Chapter 1511: A Desperate Struggle to the Death! A Narrow Escape! Mu Shao'ai Finally Arrives!

Yuan Jue saw Xilin die before his eyes, and instantly his eyes filled with rage, madness surging within him, murderous aura bursting forth, soaring into the sky.

He had spent more than a year laboriously crossing the barriers between two realms, only to finally find his sister, who then died right in front of him!

More importantly, the one who killed her wasn't even one of his great enemies, but a piece of trash from the human race he had always looked down upon!

This was simply unacceptable, a great humiliation!

If the Heaven's Pride and Monsters from the Canglan Realm were to learn that in a minor world, he allowed the local indigenous humans to kill so many of the Divine Race, it wouldn't just be him becoming a laughingstock; the entire Divine Race would be nailed to the pillar of shame!

No longer qualified to stand among the Ten Great Strong Races!

Therefore, Mu Jinyu must die, as must all indigenous people of this world!

Today, blood must flow like a sea!

For his dead sister, and for those dead of the Divine Race as a sacrifice!

"Kill!!!"

Yuan Jue's eyes blazed with golden light, obscuring the pupils and whites, as if two pieces of gold were embedded in his eye sockets.

"Hoo!!!"

The twelve light wings on his back, also formed by light, gradually solidified, as though cast from gold into divine angel wings!

"Sword of Judgment!"

With a furious shout, Yuan Jue gripped the Holy Light Broad Sword in his hand, his face stern and solemn, and with a violent swing, he slashed straight toward Mu Jinyu, trapped by the encircling Divine Race, the sword light like a furious wave cutting through the ocean, slashing directly at Mu Jinyu!

This sword, he didn't hold back in the least, even if it meant killing those encircling Divine Race guards alongside Mu Jinyu; he was determined to completely slay Mu Jinyu!

Yuan Jue was already maddened, not in the mood for slowly hunting Mu Jinyu.

He couldn't tolerate seeing Mu Jinyu still jumping around for even a moment!

"This..."

"Lord Yuan Jue!"

The remaining six Divine Race guards encircling Mu Jinyu, seeing Yuan Jue attacking so mercilessly, themselves within the attack range, all turned pale!

They had known things were bad when they saw Xilin die, but didn't expect it would drive Yuan Jue to such madness!

But as Yuan Jue's guards, knowing Yuan Jue intended to hold Mu Jinyu down and then take them all down together, they had no choice but to face death willingly!

"Ah!!!"

"Die!!"

"Damn it!"

The six Divine Race guards, seeing Mu Jinyu still resisting their attacks, their eyes immediately turned red, each again using a life-for-life combat style, determined to hold Mu Jinyu down so Yuan Jue could completely slay Mu Jinyu!

"Hmph!!"

Mu Jinyu's eyes flashed with cold lightning, his black hair fluttering, the arm severed in the battle with Xilin now regrown, wielding the Dragon Phoenix Cauldron, which was gradually healing, to fend off the attacks of the Divine Race guards while attacking them with the Dragon Spear!

"Boom boom!!"

And at this time, Mu Jinyu saw Yuan Jue's terrifying Sacred Light Sword Qi slashing down, the Sword Qi containing an extraordinary purifying breath, making Mu Jinyu feel ashamed and desirous of self-dissolution.

"Hah!!"

In an instant, Mu Jinyu's eyes opened wide, knowing he couldn't withstand Yuan Jue's desperate sword, fearing it touched upon his Origin; resisting might lead to dire consequences!

Mu Jinyu roared furiously, driving the Dragon Phoenix Cauldron to shield himself!

But at this moment, the six Divine Race guards holding him down, knowing their end was inevitable, desperately held onto his Dragon Phoenix Cauldron.

As Yuan Jue's Judgment Sword grew closer to Mu Jinyu!

Global spectators of the livestream were all on edge.

"No!! These Yellow Feathered Bird People are too despicable, using such tactics against the Dragon King!"

"Come on, Dragon King, withstand this and take down a few more of the Yellow Feathered Bird People! The Dragon King is invincible!"

"Yes, the Dragon King is invincible, no matter how they gang up, the Dragon King is fearless, given time, they will all die!"

"..."

The young viewers of the livestream, lacking higher-level insights, fervently hoped to witness Mu Jinyu's ultimate triumph in an epic battle!

However, those with strength around the Fanxu Realm level were not so blindly optimistic, seeing Mu Jinyu's current peril!

And the imminent true danger Mu Jinyu was about to face!

In Yinlong Mountain.

Wen Rou and Su Zijin were watching the livestream, anxious, murmuring:

"Hasn't Xiyan found Master yet?"

"If no support comes, Jinyu can't hold out much longer!"

"Master, Yin Li, hurry and get here!"

"..."

Mount Tai!

Mu Jinyu saw the Dragon Phoenix Cauldron blocked by the six Divine Race guards, his eyes growing fiercer, as cold lightning flickered as if through the long sky!

"Do you think you can kill me like this?"

Mu Jinyu fiercely drove the Divine Dragon Blood within him, performing the "True Dragon Mystic Taoism"!

"Howl!"

In an instant, the battered Divine Dragon Soul once again emerged, clawing and fanged, covering the vast sky!

But this time, the Divine Dragon Soul didn't engage Yuan Jue's Judgment Sword directly, but shielded Mu Jinyu.

"Boom boom!!!"

"Bang bang!!!"

Finally, Yuan Jue's Judgment Sword struck down.

The edge was simply unmatched, with the Divine Dragon Soul, hastily summoned to protect Mu Jinyu, crumbling instantly like tofu against a sharp blade!

The pure white sword light, after shattering the dragon soul, continued its onslaught towards Mu Jinyu!

"Bang bang bang!!"

The six Divine Race guards entangling Mu Jinyu and the Dragon King Hall were also caught in the Sword's light, instantly dissolving into stardust-like golden light!

Global livestream viewers, witnessing this, were petrified, no longer cheering recklessly for Mu Jinyu's dominance or making foolish boasts!

Everyone realized Mu Jinyu was facing his most perilous battle yet since his emergence!

"Puh!!"

The Divine Dragon Soul crushed, Mu Jinyu couldn't help but cough up blood, his spirit wavering.

Seeing the six difficult Divine Race guards purified instantly, his pupils contracted, sensing unprecedented pressure!

He knew, if he couldn't block this sword, even the Life Source Energy couldn't save him!

"Who dares to be reckless!"

Just as Mu Jinyu prepared for a desperate struggle, a cold, sharp shout came from the distant void, carrying urgency and anger, with a hint of unnoticeable unease and panic!

Mu Jinyu's eyes immediately lit up!

Mu Shao'ai had finally arrived!

Chapter 1512: Hundreds of Thousands of Miles Levelled! The Absolute Despair of the World-Destroying Divine Cannon!

"Ha!!"

"Break!"

Mu Shao'ai crossed the void, his steps were like Shrinking Ground into Inches, instantly flying from a thousand miles away to Mu Jinyu's side!

Then, he looked at the terrifyingly powerful God's Punishment Sword, which had completely surpassed the realm of Unity Realm Stage, causing his pupils to involuntarily contract slightly.

Immediately, he let out an angry roar, raised his palms, and his True Yuan surged violently, directly clashing with the front!

"Buzz!!"

Visible to the naked eye, a halo quickly condensed between Mu Shao'ai's palms, followed by the appearance of two lively Yin Yang Fish, spinning to construct a Tai Chi Diagram!

The Tai Chi Diagram, interwoven with mysterious runes, trembled slightly, then seemed to open a series of the most mysterious secrets, rendering the Tai Chi Diagram like a door that opened by itself!

"Roar!"

"Screech!"

"Roar!!"

"Woo!!"

As the Tai Chi Diagram opened, various beastly roars sounded immediately.

Then people around the globe witnessed a majestic Azure Dragon, a beautiful Phoenix, a vigorous White Tiger, and an immovable as a mountain Xuanwu, successively walk out from the Tai Chi Diagram!

"Buzz!"

"Boom!!"

As the Four Mythical Creatures appeared, the Tai Chi Diagram blossomed even more with complex runes, with various colors of light blooming one after another, connecting with the Four Mythical Creatures, evolving into an astonishing Formation Map!

"Rumble!!"

In a hair's breadth, just as the Four Symbols Formation Map had just completed, the Judgment Sword of Yuan Jue finally crashed towards them and then violently collided with it!

In an instant, the entire world could see nothing but pure white light and splendid golden light intertwined, bursting together into a dazzling and extreme light.

People who witnessed this scene felt like their eyes were going blind, unable to see anything clearly anymore!

For a long, long time...

No one knew exactly how long had passed.

When they found they could barely see the live broadcast on the screen, they only saw the land within tens of thousands of miles around Mount Tai had been leveled, with no buildings, no mountains, and no vegetation left!

Only the barren land remained!

Which showed just how terrifying the battle between Mu Shao'ai and Yuan Jue just was!

"Huff huff..."

Mu Shao'ai stood in front of Mu Jinyu, panting heavily, feeling his heartbeat about to leap out of his throat.

That clash just now could almost be said to be the most perilous battle since he advanced to the Void Breaking Realm, he nearly lost his life!

This made Mu Shao'ai, who had always overlooked the entire Earth's cultivation world with an almost invincible posture, feel trepidation, as if returning to the past when he was only cultivating Energy Transformation Cultivation and Divine Transformation Realm Cultivation, being cautious in every step he took!

However, this perilous battle also ignited Mu Shao'ai's long-cooled passion. He realized that indeed, his nature was still untamed, being too invincible had stopped his progress, only such passionate and desperate fights could allow him to continue to advance!

"Master..."

Although Mu Jinyu was not affected in the slightest under Mu Shao'ai's protection, he felt guilty and uncomfortable seeing Mu Shao'ai's body fully covered with bruises!

He hurriedly got up, raised his hand to press on Mu Shao'ai's back, mobilizing Life Source Energy to heal Mu Shao'ai.

Soon, Mu Shao'ai's external and internal injuries were healed by Mu Jinyu, aside from the bloodstains on his body.

"Is this the strongest among the barbarians' Minor World that my sister mentioned? Not bad, actually managed to withstand that sword of mine!"

At this moment, Yuan Jue, who had originally disappeared in front of Mu Jinyu and his master, making them almost think he was killed by the impact of his own sword, appeared again, waving his Twelve Light Wings before their eyes.

Seeing Yuan Jue reappear, Mu Jinyu and Mu Shao'ai's pupils constricted involuntarily!

They were not surprised by Yuan Jue's appearance.

But because, beneath Yuan Jue's feet, a gigantic warship was hovering in mid-air, though it looked somewhat rudimentary and lacked the imposing aura of modern technologically crafted warships, its terrifying killing intent was so overwhelming that it overshadowed its exterior flaws!

As soon as they saw this warship, Mu Jinyu and Mu Shao'ai understood that this was not a Heaven-reaching spiritual treasure, but a weapon of war far surpassing Heaven-reaching spiritual treasures!

They had barely managed to hold back Yuan Jue's Origin Source-draining sword destruction, but now, even if they took out all their Heaven-reaching spiritual treasures, it would be difficult to withstand a single wave of attack from this warship!

Yinlong Mountain.

Wen Rou, Mei Yinxue, and Su Zijin, initially seeing Mu Jinyu and Mu Shao'ai survive the terrifying sword assault, while Yuan Jue disappeared, couldn't help but weep for joy, thinking the battle was over!

But now, seeing Yuan Jue commanding a terrifying warship reappear near Mount Tai.

The smiles and joy on their faces instantly froze.

At the same time, a more intense panic and despair seized their hearts, almost leaving them breathless.

"This..."

"What is this thing? It looks very fierce!"

"Damn it, it was hard for the Dragon King to finally get a helpful ally, and now that last yellow feathered bird person actually brought out this warship?"

"Damn, this bird person still had such a card up his sleeve? Damn it, let's fight him too, anyway, Mount Tai is almost destroyed, if the Dragon King and they fall, we'll directly nuclear strike that bird person!"

The people watching the live broadcast also felt great panic and helplessness!

It was like they finally defeated one Devil King, only for the Devil King to not die but instead transform into an even more terrifying Great Demon King who returned, equipped with stronger weapons. How could they accept this?

They were so dejected that they wanted to quit the game!

Mount Tai.

Yuan Jue brought out his Divine Race warship, which crossed domain boundaries between the two worlds this time, without any more nonsense, he gave Mu Jinyu and Mu Shao'ai, his master and disciple team, no time to catch their breath, and poured all the Divine Crystals he brought into the mechanism that activated the World-Destroying Divine Cannon.

Immediately!

"Creak creak creak..."

"Boom!!"

They then saw the battleship's head suddenly open up a gap, followed by a sinister pitch-black cannon barrel, ten zhang long and three zhang wide, directly aimed at Mu Jinyu and Mu Shao'ai!

At this moment, Mu Jinyu and Mu Shao'ai's hairs stood on end, bristling like cats being stared at by a venomous snake.

"Swish!"

They didn't hesitate, immediately using Void Shift to retreat first, avoiding being hit by Yuan Jue's World-Destroying Divine Cannon!

But...

No matter where they shifted, the cannon muzzle at the battleship's head was always firmly aimed at them, as if it had already locked onto them.

Even if they acted separately, they both felt the cannon was aimed at them individually, with no one feeling any relief.

"Boom boom boom!!!"

At this moment, the Divine Crystals Yuan Jue threw into the mechanism started to take effect, and two tiny, faint light points began flickering inside the sinister cannon muzzle!

Although the light points seemed weak, like sparks flying from a burning flame, the pressure they brought was suffocatingly despairing!

Chapter 1513: Inescapable Despair! Ready to Risk It All!

"Heavens, what on earth is that thing?"

"What a terrifying cannon, it doesn't seem so threatening at first glance, but just watching the live stream gives me goosebumps all over, making me almost afraid to keep watching!"

"If just watching the stream makes us feel so scared, how desperate must the Dragon King and others feel facing the threat of this cannon directly!"

"I'm suddenly losing confidence, even though the Dragon King has killed all the other Yellow Feathered Bird People, this remaining Bird Person is truly terrifying. Can the Dragon King still win? Will we lose?"

"Come on, Dragon King!! You must win!!"

"..."

At this moment, people worldwide watching this earth-shattering battle no longer held the blind adoration and confidence in Mu Jinyu, believing that he would eventually quell all the chaos!

Most people lost that confidence.

The commentary in the live stream also started to change, some feeling hopeless and terrified, while others kept praying the Dragon King would ultimately win!

On the Mount Tai Battlefield.

Mu Jinyu and Mu Shao'ai moved separately, teleporting thousands of miles away, yet they could still feel the despairing killing intent enveloping them.

"No!!!"

"We can't run! That would only put innocent civilians at risk again!"

"Instead of running and waiting to die, we might as well join forces to kill that guy; maybe there's still a chance to turn things around!!"

"..."

Mu Jinyu and Mu Shao'ai quickly reached a consensus and then stopped Void Shift, trying to escape the deadly lock of the World-Destroying Divine Cannon!

They jointly shifted back, charging towards Yuan Jue!

"Clang!!"

Mu Jinyu, holding the Dragon Spear with a chilling killing intent, swiftly rushed onto the battleship, stabbing fiercely at Yuan Jue's head!

"Clang clang!!"

Mu Shao'ai also drew a Heaven-reaching spiritual treasure long spear, using it like a javelin, pouring divine power into it, then fiercely hurling it, slicing through the sky, charging towards Yuan Jue standing arrogantly on that battleship!

"Hmph!!"

Seeing this, Yuan Jue sneered coldly, his gaze disdainful as if watching two ants challenge the might of the heavens, not even deigning to counter.

"Boom boom!!"

Mu Jinyu's Dragon Spear and Mu Shao'ai's hurled spear pierced through the void, closing in on Yuan Jue!

Yet Yuan Jue still stood with hands behind his back, not taking their counterattack seriously at all!

Seeing this scene, the live stream viewers couldn't help but sweep away their dejection, becoming spirited and hopeful that Mu Jinyu and Mu Shao'ai could jointly resolve this greatest calamity of the Divine Race!

"This Bird Person is truly damn arrogant; hope he never fights back, so the Dragon King can blow his head off!"

"Exactly, go Dragon King, kill this guy, maybe it'll stop his cannon attack!"

"Go Dragon King, the Bird Person must die!"

"The Bird Person must die!"

Just as a crowd was exhilarated, believing that Mu Jinyu and his mentor would surely achieve victory, wiping out all the Yellow Feathered Bird People who crossed the interdimensional barrier, some directly poured cold water on them.

"You're thinking too much; this Bird Person obviously isn't an idiot; how could he really not fight back and let the Dragon King attack him?"

"Yeah, I think so too; even if he doesn't fight back, he probably has a way to avoid getting hurt, rendering the Dragon King's attacks futile!"

"Have you noticed? The dazzling divine light accumulating inside the cannon's mouth is getting even more intense. If this cannon shot out, killing the Dragon King and others, and the energy doesn't stop, could it... blow up the whole Earth?"

"This..."

Just as another group of people, desperately trying to grasp at straws in a hopeless situation, was about to refute these pessimistic remarks.

They saw in the video footage.

The Dragon Spear thrust by Mu Jinyu and the spear shot by Mu Shao'ai were all stopped three feet before Yuan Jue, unable to advance! Just like slicing green onions against a glass window!

Unable to shake the invisible, transparent Protective Shield on Yuan Jue's body surface!

This was why Yuan Jue dared to stand unaffected by Mu Jinyu and Mu Shao'ai's joint assault, ignoring their attacks while standing hands behind his back in front of the battleship!

Because after activating the battleship with the Divine Crystal, no one on Earth right now could harm him!

At this moment, though Yuan Jue stood cool and distant on the prow of the ship, his heart felt like it was bleeding!

Since Xilin's death, he'd always regretted listening to Xilin just now and stashing away the battleship to save some Divine Crystal!

If he hadn't planned to save that Divine Crystal from the start and had directly commanded the battleship to conquer this desolate world of barbarians, even if Mu Jinyu stood in their way, how could he have killed Xilin and his subordinates?!

But alas, it was too late to regret it now!

Xilin was already dead at the hands of Mu Jinyu!

At this moment, filled with sorrow and rage, all Yuan Jue wanted was for Mu Jinyu and the others to die in despair and see the world they lived in destroyed completely along with them!

"Arrgh!!!"

Yuan Jue's eyes burst with golden light, seemingly turning crimson at this moment. He glared at Mu Jinyu, suddenly letting out a roar.

"Die, all of you!"

"Boom!!!"

With Yuan Jue's roar, the earth-shattering rumbling that made all of humanity tremble followed. The muzzle of the World-Destroying Divine Cannon, unbeknownst to all, had already aimed at Mu Jinyu and Mu Shao'ai, and then the two dazzling points of light within the muzzle suddenly surged towards them!!

"Rumble rumble!!"

Seeing this, Mu Jinyu and Mu Shao'ai's pupils narrowed sharply, immediately shifting in retreat!

"Let's go, there's no other way, let's hide in the Kunlun Ruins!"

"Master, I'm sorry for involving you, but I can't abandon them and flee to the Kunlun Ruins!"

Listening to Mu Shao'ai's anxious roar, even as Mu Jinyu was still Void Shifting to escape, he was unwilling to flee to the Kunlun Ruins.

Not to mention whether they could dodge the ultimate strike of the World-Destroying Divine Cannon by hiding in the Kunlun Ruins.

Even if they could, what about his wife, mom, and friends still on Earth? Would they just await their doom?

Therefore, Mu Jinyu would not escape. He thought to himself, even if he had to die in the end, he would try to consume as much of the World-Destroying Divine Cannon's energy as possible, hoping his wife and mother would survive in the end.

Thinking this way, Mu Jinyu sighed silently in his heart, then stood in front of Mu Shao'ai, saying, "Master, you go. I'll try to block it; you should go to the Kunlun Ruins first!"

"Ah... silly child!" Mu Shao'ai sighed, not fleeing to Kunlun Mountain. "I have no children in my life; you and Ah-Xiang are my disciples, but I see you both as my own children. How could I let you cover my retreat?"

"This time, it's my turn to risk my life!"

Mu Shao'ai's eyes hardened, preparing to fight with all his might to shield Mu Jinyu from the World-Destroying Divine Cannon's blast!!

However, just as this master-student pair halted, preparing to withstand Yuan Jue's blastful strike from the World-Destroying Divine Cannon, watching as those two faint points of light approached them...

"Eeeek!!"

At this moment, a small three-foot-long divine dragon suddenly flew over from the distance, its expression excitedly rushing towards the energy waves blasted out by the World-Destroying Divine Cannon.

It was the little princess of the Divine Silkworm Clan, Yin Li!

Chapter 1514: Yin Li Unleashes Her Divine Might! Yuan Jue's Tragic Death!

Yin Li flew over from the distant sky, looking at the energy wave of the World-Destroying Divine Cannon that was relentlessly pursuing Mu Jinyu. There was no fear in those big eyes, only excitement and thrill.

Then, under the incredulous eyes of everyone in the world, Yin Li flew over, opened her mouth wide, and devoured the two points of Divine Crystal energy waves in one gulp.

"Woo woo woo... So happy, such pure Divine Crystal energy, haven't tasted this in a long time..."

Having devoured these two energy waves, Yin Li wriggled excitedly, as if she had just taken a stimulant, jumping around on the spot.

"Holy crap, what the heck is this? That's too awesome!"

"That seems to be the Dragon King's spirit pet, who knew it was this powerful! Even the Dragon King wouldn't dare to directly withstand the cannon's blast, yet it swallowed it in one gulp?"

"To swallow it is one thing, but it's still alive! And not just alive, it's actually happy... Is this truly a Divine Dragon?"

"So cute, I wish I had a divine pet like this too!"

"Are you guys missing the point? We should be thankful right now that the Dragon King is okay, he was saved by his divine pet!"

"Yes, this is indeed a great blessing, the Dragon King is unharmed and his divine pet seems to be able to counteract that terrifying cannon, so that last Yellow Feathered Bird Person won't be able to cause any more trouble!"

"..."

People watching the live stream around the world, seeing Yin Li suddenly appear and swallow that energy wave from the World-Destroying Divine Cannon, were first envious of Yin Li's cuteness, and then a group of people snapped back to their senses, starting to get excited about Mu Jinyu and Mu Shao'ai being safe, while the despair of Yuan Jue was about to come.

Yinlong Mountain.

Su Zijin and the other women watched the screen, their faces wet with tears. They all thought that under that deadly assault just now, Mu Jinyu might not survive. They were all in deep pain, and Wen Rou and others had even prepared themselves, if Mu Jinyu perished in battle, they wouldn't survive either and would definitely avenge Mu Jinyu, even if it meant dying in battle!

"So wonderful!"

"Xiyun fortunately called Yin Li back just in time!"

"It's all okay now, so wonderful, Yin Li truly is the savior..."

Tears brimmed in Wen Rou and the other women's eyes, deeply moved, they all decided that after this battle was over, whatever type of ice cream Yin Li wanted, as long as they could make it, they would make it for her.

Mei Yinxue gently stroked her still flat belly, her expression full of emotion and excitement.

Just a moment ago, she really thought Mu Jinyu might be in trouble, but unlike Wen Rou and the others, she wasn't considering seeking revenge for Mu Jinyu at all costs, even if it left her without a place to be buried.

Because of the child in her belly, she couldn't act as recklessly as Wen Rou and the others, she had already planned to live on stealthily at first, no matter what, to give birth to Mu Jinyu's only child and raise it to adulthood!

Once the child grew up, if she could still find Yuan Jue, she would then initiate her revenge action!

Mei Yinxue had all kinds of desperate thoughts at that time, but in the end, thank goodness, Yin Li arrived in time and did not let that tragedy happen!

Thus, in Mei Yinxue's heart at this moment, there was an unprecedented sense of gratitude toward Yin Li!

Mount Tai.

Mu Jinyu and Mu Shao'ai, the master and disciple duo, looked at Yin Li who almost seemed to dance gracefully before them with somewhat dazed eyes, their eyes practically popping out of their sockets in shock.

They had never underestimated Yin Li, knowing she was actually extremely powerful, but they didn't expect her to be able to devour the energy wave from the World-Destroying Divine Cannon, the terrifying energy that could perhaps destroy Earth, in one gulp?

Moreover, from Yin Li's incredibly happy words, it seemed she had eaten such energy waves before, treating them like a tasty treat?

So incredible!

Truly, one can't even imagine how terrifying the power of the former Silkworm King was!

Did she indeed dominate the multiverse!

Causing billions of species in the vast universe to submit!

"You! You! You..."

Standing on the warship, Yuan Jue saw Yin Li swallow those two groups of Apocalypse Divine Source in one gulp, the sneer that had risen on his face upon foreseeing the tragic deaths of Mu Jinyu and Mu Shao'ai instantly froze, looking especially ridiculous and laughable.

Then, he was suddenly furious, immediately controlling the warship to retreat while simultaneously accumulating Divine Source power, transforming it into a World-Destroying energy wave to kill Yin Li!

"Boom!!"

Hearing the sound of the World-Destroying Divine Cannon starting up, Yin Li awoke as if from a dream, then widened her eyes, looking at the warship continuously retreating, shouting loudly: "Don't run! Don't run!!"

She knew very well that there was still a lot of Divine Crystal Energy in this warship, something that was a great supplement to her, even more effective than Top-Quality Spirit Stones. It wasn't easy to wake up after so long, and finally, she could again savor this Divine Crystal Energy, naturally, she wouldn't let it get away!

"Whoosh!!"

The warship's retreat was already fast, but Yin Li was faster, instantly rushing into the cannon's muzzle of the World-Destroying Divine Cannon.

Swallowing the Destruction Divine Source that had not yet been completely accumulated and transformed!

Then, like a caterpillar, she crawled along the cannon's muzzle, found the pile of golden Divine Crystals that Yuan Jue had previously thrown into the starting platform!

"Woo woo woo!!"

Upon seeing these golden Divine Crystals, her beautiful big eyes immediately showed a strong greed, as if a money-obsessed person saw a pile of treasures, or a foodie saw various delicacies, she chuckled a few times, muttering, "I won't be polite then!"

And began to feast, devouring all these Divine Crystals in one gulp.

Causing Yuan Jue's eyelids to twitch continuously, filled with righteous ire yet with no place to vent, and instead, there was a surge of fear arising in his heart.

"You... Are you of the Dragon Clan?!"

"No!"

"There's no Dragon Blood in your body, yet you have the appearance of a True Dragon, what kind of divine beast are you exactly?"

Yuan Jue, both surprised and furious, looked at Yin Li, his voice trembling, filled with unease and fear.

To be able to swallow so many Divine Crystals at once and treat them like a snack without being blown apart by energy, even among their Divine Race, hardly anyone could accomplish this feat, only pure-blooded True Dragons or a few such divine beasts could do this!

Yet in his perception, Yin Li had no Dragon Blood in her body, but still had the appearance of a True Dragon, causing him tremendous fear and despair!

"Woo woo woo..."

After swallowing those Divine Crystals, Yin Li smacked her lips a few times, then howled like a wolf, raising her head to fixate on Yuan Jue.

"You!"

Being stared at by Yin Li, Yuan Jue suddenly felt an overwhelming sense of unease, as if a small dog was being stared at by a prehistoric beast, making him not dare to run even if he wanted to, his whole body stiff, unable to move!

This came from the suppression of Bloodline Power!

"Awoo!"

Yin Li let out a strange cry, then pounced behind Yuan Jue, opening her mouth to sever and eat the Twelve Light Wings growing on his back one by one!

"Ah!!"

With the Twelve Light Wings being devoured, Yuan Jue let out a heart-wrenching, visceral scream, his face contorting, losing all trace of its former handsomeness and transcendence!

And after consuming Yuan Jue's Light Wings, Yin Li burrowed into Yuan Jue's Dantian, starting to devour his Divine Race Origin Source.

"Ah!!!"

Feeling the loss of his Origin, Yuan Jue let out a desperate and resentful roar, but as his Divine Race Origin Source continued to ebb away, his screams gradually weakened.

One minute later.

Yuan Jue's head tilted, his eyes vacant, his whole body exuding Deadly Qi!

Chapter 1515: Major Actions from the Divine Race of the Canglan Realm! Yin Li's Grievance!

Canglan Realm!

An ancient hall standing on the Divine Mountain.

This is the territory of a large family within the Divine Race.

At this moment, in a room within the ancient hall specifically used for storing the life lamps of clan members, the extinguishing of over a dozen life lamps in succession has caught the attention of this Divine Race family!

"What's going on?!"

"Xilin is dead?!"

"And the guards who went to find Xilin, Wang Tong and the others, why are they all dead too?!"

"Only Yuan Jue is left!"

As they whispered in alarm and anger, seeing that several minutes had passed and Yuan Jue's life lamp was still intact, they finally sighed in relief.

Then they saw Yuan Jue's life lamp suddenly flicker rapidly, and then...

With a "bang" sound!

A crisp sound of a lamp explosion rang out.

Yuan Jue's Soul Lamp also shattered!

"Damn it!"

"Yuan Jue is dead too!"

"Where on earth did they go today? Find out for me!"

The Elder of the Divine Race in this family, seeing that Yuan Jue, whom the family had high hopes for, was dead, flew into a rage, pounding heavily with his Sacred Wood staff, letting out an earth-shaking roar of fury!

Soon, a Divine Race Guard who had been closely monitoring Yuan Jue's movements immediately reported to the elders: "Elder, Yuan Jue the Saint Heir has been searching for the whereabouts of Saintess Xilin near the human border. Now both Saintess Xilin and Yuan Jue the Saint Heir have died one after another, their times of death not far apart. It's likely they found the missing Saintess Xilin but met with an accident in that minor world!"

"Then find out how to get to that minor world, I want to go there and slaughter everyone!" roared Yuan Jue and Xilin's father.

He is the father of Yuan Jue and Xilin, naturally aware that Yuan Jue has been tracking Xilin's whereabouts, with clues suggesting she likely fell into a folded minor world near the Canglan Realm!

The words of the guard also indicated that Yuan Jue probably successfully entered that minor world, only to meet his end!

Not to mention Yuan Jue and Xilin are both Heaven's Pride of their lineage, even if they were worthless, as his children, he must avenge them by exterminating that minor world!

Quickly, the family launched a series of actions, inviting those with special divine skills from the Divine Race to the already massacred small village at the human border, then replayed Yuan Jue's various actions over the days to see how he reached the suspected minor world inhabited by the Human Race!

"Buzzing!!"

Using most of the day, numerous people of the Divine Clan finally managed to shake that weak spatial barrier, and a galactic vast vortex of light appeared before their eyes.

"Finally found it, it's quite mysterious!"

"Inside is a very ancient aura, seemingly enduring through millions of years, we must proceed with caution."

"Should we go in now, or let Shi Yu handle it?"

Shi Yu, the father of Yuan Jue and Xilin, a highly respected elder in this branch of the Divine Race!

"Since the issue pertains to Shi Jue's children's life and death, let him handle it himself!"

"We can inform Shi Yu to let him come over!"

Soon, the message was repeatedly conveyed until it reached Shi Yu's ears.

"Have we finally found it? Perfect, I shall use all the creatures of this realm to offer tribute to my deceased children!"

Shi Yu's face was gloomy, his extremely handsome features twisted with hatred, and then he deployed the thirty-six Light Wings behind him, instantly arriving at the small village!

Shi Yu had originally intended to go over by himself, not needing to trouble others.

But at this moment, an elder of the Divine Race said, "Don't rush over just yet!"

"Hm?!"

Shi Yu, upon hearing this, had to pause, not immediately rushing toward the starry light curtain!

The elder spoke slowly, "With the strength of Yuan Jue and Wang Tong's guards, there are very few places even in our Canglan Realm that could keep them, so why did things go wrong over there? Though in our calculation, that side should be a minor world belonging to the Human Race, which is not worth our attention. But I know some minor worlds, due to their inherent fragility, suppress the strength of powerful beings to the critical point bearable by that world when they arrive; if that's the case..."

"It might explain why Yuan Jue and they perished!"

As the elder's words came out, everyone present subtly changed their expressions.

Yes, their strength is substantial, though not the overlords of Canglan Realm, there are few formidable enough to instantly kill them!

But if they went to that minor world and their power was suppressed to a frustratingly low level, even the lowly and weak humans might counterkill these Divine Spirits?

"So, we all will go over together and see, since we are to be suppressed to the strength capacity point of that world, it's unlikely there are many people of equivalent power there, and since twenty-one of Yuan Jue's group died there, to be safe, going over twenty of us should suffice!"

"Alright!"

Even though Shi Yu felt the others were somewhat making a mountain out of a molehill, better safe than sorry; those who have cultivated to their level naturally understand this, so ultimately he agreed, and they all set off in a single warship!

"Rumble!"

A giant warship nearly a kilometer long was brought out by the Great Elder, then powered up with many Divine Crystals. Shi Yu, along with twenty-five top-grade warriors from the Divine Race, leading over a hundred lesser guards, boarded it. Then the warship started, rumbling toward that starry rotating light curtain.

A peculiar scene unfolded; the rotating light curtain, reflecting a splendid galaxy, seemed just about ten meters high, yet the warship was several hundred meters tall, it shrunk as it rushed towards the curtain, then was swallowed into it!

"Wishing you a smooth journey!"

The Divine Race warriors who stayed back softly said.

Then, they returned to their family to closely monitor the life lamps of those who went to see the final outcome!

...

Mount Tai.

After Yuan Jue died, his Origin Source consumed by Yin Li, Mu Jinyu sighed in relief, but did not leave Mount Tai immediately, instead climbed Lingtai Mountain to investigate how Yuan Jue and the others came from the Canglan Realm.

Was it Xilin who guided them over? Without Xilin's help, couldn't they come over?

Or did they finally find the way Xilin once came through, so now the Divine Race can freely travel between the passage connecting Canglan Realm and Earth?

If it's the former, well enough, as all the Divine Race from Canglan Realm this time were completely eradicated, there's no worry of them coming through it again.

But if it's the latter, then I must find a way to close this passage!

Otherwise, wouldn't Earth become someone else's backyard where they can come and go as they please?

Yin Li, lying on Mu Jinyu's shoulder, complained discontentedly, "You wastrel, you have no idea how precious the Origin Source of the Divine Race is, and you just let them be killed with nothing remaining, would've been great to leave some for me!"

Mu Jinyu was quite grateful for Yin Li's appearance to save both him and his master, but hearing Yin Li's complaint, he responded speechlessly, "If I had the leisure to think like that then, would I need you to save me? It's already good enough that I managed to kill them, how could I leave some for you? Besides, I didn't know you could consume the Divine Race's Origin Source. When you saw Xilin last time, you didn't react at all?"

Yin Li said, aggrieved, "I didn't recognize it last time..."

Chapter 1516: Investigating the Mount Tai Summit! Battleships from Across the Galaxy!

"Dragon Master!"

Just as Mu Jinyu and Mu Shao'ai were exploring Mount Tai, Bai Xiaosheng moved his crossed-legged sitting Profound Stone Spirit Treasure and hurried to Mount Tai with Xu Hong and Lin Fei.

He looked at Mu Jinyu, and his scar-laden ugly face involuntarily showed a look of guilt, "Dragon Master, sorry that I couldn't help you just now during your battle."

At first, when they noticed unusual movements around Mount Tai, Mu Jinyu had rushed over with Bai Xiaosheng, but then they directly encountered Xilin leading Yuan Jue and others out of Mount Tai. Ultimately, it was only Mu Jinyu fighting desperately against them alone.

It wasn't that Bai Xiaosheng fled on the battlefield; his projected avatar was torn apart on the spot,

and later, Bai Xiaosheng knew he couldn't help much, so he didn't come by projection again. Instead, he brought Lin Fei and Xu Hong along, thinking that maybe their trio could help Mu Jinyu with Secret Heavenly Calculation to evade this catastrophe.

For this reason, he even deployed his true body.

Unfortunately, their speed was still too slow.

By the time the three of them arrived, the battle had long since ended.

Therefore, when Bai Xiaosheng saw Mu Jinyu and recalled his solitary, arduous battle, he felt especially ashamed.

"No worries, even if you came over specially at that time, you might not have been able to help much. It's enough that you had the thought."

Mu Jinyu saw Bai Xiaosheng and, with a tired face, also showed a smile and said softly.

He certainly wouldn't blame Bai Xiaosheng; it made no sense.

After a pause, Mu Jinyu smiled and invited, "Elder Bai, you came at the right time, just in time for us to investigate the fissure passage connecting Mount Tai to other realms and see if there's a way to close it!"

"Alright!"

Bai Xiaosheng understood Mu Jinyu's intention upon hearing his words. Twice now, people from foreign domains had intruded through Mount Tai into this world. This indicated that the passage had been exposed, and without a way to block it, Earth wouldn't have any sense of security!

Bai Xiaosheng nodded solemnly and then walked with Mu Jinyu and the others towards the summit of Mount Tai.

"The originally dense folded spaces here have now broken and merged together, making Mount Tai seem less mysterious!"

As Mu Jinyu walked toward the summit of Mount Tai, he surveyed the drastically expanded Mount Tai and frowned.

"Yes, originally the integration of Mount Tai's folded spaces required some time, but it seems the arrival of those Divine Race members shattered these folded spaces! Who knows what impact this change will have!"

"Mount Tai, the place of sealing and worship, are predecessors really worshipping those so-called Divine Race bird people?" Mu Shao'ai also sighed.

Bai Xiaosheng shook his head, "Impossible, those bird people aren't worthy."

Speaking among themselves, they arrived at the summit of Mount Tai.

Mu Jinyu surveyed the summit's scenery, frowning, "According to the scene I just deduced, those bird people should have come from here, but how exactly they opened the passage between the two realms wasn't clear."

Recalling the scene glimpsed earlier, Xilin stood on the summit of Mount Tai, and then suddenly brilliant golden light exploded, making it impossible to look directly.

When that brilliant golden light finally dissipated, Yuan Jue led a group of Divine Race on their spaceship, appearing at the summit of Mount Tai.

"Could it be because of that spaceship? Can it transport people between the two realms?"

Mu Jinyu muttered to himself.

Then he decided to test it, taking out the huge spaceship that he had collected after Yuan Jue's death from his storage bag!

"Boom!!"

Forged from unknown materials and gigantic in size, the spaceship was thrown out by Mu Jinyu from the storage bag, landing on the summit of Mount Tai, emitting a heavy booming sound.

It was as if the entire Mount Tai trembled slightly, like an earthquake had occurred.

"Let's go up and take a look..."

Mu Jinyu hesitated a little, worrying whether if he boarded the spaceship directly, he might be sent directly to the Canglan Realm?

But thinking further, if the means to travel between the two realms indeed required this spaceship, clearly the Canglan Realm wouldn't have just one spaceship. So, to close this passage, he would need to visit the Canglan Realm.

Thus, Mu Jinyu didn't hesitate much and stood directly on the spaceship deck.

Mu Shao'ai, having little attachment to this world, always envisioned perfecting the Four Symbols Starry Sky Transmission Formation and following the footsteps of the ancients to a more suitable place for cultivation.

With the chance to go to the Canglan Realm, he naturally didn't resist, and he was the second to stand on the deck.

"Clang, clang..."

Full of guilt, Bai Xiaosheng, eager to atone, hurriedly dragged the Profound Stone Spirit Treasure and jumped onto the spaceship, bringing the huge stone beside Mu Jinyu.

Mu Jinyu glanced at him, not saying much, but motioned for Lin Fei and Xu Hong not to board.

After that, he tried to activate the spaceship but had no way to do so.

Then, Mu Jinyu remembered the spaceship's activation seemed to require some Divine Crystal!

"Huh?!"

Mu Jinyu immediately turned his head to look at Yin Li, lying on one side, "Yin Li, you... didn't consume all the Divine Crystals, did you?"

Yin Li turned to look at Mu Jinyu, and in response to his question, proudly and righteously said, "Of course, I don't have the habit of saving snacks. If I don't eat what's in my mouth directly, am I saving it for New Year?"

Mu Jinyu: "..."

Mu Shao'ai felt extremely disappointed upon hearing this.

Mu Jinyu furrowed his brows tightly, thought for a moment, and asked, "Since you can swallow Divine Crystals, can you harness the power of Divine Crystals to help activate this spaceship?"

Yin Li scoffed, "Oh, you better not think too much about it. This spaceship isn't a transportation tool between the Canglan Realm and Earth!"

"Really?" Mu Jinyu, upon hearing this, looked at Yin Li, skeptical and wondering if she was deliberately misleading him to avoid labor.

"Of course it is..." Yin Li pouted.

"Boom!!!"

Just as Yin Li finished speaking, suddenly, an earth-shattering tremor occurred on Mount Tai, resembling a major earthquake, with the mountain continuously shaking.

"Boom, boom, boom!!!"

Subsequently, Mu Jinyu, Mu Shao'ai, and Bai Xiaosheng witnessed a sudden rapid distortion and change in a certain void above the summit of Mount Tai, reflecting the dazzling starlight...

And within that radiant and mesmerizing shining light, a tiny boat could be seen flying towards them from a distance!

Getting closer!

Closer and closer!

Mu Jinyu and the others gradually saw that the tiny boat appearing within the endless starlight wasn't truly a small boat, but rather a spaceship far larger than the one they stood on!

And on the spaceship, there were over a hundred people, each with a presence no weaker than Yuan Jue's!

It seems they were all terrifying beings far beyond the Void Breaking Realm!

Chapter 1517 The Battleship Is Dragged into the Galaxy Passage! Passive Battlefield Shift!

"This is..."

"Is it the Divine Race army coming again?"

Mu Jinyu and Mu Shao'ai, upon witnessing the scene, instantly turned from their previously cheerful demeanor to one of seriousness and unease.

"It seems they have also spotted us!"

At this moment, Bai Xiaosheng spoke gravely, his expression tense.

Mu Jinyu fixed his gaze forward.

Indeed, the individuals from the Divine Race on the massive warship, soaring through the galaxy, now bore fierce and sinister expressions.

Their eyes were locked onto them.

Like top-grade predators eyeing their prey!

In the vast starry sky, on the warship of the Divine Race, Shi Yu saw Mu Jinyu and the others right at the entrance of the minor world on the other side, and his face was instantly filled with rage!

Although he didn't know who the human culprit that killed his two daughters was!

But now, since Mu Jinyu and the others were standing on Yuan Jue's warship, he immediately recognized that it was his son's warship!

"Damn it, these lowly humans, having killed my son, are still spying on our Canglan Realm, and even contemplate hunting our Divine Race?!"

"Hmph, just those three, even if they are in the Void Breaking Realm, so what? Even if we are suppressed to the Unity Realm Stage, we can easily annihilate them!"

"There's no need to deliberately lower our cultivation to engage in some cheap tricks of beyond-stage battles with them. Since they are standing right on the Saint Heir Yuan Jue's warship, there's no need for us to cross the galaxy passage and let this world's Heaven and Earth Laws suppress our cultivation to confront them; just drag Saint Heir Yuan Jue's warship in!"

When the prominent figures of the Divine Race saw Mu Jinyu and the others standing on Yuan Jue's warship, they were initially furious, feeling the humiliation of humans riding on their face!

But quickly, they came up with a new idea!

Rather than driving the warship to Earth and letting Earth's will suppress their cultivation to Unity Realm Stage before engaging Mu Jinyu and the others in this beyond-stage battle trick.

They thought it better to drag Yuan Jue's warship into this galaxy passage. This way, their cultivation could still be maintained to some extent; even if suppressed, they would have around Void Breaking Realm strength!

This way, they could better massacre these lowly humans like Mu Jinyu!

And, in this galaxy, watch Mu Jinyu and the others struggle desperately, trying to return to Earth yet unable to go back!

"Hehehe... let's move together!"

"Let's give these lowly Human Race a good show!"

Soon, these prominent figures of the Divine Race, including Shi Yu, reached a consensus, deciding to drag Mu Jinyu and the others' warship in, using the galaxy passage as the main battlefield to have some fun with these lowly humans!

Thus, they all started to exert their divine power, with Shi Yu taking the lead, remotely manipulating Mu Jinyu and their Yuan Jue warship!

"Boom boom!!"

At Mount Tai, Mu Jinyu and the others were still on high alert, asking Yin Li if she had any means to resolve the over a hundred Divine Race, only to hear a series of loud, rumbling shocks from beneath their feet!

"Boom rumble!"

At first, Mu Jinyu and the others thought another Divine Race warship had approached from a distance, causing the space barrier to be impacted, resulting in an enormous earthquake on Mount Tai, so they didn't pay much attention.

But very soon, they noticed their warship underfoot unexpectedly starting on its own!

Heading towards the void galaxy barrier ahead!

"This is bad!"

"The warship took off on its own!"

"This isn't good, there's a mysterious power guiding and dragging the warship toward that galaxy passage!"

Soon, Mu Jinyu and the others realized something was wrong, but when they tried to stop the warship from self-launching or jump off, they discovered the warship had automatically activated an immensely sturdy and terrifying transparent protective shield, trapping them aboard, making it impossible for them to leave!

"Damn it!"

"It's the Divine Race meddling!"

"Yin Li, do you have any way to stop this?!"

Seeing themselves trapped on the warship, being dragged step by step into the galaxy passage, the group, unwilling to sit and await their fate, turned to Yin Li for help after their futile struggle!

Yin Li frowned and said, "Let me think..."

"Rumble!!"

As Yin Li was about to find a solution, Yuan Jue's warship was finally dragged into the galaxy passage by that enigmatic power!

Upon entering the endless galaxy passage, the originally slow-moving warship's speed suddenly quickened dramatically, shooting towards the massive warship brimming with Divine Race army ahead!

"Got it!!"

Seeing the two warships drawing nearer, Mu Jinyu and the others were resolved for the impending battle, as Yin Li finally thought of a solution, her eyes sparkling as she exclaimed.

"It's too late!"

Mu Shao'ai said helplessly.

"Ah!"

Yin Li snapped back to reality, observing the warship they were aboard being dragged closer to the terrifying warship opposite, she quickly called out a few times, then waved her little paws, cutting off the pulling force!

Instantly, the warship's forward-flying speed was nullified!

Then, under Yin Li's control, the warship started backing away!

Seeing this, Mu Jinyu and Mu Shao'ai curiously asked, "Why are you retreating? Can't you devour these many Divine Race origin sources?"

Yin Li rolled her eyes at them, shouting, "Of course not, it's just that I alone can't handle so many of them. And given our current position, we're too far from Earth's coordinates, so Earth's will doesn't suppress their cultivation as strongly. At least here, each of them probably wields power above the Void Breaking Realm!"

"If we fight them here, while I could survive, what about you? You'd probably all fall in battle here, and I can't guarantee your safety! So the best plan is for us to retreat, at least moving closer to Earth's coordinates as the main battleground. Even if Earth's will can't suppress their cultivation to Unity Realm Stage, if it's only the Void Breaking Realm, the pressure would lessen!"

"I see!"

Upon hearing Yin Li's explanation, Mu Jinyu and Mu Shao'ai comprehended.

Then, Mu Jinyu gratefully said to Yin Li, "Thank you, Yin Li, without you today, Earth might be in trouble."

"No need to thank me..." Yin Li replied nonchalantly, "I was also born on Earth, and I'm not willing to see Earth destroyed..."

"Alright then..." After a pause, she looked at Mu Jinyu and Mu Shao'ai, saying, "I've decided to stay here and block them, and consume them. Will you return, or stay and fight alongside me?"

"Of course, we'll stay and fight!"

Mu Jinyu, Mu Shao'ai, and Bai Xiaosheng agreed without any hesitation, directly answering.

At this point, Yin Li looked at Bai Xiaosheng, saying, "I've always thought the rock under your feet looked familiar but couldn't recall what it was, but I finally remembered; the stone under your feet is a Profound Female Odd Stone, which can be used to seal off the space barrier at Mount Tai. I'll teach you a way, you can't stay, exit later and seal this space passage, eradicating future troubles!"

"This..." Bai Xiaosheng was dumbfounded upon hearing this.

He hadn't expected that the peculiar Profound Stone Spirit Treasure under his feet had such a magical function!

Yin Li taught the method to Bai Xiaosheng, then looked at Mu Jinyu and Mu Shao'ai, saying, "I'm telling you in advance, if you stay, once the old man patches up the shaken space barrier, you won't be able to return..."

Chapter 1518 Difficult Choices! The Outbreak of the Great War Between Two Worlds!

"This..."

Upon hearing Yin Li's words, Mu Shao'ai and Mu Jinyu's expressions shifted again and again.

Yin Li's words were truly too sudden, the impact they brought was simply too great!

Mu Jinyu had long planned to find Xiang Mantang and later take his wife and mother away from Earth, following his master to a place more suitable for cultivation.

But he hadn't intended to leave Earth at this moment!

On Earth, he still had too many concerns right now.

Xiang Mantang had yet to be found, the sole Blood Witch Clan remnant Jing Wang was still missing, Mei Yinxue was just pregnant, and he hadn't planned to leave Earth, never to return!

Mu Shao'ai took a deep breath and quickly calmed down.

After all, he had been preparing to leave Earth once Xiang Mantang was found.

Though sudden, it wasn't something he couldn't accept!

So, Mu Shao'ai looked at Mu Jinyu and said solemnly, "Jinyu, you should return with Bai Xiaosheng!"

"Master!" Mu Jinyu heard this and his expression changed slightly, calling out in confusion.

Mu Shao'ai frowned and sighed, looking at the massive battleship approaching ever closer, urged, "Go, Ah-Xiang still needs you to find him, and didn't your wife just become pregnant? She also needs your care, you're not meant to stay here, come with me to Canglan Realm. Since I've wanted to leave anyway, it suits me well. You should quickly go!"

Mu Jinyu heard Mu Shao'ai's words, his expression changed again and again, finally showing a face full of struggle and pain, "But if I leave... can you... can you withstand them?"

Truthfully, Mu Jinyu wasn't willing to leave Earth right now, not to mention Xiang Mantang; after glimpsing a corner of the future, he might be quite comfortable in that Demon World.

But Mei Yinxue, she just conceived their child, of course, he wanted to stay by her side to care for them!

Yet, if he left like this, leaving only Master Mu Shao'ai and Yin Li behind, can they really confront the Divine Race army alone?

Though adding him wouldn't necessarily turn the tide of the battle, staying to fight at least calms his heart!

Yin Li's words caused Mu Jinyu to fall into a difficult decision.

Finally, Mu Jinyu thought for a moment, locked his eyebrows tightly and looked at Yin Li, asking, "Can't we all stay and deal with them first, then use the Profound Female Odd Stone to repair Mount Tai's disturbed spatial barrier?"

He wanted to stay and fight with them to ease his mind, and if they won, sealing the spatial barrier made sense!

Yin Li remained silent.

Mu Shao'ai, however, smiled bitterly, "It's not that simple, for Yin Li probably isn't sure we can ultimately win. What if we fail to intercept these Divine Race? Then wouldn't they smoothly pass through the Galaxy Passage and arrive on Earth?"

"So, we can only act separately. Yin Li and I will remain to intercept them, and if we survive, we'll just go to Canglan Realm for cultivation while you close the passage. You have so many concerns on Earth, this decision is for the best!"

After Mu Shao'ai finished speaking, he saw Mu Jinyu hesitating and the approaching battleship getting closer, he couldn't help but shout:

"Enough, stop fretting, even if you stay, you can't change destiny, hurry and leave!"

After saying this, Mu Shao'ai turned to Yin Li, "Come, let's send them away!"

"Alright!"

Yin Li, no longer caring about Mu Jinyu's thoughts, having listened to Mu Shao'ai's analysis, also found the arrangement most suitable.

Originally, she planned to stay alone to intercept the Divine Race army, but now with Mu Shao'ai, she was quite satisfied.

Then, Yin Li and Mu Shao'ai joined their forces to throw Mu Jinyu and Bai Xiaosheng out.

Fortunately, they were controlling the warship to retreat near the Mount Tai exit of the starry passage, so throwing them two out wasn't laborious!

"Bang!"

Before Mu Jinyu and Bai Xiaosheng could speak, they were thrown out, landing heavily on Mount Tai, a bit dazed!

"Master!"

"Dragon Master!!"

"Abba Abba..."

With their emergence, Lin Fei and Xu Hong, who had been anxiously worried, immediately shouted aloud, distressed and excited.

Mu Jinyu heard their calls, suddenly woke up, climbed up the ground, and looked at the slowly rotating brilliant Galaxy Passage ahead.

He wanted to rush in and assist Mu Shao'ai and them.

But thinking of Mei Yinxue, he stopped his steps, with an expression of hesitation and struggle, subconsciously clenching his fists, veins popping, filled with pain and difficulty!

Bai Xiaosheng, however, was not troubled and hesitant like Mu Jinyu; he told Xu Hong and Lin Fei to step back, then immediately began to follow Yin Li's instructions to seal the passage, blocking the channel from Mount Tai to Canglan Realm completely!

Yin Li and Mu Shao'ai's earlier words were clear; they aren't certain they can stop all the Divine Clan people. If they unexpectedly fail, his complete blocking of the Galaxy Passage means Yin Li and Mu Shao'ai might sacrifice, but Earth can at least be secured!

This way, their sacrifice would be worth it!

This was not the time to be indecisive!

Thus, Bai Xiaosheng started taking action directly!

Inside the Galaxy Passage!

The Divine Race army standing on the massive battleship, seeing Mu Shao'ai's ship stop moving towards them and begin to retreat instead, finally saw Mu Jinyu and Bai Xiaosheng escape.

They scoffed disdainfully, "Lowly humans with such talent to sever our divine power connection!"

"But that does not matter, even if we don't fight in the previous area, we can still sustain the power of the Void Breaking Realm here, enough to crush these inferior humans!"

"It's a pity, but at least we aren't suppressed to the Unity Realm Stage, which is acceptable!"

"Just two ants escaped, that's a bit more regrettable!"

"What's to regret? Once we deal with these two ants and enter that minor world, where else can they flee? Unless they commit suicide, they must die at our hands!"

"Haha..."

Listening to their companions talk, Shi Yu stared dead at Mu Shao'ai, said grimly, "Dare to kill my son, wait for me to extract your soul and refine your spirit!"

He didn't know who killed Yuan Jue!

But he saw clearly just now; Mu Jinyu and Bai Xiaosheng were only at the Unity Realm Stage in cultivation.

With Unity Realm Stage strength, even if Yuan Jue arrived on Earth and his power was suppressed by the heavenly will to the Unity Realm Stage, they couldn't be the ones to kill Yuan Jue!

Therefore, the one who likely killed Yuan Jue must be this old man who reached the Early Void Breaking Realm Stage!

"Kill!!!"

At this moment, the warships on both sides finally closed in!

Without hesitation, Shi Yu stepped across the galaxy, the thirty-six Light Wings on his back flared powerfully, colorful divine light surged, and swept towards Mu Shao'ai!

"Boom!!"

As the thirty-six divine lights swept over, Mu Shao'ai's expression changed drastically!

Chapter 1519 Regarded as a Beast Pet! The Furious Yin Li! A Glimpse of the Future Appears!

Mu Shao'ai felt an unprecedented pressure after Shi Yu's attack!

Clearly, at this time, Shi Yu was near the exit of Mount Tai on Earth, resulting in his power being suppressed by Earth's will to about the Void Breaking Realm, not much different from his cultivation!

He originally thought he wouldn't lose to the other party by much, but at this moment, the instant Shi Yu made a move, Mu Shao'ai felt as if he was facing despair, like when he encountered a great power at the Unity Realm Stage during his Divinity Transformation Realm Cultivation!

The sense of powerlessness made Mu Shao'ai wish to die to avoid humiliation!

"Ha!"

At this moment, Yin Li shouted and rushed over, suddenly opening her mouth, swallowing up the thirty-six divine lights.

It was as if eating rainbow-colored cotton candy!

After Yin Li finished, she smacked her lips a few times and muttered under the surprised gaze of over a hundred people of the Divine Race on the opposite side, "The taste's not bad, might as well eat it!"

After saying this, Yin Li looked at Mu Shao'ai and said, "Don't just stand there dumbly. He's actually not much stronger than you now. Just wait, he won't be able to use this method too many times next!"

"Mm!"

Hearing Yin Li's reassurance, Mu Shao'ai gradually regained some confidence.

His gaze turned resolute, and he looked at the army of the Divine Race standing opposite on a massive warship, his eyes bursting with fiery and intense fighting spirit!

Regardless, he had decided to stay and fight, whether he lived or died, he would not regret it!

And such a long-lost challenging battle made his blood boil even more!

"Interesting!"

"What is this thing? Could it be a True Dragon whelp?"

"It can actually devour Shi Yu's divine power without a scratch, this little dragon, truly interesting!"

"..."

Seeing Yin Li devour Shi Yu's first wave of attack, the other Divine Race members who were ready to join in the attack couldn't help but be stunned, then they began to admire Yin Li with praise.

Shi Yu's eyes were fixed on Yin Li, with a look of doubt and peculiarity!

At this moment, he was certain that the one who killed his Heaven's Pride son's Yuan Jue was surely not Mu Shao'ai, the timid old man!

But it should be this creature that's neither dragon nor not!

"Very well, it was you who killed my son!"

"Then you will stay and serve me as a beast pet for eternity!"

After seeing Yin Li's supernatural ability, Shi Yu made a decision, rather than killing her to avenge his children, such a rare creature had a lot of cultivation value, could it not be a divine spirit whelp?

"Get lost! I wouldn't have you all as beast pets even if you asked!"

Just as Shi Yu said those words, wanting to keep Yin Li as a beast pet, Yin Li suddenly spoke, surprisingly saying it in the language of the Divine Race, shouting angrily in a delicate voice.

"So quick to learn our language, extraordinary indeed!"

"Hahaha, although Shi Yu, your children may have died at the hands of this little thing, the little one seems very special, you cannot just claim her as a beast pet!"

"Indeed, even I am quite interested, let's each show our skills and see who can get her as a beast pet!"

"..."

Just as Shi Yu was about to take Yin Li, the elders of the Divine Race who accompanied him, ones whose strength and status weren't much inferior to his, suddenly decided to compete with him over Yin Li, making him frown!

"You've gone too far!" Shi Yu looked at them coldly and asked sternly!

"How? Can you be sure she's the culprit who killed your children?"

"That's right, I also think she may not necessarily be the one who killed Shi Yu's siblings, even if that's the case, it's not possible to compensate him by giving her to Brother Shi Jue!"

"Yes, we came a long way to accompany him, is it just to help him tame this exotic beast?"

"Alright, stop arguing, stop jockeying for positions, either everyone takes a shot based on their skills to see who can tame this beast, or after capturing her, let her serve as a beast pet for the whole group!"

At this moment, a revered elder of the Divine Race suggested with a frown.

"Screw you!"

Listening to their discussion, as if she had become their prey, Yin Li became furious and waved her hand fiercely!

"Shoo shoo shoo!!!"

Instantly, countless Silkworm Silk flew out, covering the sky and earth towards them!

"Ah!!!"

"No!!!"

Countless Divine Race guards, unprepared, were ensnared by Yin Li's Silkworm Silk and let out shrill and terrified screams. After the Silkworm Silk dissipated, only a puddle of pus and blood remained on the ground!

"Damn it!"

"Elder Kuzhu is dead!"

"Elder Lingyun is dead too..."

Not only did these lower-level guards fall victim and get obliterated by Yin Li, but even among the twenty or so Divine Race elders on par with Shi Yu, many met with mishap due to carelessness!

"Damn it!"

"Stop discussing distribution! Let's capture this brat first!"

Now, Shi Yu and the elders were greatly enraged, no longer maintaining an arrogant stance towards Yin Li, all starting to make a move, intending to capture her first!

"Boom!!"

An elder of the Divine Race opened nine eyes on his face, seventy-two on his arms, continuously shooting destructive gaze beams from each pupil, bombarding Yin Li!

Shi Yu waving his thirty-six Light Wings at his back, vividly combining divine light to transform into a nine-colored true phoenix, spiraling in the air, pouncing towards Yin Li!

A ravishing woman with hair full of tiny venomous snakes, her pupils turned white in an instant, shooting petrifying divine light towards Yin Li and Bai Xiaosheng!

The various elders of the Divine Race attacked simultaneously, creating a scene both shocking and intense!

On Mount Tai!

Bai Xiaosheng wasn't focusing on the fierce battle in the Galaxy Passage; he was sitting cross-legged on the Profound Female Odd Stone, following the Heaven Mending Technique taught by Yin Li to immediately block the passage.

Mu Jinyu stood with Lin Fei and Xuu Hong, in front of the slightly stiffening and not so swiftly rotating Galaxy Light Screen, tensely watching Yin Li and Mu Shao'ai's intense battle in the passage.

"Boom!!"

At this time, the sky over Mount Tai suddenly darkened.

Subsequently, layers of pitch-black thunderclouds swirled over, covering above their heads!

"This is..."

Mu Jinyu looked up at this scene, momentarily thinking it was his Tribulation Transcendence for the Void Breaking Realm, but soon he realized no one was about to transcend tribulation.

It was likely due to so many people from the Divine Race trying to travel through the Galaxy Passage to Earth.

Or maybe...

Mu Jinyu turned to look at Bai Xiaosheng, who was continuously moving!

Was it caused by Bai Xiaosheng's Heaven Mending Technique?!

"Dragon Master!"

While Mu Jinyu was unsure, Bai Xiaosheng suddenly opened his eyes, looking solemn, with a determination to die, saying, "Dragon Master, quickly take Little Fei and Little Hong away, Mount Tai will become a dead zone, even with your cultivation, it's impossible to remain unharmed here! Go quickly!"

"Master?!"

"Abba Abba..."

Lin Fei and Xuu Hong heard this and called out anxiously and reluctantly.

"This?!"

Hearing Bai Xiaosheng's urgings, Mu Jinyu was struck as if by lightning.

In a moment of trance, he saw once again a glimpse of the future he once foresaw!

At that time, he saw the scene where Bai Xiaosheng was sitting at the summit of Mount Tai, suffering all kinds of lightning strikes.

While he was desperately pulling Xu Hong and Lin Fei, preventing them from getting close!

So, it turned out, it was for this reason!

And this future, has it come too quickly?

Mu Jinyu looked utterly puzzled, somewhat at a loss!

Chapter 1520 A Glimpse of the Future Unfolds! The Final Decision!

"Boom!!!"

In the sky, the deep and furious thunder roared even heavier.

There was no torrential rain pouring down, only a sense of looming disaster and despair!

"Master, I don't want to leave!"

Xu Hong looked at Bai Xiaosheng, who was twisted with emotion and starting to repair the heavens with difficulty, enduring immense pressure, and said with a reluctant and reluctant expression.

"Abba Abba..."

Lin Fei was also crying while shouting grievances.

"Dragon Master, please, take them away, they're the last seeds of our Secret Heavenly Pavilion. Please don't let the legacy of the Secret Heavenly Pavilion be severed!"

While bearing immense pressure, Bai Xiaosheng's whole body creaked as if about to fracture, then he spoke to Mu Jinyu with difficulty.

"Alright!!"

Mu Jinyu felt deeply troubled, clenched his fists, took a few deep breaths, and closed his eyes. He knew he couldn't delay any longer and finally agreed.

Then, he lifted his hand to hold the hands of Xu Hong and Lin Fei, and flew towards the outside of Mount Tai!

"Boom!!"

"Crack..."

"Boom!!!"

Mu Jinyu held onto the two kids and flew towards the outside of Mount Tai, but the speed was incredibly slow, as if the void turned from smooth water into a sticky concrete.

The Heaven and Earth Laws were also solidified, making it impossible for him to shift out by riding on these laws!

He knew that if he waited any longer to leave, he might not be able to escape!

"Master!"

"Master..."

Xuu Hong and Lin Fei were forcibly dragged away by Mu Jinyu as they kept looking back with nostalgia and reluctance at Bai Xiaosheng, who was covered in blood, shouting heart-wrenchingly.

"Shut up, if you don't want your master to fail and sacrifice in vain..."

Mu Jinyu furrowed his brows tightly, listened to their cries, and, feeling irritated, shouted angrily.

Upon hearing Mu Jinyu's angry reprimand, Xuu Hong and Lin Fei changed their expressions, and finally gave a few dismal laughs, no longer struggling or shouting.

Soon, Mu Jinyu finally flew out of Mount Tai's territory, no longer feeling the stagnant and resistant sensation.

Although the surrounding Heaven and Earth Laws were still chaotic, if he wanted to manipulate them to shift away, he could easily do it!

However, Mu Jinyu did not do so, nor did he intend to leave!

He still had to check on the situation of Yin Li and Mu Shao'ai intercepting the Divine Race's army in the Galaxy Passage; if they ultimately failed to stop them, he would certainly have to take action!

Though he might not be able to turn the tide, leaving one or two Divine Race members to accompany in death was feasible!

"Dragon Master... Is the master doomed to die?"

At this moment, Xu Hong stood by Mu Jinyu, tears continuously streaming down her cheeks as she asked sorrowfully.

Mu Jinyu remained silent for a long time before speaking: "Perhaps..."

"Boom!!!"

The sky over Mount Tai grew ever darker with gathering clouds, among which lightning arcs flickered, exuding endless doom and suffocating oppression.

Not to mention the devastated area of tens of thousands of miles around Mount Tai, devoid of life, even if someone else were truly there, they would likely be scared to death on the spot!

"Puff!!!"

Sitting cross-legged on the Profound Female Odd Stone, Bai Xiaosheng suddenly spewed a mouthful of blood, mixed with fragments of his internal organs!

"Master!"

Xu Hong couldn't help but cry out, filled with worry once again!

Mu Jinyu frowned tightly, glanced at Bai Xiaosheng, and then continued to focus on the fierce battle in the Galaxy Passage!

"Boom!!!"

In the Galaxy Passage's battlefield!

Yin Li's eyes burst with dazzling divine light, instantly obliterating two Divine Race guards!

"Awooo!!"

Then, Yin Li opened her mouth wide, her belly inflated as if it were a balloon, and finally, she exhaled fiercely, unleashing a terrifying sound wave that spread out like a fan!

"Boom boom boom!!"

Various weapons, magic treasures, and supernatural spells from the Divine Race's army, upon encountering Yin Li's move, were destroyed instantly!

"Hah!!"

Elsewhere, Mu Shao'ai was covered in blood, his skin cracked open, struggling to use the Tai Chi Four Symbols Palm to intercept four Divine Race Elders!

Although his cultivation was in the Void Breaking Realm, and the Divine Race Elders' cultivation had also been suppressed by Earth's Heavenly Dao Will to the Void Breaking Realm, their battle experience and consciousness remained, making it unlikely for him to be a match for them one-on-one, let alone one-on-four?!

But Yin Li fought against dozens on her own, and he didn't want to drag behind. At this moment, he thought he had to fight for enough time to seal the passage for Bai Xiaosheng, even if it cost his life!

"Bang!!"

A Divine Race Elder snorted, spewing forth red and blue Qi from his nose, intertwining like two raging dragons, smashing towards Mu Shao'ai!

Piercing through his chest, it created a clear path!

"Puff!!"

Mu Shao'ai's body wobbled, spraying a mist of blood all over!

Despite his vision fading, his expression remained steadfast, and he struck backward, trying to block their advance to the Mount Tai summit's exit!

However, it seemed those Divine Race Elders had realized something, and didn't care about Mu Shao'ai's entanglement anymore, preparing to dash towards the exit!

"Heh heh..."

Mu Jinyu, witnessing this scene, couldn't help but clench his fists, his eyes turning red, and desperately wanting to rush over and fight alongside his master!

In his mind, he replayed glimpses of the future he had foreseen, the final scene where he held the hands of Xuu Hong and Lin Fei, retreating continually, eventually Bai Xiaosheng engulfed by ten thousand thunders, detonating Mount Tai!

Could it be...

Was he really bound to follow the glimpse of the future he had seen?

Was there truly nothing he could do?

Mu Jinyu simply could not accept it!

"Jinyu!"

At this time, Gu Xiyan, panting, hurried over from the distant sky.

She wasn't at ease about Yin Li and the battle here, having rushed all the way back from Kunlun Ruins and then heading here.

Seeing Gu Xiyan's arrival, Mu Jinyu had a slight emotional change and instructed her: "Xiyan, please take care of them for me, and also take care of Sister Mei. Master and Yin Li are in trouble now, and I have to help them! I can't just sit by and watch them suffer! I'm sorry..."

After speaking, Mu Jinyu placed Lin Fei and Xu Hong's small hands into Gu Xiyan's hands, then decisively turned and rushed toward Mount Tai!

That was just a glimpse of the future he had seen!

But it didn't necessarily mean it was what would definitely happen now!

The future was inherently unpredictable, and even the Secret Heavenly Calculation could only glimpse the most likely scene. How could it guarantee that in the end, he would helplessly stand outside Mount Tai, watching Bai Xiaosheng sacrifice within, while Mu Shao'ai and Yin Li fell in the Galaxy Passage?!

He refused to accept this!

He didn't want them bleeding and sacrificing at the front while he cowardly hid in the back, evading the battle for all those so-called concerns!

"Boom!!!"

As Mu Jinyu charged into Mount Tai, the heavy dark clouds finally roared explosively, subsequently unleashing a bombardment of countless thunders below!

Leaving Gu Xiyan, who wasn't fully aware of what had happened, utterly stunned!

"Jinyu!! No!!!"

Watching Mu Jinyu's figure bathed in myriad thunder lights, Gu Xiyan's face was instantly covered with tears, and she let out a desperate cry!
