Chapter 791: Unstoppable Life Chasing Fire

Immortal killer move — Life Chasing Fire!

Old Lord Can Yang looked solemn as he slowly opened up his hand, revealing a weak flame.

The faint yellow flame swayed, appearing dim and weak, as if it would extinguish at any moment.

Old Lord Can Yang's pupils, however, let out a sharp and bright radiance, and as he gazed at this flame in his hand, a proud expression appeared on his face.

This was the supreme technique which he had used to make his name and shake Central Continent!

"Life chasing fire, go." Old Lord Can Yang lightly shook his palm; the life chasing fire made a whooshing sound as it shot out rapidly.

The star will quickly opened up a path.

The unremarkable-looking life chasing fire moved out of the blood veil and pierced into the cold iceberg.

Boom!

Almost at the same instant, there was a large yellow flame that blazed to the sky and burned the whole iceberg.

Almost all the demonic path Gu Immortals in the air were taken aback at this change.

Soon, they revealed odd expressions.

The reason was, although the fire was fierce, it had no heat; the iceberg covered in the fire was completely undamaged with no signs of melting down.

Some demonic path Gu Immortals were just about to ridicule it, when the rank seven demonic path Gu Immortal, Pi Shui Han, suddenly let out a miserable scream.

Everyone followed the voice and saw a sight that gave them a great shock.

Pi Shui Han was covered in fire, of such intensity that his whole face twisted in pain. Great amounts of cold air were being let off from his body and a river of water started flowing around him, like a dragon coiling around his body. The faint yellow fire, however, did not weaken, instead looking like it was growing even fiercer.

"What move is this?"

"How did Pi Shui Han get attacked, why didn't I see it?"

"Such a strange fire, everyone evade it!"

The demonic path Gu Immortals retreated one after the other, while looking with lingering fear at Pi Shui Han exerting all his efforts to extinguish the fire.

“This fire, could it be... life chasing fire? Not good!” Fang Yuan’s mind was shaken as he realized something amiss, and quickly withdrew the eight strength path giant hands.

But it was already too late.

The fire burned the iceberg and quickly had spread to the eight strength path giant hands.

The strength path giant hands were completely unharmed, but a faint flame had emerged out of thin air in Fang Yuan’s immortal aperture, quietly burning his one hundred and sixty thousand strength path phantoms!

These strength path phantoms had their arms raised, they had been providing the strength to form the eight strength path giant hands in the outside world.

They were bathed in the fire, but were completely safe.

Fang Yuan’s heart shivered at this sight.

“This is truly that killer move, life chasing fire!” Fang Yuan was aware of the terrifying power of this move, he quickly made a decision and willed, the one hundred and sixty thousand strength path phantoms collapsed.

Without these strength path phantoms, the eight strength path giant hands pulling the iceberg also crumbled apart.

Boom, the ruin bat’s corpse mountain heavily fell down, producing a huge tremor, the surrounding ground cracked and countless stones were splattered, leaving dust swirling everywhere.

Fang Yuan suffered an intense backlash from forcibly halting use of Pulling Mountain! He felt intense dizziness and nausea, his body shook and he almost fell down from the air.

Hei Lou Lan saw this and quickly moved to support him.

Fang Yuan, however, evaded and shouted: “Don’t approach me!”

He quickly retreated backwards, a faint yellow flame started to burn his body like Pi Shui Han.

At the same time, Unfettered Scholar turned pale. He was also struck by this move and his body was similarly burning in fire.

“This fire path immortal killer move can actually detect auras and follow our attacks back to the source, directly reaching our immortal apertures!” Unfettered Scholar was greatly shocked.

Unfettered Scholar realized at this moment why Pi Shui Han was in a panic.

Not only were their bodies burning, the fire was spreading in their immortal apertures as well. The former was okay, but the latter was a Gu Immortal’s headquarters, their foundation that had been managed meticulously for countless years, and also where innumerable cultivation resources had been stored inside.

Now that this foundation was being burned, it was like the fire was burning directly at the Gu Immortal’s heart, make them bleed from the heartache.

Pi Shui Han not only was extinguishing the fire on his body, he was even more importantly putting out the fire in his immortal aperture. But the strange thing was, this fire could not be extinguished by water or ice.

The surrounding demonic path Gu Immortals started to move away from Fang Yuan, Unfettered Scholar and Pi Shui Han, fearing this strange fire would spread to them as well.

“Why are the flames on Fang Yuan weaker than the other two?” Hei Lou Lan was bewildered.

The remaining Gu Immortals soon discovered this difference. Immediately, Fang Yuan looked even more unfathomable to everyone.

Unfettered Scholar’s gaze also paused on Fang Yuan.

Fang Yuan’s situation was much better than the other two. There was only a thin layer of flames on him, as if they were the fires of an oil lamp, while the flames on Pi Shui Han and Unfettered Scholar were blazing like a torch.

In just a few breaths of time, Unfettered Scholar’s body was already mostly burnt and started to emit the smell of burning meat.

Unfettered Scholar himself was calm and not particularly panicked, the reason was that he still had a trump card!

Immortal killer move — Thousand Disintegrations!

He wildly activated the killer move, the light in his white pupils turned even more vigorous.

But this time, the light did not shine on the iceberg and the blood veil, instead it shined on himself, on his immortal aperture.

The faint yellow flame started to disintegrate continuously under the white light, weakening rapidly.

Soon, the flames on his body completely dispersed and the fire in his immortal aperture was also suppressed.

Thousand disintegrations was very useful, it could not only be used to attack enemies, but could also be used for defense. Offense and defense in one move, and its power was also extraordinary.

In a short while, Fang Yuan also stood up, the fire on his body completely dissipated.

Only Pi Shui Han was still trying out all sorts of methods, but the flames on him were instead burning even more. His whole body was darkened from burns, the intense odor of burnt meat was spreading everywhere. He had no choice but to activate healing Gu to heal his injuries and also endure the burning of the fire.

He shouted furiously, he felt pain not only physically, but also heartache mentally.

The fire was spreading in his immortal aperture, large amounts of resources were being burnt to nothingness, but he still had no way to put out this fire.

“What to do? What to do!” Pi Shui Han thought rapidly in extreme anxiety.

Fang Yuan and Unfettered Scholar just watched on coldly and silently. The remaining demonic path Gu Immortals stood further away, some gazes were flickering, eager to make some trouble.

If Pi Shui Han were to be seriously injured and weakened, these demonic path Gu Immortals would absolutely be moved and interested in attacking Pi Shui Han, adding on to his misfortune.

Suddenly, Pi Shui Han gave a loud shout before soaring high, and with his whole body in flames, he shot far away like a meteor.

This fire was giving him enormous trouble, and there were many demonic path Gu Immortals present, he could not stick around. Pi Shui Han's retreat was a wise choice.

Seeing him rapidly disappear into the horizon, several demonic path Gu Immortals at the periphery also stealthily left, following the trail of Pi Shui Han.

In the hall, Old Lord Can Yang laughed heartily, saying to Dong Fang Chang Fan's star will: "How was that?"

"Truly worthy of being called life chasing fire." The star will nodded, "This fire has the ability to trace auras back to their source. Gu Immortals normally place Gu worms in their immortal apertures, thus this fire would burn their immortal apertures. This fire also uses life as the fuel, as long as life has not been extinguished, it will keep on burning. Thus, special methods must be used to extinguish this fire, like the technique of thousand disintegrations. If one doesn't have such methods, then they have to be resolute in cutting off the burning part, restraining it from burning sources of life force within their body as much as possible. As long as the life force is used up, this fire will disperse. Unfortunately, this Pi Shui Han did not think of this point and continuously healed himself which increased his life force, increasing the intensity of the fire."

The star will chuckled as it said this, and praised: "Old Lord Can Yang, your move is a truly unique and innovative method. As long as this fire strikes the enemy, they will fall into chaos. If it is allowed to keep on burning, even the wealthier Gu Immortals will have their foundations greatly damaged and have no battle intent."

Listening to the star will praise his method so much, Old Lord Can Yang's pleased expression instead disappeared and was replaced by a gloomy look.

The reason for Old Lord Can Yang's fame was the killer move life chasing fire.

Once this fire burned, even if it was eliminated, the enemy would be low in spirits. If they attacked, the fire could follow the attack and burn their immortal aperture.

Immortal apertures were the foundations of Gu Immortals, and it would be greatly damaged if it was burned a few times. Even if the fire did not burn the enemy to death, it could ruin them.

Thus, Old Lord Can Yang had already been able to roam unhindered around Central Continent in his early years, and was very well known. Gu Immortals fighting him would have a headache.

After becoming rank seven, Old Lord Can Yang did not wander around much, but just based on his battle strength, he was in the top five of Immortal Crane Sect! The matter of Eighty-Eight True Yang Building's

collapse was simply too important, so Immortal Crane Sect had sent him to Northern Plains to investigate the culprit.

Once life chasing fire was used, it restrained Fang Yuan and Unfettered Scholar, and caused Pi Shui Han to retreat in a miserable state. Old Lord Can Yang was repelling the enemies on the surface, but was covertly also trying to intimidate Dong Fang Chang Fan.

However, Dong Fang Chang Fan was aware of the details of life chasing fire, his words were appreciative, but in truth were a counterattack against Old Lord Can Yang.

If Old Lord Can Yang could still show a good expression, that would be strange.

“Life chasing fire... Old Lord Can Yang... why is he here?” Fang Yuan hovered in the air, looking at the blood veil below in uncertainty and doubt.

He might have his previous life’s memories, but there was an extremely large difference between having them and being all-knowing and omnipotent, Dong Fang Chang Fan’s possession scheme was kept in extreme secrecy and Fang Yuan was not aware of it.

Now that he saw a Central Continent Gu Immortal mixed up with Dong Fang Chang Fan’s inheritance, he naturally felt surprised and bewildered.

When Old Lord Can Yang repelled him, he had done so evasively, and had not revealed his identity at all.

Old Lord Can Yang had methods to conceal his aura and with them being used, his aura was the same as a Northern Plains Gu Immortal’s. The other demonic path Gu Immortals did not discover anything wrong, which showed how ingenious Old Lord Can Yang’s methods were.

‘Not good.’ Fang Yuan inwardly shouted, thoughts of retreating rose up inside him..

He knew Central Continent’s forces had secretly infiltrated into Northern Plains to search for him, the culprit. He also knew someone had gone to Northern Plains Zombie Alliance with suspicions about his Sha Huang identity.

“The reason I could resolve life chasing fire was because I knew the details of this move and made the decision quickly. And as an immortal zombie, I am among the living dead, my immortal aperture is a dead land with sparse life force, thus it could not be burned. Old Lord Can Yang has plenty of experience, he might have already discerned that I am an immortal zombie. Hiding myself like this, perhaps he might become suspicious!” The more Fang Yuan thought, the heavier his state of mind.

Chapter 792: Lightning of Heaven and Earth, Risky Attempt

As far as Fang Yuan was concerned, a wisdom path inheritance was indeed precious and rare. But even if he gained a complete inheritance, risking his true identity and the pursuit of Northern Plains’ Gu Immortals was absolutely not worth it!

Old Lord Can Yang had restrained the group of demons with one burst of fire, and even sent Pi Shui Han retreating far away.

Fang Yuan had realized the bad situation and also was considering retreating, thus he naturally stopped his attacks.

The rank seven Unfettered Scholar also did not risk attacking. He thought higher of Fang Yuan from the way he dealt with the life chasing fire. He himself had to rely on thousand disintegrations to get through that danger, which made him feel Fang Yuan was even more mysterious.

And besides Fang Yuan, there was still the two black robed Gu Immortals, Hei Lou Lan and Fairy Li Shan, thus Unfettered Scholar restrained his desire to make a move and only observed Fang Yuan's side.

His thoughts were obvious – he was waiting for Fang Yuan's side to make a move.

For a while, the surroundings above the ruin bat's corpse became silent, while inside the ruined hall, curses were still being endlessly hurled out.

Dong Fang tribe's eight Gu Immortals could not budge even a bit but had retained the ability to speak.

Since the moment Dong Fang Chang Fan's possession had begun, they had been throwing curses and shouting at Dong Fang Chang Fan.

Dong Fang Chang Fan's star will turned a deaf ear to this.

He saw the situation outside had quietened down, the group of demons would be restrained for a while. He smiled: "Finally, the time is ripe, my possession and rebirth will start at this moment. Old Lord Can Yang, I have explained the previous main steps to you. The crucial time has arrived, I will have to trouble you to guard me."

Being indecisive when a decision was needed would instead worsen the situation; the star will made the decision and did not hesitate any longer!

A change occurred, a large vortex suddenly formed on the surface of the blood veil.

Blood energy started fermenting in the vortex. It condensed into form before suddenly bursting out, it turned into a giant blood pillar that directly shot straight down to the center of the phantom formation, covering Dong Fang Yu Liang's body.

Old Lord Can Yang's eyes opened wide, and he shouted: "Damn it!"

Old Lord Can Yang understood after seeing this change: This blood veil was not used just to defend, but was also involved in a purification process. The extracted eight immortal aperture origin cores were like eight metals melting together. It then used the demonic path Gu Immortals' attacks to temper the melted origin cores, eliminating the wills and auras of the eight Gu Immortals, before pouring the fused product into the possession target.

Dong Fang Chang Fan had arranged the situation exquisitely, calculating the demonic path Gu Immortals within his plan. Even Fang Yuan was in the dark, used by Dong Fang Chang Fan into unknowingly becoming a blacksmith.

Now, the blood energy flowed backwards, filling Dong Fang Yu Liang's body, naturally, the blood veil would weaken. With the weakening of the blood veil, the defense immediately fell. Old Lord Can Yang

had a heavy duty from the sect and with enormous benefits in front of him, how could he stay still and not share the burden?

Seeing the blood veil weakening, the demonic path Gu Immortals indeed were moved.

“It seems the previous attacks were effective!”

“There is hope in breaking the blood veil, everyone attack together!”

The Gu Immortals attacked one after the other, countless attacks rained down like a violent storm.

The blood veil was sending the blood energy inside, while also having to endure the attacks, immediately, it was strained and started to sway unstably.

Old Lord Can Yang had no choice but to take action, using an immortal killer move — Final Afterglow!

A light barrier emerged outside of the blood veil, it looked to be condensed from the afterglow of the setting sun, and was so thin and faint that it was almost like there was nothing. Countless attacks passed through this light barrier and landed on the blood veil, however, their power was reduced to less than half the original.

This was the use of ‘final afterglow’, it was not a complete defense, instead it weakened the power of most attacks.

Even immortal killer moves on the level of ‘flood glacier’ would be weakened by thirty percent. And what the demonic path Gu Immortals were using right now were mostly all mortal killer moves, after being weakened by final afterglow, they only appeared strong but had little threat.

Dong Fang Chang Fan showed a joyous expression.

The situation was extremely beneficial to him in this way.

The phantom formation was constantly extracting the eight immortal aperture origin cores and fusing them to create the blood veil.

When the blood veil suffered the attacks, the foreign wills and auras hidden inside the origin cores were gradually being removed. Afterwards, the purified blood energy would then pour into Dong Fang Yu Liang’s body.

Dong Fang Yu Liang was a Gu Master with a rank five peak stage aperture. Right now, his soul was already eliminated by Dong Fang Chang Fan, leaving him in control of his young body. Dong Fang Chang Fan’s attention was fully focused on the aperture.

The aperture burst with a loud sound as it was filled with blood energy.

Dong Fang Yu Liang’s aura rose higher instead of shrinking.

An astonishing transformation was occurring — surpassing mortal, charging to Gu Immortal!

Crack!

In the clear sky outside, a lightning bolt flashed.

Within several breaths later, dark clouds surged and spread over the entire surroundings in the clear sky.

Earth tremored and rumbled, and vast amounts of dusts surged, as if countless bulls were running on the ground.

Heaven and earth qi were stirred, a heavenly tribulation and earthly calamity were forming!

“Someone is actually ascending to immortal inside?!”

“What is going on?”

The Gu Immortals quickly stopped their attacks, feeling baffled.

Crack crack crack!

Rays of lightning struck down together from above. The power they contained shocked the demonic path Gu Immortals into hurriedly retreating.

“Amazing! This is the heavenly star lightning tribulation.”

“How unlucky is the mortal to not receive the favor of heaven and earth. He is just ascending to immortal, and is met with such a powerful heavenly tribulation!”

“What earthly calamity is this?”

The Gu Immortals retreated to the edges and observed.

Countless round craters appeared in the surroundings of the ruin bat’s corpse. The craters were pitch-black and unfathomably deep.

Bang bang bang!

Balls of pitch black lightning shot out from the craters and impacted on the ruin bat’s corpse mountain, creating loud explosions.

The lightning strikes flashed and in just a few breaths of time, the iceberg was struck by countless lightning balls, the iceberg was smashed into pieces and spattered everywhere.

Even Unfettered Scholar was moved at this, inwardly exclaiming: ‘The heavenly tribulation is heavenly star lightning, tyrannical and sharp. The earthly calamity is the earth ghost lightning, underhanded and explosive. These two great lightning tribulations are called the twin lightnings of heaven and earth, their power is increased further when they combine. Even I have to worry if I face them!’

The twin lightning of heaven and earth combined, one fell from above while the other exploded from below. The lightning was dazzling, forming a purgatory filled with the sound of thunder.

Countless bolts of lightning, densely packed together, combined into a huge lightning forest!

The shattered ice pieces were completely destroyed, even the remaining traces of frost energy were extinguished.

The scene, as if part of the world was ending, caused the observing demonic path Gu Immortals to hold their breaths in and feel stifled.

Inside the ruin bat's corpse mountain, Old Lord Can Yang looked serious as he put all his effort in maintaining the immortal killer move, final afterglow.

This ingenious defensive killer move was being used to its utmost to weaken the strength of the twin lightnings of heaven and earth.

However, all of Old Lord Can Yang's effort only weakened the lightning by fifteen percent.

His red date immortal essence was being consumed extremely quickly, and soon, his forehead was covered in a thin layer of sweat.

"How could there be such a strong lightning tribulation!" Dong Fang Chang Fan's star will muttered with a worried expression. This was almost the worst case scenario in his plan.

He had not thought he would be faced with them at this moment.

His luck really was extremely bad.

The blood veil was being badly destroyed by the lightning strikes and explosions of thunder, the losses caused Dong Fang Chang Fan to feel extreme heartache.

These losses would greatly influence the foundation of Dong Fang Yu Liang's immortal aperture.

Fifteen minutes, thirty minutes, one hour, two hours... time continued to pass, but the lightning tribulations from heaven and earth did not show any signs of weakening, instead they were constantly increasing in strength.

The immemorial ruin bat's corpse was wrecked until it was beyond recognition.

There were previously countless numbers of densely packed space path dao marks covering the surroundings of the ruin bat, but now they were almost completely cleared up by the lightning tribulations.

Old Lord Can Yang was already unable to support the situation, and the severe loss of immortal essence caused him to feel heavy.

"Right! The power of the heavenly tribulation and earthly calamity is beyond normal, it is all because of you, Dong Fang Chang Fan." Old Lord Can Yang suddenly spoke, "You are already dead, and according to the arrangement of fate, your soul should be returning to the door of life and death, how could you still remain here alive and kicking? Right now, you are not only trying to revive, you are even thinking of ascending to immortal, this is truly an act in defiance of heaven! No wonder heaven and earth are so enraged!!"

When Dong Fang Chang Fan's star will heard this, his grave expression changed, he raised his eyebrows and laughed: "Ever since Red Lotus Demon Venerable broke fate, the destiny of all living beings in this world has been in their own hands. So what if it is in defiance to heaven? My fate is in my own hands, I have planned for so long, I made so many preparations, I will definitely succeed!"

He had just spoken when they heard a rumbling sound.

The lightning strikes were already as dense as rain and the thunder was already resounding non-stop.

The thunder at this moment was beyond that of the previous ones, its sound resounded through the skies and caused everyone's ears to buzz.

Dong Fang Chang Fan's star will shoo and dispersed at once!

A dazzling white light filled the world! Fang Yuan, Unfettered Scholar and the remaining demonic path Gu Immortals all retreated in alarm, and even Old Lord Can Yang had to tightly close his eyes.

From the white light, a ray of divine lightning struck down.

This divine lightning was incomparably fierce, sweeping past all obstacles, in an instant, it blew up final afterglow, broke the blood veil and directly struck at Dong Fang Yu Liang.

The divine lightning was extremely fast, in almost the blink of an eye, it had broken through all the barriers like they were rotten wood and appeared in front of Dong Fang Yu Liang.

Dong Fang Yu Liang only had a mortal body and would definitely be shattered to pieces if he really was struck by this lightning, Dong Fang Chang Fan's possession plan would come to an end, resulting in complete failure!

At the moment between life and death, 'Dong Fang Yu Liang', whose eyes were tightly closed the whole time, suddenly opened his eyes!

In the dazzling white light, he barely managed to see that ray of thunder and lightning.

Intense startled anger rose up inside him: 'Fluctuating light! Falling star lightning! Tribulations hidden inside my original tribulation, accursed heaven, you want me to die so badly?! Then I refuse to die!'

Dong Fang Chang Fan roared in his mind.

The phantom formation started to give off bright radiance.

Boom!!!

A piercing explosion resounded. Endless rays of white light shot out from the ruin bat's corpse.

The light rays swept through some unlucky demonic path Gu Immortals, immediately, their minds and souls shook, and some even directly crashed down from the sky.

The terrifying explosion created a huge shock wave that lifted all the vegetation in the surroundings.

The sky seemed to be collapsing while the earth quaked.

The demonic path Gu Immortals retreated in panic.

They retreated several kilometers, before the white light rays gradually dispersed, only then did the Gu Immortals calm down, returning.

There was nothing left of the enormous, lofty ruin bat's corpse mountain.

In the air above, a young figure appeared, standing proudly as he looked at Fang Yuan and the others.

Dong Fang Yu Liang!

Chapter 793: Myriad Star Fireflies versus Band of Experts

“Dong Fang Yu Liang? Am I seeing wrongly?”

“How did he become a Gu Immortal? It seems that this heavenly tribulation and earthly calamity was caused by him.”

“Becoming an immortal on the spot, was that Dong Fang Chang Fan’s inheritance? Sigh, a mortal actually snatched it!”

The demonic path Gu Immortals saw Dong Fang Chang Fan and were very shocked, they felt some dejection and sadness.

‘Dong Fang Yu Liang’ was expressionless, there was no pupils or whites in his eyes, they were completely shining with many different colored crystalline lights, flickering continuously.

He had this gaze while observing the demonic path Gu Immortals around him, saying softly: “You are the people who want to snatch my master’s inheritance? What gives you the guts to attack a righteous path super force?”

After Dong Fang Chang Fan succeeded in his possession, but he did not expose the truth, he still spoke as if he was Dong Fang Yu Liang, with his voice.

The demonic path Gu Immortals were in a dejected state, filled with great grievance, now that they heard Dong Fang Yu Liang’s arrogant words, their faces turned ugly, some scoffed while others shouted: “You mere junior, you have just become an immortal, after ascending in one step, you are arrogant! Here, take my hammer!”

As he said so, a figure flew out from among the crowd.

This demonic path Gu Immortal had broad shoulders and a thick waist, there was a flying heavenly boar underneath him, its fat legs were running quickly, as it carried its owner towards Dong Fang Yu Liang in an imposing manner.

It was Zhuo Zhan.

The immortals jolted, reacting to what had happened.

“This Zhuo Zhan is so crafty, he is trying to pick up a bargain!”

“We were almost deterred by the heavenly tribulation and earthly calamity, but even if Dong Fang Yu Liang became an immortal, he is a newbie. What is there to be afraid of?”

“Capture Dong Fang Yu Liang alive, and interrogate the wisdom path inheritance from him!!”

The demonic path Gu Immortals moved quickly, charging towards ‘Dong Fang Yu Liang’, fearing that they would be left behind.

Unfettered Scholar was among them.

Only Fang Yuan and a few other people did not move, they remained in their places.

He did not know that Dong Fang Yu Liang's body was already possessed by Dong Fang Chang Fan, but he was wary of Old Lord Can Yang.

"Dong Fang Yu Liang appeared, but where is Old Lord Can Yang?"

Old Lord Can Yang was actually standing behind 'Dong Fang Yu Liang', but he used an immortal technique and concealed himself. His method was superb, none of the demonic path immortals sensed him.

But he was quite injured, seeing the immortals charging over, he transmitted to 'Dong Fang Yu Liang': "Do you need my help?"

'Dong Fang Yu Liang' quickly rejected him: "You do not need to do anything, let me deal with them!"

Once Old Lord Can Yang attacked, if he was exposed, Northern Plains' Gu Immortals would realize that 'Dong Fang Yu Liang' was colluding with Central Continent's forces. By then, not only would 'Dong Fang Yu Liang' get ostracized by the righteous path, even the demonic path would not welcome him.

In addition, 'Dong Fang Yu Liang' wanted to single-handedly showcase a heavy crippling of his enemies. That was the only way he could rise up after the death of eight Dong Fang tribe Gu Immortals, to allow Dong Fang tribe to once again become a force to be reckoned with!

Zhuo Zhan led the way, he was getting closer, Dong Fang Yu Liang could see the sinister smile on his face.

Behind him, more than ten demonic path Gu Immortals were charging with killing intent.

Dong Fang Yu Liang was all alone, his cultivation level was only at the bottom of rank six, but he was neither flustered nor scared.

His lips curled up, he showed a mild smile as if he was in complete control of the situation.

Old Lord Can Yang who was behind him looked on with much curiosity, he wanted to see how he could repel his foes with his current cultivation level.

Only to see that Dong Fang Yu Liang raised his right arm, his white sleeves were pulled back as his right index finger pointed at the sky, he spoke loudly and leisurely, word by word: "Myriad. Star. Fireflies."

The immortals heard this and their advancement halted, their expressions changed.

Myriad star fireflies was well known in the world of Northern Plains Gu Immortals, it was Dong Fang Chang Fan's strongest killer move.

Dong Fang Chang Fan was known as the number one wisdom path Gu Immortal in Northern Plains, that was not just because of his deductions alone, there was also his battle strength!

Without stunning battle strength, how could he stand firm in the turbulent Northern Plains? Without immense power, how could he lead Dong Fang tribe on the road to success?

Thus, in terms of battle strength, Dong Fang Chang Fan easily surpassed Pi Shui Han and Unfettered Scholar during his life. After all, he was the first supreme elder of a righteous path super force!

The wisdom path killer move, myriad star fireflies, was the greatest display of Dong Fang Chang Fan's battle strength. This move was extremely famous, it was ingrained into the hearts of Northern Plains Gu Immortals.

"Don't listen to his bluff! Myriad star fireflies involves tens of thousands of Gu worms, can it be activated so easily?" Zhuo Zhan shouted.

"He is just a newbie Gu Immortal, he has just ascended and gone beyond the mortal stage, how can he manipulate so many Gu worms immediately?" Lu Qing Ming snickered.

"Wishful thinking!" Divine Lord Tian Du held his Immortal Gu as he prepared to strike.

"Hmph, myriad star fireflies, I lost to that move back then. I wonder how much of its power you can use?" Unfettered Scholar's expression flashed with rage.

"Are we really doing nothing?" Hei Lou Lan's heart was pounding in excitement, but Fang Yuan was a great strength amongst them, after Hei Lou Lan lost self strength Immortal Gu, her battle strength was weaker than before.

"Wait a while longer, the situation is not right." Fang Yuan wanted to speak of what he had found out earlier, but the sky suddenly changed.

Earlier, the clouds had dispersed, the surroundings were entirely clear skies. But now, darkness descended as the world turned dim.

Darkness surrounded the surroundings, countless firefly-like spots of light appeared in the sky, dancing as they moved around.

Starlight burst out, it was a brilliant and dazzling sight!

"Myriad star fireflies!!" The demonic path Gu Immortals' expressions changed, they shouted as they were fell into the midst of the star fireflies.

Starlight was glowing and reflected on their faces.

Unfettered Scholar's expression was pale, this was truly myriad star fireflies, it seemed even stronger than in his memories!

But how could this be possible?

Dong Fang Yu Liang had just became an immortal, right? Even if he had Dong Fang Chang Fan's star will, and could use rank seven red date immortal essence left behind by Dong Fang Chang Fan, this was the first time he was activating myriad star fireflies, how could he be so familiar with it, like he had practiced it a thousand times?

Unfettered Scholar could not understand it.

The Gu Immortals around him were in a more pathetic state.

The surrounding specks of starlight were attacking them from all directions.

One starlight speck was not powerful, but with tens of thousands of starlight specks? Hundreds of thousands, millions, tens of millions of starlight spots?

Especially when each of the starlight specks had a star thought in them.

Even if the Gu Immortals destroyed the starlight specks, the star thoughts would come out and force their way into the Gu Immortals' minds.

Even if the Gu Immortals had defensive methods, the starlight specks were endless and nearly unlimited in numbers, they were bound to fail eventually. Once star thoughts find an opportunity and enter their minds, that would be dangerous.

The least they could do was to disrupt one's thoughts, the worst they could do was to destroy the person's thoughts, causing them to become slow-witted, or if all the thoughts in their mind were star thoughts, they would be subdued completely. The star thoughts would replace their cognition, and the Gu Immortal would become Dong Fang Yu Liang's puppet, manipulated at will!

"What are you doing?!" Beside Zhuo Zhan, a demonic path Gu Immortal shouted angrily.

Zhuo Zhan's face was turning purplish-red: "Sorry, my attack changed directions all of a sudden!"

"Hmph! With your ability, you want to snatch the wisdom path inheritance? In such a short time, you already got invaded by the star thoughts. You are really more of a trouble than help!" The demonic path Gu Immortal was nearly hit, he was extremely angry.

"What did you say? Do you dare to say it again?!" Zhuo Zhan was furious too, he shouted at the demonic path Gu Immortal.

"Enough, are you still fighting amongst yourselves? The important thing now is to escape. This is myriad star fireflies, the longer we stay here, the more dangerous it is." A Gu Immortal said anxiously.

Another Gu Immortal immediately rebuked: "Escape? What are you afraid of? He is only a bottom tier rank six Gu Immortal, we have so many people, and Lord Unfettered Scholar, why are you afraid to this extent? In my opinion, we should just attack!"

Everyone was hesitant on whether to retreat or advance, they subconsciously looked towards Unfettered Scholar.

Pi Shui Han had already escaped, Fang Yuan was far away, Unfettered Scholar was the only rank seven battle strength here, he was their shepherd.

It was not that everyone acknowledged Unfettered Scholar as the leader, but in times of difficulty, the strong would handle the greater dangers.

Unfettered Scholar was their 'strong' person, by moving alongside an expert, they would have a greater chance of surviving.

Unfettered Scholar himself was hesitant.

He and Dong Fang Chang Fan had fought before, back then, he lost to this move, myriad star fireflies.

After losing in battle, he learned from his painful lesson, focusing more attention on information regarding Dong Fang Chang Fan, thus his understanding of myriad star fireflies was much deeper than that of other people.

He knew that myriad star fireflies was a wisdom path killer move, it had immense power, and was created by Dong Fang Chang Fan singlehandedly.

The weakness of this move was hard to discover.

At the moment, Unfettered Scholar only knew this: Once a person enters the range of this move, they would be plotted against. Each of the Gu Immortal's thoughts could produce star thoughts.

These star thoughts were formed by myriad star fireflies to turn into starlight specks, attacking the Gu Immortal.

During an intense battle, Gu Immortals would have to consider many things, as their minds worked rapidly, they would create more star thoughts.

The more star thoughts produced, the stronger the killer move becomes, especially when there are more Gu Immortals in the range, the star thoughts produced would be even greater. When the star thoughts completely took over the Gu Immortals' minds, they would turn into Dong Fang Yu Liang's puppets, fighting for him.

Even if it could not reach that stage, being influenced by the star thoughts, mistakes would occur. Like earlier, when Zhuo Zhan almost injured an ally.

Thus, myriad star fireflies was a move well suited to deal with multiple enemies, it was weaker when fighting one enemy. Against more people, they would be used to restrain each other, the battle might instead be easier to win.

The reason Dong Fang Chang Fan created this move was because he had tried to develop Dong Fang tribe singlehandedly. Without many Gu Immortals in his tribe to help him, he often had to fight many enemies alone.

But after Dong Fang Chang Fan created this move, he no longer feared group fights.

"The current scenario is what Dong Fang Yu Liang most wants to see. We have many people and are not united, everyone is wary of each other, and we have barely any elites, I am the only rank seven. In a fight, we will become hindrances to each other. Not only that, from the battle earlier, there also seems to be a fire path Gu Immortal hiding here."

Unfettered Scholar thought rapidly in his mind, starlight specks appeared around him, he had much more of them compared to other people.

Given such concerns, Unfettered Scholar did not feel like retreating, instead, his battle intent was roused!

"I lost to Dong Fang Chang Fan, that was the greatest humiliation in my life. Now that I am facing his successor, if I retreat, how will I face myself afterwards? Even if they have a hidden Gu Immortal, we also have many people. If I retreat instead of fighting, which Gu Immortal in Northern Plains would look up to me in the future?"

Chapter 794: Internal Threat, Chaotic Battle, Advance or Retreat

After making his decision, Unfettered Scholar's vigor rose, and he shouted: "Fight! The enemy is merely one person, anyone who is afraid can leave."

"Alright, we will follow lord!"

"Truly worthy of Lord Unfettered Scholar, with you here, who would fear Dong Fang Yu Liang?"

The group of demons shouted.

Unfettered Scholar flicked his sleeve and used his killer move, clearing up the lingering starlight around him as he charged towards Dong Fang Yu Liang.

"Come." Dong Fang Yu Liang was not in the least afraid of Unfettered Scholar's rank seven power, he did not retreat but advanced, submerged in starlight.

For a while, the starlight churned as if it were a sea of stars, surging and rolling unendingly.

Dong Fang Yu Liang was like the master of stars as he maneuvered the endless starlight, raising majestic waves of stars to fight against a group by himself!

Stars swayed and light fragments flew everywhere.

Dong Fang Yu Liang was hopelessly outnumbered at first and the situation was dangerous. But as time passed, the starlight continued to increase rapidly, almost filling the whole space.

The starlight obscured vision and made cooperation difficult, while the star thoughts invaded minds causing the demonic path Gu Immortals to make repeated mistakes. As the situation turned more chaotic, Dong Fang Yu Liang's advantage was getting bigger.

Many Gu Immortals were accidentally injured several times, gradually, they did not dare to team up, choosing to fight alone, which further reduced the pressure on Dong Fang Yu Liang.

Only Unfettered Scholar was able to maneuver skilfully around the obstacles, and was the strongest opponent of Dong Fang Yu Liang. Dong Fang Yu Liang had been evading him since the start, not daring to fight head-on with Unfettered Scholar.

Unfettered Scholar's fury surged as he got repeatedly obstructed by other demonic path Gu Immortals: "This Dong Fang Yu Liang is too slippery, he is so young but he is as cunning as Dong Fang Chang Fan back then! He is showing no flaws, as if he has been manipulating this killer move since birth! Is Dong Fang Chang Fan's inheritance so magical?"

Not far away, Old Lord Can Yang was also inwardly shocked by the might of myriad star fireflies. He remained hidden the whole time, quietly healing himself. Occasionally, he would gaze eerily at Fang Yuan and the group at the edge of the battlefield.

He had vague speculations about Fang Yuan's identity and had been waiting for Fang Yuan to jump into the battlefield.

He did not excel in pursuing enemies, but with the help of myriad star fireflies, he would have a greatly increased chance of capturing Fang Yuan.

However, since the beginning, Fang Yuan only stood by, looking on without lifting a finger, which caused Old Lord Can Yang to feel anxious and forced him to endure waiting patiently.

Immortal killer move — Thousand Disintegrations!

Unfettered Scholar could not fight a prolonged battle, finally using his trump card killer move.

Dong Fang Yu Liang chuckled, already on guard against this move, his body swayed nimbly like a butterfly, dodging the rays coming from the gaze.

But right at this moment, Dong Fang Yu Liang suddenly stopped, Dong Fang Wan Xiu's furious roar resounded within him: 'Old scoundrel, I will take you down with me!'

'Dong Fang Yu Liang' suddenly changed directions and charged straight towards the killer move thousand disintegrations.

This change was beyond anyone's expectations.

The power of thousand disintegrations was deeply imprinted in everyone's minds, 'Dong Fang Yu Liang' charging straight at it was simply suicidal!

For a while, everyone was startled and could not react.

Even Unfettered Scholar was stupefied as he looked at 'Dong Fang Yu Liang' charging at his killer move.

The light of thousand disintegrations shined on Dong Fang Yu Liang's head, in an instant, Dong Fang Yu Liang's hair was destroyed, then his skull was melting, with the rays about to hit his brain.

On this boundary between life and death, Old Lord Can Yang shouted and with no time to continue healing, he showed himself to save Dong Fang Yu Liang.

He attacked while also defending.

Flame surged, a blazing inferno rose and charged towards Unfettered Scholar. Confronted with a rank seven expert, Unfettered Scholar had no choice but to divide his attention.

As this happened, Old Lord Can Yang was able to pull back Dong Fang Yu Liang.

Dong Fang Yu Liang's skull was penetrated through and his brain almost suffered extremely severe damage. At this moment, countless star thoughts surged like a fountain towards the outside through the hole in the skull.

After being saved by Old Lord Can Yang, Dong Fang Yu Liang's expression turned calm, representing that Dong Fang Chang Fan's soul had regained control of the body.

Lingering fear unavoidably showed up on his face.

If there had been just a slight delay, Dong Fang Yu Liang's brain would have been entirely disintegrated.

Dong Fang Chang Fan could be said to have walked around the gates of hell, barely holding onto life. And without Old Lord Can Yang, he might have died again.

“What happened?!” Old Lord Can Yang retreated while pulling Dong Fang Chang Fan and shouted at the latter, his heart still palpitating.

Dong Fang Chang Fan had explained most of the possession technique to him, but a few crucial final steps were still kept undisclosed by Dong Fang Chang Fan.

Thus, Old Lord Can Yang was absolutely not willing to see Dong Fang Chang Fan’s death.

Dong Fang Chang Fan intentionally held these back as a failsafe against Old Lord Can Yang, the effects were shown now.

However, he might have had his life preserved, but Dong Fang Chang Fan looked pale and had an unsightly expression.

This series of events was because he had hurriedly ascended to immortal and were the side effects of the struggle against the lightning tribulation.

Originally, Dong Fang Chang Fan had deceived Dong Fang tribe’s eight Gu Immortals and used the phantom formation to extract their immortal aperture origin cores.

But these cores contained the wills and auras of the eight Gu Immortals, and could not be directly transferred to Dong Fang Yu Liang’s body.

Thus, Dong Fang Chang Fan used menses blood Immortal Gu to turn these origin cores into a blood veil. Then he used the attacks from the demonic path Gu Immortals to temper and remove the impurities that were the wills and auras of the eight Gu Immortals.

Dong Fang Chang Fan then would transfer the purified immortal aperture origin cores into Dong Fang Yu Liang’s body, which should have resulted in no side effects.

However, the heavenly tribulation and earthly calamity had been too terrifying, far surpassing Dong Fang Chang Fan’s estimation. It resulted in a dangerous situation and at the crucial moment between life and death, Dong Fang Chang Fan had no choice but to skip some of the blood veil’s tempering steps and directly transfer the extracted origin cores into Dong Fang Yu Liang’s body.

He passed the tribulation and advanced to Gu Immortal. But the new immortal aperture had the eight Gu Immortals’ wills and was filled with their auras.

These eight Gu Immortals’ bodies and souls were already turned to nothingness prior to the heaven-shaking tribulation. But they were betrayed, creating hatred towards Dong Fang Chang Fan which was retained in their wills and auras.

Dong Fang Chang Fan had to pay full attention to the battle when fighting Unfettered Scholar. A moment of negligence caused the internal danger to erupt, resulting in a strong backlash.

Dong Fang Chang Fan had expected it but during the backlash, he discovered his previous estimations had been too optimistic. The power of the accumulated wills in his immortal aperture was beyond his expectations.

Thus, the backlash had almost sent him to his own death under thousand disintegrations.

Dong Fang Chang Fan heaved a sigh and was just about to explain matters to Old Lord Can Yang, when suddenly his face twisted into a ferocious expression.

Old Lord Can Yang's mind rang with warning sirens and he quickly released his grip as he retreated.

The next moment, Dong Fang Yu Liang used a powerful killer move against his benefactor, Old Lord Can Yang.

Fortunately, Old Lord Can Yang had been vigilant, Dong Fang Yu Liang's attack struck empty air.

"Old bastard Chang Fan, you shameless scoundrel, scheming against your own tribe's Gu Immortals for your rebirth!" Dong Fang Yu Liang furiously shouted, but it was not with his previous voice, rather, it was the voice of Dong Fang Yi Kong.

Such a strange change confused everyone.

Unfettered Scholar's eyes shined with a bright light, and moved in for the kill again. He reacted promptly and used the killer move thousand disintegrations, again directed at Dong Fang Yu Liang.

However, Dong Fang Chang Fan regained control again and narrowly evaded thousand disintegrations.

The good scenario did not last for long as soon, the will of another of Dong Fang tribe's Gu Immortals forcibly took control of the body, shouting and seeking death of their own accord.

Old Lord Can Yang had no choice but to save Dong Fang Chang Fan from danger again.

The battle situation had changed.

The orderly myriad star fireflies which attacked and defended in turn were now flying around chaotically. The pressure on the demonic path Gu Immortals had greatly decreased, and they charged towards Dong Fang Yu Liang one after the other.

Among them, the threat from Unfettered Scholar was the largest, as he moved unhindered around the sea of starlight, his thousand disintegrations breaking through all obstacles.

Dong Fang Chang Fan, however, had the help of Old Lord Can Yang. Old Lord Can Yang was an expert of Central Continent's ancient sects and had deep foundations. His immortal killer move, life chasing fire, was also rather troublesome, obstructing Unfettered Scholar.

Dong Fang Yu Liang would occasionally suffer the backlash from a certain Dong Fang tribe Gu Immortal, at times causing him to attack Old Lord Can Yang or even seek death, but at other times Dong Fang Chang Fan was able to regain control and fight the demonic path Gu Immortals, attempting to remedy the situation.

However, all things considered, such a battle situation could not avoid being chaotic.

The source of the chaos was Dong Fang Yu Liang.

"What is going on?" Fairy Li Shan and the others were standing at the edge of the battlefield, not knowing what to think about this chaotic fight.

The strange and confusing situation was beyond their expectations.

“It seems Dong Fang Chang Fan sacrificed his tribe’s Gu Immortals and possessed Dong Fang Yu Liang, but his plan did not completely succeed. This old bastard really can scheme!” Hei Lou Lan sneered.

“No matter who Dong Fang Yu Liang is, that fire path Gu Immortal beside him is not of Northern Plains, but an expert of Central Continent’s Immortal Crane Sect, named Old Lord Can Yang. After the battle earlier, he is probably suspicious of me.” Fang Yuan secretly transmitted his voice, exposing the identity of Old Lord Can Yang.

“What? This is troublesome.” Hei Lou Lan frowned. She and Fang Yuan were tied to the same boat, their gains and losses were linked together. If Fang Yuan was exposed, she would also be in jeopardy.

“What should we do now? Perhaps we could kill him?” Fairy Li Shan was ready to attack.

“No! He only has some doubts, as long as I don’t expose myself, he won’t be able to guess my identity in Central Continent. The battle is extremely chaotic now, it will be hard for us to withdraw if we meddle in. Moreover, Dong Fang Chang Fan is a deep schemer, myriad star fireflies is also powerful, while we will have to restrain our full power to hide our identities. What’s more, Old Lord Can Yang is an expert among rank sevens and won’t be easily defeated.” Fang Yuan’s gaze flickered, as he sent this message to the two women.

He already had the intention to retreat. The situation might be in disorder now, but their circumstances did not allow them to do as they pleased. Even if they could use their full strengths, the combined strength of the three was not enough to dominate the whole battlefield and control the lives and deaths of everyone present.

“You mean that we should retreat?” Hei Lou Lan, however, was reluctant. As far as she was concerned, the chaotic situation in front of them was still an opportunity.

She had sworn to get revenge, but Hei Cheng was powerful and her battle strength had decreased after she had also lost self strength Immortal Gu. If she did not use these opportunities to quickly progress ahead, when would she be able to take her revenge?

Fang Yuan smiled: “I mean that we should retreat as well as advance. Haven’t the two of you discovered that Dong Fang Yu Liang has already lost control over a dozen times in just this short period of time, all in all, it should be due to the wills of the eight Gu Immortals causing trouble.”

“You mean?” Hei Lou Lan and Fairy Li Shan’s gazes shined brightly as they understood the meaning behind these words.

“Right. How many Gu Immortals does Dong Fang tribe has? Even if there is some hidden force left behind, Dong Fang tribe’s headquarters would still be at its weakest state in all time. Just think about it, the accumulations of a region’s super force...” Fang Yuan spoke leisurely, however his words ignited the fires in the hearts of Hei Lou Lan and Fairy Li Shan.

“Then what are we waiting for, let’s go! Let’s rob Dong Fang Chang Fan’s base!” Hei Lou Lan did not hesitate as she flew straight towards Dong Fang tribe’s headquarters with excitement.

Chapter 795: Arriving First, But Without Success

Jade Pool blessed land, Dong Fang tribe's main headquarters, Dong Fang Chang Fan's home. It had a long history of thousands of years.

This type of blessed land was different from ordinary blessed lands.

Ordinary blessed lands were a Gu Immortal's immortal aperture, they belonged to one person. Once their cultivation level reaches rank eight, the immortal aperture would become a grotto-heaven.

Meanwhile, Jade Pool blessed land did not belong to one Gu Immortal. It was formed from a group of Gu Immortals cutting off a part of their own blessed lands, and was pieced together after that.

Blessed lands could swallow each other. Earlier, on Tian Ti mountain, Fang Yuan was undergoing the earthly calamity of the desolate beast swamp crab, he had to discard a portion of his blessed land. In the end, this part was taken away by the demonic path Gu Immortals on Tian Ti mountain, fusing it into their own blessed lands.

The swallowing of blessed lands had very strict requirements. But the requirements of piecing blessed lands together were much lower.

Most of the super forces in the five regions had a main camp that was formed by piecing together the contributions of various Gu Immortals.

Dong Fang tribe's Jade Pool blessed land, Murong tribe's Yin-Yang blessed land, Guan tribe's Shi Huang blessed land, and Hei tribe's Iron Eagle blessed land all were like this.

Even Northern Plains' number one demonic path force, Snowy Mountain blessed land, was the same.

The demonic path Gu Immortals contributed a portion of their blessed lands, creating Snowy Mountain blessed land. They then lived in it, the mountain peaks that they each occupied was the region that they took out from their own immortal apertures.

The owner of the first peak, Old Ancestor Xue Hu, had his own rank eight grotto-heaven. Fairy Li Shan, who was the owner of the third peak, also had her own immortal aperture.

The Gu Immortal's personal immortal aperture was extremely important, there were countless treasures placed in them, it was a private area. In most situations, outsiders would not be allowed in. If there was any damage done, the losses were severe.

Regarding this, there was also a rather peculiar example, it was Zombie Alliance. The members of Zombie Alliance were immortal zombies.

Since the immortal zombies' immortal apertures were dead, a portion of the aperture would break apart once in a while, and they furthermore could not be fused together. Therefore, in each of the five regions, the headquarters of Zombie Alliance did not form from immortal apertures, for example, Northern Plains Zombie Alliance's headquarters was Dark Flow Giant City.

Such a headquarters was naturally inferior to a blessed land. This was another reason why Zombie Alliance's branches were weaker than super forces.

Thus, to Fang Yuan and the others, Jade Pool blessed land was not hard to find.

Blessed lands that were pieced together like this were usually placed on the ground, taking in earth qi to stabilize the space inside. At the same time, they could slow time flow and postpone the arrival of heavenly tribulations and earthly calamities.

"I know the location of this Jade Pool blessed land clearly. If it was not moved away, it should be to the northeast. Let's fly over there, at this speed, it would only take an hour." Fairy Li Shan led the way.

"It should still be at the original place. The main camp of such a super force is very important, it is the central point used between super forces when splitting up their respective territories. It would not be moved under normal circumstances." Hei Lou Lan was excited: "Dong Fang Chang Fan miscalculated this time, he actually removed his own manpower, sacrificing Dong Fang tribe's Gu Immortals to revive himself!"

Fang Yuan followed behind the two women without speaking.

As they flew rapidly, huge winds were blowing, causing buzzing noises around the ears.

Fang Yuan's memories of his previous life began to surface in his mind.

In his previous life, he knew very little about Dong Fang Chang Fan. He had no idea whether Dong Fang Chang Fan succeeded in possessing Dong Fang Yu Liang's body in his previous life.

But he knew at least that Dong Fang Yu Liang was only a rank five Gu Master for a long time. At that time, Imperial Court blessed land was not destroyed, after Hei Lou Lan won and came out from Imperial Court blessed land, she tried to overturn and change the current rules, dying suddenly one day.

Eventually, Ma Hong Yun stepped up on the stage. After that, he led his army and became the Lord of the Imperial Court for many rounds. During the third Imperial Court contest, he was suppressed by three hearts combination soul and was captured by Dong Fang tribe alive. In the end, Ma Hong Yun's luck was overwhelming, he actually got Dong Fang Yu Liang's sister, Dong Fang Qing Yu, on his side, not only did she free him, she also gave him the secret of three hearts combination soul, allowing Ma Hong Yun to emerge victorious, and Dong Fang tribe lost terribly.

Fang Yuan thought about this and he inwardly came to a realization, he had a different view now: "If, in my previous life, Dong Fang Chang Fan managed to possess Dong Fang Yu Liang, then Dong Fang Qing Yu was doing this not because of Ma Hong Yun, but because she found out something and wanted to avenge her brother."

After all, Dong Fang Yu Liang and Dong Fang Qing Yu were siblings that had mutually supported and stuck close by each other since they were young. No matter how Dong Fang Chang Fan acted, after a long time, he would definitely mess up in front of such a close relation.

"Or maybe Dong Fang Chang Fan failed in his possession. Or maybe he succeeded, but the effect was not great, Dong Fang Yu Liang was still a mortal Gu Master." Fang Yuan guessed.

Ever since he destroyed Eighty-Eight True Yang Building, along with Imperial Court blessed land, the events in Northern Plains had changed hugely.

Just at minimum, in his previous life, Dong Fang tribe's Gu Immortals like Dong Fang Yi Kong and Dong Fang Wan Xiu were still alive, but now they were sacrificed.

Such huge changes had also affected Central Continent's events, they were changing rapidly.

Central Continent was the center of the five regions, one could predict that in future developments, the other three regions would also be affected to an extent.

"The advantage of my rebirth is becoming smaller." Fang Yuan sighed inwardly.

As he got stronger, the influence that he was creating also increased. It was called the butterfly effect, but Fang Yuan was already no longer a butterfly, he was an eagle.

An hour later, they arrived at Jade Pool blessed land.

The situation in front of them was slightly out of their expectations.

Jade Pool blessed land was an independent small world, when its entrance was closed, it could not be seen with the naked eye.

But now, there was a huge hole in it, one could see the situation inside the blessed land from outside.

At the same time, there were loud explosions, sounds of fighting could be heard.

"There was someone who got here first?" Hei Lou Lan's gaze focused.

"Judging by this, they have just created a hole and entered. I had made an agreement with Dong Fang Chang Fan, I cannot attack Dong Fang tribe." Fairy Li Shan said.

Fang Yuan would thus be the core battle strength amongst the three, he walked in front and shouted: "Let's go in and see!"

The three entered the hole and got into Jade Pool blessed land.

Only to see that there was a huge battle in the blessed land, several demonic path Gu Immortals were fighting with the desolate beasts and ancient desolate beasts that were guarding the blessed land, it was an intense fight.

"It seems that our timing is just right." Hei Lou Lan's mood relaxed, but her tone sank immediately after: "It is Pi Shui Han!"

As it turned out, after Pi Shui Han was hit by Old Lord Can Yang's life chasing fire, he could not dispel it. Afraid that others would attack him, he had no choice but to escape.

As he escaped, he gradually calmed down. He found out in surprise that his clothes were still intact even with the fire burning.

Pi Shui Han had an idea, after thinking about it, he realized: This life chasing fire could only burn something with life force, his clothes were not alive, thus they were not harmed. Meanwhile, he had been using healing killer moves, they made his life force even greater, causing the fire to burn more intensely.

After finding this out, Pi Shui Han changed his tactics. He restrained most of the life force in his body, finally extinguishing the life chasing fire.

After getting rid of this threat, he turned around and wanted to go back to Tai Qiu battlefield.

On the way back, he met a few rank six demonic path Gu Immortals who had left stealthily and were trying to take advantage of his situation.

Pi Shui Han was an astute person, seeing that these few people were tailing him secretly, he understood their intentions, anger surged in him as he taught them a lesson.

The demonic path Gu Immortals worked together, but they were not the rank seven Pi Shui Han's match.

When Pi Shui Han had been venting, the sound of the battle drew in two rank six peak Gu Immortals. They were Qie Shi Min of the enslavement path and Half Moon Brutemaster of the moon path.

These two had pretty good relationships with a certain demonic path Gu Immortal, they intervened and mediated the situation. They also convinced Pi Shui Han to not go back to Tai Qiu, that he should instead go to Dong Fang tribe's main camp.

Pi Shui Han was wary of the life chasing fire already, next, he heard that Half Moon Brutemaster had an Immortal Gu that could easily pierce space and could enter Jade Pool blessed land.

Pi Shui Han thought about Unfettered Scholar, and Fang Yuan's group with their mysterious depths, he also thought about the wisdom path inheritance, even if he got it, it would be incomplete and have low value, it would be of little use to him. Thus, he decided to change his plans, to attack Jade Pool blessed land with the other demonic path Gu Immortals.

At Jade Pool blessed land, Half Moon Brutemaster used his method and truly formed a pathway to enter.

Everyone charged in, thinking of simply reaping some profits before leaving. But they found out that there were no Gu Immortals obstructing them, and just as they were fighting with the desolate beasts protecting the blessed land, Fang Yuan and the others appeared.

Seeing that the three black robed Gu Immortals were also here to loot the place, the nearby enslavement path Gu Immortal Qie Shi Min made a move.

He willed and three huge desolate beast birds flew out from his immortal aperture, encircling them.

"Who are you? I spent so much effort in creating this hole, are you here to simply take advantage of this?!" Half Moon Brutemaster shouted, he waved his arm and his killer move was unleashed.

Pi Shui Han saw Fang Yuan and his pupils shrunk, he felt a faint headache, it's the three of them, why did they come here too?"

He knew Fang Yuan's strength, but he still found some time to attack him.

These people had made an agreement earlier before entering, if anyone else enters after them, they would attack together and defend their interests.

But Pi Shui Han's attacks were slightly slower, even though his attacks looked powerful, he had reserved most of his strength, if the situation turned bad, he could retreat at any time.

As for the other demonic path Gu Immortals, the moment they saw Fang Yuan, they sucked in breaths of cold air. Pi Shui Han had confidence from his cultivation level, but why would these people dare to attack and implicate themselves? Thus, they disregarded the earlier agreement, they acted like they were obstructed by the desolate beasts and could not find time or energy to attack.

"Hehe, come." Fang Yuan laughed sinisterly, five strength path giant hands flew out.

Three strength path giant hands suddenly grabbed the desolate beast birds, the birds cried out in pain from their force.

As for the other two, they destroyed Half Moon Brutemaster and Pi Shui Han's attacks effortlessly.

Qie Shi Min and Half Moon Brutemaster did not know about him, they saw this and were extremely shocked.

"Rank seven battle strength!"

"Where is this expert from?"

Fang Yuan forced them back, he laughed even more wildly, two more giant hands flew out, along with two others formed earlier, a total of four hands flew towards Pi Shui Han.

At the same time, he shouted: "Pi Shui Han, to think that you came here as well. It seems that the lesson earlier was not enough for you!"

Saying this, he demonstrated an extremely arrogant and proud attitude, like he had already fought with Pi Shui Han and taught him a lesson.

Qie Shi Min and Half Moon Brutemaster heard this and their hearts shook, their fighting spirit immediately fell.

Chapter 796: Everyone With Different Intentions, Going After Precious Treasures

Pi Shui Han snorted coldly, he was inwardly extremely angered.

He was a famous expert, Fang Yuan's loud taunting was something that had not happened to him for a very long time.

Pi Shui Han did not want to show a weak demeanor, just as he was about to attack and fight back against Fang Yuan, Fairy Li Shan flew out and exposed her rank seven aura, meanwhile at another side, Hei Lou Lan did not conceal her activation of multiple Immortal Gu.

This was obviously a situation of the three of them fighting him at once.

Pi Shui Han's eyes twitched, he gritted his teeth and stopped his attack.

He had no choice but to stop.

Because right now, there was no one with the strength of Unfettered Scholar around him.

He was alone against many strong foes.

Pi Shui Han could not regain the face he lost, as he fought with the desolate beast, he snorted, saying to Fang Yuan: "Didn't you guys run here too? Don't be too arrogant, do you really think I am a pushover? I am thinking about the big picture, I have greater objectives, I do not want to waste time with a brute like you over small matters. With such huge benefits in front of us, if I waste time in being pestered by you, it would be a huge regret to miss this opportunity."

Although the desolate beast was fierce, Pi Shui Han was much stronger, he could speak as he fought, interacting with Fang Yuan and the others.

In comparison, Qie Shi Min and Half Moon Brutemaster appeared much inferior.

"Hehe." Fairy Li Shan laughed, she stood in the air as she said in a hoarse voice: "He is right, now is indeed not the time to fight among ourselves."

"Why don't we force them back and take Jade Pool blessed land for ourselves?" Fang Yuan growled unhappily on purpose.

Hei Lou Lan coordinated with him, she immediately rebuked: "There is not enough time, do you think we haven't considered this? Since we can come here, others are not fools, there will be others coming here soon. Moreover, Dong Fang Chang Fan is a scheming old fox, why would he not set up defenses around his base camp?"

Fairy Li Shan also said: "We'll handle it like that, how many times have I told you, number seven, you need to control your quick temper."

Fairy Li Shan purposely spoke like she was scolding Fang Yuan, he snorted and acted as if he was obeying orders from her.

These three had already cooperated many times, they had chemistry in coordinating between themselves, with their current performance, there was no flaw.

Pi Shui Han felt even more wary now.

Qie Shi Min and Half Moon Brutemaster looked at each other, thinking that this situation was troublesome.

At the same time, they felt some suspicion and uncertainty: "Where did this mysterious force come from?"

"Such a person is only number seven, and not the leader?"

"Brother Pi, Jade Pool blessed land is so big, it is not something we can take for ourselves alone, why don't we work together for now, time is limited, the longer we drag on, the more unexpected problems could occur." Fairy Li Shan said solemnly.

Pi Shui Han did not want to fight them, he saw a way out that could save some face for him, on the outside he showed a reluctant expression as he spoke: "Fine, you can join in too. But we had an

agreement earlier, we cannot fight among ourselves, there are certainly many valuable things so whoever finds them will get to own them. If there is a dispute, you can undergo transactions privately. If that is insufficient, strength will decide the rest!"

Fang Yuan and Hei Lou Lan looked at each other, seeing the smile in each other's eyes.

What rules were these?

This was no different from saying there were no rules!

Among demonic path Gu Masters, they often lacked trust. Such rules were compatible with the style of the demonic path, there were no restraints at all.

"Of course, earlier, Pi Shui Han, Qie Shi Min and the others probably had more rules than this. There was probably a part about using cultivation level to decide who gets more resources." Fang Yuan muttered in his thoughts.

Pi Shui Han was a rank seven Gu Immortal, he had the greatest battle strength, he naturally had to protect his own interests.

But the situation was different now, Fang Yuan's side was even stronger, Pi Shui Han was at a disadvantage, he would not blindly list out such a condition.

Qie Shi Min and Half Moon Brutemaster were extremely regretful.

Why did they attack so quickly? They did not observe the situation clearly!

The enslavement path Gu Immortal Qie Shi Min saw that they were negotiating, he had to take a risk and say: "Would sir return my three desolate birds?"

Fang Yuan laughed loudly, saying arrogantly: "These birds may look impressive but are worthless, you can have them back."

Saying this, he tossed these three desolate beast birds without a second thought, like they were worth nothing.

Qie Shi Min felt anger inwardly, he was extremely stifled.

These three desolate beast birds were indeed low in battle strength, but they were easy to raise and control.

There was only one beast enslavement Immortal Gu in the world, but there were many ways other than that to control desolate beasts. Wisdom path, water path, fire path, and others, they all could do so.

There were other techniques that Qie Shi Min did not use, once he did, he could raise the desolate beast birds' battle strength by fifty percent.

But Fang Yuan and the others were too ruthless, if they had fought, he might have done that. However, they went directly to Pi Shui Han to find trouble, they did not even give him a second glance.

These two demonic path Gu Immortals did not know the background of Fang Yuan and the others, but they knew Pi Shui Han's power.

Even Pi Shui Han was suppressed, having the disadvantage, why would they dare to attack?

Thus, Qie Shi Min was deterred, he had cowered before even fighting, he did not dare to use his real offensive techniques.

He did not reply to Fang Yuan's taunting, he kept quiet as he endured it, not daring to say a word.

In truth, Fairy Li Shan was a rank seven information path Gu Immortal with ordinary battle strength. After Hei Lou Lan lost Self Strength, she did not have a true immortal killer move, her battle strength fell and was around rank six middle tier.

If Fang Yuan and Pi Shui Han fought, as time passed, he would inevitably fall into a disadvantage.

Comparing their collective strengths, Fang Yuan's side was weaker.

But in war, destroying the enemy's plan was the best tactic. The second best way was to destroy their connections, then the best after that was attacking their troops, and finally, attacking their cities. Fang Yuan and the others used the best tactic, they won before even fighting.

Although the power levels in different worlds were somewhat different, or they could even be very different, but regarding such philosophy, it could be applied everywhere.

Whichever world it was, the logic of ruining the enemy's plans was an astute move.

Only an imbecile would want to fight and kill all day.

Anyone who had slight knowledge of politics would know that war was only a method, it was an extension of political strife. And the core of politics was the economy.

Economy meant profits, in other words, all fighting was done for the sake of profits.

To Fang Yuan, coldness, arrogance, humility, conceit, all of these were masks, they were tools for him to obtain profits.

The two sides came to an agreement and decided to collaborate. The desolate beasts in Jade Pool blessed land were originally at a disadvantage, with no commander. Now that there were new members to the group of demonic path Gu Immortals, the beasts quickly lost. Some died, some got injured, and some escaped.

"Hahaha, let's charge in." Fang Yuan purposely laughed wildly, taking the lead as he flew into a deep part of Jade Pool blessed land.

From a bird's eye view in the air, the blessed land's huge landmass had pools of all sizes that could be seen all over the place.

There were deep pools and small lakes connected with each other, in untold numbers. They were like the stars in the night sky, indescribably beautiful.

The terrain of the blessed land was somewhat chaotically ordered, it was organized in accordance to being centered upon each jade pool, spreading out in a circular fashion. There were some grasslands, some green trees that formed shade for the pools. There were some pools in mountains, and there were some in swamps.

“This is a good blessed land!” Fang Yuan could not help but praise.

Soon after, Hei Lou Lan arrived behind him, she did not speak but her eyes were shining.

Fairy Li Shan also arrived soon afterwards, she smiled as she introduced: “Each of the jade pools here are unique, they have different types of waters and nurture countless species of creatures, or Gu worm groups. Some were used to create a specific environment, to store all their resources. Dong Fang Chang Fan had his own unique concept of management, when he was around, he brought in resources from Eastern Sea, growing them in Jade Pool blessed land until they bore fruit, which he then sold to Northern Plains Gu Immortals. Be it righteous path or demonic path, they were all popular goods. Even in treasure yellow heaven, Dong Fang tribe’s fish groups and aquatic plants were famous. Even though they could not match Eastern Sea’s super forces in this aspect, it was quite a unique specialty.”

Hearing this, Hei Lou Lan understood, she was ready to move: “This means that in each of these pools, there is a stockpile of resources.”

“Hahaha, there are so many crystal marrow aquatic plants, it is suitable for my blessed land, I can save a huge amount of expenses now!” Not far away, a demonic path Gu Immortal had already taken over a pool as he laughed loudly.

“We have to split up, if we stay together, others might be suspicious.” Fang Yuan transmitted.

“Alright, let’s act separately, we can gain more that way. But keep in touch and take care of each other, not only are we dealing with Pi Shui Han and the others, there might also be Dong Fang Chang Fan’s traps. I will go first!” Hei Lou Lan changed her direction and flew away from Fang Yuan and Fairy Li Shan, she flew towards a deep pool below.

“This child...” Fairy Li Shan looked at Hei Lou Lan’s figure as she sighed, saying to Fang Yuan: “I had previously agreed to not attack Dong Fang tribe. I cannot touch these resources, but I can skirt around the restrictions. I will investigate this place, if I find a precious resource, I will inform you two.”

“Alright.” Fang Yuan replied curtly.

He suddenly looked towards a deep pool, it was shining brightly, like there was a layer of oil on top. The surface area of the pool’s top layer was also larger than the other pools.

“I am going too!” Fang Yuan moved and flew down at lightning speed.

Fairy Li Shan flew towards the sky, hiding into the clouds.

Far away, Pi Shui Han saw that the three of them had split up, a dark light flashed in his eyes as he snorted coldly, turning towards a jade pool.

Fairy Li Shan flew into the clouds so that she could use hole earth Gu, she transmitted only to Hei Lou Lan secretly: “Quick! There are two great treasures in Jade Pool blessed land, one is Thatched Hut, the other is Miniscule Mountain. The former is a rank six Immortal Gu House, it can both attack and defend, specializing in storage. The latter is a legendary place recorded <<The Legends of Ren Zu>>, one of the variant humans, the miniman race lives in it. No matter which one we obtain, it will be of huge help to our cultivation in the future.”

Hei Lou Lan immediately responded: "I have also heard of these two treasures. But little aunt, how did you confirm that these two are in Jade Pool blessed land?"

Fairy Li Shan smiled as she replied: "I have cooperated with Dong Fang tribe so many times, I know some matters about their internal affairs. Thatched Hut stores most of Dong Fang tribe's public wealth, even Dong Fang Chang Fan cannot take them for his personal use inappropriately. As for Miniscule Mountain, despite being small, it is a real mountain, it needs to take in earth qi to stabilize its form, it cannot be brought out easily. Furthermore, Dong Fang Chang Fan had the agreement with the righteous path forces created using it, with Miniscule Mountain guarding this place, that would form the greatest restraints on the alliance!"

"Of course, these two treasures could have been moved away secretly, but the possibility of that is small. Regardless, we have to give it a try. There are countless jade pools, Thatched Hut might still be at its former location, follow my instructions and go there stealthily."

Chapter 797: Flick, Flick, Flick, Subduing a Shark Fin Wolf

Hei Lou Lan was even more excited, quickly replying: "Little aunt, rest assured, I am already deep into the pool and am drilling a hole underground!"

In the air, Fairy Li Shan suddenly spat out a mouthful of blood, this was the backlash from the alliance agreement, but she could endure this much.

She casually wiped away the blood and continued to transmit information to Hei Lou Lan secretly: "Alright, I will scout for you from up here, move stealthily and make sure other Gu Immortals don't discover you. Especially Fang Yuan, he is extremely shrewd and calculating, even Pi Shui Han is dancing to his tune. We are in the Snowy Mountain Alliance with him, but its time limit is approaching, you need to make sure to be on guard against him."

"That goes without saying!" Hei Lou Lan quickly replied.

Fang Yuan moved rapidly to above a jade pool, causing gusts of wind that raised waves on the surface of the pool.

Fang Yuan had his previous life's memories and although he did not have investigative Immortal Gu, his mortal investigative methods were ahead by a generation in comparison to the surrounding Gu Immortals. He looked around for a while before immediately ascertaining that there was nothing in this pool apart from water.

"So it is oil water." He frowned slightly as he examined.

Oil water was naturally not regular water, but a resource found in the depths of deep seas. It was a Gu refinement material and was extremely common in Eastern Sea. In Northern Plains and Western Desert, however, it was rather rare.

There were almost no transactions of small amounts of oil water in treasure yellow heaven. It was because the profits were too low and the fee of treasure yellow heaven was too high, making the loss more than the gains.

When oil water transactions appeared in treasure yellow heaven, they were essentially in very large amounts, but even then it was hard to earn significant profits. Also, because the oil water Eastern Sea produced was basically used by their own cultivators, the frequency of such large transactions was extremely low.

Dong Fang tribe was not only storing oil water, but also had an ingenious use for it, this pool's water was extremely deep, connecting to deep underground and extracting traces of earth qi.

Oil water was basically a resource that was produced in deep water and large trenches.

“Dong Fang tribe set up this pool to use oil water to produce more oil water. Once in a while, they will put in clear water and with the continuous mixing of earth qi and oil water, the oil water in the pool would gradually restore to its original concentration.” Fang Yuan was very experienced and with just a moment of thinking, he was aware of the operation method of Dong Fang tribe.

Oil water was not easy to extract and required specific Gu worms.

Fang Yuan's slight frown was because of this.

He knew there was a small, specially designated group of Gu Masters who went to the depths of seas to extract oil water. Gu worm recipes that were handed down from generation to generation were arranged in a set to draw and extract this oil water.

These people made a living from this, and their Gu worm set were meant to extract oil water. They did not have high battle strength, but their social status were high and they were welcomed by all the forces of Eastern Sea.

Fang Yuan had been to Eastern Sea in his previous life and had come across an old oil water extraction specialist.

This Gu Master was rather old, and he only had a granddaughter, to whom he wanted Fang Yuan to wed and also adopt her surname. Unfortunately, Fang Yuan refused in the end.

Fang Yuan's eyebrows soon relaxed.

He pointed his index finger at the surface of the pool and lightly bent it; immediately, the pool water rose like a dragon, obediently moving into Fang Yuan's immortal aperture.

There would have been nothing Fang Yuan could do if this was before the auction, but after the auction, he had the strength path Immortal Gu, Pulling Water, its effect was specialized for dealing with water, wasn't this a trivial matter?

“It is just that oil water is precious, but it is not immortal material. Using Immortal Gu Pulling Water to collect it is simply overkill, but I plan to attend Central Continent's Refinement Path Convention and oil water is suitable to be used at earlier stages. Otherwise, I would not have gathered it.”

Using Immortal Gu meant spending green grape immortal essence. And the value of green grape immortal essence was much higher than oil water.

If it were not for the Refinement Path Convention, Fang Yuan might have simply ignored it and left.

Right now, Fang Yuan was standing in the air with his hands clasped behind his back, the oil water constantly moving towards his immortal aperture.

He slightly leaned to the side and looked in Hei Lou Lan's direction.

There was no news from Hei Lou Lan's end, as if she had gone to another pool.

A dark gaze flashed past Fang Yuan's eyes; he had some guesses about Fairy Li Shan and Hei Lou Lan's secret plans, but was not worried.

With the advantage of rebirth, how could he not know of Thatched Hut and Miniscule Mountain? In truth, he probably knew of them even more clearly than Fairy Li Shan.

In the five regions chaotic war during Fang Yuan's previous life, all sorts of Immortal Gu Houses were brought into fights, creating many large scale battles.

Immortal killer moves could be easily targeted and subdued, but Immortal Gu Houses combined defense and offense, even if they had different specialties, they fundamentally did not have shortcomings on other aspects.

In particular, the more Gu Immortals an Immortal Gu House stored, the stronger their might. It was almost like an unstoppable fortress in the battlefield.

"Thatched Hut would not be Thatched Hut if it could be easily found." Fang Yuan stored all of the oil water before flying towards another pool.

After storing several resources like oil water, Fang Yuan finally came across a pool where a beast group, that made his eyes brighten, was dwelling.

Sensing Fang Yuan's mighty presence encroaching upon their territory, wolf howls resounded, several tens of thousands of shark fin wolves rushed out. The wolves formed a large wave, glaring fiercely at Fang Yuan.

Fang Yuan had used shark fin wolves when he had disguised himself as Wolf King Chang Shan Yin.

They were extremely useful.

They had the size of an elephant and could live in both land and water, and were one of the few wolf species that could fight underwater.

They had powerful defense, their bodies were covered with smooth crocodile-like armor, while there were sharp, deep blue fins on the sides. On their backs, there was a row of shark-like fins, which formed a line extending from the wolf's head to its tail.

They were not fast and were often used by Fang Yuan as shields in his wolf formations.

Naturally, these mortal beasts were not of much interest to Fang Yuan currently.

Fang Yuan's burning gaze was on the leader of the wolf group.

This was an enormous shark fin wolf that was over ten meters tall. With a smooth and graceful build, its physique was a perfect combination of strength and beauty.

This shark fin wolf was crouched low, with its dense sharp canines exposed. Its lantern sized eyes were fixed upon Fang Yuan, as if it was going to pounce at him the very next moment.

Fang Yuan laughed heartily, having an intention to subdue it.

He did not have beast enslavement Immortal Gu, but he could somewhat control this level of desolate beast with other methods.

There was only one beast enslavement Immortal Gu, which was in Lang Ya blessed land. This Gu showed instantaneous effect when enslaving a desolate beast. The desolate beast could be controlled in accordance with one's thoughts; this allowed a supreme showcase of enslavement path.

Fang Yuan did not have beast enslavement Immortal Gu, and naturally other enslavement path Gu Immortals also did not have it. However, the use of Gu depended on the Gu Immortal's creativity, there were all sorts of methods and killer moves that could substitute for beast enslavement Immortal Gu.

For instance, flying bear phantom Gu was a unique method of phantom path in enslaving a desolate beast. Water path, fire path, light path and other paths also had their own respective methods. Otherwise, how could Dong Fang Chang Fan control so many phantom beasts in the battle at Tai Qiu?

Every path was independent of each other, but yet interlinked with each other. Taking references, interacting and competing with other paths created the current Gu Master structure that had all sorts of styles.

Even without the enslavement methods, a desolate beast could be raised from youth to nurture emotional connection and intimacy, and could be made to protect oneself or attack enemies. Immortal Crane Sect's He Feng Yang and the nine palace crane, Little Nine, were a classic example of man and beast developing a close relationship.

Naturally, these methods absolutely could not compare to the effect of beast enslavement Immortal Gu.

Enslavement path was able to be classified as a path, so its enslavement methods were definitely superior to that of other paths.

Fang Yuan and the wolf were locked in a stand-off for a while, the desolate beast shark fin wolf was still restraining itself, not daring to recklessly move because it could sense a threat from the aura Fang Yuan gave off.

Since that was the case, Fang Yuan took the initiative to attack. Two strength path giant hands pressed down upon the shark fin wolf from the left and right.

The desolate beast shark fin wolf howled before taking a slight step back, a layer of glass-like watery armor immediately appeared on its body.

The next moment, it fiercely jumped above Fang Yuan.

Fang Yuan could detect a foul odor assailing his nostrils from the wolf's opened mouth.

Following the odor were countless water bullets that were rapidly being shot out of the shark fin wolf's mouth.

Fang Yuan did not dodge or evade, as he sent out another two strength path giant hands at the shark fin wolf.

The storm of water bullets smashed at the strength path giant hands, but only served to slightly slow them. These water bullets could not even be considered mortal killer moves, naturally they would not be able to compare to an immortal killer move.

At the same time, the previous two strength path giant hands rose up and grabbed the two rear legs of the shark fin wolf before dragging it down.

The pitiful shark fin wolf had just jumped to the air but was dragged down before it could reach Fang Yuan.

Boom. The desolate beast shark fin wolf crashed hard at the ground, and some unlucky ordinary shark fin wolves that could not dodge in time were turned to meat paste by their leader.

The desolate beast shark fin wolf roared in anger and struggled to get up, to pounce at Fang Yuan again, but the next moment, it saw a strength path giant hand getting closer.

The strength path giant hand was powerful, and before it even reached the shark fin wolf, the latter felt difficulty breathing as its heart trembled.

The shark fin wolf wanted to dodge, but its rear legs were firmly grasped by two strength path giant hands. It twisted and turned its body but still could not evade, the strength path giant hand fiercely slammed at its face.

The shark fin wolf howled miserably, its head was slammed to the ground so forcefully that it formed a large crater.

Only after a few long moments, it was able to barely raise its head from the crater.

However, the attack had caused its sight to become blurry, tears and snot flowing down its face.

It shook its head, still not giving up on resisting, but the second strength path giant hand slammed it at this moment.

The shark fin wolf howled miserably again as another large crater formed on the ground. It felt extreme grief and indignation, the enemy was powerful and also shameless, not giving it any time to react.

Fang Yuan sent out another strength path giant hand, a total of five flew around, pressing and beating the desolate beast shark fin wolf to the ground, a cloud of dust rose and the ground cracked.

The wolf group beside the desolate beast shark fin wolf darted around everywhere, howling miserably and shooting out water bullets, but the quantity was so large that the bullets collided against each other partway and destroyed each other. Fang Yuan's build was not big and the number of water bullets that landed on him were very few, they were like light drizzle that could be neglected.

"What sound is this?" Not far away, Half Moon Brutemaster gazed over at the commotion.

His pupils shrunk when he saw how Fang Yuan was mauling the desolate beast shark fin wolf.

He already knew Fang Yuan had rank seven battle strength, but when he personally saw Fang Yuan leisurely beating up a desolate beast, his heart could not help but tremble intensely.

There was simply no suspense, as the desolate beast shark fin wolf did not even have the energy to retaliate.

If Fang Yuan only had rank six battle strength, maybe it could struggle for some time. But with battle strength of a realm higher, the desolate beast shark fin wolf could only take the beating passively.

Especially given that the desolate beasts raised in this blessed land carried no Immortal Gu.

Any Immortal Gu would be taken away by Gu Immortals. Immortal Gu were so precious, how could they let a desolate beast have it?

However, even though the shark fin wolf was beaten until it could not even raise its head, its attitude was still stubborn.

Fang Yuan snorted, deciding to increase the force.

With a shift of his mind, four strength path giant hands separately grabbed the shark fin wolf's front legs and hind legs, then lifted it into the air.

The desolate beast shark fin wolf had been beaten into a horrid sight, its whole body was spread out in an ungainly way, while its four limbs were constantly emitting sounds of fractures from the ruthless grasps of the four strength path giant hands.

The remaining strength path giant hand started to rain slaps on the shark fin wolf's cheeks.

Crack crack crack!

The wolf's large head swung to the left and right from the repeated slaps of the hand.

The wolf group below howled more miserably and loudly. Most of the wolf group had already collapsed while some at the periphery were already starting to flee.

"This is truly hanging it up and beating to a pulp!" Cold sweat was already seeping out of Half Moon Brutemaster's shiny forehead at this sight.

Fang Yuan's viciousness and strength terrified him.

The desolate beast shark fin wolf was almost pounded into a slurry, even the sounds of its wails changed. However, it still opened its eyes with difficulty, and its gaze still carried extreme stubbornness and bone-deep hatred.

Wolves were beasts that deeply bore grudges.

"Still not submitting?" Fang Yuan also felt somewhat of a headache, submitting to the strong was a wild beast's survival instinct. According to conventional reasoning, the desolate beast shark fin wolf should have already submitted in front of such a massive difference in strength.

Fang Yuan carefully observed and made a discovery.

“So this shark fin wolf has gone into heat and this time period is when its alpha male characteristics are at its strongest, no wonder it is stubborn.”

He suddenly had an eccentric idea.

Under Fang Yuan’s control, the strength path giant hand changed again.

The middle finger of the giant hand bent and touched the thumb.

From afar, Half Moon Brutemaster looked on as this strength path giant hand slowly moved down to between the shark fin wolf’s two rear legs.

Suddenly, the thumb slightly relaxed and the middle finger flicked.

It very accurately struck this male wolf’s penis!

“Awoooo—!” The desolate beast shark fin wolf shook fiercely, like it had been electrocuted. Its eyes seemed to be opened until almost falling out, as it howled to the sky, its voice filled with boundless pain.

Flick flick flick!

“Wooo, woooo, awoooo—!” The shark fin wolf howled in an increasingly loud voice.

Half Moon Brutemaster watched this with his mouth and eyes wide open.

“Thi..thi..this...” He stammered, unable to say a word.

He understood Fang Yuan was trying to force the desolate beast shark fin wolf to submit, but this method was simply unheard of!

In that instant, Fang Yuan’s image underwent a huge change in Half Moon Brutemaster’s mind.

Fang Yuan’s entire body was clothed in a black robe, with his appearance hidden. But outsiders could naturally try to make guesses on his appearance.

Half Moon Brutemaster had imagined Fang Yuan to have a fierce and cruel appearance, with a burly and thickly built body, his protruding eyes shooting out a fierce gaze that seemed to want to find people to devour.

Now, however, this figure underwent a transformation.

The image of a robust warrior was no more, the burly build had turned into one with broad shoulders and a thin waist, the gaze was sinister, the teeth were dense and sharp, and there was a trace of perversion.

The desolate beast shark fin wolf’s mental defenses were finally broken, and it fully submitted.

The strength path giant hands loosened their grasp, and it collapsed to the ground, motionless. Its enormous, aesthetically beautiful body was now bent like a large shrimp, its two front claws were grabbing between its two rear legs as it whimpered weakly, like a weak little flower that could be in dire straits from slight wind and rain.

Fang Yuan mumbled while chuckling: “This is a good method.”

He then turned to look at the distant Half Moon Brutemaster.

He had naturally already discovered the latter's stealthy glances.

Half Moon Brutemaster could not see Fang Yuan's true appearance, but he felt Fang Yuan's gaze was firm, like a giant snake that was coiling around his body. The dark, cold and slippery snake scales tightly held on to his warm body.

Half Moon Brutemaster shivered as he felt an ominous chill emerging from the depths of his heart. In particular, the region between his legs seemed to feel a bit more cold.

"This person is exceedingly savage and absolutely not someone I can deal with. I have to avoid him when I see him in the future! Sigh, the world is difficult, life is not easy." Half Moon Brutemaster swallowed his saliva and rapidly flew away, going as far as to resemble someone fleeing.

Chapter 798: Extorting Regretful Spiders

After Fang Yuan subdued the desolate beast shark fin wolf, he placed it in his immortal aperture.

This shark fin wolf's mental defenses had already collapsed and it had fallen unconscious soon afterwards, unable to keep its shark fin wolf subordinates under control anymore.

Fang Yuan could do nothing other than to let these ordinary shark fin wolves flee in all directions.

He did not feel it was much of a pity, capturing a desolate beast shark fin wolf alive was already a plentiful harvest.

He continued to search pools but he only found common resources and although the quantities were huge, there was nothing noteworthy.

Dong Fang tribe's base camp was sure to have many good things. But there were innumerable pools while Fang Yuan's scouting range was not very far, add in the other competing demonic path Gu Immortals, the amount of resources he could plunder would depend on luck.

Not long later, good luck arrived once again for him.

He was looking at a deep pool.

What this very deep pool accumulated was not water, but fire.

The fire was raging wildly inside. This was a special fire pool.

Fang Yuan used several investigative methods in succession and discovered a group of python beasts living in this pool.

Fang Yuan found out their identities and discovered they were eerie fire dragon pythons.

A mature eerie fire dragon python was enormous, reaching close to a hundred meters long and with a body as thick as a tower.

The eerie fire dragon python had scarlet scales, a sharp horn on its head and a pair of blood-red eyes. Its tongue was a strange purple, and when it flicked its tongue, one could see an eerie blue fire coiling around its tongue.

This was a snake nest.

Although there was no desolate beast level eerie fire dragon python inside, the quantity of the normal eerie fire dragon pythons was extremely high. The pythons were piled up on top of each other, squirming and moving around, creating a horrifying spectacle.

Fang Yuan, however, felt excitement, all parts of the eerie fire dragon python had value. For instance, its blood was the best food for some blood path Gu worms, its skin, tendons and other parts were top-class materials for refining a lot of Gu worms. In particular, the eerie fire dragon python's gallbladder was extremely precious, and there was a market for it in treasure yellow heaven.

"Eerie fire dragon pythons normally live in the form of small families. I wonder what method Dong Fang tribe used to make so many eerie fire dragon pythons live together. This method might not be too complicated, but is quite effective and gives an extreme increase to the reproductive rate of eerie fire dragon pythons."

Fang Yuan was able to discern some details of the method.

Speaking of which, he had obtained a few eerie fire dragon python eggs back at Imperial Court blessed land. Now, the eggs had already successfully hatched, the young eerie fire dragon pythons were living in Hu Immortal blessed land, but Fang Yuan had been neglecting them as their quantity was extremely few.

If he could obtain this large group of eerie fire dragon pythons and raise them in Hu Immortal blessed land, he would have a continuous supply of eerie fire dragon python gallbladders in the future, which could be sold in treasure yellow heaven and be a small source of income.

Though Fang Yuan was involved in the large business of guts Gu, but a quick calculation told him the profits from selling eerie fire dragon python gallbladders was also somewhat lucrative.

Taking action was better than thinking, Fang Yuan immediately grabbed with his strength path giant hands.

He could not control his strength properly, squeezing many eerie fire dragon pythons to death. After all, changes in this move's form specialized in forceful grabbing, and were rather lacking in the aspect of fine control.

He grabbed dozens, but there were still many eerie fire dragon python in the pool. He gradually started to become impatient.

He lacked effective methods to gather the pythons, thus could only act rashly. However, he had limited time now. Fang Yuan grabbed a large portion in the end, reaching up to a number of ten thousand before he resolutely stopped and left this fire pool.

He continued to plunder resources as he traveled, and occasionally saw many mortal Gu Masters.

Some of these Gu Masters were fleeing in panic along the areas between the pools, while some concealed themselves, hiding under the ground, under boulders and so on.

As Fang Yuan grandly soared away, these Gu Masters regained their senses from the horror.

Some hiding Gu Masters were still thinking they were able to hide, but were actually already discovered by Fang Yuan, it was just that he had no intention to attack them.

When Pi Shui Han and the others attacked the blessed land, they had created a huge commotion which had already startled the Dong Fang tribe members in Jade Pool blessed land.

In the five regions, the vast majority of mortals would not have a chance to come across Gu Immortals in their entire lives.

In comparison to this enormous population, the number of Gu Immortals was extremely few, only a fraction of a fraction.

At the same time, Gu Immortals also were concerned with their own survival pressures, busy handling such matters day in and day out, generally without the time to be make themselves carefree and at leisure.

In regards to most people, Gu Immortals were simply vague figures of legend. But the mortals in Jade Pool blessed land were Dong Fang tribe's core, they knew many inside details.

Thus, they were even more aware of the difference between immortal and mortals, the gap that was like a chasm between heaven and earth.

They did not think of putting up any meaningless resistance and ran for their lives, while urgently contacting the Gu Immortals of Dong Fang tribe.

This was undoubtedly a wise move.

Fang Yuan and these demonic path Gu Immortals were people who heavily prioritized benefits, and were disinclined to attack these mortals. Thus, these mortals were actually more fortunate than the desolate beasts, they were able to survive during this disaster.

Fang Yuan flew past pools after pools.

As time passed, he started to feel increasing urgency, and started abandoning some common resources.

These resources were not precious and were readily available.

At the same time, Fang Yuan maintained his vigilance, in accordance with Dong Fang Chang Fan's farsighted nature, it was impossible for him to not make some arrangements in Jade Pool blessed land.

As he gradually flew into the distance, Fang Yuan suddenly saw deep pools without any water.

These pools were completely dried up. There were a lot of them, about fifty to sixty, closely connected, and covering a range in tens of li.

Fang Yuan was inwardly moved as he took a sharp turn, rapidly approaching these pools.

"I discovered these pools first, the regretful spiders inside are mine!"

"Aren't you a bit too greedy? You have already gathered so many regretful spiders, and the regretful spiders here have bred over such a huge range, and you want to take it all for yourself?!"

As Fang Yuan flew closer, he discovered two demonic path Gu Immortals, at the edge of a pool, arguing about who the pools should belong to. The atmosphere was tense and serious.

When they saw Fang Yuan fly over, the two Gu Immortals paled and quickly stopped their argument, instead standing side by side.

“Senior, please excuse us but the regretful spiders here were discovered by us brothers. According to the rules, hehe...” One Gu Immortal started speaking with a nervous and vigilant expression.

“I’ve heard some news saying there was a pool to the northwest where many large groups of air bubble fish are living inside. Several Gu Immortals were fighting to get it.” The other Gu Immortal attempted to redirect this disaster.

Fang Yuan laughed sinisterly: “Do you mean that I should leave?”

The moment he finished speaking, two strength path giant hands flew out and hovered on either side of him.

A stance that showed he was eager to make some trouble.

The two demonic path Gu Immortals paled upon seeing this, while inwardly complaining incessantly at their misfortune.

They had personally seen Fang Yuan’s might not long ago, even Pi Shui Han was not able to gain the upper hand.

Moreover, these two were only at the bottom tier of rank six, the consequences would be extremely bad if a conflict occurred with a powerful expert like Fang Yuan.

But the resources around them were truly at a large scale.

As the saying goes, ‘humans die for wealth and birds die for food!’

One demonic path Gu Immortal finally summoned up courage: “Senior, we discovered these resources first, this is an indisputable fact. When you set the rules with Lord Pi Shui Han, we were also present.”

“Hmph, our demonic path has always been about running and rampaging freely, what rules?! Talking about rules for everything, why don’t you just join the righteous path? What’s more, what status do you have? Only Pi Shui Han has the qualifications to speak about some rules with me.” Fang Yuan had a fierce demeanor, the two strength path giant hands continued to slowly advance as he openly flaunted his prowess.

The two demonic path Gu Immortals no longer dared to speak, but were still reluctant to leave.

The other demonic path Gu Immortal seemed to have firmed his resolve, as he suddenly spoke: “Senior, these regretful spiders have great use to me and I had been searching for them painstakingly. How about I use information of equal value in exchange for them?”

“Hmm? What information?” Fang Yuan stopped moving the strength path giant hands.

“This information concerns Miniscule Mountain.” The demonic path Gu Immortal spoke directly.

“Miniscule Mountain, hahaha!” Fang Yuan raised his head and laughed heartily before speaking in a threatening tone, “Good, I will exchange it with you, but I really hope your information is true, otherwise....”

“True, it is definitely true. I came from that direction but with my cultivation, I am unable to break through, thus I retreated. But to senior, it would be like it was simply meant for you.” As he said this, the demonic path Gu Immortal secretly transmitted information containing the precise details to Fang Yuan.

Fang Yuan’s eyes squinted to a crack as he heard the information, and said leisurely: “Good, I will keep this information in mind for now, but whether it is true still needs to be checked. Hand over the regretful spiders you’ve just gathered.”

“Senior, you!” The demonic path Gu Immortal’s eyes widened, his face flushed red with anger.

Fang Yuan smiled malevolently, speaking as if this was how things should be: “How do I know whether your information is true or false, what if it is false? These regretful spiders are a guarantee. Don’t worry, I only want this much, you can take the rest.”

“Senior, you are asking for twenty percent of the total regretful spiders!” The demonic path Gu Immortal gritted his teeth in anger, but did not dare to fight.

The other demonic path Gu Immortal was standing at the side, laughing inwardly.

He would definitely work together with the extorted demonic path Gu Immortal and resist Fang Yuan if Fang Yuan asked for the regretful spiders in the pool. But what Fang Yuan wanted was the portion that had already been gathered, which was a different matter.

The group of regretful spiders stored in the immortal aperture were like crops that had been harvested, it was difficult to return them and they belonged to the Gu Immortal themselves.

The spectating demonic path Gu Immortal’s benefits were not encroached by Fang Yuan, and was thus feeling pleasure at the other Gu Immortal’s misfortune.

The extorted demonic path Gu Immortal felt his heart sinking and turning cold when the Gu Immortal beside him showed no signs of moving.

How painful was it to hand over the crops that had already been harvested.

“Alright, hand them over quickly. I still need to hurry along, time is pressing.” Fang Yuan impatiently urged.

“Senior, if you renege on your promise, then wouldn’t I be....” The extorted demonic path Gu Immortal squeezed out words from clenched teeth.

“What?! Do you actually think I am such a shameless person? I am your senior, why would I cheat you juniors?!” Fang Yuan replied with an extremely displeased tone, and at the same time, sent out another two strength path giant hands.

Chapter 799: Knowing When to Retreat and Advance, A True Champion

A total of four strength path giant hands hovered in the air.

The two demonic path Gu Immortals involuntarily stepped back, the mental pressure Fang Yuan gave them was too huge.

They were the weaker party, what else could they do?

The extorted demonic path Gu Immortal's expression kept fluctuating before finally turning into one of subservience, as he handed over the regretful spiders he gathered to Fang Yuan.

Fang Yuan did not linger around after he received them, and quickly left.

The two demonic path Gu Immortals immediately let out breaths of relief.

The extorted Gu Immortal showed an indignant look as he cursed while gazing at the gradually receding figure of Fang Yuan: "Old demon, I hope you die there!"

"Stop shouting, how can you be sure he doesn't have methods to hear us? Be careful of him coming back to find trouble with us." The other demonic path Gu Immortal quickly attempted to stop the extorted Gu Immortal.

The two glanced at each other, both were stupefied for a moment before they suddenly reacted, creating some distance between each other.

The next moment, an intense competition started, the two used all their strength and silently plundered the regretful spiders in the pool.

"Miniscule Mountain, captivating sea...?" Fang Yuan rapidly approached the location in the information.

He had originally not planned to gather regretful spiders, because he lacked methods to gather them.

Regretful spiders were not of great value to him and he had already planned to let them go. Who would have thought that with some extortion, he could not only save time in obtaining a large batch of regretful spiders immediately, but also obtain important information.

Fang Yuan pondered and felt this information was rather reliable.

Miniman was a type of variant human.

Miniscule Mountain was the paradise of minimen, it was their foundation. This was recorded in <<The Legends of Ren Zu>>.

Minimen usually were the size of a finger, and had thin and transparent wings behind them. They survived on nectar from flowers or sap from vegetation.

Every variant human had a special ability that was stronger than humans. For instance, hairy men were proficient in Gu refinement, rockmen lived underground, skilled in mining, and all sorts of ores grew on their body. snowmen were cold-resistant, inkmen had rich knowledge....

Minimen were proficient in growing plants and trees, in the areas they lived in, vegetation was extremely lush, and flowers bloomed throughout the year.

“More importantly, Miniscule Mountain might be small but it is a genuine mountain and needs large amounts of earth qi to stabilize its mountainous form. It is an extremely huge burden to put such a legendary mountain within one’s immortal aperture. Gu Immortals cannot casually take them, moreover this Miniscule Mountain is not the private possession of any Gu Immortal of Dong Fang tribe.”

A Gu Immortal’s immortal aperture, hidden in their body, had limited amounts of heaven and earth qi. If Miniscule Mountain was placed for a long time in such an immortal aperture, a lot of earth qi would be absorbed to maintain this legendary mountain, causing an imbalance in heaven and earth qi within the immortal aperture.

Thus, Miniscule Mountain was placed in Jade Pool blessed land most of the time.

The reason?

It was because Jade Pool blessed land was placed on the ground outside in Northern Plains. It would constantly absorb the endless heaven and earth qi of the outside world, so there was no need to fear the burden of Miniscule Mountain.

Fang Yuan’s Dang Hun mountain was also in a similar situation.

Dang Hun mountain needed to absorb earth qi, otherwise it would collapse. Fortunately, Hu Immortal blessed land was placed on Tian Ti mountain from where it constantly absorbed heaven and earth qi, thus there was no need to fear the consumption of Dang Hun mountain.

If it was placed in Fairy Li Shan or Hei Lou Lan’s immortal apertures, if they moved around for a long time, they would not be able to bear the consumption even if they were rank eight Gu Immortals, and would need to place their immortal apertures in the outside world to absorb heaven and earth qi, and stabilize their immortal aperture world.

Next to a seemingly ordinary deep pool.

“Fang Yuan?”

“Why is he here?”

Fairy Li Shan and Hei Lou Lan, who were concealed, detected Fang Yuan’s presence.

Both of them had secretly agreed to look for Thatched Hut. Thatched Hut was no longer at its original position, but the two still had a great harvest — at that location, they found a group of underworld eels!

Afterwards, they looked around everywhere and finally found traces of Miniscule Mountain.

However, when they arrived at this place, they were obstructed and thereby in a dilemma. The two were discussing what to do when Fang Yuan appeared in their detection range.

Fairy Li Shan still had some hope as she said to Hei Lou Lan: “Fang Yuan does not have strong investigative methods, our concealment methods are immortal killer moves, as long as we don’t show ourselves, he certainly won’t be able to detect us. Maybe he is only passing by.”

Hei Lou Lan had suffered great losses from Fang Yuan, frowning as she had a bad premonition: “Sigh, we absolutely cannot underestimate this guy.”

Sure enough, the next moment, Fang Yuan slowly landed from the air and quickly neared them, his target was the pool they were in.

Fairy Li Shan's expression sank as her wishful thinking did not materialize.

Fang Yuan had arrived at the place provided in the information.

This deep pool in front of him looked extremely ordinary and unremarkable.

But Fang Yuan still had some expectations.

According to that demonic path Gu Immortal's words, this was an illusory land. Inside were illusory peach trees which could add up to be of similar strength to desolate beasts, and could create illusions to protect themselves.

A Gu Immortal could only infer some clues when they walked inside.

Fang Yuan raised his defenses, and was just about to step in when two figures suddenly appeared not far away.

"Fang Yuan, wait a moment." Fairy Li Shan transmitted her voice.

Hei Lou Lan stood silently at the side.

"Oh, it's you two!" Fang Yuan's eyes flashed, as he spoke with a slight smile.

His tone carried a touch of ridicule; as an ally, they had not informed him of such a huge clue, clearly they had thought of hogging the benefits for themselves.

In the end, he came across them unintentionally.

Hei Lou Lan was a formidable person and spoke with no awkwardness or embarrassment: "Fang Yuan, you came at the right time, we were just worrying over how to break into this place."

Fairy Li Shan was a veteran Gu Immortal and was also unabashed, continuing: "Right. This place is called captivating sea and is a restricted region of Jade Pool blessed land. It mainly consists of a forest of illusory peach trees, there are many peach trees, and the illusion is extremely powerful. Under the trees are a sea of grasses and flowers. The large patches of groundmat grass are like endless green carpets. The sea of colorful flowers gives off a deep fragrance, and tens of thousands of poisonous purple heart flowers are close to blooming."

"Hmm?" Fang Yuan's gaze slightly focused.

That demonic path Gu Immortal had malicious intentions, he had only said that there were illusory peach trees but did not mention their numbers. As for groundmat grass, and purple poisonous heart flowers, he did not even bring them up.

Groundmat grass was ordinary, but with such numbers, there was bound to be groundmat grass Gu. This wood path Gu only had one effect which was to instantly send living beings into sleep.

Poisonous purple heart flowers often created a poison heart Gu. This Gu was formless and colorless, and gave a wisp of fragrance that could make one feel drunk, but corroded their heart.

However, these were only minor inconveniences as far as Fang Yuan was concerned.

Fang Yuan did not cultivate poison path and also did not have strength path methods that could defend against poison, but he had an immortal zombie body, which was extremely resistant to poison. He also had a poison path Immortal Gu, Woman's Heart.

Fairy Li Shan saw Fang Yuan was listening carefully but completely indifferent, and continued: "The things I have mentioned might be in high numbers, but they are only small problems to us Gu Immortals. In fact, a group of peach wolves dwell in the illusory peach tree forest, with numbers close to thirty. Moreover, this captivating sea is actually a Gu formation and in the depths of it lies Miniscule Mountain. Miniscule Mountain has Gu Immortals guarding it, their auras are uncertain and the numbers are also not clear."

Fang Yuan's expression changed.

Peach wolves were a desolate beast, comparable to rank six Gu Immortals. A group of peach wolves was like a group of Gu Immortals in strength.

Miniscule Mountain was the home of minimen, the Gu Immortals in it were probably miniman Gu Immortals, and regardless of how many there were, even one would be troublesome to deal with.

Desolate beasts had low wisdom, but variant human Gu Immortals had wisdom that could reach a similar level to human Gu Immortals.

Having wisdom and lacking it were two completely different levels of threats.

Fang Yuan suddenly realized why these two were hiding at the periphery.

He sized the two up again, and with his experience, he immediately discovered signs of bitter fights on Fairy Li Shan and Hei Lou Lan's bodies, although they had tried to treat them as much as possible.

"Fairy Li Shan is a wood path Gu Immortal, there is no doubt that Miniscule Mountain and minimen are extremely attractive to her. In an environment like captivating sea, Fairy Li Shan's battle strength should surpass her normal state. They broke through to the depths of the sea of flowers, but were still forced back. Captivating sea's defense greatly surpasses what were my most hopeful estimations."

Fang Yuan did not speak but his shrewd mind was thinking rapidly and inferring many facts from their behaviors.

"Fang Yuan, if you move alone, your gains will be extremely low. We took advantage of the other party's carelessness and quietly sneaked in through the gaps in the peach wolf group. Now that Miniscule Mountain has been alerted, the defenses are sure to be tight. As long as we cooperate sincerely, we might be able to swallow this juicy meat." Hei Lou Lan persuaded.

Fairy Li Shan also added: "Fang Yuan, I know you have the strength path Immortal Gu, Pulling Mountain. We can cooperate, but I must have Miniscule Mountain, you don't need to worry, though, I will be sure to give you a satisfying reward."

Fang Yuan did not immediately reply, instead lowering his head to think it over.

Several breaths of time later, he slowly shook his head and broke the silence, smiling bitterly: "Under this juicy meat is a very hard bone. Miniscule Mountain is excellent, but time is limited, I don't want to spend it all here. I advise you two to dispel unrealistic thoughts, there are still many resources outside which are much easier to take, why make an unnecessary risk?"

"What? Fang Yuan, you are actually thinking of backing out?" Fairy Li Shan could not believe her ears.

Hei Lou Lan frowned, persuading: "Fang Yuan, we have discovered Miniscule Mountain, it could be said to be a rare chance. If you miss this opportunity, you might regret it later on."

Fang Yuan's stance was firm: "The defense is tight, the key thing is that there are Gu Immortals guarding it, as well as a group of peach wolves. Even if all the demonic path Gu Immortals in this blessed land gather together, it would take time to break through this place. Would Dong Fang Chang Fan give us this time? Even if Dong Fang Chang Fan is hindered, what about the other demonic path Gu Immortals?"

Fairy Li Shan took a step forward: "Fang Yuan, I admit that what you say is reasonable, but this is Miniscule Mountain we are talking of, its value might even be higher than the rest of Jade Pool blessed land!"

"Hahaha, fairy, you don't need to persuade me. I will take my leave!" Fang Yuan laughed loudly before flying away directly.

The two fairies still did not dare to believe what they were seeing and were even hesitating: "Fang Yuan should not be messing around and deceiving us in order to wait for an opportune moment to meddle in and get benefits cheaply, right?"

"That's not possible. We have formed the Snowy Mountain Alliance, he has to either remain silent or speak the truth."

For a moment, as they gazed at Fang Yuan's figure receding into the horizon, the two women had strange expressions.

Chapter 800: Three Fish Groups, Great Harvest

Plop!

The desolate beast dragonfish crashed into the water, creating a huge wave that was several meters tall.

Fang Yuan was cloaked in a black robe, he had his face hidden as he stood in the air, there were six strength path giant hands circling around his body.

The desolate beast dragonfish screamed, entering the water, and did not want to fight Fang Yuan anymore, it swam into the deeper parts of the water.

Fang Yuan laughed heartily: "Do you think that by hiding underwater, I can do nothing to you? Immortal Gu Pulling Water!"

Fang Yuan's body shuddered, he stretched out his left and right hands as he slowly grabbed at the deep pool, that was as wide as a lake, from afar.

A formless power held up the lake water, it was as if a thick cloth under the water was being pulled up.

Thick columns of flowing water had countless ordinary dragonfish in them, as they poured into Fang Yuan's immortal aperture.

After Fang Yuan said goodbye to Hei Lou Lan and Fairy Li Shan, he did not spend much time before he found this deep pool.

This deep pool was the one with the most water that he had seen so far, it was like a large lake. Dong Fang tribe had specially created it and raised nine hundred thousand dragonfish inside it, among them was a desolate beast dragonfish.

Fang Yuan was in an eager mood, he went ahead and took them for himself. The desolate beast dragonfish went ahead and fought him, in the end, Fang Yuan used several strength path giant hands and easily defeated it.

Even though the dragonfish had 'dragon' in its name, it was very mediocre in fighting. Moreover, this dragonfish may have been a desolate beast, but it had no Immortal Gu, it was almost at the bottom tier of desolate beasts.

But the meat of the dragonfish was a food ingredient with a wide range of applications. Not only could wild beasts and variant humans eat them, they could also be used as supplementary ingredients and fed to Gu worms.

In treasure yellow heaven, the business of dragonfish meat had long since been flourishing, each transaction was a huge sum of profits.

"So many dragonfish, this pool of dragonfish was probably accumulated over a hundred years by Dong Fang tribe. But now, this is all mine, hahaha." Fang Yuan felt joyful, he continued to activate pulling water Immortal Gu without pausing.

Thankfully, he had pulling water Immortal Gu, otherwise, he would have no way to collect such a valuable and huge amount of resources.

Boom boom boom...

Far away, the fighting of Gu Immortals could be heard.

Fang Yuan collected the dragonfish as he looked around, his gaze was deep as he thought: "It seems that over at Hei Lou Lan's side, they are starting to attack captivating sea already."

He did not regret the decision to give up on Miniscule Mountain.

In this world, things were easier said than done. Theories were easy to understand, but when it came to execution, how many people could succeed?

Thus, in front of huge profits, it was hard to decide what to give up and what to pursue.

Especially when Miniscule Mountain had huge value to Fairy Li Shan personally!

Although Fairy Li Shan's vital Gu was mountain pledge Gu and she was an information path Gu Immortal, when she fought, most of her methods were wood path techniques. Since she also cultivated wood path, her immortal aperture probably mostly involved growing flowers and plants as her revenue.

> had recorded the details, it made Miniscule Mountain even more attractive.

But how could it be so easy to take away Miniscule Mountain? It was simply too difficult, there was little hope.

Since that demonic path Gu Immortal gave this information to Fang Yuan so easily, he was likely to also tell others. Or perhaps, there were already Gu Immortals who knew long ago.

Attacking the restricted area, captivating sea, would create a huge commotion, how could they hide it from people like Pi Shui Han?

Even though more people meant a greater force to strike with, the demonic path Gu Immortals handled matters individually, Fang Yuan was well aware of their natures. Earlier, during the battle at Tai Qiu, if not for the demonic path Gu Immortals fighting among themselves, how could Dong Fang Chang Fan have succeeded in his possession so easily?

Thus, there was essentially very little hope in obtaining Miniscule Mountain. Did Fairy Li Shan and Hei Lou Lan not know that the chances were slim?

It was because this profit was too huge, the Gu Immortals were extremely moved, even if there was just a trace of hope, they would desperately latch onto it!

A loud dragon roar interrupted Fang Yuan's thoughts.

The huge dragonfish jumped out of the water, its eyes were blood-red as it charged towards Fang Yuan.

Fang Yuan had expected this, he slammed down with four strength path giant hands.

The method in which he was extracting the deep pool water was extremely efficient, he just needed a small amount of time to drain the pool dry. Thus, the dragonfish was already a cornered animal, if it did not attack now, it would be too late.

But facing Fang Yuan, who had rank seven battle strength, the dragonfish's final struggle quickly met with a huge setback, it ended up heavily injured.

More than ten breaths of time later, the heavily injured desolate beast dragonfish was sent into Fang Yuan's immortal aperture using the strength path giant hands.

After spending some more effort, this huge and deep pool was nearly dried out, all of the dragonfish inside were collected into his aperture.

In order to take these dragonfish, he spent a total of four green grape immortal essences beads, but Fang Yuan had great joy in his eyes.

Ever since he entered Jade Pool blessed land, he obtained the oil water, desolate beast shark fin wolf, eerie fire dragon python, some ordinary resources, and a batch of regretful spiders.

In terms of value, this newly obtained dragonfish group was at the top, it was more valuable than the desolate beast shark fin wolf, which was second place by a small margin.

This batch of dragonfish was too large, there was almost a million of them.

With such a deep foundation, as long as he spent some effort in nurturing them, it would be a source of endless revenue.

Over on Hei Lou Lan's end, intense battles were still ongoing, Fang Yuan did not turn around, he flew towards an area even further away.

Not long after, he stopped in his tracks and was overjoyed to see the dense forest below him.

The forest spanned an enormous range, at the center of the forest, there was a pool of water that covered an area of the size of a house.

The entire forest was planted for the sake of this pool.

Or more accurately speaking, it was because this pool was raising a group of peculiar fish — literature carps.

"Literature carps and true martial carps are known as the literature and martial twin carps, to think that in Dong Fang tribe, they had over ten literature carps!" Fang Yuan quickly went down with great excitement.

Literature carps were very hard to catch, they were low in numbers, even in Eastern Sea, they were very uncommon.

Literature carps usually remained still in water, moving along with the flow of water. Once they moved their tails, and swam slowly, their entire bodies would turn into text qi, even Gu Immortals, without specific methods, could not capture them, they could only watch in vain.

When Fang Yuan came here, the literature carps were alarmed, they turned into text qi as they moved around, pervading the water.

Fang Yuan's lips curled into a confident smile, his pulling water Immortal Gu could control the flow of water. As long as the literature carps did not leave the pool, to him, they were as good as caught.

But when he was about to make his move, a demonic path Gu Immortal appeared, rising into the air.

"Senior, please wait, this resource point has already been occupied by me." This demonic path Gu Immortal was thin, he smiled as he said that, he was only rank six, but he had no fear when facing Fang Yuan.

"Who are you?" Fang Yuan's expression did not change.

"This junior is Zhou Ping." The demonic path Gu Immortal cupped his fists.

Fang Yuan laughed sinisterly, threatening: "Junior Zhou Ping, you have guts, daring to get in my way. With your cultivation level, you are not fit to talk about rules with me."

The demonic path Gu Immortal, Zhou Ping, instead smiled: "No, no, I am naturally unable to defeat senior. But I have some insights in flying, I have two immortal killer moves. Even Unfettered Scholar, Hei Cheng, and Fairy Le Yao cannot catch me. If senior wants the literature carps, you can trade with me. Otherwise, even though I cannot defeat senior, I can destroy this pool in an instant."

Fang Yuan was silent, his eyes shined with a ruthless light as he observed Zhou Ping.

Zhou Ping was unmoved, he was calm and composed due to his trump card.

This was the advantage of a Gu Immortal skilled in movement, they are often in a situation where they cannot lose, they can talk to opponents with higher cultivation level or battle strength with ease.

Even though Fang Yuan had the killer move myriad self, he was lacking in the aspect of movement. Even with iron crown eagle strength Immortal Gu, together with true solid bat wings, that was not an immortal killer move, it was inferior to Zhou Ping's methods.

"Very good, Zhou Ping, I will remember you. I wish you well in constantly guarding this place, and to not fall into my hands from now on." Fang Yuan left behind a threat as he left.

Zhou Ping heard this and his smile disappeared, he changed his tone: "Senior, is this necessary? This junior only wants a transaction. My request is not much either..."

But Fang Yuan did not listen to Zhou Ping, his body was like lightning as he quickly traveled elsewhere.

Zhou Ping frowned, he felt a little distraught, pointlessly offending a strong and mysterious Gu Immortal, he felt very uneasy.

Most importantly, Fang Yuan's words were attacking Zhou Ping's weakness —

He could not stay here forever to look after the literature carps.

"Damn it, I do not have a method to collect this group of literature carps!" Zhou Ping looked at the deep pool as he stamped his foot, extremely downcast.

Fang Yuan left Zhou Ping behind and flew rapidly towards his next destination.

After flying a huge distance, he landed, looking at the deep pool below him, he had a joyous expression.

This deep pool was neither large nor small, there was a fish group inside.

This type of fish was similar to goldfish, it had a round belly, a small pointed head, and a tail. However, it was not brightly colored like goldfish and was mostly milky white. It also did not have a wavy tail and fins, its tail was small and exquisite.

When the fish moved, they did not go left, right, forwards or backwards, they only floated upwards and downwards, they resembled balloons moving in the water.

This type of fish was something Fang Yuan had raised before, it was air bubble fish.

But because Fang Yuan ran into difficulties, and was lacking in funds, he had to sell the air bubble fish group that he was raising for a while, to get the funds he desperately needed.

Air bubble fish could eat ordinary worms, insects, grubs and so on, digesting a portion of them while storing the rest as reserves in their stomach.

These life forms in the stomach were nourished and had an increased chance to become a Gu.

Thus, air bubble fish could increase the production of Gu worms. During the five regions chaotic war, it was a heavily sought after good among Gu Immortals.

“This air bubble fish group has quite a large size, in terms of the price in treasure yellow heaven, it is half of the desolate beast shark fin wolf!” Fang Yuan inspected, when he saw that there was no Gu Immortal like Zhou Ping appearing, he immediately made his move and used pulling water Immortal Gu to take all of the air bubble fish.

This air bubble fish group was the third in value among Fang Yuan’s profits.

“You band of thieves! Brazenly robbing my Dong Fang tribe’s headquarters!!” At this time, Dong Fang Chang Fan’s furious screams could be heard over the entirety of Jade Pool blessed land.

Unfettered Scholar burst out and shouted, immediately screaming: “Old thief Dong Fang, get ready to lose your dog life!!”
