Chapter 1781: Chance Encounter with a Savage Tiger! A Sneak Attack! Just a Bastard!

"Whoosh!"

Mu Jinyu walked slowly through this land of desolation, and in the blink of an eye, most of the day had passed.

During this time, he encountered several spatial rifts formed by the changes in space law, absorbing them, and deepening his understanding of the space laws.

Of course, he still couldn't fully integrate with the world and mobilize space laws to perform more techniques and divine skills.

However, his comprehension of space laws also made him more adept at forcibly manipulating them.

The speed at which he condensed a minor world from the domain had also increased significantly compared to not long ago.

"Roar!"

At that moment, a road-blocking tiger suddenly appeared in front of him.

This tiger's fur was black and white, resembling a white tiger.

But its eyes, one black and one white, along with the terrifying evil qi it emitted, revealed its extraordinary nature.

"This is..."

Mu Jinyu looked at the tiger, his eyes narrowing, feeling a powerful pressure and suffocating sensation.

At the same time, from the constantly changing vital and deadly qi emanating from this tiger, he suspected it was not a real being, but transformed from life and death law fragments.

After all, he had traversed most of the day in this Tiangan Secret Realm, yet hadn't seen a single bird or ant, so it was unlikely that the first animal he encountered was a real creature.

"Its strength is probably around the first layer of the Life-and-Death Realm, should I use the Earth Emperor's Tome?"

Mu Jinyu's eyes sparkled with a keen light, pondering how to deal with the tiger.

He was uncertain if he could face a life and death realm-level opponent. Previously, in the Earth Emperor Relic, he managed against several foreign race life and death realm experts by relying on the suppressive effect of the Earth Emperor's Tome.

So upon seeing the tiger, Mu Jinyu immediately thought of using the Earth Emperor's Tome to suppress its cultivation.

But after careful consideration, Mu Jinyu decided to abandon this plan.

Firstly, back then, there were too many foreign race experts; even with many perishing mid-way, seven or eight remained, making it impossible for him to handle them one-on-one.

Secondly, at that time, he hadn't acquired the follow-up cultivation method of the Humanity Path Sutra, and his cultivation was still at the Mid Divine Transformation Realm.

But now his cultivation is already at the Second Layer of the Void Breaking Realm.

No reason to fear facing a tiger at roughly the first layer of the Life-and-Death Realm and think of using the Earth Emperor's Tome to gain the upper hand.

"Swoosh!"

As Mu Jinyu made this decision.

The tiger emitting a strong life and death qi suddenly charged at him aggressively.

Instantly, a violent wind erupted, and the chilling light was intimidating.

The fangs and sharp teeth of the ferocious tiger seemed to want to tear through the void and rend Mu Jinyu into pieces!

"Hah!"

Mu Jinyu, seeing this, tightly gripped the firewood knife in his hand, lightly swinging it at the tiger!

"Bang!!"

Immediately, the tiger's attacking momentum was intercepted entirely by him.

"Indeed, its combat instincts aren't strong."

Seeing this, an idea struck Mu Jinyu. He suddenly switched weapons, gripping a long spear divine weapon in his hands.

This long spear divine weapon was purchased from the Treasure Pavilion at Dongyue Mansion, though he hadn't used it much.

After all, on his journey, he encountered terrifying dangers, needing to fight desperately for survival.

Even the Firewood Chopping Saber Technique seemed insufficient, let alone the use of a low-grade divine weapon, like a long spear or sword.

But this tiger, transformed by life and death law fragments, didn't appear formidable, so he decided to use it as practice.

After all, he hadn't used a long spear in a while.

He used to favor the Dragon Spear on Earth, rather than knives and swords.

"Rising White Dragon!"

Mu Jinyu swung the long spear fiercely, and a white dragon's phantom emerged from the spear edge, tracing through the void, hitting the tiger!

"Bang!"

The tiger was directly knocked into the air by Mu Jinyu, and the fierce evil qi scattered.

The vital and deadly qi became even more intense.

"Boom!"

"Bang Bang Bang!"

Mu Jinyu used the tiger for practice, switching between spear, sword, and fists, exhibiting the Human Emperor Seal.

Using the tiger to refine his combat skills!

"Swoosh!!"

As Mu Jinyu enjoyed the fight, suddenly, a golden arrow appeared from nowhere, shooting towards him from behind.

The movement was swift and subtle.

However, Mu Jinyu's divine sense was extremely keen; he immediately felt his hairs stand on end, his body tensed, knowing there was an ambush.

"Hah!"

Mu Jinyu immediately switched from fists to knife, forcibly maneuvering the space laws to twist his position, slashing at the attacking arrow.

"Bang!"

The golden arrow was merely energy condensed, not a physical thing, and shattered when struck by Mu Jinyu's knife!

Transforming into sparkling golden light, dissipating.

Then, concerned about changes, Mu Jinyu vigilantly defended against potential threats while dealing with the tiger, finding it difficult to handle both, he urgently struck the tiger several more times with his knife.

"Bang!!"

The tiger, tormented by Mu Jinyu for a long time, finally met its end, its evil aura faded, transforming into a mysterious rune of black and white, entering Mu Jinyu's body.

When the rune entered Mu Jinyu's body, he trembled slightly, faintly sensing change.

But now, preoccupied with guarding against hidden enemies, he couldn't afford to ponder deeply.

"Sneaky attacker, show yourself!"

Mu Jinyu coldly looked towards the direction from which the golden arrow had shot, sternly asking.

"Step, step, step..."

In response to his shout, light footsteps sounded.

Soon, a tall, handsome young man appeared before Mu Jinyu.

Seeing the 'Yao' character embroidered on the youth's attire, even without previous acquaintance, Mu Jinyu knew he was from the Yao Family.

"A mere Second Layer of the Void Breaking Realm, able to defeat the tiger formed by life and death laws, does show some skill..."

Yao Feiyang looked at Mu Jinyu with an indifferent expression, casually commenting.

After speaking, he turned to leave, indifferent to Mu Jinyu's thoughts or feelings.

Mu Jinyu's expression turned displeased, coldly remarking, "Attacking from the shadows, and you think you can just walk away?"

"Step..."

Yao Feiyang paused, turned back to Mu Jinyu, his handsome face showing a trace of disbelief.

As if he couldn't believe Mu Jinyu would say such a thing.

Then he sneered, his eyes contemptuous as he looked at Mu Jinyu, slowly shaking his head, "Not killing you is being generous, and a lowly human race dares to rebuke my royal clan. Do you really think that just because you're a Dongyue Mansion trainee, I wouldn't dare kill you?"

Yao Feiyang's eyes flickered with killing intent, revealing his genuine thought of attacking Mu Jinyu.

His cultivation was at the Peak of the Void Breaking Realm, and with the bloodline of the Ten Great Strong Races, not to mention the human race in the Void Breaking Realm, even among the human life and death realm, few caught his attention.

For Mu Jinyu, a mere human, to speak to him this way, stirred his murderous intent.

"Ha..."

Hearing Yao Feiyang's words, Mu Jinyu coldly laughed, "Having a trace of foreign race blood, you think you're superior? Always calling humans lowly, do you think that takes you out of humanity's range?"

Sneering, Mu Jinyu shook his head, saying, "In my eyes, people like you are just mongrels!"

Chapter 1782: Three-eyed God Clan! Destruction Pupil Light! Sword Dragon Slash!

Mu Jinyu's words were truly hurtful.

Listening to them made Yao Feiyang's handsome face twitch with anger.

Above his head, a plume of white smoke hovered, revealing flickers of fire.

This was being angry beyond measure!

For those who are always boastful, identifying themselves as the royal clan to distinguish themselves from the Human Race among several human royal clans.

The word "mongrel" is particularly grating to them.

They inherently believe themselves to be Divine Race, Devil Clan, or Demon Race, and not the most insignificant and weak Human Race.

They are ashamed of the part of Human Race bloodline that still flows in their veins.

Unfortunately, there used to be some royal clan members who couldn't bear their dirty Human Race bloodline and chose to sever it, but ended up dying abruptly.

After several incidents, they all knew that they were indeed still Human Race and not Foreign Race.

Foreign Race bloodline within them can transform them, and choosing to sever it might entail risks, but it wouldn't result in sudden death.

But the Human Race blood within them is their Origin of Life; once severed, they would undoubtedly die.

They had to reluctantly accept their status as Half-God Tribe, Half-Demon Tribe, Half-Demon Tribe.

And unable to fully embrace the ranks of Divine Race, Demon Race, Devil Clan!

But unfortunately, when these matters spread out, the Ten Great Strong Races did not favor them more, while the Human Race despised them even more, secretly calling them mongrels.

Back then, because of such words, countless humans in Canglan Realm died.

They didn't die by Foreign Race hands but rather by the hands of those high and mighty royal clans.

For the humans accustomed to having Foreign Race bloodlines flowing within them today, "mongrel" is their self-mockery, but they dare not mention it, let alone utter it in front of the royal clan.

But for the royal clan, the word "mongrel" is the taboo of all taboos, absolutely no one can utter it in their presence!

Now, Mu Jinyu has brought up this word in front of Yao Feiyang.

And bluntly said that what kind of royal clan they are, they are really detached from the Human Race category!

Making Yao Feiyang furious beyond restraint!

"You are doomed to die!"

Prepared to leave, Yao Feiyang instantly erupted with rage, his eyes murderous like knives cutting into bone, gritting his teeth, uttering four words, with a sudden crack on his forehead.

A golden vertical pupil emerged.

"Is this the Three-eyed god clan?"

Mu Jinyu recognized Yao Feiyang's vertical pupil and immediately identified the Foreign Race bloodline within him as belonging to that race.

It's the Three-eyed god clan of the Divine Race.

Divine Race is a more general term, with many races within it.

The Powerful Races like Devil Clan and the Demons are the same, only top-grade demons can be considered in the Top Ten Ranks of the demon race.

The lesser ones are directly classified as branches, like the opponents Mu Jinyu encountered while competing for a spot in Tiangan Secret Realm, who contained typical Blood Demon Clan, Flame Demon Clan bloodlines.

Essentially, these Foreign Races are also considered Devil Clan, but due to lack of strength, they're classified as branches.

The Three-eyed god clan is among the stronger in the Divine Race, pure-blooded ones are Three-eyed god clan and are among the Ten Great Strong Races.

Mu Jinyu suspects that the mythological Erlang God originated from this clan!

Having this level of Foreign Race bloodline, Yao Feiyang is certainly a top-grade Heaven's Pride in the Yao Family.

No wonder these people would arrogantly think themselves as Half-God Tribe rather than Human Race.

"Whoosh!"

As Mu Jinyu judged Yao Feiyang's Foreign Race bloodline, the golden vertical pupil that cracked open on Yao Feiyang's forehead turned mysteriously and then fixed its gaze on Mu Jinyu.

Soon after, a golden flash burst forth from the vertical pupil, carrying the destructive divinity to pierce and collapse the void along the path, targeting Mu Jinyu directly.

Mu Jinyu's hair stood on end, sensing extreme danger.

He dared not be careless nor easily confront the Destruction Pupil Light.

He forcibly manipulated the chaotic Space Law nearby, and his figure rapidly shifted, flying several hundred meters to the right.

"Whoa!"

However, the Destruction Pupil Light seemed locked onto him, even changing direction midway, once again charging towards Mu Jinyu.

"It's useless, don't struggle. Under my divine might, tiny human race, how can you hope to shake a tree? Just prepare to meet your end quietly!"

Yao Feiyang said with a sneer.

"Boom boom boom!!!"

After speaking, the golden vertical pupil that cracked open on his forehead immediately began firing bursts of golden light like cannon fire, ablaze with divine brilliance.

And the golden light projecting forth formed various shapes; the first was golden lightning, the second a Flying Sword, the third an Ancient bell...

Each contained profound truths, faintly emitting the breath of destruction and creation.

It shows that the Three-eyed god clan can be among the top in the Divine Race, not merely boasting!

Seeing this, Mu Jinyu's heart rang alarm bells. He knew this guy was troublesome, never expecting him to be so difficult.

He attempted using the Firewood Chopping Saber Technique to see if it could nullify the Destruction Pupil Light, but it had no effect.

Not even diminishing the divine might of the pupil light.

"If I don't use the Earth Emperor's Tome, I suppose I can only resort to the Sword Dragon Slash attack!"

Mu Jinyu felt quite troubled, ultimately deciding not to take out the Earth Emperor's Tome.

Firstly, the Earth Emperor's Tome is too slow to activate, secondly, it is of great importance, he doesn't dare to take it out lightly.

If the Sword Dragon Slash attack doesn't resolve this issue, then he can only risk using the Earth Emperor's Tome.

"Howl!!"

After making his decision, Mu Jinyu did not use the Blood Dragon as a guide to perform the Sword Dragon Slash, fearing its power might not suffice, but instead used the residual Earth Emperor Bone Qi within his body to activate the Bone Tempering Section and Scroll of the Sword, unleashing the strongest Sword Dragon Slash!

In the blink of an eye, a stern Bone Dragon appeared, clad in armor composed of countless sword weapons, its Evil Qi soaring to the heavens, terrifying and boundless, charging towards the attacking Destruction Pupil Light.

"Ha, not worth mentioning!"

Seeing this, Yao Feiyang's expression remained unchanged, not considering the Sword Dragon Slash significant.

"Bang bang!!"

"Screech screech screech..."

However, what he didn't expect was that the Destruction Pupil Light he emitted, which was supposed to be invincible, was directly shattered when it clashed with the Sword Dragon.

Afterwards, the fearsome and savage Sword Dragon, its might seemingly undiminished, charged towards him with the supreme ferocity of devouring heaven and earth.

"Damn! How is this possible?!"

Seeing this, Yao Feiyang couldn't believe what he was witnessing.

Questioning if there was something wrong with his eyes.

How could a Void Breaking Realm Cultivator from the Human Race have the ability to block his Destruction Pupil Light, and even have the capacity for counterattack?

He found it hard to accept!

But Yao Feiyang didn't know.

Mu Jinyu's attack was not simple.

It was unleashed using Earth Emperor Bone Qi.

How could ordinary people withstand it?

Even though Yao Feiyang utilized God Emperor's Pupil to unleash his Destruction Pupil Light, yet against Mu Jinyu's attack.

Chances are, he would be defeated.

After all, the Divine Race's ranking among the Ten Great Strong Races is only middle-upper, while at the Peak, the Human Race is at the top of the Ten Thousand Clans!

And the Earth Emperor is one of the three strongest Human Emperors among the Human Race!

How can an ordinary God Emperor's pupil be compared to Earth Emperor's Bone Qi!

Chapter 1783: Yao Feiyang Dies! Little Tree Seed Stirs! Round Light Technique!

"Impossible! Impossible!!"

"Break for me! Break!!"

Yao Feiyang screamed hysterically, crazily exerting all his might to activate the vertical eye on his forehead.

"Whoosh whoosh whoosh!!"

In an instant, seven or eight golden divine lights shot out from his forehead, shining endlessly!

Yao Feiyang's golden hair danced wildly, entering a state of madness. However, as he desperately activated the vertical eye on his forehead, a strand of golden-red blood began to flow from it.

This weakened his aura significantly.

After all, he wasn't a true member of the Three-eyed god clan and couldn't continuously activate the Divine Origin to exhibit the innate divine abilities of the Three-eyed god clan.

"This should hold it off, right?!!"

Yao Feiyang's vertical eye on his forehead closed on its own, and he watched with anticipation and fear as the Destruction Pupil Light, transformed into various divine weapons and phenomena, collided ferociously with the fierce Sword Dragon.

"Boom!"

"Sizzle!!"

Under Yao Feiyang's expectant gaze, the Sword Dragon clashed with the golden light, effortlessly scattering his Destruction Pupil Light, turning it into scattered starlight that vanished.

"Boom!!"

Then, under his rigid and incredulous gaze, the Sword Dragon roared and rushed past him.

"Uh..."

"Pff..."

Immediately, Yao Feiyang's body stiffened, standing still as blood seeped from the corner of his mouth. He slowly lowered his head to find a large hole in his chest, with blood gushing out uncontrollably!

"How could this happen..."

"I'm part of the Half-God Tribe..."

Yao Feiyang murmured his unwillingness in his heart, and his soul was shattered and perished.

"So strong!"

Mu Jinyu, who sliced Yao Feiyang to death with one strike, also felt a bit breathless. The exertion of that strike was rather significant for him.

But seeing Yao Feiyang die like this, he still felt quite satisfied.

What a useless trash!

Always putting down the Human Race, as if he himself wasn't part of it, as if his ancestors weren't Human Race.

Mu Jinyu despised these traitors the most!

So, even though he knew killing him would have severe consequences, he resolutely killed this guy anyway.

"Argh!"

The Bone Dragon, which had killed Yao Feiyang, roared and exploded into Earth Emperor Bone Qi that returned to Mu Jinyu's body.

"Sizzle sizzle!!"

Just then, a mystical little tree seed hidden in Mu Jinyu's Sea of Consciousness, which had been inactive, suddenly trembled slightly.

Then, it extended an invisible branch, reaching out of Mu Jinyu's body and into Yao Feiyang's corpse, crazily devouring the blood within him.

Strictly speaking, it was devouring the Divine Blood of the Three-eyed god clan within him!

"Does... Divine Race Bloodline help restore the Little Tree?"

Seeing this, Mu Jinyu wondered out loud, puzzled.

Back on Earth, when the Mystical Little Tree had greatly depleted itself for him, reverting from a small tree back to a seed, he once vowed to find suitable Heavenly Materials and Earthly Treasures to restore it.

But in the time he spent in the Canglan Realm, he hadn't encountered any Heavenly Materials and Earthly Treasures that could awaken the Mystical Little Tree's interest.

Who would have thought that killing Yao Feiyang, this self-proclaimed Half-God Tribe waste, in a fit of rage today, would bring such an unexpected gain!

"Sizzle sizzle sizzle!"

As the Mystical Little Tree devoured Yao Feiyang's Divine Blood, his body began to decay, and soon his flesh disappeared, leaving only some bones.

"Slurp!"

Reluctantly, the Mystical Little Tree's seed retracted its invisible branch after the process.

When it retracted the branch, Mu Jinyu vaguely sensed a slight emotional fluctuation from it, feeling that it wasn't enough and it wanted more blood to absorb and grow.

"It really is useful!"

Feeling this emotional fluctuation, Mu Jinyu thought excitedly in his heart.

But soon, he appeared distressed.

There were about a dozen members of the Royal clan who entered the Dongyue Mansion, which numbered around a thousand people in total.

If he were to eliminate them all, offering their Foreign Race blood to the Mystical Little Tree, that would be a huge problem.

He probably wouldn't be able to leave the Tiangan Secret Realm once it concludes.

A swarm of powerful members of the Royal clan would surely want to annihilate him!

Even if Dongyue Mansion intervenes to protect him, it would be of no use!

The most important thing is, he bore no grudges against these people.

It wouldn't be right to just go on a killing spree here in order to help the Mystical Little Tree recover quickly, would it?

He killed Yao Feiyang because that guy was too arrogant, seeking his own death.

Otherwise, he wouldn't have wanted to kill Yao Feiyang!

Such a Divine Race Bloodline would indeed be quite troublesome.

"Forget it, let's not engage in wanton killings without a cause. Unless the members of the Royal clan I encounter behave like this guy, I can make a move then!"

After contemplating, Mu Jinyu ultimately gave up the idea of going on a killing spree in the Tiangan Secret Realm.

And decided to be a law-abiding, honest person.

Shaking his head slightly, Mu Jinyu dispelled these distracting thoughts.

Then he walked towards Yao Feiyang's remains.

Finally, he took a Qiankun Ring from the finger on Yao Feiyang's right hand.

Yao Feiyang was dead, and the restrictions he had placed on the Qiankun Ring were no longer effective. Mu Jinyu easily broke them and claimed it as his own.

His Divine Sense entered Yao Feiyang's Qiankun Ring.

Mu Jinyu discovered a pile of Divine Origin Crystal Stones exuding divine power, along with some elixirs and jade slips.

The Divine Origin Crystal Stones were valuable. Even for Yao Feiyang, they were only used for breakthroughs.

Unlike Spirit Stones, they couldn't be used continuously for daily cultivation.

"Still feels quite poor..."

Mu Jinyu complained, then proceeded to inspect the elixirs and jade slips.

The elixirs were sixth and seventh grade, suitable for cultivators in the Void Breaking Realm and Life and Death Realm to use.

Mu Jinyu could use them too, so he took them.

The jade slips contained some cultivation methods and cultivation insights of the Three-eyed god clan.

These were of no use to Mu Jinyu whatsoever.

No, they were utterly useless!

Mu Jinyu initially planned to throw them away, but then reconsidered. It wasn't necessary to waste them; he might find an opportunity to sell them later. So he kept them too.

After searching Yao Feiyang's corpse and finding nothing else of interest, Mu Jinyu continued forward.

Outside the Tiangan Secret Realm.

In front of Duanchang Gorge.

With Yao Yunfei's death, the patriarch of the Yao Family, responsible for leading the family's participation in the Tiangan Secret Realm, suddenly changed his expression and took out a compass.

On it, a hundred faint light spots had just turned off one.

"It's that child Feiyang!"

"Damn it!"

"Who killed Feiyang!"

As soon as the Yao Family Patriarch realized Yao Feiyang was dead, he was furious. His voice boomed like a volcanic eruption.

"Whoosh!"

The Yao Family Patriarch drew a circle with his hands, and a Void Mirror appeared in mid-air.

Soon, the image in the mirror twisted, vaguely revealing a scene of Yao Feiyang attacking someone else.

"Bang!!"

However, before anyone could clearly see the person's backside, the Round Light Mirror shattered instantly.

The Yaa Family Patriarch vomited crimson blood, suffering a severe backlash!

"How could this be..."

"Is there an elite cultivator inside?"

The Yaa Family Patriarch murmured in disbelief.

"Ha, ha... Trying to avenge an attack, only to get killed yourself, and still want someone to settle the score, how amusing!"

The Royal clan wasn't entirely united against outsiders; there were internal conflicts too.

Seeing the recording of Yao Feiyang's final moments, some members of the Royal clan couldn't help but mock.

Chapter 1784 1784: Zhao Donglai's Suspicion! Devouring Law Fragments!

The patriarch of the Yaa Family heard the ridicule from others, his expression turned ugly, he snorted coldly, and swept his fierce gaze at them.

Yet, he couldn't say much.

After all, from the earlier scene, it was evident that Yao Feiyang wanted to ambush someone else, and now that his life light spots have dissipated, it represents that his ambush failed, and he was killed instead.

And those who entered the Tiangan Secret Realm, which of them are weak?

If you're the one trying to scheme against others first, dying is deserved.

The forces Yao Feiyang intended to plot against not pursuing the trouble against you is already good, do you still want to pursue it back?

The Yaa Family was indeed at fault, how can they arrogantly proclaim only us Yaa Family members can kill others, but others cannot fight back!

Wouldn't the Yaa Family provoke everyone to attack them?

Thus, he couldn't say more.

However, if it's unclear to him who Yao Feiyang exactly died at the hands of, he would be greatly unwilling.

Hence, the patriarch of the Yaa Family then consecutively performed various secret techniques, trying to spy on the scene before Yao Feiyang's death.

"Buzz!!"

Eventually, a light screen appeared, successfully reflecting the scene Yao Feiyang saw before his death.

However, the opponent's true body did not manifest within the light screen.

He was emitting a thick and viscous blood-colored light all over, making it impossible to discern his visage.

The move that exterminated Yao Feiyang was mobilized by a nasty bone dragon, clad in sword-like armor, blasting Yao Feiyang with no chance to fight back!

"Could it be someone with Bone Tribe bloodline?"

"Impossible, no one can possess Bone Tribe bloodline, it should be Bone Demon Clan bloodline or Bone Spirit Clan bloodline..."

Patriarchs from various royal families and Institute Heads from Dongyue Mansion saw the scene spied by the Yao Family and discussed in surprise and uncertainty.

Though the Bone Tribe is also classed as one of the Ten Great Strong Races among the foreign races, it is very challenging for them to interbreed with humans, to extend their bloodline.

Since the Bone Tribe are essentially skeletons, how could they mate with humans to produce offspring?

Only rare individuals from the Devil Clan can integrate with them, ultimately extending the bloodline.

Such as branch species like the Bone Demon Clan...

But evidently, these noble families, self-proclaimed as royal clans, can't have disciples under them possessing bloodlines from these low-ranking foreign races like the Bone Demon Clan.

If it were purely a Bone Tribe bloodline, they would be willing to preserve it within their royal clans.

But the Bone Demon Clan clearly doesn't qualify.

So, the one who killed Yao Feiyang is likely from Dongyue Mansion.

Only Dongyue Mansion would recruit disciples from all kinds of bloodline foreign races, letting them become students, to partake in Tiangan Secret Realm trials.

Though the Bone Demon Clan is a foreign race ranked outside the top hundred, they are still not weak and could possibly partake in this trial.

Almost with a "shwaa", the patriarchs of the royals stationed outside Duanchang Gorge all turned their gaze toward the Institute Heads and mentors from Dongyue Mansion.

"What? We didn't recruit any Bone Demon Clan students in this time!"

"Exactly, why are you looking at us!"

"Even if our students did kill, it was your Yaa Family who initiated conflict, dying is deserved!"

Dongyue Mansion also strongly retaliated, speaking out directly in anger.

Facing these royal clans, they really showed no fear.

After all, among the students admitted earlier, whether senior or intermediate students, not one is from the Bone Demon Clan.

There was originally one, which was Ji Fei, but Ji Fei died at the hands of Mu Jinyu, replaced finally by Mu Jinyu, the pureblooded human race.

So they certainly wouldn't let these folks pin the blame on Dongyue Mansion.

Institute Head Zhao Donglai from the Demon Academy, however, recalling the blood light and bone dragon from the earlier scene, had eyes flickering indecisively.

Due to some conflict with Mu Jinyu, Zhao Donglai naturally paid more attention to Mu Jinyu.

He recalled Mu Jinyu's human physique apparently showed some phenomenon named "Blood-Colored Mirroring Rivers and Mountains"?

Previously executing a move of a blood dragon during the kill of Ji Fei and the duel with Chu Xin, the appearance is highly similar to that bone dragon, both covered in sword armor!

Might Mu Jinyu have killed Yao Feiyang then?

And due to his Blood-Colored Mirroring Rivers and Mountains phenomenon, the Yao Family patriarch couldn't perceive him?

Zhao Donglai felt this possibility could be quite high.

However, though he suspected Mu Jinyu might be the murderer, Zhao Donglai wouldn't be foolish enough to leak this news to these royal clans.

After all, firstly, all the Institute Heads of Dongyue Mansion are here, even Vice Manor Master Wang Yeqing.

He wouldn't dare leak secrets to the royal clans casually?

Secondly, it wouldn't benefit him at all.

So, Zhao Donglai's eyes flickered for a few moments and then continued to remain silent.

He didn't join the other Institute Heads and mentors in verbally sparring with the royal patriarchs.

...

In the Tiangan Secret Realm.

Mu Jinyu didn't know the matter of killing Yao Feiyang had been so quickly discerned by the Yao Family and led Zhao Donglai to suspect.

After abandoning the idea of assassinating all the royal clan descendants who entered the Tiangan Secret Realm, he continued to explore ahead!

During this time, he encountered many black and white Exotic Beasts, and after killing them, he acquired several small fragments of the Life and Death Law.

Throughout the process, he didn't encounter other people again.

Likewise, he seldom came across those void fissures to acquire space law fragments.

"It seems I'm gradually approaching the core region of the Tiangan Secret Realm."

After once more slaying an Exotic Beast and obtaining a small fragment of the Life and Death Law, Mu Jinyu silently mused.

At this moment, he felt the Life and Death Law fragments accumulated within him were becoming difficult to digest, thus not preparing to advance rashly.

Mu Jinyu found a mountain wall and used a firewood knife to excavate a simple cave residence, entered, and then blocked it with boulders.

"Phew..."

Mu Jinyu let out a light breath, sat cross-legged, and began to internally inspect those black and white shimmering law fragments.

"I'm currently only at the Second Layer of the Void Breaking Realm, and the 'Marrow Nourishment Chapter' also has some issues, destined not to improve my cultivation significantly, how should these Life and Death Laws be digested? Should they remain stored within me? Will it cause problems?"

Mu Jinyu contemplated with some concern.

"Right, since that Mystical Little Tree takes an interest in the Divine Race blood, could fragments of Life and Death Law benefit the Three-Leaf Youlian?"

Mu Jinyu suddenly thought of this question.

Though the Three-Leaf Youlian hadn't actively devoured these fragments, he could guide and try, maybe it would yield effects.

Upon thinking, he acted.

Mu Jinyu silently activated the Three-Leaf Youlian.

"Swish, swish..."

Under Mu Jinyu's activation, the Three-Leaf Youlian gently unfolded its leaves, then extended its roots to pierce into those black and white colored light fragments.

"Buzz!"

Those law fragments immediately trembled together, then quickly shrank from nail-size to soybean-size, ultimately entirely devoured by the Three-Leaf Youlian.

"Boom!!"

Simultaneously.

As these fragments of Life and Death Law were devoured by the Three-Leaf Youlian, they emitted a faint black and white mist, transmitting to Mu Jinyu.

Mu Jinyu felt his body becoming comfortable while visions began to emerge in his mind.

Chapter 1785 1785: Refining Law Fragments! Insights of the Human Race's Forebears! Life and Death Fist Seal!

In the image, a man whose face is unclear is strolling in the torrential rain, lost in thought.

Finally, the rain stopped, the clouds dispersed, and the sun gradually appeared.

He gazed at the wet earth, lost in contemplation.

It's unclear how long he watched, but eventually, green sprouts emerged from the muddy ground, and everything thrived with vitality.

The man began to reflect, "The gathering of clouds and the dispersal of rain; when the clouds gather, it's life, when the clouds disperse, it's death. When the rain falls, it's life, when the rain evaporates, it's death. Even in death, it brings life to all things..."

Gradually, he seemed to gain more insights, and with a wave of his hand, he drew a Life and Death Cloud and Rain Diagram.

Thus, he stepped into the Life and Death Realm!

This scene faded away.

Mu Jinyu felt as if he had personally experienced everything, clearly understanding the man's insights and his mental journey at that time.

As well as how he ultimately broke through to the Life and Death Realm.

Regarding the cyclical nature between life and death, Mu Jinyu also gained a lot of comprehension.

Such an effect indeed exists.

Mu Jinyu was very surprised that the Three-Leaf Youlian could bring him such enlightenment thoughts of others.

Not everyone's enlightenment leads others to resonate, thus entering enlightenment themselves.

Just as everyone knows, to comprehend the Life and Death Law, one must either experience constant battles, finding comprehension amid the great terrors between life and death,

or choose quiet reflection, observing a mortal's life, watching them grow from a child, gradually marry and have children, eventually see their parents age, and after sending them off, gradually age themselves, then have their own children send them off...

These are relatively simple ways to comprehend the Life and Death Law, but not everyone can resonate with them, thus achieving great enlightenment and comprehension of the Life and Death Law.

Between people, there isn't necessarily mutual understanding. Some may be touched by this, while others may only find it noisy.

Just like the scene Mu Jinyu just witnessed, that man comprehended the Life and Death Law amid the gathering and dispersal of clouds and rain, even if he taught others his insights, others probably won't be able to comprehend much from it.

After all, each person's experience is different!

Yet Mu Jinyu could directly resonate with the other person's experience with the help of the Three-Leaf Youlian, personally experiencing their feelings and realizations at that time.

It's truly incredible.

It also allowed Mu Jinyu to directly understand the Life and Death Law.

If Mu Jinyu were at the Peak of Void Breaking Realm at this moment, he might also be able to use it to step into the Life and Death Realm.

If he was following the normal Spiritual Energy cultivation path requiring Unity of Heaven and Man, he might also grasp some Life and Death Law under this influence.

But his realm wasn't high enough, and the cultivation path he was following was different, so he neither broke through in cultivation nor grasped the Life and Death Law of heaven and earth.

Yet he gained many benefits, at least these life and death insights are very helpful for him in taking the next steps in his cultivation journey in the future.

"Boom!!"

Mu Jinyu just lamented the wonder of the Three-Leaf Youlian.

In his mind, another scene appeared, showing a powerful figure of the Human Race entering the Life and Death Realm.

"Ding ding ding!!"

A teenage boy, under the guidance of an elder who was either his father or master, was personally forging a sword soldier.

Finally, the sword soldier was forged, and under the elder's guidance, the boy squeezed out a drop of his Essence Blood to sprinkle on the sword soldier, making it recognize him as its master.

Time flowed slowly by, and in the blink of an eye, the boy, holding this sword soldier, earned an endless reputation in the surrounding area, rapidly advancing in cultivation to the Peak of Void Breaking Realm.

But despite killing countless opponents, he could never comprehend the Life and Death Law.

He traversed mountains and rivers and witnessed the various states of life yet never found resonance to comprehend the Life and Death Law or step into the Life and Death Realm.

Eventually, he was besieged by enemies, feeling powerless to resist, but in the moment the sword soldier broke to save its master, his heart ached beyond compare, and finally, in the formation and breaking of the sword, he comprehended the Life and Death Law.

Thus, he stepped into the Life and Death Realm, holding the broken sword, slaughtering enemies left and right.

Afterwards, he exhausted all means and finally revived the artifact spirit of the broken sword.

However, he didn't repair the broken sword, choosing to use that broken sword continuously.

And when the artifact spirit of the broken sword revived, he gained further insight, breaking through the Mysterious Gate of Life and Death, reaching the Peak of the Life and Death Realm.

Incredible beyond imagination!

Ultimately, the scene faded away.

The sword master's insights into life and death deeply moved Mu Jinyu.

Next, scene after scene of others comprehending the Life and Death Law appeared in Mu Jinyu's mind.

Allowing him to experience the lives of numerous Heaven's Pride of the human race and learn how each of them stepped into the Life and Death Realm.

Digesting so many memory scenes and insights rapidly, if it were someone else, it's conceivable they might go crazy, not even remembering who they actually are.

But Mu Jinyu had the protection of the Mystical Little Tree's seed, along with his inherently strong soul aspect, which, despite feeling a bit uncomfortable, ultimately brought him clarity.

He understood he was still Mu Jinyu and that those memories and insights actually didn't belong to him.

"Ah..."

Mu Jinyu closed his eyes for a long while, finally opening them, with the originally cloudy and befuddled eyes now becoming clear and bright again.

He exhaled deeply, feeling a complex mix of emotions.

"No wonder this Divine Plant is so rare in the Canglan Realm, even the Divine Race may not have it!"

Mu Jinyu suddenly thought of the time on Earth when Xilin discovered he possessed a Divine Plant and shared certain things with him.

At that time, he simply thought the Mystical Little Tree and the Three-Leaf Youlian were only so, undoubtedly strong, but not to the extent that Canglan Realm couldn't find several plants?

Now, as he blended deeper into the Canglan Realm, he increasingly understood the terror and might of Divine Plants.

If he hadn't chosen to sever his bloodline back then and instead sought the cultivation method from the Dragon Clan's Demon Race, following the Foreign Bloodline Cultivation Path,

with the help of the Three-Leaf Youlian at this moment, perhaps he would have directly stepped into the Life and Death Realm now.

This time, Mu Jinyu suddenly felt he had gained some insights himself after observing the many people's life and death realizations.

Though he couldn't forcibly control the Life and Death Law of heaven and earth, he could try mobilizing his own Vital Energy and Deadly Qi?

Unable to contain his surging emotions, Mu Jinyu stood up, slightly closed his eyes, and slowly practiced cultivation and fist skills.

Moments later, Mu Jinyu mobilized his Vital Energy and Deadly Qi within, layering his left and right fists with black and white glows respectively.

His left hand holds life, right hand holds death, as if performing Tai Chi, pushing and pulling in circular motion with his hands, the black and white qi subtly integrating, forming a Yin Yang Fish pattern.

"Bang!"

"Boom!!"

With a sense of realization, Mu Jinyu directly launched a punch!

Instantly, accompanied by a fierce rumble, the giant rock blocking the cave entrance was pulverized with one punch, letting the dim light from outside flow in!

"Ah..."

Mu Jinyu exhaled a long breath, opened his eyes, serene yet confident, revealing a faint smile.

"Indeed, it is quite helpful to me, then...what about this?"

Mu Jinyu murmured to himself, and then, with sudden insight, spread out his hands. Instantly, a small, miniature Blood Dragon appeared in his left hand.

While a white, eerie Bone Dragon appeared in his right hand.

The Blood Dragon radiated intense vitality and vigorous blood energy, while the Bone Dragon emitted an aura of desolation and death.

Chapter 1786 1786: Life and Death Dragon Fist! Where Has Everyone Gone? Devil Clan Bloodline Royal Clan!

"The Blood Dragon signifies life, the Bone Dragon signifies death!"

"The Blood Dragon seems to have evolved from the Golden Fate Dragon of Kunlun, I'm not sure exactly how it appeared, but it was certainly born from within me!"

"The Bone Dragon, on the other hand, comes from the transformation of the Earth Emperor Bone Qi. It is inherently a dead thing, an external matter!"

"This makes it even easier to fuse!"

Mu Jinyu softly whispered, then slowly formed the Fist Seal with both hands and took a step to throw a punch.

Very soon, as Mu Jinyu gradually performed a set of fist techniques, both the Blood Dragon and Bone Dragon began to surround him front and back, and gradually fused, vaguely forming into an endlessly majestic Ancestral Dragon!

"Roar!!"

Ultimately, Mu Jinyu threw a punch, the dragon's roar was loud and clear, dragon shadows surrounded him, and violently shattered the wasteland before him!

"Excellent!"

Mu Jinyu opened his eyes, surprise glimmered in them.

This Life and Death Dragon Fist is far more powerful than Sword Dragon Slash.

It's reached the full strength level of a cultivator at the First Layer of the Life-and-Death Realm.

Now, he has another trump card!

Faced with a true Life-and-Death Realm cultivator, he won't be forced to use the Earth Emperor's Tome just to resist.

"Let's go!"

After digesting these Life and Death Law fragments, Mu Jinyu felt that this trip to Tiangan Secret Realm was truly worthwhile.

He wants to continue hunting those Exotic Beasts transformed by the Life and Death Law fragments.

These law fragments will greatly accumulate his foundation, enabling him to more smoothly complete his path after finishing the Marrow Nourishment Chapter.

Otherwise, solely relying on himself to comprehend the Life and Death Laws and creates a new path afterward would be exceedingly difficult!

"Boom!!"

After leaving the wasteland, Mu Jinyu continued forward, encountering more Ferocious Beasts.

He killed them all, absorbing the Life and Death Law fragments, and with the power of the Three-Leaf Youlian, his understanding of the Life and Death Law deepened.

Gradually, he also started contemplating how to address the problems in the Marrow Nourishment Chapter, as well as his future path!

He started getting some clues.

Though, for now, it seems somewhat distant.

Given the abundance of Life and Death Laws here, he can certainly wait till leaving Tiangan Secret Realm, and then think about these matters.

"Hmm?!"

"How come after walking for so long, I haven't encountered any Exotic Beasts? Have I killed them all? That's impossible!"

After walking several dozen miles, Mu Jinyu hadn't encountered any Exotic Beasts again, feeling quite odd.

Meanwhile, he considered that since arriving at Tiangan Secret Realm, he'd only come across Yao Feiyang.

Outside of that, he hadn't met any other people.

Wondering if others were aware of the situation here, all heading towards a specific location?

Mu Jinyu thought it was possible.

"Perhaps there are not only these law fragments here but also more treasures! They must all be fighting for those over there?"

Thinking like this, Mu Jinyu no longer wanted to slowly hone the Life and Death Dragon Fist while hunting Exotic Beasts for Life and Death Law fragments.

He directly took flight, speeding towards the front!

After all, as he moved forward before, he encountered more Exotic Beasts, though after this stretch of road there were hardly any, they might be gathering on a large scale later, or had been hunted by others ahead!

Anyhow, Mu Jinyu felt continuing forward was surely correct.

Even if wrong, turning around to search wouldn't waste much time.

"Boom!!"

Mu Jinyu sped along, his pace not much slower than other Void Breaking Realm cultivators.

After spanning over a dozen miles, he noticed quite a few Exotic Beasts below his feet.

Yet he didn't wish to waste time and was reluctant to hunt them again; he wanted to see if he could find more people's traces!

"Bang! Bang! Bang!!"

Soon, Mu Jinyu finally encountered two people engaged in battle.

One was a descendant from the Royal clan, the other an advanced level student from Dongyue Mansion.

Judging by attire, the student was a senior student.

"Humph!"

"More reinforcements?"

When the Royal clan descendant saw Mu Jinyu flying closer, his sullen face suddenly showed irritation.

However, once he noticed Mu Jinyu's cultivation at only the second layer of the Void Breaking Realm, his gaze turned disdainful.

"A mere early Void Breaking Realm brat dares to enter Tiangan Secret Realm, and even dreams of helping? Die!"

With a low growl, the Royal clan descendant fiercely flapped his Fallen Wings behind him, sending a barrage of black feathers shooting towards Mu Jinyu!

"Bang! Bang! Bang!!"

These Fallen feathers, while shooting, spontaneously ignited, emitting a life and death aura, nearly reaching the level of a Life-and-Death Realm offensive.

The void was directly penetrated into countless large holes, still burning fervently.

"Watch out, retreat!"

The Dongyue Mansion student, an ordinary-looking yet resolute man, saw Mu Jinyu arrive and was attacked by the Royal clan descendant, promptly warned Mu Jinyu.

"Absurd!"

Indeed, Mu Jinyu came over wanting to see the situation, whether to help the senior, but would have to first assess his character.

If it was someone like Ji Fei or Li Yi, perhaps he'd ignore them, letting them fight on their own.

Unexpectedly, the Royal clan descendant was quite sneaky, attacking without allowing Mu Jinyu to gauge the situation.

If it were a regular second-layer Void Breaking Realm cultivator, he'd likely have ended up dead here.

Yet, since the senior gave advice, he probably had decent character, so Mu Jinyu decided to assist!

"Haa!"

Mu Jinyu grasped his firewood knife, which appeared promptly, then with a long shout, it glimmered with a bloody light, dyeing heavens and earth bright red like blood.

"Slash!"

Finally, Mu Jinyu swung his knife down, accompanied by a resounding dragon's roar, a Blood Dragon emerged, adorned with Sword Armor, charging at the web of assaulting Fallen feathers!

"Boom! Boom! Boom!!!"

At the Life-and-Death Realm level of killing moves, Mu Jinyu's Sword Dragon Slash was executed with the power of his Pureblooded Human Race.

Though the opponent possessed the Demon Tribe Bloodline, and that bloodline was equivalent to high-ranking demon clans like the Three-eyed god clan, it couldn't compare to the dominance of "Blood-Colored Mirroring Rivers and Mountains," opponent's bloodline clearly fell short.

Notably, the opponent wasn't pureblooded demon clan, just possessing partial demon bloodline.

So, no surprise, the array of shooting Fallen feathers were all annihilated by the Sword Dragon.

Though the Sword Dragon was somewhat worn, it retained unmatched might, continuing its formidable charge towards that Royal clan youth!

"Damn it!"

Seeing this turn of events, the Royal clan youth's face paled, without hesitation, he turned to escape!

"Where do you think you're going!"

The ordinary-looking senior student, witnessing this scene unfold, while astonished by Mu Jinyu's impressive strength, immediately moved to intercept the enemy, preventing escape!

"Die!"

Mu Jinyu also wouldn't permit the opponent to flee. Initially, after killing Yao Feiyang and letting the Mystical Little Tree's seed absorb his bloodline for some recovery, tasting the essence but considering other concerns, he didn't opt to hunt these individuals.

Yet, since the other dared provoke unprompted, he must perish, becoming nourishment for the Mystical Little Tree's recovery!

Chapter 1787 1787: Senior Kong Xi! Life and Death Creation Pool! The Real Reason for the Competition!

"Boom!"

"Ah!!"

After a loud crash and a scream, that Imperial Family Descendant was killed, his body split in two, severed at the waist.

Blood and intestines spilled all over the ground, a truly tragic scene.

"Are you the...Mu Jinyu who temporarily stepped in?"

The ordinary-looking Senior Student, having killed the opponent with Mu Jinyu's cooperation, turned to look at Mu Jinyu, vaguely guessing his identity.

After all, they had met before coming here, just didn't pay much attention at the time.

"Yes, it's me."

Mu Jinyu nodded, neither arrogant nor humble.

"Not bad."

The Senior Student looked at Mu Jinyu with a hint of admiration, introducing himself, "I am your senior, called Kong Xi, you can call me Senior Kong."

"Okay, Senior Kong," Mu Jinyu nodded in greeting, then asked, "Senior, do you know why I haven't seen anyone along the way? Has everyone gone somewhere?"

"Yes, as soon as we entered Tiangan Secret Realm, we rushed to the core area. I was delayed by some things, so I'm still not there yet."

Kong Xi replied.

Without waiting for Mu Jinyu to ask further, he answered his question directly and smiled, "Did you think there are only Space Law Fragments and Life and Death Law Fragments in the Tiangan Secret Realm, so you were searching for fragments outside?"

"Yes."

Mu Jinyu nodded.

Although it felt somewhat ignorant, he really didn't know these things and had no reason to feign understanding.

Kong Xi laughed, "Actually, it's not just that. If it were only about some Law fragments, those Imperial Family Descendants wouldn't have so many people clamoring to get in. The most important thing in Tiangan Secret Realm is the core Life and Death Creation Pool."

"It is a special pool formed by countless Life and Death Law Fragments over many years. After entering it, the Creation Liquid can remodel the body, making our bodies more akin to the alien blood inside us, reducing future bottlenecks."

"You've heard, right? Many humans on the Foreign Bloodline Cultivation Path stop at the Life and Death Realm, unable to continue, because the foreign blood ultimately conflicts with us. Initially, the foreign blood is not strong, so it coexists peacefully with the Human Clan Bloodline, but as cultivation progresses, foreign blood grows stronger, increasingly rejecting our Human Bloodline. Once it reaches a certain level, the foreign blood erupts, entirely expelling our Human Bloodline!"

"You should also know that no matter how we cultivate the foreign blood, we are still human. Once the Human Bloodline is expelled, death is inevitable!"

"This is the reason why those on the path of Foreign Bloodline Cultivation mostly stop at the Life and Death Realm..."

After hearing Kong Xi's words, Mu Jinyu suddenly understood.

No wonder most Human cultivators stop around the Void Breaking Realm, finding it difficult to enter the Life and Death Realm with the 'Marrow Nourishment Chapter'.

The Foreign Bloodline Path also has its limits, reaching a point beyond which it cannot advance.

This was the reason.

Since Kong Xi mentioned it, it means there is a way to suppress the turmoil of the foreign blood inside or make one's body more akin to a foreign body, potentially allowing the path of Foreign Bloodlines to go further.

Kong Xi mentioned that the Life and Death Creation Pool can make human cultivators' bodies closer to the appearance of the alien blood inside, enabling them to advance further.

That's why the Tiangan Secret Realm, offering such conditions, is firmly held by various Royal clans and the Dongyue Mansion.

This is why various Royal clans are so eager to compete for it!

If you miss this opportunity, you'll have to wait another ten years.

If during this time, you already reach the Life and Death Realm but don't dare to continue cultivating, how frustrating would that be?

Mu Jinyu thought, with such limitations on the Path of Foreign Bloodlines, relying on others and never surpassing pureblood aliens, it's indeed better to follow the human cultivation path!

As expected.

As Mu Jinyu guessed the reason, Kong Xi continued, "Most people stop at the Life and Death Realm, afraid to continue further, unless they find a special place to suppress the foreign blood turmoil within,

or further assimilate the body with the foreign blood. Only then can they continue cultivating without risking their lives!"

"Our Mansion Master Wei Qiankun, Vice Manor Master Wang Yeqing, and those Imperial rulers have all experienced such encounters, which is how they reached the Creation Realm or even the Chrono Light Realm!"

"Of course, even so, it's still the end of the road for many, hard to continue further, far weaker than pureblood aliens!"

"Yet, people still yearn for this opportunity!"

"So now you should understand, we came here not just for those Life and Death Law Fragments, hoping to more confidently break through the Life and Death Realm, but to walk a longer path!"

"Yes," Mu Jinyu finally understood, thinking that the reason this news hadn't been widely spread within Dongyue Mansion, known to all Intermediate and Low-level students,

was probably a deliberate suppression. Otherwise, if everyone rioted, bringing out all sorts of trump cards, perhaps some of those seventy Intermediate Students wouldn't get this qualification.

Moreover, probably many Intermediate Students aren't aware of these secrets, thinking entry into the Tiangan Secret Realm is purely for Life and Death Law Fragments, perhaps still hunting for the Fragments of Laws from exotic beasts in the outskirts, just like he recently was.

This way, the Senior Students would have a better chance of gaining entry to the Life and Death Creation Pool.

People are selfish, after all, and Mu Jinyu understood this.

Hmm...

At that moment, Mu Jinyu suddenly thought of a question. Since people were so eager to conceal the information about the Life and Death Creation Pool, did it mean that the number of people who could get the bathing qualification was far fewer than he imagined?

Mu Jinyu quickly asked, "Senior Kong, how big is the Life and Death Creation Pool, can it accommodate most people?"

With over a thousand people coming in, surely the Life and Death Creation Pool couldn't hold so many people at once; they would have to compete for spots.

Kong Xi smiled slightly and replied, "About a hundred people, sometimes only seventy to eighty when things aren't so favorable!"

Upon hearing Kong Xi's words, Mu Jinyu completely understood. No wonder when he was hunting Exotic Beasts for Law fragments, that member of the Yao Family suddenly attacked him.

Most likely it was to eliminate people in advance, so there would be fewer competitors in the end!

Thinking of this, Mu Jinyu looked at Kong Xi, his gaze slightly moved.

This kind of hidden information, most would keep secret, yet Kong Xi willingly shared it, truly broad-minded.

Kong Xi looked at Mu Jinyu's gaze, smiled, and said, "Do you think I'm selfless, casually sharing this kind of information with you?"

"Actually, I'm not as selfless as you think. The reason I shared these details is mainly because you're pureblooded Human Race, so you don't need to compete, and naturally I can tell you more."

Chapter 1788 1788: Scheming! Laying Out the Ground Rules! Can the Demon Blood Be Taken?

Mu Jinyu heard Kong Xi's words, smiled, and said, "Senior Kong is joking. Since the Life and Death Creation Pool has such wonderful uses, even though I am a pureblooded human, it won't be completely useless to me. Why wouldn't I compete for it?"

"Moreover, even if I don't compete, aren't you afraid that I'll spread this information everywhere after leaving the Tiangan Secret Realm?"

"So I really appreciate you telling me this."

Mu Jinyu genuinely said.

"Haha..."

Kong Xi's ordinary and indifferent face suddenly broke into a smile, and he said, "I don't mind if you compete for it. I'm not afraid of not getting this opportunity in the end. As for you spreading the information chaotically after going out, that doesn't concern me. I've already obtained further opportunities through the Life and Death Creation Pool, and whoever fights for a spot later doesn't matter to me."

"But as for you, if you scatter this information recklessly, be careful of any danger you might encounter."

Kong Xi cheerfully spoke, completely unconcerned about Mu Jinyu's words.

After all, he is confident about obtaining a chance for one soak in the Life and Death Creation Pool, and won't need to specifically fight for a place to enter afterward. What should he care about?

Mu Jinyu felt speechless upon hearing Kong Xi's words.

He originally thought Kong Xi was a kind-hearted senior who took care of younger students and wasn't very talkative.

Who would have known that beneath his solemn face lay a scheming heart, and he had quite a sense of humor.

Shaking his head slightly, Mu Jinyu's gratitude toward Kong Xi wasn't as strong, therefore he asked, "Since that's the case, is there any help that Senior Kong needs from me for sharing this information?"

He understood; Kong Xi must need his assistance for something, that's why he spent considerable time talking to him, revealing these insider details, otherwise, he would have settled that royal descendant and directly left.

"Smart!"

Kong Xi laughed, "I told you so much, indeed I need you to help."

"Help with what?" Mu Jinyu asked.

Kong Xi replied, "Clear some people out. Too many have entered the Tiangan Secret Realm. Otherwise, when it's time for those qualified to bathe in the Life and Death Creation Pool, they'll be affected, so it's necessary to clean them out beforehand!"

"Oh, so Senior doesn't seek other advanced-level students to join forces for fear that they'd split the spots, and you might not get one for bathing, so you came to ally with me because I'm a pureblooded human with decent strength, is that right?"

"Yes, after all, I don't want to clear out students from Dongyue Mansion, we're all classmates, and teaming up with them would inevitably mean more competitors later, so partnering with you is most suitable," Kong Xi replied.

Mu Jinyu pondered, then said, "What advantages do I get for taking such risks to help you?"

If Kong Xi hadn't spoken frankly, Mu Jinyu might have felt grateful for his openness and agreed to his request right away.

He wouldn't say this, but since Kong Xi laid things out, Mu Jinyu found it normal to propose conditions.

Sure enough, Kong Xi didn't mind, laughed, "The items in the Qiankun Ring of those people we clear, we'll split equally, and you can attempt to soak in the Life and Death Creation Pool, see if you can refine and absorb, which might benefit your body..."

Mu Jinyu was certainly planning to check out the Life and Death Creation Pool, he laughed, "Then if, by chance, I absorb all of your shares of the pool water, what will happen?"

He was thinking of the seed from the Mystical Little Tree.

Back on Earth, the seed from the Mystical Little Tree was relatively plump, nearly ready to sprout, relying on the Dragon Marrow Immortal Spring to fully sprout and grow.

At present, though the Mystical Little Tree's seed was depleted in Life Force, the Life and Death Creation Pool, formed by numerous Life and Death Law fragments, might enable it to fully sprout upon absorbing enough Creation Pool water, returning to its original sapling state?

If that's the case, he must compete for it, even seize the entire share of the pool water.

That's why he spoke frankly to Kong Xi first.

Kong Xi, hearing Mu Jinyu's words, didn't mind and laughed, "The Life and Death Creation Pool isn't as easy to refine and absorb as you think. If you truly manage to monopolize all the share of pool water, I'm fine with it, I'll just wait another ten years. Anyway, whether I break through the Void Breaking Realm to the Life and Death Realm within ten years is uncertain!"

He was quite open-minded.

"Alright, since that's the case, I agree to ally with you."

Mu Jinyu nodded in agreement, then added, "However, when encountering those imperial descendants, can we refrain from acting first, and see if they make the first move?"

"Why?" Kong Xi asked, slanting his eyes at Mu Jinyu. "Feeling soft-hearted, if others don't fight, you hesitate to engage?"

Mu Jinyu said, "I still dislike killing people for no reason, but if they strike first, I have no psychological burden. Just like you, Senior, are reluctant to harm the students from Dongyue Mansion; we all have some principles, as we're still human."

"Hmm, a good point about still being humans, I agree with you."

Kong Xi's solemn face broke into a bright smile, laughing, "Truthfully, I'm also reluctant to attack people over some trivial things. Your temperament suits my taste quite well."

"Hmm." Mu Jinyu nodded, glanced at the body of the imperial descendant on the ground, "Let's distribute the items in the Qiankun Ring."

"Alright." Kong Xi agreed, then destroyed the Qiankun Ring, pouring out all the items from within, simultaneously saying, "Actually, don't expect too much. Everyone knew they might die upon entering the Tiangan Secret Realm and wouldn't bring valuable items in."

Just as expected.

The items in this imperial descendant's Qiankun Ring truly amounted to nothing much, mostly just source stones and other materials.

Mu Jinyu and Kong Xi then divided them, Kong Xi said, "Let's go, continue to roam around, find targets!"

Mu Jinyu asked, "Senior, is the Life and Death Creation Pool not yet open, hence your leisure to hunt in the outskirts?"

"Yes, that's correct," Kong Xi replied, "If we start clearing people near the Life and Death Creation Pool, those imperial descendants will team up, while several clans with marriage ties would unite against us. So, it's best to deal with lone imperial descendants in the outskirts before the creation pool opens."

"I see..." Mu Jinyu nodded, his gaze never leaving the downed bisected corpse on the ground, and when Kong Xi prepared to leave, he finally said, "Senior Kong, may I extract the Demon Blood from its body?"

"Demon Blood? What do you want it for?" Kong Xi paused his steps, turned back, and looked at Mu Jinyu with curiosity.

Mu Jinyu smiled casually and replied, "To research. In case we encounter pureblooded demon clans, maybe we'll find ways to counter them."

Chapter 1789 1789: Joining Forces! The Life and Death Creation Pool Is Almost Ready! Why Bring Dead Weight?

"Alright then, you go fetch it!"

Although Kong Xi knew that Mu Jinyu's answer was off, he didn't mind these matters, guessing that Mu Jinyu might be trying something with this foreign race blood.

Or cultivating some special Cultivation Technique.

He didn't ask any further, as everyone has their own secrets.

Mu Jinyu nodded, then went to extract the Demon Tribe bloodline from the imperial family descendant.

In truth, when he said he was extracting, he was actually using the Mystical Little Tree to absorb the Demon Tribe blood of this unlucky person.

Mu Jinyu already discovered that whether it was the Divine Race bloodline or the Demon Tribe bloodline, the Mystical Little Tree could devour them to accumulate its life potential.

He wondered if it could absorb the top-grade Demon bloodline and the bloodlines of the other Powerful Races?

Mu Jinyu was quite looking forward to it.

"Huh, your extraction method is a bit strange..."

Seeing Mu Jinyu set to extract the Demon Tribe bloodline from the imperial family descendant, then watching as the once bloody corpse swiftly turned into a pile of bones, Kong Xi was slightly startled and glanced at Mu Jinyu.

However, as the Mystical Little Tree was a Divine Plant, only a few people in the Canglan Realm had the chance to witness the power of a Divine Plant, so he naturally didn't know that it was the Mystical Little Tree's seed devouring the Demon Tribe bloodline.

He instead thought Mu Jinyu was truly cultivating some Demonic Technique that could devour people's bloodlines to enhance himself.

A bit wary in his heart, Kong Xi did not say much more.

The two then left the place, continuing to create "chance encounters" with imperial family descendants in the surrounding area, observing their reactions.

If they didn't hesitate to attack, then no problem, they'd just kill them right away.

If they didn't want to get into conflict, they wouldn't kill for it either.

In a blink of an eye, seven days had passed.

In partnership, Mu Jinyu and Kong Xi had hunted more than fifty imperial family descendants in this vicinity.

Meanwhile, only a dozen or so imperial family descendants had been spared by them.

After all, aside from them hunting others and preemptively clearing out unstable individuals, other imperial family members were naturally doing the same.

Thus, most imperial family members would attack ruthlessly upon encountering them without hesitation.

And just like they didn't want to kill indiscriminately, those imperial family descendants naturally bore the same mentality, which is why they passed by peacefully, without making a move against each other.

A few imperial family descendants who narrowly escaped from their hands were those who perceived them as not easy to provoke, thus not daring to make a move, thereby sparing their lives.

"Alright, we've been here for about seven or eight days, the Life and Death Creation Pool should be almost ready. We've taken care of fifty to sixty imperial family descendants, and others might have killed twenty or thirty more, so now within the Tiangan Secret Realm, there are probably only two or three hundred people left alive..."

"Stop killing, let's head directly to the Life and Death Creation Pool!"

After killing another imperial family descendant, Kong Xi said to Mu Jinyu.

"Alright."

Mu Jinyu had no objections either.

Then the two split the belongings from the Qiankun Ring of the slain imperial family descendant, and set out forward.

As for the corpse of the imperial family descendant on the ground, Mu Jinyu did not extract the foreign race bloodline from it.

Because after the Mystical Little Tree devoured the bloodline of several species from the Ten Great Strong Races, it seemed satiated, and didn't care for the ordinary foreign race bloodline.

Even encountering the same Divine Race bloodline or Demon Tribe bloodline again, it would not be tempted anymore.

And among the Ten Great Strong Races capable of intermarriage and producing offspring with the Human Race, only those like the Ghost Clan and Bone Tribe were impossible to combine with the Human Race to produce offspring.

So if there's a bloodline from a species the Mystical Little Tree still desires, it might only be possible to capture and kill pure foreign races in the future.

Very soon.

Mu Jinyu and Kong Xi swiftly flew towards the location of the Life and Death Creation Pool.

Half a day later.

They finally arrived near a pool about one acre in size.

At first glance, the pool was pitch black as ink, like a pool of poison, making one hesitate to approach.

But upon closer inspection, the pool would occasionally stir, turning clear.

This was the Life and Death Creation Pool.

Nearby, over a hundred people were already on standby.

These hundred people were basically divided into seven or eight small groups.

Originally, each faction that came in had about a hundred people, but now those who made it to the area near the Life and Death Creation Pool generally numbered only twenty or thirty from each faction.

Some fared worse, with only a dozen or so people.

Mu Jinyu remembered the major imperial families that entered, there were initially about ten, but now near the Life and Death Creation Pool, there were only seven or eight small groups.

Counting the side from Dongyue Mansion, it seemed a few imperial family descendants who entered the Tiangan Secret Realm had been completely wiped out!

"More people are coming!"

"It's from Dongyue Mansion again!"

"Damn it, Dongyue Mansion still has nearly thirty people living, I suspect those wiped out were at their hands!"

"Once fighting breaks out, we imperial families, with our intermarriages, should first deal with Dongyue Mansion's people, then slowly divide the Creation Pool's share..."

The seven small groups of imperial families, seeing the arrival of Mu Jinyu and Kong Xi, already displeased faces turned even uglier.

Then the small imperial family groups began to communicate silently, preparing to attack people from Dongyue Mansion once the Life and Death Creation Pool was fully brewed.

"Kong Xi!"

"Who's this behind you...?"

Seeing the arrival of Kong Xi and Mu Jinyu, the people on the side of Dongyue Mansion showed welcoming smiles.

After all, in such an environment, their classmate relationship made them feel closer.

However, those Senior Students, upon seeing Mu Jinyu, hesitated and asked.

Because among the twenty or so students from Dongyue Mansion who made it here, they were mostly Senior Students.

There were also two or three Intermediate Students mixed in, but those familiar with the Intermediate Student rankings knew they ranked in the top tier of Intermediate Students.

So, essentially there was no difference between them and the Senior Students.

But Mu Jinyu, the Intermediate Student, looked unfamiliar, and they had no recollection of him.

They suspected maybe another imperial family descendant killed some Intermediate Student and disguised themselves by putting on their clothes.

"This is Mu Jinyu, the Beginner Student who came up to replace Ji Fei, but now he's also an Intermediate Student, so you probably don't recognize him."

Kong Xi explained as he led Mu Jinyu to Dongyue Mansion's side.

"Oh, it's him?"

Hearing Kong Xi's explanation, these people came to realize, vaguely recalling Mu Jinyu.

After all, they were Senior Students, and when arranged to board the Teleportation Array to Xilan Province, the Senior Students were the first to leave, so naturally, they didn't have much impression of the Intermediate Students who came later.

However, realizing Mu Jinyu's identity, some people looked displeased, glanced disdainfully at Mu Jinyu, and directly complained to Kong Xi: "Why bring a burden like him over?"

Chapter 1790 1790: Ji Changkong's Proposal! The First to Qualify!

The atmosphere at the scene instantly became a bit tense as this person spoke.

Although these senior students and top intermediate students do indeed think Mu Jinyu is just a burden and of no real use, they didn't originally intend to speak out so bluntly to hurt him.

After all, he was brought by Kong Xi, so why offend Kong Xi for the sake of a newly minted intermediate student? It makes no sense.

If one dislikes Mu Jinyu, then when the battle begins, they don't need to pay attention to him, help him, and just let him fend for himself.

Anyway, with his cultivation at the Second Layer of the Void Breaking Realm, he is unlikely to survive.

Kong Xi looked at the person who spoke, with a slightly displeased face, and said: "Wang Yu, what do you mean by this? We are all students of Dongyue Mansion. Even if Jinyu's cultivation might be a bit lacking, his combat power is not far behind. Otherwise, do you think I'm foolish enough to bring a novice here?"

"How strong can he really be?"

Wang Yu smirked and was completely unimpressed.

"Alright, alright, stop talking. The Life and Death Creation Pool is about to be fully brewed. Let's conserve our energy to deal with others instead of internal conflict!"

A senior student with some prestige spoke up to mediate, telling Kong Xi and Wang Yu to stop arguing.

As he spoke, he glanced at Mu Jinyu and noticed that Mu Jinyu had a very calm demeanor throughout, without any shame or embarrassment due to Wang Yu's words.

Neither did he feel grateful for Kong Xi's support.

Clearly, either he was thick-skinned enough to ignore Wang Yu's mockery, considering Kong Xi's help as a matter of course.

Or he was strong enough that he didn't care about these taunts and assistance.

These senior students thought about it and concluded that Mu Jinyu was capable of killing Ji Fei, and cultivated the Humanity Path, so he should be the latter.

Therefore, he paid extra attention to Mu Jinyu, thinking that he could observe him more closely later.

Mu Jinyu certainly didn't care about Wang Yu's mockery. What was there for him to fuss about?

After all, if he enters the Life and Death Creation Pool later and if the Mystical Little Tree can truly absorb the Creation Pool water and re-sprout, it's likely these people will clash with him.

With that being the case, why should he bother proving anything to them or trying to fit in with them?

"Sorry about that..."

With others mediating, Kong Xi did not continue arguing with Wang Yu and turned to Mu Jinyu, speaking apologetically.

"It's fine, we're just not on the same path." Mu Jinyu smiled casually, unconcerned.

"Boom!!"

"Gurgle gurgle..."

As they spoke, the pool that fluctuated between black and white at the center of the crowd suddenly became intense, boiling up like hot water and emitting hazy steam.

"It's about to start!"

Noticing the changes in the Life and Death Creation Pool, Kong Xi's eyes suddenly sharpened, reminding Mu Jinyu.

Although it was his first time entering the Tiangan Secret Realm, he knew enough to understand that once the Life and Death Creation Pool absorbs enough Life and Death Law fragments and brews to a certain level, it will change like this.

Once this boiling change appears, it indicates that soon, the Life and Death Creation Pool will be fully brewed, allowing people to immerse their bodies and adapt their physiques to Foreign Race Bloodlines.

So, once such a precursor appears, it indicates that various factions are about to make their move to seize the opportunity.

Otherwise, once the Life and Death Creation Pool is fully brewed, and there are so many people present, at least two or three hundred, if someone jumps in at the opportune moment, won't they waste the Creation Pool water unnecessarily?!

"Everyone, prepare yourselves."

At this time, some more prestigious senior students of Dongyue Mansion, face solemn, reminded everyone.

"I have a proposal; let me speak."

At this time, a handsome young man stepped out from the Ji Imperial Clan group, speaking lightly.

"Ji Changkong, what do you want to say?"

People from the Yao Clan, Jiang Clan, Si Clan, and other royal clans asked.

Clearly, they all knew this person.

This person is indeed a young representative of the Ji Imperial Clan, who, at thirty, has already reached the Peak of the Void Breaking Realm. If everything goes smoothly, when he enters this Creation Pool, he will smoothly reach the Life and Death Realm.

Moreover, with the transformative effect of the Creation Pool water, he won't be stuck in the Life and Death Realm, fearing to cultivate further. The later cultivation path will be smooth, and he may eventually take over the Ji Imperial Clan, becoming the clan leader.

Therefore, the voices of inquiry from everyone were quite courteous.

Ji Changkong stepped forward, his gaze electric and intimidating, leaving many unable to look directly at him.

He scanned the various small factions divided into seven or eight directions and said, "Every time the Tiangan Secret Realm opens, whether it's Dongyue Mansion or us, royal clan descendants, many people die here."

"I think it's really meaningless; there's no need to fight like this and ruin the harmony."

"I suggest that those of us who are relatively strong and whom everyone knows they dare not compete with should not need to fight. Let's just enter the Life and Death Creation Pool directly..."

Saying this, he glanced at the Life and Death Creation Pool's capacity and continued: "This season's Life and Death Creation Pool should accommodate about a hundred people."

"And among those present, those who can overpower everyone and ultimately acquire slots to enter the pool include me, Jiang Taiping, Yao Lingfeng, and Gui Yufei..."

"These people don't need to fight and directly receive spots to enter the Creation Pool; everyone shouldn't have any objections, right?"

After Ji Changkong finished speaking, he looked at everyone present, inquiring about their opinions with his gaze.

"I have no objections!"

"We also have no objections..."

After hearing Ji Changkong's words, the small groups of royal clan descendants were silent for a while and then all nodded to express understanding, without resisting or attempting to compete.

Because Ji Changkong, Jiang Taiping, Yao Lingfeng, and others are the young Heaven's Pride of the royal noble families in this generation. Among the few hundred people present, very few can confidently defeat them.

So, rather than compete with them and end up badly beaten, it's better to concede directly and let them acquire predetermined slots.

This way, they can maintain full strength to compete with others similar in power for the remaining ninety slots.

"Hehehe..."

Ji Changkong chuckled, then looked at Jiang Taiping, Yao Lingfeng, and others, inviting them, "In that case, Brother Jiang, Brother Yao, we should go down and wait."

Although right now the Life and Death Creation Pool is not fully brewed, filled with extremely overwhelming Deathly Qi, which ordinary people simply can't withstand, and the pool is currently undergoing fusion, with extremely high temperatures that even the Life and Death Realm may not bear, this poses no challenge for them.

Instead, they can enter the Life and Death Creation Pool ahead, and once the pool water is fully brewed, they can immediately start refining and adapting their physique, much better than coming down later.

"Hmm."

Jiang Taiping, Yao Lingfeng, Gui Yufei, and other royal Heaven's Pride descendants, as well as the top three ranked senior students of Dongyue Mansion, accepted the invitation and stepped into the scorching Life and Death Creation Pool.

"Splash splash!!"

The crowd fell into the pool, but no one cried out in pain or suffered, instead showing expressions of enjoyment as if bathing in a hot spring.

This scene made other royal clan descendants and many from Dongyue Mansion look on enviously.
