

King Hall 1201

Chapter 1201: Supreme Sect Leader's Exclusive! Everyone's Confusion!

"What the hell?!"

Mu Hongchen looked away from the Purple Gold Divine Thunder Hammer with a vacant expression, glanced at Mu Jinyu with a resentful look, and said unhappily, "You give me such a big hammer, how am I supposed to use it? Or are you saying you see Aunt Mu as a violent woman?"

Mu Jinyu said aggrievedly, "But I don't have many Heaven-reaching spiritual treasures, only this one can be given away. Otherwise, look at these spiritual treasures, do you like any of them?"

He secretly complained in his heart that he should have asked his master to prepare a few more Heaven-reaching spiritual treasures for him, but that old man just refused. Those treasures were of no use to him anyway. Seriously...

As he spoke, he took out some superior and top-grade spiritual treasures and displayed them in front of Mu Hongchen, allowing her to choose.

Seeing a dazzling array of various spiritual treasures, Mu Hongchen also felt a bit overwhelmed.

If there weren't the Heaven-reaching spiritual treasure as a benchmark, she would have thought these spiritual treasures were excellent. But after experiencing the spiritual charm of the Heaven-reaching spiritual treasure, she couldn't help but feel that although these spiritual treasures seemed not much different from the Purple Gold Divine Thunder Hammer, in reality, the gap was very obvious.

The purple gold hammer looked clumsy but seemed alive, very appealing, while these delicate and small spiritual treasures seemed lifeless, lacking the spiritual nature of the Purple Lightning Hammer.

"Is there a difference?" Mu Hongchen furrowed her brows and asked Mu Jinyu curiously.

"I feel like the difference is quite obvious; the purple hammer and the treasures we have on hand seem very spiritual..."

Xu Qingya looked at the Purple Lightning Hammer, then at her Five Beasts Spirit Fan, and finally frowned at those superior spiritual treasures, muttering.

Mu Jinyu explained, "What I gave you, as well as this Purple Lightning Divine Hammer, are all Heaven-reaching spiritual treasures with artifact spirits..."

Pointing to those superior spiritual treasures, he continued, "And these spiritual treasures do not have artifact spirits!"

Upon hearing Mu Jinyu's explanation, everyone suddenly realized.

Initially, they didn't know the difference between Heaven-reaching spiritual treasures and spiritual treasures, but now they understood that the difference between having an artifact spirit and not having one was significant, probably larger than the difference between a big brick phone and a smartphone!

Mu Hongchen realized that Mu Jinyu was trying to give her something good, but...

She looked at the heavy purple gold hammer and felt a sense of helplessness.

Wen Rou, not wanting Mu Jinyu to feel troubled, took out her Eight Desolations Cauldron and handed it to Mu Hongchen, saying, "Aunt Mu, here, take mine..."

"No, no, no..." Mu Hongchen snapped out of it and saw Wen Rou's sincere expression. She quickly shook her head, "How could I take your stuff? I was just joking with the Dragon Master. Actually, I quite like this hammer..."

As she spoke, she stepped forward, raised her hand to grasp the hammer handle, and struggled to lift it.

With significant effort, Mu Hongchen finally managed to lift the Purple Gold Divine Thunder Hammer, but her wobbling legs and trembling arms clearly indicated she was barely managing and couldn't even use it to fight.

Although Mu Hongchen had to manage the Dragon King Hall and neglected her cultivation, the Earth's environment had changed, and now her cultivation level had reached the Fifth Layer of the Divine Transformation Realm. However, due to not undergoing body refinement, her pure physical strength was insufficient to wield the Purple Gold Divine Thunder Hammer as a weapon.

"Forget it..."

Mu Hongchen found it too exhausting. Although the purple gold hammer was good, it was evidently not something she could use, so she decided to give up and pick another top-grade spiritual treasure instead.

At this moment, Mu Jinyu reminded her, "Aunt Mu, actually, this hammer can shrink... you don't need to struggle like this."

Magic artifacts can enlarge and shrink, not to mention Heaven-reaching spiritual treasures.

However, Mu Hongchen rarely used magic artifacts and didn't understand these things. Seeing the Purple Gold Divine Thunder Hammer being taken out at over a meter long, with a hammerhead the size of five basketballs combined, she assumed that was its actual size.

Upon hearing Mu Jinyu's reminder, Mu Hongchen couldn't help but give him a stern look and said, "Why didn't you say so earlier..."

After speaking, she poured her True Yuan into the purple gold hammer, intending to manipulate it to shrink.

She thought, if this hammer could shrink to the size of a mobile phone, it would be fun to use it to crack walnuts.

However, as Mu Hongchen poured her True Yuan into it, the purple gold hammer remained completely still.

"What's going on?" Mu Hongchen looked up at Mu Jinyu, puzzled and slightly irritated.

Mu Jinyu sighed, holding his forehead, "You have to first refine it into your magic artifact, just like a phone; without your fingerprint, how would you unlock it..."

"Uh... hehehe..."

Mu Hongchen felt extremely awkward hearing Mu Jinyu's words. After a few giggles, she struggled to hoist the purple gold hammer and tried to sneak away, planning to study it back home instead of staying there and embarrassing herself.

However, her strength was clearly insufficient to lift the hammer and make a clean getaway.

Mu Jinyu came over and said, "Let me help you."

With Mu Jinyu's assistance, even the Heaven-reaching spiritual treasure was quickly refined by Mu Hongchen, and she started to feel a bloodline connection with the Purple Gold Divine Thunder Hammer.

Mu Jinyu said, "Aunt Mu, you need to refine and communicate with its artifact spirit daily. Only then can you and the artifact spirit become more compatible. Once you reach a certain level, even with your current Fifth Layer of the Divine Transformation Realm, you can smash someone at the Fifth Layer of the Fanxu Realm with a single strike!"

"Really? Is it that powerful?" Mu Hongchen was marveling at the mystical changes between herself and the purple gold hammer and couldn't help but be astonished hearing Mu Jinyu's words.

"Of course." Mu Jinyu smiled and said, "Generally, the magical artifacts I left behind before are only somewhat better than magic tools and are typically the exclusive weapons of cultivators in the Divine Transformation Realm. The spiritual treasures without artifact spirits are exclusive weapons for the mighty in the Fanxu Realm. Superior spiritual treasures are typically only obtainable at the Ninth Layer of the Fanxu Realm, while top-quality spiritual treasures are seldom available even for those in the Unity Realm Stage."

After a pause, Mu Jinyu continued calmly, "Heaven-reaching spiritual treasures, on the other hand, are the exclusive weapons of the highest figures in the Kunlun Ruins! If you're not a powerful being in the late stage of the Unity Realm, you wouldn't even have a chance to touch them!"

"Is it that outrageous for such a supreme exclusive weapon to kill someone in the Fanxu Realm across a major realm with one blow?"

"Whoa, is it really that awesome?"

Mu Hongchen was utterly stunned after hearing Mu Jinyu's words.

If Mu Jinyu wasn't lying to her, then using the purple gold hammer with her Divine Transformation Realm cultivation to smash someone in the Fanxu Realm truly wasn't an exaggeration at all.

"Wait, didn't you say this was the Supreme Sect Leader's exclusive weapon? How do you... how do you have one or two..."

Mu Hongchen counted in awe, realizing Mu Jinyu's wives totaled six, adding his own mother, Su Zijin, made seven Heaven-reaching treasures already. Surely, Mu Jinyu himself had a Heaven-reaching treasure, and Jian Ruyan, who came back with him from the Kunlun Ruins, definitely possessed one. Adding in her own piece...

"How come you have ten pieces of Heaven-reaching spiritual treasures?! Are you lying?"

Mu Hongchen looked at Mu Jinyu with disbelief.

Gu Xiyan and the others were also surprised at the status of the Heaven-reaching spiritual treasures mentioned by Mu Jinyu. After hearing Mu Hongchen's words, Gu Xiyan thought of a question and asked, "By the way, Jinyu, what is your current cultivation level?"

When Mu Jinyu returned earlier, they didn't have time to say much. Later, they learned that Wen Rou had broken through to the Fanxu Realm, so they assumed Mu Jinyu would be at a similar level and didn't probe further into the specifics of Mu Jinyu's cultivation.

Now upon understanding that only those at the late stage of the Unity Realm and above could acquire Heaven-reaching spiritual treasures, she finally sensed something was off.

Chapter 1202: Little Phoenix's Troubles! Changes in Dragon King Hall!

"Me?" Mu Jinyu turned his head to look at the curious women watching him, smiled, and said, "I am now at the fourth layer of the Unity Realm Stage."

Mu Hongchen was surprised to hear Mu Jinyu's words, astonished at how he had crossed two major realms from the Divinity Transformation Realm in just a year, but even more amazed by how he obtained ten heaven-reaching spiritual treasures with only the fourth layer of the Unity Realm Stage!

"This doesn't make sense..." Mu Hongchen frowned, mumbling, "Isn't the fourth layer of the Unity Realm Stage the middle stage of Hedao? Didn't you just say that the heaven-reaching spiritual treasures are exclusive to Supreme Sect Leaders at the late Harmonizing Path Stage?"

If Mu Jinyu had one or two heaven-reaching spiritual treasures, Mu Hongchen could understand, maybe he got them from some relic.

But having more than ten heaven-reaching spiritual treasures, that's just too exaggerated.

How many Supreme Sect Leaders would one have to kill to obtain them?

Before Mu Jinyu could answer, Gu Xiyan and Mei Yinxue laughed, "Aunt Mu, have you forgotten that he's a freak?"

"Exactly, back when he was at Energy Transformation, he could kill a Lord of the Killing Realm with Divinity Transformation Realm Cultivation. Later, he also killed those at the Mid Stage of Divine Realm with Early Stage Divine Realm Cultivation. Now at the middle Hedao stage, killing those at the late stage, isn't that quite normal?"

Hearing Gu Xiyan and the others, Mu Hongchen smiled wryly, feeling it seemed to be the truth.

However, over the past year, in their battles against foreign enemies, there have been very few achievements of killing across realms; surpassing stages to defeat even seems too hard.

Thus, she gradually understood that as cultivation advances, fighting across realms becomes increasingly difficult; it's easy to speak of defeating those above, but doing it is far too challenging.

That's why she thought it unbelievable that Mu Jinyu, with middle Hedao Realm Cultivation, could obtain so many exclusive weapons from those at late Hedao Realm.

Mu Jinyu grinned and added, "Yes, Xiyan and the others are correct. I did indeed kill quite a few Supreme Sect Leaders with my middle Hedao Realm Cultivation. Some of these heaven-reaching spiritual treasures are my spoils of war. However, these treasures are scarce even in Kunlun Ruins; not every Supreme Sect Leader possesses one. So some parts of these spiritual treasures were actually given by my mentor."

"Your mentor?"

"Is the elder still alive?"

Upon hearing Mu Jinyu's last words, except for Wen Rou and Jian Ruyan, the other women were momentarily stunned, then suddenly excited.

Being the closest to Mu Jinyu, they certainly knew his background well and had heard quite a bit about him and his mentor of Xiang Mantang.

However, they had originally guessed that Mu Shao'ai might have already passed away, but then they heard about the elder from Mu Jinyu.

So they all curiously questioned Mu Jinyu.

"Let's go inside and talk slowly; I'll explain my experiences over the past year."

Mu Jinyu naturally didn't intend to keep anything from them, but given the amount he had to talk about, it couldn't be finished quickly. Realizing they were still standing at Yinlong Mountain's gate, he suggested.

"Yes, yes... let's go inside first..."

Mu Hongchen, hearing Mu Jinyu, responded promptly.

Then Mu Jinyu gestured to Nai Mucha to follow and entered Yinlong Mountain with the others.

Meanwhile, the little Phoenix held by Wen Rou secretly breathed a sigh of relief.

Previously, watching everyone divide the heaven-reaching spiritual treasures, it remembered Mu Jinyu telling it that its Separation Fire Furnace was only temporarily lent to it and would be taken back if suitable spiritual treasures weren't found.

It was afraid Mu Hongchen would dislike that purple lump, then Mu Jinyu would take his Separation Fire Furnace back, causing a lot of worry and fear.

Now seeing Mu Hongchen accepted that Purple Gold Hammer, it secretly relaxed, but feared that someday Mu Jinyu would take spiritual treasures to give away again and might target its Separation Fire Furnace.

The little Phoenix felt quite troubled.

Walking into Yinlong Mountain, Mu Jinyu was observing Dragon King Hall's current state with his Divine Sense and was pleased to find that, except for some noticeable young members who joined recently, all the older members had cultivation at one or two layers of the Divinity Transformation Realm.

Those youngsters also had cultivation above the Mid Energy Transformation Stage.

Currently, Mu Jinyu saw no one with cultivation below Dark Energy.

'It seems that the plan for universal martial cultivation before leaving indeed worked; in less than a year, it brought such changes...'

Mu Jinyu silently mused.

During the journey, many subordinates of Dragon King Hall, seeing Mu Jinyu escorted by Gu Xiyan, Su Zijin, and other high-level members walking toward Yinlong Mountain's inner valley, saluted while secretly pondering who that young man was.

Not everyone in Dragon King Hall knew Mu Jinyu, especially after he had gone through fire and blood in Kunlun Ruins, advancing from Divinity Transformation Realm to Unity Realm Stage, changing quite a bit from a year ago.

It was nearly impossible for anyone unfamiliar with him to recognize him as Tiance True Dragon, who left Dragon King Hall some time ago!

Until Mu Jinyu and his group entered Yinlong Mountain's inner valley and disappeared from view, did the group discuss his identity with uncertainty.

By now, someone had recognized Mu Jinyu's identity, exclaiming excitedly, "He must be our Dragon King Hall's Tiance True Dragon!"

"What?! Dragon Master? He's back?"

The recently joined members of Dragon King Hall were thrilled to hear this.

"I do recall someone mentioned that Dragon Master had some business to handle, leaving Dragon King Hall for a time; it's surprising he's back today!"

"With Dragon Master's glorious achievements and his protective nature, every grievance Dragon King Hall suffered will surely be rectified!"

"Finally, Dragon King Hall can boost its morale!"

"..."

Mu Jinyu accompanied Gu Xiyan and others back into the inner valley, continually monitoring Dragon King Hall's conditions, and indeed heard the excited discussions.

He sighed inwardly, realizing during Earth's Spiritual Energy Revival, Dragon King Hall did not completely dominate as anticipated, likely due to Gu Xiyan and the others consistently combating the Ferocious Beast waves.

While other forces, during those beast attacks, withheld their efforts, secretly gathering strength like Li Youran.

And thus, gaining the advantage in the long run.

'However, now that I've returned, everything changes...'

Mu Jinyu silently uttered to himself, not displaying his thoughts openly, smiling warmly as he began discussing his experiences in Kunlun Ruins over the past year with Gu Xiyan and the others.

Chapter 1203: The Curse World Master's Fear! The Great Xia Dragon Sparrow Conference!

It took half a day.

Mu Jinyu narrated her experiences at the Kunlun Ruins to the ladies.

She also formally introduced them to Nai Mucha, Little Phoenix, and the Divine Silkworm Princess, Yin Li.

Although many of Mu Jinyu's experiences were recounted in a light, casual manner, as if they were no big deal.

However, Gu Xiyan and Su Zijin noticed that during Mu Jinyu's narration, both Wen Rou and Jian Ruyan showed some signs of worry and fear, making it clear to them how thrilling and hair-raising their encounters at the Kunlun Ruins were, almost like dancing on the edge of a cliff...

At this moment, those who had been resentful of Mu Jinyu for a month, thinking she had exchanged Wen Rou and Jian Ruyan's bodies but took her time returning, understood that Mu Jinyu was not on a honeymoon with Wen Rou, but indeed had many loose ends to tie up.

They all felt relieved and secretly blamed themselves for being jealous without knowing the truth.

After Mu Jinyu finished recounting her experiences, she began to inquire about the changes on Earth with the revival of Spiritual Energy over the past year and the situation at the Dragon King Hall.

Once they finished telling her about the current situation, a cold gleam flashed in Mu Jinyu's eyes, and she said, "Alright, it's getting late, let's go have dinner first, it's been so long since we've eaten together."

Hearing Mu Jinyu's words, the ladies were all excited and replied, "Yes, let's all eat together, it's really been a long time since we've had a gathering."

Initially, they were worried that after telling Mu Jinyu about the current situation at the Dragon King Hall and their enemies, Mu Jinyu wouldn't be able to swallow this indignity and would immediately leave Yinlong Mountain to settle old scores.

But now it seemed that Mu Jinyu had matured quite a bit from her experiences at the Kunlun Ruins and was no longer acting impulsively.

After a simple meal, Mu Jinyu still had no intention of leaving Yinlong Mountain to settle accounts with those people.

After all, she had just returned, and it would be pointless to leave her family again to fight, instead of spending time with them and making up for their grievances during this period.

Meanwhile, over this period.

The world was no longer as peaceful as it used to be.

In a castle somewhere in Europe.

The Curse World Master, who had one of his avatars obliterated by Mu Jinyu in one move, was still seething with anger after killing his subordinates!

"What exactly happened? Why was my avatar suddenly wiped out? Was it the Dragon King Hall activating their Mountain Protection Array?"

"It shouldn't be! If I had unknowingly entered their Nine Heavens Mysterious Kill Sword Formation, my avatar would have sensed something. What exactly is the reason?"

"Bam! Bam! Bam!"

The continuously self-talking and pondering Curse World Master looked crazed like a madman, and without any answers, he erupted in anger, causing the terrifying Fanxu Realm True Yuan to explode, instantly shattering all decorations and porcelain in the old castle!

Then, the Curse World Master picked up a specialized communicator to call Li Youran first.

But Li Youran's phone remained unanswered, deepening his ominous premonitions.

Next, he called Withered Tree Taoist of the Withered Tree Quest for Spring, which finally gave him some relief.

"Old Bat, I have a few bad news for you."

However, the first words from Withered Tree Taoist once again caused the Curse World Paul's heart to sink.

"What bad news?" asked the Curse World Master in a hoarse voice, not even minding the Withered Wood Elder calling him Old Bat.

With a heavy tone, the Withered Tree Taoist said, "Based on the clues I've gathered, both Li Youran and the Golden-Winged Roc are already dead, and now there's news spreading in Huaxia that many Great Demons of the Ten Thousand Gods Mountain Range are dead. You should know that the original name of the Ten Thousand Gods Mountain Range is Kunlun Mountain, and moreover..."

His words were cut short by the Curse World Master, who supplemented in a choked voice, "And besides, the Dragon King of the Dragon King Hall went missing a year ago after supposedly entering Kunlun Mountain..."

"Yes, that's right." The Withered Tree Taoist's tone was no longer as calm as before. "Based on the current clues, it's very likely that the Dragon King of the Dragon King Hall has returned!"

"So what if he's back?!"

The Curse World Master's tone suddenly became agitated, screaming with anger: "Throughout this year, we've ventured into countless forbidden places, seized numerous Heavenly Materials and Earthly Treasures, and only under the grand environment of Spiritual Energy Revival have we cultivated from the God Realm to the Fanxu Realm we have today. He's been gone for over a year, I don't believe his cultivation resources surpass ours. He could kill our avatar so easily only because he used some despicable trick!"

"Whether he used despicable tricks or not, he undoubtedly has the means to threaten our lives. For the time being, let's keep a low profile to avoid being eradicated by the Dragon King..."

Having said this in a cold tone, the Withered Tree Taoist hung up the phone without waiting for the Curse World Master to respond.

"Beep... beep..."

"Hello, hello..."

"Boom!!"

The Curse World Master smashed the communicator into pieces, unable to quell his anger, releasing his True Yuan suddenly, turning the centuries-old castle into ruins!

"Whoosh!"

He flapped his Bat Wings, standing in the void with blood-red eyes brimming with endless bloodlust, roaring skyward, "I refuse to believe that my Fallen Splendor is inferior to your Dragon King Hall!"

The Curse World Master's voice was filled with rage and unwillingness!

But in reality, he knew in his heart, he wasn't furious because Mu Jinyu plotted against him, causing the loss of an avatar that cost him countless Essence Blood in refinement, he was terrified...

He feared Mu Jinyu's power, he was also afraid that he'd meet the same fate as the previous two Curse World Masters, ultimately dying at the hands of the Dragon King of the Dragon King Hall!

It seemed like a fate or curse; he wasn't willing to die like that!

Having vented his anger for a few minutes, the Curse World Master looked skyward toward the west, a hint of fear and apprehension flashed through his eyes as he thought about something, but eventually, the pressure Mu Jinyu brought him was greater, and resolve flickered through his eyes!

"Whoosh!"

The Curse World Master suddenly spread his wings, turning into a streak of blood lightning, piercing through the sky instantly, disappearing under the moonlight.

Scenes like the Fallen Splendor's unfolded around the world tonight...

Like Paradise Lost, Brilliant Divine Authority, and Withered Tree Quest for Spring...

Most responded with caution and unease, while only a few like the Curse World Master reacted so intensely.

Suburbs of the capital city.

The former headquarters of the Dragon King Hall, which was vacated after the Dragon King Hall relocated.

With the revival of Spiritual Energy, a new organization was formed here over a year ago.

It was named the Great Xia Dragon Sparrow!

Now, in one of the meeting rooms of Great Xia Dragon Sparrow, the room was filled with various high-level officials and leaders.

They were holding an emergency meeting, discussing the mysterious deaths of hundreds of Great Demons on Kunlun Mountain and the changes in the Dragon King Hall.

Chapter 1204: The Dragon King's Return? Congratulations to the Dragon King!

"The hundreds of Great Demons from Kunlun Mountain all possess the Cultivation of the Divinity Transformation Realm, and the strongest ones are nearly reaching the Fanxu Realm. It's absolutely impossible for them to vanish mysteriously; it must be the result of someone's intervention!"

"But in the current world, is there anyone who can wipe out hundreds of Divinity Transformation Realm beings at once?"

"It's hard to say. It's also possible those Great Demons moved elsewhere, and we just haven't found them yet."

As discussions about the disappearance of the Great Demons from Kunlun Mountain continued, many voices emerged with different opinions.

Some believed the Great Demons might already be dead, while others cautioned against self-deception, insisting that it was impossible for those Great Demons to die just like that.

In the midst of the heated debate, a middle-aged man wearing a combat uniform stepped onto the stage, tapping the keyboard a few times, and surveillance footage immediately appeared on the screen.

"These are some clues we've just obtained. Please take a look."

In the surveillance footage, two pairs of men and women suddenly appeared in the sky, gliding towards Jiangnan Province. Due to the angle, only their silhouettes were visible, leaving their specific appearances unclear.

"What is there to see? With the revival of Spiritual Energy, no one knows how many Energy Transformation Grandmasters there are now, and there are certainly seven to eight hundred, if not a thousand, Terrestrial Immortals in the Divinity Transformation Realm. Haven't we seen enough scenes of flight through the sky this year?"

After watching the footage, a group of people dismissed it.

Some displayed thoughtful expressions, thinking that the footage might hold significance, and the four individuals were likely connected to the mysterious disappearance of the Great Demons from Kunlun Mountain.

"We've hired experts to enhance the video quality and zoom in. Please take another look to identify who they are!"

The middle-aged man, unfazed by the skepticism around him, maintained a stoic expression. After speaking, he tapped the keyboard a few more times, and the surveillance footage became much clearer, zooming in continuously from a precise angle!

When the faces of those four individuals were clearly presented before everyone present, their expressions collectively changed.

Had they been mere ordinary warriors of the Great Xia Dragon Sparrow, many might not recognize the three individuals, but they were all senior leaders of the Great Xia Dragon Sparrow, so how could they not recognize that one man and two women as none other than Mu Jinyu, Jian Ruyan, and Wen Rou?

Everyone present stood up excitedly, exclaiming in shock:

"He's back?!"

"So it was him who took action! No wonder..."

"What level has the Dragon King's strength reached to annihilate hundreds of Great Demons in one strike?"

Each attendant was well-aware of Mu Jinyu's profile and contributions.

Especially after Mu Jinyu formulated a national martial cultivation plan to resist the increasingly terrifying Ferocious Beasts amidst the revival of Spiritual Energy, and submitted several volumes of top-grade Cultivation Methods, not only Huaxia but the entire world underwent earth-shattering changes in the past year.

In the unique environment of Spiritual Energy Revival, the simple and easy-to-train Cultivation Methods with a limit beyond the Divinity Transformation Realm that Mu Jinyu handed over were akin to primitive people igniting the spark, or Watt inventing the steam engine.

This drastically altered the course of history, propelling human civilization into a new era.

Today's elementary school students, after cultivation, could knock out a buffalo with a single punch, which would have been remarkable before the revival of Spiritual Energy!

And middle school students, their strength perhaps rivaling the peak physique of Boxing King Tyson or Ali!

As for high school and university students, many after temperament trials and receiving cultivation techniques, have reached the level of Dark Energy Warriors.

Among them, those with outstanding aptitude have already reached Peak Energy Transformation. The stronger ones have achieved the Divinity Transformation Realm, with little difference from veteran God Realm practitioners within this year.

According to statistics, there are as many as over 200,000 Dark Energy Warriors currently attending school in Huaxia!

Such numbers of warriors were inconceivable in the past.

Yet, it has been achieved in the era of Spiritual Energy Revival!

A year ago, amidst the revival of Spiritual Energy and the evolution of myriad beings, humans saw no changes, and existing Energy Transformation Warriors and God Realm experts were almost powerless against the tide of Ferocious Beasts!

With civilization on the brink, and humanity in perilous danger, it was Mu Jinyu who unveiled several cultivation methods, closing the evolution gap between humans and myriad beings!

His contributions are beyond imagination!

After Mu Jinyu released those few cultivation methods, the last time he appeared was near Kunlun Mountain, after which he vanished without a trace.

Given their status, they were somewhat aware of the matters in Kunlun Ruins within Kunlun Mountain, so they speculated that Mu Jinyu likely entered Kunlun Ruins seeking a solution to the Ferocious Beast chaos.

Consequently, they jointly suppressed this clue, preventing global organizations like Paradise Lost and Brilliant Divine Authority from tracking Mu Jinyu's whereabouts.

Over a year has passed, just as they began to think Mu Jinyu might have perished in Kunlun Ruins, he reappears, igniting their excitement!

"Indeed, Kunlun Ruins is within Kunlun Mountain, and with the Dragon King re-emerging within Huaxia's borders, it's ninety percent likely that the Great Demons have died by the Dragon King's hand!"

"A year has passed, and it's said that the cultivation environment in Kunlun Ruins far surpasses ours. Who knows what level the Dragon King's current Cultivation has reached—has he also broken through to the Fanxu Realm?"

"It should be the Fanxu Realm; otherwise, he couldn't have exterminated hundreds of Great Demons without causing noticeable disturbances!"

"I wonder how he compares in strength to the Golden-Winged Roc King and the White Serpent King?"

The crowd's discussion quickly turned to comparisons between Mu Jinyu and various Fanxu Realm Demon Kings, hoping Mu Jinyu could completely eliminate these grave threats!

The middle-aged man couldn't help but reveal a barely noticeable smile as he spoke, "Take a look at this footage!"

He tapped the keyboard a few more times, and the screen transitioned to another clip.

"Rip!"

"Boom!!"

On screen, Yu Shenfeng's arm was ripped off, and he was about to meet his end under the siege of the Five Fanxu Realm beings...

As the audience witnessed the dire changes on screen, their hearts tightened, hoping Yu Shenfeng wouldn't succumb to the Golden-Winged Roc King's assault.

Just then, Curse World Master, Amalia, and Withered Wood Taoist's bodies exploded, dissipating into black smoke.

Meanwhile, Li Youran and the Golden-Winged Roc were severely injured, nearly falling to the Underworld!

"What's happening?"

"Didn't see anyone intervene!"

"Five Fanxu Realm experts suddenly suffered three deaths and two critical injuries—could Dragon King Hall's Mountain Protection Array be this terrifying?"

Amidst the crowd's confusion, some connected the dots with the surveillance footage of Mu Jinyu appearing outside Kunlun Mountain, instantly forming conclusions in their minds.

Sure enough, Mu Jinyu's figure soon arrived just in time, saving the heavily injured Yu Shenfeng!

The footage ended there!

The audience was beyond ecstatic!

The middle-aged man's face lit up with an excited smile as he declared, "Indeed, they all perished by the Dragon King's hand. According to analysis, the Dragon King returning from Kunlun Ruins now possesses at least Late Stage Fanxu Realm strength!"

An elderly leader sitting below gently applauded as he heard this!

"Clap clap clap!"

Instantly, the venue erupted in thunderous applause!

"Let's set off for Yinlong Mountain to congratulate the Dragon King!"

Chapter 1205: Majority Rules! The Great Xia Dragon Sparrow Has Arrived!

Mu Jinyu wasn't aware of the commotion his return caused in the outside world.

After dinner, he chatted with everyone for a while. As the night grew late and people began to yawn, he said, "It's getting late. Everyone should rest if they need to."

"Okay."

Wen Rou, Jian Ruyan, and the others responded and left the living room, returning to their rooms.

Then, Lin Qiaoxia, Xu Qingya, Yu Linglong, with strange expressions, gave him a few glances before leaving as well.

Finally, Gu Xiyan and Mei Yinxue went back to their rooms without a word.

Mu Jinyu was puzzled by this — why did they slip away without even saying goodnight?

Su Zijin came over, sat beside him, and whispered, "It's up to you. Give me a chubby grandson soon."

Having said that, she also got up and left.

Hearing his mother's words, Mu Jinyu suddenly understood why their attitudes were so strange.

After all, he hadn't been back for more than a year, and now that he finally returned, it was time to enjoy some quality time with his wives.

Even though their relationships were openly known, everyone still felt a bit shy about such matters.

Jian Ruyan wasn't his wife and wasn't bothered to get involved, so she was the first to leave.

Wen Rou had spent several honeymoon days with him in the Kunlun Ruins, so she wouldn't compete either and left next.

As for Yu Linglong, Xu Qingya, and Lin Qiaoxia, they obviously didn't want to compete with Gu Xiyan and Mei Yinxue, so they left too.

Mei Yinxue and Gu Xiyan, seeing that everyone else had left, also felt too embarrassed to say anything and finally left without a word.

"Are they letting me choose?"

Mu Jinyu felt a bit of a headache, fearing that if he didn't choose correctly, the days ahead wouldn't be pleasant.

"Ding dong."

At this moment, Mu Jinyu's newly replaced phone received a message.

Feeling a bit troubled, he picked it up and saw that it was from Lin Qiaoxia, advising him to spend more time with Gu Xiyan.

Then messages from Xu Qingya and Yu Linglong came too, saying the same thing.

Last was one from Mei Yinxue, also telling him to be with Gu Xiyan and not to come to her.

"Looks like in this past year, Xiyan not only surpassed everyone in strength but also earned their respect..."

Seeing these messages, Mu Jinyu felt emotionally mixed, with a touch of heartache as well.

Gu Xiyan's talent for cultivation wasn't top-notch among the women, yet she had reached the eighth layer of the Divine Transformation Realm. The respect they showed her in their discussions was telling of how much she had endured and the responsibilities she had carried in the past year.

"Ding dong."

Another message arrived.

Mu Jinyu glanced at it; it was from Gu Xiyan.

She didn't ask him to find her but wanted him to spend time with Lin Qiaoxia instead.

"Sigh..."

Mu Jinyu sighed softly, got up, walked to Gu Xiyan's door, and carefully opened it, poking his head inside.

He saw Gu Xiyan in the room, looking dejected as she put down her phone, then sat cross-legged, preparing to cultivate.

Gu Xiyan, hearing the noise, looked up in confusion and disbelief towards the door, seeing Mu Jinyu standing there with a helpless expression.

"Why...why are you here..." A hint of joy flashed across Gu Xiyan's face but was quickly suppressed. With a furrowed brow, she complained, "Didn't I tell you to spend time with Qiaoxia, that silly girl? What are you doing here?"

"Because there's an even sillier girl here who needs me more." Mu Jinyu stepped in, sat down on the bed, and hugged Gu Xiyan with a cheeky grin.

A rosy blush spread across Gu Xiyan's face. She playfully slapped away Mu Jinyu's hand, pretending to be annoyed, "Stop being touchy, I'm not over it yet. If you want that, go find Qiaoxia or the others!"

Mu Jinyu said seriously, "But they all told me to come and be with you. I'm just following the majority."

"Really?" Gu Xiyan paused at Mu Jinyu's words, her confused eyes and deliberately stern face looking adorably naive.

"Look." Mu Jinyu took out his phone, displayed the messages from the women, and handed it to Gu Xiyan.

Gu Xiyan sneaked a peek, feelings of both gratitude and embarrassment crossing her eyes, her blush growing deeper. She pushed Mu Jinyu in a flustered manner, "I don't care, just leave. I want to cultivate, don't bother me..."

Mu Jinyu was pushed to the doorway but knew this silly girl was just shy, and said helplessly, "Alright, alright, we won't do anything else, we'll just chat a bit and then cultivate, okay?"

"You really won't stir up trouble?" Gu Xiyan asked hesitantly, hearing Mu Jinyu.

Mu Jinyu replied, "I know you want to improve your strength and not lag too far behind Wen Rou and the others. Now that I'm at the Unity Realm Stage, giving you a cultivation method that suits you better, and guiding you in your cultivation will surely help you progress faster than on your own."

Hearing this, Gu Xiyan was immediately tempted.

Seeing Wen Rou's strength reaching the Fanxu Realm and Jian Ruyan at the ninth layer of the Divine Transformation Realm, it was only natural for Gu Xiyan to feel envious, especially knowing they broke through multiple levels in just the last month, feeding her inferiority.

She didn't covet the others' cultivation talent but didn't want to fall too far behind them either.

She just wanted to work a bit harder, hoping to narrow the gap between them.

So when Mu Jinyu wanted to spend time with her, although happy inside, she managed to restrain herself, sending him to find the others.

But when Mu Jinyu offered to guide her cultivation, she found it hard to refuse.

...

The next day.

When everyone gathered for breakfast, they were surprised to find that Gu Xiyan's cultivation had also reached the Fanxu Realm.

"Sister Xiyan, you this..."

"Sister Xiyan, congratulations... congratulations..."

The women marveled at Gu Xiyan's progression.

Feeling the well-wishes from everyone, a bashful blush appeared on Gu Xiyan's face, "You don't have to be envious. Later, Jinyu will help you all accelerate your cultivation too."

After Gu Xiyan broke through to the Fanxu Realm, her skin appeared more fair and delicate, and her demeanor more ethereal. However, recalling her breakthrough made her feel shy.

At this moment, she finally understood why Wen Rou and the others could reach the Fanxu Realm so quickly — with Mu Jinyu's help, it was impossible not to progress swiftly.

If not for the fear of them cultivating too rapidly and becoming unstable, Mu Jinyu could have helped her reach the third or fourth levels of the Fanxu Realm last night!

Sitting quietly on one side, Mu Jinyu continued to eat breakfast while pondering cultivation methods suitable for each of his wives.

"Ding."

Mu Hongchen received a message and glanced at it with a complex expression.

She then said to Mu Jinyu, "Dragon Master, people from the Great Xia Dragon Sparrow have arrived."

Chapter 1206: The Great Xia Dragon Sparrow's Apology! The Next Target!

As Mu Hongchen spoke, the originally noisy dining hall suddenly quieted down.

"Great Xia Dragon Sparrow, why have they come?"

Gu Xiyan frowned slightly and spoke lightly.

Great Xia Dragon Sparrow, a newly established special department after the Spiritual Energy Revival.

Compared to the Dragon King Hall, Great Xia Dragon Sparrow can truly be called an official organization.

In the early stage of Spiritual Energy Revival, perhaps in appreciation of Mu Jinyu's righteous assistance, who taught many Cultivation Methods without compensation, so that Huaxia would not lag behind others in the environment of Spiritual Energy Revival. Hence, their attitude toward Dragon King Hall was quite favorable and considerate.

But later, Mu Jinyu appeared late, suspected to have encountered mishaps, coupled with the leakage of Cultivation Methods taught by him, after numerous Martial Arts Grandmasters and God Realm experts researched, eventually evolved more Cultivation Methods suitable to others, and several organizations comparable to Dragon King Hall emerged, the attitude of Great Xia Dragon Sparrow toward Dragon King Hall also changed.

Plus, Dragon King Hall faced too many external enemies, gradually, the willingness of Great Xia Dragon Sparrow to lend a hand became less and less.

After all, to do that, Great Xia Dragon Sparrow would have to bear enormous pressure.

While if their attitude was ambiguous, the pressure they would bear wouldn't be so enormous.

Of course, if Dragon King Hall faced the danger of life and death, they wouldn't really sit back and do nothing. After all, both are mutually prosperous and mutually damaged, the principle of cold teeth and chilled lips, they understand.

It's just that such an attitude, Gu Xiyan and the others understand it, yet how can it make them like it?

"Let's go, let's go out and see."

While reminiscing with everyone yesterday about their experiences, Mu Jinyu already knew the background of Great Xia Dragon Sparrow, a trace of surprise flashed in his eyes, he roughly guessed their intention, smiled naturally, then stood up and said.

"Hmm."

Everyone responded, then followed him, stepped out of the living room, ascended into the air, and quickly arrived at the foot of Yinlong Mountain, lifting the barrier of the Mountain Protection Array.

Immediately, the silhouettes of the crowd standing outside the foot of the mountain became clearly visible.

"Dragon King! You indeed returned... hahaha... congratulations, congratulations..."

The leader of Great Xia Dragon Sparrow, Xia Ruochen, seeing Mu Jinyu's figure appear before him, although he had watched the surveillance footage, he couldn't help rising with emotion, then greeted with laughter.

"Hmm, just returned yesterday, your news is really well-informed."

Mu Jinyu nodded to the crowd of Great Xia Dragon Sparrow as if greeting them, then smiled.

Xia Ruochen laughed heartily and said, "In the current situation, how dare we carelessly relax vigilance? We must certainly keep our attention on situations everywhere."

"Hmm, come in." Mu Jinyu nodded slightly and gestured to them to come in.

Upon entering Yinlong Mountain, feeling the Spiritual Energy concentration dozens of times higher than the outside, the eyes of Great Xia Dragon Sparrow members couldn't help but flash a hint of strange color, only then did they understand why Li Youran had been fixated on Yinlong Mountain.

Today's Yinlong Mountain indeed can be called the number one Spirit Mountain.

Before Famous Mountains like Kunlun Mountain, Mount Tai, Mount Hua, etc., have fully showcased their potential in Spiritual Energy Revival, even if Yinlong Mountain's Spiritual Energy concentration stops here, it is destined to enter the top ten in future Spirit Mountain rankings, who wouldn't covet it?!

Moreover, it already ranks as the number one Spirit Mountain. In the unique environment where new talents surpass former ones daily, occupying Yinlong Mountain in advance will also provide an advantage in seizing opportunities.

Furthermore, it can widen the gap with others, isn't the future potential to claim Mount Tai, Kunlun Mountain, these Famous Mountains with boundless mythical significance through time and space imaginable?

Sitting in the Dragon King Hall's living room, Xia Ruochen put away his false smile, composed himself, and sincerely apologized:

"Sorry, really very sorry everyone, yesterday when Li Youran led people to attack Dragon King Hall, we Great Xia Dragon Sparrow actually knew about it but dared not help. Really sorry..."

Hearing Xia Ruochen's apology, Mu Jinyu paused his tea brewing, looked up unexpectedly at him, truly not expecting him to open with such a straightforward apology.

Originally, he thought the opposing side would not mention this matter at all, or lightly skip over it.

A flash of surprise in his eyes, Mu Jinyu finished brewing tea, served Xia Ruochen a cup, and lightly smiled, "Isn't it nothing? Nothing worth apologizing for, even if you brought people to help, what use would it be? Just adding casualties, I understand your concerns, rest assured, we don't mean to blame you."

Yesterday, when numerous enemies besieged Dragon King Hall, intending to seize Yinlong Mountain, Great Xia Dragon Sparrow stood by, initially indeed causing Mu Jinyu dissatisfaction.

But afterward, upon learning Great Xia Dragon Sparrow had no existence in Fanxu Realm, he reluctantly understood their actions.

After all, with five Fanxu Realm experts acting, even if they came with more people, it would just be suicide.

However, if the other side didn't apologize today, merely handled it perfunctorily, Mu Jinyu, even understanding, would not extend extra care to them afterward.

Now it's stated openly, Mu Jinyu can also put aside grievances and decide to help them once more.

After all, both sides are compatriots, moreover, he is destined not to stay in Huaxia long, not to mention staying in the Kunlun Ruins as his master did, but also going elsewhere.

Given this, why should he persistently hold onto this little current conflict?

And let more civilians suffer in the future days?

In the future, Huaxia's Guardian God is destined not to be Dragon King Hall but Great Xia Dragon Sparrow.

Xia Ruochen looked at Mu Jinyu a few times, seeing he truly had no intention to blame, then finally let out a sigh of relief and tentatively asked, "I wonder what the Dragon King's goal will be after returning?"

He wanted to know if Mu Jinyu intended to vie for Mount Tai, Kunlun Mountain, Mount Hua, Mount Emei, Dragon Tiger Mountain, Mount Wuyi, these Famous Mountains.

Mu Jinyu glanced at Xia Ruochen; having just returned, he wasn't very clear about the changes in Famous Mountains under Spiritual Energy Revival, and assumed he was talking about organizations like Paradise Lost, Withered Tree Quest for Spring, Fallen Splendor which had grudges with Dragon King Hall.

Lightly smiling, Mu Jinyu said, "No particular goal, I won't personally hunt those who attacked my Dragon King Hall yesterday, that's bullying the weak. I'll let relevant people sort out the grudges."

Those referred to as relevant people naturally are Yu Shenfeng and his disciples, Qiu Bai and Chen Xiuying the Third-Rate Unknown.

Yu Shenfeng almost died at the hands of these organizations' leaders, Mu Jinyu will of course avenge him, but won't personally act.

Because he feels, compared to personally erasing these enemies, it's more meaningful to let them avenge personally, better venting the hatred in their hearts.

Next, he will enhance their strengths, so they can each target an organization and uproot it, fiercely retaliating!

Upon hearing Mu Jinyu's words, although Xia Ruochen didn't receive an exact answer, his heart was still pleased, and he smiled, "Hmm, indeed it's necessary to deal with these organizations first, they've consistently coveted our Huaxia's Famous Mountains, attempting to seize a spot in the Ten Great Famous Mountains, truly deserving death!"

Chapter 1207: Changes in the Famous Mountains! The Shame of the Great Xia Dragon Sparrow!

"Coveting the Ten Great Famous Mountains?"

Mu Jinyu heard Xia Ruochen's words and was slightly stunned, not immediately understanding what he meant.

Shouldn't the priority be to deal with these organizations because of the evil they freely commit in Huaxia?

How could it be because they covet Huaxia's famous mountains?

Then, a flash of inspiration hit Mu Jinyu's mind, and he suddenly thought of the changes in spiritual energy on Kunlun Mountain, as well as the presence of hundreds of Great Demons at the Divinity Transformation Realm, and he suddenly realized that there must be an inside story.

Xia Ruochen saw the change in Mu Jinyu's expression and knew that he might not be very clear about the changes in the famous mountains and lands under the revival of spiritual energy.

However, he did not regret saying the wrong thing because he understood that even if he did not bring up this topic, Mu Jinyu would eventually learn about these matters from Su Zijin and others, and it was impossible to conceal them.

Smiling calmly, Xia Ruochen said, "Dragon King just returned and may not be aware of many situations. Under the revival of spiritual energy, the places with the densest spiritual energy and the most Heavenly Materials and Earthly Treasures are Mount Tai, Kunlun Ruins, Yellow Mountain, Mount Hua, Dragon Tiger Mountain, Mount Emei, these famous mountains..."

"It can be said that the deeper the heritage of a famous mountain, the more astonishing the changes under the influence of spiritual energy revival. Once occupied, the prospects for future development are the greatest!"

"The Dragon King has returned from Kunlun Mountain and seen those hundreds of Great Demons at the Divinity Transformation Realm, right? Among those demons, there are seventy to eighty in the Late Divine Transformation Realm Stage, and such numbers happened in just one year. Who could have imagined this previously?"

"But ironically, Kunlun Mountain has so many of these Great Demons! All because Kunlun Mountain is the first Divine Mountain of Huaxia, the mountain of all ancestors!"

"Therefore, Huaxia's famous mountains have been coveted since the revival of spiritual energy!"

After listening to Xia Ruochen's explanation, Mu Jinyu nodded with sudden realization and said, "I see, no wonder..."

He originally couldn't understand how Li Youran alone contacted those three and a demon. After all, those three people had grudges with the Dragon King Hall, but why did the Golden-Winged Roc follow?

Now it seems that Li Youran probably promised the Golden-Winged Roc some benefits and completely gave up Kunlun Mountain, which made the Golden-Winged Roc follow.

"So there are no famous mountains abroad that have undergone astonishing changes under the revival of spiritual energy?" Mu Jinyu then frowned and asked.

"There are." Xia Ruochen explained, "The Alps, the Himalayas, and others have similar changes to Huaxia's famous mountains, but they are too few. They don't want to be overtaken, so naturally, they set their sights on our Huaxia's famous mountains."

"Hmm." Hearing this explanation, Mu Jinyu finally fully understood the situation of the Dragon King Hall and the Great Xia Dragon Sparrow.

Huaxia's famous mountains are coveted, how can they not feel any pressure, and it's impossible to sit idly by while those forces come and seize these famous mountains?

No wonder Yu Shenfeng would suffer so many injuries, even Gu Xiyan and the others have left dark wounds.

And the Great Xia Dragon Sparrow doesn't even have a strong person at the Fanxu Realm; facing such a situation, naturally, they seem helpless. If they get involved, and their base isn't protected by the Nine Heavens Mysterious Kill Sword Formation, they may be uprooted early!

Next, Xia Ruochen told Mu Jinyu about the organizations and leaders currently occupying each of the great famous mountains.

Mount Song was occupied by Sheng Rulai, with Buddha's Light Shines Everywhere becoming its mountain gate.

Dragon Tiger Mountain was occupied by Way of Nature, becoming its Taoist field.

Mount Emei was occupied by a White Crane Demon King, who founded the Shushan Sword Sect there!

The rest of the famous mountains have also been occupied by people, but every now and then, the Mountain Master is assassinated and replaced.

The only powers that can continually occupy the famous mountains and remain unshaken are Buddha's Light Shines Everywhere, Way of Nature, and a few others!

And currently, the only one unoccupied is Mount Tai!

Mount Tai, in terms of fame and historical heritage, is no less than Kunlun Mountain. In some respects, its origins are even greater than Kunlun Mountain!

Mount Tai was regarded by ancient people as Heaven that "leads directly to the imperial throne."

During the Pre-Qin Period, ancient emperors gathered here to worship the heavens.

After Emperor Qin Shi united the world, Mount Tai became a place for imperial sacrifices, with thirteen emperors ascending Mount Tai for sacrifices or rituals from the time of Emperor Qin Shi to the Qing Dynasty, and twenty-four emperors sending officials to perform seventy-two sacrifices!

No mountain is greater; no history is older!

This is Mount Tai, Huaxia's paramount mountain!

After introducing all this, Xia Ruochen straightforwardly asked for Mu Jinyu's opinion to see if they should attack Mount Tai.

Mu Jinyu shook his head and said, "No need, I don't have such a big goal, but if you want to attack Mount Tai then, I can lend a hand."

Xia Ruochen was overjoyed to hear this and said, "Thank you, Dragon Master, for your righteousness!"

He was truly grateful for Mu Jinyu's decision. As for the other famous mountains, even if they fell into the hands of others, or aliens, they could still accept it, but Mount Tai must be controlled by them. Even if they couldn't manage it themselves, they could accept it being occupied by the Dragon King Hall.

And although Mu Jinyu didn't want to seize these famous mountains, he was willing to lend a hand at critical moments, which deeply moved him.

The people of Great Xia Dragon Sparrow thought about how they did not dare to help when the Dragon King Hall was besieged by various enemies and were indifferent, feeling ashamed and lowering their heads.

After chatting with them for a while, when Xia Ruochen and the others were about to say goodbye, Mu Jinyu took out a few books and handed them to Xia Ruochen, saying, "I know your initial intention of coming. These are a few top-level cultivation methods I obtained in Kunlun Ruins. Take them."

"This..."

Xia Ruochen and others paused in their steps, and upon hearing Mu Jinyu's words, their expressions immediately showed an extremely complex look.

Indeed, their first thought when they decided to visit the Dragon King Hall yesterday was to test Mu Jinyu's attitude and see who would take Mount Tai.

The second thought was that Mu Jinyu must have gained a lot from Kunlun Ruins, and if possible, they hoped to obtain better cultivation methods from him.

But during the conversation with Mu Jinyu, Xia Ruochen felt that after obtaining Mu Jinyu's promise, it would be too shameless and greedy to ask him for better cultivation methods.

Therefore, he did not make any further requests when leaving.

After all, they had done nothing while the Dragon King Hall was under attack and had little to do with its establishment.

On what basis could they enjoy the fruits of the Dragon King Hall's hard-won achievements?

Unexpectedly, even without making such a request, Mu Jinyu offered to give them at the end.

Seeing Xia Ruochen remaining motionless without taking it, Mu Jinyu smiled and said, "Take it, it's no big deal. In the end, Huaxia will rely on you to protect it."

Chapter 1208: Waiting for an Explanation! Nameless's Disappointment!

Watching the Great Xia Dragon Sparrow and his group leave, Mu Jinyu retracted his gaze and said indifferently to Mu Hongchen, "How are Paradise Lost, Fallen Splendor, and Withered Tree Quest for Spring now?"

"There's been no movement for now, but according to the information gathered, it seems that the Curse World Master, Amalia, and the Withered Wood Taoist have already escaped," Mu Hongchen said.

A cold light flashed in Mu Jinyu's eyes, then he chuckled softly, "Hehehe, I was thinking that if they came to apologize, I might only take their heads and spare the organizations behind them. But now it seems there's no need for these organizations to exist."

In just one day, it would be enough time for the true bodies of the Curse World Master, Amalia, and the Withered Wood Taoist to travel from abroad to Yinlong Mountain to apologize to him. However, they did not come.

Obviously, they thought that by hiding, Mu Jinyu would be helpless against them.

Mu Jinyu sent messages to Yu Shenfeng and several others, asking them to return to the Dragon King Hall, then turned to Mu Hongchen and asked, "The news of my return hasn't been sealed off, right?"

"No," Mu Hongchen shook his head, "Currently, the Shushan Sword Sect, Buddha's Light Shines Everywhere, and Way of Nature all know about your return, Dragon Master."

"Have those occupying Purple Gold Mountain come to Dragon King Hall to atone?" Mu Jinyu asked coldly again.

Purple Gold Mountain, located in Jinling City, Jiangnan Province, is also a famous mountain, naturally occupied by someone at present.

The Mountain Master who took over Purple Gold Mountain also subdued the Seven Great Families of Jiangnan and the Medicine Alliance, which had submitted to the Dragon King Hall.

After returning, Mu Jinyu learned this news from Gu Xiyao and others, and had been waiting for the Mountain Master of Purple Gold Mountain to give him an explanation.

However, it seems that the other party is evidently not planning to come to Dragon King Hall to confess!

Mu Hongchen shook his head, "No."

"Fine, I'll give him another half day. If he insists on courting death, I don't mind personally visiting Purple Gold Mountain!" Mu Jinyu coldly chuckled, a murderous intent flashing in his eyes.

He isn't a petty person; in the Kunlun Ruins, he let many enemies go. The conflicts between Great Xia Dragon Sparrow and Dragon King Hall can be resolved upon his return.

But that doesn't mean that when one cheek was slapped, he would offer the other to be slapped as well!

If all the Mountain Master of Purple Gold Mountain had done was to occupy Purple Gold Mountain and take advantage of the Dragon King Hall being surrounded by enemies, he would overlook it.

But this guy has chosen the most disgusting and venomous path.

He secretly suppressed the Seven Great Families that submitted to him and the Medicine Alliance, causing them to betray Dragon King Hall, all while hiding his fangs until the critical moment to turn against Dragon King Hall!

That betrayal by the Medicine Alliance and the Seven Great Families caught Gu Xiyan off guard, nearly costing her life! This is unforgivable!

Subsequently, Mu Jinyu asked again, "Has there been any movement from Yang City's Su Family, which has detained Zhou Yi?"

Mu Hongchen shook his head again, "No."

Zhou Yi was once a friendly alchemist with Yu Shenfeng, who, after witnessing Mu Jinyu's alchemy in saving Yu Shenfeng at Yulong Snow Mountain, wanted to become Mu Jinyu's disciple and learn alchemy from him.

Considering Dragon King Hall's lack of alchemists, Mu Jinyu did not accept him as a disciple but decided to welcome him, allowing him to join Dragon King Hall.

When Mu Jinyu took Yu Shenfeng and his disciples away, Zhou Yi said he needed to report to his loyal force first and then relinquish his guest elder position before coming to Dragon King Hall.

Later, due to Ye Wushuang's sudden assassination attempt, Mu Jinyu departed early for the Kunlun Ruins, so he was unaware of Zhou Yi's situation.

After returning yesterday, Mu Jinyu had already learned from Qiu Bai that Zhou Yi had been detained by the Yang City's Su Family, the force he was loyal to.

He is now waiting for an explanation from the Yang City's Su Family!

However, it seems that either the other party's power is insufficient to even detect his return, or they think that detaining Zhou Yi is insignificant, as Zhou Yi hasn't joined Dragon King Hall, trying to muddle through...

"Also give the Yang City's Su Family half a day; if they still aren't prepared to release Zhou Yi, I don't mind visiting them, settling each account from the past." Mu Jinyu coldly laughed, his tone icy.

"Dragon Master!"

"Dragon Master!"

At this time, Yu Shenfeng, San Liu and others, who received Mu Jinyu's transmission, had all returned. Upon seeing Mu Jinyu standing at the foot of the mountain, they flew towards him like swallows, kneeling on one knee before him.

"Rise," Mu Jinyu reached out to help Yu Shenfeng up and then spoke to Qiu Bai, San Liu, and the others.

Upon hearing Mu Jinyu's words, Qiu Bai, San Liu, Nameless, Chen Xiuying, and Zhu Yeqing, who were kneeling behind Yu Shenfeng, all stood up.

After greeting Yu Shenfeng, Mu Jinyu turned his gaze to San Liu and Nameless, asking, "The Nine Heavens Mysterious Kill Sword Formation of Yinlong Mountain, was the sword array diagram something you acquired accidentally? At that time, weren't you pursued by a duke from Fallen Splendor? Do you want to annihilate Fallen Splendor?"

"Hmm?!"

Upon hearing Mu Jinyu's words, a hint of hatred and murderous intent flashed in the eyes of San Liu and Nameless, and they replied loudly, "Yes!"

One simple word, yet it revealed an endless, ingrained hatred.

After being hunted by Fallen Splendor, Mu Jinyu had too many affairs on his plate and Fallen Splendor's base was hard to find, leaving him with little energy to help them seek revenge!

Later, during the year Mu Jinyu was away, San Liu and Nameless became Yu Shenfeng's disciples, serving as sharp blades of Slaughter Redemption, they showed no mercy when encountering members of Fallen Splendor while eliminating opponents of Dragon King Hall!

Yet, it was difficult to uproot Fallen Splendor completely!

After all, it's a global power!

And now, from Mu Jinyu's words, it seemed he intended to target Fallen Splendor, determined to annihilate it completely?

This couldn't help but excite and thrill them!

"Let's go; I will assist you in your cultivation so that you may soon reach the Fanxu Realm, and at that time, Fallen Splendor will be of no consequence." Mu Jinyu lightly said, glancing at the cultivation of Qiu Bai, Chen Xiuying, and San Liu.

Upon hearing this, Qiu Bai, Chen Xiuying, and the others looked even more exhilarated and excited.

Nameless, hearing Mu Jinyu's words, couldn't help but darken her gaze, showing a hint of envy.

Due to soul seizing, her cultivation speed was extremely slow, almost impossible to break through realms. Even in this dazzling era of spiritual energy revival, she barely reached the First Layer of the Divine Transformation Realm.

Meanwhile, San Liu and Qiu Bai have reached the sixth or seventh layers of the Divine Transformation Realm!

Now, with the Dragon King's assistance, their power is bound to soar, soon stepping into the Fanxu Realm.

Meanwhile, she, once the most feared nameless assassin in Slaughter Redemption, can only remain obscure and mediocre in this brilliant age, which inevitably left Nameless feeling disheartened.

Mu Jinyu glanced at Nameless and said, "Nameless, I have a way to help you resolve the aftereffects of soul seizing, you needn't be upset."

Chapter 1209: An Excited Third-Rate Nameless! Inheriting a Heaven Rank Cultivation Method!

"Hmm?!"

Upon hearing Mu Jinyu's words, Nameless's previously dim eyes suddenly sparkled with brilliance. She lifted her head abruptly to look at Mu Jinyu, her voice trembling as she urgently asked, "Dragon Master! Is... is this true?"

Although she had avenged herself by killing the former Lord of the Killing Realm and felt no regrets in this life, if she could continue cultivating, increase her lifespan, and stay longer with San Liu, she would naturally not refuse.

She hurriedly pursued, "But I... my situation is different from the two madams, my original physical body is no more..."

"Yes, Dragon Master, do you really have a way?" San Liu also asked Mu Jinyu excitedly, his fists clenched tightly, showing his inner tension.

Over the past year, the strength of everyone in the Dragon King Hall had been progressing continuously. The cultivation of the past year was equal to ten or even twenty years before, but Nameless only broke through from Energy Transformation to the Divine Transformation Realm without further progress.

On the surface, she didn't say anything, but he could sense her inner inferiority and frustration.

San Liu had once been prepared to give up cultivation so that they could live at a comparable state, so Nameless wouldn't feel left behind.

But Nameless stopped him; she advised that given the dire situation of the Dragon King Hall, he shouldn't be so capricious, and she didn't need that kind of comfort.

Moreover, her cultivation was practically locked, destined to lag in this era of Spiritual Energy Revival. If they both stopped at the First Layer of the Divine Transformation Realm, what would they do if danger arose? Die together?

So, recalling the situation of Xiang Mantang and Mu Jinyu, San Liu had no choice but to continue cultivating hard, reaching the Seventh Layer of the Divine Transformation Realm, rather than staying at the First Layer to comfort Nameless!

He wanted to protect Nameless and didn't wish for a day when they confronted danger and he couldn't protect her, leaving him helplessly watching her die or dying together...

Upon hearing that Mu Jinyu could help Nameless solve the sequelae of the soul-seizing, San Liu couldn't help but become emotionally stirred, hoping it was true.

"Of course, there's a way; it's fine if the original physical body is gone." Mu Jinyu looked at the overly excited San Liu and Nameless, smiled gently, and continued, "Of course, it's impossible to restore the original Nameless's cultivation aptitude, but reaching a similar aptitude to San Liu's should be feasible."

Zhen Wuming, whom Nameless had seized, had remarkable aptitude. Had she not been tricked by the current Nameless, she would probably have broken through to the Divine Transformation Realm before the age of twenty.

If she were allowed to enter the Kunlun Ruins for cultivation, it would likely be no problem for her to reach the sixth or seventh layer of the Fanxu Realm by the age of thirty-seven or eight.

That would put her on par with young talents from major super clans and secluded sects participating in the Hidden Dragon Conference, such as Ji Changxin and Gu Rulong.

This aptitude was quite impressive in Huaxia.

However, unfortunately, due to the soul-seizing, Nameless's soul was destined to be incompatible with this body. Even if Mu Jinyu could use special spiritual medicines to purify her soul, making it more compatible with the body, it would be impossible to fully restore Zhen Wuming's cultivation aptitude.

"It's alright, as long as I can truly cultivate, I'll be content." Nameless said excitedly.

Her original cultivation talent was very poor, hardly worth mentioning, and now, with Mu Jinyu's help, having an aptitude similar to San Liu's already made her feel very satisfied.

"Thank you, Dragon Master!"

Upon hearing Mu Jinyu's assurance, San Liu immediately bent his knees and knelt before Mu Jinyu, forcefully kowtowing.

"Bang bang bang..."

Even the solid ground was indented by San Liu's forceful kowtows.

Seeing this, Mu Jinyu sighed helplessly, invoking the Heaven and Earth Vital Energy to forcibly restrain San Liu and suppress Nameless from kneeling as well.

"No need for this, we are all friends, brothers. Moreover, if not for Nameless's soul-seizing technique at that time, Ruyan might have been killed by Ye Wushuang's plot, and I'd have been powerless. How would I face Ah-Xiang upon his return? I owe you this kindness with no way to repay." Mu Jinyu sighed.

San Liu and Nameless, hearing Mu Jinyu's words, although still emotionally moved, gradually calmed down, not losing composure to the point of kowtowing again.

They were proud individuals, not ones to kneel and kowtow easily.

During the time they'd known Mu Jinyu, they had only knelt to him once.

That time was when they were being hunted by the Fallen Splendor, nearly dying. Mu Jinyu arrived in time, saving them despite past grievances.

This kindness made them completely loyal to the Dragon King Hall, serving Mu Jinyu.

Of course, not kowtowing didn't mean they didn't acknowledge Mu Jinyu's current kindness. They still remembered his help deeply.

Yu Shenfeng, standing aside, watching Nameless and the others, revealed a faintly gratified expression.

San Liu and Nameless, the two disciples he received over the past year, he was extremely satisfied with, even feeling they could truly inherit his legacy.

The only regret he felt was that Nameless had excellent comprehension but was limited by her aptitude. In the environment of Spiritual Energy Revival, she barely reached the Divine Transformation Realm in a year from Energy Transformation.

Although he didn't discriminate against Nameless or abandon her because of this, he truly felt powerless.

If Nameless could bring out this body's potential to match San Liu's aptitude, she would inevitably succeed and reaching the Fanxu Realm would be no problem!

"Let's go; we should go inside first."

Seeing San Liu and Nameless calm down, Mu Jinyu waved away the Heaven and Earth Vital Energy that was restraining their actions, then soared into the sky, heading towards the Inner Valley of Yinlong Mountain.

Yu Shenfeng and others followed closely behind, accompanying Mu Jinyu to the Inner Valley of Yinlong Mountain.

Arriving at the ten bamboo huts near the river, Mu Jinyu turned to the still somewhat excited San Liu and Nameless, saying, "Take a moment to calm down. Solving the sequelae of soul-seizing isn't easy. First, I'll teach you Heaven Rank Cultivation Methods and various Divine Skills to help you reach the Fanxu Realm early."

"Alright, I'm fine, Dragon Master, take your time." Nameless, much calmer now, waved her hand to indicate that she was okay and encouraged Mu Jinyu to focus on the important matters first.

Mu Jinyu nodded, withdrew his gaze, and with a wave of his hand, a dazzling array of secret manuals appeared on the ground.

Some were bamboo slips, some were books, some were jade slips...

These secret manuals were all Heaven Rank Cultivation Methods, Divine Skills, and Techniques that Mu Jinyu had acquired after being pursued in the Kunlun Ruins by more than twenty Supreme Sect Leaders and then defeating them.

Though these secret manuals might not be useful for Mu Jinyu now, they were the most needed resources for the Dragon King Hall under the revival of spiritual energy, far more important than Heavenly Materials and Earthly Treasures.

These secret manuals could lay a more solid foundation for the warriors of the Dragon King Hall, enabling them to rise from below and achieve victory with strength overcoming strength!

Chapter 1210: Shock After Shock! Black Emperor Water Emperor Technique!

"I don't know the rank of your cultivation methods, but I assume it wouldn't be too high? Here are some Heavenly Rank Techniques and Divine Skills I acquired in the Kunlun Ruins, feel free to choose one that suits your cultivation."

Mu Jinyu glanced at the myriad of cultivation methods on the ground, withdrew his gaze, and said flatly.

"Heavenly Rank Techniques?"

Upon hearing Mu Jinyu's words, Yu Shenfeng was momentarily stunned, then lost his composure and exclaimed with excitement.

"Is it really Heavenly Rank Techniques? Are there so many? Dragon Master, you... you're not joking, right?" Yu Shenfeng stared at Mu Jinyu with a serious expression.

Mu Jinyu, seeing Yu Shenfeng's reaction, was taken aback. It didn't seem quite right; Yu Shenfeng had been to the Kunlun Ruins, shouldn't have reacted like this?

Then, Mu Jinyu recalled the scene when he first met Yu Shenfeng, who then only had the cultivation of the Seventh Layer of the Divine Transformation Realm, and remembered Yu Shenfeng mentioning that he was a loser, chased out of the Kunlun Ruins in disgrace.

In that case, Yu Shenfeng indeed had a rough time back then. With cultivation only at the Seventh Layer of the Divine Transformation Realm, a top profound rank method was probably attainable, perhaps an entry-level Earth Rank method, but that was unlikely.

And even an entry-level Earth Rank technique, what would it compare to a Heavenly Rank Technique?

Thus, Mu Jinyu immediately understood Yu Shenfeng's reaction.

"Indeed, they're all Heavenly Rank Techniques; as for why there are so many, it's because I've pretty much robbed all the factions in Kunlun Ruins with heavenly techniques." Mu Jinyu explained, a hint of a smile rising on his face.

"I see, the Dragon Master is indeed mighty."

Qiu Bai and San Liu praised with smiles.

Yu Shenfeng, however, said nothing, gazing at Mu Jinyu with a face full of shock.

San Liu and Qiu Bai had never been to the Kunlun Ruins, they had no idea what Heavenly Rank Techniques meant, nor did they understand the level of difficulty in robbing all those factions!

But having visited Kunlun Mountain once, he was acutely aware.

Back then, the enemy who forced him to a dead end was just a disciple from a super clan, with strength comparable to his, but because the cultivation methods and divine skills he practiced were far superior in rank, he was completely overpowered without any means of resistance.

This had always made him envious of the disciples of those factions, and deeply long for the chance to practice a Heavenly Rank secret manual one day.

Whether it was a cultivation method or divine skills, he no longer cared.

Now, faced with the dreams of Heavenly Rank secret manuals directly, the feeling for Yu Shenfeng was beyond overwhelming.

Yu Shenfeng was unaware that Mu Jinyu not only robbed these great forces but also practically annihilated their supreme sect leaders.

He also seized over a dozen of Heaven-reaching spiritual treasures.

When he learns about this later, he would be as shocked as a schoolboy again.

While Yu Shenfeng was utterly stunned, San Liu and Qiu Bai, who weren't quite aware of what Heavenly Rank secret manuals represented, had already started selecting among the secret manuals.

"Hey, what are you doing, is this how you treat secret manuals? Be gentle with them!"

Yu Shenfeng snapped back to reality and immediately scolded Qiu Bai.

Because Qiu Bai had casually set down a bamboo slip after deciding he didn't like it, making quite a noise, which worried Yu Shenfeng to no end about damaging it.

"Yes, Master, I understand..."

Qiu Bai quickly apologized, he hadn't done it on purpose.

Mu Jinyu, however, waved his hand nonchalantly and said, "It's no big deal, they're just some techniques, I've got plenty, and there are backups; if they break, so be it."

Yu Shenfeng was pained, hurriedly picking up the bamboo slip, he glanced at it, his eyes widened, his hand clutching the bamboo slip trembled, "The 'Roar of the Furious Dragon'?! Mid Heavenly Rank Divine Skill?!"

The highest-level secret technique he possessed was only a top profound rank.

And he had treated it as a prized possession, only teaching it to Qiu Bai and Chen Xiuying, with San Liu and Nameless still under consideration for teaching, while Zhu Yeqing was almost never going to be taught this top profound rank secret technique.

But who would have thought that a casually displayed bamboo slip from Mu Jinyu would record a mid-Heavenly Rank divine skill, leaving him in an incredibly complex mood.

Like a poor worker who ate salted vegetables with thin porridge and buns every day, occasionally spending a hundred on barbecue felt like a feast.

Then one day, his acquaintance suddenly revealed himself to be a rich second-generation experiencing life, treating them to food and entertainment, each meal spent thousands or tens of thousands on abalone, lobsters, and sea cucumbers.

The impact on them was too shocking and intense!

Yu Shenfeng was precisely like this now, as if Mu Jinyu completely turned his worldview upside down, never expecting that one day, Heavenly Rank secret manuals would be as casually spread out like cabbages!

Blinking, Yu Shenfeng hurriedly picked up a nearby jade slip, pressed it to his forehead, and carefully comprehended it.

Before long, he gaped in surprise, exclaiming, "'Hanhai Scripture', Superior Heavenly Rank Cultivation Method?!"

Thereafter, Yu Shenfeng fell into a frenzy, continually examining the ranks of these secret manuals, exclaiming repeatedly.

San Liu and Nameless stood by, observing their master's demeanor, strange smiles forming on their faces.

They couldn't have imagined that their normally stern and serious master would one day appear so out of control.

Then, they began selecting from the various secret manuals Yu Shenfeng had looked over and set aside, choosing techniques suitable for their constitution.

"Oh my, 'Bihai Tide Rising Melody', Top Heavenly Rank Divine Skill! They even have this?" Yu Shenfeng exclaimed, not expecting even a top heavenly rank divine skill to be found here.

It was then he realized that Mu Jinyu had unreservedly laid out all the Heavenly Rank secret manuals in his possession for them to choose from.

Yu Shenfeng's assumption was correct, Mu Jinyu indeed presented all the Heavenly Rank Techniques he possessed without reservation for them to choose from.

And because the 'Green Emperor Wood Emperor Scripture' was taught to him by his mentor and only existed in his sea of consciousness, and not everyone could practice it, he didn't bring it out.

Everything else, including the other Five Emperors Techniques, he had laid out.

"Is this... 'Black Emperor Water Emperor Technique'?!"

At this moment, after viewing a jade slip, Yu Shenfeng's eyes burst with dazzling splendor as he looked up at Mu Jinyu with excitement, "Dragon Master, you even brought out this technique... I..."

Previously afflicted by cold poison in the Extremely Cold Hell and paralyzed for decades at Yulong Snow Mountain, it was Mu Jinyu who provided the 'Heavenly Frost Profound Cold Qi', a preliminary cold technique from the Five Emperors Techniques' 'Black Emperor Water Emperor Technique,' that helped him escape his plight.

Currently, the technique he desired most was none other than the 'Black Emperor Water Emperor Technique'!

This also explained his earlier frantic search through these secret manuals.

Because he thought, perhaps among them lay the Five Emperors Technique!

But he also thought that the possibility was not very high, as after witnessing the wonders of the 'Green Emperor Wood Emperor Art,' he felt that even if Mu Jinyu did have the Five Emperors Technique, he might not provide it.

But unexpectedly, he indeed found it among these secret manuals.

Seeing Yu Shenfeng's excited expression, Mu Jinyu, understanding his thoughts, smiled lightly and said, "Senior Yu, you overestimate it. Over this past year, the dedication you've shown to the Dragon King Hall, although I wasn't in Huaxia, I'm well aware of it, such a mere technique is not much. Continue choosing, there must be divine skills here suitable for you, just pick what you like."
