

Insanity 2301

Chapter 2301: Heaven Path Dream Realm

The truth was, Fang Yuan had no choice but to use endless trouble killer move.

If he had to undergo tribulation, he would need to place the sovereign immortal aperture in the five regions and draw in heaven and earth qi. At that time, heaven's will would control them and form tribulations.

The calamities and tribulations were not scary, Fang Yuan was confident of dealing with them.

But during his tribulation, the other venerables would definitely come to probe and suppress him.

But at that time, his sovereign immortal aperture would not be movable, because of the deep involvement of heaven's will, if the venerables attacked too fiercely, obscured heavenly secret might not be able to conceal Fang Yuan anymore.

Fang Yuan would be exposed.

"Star Constellation Immortal Venerable and Giant Sun Immortal Venerable must also be using methods to delay their tribulations." Fang Yuan was certain about this.

In this contest of three venerables, nobody wanted to be the first to undergo tribulation. Whoever did that would expose a flaw first and face suppression.

If they were targeted too badly, it would be hard to catch up to the other venerables anymore.

There would be a danger of dying.

This was true for grand tribulations and myriad tribulations, while the chaotic disaster was a huge flaw of the venerables!

"After using endless trouble this time, I am not far from the next chaotic disaster." Fang Yuan thought.

Venerables faced a grand tribulation every ten years, a myriad tribulation every fifty years, and a chaotic disaster every one hundred years.

That was to say, after eight grand tribulations and one myriad tribulation, they would face one chaotic disaster.

Fang Yuan had already used endless trouble many times, he was two grand tribulations away from the chaotic disaster.

In this aspect, Fang Yuan was the venerable with the biggest problem.

"Oh?" After endless trouble was used successfully, Fang Yuan's expression changed slightly.

Although endless trouble succeeded like many of the previous attempts, there was a difference now.

Fang Yuan felt a faint sense of hunger.

After gaining sovereign immortal body, it needed to consume food or it would get hungry. But this hunger was not like the normal feeling of hunger — it originated from his origin!

Fang Yuan's expression gradually turned solemn.

He knew why.

This was the sovereign immortal aperture's desire to eat a venerable immortal aperture.

Sovereign immortal body originally had this flaw, or rather, weakness. But in Fang Yuan's estimations, there was still some time left after becoming rank nine.

To think that he was already feeling faint hunger that could not be ignored.

This was much earlier than he had expected.

"Is it because the sovereign immortal aperture has grown too big and annexed too many grotto-heavens, since even now, I am still bringing in resource points?"

Fang Yuan vaguely felt that this was the truth.

He had developed the sovereign immortal aperture too well.

The greatest weakness and also advantage of the sovereign immortal aperture were the non-conflicting dao marks.

But because the sovereign immortal aperture's development was too good, and because of the non-conflicting dao marks, its foundation was unstable.

"But before, even with rank eight cultivation level, I have never felt such hunger."

"After becoming venerable, this feeling emerged, what is the reason?"

"No matter what, the four paths of refinement path, food path, heaven path, and human path hold the possibility of resolving sovereign immortal body's problem of requiring food."

Fang Yuan analyzed continuously in his mind.

He was most skilled in refinement path, there was no need to explain it. As long as he raised the sovereign immortal body to rank ten, the problem would be resolved.

Food path could replenish the expenditure and promote growth. Children need to eat food to have enough nourishment to grow. Sovereign immortal body held the same logic.

As for human path and heaven path...

Sovereign immortal fetus Gu was made using the ten extreme physiques as the main materials, it was a pure human path Gu worm. But in the end, it transformed into sovereign immortal body that had the sovereign immortal aperture. In this aspect, it contained heaven path profundity.

And the effect of having non-conflicting dao marks was also part of heaven path.

Now, the problem was that these four paths were theoretically capable of resolving the issue of sovereign immortal body's food requirement. The issue was that Fang Yuan did not know which path was the most feasible and possible one.

Fang Yuan knew most about refinement path, he needed to modify and innovate to resolve sovereign immortal body's issue.

Food path and human path were not developed yet.

Heaven path was uncertain too, there might not be any solution available, Fang Yuan might have to create his own method. After all, rank nine sovereign immortal fetus Gu had already broken the balance of the Heavenly Dao, it was a grand feat achieved by Spectral Soul Demon Venerable.

It was very difficult for Fang Yuan to resolve the root issue of sovereign immortal body's food requirement.

Even though he was a venerable, he was not confident of doing it, he needed to invest resources and effort to make deductions. After all, rank nine sovereign immortal fetus Gu was an unprecedented creation.

Other than solving the root cause, there were also methods to alleviate it.

That was to satisfy the hunger and devour a venerable immortal aperture!

This difficulty was quite high.

It meant that Fang Yuan would have to defeat a venerable.

If there was just one venerable, Fang Yuan might have an easier time. The issue was that many venerables existed now, if one person was too outstanding, there would be a huge chain reaction. Fang Yuan did not have the strength to suppress all the venerables at once, if he was exposed, the situation would be troublesome for him.

"But if I can annex a venerable's aperture, there is also a good aspect in that I can skip tribulations."

"This means that if I plan properly, I will not need to take a risk and undergo the chaotic disaster, I can directly skip this huge problem!"

Thinking of this, Fang Yuan was moved internally.

He thought of Paradise Earth.

Paradise Earth was killed by him in Crazy Demon Cave, his soul dissipated but his immortal body and aperture remained.

Because he cultivated heaven path, the immortal aperture was very stable unlike other paths. Thus, Fang Yuan was able to preserve it until now.

Although Paradise Earth's immortal aperture was only rank eight, it was merely a step away from venerable level.

Paradise Earth's immortal body had enough heaven path dao marks, he only lacked heaven path attainment level to become a heaven path venerable.

That was to say, as long as Fang Yuan used split soul to take over Paradise Earth's immortal aperture and body, he would gain a heaven path clone.

"A heaven path clone with rank eight cultivation level, but it is only a step away from venerable level." Fang Yuan was moved.

If his heaven path attainment level could reach supreme grandmaster, he would immediately be able to create a heaven path venerable clone!

At that time, be it to fight against other venerables or to annex this venerable immortal aperture, it would be very useful to Fang Yuan!

"It is a pity there is only a bit of truthful floating ice left, I've used most of it. The remaining part cannot allow me to become a supreme grandmaster in heaven path."

Spectral heaven.

"Zi Wei, you can't escape." Duke Tong quickly shortened the distance between him and Fairy Zi Wei.

Fairy Zi Wei's expression was quite pale, Ying Wu Xie who was in her arms said: "Let me block them, you should escape."

Heavenly Court had countless methods, Duke Tong and the rest were revived Gu Immortal seniors, even as a wisdom path great expert, Fairy Zi Wei could not hide for long.

Most importantly, the environment in spectral heaven changed, the previous black-white overturning clouds had completely vanished, Fairy Zi Wei could not use them anymore. Thus, even though she could escape from them temporarily, she would be found by them after a short period of time and they would catch up in no time.

Seeing that Duke Tong was reaching her again, Fairy Zi Wei felt despair in her heart.

It was not easy to last this long, she was already at her wits' end.

"Feng Jiu Ge, when are you going to take action?" Fairy Zi Wei shouted.

Duke Tong snickered in disdain: "Zi Wei, how long are you going to keep up this act?"

Feng Jiu Ge did not appear after all, he was not Shadow Sect's savior.

But another change occurred.

A pink beast growled and charged at them while covered in an illusory halo.

"What is this?!" Duke Tong stared with wide eyes.

"Dream realm?" Fairy Zi Wei gritted her teeth, she flew towards the pink beast and got devoured in one mouthful without dodging it.

After devouring Fairy Zi Wei and Ying Wu Xie, the beast was not satisfied, it charged towards Duke Tong instead of stopping.

Facing the intense dream path aura, Duke Tong had no choice but to dodge.

“Dream realm? Why is it in a beast form?!” Duke Tong was helpless, he could not enter or leave the dream realm at will.

Moreover, this dream realm was different from what was described in their intel, it could move around and hunt prey.

“Compared to the dream realm that we are used to, this current one fits the description in <<The Legends of Ren Zu>>, what is going on?”

Duke Tong was bewildered.

While reporting to Heavenly Court, he chased after the dream realm.

When the dream realm attacked, he retreated, after it left, he followed it from afar.

Afterwards, he discovered even more dream realms.

These dream realms had various forms but they were all beasts.

“Dream realms that have gathered into a group! This is a new transformation in spectral heaven!!” Duke Tong was increasingly suspicious, he watched as the dream realm that devoured Fairy Zi Wei and Ying Wu Xie mixed into the group.

Duke Tong’s investigative methods were ineffective on dream realms, and because they were constantly changing forms, he soon lost all traces of that particular dream realm, he could not tell which one was it.

Star Constellation Immortal Venerable soon received Duke Tong’s information.

She sighed as her gaze flickered with uncertainty: “Heaven path dream realms... they finally appeared. One of them even devoured Fairy Zi Wei and Ying Wu Xie, this is all the ploy of heaven’s will.”

In Star Constellation Immortal Venerable’s plan, Ying Wu Xie was crucial. If she could capture it, she would have the best pawn to use against Spectral Soul Demon Venerable.

But now, although Duke Tong chased after him, heaven path dream realms appeared at the crucial moment and destroyed her plan.

“In that case...” Star Constellation Immortal Venerable immediately used her backup plan, she contacted and gave orders to Fairy Maiden Soul.

This soul path great expert received the orders and immediately showed an incredulous expression.

Afterwards, she returned to Heavenly Court and entered the treasury, taking out a soul.

Next, she placed this soul into her immortal aperture and used her method to nourish the soul while altering its memories.

Time passed quickly in the immortal aperture.

Several days later in the immortal aperture, Fairy Maiden Soul's modification was completed.

She immediately contacted Star Constellation Immortal Venerable: "Bo Qing's soul has already been modified."

Star Constellation Immortal Venerable received the news and nodded.

Now, all they needed was the body of a sword path Gu Immortal.

Chapter 2302: Contest of the Three Venerables Again

"Where am I?"

"Who... who am I?"

Fairy Zi Wei woke up in a dream, but she forgot about herself.

As she scanned her surroundings in a daze, she saw that she was in a vast desolate yellow plain with no signs of life.

She lowered her head to look at herself, but her body was that of a mudman. She had short hands and feet, her body was also hard and dry.

"I feel like I have forgotten something important."

Fairy Zi Wei frowned, but she could not remember no matter how hard she tried.

She even forgot if that important thing was a situation or a person.

She could not figure it out.

However, this bleak yellow land gave her a warm feeling of closeness.

"Home?" This word emerged in Fairy Zi Wei's mind.

But this desolate home made her feel sad as well.

Wind blew over at this time.

The wind got increasingly stronger, blowing the soil into the air.

Splash splash splash.

There were no clouds in the sky, but heavy rain started to fall.

Countless bean-sized raindrops smashed on the yellow soil.

Soon, a large marshy land was formed.

Fairy Zi Wei was in the marsh, her whole body got drenched as she ended up in a miserable state.

But despite the wild storm, her head was always raised and her vision was not blocked even a bit.

She discovered that she knew everything about this yellow land.

She also had a feeling that she could control this storm, it seemed to be as simple as moving her fingers.

Hence, she thought to herself: "This storm is too big, make it smaller."

At the next moment, the storm really became smaller.

Hints of greenery appeared in the marsh and spread everywhere.

These were the young shoots of weeds.

Fairy Zi Wei felt endless joy at the sight of these weeds.

This was life.

Finally, she stopped feeling alone.

"Such a pity that they grow too slowly, it will be better if they grew faster."

The weeds began to grow faster.

With a speed visible to the naked eye, the emerging greenery began to flourish and spread. The grass became taller and covered her feet, and this bleak yellow land turned into a grassland.

Some sunken areas were filled with rainwater and became clear ponds.

Fairy Zi Wei moved across the lush grass and stood beside a pond. Her image was reflected on the water surface as she finally saw her appearance.

She was a clay doll made of purple clay. Her eyes, nose and mouth were drawn with golden lines.

Fairy Zi Wei suddenly realized her identity.

"That's right, I am this blessed land's... land spirit."

Central Continent.

Below star array calculation formation, outside of Embroidered Tower.

"Bai Qing (Feng Jin Huang) pays respect to Lady Star Constellation Immortal Venerable." A pair of mother and daughter greeted respectfully.

Star Constellation Immortal Venerable's main body was staying inside Embroidered Tower.

She did not invite this pair of mother and daughter inside Embroidered Tower, instead she used an information path mortal Gu to show a video in the space outside Embroidered Tower.

After the video showed the scene of those heaven path dream realms, Star Constellation Immortal Venerable spoke: "Feng Jin Huang, have you seen this kind of dream realm before?"

Feng Jin Huang had been watching with concentration, she replied: "Lady Star Constellation Immortal Venerable, junior has never seen this kind of dream realm. But, from my speculations, the present dream realms can be divided into three types according to their sources. They are human path, beasts and plants, as well as heaven path dream realms."

"The source of human path dream realms are the humans or variant humans, these are their dreams. The source of beast and plant dream realms are those beasts and plants that once existed or are still living now. As for heaven path dream realms, the source is heaven and earth itself."

Star Constellation Immortal Venerable nodded slightly: "Good, make your preparations. I will need you to go to spectral heaven to explore these heaven path dream realms in due time."

Feng Jin Huang, however, shook her head, refusing firmly: "Please excuse junior for being unable to do it. Junior is only a mortal, I have no confidence in exploring such a level of dream realms, and also have no way to guarantee my own safety."

"Hmm?" Star Constellation Immortal Venerable's brows rose slightly as she had not expected Feng Jin Huang to reject her so directly.

At this time, everyone went silent.

Fairy Bai Qing was stressed out, she wanted to speak but could not say anything in the end.

She felt increasingly suffocated.

Feng Jin Huang still had an indifferent expression, seemingly not feeling any pressure.

"Alright. You may both leave." Star Constellation Immortal Venerable spoke after a long while.

"Junior takes her leave." Feng Jin Huang bowed towards Embroidered Tower and left.

Looking at the receding figures of the two, Star Constellation Immortal Venerable sighed lightly with a complicated gaze.

Ying Wu Xie was swallowed by a heaven path dream realm, this was really unfortunate.

He was a great pawn to deal with Spectral Soul Demon Venerable, but was gotten rid of by heaven's will.

The dream realm could not be explored, that meant that Ying Wu Xie was done for.

Feng Jin Huang's opinion about heaven path and human path dream realms verified Star Constellation Immortal Venerable's own ideas. But Feng Jin Huang was indeed only a Gu Master and not a Gu Immortal, it was natural for her to be unable to do anything to these dream realms.

"I cannot conceal these heaven path dream realms, it is only a matter of time for the other two venerables to know of them. The contest of three venerables may start once again."

Star Constellation Immortal Venerable was worried.

Because this was much more complicated than before.

Black and white heaven were gone, only spectral heaven remained.

Spectral heaven was the territory of Spectral Soul Demon Venerable.

What would Spectral Soul Demon Venerable do if venerables were to barge into his territory?

Spectral Soul Demon Venerable had lost his sanity and was filled with heaven's will, the heaven path dream realms were also the same. What connection did these two have? Would they help each other?

Spectral Soul Demon Venerable was weak before; Star Constellation Immortal Venerable had no worries.

But now was different.

Spectral Soul Demon Venerable had resonated with rank nine fire Gu, and his soul foundation had surged to a terrifying level after slaughtering billions of living beings in the two heavens.

If a conflict occurred between the venerables because of the heaven path dream realms, Spectral Soul Demon Venerable was likely to participate and would be an opponent that could not be neglected.

After pondering over it, Star Constellation Immortal Venerable decided to slow down in refining Central Continent's wisdom path dao marks, she had to save her immortal essence for the battle.

Her intention to get rid of Spectral Soul Demon Venerable became firmer as time passed.

"Since Ying Wu Xie is gone, I need to make proper use of Bo Qing."

Star Constellation Immortal Venerable decided to create a powerful Spectral Soul clone.

The risk was high though, after all, tampering with the soul was Spectral Soul Demon Venerable's forte.

Fairy Maiden Soul's action was tantamount to showing off in front of an expert.

But the situation forced Star Constellation Immortal Venerable's hand, she could not afford to care about this.

Bo Qing's soul was filled with sword path dao marks which must be paired with a sword path Gu Immortal body. This body should contain an immortal aperture, and the higher its cultivation level, the better.

However, even looking at the whole world, there were not many Gu Immortals who cultivated sword path.

There were a few in Central Continent's ten great ancient sects, but they were all at rank seven.

In the whole five regions, there was no rank eight lone and demonic cultivator who cultivated sword path. In fact, Star Constellation Immortal Venerable's deductions showed that there was only one rank eight sword path Gu Immortal currently.

"Western Desert Lin clan's first supreme elder?" Prince Feng Xian, Red Heart Traveler, and Nine Spiritual Fairy showed strange expressions.

"Heavenly Court needs his immortal aperture and body, this is related to the contest of venerables and the safety of the world." Star Constellation Immortal Venerable's voice was clear and cold.

The three immortals looked at each other before responding resolutely: "Please give us your command."

Star Constellation Immortal Venerable transmitted her instructions to them, as well as how they should cooperate with Wan Zi Hong and Zhou Xiong Xin.

The three immortals' gaze shone sharply as they heard the plan and left with great confidence.

Star Constellation Immortal Venerable was silent for a while, she then contacted the Genesis Lotus' will in Heavenly Court.

Genesis Lotus' will had been overseeing Divine Emperor City, but through Star Constellation Immortal Venerable's method, it expanded and split a portion to stay in Heavenly Court.

This portion of Genesis Lotus' will in Heavenly Court had one main task, that was to nourish Cang Xuan Zi.

Cang Xuan Zi was a legendary immemorial beast, it was a huge vine that connected heaven and earth.

It sprouted in three hundred years, blossomed in three hundred years, and bore fruits in three hundred years. The fruits that it created were called vast heaven fruits, if used in a grotto-heaven, it could expand the size of the immortal aperture's sky. Thus, this vast heaven vine was also known as the tenth heaven of this world!

It entered Heavenly Court after an agreement with Genesis Lotus Immortal Venerable. It was an unique existence in Heavenly Court, it did not need to follow orders, and only had to provide a batch of vast heaven fruits every thousand years.

But in the fate war, it was killed by Fang Yuan's time cutting edge.

Star Constellation Immortal Venerable did not have any methods to revive it, but Genesis Lotus' will that originated from Genesis Lotus Immortal Venerable had methods to revive Cang Xuan Zi!

"Cang Xuan Zi's death is actually beneficial to Heavenly Court." Genesis Lotus' will communicated with Star Constellation Immortal Venerable.

"In a hundred or so days, Cang Xuan Zi's body will be restored. At that time, I will enter and control this body, supplying a legendary immemorial beast's battle strength to Heavenly Court!"

“An even more amazing thing is that the fruits produced by Cang Xuan Zi will contain my will. Using these fruits to reforge Heavenly Court will isolate us from heaven’s will.”

“There will be a new Heavenly Court in the future, our gains from the derivation formation will belong to us and not be known by heaven’s will.”

Star Constellation Immortal Venerable nodded: “This is a long-term plan and not an urgent matter. Have you remembered anything else regarding the revival of Genesis Lotus Immortal Venerable?”

Genesis Lotus’ will shook its head: “I know very little about the revival plan set by my main body. I only know that he left behind a self-portrait from which he can revive. But I have no idea where this self-portrait is.”

“How about you, Star Constellation Immortal Venerable? You are Senior Primordial Origin Immortal Venerable’s disciple, don’t you know his revival plan?”

Star Constellation Immortal Venerable heaved a sigh: “Truth be said, master told me he left behind two revival methods just in case. The first revival method was Heavenly Court’s qi harvest fruit. However, that Fang Yuan took it before this fruit could ripen. The second method involves the Primordial Origin Treasury.”

“Primordial Origin Treasury?”

“Primordial Origin Treasury was secretly created by master to store the large number of rank eight immortal essence stones produced by Yi Qi Zi back then. The treasury also has master’s arrangements for revival. But I have no way to look for it.”

Star Constellation Immortal Venerable said that she has no way to look for it, and not that she had no clues.

In fact, she had related clues of both Primordial Origin Immortal Venerable and Genesis Lotus Immortal Venerable’s revival methods. Moreover, she already knew they were in Central Continent.

But she could not inspect or probe it.

Because it would then be discovered by other venerables.

With the revival of Star Constellation Immortal Venerable, the other venerables were definitely on guard against the revival of other Heavenly Court venerables.

Star Constellation Immortal Venerable needed to refine all the wisdom path dao marks in Central Continent before she could conceal these revival plans and not be afraid of other venerables’ inspection.

Even if other venerables saw through it, she could use her terrain advantage in Central Continent to resist the attacks of the venerables and protect Heavenly Court venerables’ revival methods.

Only after Star Constellation Immortal Venerable refined all the wisdom path dao marks in Central Continent could she start reviving other Heavenly Court venerables.

Heavenly Court’s foundation was unfathomably deep.

Once the two venerables revived, they would rule the world once again.

After all, the combined strength of three venerables was unthinkable. They would easily surpass the individual strength of Giant Sun Immortal Venerable and Fang Yuan.

Even if Giant Sun, Fang Yuan, and Spectral Soul Demon Venerable allied, they would be weaker than Heavenly Court's three venerables.

It was because of the difference in their ideals!

But the heaven path dream realms appeared which delayed Star Constellation Immortal Venerable's plan once again.

Star Constellation Immortal Venerable needed to slow down on refining dao marks, and save her immortal essence to prepare for the battle between venerables!

Northern Plains.

Giant Sun Immortal Venerable sighed.

He did his best, but after absorbing rank eight immortal essence stones, the converted immortal essence was only seventy percent of the immortal essence stones.

And this seventy percent immortal essence was only rank eight immortal essence.

"I need to get rid of the heaven's will, but I don't cultivate wisdom path. I also lack crucial luck path Immortal Gu."

"Maybe I can transact with Fang Yuan?"

"No, I can't reveal any clues about this."

Eastern Sea.

"Heaven path dream realms? Good! Very good."

Fang Yuan had been planning to create a heaven path venerable clone not long ago, he was just worried about his lacking heaven path attainment level when heaven path dream realms appeared!

It was just that seizing the heaven path dream realms would probably incite another battle between venerables.

"It is better to refine another rank nine Immortal Gu to help me raise my direct combat strength."

Fang Yuan began to secretly refine rank nine Immortal Gu.

He had a lot of immortal essence.

Even after refining this rank nine Immortal Gu, he would still have a lot remaining to use in the battle of venerables.

Chapter 2303: Besieging Lin clan's First Supreme Elder

Back in Western Desert.

Lin Lun Zhou suddenly opened his eyes.

The immortal formation sounded an alarm; someone had intruded!

“Such guts, you dare to invade my Lin clan’s Skeleton Mountain.” Lin Lun Zhou was surprised and furious, checking immediately.

He saw that an Immortal Gu House was violently colliding with the defensive formation.

“Inquiry Dock! Fang clan!!” Lin Lun Zhou’s expression turned serious as he sent request for reinforcements to Lin clan while fully activating the defensive formation.

Ever since Fang clan started the commotion, Lin clan had reinforced the immortal formations in many resource points, and almost all the formations had the ability to transport people.

So, Lin Lun Zhou was not panicked.

As his battle intent rose, he frowned: “Since Fang clan attacked after remaining in hiding for so many days, they definitely made sufficient preparations. I definitely am not Fang clan’s match by myself, but I can use this immortal formation to stall for time. Once the anti-Fang alliance army arrives, Fang clan will definitely suffer consequences.”

“Of course, if the situation turns bad, I will immediately use the formation to get out... What?!”

Lin Lun Zhou had been controlling the formation when his eyes suddenly opened wide and panic filled him.

To his horror, he found that the formation was restricted.

Although the formation could still operate, its transportation effect was nullified.

“They targeted this after all!!” Lin Lun Zhou clenched his teeth as he forcibly calmed himself, thinking of a way to get out of this predicament.

He felt that not all hope was lost.

He was a rank seven bone path Gu Immortal defending Lin clan’s Skeleton Mountain. This was a bone path resource point and he had a huge territorial advantage here.

Moreover, Lin Lun Zhou was stationed here all year round, he knew this place like the back of his hand.

After thinking for a while, Lin Lun Zhou arranged a portion of his will with some immortal essence while he left quietly.

The defensive formation was still defending with all its strength under the control of his will.

Fang clan’s Immortal Gu House collided again, creating thunderous sounds.

Lin Lun Zhou’s will was shrinking rapidly, but it could still last for some time.

Lin Lun Zhou entered the depths of Skeleton Mountain.

The rocks on Skeleton Mountain were dark and let out soul smoke from time to time. Once in a while, the mountain rocks would produce a skeleton. Some skeletons were like humans, some had animal shapes, there were countless possibilities.

Besides these bone armors, dark mist crows flew above Skeleton Mountain and fed on the soul smoke.

Fang clan's Immortal Gu House's attack shook the whole Skeleton Mountain.

The countless skeletons that were among the rocks were originally motionless. But as the mountain started shaking, these skeletons propped themselves up and ran wildly on the mountain.

The skeletons collided and killed each other, creating chaos.

At this moment, Lin Lun Zhou activated a killer move. He transformed into a large mammoth skeleton and started running on the mountain.

He was mixed in among the countless skeletons, becoming inconspicuous.

But not long later, threads of water vapor bound him.

"Friend of Lin clan, why be in a hurry to leave?" Shortly after, a voice entered Lin Lun Zhou's ears.

Lin Lun Zhou immediately fell into despair: "Rank eight Gu Immortal? You are not from Fang clan!"

At the next moment, the water vapor ropes moved and bound Lin Lun Zhou tightly.

Lin Lun Zhou struggled madly, but soon, his vision turned black as he lost his consciousness.

News of Fang clan's attack on Lin clan's peripheral resource point Skeleton Mountain soon reached Lin clan's headquarters.

Shortly after, Lin clan contacted the anti-Fang alliance.

By the time the anti-Fang alliance reached Skeleton Mountain, there were only ruins. The whole Skeleton Mountain was gone.

"This is indeed Fang clan's style!"

"Lin Lun Zhou was the Gu Immortal stationed here, he cultivates bone path and is quite strong, I did not expect him to go missing as well."

"Sigh, it bodes ill for him."

"Fang clan came to make trouble again, their sins are unforgivable! Once we catch them, we will rip their skin and cut their tendons to relieve our hatred!!"

Just as the anti-Fang alliance members were cursing Fang clan, another astonishing news arrived.

Dong clan's peripheral territory, Dragon Roar Volcano, was also attacked by Fang clan.

Dragon Roar Volcano was a fire path resource point, but whenever the volcano erupts, it would produce dragon roars; at that time, a sizable amount of sound path resources could be harvested.

When the anti-Fang alliance reached Dragon Roar Volcano's site, they did not see any volcano.

"Heavens, even the underground magma has been taken away."

"It seems like Fang clan wants to make a big commotion this time!"

"They went into hiding for some time; it was probably to exchange for Immortal Gu or killer moves from Heaven Refining Demon Venerable, and increase their strength. Otherwise, would they dare come out?"

"That's right. Be it Dragon Roar Volcano or Skeleton Mountain, they are important areas that Fang clan would not have rashly invaded before. But now, both were attacked and taken, Fang clan's strength has definitely increased greatly."

"The important thing is, will Fang clan continue their actions? Where is their next target?"

"Where is the closest resource point to Dragon Roar Volcano?"

"It is clear water grassland."

Clear water grassland was a rarely seen grassland in Western Desert. There was plenty of water and lush grasses here, and it produced water path and wood path cultivation resources.

But just as the anti-Fang alliance was discussing, they received the news of Fang clan capturing clear water grassland.

The anti-Fang alliance was in an uproar.

Fang clan's action this time shows extremely sharp offensive ability that was several times more powerful than before.

"Skeleton Mountain, Dragon Roar Volcano, clear water grassland... please take a look, Fang clan's path is already marked, their next target is probably Dong clan's ascending heavenly pit!"

"Then what are we still waiting for?!"

"Let's go reinforce them immediately. Dong clan sent a message, ascending heavenly pit is in Dong clan blessed land so it is not heavily guarded."

"More importantly, Dong clan has not sent any Gu Immortal to guard ascending heavenly pit!"

Gu Immortals were much fewer than resource points. In general, Gu Immortals were stationed in peripheral resource points. And resource points in blessed land would have fewer manpower.

The anti-Fang alliance rushed to ascending heavenly pit without stopping. But when they arrived, the immortal formation was already broken, there was noise coming from the depths of ascending heavenly pit as if Fang clan immortals were still plundering resources.

"We finally caught them!"

“Kill them!”

“We must eradicate Fang clan, otherwise our Western Desert will have no peace.”

The anti-Fang alliance attacked with a bellyful of anger.

But not long later, an immortal formation rose from the heavenly pit, and trapped all of the anti-Fang alliance members.

“We were tricked!”

“Such a powerful immortal formation, I can’t even connect to treasure yellow heaven or send a message.”

“This immortal formation prioritizes in trapping and doesn’t have much offensive power. Crap! Fang clan intentionally arranged this, they don’t want to fight us, they are only trying to plunder resource points.”

“Sigh, what should we do? I wonder which resource point of Dong clan’s will be attacked next.”

Anti-Fang alliance members were trapped by the formation and lost their means to communicate.

At the same time, an emergency news reached Lin clan headquarters: Fang clan’s main force suddenly appeared in evil spirit desert and were attacking giant spirit oasis.

Giant spirit oasis was Lin clan’s super resource point, it was heavily protected and could not be lost.

Lin clan’s first supreme elder was still in closed cultivation, the second elder thought for a while before deciding to make a move personally. He controlled the two Immortal Gu Houses of Lin clan and mobilized as much Gu Immortals as he could towards giant spirit oasis.

At the same time, he also asked for reinforcements from the anti-Fang alliance.

Lin clan’s second supreme elder mobilized their full strength, this was because he had no choice.

Since Fang clan lost their territories, they could easily mobilize all their members. It was extremely difficult for other super forces to resist them.

Lin clan’s second supreme elder had to mobilize enough troops to match Fang clan’s crazed attacks. If the mobilized troops were too few, they would just be asking for defeat against Fang clan.

But with this, Lin clan headquarters naturally became empty.

Bam.

Several figures suddenly landed and roughly killed their way into Lin clan’s headquarters.

They were Prince Feng Xian, Red Heart Traveler, Nine Spiritual Fairy, as well as Wan Zi Hong and Zhou Xiong Xin who just arrived from ascending heavenly pit.

Five rank eight experts attacked Lin clan headquarters.

“Lin clan’s first supreme elder, we came for you.” Red Heart Traveler said loudly.

"If you don't resist, you will be able to live." Nine Spiritual Fairy added.

Inside a secret room, Lin clan's first supreme elder slowly opened his eyes and sighed: "What has my Lin clan done to provoke such a grand action from Heavenly Court? Heavenly Court is the leader of the righteous path, why are you sneakily attacking a righteous path super force? My Lin clan has never colluded with the demonic path."

Wan Zi Hong sneered: "Lin clan's first supreme elder, stop pretending. You act differently from what you say, you secretly protected Fang clan while colluding with Fang Yuan. Otherwise, how can Fang clan be still at large?"

Zhou Xiong Xin nodded: "I have already gathered sufficient evidence."

Lin clan's first supreme elder was silent for a bit before laughing: "Heavenly Court? Haha, you are truly Heavenly Court."

Chapter 2304: Sword Qi Takes Form

Immortal battlefield killer move — Rumor Cage!

Zhou Xiong Xin clapped; in an instant, countless silver text characters emerged and circled Lin clan's public blessed land.

These characters were large as horse carriages or small as ants, they weaved together into a huge ball, enveloping Heavenly Court five great Gu Immortals and Lin clan's first supreme elder.

"Success." Zhou Xiong Xin said with excitement, letting out a breath of relief.

A good start was half the success!

The other four Heavenly Court immortals also looked relieved.

What they were most worried about was Lin clan's first supreme elder running away.

They were all rank eight Gu Immortals, Heavenly Court was fighting five versus one, but it was very hard to catch a rank eight Gu Immortal who wanted to flee.

With the conflict between dao marks, Gu Immortals could not easily show the advantage of numbers. These five Heavenly Court immortals separately cultivated wood path, information path, fire path, blood path, and transformation path which conflicted with each other.

"Rumor cage really deserves the title of the battlefield killer move with the fastest activation time."

"But I did not expect Lin clan's first supreme elder to not dodge or flee."

"Did he see through it?"

The five Heavenly Court immortals conversed with each other through mental transmission.

They appeared grandly because they had already arranged a temporary formation outside Lin clan's public blessed land headquarters.

Once Lin clan's first supreme elder escaped or flew out of the public blessed land, the formation would be triggered and attack him, reducing his speed.

Star Constellation Immortal Venerable had personally instructed them regarding the requirement of a sword immortal's immortal aperture and body. These five Heavenly Court members naturally made ample preparations.

Although this formation did not have much offensive power, it was modified by Star Constellation Immortal Venerable herself to target Lin clan's first supreme elder's escape methods.

Moreover, public blessed lands always had weaker defense than an individual's blessed land.

As an information path expert, Zhou Xiong Xin had already gathered relevant information when he moved around in Western Desert.

Lin clan's first supreme elder was already trapped in rumor cage battlefield!

Prince Feng Xian gave a shout and charged forward.

He flew to the sky and opened his mouth towards the palace.

Whoosh—!

Flames gushed out of his mouth and landed on the ground, growing rapidly into a blazing inferno.

The palace was only a mortal Gu House, it crumbled apart rapidly in the inferno.

Lin clan's first supreme elder was forced to come out of his seclusion, he flew to the sky and faced the enemies.

Prince Feng Xian, however, retreated slowly.

"Lin clan's first supreme elder, Lin Jian Xing, have a taste of my attack!" Wan Zi Hong chuckled charmingly as she took the place of Prince Feng Xian.

She activated a wood path killer move. Instantly, flower petals fluttered and covered the battlefield, a fragrant smell spreading along with it.

All the five Heavenly Court immortals held their breath.

Lin Jian Xing had a solemn expression as he pushed forward with his hands. In an instant, sword qi rampaged and formed into a giant wave.

The wave surged and billowed, washing away the poisonous flower petals.

Wan Zi Hong disappeared amidst the petals and appeared behind Lin Jian Xing.

She raised her left little finger that had a sharp purplish nail as she stabbed at Lin Jian Xing.

Immortal killer move — Flower Thorn Stab.

Lin Jian Xing was struck, his figure paused before sword qi rose violently, sealing Wan Zi Hong within!

At the next moment, his previously activated sword qi wave moved backwards.

The surging giant wave drowned Lin Jian Xing and Wan Zi Hong.

The other four Heavenly Court immortals did not do anything to avoid hurting Wan Zi Hong.

The sword qi wave disappeared shortly afterwards, leaving only Lin Jian Xing while Wan Zi Hong disappeared once again.

Flower petals fluttered beside Prince Feng Xian, turning into Wan Zi Hong.

Wan Zi Hong was injured but had a satisfied smile on her face: "Stall him, he is struck by my method. The longer time goes by, the more thorns will grow in his body, hindering his movement and even stabbing him to death."

Wan Zi Hong made her contribution, she retreated and began to heal her wounds.

The other Heavenly Court immortals continued to surround Lin Jian Xing, not giving him any time to rest.

Heavenly Court made full use of their numerical advantage.

The silver characters that formed rumor cage began to let out dazzling light. The dense light flowed like water, moving in the air as it gathered and swirled. Next, from the silvery light, silver tigers emerged.

The tigers roared and pounced on Lin Jian Xing.

It was Zhou Xiong Xin's killer move — Rumors Become Tigers.

Prince Feng Xian made his move next; countless beautiful fire birds appeared out of thin air.

The fire birds burned intensely while having deep intelligence. They formed into groups and followed the tigers.

Red Heart Traveler also made his move.

Blood light pillars crashed down.

Tigers, fire birds, and blood pillars formed three waves of continuous attacks!

Lin Jian Xing was surrounded by the attacks but he did not evade.

Against the incoming attacks, he shouted grandly as sword qi surged out violently and charged towards the tigers.

Sword qi condensed into vines beside the countless tigers and bound them. The vines had countless sword path thorns that pierced deep into the tigers.

Painful roars of tigers resounded as most of them crumbled apart like balloons being popped.

At this time, the fire birds entered the battlefield.

Lin Jian Xing transferred his immortal essence as the sword qi in the battlefield were replenished, turning into fierce wind.

The fierce wind killed all the remaining tigers and blew away countless fire birds, the remaining few fire birds were unsteady and unable to gather into a formation again.

The blood light pillars smashed down, rapidly suppressing the fierce wind.

Lin Jian Xing was forced to move backwards. After pulling some distance, he release a large amount of sword qi.

Sword qi turned into ice walls that confined the blood light pillars and ground them constantly.

Lin Jian Xing neutralized three waves of attacks consecutively, showing his extremely profound sword path attainment.

Nine Spiritual Fairy did not stint on her praise: "Lin clan's first supreme elder's methods have a unique style and are truly extraordinary. I can't wait anymore, take this!"

Nine Spiritual Fairy turned into an immemorial desolate beast, her roars were like lightning as they shook even the rumor cage.

Nine Spiritual Fairy clashed with Lin Jian Xing, her attacks were filled with great strength, forcing Lin Jian Xing to move back again and again.

Lin Jian Xing continued to retreat, unable to ward off Nine Spiritual Fairy's charge.

Transformation path and strength path Gu cultivators had a unique advantage when they were vanguards in the battlefield.

The five Heavenly Court immortals continued to attack in turns, suppressing Lin Jian Xing since the start of the fight.

Although their dao marks conflicted, they had an extremely tacit coordination.

Their attacks were like tidal waves, continuing without stopping. On one hand, they suppressed Lin Jian Xing, not giving him any chance or time to study rumor cage battlefield. On the other hand, they were weakening and wearing him down, creating a chance to capture him.

Lin Jian Xing's sword qi were exquisite and profound, transforming into all kinds of shapes. His extraordinary sword path attainment made even the five Heavenly Court immortals sigh in awe.

But he was just one person after all, two fists cannot rival four hands, let alone when Heavenly Court had five people!

As time passed, the situation got increasingly disadvantageous for Lin Jian Xing.

"Strange, what method did he use to suppress my flower thorn stab?" Wan Zi Hong was inwardly surprised at seeing Lin Jian Xing moving so freely.

Right at this time, Prince Feng Xian suddenly used a killer move.

After Lin Jian Xing was struck, grey flames burned all over his body.

The flames constantly produced fire birds. Lin Jian Xing's momentum decreased rapidly as his speed also had an obvious reduction.

Seeing the chance, Red Heart Traveler immediately used his killer move, blood sun seal!

He coughed out a mouthful of blood.

The fragrant blood flew to the air and started rotating. Like a miniature blood sun, it emitted endless blood red light as it rushed towards Lin Jian Xing.

Lin Jian Xing was surrounded by sword qi; at this moment, the sword qi flew and turned into a giant python that tried to stop the blood sun.

But this blood sun seemed to be illusory, it passed through the obstruction and struck Lin Jian Xing's chest, turning into a red sun insignia.

Lin Jian Xing's expression changed slightly.

The blood sun insignia showed its effect quickly, it formed into blood red lines.

The blood lines covered Lin Jian Xing, gradually forming a blood cocoon.

It seemed like Lin Jian Xing was about to be captured alive; but at the next moment, Lin Jian Xing's body crumbled apart, turning into a powerful wave of sword qi that slipped out of the blood cocoon.

After flying outside, these sword qi condensed back into Lin Jian Xing.

"He can even do this?"

"No, something is not right!"

"This is not Lin clan's first supreme elder."

The five Heavenly Court immortals' expressions' changed as they noticed an issue after seeing the situation.

They shockingly found that the trapped Lin Jian Xing was not the Gu Immortal himself, but only a killer move.

All along, the five immortals had been toyed around until now when they discovered it.

"He is only a lump of sword qi, no wonder my flower thorn stab had no effect."

"So that's it, this was not Lin clan's first supreme elder, that's why he did not try to evade when I used rumor cage."

Zhou Xiong Xin's expression was unsightly as he canceled the battlefield killer move.

The five immortals once again appeared in Lin clan's public blessed land.

The true Lin clan's first supreme elder Lin Jian Xing was standing in the air with his hands behind his back, showing a smile as he looked at the five immortals: "You finally came out."

"Lin Jian Xing, truly formidable. I wonder what the name of this move is called?" Red Heart Traveler smiled warmly as he asked.

Lin Jian Xing nodded slightly and explained: "This move is called sword qi takes form."

“Sword qi takes form, truly a great move!” Prince Feng Xian praised sincerely.

“After this battle, no matter what happens to you, this move will definitely be renowned throughout the five regions.” Zhou Xiong Xin commented.

Although they were played, the five Heavenly Court immortals only looked grim-faced but had no loss in confidence or battle intent.

In the battle inside rumor cage, they were also suppressed.

After all, rumor cage created an information path environment which suppressed four of the Heavenly Court immortals. They did not dare to use all their strength in fear of breaking the rumor cage.

Even if it was not destroyed, if there were great impacts, the battlefield would still be broken and reveal gaps from which Lin Jian Xing could escape.

Lin Jian Xing stretched out his palm and showed several Immortal Gu that were bound by sword qi: “Heavenly Court’s immortal formation is truly amazing, it seemed to have been modified to specifically target my clan’s public blessed land. Is this Star Constellation Immortal Venerable’s method?”

The five Heavenly Court immortals could not conceal their serious expressions.

The formation they had secretly arranged outside of Lin clan’s public blessed land was already taken down by Lin Jian Xing.

But at the next moment, Lin Jian Xing waved his hand, throwing the Immortal Gu to the Heavenly Court immortals: “The Immortal Gu have been returned to you. This is my clan’s headquarters, it won’t be nice if we destroy it, let’s change the location of our fight.”

The five Heavenly Court immortals quietly received the Immortal Gu and looked at each other. Finally, Red Heart Traveler nodded: “You have unparalleled grace, I am in admiration.”

“There is a desolate area three thousand li from here, please follow me.” Lin Jian Xing flew out of the blessed land, moving at a slow speed with an indifferent attitude.

The Heavenly Court immortals followed closely after.

Chapter 2305: Heavenly Court’s Crushing Defeat

“How do we deal with this?”

“Since the formation is already broken, we can only rely on rumor cage.”

“What is Lin Jian Xing planning?”

“If he is thinking of waiting for the anti-Fang alliance or Western Desert righteous paths’ reinforcements, he will be disappointed.”

Wan Zi Hong, Prince Feng Xian, Zhou Xiong Xin, Red Heart Traveler, and Nine Spiritual Fairy followed Lin Jian Xing while secretly conversing.

Lin Jian Xing's methods were exceptionally exquisite, ruining the five immortals' plan.

With just sword qi takes form killer move, he fooled them for so long, making these Heavenly Court immortals feel ashamed of themselves.

Lin Jian Xing's main body used that time to destroy Heavenly Court's formation.

This made the Heavenly Court immortals realize that their battle plan had a mistake, they should have designated one person to guard the formation.

In fact, the formation had a certain amount of defensive capability and also had the ability to convey messages. If it was attacked, the message should have been sent. Even if the five Heavenly Court immortals were inside rumor cage, they could still obtain the reminder.

Rumor cage battlefield isolated the inside and outside, the ones inside could not even connect to treasure yellow heaven.

But this message would directly rush to rumor cage, creating subtle vibrations in rumor cage as a warning.

At that time, the five immortals would know that the formation was being destroyed, they would react to the specific situation and send a few people to deal with it.

However, Lin Jian Xing's methods were exceptional, he quietly dismantled the whole formation without alerting the five Heavenly Court immortals.

However, he still returned the obtained Immortal Gu to these five immortals openly.

Such magnanimity captivated even these Heavenly Court immortals.

Under this situation, when Lin Jian Xing mentioned changing the battlefield, the Heavenly Court immortals were too ashamed to continue fighting in Lin clan's public blessed land headquarters.

"This is the place." Lin Jian Xing slowly stopped in the air and turned around to face the Heavenly Court immortals.

The five Heavenly Court immortals looked around, this desert was indeed like Lin Jian Xing said; it was extremely poor with no sign of life and was suitable for the battle.

"Lin Jian Xing, if you don't resist, I will guarantee with my life that your life will be preserved." Red Heart Traveler said with a sigh.

Lin Jian Xing scoffed: "If someone suddenly intrudes your home and frames you for something you did not do, even going as far as to attack you; and afterwards, say that they are going to preserve your life, what will you do?"

"Why talk so much!" Red Heart Traveler was about to reply, when Wan Zi Hong suddenly attacked.

She disappeared and appeared behind Lin Jian Xing in an instant.

She stabbed at Lin Jian Xing's back with her ten sharp, purplish-black nails that were extremely sharp!

Wan Zi Hong was a demonic immortal recruited by Heavenly Court, she did not lack viciousness and also had her own arrogance.

Lin Jian Xing toyed with her for so long with sword qi takes form, she was already disgruntled.

Right now, she still used flower thorn stab, but with ten times the power!

'You have a body made of flesh and blood, let me see how long you can resist this.' Wan Zi Hong's eyes shone with a ferocious light.

However, at the next moment, there was a thunderous explosion.

By the time Wan Zi Hong reacted, she found she had already flown far away. She could only see the back figure of Lin Jian Xing who had been so close to her, and because of the long distance, he was as small as her palm.

"What happened? What killer move is this?" Wan Zi Hong just had this thought when an intense pain assaulted her.

Guh.

She coughed out blood and found to her horror that her defense killer move was almost destroyed completely.

"What in the world was that move?!" The other Heavenly Court Gu Immortals were also extremely shocked.

Lin Jian Xing's method was too fast, the Heavenly Court immortals did not see it clearly.

Zhou Xiong Xin quickly retreated and pulled some distance apart.

Nine Spiritual Fairy, however, transformed into an immemorial desolate beast once again and attacked Lin Jian Xing.

Under this situation, the sturdy and tough transformation path Gu Immortal was the best choice to probe the enemy.

Boom!

However, with a thunderous explosion, Nine Spiritual Fairy was also sent flying.

Three of her ribs were broken at the very least.

This time, the other Heavenly Court Gu Immortals were able to barely see the killer move. This was a sword path killer move, it was formed from sword qi and was so fast that it was almost impossible to catch it with naked eyes.

Even with investigative methods, they were only able to barely see it.

“This move is called sword qi lightning roar, please appraise it.” Lin Jian Xing said before counterattacking.

Bam bam bam...

Thunderous explosions rang again and again, the five Heavenly Court immortals were actually forced back.

Naturally, Lin Jian Xing did not use just his sword qi lightning roar killer move, he occasionally used sword qi takes form as well.

Sword qi takes form killer move was exquisite and profound, while sword qi lightning roar was fast, it was extremely fast!

So fast that the five Heavenly Court immortals could not even see it properly; for a while, they could only use defensive methods to resist.

“Lin Jian Xing actually had such methods! Protect me.” Zhou Xiong Xin secretly transmitted his voice.

Red Heart Traveler immediately flew in front of him and activated majestic blood light.

The blood light was like a sphere that completely covered Red Heart Traveler and Zhou Xiong Xin.

Zhou Xiong Xin had just prepared his method for a few breaths of time when Lin Jian Xing sensed it.

Lin Jian Xing pointed at the blood sphere; in an instant, at least three sword qi lightning roar attacked, rapidly destroying the blood sphere.

But Zhou Xiong Xin laughed loudly: “You fell for it.”

He had already finished preparing and was only intentionally delaying to create a deception of activating a powerful killer move that needed a long period of time to activate.

After all, a killer move with longer activation time was often more powerful.

Zhou Xiong Xin cultivated information path, he activated the move but it could not attack actively. However, if the enemy used a killer move and was blocked by this move, it could capture the information about the enemy’s killer move and give a warning to Zhou Xiong Xin.

Zhou Xiong Xin received early warnings, he quickly used information path methods to share the effect with the other four immortals.

The battle situation had a clear change.

The five Heavenly Court immortals finally stabilized their footing and began to exchange attacks with Lin Jian Xing.

Lin Jian Xing's sword qi lightning roar killer move was extremely fast, it would hit the target before they could even react.

But Lin Jian Xing still required time to activate this killer move. Zhou Xiong Xin's information path killer move would give early warnings to Zhou Xiong Xin and the rest when Lin Jian Xing started preparing sword qi lightning roar killer move.

Adding on this little time, the five Heavenly Court immortals were barely able to react.

Both sides fought intensely but the Heavenly Court immortals were actually unable to grasp the control of the situation and were still being suppressed by Lin Jian Xing.

"How is this possible?"

"He is actually so strong? This does not match the intel we have."

"Sword qi lightning roar and sword qi takes form are already brilliant moves, his combat awareness is even better, far surpassing mine."

The Heavenly Court immortals were inwardly shaken.

Lin Jian Xing did not just rely on the two moves to dominate them, he showed his terrifying strength as well.

There was no strongest Gu worm, there was no most powerful killer move, but there was always a strongest Gu Immortal.

Lin Jian Xing was nowhere near number one but he vaguely surpassed the five Heavenly Court immortals.

"Our paths are different and impede each other. This will not do!"

"Lin Jian Xing has such battle strength, he needs to be weakened for us to have the chance of using rumor cage killer move."

"Let me try!"

The five Heavenly Court immortals discussed quickly as Prince Feng Xian stood up.

He sent out lumps of sparks which covered the battlefield in just a few moments.

Lin Jian Xing's surging sword qi were actually burned by the sparks and whittled down rapidly.

Lin Jian Xing was momentarily stunned, his vital Immortal Gu was rank eight Immortal Gu Sword Qi. Be it sword qi takes form or sword qi lightning roar, they both used Sword Qi as the foundation.

Prince Feng Xian's move actually burned his sword qi which broke his battle foundation.

At least half of Lin Jian Xing's sword qi were burned; in an instant, his strength fell rapidly.

The Heavenly Court immortals used this chance to counterattack.

After several exchanges, an opportunity appeared which was grasped by Nine Spiritual Fairy.

Nine Spiritual Fairy turned into a willow tree, its branches coiled around Lin Jian Xing like a python and bound him to the trunk.

Using this chance, Zhou Xiong Xin quickly used rumor cage battlefield killer move.

Seeing that Lin Jian Xing had fallen into the battlefield killer move once again, the five immortals' spirits rose.

But at the next moment, Nine Spiritual Fairy let out a painful cry. Her willow tree immemorial desolate beast form disappeared as she returned to her human form. She retreated in panic with her whole body covered in blood.

"What happened this time?!" The other four Heavenly Court immortals were astonished.

"Careful!!" Nine Spiritual Fairy was shielded by Zhou Xiong Xin, her expression was still full of shock along with a trace of fear.

Lin Jian Xing got rid of the bindings and smiled, his aura rising slowly.

The Heavenly Court immortals turned pale when they sensed this aura.

Pseudo venerable!

"He concealed it really well."

"He is actually a pseudo venerable!"

At this point, Lin Jian Xing finally showed his full strength.

Translucent milky white strings emerged around him.

The strings flew towards Heavenly Court immortals with an extremely fast speed.

Sword path killer move — Sword Qi Threads!

"It was this move!" Nine Spiritual Fairy reminded.

The other four Heavenly Court immortals were solemn, transformation path Nine Spiritual Fairy transformed into an immemorial desolate plant but was beaten miserably by this move, they naturally could not treat this lightly.

Red Heart Traveler activated all of his defensive methods as he took the lead in facing these threads.

The threads had extreme sharpness that could not be expressed in words. They directly cut straight through, Red Heart Traveler might have been cut into pieces by the threads if he had not reacted fast enough and pulled apart some distance immediately.

"This move cannot be blocked!" The other three Heavenly Court immortals also probed the power of this move and reached a consensus.

The threads' sharpness was unimaginable, even the powerful Heavenly Court immortals could only flee and evade.

Lin Jian Xing did not move, he sent out more and more threads that gradually filled the whole battlefield.

The five Heavenly Court immortals made an awkward discovery, the battlefield they wanted to trap Lin Jian Xing in became an obstruction for their own dodging attempts.

They finally realized now that Lin Jian Xing changed the battlefield not to stall for time. The reason why he returned the Immortal Gu was because he believed he could fight all five of them alone, he fight the five Heavenly Court immortals head-on!

“Lin Jian Xing! You are really underestimating us!”

“Cancel rumor cage, let me activate my strongest method!”

“No, let me go first.”

Facing such a powerful Lin Jian Xing, the five Heavenly Court immortals decisively canceled rumor cage and used their strongest killer moves.

Lin Jian Xing’s smile did not go away as he activated another method.

In an instant, sword light flew everywhere.

Sword path killer move — Sword Light Disintegration!

Bam bam bam...

In this battle, Lin Jian Xing won against five opponents alone. He killed Wan Zi Hong, severely injured Zhou Xiong Xin, Prince Feng Xian, and Red Heart Traveler, while Nine Spiritual Fairy who shielded their retreat was captured.

After this battle, Lin Jian Xing’s name shook the five regions.

Chapter 2306: Yet Another Rank Nine Immortal Gu

Inside the sovereign immortal aperture.

Mini Eastern Sea.

Refinement Sea’s sea area.

Sea breeze blew and sound of the waves could be heard constantly.

An elderly rank five hairy man was lying on a dinghy in an unconscious state.

The dinghy moved along with the waves, if no changes occurred, this elderly hairy man was going to face death by drowning.

But a towered ship was moving past here, and the people on the ship started shouting when they noticed the dingy.

When the elderly hairy man woke up, he found he was already on the towered ship.

“Elder, are you also going to the refinement path sacred land to compete for the qualifications to enter Floating Refinement Hive?” A hairy man Gu Master on the ship asked.

The elder nodded: “I live in Mini Northern Plains, I heard about Floating Refinement Hive and learned that it was forged by the orders of our Supreme Lord Great Love Immortal Venerable. This refinement path sacred land might be my final hope to make a breakthrough.”

The hairy man Gu Masters on the ship exclaimed in surprise: “Senior, it is really not easy for you to make such a long trip from Mini Northern Plains to here, you have our respect!”

The elderly hairy man shook his head, smiling bitterly: “At first, it was not just me, there were three others as well. But on the dangerous journey, two died in succession, while the remaining one did not dare to continue and returned. So, only I arrived here.”

Sovereign immortal aperture was not safe.

Especially when abnormal situations occurred frequently, the stable living habitats were the areas where clans or large groups settled; those areas were usually protected by immortal formations or Gu Immortals.

Even rank five Gu Masters would have to face huge risks if they were to make a long journey.

The elderly hairy man also asked about the origins of the hairy man Gu Masters on the ship.

Like what he had expected, these hairy man Gu Masters came from Mini Eastern Sea’s three hairy man continents.

Back then, Lang Ya blessed land’s Yellow Hair Continent, Black Hair Continent, and White Hair Continent were jointly called three hairy man continents.

These hairy man Gu Masters had different cultivation levels; rank four were the majority, there were few rank fives, and there were also rank threes but they were rare.

“I am really envious of you, you all live so close to the refinement path sacred land!” The elderly hairy man let out his inner sigh.

“What’s the point of being close? We are forbidden from entering during normal times.”

“How can we be allowed to enter the sacred land so casually?”

“From what I know, many Gu Immortals’ descendants can enter casually. Sigh, we can’t compare to them. They have Gu Immortal seniors, they enter or leave this area through flying boats which are extremely fast!”

“As long as this test is not difficult and I pass it, I will have the qualifications to enter and leave here freely.”

The hairy man Gu Masters discussed.

Several days later, the elderly hairy man and the hairy man Gu Masters arrived above a Floating Refinement Hive.

The Floating Refinement Hive was enormous and towering, making all the Gu Masters exclaim in shock.

A voice entered every person's ears, instructing the correct path to enter the Floating Refinement Hive.

The Floating Refinement Hive's structure was even more complex, there were countless rooms and corridors which made it easy to get lost.

With the guidance of that voice, the hairy man Gu Masters found their rooms one after the other.

There were all kinds of living amenities in the rooms but they were extremely simple, clearly showing the style of asceticism.

That night, the newly arrived hairy man Gu Masters slept well.

The second day began, Gu materials were sent to the separate Gu refinement chamber in the room.

The hairy man Gu Masters began their Gu refinement.

According to the explanation of that mysterious voice, this was the initial test; the Gu Masters were required to use their most proficient methods to process Gu materials or refine Gu worms.

This test lasted for three days in which time Gu Masters could display their attainment to their heart's content.

After the test, Gu Masters would be shifted to different rooms; some moved to higher floors while some were dropped to lower floors.

Floating Refinement Hive did not restrict interaction between Gu Masters, all kinds of small-scale meetings were held during night frequently.

The rank five elderly hairy man Gu Master saw many excellent Gu Master. Among them, hairy men were the most numerous, but there were also humans, and even some other variant human Gu Masters.

He also heard many news. One day, according to everyone's speculation, they concluded that the Gu Masters on higher floors had better results.

Because the higher the floor, the better the environment of the room, and the more exquisite the food served.

Gu Masters began to compete intensely based on this standard.

Floating Refinement Hive never lacked tasks to process Gu materials, refine Gu worms, or create new Gu.

If the Gu Masters passed with good results, they could request guidance from the mysterious voice, learning exquisite Gu refinement knowledge and techniques.

After living here for a couple of weeks, all the Gu Masters felt their strength rising rapidly.

Like this, fourteen days passed and the Gu Masters faced the mid-term test.

A top tier Gu material needed to be processed by many Gu Masters together.

The Gu Masters were distributed in their respective rooms, they watched the real-time video and processed the material together at separate locations. The video was lifelike and even had vivid temperature and smell like it truly existed. The real Gu materials were in a refinement path Gu formation in a secret area and were not placed before the Gu Masters.

Such a method was unimaginable, shocking and awing the Gu Masters.

The mid-term test soon ended. Ten or so days passed again before it was time for the final test.

This time, the test was to process immortal materials.

Naturally, the main lead were Gu Immortals, every Floating Refinement Hive had at least one refinement path Gu Immortal. The Gu Masters were in charge of doing some supplementary tasks like processing a part of the immortal material, and so on.

After passing the final test, the Gu Masters possessed the qualifications to enter and leave Refinement Sea freely.

But this qualification had a time limit of fifty years. Once this time limit was up, they had to retake the test.

Most of Fang Yuan's Floating Refinement Hives were packed with Gu Masters.

The earlier stage did not have a high standard, most of the Gu Masters could pass and obtain this qualification.

But in the future, as the population increases explosively, there would be intense competition in every field. This was even more so for the qualification to enter Refinement Sea.

Every Floating Refinement Hive could borrow the help of Refinement Sea and greatly raise the success rate of Gu refinement. At the same time, the wasted Gu materials from refining in these refinement hives were melted by the Floating Refinement Hives and sent to Refinement Sea.

Both components complemented each other.

If there was no replenishment from the Floating Refinement Hives, the current Refinement Sea's water level would have already fallen by a lot.

After all, Fang Yuan had been trying to advance an Immortal Gu for many days.

The central area of Refinement Sea was an absolute forbidden ground, only the Gu Immortals permitted by Fang Yuan could enter.

It was because Four Elements Square Regret Blood Refinement Pool was there!

Suddenly, a rumbling sound spread from Four Elements Square Regret Blood Refinement Pool, a light pillar suddenly took shape and soared towards the sky.

The light pillar slowly dissipated and a rank nine Immortal Gu revealed itself.

This heaven path Immortal Gu looked like a crystal spider, it was clear and transparent with no flaws on the body. The spider's eight legs were slim and long, its body was also small and raised high by the eight legs.

It was heavenly web Gu.

And on the back of heavenly web Gu, there was a cobweb-like white insignia.

This was unique to rank nine heavenly web Gu, rank eight heavenly web Gu did not have it.

"Success, master gained yet another rank nine Immortal Gu!"

"Goodness, it is our utmost glory to be able to participate in this whole process."

"As long as this continues, master will definitely trample on all the venerables one day!!"

There were other Gu Immortals who took part in the advance refinement process in Four Elements Square Regret Blood Refinement Pool, most of them were hairy men. They looked at the sky and sighed with emotions.

Under the control of Fang Yuan's divine sense, rank nine heavenly web Gu disappeared shortly after.

"Rank nine heavenly web Gu is also refined."

Fang Yuan's mood was tranquil.

He had refined several rank nine Immortal Gu, he was becoming used to it and did not feel excitement.

Although the Gu refinement failed twice, there was no setbacks after that and it finished smoothly.

Fang Yuan had pondered over this before finally choosing to advance heavenly web Gu.

He needed an Immortal Gu that could help him in frontal offense and defense. And among the two main aspects of offense and defense, Fang Yuan unhesitatingly chose the latter.

Because of non-conflicting dao marks of sovereign immortal body, its defense was extremely weak and was Fang Yuan's shortcoming.

If other venerables used this point, Fang Yuan would have almost no place in a frontal combat and the consequences would be extremely severe.

When heavenly web Gu was activated by itself, it could release a giant web to trap the target.

Strictly speaking, it was not a defensive Gu, it belonged to the offensive aspect.

But it was the core of a defensive killer move —Heavenly Web Protection Veil.

Heavenly web protection veil's power increased massively and was even stronger than reverse flow protection seal now.

Moreover, heavenly web Gu could be used in obscured heavenly secret, increasing the power of this move as well.

Fang Yuan chose heaven path and gave up on refinement path because refinement path did not specialize in offense; moreover, it was too widely spread.

Heaven path had extremely wide future prospects, and when developed well, was far better than human path.

Even more amazing was that almost no one had the qualifications to cultivate heaven path.

So, it was extremely wise of Fang Yuan to choose heaven path as his specialty. Using heaven path for offensive methods was naturally the best choice.

Taking back the rank nine heavenly web Gu, Fang Yuan inspected his storage.

Because of two failures, a lot of heaven path immortal materials were expended. As for the secluded domain of heaven and earth, Refinement Sea, the sea level did fall but not to the point of exceeding the limit, it could self-recover even if it was not looked after.

Naturally, the constant resource deposit by Floating Refinement Hives accelerated the recovery of Refinement Sea.

Just as Fang Yuan was planning on which rank eight Immortal Gu to advance next, news arrived.

Five Heavenly Court immortals surrounded and attacked Lin clan's first supreme elder Lin Jian Xing but were utterly defeated. Lin Jian Xing revealed pseudo venerable battle strength, he colluded with Fang clan and helped to hide them, sending them intel secretly. Moreover, he was an otherworldly demon himself!

There was much evidence pointing to the fact that Lin Jian Xing colluded with and protected Fang clan, it could be said to be ironclad. As an information path great expert, Zhou Xiong Xin not only had the ability to gather clues, he also had the ability to forge false evidence.

As for Lin Jian Xing's otherworldly demon identity, it was deduced by Star Constellation Immortal Venerable personally.

The whole world was in an uproar, Western Desert was in even more chaos.

It was not easy for a pseudo venerable to emerge in this region, but before Western Desert's righteous path could feel any pride about this, they were dumbfounded.

This pseudo venerable Lin Jian Xing was actually dabbling in the demonic path and his involvement was quite deep!

Chapter 2307: Star Constellation, I Will Need You To Die

If not for Heavenly Court revealing it, the world would still be unaware of Lin Jian Xing possessing pseudo venerable battle strength. He hid it so well that he definitely had other motives.

And looking at the reaction of most of the Lin clan Gu Immortals, they were also unaware of this.

Western Desert's righteous path super forces were adopting a wait and see attitude.

Many of them anticipated Lin Jian Xing to give an explanation but Lin clan remained silent and gave no such thing.

There was no movement in Western Desert's righteous path.

They did not want to create an anti-Lin alliance after the anti-Fang alliance.

The consequences of attacking Fang clan was already before them. If Lin clan were to imitate Fang clan as well, with a pseudo venerable bringing the whole clan to fight a guerrilla war, how Western Desert's righteous path possibly survive?

"It is impossible for Fang clan to make a move. Seems like the previous series of Fang clan's attacks was a deception created by Heavenly Court." It was clear to Fang Yuan after he read through the whole information.

After Fang clan lost all their resource points, they had to rely on Fang Yuan even more. So, Fang Yuan had an even deeper control over them. If Fang clan were to attack at such a large scale, it was impossible for them to not notify him and ask for his instructions.

Fang Yuan found it somewhat funny.

Heavenly Court tried to put their hands in Western Desert, it would have been okay if they chose anyone else, but they just happened to choose the strongest target!

But shortly after, Fang Yuan fell into deep thought.

He thought of an issue: "Why did Heavenly Court suddenly target Lin clan?"

Was it because they discovered Lin clan's first supreme elder's pseudo venerable strength and wanted to get rid of him in advance for their plan to conquest the five regions?

This possibility was too low.

Not to mention that the greatest obstacle to Heavenly Court ruling the five regions were the other venerables, pseudo venerables were inconsequential.

Also, even if Heavenly Court discovered that Lin clan's first supreme elder had pseudo venerable battle strength, why would they only send five Heavenly Court Gu Immortals to kill him?

This was clearly not reasonable.

"What is Heavenly Court's true motive? Why did they suddenly target Lin clan?"

Fang Yuan knew from Fang clan that Lin clan had never colluded with Fang clan.

This was just Heavenly Court framing them!

"Is it because Lin Jian Xing is an otherworldly demon?"

That was not right either.

Heavenly Court's stance towards otherworldly demons was not radical extermination.

If they could be recruited, Heavenly Court would recruit them. They had tried to recruit Fang Yuan as well.

Heavenly Court's recruitment standard was very clear—they just needed to be humans!

"So what was the reason? As the number one person in wisdom path, even if Star Constellation Immortal Venerable did not make the plan, she must have agreed to attacking Lin clan. But she rarely miscalculates, so what was it that made her agree to attacking Lin clan?"

This question was crucial and was worth pondering over.

Even though wisdom Gu was only at rank eight, it was helpful to Fang Yuan.

After he used all kinds of wisdom path methods, Fang Yuan had some guesses but he was not certain.

After all, they were only deductions.

What was the truth?

Fang Yuan naturally had a way to verify his deductions.

He immediately sent an order to make a rank five Gu Master undergo immortal ascension.

Currently, there was no such rank five Gu Immortal seed in sovereign immortal aperture. Moreover, these Gu Immortal seeds did not have deep foundation or enough experience, the possibility of them succeeding in immortal ascension was very low. This was why Fang Yuan decided to stop them to let them continue to deepen their foundation.

But because this issue was very important, Fang Yuan felt it was worth expending a rank five Gu Master.

In the end, this rank five Gu Master failed and died from the imbalance of three qi.

But using the short period of time of merging the three qi, Fang Yuan used stealing heavenly secret to explore the truth.

Although Star Constellation Immortal Venerable was outside of Heavenly Court, being in Embroidered Tower, when she gave order to attack Lin clan, Bo Qing's soul was taken out from Heavenly Court's secret storage.

This was obvious evidence!

Adding on that Fairy Maiden Soul modified Bo Qing's soul in Heavenly Court, Fang Yuan learned of many valuable information.

"Fairy Zi Wei and Ying Wu Xie are trapped in heaven path dream realms, so Star Constellation Immortal Venerable decided to cultivate Bo Qing even though this action carries risks."

With these clues, Star Constellation Immortal Venerable's goal was obvious, it was to use Bo Qing to scheme against Spectral Soul Demon Venerable.

“Spectral Soul Demon Venerable...”

Fang Yuan’s eyes shone darkly as he mumbled.

He knew why Star Constellation Immortal Venerable wanted to deal with Spectral Soul Demon Venerable, Spectral Soul Demon Venerable’s actions already made him the main threat to Heavenly Court.

Naturally, this was Star Constellation Immortal Venerable’s understanding under the condition of Fang Yuan hiding his situation.

Were the truth of Fang Yuan’s many rank nine Immortal Gu to be revealed, Spectral Soul Demon Venerable would be thrown aside, not only would Star Constellation Immortal Venerable find trouble with Fang Yuan, Giant Sun Immortal Venerable would also impatiently ally with Star Constellation Immortal Venerable to attack Fang Yuan!

Splash splash splash.

At this time, Fang Yuan made deductions rapidly, thoughts gushed in his mind and formed into torrential waves.

He knew an opportunity was before him.

A huge opportunity!

If he missed this chance, Star Constellation Immortal Venerable might succeed in her plan.

Such opportunities seldom came twice.

So would he be able to grasp this opportunity?

If he could not, the outcome would be extremely bad to Fang Yuan.

Fang Yuan could not decide immediately.

Although he knew of heavenly court’s secret, he did not know how much progress Star Constellation Immortal Venerable had made over this period of time.

He was even more in the dark regarding Giant Sun Immortal Venerable and Longevity Heaven.

Fang Yuan refined rank nine Immortal Gu, he had an advantage in this aspect. But the other venerables might be able to offset his refinement path advantage through other aspects.

Battle.

Fang Yuan did not like battles, but he did not hate or reject them.

As far as he was concerned, battles and killing were only a way to obtain benefits.

An outcome of inflicting a little more damage to enemy while suffering less damage was already a good result in a battle.

There were huge risks in battle.

It was not a wise decision to start a fight rashly.

Compared to fighting, Fang Yuan liked doing transactions — to plunder the economy.

But Fang Yuan was aware: There will be upcoming battles between the venerables and it will be frequent!

“Let’s fight then.” After pondering and considering for several days, Fang Yuan finally made this decision.

And he immediately took action.

On one hand, he sent Gu Immortals to Western Desert to contact Lin Jian Xing and try to recruit him; on the other hand, he arranged a troop of capable experts.

After making proper arrangements, Fang Yuan flew to the sky and entered spectral heaven!

Great Love Immortal Venerable suddenly flew into spectral heaven—this significant information was quickly obtained by Heavenly Court and Longevity Heaven, it was rapidly spread throughout the whole five regions’ Gu Immortal world.

Every action of a venerable captured the attention of all the Gu Immortals.

Let alone when Fang Yuan was making such a big movement!

“What is Heaven Refining Demon Venerable trying to do by entering spectral heaven? Fight with Spectral Soul Demon Venerable?” Giant Sun Immortal Venerable was puzzled.

Star Constellation Immortal Venerable, however, felt her heart jump.

Not long ago, she had completed the transaction with Fang Yuan regarding the star array calculation formation. Her calculations went wrong because of Lin Jian Xing’s strength and she was just about to deal with this when Fang Yuan made such a strange movement.

Star Constellation Immortal Venerable did not even make a deduction when a strong intuition hit her—this was going to be bad!

But as the exact situation and how this intuition was going to be realized, Star Constellation Immortal Venerable did not know. She needed to continue deducing or let the situation play out.

“Among the venerables, Fang Yuan is the person in the worst position. Why did he take the initiative to go to spectral heaven?” Star Constellation Immortal Venerable was also puzzled.

Spectral heaven had already become Spectral Soul Demon Venerable’s territory, he did not show any movements when other Gu Immortals entered or left spectral heaven.

But if a venerable like Fang Yuan entered?

This was like a tiger occupying a mountain, it would not move when some small animals stepped onto the mountain. But if another tiger entered the mountain, the tiger would become vigilant and even start a fight.

Would Spectral Soul Demon Venerable attack Fang Yuan?

The reply to this issue weighed on the two venerables' minds.

They activated their investigative killer moves to pay close attention—Spectral Soul Demon Venerable did not show any movement!

Both venerables were shaken.

Both thought of a possibility at the same time: Did Fang Yuan have a method against Spectral Soul Demon Venerable, so he had the confidence to enter spectral heaven?

But why did he suddenly enter spectral heaven?

Similar question appeared before Star Constellation Immortal Venerable and Giant Sun Immortal Venerable.

Giant Sun Immortal Venerable's first thought was: "Has Fang Yuan already settled the issues inside sovereign immortal aperture and is trying to annex variant human grotto-heavens?"

Star Constellation Immortal Venerable's heart jolted as the bad feeling grew in her heart: "Does Fang Yuan already know of the heaven path dream realms? In the battle in Crazy Demon Cave, he killed Paradise Earth and obtained a large piece of truthful floating ice left after Limitless Demon Venerable's death...."

Fang Yuan did not conceal his movement and directly went towards the location of heaven path dream realms after he entered spectral heaven.

Soon, he was before the heaven path dream realms.

After sensing this, Giant Sun Immortal Venerable was shaken: "This is a dream realm? It is the dream realm closest to the depiction in <<The Legends of Ren Zu>>! So Fang Yuan's target is them."

Star Constellation Immortal Venerable frowned, Fang Yuan had heaven path cultivation and was also the number one person in the world regarding dream path, the heaven path dream realms were too useful to him.

"I can't let Fang Yuan succeed!" Star Constellation Immortal Venerable thought of this and immediately contact Giant Sun Immortal Venerable.

Giant Sun Immortal Venerable learned that these were heaven path dream realms.

He immediately agreed to ally with Star Constellation Immortal Venerable to suppress Fang Yuan and stop him from obtaining heaven path dream realms. At the same time, he wondered to himself if this was real or not.

This was the first time Giant Sun Immortal Venerable knew of the heaven path dream realm's existence.

"I already have a rank nine Gu, although it is light Gu, is damaged and can't be used for the moment, this is already enough to make Star Constellation Immortal Venerable and Heaven Refining Demon Venerable ally to deal with me. So, is this situation planned by them to plot against me?"

This was definitely a possibility.

Fang Yuan looked at the heaven path dream realm before him and sent dream butterfly Immortal Gu inside.

Dream butterfly Immortal Gu was an investigative Gu, Fang Yuan soon learned the details of the heaven path dream realm.

He became quite excited: "The price to create these heaven path dream realms is huge, the Heavenly Dao definitely expended its true meaning. This means, if I obtain these dream realms and absorb the true meaning, the loss of the Heavenly Dao will become my gain. Through this, my attainment in some aspects of heaven path can become even higher than the Heavenly Dao!"

Naturally, this could not be considered as heaven path supreme grandmaster.

Because right now, there were too many things in heaven path that Fang Yuan still could not comprehend.

"Fang Yuan, have you been well?" Just as he was thinking, Star Constellation Immortal Venerable arrived.

"As expected, it is easy to do things secretly, but hard to do them openly. Giant Sun Immortal Venerable is probably arriving as well." Fang Yuan thought of this and smiled at Star Constellation Immortal Venerable, "Star Constellation, I must have these dream realms! If you don't retreat, I will need you to die."

Chapter 2308: Fang Yuan Versus Star Constellation

"You need me to die? Hehehe, it is rare to see you, Fang Yuan, act so enthusiastically." Star Constellation Immortal Venerable smiled at Fang Yuan's threat but was slightly shaken inwardly.

In her several fights with Fang Yuan, Star Constellation Immortal Venerable rarely saw Fang Yuan show such a firm attitude. It was clear that Fang Yuan was bent on gaining these heaven path dream realms!

Because of this, Star Constellation Immortal Venerable needed to stop Fang Yuan even more.

"We have not fought for many days, you've probably made a lot of progress." Star Constellation Immortal Venerable's long hair started fluttering without wind.

Her long dark hair was like the dark night, but countless starlight specks glittered in between the hair like a shrunken milky way, so dazzling that it could not be ignored.

Ding ding ding...

Innumerable starlight specks flowed out of her hair and gathered to form a powerful starlight torrent.

This torrent was made from countless star fragments that collided with each other, producing clear and crisp sounds.

Fang Yuan frowned, he had not seen this move before. He immediately pointed with his finger, using the killer move seven kills rainbow.

In an instant, metal path's yellow light, wood path's jade-green light, water path's light blue hue, fire path's red light, earth path's brown light, wind path's green radiance, and lightning path's deep blue light merged together to form a huge drill that charged towards the star fragment current.

Rumble!

The collision produced a huge explosion first. Shortly after, metallic sounds of countless star fragments colliding with each other resounded in the battlefield.

Fang Yuan's seven kills rainbow passed through star fragments and snaked its way towards Star Constellation Immortal Venerable.

Star Constellation Immortal Venerable smiled as her body drifted back like there was a gust of wind.

Fang Yuan's seven kills rainbow continued to lose strength as it passed through the star fragments. At first, it had an unstoppable penetrative force, but as star fragments continued to attach themselves onto it, its momentum reduced rapidly. In the end, the light pillar continued to thin out, and when it reached Star Constellation Immortal Venerable, it was just like a wisp of smoke.

Star Constellation Immortal Venerable watched with a smile on her face as the seven kills rainbow dissipated before her.

Fang Yuan frowned slightly, his gaze fixed upon the star fragments that were scattered throughout the battlefield.

Every one of the star fragments was extremely small, they were not real star fragments but created from the killer move.

Originally, the star fragments flickered with blue light and gathered to form an azure torrent. But now, these star fragments were scattered, and as they absorbed the seven kills rainbow, their surface became tainted with colors like golden yellow, green, blue, red, brown, and so on. The sky above the battlefield was filled with all kinds of colors, forming a gorgeous scene.

Fang Yuan, however, sensed intense danger from this boundless beautiful scenery.

He continued to activate killer moves to probe, but each of them showed their might for a short period before their strength began to fall rapidly and were then absorbed by the star fragments.

Star Constellation Immortal Venerable activated another method.

She occasionally flicked her fingers or waved them in the air. Following her movement, star path dao marks shone in the battlefield correspondingly.

These star path dao marks increased in numbers rapidly while connecting with each other; in just a dozen or so breaths of time, they had constructed the initial form of a battlefield killer move!

How could Fang Yuan let Star Constellation Immortal Venerable succeed so easily, once the battlefield killer move was activated, Star Constellation Immortal Venerable would immediately have a huge territorial advantage.

Fang Yuan immediately acted to obstruct her but there was minimal effect.

The star fragments protected the dao marks, even if Fang Yuan destroyed the star path dao marks, these dao marks would break down into countless star fragments and fill the gaps.

"I need to thank you, Fang Yuan, if not for permanence Gu, there would not be these two moves." Star Constellation Immortal Venerable said.

Fang Yuan had never heard of these two moves, they synchronized with each other and were indeed extraordinary.

Fang Yuan saw that he was unable to resolve this directly, he decisively stopped probing and used another killer move.

At the next moment, his body released the light qi of five colors; central restriction white-gold saint light qi, northern restriction jade licorice light qi, western restriction red raging flame light qi, and eastern restriction blue water light qi.

The light qi connected with each other but were distinct individually as well. They quickly spread throughout the battlefield, covering Star Constellation Immortal Venerable's incomplete battlefield killer move as well as the countless star fragments.

Star Constellation Immortal Venerable nodded slightly, revealing her admiration.

Be it the previous seven kills rainbow or the current five restriction profound light qi, they were both modified by Fang Yuan.

If it were the original version, Star Constellation Immortal Venerable would have immediately disrupted them, and Fang Yuan would have suffered backlash.

Seven kills rainbow's modification was quite ordinary. In just this short while, Star Constellation Immortal Venerable had already seen through it. As long as she was given some time, she could deduce a method to break it directly.

But this five restriction profound light qi killer move was modified properly, besides the increase in its power, its activation speed had also become very fast.

This modification level surpassed seven kills rainbow's which showed that Fang Yuan had paid a lot of attention to this.

"He must have invested a lot of time and energy." Star Constellation Immortal Venerable thought.

Star Constellation Immortal Venerable began to suffer backlash.

She did not have sovereign immortal body which had non-conflicting dao marks. In this five restriction profound light qi, the stronger the killer moves she used, the stronger the backlash she faced.

However, Star Constellation Immortal Venerable was the number one person in wisdom path since ancient times. Five restriction profound light qi had been revealed before, so how could she not have a method to deal with it?

Over this period, she had thought of at least three ways to deal with every method of Fang Yuan's.

Immediately, Star Constellation Immortal Venerable chose to use the simplest one.

She opened the door of her immortal aperture slightly, letting out countless star beasts.

These star beasts had varying sizes, they were as large as white whales or as small as mosquitoes. Some had huge heads and horns, some were soft and twisted, they were of all kinds and shapes.

But every one of these star beasts was at least an immemorial desolate beast. Among them, the leaders' aura and status were clearly higher, their gazes even shone with shrewdness and spirituality.

The star beasts charged into five restriction profound light qi without any obstruction!

Five restriction profound light qi killer move originally came from Tao Zhu, he created it based upon the five regional walls. The five regional walls could obstruct the living beings of five regions but did not have much effect on the beings of the two heavens.

Star Constellation Immortal Venerable deliberately raised these star path beasts which were all from the two heavens, so they were not suppressed by five restriction profound light qi.

The star beasts formed groups and charged forward aggressively.

Fang Yuan activated killer moves to clear out area after area, but Star Constellation Immortal Venerable kept on adding more beasts, the star beasts' scale was still growing slowly. The star beast leaders even possessed their own immortal aperture and had Gu worms, their intelligence was not inferior to a human.

'Star Constellation Immortal Venerable seems to be able to raise legendary immemorial beasts at a large scale?!' Fang Yuan's mind was shook.

But thinking about it, he understood why.

"Star Constellation Immortal Venerable is the number one person in wisdom path, enlightening the star beasts and giving them wisdom is her specialty domain."

Actually, it was not just Star Constellation Immortal Venerable, the countless mutant Gu Immortals in Crazy Demon Cave originated from mountains, rocks, wind, fire, and so on, they were all evolved into Gu Immortals by Limitless Demon Venerable.

From a certain angle, in this aspect of enlightening legendary immemorial desolate beasts, Limitless Demon Venerable's accomplishments were much more shocking than Star Constellation Immortal Venerable's.

"Star Constellation Immortal Venerable must have spent countless star path resources to nurture so many star beasts! The merging of the two heavens gave me countless heaven path immortal materials, it also gave her endless star path resources. It allowed her to construct the star array calculation

formation and even raise so many star beasts.” Fang Yuan made a guess Star Constellation Immortal Venerable’s wealth.

The truth was, Star Constellation Immortal Venerable had spent a very large amount to raise so many star beasts. Not only did she use her gains from the merging of two heavens, she also used star path resources from Heavenly Court’s storage.

Looking at the approaching star beasts, Fang Yuan activated sword tongue dragon soul killer move while maintaining five restriction profound light qi.

Countless dragon souls flew and sword qi pervaded the air, but they still could not match the endless star beasts, at most they delayed the offense of some star beast groups.

After these star beasts were injured, the surrounding star fragments mended their injuries and healed them rapidly.

If they were severely injured, they would die and break down into star fragments.

Once the star fragments reached a certain level in an area, they easily formed star path dao marks.

Star Constellation Immortal Venerable’s three moves were connected to each other. If one was weakened, the other would benefit, they were mutually linked and made Fang Yuan’s situation increasingly tough.

“Looks like this is another one of Star Constellation Immortal Venerable’s combat systems...” Fang Yuan noticed something.

His thoughts moved like lightning.

This fight with Star Constellation Immortal Venerable was different from the battle in Crazy Demon Cave or the contest over rank nine light Gu.

The battle in Crazy Demon Cave was to seize Primordial Domain and the Crazy Demon formation. It prioritized on strategies and making use of the situation, it focused on the competition of information, people’s support, and their respective forces.

The contest over rank nine light Gu was a pursuit battle, it focused on speed, initiative, offense and defense.

This time, Fang Yuan wanted to seize heaven path dream realms, the prerequisite to this was to take control of this battlefield and gain territorial advantage!

Great minds thought alike, Star Constellation Immortal Venerable had the same view.

Be it Fang Yuan’s five restriction profound light qi or Star Constellation Immortal Venerable’s mysterious battlefield, they were both meant for this purpose.

From the start of the battle, Star Constellation Immortal Venerable directly used her new combat system, lowering the effectiveness of Fang Yuan’s five restriction profound light qi and other methods.

On the other hand, Fang Yuan was decisive, he saw the situation getting worse and immediately stopped all offensive methods, only defending himself.

Star Constellation Immortal Venerable saw this and waved her sleeves, making all the star beasts press forward.

Fang Yuan could only dodge while preparing his killer move.

Star Constellation Immortal Venerable's eyes shone with starlight as she suddenly took out the lantern-like secluded domain of heaven and earth.

Mental Domain.

She lightly swung Mental Domain towards Fang Yuan's direction.

Instantly, countless emotions attacked Fang Yuan's mind and body.

But Fang Yuan was already prepared, he activated several defensive killer moves, among which was the killer move, calm and steady.

This move was already used in Crazy Demon Cave, it was also modified now. It suppressed and eliminated Fang Yuan's emotions quickly.

Star Constellation Immortal Venerable did not succeed in disturbing him, while Fang Yuan stabilized his footing as his preparation succeeded. He opened his mouth slightly, light smoke gushed out of his mouth and ears.

The pink smoke gathered above Fang Yuan's head and turned into a mini image of Dang Hun Mountain.

At the next moment, the killer move activated as the mini Dang Hun Mountain shook intensely.

Ding—— !

Ding—— !

Ding—— !

Sounds of crystals colliding resounded in the battlefield, and soon, the sound became ear-piercing.

The pink sound waves were visible to the naked eyes, wherever they went, star beasts cried in pain, freezing on the spot before crumbling apart.

The battlefield that was filled with star beasts became empty instantly.

Even the stronger star beast leaders were unable to resist as they collapsed amidst the pink sound waves.

Not only this, even the endless star fragments also disintegrated and disappeared. The surrounding star path dao marks were broken in succession and drowned in the pink sound waves.

Immortal killer move — Shocking Departure of Year Dream Wave and Dang Hun Sound!

One move swept the whole battlefield and changed the situation easily, Star Constellation Immortal Venerable was aghast, her expression changed.

Chapter 2309: The Power of Heavenly Web!

Shocking Departure of Year Dream Wave and Dang Hun Sound was a compound killer move.

It used rank eight rule path departure Gu, rank eight wisdom path great shock Gu, rank eight time path year Gu, rank seven dream armor Gu, rank eight water path huge wave Gu, rank eight sound path ringing sound Gu, and its core was the secluded domain of heaven and earth, Dang Hun Mountain!

It was because the core was Dang Hun Mountain, a secluded domain of heaven and earth, that this move could be comparable to a rank nine killer move. Under the dao mark amplification of Fang Yuan's various paths, its might was astonishing.

With just this move, Fang Yuan immediately broke Star Constellation Immortal Venerable's three continuous moves and alleviated his worsening situation, regaining his footing.

Star Constellation Immortal Venerable's expression changed as thoughts surged and moved in her mind, trying to analyze this move with all her strength.

"This move seems like Fang Yuan's trump card, it is the source of his confidence to fight me."

"Roughly analyzing it, this move contains rule path, wisdom path, time path, dream path, water path, soul path, and sound path. It really is difficult to block it completely."

Wisdom path was fine, but dream path was troublesome. Despite the dream path Immortal Gu Dream Armor being only rank seven, Star Constellation Immortal Venerable did not have an effective way to block it.

Fang Yuan had the advantage in dream path, he was the number one in the current world!

"The greatest source of this move's strength is Dang Hun Mountain. How much time and energy did Fang Yuan spend to deduce this move?"

Star Constellation Immortal Venerable calculated inwardly while feeling somewhat helpless.

Her painstakingly created new combat system was broken by one move from Fang Yuan.

No matter how ingenious the three connected moves was, Fang Yuan's Shocking Departure of Year Dream Wave and Dang Hun Sound was extremely domineering, directly clearing the battlefield.

The thing that Star Constellation Immortal Venerable was concerned about: the time and energy she spent on these three moves compared to Fang Yuan's expenditure in deducing Shocking Departure of Year Dream Wave and Dang Hun Sound.

It was fine if her time and energy spent was less.

If it was more, her losses would be more than gains.

The result of a confrontation between venerables also signified the difference in venerables' cultivation and management methods.

Star Constellation Immortal Venerable calculated inwardly and felt the possibility of Fang Yuan expending lesser than her was rather low.

But the truth was not so.

The main source of this killer move, Shocking Departure of Year Dream Wave and Dang Hun Sound, came from the nature of heaven and earth.

In the Remote Antiquity Era, there was a kind of immemorial desolate beast called shocking year beast, wherever it went, shocked year Gu would fly out. It was already extinct now.

Dream wave was a phenomenon, in Fang Yuan's five hundred years of his previous life, dream wave was formed when dream realms appeared at a large scale.

There was no need to say much about Dang Hun Mountain.

Soul sound withered tree was an already extinct, rare immemorial desolate plant. It used wood path resources as nutrients and emitted soul sound that influence the souls of the surrounding living beings.

These phenomena and natural abilities existed throughout heaven and earth naturally.

After Fang Yuan gained the information through stealing heavenly secret, they became an important foundational reference material.

The creation of compound killer moves was actually easier than an individual path's killer moves. Especially when Fang Yuan had rank eight wisdom Gu, it gave him accurate inspirations, so he did not have to waste time on dead ends.

This Shocking Departure of Year Dream Wave and Dang Hun Sound was essentially only a quasi-rank nine killer move because it did not contain a rank nine Immortal Gu.

Thus, rank eight wisdom Gu was helpful in deducing this move.

"Star Constellation Immortal Venerable, can you deal with this move?" Fang Yuan smiled as he calmly approached Star Constellation Immortal Venerable.

Star Constellation Immortal Venerable could only retreat constantly, maintaining distance from Fang Yuan.

It was difficult to construct a combat system.

The three connected moves that Star Constellation Immortal Venerable painstakingly created were exquisite and already formed an initial incomplete combat system.

But after Fang Yuan's move unreasonably broke it, the three connected moves became a joke.

Naturally, this did not mean that Star Constellation Immortal Venerable's effort ended up in vain.

Maybe in the future, when she obtains a rank nine star path Immortal Gu, this combat system's power would rise explosively and be able to withstand Fang Yuan's compound killer move.

The foundation of a combat system were still the Immortal Gu that formed it.

In a contest of venerables, they first competed with rank nine Immortal Gu. If there was no rank nine Immortal Gu, then they would contest with secluded domains of heaven and earth!

In this aspect, Giant Sun Immortal Venerable possessed the incomplete Blood Sea; Star Constellation Immortal Venerable possessed Book Mountain, Mental Domain, and the Door of Life and Death; Fang Yuan possessed Dang Hun Mountain, Luo Po Valley, City Well, Reverse Flow River, Hu Land, Refinement Sea, Human Sea, and the incomplete Qian Kun Crystal Wall.

When the foundation was solid and it was hard to determine a winner through fighting, the combat system became the biggest factor to decide victory or defeat.

“Fang Yuan really has extraordinary aptitude and shocking talent. This move is so powerful and mysterious, it is really hard to block. But I also have a move, please appraise it.”

Star Constellation Immortal Venerable shook the Mental Domain in her hand.

Fang Yuan immediately looked vigilant and activated reverse flow protection seal.

Reverse Flow River was already restored, reverse flow protection seal had even been modified.

Originally, after the killer move was activated, a large white robe was formed with ripples moved along the surface, this was the image of Reverse Flow River flowing slowly. The surface of the white robe had faint mist surrounding it. There was also a strip of light that was deep azure, it was curvy and wavy, resembling a long sash, it coiled around Fang Yuan’s arms, the back of his neck, and around his waist again.

Now, besides these, Fang Yuan’s peerlessly beautiful face was partly veiled by a translucent gauze, highlighting the matchless charm in the depths of his unconcealed eyes.

The lantern-like Mental Domain shook slightly; in an instant, the surrounding battlefield dimmed.

Mental Domain was like the only source of light, but it was letting out a mysterious suction force.

This move’s range was extremely large, Fang Yuan was directly struck by it. His accumulated emotions were extracted and absorbed by Mental Domain.

Fang Yuan immediately used calm and steady killer move, but could not block this process.

He used other methods as well, but as they showed no effects, his expression started to change.

Because at first, only emotions were extracted, but gradually, Fang Yuan’s wisdom path dao marks were also being extracted.

Wisdom path cultivation focused on three elements: thoughts, wills, and emotions. Furthermore, emotions were related to wisdom path dao marks. Star Constellation Immortal Venerable’s move was extremely powerful, besides extracting emotions, it could even extract wisdom path dao marks, permanently reducing the target’s wisdom path foundation!

“Once my emotions are all extracted, my heart will be empty. It will be extremely easy for Star Constellation Immortal Venerable to add in emotions then.” Fang Yuan felt that the situation was going south.

During the whole process, his reverse flow protection seal had no reaction.

Clearly, this extraction was extremely subtle and was not considered an attack, so it did not trigger reverse flow protection seal's counterattack.

In fact, Star Constellation Immortal Venerable probably created this move to target reverse flow protection seal.

She succeeded.

Fang Yuan's effort in modifying reverse flow protection seal was made pointless.

In just a few breaths of time, Fang Yuan already lost one hundred wisdom path dao marks.

He activated defensive methods crazily, but even dream armor Gu showed no effect.

The core of Star Constellation Immortal Venerable's move was Mental Domain, it could be considered a quasi-rank nine killer move. Adding on the amplification from her wisdom path dao marks, it had overwhelming might.

Methods like that of dream armor Gu were at a lower level and did not have enough strength to block this.

Reverse flow protection seal was of a high level and had enough strength, but it could not be triggered.

Fang Yuan had another option, which was to continue activating Shocking Departure of Year Dream Wave and Dang Hun Sound, using offense against offense!

But he was in a dilemma.

It was not his intention to fight such an intense attrition battle with Star Constellation Immortal Venerable. Both sides would suffer losses, giving Giant Sun Immortal Venerable the most gains.

Moreover, Fang Yuan did not want to fight Star Constellation Immortal Venerable, his first priority were the heaven path dream realms.

Thoughts collided in Fang Yuan's mind, and after a few sparks between the thoughts, he made a decision. He secretly used a heaven path killer move — Heavenly Web Protection Veil.

This move originally formed a giant milky white web outside of the Gu Immortal to block attacks. But now, it quietly turned into a milky white light stream that entered the thin fishing net formed from obscured heavenly secret killer move.

Like this, the thin and tightly connected fishing net possessed the power of two killer moves, heavenly web protection veil and obscured heavenly secret!

Heavenly web Gu was a rank nine Immortal Gu.

Heavenly web protection veil's defensive power was higher than the strength of Mental Domain's killer move.

Heavenly web protection veil had gaps but nothing was allowed to pass through. or

As the saying went, the net of heaven has large meshes but it lets nothing through[1. A Chinese saying similar to 'The mills of God grind slowly but surely'.].

In an instant, it stopped Fang Yuan's emotions from being extracted, causing Star Constellation Immortal Venerable to exclaim in surprise.

The even more amazing thing was that the rank nine Immortal Gu aura was not exposed. Because the two moves were interconnected, the aura was concealed by obscured heavenly secret killer move.

Star Constellation Immortal Venerable was truly Star Constellation Immortal Venerable, after just a few exchanges, she forced Fang Yuan to use his rank nine heavenly web Gu.

Like this, obscured heavenly secret killer move faced a huge burden!

Star Constellation Immortal Venerable's mood was even heavier.

She could not block Fang Yuan's Shocking Departure of Year Dream Wave and Dang Hun Sound, but Fang Yuan could resist her Mental Domain's killer move.

That meant she could not even keep up the attrition battle by using offense against offense.

"Does Fang Yuan have a method that is not weaker than mine in terms of wisdom path deduction?" Star Constellation Immortal Venerable could not help but feel doubtful.

Fang Yuan thus gained the upper hand and finally had the leisure time to deal with the heaven path dream realms.

He did not attack Star Constellation Immortal Venerable and only defended against her while targeting those heaven path dream realms from afar.

His first method was naturally pure dream reality seeker transformation!

Ordinary dream realms would be transformed into Pure Dream Reality Seeker bodies by this move. But it had no effect on the heaven path dream realms, not only this, the heaven path dream realms were instead angered and formed a tidal wave that rushed towards Fang Yuan.

"These heaven path dream realms are filled with heaven's will, while pure dream reality seeker transformation condenses a dream realm into a human body with human will as the core. This means I need to get rid of all the heaven's will in the dream realms first."

After learning of this, Fang Yuan activated heaven's will dissipation killer move.

He had used this move many times before to deal with dream realms and its effect was extraordinary.

But this time, although it was still effective, its side effect was much larger. Fang Yuan felt some heartache as he watched the targeted heaven path dream realm shrinking rapidly.

"Seems like heaven's will dissipation is usable against ordinary dream realms, but is an extremely crude measure against heaven path dream realms. It not only removes heaven's will, it even eradicates the true meaning contained in the dream realm."

Fang Yuan was not without gains, he realized that heaven's will and heaven path true meaning were entangled in the heaven path dream realms, so they were hard to separate.

His wisdom path methods were rough, it was difficult for him to precisely separate the two and target just heaven's will.

But Fang Yuan still had a way to deal with this.

At the next moment, he brought out his dream path clone Meng Qiu Zhen, letting him be devoured by a heaven path dream realm.

Star Constellation Immortal Venerable sighed, feeling somewhat anxious.

Fang Yuan's strength was exposed which made her quite surprised, he was actually starting to take these heaven path dream realms right under her eyes.

"Giant Sun, are you going to watch as Heaven Refining Demon Venerable takes these heaven path dream realms and increases his strength?" Star Constellation Immortal Venerable contacted Giant Sun.

"Of course not!"

At the next moment, Giant Sun Immortal Venerable showed himself.

Chapter 2310: Two Venerables Fight Against Fang Yuan

Ever since Fang Yuan suddenly flew into spectral heaven, Giant Sun Immortal Venerable had been paying close attention to this place.

When Fang Yuan and Star Constellation Immortal Venerable fought, Giant Sun Immortal Venerable was happy at first. After all, the two venerables expending each other's resources was most beneficial to him.

But shortly after, he was faintly worried about Fang Yuan not being able to withstand Star Constellation Immortal Venerable's attacks and getting defeated too early.

"If Fang Yuan can't continue, I will help him a bit." Giant Sun Immortal Venerable had been secretly preparing to help Fang Yuan.

He naturally did not have good intentions.

First, Fang Yuan being in a weaker position was not beneficial to Giant Sun Immortal Venerable. As far as he was concerned, Heavenly Court was still the biggest enemy.

Second, Giant Sun Immortal Venerable still wanted Fang Yuan and Star Constellation Immortal Venerable to continue wearing each other down, so he needed to help Fang Yuan to maintain the battle of attrition between the two venerables to gain the most benefits.

"I have Unified Essence Yi Qi Zi after all, my immortal essence can be replenished greatly. Consuming some immortal essence in battle is more detrimental for them!"

Giant Sun Immortal Venerable had this thought back then.

He was not wrong.

It was also very reasonable.

It was just that he did not know the truth.

He only possessed the information that he could obtain.

But soon, he was shocked to see that in the battle between Star Constellation Immortal Venerable and Fang Yuan, it was Fang Yuan who had the upper hand!

He had not expected this.

After all, in his impression, Fang Yuan was behind on refining dao marks, although he had potential, his immortal essence reserve was the worst.

How could he gain the upper hand?

He even made Star Constellation Immortal Venerable take the initiative to ask for help from Giant Sun Immortal Venerable!

Giant Sun Immortal Venerable had witnessed the whole fight, after the surprise, he felt that it made sense.

Shocking Departure of Year Dream Wave and Dang Hun Sound left an extremely deep impression on him.

Fang Yuan used Dang Hun Mountain as the core to create such a powerful killer move that destroyed Star Constellation Immortal Venerable's incomplete combat system.

It made sense for Fang Yuan to be victorious.

When Shocking Departure of Year Dream Wave and Dang Hun Sound showed its might, Giant Sun Immortal Venerable was actually not too anxious, instead, he became a little relieved and no longer felt such an urge to probe Fang Yuan's foundation.

The reason?

Fang Yuan lacked immortal essence and was the slowest one at refining natural dao marks, what did he spend the rest of his time on?

Giant Sun Immortal Venerable understood now.

"So he used his time to deduce killer moves."

This was a rather correct choice in Giant Sun Immortal Venerable's opinion.

He was even more at ease because the killer move used a secluded domain of heaven and earth as the core.

"Looks like Fang Yuan does not have a rank nine Immortal Gu, so he used a secluded domain of heaven and earth to create a quasi-rank nine killer move."

Giant Sun Immortal Venerable could not help feeling envious.

Fang Yuan had the most number of secluded domains of heaven and earth, Star Constellation Immortal Venerable also had several, but he, Giant Sun Immortal Venerable, only had one and it was incomplete.

He really wanted to have a complete secluded domain of heaven and earth!

Giant Sun Immortal Venerable was observing the battle quietly, when he saw Fang Yuan gaining the upper hand with Shocking Departure of Year Dream Wave and Dang Hun Sound killer move, his mind turned calm. However, when he saw Fang Yuan withstanding Star Constellation Immortal Venerable's Mental Domain's killer move, he could no longer sit still.

Giant Sun Immortal Venerable already expected Star Constellation Immortal Venerable to use a wisdom path killer move with Mental Domain as the core.

But he never expected Fang Yuan to have a defensive method that could block this Mental Domain's killer move!

Fang Yuan's reverse flow protection seal already made Giant Sun Immortal Venerable feel a headache, he had racked his brains to secretly deduce a luck path method to counter it. But he did not think Fang Yuan was still hiding another defensive method that was even stronger than reverse flow protection seal.

Fang Yuan's performance went beyond Giant Sun Immortal Venerable's expectations.

Now, Giant Sun Immortal Venerable was wary.

Star Constellation Immortal Venerable could not break Fang Yuan's defensive method, Giant Sun Immortal Venerable was the same!

"I did not think that you, Fang Yuan, has such deep attainment in wisdom path as well. In just a short period of time, you actually created, deduced, and modified so many killer moves." Giant Sun Immortal Venerable entered the battlefield and praised Fang Yuan sincerely.

This was actually nothing.

Fang Yuan possessed stealing heavenly secret and wisdom Gu, and with sovereign immortal body's advantage, it was easy to create compound killer moves. Just one of these advantages alone could make the other venerables envious. Now that these advantages were stacked together, even Fang Yuan felt it was terrifying!

Shocking Departure of Year Dream Wave and Dang Hun Sound and heavenly web protection veil were only a part of Fang Yuan's recent gains.

He chose to use them because he felt they suited the situation.

Fang Yuan had at least ten killer moves of similar level.

The power of stealing heavenly secret could be seen from this; of course, rank eight wisdom Gu also provided a lot of help.

It was because of these two that Fang Yuan caught up from behind in terms of killer moves. He even had a wide range of options to choose from.

Naturally, nothing could be perceived from Fang Yuan's expression.

Facing Giant Sun Immortal Venerable, he frowned and snorted coldly: "I must obtain these heaven path dream realms, Giant Sun, you also want to block me? Are you still not clear of who is stronger between Heavenly Court and me?"

Giant Sun Immortal Venerable's looked at Fang Yuan's incisive gaze, his expression eased and turned somewhat complex.

In his view, compared to Heavenly Court and Star Constellation Immortal Venerable, Fang Yuan was still weaker.

The reason?

Fang Yuan did not have enough immortal essence!

He had been venerable for the shortest time and did not even have his own base. How many natural refinement path dao marks did he refine in this period of time?

It was very obvious.

Fang Yuan looked powerful, even suppressing Star Constellation Immortal Venerable. But in fact, he was relying on the novelty of new killer moves and their powerful strength.

How much immortal essence could he have?

How could he fight a battle of attrition?

From what Giant Sun Immortal Venerable thought, Fang Yuan's situation did not look good.

But even though Fang Yuan was weaker, Giant Sun Immortal Venerable still needed to stop Fang Yuan and stand with Star Constellation Immortal Venerable for the time being.

The reason?

Because Fang Yuan wanted heaven path dream realms.

This could not be allowed!

If Fang Yuan absorbed all these heaven path dream realms, he would definitely rise in power and change the power structure of the venerables.

This was something that Giant Sun Immortal Venerable did not want to see.

Giant Sun Immortal Venerable felt Heavenly Court and Star Constellation Immortal Venerable were his greatest threats, but he also wanted to suppress the rise of Fang Yuan who was the weakest venerable but had the most potential.

Thus, he took part in the battle. On the surface, he was helping Star Constellation Immortal Venerable; but secretly, he was striving for Star Constellation and Fang Yuan to expend their immortal essence, so that he could maintain and enlarge his advantage!

Giant Sun Immortal Venerable's choice was no doubt extremely sensible from his point of view.

With his help, Star Constellation Immortal Venerable immediately changed the battle situation and began to suppress Fang Yuan.

The environment in spectral heaven was not helpful to the three venerables, they relied on their own foundation and strength. Under this situation, Fang Yuan's worsening situation was immediately clear.

After all, he was fighting two opponents on his own.

Naturally, this was under the condition where Fang Yuan preserved most of his methods and did not use his full battle strength.

The fight of the three venerables shook heaven and earth.

Every Gu Immortal in five regions raised their heads and watched the battle nervously.

"Oh no, Lord Alliance Leader's situation is not good."

"Good, good, good, this demon Fang Yuan will finally face retribution!"

"I did not expect my Ancestor Giant Sun to join hands with Heavenly Court."

"Heavenly Court is quite sensible to not look for trouble with my Ancestor Giant Sun."

"Being able to make Giant Sun Immortal Venerable help her so easily proves Lady Star Constellation Immortal Venerable is indeed the number one person in wisdom path."

Rank eight Gu Immortals understood the situation more clearly, they saw Fang Yuan being suppressed and his situation getting worse. The Eastern Sea immortals looked extremely solemn while Central Continent and Northern Plains' Gu Immortals were rejoicing with raised morale.

Thunder rumbled and countless rays of light exploded from the collision of killer moves.

Fang Yuan's situation did not look good but he was calm inwardly.

Although the two venerables allied, due to their conflicting paths, they could only attack Fang Yuan in turns.

Moreover, the two venerables were wary of each other, one would not allow the other to set a battlefield.

Without the threat of a battlefield killer move, Fang Yuan still had a grasp over the choice of fighting or retreating.

More importantly, Meng Qiu Zhen was already in a heaven path dream realm and was making good progress.

Because of the sharing of the clones' and main body's attainment levels, Fang Yuan could clearly feel his heaven path attainment level rising slowly!

Fang Yuan just needed to maintain this situation and it would do.

What was the use of superficial victory or defeat?

Man strives for recognition while Buddha requires incense; this was a reasonable proverb. But Fang Yuan was far beyond the age of fighting for recognition and he was more willing to strive for benefits.

If the choice of honor and benefit went against each other, Fang Yuan would unhesitatingly choose the latter.

It was this situation right now.

He could be forceful and suppress the two venerables. But what was the use when he would not be able to kill them?

Instead, it would make the two venerables wary and deepen their alliance. Was this not asking for trouble?

As for the support and morale of the five regions' Gu Immortals, Fang Yuan did not care.

What was the use of that?

Even if Fang Yuan was defeated miserably today, the five regions' Gu Immortals still could not defeat him. They still had to fear and revere Fang Yuan.

As long as Fang Yuan was not dead, could Fang clan, the two heavens' grotto-heavens' variant humans, or even the Eastern Sea super forces side with someone else?

They still had to follow Fang Yuan!

It was just that they would be more worried about their future.

But what did the worries of these minor characters have to do with Fang Yuan?

Fang Yuan did not need to bother with such things.

There were no two ways about it, these minor characters were only resources and tools in Fang Yuan's eyes. The Gu cultivation world was ruled by the strong, the actual trend of the world still depended on the fight between venerables.

Even if Fang Yuan was defeated, as long as Meng Qiu Zhen made huge gains, he would be the biggest winner. The loss could be considered a victory.

Even if Star Constellation Immortal Venerable and Giant Sun Immortal Venerable beat Fang Yuan badly, as long as Fang Yuan lived and absorbed all the heaven path dream realms, their victory would be the same as defeat.

Fang Yuan knew this, Star Constellation Immortal Venerable was aware of it as well.

The alliance of the two venerables could not make Fang Yuan retreat, he was still absorbing the true meaning in the heaven path dream realms.

Star Constellation Immortal Venerable was truly anxious.

She transmitted her voice to Giant Sun Immortal Venerable: "Giant Sun, if this continues, Heaven Refining Demon Venerable will succeed. What are you still holding back for?"

Giant Sun Immortal Venerable snorted coldly: "Star Constellation, are you telling me that you are not holding back?"

Star Constellation Immortal Venerable had a solemn expression: "I am going to prepare a killer move to search for Fang Yuan's dream path clone and try to eradicate it!"

Giant Sun Immortal Venerable took a deep look at her before nodding: "Then I will target Fang Yuan's reverse flow protection seal and pressure him in order to create a chance for you."
