inspection of Liu Tianzhang and others.

The administrator could not help but want to seek out Su Yu.

Completing so many orders in such a short time.

Su Yu's technical level far exceeded the administrator's expectations, meaning his previous assessment of Su Yu was seriously off!

"Either this young fellow named Su Yu has awakened a highly graded Meditation Technique."

"Or his talent is exceptionally outstanding! Even Li He can't compare to his cultivation speed!"

Regardless of which situation it was, there was one thing the administrator was certain about.

That is, Su Yu's technical level, even if not enough to help him completely solve his own problems.

It was sufficient to alleviate, repair some mechanical parts, enough to restore some strength to confront Li He!

Even though he was thrilled.

The administrator was still somewhat worried while Li He was still in the Sanctuary.

Afraid that when visiting Su Yu, Li He might notice something amiss.

But now, Li He had been driven out of the Sanctuary by Su Yu.

If such an opportunity wasn't seized, who knows how much the administrator would regret it!

Listening to the administrator's words.

Bai Hong didn't ask any more questions.

He could also feel the excitement and impatience in the administrator's tone, making his own thoughts lively.

Since Li He rose to power, his own administrator rarely had such emotional fluctuations.

"Could it be that sir has found a way to break the stalemate?"

Suppressing his inner delight.

Bai Hong promptly replied in a deep voice, "Please rest assured, sir, I will do my utmost to ensure no flaws are exposed!"

"Thank you."

The administrator nodded and wasted no more time.

He leapt directly from the window, with each mechanical component within him quietly operating, an invisible Spiritual Energy emerged, like a massive night curtain shrouding his figure.

At this time, it was nightfall.

Under the cover of the Spiritual Energy, the administrator was like a fish swimming into the ocean of night.

Even Bai Hong, looking down from above, found it difficult to discern the administrator's location!

...

Ninth Squad Base.

The base was also very quiet at this time.

However, Su Yu's repair shop was still brightly lit.

Although Hu Yueshan had been recruited by him.

The fourth team's previous refusal to cooperate with Su Yu must still warrant some punishment.

It's not simply because Su Yu is greedy for those parts, it's more about setting an example for other hunting teams choosing to collaborate with the ninth squad.

Fairness is not only for the inside of the ninth squad.

All allies should be treated equally.

If a mistake is made, naturally, punishment should ensue.

And Hu Yueshan dared not complain about Su Yu's punishment, as compared to the Night Slayer wanting to annex the entire fourth squad.

Su Yu's punishment could be described as gentle without exaggeration.

It merely required Hu Yueshan to sell the stockpiled parts of the fourth squad to the ninth squad at a discount.

Of course, payment would be deferred and settled in installments just like with other teams.

Upon accepting this punishment, Hu Yueshan immediately dispatched his team members to deliver these parts to Su Yu while it was still daylight.

Besides.

Wang Jian, Luo Wang, and others were also very pleased to receive the upgraded equipment from Su Yu for their teams.

Having tested the power of this equipment, those team members who previously had doubts about Su Yu no longer questioned his abilities.

Under such circumstances.

Wang Jian and the others also immediately delivered all mechanical parts they had collected over the past half month, excluding what was kept for the Permanent Mechanic, to Su Yu.

"All these parts, in total..."

"Enough to assemble at least ten sets of cavalry!"

Moreover, during the assembly process.

He could further enhance his Battlefield Mechanic level.

The higher the level, the more mastery of technique, the less component wastage during assembly.

At the end.

Perhaps these parts could assemble eleven or even twelve completed cavalry units!

The thought of the scene where a full dozen cavalry form a combat swarm and open fire together filled Su Yu with anticipation!

However, Su Yu quickly calmed himself down.

"Although the parts are assembled, there's also a significant shortage of Intelligent Chips!"

"Although a request to purchase from the Sanctuary management office has been made, there has been no response, clearly indicating the value of Intelligent Chips to them."

Just as Su Yu was pondering.

Outside the repair shop, a voice suddenly sounded.

"I hear Mr. Su lacks Intelligent Chips? Why not collaborate with us? What do you think, Mr. Su?"

Chapter 60: Chapter 57 Unable to Do It, Thank You

"Manager?"

Upon hearing this voice.

Su Yu raised an eyebrow and slowly stood up.

The voice was not unfamiliar to him.

Every year, the Sanctuary residents would gather in the manager's hall to listen to the manager's speech.

Simultaneously, the manager would also demonstrate their strength during the speech.

It's also a means to unite the Sanctuary's residents.

Outside the door, the manager dissipated his spiritual energy, smiled slightly, and answered in a deep voice, "It's me. I wonder if Mr. Su is willing to have a chat with me?"

"Of course, I'm willing."

There was a gleam in Su Yu's eyes as he stood up to open the door, inviting the manager inside.

Ever since Su Yu had taken on eighteen orders at once from the Sanctuary's management office.

Su Yu had already anticipated that once he completed those orders, he would inevitably attract attention from the higher-ups in the Sanctuary.

However.

What Su Yu hadn't expected was that the first to visit was the ostensibly strongest figure of the Sanctuary, whose strength was rumored to have reached the peak of four stars!

Seeing Su Yu's surprised gaze.

The manager smiled slightly without saying much; he just stared at Su Yu and said in a deep voice, "My sudden visit this time is all because of Mr. Su. If it weren't for your actions today, Li He wouldn't have left the Sanctuary, and I wouldn't have found the opportunity to visit you even if I wanted to for a few days."

"Li He left the Sanctuary?"

Upon hearing the information disclosed by the manager, Su Yu raised an eyebrow, feeling a slight stir in his heart.

"Not only did Li He leave, but even his Night Slayer Team members have almost all gone out, especially those who just joined the Night Slayer Team, each and every one was taken into the wilderness by him!"

The manager stared at Su Yu, noticing Su Yu's frown shifting, and the light in his eyes growing brighter, adding word by word.

"Does Mr. Su understand what this means?"

"Li He's Meditation Technique, his spiritual power, indeed come from his subordinates, more specifically, from the loyalty of his subordinates to him!"

Feeling the scrutiny and anticipation in the manager's eyes.

Su Yu's lips curved into a smile without any intention of concealing his abilities, straightforwardly voicing his previous prediction!

Why did he want to stand out in the Sanctuary, even going as far as to reveal he was a transcendent with spiritual abilities?

Wasn't it to let the Sanctuary's higher-ups see his strength, thereby cooperating with him to counter the Night Slayer?

Now that the manager has arrived.

And based on Su Yu's analysis of Li He's Meditation Technique.

Su Yu was confident that those in power would never sit idly by while Li He truly manipulated the entire Sanctuary into his puppets.

Since that's the case.

Su Yu, naturally, had no reason to hold back!

Quite the opposite, what he needed to do was to show his brilliance in front of this elder!

Hearing Su Yu's response and sensing the intense confidence in Su Yu's tone.

Just as Su Yu expected.

The delight in the manager's eyes grew stronger, no longer concealed!

"Mr. Su's talent indeed exceeds my expectations. I must admit, I underestimated you before!"

The manager said.

Gradually standing up, staring at Su Yu, he said in a deep voice, "Since Mr. Su has also discerned Li He's situation, there's no need for me to hide anything."

"I heard Mr. Su needs a set of intelligent chips? I can provide them for you, Mr. Su, but in return, I need you to work for me!"

"Work for the manager?"

Su Yu looked at the elder in front of him, feeling a slight stir in his heart.

The manager in front of him was stout, nearly two meters tall, and even though he appeared elderly, with a head full of white hair, standing there, he still provided a powerful visual impact.

Moreover, his eyes were incomparably bright, like torches, intensely radiant, without any murkiness due to age.

And although the manager had not demonstrated his strength.

As a four-star transcendent.

Standing there, he gave Su Yu the impression of a small mountain looming ahead, an oppressive sense beyond description.

Could such a strong person possibly need his help?

"I wonder, what assistance can I provide?"

Su Yu asked.

Simultaneously, he instinctively channeled the spiritual energy in his mind, intending to enhance his vision to see more details.

However, with the activation of spiritual energy from the Steel Meditation Technique.

The image of the manager in front of Su Yu flickered.

Then.

One by one, torch-like spheres of light appeared before Su Yu, causing his gaze to freeze momentarily before he returned to his senses, taking a deep breath involuntarily!

"Manager, you're really hidden... quite deeply!"

...

Under the boost of the Steel Meditation Technique.

All mechanical creations could become torch-like presences in Su Yu's eyes.

This ability, in Su Yu's view, currently could be developed into two uses.

One is that when he goes hunting in the wilderness, he can use this ability to discover mechanical creations buried beneath rubble and dust.

The other use.

Is just as now, to analyze mechanical creations he has already obtained.

With the expenditure of a certain amount of spiritual energy.

Su Yu could directly analyze the mechanical creations he saw, understanding their internal structures, technical principles, and even without needing to dismantle them, he could restore their design blueprints directly.

As his practice in the Steel Meditation Technique increased, generating stronger spiritual energy.

The higher the grade of mechanical creations Su Yu could analyze.

As it stands now.

Although Su Yu couldn't yet analyze the internal structure or technical principles of the mechanical components found on the manager.

However, when Su Yu activated this ability.

Seeing the manager transform into a colossal entity composed of seven or eight spheres of light.

No matter how dull Su Yu might have been, he had to realize.

This manager in front of him, likely only has a brain that counts as human.

Other parts vastly differ from the concept of being "human"!

Listening to Su Yu's words.

There was a hint of surprise in the manager's eyes.

He wasn't surprised when Su Yu used spiritual energy since he had expected it.

But what he didn't anticipate was the unique trait of Su Yu's spiritual energy.

Just by a glance, he could see through his fundamental nature?

However, the manager didn't panic; on the contrary, this trait shown by Su Yu filled him with even greater joy!

After all.

The stronger Su Yu's talent, the more it meant he had the potential to repair the various components on his body!

Yet, when the manager revealed his true intent.

Su Yu's response instantly sank the manager's heart to rock bottom.

"I can't do it, thank you."
