Chapter 1141: Refusal to Listen or Believe

The time path immortal killer move was already quietly activated inside the sovereign immortal aperture.

The upper extreme heavenly eagle was affected by the killer move, its body's time was rapidly quickened by countless times, making it mature quickly.

The upper extreme heavenly eagle cried out, feeling extremely unwell.

On one hand, it was because its body was growing rapidly, while on the other hand, it was hungry!

It required many heavenly crystals to fill its stomach every day. Right now, in just one breath, a day had passed for its body, and with its body growing continuously, how could it not feel hungry?

Naturally, Hei Fan had considered this situation as well, so there was another immortal killer move which was used specially to make up for this flaw.

At the same time, the upper extreme heavenly eagle huddled up in the heavenly crystal eagle nest and began to eat madly.

Only such a two-pronged approach could sustain its growth.

This was a quick growth method and had a lot of flaws. The upper extreme heavenly eagle had been in contact with Fang Yuan for a very short time, now with its strength suddenly increasing, it would become more bestial and would not be easy to control. Moreover, the upper extreme heavenly eagle's growth rate was sped up too much, and there was no way for it to adapt and get familiar with its growth, so it might not be able to use even thirty percent of its strength.

However, Fang Yuan had no other choice!

He was in a desperate situation and this was his only hope to get out of this predicament.

He was like a drowning man who was firmly grasping onto the sole life saving straw.

Myriad self was continuously activated, the once-powerful killer move had now become the only reliance for Fang Yuan to stall for time.

He had used familiar face to disguise himself and mixed in among the strength path phantoms, the enemy Gu Immortals had not discovered him since the start.

The tornadoes wreaked havoc, during which the enemy Gu Immortals had each made their moves, their powerful killer moves shrouding the entire battlefield.

Fang Yuan's strength path phantoms could only last about one or two breaths of time before they were destroyed.

He had never activated myriad self as frequently as now!

Fortunately, myriad self was created by him, and by now, he was so proficient with it that it had turned into an instinct and there had yet to be failure when activating it.

However, his green grape immortal essence reserve was rapidly dwindling.

Regarding immortal essence reserves, Fang Yuan was completely in a disadvantage, he naturally had no way to compare with the nine enemy Gu Immortals.

"This guy's concealment skill is quite amazing." An enemy Gu Immortal praised.

"Relax, as long as this battlefield killer move, grey cloud battle puppet, is here, we don't have to worry about him escaping." Another Gu Immortal replied.

"Hmph, rat like thing, come out. The earlier you die, the earlier you can be free from suffering."

The four rank seven Gu Immortals did not speak, but the other five rank six Gu Immortals yelled, vainly attempting to shake Fang Yuan's will.

But could Fang Yuan waver so easily?

His will was firmer than steel, even when he was in danger, he would not give up trying until the very last moment.

Since he was using a stalling tactic, Fang Yuan would never reveal himself.

The upper extreme heavenly eagle was growing rapidly, it already gave a trace of an ancient desolate beast's aura. As for the heavenly crystal eagle nest, it was already eaten by over half.

But this growth rate was still far from enough.

The upper extreme heavenly eagle was the key for this battle!

"The enemy has the numerical advantage, their immortal killer moves also seem to be endless. Once I take out the upper extreme heavenly eagle, if my breakthrough attempt fails, I will probably be immediately dealt with the next moment. I won't have any second chance! I must succeed in one try!!"

Just as he thought of it, Fang Yuan suddenly heard a chuckle by his ear.

"Heehee, found you."

This was a female Gu Immortal's voice.

At that instant, Fang Yuan's hair stood on end, and without caring about exposing his true self, he activated sword escape Immortal Gu!

He flew towards the sky!

Almost at the same time, frost condensed on his original spot, quickly forming into thick ice the size of a pavilion.

"He's quite fast." A rank six Gu Immortal said in surprise. Her voice was the same voice that had sounded by Fang Yuan's ear.

"Xue Er, you succeeded. Not bad." A rank seven Gu Immortal praised.

“Thank you, great-grandma.” The female Gu Immortal seemed to be happy, “Although I cannot break through his disguise, every time he activates his killer move to create those phantoms, the aura of the killer move will leak out. He might be heavily concealed, but it is of no use. As the frequency increased, I discovered him.”

“Good! Let me see where you can escape!” Another rank seven Gu Immortal shouted, directly charging towards Fang Yuan.

He was extremely fast.

Shortly afterwards, he reached Fang Yuan.

Fang Yuan recognized this Gu Immortal, this person was the one who had shot the ice spear before.

“Die!” The rank seven Gu Immortal clenched his fists, instantly two ice spears condensed in his hands.

“A close combat Gu Immortal?!” A sharp light flashed past Fang Yuan’s eyes, and he quickly retreated.

However, Sword Escape was actually unable to throw the enemy off.

Fang Yuan’s pupils shrunk slightly as he noticed his body was covered in a layer of thin grey clouds.

It was the cause of his reduction in speed.

While on the other side, the rank seven Gu Immortal’s speed seemed to have been increased.

“If I let you escape freely, would not it make me look incompetent?” The Gu Immortal controlling the battlefield killer move was standing straight, with his hands folded in front of his chest, watching the battle situation from afar.

Fang Yuan was forced to engage in close combat.

This rank seven Gu Immortal was very powerful with outstanding fighting skill.

Within several moves, Fang Yuan’s left arm and stomach were pierced.

Blood asset Immortal Gu was heavily injured!

Large amounts of fragmentary ice and snow path dao marks were engraved on Fang Yuan’s wounds, making them difficult to heal. Cold air entered his limbs and bones, further lowering his speed.

The sovereign immortal body’s disadvantage appeared for the first time!

There were no conflicts between dao marks, causing Fang Yuan to be easily injured.

Previously, Fang Yuan was defending and painstakingly dodging around. But at this moment, he had no choice but to face the consequences of this weakness.

“Die!” The enemy’s offense was extremely fierce. He thrust the ice spear in his right hand towards Fang Yuan’s forehead, while quietly moving the ice spear in his left hand towards Fang Yuan’s heart.

Blood torrent!

Fang Yuan suddenly changed his killer move, bizarrely curving around and dodging the enemy’s attack.

“Blood path!” A rank six among the Gu Immortals blurted in shock.

“He is indeed an unforgivable sinner! He actually cultivates blood path!!”

“We can be considered to be eliminating an evil, helping the people of the world.”

“I had been somewhat suspicious of that defensive killer move earlier. So it was like this.”

The Gu Immortal dual wielding spears, was filled with even more killing intent, as he pounced over again.

Giant hand!

Fang Yuan suddenly slammed, a strength path giant hand flew out.

In such a short distance, the Gu Immortal with dual spears was unable to dodge.

But he had not even thought of dodging.

Head-on!

He pierced the giant hand with his two spears, and continued to chase Fang Yuan.

Since he could fight in close range, he naturally had extremely outstanding defensive methods. If not for this, how could he dare to take the risk?

The two spears in his hands intertwined into dense spear shadows, fully displaying the advantage of a close combat Gu Immortal's attack speed.

Close combat Gu Immortals were few in numbers, they had once flourished in ancient times, but were now almost extinct.

However, if such a Gu Immortal manages to get near to the opponent, they would become an extreme threat.

Fang Yuan was constantly in a life and death situation, he had to pay close attention to the enemy's movements, and slight negligence could result in him dying.

Fang Yuan possessed many immortal killer moves, but in close combat, in most cases, he could only concentrate on dodging. Because there was no time to use any complicated immortal killer moves, and once his response was delayed, it could be his death.

Fang Yuan's momentum was already destroyed, he was barely able to continue for a while before the enemy finally found a gap and pierced a spear through his heart.

“It is over.” At this moment, the enemy's expression was slightly relaxed.

Man as Before!

As Fang Yuan erupted, he used man as before Immortal Gu to restore the fatal injuries.

Then using dark assassination, he shot towards the enemy's head.

In an instant, Fang Yuan had established his victory!

He had been concealing Man as Before, waiting for this battle opportunity.

Sounds of shock rose, but the Gu Immortals were not angry.

At the next instant, Fang Yuan saw a strange sight: The enemy's head was not made of blood and flesh, and was completely formed from grey clouds.

The grey clouds scattered before condensing, and the dual spear wielding Gu Immortal shook his newly formed head, laughing: "Not bad! You could actually destroy my head, hmph! Human Gu Immortals are so crafty, if it were normal times, I would have already died. Unfortunately, this is within grey cloud battle puppet, an immortal level battlefield."

Fang Yuan's pupils shrunk to pin-size.

He suffered a loss.

Not knowing the mechanism of this battlefield killer move led to an error in judgment.

"Although this is the first time I have heard of grey cloud battle puppet, it is truly a fierce battlefield killer move." Fang Yuan let out a breath, his whole body was filled with injuries.

He had intentionally concealed Man as Before and used it at the crucial time, but his painstaking plan had been thwarted by grey cloud battle puppet.

"That goes without saying, this was created by Lady Earth Mother!" The dual spear wielding Gu Immortal spoke with pride.

Fang Yuan took the chance to look at his immortal aperture, the upper extreme heavenly eagle had already grown into an immemorial desolate beast.

However!

It was near death.

The heavenly crystals were already finished, and it was now starving to death.

Fang Yuan quickly dispelled the effect of the immortal killer move on the upper extreme heavenly eagle and attempted to feed other things to it.

However, the upper extreme heavenly eagle kept its mouth closed.

"Damn it! Earlier, I was too busy dealing with the enemy, I simply had no time to be concerned about the upper extreme heavenly eagle's situation." Fang Yuan's heart sank to rock bottom.

His final trace of hope was gone.

In this battlefield killer move, the enemies could not die, Fang Yuan did not have any strategy to ensure his victory. Dealing with just one rank seven Gu Immortal was difficult, not to mention there was also the dragon immemorial desolate beast that had not moved from the start.

What now?

Death was already approaching close.

“Young man, leave your name. You are a worthy adversary, after this life of mine, my battle with you shall be remembered as a glory by my descendants.” The dual spear wielding Gu Immortal pressed on forward.

The atmosphere was solemn, other Gu Immortals did not speak anything to stop him, seemingly approving of the dual spear wielding Gu Immortal’s words.

Fang Yuan, however, revealed a confident smile: “My name is not important, what is important is my status. I am a supreme elder of Lang Ya blessed land, a member of a variant human force. In the current situation of the world, we variant humans should not take up arms against each other, isn’t that the case? Snowmen, rockmen and hairy men should help each other, not have internal fights which will instead please enemies!”

“How do you know...” The dual wielding Gu Immortal was extremely surprised.

“He actually knows of our identities!”

“Quick, kill him!”

“Human Gu Immortals have always been crafty, don’t listen to his misleading words!”

The other Gu Immortals cried out, almost screaming.

“What Lang Ya blessed land! Also, you are clearly a human, what hairy man? Do you think I am blind?!” The dual spear wielding Gu Immortal furiously pierced forward with his spears.

Fang Yuan exposed their identities, but they simply did not listen to or believe Fang Yuan’s words.

Chapter 1142: Bluffing, Deceiving

The dual spear wielding Gu Immortal rushed towards Fang Yuan.

“Variant humans... are indeed stubborn? Or is this the influence of heaven’s will? Hmph!” Fang Yuan’s gaze turned dark, he looked at the dual spear wielding Gu Immortal charging at him, but he did not dodge or retreat.

Boom!

At the next moment, he opened the entrance to his sovereign immortal aperture and released a gigantic beast.

“Ahh! This, this is!!!” The dual spear wielding Gu Immortal felt a majestic aura that instantly overwhelmed his body and mind.

His momentum stopped abruptly, and his battle intent had dispersed at that very instant.

What Fang Yuan released was none other than the upper extreme heavenly eagle that had now matured to immemorial level!

A truly mature upper extreme heavenly eagle was extremely huge, multiple times the size of a whale, it did not lose out even when compared to that immemorial dragon desolate beast.

The immemorial upper extreme heavenly eagle was a terrifying rank eight level battle force!

Shock!

Instantly, the enemy immortals were all shocked and dumbstruck. They had never expected Fang Yuan to still be holding such a card in reserve.

This trump card was too strong!

The dual spear wielding Gu Immortal was almost trembling from fear.

The atmosphere of the whole battlefield had instantly transformed completely.

Fang Yuan stood proudly on the upper extreme heavenly eagle's head, and coldly snorted: "Why do you think I was fearless since the start? Even if your battlefield killer move is powerful, could it obstruct my upper extreme heavenly eagle?"

The enemy immortals' bodies jolted upon hearing this.

"Upper extreme heavenly eagle!"

"According to legends, this eagle is a space path immemorial desolate beast that can avoid the heavenly wind qi wall and enter the immemorial nine heavens."

"Not only this. It can also pierce through space and enter grotto-heavens. Our battlefield killer move cannot trap it!"

The group of immortals communicated in fluster.

Fang Yuan had a confident smile on his face: "Even if you use that dragon immemorial desolate beast, I am confident of escaping. But what I said before is all true! I simply don't need to deceive you, and even if I wanted to deceive you, such a shoddy lie could easily be exposed. Why would I waste my time?"

The enemy immortals fell into silence.

The mountain-like upper extreme heavenly eagle was the best evidence of Fang Yuan's words.

The dual spear wielding Gu Immortal was the nearest, the upper extreme heavenly eagle filled his whole vision. Despite the upper extreme heavenly eagle slightly closing its eyes, the cold light leaking out of the crack of its eyes still made him feel like he had fallen into an icy abyss.

"Did you verify it? Is it real or not?" The Gu Immortals secretly transmitted their voices.

It was rather ironic.

Just before, when Fang Yuan was ambushed and saw this terrifying battle formation, the first thing he felt was doubt at whether this was real or an illusion.

Now, after Fang Yuan released the upper extreme heavenly eagle, these Gu Immortals were experiencing the same thing.

"It is real!" That rank six Gu Immortal called Xue Er spoke with shock, "Moreover, that upper extreme heavenly eagle's vitality is extremely flourishing, don't be fooled by its unmoving and harmless look! Once it attacks, it would definitely be earth-shaking!"

Soon, the rank seven Gu Immortals confirmed one after the other.

"This! He only has a blessed land, how could he store an immemorial desolate beast!"

"Although it is unimaginable, it is the truth."

"What should we do? He can use an immemorial desolate beast, could it be that we also have to send out the immemorial rock dragon?"

In fact, the dragon beast in grey cloud battle puppet was not as intimidating as it appeared. Although the aura was real, it could not fully display its rank eight battle strength.

There were many reasons.

Grey cloud battle puppet did not have a core rank eight Immortal Gu, and was not suitable for use on rank eight level existences.

Another reason was, the snowman and rockman Gu Immortals' main bodies were far below underground. They put in their respective Gu worms and immortal essence in this grey cloud battle puppet, forming battle puppets that were not weaker than the main bodies.

That is to say the power of grey cloud battle puppet originated from the remote control of the Gu Immortals, and the immortal essence along with Gu worms concealed in the battle puppets.

The battlefield killer move could form a grey cloud battle puppet corresponding to the immemorial rock dragon, but the immemorial rock dragon did not have a Gu Immortal's intelligence, let alone remote controlling the puppet, it could not even freely use Immortal Gu, as such it was unable to manifest its strength.

That was the reason for this rank eight battle strength to not move even the slightest since the start of the battle.

It was instead Fang Yuan who was cautious and did not dare to even risk probing it.

Naturally, this was common sense.

Just like now, the dual spear wielding Gu Immortal was stunned and did not dare to attack the upper extreme heavenly eagle.

When Fang Yuan released the upper extreme heavenly eagle, the situation completely transformed.

The rank eight battle strength on the variant human Gu Immortals' side was only a facade, while they were unaware of the details regarding Fang Yuan, and thought they were on the weaker side.

And Fang Yuan?

He was also not clear of the variant human Gu Immortals, and also did not know if the immemorial dragon beast was only there for show. He also felt his strength was on the weaker side.

As far as the truth was concerned, Fang Yuan's judgment was correct.

Right now, Fang Yuan was feeling rather tense.

The upper extreme heavenly eagle was about to die from hunger, and he had to use blood path methods to disguise it to look like it had flourishing vitality. Once it was attacked, this disguise would fail.

However, the other side did not dare to attack.

The reason?

Once they attacked, if they could not kill their enemy and let him escape, that would be a very troublesome situation.

Even if they summoned the immemorial rock dragon from the deep underground, if the upper extreme heavenly eagle wanted to escape, they would not be able to stop it!

Since Fang Yuan exposed their identities, he also knew of their misgivings.

Their identities!

Once their identities of the snowmen and rockmen were exposed to Northern Plains' Gu Immortal world, it would immediately lead to invasion from the righteous path, demonic path and lone cultivators.

Human forces were strong and had killed on their path to reach this age since the immemorial antiquity era, they absolutely would not let such a huge variant human super force to exist beside them!

Thus, when the variant human Gu Immortals ambushed Fang Yuan, they had concealed their appearances.

The variant human Gu Immortals had even mobilized nine Gu Immortals and moved out an immemorial desolate beast to suppress the situation, just to handle Fang Yuan, one person.

It was to make sure there was no mishap.

But even in such a foolproof plan, there were many mishaps because of Fang Yuan alone. Finally, he even brought out an immemorial desolate beast, upper extreme heavenly eagle.

If they had known this earlier, how could the variant human Gu Immortals still lay an ambush, and end up in this current awkward situation of not knowing what to do!

Fang Yuan waited for a while, the variant human Gu Immortals did not speak.

He shook his head and gave a helpless smile: "Alright, I have already said this, why are you still not believing me? Could it be that you really want us to fight to the death? Naturally, I won't be the one to die."

"How could we trust you, a human!" A rank seven Gu Immortal said with anger.

Fang Yuan heaved a sigh of relief inwardly, since the other side spoke, that means they had been deceived. He got the opportunity, now it would depend on his performance.

Thereupon, Fang Yuan activated familiar face.

Immortal killer move's aura spread everywhere, the variant human Gu Immortals immediately became vigilant, the dual spear wielding Gu Immortal even retreated far away.

However, what came next shocked the variant human Gu Immortals, as they looked on with wide eyes at Fang Yuan transforming into a hairy man, with no flaws.

"I am a transformation path Gu Immortal, and I inherited a portion of the true inheritance of Ren Wang. I could easily deceive you all by transforming into a hairy man, but why did I not do so?" Fang Yuan spoke in sincere fashion as he spread his arms and turned back to his previous appearance.

The variant human Gu Immortals quietly looked at him.

Fang Yuan continued to bullshit: "I did it as an act of sincerity to you! Since I realized your identities just moments ago, then we can be considered people on the same side. Although I am a human Gu Immortal, I am truly a member of Lang Ya blessed land. Lang Ya blessed land's origin is Long Hair Ancestor. Currently, under Lang Ya land spirit's lead, Lang Ya Sect has been created and I am one of the supreme elders of the sect. If you believe me, then open up the battlefield killer move, and I will send a message to inform the sect of this matter."

The variant human Gu Immortals looked at each other but nobody moved.

Both sides were at a stalemate.

Fang Yuan did not dare to let their minds wander.

After all, heaven's will was influencing them.

To dispel heaven's will's influence, Fang Yuan had to continue to talk and change their minds.

Heaven's will was not fake will, and its influence over variant human Gu Immortals was not high. After all, the intelligence of variant humans was second to only humans. It was because of this that Fang Yuan had hope.

"Alright, I will show my sincerity first." Fang Yuan suddenly sighed, and opened his immortal aperture, placing the upper extreme heavenly eagle inside.

This move shocked all the variant human Gu Immortals.

"Careful. Although the upper extreme heavenly eagle has been placed inside, it can rely on its power to come out of the aperture and make a move at any time."

"Enough, dispel grey cloud battle puppet."

"Leader..."

"Could it be that you still think grey cloud battle puppet can trap him?"

The other variant human Gu Immortals were unable to reply.

From what they saw, the truth was indeed like that.

Amidst the stifling silence, the killer move grey cloud battle puppet was slowly dispelled, Fang Yuan's vision was once again filled with the sight of the bright landscape of Northern Plains.

He strongly endured the impulse of making an immediate getaway, speaking to these variant human Gu Immortals: "Good! Friends are often made after a fight. I will immediately notify Lang Ya Sect, staying here and waiting for the sect to send Gu Immortals."

Fang Yuan's joyful attitude was naturally a disguise.

But with his acting along with attitude Gu, there was no flaw at all.

At least, these variant human Gu Immortals did not notice any flaw.

Adding on that Fang Yuan did not run away, it gave even more proof of the truth of his words.

"Then we shall invite you to make a visit underground as a guest. Here." The other grey clouds had all dispersed, while only a rockman Gu Immortal's physical body was remaining. He was the person controlling grey cloud battle puppet.

"Hahaha, please lead the way." Fang Yuan followed this rockman Gu Immortal into the underground part of this icy plain.

The facts proved that heaven's will's influence towards Gu Immortals was not remarkable. At least, Fang Yuan was able to use words to dispel this influence.

Naturally, it was on the basis of the upper extreme heavenly eagle.

It was because of the existence of the immemorial desolate beast that these variant human Gu Immortals changed their minds.

After all, heaven's will could not destroy these Gu Immortals' rationality, challenging an immemorial desolate beast would be looking for death.

In the depths below the icy plain, there was a scenic and beautiful world of its own.

Fang Yuan was vaguely encircled by several Gu Immortals as they led him, while he looked at the underground scenery absentmindedly.

The variant human Gu Immortals were also in the same situation.

Until Lang Ya Sect sent a group of hairy man Gu Immortals to this place.

Twelfth Hair and Sixth Hair were among them.

Chapter 1143: I Am... Rejoicing!

Northern icy plain, deep underground.

Within a large hall, stone chairs and tables were arranged in a circle, thick vines grew on the walls and grass grew between the cracks of the rocks.

Three bonfires were burning high at the center of the hall.

It is said that this was a tradition passed down from the Olden Antiquity Era. When variant humans attend to esteemed guests, they would set up a banquet and burn three bonfires.

Snowman, rockman and hairy man Gu Immortals, as well as Fang Yuan, were seated inside the hall.

The fire shone on every person's face and their smiles could be seen.

All kinds of fruits were laid in front of everyone, and soon, rockman servants served each person a large bowl of wine.

"This is our rockman tribe's lip fish wine, have a taste!" Shi Zong stood up from his seat and called out while holding the wine bowl.

Shi Zong was this rockman tribe's first supreme elder, he had not joined the battle to kill Fang Yuan.

His whole body shone with many colors from the countless gold, silver and pearl ornaments inlaid on him.

This was the style of rockman tribes.

Rockman bodies were made completely of rocks and in their long period of life, all kinds of gold, silver, iron and steel ores would grow on their bodies. Rockmen took this as a symbol of good looks and honor, the higher the position of the rockman, the more extravagant ornaments they would have on them.

Not only Shi Zong, several other rockman Gu Immortals present on the scene were the same.

Since Shi Zong had invited it, all the immortals held up their wine bowls in response.

Shi Zong and the other immortals took big gulps of the wine, the hairy men did the same, only Fang Yuan took a small sip.

After Shi Zong had finished drinking, he put down the bowl which did not even have a drop of wine remaining.

Cheers broke out.

Other Gu Immortals also imitated him, and drank down all the wine in their bowls.

The immortals laughed, the calm atmosphere became lively.

Only Fang Yuan put down the wine bowl, having only drunken a bit of the lip fish wine.

The snowman and rockman Gu Immortals turned a blind eye to this.

Instead, the dissension rose from within the hairy man Gu Immortals, Sixth Hair criticized Fang Yuan: "Elder Fang Yuan, what are you doing? Don't you know your action is impolite? The host finished the wine, you, as a guest, should also follow and not leave behind any wine in your bowl, this is respect towards the host. Ah, I forgot you are a human and not one of us variant humans, no wonder you don't know this tradition passed down from the Remote Antiquity Era."

Sixth Hair was a spy placed in Lang Ya Sect by Shadow Sect, he took advantage of every chance to cause trouble for Fang Yuan.

Fang Yuan sneered, his gaze scanned around before he spoke leisurely: "How would I not know of this tradition? It is just that this lip fish wine is the saliva left behind by underground rockfish, I don't like drinking it."

"You..." Sixth Hair's expression looked dark, but he was happy inwardly. Fang Yuan's words were no doubt offending the other side, which was what he intended.

In Fang Yuan's letter to Lang Ya Sect to notify the land spirit, he had naturally not mentioned everything, and only explained the matter roughly. Sixth Hair and the others did not know that Fang Yuan had brought out an immemorial upper extreme heavenly eagle in the life and death battle with the snowmen and rockmen, before he could make the other side compromise.

In fact, when Fang Yuan had joined Lang Ya Sect, Lang Ya land spirit had issued a mission to find variant human allies.

Since Fang Yuan had found them, he naturally completed this mission and was sure to receive rewards from Lang Ya Sect.

As a member of Shadow Sect, Sixth Hair did not want to see Fang Yuan obtain benefits and develop. Right now, he spoke up to try and suppress Fang Yuan.

"Haha, since Elder Fang Yuan does not like this wine, then we shall change to another one. Bring out the ice wolf wine from my winery." A snowman Gu Immortal laughed.

Snowmen had snow-white skin, ice blue pupils and aqua blue hair.

This snowman Gu Immortal was robust and strong, his upper body was bare, revealing a dark blue tattoo on his chest. His aqua blue hair was tied up, revealing a firm and dauntless face.

This person's name was Bing Zhuo, he was that dual spear wielding Gu Immortal who had made Fang Yuan struggle bitterly.

Soon, a snowman servant brought the wine.

This was a wine bowl made from ice, the wine inside was almost frozen and released cold air.

"To tell the truth, I myself don't like drinking lip fish wine, so I brewed this wine, how about giving it a taste." Bing Zhuo passionately spoke.

Fang Yuan swept his gaze at the wine and intentionally spoke without proper respect: "Let me taste it then, let's see if it is to my taste or not."

"Please." Bing Zhuo laughed.

Fang Yuan drank a gulp, the first instance this wine entered his mouth, it was icy cold, but when it entered his throat, it became hot like fire. The feeling of ice and fire immediately made Fang Yuan's eyes brighten as he spoke: "Good wine."

"Hahaha." Bing Zhuo laughed loudly, "Since you like it, then please drink some more."

He had just finished speaking, when the immortals saw Fang Yuan lift the whole bowl and drink it down in one gulp.

The immortals were dazed for a moment, before applauding and cheering loudly.

Fang Yuan discreetly glanced at Sixth Hair while laughing internally.

He had already known Sixth Hair's intention.

Sixth Hair would not let any mishaps happen to Fang Yuan. Because after Shadow Sect saves Spectral Soul's main body, their next target would be Fang Yuan. Because of this, Sixth Hair would not harm Fang Yuan's life.

Sixth Hair could only suppress Fang Yuan at most, and delay his growth to make it easier for Shadow Sect in the future.

Sixth Hair had already done this before, making Fang Yuan's relation with Lang Ya Sect turn cold.

However, how could he have ever expected Fang Yuan to have an immemorial upper extreme heavenly eagle and moreover, that he had used it to successfully awe the snowmen and rockmen.

An immemorial level battle strength, these variant human Gu Immortals had no choice but to give respect to it!

This was strength!

In their hearts, no matter how Sixth Hair provoked or smeared, Fang Yuan's importance was much greater than all the hairy man Gu Immortals combined.

In fact, variant humans very strongly revered strength. This was one of the characteristics of variant humans that had passed down since the Immemorial Antiquity Era.

Because be it the era of eating raw flesh and drinking blood, or the period of war between different races, or the era when they were slaughtered by humans, great strength had always brought more space to survive and opportunities to these variant humans.

It was instead the humans who, after becoming the overlord of the five regions and having an unshakable position, stopped having as much reverence for strength as before, it could not compare to these variant humans who were barely surviving at some isolated parts of the world.

Fang Yuan had intentionally made things difficult, and as far as these variant human Gu Immortals were concerned, it was normal.

What expert did not have some attitude?

If Fang Yuan did not display it, they would instead feel uneasy.

Fang Yuan knew the mentality of these variant human Gu Immortals very well, naturally he also had another reason for it, that was to probe their intentions.

Now, Fang Yuan was basically completely confident that he was safe.

"What's going on?" Looking at the variant human Gu Immortals' smiling expressions, Sixth Hair was greatly shocked.

Next, almost all snowman and rockman Gu Immortals approached Fang Yuan, while leaving aside the hairy man Gu Immortals.

“Elder Fang Yuan, here, I will toast you.”

“Elder Fang Yuan sure is a great drinker!”

Fang Yuan did not refuse them, he drank each time.

The hairy man Gu Immortals looked at each other in confusion.

Sixth Hair was extremely bewildered: “What magic bewitchment has Fang Yuan used, he is actually so greatly welcomed?”

If Fang Yuan had turned into a hairy man’s appearance, they maybe it could make sense. But he was in his original form, which was a genuine human.

“Elder Fang Yuan, I, Xue Er, shall pour wine for you.” During the feast, a beautiful female snowman Gu Immortal actually walked over to Fang Yuan and took up the work of a servant, pouring the ice wolf wine for Fang Yuan.

The other hairy man Gu Immortals looked on with wide eyes.

Sixth Hair almost shouted out: “What the hell are you all doing! Are you even variant humans? Fang Yuan is clearly a human Gu Immortal! Human! The humans who had slaughtered and marginalized you variant humans!!”

“Xue Er, you are that snowman who discovered my true body?” Fang Yuan brazenly sized up this female snowman immortal, and asked.

The female snowman lowered her head and gave a coy smile: “I am only good at some investigative methods, Elder Fang Yuan is the true hero.”

Twelfth Hair had been drinking wine, but when he heard these words, he could not help spurting out the wine.

Sixth Hair looked like he was about to fly into a rage, almost cursing at the female Gu Immortal: “What is your intention? Hey hey! Why is your face red? What are you doing by lowering your head and acting shy? Still taking sneaky glances at Fang Yuan, you think I can’t see your expression? Damn it! Are you a snowman or not! Pay attention to your identity!”

“I don’t deserve the title of hero.” Fang Yuan laughed half-heartedly. Even he himself was somewhat surprised. The attitude of these variant human Gu Immortals seemed to have changed a little too much.

Bing Zhuo walked over at this moment while holding his wine bowl: “If Elder Fang Yuan is not a hero, then who can still claim to be a hero?”

Xue Er gave a timely introduction: “This is Brother Bing Zhuo. He is the strongest in our tribe, normally he is cold and extremely prideful. Only when talking with Elder Fang Yuan is he this passionate.”

Fang Yuan stood up and assessed this Gu Immortal: “If I am not wrong, you are the person who dual wielded spears and fought with me for dozens of rounds?”

Bing Zhuo laughed, giving a thumbs up: "Elder Fang Yuan, you have a good eye for detail!"

Fang Yuan did not continue gossiping, and directly chugged down the wine.

Bing Zhuo was overjoyed, and also chugged down his wine.

Cheers rose up once again, while Xue Er clapped from the side: "Heroes attract heroes."

The hairy man Gu Immortals looked on, dumbfounded, no one was paying attention to them. The other side's Gu Immortals were all looking at Fang Yuan.

Sixth Hair almost slammed the table.

Bing Zhuo's attitude was making him feel worse.

He mentally screamed: "What in the world are you guys doing?! Forget about that female Gu Immortal named Xue Er, Fang Yuan's current appearance is quite handsome. What are you, a man, being so excited for! Look at your laughing expression, you look like you want to be sworn brothers with Fang Yuan, what are you thinking? The strongest in your tribe and also a hero? Being this close with a human Gu Immortal, you want to betray your tribe?!"

Bing Zhuo sighed: "Compared to Elder Fang Yuan, how could I be considered a hero? Elder Fang Yuan possesses an immemorial upper extreme heavenly eagle. If Elder Fang Yuan was not on the same side as us, we might have provoked a disaster for our tribes."

"Wha... what? Immemorial upper extreme heavenly eagle!" In an instant, the hairy man Gu Immortals looked at each other in shock.

"Elder Fang Yuan, I didn't hear wrongly, right? You actually have an immemorial upper extreme heavenly eagle?!" Sixth Hair finally could not endure it, he stood up suddenly and stared fixedly at Fang Yuan.

Fang Yuan rubbed his nose, and said with a slightly embarrassed expression: "Not long ago, I allied with Chu Du to get to Hei Fan grotto-heaven and take Hei Fan's true inheritance. This upper extreme heavenly eagle is one of the gains."

"What?!" The hairy man Gu Immortals exclaimed in shock.

Meanwhile, the snowman and rockman Gu Immortals also exchanged looks with each other.

Sixth Hair took a step back unconsciously, staring at Fang Yuan incredulously, and then looking at the other Gu Immortals.

In that instant, he finally realized and understood why these variant human Gu Immortals gave so much importance to Fang Yuan!

Immemorial desolate beast, rank eight battle strength!!

Plop.

Sixth Hair could not bear such a huge impact, his legs gave way and he sat down again on the stone chair.

"I did not have the time to inform all of you. Come, let us Lang Ya Sect members have a drink, this calls for a celebration." Fang Yuan smiled and raised his wine bowl.

The hairy man Gu Immortals reacted, revealing joyous expressions.

"Our Lang Ya Sect also has rank eight battle strength now!"

"Elder Fang Yuan, you are truly unfathomable, simply amazing!"

"Elder Fang Yuan, it was my mistake in the incident earlier, I had eyes but failed to recognize Tian Ti Mountain."

The hairy man Gu Immortals all had looks of 'acceptance'.

This was the prestige of rank eight battle strength!

Sixth Hair also rose his wine bowl with a smile, while inwardly, he was spurting blood from anger.

Fang Yuan glanced at him, smiling: "Elder Sixth Hair, why are your hands trembling?"

Sixth Hair smiled towards him, he indeed was a spy who had lurked for many years, his expression did not show any flaws, it was just his voice that had turned somewhat hoarse: "This is because I am extremely excited for you, Elder Fang Yuan, and for Lang Ya Sect, I am... rejoicing."

Chapter 1144: Refining Gu, Grand Commotion

Snow descended slowly and quietly.

There was no wind.

A series of snowy mountain peaks formed a range.

A couple were snuggling each other near the window, looking outside at the snowy landscape.

There was a warm atmosphere in the room.

The wife was neat and graceful, some white color was already beginning to show in her hair. She leaned on her husband's arm and spoke with nostalgia: "It has been so long since I watched the snowy landscape with you this serenely..."

Her husband already looked old but was in good health, he comfortingly patted his wife's arm with his aged hand, and spoke slowly: "I would like to stay with you always and watch the snowflakes fall quietly. Do you still remember the time we first met?"

His wife chuckled, the joyous memory seemed to be resurfacing in front of her eyes: "That was also a snowy day, you were still hotheaded, wanting to become stronger and stronger."

"I wanted to become stronger, wasn't it for the sake of becoming worthy of you? Back then, you said you would marry me when I cultivate to rank eight. Hehe." The old man laughed, his laughter had some craftiness as well as some pride.

His wife's smile, however, shrank slightly, and her brows furrowed: "To tell the truth, I regret it a little. I would rather your cultivation be slightly lower."

"To be your husband, how could I have lower cultivation level? Rest assured, as long as we refine fortune rivalling heaven Immortal Gu, I have confidence in passing this myriad tribulation, then our future will be boundless as the sea and sky, and I can stay with you forever." As he said this, the old man's sight slowly became sharper, revealing an extraordinarily powerful aura.

His aura went from weak to strong, continuously growing stronger. As time passed, it actually flowed outside, causing the surrounding snowflakes to stop falling, and float in front of him.

His wife slowly moved away from him, quietly looking at the snowy landscape as a firm will emerged in her eyes.

"Let us begin." After a long while, the old man spoke, breaking the silence.

His wife only replied with one word: "Okay."

Old Ancestor Xue Hu and Lady Wan Shou began refining fortune rivalling heaven Immortal Gu!

On this day, gorgeous lights shot out to the sky from Snowy Mountain blessed land, unable to be hidden or concealed!

Northern Plains' Gu Immortal world had yet to recover from the commotion of Hei tribe's annihilation, but now, it fell into upheaval once again.

Old Ancestor Xue Hu had begun refining rank eight fortune rivalling heaven Gu!

This news was like a whirlwind that engulfed the whole Northern Plains Gu Immortal world.

Feng Xian grotto-heaven.

"Such a grand show, as if he is afraid others won't come to wreck his plan. But this is indeed Old Xue Hu's style." Prince Feng Xian chuckled indifferently at the news.

"Lord, if we let Old Ancestor Xue Hu successfully refine the rank eight Immortal Gu, I am afraid he would just get much stronger." Gu Immortal You Lan spoke from beside Prince Feng Xian.

"Even without fortune rivalling heaven Gu, he is still the number one expert of Northern Plains. Our current task is to capture Fang Yuan. We have already obtained news from that side, Heavenly Court has deduced and confirmed Fang Yuan is in Northern Plains!" Prince Feng Xian laughed, his eyes shining with cold light.

His hatred towards Fang Yuan was deep.

The reason?

Because Prince Feng Xian's original task had been to infiltrate Eighty-Eight True Yang Building. But the grand plan was destroyed by Fang Yuan, causing his many years of waiting to go down the drain.

Could he not feel hatred?

Bai Zu grotto-heaven.

“Old Ancestor Xue Hu has been fiddling around for these years, he finally decided to act?” Heavenly Lord Bai Zu mumbled, then shook his head.

After that battle with Old Ancestor Xue Hu, Heavenly Lord Bai Zu was even more aware of the other side’s strength.

“Just I alone am absolutely not Old Ancestor Xue Hu’s opponent. Also, wrecking his refinement plan would mean I will be an irreconcilable enemy of him. But I have now established Bai Zu tribe, this is the result of many years of planning and arduous work, I cannot make a move lightly.”

“Unless Yao Huang and some other people want to make a move... before they show any signs, I should concentrate on invading that Hei Fan grotto-heaven instead.”

Yao Huang grotto-heaven.

A large cauldron was floating in front of Yao Huang.

It was made from cauldron strength Immortal Gu.

Inside the cauldron were countless immortal materials, the blazing fire below it was constantly melting these immortal materials into liquid and fusing them.

When he heard the news of Old Ancestor Xue Hu’s Gu refinement, the fire heating the cauldron trembled.

Yao Huang sighed and mumbled to himself: “Fighting with Old Xue Hu is not wise. Instead, I just need to concentrate on refining this resurrection from the dead Immortal Gu, and I will also possess a rank eight Immortal Gu, and solve the issue of lifespan.”

Longevity Heaven.

“Look at those lights soaring to the sky, hmph! Old Ancestor Xue Hu has really started refining fortune rivalling heaven Gu!”

“Even if he is a rank eight Gu Immortal, he is too audacious, to dare to covet Giant Sun Immortal Venerable’s Immortal Gu!!”

Longevity Heaven was Giant Sun Immortal Venerable’s grotto-heaven, the Gu Immortals who lived inside were descendants of Giant Sun Immortal Venerable with the closest bloodline connection to him.

They naturally did not want to see fortune rivalling heaven Gu falling into an outsider’s hands.

However!

They were unable to make a move.

Because of one person — Five Elements Grandmaster!

...

“Elder Fang Yuan, please come in, this is our tribe’s sacred land — Earth Mother Altar!” Shi Shi Cheng respectfully guided Fang Yuan.

This rockman Gu Immortal was only rank six, but he controlled the immortal battlefield killer move, grey cloud battle puppet, he was clearly a character representing the next generation of the rockmen.

Following with him was also the rank six female Gu Immortal from the snowman tribe, Xue Er.

Right now, some days had already passed since the banquet.

The allied tribes of snowmen and rockmen living here treated Fang Yuan and the hairy man Gu Immortals with utmost cordiality.

According to Lang Ya land spirit's arrangement, Sixth Hair and the others were responsible for negotiating about cooperation and alliance between both sides. As for Fang Yuan, he was accompanied to tour around and view the scenery, becoming familiar with the lifestyle of these variant humans.

Over these last few days, Fang Yuan had deep insight.

These snowmen and rockmen were living in hiding below the northern icy plain, but they were filled with awareness of crisis and were extremely strict in the upbringing of their later generations, almost to the point of cruelty.

This led to generations after generations of powerful variant human Gu Immortals.

Compared to them, Hei Fan grotto-heaven's Gu Immortals formed an extremely clear contrast.

"Elder Fang Yuan, didn't you ask me yesterday why there is such earth and soil below the northern icy plain? You will know once you enter." Xue Er giggled.

"Okay." Fang Yuan nodded, being somewhat curious.

When he entered Earth Mother Altar and saw two statues enshrined at the center, he was left staring.

"This is..."

He was shocked.

Because he saw a female human immortal hugging a rockman Gu Immortal's arm. The two were looking into the distance with blissful expressions, looking like they had lived a charmed life together.

"This is the twenty-seventh first supreme elder of my tribe, Shi Mu, the one beside him is his wife, my tribe's most respected Lady Earth Mother. Of course, as you can see, Lady Earth Mother is a human Gu Immortal." Shi Shi Cheng introduced.

This was somewhat unthinkable.

A female human immortal actually fell in love with a rockman Gu Immortal, and was enshrined and respected by the later generations of rockmen to this degree.

Xue Er continued: "Lady Earth Mother was kind and benevolent, her love transcends race. She was deeply saddened that the rockman tribe did not have land for survival, and not long after Lord Shi Mu passed away, she also died of her own accord to be with her love. For the sake of the later generations, her dao marks and blessed land turned into this underground land, allowing rockmen to have a foundation for survival."

Fang Yuan firmly stared at this couple's statues.

His mind was surging frantically.

Because this Earth Mother, whom the rockmen and snowmen respected and revered, he actually knew her!

Naturally, he and Earth Mother were not people of the same time period, there would normally not have been any link between them. The reason why Fang Yuan could recognize Earth Mother's identity was because he had soul searched Hei Cheng.

Because Earth Mother was the missing Hei Feng Yue of Hei tribe, Old Ancestor Hei Fan's most beloved granddaughter!

"Who could have expected that Hei Feng Yue disappeared as a result of hiding her own identity. She fell in love with a rockman Gu Immortal, this definitely would not have been accepted by the tribe, and even more so, would not have been accepted by the human Gu Immortals in Northern Plains."

"As for why she fell in love and stayed with a rockman Gu Immortal, there definitely must have been a hidden story."

Fang Yuan was expressionless, but was inwardly sighing.

No matter what the truth of the past was, he had no intention to excavate it.

Every person had their own life to lead, their own loved and hated enemies. Right?

Xue Er had been secretly observing Fang Yuan, and seeing Fang Yuan having no expression of disgust or anger, her whole heart felt joyous.

She then looked at the statues of Shi Mu and Earth Mother dazedly, speaking with certain intent: "I won't hide it from Elder Fang Yuan, from my perspective, love has no boundaries! Whether it be rockmen or humans, both have the possibility of existing together and the right to love each other!"

Fang Yuan went absent-minded.

A beautiful white figure flashed across his eyes.

But it disappeared shortly afterwards.

"The five hundred years of my first life..." His gaze turned deep and serene.

He slightly realized now.

Why this group of snowmen and rockmen accepted him so easily after knowing Fang Yuan was on the same side.

From a certain aspect, Fang Yuan could also be considered to have received Earth Mother's help.

"Actually, we were compelled by the situation to fight with Elder Fang Yuan. Elder Fang Yuan must also be clear on how the northern icy plain was formed. This was previously a pure icy land, only with Lady Earth Mother's profound methods, did this area start gathering earth qi and form this soil."

Shi Shi Cheng earnestly continued: "However, when a Gu Immortal faces their tribulation in the northern icy plain, it would draw in and consume heaven and earth qi. Every time the earth qi is weakened, the northern icy plain will get more unstable, and the land we can live on will decrease by a portion in area."

Fang Yuan nodded, he already knew of this reason during the banquet, now his understanding had become even deeper.

"This is my fault. If I had known this before, I would not have undergone my calamity in the northern icy plain!" Fang Yuan earnestly spoke.

Shi Shi Cheng and Xue Er's face brightened.

"If misunderstandings can be solved, that is for the best." Shi Shi Cheng spoke.

Right at this time, Shi Shi Cheng's expression changed, shortly afterwards Xue Er's expression also changed.

"What's wrong?" Fang Yuan quickly asked.

"Lights are soaring to the sky from Snowy Mountain blessed land, our information claims that Old Ancestor Xue Hu has begun refining fortune rivalling heaven Gu." Shi Shi Cheng spoke in a heavy tone.

Any human growing stronger was grievous news to variant humans.

Xue Er's eyes shifted to Fang Yuan: "Elder Fang Yuan, you used Spring Autumn Cicada to rebirth and are an otherworldly demon, you even destroyed Eighty-Eight True Yang Building by your own hands. I would like to ask if Old Ancestor Xue Hu succeeds in refining fortune rivalling heaven Gu in the future?"

Chapter 1145: Rank Eight Determines The Situation

A number of days had passed since the hairy man Gu Immortals from Lang Ya Sect came in touch and started discussing with this group of snowmen and rockmen.

The more they talked, the more they found common topics between each other.

This was decided by the external factors.

Human forces were incomparably big, while the variant human tribes could only barely survive in isolated parts of the world, like this place. They were naturally inclined towards allying.

Although Sixth Hair was a spy inserted by Shadow Sect into Lang Ya Sect, he did not oppose the alliance of the two sides, instead even working hard for it.

On one hand, Sixth Hair knew very well that just by himself, he could not make the two sides turn hostile to each other.

On another hand, Sixth Hair also took this chance to show his skills and obtain more contribution points, letting Lang Ya land spirit put more trust in him and increasing his status.

Finally, Shadow Sect's goal was Spectral Soul's goal. Although the Demon Venerable had died, his aspirations were already beyond the boundaries of race.

Both sides discussed, each understanding more about the other. Sixth Hair even sold almost all the intel about Fang Yuan to get more trust from the other side.

Thus, snowmen and rockmen knew how special Fang Yuan's status was.

Fang Yuan once possessed Spring Autumn Cicada and was a person who had been reborn.

He was also an otherworldly demon who came from a foreign world.

He was also the main culprit for the destruction of Eighty-Eight True Yang Building and Imperial Court blessed land.

It was worth mentioning that the last point made the variant human Gu Immortals feel even closer to Fang Yuan.

Fang Yuan destroyed Eighty-Eight True Yang Building, greatly weakening the human forces of Northern Plains, which was an extremely good thing to variant human forces. They were so joyous that, in the past, when they heard about Eighty-Eight True Yang Building's destruction, this allied group of snowmen and rockmen even had a banquet for three days and three nights.

Inside Earth Mother Altar, hearing Xue Er ask about the future, Fang Yuan replied with a bitter smile, having already prepared beforehand: "Although I had Spring Autumn Cicada, I have already lost this mystical Gu. After I was reborn, there have been many changes in the world. You also know that I made Eighty-Eight True Yang Building collapse, right?"

"Yes, Elder Fang Yuan, you are truly amazing." Xue Er said with bright eyes.

"I also feel extreme admiration towards you about this." Shi Shi Cheng also added.

Fang Yuan rubbed his nose and sighed: "I am a person who had been reborn, and knew some secrets. Although I am not of the Huang Jin bloodline, I participated in the fight for Imperial Court to get some benefits from Eighty-Eight True Yang Building. My original plan was to visit time after time to get unending benefits. But plans can't keep up with changes, some accidents happened and I could only adapt to the circumstances, finally causing the collapse of Eighty-Eight True Yang Building!"

Xue Er and Shi Shi Cheng revealed joyous smiles.

Shi Shi Cheng said: "Elder Fang Yuan's words make sense."

Fang Yuan shook his head in helpless fashion: "Who wants to be chased by all the Gu Immortals in the world? That was truly an accident."

Xue Er smiled: "From what I see, Elder Fang Yuan, you are a natural hero, although you destroyed Eighty-Eight True Yang Building accidentally, if it were someone else, would they be able to do it?"

"It is because of this I had no choice but to hide in Lang Ya blessed land, later on, things happened and I joined Lang Ya Sect. While living over there, I slowly discovered that the traits of variant humans were actually not weaker than humans. Their sincerity, trust and loyalty and so on far surpass the humans

who always try to deceive each other. Although the five regions are vast, the survival space of variant humans is shrinking by the day, this is not right. Heaven's will permits all living beings to exist, variant humans and humans should indeed co-exist."

Fang Yuan's face did not show shame in the slightest when he said this.

He even brought up heaven's will, which was trying every way possible to eradicate him.

Fang Yuan had a sincere expression, so vivid that it could not be more realistic, Xue Er's eyes even reddened from hearing these words.

Shi Shi Cheng was extremely moved: "If other human Gu Immortals were all as understanding and knowledgeable as Lord Fang Yuan, the world would be much better!"

In his words, he had already raised Fang Yuan from elder to lord, even speaking to him respectfully.

Indeed, Fang Yuan's words were extremely politically correct as far as variant humans were concerned, inciting resonance and approval with their minds.

"But Elder Fang Yuan, you have yet to answer my question." Xue Er was intelligent and not easy to deceive.

"I was just getting there." Fang Yuan coughed, "Eighty-Eight True Yang Building's destruction was not my intention. In fact, before I had reborn, it had never fallen!"

"Ah? Is that so." Xue Er and Shi Shi Cheng looked at each other.

"Northern Plains' situation has changed too much because of me. Eighty-Eight True Yang Building was destroyed, Ma Hong Yun was kidnapped and his possession of fortune rivalling heaven Gu was exposed so quickly, with him being bought by Old Ancestor Xue Hu. Before I was reborn, there was simply no event of Old Ancestor Xue Hu trying to refine fortune rivalling heaven Gu." Fang Yuan added.

These words were all true.

Xue Er and Shi Shi Cheng both chose to believe them.

The former slightly pursed her lips: "Then doesn't it mean it is difficult to deduce the result? If we really let Old Ancestor Xue Hu refine fortune rivalling heaven Gu, the strength of Northern Plains' human Gu Immortals will rise by another level."

Fang Yuan's thoughts turned, questioning: "Could it be that you want to stop it?"

He had no choice but to admit this allied group of snowmen and rockmen had the power to interfere in this matter.

Because they had an immemorial rock dragon, this was a genuine rank eight battle strength.

Moreover, it was an existence which was very hard to deal with among rank eight battle strengths.

The immemorial rock dragon's might was recorded and emphasized heavily in the historical records.

"Of course not!" Shi Shi Cheng shook his head, "We absolutely cannot interfere in this."

“Yes. We have been living peacefully here, why would we expose ourselves and go offend a rank eight expert? Moreover this rank eight expert controls Snowy Mountain blessed land, with large numbers of demonic path experts under him.” Xue Er also shook her head.

They were very aware of the situation.

Even if they seized fortune rivalling heaven Gu for their own use, they would be exposing themselves, attracting the joint pursuit of the whole of Northern Plains’ Gu Immortal world.

All the human forces would come rushing over, at that time, forget fortune rivalling heaven Gu, even if there were several more immemorial rock dragons, they would be unable to stop the humans.

Fang Yuan nodded and did not say anything, while inwardly pondering.

“These variant humans are indeed not ordinary, I have seen all the variant human Gu Immortals over these days, each of them is an elite. Whether it be their battle strength or foresight, they are outstanding in both. Even among the Northern Plains’ human Gu Immortal circle, they would be excellent. When compared to them, Hei Fan grotto-heaven’s Gu Immortals would be way behind. Fortunately, I had rank eight battle strength with me!”

So what if he was an otherworldly demon?

So what if he had Spring Autumn Cicada and was a reborn person?

These statuses and mysteries, when they were stacked on his rank eight battle strength as foundation, they become a part of a glorious halo, and not a source of trouble.

When one had great strength, who would dare to find trouble?

Rank eight battle strength!

With just a flick of their finger, they could crush others like ants.

This was the reason the snowmen and rockmen not only did not dare to find trouble with Fang Yuan, they also expressed cordial stances and attempted to rope him in.

Anyone of rank eight battle strength was of sufficient value for others to rope in.

In the absence of rank nine, rank eights were the overlords. This was already among the peak battle strength in the world.

“In fact, the whole of Northern Plains’ situation and structure is a result of rank eight Gu Immortals conflicting with each other. The politics of a world having individuals with great strength is always dictated by the strongest people!”

Fang Yuan was well aware of this.

“But if they know my upper extreme heavenly eagle is already dead, I wonder what kind of expressions these people will have?” Fang Yuan found it somewhat funny as he thought of this.

He forcibly sped up the growth of the upper extreme heavenly eagle, using time path killer moves, but with insufficient heavenly crystals, it was on the verge of dying from hunger.

He then used blood path methods to raise its vitality when he let it out, and successfully shook the variant human immortals. Relying on his bluffs and deception, he was able to survive, and change the situation.

However, the upper extreme heavenly eagle was like the last radiance of the setting sun. After Fang Yuan placed it in his immortal aperture, it died at almost the very next moment.

An immemorial desolate beast dying of hunger, this life of the upper extreme heavenly eagle was indeed somewhat depressing.

But!

That might not be the case in its next life.

The upper extreme heavenly eagle's amazing trait was that it would produce an egg after its death. When the egg hatches, it would once again be reborn.

It was true that Fang Yuan lost the immemorial desolate beast upper extreme heavenly eagle, but similarly, he obtained an upper extreme heavenly eagle's egg, and also the immemorial desolate beast's giant corpse.

He could completely accept this result!

Because first of all, Fang Yuan was not satisfied with this upper extreme heavenly eagle. He had to disguise as a person of Hei tribe's bloodline to command it.

Secondly, many flaws appeared after the upper extreme heavenly eagle was forcefully grown. With rank eight battle strength, how could such a grand being let Fang Yuan, a rank six Gu Immortal, control it? Let alone when the upper extreme heavenly eagle was an extremely prideful beast. It was certain that the upper extreme heavenly eagle would not listen when it was forcefully grown into being of rank eight battle strength, there was even a huge possibility of it rebelling and turning against Fang Yuan because of its strong pride in itself.

As a result, the upper extreme heavenly eagle dying was not bad news to Fang Yuan.

As for the new egg, Fang Yuan could rely on the contents of Hei Fan's true inheritance to change it, tampering with its memories and so on, such that when it hatches, it would directly obey Fang Yuan.

Old Ancestor Xue Hu was openly refining fortune rivalling heaven Gu, the refinement path Gu formation's light even shot up to the heavens, shining brightly for seven days and seven nights before it gradually dissipated.

This matter caused strong turbulence in the whole of Northern Plains' Gu Immortal world.

However.

After the shock, the Gu Immortal world of Northern Plains strangely quietened down.

This was because Heavenly Lord Bai Zu, Yao Huang, Five Elements Grandmaster and Prince Feng Xian had not responded yet. Without these rank eight Gu Immortals speaking up, even if the other rank six and rank sevens clamored, it would be of no use.

Being able to battle a rank eight existence with rank seven cultivation, within the last few thousand years of the five regions, only Feng Jiu Ge could do it.

Old Ancestor Xue Hu did matters rampantly and tyrannically, but one had to say he not only had brawn but also brains, picking up such an extremely opportune time.

This group of variant humans under the northern icy plain also chose to watch by the sidelines.

As for Fang Yuan himself, he similarly had no thoughts of participating in this matter.

This matter was too big, it concerned the rank eight great expert Old Ancestor Xue Hu, although Fang Yuan currently was stronger than before, if he interfered in this matter, he would easily be turned into mush.

Chapter 1146: Four Races Alliance

Three days went by.

Underground of the icy plain, Earth Mother Altar.

Four incense sticks were lit and the smoke coiled up to the air, Gu Immortals were standing by a side with solemn expressions, the four camps clearly differentiated.

Fang Yuan was also among them, the people beside him were Lang Ya Sect's hairy man Gu Immortals.

A melodious bugle call resounded, and then the drums roared.

Shi Zong took a large step ahead during the drum sounds, speaking in a loud voice: "I, Gu Immortal Shi Zong of the rockman tribe, am willing to join the four races alliance. From today onwards, the four races shall be united, we shall share fortune and woe together."

He then activated his immortal essence, causing some changes in the Earth Mother Altar.

The smoke that was curling up in the air surged towards Shi Zong, and after coiling around for a dozen breaths, they completely merged into Shi Zong's body.

"Adding on information path dao marks! It seems to be an ancient method..." Fang Yuan inwardly pondered.

Originally, the hairy men were discussing about an alliance with the allied group of snowman and rockman tribes.

But the matter went unexpectedly smoothly, as both sides were increasingly in agreement with the alliance. The hairy men's side even took the initiative to mention bringing Inkman City in too.

After the allied group of snowmen and rockmen understood the details, they agreed to it.

Long Hair Ancestor and Immortal Yi Yan were publicly known to be bosom friends in history. Long Hair Ancestor left Lang Ya blessed land behind while Immortal Yi Yan founded Inkman City. The inkmen and hairy men from these places thus always had close relations.

Since the hairy men's side vouched for the inkmen, the allied rockmen and snowmen tribes also chose to believe them.

As a result, the discussion between the three sides became one involving four variant human races.

Finally, the three sides reached a consensus and were willing to form an alliance, sharing hardships together and assisting each other from now on.

The current scene was a result of that.

The three sides used an ancient information path method to officially form an alliance.

Gu Immortals took turns to go forward and accept the effect of the information path dao marks. As such, they became members of the four races alliance.

Time passed, Fang Yuan gradually understood some of the mechanics.

“This does not seem to be an orthodox information path method, but instead earth path is used to get the effect of information path. Just like my time path immortal killer move — Hundred Years Harmony.”

Fang Yuan’s heart sank as he thought of this.

It was going to be troublesome if he wanted to break this alliance agreement in the future. Because it did not seem likely that he could resolve it using information path. Most probably, it needed to be resolved with earth path methods.

“Elder Fang Yuan, it’s your turn.” At this time, Twelfth Hair reminded softly from the side in a warm tone.

Speaking of which, ever since the matter of the falling star hound was resolved and the news of Fang Yuan obtaining an immemorial upper extreme heavenly eagle was known, the hairy man Gu Immortals’ attitudes towards Fang Yuan had a complete change, becoming reverential, forming a stark contrast from before.

Fang Yuan nodded and walked to the front without hesitation, and just like what the rockman Gu Immortal Shi Zong did, he allowed the incense smoke to imprint on his body.

His every action was being observed by the immortals present on the scene.

Seeing that he had truly joined the alliance, the group of immortals slightly relaxed, letting go of another layer of worry. The smile on Xue Er became even more lovely.

Little could they imagine that Fang Yuan was already thinking of how to break the restrictions of the alliance agreement.

He naturally could not follow along with the aims and mindsets of these variant humans.

Even entering Lang Ya Sect was to make it more convenient to use Lang Ya blessed land’s strength.

Similarly, joining this four races alliance was because Fang Yuan was forced by the situation and also because it would be easier for him to borrow the strength of the alliance to help in his cultivation.

“To truly have me be of the same faction as variant humans and resist humans, that is impossible!”

“Humans have absolute dominance, even if these four variant human tribes have allied, what can they do?”

“However, this strength also cannot be underestimated. In my first life, did these four groups really ally?”

Fang Yuan’s thoughts had started to drift as he pondered.

He did not know the answer to this question.

In his first life, he had been a rank six blood path Gu Immortal. In matters regarding the Northern Plains Gu Immortal world, he did not have enough understanding. Especially these kinds of behind the scenes details, even Northern Plains’ Gu Immortals might not be aware.

“But I do know there had been no news of these snowman and rockman tribes in my first life, maybe they were annihilated or maybe they were still living, hiding from the world. Lang Ya blessed land had also not established a sect, and was finally destroyed by Heavenly Court. On the contrary, the inkman tribe did surprisingly well.”

As he thought of this, Fang Yuan sneaked a glance at Mo Tan Sang.

This person only had rank six cultivation and cultivated qi path. Qi path had much longer history than strength path, but was similarly a declining Gu cultivation path.

Mo Tan Sang had a middle-aged appearance, he had black skin and thick white hair. He appeared quite dignified when he did not smile, and when he smiled, he gave people a feeling of great closeness.

“This person is also a formidable character.” Fang Yuan inwardly appraised.

He remembered that in the five regions chaotic war, this Mo Tan Sang took advantage of the lack of attention paid to him due to the human tribes being too busy in their internal conflicts, to develop rapidly, greatly expanding the inkman forces.

When the Northern Plains human forces wanted to suppress him, he actually disregarded his dignity as the king and threw himself to Liu tribe. He took a servant’s rite to Liu tribe’s supreme elder and became a servant to him.

Liu tribe was one of the super forces, thus the inkman forces were protected. The inkman forces grew stably under this layer of protection.

Later, when Liu tribe weakened, the Inkman King immediately gave up on Liu tribe to collaborate with Ma Hong Yun on equal terms.

Before Fang Yuan self-detonated, the inkmen had hundreds of cities and occupied one-third of northern plains’ lands. If Fang Yuan were to talk of such a scale and force, no one would believe him.

In this four races alliance, the inkman tribe was undoubtedly the weakest.

But in Fang Yuan’s first life, it was the inkmen who were thriving.

Mo Tan Sang knew when to advance and when to yield, he was a spiritual figure representing the rise of the inkman tribe. At the same time, it was also because of the external environment. In the five regions chaotic war, all order collapsed, opportunities and risks were everywhere.

As if sensing Fang Yuan's gaze, Mo Tan Sang turned back to look at Fang Yuan, immediately smiling, expressing sincerity and kindness.

This kindness was so deep and clear that when he smiled, he was almost bowing, even giving the feeling of some flattery.

Fang Yuan snorted inwardly, while returning the smile on the surface.

Mo Tan Sang's expression changed slightly, showing a feeling of excitement at being recognized by an important person.

If it were others, they would have probably felt a sense of superiority and smugness at this moment.

"Truly formidable." Fang Yuan's own acting skills were beyond ordinary, but this Mo Tan Sang before him was on par with him.

"The world is big, experts and talents emerge every generation, I absolutely cannot look down on these champions." Fang Yuan inwardly reminded himself, his mind remaining cool without any fluctuations.

Northern Plains' situation could be described as going through one wave after another.

The storm of Hei tribe's collapse and takeover by Bai Zu tribe had yet to settle down. Old Ancestor Xue Hu began refining fortune rivalling heaven Gu, attracting the gazes of the whole of Northern Plains' Gu Immortal world.

And behind their backs, at an unknown, secluded area, four variant human races – hairy men, snowmen, rockmen and inkmen – had quietly formed an alliance.

Although variant humans were absolutely in a weaker position, this alliance could not be looked down upon. Because it possessed a rank eight battle strength immemorial rock dragon. Of course, in the minds of the other alliance members, there was also Fang Yuan's upper extreme heavenly eagle.

Fang Yuan was forced to join them.

But what made him feel slightly at ease was there were no wisdom path Gu Immortal among these four tribes.

After the alliance was formed, Fang Yuan's loss was obvious.

That was, from now on, he could not undergo tribulation in the northern icy plain.

This no doubt would influence Fang Yuan greatly.

But he had no choice.

Undergoing tribulation here meant consuming earth qi, which was the greatest damage to the rockmen's home. This was the reason why these rockmen and snowmen did not stint on cost to set up the battlefield killer move, grey cloud battle puppet, to kill Fang Yuan.

But besides loss, Fang Yuan also had gains.

He cleared the way for trading with the rockman and snowman tribes, letting his monthly earnings reach a new level.

Leaving aside the snowmen, the main point were the rockmen, their desire towards guts Gu was higher than humans!

The reason?

It was obvious, when one considered the time Fang Yuan used guts Gu to increase the population of rockmen in Hu Immortal blessed land.

Guts Gu was the best way to grow and develop rockman tribes.

Besides this, Fang Yuan also sold some resources he obtained from Hei Fan grotto-heaven to the rockmen, snowmen and inkmen, making great profits, causing Sixth Hair to worry and rage on the inside.

“Fang Yuan’s gains are so huge! What should I do? How can we restrain him in the future?!”

It was time to bid farewell!

“Elder Fang Yuan, you really need to leave so soon? You could stay for another day or two.” Xue Er attempted to persuade Fang Yuan to stay.

Fang Yuan shook his head, saying with a warm smile: “We have formed an alliance, this matter is too important, I need to personally return to report to Lang Ya land spirit. You can rest assured, I will be back. We can be considered to be friends made from fighting and I feel quite fond of this place.”

Fang Yuan was interested in the snowman Gu Immortals’ ice and snow path Immortal Gu, as well as their killer moves.

These two were very suitable for him.

After all, in terms of dao marks, the highest quantity in his body were currently ice and snow path dao marks.

As per the relation between him and the snowman tribe currently, along with rank eight battle strength publicly, he could exchange Immortal Gu. But Fang Yuan did not plan to give up any of his Immortal Gu, he had a better plan.

For instance, some day in the future, when a certain variant human Gu Immortal cannot pass their tribulation and required his time path immortal killer move to slow the time in their immortal aperture.

At that time, Fang Yuan could take the chance to demand Immortal Gu.

In the past, Hei Fan did this many times and obtained a sizable number of Immortal Gu.

Xue Er naturally did not know this handsome young man in front of her was harboring evil intent with his mind full of schemes. She lowered her head as she saw Fang Yuan was intent on leaving, revealing hesitation and a struggling expression.

But soon, her eyes revealed firm intent as she raised her head and handed an item in her hand to Fang Yuan.

“Elder Fang Yuan, take this as my farewell gift to you.” Xue Er tried to keep a calm exterior as she spoke, but her voice was still shaking.

Fang Yuan glanced at the item, it was an ice tear drop!

Chapter 1147: Making Chu Du Change Sides?

Ice tears were not an immortal material but was still precious, widely loved by both Gu Masters and Gu Immortals.

Ice tears originated from snowmen.

Snowmen survived in icy environments. Snowmen normally did not cry or laugh, so their tears were very rare. The majority of the snowmen would never experience crying from joy or pain in their lives. But if they shed tears, the tears would immediately condense into ice tears.

Snowmen could shed tears at most three times in their lives and the number would not surpass sixty drops. Every time they shed tears, the snowman’s lifespan and life essence would decrease by a huge amount. If the snowman shed too many tears, they would rapidly age, quickening their death.

So ice tears were rare as well.

Transactions of ice tears had always been flourishing in treasure yellow heaven. Long ago, Xue Song Zi had particularly engaged in selling snowmen, supplying them to other Gu Immortals to torment and get the ice tears.

As far as human Gu Immortals were concerned, ice tears were a precious Gu refinement material.

But to snowmen, ice tears had another significant meaning.

That was — a token of love!

That’s right!

Snowmen, this race had male and female genders, unlike rockmen who were purely male.

During the marriage of snowmen, they would often exchange ice tears. This action had extremely huge meaning to snowmen.

“This is an ice tear.” Fang Yuan’s eyes brightened, holding it in front of his eyes and making detailed observation.

“Don’t, don’t look at it like that, quickly place it down...” Xue Er’s voice was soft and anxious. There were many people present, holding the ice tear like that in public was sure to be noticed!

Sure enough, the next moment, Xue Er heard those Gu Immortals’ surprised sounds.

Xue Er quickly lowered her head, her face flushing red with shyness.

She handed the ice tear to Fang Yuan, which was as good as expressing her love. Although she had mustered her courage before, now that so many people were looking at her, she was truly, truly embarrassed!

“Speaking of it, I have heard of this strange Gu material long ago. I have now finally seen it personally. Thank you Xue Er, this gift is pretty good. Maybe I should refine it into some Gu worm?” Fang Yuan cheerfully spoke.

Xue Er’s body visibly shook.

Fang Yuan turned a blind eye to it, continuing: “But a drop of ice tear is still too little, it would be good if there were some more. Why are there no transactions of ice tears? It is truly regretful.”

As Xue Er listened, the shy redness in her face had already dissipated, replaced by pale white. Her head was lowered even more, her sight turning blurry as tears started to form in them.

“This, this fool!” Bing Zhuo could not see it continue, as he inwardly cursed and walked over.

The other variant human Gu Immortals were tongue-tied, not knowing what to say.

Xue Er suddenly raised her head, her back facing Fang Yuan as she called out to Bing Zhuo: “Brother Bing Zhuo!”

Bing Zhuo gritted his teeth, an intense pity rose up in his heart as he saw Xue Er’s pale white expression. He knew Xue Er was shy, it had already taken a lot of her courage to hand over the ice tear just now, maybe she had also felt an impulsive urge in her mind. Fang Yuan did not know the meaning of the ice tear, if he criticized Fang Yuan now in front of everyone, would it not put Xue Er in an even more embarrassing situation?

Thinking of this, Bing Zhuo could only swallow the words that were in his mouth, saying something else: “Elder Fang Yuan, I had many gains from battling you. Next time, we should spar properly again!”

When he mentioned sparring, he intentionally made his voice heavier, along with some gnashing noise.

Xue Er was young and beautiful, her talent was outstanding and her cultivation was high, she had all along been receiving the attention and favor of the tribe. It was just that there was no man in the same generation worthy of her.

This time, she felt feelings for Fang Yuan, although he was a human Gu Immortal, the snowman Gu Immortals felt they could accept him.

Rockmen had their Earth Mother, could our snowmen not have a Snow Father?

If Xue Er could marry Fang Yuan, the snowman tribe would possess the backing of an immemorial desolate beast.

But who could have thought Fang Yuan to not be aware of the tradition of these variant humans, treating the ice tear as a common Gu material, making the whole situation awkward. Even Xue Er was put on the spot.

Fang Yuan smiled and patted Bing Zhuo's shoulder: "Alright, I promise you if there is an opportunity in the future, we will spar again. Okay, everyone, I am taking my leave. No need to send me off, we shall meet again in the future. Hahaha."

Fang Yuan laughed heartily and walked away. Adorned in a white robe with long black hair, he looked handsome and extremely carefree.

Xue Er's gaze even turned somewhat dazed.

Bing Zhuo, however, gnashed his teeth, wanting nothing more than to chop this kid Fang Yuan into pieces.

"This can't do! When he has gone far enough, I need to send him a letter, telling him the meaning of the ice tear properly!"

The journey back to Lang Ya blessed land was smooth and without any obstacles.

Seeing Lang Ya land spirit again, the attitude of the first supreme elder of Lang Ya Sect towards Fang Yuan had underwent a huge change.

"You truly inherited Hei Fan's true inheritance? You possess methods to slow the time of an immortal aperture? Also, you actually have an immemorial upper extreme heavenly eagle, quickly take it out!" Lang Ya land spirit excitedly asked.

Fang Yuan shook his head bitterly, and took out the corpse of the upper extreme heavenly eagle.

Lang Ya land spirit was stunned on the spot.

Fang Yuan informed Lang Ya land spirit of the whole event.

"A grand immemorial desolate beast was actually starved to death by you?! You... but fortunately, you still have the egg, that's good, that's good, the upper extreme heavenly eagle's special point is this."

Lang Ya land spirit came back to his senses, and looked at Fang Yuan with a burning gaze: "Sell this upper extreme heavenly eagle's egg to me, we can make a deal!"

Fang Yuan laughed: "I can sell this egg!"

Lang Ya land spirit was joyous.

Fang Yuan continued: "But I am afraid you don't have any heavenly crystals to raise it. Even treasure yellow heaven has very few transactions of heavenly crystals."

"Naturally. Heavenly crystals can only be produced in grotto-heavens or the immemorial nine heavens. This is a very precious and rare rank eight immortal material! Right now, only black heaven and white heaven remain from the immemorial nine heavens while the number of rank eight Gu Immortals have always been few. Moreover, among these rank eight Gu Immortals, some are unable to produce heavenly crystals."

As he spoke until here, Lang Ya land spirit shifted his words: "But you don't have to worry about this. My Lang Ya blessed land was once Lang Ya grotto-heaven, it had once produced heavenly crystals, besides

this, in the past, my main body had also hoarded a large batch of heavenly crystals from the immemorial nine heavens.”

“Ah, since that is the case, I can rest at ease. I will sell it to you.” Fang Yuan nodded.

Lang Ya land spirit laughed heartily: “Fang Yuan, since you are one of us, I absolutely won’t let you suffer a loss. Luck path true inheritance, Thieving Heaven true inheritance or Long Hair true inheritance, choose as you please.”

Fang Yuan’s tone sank: “What? I am not too interested in these things. Moreover, isn’t this price somewhat low to exchange for a rank eight battle strength?”

Lang Ya land spirit’s smile stiffened, he thought for a bit and nodded: “It is indeed so. Then... how about exchanging with my Luo Po Valley?”

Dang Hun Mountain and Luo Po Valley were secluded domains of heaven and earth, unique in the whole world. But compared to rank eight battle strength, Lang Ya land spirit would not hesitate to give up on the former and choose the latter!

“Price is too low, not selling, not selling.” Fang Yuan refused.

Lang Ya land spirit scratched his head: “How about this, I am willing to give up Heavenly Essence Treasure Imperial Lotus as well as the incomplete Immortal Gu House Refinement Cauldron in exchange for your upper extreme heavenly eagle!”

Fang Yuan’s heart jumped but he still shook his head: “It is still not enough, not selling.”

Lang Ya land spirit was furious: “Then give me a price, how much will you sell it for?”

Fang Yuan smiled, emphasizing: “This is of rank eight battle strength!”

Lang Ya land spirit naturally was not foolish, as he retorted: “It is indeed of rank eight battle strength, but it needs to be fed. Do you have heavenly crystals? Also, even if you raise the upper extreme heavenly eagle, will it listen to you? To tell you the truth, you were really lucky this time, starving the upper extreme heavenly eagle to death. If not for this, according to my understanding, this upper extreme heavenly eagle only needs to have some strength left to directly crush you, an ant who tried to enslave it, to death.”

Fang Yuan smiled: “If so I am willing to use sect contribution points to exchange for heavenly crystals to raise the upper extreme heavenly eagle. Anyway, I am a supreme elder of Lang Ya Sect and also one of the members of the four races alliance. In the future, if the sect needs me, I will naturally appear.”

Lang Ya land spirit was stumped, pondering upon it before he pointed at Fang Yuan’s nose and scolded: “Good brat! You had no intent to sell it in the first place and were just making things difficult for me!”

Fang Yuan immediately showed a serious expression, speaking earnestly: “How could I easily give up a rank eight battle strength? But making things difficult for first supreme elder, how could I have such thoughts! It is just that the price is indeed too low.”

As he said this, he suddenly thought of another intention of Hei Fan.

Even if Hei Fan's true inheritance was inherited by one of the Gu Immortals in the grotto-heaven, Hei Fan had left the upper extreme heavenly eagle in Iron Eagle blessed land.

With this immemorial desolate beast, even if there was not an inheritor, it would be an extremely huge gain to the tribe!

Lang Ya land spirit sighed, knowing well that Fang Yuan was not wrong, so he stopped persisting on buying.

On one hand, the upper extreme heavenly eagle had already become an egg, making him greatly disappointed. On the other hand, Fang Yuan was not only bound by Lang Ya's alliance agreement, he had also joined the four races alliance, which put Lang Ya land spirit at ease. Finally, he, more or less, knew Fang Yuan's nature.

"Such an ambitious and audacious guy like you absolutely won't easily give up on a rank eight battle strength! But if you want to use sect contribution points to exchange for Lang Ya Sect's heavenly crystals, it won't be easy! Heavenly crystals are rank eight immortal materials, the contribution points you have are many, but you would still not be able to afford them." Lang Ya land spirit's mood became better as he said this.

With heavenly crystals at hand, he could entice Fang Yuan to work for Lang Ya Sect.

By now, Lang Ya land spirit had no choice but to admit Fang Yuan was strong and resourceful, much more useful than other hairy man Gu Immortals!

"Then I will exchange for some first. We can slowly go about this." Fang Yuan intentionally revealed a distressed expression.

Fang Yuan's current sect contribution points were indeed a lot.

He had solved the matter with the falling star hound, earning a thousand sect contribution points at once. And this time, he had discovered the allied tribes of snowmen and rockmen, and succeeded in spurring the four races alliance, the sect contribution points for this were also nearly a thousand!

As such, Fang Yuan's Lang Ya Sect contribution points numbered over two thousand points.

But calculating it, two thousand contribution points were still too little to exchange for the rank eight immortal material, heavenly crystals.

At this moment, Lang Ya land spirit suggested another mission for Fang Yuan: "Aren't you familiar with Domination Immortal Chu Du? Rope him in to our Lang Ya Sect, make him rebel against the humans and become one of us. I can give you another thousand sect contribution points if you do this!"

Chapter 1148: Temporary Rest

Fang Yuan's divine sense was roaming in treasure yellow heaven.

"Oh?" His divine sense stopped for a moment.

A Gu Immortal's will was at the side, with a mountain of goods behind him.

“These are all slippery soil?” Fang Yuan took the initiative and asked.

Han Yu’s Gu Immortal will awakened from slumber, seeing a customer, he quickly said: “These are all slippery soil!”

After reporting the price, he asked: “Sir, how much are you buying?”

Slippery soil was a type of rank five material, the soil was very fertile.

Fang Yuan nodded mentally, this was a very appropriate price, it was even lower than the normal market price. He needed this soil anyway, he said: “I’ll take them all.”

Han Yu’s will shook: “Everything? I have a huge stock.”

Fang Yuan confirmed: “Yes, everything. Two hundred and two immortal essence stones, that is the price, right?”

Han Yu’s will quickly nodded: “Yes, yes.”

Inside treasure yellow heaven, any form of goods would have treasure light emitting from them.

Fang Yuan could estimate the price by looking at the treasure light and the goods themselves.

He was a wisdom path grandmaster, after all.

“Let’s trade.” Fang Yuan said quickly.

“Alright, alright.” Han Yu’s will quickly nodded and responded.

The situation was out of his expectations.

He was only a rank six Gu Immortal who had passed one heavenly tribulation, he was trying hard in developing his blessed land. He wanted to sell the slippery soil in his blessed land, and because of his past experiences, he even lowered the price by a little, to think that it was going to be sold out so quickly!

This was great news to him.

Han Yu’s will carried two hundred and two immortal essence stones, the entire will’s body was shaking, he was very excited.

“In my previous life, I was just like this.” Fang Yuan saw this and sighed internally.

Han Yu was the norm among most rank six Gu Immortals, Fang Yuan, during his previous life, had even been inferior, because he was a blood path Gu Immortal.

But it was different now!

Just the guts Gu trade, which was a monopoly, was bringing him immense profits.

After taking the resources of Hei Fan grotto-heaven, Fang Yuan’s own wealth had reached an unprecedented level. Not just two hundred immortal essence stones, he could take out two thousand without batting an eyelid.

All in all, Fang Yuan's financial situation was quite good now.

After buying the slippery soil, Fang Yuan moved his divine sense around and went to buy several types of soil.

After reaching his goal, Fang Yuan withdrew his divine sense and brought the soils back to the sovereign immortal aperture.

He controlled the strength path immortal zombies, they scattered the soils into different areas of Mini Southern Border in the sovereign immortal aperture.

The scenery in Mini Southern Border had already drastically changed.

Forests were everywhere, causing greenery to overwhelm the lands. Tall ancient trees and pine trees, the straight cottonwood, the short shrubs, and an uncountable number of grass and flowers made Mini Southern Border vivid and full of life all of a sudden.

These were just ordinary plants, there were lots of high grade resources mixed in among them.

Like the musical trees, they were in the greatest quantity!

This type of tree had curvy branches, they were quite unique. There were birds on the branches, mostly qi death birds, they had distinct calls and chirped loudly.

Originally, Mini Southern Border was completely empty, but it was quite lively now.

Other than birds, there were lots of deer, squirrels, monkeys, snakes, tigers, and other animals, they formed into a proper ecological cycle.

Originally, Mini Southern Border only had a few mounds.

But now, there were more than ten mountains here.

These mountains were all moved in by Fang Yuan from Hei Fan grotto-heaven.

Ordinary Gu Immortals could not move mountains, but his pulling mountain Immortal Gu could be used for this.

Right now, among the mountains, the tallest one was Immortal Succession Mountain.

The stone pavilions were still on the mountain, Fang Yuan did not remove them, but the inheritances inside were all taken away.

After a long time, Fang Yuan finally finished controlling all of the immortal zombies to scatter the soil at their proper locations.

Fang Yuan observed for a while, before stopping in satisfaction.

"With these soils, these plants would be able to grow well for some time."

Fang Yuan's sovereign immortal aperture had few earth path dao marks, the space was also very big, it had five regions and nine heavens, Mini Southern Border could not have many earth path dao marks after they were distributed.

With few earth path dao marks, Fang Yuan's sovereign immortal aperture would not have mountains forming, the soil would not be thick or fertile.

The vegetation in Mini Southern Border was almost completely from Hei Fan grotto-heaven.

Inside Hei Fan grotto-heaven, these plants and trees were growing well, they were dense and green.

But after moving into Fang Yuan's sovereign immortal aperture, because of the sparse earth path dao marks, they were drying out, and appeared to be lacking nutrients.

Fang Yuan could only buy lots of fertile soil, like slippery soil, to scatter them in Mini Southern Border, resolving the problem.

"But this does not solve the underlying issue!"

"These different soils will turn into ordinary soil after some time, the earth path dao marks in them would dissipate."

These soils were just mortal Gu materials, they had fragmented earth path dao marks in them. After the grass and trees absorb the nutrients, these scattered earth path dao marks would mostly vanish.

"Only by undergoing tribulation or absorbing the dao marks of an earth path Gu Immortal, to increase the earth path dao marks in the immortal aperture, can I resolve the problem." Fang Yuan knew this clearly.

Fang Yuan could not undergo the fifth earthly calamity in the northern icy plain anymore. This time, he could choose to go Southern Border, or any place with rich earth path dao marks for his tribulation, hoping to encounter an earth path earthly calamity.

Once he encountered an earth path earthly calamity, after going through it, Fang Yuan's problem would be alleviated.

As for killing an earth path Gu Immortal to absorb their dao marks, it was not easy.

Earth path Gu Immortals with low cultivation level did not have many earth path dao marks. And those with high cultivation level were too strong, there was too great of a risk for Fang Yuan to deal with them.

Until now, Fang Yuan had already gone through four earthly calamities.

The first was the snow monster calamity, there were iron crown eagles, ruin bats and others. The second was the wind flowers and snow moons calamity, the third was the spring dawn jade orioles and giant disaster blazing trees, the fourth was the profound white flying salt calamity.

Because the sovereign immortal aperture surpassed the ten extreme physiques combined, heaven's will was wary of it, during each earthly calamity, it would increase the strength of the earthly calamity to the greatest limit allowed.

Earthly calamities of such difficulty greatly surpassed other Gu Immortals, by several or even over a dozen times.

Thus, Fang Yuan also made incredible gains, he obtained more than a dozen times the dao marks each tribulation!

As a result, Fang Yuan had the highest number of ice and snow path dao marks, followed by transformation path, strength path, qi path, rule path, there were also some from luck path, blood path, and others.

The entire sovereign immortal aperture had improved drastically after obtaining Hei Fan grotto-heaven's resources.

Because the space was huge, at the moment, only Mini Southern Border was quite lively, even though the other areas had some resources, they did not have such a complete ecosystem as Mini Southern Border.

There were many desolate beasts, giant horned sheep, shark fin wolves, dragonfish, eagle hounds and others. In terms of ancient desolate beasts, he had remnant heavenly dogs and a falling star hound (infant). He also had an immemorial desolate beast, that was the upper extreme heavenly eagle, but it had turned into an egg already.

There were some desolate plants too, he even had an ancient desolate plant, that was the walking meat tree.

All in all, Fang Yuan's accumulated resources currently matched Gu Immortals at the peak of rank seven. Chu Du was probably similar to Fang Yuan now. As for Feng Jiu Ge, he was heavily nurtured by a super force, Fang Yuan was still inferior to him.

After scattering the soil, Fang Yuan's concentration returned to soul searching the captive Gu Immortals' souls.

Fang Yuan's immortal aperture had many Gu Immortal captives, in fact.

There were many Gu Immortal souls.

The focus of his soul search this time was on the nine Gu Immortal souls in Hei Fan grotto-heaven.

Feng Jun's luck path true inheritance and Chen Le's concealment method were quite impressive, Fang Yuan was interested in them.

"You are not Hei Cheng! Who are you?"

"You unscrupulous scoundrel, kill me if you dare!"

"Spare me, please spare me, as long as you resurrect me, I will be your most loyal servant!"

Among these Gu Immortal souls, some questioned him, some cursed him and wanted to die, while some wanted to survive.

Fang Yuan did not conceal himself as Hei Cheng anymore, after all, familiar face also needed to consume immortal essence, and attitude Gu needed to use his mental energy.

Towards these Gu Immortals' cries, Fang Yuan ignored them, he soul searched them without pause.

Every day, he would soul search them for a period of time.

“In about three days, I will be done searching the memories of these souls, I would know everything about them.”

After his soul searching, Fang Yuan collated his gains, retracting his mind.

He left the cloud city, moving towards Luo Po Valley.

There, his soul went out of his body, as he underwent tough soul path cultivation.

Fang Yuan had already used Dang Hun Mountain and Luo Po Valley for some time, his soul foundation had already reached dozens of times as before!

However, he was still not confident of placing his soul into his original body.

“This problem is the most troublesome.”

“Even if my soul foundation increases, it is still hard to avoid Shadow Sect’s possible hidden methods.”

“Who knows, Ying Wu Xie’s arrangements might become stronger if my soul has greater foundation. Perhaps the stronger my soul, the deeper Shadow Sect’s trap.”

“Ying Wu Xie knows I have Luo Po Valley and Dang Hun Mountain, when setting the trap, there is no way he did not consider these details.”

His daily soul cultivation ended, Fang Yuan’s soul returned to his body, he stood up shakily.

He had a grim expression.

As long as he could use wisdom Gu, his strength would increase at an explosive rate!

Many development problems he was facing now were related to wisdom Gu.

As long as he could use wisdom Gu, many problems would be resolved instantly.

“I have wisdom Gu, and the strength path immortal zombie body, I just need that final key!” Fang Yuan mentally sighed helplessly.

Just like this, Fang Yuan stayed in Lang Ya blessed land for seven days.

He cultivated unceasingly, he did not relax for even a minute.

His soul foundation grew again, he completely searched the souls of the nine Gu Immortals, Fang Yuan also used half of his Lang Ya Sect contribution points to trade for some heavenly crystals and even put up some Gu refinement missions.

Self will Gu, year Gu, month Gu, day Gu, as well as all the other mortal Gu, he needed a huge quantity of them.

He would rather spend sect contribution points to get these mortal Gu, getting the hairy man Gu Masters and Gu Immortals to refine them for him. This could save him a lot of time and energy.

Seven days later, he left Lang Ya blessed land, heading for Eastern Sea!

Chapter 1149: Desiring the Information Path Inheritance

The great winds blew, carrying the salty flavor of the sea water.

Fang Yuan sat on top of a cloud, he traveled quickly while splitting his attention towards the information path mortal Gu in his hand.

This mortal Gu was from Bing Zhuo.

The snowman Gu Immortal who dual wielded spears and was skilled at close combat, he told Fang Yuan in the letter: the ice tear had significant meaning to the snowman tribe, it was not just a Gu refinement material, it was the token of one's love.

"Hmph." Fang Yuan smiled coldly, he crushed that information path mortal Gu in his hands.

Pure white clouds carried him on his journey. The wind caused his hair to flutter in the sky, he had a fair face like jade, he was extremely handsome, almost enchanting, his dark abyss-like eyes looked down at the deep blue sea, showing traces of cold flickering light.

How could Fang Yuan not know about the meaning of the ice tear to the snowmen?

Don't forget, he was someone who had lived for five hundred years, even though his cultivation level was not high, his knowledge was definitely vast.

Not just the ice tear, Fang Yuan had deep knowledge regarding the wine culture of variant humans.

During the earlier banquet, Sixth Hair accused Fang Yuan of not knowing about the variant human drinking culture. In fact, Fang Yuan was just pretending to not know, he was probing the attitude of the snowmen and rockmen.

Sometimes, acting ignorant allows someone to have more options.

The matter of the ice tear was like this. Fang Yuan pretended to be unaware, but he knew it clearly on the inside.

Accepting the ice tear was accepting Xue Er's love. But if he did not accept it, he would ruin the cooperative relationship between himself and the snowmen and rockmen.

Getting together with Xue Er?

The disadvantages were greater than the advantages!

The snowman tribe was after Fang Yuan's rank eight battle strength, from the upper extreme heavenly eagle.

Disregarding how much benefits Fang Yuan could gain from the snowman tribe, just this point alone, he could not fulfill it.

The upper extreme heavenly eagle had already become an egg.

Even though Fang Yuan spent a portion of his Lang Ya Sect contribution points to get some heavenly crystals, the amount was not enough. He could not hatch the upper extreme heavenly eagle egg yet.

“Marrying Xue Er would tie me closely to the snowman tribe. We would be sure to establish a marriage agreement. Right now, I already have Lang Ya Sect’s agreement and Chu Du’s alliance agreement, there is also the alliance agreement of the four races, my freedom is greatly limited now. If I add in the marriage agreement, aren’t I just finding problems for myself?”

While Fang Yuan benefited from these alliance agreements, he also had to undergo missions for them in return.

For example, if Lang Ya blessed land was attacked by enemies, Fang Yuan would have to reinforce them and fight to his death if needed.

Lang Ya land spirit followed the rules, because the land spirit was not crafty like humans, it followed the rules of Lang Ya Sect closely and did not restrict Fang Yuan.

But the snowman tribe was different.

They were variant humans, their intelligence was lower than humans. But after being suppressed for so many years, and living pitifully in the northern icy plain, the immense pressure for survival had honed their strong battle strength and keen perception.

If Fang Yuan wanted to marry a snowman, the snowman tribe would do everything they could to squeeze out Fang Yuan’s value!

By then, Fang Yuan would be unable to help himself.

“The snowmen and rockmen live under the northern icy plain. The rockmen have the immemorial rock dragon, it has rank eight battle strength, but the snowmen do not. Thus, they want me to marry Xue Er, so that they can also have rank eight battle strength and contest evenly with the rockman tribe.”

Do not look at how cohesive the rockmen and snowmen were when attending to Fang Yuan.

Were they really living in such harmony?

The two sides were living under the icy plain, sharing a tiny area together, how could there not be conflicts? They were two different races after all.

But because of the big picture, they maintained reason and tolerated each other.

One could imagine that the rockman tribe with the immemorial rock dragon would usually win when there were conflicts. The snowmen must have suffered many losses, but they endured it all along.

The rockman tribe had greater status after all.

This could be seen from many small details during the alliance.

For example, the Gu Immortal Shi Zong usually was the first to speak, instead of the snowman Gu Immortals.

“If I marry Xue Er, no, even if I just accept her feelings, it would mean that I am siding with the snowmen. Unavoidably, I would be involved in the conflict between both the rockmen and snowmen.”

Once there were internal conflicts, Xue Er would find Fang Yuan and hope that he would mediate their conflicts, as an ally, he could not reject them.

But the rockman tribe gave Fang Yuan more benefits.

After all, they were trading guts Gu.

How could Fang Yuan ruin his relationship with the rockmen just because of a woman, and cause his gains to be smaller?

These last days, not just Bing Zhuo's letter, he had also obtain letters from other inkman, snowman, and rockman Gu Immortals.

Including Xue Er.

Their intent was to rope in Fang Yuan.

Rank eight battle strength was simply too alluring!

The reason why Fang Yuan left Northern Plains and went to Eastern Sea was to avoid these Gu Immortals. It also meant that he could avoid many problems in the future.

“I am purely making use of these variant humans. But our relationship is uncontrollably deepening. Once any mishaps happen, I will die along with them. I need to leave and gain freedom, so that I can retreat with ease.” Fang Yuan was well aware of the situation.

Furthermore, Lang Ya land spirit was showing the intention of recruiting Chu Du, this made Fang Yuan feel great threat.

Should Chu Du join, it would greatly affect Fang Yuan's status in Lang Ya Sect.

The reason why Lang Ya land spirit wanted to recruit Chu Du was also worth considering.

Even though Lang Ya land spirit gave him this mission, Fang Yuan decided to stall it. He was not going to be so stupid as to wholeheartedly try recruiting Chu Du.

“Eastern Sea information path inheritance...” Fang Yuan thought to himself.

This was one of the reasons why he was in Eastern Sea.

If Fang Yuan could obtain a method from this information path inheritance to get rid of the restrictions of the alliance agreements, that would be best.

Fang Yuan would gain the complete initiative within his alliances.

However, this information path inheritance was only his secondary objective, Fang Yuan had another primary goal.

Several days later.

Eastern Sea, turbulent flow sea area.

"Spare me, I surrender!" Liu Qing Yu was kneeling on the ground, he was covered in injuries, he had no will to fight.

He was a rank seven lone immortal, he even collaborated with with three rank six comrades just now.

To think that they would be ambushed in this turbulent flow sea area, the three rank six Gu Immortals that he invited were already dead.

Their enemies were four mysterious Gu Immortals.

Liu Qing Yu was considerably knowledgeable, but he had never heard of these four strong experts in the entire Eastern Sea Gu Immortal world!

These four were all very unique.

The one with the highest cultivation level had rank seven aura, but he was a rockman Gu Immortal.

The other three were rank six Gu Immortals, one was a beautiful and bold female immortal, one was a kindly old man, and one was an ordinary looking immortal zombie.

No matter which one, they were formidable Gu Immortal experts. But the strange thing to Liu Qing Yu was, their leader was not the rockman Gu Immortal or the bold female immortal or the old man, it was the ordinary rank six immortal zombie!

"Oh? Surrendering, hehe, you know your place." The rank six immortal zombie rubbed his chin, saying as he chuckled.

If Fang Yuan were here, he would know who this person was.

That's right, it was Ying Wu Xie!

"Hmph, a spineless coward, no wonder he was not my match. We should kill him and give Shi Nu some earth path dao marks." Hei Lou Lan was covered in orange flames.

The rockman Gu Immortal Shi Nu had no expression, he looked at Ying Wu Xie as he said slowly: "I will listen to master."

"No, no!" Liu Qing Yu quickly shouted, he had a frantic and helpless expression: "Even though I am a rank seven Gu Immortal, my Immortal Gu are only rank six. However, fairy, you have rank seven Immortal Gu and even so many fire path killer moves, it was no wonder I could not defeat you!"

Ying Wu Xie laughed, waving his hand: "Right now, my Shadow Sect needs members, I will give you a chance to live. Do not resist, I will use an immortal killer move to make the alliance agreement!"

"Thank you lord for sparing my life, thank you lord for sparing my life!" Liu Qing Yu was overjoyed, he was crying as he kowtowed continuously.

Ying Wu Xie's alliance agreement was extremely strict. But Liu Qing Yu wanted to survive, everything else was secondary.

"It is a soul path method indeed..." Hei Lou Lan observed on the side, Ying Wu Xie used a soul path method to achieve the effects of information path. It was like Fang Yuan's hundred years harmony, it could unleash the effects of another path.

"From now on, you are a member of Shadow Sect, get up." After making the alliance agreement, Ying Wu Xie smiled.

"Lord, I am willing to offer my Immortal Gu." Liu Qing Yu did not get up, he held his two rank six Immortal Gu above his head.

Ying Wu Xie laughed: "I do not care for these two Immortal Gu, you can keep them, in the future, if you perform well, I can grant you rank seven Immortal Gu or even true inheritances, that is not a problem."

"Thank you, lord, for your kindness!" Liu Qing Yu was overjoyed with tears.

"Speaking of which, this place is so remote, and there are many islands around us, why are you here at this island?" Ying Wu Xie asked, he was suspicious that his movements were exposed.

Liu Qing Yu heard this and smiled bitterly: "Lord, this is all a misunderstanding. I was just trying to find a place to rest. Sigh, I will have to explain from the start. In this turbulent flow sea area, I found the clues to an information path true inheritance..."

It turned out that back then, Liu Qing Yu chased after the blood path demonic immortal, wanting to get his information path inheritance clues. In the end, he killed this person and had no gains, the two other rank seven Gu Immortals became suspicious of him instead.

Thinking about it, he felt that Fang Yuan was the most suspicious, the information path true inheritance clues were likely in his hands.

Liu Qing Yu could not let it go, he brought a group of Gu Immortals and entered turbulent flow sea area secretly, attempting to find the clues or wait for Fang Yuan to arrive.

After hearing Liu Qing Yu's story, Hei Lou Lan, Ying Wu Xie, and the others smiled.

This Liu Qing Yu was simply too unlucky.

He wanted to find a place to rest, but he ended up going towards Shadow Sect's secret base instead.

Ying Wu Xie's expression suddenly changed: "Wait, the Gu Immortal who you were suspicious of earlier, what was his appearance?"

Chapter 1150: Turbulent Flow Sea Battle (1/2)

Liu Qing Yu repeated his words from before.

Ying Wu Xie's expression turned grim very quickly.

Fang Yuan had used familiar face when traveling from Southern Border to Northern Plains, he had concealed his appearance. But familiar face could not conceal Immortal Gu effects or immortal killer moves.

When he was in Eastern Sea, Fang Yuan had fought with Liu Qing Yu, Tang Song, and Zhou Li, he unavoidably revealed some methods.

Even though Ying Wu Xie did not know Fang Yuan's appearance at that time, from Liu Qing Yu's description, he felt a sense of familiarity.

Following his intuition, he probed, and Liu Qing Yu described this opponent in greater detail.

"Flying sword Immortal Gu, sword escape Immortal Gu..." Ying Wu Xie thought to himself.

"Looking at the timing, it matched perfectly." Ying Wu Xie felt that the Gu Immortal who Liu Qing Yu fought was very likely to be Fang Yuan!

"It is quite coincidental, I actually got information about Fang Yuan like this. Hehe, heaven's will!" Ying Wu Xie raised his head, looking at the sky.

The turbulent flow sea area's sky was covered in clouds and fog the entire time.

At this moment, Ying Wu Xie could feel that beyond these clouds, heaven's will was looking at him closely!

For heaven's will, be it Fang Yuan, who has the sovereign immortal aperture, or Spectral Soul Demon Venerable, who is attempting to defy fate by reviving and reaching the apex again, they were targets to suppress and eliminate.

Of course, in the past, Spectral Soul was the biggest target, but now, Fang Yuan was the one who attracted its attention the most.

But currently, heaven's will was making an arrangement, attempting to lure Fang Yuan and Ying Wu Xie together, so that they would fight each other. This was a method that killed two birds with one stone, it was a plan that saved a lot of effort.

Ying Wu Xie assessed this as he transmitted secretly to Hei Lou Lan.

Hei Lou Lan was slightly dazed.

She did not find anything wrong earlier because she was not familiar with Flying Sword and Sword Escape.

After reacting, she was a little shocked.

"Ying Wu Xie discovered something so significant, he is actually discussing with me?"

But soon, Hei Lou Lan realized, if she were in Ying Wu Xie's position, she would do the same thing herself to analyze the situation.

Until now, Tai Bai Yun Sheng was still kept in the dark, Shi Nu had absolute loyalty but he was a variant human, he could not think as flexibly.

She herself had the Shadow Sect alliance agreement, she was bound to Ying Wu Xie, she had no choice but to plot together with him.

"Dealing with Fang Yuan..." Hei Lou Lan had complex emotions.

She had a rather complex relationship with Fang Yuan.

They were enemies at first, before becoming allies, but now with a twist of fate, they were enemies again!

Even Hei Lou Lan had to admit it herself, Fang Yuan was a huge help and had great influence on her.

But soon, Hei Lou Lan calmed down and transmitted: "Your analysis makes sense, but you only guessed Fang Yuan's identity, how can you be sure he will come here? Just because of the information path true inheritance? Not only is the information path inheritance's crucial clue gone, even if he obtained it, what does that have to do with us? He might not come here and encounter us."

Ying Wu Xie smiled coldly: "That is because you don't understand heaven's will. Earlier, to obstruct Fang Yuan, heaven's will made a plan, that was to lure Fang Yuan with the information path true inheritance. But Fang Yuan is crafty and vigilant, he did not fall into the trap. He went to Northern Plains without stopping, this was a wise decision. Heaven's will's arrangements inside the turbulent flow sea area were completely wasted."

Ying Wu Xie's understanding was a little off.

The truth was, Fang Yuan did not sense the information path true inheritance's clues back then. After all, the clue was concealed in flying sword Immortal Gu.

Of course, even if Fang Yuan found them, with his personality, it would not have slowed down his return to Lang Ya blessed land.

"Right now, Fang Yuan obtained Hei Fan's true inheritance and has gained immense strength. But he is in Lang Ya Sect, and has recently been added to the four races alliance, he also has an alliance agreement with Chu Du, he has huge needs in the information path aspect. Thus, he is likely to come here, following the true inheritance's clues to obtain this information path inheritance." Ying Wu Xie continued.

Undoubtedly, suffering and setbacks were of value in life.

Ying Wu Xie had gone through many difficulties, his mind was sharper and more vigilant now, he had the demeanor of an expert.

Hei Lou Lan was quite familiar with Fang Yuan's situation.

The intel that Fang Yuan had exposed reached Ying Wu Xie through Sixth Hair.

In order to draw out Hei Lou Lan's hatred towards Fang Yuan, Ying Wu Xie had told her a portion of the information.

Hei Lou Lan's eyes burst out with brilliance, she had an understanding: "You mean to say, Liu Qing Yu is a reminder to us from heaven's will?"

"That's right. Liu Qing Yu might have chosen this place by coincidence, but he was actually subconsciously influenced by heaven's will. He purposely chose our island, it is too much of a coincidence. Heaven's will probably thinks that the trap earlier can no longer affect Fang Yuan, who has

gotten much stronger, thus, it wants to make use of us to deal with Fang Yuan!” Ying Wu Xie looked at the sky, showing a cold smile.

Know yourself and your enemy, and you will never be defeated.

Shadow Sect had opposed heaven’s will for so many years, Ying Wu Xie was naturally aware about heaven’s will’s goals and schemes.

“Then, we can use this chance to ambush Fang Yuan. Aren’t you trying to get back the sovereign immortal body?” Hei Lou Lan transmitted.

Ying Wu Xie turned around, looking at Hei Lou Lan.

The two were secretly transmitting to each other. They did not talk for long, the other three immortals only saw Ying Wu Xie looking at the sky for a while, before he turned around and walked back.

Ying Wu Xie did not speak, he took huge steps, leading the way.

Behind him, Shi Nu, Tai Bai Yun Sheng, and Hei Lou Lan followed after.

“Ah.” Liu Qing Yu who was kneeling on the ground was dazed, he quickly got up and followed behind them closely.

“Hei Lou Lan.” Ying Wu Xie suddenly transmitted: “If we can capture Fang Yuan this time, I will grant you freedom.”

Hei Lou Lan’s body and mind shook!

But soon, she reacted, replying: “Only a child would be fooled by that, would you willingly let go of my battle strength?”

“Hahaha, you truly know me well, Lou Lan.” Ying Wu Xie laughed, admitting it openly.

“How will you deal with Fang Yuan? He has rank eight battle strength.” Hei Lou Lan asked.

Ying Wu Xie’s smile faded, he sighed, Hei Lou Lan could hear the helplessness in his tone.

Next, she heard Ying Wu Xie: “I am not going to deal with him, the immemorial upper extreme heavenly eagle is very hard to deal with.”

“No, we can. If we use that secluded domain of heaven and earth, can’t we succeed?” Hei Lou Lan asked.

“You really want him to die? I remember that you have gone through thick and thin before.”

“Hmph, every man for himself, if he dies or is defeated, there are only advantages to me, there are no disadvantages.” Hei Lou Lan showed a cold killing intent.

Ying Wu Xie rejected this alluring suggestion: “Even if we use that place, my goal cannot be achieved. I need to capture Fang Yuan alive, the material needs to be fresh. If we use that place, we can only make the upper extreme heavenly eagle lose its threat temporarily.”

“Furthermore, even if we could, I would not do it.” Ying Wu Xie smiled.

Hei Lou Lan: "Why?"

"Not considering the big picture is simply shortsighted. Like how Fang Yuan did not take the information path inheritance earlier, as long as we save my main body, we will have a great advantage. My memories are limited, if we fight with Fang Yuan now, we will be falling into heaven's will's trap. We will leave Eastern Sea! However... before leaving, we can leave behind some arrangements as a present for Fang Yuan. Hehehe." Ying Wu Xie transmitted a laugh.

A day later.

"I am finally here... turbulent flow sea area." Fang Yuan stood on a cloud, he looked at this sea area as he sighed.

Rumors said that there was an intense battle between Gu Immortals here.

There were no rank eight experts among the participating Gu Immortals, but there were many rank six and seven Gu Immortals.

Because their battle was too intense, the dao marks carved in this area caused a change in the environment, in the end, a unique place in Eastern Sea, turbulent flow sea area, was created.

Because of this reason, there were many Gu Immortal inheritances hidden inside the turbulent flow sea area, or their wealth left behind after death.

In history, there were lucky people who obtained Gu Immortal inheritances inside the turbulent flow sea area. Even though the lucky people were few, these rumors caused many people to be attracted to this sea area.

Many Eastern Sea Gu Immortals as well as Gu Immortals of Central Continent, Northern Plains and Southern Border would often come to the turbulent flow sea area to search for fortuitous encounters.

Fang Yuan's gaze swept across the sea water.

The turbulent flow sea area's water was very unique, the surface was calm, but there were many undercurrents below.

These currents were of all types and forms. They interlinked with one another, they moved in this sea area with absolutely no rhythm or pattern.

Precisely because of this, Gu Immortals called this the turbulent flow sea area.

Fang Yuan looked at the sky again.

The sky had many white clouds, shrouding his vision, he could not see any starlight. Even when the sun was blazing, the sunlight could not penetrate the cloud layers, it only made the place brighter.

When Gu Immortals entered the turbulent flow sea area, they often lost their sense of direction. These cloud layers were one of the causes, because of the clouds, Gu Immortals could not determine their precise location.

It was impossible to get rid of these clouds.

To do that, one was contesting against heaven and earth. Gu Immortals with such abilities were at least rank eight great experts, they were very rare. Paying a huge price to destroy these clouds would also destroy the turbulent flow sea area. To them, it was not worth the effort at all.

Breathing in deeply, Fang Yuan's aura surged as Immortal Gu aura burst out from within him.

Immortal investigative killer move — Qi Luck Sensation!

This move was obtained from Feng Jun's inheritance, it used qi luck Immortal Gu as the core, it could sense people who were closely connected by luck to the Gu Immortal user. The closer the distance, the clearer the effects.

"Oh? They are nearby! They are in the turbulent flow sea area?"
