Reverend Insanity

Chapter 1851: Interfering in Three Regions

The dragonman clone first entered Dragon Palace, before flying into the blessed land while inside this Immortal Gu House.

The blessed land was Gu tribe's headquarters, it was outsider territory and Gu tribe's leader had rank eight cultivation level, it was much safer to be vigilant in this situation.

Once he entered the blessed land, he saw a vast area. This blessed land was huge, it was larger than some grotto-heavens.

Within the blessed land, he could see various types of immortal materials around, most were extinct in the current era already, Fang Yuan's clone gained quite a bit of insight.

"Even though this blessed land's foundation cannot compare to Lang Ya blessed land, it is not far off." Dragonman clone Wu Shuai thought.

Among the blessed lands that Fang Yuan had seen, Lang Ya blessed land had the deepest foundation, followed by Imperial Court blessed land, this current one was the third.

"Gu tribe blessed land, development of over a million years! The generations of Gu tribe leaders had at least rank seven cultivation level, most were rank eight, with such an expert defending it, this blessed land's calamities and tribulations were not a threat."

"Furthermore... Gu tribe does not consist of humans, it receives the help of heaven's will. Even if there are calamities and tribulations, they would not be very strong."

Wu Shuai thought to himself.

The way of heaven was to take away surpluses while replenishing deficits, it emphasized on balance. Currently humans were the overlords of the world, and all the variant human forces were forced to live pitifully in some corners of the world.

Thus, any variant human group would receive the help of heaven's will.

"Senior Wu Shuai, please come with me." Gu tribe's leader said politely while leading the way.

Dragonman clone Wu Shuai followed closely, after flying for some time, the two landed in a dense forest.

In this primordial forest, there was a huge tribe that had over ten thousand people, the ones living in this tribe were all beastmen.

Indeed, this Gu tribe was a beastman tribe.

According to human historical records, beastmen were extinct, but the truth was, heaven left them a chance of survival, a lineage of beastman bloodline had survived and lived until today, isolated from the world.

Wu Shuai received a warm welcome from the entire tribe.

Soon, the banquet was ready, Gu tribe's leader invited Wu Shuai to take a seat.

Wu Shuai walked out of Dragon Palace, he was accompanied by two dragon generals as his bodyguards.

Gu tribe leader's pupils shrank a little as he laughed loudly, his attitude was even more enthusiastic than before.

Wu Shuai only exposed half of his dragon generals, but each of them had rank eight cultivation level like Gu tribe's leader. Within this beastman blessed land, other than Gu tribe's leader, there were no other rank eight existences.

Because of his dream realm explorations, Fang Yuan's clone had a great understanding of this beastman tribe.

After talking for some time, Wu Shuai gained a clearer understanding of Gu tribe. Gu tribe's leader also dispelled the suspicions in his heart after this conversation.

This beastman tribe consisted mostly of fish head and human body members, their cheeks had gills, their ears were fins, and they had spiky fins on their backs. Other than that, some had frog legs, some had seabird wings, some carried turtle shells, and some had a ring of green seaweed on their heads.

These beastmen originally lived in the sea, back then, the beastman race went from domineering to weak, they were wiped out on the mainland, only this small group living in the sea were spared.

Because the beastman race became weak while humans dominated the world, this group of beastmen had to recuperate in the sea, they did not dare to take any actions.

But their enmity with humans had never been forgotten. Almost every generation's Gu tribe leader had such intentions, they wanted to create internal conflict in humans and allow themselves a chance to rise up.

In history, the real Wu Shuai met his generation's Gu tribe leader and it was because of their alignments that he helped Wu Shuai become an immortal, they went after fate Gu together, he was a formidable person!

In order to deal with dragonman extermination, Wu Shuai talked with Gu tribe's leader, they came up with an alliance agreement of both races.

Earlier at the door of the blessed land, Fang Yuan's clone and this generation's Gu tribe leader conversed, they were talking about this agreement.

This was the arrangement left by the real Wu Shuai, he had prepared it to lead the dragonman race to prosperity. Now that Fang Yuan inherited Dragon Palace, he naturally wanted to make use of this arrangement.

Gu tribe had developed under the sea for so many years, while Gu tribe's leader was a rank eight expert, with their deep foundation, Fang Yuan wanted to make good use of their strength.

Gathering more strength to deal with Heavenly Court, this was something Fang Yuan wanted to do.

While Fang Yuan's Wu Shuai clone and Gu tribe's leader were conversing happily, in Western Desert, Yang Zi He and Zhang Yin had succeeded.

Rumble!

With an intense sound, Yang Zi He finished his last attack.

Taking a look, the prosperous oasis here had turned into rubble, nothing was left.

This was a large resource point of Fang clan, it was destroyed without any possibility of recovery now.

"We should go!"

"This is the third place we destroyed, according to master's orders, we can return already."

"Let's inspect first, and see if we left any clues behind."

The two dragon generals inspected carefully, they left after making sure nothing was left behind.

Fang clan went into a commotion!

Losing three large resource points in one day, Fang clan's losses were not small at all.

Dong clan was also shocked!

Because in the rubble, there were some words written and left behind — Dong Lu Chen was here.

Dong Lu Chen was the first supreme elder of Dong clan, earlier, Fang clan had taken revenge on him, using a theft path Immortal Gu House to destroy one of Dong clan's oasis resource points.

After hearing the news, Dong Lu Chen's face turned dark as he scolded: "These shameless people, the so-called righteous path! They dare to frame me and actually used such a terrible method! If I find the culprit, I will not let them off!"

Dong Lu Chen did not suspect Fang Yuan of course, his suspicions were on the super forces besides Fang clan and Dong clan.

This was an obvious plot to sow discord, if Fang clan fell for it and started to retaliate against Dong clan, those Western Desert super clans were the first ones to benefit.

Dong Lu Chen could not sit and wait, he quickly sent a letter to Fang clan's first supreme elder, Fang Gong.

Fang clan had the wisdom path Gu Immortal Fang Di Chang, they would not fall for such a plot, after thinking about it, Fang Di Chang asked Fang Gong to send Dong Lu Chen a letter and work together to find the real culprit.

This was a great move.

After Dong Lu Chen received the letter, he realized it was a little troublesome.

He knew that Fang clan was trying to rope in Dong clan and make them allies on the same side.

But Dong Lu Chen was not stupid.

Dong clan and Fang clan shared borders, when Fang clan gets stronger in the future, they would first eat into Dong clan's territory and benefits.

But if he did not try to find the culprit, would it imply that he had a guilty conscience?

Dong Lu Chen thought about it for a while, he decided to head to the crime scene and try to find the culprit with Fang clan's Gu Immortals.

They would obviously not be able to find the truth, since Fang Yuan sent two dragon generals to deal with this matter, he definitely had ways to divert them away from the truth.

Thus, Fang clan and Dong clan got their answer, it pointed to the other forces near them.

But Fang clan and Dong clan were calm, they did not go to question the others, they only remembered this in their hearts.

Both of them were very restrained.

Dong Lu Chen memorized these few clans, he did not want to expose them, he needed them to deal with Fang clan after all.

And Fang clan, in order to maintain stability, would not resist these super forces openly. After all, it was all alone, while Divine Bean Palace was still far from being refined.

"Second supreme elder, the situation is getting more dangerous, can you really unravel Divine Bean Palace alone, isn't it too tiring? That Suan Bu Jin is a wisdom path Gu Immortal, maybe he can help you and do some of the work for you." Fang Gong suggested to Fang Di Chang.

In his opinion, Suan Bu Jin had participated in the battle over Divine Bean Palace, he had entered it before, now that he was Fang clan's external supreme elder, he was one of them and was trustworthy.

Fang Di Chang thought about it but could not make up his mind, in the end he sighed: "Let me think about it."

Southern Border.

In Xia clan's headquarters, Xia Cha was also sighing.

She had been released by Fang Yuan, even though she had her body and soul, her immortal aperture was taken by Fang Yuan and annexed by his sovereign immortal aperture.

Xia Cha was no longer a rank eight Gu Immortal, she was a mortal.

Even though she was still the first supreme elder of Xia clan in name, Xia Cha felt like this status was a joke.

"I am a cripple now!"

"Even if I was rank eight in the past, so what?"

"Fang Yuan! You have amazing methods, if I can ever take revenge for this immense hatred, I will tear off your skin, pull out your tendons, and grind your bones till they turn to dust!"

Thinking so, Xia Cha sighed again.

She knew herself that this hope of revenge was too slim.

“Good news, good news, Lady Xia Cha!” At this moment, Xia clan’s third supreme elder came running excitedly.

“What good news?” Xia Cha frowned as she looked at him.

Xia clan’s third supreme elder handed Xia Cha an information path mortal Gu: “This was the letter that demon Fang Yuan sent over using treasure yellow heaven.”

Xia Cha laughed coldly: “This demon is devious and greedy, not only did he capture us, he separated our bodies and souls, extorting us time and again, he truly deserves death!”

“Right now, Fang Yuan does not have much to extort us already. I do not need to read this letter, it is merely a new idea from Fang Yuan to extort our Southern Border righteous path.”

Xia Cha shook her head continuously.

Xia clan’s third supreme elder nodded: “Lady Xia Cha is right, Fang Yuan’s intentions are obvious. He has been buying luck path immortal materials recently, he seems to be refining many luck path Immortal Gu. But this time, his offer is truly...”

“What? He is offering Immortal Gu? Or does he want to exchange Gu for Gu?” Xia Cha frowned before waving her hand: “You do not need my agreement for this matter, let second supreme elder handle it. If it is an Immortal Gu beneficial to our clan, let’s exchange for it.”

“This time, Fang Yuan is offering a mortal Gu.”

“Hmph, wanting to exchange a mortal Gu for Immortal Gu or immortal materials? Wishful thinking!”

Xia clan’s third supreme elder smiled: “Lady Xia Cha, you should look at this first.”

Xia Cha received the information path Gu worm as she looked and sneered at it: “Has Fang Yuan gone insane? He wants to get so many immortal materials with just one mortal Gu. I want to see what Gu this is!”

“Hmm?!” Xia Cha saw the crucial information in the letter, her expression changed abruptly.

She quickly stood up and said in an unquestionable tone: “I must have mortal Gu, we need to get it regardless of the price! Fang Yuan wants luck path immortal materials? Give him, give them all to him!”

Reverend Insanity

Chapter 1852: Contest Over Gu Refinemen

Southern Border.

Ba clan, Mansion Mountain.

Ba Shi Ba carefully held a rank one mortal Gu as he stared without blinking, he was deeply concentrating: “This is second aperture Gu?”

He observed carefully, this Gu worm looked like a beetle with two sharp ends and a fat midsection, it was the size of a young man's fist. It was like blue jade, and felt soft and cool to the touch. There was a golden eye on its plump back. The golden eye flashed with lightning, seemingly having a mind of its own.

To exchange for this Gu worm, Ba clan had used up almost all of the luck path immortal materials that it had in its inventory.

Fang Yuan was extorting them but Ba Shi Ba had to accept it, even though this was a tiny rank one Gu, it gave him the courage and hope to continue living in this world!

Second aperture Gu was very easy to use, it did not require primeval essence or immortal essence, by just dripping one's blood onto the Gu, and feeding it until it was full, it would self-detonate and take effect.

After second aperture Gu self-detonated, it created a tiny aperture in Ba Shi Ba's body.

This was a rank one aperture, the lowest rank of cultivation.

But Ba Shi Ba's eyes turned red after seeing this, he was so excited his body started shaking intensely.

"Even if that demon Fang Yuan extorts us, I needed to buy this!"

"With this aperture, I can cultivate again. From rank one to five, I can use relic Gu. After rank six, I can have the help of Gu Immortals in the clan to undergo tribulations."

"But to reach the foundation and achievements of my first immortal aperture, it would be too hard."

Thinking of this, Ba Shi Ba gritted his teeth, he was filled with hatred towards Fang Yuan.

Fang Yuan captured and soul searched him, even taking his first aperture away. Even if he gave a second aperture Gu, this was another form of extortion!

For Ba Shi Ba who originally had rank eight cultivation level, it was a great humiliation.

"Fang Yuan, just you wait, one day, I will take revenge for this humiliation. I will return you a hundredfold the pain that you have caused on me, you will get to enjoy this feeling yourself!"

Ba Shi Ba had a ruthless expression, he had not been having a good time these last days.

He was still the first supreme elder of Ba clan, but after getting captured by Fang Yuan, not only did his reputation fall, he was also turned into a cripple now.

Compared to Xia Cha, Ba Shi Ba was in a worse state.

Because during the time he got captured, Ba clan gained a new rank eight Gu Immortal.

Ba De!

After Ba De became a rank eight Gu Immortal, he immediately became the second supreme elder and led the affairs of Ba clan.

Ba Shi Ba's authority was taken away.

"Thankfully, I have this second aperture Gu now!"

"I have ample cultivation experience, I have gone through tens of tribulations, it will be easy to become an immortal again, I am certain of it."

"I need to use my time well and quickly become a Gu Immortal again. After all, my influence will become smaller over time, I need to use the rest of my influence well and try to help my cultivation process to make it as smooth as possible."

Ba Shi Ba had his own plans, he already prepared enough relic Gu.

Immediately, he used them all, quickly becoming a rank one peak stage Gu Master.

But at this point, no matter how Ba Shi Ba attacked his aperture walls, it remained motionless.

"What is happening?"

"My cultivation level is stuck! This second aperture has issues!"

Ba Shi Ba became furious and shocked after checking it, he felt like he was deceived, he had bought a fake product with a huge price.

He quickly called the Gu Immortals who were close to him and asked them to contact Fang Yuan, to ask what was this situation about.

Fang Yuan was researching on Primordial Origin's true inheritance, his expression shifted slightly into a smile as cold light flashed in his eyes: "It seems that they have discovered the problem already."

However, he was prepared for this, he quickly responded.

Ba Shi Ba heard his response and broke his favorite teacup in anger: "Demon, you are going too far!"

It turned out that Fang Yuan had only mentioned his second aperture Gu could awaken a second aperture, it did not say that there was a restriction on cultivation advancement. To mislead the Southern Border immortals, Fang Yuan described his own feelings and experiences when he first used second aperture Gu.

Ba Shi Ba foolishly thought that this second aperture Gu would allow him to rapidly become a Gu Immortal again.

Over on Xia Cha's end, a wisdom path Gu Immortal noticed this problem. Fang Yuan thus told Xia Cha that this second aperture Gu was originally an Immortal Gu, he had modified it into a series of Gu from rank one to six. Rank one second aperture Gu could allow one to have rank one cultivation level, the others from rank two to five followed the same logic.

Xia Cha immediately wanted to buy the rank six second aperture Gu but Fang Yuan's response made her speechless: "I am only selling rank one second aperture Gu!"

"It seems that Ba Shi Ba is in a worse state compared to Xia Cha." Fang Yuan smiled, he could see the anxiety in Ba Shi Ba's heart from just this small incident.

"This means that Ba De has become a rank eight already, even though Ba clan is keeping quiet about it."

"This is a good thing."

The Southern Border immortals had an immense grudge with Fang Yuan, but they shared the same common enemy — Heavenly Court.

Heavenly Court wanted to repair fate Gu, in the previous life, Fang Yuan had already seen the attitude of Southern Border's righteous path.

Thus, Fang Yuan returned the bodies and souls of the Southern Border immortals, even though he annexed their immortal apertures, he gave them second aperture Gu as well.

His motive was to ensure that the Southern Border immortals had some level of battle strength remaining, sufficient to find trouble with Heavenly Court.

After experiencing so many things, through hurdles and difficulties, Fang Yuan finally managed to live through the great pressure of Heavenly Court. He now had deep foundation and many subordinates, he was able to interfere in the politics of the five regions, he could secretly use many methods to form a huge plan that would encircle Heavenly Court!

Unconsciously, he had already grown from a pawn to a chess player.

"Fang Yuan, I want to eat your flesh and drink your blood!" Ba Shi Ba looked at the letter as his body shook in deep anger.

He finally understood Fang Yuan's goal.

Fang Yuan refined a set of second aperture Gu, if Ba Shi Ba wanted to regain his cultivation level from rank one to two to three... he would need to use an entire set until rank six second aperture Gu, to gain a proper immortal aperture and finally rise back to rank eight cultivation level.

That was to say, if Ba Shi Ba wanted to regain his former glory, he would need to be extorted by Fang Yuan six times!

Ba Shi Ba cursed and threw a few more items around before he slowly calmed down.

Looking at the messy study room, he pondered for a moment before laughing loudly: "Ba Shi Ba, oh Ba Shi Ba, how can you behave like this? You had lost in the first place and got captured, it was already immense fortune that you survived. How can you still act so worried over losses and gains?"

"So what if I cannot regain my cultivation, so what? As long as I work hard enough, I will have no regrets even in death."

He muttered, it seemed like he was rationalizing with himself.

After saying that, his body relaxed, he felt his mind clearing up, he could also see at a greater height, a scene that he could not observe when he was still a rank eight in the past.

This was the scenery of human life!

He had completely calmed down, a smile showing at the corner of his lips.

"Fang Yuan, you demon, you are truly formidable, I fell for it once again." The hatred in his heart did not go away, but Ba Shi Ba started to smile and face reality, he no longer acted like before.

At this moment, even though he did not have high cultivation level, he was much more carefree and composed than the time when he was a rank eight.

"I don't have much of a choice now, I need to accept his extortion. After all, becoming an immortal is the most important matter now!" Ba Shi Ba felt clarity in his heart.

The clan could be relied on, but only for some time. His influence and favors that were accumulated from the past would slowly dwindle with the passing of time.

Especially when a new rank eight Gu Immortal appeared in the clan.

He needed to act quickly!

"Rotten soil blood powder, treasure flower in the earth. Jade bone turned into petals, ice muscles into stalks and golden relic into the heart of the flower. A bright stellar fire, gather ice and snow into plains. Yang cloud burns with elixir fire below and yin clouds scatter sand like gold above, add beast phantoms in the middle until lightning crackles, creating beast strength placenta, and start collecting apertures..."

This was the Gu recipe of his second aperture Gu.

Fang Yuan had obtained it from Three Kings blessed land.

The former part was the same as the original, Fang Yuan did not modify anything, but the latter part was completely changed, it could not be recognized from before.

Fang Yuan modified this Gu recipe, from the rank six Immortal Gu recipe to a series of Gu.

Fang Yuan had refinement path quasi-supreme grandmaster and human path grandmaster attainment level, he even had the light of wisdom helping him, it was not hard to make this deduction.

"With this set of Gu worms, I can extort them all the way. If there is no chance for extortion, I will create my own opportunities."

"In fact, this method can be used in Eastern Sea, Western Desert, and Northern Plains as well. As for Central Continent's Gu Immortals, I'd rather just kill them instead."

Fang Yuan was an unscrupulous merchant with no sympathy.

Mortal level second aperture Gu had an extremely low cost of production, it did not need lifespan Gu or immortal materials.

It needed more human apertures instead.

Human apertures were simply Gu Master apertures.

Fang Yuan simply captured some human Gu Masters to use as Gu materials, it was easy and cheap.

But he sold them to the Southern Border immortals at an extremely high price, he earns hundreds or even thousands of times the profit.

And these Southern Border immortals treated second aperture Gu as their life-saving rope, the only hope in their lives, no matter what price Fang Yuan asked, they would accept it without resistance.

Of course, Fang Yuan had considered their bottom line and also the overall situation of resisting Central Continent in the future.

“Success, Lord Fang Yuan, we refined another luck path Immortal Gu!” The hairy man Gu Immortals transmitted good news again.

“Very good, keep up the good work.” Fang Yuan praised casually.

This extortion of the Southern Border immortals was very successful because of second aperture Gu, many of the clans handed over their precious luck path immortal materials.

With them, Fang Yuan ordered the hairy man Gu Immortals to start refining luck path Immortal Gu without restraint.

The price of refining Immortal Gu was high, his luck path immortal materials dwindled in numbers, but his gains were immense.

These last days, several luck path Immortal Gu were refined, becoming Fang Yuan’s possession.

Heavenly Court.

“Damn, I failed again.” Yuan Qiong Du had an ashen expression, looking at the pile of ashes in front of him, he had an ugly expression.

During this period of time, he simply could not believe this was reality!

First, he tried to refine fixed space Gu, he failed.

Recently, he tried refining several luck path Gu worm, he failed, failed, and failed!

“My methods are not wrong, the process was smooth too, but Immortal Gu are unique.”

“Many of these Immortal Gu exist already, I cannot refine them!”

“Sigh, if only I can find out which Immortal Gu are already in existence, that would be great.”

Fang Yuan’s tactic of refining the luck path Immortal Gu first made Heavenly Court suffer great losses.

This was a hidden showdown, whoever had the initiative would reap the greatest benefits.

Even though Heavenly Court had a deep foundation and bottomless inventory, Fang Yuan made use of Southern Border’s righteous path and firmly suppressed Heavenly Court in this regard.

Unless Fang Yuan stopped now, Yuan Qiong Du would continue to fail, he would not have many gains.

[Reverend Insanity](#)

Chapter 1853: Good Child

Coo coo coo...

Sounds of the strange birds resounded in this sky. The size of the bird group was huge, it looked like a gigantic dark cloud that approached Mountain Cliff City.

Within Beast Calamity grotto-heaven, Mountain Cliff City was one of the ten most special cities.

This city was built at the top of a cliff, at its highest point. The people and social behavior here were all quite special.

“Fat butt birds are coming!”

“Quick, quick, prepare for defense!”

“Everyone, don’t panic, our Combat Beast Envoys have not arrived yet.”

At this moment, Mountain Cliff City was filled with voices and extreme vigilance.

The fat butt bird group made shriek noises as they flew towards the top of Mountain Cliff City.

They had a crown on their heads, their bodies were covered in messy feathers, their bodies were fat, they had especially large butts.

Within the bird group, there was a bird king that was twice the size of an ordinary fat butt bird. It flew on top of Mountain Cliff City as it looked down, its butt moved with force as it squeezed, a lump of bird shit fell down immediately.

This bird shit was smelly and dark, it was huge, about the size of a hut, falling from the sky.

Swoosh—!

Boom!

The bird shit fell with increasing speed, there was a sharp sound as it crashed down, destroying a segment of the city walls.

Fortunately, there were not many people around, few got injured.

Swoosh swoosh swoosh!

Boom boom boom!

The bird king’s attack started the offensive streak of the bird group, lumps of bird shit started to fall from the sky, crashing on Mountain Cliff City.

At once, it was as if the sky started to rain heavily.

But this rain contained peculiar raindrops, they were oversized bird shit.

A large number of houses collapsed as they got crushed, the walkway, gardens, fountains, and even the City Lord statue at the center of the city got mercilessly covered in bird shit.

After the first wave of attacks, the bird king flapped its wings and rose into the air with its army. There were a huge number of them, they circled around before returning and approaching Mountain Cliff City again.

“Combat Beast Envoys, attack!” At this moment, the leader of the troops defending Mountain Cliff City shouted loudly as he led the way, flying into the sky and facing these fat butt birds in battle.

A large number of Combat Beast Envoys followed, at once, humans and birds engaged in a huge aerial battle.

“Little eagle, let’s go fight too, do you dare or not?” Youngster Zhan Bu Du had already sneaked out of the City Lord’s manor, he spoke to the arrowtail eagle on his shoulder.

The arrowtail eagle screeched as arrogance flashed on its cute and young face. It flapped its wings and pecked Zhan Bu Du’s face lightly, as if it was angry at its master’s belittling attitude.

“Since you are not afraid, let me go with you!” Zhan Bu Du smiled, he seemed like an innocent youngster but was actually Fang Yuan’s clone, he had been taken in as a disciple of Mountain Cliff City Lord, he had spent a lot of time with the young eagle, he had a good grasp of its nature. With just a little provocation now, the young arrowtail eagle burst out with battle intent.

“Come, little arrowtail eagle.” Zhan Bu Du shouted loudly.

The young arrowtail eagle screeched as it flapped its wings, it shot towards the sky like an arrow before flying back towards Zhan Bu Du.

Zhan Bu Du shouted again: “Combat Beast Envoy — Transform[1]!”

He activated his Gu worm as his body shined with dazzling azure light. The young arrowtail eagle slammed onto his body and fused with the human shaped light figure.

At the next moment, the human shaped light figure went through rapid collision and changed form.

As the azure light faded, Zhan Bu Du grew to a three meter tall giant with an eagle head and human body, he had azure wings on his back, his arms and legs had turned into yellow bird claws.

Zhan Bu Du flapped his wings intensely as wild winds blew, he soared into the sky and entered the battlefield.

“Look, it’s Little Du. He sneaked out to join the battle after all. This child!” A middle aged beauty looked at Little Du’s flying figure with worry.

She was the daughter-in-law of Mountain Cliff City Lord, she had one son but he had died when he was still a child.

After Mountain Cliff City Lord took Zhan Bu Du in as his disciple, he quickly became a member of this family. The middle aged beauty made him her godson and placed all the love she had for her deceased child onto Zhan Bu Du.

Beside her was a middle aged man, he only had his upper body left, his lower part was cleanly cut off. But his face was still lively, he was quite spirited.

He looked at Zhan Bu Du as he praised after a while: “Hahaha, this kid’s fighting ability is getting higher. As expected of the person who received my teaching, father, you took in a good disciple.”

“He is your godson too.” The old Mountain Cliff City Lord stroked his beard as he said happily.

He had originally adopted Zhan Bu Du through a coincidence, because the young arrowtail eagle had treated Zhan Bu Du as its family, he could not separate them. But after teaching him well, Mountain Cliff City Lord found that Zhan Bu Du was actually a raw talent, the more he taught him, the more he shined.

Zhan Bu Du displayed great comprehension ability, he also worked very hard, Mountain Cliff City Lord was very satisfied. And even more satisfying was that Zhan Bu Du had a helpful nature, he was brave and kindhearted, he was like the sunlight which could penetrate into people's hearts.

"Be careful!" In the sky, Zhan Bu Du shouted as he raised his speed.

He slashed with his right claw, shooting out a wind blade.

The azure wind blade was like a curved blade that directly slaughtered the fat butt bird that chased after him.

"Thank you, Little Du." The Combat Beast Envoy who was saved was a guard of Mountain Cliff City, at this moment, he had a complex feeling.

Because normally, he looked down on Little Du, he laughed at his weak strength, he had only gained the arrowtail eagle's recognition because he was lucky.

But now it seemed like Zhan Bu Du's combat ability far exceeded him, even saving him without minding their past conflict.

"Don't worry about it, we are all people of Mountain Cliff City." Zhan Bu Du opened his beak as he spoke human words.

After hearing his words, the Combat Beast Envoy felt even more complex than before.

"Quickly regroup, fight the fat butt bird group and protect the city!" Zhan Bu Du urged.

"Okay!" The Combat Beast Envoy nodded seriously as he joined the intense battle again.

Mountain Cliff City Lord watched this scene as his evaluation of Zhan Bu Du rose again.

"This child." The middle aged beauty eased her frown: "I will deal with him when he comes back!"

"Hahaha." The wheelchair bound middle aged man laughed cheerfully.

Mountain Cliff City Lord nodded lightly, he did not say anything.

"After this battle, everyone's impression of me will improve again." Zhan Bu Du was very calm, he analyzed the situation.

The Combat Beast Envoy he saved was very grateful to him, but the truth was, Zhan Bu Du was very grateful towards him as well.

"Without someone like him, how could it display my superior character?"

After gaining the arrowtail eagle's recognition, his status rose immensely as he became the disciple of Mountain Cliff City Lord, this made a lot of people envious.

Fang Yuan made use of everyone's mentality as he chose a seemingly vicious enemy who was actually harmless to him.

After he purposely met with the enemy by 'coincidence', they went into a verbal brawl.

Afterwards, Fang Yuan intensified this conflict and even got beaten by his enemy in a public area.

Afterwards, he went home with bruises and spoke to Mountain Cliff City Lord, asking to intensify his training without explaining the reason. That way, Mountain Cliff City Lord would be able to interpret it himself.

Originally, Fang Yuan wanted to use this enemy to raise his own reputation. But with this fat butt bird calamity, he had an even better chance.

Once the chance appeared, Fang Yuan's clone immediately used the chance to save his enemy under everyone's supervision.

"After entering this place, my luck has always been good, even though the descending bird egg had expended a lot of my luck. It seems that the main body's luck path attainment is getting deeper and more profound, he can provide me with a lot of help."

After the intense battle, the fat butt birds lost.

Zhan Bu Du's performance was very eye-catching, he was almost about to kill the bird king when Mountain Cliff City Lord transmitted his voice and stopped him.

After the battle, Zhan Bu Du purposely went to ask Mountain Cliff City Lord, showing his confusion: "Grandfather, why didn't you let me kill that vicious bird king? Without it, our Mountain Cliff City Lord will not face such a calamity anymore."

"Little Du." Mountain Cliff City Lord patted Fang Yuan's clone's tiny head, he said with joy: "Even if you kill the bird king, they would choose a new one."

"Then why didn't grandfather deal with them personally? With your strength, you can wipe out the bird group." Fang Yuan asked innocently.

Mountain Cliff City Lord smiled again: "That is because the bird faeces are a good thing. It can make our soil fertile, it can help the wheat grow more healthily, in fact, many caravans want to trade goods for our bird faeces."

"Is that so? The smelly bird shit is a treasure?!" Fang Yuan's clone was deeply surprised.

Looking at him, Mountain Cliff City Lord laughed heartily: "Oh Little Du, grandfather taught you not to judge a book by its cover, you must not just look at the appearance of the things in this world."

"I understand now, I will remember grandfather's words deeply." Fang Yuan's clone nodded solemnly.

"Mm, good boy." Mountain Cliff City Lord smiled again, he thought to himself: "Other than that, there are other reasons of course. But you are still young and innocent, my disciple, it is still too early for you to learn about those reasons."

After saying goodbye to Mountain Cliff City Lord, Fang Yuan left the City Lord's manor.

The city lord manor was huge and tall, it was a city within a city. Fang Yuan could see the entire city from this altitude.

Within the city, the people were already starting to rebuild and recuperate. The mortals stopped hiding, they came out of their bunkers and caves.

This fat butt bird calamity did not just give Fang Yuan's clone a huge amount of reputation, he even gained a deeper understanding of this world.

"The fat butt bird king is a mutated beast king, it has rank five Gu Master battle strength. I am just a rank one Gu Master, but with the arrowtail eagle's power, after fusing with it, I could almost kill it. Battle strength is too easily obtained inside this grotto-heaven, thus the traditional Gu Master cultivation cannot prosper."

"But if this Gu Master cultivation way flourished, this city would not just be made of simple rocks and mud, it would have dozens of Gu Houses as defensive towers. The fat butt bird calamity would not have caused such losses."

"However, there are great merits in keeping the calamity around."

"Mountain Cliff City is located at the top of a cliff, it is surrounded by hard mountain rocks, bird faeces are needed to fertilize the land so that farming can take place efficiently. The bird faeces are also a huge resource that can attract merchant caravans to come from afar, engaging in trading."

"Mountain Cliff City can use this test to recruit more talents. Giving the city some external pressure will also promote unity, these city inhabitants will also place their faith in the ruler."

"The killer move myriad beings assimilation transformation affects the entire grotto-heaven. Gu Masters can use the killer move's power to transform in here, the process would require them to expend their positive emotions. Thus, Combat Beast Envoys are usually people with rich positive emotions."

"But this does not mean that the people here are innocent, the higher-ups still possess crafty scheming abilities and methods."

Fang Yuan thought about this as he went to the outer city.

"Ah, Lord Zhan Bu Du."

"Young master Zhan Bu Du."

"Hello, young master!"

"Young master fought heroically, all of us watched it from here."

Along the way, Fang Yuan was well received with everyone's greetings.

He opened his mouth and scratched his head, he smiled in an embarrassed manner, revealing his white teeth: "Hi everyone, hi everyone, don't call me young master or lord, just call me Little Du!"

"Here, uncle, let me help you." Fang Yuan's eyes shined as he walked forward to an old man, snatching his shovel away.

"Uncle, take a break, let me help you dig the faeces up." Fang Yuan said.

"Oh, Little Du, you came to help me again. You are such a good child, you are a good child!" The old man was so moved his eyes turned red.

Even though Combat Beast Envoys had rich positive emotions, strength often changed people, many people would mind their own statuses, who would act like Fang Yuan, even though he was the Mountain Cliff City Lord's disciple, he came to the mortal area and had no fear of getting tired or dirty, he helped these mortals with his own strength.

Fang Yuan worked as he thought: "Looking at the time, my main body is about to take action. My progress alone will not reach my goals in the short time, I need the main body to unleash a beast calamity while I cooperate with him."

"The main body's beast calamity will not be a tiny problem like the fat butt birds."

While the city people praised Fang Yuan immensely, they had no idea that he was plotting a devious and vicious scheme that would harm the entire grotto-heaven right now.

[Reverend Insanity](#)

Chapter 1854: Twelve Zodiac Battle Formation

The water of the River of Time flowed slowly, emitting beautiful lights of various colors.

Compared to the River of Time, this river water was not wide or deep, it was just a tributary.

This was Beast Calamity grotto-heaven's tributary of the River of Time, because of it, time could flow in Beast Calamity grotto-heaven, it was not a still and motionless world.

A figure suddenly appeared.

He had a pale face that resembled jade, he had a divine and unparalleled appearance, his nose bridge was tall and his eyes were dark like the abyss, his long hair extended to his waist, resembling a black waterfall.

It was Fang Yuan's main body!

"Let's do it here." Fang Yuan looked at this tributary of the River of Time, he waved his hand.

Suddenly, twelve balls of light shot out .

The balls of light landed in the tributary of the River of Time, turning into twelve immemorial year beasts.

These twelve immemorial year beasts had different forms, they were the rat, ox, tiger, rabbit, dragon, snake, horse, sheep, money, chicken, dog and pig. Among them, the immemorial year rat, ox and dog were the most powerful and outstanding.

Back then, when Fang Yuan fought against Heavenly Court's Gu Immortals in the River of Time, he had used Myriad Year Flying Warship to defeat them. But towards the end, these three immemorial year beasts came to fight Fang Yuan, the immemorial year ox crashed into Myriad Year Flying Warship and damaged it, the immemorial year dog's bite crushed the sides of the vessel, while the immemorial year rat directly went inside and took away Years Flow Like Water!

Thankfully, Fang Yuan had prepared for this and created a fake Years Flow Like Water as bait, the immemorial year rat was deceived and took away the bait, it attracted a lot of attention and helped Fang Yuan's Myriad Year Flying Warship to escape from danger.

After the matter, Fang Yuan recovered and went back into the River of Time using Myriad Year Flying Warship, he went to find these immemorial year beasts. After some effort, he finally subdued them all.

As a result, Fang Yuan finally collected all twelve immemorial year beasts.

While cultivating, Fang Yuan used this foundation to assemble his Twelve Zodiac battle formation.

"Right now, I have not practiced Twelve Zodiac battle formation enough to fight against Heavenly Court, but against Beast Calamity grotto-heaven, it is more than sufficient." Fang Yuan had a plan in his mind.

The Twelve Zodiac battle formation was an ancient battle formation, it was not the same as the current era's Gu formations.

And because Fang Yuan's main body was not inside controlling it, there was a great difficulty in trying to manipulate this ancient battle formation.

It was still effective against Beast Calamity grotto-heaven's inhabitants, but against Heavenly Court's experts, it would expose too many flaws, they would not be threatened by it.

Immemorial year beasts roared as the Twelve Zodiac battle formation activated, twelve lumps of piercing light formed into twelve golden pillars that stabbed into the bottom of the river, while extending up towards the sky.

The pillars were tightly connected together, golden radiance burst out as the twelve golden pillars vanished, only a dense golden fog remained, it shrouded over the tributary of the River of Time, it was so thick one could not see anything inside.

Swish swish swish!

The golden fog influenced the tributary of the River of Time, causing the river water to move quicker and quicker.

The Twelve Zodiac battle formation was an offensive battle formation, but Fang Yuan was a quasi-supreme in time path, when he activated it, he could break free from the limitations of the battle formation, creating a profound change to influence the time flow in Beast Calamity grotto-heaven itself.

This influence was naturally very severe.

"At this moment, the qilin heavenly spirit should have noticed it." Fang Yuan smiled as he waved his sleeves, opening his immortal aperture's entrance and letting out a large number of year beasts.

Among these year beasts, there were desolate beasts and also ancient desolate beasts.

The year beasts growled and roared, they charged out of the golden fog as they invaded Beast Calamity grotto-heaven.

Any time path Gu Immortal attacking a grotto-heaven or blessed land would have a different route that other paths could not use, that was the tributary of the River of Time.

As a time path quasi-supreme, he naturally had such a method.

Fang Yuan was a huge demon of the current era, once he acted, he caused an overwhelming influence on the entire Beast Calamity grotto-heaven.

Beast Calamity grotto-heaven's qilin heavenly spirit was shook awake: "Oh no! The tributary of the River of Time has been altered, there is a time path great expert forcefully modifying the time flow of this grotto-heaven, we need to stop them!"

The cultivators in Beast Calamity grotto-heaven went on another cultivation way and did not know the outside world, they thought that Beast Calamity grotto-heaven was the entire world, they could not even connect to treasure yellow heaven.

But the qilin heavenly spirit was born from the obsession of Beast Calamity Immortal, it was not restricted by this.

The qilin heavenly spirit had a lot of knowledge, after Fang Yuan made his move, it immediately sensed that Beast Calamity grotto-heaven was in an incredibly dangerous state.

Beast Calamity grotto-heaven's rate of time was raised several times by Fang Yuan, this meant that calamities and tribulations would descend very rapidly. Even though Beast Calamity grotto-heaven had the protection of myriad beings assimilation transformation, it could not endure the non-stop occurrence of the calamities and tribulations.

The qilin heavenly spirit did not show up, but it had control of Beast Calamity grotto-heaven, it had many ways to hint the Gu cultivators of this place. Furthermore, Fang Yuan purposely wanted them to notice him, he sent a large number of year beasts that left the tributary of the River of Time, showing up everywhere in Beast Calamity grotto-heaven.

A mighty tribulation instantly formed, it caught all of the Gu Immortals in Beast Calamity grotto-heaven unguarded.

Because of the year beasts' destruction, a lot of areas suffered great losses, lives were lost, the entire grotto-heaven was in a state of chaos and commotion.

Mountain Cliff City was implicated as well, as a Gu Immortal, Mountain Cliff City Lord was also mobilized to fight.

"To settle this tribulation, we need to deal with the source. After I leave, Mountain Cliff City will be in your hands." Mountain Cliff City Lord instructed.

His subordinates in the city quickly nodded as they showed solemn expressions.

Without Mountain Cliff City Lord here, they lacked confidence.

"Master, don't worry, I am here!" Zhan Bu Du shouted loudly, his innocent face was filled with fighting spirit, this made everyone chuckle.

"The future belongs to you, my disciple." Mountain Cliff City Lord patted the shoulder of Fang Yuan's clone as he turned to leave.

Fang Yuan watched the old man leave as he thought: "The main body attacked and set a formation in the tributary of the River of Time. After Mountain Cliff City Lord arrives, he will be trapped within the formation, awaiting my rescue. The stage has been set, all it needs is a protagonist, me."

Time passed rapidly, months went by in an instant.

Year beasts continued to spread out, but Fang Yuan's main body controlled the source, he prevented this calamity from spreading to the core area of Beast Calamity grotto-heaven.

As the sole super force in the grotto-heaven, the Combat Beast Guild started to deploy young Gu Masters.

Zhan Bu Du was among them.

He was brought to a valley with a group of similarly aged Gu Masters.

This was an entrance that the qilin heavenly spirit had secretly created, it could allow one to enter or leave the tributary of the River of Time.

The guild master was the current generation Combat Beast King, he was a thin old man, speaking to these youngsters about the situation personally: "...We found out from our investigation that the golden fog in this river has many peculiar traits. The younger and stronger an individual is, the easier they can enter or leave. Right now, most of the Combat Beast Warriors are trapped inside the golden fog, you need to save them and bring them out."

This was naturally the arrangement of Fang Yuan, his purpose was to ensure that his clone would be chosen for this mission.

Zhan Bu Du had already reached rank two, his cultivation level was outstanding. Furthermore, he had the future desolate beast, arrowtail eagle!

Along with Zhan Bu Du's own determination and desire to save his master, he wanted to go even if his life would be sacrificed.

His incredible acting made everyone believe it was the truth, he gained huge prestige.

"We will be relying on all of you, even though you are all young, the world is in great danger, we need your strength to deal with this crisis. You will be the saviors of the world!" The Combat Beast King proclaimed as he stirred the fighting spirits and enthusiasm of the youngsters.

Zhan Bu Du rolled his eyes in his head but he had the most enthusiastic performance, he was overflowing with fighting spirit as he became the first to rush into the tributary of the River of Time.

The tributary of the River of Time had spreading golden fog, Gu Masters could step inside like they were stepping on land.

There were wild beasts in here, the strongest were mutated beasts, there were no desolate beasts. Of course, for these youngsters, they were a huge obstacle already.

The Combat Beast Warriors who came in earlier were all suppressed, their bodies were shrouded in golden fog as they became golden statues that could not move with ease. Meanwhile, the first batch of warriors who entered the golden fog were all stiff like statues, they could not move at all.

Zhan Bu Du went in and started killing mutated beasts, saving his comrades, he acted as a leader and was incredibly outstanding.

As Gu Immortals got saved one by one, Zhan Bu Du became the benefactor of them all.

"To think that I would be saved by a young Combat Beast Envoy one day." Many Gu Immortals sighed with similar thoughts.

"Thank you, young lad, if you face trouble in the future, come look for me in Sacred Eagle City!" This Eagle Warrior was killed by Fang Yuan in the previous life, to think that Fang Yuan's clone would save him this time.

"My master is Mountain Cliff City Lord, did anyone see him?" Zhan Bu Du asked whenever he saved someone, even though he knew where Mountain Cliff City Lord was kept by his main body.

"Little Du is such a great child, he had never given up on saving his master."

"He is a good child that knows how to repay gratitude."

"I really envy Mountain Cliff City Lord, he has taken in such a good disciple!"

"Little Du, you cannot go in anymore, this golden fog has an incredibly fast rate of time, your lifespan will be used up quickly."

"I am not afraid!" I need to save my master. All my achievements today are due to my master's guidance and teaching. Even if I need to give up my life, I will save him!" Zhan Bu Du did not waste any chance to act, he spoke righteously.

"And this is a good thing too, the faster the time, the faster I cultivate, look, after just a few days, I am already a rank three Gu Master. The stronger I become, the more people I can save, I will definitely save my master!" Zhan Bu Du shouted loudly, he made sure many people could hear him.

"Child, I will not let you sacrifice yourself in vain, this is a lifespan Gu, it can raise your lifespan and supplement your losses." The Combat Beast King arrived in time, he gave Zhan Bu Du a lifespan Gu.

Zhan Bu Du pretended to be surprised and joyful, he quickly rejected: "Old grandpa, you are so old already, you should use it instead, it can make you live longer."

Combat Beast King was very happy, he had not chosen the wrong person after all, he told Zhan Bu Du with a joyful tone: "Good child, good child. I have more here, you need this lifespan Gu now to maintain a youthful state, otherwise you cannot get inside the golden fog."

"Ah, I almost forgot! No wonder I felt like it was getting harder to enter the golden fog." Zhan Bu Du realized at once, he was quite troubled, after a 'tough decision', he nodded as he took the lifespan Gu and used it.

Fang Yuan's clone was the greatest contributor in this situation, most of the Combat Beast Warriors were saved by him, the Combat Beast King definitely wanted to ensure his safety.

Naturally, he did not know that this was all Fang Yuan's scheme.

Fang Yuan's clone had a great excuse to gain a huge boost in strength, soon, he rose to rank five cultivation level under everyone's view!

[Reverend Insanity](#)

Chapter 1855: Comprehending Qi Wall

Beast Calamity grotto-heaven, tributary of the River of Time.

Fang Yuan's clone Zhan Bu Du went into the golden fog time and time again, saving the Gu Immortals who were trapped inside.

Each time, he had to undergo tough battles, he had to face many fierce beasts, he was covered in injuries as a result of his hard work. The youngsters who came with him slowly accepted his leadership, because the battle results showed that Zhan Bu Du's decision making was very wise.

"There are three beast groups this time from the southeast, north, and southwest, they are encircling you." Fang Yuan's main body transmitted.

"Oh okay. I will lead them to break out then. Also, get rid of the white robed youngster beside me." Fang Yuan's clone Zhan Bu Du responded.

"Sure." Fang Yuan's main body stood at the densest part of the golden fog, he was lying down casually, with a relaxed expression.

He willed as the year beast army charged out, towards the group that his clone was in.

Most of his attention was placed on Primordial Origin's true inheritance.

During the battle in Eastern Sea over Dragon Palace, Fang Yuan not only obtained Dragon Palace, he also obtained a Primordial Origin true inheritance after deceiving Duke Long!

This Primordial Origin true inheritance segment only contained the first half, but even so, Fang Yuan praised it with deep admiration.

From just this half of the true inheritance, he understood the style of the Remote Antiquity Era, qi path had been grand and incredibly powerful. He also learned about the talent of Primordial Origin Immortal Venerable, he was truly extraordinary, as expected of a venerable, he could not be looked at using common sense.

If you enjoy our content, please support our site by disabling your adblocker. We depend on ad revenue to keep creating quality content for you to enjoy for free. Ads are necessary to keep the platform free for all.

"The content of this true inheritance is still very applicable even in today's context."

“Of course, after so many years, qi path has developed a lot of new styles. The unlimited qi sea killer move that I possess is the greatest proof.”

This part of Primordial Origin’s qi path true inheritance mainly talked about the killer move qi wall.

Initially, Duke Long did not want to hand it over, but Fang Yuan had a firm attitude, qi wall was the signature method of Primordial Origin Immortal Venerable, it was renowned in history, almost everyone knew about it.

Duke Long wanted a truce with Qi Sea Ancestor, seeing Fang Yuan’s firm attitude, he gritted his teeth and handed it over.

“Using this qi wall killer move, I will gain a deeper understanding of Heavenly Court’s qi wall, I will try to be able to break it!” Fang Yuan’s eyes shined with bright light.

In the previous life, Heavenly Court’s qi wall was a huge problem to Longevity Heaven.

If Fang Yuan could unravel this move, it would be a huge blow to Heavenly Court.

But evidently, this would be a tough mission, after all, it was Primordial Origin Immortal Venerable’s arrangement. The only good thing was that Primordial Origin Immortal Venerable created this qi wall killer move back then, it had lasted until today, it was outdated already.

This was likely Fang Yuan’s chance of unraveling it.

Of course, it would not be surprising if he failed.

It was still the same logic, there were no invincible Immortal Gu, only invincible Gu Immortals. There was no perfect or invincible killer move, every killer move could be unraveled and broken, but the same killer move would have vastly different effects in the hands of different Gu Immortals.

If you enjoy our content, please support our site by disabling your adblocker. We depend on ad revenue to keep creating quality content for you to enjoy for free. Ads are necessary to keep the platform free for all.

It was a huge uncertainty whether Fang Yuan could unravel the qi wall killer move that Primordial Origin Immortal Venerable had personally used.

Or maybe Duke Long noticed this himself, that was why he gave details of the killer move, qi wall, to Fang Yuan without much concern.

“At the same time, this half of the true inheritance is a huge bait to lure me into joining Heavenly Court.” Fang Yuan sneered.

If there was really a Qi Sea Ancestor who lived in seclusion in Eastern Sea, upon seeing this temptation, he might not be able to control himself.

As a rank eight secluded cultivator for so long, Qi Sea Ancestor naturally had no interest in political authority. At the same time, he cultivated qi path, it had been declining for so long, Heavenly Court solely held the most valuable qi path true inheritance in the world.

But the truth was that Qi Sea Ancestor was only one of Fang Yuan's disguises. If Duke Long knew that he was helping his enemy now, who knew how he would feel.

"The timing is about right." Fang Yuan researched this qi path true inheritance as he left some attention on the Twelve Zodiac battle formation.

After this bit of time, he had already worked with Zhan Bu Du to perform another show for everyone.

Several of the youngsters around Zhan Bu Du were sacrificed and died in battle. These people were an obstacle to him, Fang Yuan had gotten rid of them in advance for his future plans.

Zhan Bu Du saved a Gu Immortal and returned again.

There were only two Combat Beast Warriors left in the golden fog, one of them was Mountain Cliff City Lord.

After Zhan Bu Du saves Mountain Cliff City Lord, Fang Yuan would recall his Twelve Zodiac battle formation.

If you enjoy our content, please support our site by disabling your adblocker. We depend on ad revenue to keep creating quality content for you to enjoy for free. Ads are necessary to keep the platform free for all.

Things had to be done in sequence, Fang Yuan had already reached his current goal in nurturing the clone.

Other than an increase in cultivation level, Zhan Bu Du also grew his network a lot, having relationships with many experts. After this battle, almost all of the Gu Immortals in this Beast Calamity grotto-heaven were indebted to him.

This was not just an ordinary favor they owed him, it was the favor of saving their lives!

In the outside world, Gu Immortals might not want to repay such favors. but here, any Combat Beast Warrior would be filled with deep positive emotions, all of them were people who would follow the rule that a droplet received in need will be repaid with a whole spring.

Zhan Bu Du would not lack resources henceforth, his future was bright. But he would not act like these people owed him, he would be even more polite and courteous, he would not mind small losses and would perfectly display his exemplary personality and graciousness.

Fang Yuan could originally kill them all, but these Combat Beast Warriors were all spared.

In the previous life, he attacked Beast Calamity grotto-heaven openly and killed many Combat Beast Warriors. This time around, he changed his plan, he wanted to annex it using another plan, he wanted to preserve Beast Calamity grotto-heaven's value to the highest level.

"The Gu Immortals in this Beast Calamity grotto-heaven should all be taken in as my subordinates, this will greatly increase the strength of my forces."

“During the period of the Central Continent Refinement Path Convention, if I send them to battle, there should be effective results.”

“Of course, their fighting style is too simple, they can catch an enemy off guard but once their methods are seen through, these Gu Immortals would suffer huge losses.”

Beast Calamity grotto-heaven’s Gu Masters took a shortcut, because strength was obtained too easily, they did not have many methods, this was not the traditional Gu cultivation.

Like how Fang Yuan assembled a simple Twelve Zodiac battle formation and toyed around with all of the Gu Immortals in this Beast Calamity grotto-heaven. Even the Combat Beast King could not tell the truth, he thought it was the golden fog causing problem, he did not even discover the hidden Twelve Zodiac battle formation.

If you enjoy our content, please support our site by disabling your adblocker. We depend on ad revenue to keep creating quality content for you to enjoy for free. Ads are necessary to keep the platform free for all.

With just this difference in cultivation method, Fang Yuan could easily suppress them completely.

Like in the previous life when Fang Yuan killed Eagle Warrior, he turned into the Bull-headed Demon God and slaughtered countless people. These Combat Beast Warriors and Combat Beast King had thought Fang Yuan was a beast calamity, he had many powerful combat techniques. They did not think that he had Gu worms or killer moves, they simply lacked knowledge.

Days later, Fang Yuan retracted the Twelve Zodiac battle formation, the golden fog that shrouded the tributary of the River of Time vanished.

To prevent the enemy from feeling suspicious, Fang Yuan left a large batch of year beasts behind, making it look like the golden fog’s final struggle.

After a tough battle, the Combat Beast Guild gained victory, everyone cheered and celebrated.

The Gu Immortals were all saved, they began to move around, killing or capturing the powerful year beasts that were scattered all over Beast Calamity grotto-heaven.

The golden fog vanished, but Beast Calamity grotto-heaven was still affected by Fang Yuan’s killer move, time was moving very quickly.

Zhan Bu Du became the hero and recipient of every Gu Immortal’s gratitude.

The Combat Beast King even rewarded him on the spot, he shouted: “Oh Little Du, you are truly our little savior. You saved everyone, you saved the entire world indirectly!”

Zhan Bu Du quickly waved his hand as he expressed his thanks, he was very polite.

From this moment on, the title of little savior became the symbol of Zhan Bu Du.

Next, he would wait for the next ‘fortuitous encounter’ to become a Gu Immortal. After that, he would accept the test openly and become the inheritor of Beast Calamity Immortal’s true inheritance.

If you enjoy our content, please support our site by disabling your adblocker. We depend on ad revenue to keep creating quality content for you to enjoy for free. Ads are necessary to keep the platform free for all.

Fang Yuan's main body left the tributary of the River of Time, he used heaven form to inspect Profound Literature grotto-heaven.

As Fang Yuan's clone, Li Xiao Bai did not have as much progress as Zhan Bu Du, but his life was still quite good.

Ever since the previous poet recital, Li Xiao Bai became the focus of Teacher Jiang's teaching, he gave him many private tuition sessions that were held in secret.

Li Xiao Bai gradually displayed great talent and aptitude to Teacher Jiang's surprise, he started to teach him more wholeheartedly.

"At this rate, I am still far from getting close to Profound Literature grotto-heaven's higher-ups."

"It is a pity."

"Profound Literature grotto-heaven is different from Beast Calamity grotto-heaven, the latter is shut and isolated, while the former has a rank eight Gu Immortal, this is also an information path grotto-heaven, it most excels in collecting information. There isn't much that I can do."

"At least, I cannot use the tributary of the River of Time, if I use the Twelve Zodiac battle formation, it would be seen through easily."

Fang Yuan decided to wait for Li Xiao Bai to develop slowly.

He could use the tributary of the River of Time to lead his beast army into Profound Literature grotto-heaven. But that way, he would need to fight against a rank eight Gu Immortal.

Fang Yuan had no fear of course, but it would be hard to win quickly. For Profound Literature grotto-heaven, the losses would also be great when battle ensued.

Fang Yuan did not want to see this happen.

If you enjoy our content, please support our site by disabling your adblocker. We depend on ad revenue to keep creating quality content for you to enjoy for free. Ads are necessary to keep the platform free for all.

If attacking forcefully worked, he would have done it long ago.

He could not annex Profound Literature grotto-heaven itself, but the information path inheritance and all of the resources inside were things that Fang Yuan wanted.

Fang Yuan had five clones now.

The time path clone was the earliest clone, its purpose was to make use of the light of wisdom, it was still a rank six.

The dragonman clone had the highest cultivation level at rank seven, it controlled Dragon Palace and was the strongest among them. He was currently engaging with Gu tribe, he had some surprising gains.

After getting help from Fang Yuan, Zhan Bu Du developed rapidly. Li Xiao Bai needed to rely on his own hard work, it was not time to make any move yet.

As for Fang Yuan's fake identities, he had even more of them.

On this day, Fang clan contacted Fang Yuan.

Or more precisely, they were not looking for Gu Yue Fang Yuan, but his disguised identity — Suan Bu Jin.

"Elder Suan Bu Jin, we need your help, assist second supreme elder to try to refine Divine Bean Palace as soon as possible!"

Fang Yuan was overjoyed, he joined Fang clan not just to develop green ghost desert, his other goal was to try to get Divine Bean Palace.

This rank eight Immortal Gu House was created by Genesis Lotus Immortal Venerable, it had great power, Fang Yuan had seen its power himself.

If you enjoy our content, please support our site by disabling your adblocker. We depend on ad revenue to keep creating quality content for you to enjoy for free. Ads are necessary to keep the platform free for all.

"I also have karma divine tree with me, this is the crucial trump card in getting this palace."

[Reverend Insanity](#)

Chapter 1856: Am I, Suan Bu Jin, Such a Person?

Fang clan headquarters.

An Immortal Gu House that was made of green bricks and golden tiles, it was lofty like a mountain, liveliness mixed in its solemnity, and emitted dense fragrance of plants and trees.

The wide and enormous palace hall could be seen through the open door. There were dozens of large pillars in the hall, they were thick and sturdy, glittering with bronze radiance.

Carved on the plaque of the palace door were three large words — Divine Bean Palace!

And around Divine Bean Palace was a crescent shaped wisdom path Gu formation that surrounded half of Divine Bean Palace.

This wisdom path Gu formation flickered with light blue radiance that shone upon Divine Bean Palace. The blue light was like water that tried its best to seep into Divine Bean Palace but did not attain much effect.

After continuing for a while, the wisdom path Gu formation stopped and two Gu Immortals came out from inside.

One wore a yellow robe, he was bearded and had an ordinary appearance, he was like a mortal. Right now, his face was pale with sweat covering his forehead, he was Fang clan's second supreme elder, Fang Di Chang.

The other person was wearing a black robe, he was a skinny middle-aged man with long grey hair and appeared to be proud and arrogant, he was Fang Yuan's disguise, Suan Bu Jin.

Fang Yuan sighed: "This Divine Bean Palace is truly amazing, it feels like a living creature even without anyone controlling it. It is like a gigantic tree while we are like two worms using all our efforts to infiltrate it, but we can barely make a dent in Divine Bean Palace."

"Indeed." Fang Di Chang nodded: "Even worse is that we destroyed some of this giant tree's branches but they will regrow not long later."

Fang Yuan analyzed: "This is indeed Genesis Lotus Immortal Venerable's style. According to historical records, he was the venerable with the most abundant immortal essence and the highest recovery ability, which is the essence of wood path. Second supreme elder, we are wisdom path Gu Immortals, it will be very difficult for us to refine this wood path Immortal Gu House! How about we invite one or two wood path great experts to cooperate with us, there will definitely be great results."

Fang Di Chang smiled bitterly: "Brother, do you think I did not try it? Unfortunately, wood path is rare in Western Desert, moreover, news of my clan obtaining Divine Bean Palace has already been exposed, the other super clans are jointly obstructing us in this aspect."

"Naturally, there is also a force who took the initiative to send wood path Gu Immortals, brother, can you guess which force it is?" Fang Di Chang asked.

Fang Yuan's thought moved and replied immediately: "It should be Heavenly Court, right?"

"You are right, it is Heavenly Court! Duke Long said he would send wood path Gu Immortals to retrieve Divine Bean Palace, he guaranteed all our past conflicts will be written off and also promised countless resources." Fang Di Chang smiled coldly.

After the Eastern Sea battle, Fang Yuan had an even deeper understanding about Duke Long, so he was not surprised to hear Duke Long willing to compromise.

He said: "Heavenly Court is indulging in wishful thinking, they want to use the current situation of Western Desert to make our Fang clan give in. No matter how many resources they give, how could it compare to the rank eight Immortal Gu House Divine Bean Palace? As long as we can use this Gu House, we can simply loot resources."

"Hahaha." With a loud laughter, a Gu Immortal walked towards Fang Yuan and Fang Di Chang.

"Brother Suan Bu Jin, you are truly correct." This Gu Immortal was an old man, he was tall and sturdy, with long white hair and beard spreading around his head like a lion's mane, he was Fang clan's first supreme elder, Fang Gong.

Fang Gong patted Fang Yuan's shoulder and said passionately: "Brother, it was hard on you; the moment you arrived, you had to start making deductions in the formation before even getting to rest. I have already arranged a banquet to welcome you."

Fang Yuan smiled: "Thank you for the concern, first supreme elder. Deciphering Divine Bean Palace has stimulated my excitement and morale. Moreover, I am Fang clan's external supreme elder as well, helping Fang clan is helping myself, isn't that so?"

His mind, however, was clear: "Fang clan is facing too much pressure so they finally asked for my help to refine Divine Bean Palace as quickly as possible, Fang clan's enthusiastic attitude towards me is not strange at all. Looks like I can use this chance to extort them and get some benefits."

No doubt about it, Fang Yuan was wicked and calculating!

Not only was he conspiring to seize Divine Bean Palace, he was even going to squeeze benefits out of Fang clan in the process.

Fang clan was quite unlucky to have recruited him. In the previous life, without Fang Yuan's interference, Fang clan's situation had been good. They resolved their predicament with their own strength, though they did not seem to have refined Divine Bean Palace even by the time of the Refinement Path Convention.

The banquet was dignified, Fang clan truly wanted to get Suan Bu Jin's help. Fang clan's higher ups had a warm attitude and the rank eight Fang Gong was even more amiable.

Fang Yuan promised on the spot to use all his strength to help.

Both the hosts and guest were happy.

Were Fang clan to know that this Gu Immortal that they were passionately entertaining was the mastermind behind their problems, they might want to directly skin Fang Yuan alive and pull out his tendons!

In the coming days, Fang Yuan followed Fang Di Chang and assisted him in refining Divine Bean Palace through the wisdom path formation.

Divine Bean Palace had never-ending vitality, it could restore itself and also repel the infiltration. If the progress of infiltration was ten today, it would be reduced to three or four tomorrow.

Every time Fang Yuan and Fang Di Chang deduced, they would only stop when their minds were heated and used to the limit.

"Although I haven't used all my strength, I am displaying the standard of a first rate rank seven wisdom path Gu Immortal."

"Even with such help, Fang Di Chang's progress is slow. There is no need to think about what kind of progress he had without my help."

Fang Yuan understood the situation, feeling a trace of pity towards Fang Di Chang but also a trace of joy.

It was because Fang Di Chang used all his strength every time to refine Divine Bean Palace and had no spare energy left that Fang Yuan's scheme against Fang clan could succeed.

If they were to really contest, Fang Di Chang was a wisdom path great grandmaster, a level higher than Fang Yuan.

Both exhausted their strength every time, Fang Yuan was concealing a portion of his strength but he also slowly began to feel tired.

Fang Di Chang was even more so because he was using his full effort

With such a desperate and stubborn spirit, although the refinement of Divine Bean Palace was still very difficult, the progress had accumulated quite a bit.

"Fang clan has wisdom path and formation path attainment, they want to use this to forcibly take over Divine Bean Palace."

"This is a true forceful refinement!"

"There is naturally hope of success. But the price they have to pay is enormous, just the immortal essence alone will amount to a huge sum."

"This might be a lot easier if they get help of wood path and refinement path. Naturally, if I use all my strength without hiding my attainment, that would be another outcome."

But Fang Yuan would not do this.

Sensing the time was right, he stopped on a certain day and did not appear in time.

Fang Di Chang quickly inquired: "Brother, are you injured? Is it serious? I have already made appropriate arrangements for the treatment."

Fang Yuan coughed: "Thank you brother for the concern, I am injured indeed but it is not serious, I can deal with it myself. It is just that... my immortal essence reserves suffered a huge loss. My mind is also tired, the amount of work is too much and too heavy. Who knows when we will be able to completely refine Divine Bean Palace. I feel like I won't be able to persevere on."

Fang Di Chang's eyes opened slightly wide.

Suan Bu Jin wanted to quit the task!

What should they do now?

They had made some progress with much difficulty, if they did not persist in it every day, this progress would be lost rapidly.

Thinking of Fang clan's situation as well, Fang Di Chang was anxious.

"Brother!" Fang Di Chang smiled: "Our Fang clan won't mistreat you, you can rest assured."

Fang Yuan said earnestly, "Brother, please don't think I am intentionally trying to quit! I am not that kind of person! I believe in Fang clan and joining Fang clan is the best proof of it. At the same time, our

collaboration had begun long ago, back then when we fought for Divine Bean Palace, we struck an agreement. I have never forgotten this agreement.”

Fang Yuan spoke earnestly, and as a wisdom path great grandmaster, Fang Di Chang immediately understood the underlying meaning.

He laughed: “Brother, I understand, hahaha. We also have not forgotten about the agreement back then. You helped our Fang clan to fight for Divine Bean Palace, and according to the agreement, our Fang clan needs to give an Immortal Gu, but it has been delayed until now, this is my Fang clan’s mistake! I apologize for this. Tell me which Immortal Gu you need, I will immediately arrange someone to send it over.”

“Sigh! I don’t mean that, I don’t mean that. Second supreme elder, I really didn’t mean this, you misunderstood me.” Fang Yuan said.

“Misunderstood? I misunderstood you?!” Fang Di Chang mentally snorted.

He had already seen through Suan Bu Jin, this was an ambitious person who would not act without benefits!

Back then, when they fought for Divine Bean Palace, he had used the chance to make an offer and took away great thief Immortal Gu.

He was playing the same trick again!

Fang Di Chang really wanted to slap this greedy Fang Yuan, but he forcibly restrained himself.

There was nothing he could do about this, he needed Suan Bu Jin’s help! There was indeed good progress with Suan Bu Jin helping him.

Thereupon, Fang Di Chang strongly insisted on giving Fang Yuan an Immortal Gu, but Fang Yuan kept on rejecting him firmly.

Fang Di Chang felt a bad premonition, Suan Bu Jin definitely had a bigger scheme. After a few rounds of back and forth, Fang Di Chang said directly: “Brother, just speak your thoughts.”

Fang Yuan said righteously: “Brother, please don’t look down on me, I am also a member of Fang clan, how could I add to Fang clan’s troubles by extorting it in this current situation? Am I, Suan Bu Jin, such a person? I felt that the previous Immortal Gu reward was too big so I am willing to take a step back, I do not need the reward to be an Immortal Gu.”

Fang Di Chang felt even more uneasy as he heard Fang Yuan continue: “If you truly want me to speak, then I will be open with you. Brother, we are on the same side, hehe, I also can’t hide anything from you. To tell the truth, I have some interest towards Thieving Heaven Demon Venerable’s theft path true inheritance. I don’t need any theft path Immortal Gu and only want to take a look at the contents of the true inheritance. Naturally, brother, if you think this is too much, then forget it.”

Even Fang Di Chang, a wisdom path great grandmaster who had an excellent bearing normally, had a change in his expression as he glared at Fang Yuan and cursed in his head: “So your target was my clan’s Thieving Heaven true inheritance all along! Such huge guts!”

Chapter 1857: Comprehending Thieving Heavens True Inheritance

Chapter 1857 Comprehending Thieving Heaven's True Inheritance

Boom!

Fang clan's first supreme elder Fang Gong slammed the table and stood up from his chair with flames of fury burning in his eyes: "This Suan Bu Jin is really greedy! He actually dared to demand my clan's theft path true inheritance, who does he think he is? He is only a lone cultivator with rank seven cultivation, he dares to blackmail my Fang clan! He deserves to die! We should kill him!"

Fang Gong was filled with endless fury when he listened to Fang Di Chang's report.

Fang Di Chang had already calmed down: "Suan Bu Jin has some skills indeed. Our decision to recruit Suan Bu Jin was to deal with the situation back then. Suan Bu Jin is a wisdom path Gu Immortal and is extremely shrewd, he chose this timing to ask for the theft path true inheritance when we cannot refuse him easily."

"What? Are you really thinking of giving the theft path true inheritance to him? That is Thieving Heaven's true inheritance!" Fang Gong's eyes were wide open.

Fang Di Chang smiled bitterly: "If we don't give it to him, he won't work, what can we do to him? Yes, he is currently in our clan headquarters and we might be able to get rid of him if we attack together. But what about after killing him? Without his help, it is extremely difficult for me to refine Divine Bean Palace and it will take way too long. But in the current situation, Fang clan is facing pressure from everywhere, even rank eight Gu Immortals made a move not long ago!"

This was the task that Fang Yuan sent two dragon generals to do, but their actions were clean and their traces were erased, Fang Di Chang's energy and attention was mostly focused on Divine Bean Palace so he was not able to see through this.

Everyone in Fang clan believed that this was either the work of Western Desert's super clans or some Western Desert demonic immortals with evil intentions, it could even be Heavenly Court.

Fang Gong was silent, he was the first supreme elder after all, he also began to calm down.

With Fang clan's current state, they truly needed Suan Bu Jin's help. Once they got control of Divine Bean Palace, they could make a comeback and change this predicament. If Fallen Flower Hall, Inquiry Dock, and Chicken Dog Coop were restored in the future, Fang clan's overall strength would probably surpass almost all the Western Desert righteous path super forces.

Suan Bu Jin was the key for Fang clan to pass the predicament and rise up to the top!

"He is indeed a wisdom path Gu Immortal, requesting to quit at such a juncture, hehehe, this Suan Bu Jin has guts and has skills as well." Fang Gong smiled coldly.

Fang Di Chang knew Fang Gong well and realized from his tone that he had agreed.

Naturally, when Fang clan passes this dangerous moment, Fang Gong would definitely put Suan Bu Jin in his place and vent this grievance!

Fang Di Chang smiled: "Actually, Suan Bu Jin has a sense of propriety. He did not ask for my wisdom path inheritance and also did not covet the secrets of our clan's Immortal Gu Houses. If he had mentioned these requests, we would be in a real dilemma."

Fang clan's foundation was not theft path.

It never was.

Theft path was only a chance gain that Fang clan schemed from an otherworldly demon.

Over these years, Fang clan's usage of this Thieving Heaven true inheritance had already reached the limit.

The theft path Immortal Gu House they used to retaliate on Dong Lu Chen was actually an incomplete product. Just this already answered many questions.

Fang Di Chang laughed: "This Suan Bu Jin has a deep attainment in wisdom path. Moreover, I made quite a lot of progress with his help over these days. Just look at his request, he had a perfect and experienced grasp of the timing, he did not cross the bottom line while achieving the highest benefit for himself. It is not easy to accomplish this."

Fang Gong also laughed: "Hehehe, you really think highly of this guy, you are actually still praising him."

Fang Di Chang's eyes shone: "Talent is talent, how can I belittle him because of my own bias? If this kind of talent can really work for our clan, it would be an excellent thing."

Fang Gong squinted his eyes: "It won't be easy to make an audacious guy like Suan Bu Jin submit and be loyal to our clan."

After a round of discussion, Fang clan agreed to let Fang Yuan browse the Thieving Heaven true inheritance.

Fang Yuan obtained the contents of the true inheritance.

It was indeed a Thieving Heaven true inheritance, the essence of it was the killer move steal dao.

Back then, Thieving Heaven Demon Venerable was able to create theft path because of this killer move.

This killer move obviously had huge significance, it was the origin of theft path!

Fang Yuan was in awe as he looked at it.

In this true inheritance, the majesty of steal dao was shown completely. Because what it stole was not just lives or objects, but the natural world itself. Any dao mark in the world could be stolen by it!

Besides this, there was something that made Fang Yuan look at it time and again while feeling lingering desire.

This was the theft path Immortal Gu House recorded in the Thieving Heaven true inheritance — Thieves Den.

“My theft path attainment level is great grandmaster while none of Fang clan’s Gu Immortals have such attainment. So even though Fang clan’s superiority lies in constructing Immortal Gu Houses, they have always been without options to repair Thieves Den and left it incomplete.”

Fang Yuan only took a few glances at the relevant contents of Thieves Den and saw the efforts Fang clan’s successive generations had made — they had all tried to repair this Immortal Gu House.

“Although there were many creative thoughts, they did not match theft path and they were at most at a superficial level.”

“But if I were to try to repair it, it would be a different case!”

Fang Yuan was inwardly moved.

But asking for the contents of Thieving Heaven’s true inheritance was already the limit. Fang Yuan knew: Fang clan was almost about to fall out with him but had forcibly held in the thought. Even though Fang clan outright gave the true inheritance, they had firmly engraved this matter in their minds.

If he went a step further and demanded Thieves Den, that would be excessive and way beyond Fang clan’s bottom line, they would never agree!

“Moreover, a wisdom path Gu Immortal like me having so much interest in theft path would be questionable.”

“Fang Di Chang does not have any doubts because I had worked up to it properly. Previously, I used great thief ghost hand, then I used wisdom grasp to kill Wan Liang Han, these left an impression on Fang clan, thus it felt natural to them.”

“But are these all the contents of this Thieving Heaven true inheritance?” Fang Yuan was unable to tell, at least, he was not able to see any unsatisfactory details in this true inheritance. But it was hard to say since Fang clan had the wisdom path great expert Fang Di Chang.

“What if I make a move now and loot them directly?” Fang Yuan thought.

It was not hard for him to deal with Fang clan with his strength. Fang Gong was strong and was a rare strength path rank eight Gu Immortal in the present age, but he was still inferior to Duke Long. There was still a gap between his and Fang Yuan’s strength.

However, Fang Yuan was not confident in defeating him conclusively, Fang Gong had once suppressed Chen Yi and his strength was first rate even among rank eights. Also, this was Fang clan’s headquarters with multiple arrangements which Fang Yuan was not aware of.

The biggest probability was for a huge battle to begin and the whole world to learn of it. At that time, not only would Fang Yuan’s identity be exposed, Western Desert righteous path super forces would also find the perfect reason – help Fang clan to eliminate the demon – to flock over and deal with Fang clan. Moreover, Heavenly Court would not stay idle, they were sure to send Gu Immortals if there were to be such a good opportunity.

Fang Yuan thought for a long while before deciding to help Fang Di Chang and maintain this situation.

This was the best plan which matched with his benefits.

Fang Yuan browsed the Thieving Heaven true inheritance and no longer groaned about tiredness or suffering. He used 'all his effort' to cooperate with Fang Di Chang in forcefully refining Divine Bean Palace. At least, from Fang clan's perspective, he was using all his strength.

The progress was still difficult, but it accumulated every time and finally quantitative change led to qualitative change — Divine Bean Palace's door opened, Gu Immortals could enter it.

This was enormous progress!

Everyone in Fang clan was excited, Fang Di Chang also laughed in joy. They all saw the rise of Fang clan!

However, the following fact was like a basin of cold water that poured down on the feelings of Fang clan's Gu Immortals.

No matter how Fang Di Chang tried, there was not even a trace of progress in refining Divine Bean Palace. This formed a stark contrast to the previous situation.

"Looks like from here on, Divine Bean Palace's structure is different from what I previously deduced and it has underwent a complete change."

"We can only progress by changing the whole wisdom path formation." Fang Di Chang said to Fang Yuan.

Fang Yuan nodded: "But how do we change this wisdom path formation? Previously, we could still probe Divine Bean Palace and gather a lot of information. Sigh, if we had a wood path great expert to help us, it would be much easier. With just us two wisdom paths, we can only make blind guesses!"

Fang Di Chang smiled bitterly: "What else can we do other than make guesses?"

Divine Bean Palace's matter fell into an impasse.

Divine Bean Palace was worthy of being Genesis Lotus Immortal Venerable's creation, the more Fang Di Chang and Fang Yuan researched into it, the more they felt its majesty and ingenuity.

Fang Di Chang racked his brains and thought long and hard, but was still unable to find a good solution.

On the contrary, Fang Yuan had many ideas but he did not mention anything.

In this period of time, he did not have any opportunity to use karma divine tree. If he used this move, there would definitely be huge progress.

"Sitting here in a daze trying to think of a solution is not my way of cultivating. I am going to roam around and relax my mind, maybe I will gain some inspiration in the process." Fang Yuan made an excuse to take his leave.

Fang Di Chang and Fang Gong tried to make him stay but could not, and thinking that they would still need Suan Bu Jin's help later, they let Fang Yuan leave.

Fang Yuan left Fang clan and entered green ghost desert, but it was actually to explore dream realms secretly.

He and Chi Qu You had continued their transactions over this period of time, and by using second aperture Gu, he continued to extort Southern Border's righteous path, asking for wood path related dream realms.

There was no wood path great expert to help them?

Who cares!

Wouldn't it be okay if I became a wood path great expert myself?

Fang Yuan's solution was simple and crude.

These wood path dream realms were of no difficulty, Fang Yuan was already the number one person in the world in terms of experience in exploring dream realms. People like Duke Long could not hold a candle to Fang Yuan!

Fang Yuan's wood path attainment level had always been ordinary, he did not have much contact with it in the five hundred years of his previous life.

But not long later, he became a wood path master.

A few more days passed in the outside world, he became a wood path grandmaster!

He had once again finished exploring all the dream realms he had, Fang Yuan began to research karma divine tree and Divine Bean Palace with greater confidence.

Countless ideas immediately surfaced in his mind and most of them were feasible!

"It seems I need to modify karma divine tree."

"But to modify this killer move, I need to refine a suitable wood path Immortal Gu! These wood path Immortal Gu I have are not suitable."

Fang Yuan was hesitant.

It was not a problem for him to refine wood path Immortal Gu. After all, he had Lang Ya Sect!

But if he did this, the refinement of luck path Immortal Gu would need to be halted.

The two Eastern Sea immortals soul searched Fang Zheng and told the information to Qi Sea Ancestor, thus Fang Yuan knew Heavenly Court's plan and also knew about Qin Ding Ling.

Based on the refinement progress of the hairy man Gu Immortals regarding luck path Immortal Gu, Fang Yuan could deduce Heavenly Court was also rushing to refine luck path Immortal Gu. Although they were unable to succeed in most of the refinements, they were able to refine a small portion successfully.

If he changed his plan now and started refining wood path Immortal Gu on a large scale, it would mean giving up on the competition of refining luck path Immortal Gu.

But if he persisted in refining luck path Immortal Gu, Fang Yuan could only rely on the current karma divine tree killer move to subdue Divine Bean Palace, and this would be much more difficult.

Fang Yuan had a vague premonition that the current chance was invaluable, if he wasted this opportunity, there would be extremely low hopes of getting Divine Bean Palace later on in the future.

Fang Yuan placed great importance on this premonition.

In the previous life, he had accidentally witnessed the activation of Tao Zhu's true inheritance in the Five Regional Mountain Range but was unable to obtain it. He had a similar feeling back then and knew that he had missed an important fortuitous encounter. That lost opportunity made the future him feel deep pity as a result.

As expected!

In the large Central Continent battle, the five regional limit formation played a crucial role. If Fang Yuan had grasped this method, he could not only have dealt with Star Constellation Immortal Venerable's unceasing formation, he could have even responded to heroes among people by using five restriction profound light qi.

And this time, this feeling came when he was facing Divine Bean Palace.

"But it is different from the premonition in the previous life. This happened before I made a choice, while in the previous life, it occurred after the event had happened, I felt it after I had already missed Tao Zhu's true inheritance."

"Is this some kind of progress as well?"

"If so, what was the factor that led to this progress?"

Fang Yuan fell into deep thought.

Fang Yuan was extremely interested in the premonition itself. But what he was even more interested in was what led to this premonition.

After deducing, Fang Yuan got an answer — attainment levels!

"My wisdom path attainment level should be the main reason. Wisdom path masters can produce intuition while wisdom path grandmasters can imitate other paths. Wisdom path Gu Immortals cultivate thought, will, and emotion, the emergence of any feeling is an omen with huge significance, it is different from other paths."

"Secondly is luck path. Luck path is about variables and changes. My luck path is at master, it can also produce intuition."

"After that is time path. In the previous life, my time path attainment was involved when I had the premonition regarding the missed opportunity of Tao Zhu's true inheritance. In this life, my time path attainment is already at quasi-supreme grandmaster, so I can sense certain future situations even better. Because of this, I have this premonition in advance and know the importance of this choice!"

The increase of time path attainment had changed the order of the premonition from after to before, this was a qualitative change!

“Lastly is wood path attainment level. Because it concerns Divine Bean Palace and my wood path attainment level was ordinary before, the premonition felt vague and hazy. But when I became a wood path grandmaster, the missing element in the premonition was filled and it condensed into a concrete form.”

Wisdom path attainment, luck path attainment, time path attainment, and wood path attainment...

These four attainment levels supplemented and complemented each other to form a miracle-like premonition.

Ordinary Gu Immortals could never accomplish this. From ancient times until now, there was probably no other person who cultivated every path like Fang Yuan.

To be more accurate, in the five hundred years of Fang Yuan’s previous life, Spectral Soul Demon Venerable had refined sovereign immortal fetus Gu which created the sovereign immortal body.

Of course, the future was uncertain.

In the future, dream realms would emerge everywhere, Gu Immortals could obtain a rapid increase in their attainment levels of all kinds of paths through these dream realms.

When these attainment levels were combined, who could say if they could not produce premonitions.

Fang Yuan continued to analyze: “The foundation for premonition is wisdom path attainment. The level of time path attainment decides whether the premonition will occur before the event or after the event. Luck path attainment can make me even more sensitive towards certain changes. And the attainment level in wood path or other relevant paths affect the scope of the premonition.”

“My premonition gave a clear sign after my wood path attainment level increased. If I were to raise my other paths sufficiently in the future, I could reach premonitions in everything. What realm will this be?”

At that instance, two words flashed in Fang Yuan’s mind — Omniscience! Omnipotence!

“No, omnipotence is likely impossible, but omniscience can be achieved.” Fang Yuan’s expression was pensive.

When the attainment level of all the paths reached a certain degree, they could create premonitions about all things. This level of premonition was very close to omniscience.

“And if the cultivation of all paths was built on a foundation like the sovereign immortal body, it should be close to omnipotence as well, right?”

“Omniscience, omnipotence...” Fang Yuan muttered, his heart shook and his gaze turned sharp: “If I reach this level, I should definitely be able to clearly observe the path to eternal life!”

Fang Yuan was inwardly excited.

Although he had plenty of experiences and had reborn multiple times, the past experiences were already of not much help to him.

There were many things that needed him to probe and speculate.

For instance, rank nine venerable cultivation, Fang Yuan's quantity of dao marks had already broken the limit of rank eight, and after devouring Qi Sea grotto-heaven, all the calamities and tribulations were skipped, so he should have already surpassed rank eight.

But he did not reach rank nine.

He needed to probe the way to become rank nine.

Currently, he explored and learned the profundity of the various paths from this premonition and also realized the added benefit of cultivating all paths.

Ordinary Gu Immortals might stop here, but Fang Yuan felt the hope of eternal life from this foundation!

All the venerables in history were unable to achieve eternal life, eternity was also only a goal for Fang Yuan. He had no clue on how to achieve this goal, nor had any practical ideas.

Today, finally, from this small premonition, he finally found the road to eternal life!

"Although I still don't know how to achieve eternal life, omniscience and omnipotence are the foundation. First, fate Gu has to be destroyed to make eternal life a possibility. Then, I will continue to work towards achieving omniscience and omnipotence!"

"To achieve omniscience, I will need to explore dream realms and increase my attainment levels in every path."

"To achieve omnipotence, I will cultivate every path with the sovereign immortal body and grasp all kinds of methods."

Be it omniscience or omnipotence, just one of them could already surpass all the predecessors in history!

Even venerables only cultivated two or three paths, and were unable to achieve omniscience. Their strength might be beyond ordinary and even Fang Yuan could not imagine such strength, but without the sovereign immortal body, omnipotence could not be achieved.

If Fang Yuan could become omniscient and omnipotent, he would definitely surpass all the venerables. At that time, the eternal life that venerables could never achieve would become a possibility for him!

"Wait a second, the Prophecy of Three Venerables clearly pointed that Great Dream Immortal Venerable would be the strongest venerable. Could it be because she would be able to reach the level of omniscience?"

This was highly possible.

Great Dream Immortal Venerable would definitely be a great expert in exploring dream realms, her attainment level in every path would be at an extremely high standard. It was not strange to achieve omniscience from this.

Fang Yuan's heart jolted slightly, he had a completely new and deeper understanding regarding the Prophecy of Three Venerables as well as the future!

He currently had rank eight cultivation and his battle strength could match Duke Long's, he was already an expert at the peak of the world. However, he was still minuscule when compared to heaven and earth, and the future. There were many, many things that he still needed to study and understand, there were still countless aspects he needed to improve on.

Omniscience and omnipotence was an extremely distant target. Most people would be frightened to just think of it and might even feel suffocated from the hopelessness, they would have not even a trace of desire to try.

Fang Yuan, however, was filled with bottomless fighting spirit!

"Like this, my life will become filled with vibrance from all the struggles and all the efforts."

Several days later.

Lang Ya blessed land.

"Quick, quick, turn up the flames!" White haired Lang Ya land spirit urged while controlling the Long Hair refinement path formation.

The hairy man Gu Immortal in charge of the intensity of fire immediately used all his strength to turn up the fire.

But Lang Ya land spirit was not satisfied, still shouting: "The fire needs to be hotter, much hotter!"

"But lord, this is already the highest temperature." The hairy man Gu Immortal shouted.

Lang Ya land spirit was filled with plenty of experiences, within just a moment, he thought of a solution and commanded: "Sixth Hair, activate the wind formation, we will use wind to grow the fire! Eighth Hair, use refinement path killer moves to gather the remnant wind and purify the incomplete Immortal Gu!"

If there was wind, there would be contamination of wind path dao marks. Only by purifying it could the Immortal Gu refinement proceed smoothly.

Lang Ya land spirit had precise control over the formation, his actions were numerous, but not disordered. The refinement path formation shook suddenly, a bright light burst out and shot towards the sky before disappearing just as quickly.

The formation gradually stopped; a completely new wood path Immortal Gu was refined.

"Success again!"

"As expected of Lord Lang Ya land spirit."

Hairy man Gu Immortals were elated as they praised endlessly.

Lang Ya land spirit, however, was filled with admiration: "This was due to master's Gu recipe!"

Fang Yuan was refinement path quasi-supreme grandmaster and wood path grandmaster, the wood path Immortal Gu recipes he modified were at an extremely high level.

Adding on Lang Ya land spirit's peak level refinement path attainment, they produced greater results with fewer efforts, the success rate was very high.

The other hairy man Gu Immortals agreed as well.

“Lord land spirit is correct!”

“The success rate of Immortal Gu has always been extremely low, it is limited by refinement path attainment and the Gu recipe. Most Gu Immortals don’t cultivate refinement path even as a secondary path, it can be well imagined what their refinement path attainment is like. And a Gu recipe’s modification not only requires the attainment level of the corresponding path, it also requires refinement path attainment and wisdom path attainment.”

Immortal Gu refinement had always been a money trap, but it had gradually become an ordinary process to Fang Yuan.

It was because Fang Yuan possessed wisdom path methods like the light of wisdom, and had refinement path quasi-supreme grandmaster attainment level, along with his other paths’ attainment levels being quite high as well.

Therefore, the several obstacles of Immortal Gu refinement became nonexistent to Fang Yuan.

The sovereign immortal aperture’s time flow was very fast, within a few days, Fang Yuan obtained several wood path Immortal Gu.

He chose to refine wood path Immortal Gu in the end.

Actually, there were a lot of wood path Gu Immortals in Southern Border as well as many wood path Immortal Gu, but Fang Yuan did not demand these Immortal Gu.

Southern Border’s righteous path was starting to construct Beacon Towers on a large scale and gradually beginning to unite. They also cooperated with Heavenly Court to suppress Fang Yuan’s businesses in treasure yellow heaven.

This situation had occurred in the previous life as well, this signified Wu Yong was starting to exert force to unite the whole of Southern Border’s righteous path.

Were Fang Yuan to extort wood path Immortal Gu from Southern Border’s righteous path, Heavenly Court would definitely learn of it.

Fairy Zi Wei would start having suspicions: “Fang Yuan is gathering wood path immortal materials, does he want to progress in wood path? He wants to refine wood path Immortal Gu? What is he trying to do?”

Heavenly Court was paying special attention to Fang clan because of Divine Bean Palace.

It was quite easy to connect the two.

Fairy Zi Wei was a wisdom path great expert and also had Star Constellation Chessboard, she was very likely to deduce Fang Yuan’s traces around Fang clan, and from there, interfere and destroy his plan.

Beforehand was a similar situation as well.

Fang Yuan cultivated qi path and required qi path immortal materials, but he did not extort them from Southern Border’s righteous path.

But in Eastern Sea, Duke Long immediately pointed out a relation between Qi Sea Ancestor and Fang Yuan, which had surprised Fang Yuan.

Were Fang Yuan to have extorted qi path immortal materials from Southern Border's righteous path, during the battle for Dragon Palace in Eastern Sea, Duke Long might have seen through Fang Yuan's facade at first glance.

He had precariously succeeded in deceiving Duke Long, he was just a step away from being exposed.

Many times, people needed to look at the long term instead of coveting cheap benefits. Had Fang Yuan coveted cheap benefits before and extorted qi path immortal materials from Southern Border's righteous path, Heavenly Court might have seen through Qi Sea Ancestor's true identity.

Thereupon, Fang Yuan would not have obtained a portion of Primordial Origin Immortal Venerable's qi path true inheritance.

Fang Yuan had a cautious nature.

The risks he took – besides the times where he had no alternative – were mostly taken after careful planning.

He had struggled for hundreds of years, walked on countless roads, experienced many life and death situations, and moved in the gaps between the fights of venerables and heaven's will to finally reach his current stage.

Hardships and setbacks were the wealth of human life. With such mental fortitude, Fang Yuan would not be arrogant and lose his way.

Stability, he demanded stability in everything!

During the battle in Eastern Sea over Dragon Palace, Fang Yuan obtained information about Fang Zheng and knew that the latter had disturbed him twice, and also learned of Qin Ding Ling's existence.

Qin Ding Ling was a person of Giant Sun Immortal Venerable's era, a Central Continent immortal who cultivated metal path but changed to luck path later, and had hibernated for three hundred thousand years.

According to Fang Yuan's deductions, Qin Ding Ling's luck path attainment level was at least great grandmaster, and quasi-supreme grandmaster was not impossible as well.

With such a luck path attainment level, if she were able to refine just two or three luck path Immortal Gu, she could create and modify killer moves and have comprehensive luck path methods.

Under this situation, there was not a big significance in rushing to refine luck path Immortal Gu.

Previously, Fang Yuan had prioritized investing in luck path because Heavenly Court's foundation in luck path was shallow, Fang Yuan could gain ten times the return of his investment.

But now, the prospect of his investment fell.

It was like earlier, when Fang Yuan obtained Shadow Sect's true inheritance but did not choose to focus heavily on soul path. Spectral Soul was captured by Heavenly Court so that soul path true inheritance

did not have much value. His soul path strength could very likely be deciphered and countered by Heavenly Court!

Because of these several aspects, Fang Yuan chose to stop luck path Gu refinement for the moment and change to wood path.

Rank eight Immortal Gu House Divine Bean Palace was something that could increase Fang Yuan's strength by a huge margin!

Heavenly Court had always been Fang Yuan's greatest obstacle.

Stopping Heavenly Court from restoring fate Gu was not a matter of just one battle, it involved a struggle of information, disguise, deceit, Gu refinement, resources, and many other aspects.

Only after estimating the trump cards of the enemy could he find flaws and deal with them appropriately.

So, information was an extremely important aspect. In history, many famous wars looked like they were won easily, but who knew the intensity of the hidden struggles, the preparations made, and how many times they racked their brains from planning!

Pushing forward brainlessly would only lead to death, stupid people could not go far.

Since there was an enormous change in the investment to productivity ratio, Fang Yuan chose to halt the investment to stop his loss.

After careful consideration, Fang Yuan hesitated no more and chose this plan resolutely.

Time passed, it was a scene of tranquility in the outside world of the five regions, with turbulence surging in secret. The time flow in the sovereign immortal aperture was much faster and changes could be seen every day.

The whole sovereign immortal aperture had developed a step further.

The one million qi path dao marks from annexing Qi Sea grotto-heaven had already influenced every part of the sovereign immortal aperture.

The current mini nine heavens were filled with large amount of mist. These mists were of all kinds of colors; mini yellow heaven had yellow mist, mini white heaven had white mist...

A portion of these mists condensed and formed clouds.

Fang Yuan had originally planned to bring in clouds, but at present, it had already progressed very well through just the sovereign immortal aperture's natural development, saving a lot of Fang Yuan's resources.

"Dao marks are the true foundation of the immortal aperture's growth."

"With these one million dao marks, the immortal aperture can produce all kinds of favorable changes just by developing naturally."

“Naturally, there are also risks. In this process, I have to pay attention at all times and make timely adjustments to prevent these changes from endangering the previous ecology.”

Fang Yuan’s sovereign immortal aperture was too spacious, the influence of one million qi path dao marks was spread over all parts, and could be borne by the sovereign immortal aperture itself.

In the mini five regions, qi flows appeared in many areas. There were mists around some famous and special mountain ranges in Mini Southern Border. Frost and icy air had started to cover the atmosphere of Mini Northern Plains. Hot air started to rise in Mini Western Desert, while qi vortexes appeared in many areas of Central Continent.

The truly enormous increase was in the basic two qi— heaven qi and earth qi!

Fang Yuan could clearly observe that a remarkable amount of earth qi had accumulated in the vast underground depths of the sovereign immortal aperture.

There was an endless amount of heaven qi spread in the sky, but it was not as obvious as the concentrated earth qi.

As heaven qi continues to increase, there would be even more mists and clouds in the mini nine heavens and a faint qi wall would form in between the mini nine heavens. As this qi wall develops, it would finally become the heavenly wind qi wall.

Earth qi, however, had two directions for growth.

One was that Fang Yuan could ignore it and let it condense into one lump. This lump of earth qi would continue piling up and form some underground caves. Anything that entered these earth qi filled caves would be corroded by the earth qi and turn into stone statues. If this kind of earth qi became too dense, it could form earth qi sandstorms, which would have a vicious effect towards the surroundings. However, a large amount of earth path immortal materials would be produced during earth qi sandstorms.

The second direction was that Fang Yuan could meticulously divert this giant lump of earth qi, digging out tunnels around the earth qi to let it flow and spread to all directions.

There would not be earth qi sandstorms if the earth qi were to be distributed to various parts of the immortal aperture. This could make the soil of the mini five regions even more fertile and increase the productivity of plants, ores, and other resources. And those long and narrow tunnels that moved the earth qi would widen gradually as they get eroded by earth qi, these tunnels would be filled with earth path dao marks and finally become Earth Trenches.

These two development directions had their advantages and disadvantages.

Fang Yuan did not even have to consider, he chose the second path.

He did not lack earth path immortal materials. Digging tunnels and creating earth trench veins would elevate the whole sovereign immortal aperture comprehensively! It would greatly expand the development prospects!

Fang Yuan entrusted all the development of the sovereign immortal aperture to his subordinates. These Gu Immortals worked hard and would never idle.

As for Fang Yuan's main body, he was working hard on cultivating karma divine tree.

Previously, Fang Yuan could barely activate the killer move karma divine tree by using rank seven mature bamboo Immortal Gu as the core and other rank six wood path Immortal Gu as supplementary. He lacked the core rule path Immortal Gu 'Cause', and the core wood path Immortal Gu 'Effect', Fang Yuan had to use a vast number of mortal Gu as replacement. Back then, because he lacked wood path Immortal Gu and wood path attainment level, Fang Yuan did not overly invest into it.

Because of this, the steps became complex, he had to spend a lot of effort on it, karma divine tree took longer to activate and it could not be used in actual battle. Not only this, the karma divine tree that used rank seven core Immortal Gu instead had its might reduced to rank six level.

After this period of improvement, although karma divine tree's two main core Immortal Gu – Cause and Effect – were still lacking, mature bamboo Immortal Gu was replaced by much more suitable wood path Immortal Gu.

At the same time, because of the increase in Fang Yuan's wood path attainment level, the killer move karma divine tree had obtained a huge improvement as well. At present, this move's preparation time had shrunk greatly and could be used in real battles. Its might had already advanced to rank seven level.

"This move is clearly lacking in dealing with rank eight Gu Immortals. At most, I can use it to bully rank sevens, its most important use is still to subdue Divine Bean Palace!"

"As for the killer move karma relocation, I am still unable to restore it for the moment."

With karma divine tree, Fang Yuan was itching to have a go. As long as he used karma divine tree, there would be a huge breakthrough and progress regarding Divine Bean Palace.

However, Divine Bean Palace was in Fang clan's headquarters. Fang Yuan had only been assisting Fang Di Chang before and had no good opportunity to make a move, even though he was in contact with Divine Bean Palace all the time.

How would he create this opportunity?

Before Fang Yuan resolved this issue, Fang Di Chang requested him to return to Fang clan once again.

In fact, during this period of time when Fang Yuan was cultivating wood path, Fang clan had already urged him to return again and again.

But this time, Fang Di Chang personally sent a letter unlike the previous few times. In the letter, Fang Di Chang clearly informed Fang Yuan: He had already found a way to refine Divine Bean Palace. As long as they went by this method, they could definitely refine Divine Bean Palace and grasp this Immortal Gu House!

This made Fang Yuan develop an intense curiosity, Fang Di Chang had also obtained a breakthrough?

"What is going on?" Fang Yuan disguised as Suan Bu Jin once again and returned to Fang clan.

"This is my plan, Brother Suan Bu Jin, what do you think?" Fang Di Chang explained his plan to Fang Yuan and asked.

Fang Yuan went into thinking.

Fang Di Chang was indeed a wisdom path great grandmaster, he really thought of a feasible way. That was to use a house to break the house!

Fang Di Chang's concrete plan was to build a temporary Immortal Gu House inside Divine Bean Palace. This Immortal Gu House would first deduce and probe before self-detonating, the powerful explosion would instantly break Divine Bean Palace's internal defense.

Fang clan was not like Fang Yuan, they could not achieve a breakthrough in wood path in such a short period of time and obtain a wood path grandmaster. But Fang Di Chang fully displayed Fang clan's specialty to deal with Divine Bean Palace.

"But such a forceful move might result in a damaged Divine Bean Palace." Fang Yuan said.

Fang Di Chang smiled bitterly: "Nothing can be done about it, Fang clan's situation is worsening day by day. But, as long as we refine Divine Bean Palace and keep its damaged state as a secret, who would be able to tell clearly?"

Fang Yuan frowned: "First, although it is difficult to construct an Immortal Gu House inside Divine Bean Palace, it should be possible with our Fang clan's foundation. But what about after that? To probe Divine Bean Palace's deeper operation mechanics, there needs to be a Gu Immortal to control the Immortal Gu House to resist Divine Bean Palace at all times and activate the Immortal Gu House according to the changes in Divine Bean Palace. And, on this basis, under the premise that the Gu Immortal has to keep the Immortal Gu House activated at all times, the Immortal Gu House has to detonate to destroy a portion of Divine Bean Palace and make it have no defensive strength."

"But if so, isn't the Gu Immortal inside the Immortal Gu House in great danger?" Fang Yuan fixed his gaze onto Fang Di Chang.

The candidate for maneuvering the Immortal Gu House was no doubt a wisdom path Gu Immortal. It was between Fang Yuan or Fang Di Chang.

Who to send?

Fang Yuan understood immediately why Fang clan insisted on him returning this time.

But he would never do such a dangerous thing!

Fang Di Chang knew Fang Yuan's thoughts as he smiled: "Don't worry brother, we won't make you control the Immortal Gu House alone, we will be doing it together. After this task is finished, Fang clan will make sure to repay your contributions."

"I can agree, but, I need to take part in the whole process of the Immortal Gu House construction."

Fang Di Chang's eyes flashed with a sharp light, he hesitated for a bit before nodding: "It can be done! Come, let's start the work right away."

Constructing an Immortal Gu House inside the palace was not easy, it was much more difficult than setting up a formation within a formation. Many times, the constructed Immortal Gu House inexplicably broke apart.

Fang clan's losses were a lot, but fortunately, their foundation in this aspect was truly deep.

Together with Fang Yuan using his actual ability to provide several logical concepts occasionally, the Immortal Gu House was constructed successfully.

Fang Di Chang and Fang Yuan entered the Immortal Gu House that looked like a tent with a circular top, they began to probe the inner mechanics and profundities of Divine Bean Palace.

Their progress was indeed huge with this Immortal Gu House.

Not long later, Fang Di Chang felt the timing was right and said to Fang Yuan: "We can start the final step. Are you ready?"

"Yes." Fang Yuan nodded.

"Good." Fang Di Chang said and activated the Immortal Gu House; chains shot out from all around and tightly bound Fang Yuan instantly!

Fang Yuan was pale with fright: "Brother, what are you doing?"

Fang Di Chang looked at him deeply and said with deep meaning: "Brother Suan Bu Jin, Fang clan will not forget your sacrifice."

"So it was like this! What you want to destroy is me and not this Immortal Gu House!" Fang Yuan suddenly came to a realization.

"The Immortal Gu House needs to be detonated as well." Fang Di Chang said: "But just the power of the Immortal Gu House's detonation is only ordinary. Only by sacrificing a wisdom path Gu Immortal like you can I make an instant breakthrough and reach an even higher level in wisdom path. I can then use the grand power of detonation to subdue Divine Bean Palace!"

"Oh Brother Suan Bu Jin, I know that this is unfair to you."

"But there is no other way left, you have also seen Fang clan's situation, please die for the sake of Fang clan's future." Fang Di Chang bowed deeply towards Fang Yuan.

Fang Yuan panicked and started cursing loudly.

Fang Di Chang's expression turned cold: "You are also a Fang clan member, you are dying for a good cause. Rest in peace."

Once he said that, he activated the final method.

Chapter 1860: You Know Too Much

Chapter 1860 You Know Too Much

Fang Gong, who was hiding near Divine Bean Palace, was feeling anxious.

"What is going on? Why is there no movement from Divine Bean Palace? Did something happen?" Fang Gong calculated the time.

Fang Di Chang's scheme against Fang Yuan naturally was not his decision alone, he had run through this plan with Fang Gong and others.

Because they were worried that Suan Bu Jin, who was a wisdom path Gu Immortal, would become suspicious, Fang Gong had been hiding outside the palace to prevent any accidents from happening.

"First supreme elder, please be at ease. Second supreme elder took action only after making a proper plan, his strength is also above Suan Bu Jin's and adding on the immortal formation outside the palace and the support of the Immortal Gu House inside the palace, Suan Bu Jin's defeat is almost a certainty. What's more, if there were to be any mishaps on second supreme elder's end leaving him unable to control the situation, he will definitely send us a message." Third supreme elder who was standing on the side assured.

He was an old man with gray hair, dressed in a yellow robe.

"You are right." Fang Gong nodded. Right at this time, an explosion occurred from inside Divine Bean Palace.

Fang Gong and Fang Hua Sheng glanced at each other before the latter spoke: "It has started! The Immortal Gu House has detonated."

"Let's go take a look!" Fang Gong ran immediately towards Divine Bean Palace.

Divine Bean Palace's door was tightly closed before, but Fang Di Chang had already refined a portion of the palace with Fang Yuan's help, allowing Fang Gong and Fang Hua Sheng to enter directly.

"Second elder!" Fang Gong's eyes narrowed as he saw the heavily injured and bloodied Fang Di Chang among the ruins of an Immortal Gu House.

"Second elder, are you okay? Hold on!" Fang Hua Sheng also arrived soon after and immediately started using healing methods.

He was the most proficient healing Gu Immortal in Fang clan.

Sure enough, with his treatment, Fang Di Chang slowly came to his senses.

He spoke weakly: "That Suan Bu Jin was hiding his strength, although I succeeded in ambushing him, I was still struck by his counterattack and need to rest for some time. But Divine Bean Palace..."

Before Fang Di Chang finished speaking, Fang Gong interrupted: "Second elder, don't mention Divine Bean Palace. You are the brain behind our Fang clan, our strategist, Fang clan cannot be without you. Let third elder heal your injuries."

Fang Gong's words were heartwarming.

Fang Hua Sheng added: "Second elder, don't overexert yourself, your injuries are not light, you should listen to first elder. Come, let me take you to the secret room so I can heal you properly."

"Alright." Fang Di Chang weakly closed his eyes.

He was taken to the secret room and treated by Fang Hua Sheng.

The treatment lasted a day and two nights.

After the treatment finished, Fang Hua Sheng visited Fang Gong alone and reported.

“How is the situation?” Fang Gong asked.

Fang Hua Sheng replied: “Reporting to first supreme elder, there is no issue. I inspected second elder’s blood, soul, and body, they are all authentic. Moreover, as there is no change in life tablet Gu and soul lantern Gu in the ancestral hall, second elder should still be himself!”

As it turned out, Fang Hua Sheng was not just treating Fang Di Chang but also had the secret task of inspecting Fang Di Chang.

Fang Gong nodded: “I trust second elder, but inspection is a necessity. How did Southern Border righteous path become a laughing stock in the five regions? It is because they let Fang Yuan infiltrate them. Although Suan Bu Jin is not at the level of that demon Fang Yuan, he is a wisdom path Gu Immortal after all; we still don’t know about all his methods, we can never be too careful. Moreover... second supreme elder himself had asked me to arrange this identity inspection.”

Fang Hua Sheng laughed: “You two really have a lot of worries, from what I see, that Suan Bu Jin might be a rank seven wisdom path expert but he is a lone cultivator after all, he has limited foundation. Our Fang clan is a super force, we used almost all our strength to scheme against him and even detonated an Immortal Gu House, it could be said that we spared no expense for this! With such a strength difference, getting rid of Suan Bu Jin is not a difficult matter.”

“I must see his body if he is alive, if he is dead, I must see his corpse. I haven’t seen Suan Bu Jin’s corpse or soul, so I am somewhat worried.” Fang Gong’s gaze was slightly heavy.

“Hahaha, he cultivates wisdom path, not transformation path. Even without second supreme elder’s explanations of the details, I can make a rough guess. That Suan Bu Jin must have used some method to gain a sudden increase in his strength when he counterattacked, resulting in a powerful explosion which destroyed his own corpse and soul.” Fang Hua Sheng said.

Fang Di Chang who was lying in the bed opened his eyes.

“It has already been a day and a night since Fang Hua Sheng reported. Looks like I managed to deceive them!” Fang Di Chang thought.

He was not the real Fang Di Chang, but Fang Yuan’s clone!

Going back to the moment when Fang Di Chang started on his scheme.

“Oh Brother Suan Bu Jin, I know that this is unfair to you.”

“But there is no other way left, you have also seen Fang clan’s situation, please die for the sake of Fang clan’s future.” Fang Di Chang bowed deeply towards Fang Yuan.

Fang Yuan panicked and started cursing loudly.

Fang Di Chang’s expression turned cold: “You are also a Fang clan member, you are dying for a good cause. Rest in peace.”

Once he said that, he activated the final method.

Silence.

“Huh?” Fang Di Chang was slightly dazed as he activated the method again.

Still silence!

“What’s going on?!” Fang Di Chang’s pupils shrunk and his expression changed as he quickly inspected.

He looked at Fang Yuan with disbelief: “You actually tampered with this Immortal Gu House!”

Fang Yuan’s panicked expression disappeared completely and a sinister smile replaced it: “Oh, yeah, damn it, you actually found out!”

“How is this possible? I was personally in charge of the whole process, you only gave a few suggestions and nothing more!” Fang Di Chang suddenly felt a chill as he said this: “Could it be....”

“Hahaha!” Fang Yuan clapped: “You are indeed a wisdom path great grandmaster, you realized so quickly. That’s right, although I only gave a few suggestions, you accepted them. An Immortal Gu House constructed from those suggestions has many areas that corresponds to Divine Bean Palace. You set up a Gu formation outside the palace and a Gu house inside to infiltrate Divine Bean Palace and refine it forcefully. But from another aspect, Divine Bean Palace also infiltrated your Gu formation and Gu house. As for me, I just happen to be able to influence Divine Bean Palace.”

Divine Bean Palace was like a locked treasure chest. Fang clan’s Gu formation and Gu house were like a crowbar that was inserted into a gap in the chest lid, which could forcibly break the lock of the chest and open it, at the same time, this treasure chest, Divine Bean Palace, was like a large mouth that bit the crowbar.

What Fang Yuan did now was to influence Divine Bean Palace and make it bite the crowbar tightly. This created the current situation — Fang Di Chang activated his method but there was no effect.

Fang Di Chang glared at Fang Yuan and said: “Who in the world are you? It is not easy to accomplish this! First, you need extremely high formation path attainment, and second, you also need to have a method to influence Divine Bean Palace.”

Fang Yuan smiled, although his wisdom path attainment level was lower than Fang Di Chang’s, he was still a grandmaster. His formation path was also at grandmaster level, this was double grandmaster attainment level.

So, when Fang Di Chang was modifying the immortal formation outside the palace and constructing the Immortal Gu House inside the palace, Fang Yuan had already seen through his plot.

Fang Yuan was not angry, but was pleasantly surprised. He restrained himself and worked this plot to his own advantage, Fang Di Chang had thought the situation was within his control, but he was already seen through by Fang Yuan.

Immortal killer move — Karma Divine Tree!

Green smoke rose above Fang Yuan's shoulders and head, and formed a huge divine tree. The divine tree was green and lush, and there were several fruits scattered among the leaves.

Divine Bean Palace began to shake.

Fang Di Chang's eyes opened wide with shock and anger as he pointed at Fang Yuan: "So you sided with Heavenly Court! You despicable bastard!!"

He was familiar with karma divine tree because he had once fought Chen Yi and had experienced this killer move.

Now that he saw this move again, his first thought was not about Fang Yuan, but that Suan Bu Jin had sided with Heavenly Court and that Heavenly Court had given karma divine tree to him to retrieve Divine Bean Palace.

Ever since Fang clan seized Divine Bean Palace and chased Chen Yi away, they treated Heavenly Court as their main enemy.

Sweat started to appear on Fang Di Chang's forehead because of the fright. Because he naturally had the thought: If this truly is Heavenly Court's conspiracy, Suan Bu Jin definitely had backup. Maybe, Heavenly Court's rank eight Gu Immortals are already hiding outside Fang Clan headquarters!

Seeing Fang Di Chang's misunderstanding, Fang Yuan did not explain but focused on karma divine tree.

This was the first time he was openly using this move, Fang Yuan soon discovered Divine Bean Palace was responding to this move and slowly began to put down its resistance and accept him, the owner of this killer move.

Soon, Fang Di Chang was unable to even budge.

The temporary Immortal Gu House had the effect of imprisoning Gu Immortals, Fang Di Chang had intended to use this ability against Suan Bu Jin but Fang Yuan's influence was much greater than Fang Di Chang's, and with Divine Bean Palace's suppression, Fang Di Chang became the prisoner.

"Good, very good, Suan Bu Jin! I admit defeat, kill me." Fang Di Chang sneered without any fear of death.

He fully displayed his bravery at the juncture of life and death.

Fang Yuan also sneered: "You want to use your death to trigger a change in life tablet Gu and other methods, to notify Fang Gong and others who are outside? Such mentality is praiseworthy, but I won't be baited. I will extract your soul and then use my split soul to possess you, your body won't die and your soul also won't dissipate, so there will be no change in life tablet Gu."

"From now on, I will use this Fang Di Chang clone to replace you and infiltrate Fang clan. I will search your soul clean, I will plunder all your experiences, memories, and information."

"Hmph! Impossible! You can forget about it." Fang Di Chang snorted coldly: "You think a split soul cannot be inspected? The details about my soul are recorded in Fang clan, any difference will result in you getting exposed."

“Moreover, you have too little time. I have already set a time limit with first supreme elder and others. if they don’t see me before the time limit, they will immediately charge in to reinforce me!”

“At that time, even if you have Heavenly Court’s reinforcements, how long can you hold on for? The furious first elder Fang Gong will definitely turn you into meat paste!”

“So, Suan Bu Jin, cooperate with my Fang clan. Heavenly Court is using you, although they are scheming against me, they are practically disregarding your life.” Fang Di Chang urged.

Fang Di Chang was indeed worthy of being a wisdom path great grandmaster, his words were incisive and without faults. He was actually instigating Fang Yuan! His words were even extremely logical.

Fang Yuan smiled as he gazed deeply at Fang Di Chang.

Fang Di Chang had been staring at Fang Yuan as well and paled as he saw Fang Yuan’s expression.

Because he thought of an even more frightening truth.

“You played me at my own game, there must be a reason for such confidence. To complete this plan, you need to have a high formation path and wisdom path attainment, moreover, you must also have extraordinary soul path methods!”

“No, you are not sent by Heavenly Court!”

“You! You are Fang Yuan!!”

Fang Di Chang’s face turned deathly pale.

He realized.

It was not necessary for him to be from Heavenly Court just because he had karma divine tree. Chen Yi was killed by Fang Yuan, this matter was publicized by Fang Yuan himself.

Clap clap clap.

Fang Yuan clapped: “Truly worthy of being a wisdom path great grandmaster.”

Fang Di Chang blinked as he swallowed his saliva: “Fang Yuan, we can cooperate. There is no need to create such a conflict, please believe in our Fang clan’s strength and sincerity... urgh!”

Fang Di Chang’s eyes opened wide all of a sudden.

Veins bulged on his forehead and his face turned red as if an invisible hand was clenching his neck and covering his nose, suffocating him.

While conversing with him, Fang Yuan had been concentrating on influencing Divine Bean Palace. This influence had finally reached a qualitative change!

“Fang... Fang Yuan, everything... can... be discussed...”

Fang Yuan shook his head with a smile: “It is truly a pity for a wisdom path great grandmaster to die here. But you... know too much.”

“Ahh.” At the next moment, Fang Di Chang’s eyes rolled back and his mouth foamed, his body twitched a couple times before he died.
