Chapter 1791 1791: Ji Changfei Enters the Battle! Mu Jinyu Also Competes for a Spot!

This is indeed the powerful display of the few strongest individuals present!

If it were anyone else, stepping into the Life and Death Creation Pool at this moment, their physical body could hardly endure it.

In an instant, those who had some minor complaints in their hearts before no longer dared to say anything.

"My brothers' strength is undeniable, and no one challenges them. As for myself, I also want this spot. I wonder if anyone will compete with me!"

Just then, another person from the Ji Imperial Clan stood up.

This person had bulging muscles, a height of about 2.2 meters, exuding explosive power, giving people a sense of a wild bear.

His name was Ji Changfei, the younger brother of Ji Changkong.

Although the two were brothers, they had quite a different appearance.

This was because of the different foreign race bloodlines they inherited.

Ji Changfei's talent was somewhat inferior to Ji Changkong's, and being slightly younger, he was currently at the Late Broken Void Realm Stage.

He was still two or three minor realms away from the peak realm.

If it were the Tiangan Secret Realm ten years later, and he came here again, it's estimated he would also have Ji Changkong's level of performance, directly acquiring an undisputed spot for soaking in the Life and Death Creation Pool.

But now, he was still lacking a bit.

Thus, when Ji Changkong named names earlier, he did not include Ji Changfei.

However, despite the fact that there might be some controversy about Ji Changfei's strength, it's believed that it was impossible to let him in without a fight. But Ji Changkong still believed that his brother would undoubtedly defeat all those trying to stop him, and ultimately descend into the Life and Death Creation Pool.

"Here I come!"

As Ji Changfei stepped forward, someone from the Jiang Royal Family, which clashed with the Ji Imperial Clan, stepped out.

This person was named Jiang Taiyi, a cousin of Jiang Taiping, and his cultivation level was also comparable to Ji Changfei's.

Seeing that Ji Changfei wanted to compete for a spot, he immediately stepped forward.

He wasn't trying to snipe at Ji Changfei; he knew that Ji Changfei would definitely secure a spot in the Creation Pool, just like he himself would.

However, thinking that since both families had a feud, it was natural not to let Ji Changfei get the spot without a fight, so he stepped out.

He considered it an opportunity to undermine his prestige!

"I want a spot, who dares to stop me?!"

As Jiang Taiyi stepped up to intercept Ji Changfei, other imperial family descendants, as well as those top ten advanced-level students from Dongyue Mansion, also stepped forward.

They wanted to fight a few matches to win a spot.

Kong Xi and Wang Yu also stepped forward, their sharp eyes sparking divine lightning, making them impossible to look straight at.

They too wanted to secure a spot first.

In truth, none of them were fools. They all knew that while a hundred spots were relatively ample, everyone thought that these individuals were indeed strong, and fighting them for a spot could likely end in death at their hands, so they better not compete with them.

It's better to preserve strength to compete with those of similar capability.

But in a flash, if the spots were all taken and only twenty or thirty were left, the competition would become fiercely intense.

No one would easily abandon it; they would wear you down in wheel wars until you exhausted to death!

That's when the competition would become truly brutal.

So, fighting now when spots are relatively ample rather than when few remain later, is foolish behavior!

"Bang Bang Bang!!"

"Boom!!"

"Wow!!!"

Soon, next to the Life and Death Creation Pool, fierce battles erupted. Some fell in defeat, losing their lives, while others fought until no one dared confront them, directly entering the Life and Death Creation Pool.

Among them, Ji Changfei and Jiang Taiyi's fight was the fiercest, but they soon stopped to contend against other challengers, then fought until no one could stop them, subsequently entering the Life and Death Creation Pool.

Although they acted first, they weren't foolish enough to fight recklessly.

After all, their strengths were equal, and if they fought to mutual exhaustion next, wouldn't it be a waste, benefiting those with lesser power?

Just like Ji Changkong and Jiang Taiping, these Peak of Void Breaking Realm individuals didn't act impulsively; they wouldn't do things that make it easy for others.

Soon, all battles concluded.

In a blink, more than fifty spots were gone.

Meanwhile, nearly two hundred people were eyeing the remaining spots.

Mu Jinyu hadn't stepped forward earlier because he knew his cultivation seemed weak, only at the Second Layer of the Void Breaking Realm. If he had stepped forward sooner,

it's feared that Ji Changfei and Jiang Taiyi would all act against him, intending to kill him to deter those weaker from getting any wild ideas.

Although he feared not Ji Changfei, he didn't wish to fight them pointlessly, wasting energy.

After all, their blood was no longer being consumed by the Mystical Little Tree's seed.

And now that only fifty slots were left, with the remaining participants only around the mid-late stage of Void Breaking Realm, he could defeat them while keeping a low profile.

Not causing a stir like defeating Ji Changkong and others, which would provoke everyone to target him!

This would be detrimental to his refining process in the Life and Death Creation Pool later!

So stepping out now was most appropriate.

"I also want a spot."

At this point, when several others voiced their desire for a spot, Mu Jinyu also stepped out.

"Hmm?!"

"What the hell?!"

"A young kid at the Second Layer of the Void Breaking Realm dares to challenge us?"

"Does he really think he's a Dongyue Mansion student, can challenge those trash at the mid-late stage of Void Breaking Realm, and thinks he can also defeat us?"

"Dare to underestimate the descendants of the Imperial Family? I will make you regret it deeply!"

"..."

Seeing Mu Jinyu stand out, attempting to claim a spot in the Life and Death Creation Pool, a group of imperial family descendants was instantly furious, and over a dozen of them stepped out, ready to intercept Mu Jinyu.

Even those advanced-level students from Dongyue Mansion who hadn't succeeded were astonished, not expecting Mu Jinyu to have such audacity.

They did not think highly of Mu Jinyu at all, some even mockingly hoped that he would just die quickly to avoid further disgracing Dongyue Mansion!

If they weren't fellow students of Dongyue Mansion, and there weren't many students watching, some even considered taking Mu Jinyu's life personally!

"Hmph, reckless!"

Wang Yu also secured a spot and was soaking in the scalding pool water of the Life and Death Creation Pool, struggling to endure.

He couldn't quite match Ji Changkong and Jiang Taiping, who found comfort in soaking during the Creation Pool's transformation process.

He found it extremely hard to bear throughout soaking.

Seeing Mu Jinyu step out, he couldn't help but sneer, thinking he was just a clown seeking attention.

Thinking to gain fame and attention this way, little did he know there was a chance he'd lose his life!

"Keep going..."

Kong Xi was rather fond of Mu Jinyu, but seeing him step up with so many wanting to challenge him, it was uncertain if Mu Jinyu could fight until no one dared stop him and obtain a spot, so silently cheered him on.

Chapter 1792 1792: Consecutive Kills! Unstoppable Brilliance!

"Do you all wish to stop me?"

Mu Jinyu saw over ten people eager to challenge him. Though he wanted to say "Come all at once," knowing he had the skills, he chose to remain low-key and didn't want anyone to disrupt his plan of monopolizing the Life and Death Creation Pool.

Thus, he restrained himself from saying "I want to take on ten," and calmly said, "Then come one by one!"

With a flash, Mu Jinyu's eyes emitted a cold spark, glaring at a man who looked at him with the most malicious intent.

This man was from the Si Family, his name unknown, his cultivation in the Sixth Layer of the Void Breaking Realm, belonging to the peak of the Middle Stage of the Void Breaking Realm.

If luck favored him, he might also have the opportunity to soak in the Life and Death Creation Pool.

He probably saw Mu Jinyu's presumptuousness and wanted to make a name for himself, perhaps to intimidate others for a better chance at obtaining a spot.

"Then it's you!"

Regardless of the Si Family descendant's reasons, Mu Jinyu disliked his malicious gaze and decided to deal with him first!

"Alright!"

The Si Family descendant, seeing Mu Jinyu choose him, grinned savagely, then his body cracked open, flames erupted, turning him into a person ablaze.

His bloodline belonged to the Spirit Clan, one of the Ten Great Strong Races, but strictly speaking, it shouldn't fall under the Ten Great Strong Races, but should be referred to as the Fire Spirit Tribe, roughly ranked twenty among the Powerful Races.

This seemed to be a result of the Spirit Clan's bloodline circulating among the royal families, gradually mutating, vastly reducing its power compared to a normal Spirit Clan bloodline.

Otherwise, if this guy had a pure Spirit Clan bloodline, he would have already joined the ranks of the Si Family's Heaven's Pride, enjoying the Life and Death Creation Pool.

"Kill!"

Mu Jinyu wielded the firewood knife, casually using the Firewood Chopping Saber Technique to fight the opponent.

Facing an opponent with such cultivation, Mu Jinyu didn't need to use the Life and Death Dragon Fist or the Sword Dragon Slash; the ordinary Firewood Chopping Saber Technique was enough to deal with him.

In his previous Divinity Transformation Realm, he had easily defeated opponents with similar cultivation.

Though due to the Si Family descendant's stronger foreign bloodline, but even so, if Mu Jinyu got serious, one strike would be enough to end him.

But intending to conceal his true strength, Mu Jinyu didn't defeat the guy in one strike, instead fought hard for dozens of moves before finally overcoming him.

"Hmph, just this kind of ability, not knowing one's limits..."

Wang Yu observed Mu Jinyu struggling against this ordinary Si Family descendant, disdainfully smirked, then lost interest in him.

Meanwhile, Kong Xi watched Mu Jinyu, pondering, deducing that Mu Jinyu might intentionally be hiding his cultivation.

Indeed, knowing his own cultivation was merely the Second Layer of the Void Breaking Realm, yet possessing terrifying combat prowess, if he appeared too formidable, letting everyone know he could even slay the Peak of Void Breaking Realm, many would be wary of him.

Even Ji Changkong and Jiang Taiping wouldn't necessarily be exceptions.

Since he killed an imperial family descendant, not just any foreign blood cultivator.

If he were allowed to continue growing, they would do their utmost to hinder him!

Therefore, Mu Jinyu's decision to develop discreetly was actually a correct choice.

"Next!"

Mu Jinyu "struggled" to defeat the Si Family descendant, then set his gaze on others.

"I'll go!"

Someone from the Ji Clan immediately stepped up.

This person also had the Sixth Layer of the Void Breaking Realm, akin to the Si Family descendant.

Mu Jinyu wondered where he found the courage to fight him?

Did he think since Mu Jinyu struggled to beat the Si Family descendant, he should be exhausted enough now, thus making it easy to win, hence intercepting him?

Mu Jinyu simply chuckled dismissively and engaged with him.

"Bang!!"

This time, Mu Jinyu required only ten moves to split the opponent's head in two.

The soul couldn't escape and was scattered on the spot!

"Hmm?!"

Ji Changkong and Ji Changfei, soaking in the Life and Death Creation Pool, alongside other Ji Clan members, witnessed this scene, their eyes glimmered intensely, staring hard at Mu Jinyu.

"Unable to even defeat Second Layer of Void Breaking Realm, lacking skills, no need to bother!"

Ji Changkong cast a few glances at Mu Jinyu, then retracted his gaze, speaking coldly.

Subsequently, other Ji Clan members begrudgingly withdrew their gazes, saying nothing.

"Who's next!"

Mu Jinyu's ten-move kill of the Ji Clan member exerted much greater deterrence than dozens of moves defeating the Si Family descendant.

Instantly, many royal descendants at the Middle Stage of the Void Breaking Realm who initially planned to challenge Mu Jinyu dared not fight him anymore.

Fearing they would share the fate of that Ji Clan member.

"I'll do it!"

Just then, having dominated the field in another battle area, a Ji Clan member with cultivation at the Eighth Layer of the Void Breaking Realm, eyes sparkling like electricity, stared at Mu Jinyu, deciding to recover the Ji Clan's lost dignity.

To kill Mu Jinyu and then enter the Life and Death Creation Pool!

"Good! Come!"

Mu Jinyu could sense the Life and Death Creation Pool below was nearly ready; the mystical little tree seed in his Sea of Consciousness began to stir restlessly. He decided to kill the guy and hurry down.

"Die!!"

This Ji Clan member immediately stimulated his bloodline, transforming, akin to an upright walking lizard man.

His bloodline belonged to the Demon Race, specifically the Earth Dragon Clan's bloodline, its power quite formidable, roughly ranking among the top thirty in the Ten Thousand Clans.

"Roar!"

This Ji Clan member, upon activating his Earth Dragon Clan's bloodline, instinctively let out a roar, face full of brutality, then dashed towards Mu Jinyu!

"Clang clang!"

"Bang!"

After a dozen moves of entanglement with him, Mu Jinyu finally ended him at the cost of minor injuries, beheading him, like the swift owl!

"Ji Xiao!"

"Damn it!"

"How can this guy be so strong?!"

Seeing the clan member with Earth Dragon Clan's bloodline perish under Mu Jinyu's knife, the remaining Ji Clan members shouted in disbelief, grieved and shocked.

All glared at Mu Jinyu in anger.

Even Ji Changkong and Ji Changfei, soaking in the Life and Death Creation Pool, couldn't help but feel a mix of anger and shock.

After all, Ji Xiao was not an ordinary character.

He was initially qualified to enter the Life and Death Creation Pool!

"Damn it!"

Ji Changfei couldn't bear it anymore and wanted to leave the Life and Death Creation Pool to confront Mu Jinyu.

"Don't be impulsive, the Life and Death Creation Pool is almost ready. Seek revenge later!"

Ji Changkong stopped his brother, speaking grimly.

"Alright."

Ji Changfei, filled with resentment, eventually had to suppress it at his brother's persuasion.

"Anyone else wants to fight?"

Mu Jinyu held the blood-dripping firewood knife after killing Ji Xiao, glaring at the crowd, asking in a deep voice.

No one responded.

Damn it, Ji Xiao initially overwhelmed the scene, none dared to fight, being qualified to enter the Life and Death Creation Pool.

Now Mu Jinyu killed him with just over ten strikes, who would dare to stop Mu Jinyu now?

Isn't it just courting death?

"Hmph!"

Mu Jinyu snorted coldly, then slowly walked towards the Life and Death Creation Pool behind him.

He noticed the ferocious gazes of Ji Changfei and other Ji Clan members fixed on him, but he utterly ignored their look of wanting to devour him alive.

Chapter 1793 1793: The Senior's Well-Intentioned Help! Ungrateful! The Creation Pool Is About to Form!

"Splash!"

Mu Jinyu leapt and jumped into the boiling Life and Death Creation Pool.

"Sizzle!"

Mu Jinyu's physical body had been refined to be quite resilient, yet upon entering the pool, he still felt the heat.

Of course, having undergone multiple body refining sessions and cultivated chapters like the "Skin Membrane Chapter" from the "Humanity Path Sutra," he could endure it.

"Let's see if it can be absorbed by the Mystical Little Tree?"

Choosing a corner to soak alone, Mu Jinyu did not seek out Kong Xi and others. With a thought, he attempted to activate the seed of the Mystical Little Tree to devour and seize the Life and Death Creation Pool.

"Boom!"

The seed of the Mystical Little Tree trembled slightly, refraining from action but conveyed a stirring desire to Mu Jinyu.

Clearly, the pool water greatly benefited it, though it wouldn't recklessly devour it all until the pool reached its peak potency.

Realizing the Mystical Little Tree's attitude, Mu Jinyu couldn't help but breathe a sigh of relief.

As long as it is useful.

The fear was it being useless; otherwise, he'd only use it to refine his body further.

With a plan in mind, Mu Jinyu settled down and ceased his attempts, raising his gaze to survey the surroundings.

He observed Ji Changkong, Ji Changfei, and other Ji Clan members glaring at him malignantly, evidently dissatisfied with him for slaying two Ji clan members successively.

If not for the bigger picture, they might have already taken action against him.

"Hiss..."

Ji Changfei, noticing Mu Jinyu looking his way, provocatively licked his lips with his tongue and then ran his hand across his neck, glaring at Mu Jinyu with malice.

In response, Mu Jinyu smiled brilliantly and then shifted his gaze to others.

The members of the Jiang, Yao, and Si clans eyed him not so maliciously but with a mix of mockery and pity, seemingly aware of the consequences of offending the Ji clan.

Next, Mu Jinyu noticed Kong Xi attempting to converse with several senior students.

These were the senior students who, along with Ji Changkong, Jiang Taiping, and Yao Lingfeng, entered the Life and Death Creation Pool first. Their strength ranked them among the top three senior students.

Therefore, if Mu Jinyu hoped for the Ji Clan to spare him, their intervention held some possibility.

After all, Mu Jinyu had slain Ji Xiao, who was originally qualified to enter the Life and Death Creation Pool, enhancing the Ji clan's foundation!

"It's impossible; in unheard situations, killing their clansmen could be overlooked, but once gathered near the Life and Death Creation Pool, people usually won't resort to murder despite competition for qualifications! Yet he recklessly slew two Ji Clan royals; how can we help?"

When Kong Xi pleaded, the three top senior students shook their heads in denial.

Although Mu Jinyu was a classmate, he had no strong bond with them. Contrary to the Ji clan, they shared blood ties.

They certainly had no reason to risk their lives for Mu Jinyu!

"Or how about this; have Mu Jinyu apologize and admit his mistake to Ji Changkong and others. We could intercede briefly and discuss compensation matters to potentially spare him,"

one senior student suggested to Kong Xi.

"Okay, I'll try,"

agreed Kong Xi, thinking Mu Jinyu was too impulsive, shouldn't have killed Ji Xiao before many royal powerhouses, but there was no choice now. Although he doubted Mu Jinyu would bow and admit faults, he approached to relay the senior student's message to him.

"You want me to bow and admit fault, then compensate?"

Upon hearing Kong Xi's relayed message, Mu Jinyu was slightly stupefied before his expression sank, directly refusing: "No need, I don't require their assistance. Thank you for your kindness, Senior Kong."

He didn't believe his act of killing the two Ji Clan members wrong.

They showed no mercy attempting to kill him upfront.

Why should he spare them and dare not kill in return?

Had he been equal in power, if hesitating to kill due to mercy while they dare to slay him, wouldn't his hesitation enhance his likelihood of defeat over the Ji people?

Therefore, Mu Jinyu saw no fault in his actions against those two Ji members.

As for the "kind suggestions" from the senior students, there's no way he'd consider it.

If he sees himself in the right, why apologize and compensate?

Even if he did so, could Ji Changkong and others truly forgive him?

Even if they ultimately pardoned him, ceasing hostilities post-Life and Death Creation Pool...

However...

He was set to seize the majority of the Life and Death Creation Pool.

By stealing their opportunity and cutting off their cultivation path, would they not fight to the death?

If they'd ultimately confront him, why now humiliate himself while admitting error and compensation?

"This..."

Kong Xi noted Mu Jinyu's rejection and couldn't help but smile bitterly.

Thought whether to disregard Mu Jinyu's life and death seeing he's too conceited.

Their friendship wasn't profoundly deep anyway.

"We intended helpful intervention seeking any leeway, yet if you choose your demise, we are done intervening,"

Voicing displeasure, one senior student transmitted directly to Mu Jinyu, seeing his rejection and Kong Xi's bitter smile.

Mu Jinyu chuckled softly, tracing the position of the message-sending seniors, and replied: "Thank you for your kindness, senior students, but I will face my actions independently without implicating any of you..."

The senior, hearing his retort, ended interactions with Mu Jinyu entirely.

Sealed his eyes shut, awaiting the brew of the Life and Death Creation Pool!

Observing Dongyue Mansion's minor maneuvers, Ji Changfei and other royal members couldn't help but reveal taunting smiles,

Mu Jinyu watched steadily, reflecting, while they smile now, Dongyue Mansion's senior students avoid meddling in his fate, yet once they realized his near-entire takeover of the Life and Death Creation Pool, leaving most without access, many would fiercely contest him!

This thought sparked a smile on Mu Jinyu's face as well.

"Gurgle gurgle..."

At that moment, the Life and Death Creation Pool's maturation reached the required stage. The swirling black and white pool gradually turned golden, exuding an intoxicating fragrance.

Simultaneously, remaining unqualified observers frenziedly began fierce battles.

Each hoping to swiftly eliminate contesters, seizing the opportunity for a physique-altering bath in the Life and Death Creation Pool!

Mu Jinyu took note, feeling the lurking commotion from the mystical tree seed within his Sea of Consciousness, and swiftly conveyed a message to Kong Xi: "Senior Kong, keep as far as possible from me, the farther the better..."

Kong Xi, startled by his words, was unsure of Mu Jinyu's reasoning for this warning.

But seeing his grave expression, realizing Mu Jinyu planned something avoiding his involvement, hesitated and eventually chose distance.

He didn't act unwillingly to aid Mu Jinyu...

Rather, he discerned determination and confidence in Mu Jinyu's gaze.

Chapter 1794 1794: One Person Seizes 90% of the Divine Liquid! Identity Exposed!

"Alright! Take care of yourself!"

Kong Xi vaguely guessed something, and after sending a message to Mu Jinyu, she immediately withdrew, retreating to the furthest corner of the pool.

She was distantly facing Mu Jinyu from the south to the north.

"Boom!!"

At this moment, the Life and Death Creation Pool was finally completed, and the original scorching heat disappeared.

The immense vitality and deadly qi contained in the pool were gone, transformed into a very special mystical substance, seemingly holding endless Taoist laws.

"Begin!"

"Finally, the Creation Pool can be refined!"

Seeing the changes in the Life and Death Creation Pool, those who had entered the pool early were refreshed, immediately closing their eyes, activating their cultivation technique, and preparing to refine the Creation Pool Liquid to transform their constitution.

Kong Xi, Wang Yu, and the strongest senior students of Dongyue Mansion, were no exception.

The royal clan descendants and academy members still fighting on the shore became even more frenzied, eager to enter the Life and Death Creation Pool to soak in the Creation Pool Liquid to transform their constitution.

"Boom!!"

At this moment, Mu Jinyu completely released the restraints on the mystical little tree seed, allowing it to freely extend its invisible tendrils into the outside world.

In an instant, the pool within the Creation Pool abruptly diminished by a tenth!

"Hmm?!"

Many were thrown into madness due to the changes in the Life and Death Creation Pool.

Some who had already begun absorbing the Creation Pool Liquid, were indifferent to the rapid depletion of the pool.

"Boom boom!!"

But shortly after.

The divine liquid of the Creation Pool abruptly diminished by fifty percent!

This greatly reduced the amount of Creation Divine Liquid available for everyone to compete for, leaving many unable to continue absorbing and refining it.

"What happened?"

"Why did so much of the divine liquid disappear?"

"Did someone use a magic treasure to collect the divine liquid?"

"Impossible, the divine liquid cannot be collected by a magic treasure, any attempt to store it would directly deplete its divine factors and power of laws, making it meaningless..."

"Then could it have been refined by someone? Who could refine it so quickly?"

The crowd angrily discussed, realizing the divine liquid in the Creation Pool had abruptly diminished by another thirty percent.

Originally, there were ten parts of divine liquid, but after several waves of depletion, now only one part remained.

Nearly reaching the bottom, the muddy sediments below were visible, almost no one could continue absorbing the divine liquid for cultivation.

Even Kong Xi, who was furthest from Mu Jinyu, was forced to stop the action of devouring and refining the divine liquid to transform his constitution.

He opened his eyes, noticing the changes in the Life and Death Creation Pool and found the divine liquid completely dried up, his face suddenly becoming shocked.

"What's going on?"

Kong Xi found it hard to imagine how in just a matter of seconds, the entire Life and Death Creation Pool had dried up.

He immediately thought of Mu Jinyu's earlier warning.

Could it be that Mu Jinyu was behind this?

"Swish swish!"

Also at this time, as the divine liquid completely dried up, leaving not a drop in the Creation Pool, Ji Changkong, Jiang Taiping, Yao Lingfeng, and others were forced to stop refining, opening their eyes with bright glints.

Their expressions were very gloomy, extremely intimidating.

Whoever was in the process of using the divine liquid for cultivation, transforming their constitution and hadn't fully entered the state, only to find it suddenly gone, would be far from happy.

"Who did this?!"

Ji Changkong and the others turned their gaze, discovering that among the fifty to sixty people in the Life and Death Creation Pool, most were already forced to awaken, except for Mu Jinyu, who remained sitting and seemed to be in an even better state!

"It's him!"

"Damn it!"

"Die!"

Seeing Mu Jinyu still in cultivation with a ruddy face, Ji Changkong and others could immediately tell that Mu Jinyu was behind this, having taken all the divine liquid from the Creation Pool.

They speculated that Mu Jinyu, this ignorant fool, might have thought the divine liquid could be taken outside, so he secretly used some magic treasure to take the divine liquid!

Trying to fool everyone!

If Mu Jinyu wasn't killed soon and the divine liquid returned to the Creation Pool, the more the divine liquid was stored in Mu Jinyu's magic treasure, the more the divine factors and power of laws would deplete.

So they immediately made their move to kill Mu Jinyu!

Kong Xi saw this scene with a bitter expression.

He also believed Mu Jinyu had pulled this stunt, and now he couldn't help him.

After all, everyone moved against him, even the three top-grade seniors of Dongyue Mansion couldn't endure it, joining the attack on Mu Jinyu.

How could he possibly save Mu Jinyu by himself?

"Bang bang bang!!"

However, just when everyone thought Mu Jinyu was doomed.

Facing the attack of the crowd, Mu Jinyu's body suddenly released a terrifying momentum, pushing them all back!

"Boom!!"

Accompanied by a thunderous dragon roar, a ten-meter-long blood dragon shot out from Mu Jinyu's body, surrounding him in the air, protecting him like a fortress!

"What?"

"What kind of bloodline is this?"

Those who simultaneously attacked Mu Jinyu were shocked and whispered with faces full of confusion upon seeing the blood dragon protecting Mu Jinyu.

For a moment, they dared not take further action.

Many were seriously injured in the backlash from the recent assault.

"Damn it, how could this happen..."

"Wasn't the divine liquid supposed to be most effective for those using foreign race bloodlines for cultivation, allowing us to reconnect severed paths? How could he, a pure-blood human, absorb so much divine liquid?!"

"Could it be that the Creation Divine Liquid is actually most beneficial to pureblooded humans?!"

Seeing Mu Jinyu's transformation, those of the royal clan questioned in anger, while the seniors of Dongyue Mansion, knowing Mu Jinyu was a pureblooded human with the phenomenon "Blood-Colored Mirroring Rivers and Mountains", immediately realized Mu Jinyu's constitution might have allowed him to absorb the Creation Divine Liquid entirely!

Desperate curses rose from them.

Upon hearing the unwilling curses of Dongyue Mansion students.

The clan members of Yao, Ji, Jiang among the royal lineage, had their expressions change, recalling something quickly they inquired, "What did you say? He's a pureblooded human?"

"Yes, quite incredible, isn't it? But he really is a pureblooded human!"

Answered Wang Yu and others.

They explained how Mu Jinyu, after leaving Dongyue Mansion for a month, found a suitable cultivation manual and within a month raised his cultivation from the Divinity Transformation Realm to the Void Breaking Realm!

"Within a month, he found a suitable cultivation manual and cultivated from the Divinity Transformation Realm to the Void Breaking Realm!"

Hearing the explanation from the Dongyue Mansion students, the clan members of Ji, Jiang, and Yao, who previously had Qingli visit their Imperial Clan Scripture Pavilion to borrow the "Humanity Path Sutra", suddenly had very ugly expressions.

Glaring at Mu Jinyu, their eyes once again filled with a mix of shame and murderous intent!

The initial chapter "Blood Tempering Chapter" of the "Humanity Path Sutra" is quite common in the Canglan Realm, Mu Jinyu obtaining it from elsewhere and raising his cultivation to the Divinity Transformation Realm is relatively easy.

But the subsequent chapters of the "Humanity Path Sutra" are not so easy to find; they are only stored in the Scripture Pavilions of several major royal clans!

Suitable cultivation techniques for pureblooded humans are quite few!

Coincidentally, during the trouble with the royal clan, when Qingli challenged to borrow the "Humanity Path Sutra" from their Scripture Pavilion was within this month.

And coincidentally, Mu Jinyu mysteriously disappeared from Dongyue Mansion, returning only after raising his cultivation to the Void Breaking Realm, and is himself a pureblooded human...

How could they not realize now that Mu Jinyu was the mysterious man who accompanied Qingli and came to their Scripture Pavilion to borrow the "Humanity Path Sutra"?!

Chapter 1795 1795: The Mystical Little Tree Sprouts Again! Ji Changfei Dies!

Mu Jinyu didn't know because he monopolized ninety percent of the Creation Divine Liquid, leading to his visits to borrow the "Humanity Path Sutra" from those royal clans being talked about and exposed.

However, even if he knew, he probably wouldn't care anymore.

At this moment, he was completely absorbed in a state of cultivation.

He originally thought to be cautious, waiting for the Mystical Little Tree to finish devouring almost all of the Creation Divine Liquid, others would rage and try to assassinate him.

But as the seed of the Mystical Little Tree devoured nearly ninety percent of the Creation Divine Liquid, the seed finally began to sprout, emitting a faint divine radiance, transforming back into a three-inch tall, gnarled and ancient-looking seedling.

"Boom!!"

At the same time, before Mu Jinyu could get excited, as the Mystical Little Tree finished devouring the Creation Divine Liquid, it began to nourish him in return.

Instantly, countless memory fragments of the insights on the Life and Death Realm and even the Creation Realm from predecessors surged into Mu Jinyu's mind, causing him almost unbearable pain.

He couldn't spare any thought to guard against others anymore.

His entire consciousness was forced to focus wholly on absorbing these memory fragments.

Thus, Mu Jinyu was not aware that he had long devoured all the Creation Divine Liquid, leading to others attempting to assassinate him, and then the Blood Dragon appearing to guard him!

"Ah!!"

Mu Jinyu felt like he was about to go insane.

He didn't know how much time passed until he finally managed to absorb these memory fragments with difficulty.

"Ugh..."

Mu Jinyu felt much better, then noticed the Mystical Little Tree was standing in his Sea of Consciousness, emitting a faint clear radiance towards him.

It made his soul more refined.

He realized that without the Mystical Little Tree, with so many memory fragments flooding into his mind so quickly, he would likely have not exploded his soul, but would have had scrambled memories, becoming an idiot.

He couldn't have recovered so quickly otherwise.

With the help of the Mystical Little Tree, he now absorbed so many memory fragments, gaining vast cultivation experiences from others, which laid a more solid foundation for his future cultivation path, accumulating more cultivation heritage.

"Swish!"

As Mu Jinyu awoke, the Mystical Little Tree also ceased emitting faint clear radiance to him.

Turning back into a plain, unpretentious seedling.

It seemed that the clear radiance was a significant consumption for the Mystical Little Tree, not easily used.

So when Mu Jinyu had no more issues, it immediately stopped.

"Thank you for your hard work."

Mu Jinyu smiled slightly at the Mystical Little Tree and said.

"Rustle..."

Upon hearing Mu Jinyu's words, the Mystical Little Tree slightly spread its crown, swaying for a moment, as if saying something.

Mu Jinyu vaguely sensed its meaning.

It seemed to be saying it's no hard work, thanking him for finally waking it up.

"Haha..."

Mu Jinyu noticed and found the Mystical Little Tree seemed able to communicate, and couldn't help but exchange a few words with it.

"Boom!!"

At this moment, he suddenly noticed a fierce vibration from the outside, resembling an earthquake.

He immediately reacted.

While his consciousness was submerged in the Sea of Consciousness, he was still within the Life and Death Creation Pool, and under his indulgence, all the Creation Divine Liquid had probably been devoured by the Mystical Little Tree.

Ji Changkong and the others were probably already mad?

The commotion just now was probably them attacking him.

"Swish" in an instant, Mu Jinyu instinctively concentrated his mind, opened his eyes.

His eyes emitted a brilliant light, coldly sweeping over those launching magical techniques or Magic Treasures to kill him.

Among them, indeed were also those people from Dongyue Mansion involved.

Mu Jinyu had guessed earlier, when those righteous senior students urging him to apologize and admit fault to Ji Changkong and the others, discovered the Creation Divine Liquid had been devoured by him alone, they would probably go mad and act against him.

Now this guess was confirmed.

Even though he was also a Dongyue Mansion student, in their eyes, he didn't count as a classmate or junior, and never intended to care for him.

Urging him to bow and apologize to the Ji Clan people was entirely not to involve them, and not sincerely for his own good!

"Hmm!"

Mu Jinyu snorted coldly, his attitude towards them was no longer slightly gentle, treating these imperial descendants no differently.

"Roar!"

Following this, as Mu Jinyu's mind stirred, the Blood Dragon hovering above him suddenly rushed back into his body.

"Damned scoundrels!"

"Finally awake? Hand over the Creation Divine Liquid!"

Ji Changkong, Jiang Taiping, Yao Lingfeng, and others saw Mu Jinyu finally awakened from cultivation, yet he seemed unchanged.

They firmly believed he couldn't have refined so much Creation Divine Liquid all at once, thinking he must have hidden a large part in a space Magic Treasure!

They all authoritatively spoke, demanding Mu Jinyu to hand over the Creation Divine Liquid.

"Creation Divine Liquid cannot be taken out, or the divine essence will disappear, and the Power of Laws will cease to exist, or why do you think we refine and cultivate here!"

"Hurry and bring out the Creation Divine Liquid, don't continue to deceive yourself!"

Listening to their shouts, Mu Jinyu raised a bright smile on his face, said, "Do you really think I hid the Creation Divine Liquid in a space Magic Treasure? No way, right? No way, there's surely not those who believe a space Magic Treasure can hold so much Creation Divine Liquid?"

"Whether it is or not, hand over all the Magic Treasures on you, including the Qiankun Ring for us to check, then we'll know!"

"Bring out the Qiankun Ring, or you won't walk out of the Tiangan Secret Realm!"

"..."

Everyone shouted repeatedly, their eyes full of threatening warning.

Mu Jinyu smiled indifferently and said, "If so, why don't you come over and take the Qiankun Ring yourself?"

"Hmm!"

"Everyone, move together now, the Blood Dragon is gone, let's directly capture him!"

Everyone shouted angrily.

Immediately, the burly Ji Changfei took the lead, rushing towards Mu Jinyu.

He punched out, demonic essence surged like the sea, straight to the sky, mighty waves rushed towards Mu Jinyu.

Mu Jinyu's expression was calm, he didn't use the Life and Death Dragon Fist, nor did he use the Sword Dragon Slash, but took out the Firewood Chopping Saber Technique, quietly reflecting on his recent enlightenment, and then slashed out once!

"Swish!!!"

The saber light burst forth like lightning and snow, instantly covering the sky, leaving the whole world only in pure white, like midday, without any other color!

"Ah!!!"

When the saber light became increasingly bright and no one could see clearly what occurred there, a mournful howl suddenly sounded.

"Bang!!"

Then, the sound of a heavy object falling to the ground followed.

Soon enough, the midday-like saber light vanished.

Everyone regained their vision to see a massive corpse lying on the ground, split into two from head to toe, each half's eye wide open, full of unwillingness and disbelief.

It was the very Ji Changfei who had just rushed at Mu Jinyu!

"Brother Fei!"

Ji Changkong saw his brother's death, even his soul couldn't escape and couldn't help but roar in grieving rage!

Chapter 1796: One Against Many! I Am the Yin Emperor, Sending You All to Ultimate Bliss!

"Is there anyone else who wants to come and meet their end?"

Mu Jinyu held the firewood knife, coldly gazing at the furious crowd, and asked in a chilling tone.

"Come die!"

Of course, Ji Changkong couldn't back down, and with a shout of rage, golden light flared from his body, his long hair danced, and an unmatched absolute aura erupted from him.

"Puff puff puff!!"

Immediately after, he swung his long spear, delivering a thrust that collapsed the void, annihilating ten thousand Dao, directly striking at Mu Jinyu's vitals.

At this moment, Mu Jinyu also felt a chill all over his body, like a rabbit targeted by a male lion, almost unable to move.

"Hah!"

Mu Jinyu's body trembled slightly, quickly breaking free from Ji Changkong's domain restriction, uttering a light rebuke, and fiercely slashed with the firewood knife!

"Ch-ch-ch!"

The blade's brilliance was unparalleled, sharp beyond compare, it could be said that cultivators below the Life and Death Realm would meet certain death upon encountering it.

However, Ji Changkong, being the outstanding young leader of this generation of the Ji Imperial Clan, swayed his figure, revealing a pair of transparent, illusory wings as thin as a cicada's wing behind him, directly evading Mu Jinyu's sword intent lock!

"Bang bang!!"

Instantly, two imperial family descendants behind Ji Changkong, caught off guard, failed to evade and were directly slain by Mu Jinyu's blade brilliance!

Blood shot upwards like a hanging waterfall!

"Ah!!"

They only let out a scream before it abruptly stopped.

"Bold scoundrel, daring to commit murder wantonly, everyone, join in, don't talk about righteousness with him!"

Yao Lingfeng, upon seeing this scene, suddenly turned cold, and then angrily berated, calling for everyone to join in besieging Mu Jinyu.

That's because one of the imperial descendants hit by Ji Changkong when he evaded Mu Jinyu's strike was from the Yao Clan.

Additionally, not long ago, the Yao Imperial Clan was forcefully entered by Qingli, who was none other than Mu Jinyu.

Old and new hatreds combined, it couldn't help but make him deeply resent Mu Jinyu!

"Well said, everyone together!"

Jiang Taiping and Jiang Taiyi, upon hearing Yao Lingfeng's suggestion, didn't object and immediately agreed.

Subsequently, Gui Yufei and other imperial family descendants also started to take action.

"We should also clear our house!"

On the Dongyue Mansion side, the top three who once advised Mu Jinyu to bow his head and admit his mistake to Ji Changkong and the others, at this moment, seeing this scene, showed no intention of defending Mu Jinyu, exchanged glances, and made the decision to "clear house"!

"Yun Qiao! Ning Yue! You all..."

Kong Xi, seeing these three senior students decide to join the imperial families in besieging Mu Jinyu, couldn't help but speak in anger and surprise, wanting to persuade them to stop!

"Hmph, Kong Xi, we haven't settled accounts with you yet, for bringing such a traitor here!"

"After we capture Mu Jinyu, we'll bring you to justice!"

Yun Qiao and Ning Yue, the three seniors, upon hearing Kong Xi's words, glanced at him coldly, their tone icy.

They didn't regard him at all!

"You all..."

Kong Xi heard their words and felt profoundly powerless in his heart!

Though he understood their mood, after all, things were going well to ingest enough Creation Divine Liquid, which would have allowed them to mend broken paths and continue cultivating, yet it was ruined by Mu Jinyu.

But Mu Jinyu was ultimately their classmate, even if suspecting he indeed used some magic treasure to retrieve the Creation Divine Liquid, they should help Mu Jinyu and later have him share the concealed Creation Divine Liquid with them.

Why must they join those imperial families to besiege Mu Jinyu!

Yun Qiao, Ning Yue, they didn't care about Kong Xi anymore and directly attacked Mu Jinyu.

Mu Jinyu, seeing so many people rushing to attack him, neither feared nor angered, instead laughed out loud.

"Initially, I was reluctant to go all out, but since that's the case, I won't hold back!"

Mu Jinyu chuckled lightly, and then his body began to exude dense, black mist gradually.

Within these black mists, pairs of scarlet lights flickered, and without close inspection, they appeared like shining stars in the dark night, but upon closer inspection, they resembled the bloodthirsty eyes of a wolf pack in the night!

An extremely chilling aura suddenly spread from the black mist.

Making everyone present feel somewhat cold and stiff, finding it difficult to move!

Even at Ji Changkong's speed, he became several times slower now!

"What's going on?"

Ji Changkong couldn't help but exclaim in shock and anger.

"Hurry, capture him first!"

Jiang Taiping, Jiang Taiyi, and Yao Lingfeng's expressions changed slightly, fearing delays would bring changes, they swiftly urged everyone not to hold back and capture Mu Jinyu first!

"Bang bang bang!"

"Boom boom!!"

Facing so many Heaven's Pride at the peak of Void Breaking Realm besieging him, Mu Jinyu found it somewhat strenuous to fend them off.

The difficulty wasn't that he couldn't fight those people, but that he had to be careful not to accidentally kill them.

At first, Mu Jinyu, upon waking up and finding so many people attacking him, naturally felt displeased and even wanted to unleash his wrath to kill them all!

But later he calmed down, eventually choosing not to do so.

After all, these people were talented Heaven's Pride from various imperial families, and their backing families would spare no effort to help them mend broken paths.

If he killed them all in one go.

It would be satisfying for the moment.

But afterwards, how would he leave the Tiangan Secret Realm?

Out there was a group of imperial family elders guarding, at that time, only Dongyue Mansion's students walking out...

Even a fool could figure there's a problem, and guess that they were killed by him!

And though his cultivation had been elevated to the Second Layer of Void Breaking Realm, with various methods, he could contend against those in the Life and Death Realm.

But those elders of the imperial families, their cultivation wasn't limited to the Life and Death Realm!

Some among them were quite powerful, with cultivation in the Creation Realm!

Adding the imperial families' depth, various Creation Divine Weapons, various forbidden grand formations all being deployed.

Mu Jinyu didn't feel he could contend against so many imperial families on his own!

Therefore, Mu Jinyu didn't intend to kill them all.

Instead, he thought about the River of Oblivion and Meng Po Soup in the Earth Emperor's Tome!

Planned to capture them, then brainwash them, making them forget some things that transpired here.

In this way, they could avoid a calamity, wouldn't that be delightful?

"Boom boom boom!!"

Under Mu Jinyu's cautious defense not accidentally killing them, finally, the Earth Emperor's Tome was fully activated, and the scenes of Ghost Gate, Road to the Netherworld, River of Oblivion, Naihe Bridge began to appear indistinctly amidst the thick ghost mist.

"What is this thing?"

"This, seems like Fengdu Ghost City?"

"Recently unearthed in Cangyan State, known as Earth Emperor Relic, I remember various Powerful Races' Kings were fighting there, striving for it, but couldn't retrieve the Earth Emperor's Skeleton..."

"I recall the Earth Emperor's magic treasure is the Earth Emperor's Tome, said to contain the mystery of reincarnation and rebirth, could this be the Earth Emperor's Tome?"

Ji Changkong, Jiang Taiping and others, seeing the ghost city scenes appear, all none couldn't help but pause slightly in besieging Mu Jinyu, revealing looks of dread and trepidation, lowering their voices in discussion.

"Hehe..."

Under the heavy ghost mist cover, Mu Jinyu's figure has long become difficult to see, seemingly overlapped with numerous ghost shadows, at this time his voice rang out, carrying a chilling aura, "Fengdu Ghost City, Six Paths of Reincarnation, I am the Yin Emperor, sending you all..."

"To the ultimate bliss of rebirth!"

Chapter 1797: Unstoppable! Classmate Bonds?

"Splash!!"

As Mu Jinyu's voice fell, the once calm River of Oblivion rushing through the riverbed suddenly surged, skeletons floating amidst a foul stench, charging towards Ji Changkong, Jiang Taiping, and the others!

"Damn, it's the River of Oblivion!"

"Everyone be careful, don't get contaminated! It's one of the Earth Emperor's Assassin's Mace! If touched, you'll either lose yourself or have your soul scattered, leaving only an empty shell!"

"Damn it, how did the Earth Emperor's Tome end up in his hands?"

"With so many kings and powerful races fighting for it at the Cangyan State, why would the Earth Emperor's Tome fall into his hands? It shouldn't be!"

Seeing the River of Oblivion rushing towards them, even the heavy ghost mist was wiped clean as if the blackboard was cleared, leaving Ji Changkong and the others shocked and enraged. Desperately, they activated their foreign race bloodlines and took out their life-saving cards to resist the water of the River of Oblivion!

"This?"

Kong Xi, standing far away and reluctant to join the battle, saw this scene and his pupils shrank in surprise, realizing that Mu Jinyu, whom he thought would surely die, could still turn the tide!

At that moment, he felt inexplicably grateful that he hadn't joined Yun Qiao and Ning Yue in hunting down Mu Jinyu, or he would be in grave danger now.

"Boom boom!!"

The water from the River of Oblivion erupted, the stench making everyone gag as it swept across almost everyone, making their eyes dull and leaving them seemingly soulless, standing blankly and bewildered.

However, Ji Changkong, Jiang Taiping, and Yao Lingfeng among others had the highest cultivation and most life-saving cards; momentarily, their entire bodies were shrouded in variously colored light shields, resisting the surging water from the River of Oblivion.

At this moment, they were filled with regret, wishing they had known Mu Jinyu had the Earth Emperor's Tome. Though they wouldn't have given up the Creation Divine Liquid, they absolutely wouldn't have forced Mu Jinyu to hand it over.

Instead, they would have waited until they left the Tiangan Secret Realm together and had their clan elders apprehend Mu Jinyu.

Then, with elders from the Life and Death Realm and Creation Realm involved, how could Mu Jinyu, a mere cultivator in the early Void Breaking Realm stage, cause any trouble!

But unexpectedly, Mu Jinyu had such means; now their regret was a bit late.

"Pop!"

As Ji Changkong and Jiang Taiping agonizingly maintained their life-saving shields to prevent contamination, they suddenly heard a sound like popping bubbles.

Then Jiang Taiping saw Mu Jinyu somehow next to his cousin Jiang Taiyi, popping the protective shield surrounding Jiang Taiyi with a single touch.

"Whoosh whoosh..."

Immediately, the water from the River of Oblivion rushed unabashedly over Jiang Taiyi's body.

"Ah!!"

Jiang Taiping watched, his eyes about to burst, wishing he could devour Mu Jinyu alive.

Simultaneously, he was intensely anxious; if Jiang Taiyi's Protection Divine Light could be popped by Mu Jinyu, then their Protection Divine Light would hardly resist Mu Jinyu's attack either!

"Damn it!"

Jiang Taiping cursed in his heart and tentatively attempted to move, wondering if he could escape this Ghost City domain!

"Bang!!"

Before he could start, not far away a deafening crash was heard.

Afterward, Gui Yufei of the Gui Clan Royalty let out a mournful scream.

Clearly, he was the first to try escaping the Fengdu Ghost City domain from the Earth Emperor's Tome, but failed.

Jiang Taiping's body froze as his gaze turned towards the source of the sound, beneath the ghost mist he saw a vague silhouette, surrounded by a full bed of flowers emitting demonic light.

"That's... the Other Shore Flower..."

Jiang Taiping quickly guessed what flower it was, sighing over Gui Yufei's fate!

"Pop!"

"Bang!!"

Then, one after another, the sound of Protection Divine Light being popped echoed, like King Yan's funeral bell tolling, Jiang Taiping saw Yao Lingfeng, Ji Changkong, among others, now all harmed by Mu Jinyu, faces pale, eyes vacant, standing confusedly.

"No, I cannot sit still and wait to die!"

Jiang Taiping inwardly roared angrily.

He stealthily took out a small long needle.

This was the God-Destroying Needle, containing potent toxins; when Mu Jinyu popped his Protection Divine Light, he would fight Mu Jinyu desperately, determined to make him die together!

"Step step..."

At this time, a slow footstep sounded, making Jiang Taiping's heart hang with tension.

"Step!!"

Soon, the footsteps stopped.

Jiang Taiping, tense and alert, kept scanning around, then saw from behind the dense ghost mist a finger suddenly reach out, poking at his Protection Divine Light.

"Bang!!"

A shield able to withstand full strikes from Life and Death Realm powerhouses and keep the River of Oblivion out, burst like a balloon at Mu Jinyu's touch!

Making Jiang Taiping feel his own heart shattered!

"Die!"

He was unwilling, but powerless, watching as the River of Oblivion surged toward him, he fiercely gritted his teeth, shooting the tightly held God-Destroying Needle at Mu Jinyu!

Even if he would be brainwashed, he wanted to take Mu Jinyu down first.

If Mu Jinyu died.

Without anyone controlling it, perhaps the River of Oblivion wouldn't successfully brainwash them.

Then maybe they would recover again!

This was the only chance!

"Boom!!"

Yet, in despair, Jiang Taiping saw the God-Destroying Needle he hurled at Mu Jinyu harmlessly crumbled upon touching Mu Jinyu's skin!

This made Jiang Taiping internally scream, such thick skin!

"Whoosh whoosh..."

The River of Oblivion simultaneously surged back.

Jiang Taiping's consciousness gradually dispersed, his eyes growing vacant.

Before completely losing awareness, he remembered one thing.

That in the Humanity Path Sutra, there indeed seemed to be a chapter on refining the skin membrane, explaining why Mu Jinyu's skin was so thick!

"Whirl whirl..."

Ghost mist layered heavily, the sinister wind roared, Mu Jinyu stood within the Ghost City domain, watching the Imperial Family descendants there utterly dazed, his gaze sweeping, finally landing on Yun Qiao, Ning Yue, and those few senior students of Dongyue Mansion.

"You... Don't come over..."

"We've been classmates, must you annihilate us?"

"If you dare move against us, the Mansion Master won't spare you!"

Seeing Mu Jinyu approach, Yun Qiao and the others, knowing the ineffectiveness of Protection Divine Light, warned Mu Jinyu in shock and anger.

"Hehe..."

Mu Jinyu sneered, "Talking about camaraderie now, isn't it too late?!"

Saying that, Mu Jinyu destroyed their Protection Divine Light effortlessly, giving them no chance to resist, leaving them standing dumbfounded, unaware.

"Swish!"

Then, Mu Jinyu turned, looking at the only one remaining clear-minded in the scene, Kong Xi, gazing complexly at him.

"Senior Kong, I'm sorry, I don't want to harm you, but now the matter is crucial, so I must inconvenience you for a moment."

Chapter 1798: Ruthless Brainwashing! Deadly Pitfall!

"Hmm... I understand, go ahead..."

Kong Xi heard Mu Jinyu's words, and his heart trembled, but he still sighed helplessly.

He knew that since Mu Jinyu had already acted against the hundreds of people present, and wasn't trying to kill them but control them and wash away their memories to brainwash them.

He certainly wouldn't spare himself.

After all, once this matter is leaked, the Creation Divine Liquid and the deaths of Ji Changfei and others would be nothing, but if the Earth Emperor's Tome information is leaked, Mu Jinyu would have no way to survive.

If it were him, he would probably make the same decision.

After all, he had no reason to earn Mu Jinyu's trust.

Just now, when Mu Jinyu was surrounded by others trying to kill him, if he had come forward to help fight alongside him, then perhaps, seeing this gesture, Mu Jinyu might have chosen to take a gamble and not erase his memory, trusting that he wouldn't leak the secret.

But since he didn't make that choice, there's really nothing to say.

They can only be considered acquaintances with a good relationship.

Mu Jinyu had no reason to take such a huge risk and spare him.

So Kong Xi had no thoughts of resisting.

"Splash, splash, splash..."

Seeing this, Mu Jinyu, although feeling a bit reluctant, still for the sake of the bigger picture, activated the River of Oblivion's Water, washing over Kong Xi's body.

"Uh..."

Kong Xi, unlike the others, did not resist, and his eyes quickly became dazed, lost in a haze, resembling a walking corpse.

Thus, within the Ghost City domain activated by the Earth Emperor's Tome, besides Mu Jinyu, there was no longer anyone with a clear consciousness.

"Why? Why must you force me?"

Mu Jinyu slowly scanned with his eyes towards Ji Changkong, Jiang Taiping, and others who had previously been high and mighty, forcing him to hand over the Creation Divine Liquid, shaking his head and sighing.

Actually, taking out the Earth Emperor's Tome to brainwash them posed a great risk, if someone saw it or used some means to know, he would be very dangerous.

So, unless forced between killing them all or brainwashing them, Mu Jinyu truly didn't want to take out the Earth Emperor's Tome.

Now that both sides have reached this point, they have their lives threatened, and he faces tremendous risk, it really was a bad choice.

"Better hurry and brainwash them!"

Mu Jinyu didn't want to waste time, then with a thought, Meng Po appeared from the Homeward-Viewing Platform, subsequently giving them soup to brainwash them.

Mu Jinyu didn't dare mess up the brainwashing randomly, turning them into idiots, but consciously deleted some memories and added some they'd never experienced.

For instance, he directly deleted their memories of him killing Ji Changfei, Ji Xiao, and others, changing it to them not knowing where they died.

As well as the scene where he monopolized all the Creation Divine Liquid, leading the crowd to attack him was also erased.

It was altered to them dividing the Creation Divine Liquid among more than a hundred people, and their bodies were modified so that even if they reached the Creation Realm, the Exotic Blood within wouldn't rampage.

Yes, this was where Mu Jinyu mentioned they had a threat to their lives.

After being brainwashed this way, they truly believed they had refined the Creation Divine Liquid, thinking their paths had closed, and once they cultivated recklessly, they would eventually die from the rampage of Exotic Blood.

Humph, they all attacked him, how could he possibly just brainwash them and let them off?

Certainly, they must pay the price!

And this slow death was the price for daring to attack him!

Mu Jinyu coldly laughed, beginning to subtract and add memories for everyone except Kong Xi.

As for Kong Xi, Mu Jinyu altered his memories to just being a step too late, with the Creation Divine Liquid in the Life and Death Creation Pool already divided by others.

In this way, he was also free from the threat to his life.

After all, although he didn't help him, he also never intended to attack him from beginning to end, so Mu Jinyu also had no reason to harm him.

"All done!"

After subtracting and adding memories for everyone, Mu Jinyu put away the Earth Emperor's Tome.

In no time, the dense ghost mist enveloping this domain vanished.

Then, Mu Jinyu began cleaning the nearby battle traces, leaving only some signs of fighting, letting people know they had indeed gone through a battle to earn the qualification to soak in the pool.

Next, Mu Jinyu moved Kong Xi and some others away from here, making them think they never actually came to the Life and Death Creation Pool.

When everything was arranged, Mu Jinyu had already moved away from the location of the Life and Death Creation Pool, then snapped his fingers.

"Snap!"

Though this finger snap didn't resonate throughout the Tiangan Secret Realm, Ji Changkong, Jiang Taiping, Kong Xi, and others all shuddered at this moment, awakening from their coma.

"Ugh..."

"Feels great, is this what a modified constitution feels like? Once I leave the Secret Realm, I can confidently break through to the Life and Death Realm?"

Ji Changkong and Jiang Taiping, upon awakening, indeed forgot everything that happened earlier, thinking they had truly soaked in the Creation Divine Liquid, making their constitution stronger and more compatible with their Foreign Race Bloodline.

"Hmm? Why hasn't Changfei come over yet?"

"And Ji Xiao is also missing!"

Ji Changkong then noticed that among the Ji Clan members present, Ji Changfei and Ji Xiao, along with several others with potential were missing, prompting him to silently sigh, feeling that the Ji Imperial Clan suffered a bit of a loss this time!

Jiang Taiping and Jiang Taiyi then felt a bit strange, always feeling something wasn't quite right, but they couldn't figure out exactly what was wrong.

Ultimately unable to understand, they decided not to overthink it.

"Whoosh, whoosh!!"

Soon, Kong Xi and the dozens of people Mu Jinyu had tossed nearby hurriedly ran to the vicinity of the Life and Death Creation Pool.

"It's gone!"

"A step too late!"

"Oh heavens, why are things this way!"

"I'm so unwilling!"

These people noticed Ji Changkong and others gradually dispersed, and the vast Life and Death Creation Pool was now dry, prompting them to cry out in anguish and regret.

As for Kong Xi, he initially felt hard to accept, but soon, he didn't know why, felt less upset, and even a bit relieved.

He didn't understand why he felt relieved, perhaps was there a problem with the Creation Divine Liquid this time?

He speculated whether his sixth sense was at fault.

Or perhaps it was self-comfort.

But regardless, the fact was that the Creation Divine Liquid was gone, no matter if he felt relieved or unwilling, it was meaningless.

"Disperse, let's look around for Life and Death Law Fragments nearby, we can't afford to lose too much this trip..."

Kong Xi shook his head, then advised the other Dongyue Mansion students.

"Okay."

They reluctantly accepted Kong Xi's invitation, then left.

...

Meanwhile, outside the Tiangan Secret Realm.

On the outskirts of Duanchang Gorge.

The various royal clan elders were furious to the point of exploding.

The most enraged, undoubtedly, was the Ji Clan.

After all, although Ji Xiao was a promising talent, despite dying being unfortunate, it was still acceptable.

But Ji Changfei possessed innate extraordinary talent, given more cultivation, he would become another Ji Changkong, yet he too died within the Tiangan Secret Realm.

This made him seethe with anger.

Speculating who exactly killed them!

Chapter 1799: Leaving the Tiangan Secret Realm! Investigating the True Culprit!

"Scoff!"

The elders of the Ji Clan joined forces to perform the Round Light Mirror technique in an attempt to glimpse the scene before Ji Xiao, Ji Changfei, and others met their demise.

Unfortunately, what they managed to see was either a blood-red scene, even less revealing than the final moments showcased by Yao Yunfei, or a dim and dreary scene, utterly unobservable.

"What on earth is going on?"

"Could it be that something has happened inside the Tiangan Secret Realm?"

Those who perished inside weren't just from the Ji Clan; nearly all major royal clans and the people from Dongyue Mansion had casualties too.

However, for some of the deaths, they could still discern who had ambushed them, secretly keeping track of these accounts in their hearts.

But whenever it involved Mu Jinyu, even in instances of collaboration between Kong Xi and Mu Jinyu, they simply couldn't unveil the truth.

"Forget it, let's wait until they emerge and then ask them!"

In the end, the elders of the Ji Clan chose to wait, intending to inquire when the Tiangan Secret Realm concluded, and ask Ji Changkong and others what transpired.

What exactly happened inside the Tiangan Secret Realm, causing so many who weren't supposed to die, to perish?

...

In the blink of an eye, a few more days passed.

Fifteen days had gone by since the opening of the Tiangan Secret Realm.

"It's been so hard, but at least they're about to come out."

"Let's see who had the audacity to act so ruthlessly!"

The elders from the Yao and Ji Clan roared impatiently.

Grinding their teeth.

After all, there was an unspoken rule for the struggle for Creation Divine Liquid within the Tiangan Secret Realm: it's one thing for ordinary members to perish, but core members must not be recklessly killed.

And Ji Changfei was indeed a core member.

The first to die, Yao Yunfei, carried the bloodline of the Three-eyed god clan, also marking him as a core member.

Both ended up dead.

Yet the three top-grade senior students from Dongyue Mansion, Yun Qiao and Ning Yue, did not perish.

From the Jiang Clan, Jiang Taiping and Jiang Taiyi, and the imperial descendants from the Si Clan, along with cores from other royal clans, mostly survived!

Naturally, they suspected these individuals might be conspiring in the shadows!

Fortunately, the Ji Clan still had Ji Changkong alive, and the Yao Clan had Yao Lingfeng. They wouldn't go completely mad, and there wouldn't be an immediate shortage of heirs.

"Buzz!!"

Amid the anxious waiting of the elders from the Yao and Ji Clans, the void in front of Duanchang Gorge suddenly twisted, followed by the emergence of a deep blue light screen, twisting and spinning again.

"Whoosh whoosh whoosh!"

Soon after, a group of people began to be expelled by the light screen one after another.

People were dispatched according to their location.

"Ji Chen, do you know what happened inside?"

"Yao Ning, do you know who killed Yunfei?"

Seeing their family members being sent out, the Yao and Ji families couldn't wait to inquire.

"We don't know, we didn't have the chance to reach the Creation Pool side..."

Confronted by the inquiries from their clan elders, Ji Chen, Yao Ning and others exchanged glances, then shook their heads indicating their ignorance.

"Buzz!"

"Whoosh!"

At this moment, Mu Jinyu was also expelled by the light screen alongside some others, struggling to regain his balance.

He didn't draw anyone's notice.

Mu Jinyu secretly stayed vigilant; if they indeed discovered something amiss, he'd flee without hesitation.

Though unsure if he could escape, using the Earth Emperor's Tome should give him a decent chance.

Luckily, his presence didn't attract significant attention from others.

They glanced and overlooked him.

Evidently believing that with his Second Layer of the Void Breaking Realm cultivation, it was impossible for him to eliminate Yao Yunfei and Ji Changfei!

"Whoosh whoosh!!"

At this moment, Ji Changkong, Yao Lingfeng, Jiang Taiping and others were also being transmitted out of the Tiangan Secret Realm.

"Chang Kong, are you alright?"

"Do you know what happened inside?"

Upon seeing Ji Changkong appear, the elders of the Ji Clan hurried forward to protect him, lest someone silently harm him again.

"I'm alright..."

Ji Changkong, noticing these elders approaching, looked at them with a nervous and strange expression before explaining, "Everything went smoothly at the Creation Pool."

"Is that so? Let's check."

Fearful of a possible conspiracy, several elders insisted on examining Ji Changkong's body.

Ji Changkong, without resisting the elders' caring inquiries, allowed them to examine him.

Then, he swept his gaze across the scene, still failing to see the figures of Ji Changfei, Ji Xiao, and others, causing a sudden sinking feeling in his heart, knowing they were likely in trouble.

"Elder, Changfei and Ji Xiao... did something happen to them?"

Ji Changkong asked, his tone somewhat grave.

After examining Ji Changkong, the elders found his body indeed contained traces of Creation Divine Liquid, slowly transforming him.

As for changes in the Exotic Blood, they were currently indiscernible.

But thinking Ji Changkong had entered the Life and Death Creation Pool, it seemed unlikely he hadn't managed to absorb enough, so they weren't overly concerned.

Upon hearing Ji Changkong's query, their expressions dimmed as they sighed, "They indeed are gone. We were hoping you could explain how Changfei and Ji Xiao encountered trouble, but it seems you don't know either!"

"Something really happened?!"

Upon hearing the elders' words, Ji Changkong couldn't help but clench his hands, and a terrifying aura suddenly erupted uncontrollably, causing other Ji Clan members nearby to shiver.

Yet the elders of the Ji Clan were strong enough not to be intimidated by Ji Changkong's aura.

"Who is it? Who dared kill my brother!"

Ji Changkong turned abruptly, his eyes crimson with hatred, staring at everyone present.

This prompted elders from the Ji and Yao Clans to start questioning others again, asking who knew about Ji Changfei and Yao Yunfei's deaths.

Faced with the elders' interrogation, these imperial descendants and Dongyue Mansion students all felt their breath hitch, struggling to breathe.

"You've gone too far!"

"If you want to investigate, do it yourself; why force others? Why scold and interrogate us?"

The elders of the Jiang Clan, Si Clan, and other royal clans were displeased; how could they allow these older untouchables to threaten and intimidate their clan members?

If they felt aggrieved later, wondering why their talented members perished while others remained unharmed, and then used threats and interrogation and secretly applied some bizarre technique to Jiang Taiping, Gui Yufei, it would be intolerable.

"Why? Just because your core member wasn't involved while ours were, you won't even let us inquire?"

"Indeed! Are you guilty because you were caught in the act?!"

Facing the obstruction from the elders of the Jiang, Si, Ying, Gui Clans, the elders of the Ji and Yao clans were naturally dissatisfied, sternly rebuking them.

"Grandfather, there's no need for this. Changfei and I each have a Magic Treasure. If the assailant responsible for Changfei's death is here, once I activate my Magic Treasure, the other will respond, identifying the murderer; even if they suppress the Magic Treasure within their body or hide it in the Qiankun Ring, it won't help!"

At this moment, Ji Changkong spoke loudly.

Mu Jinyu heard this and his heart tightened suddenly.

Chapter 1800: Yin-Yang Qiankun Sword! The True Culprit Remains Unknown! Did No One from Dongyue Mansion Die?

Mu Jinyu heard Ji Changkong's words and thought to himself, "This is bad."

He killed Ji Changfei and naturally took his Qiankun Ring.

But he didn't know that Ji Changkong had this trick up his sleeve.

However, after finishing at the Life and Death Creation Pool, he also checked Ji Changfei's Qiankun Ring. There wasn't anything valuable inside, just a unique magic treasure he didn't know how to use, so he put everything from the killings into the Earth Emperor's Tome to suppress it.

He wondered if Ji Changkong would be able to detect this.

Logically, it shouldn't be detected since the Earth Emperor's Tome is the Human Emperor's treasure, not easily discovered.

Nevertheless, Ji Changkong spoke so confidently, it inevitably made people feel a bit tense.

"Alright, Changkong, give it a try!"

The elder of the Ji Clan, upon hearing Ji Changkong's words, immediately thought of something and nodded.

"In this way, you won't interrupt us anymore, will you?"

The elder of the Ji Clan spoke while turning to look at the elders of other royal clans and the Vice Manor Master Wang Yeqing of Dongyue Mansion, asking in a deep voice.

"Yes!"

"However, if nothing is found, you must not continue with unruly behavior!"

"Indeed, if nothing is found, it indicates Ji Changfei might have encountered an accident in the Secret Realm, so don't blame it on us!"

The elders of other royal clans couldn't say no, but they also wouldn't agree to fruitless investigations, allowing unchecked chaos.

"Alright!"

"I agree!"

The elder of the Ji Clan thought about it, knowing that if Ji Changkong finds nothing, it would be unreasonable to insist on checking everyone's Qiankun Ring and body.

So they could only agree.

Moreover, they believed, if someone on site killed Ji Changfei and took his Qiankun Ring and magic treasure, it would definitely be found!

"Changkong, go ahead!"

After agreeing, the elder of the Ji Clan turned to Ji Changkong, indicating he could start.

Ji Changkong nodded, then took out a flying sword from his Qiankun Ring, emitting a faint blue light, looking very special, as if carved from ice crystal!

"This seems to be a replica of the Yin sword from the Yin-Yang Qiankun Sword, the Ji Clan's treasure, right?"

"Even if it is a replica, it still possesses powers close to those of the Creation Divine Weapon!"

"No wonder the Ji Clan is aggressive, insisting on finding out about Ji Changfei's death. Besides seeking revenge, they probably want to retrieve the Yang Sword!"

"It's said the Yin-Yang Qiankun Sword is tied to the Ji Clan's Core Technique, and even the replica contains parts of the Profound Mystery, so it can't be lost."

Witnessing the Yin Sword Ji Changkong took out, everyone at the scene observed and whispered to each other in curiosity and contemplation.

"Clang!"

Ji Changkong took out the replica of the Yinqian Sword, began to wield it, and tried to induce the presence of the Yang Kun Sword nearby, with his eyes coldly scanning everyone present.

He wanted to find potential clues to the killer from their subtle facial expressions!

Unfortunately, Ji Changkong didn't know he'd previously seen his brother Ji Changfei's death firsthand but had long forgotten it now.

His gaze slowly swept over Mu Jinyu, though feeling that his face, for some reason, made him uncomfortable, he couldn't remember having any interaction with him.

It seemed perhaps that face was too handsome, triggering subconscious resistance and aversion!

Thinking of this, Ji Changkong decided if he had the chance, he'd ruin the guy's looks!

"Clang clang clang!!"

At that moment, the replica of the Yinqian Sword in his hand was fully activated, emitting fierce clanging sounds, trying to summon the Yang Kun Sword back.

But the scene remained calm!

No other disturbances occurred!

No one had their Qiankun Ring uncontrollably opened or their Dantian Sea of Consciousness destroyed, allowing the Yang Kun Sword to appear.

"How could this happen?!"

"Damn it!"

"Could it be that Changfei really had an accident in the Tiangan Secret Realm, and the replica of the Yang Kun Sword is also left there?"

Witnessing this, the elders of the Ji Clan all wore faces dark as if covered by storm clouds, roaring unwillingly.

Meanwhile, the elders of the Jiang, Si, Ying, and Gui Clans secretly breathed a sigh of relief.

They were worried before that one of their disciples might have killed Ji Changfei and obtained the replica of the Yang Kun Sword.

If that were the case, under Ji Changkong's activation of the magic treasure, the disciple who acquired the Yang Kun Sword would die, and they couldn't blame the Ji Clan's elders for it.

Luckily, Ji Changfei wasn't killed by a disciple from their clans, so they need not worry any further.

They even secretly rejoiced that one of the Ji Clan's talented twins had fallen.

And the replica of the Yang Kun Sword was accidentally lost in the Tiangan Secret Realm.

Now, the Ji Clan truly lost both the face and the treasure!

Mu Jinyu remained calm, showing no reaction.

But in his heart, he was secretly sweating.

He could sense the excitement and struggle of the Yang Kun Sword inside the Earth Emperor's Tome, trying to escape.

He hadn't fully refined the Earth Emperor's Tome, as it's a magic treasure of the Ancestral Weapon Level, far beyond what ordinary people can refine.

So he almost lost control of the Earth Emperor's Tome, allowing the Yang Kun Sword to escape.

Fortunately, they foolishly mentioned how even the Dantian can't hide the magic treasure, letting him prepare in advance by using the Three Life Stone to suppress the Yang Kun Sword.

Only then did the Yang Kun Sword fail to break free.

Mu Jinyu quietly felt fortunate.

If he had merely collected the Qiankun Rings and items of those he killed randomly then, he might have been unable to protect them now.

He would have undoubtedly exposed himself as the one who killed Ji Changfei.

Then he would either be suppressed by the joint forces of the royal clan elders or would have to fight his way out and escape Xilan Province.

Fortunately, hiding his actions kept him in peace and allowed him to continue his cultivation without pursuing threats.

Ji Changkong's failure also cast a shadow on the Yao Clan, prompting them to let Yao Lingfeng try to identify the killer of Yao Yunfei.

It was still ineffective.

"Alright, stop wasting time. Since nothing else can be uncovered, it indicates they met with accidents in the Tiangan Secret Realm. Such incidents have happened before, haven't they?"

"Exactly, now that they have finally emerged from Tiangan Secret Realm, the urgent task is to take them back and consolidate their foundation!"

After failing to identify the causes behind the deaths of core members from Ji Clan and Yao Clan, the other royal clans along with the Mansion Master and Institute Head of Dongyue Mansion urged for departure.

Though the elders of the Yao and Ji Clans were very unwilling to accept the reality, hearing the urgencies raised in protest:

"In past incidents, we've used the Round Light Mirror to see the reasons clearly, but this time, many people died under a layer of hazy blood light, completely unclear!"

"Among you are some disciples who died under this layer of blood light, don't you want to investigate?"

While protesting, a sudden realization struck the Ji Clan elder, eyes lighting up in surprise, exclaiming: "Wait, I remember now, many died under the blood light, but among them, there seemed to be no one from Dongyue Mansion affected by it?"
