

## King Hall 1871

Chapter 1871 1871: Postponing Taking Over the First Heaven Cave! Boundless Pride! No Such Items!

"Hmm..."

After Mu Jinyu received nearly 110,000 academic credits from Mo Yunqiong, he didn't bother with the others pestering Mo Yunqiong for credits.

He turned to look at Lu Kaige, who still sat cross-legged on the ground healing, and thought to himself that since he was the one who injured him, would it be improper to just leave now with all the mentors and the Institute Head standing by as protectors?

"Let's go, let's go over and have a look."

Mu Jinyu turned to Chen Yinlong, who had quietly approached from behind, and said softly.

"Okay." Chen Yinlong nodded and followed Mu Jinyu closely.

"What are you coming over for?"

Wang Yeqing saw Mu Jinyu approaching and said irritably.

Mu Jinyu wore an apologetic expression and said with embarrassment, "After all, it was my unintentional action that injured Senior Lu, so I came to check on him."

"No need, no need, you might as well leave directly. He's not in any serious trouble now." Wang Yeqing said with a pained expression, waving his hand at Mu Jinyu.

His demeanor seemed to suggest that he was afraid if Mu Jinyu remained, Lu Kaige would wake up and might be tempted to challenge him again out of anger.

That was a very likely possibility.

Considering the earlier situation where Mu Jinyu's victory over Lu Kaige seemed somewhat unfair.

Lu Kaige might think that if he had been a bit more careful, he might not have been ambushed by Mu Jinyu.

He might still have been the top student of Dongyue Mansion.

But Wang Yeqing knew that once Mu Jinyu used the Life and Death Reincarnation Diagram, Lu Kaige couldn't have been his match.

Mu Jinyu is now the top student of Dongyue Mansion.

No matter how hard Lu Kaige tries to challenge him, he would only be humiliating himself.

Adding injury to insult.

And though he couldn't stop Lu Kaige from challenging Mu Jinyu indefinitely, it was best not to let them fight until Lu Kaige was fully healed.

"Alright then."

Seeing Wang Yeqing's unwelcome attitude, Mu Jinyu couldn't help but touch his nose sheepishly and said, "Should I be able to move into the Number One Heavenly Cave soon?"

The Number One Heavenly Cave was, of course, Lu Kaige's former residence.

The environment would surely be dozens of times better than the One Hundred and Twenty-First Cave Heaven he was originally assigned.

"Of course, but there should still be a lot of Lu Kaige's stuff in there. You shouldn't move in just yet. Wait a while, and when he's healed, let him take his things away, and then you can move in."

Upon hearing Mu Jinyu's words, Wang Yeqing secretly sighed, knowing he couldn't stop the inevitable future battles between the two.

After all, Mu Jinyu was going to move into Lu Kaige's original Number One Heavenly Cave, where many of Lu Kaige's belongings still remained. If Mu Jinyu went to find Lu Kaige, the dissatisfied Lu Kaige would definitely want to challenge him again.

It's not just about restoring his honor.

It's also about protecting his cave home from being taken over by Mu Jinyu.

If Mu Jinyu insisted on moving into the Number One Heavenly Cave immediately, he could always enter and throw out Lu Kaige's belongings.

But doing so would only exacerbate the tension between them.

Hence, Wang Yeqing tried his best to persuade Mu Jinyu to wait a bit before asking Lu Kaige to move his things out.

It would also give them some time to cool off.

"Alright, then."

Upon hearing this, Mu Jinyu understood and nodded without insisting on moving in immediately.

He wasn't an unreasonable person and knew that since Lu Kaige was injured because of him, insisting on moving into Lu Kaige's former dwelling immediately would be too domineering and indifferent.

So, he'd let Lu Kaige stay in the Number One Heavenly Cave for a few more days.

Anyway, after accumulating enough credits, he planned to purchase some items and then search for Heavenly Materials and Earthly Treasures that could enhance bloodline concentration, escorting Chen Yinlong in becoming an Intermediate Student.

He might not even stay in Dongyue Mansion during this period.

However, Mu Jinyu forgot that upon becoming the top Senior Student, his identity plaque was directly linked to the Number One Heavenly Cave.

Even if he temporarily left Dongyue Mansion, Lu Kaige wouldn't be able to stay in the Number One Heavenly Cave, let alone gather his things.

"Then I'll be on my way."

After a slight hesitation, Mu Jinyu said to Wang Yeqing.

"Alright, off you go, off you go..."

Wang Yeqing was quite pleased to hear Mu Jinyu's words, eagerly waving at him like shooing away a fly.

Mu Jinyu: "..."

With a slight shake of his head, Mu Jinyu had Chen Yinlong return to the One Hundred and Twenty-First Cave Heaven while he headed to the Treasure Pavilion to have a look.

"Alright."

Chen Yinlong nodded in agreement.

Then, the two parted ways at the Combat Platform square.

Mu Jinyu walked toward the location of the Treasure Pavilion.

Soon, Mu Jinyu found himself in front of the Treasure Pavilion once more.

This time, standing before the Treasure Pavilion, with nearly 110,000 academic credits in hand, he no longer felt short of funds, instead sensing an unlimited sense of grandeur. For a moment, he even felt as if he could buy out the entire Treasure Pavilion.

After all, when he first came to the Treasure Pavilion, a single heaven-reaching spiritual treasure would require just one to five points in academic credits.

An ordinary divine weapon could be purchased for roughly ten academic credits.

A life and death divine weapon, while expensive, would be in the range of five hundred to a thousand academic credits.

And here he was, with 110,000 credits!

Who knows how many things he could buy.

However, his current purpose was to purchase a suitable weapon and see if the Treasure Pavilion had any Heavenly Materials and Earthly Treasures that could enhance bloodline concentration.

If they had it, he wouldn't need to seek it elsewhere, he could just buy it for Chen Yinlong to use.

Of course, it had to be reasonably priced.

At least, it shouldn't exceed 100,000 credits.

Otherwise, he wouldn't be able to afford it.

With these thoughts in mind, Mu Jinyu stepped into the Treasure Pavilion.

After winding through several aisles inside, he soon found the section for special items.

This section specialized in selling various Heavenly Materials and Earthly Treasures, some of which could enhance cultivation upon consumption, some containing law fragments, and some exotic fruits that could enhance a particular species' bloodline.

In short, there were various kinds of items.

"Hello, may I ask if there is any Heavenly Mysterious Ice Spirit Marrow here, or anything similar?"

Mu Jinyu, of course, couldn't possibly recognize all Heavenly Materials and Earthly Treasures, given how vast the Canglan Realm was. Who would dare claim they recognized everything? Hence, he approached a clerk and inquired.

"Heavenly Mysterious Ice Spirit Marrow..."

Seeing Mu Jinyu dressed in the attire of a Senior Student, the clerk didn't know he had defeated Lu Kaige to become the top Senior Student, but still replied respectfully.

"We don't have such Heavenly Materials and Earthly Treasures here, nor anything similar."

"Why not?" Mu Jinyu asked confusedly.

The clerk responded, "Such Heavenly Materials and Earthly Treasures can enhance the bloodline concentration of any species, making them extremely rare. Many students and even mentors need them, and whenever the Treasure Pavilion acquires such items, they get sold out immediately."

"As expected..." Mu Jinyu sighed.

No wonder when he and Chu Huannian acquired the Heavenly Mysterious Ice Spirit Marrow, news spread, and many Intermediate Students targeted them.

After all, even the Treasure Pavilion didn't have it for sale!

Chapter 1872 1872: Enthusiastic Clerk! Vermilion Fruit!

"Alright."

Mu Jinyu nodded slightly to the clerk, then asked him to introduce any special items here that might be useful to him.

"Hmm..."

The clerk, hearing this, sized Mu Jinyu up and down a few times before asking, "May I ask about your Cultivation Realm, Spiritual Consciousness Realm, and Physical Realm?"

"And what level of Foreign Race Bloodline do you possess?"

Although the Treasure Pavilion did not have Heavenly Mysterious Ice Spirit Marrow that could enhance any racial bloodline concentration, it did have some items that could enhance certain bloodlines.

For example, items specifically enhancing the bloodlines of the Devil Clan or the Fox Demon Bloodline.

Hence, the clerk asked this question.

Mu Jinyu replied, "My current Cultivation Realm is the Fifth Layer of the Void Breaking Realm. I just advanced recently. As for my Spiritual Consciousness Realm, it seems to be around the Late Broken Void Realm Stage..."

"In terms of Physical Realm, it's approximately the Power of Three Jiaos."

"As for bloodline, I do not possess any Foreign Race Bloodline, only the bloodline of the Human Race..."

The clerk listened to Mu Jinyu's account, nodding slightly and memorizing, "Fifth Layer of the Void Breaking Realm, power of the Divine Sense at the Late Broken Void Realm Stage, Power of Three Jiaos..."

"No Foreign Race Bloodline?!"

When he heard Mu Jinyu say that last part, he couldn't help but be stunned, then blurted out his words.

After speaking, the clerk quickly remembered Mu Jinyu, the pureblooded human that people occasionally mentioned.

"Are you Mu... Disciple Mu?" the clerk asked with curiosity and excitement in his eyes.

"Yes, it's me..."

Mu Jinyu said with a straight face, nodding gently.

He felt a bit speechless too; the clerk couldn't recognize him by face alone, but as soon as he heard pureblooded human, he immediately knew it was him, making him feel like some sort of rare animal.

"I apologize, I was a bit impolite..."

The clerk noticed Mu Jinyu's expression wasn't very good and realized his reaction had indeed been rude. He quickly apologized and explained, "Although I can't be considered a pureblooded human, the

Foreign Race Bloodline in me is very little, so I am basically unable to cultivate. When I suddenly heard that you, a Disciple Mu, reached this level relying solely on pure human blood, I became very admiring of you..."

"It's alright." Mu Jinyu's expression softened a bit and said, "In fact, you can choose to sever your foreign bloodline and then cultivate 'Humanity Path Sutra.' This cultivation technique is available in the Scripture Pavilion and only costs one academic credit to watch."

"Yes, I know, but I've never had the courage to make this choice. I've just been naively hoping that one day my foreign bloodline might suddenly surge in concentration, so I've been delaying!"

The clerk sheepishly scratched his head and, with a chuckle, said, "But after seeing your success, I've gathered a bit more courage, so I might give it a try someday."

"Hmm, I wish you success then." Mu Jinyu nodded.

He did not pass on the full text of 'Humanity Path Sutra' to the other party.

Because the Way cannot be lightly taught.

This full version of the 'Humanity Path Sutra' was obtained from the various royal clans. If he rashly passed it to others, it would be easy for those royal clans to trace it back to him.

In that case, his situation wouldn't be so good.

Moreover, from the other party's words, it was apparent he wasn't very keen on the Humanity Path Cultivation Path.

There was no need to teach him the full 'Humanity Path Sutra.'

However, if he truly made up his mind, severed his exotic blood successfully, and cultivated the 'Blood Tempering Chapter,' he wouldn't mind teaching him the subsequent 'Humanity Path Sutra.'

So everything depended on his own determination.

After talking for a while about the cultivation situation of the pureblooded human race, the clerk suddenly realized, scratched his head, and said apologetically, "Oops, sorry, I got carried away and wasted your time. Let me introduce to you the Heavenly Materials and Earthly Treasures suitable for you here..."

Mu Jinyu nodded.

The clerk then brought Mu Jinyu to a row where there were several items stacked neatly, looking somewhat like avocados but about the size of a coconut, and colored a bright red with bizarre demon patterns on them.

"This is the Vermilion Fruit, which has a body refining effect for cultivators with Physical Strength below the Power of One Dragon."

The clerk introduced to Mu Jinyu, "However, its medicinal power is quite domineering. After consumption, it feels like the entire body is being torn apart bit by bit, very painful, so not many people dare to consume it lightly."

"Only people with great determination dare to try and use it to enhance their strength."

After saying this, the clerk looked at Mu Jinyu, hesitating, unsure of what to say.

Evidently, he wasn't very sure if Mu Jinyu could withstand the domineering medicinal power of the Vermilion Fruit.

Mu Jinyu looked at the Vermilion Fruit a few times, nodded, and asked, "Hmm, I'll take it. How much does one piece cost in academic credits?"

"One piece costs ten academic credits," the clerk explained.

"Quite cheap..."

Upon hearing this, Mu Jinyu, holding nearly a hundred and ten thousand academic credits, said instinctively.

After speaking, he also realized that it couldn't really be considered cheap.

After all, ten academic credits could even buy a Divine Weapon.

And to Beginner Students who just entered Dongyue Mansion, it's something they wouldn't dare to purchase lightly.

Even Intermediate Students, who might have more academic credits at their disposal, need to use them for cultivation rooms, reading secret manuals and cultivation techniques, making credits even more precious.

It's naturally impossible for them to spend ten academic credits on something that requires taking huge risks just to improve a little strength like a Vermilion Fruit.

That's why so many Vermilion Fruits were piled up here, forming a large row that no one bought.

"I'll buy one piece to try first."

Mu Jinyu, quite affluent, although unsure if the Vermilion Fruit would have any effect on him, decided to buy a piece to try out.

"Alright."

The clerk had no objections and immediately swiped the card for him.

After swiping off ten academic credits from the card, Mu Jinyu picked up a Vermilion Fruit.

This Vermilion Fruit was huge, about the size of a coconut, making it difficult for him to know where to start eating.

"How do you eat this? Eat it whole, or drink the juice?"

Mu Jinyu asked the clerk.

He was thinking of ways to eat it like a coconut, otherwise, he feared he might try to consume it in one bite.

The clerk replied, "Drink the juice. But if you want to eat the whole thing, that's possible too."

"Oh, alright." Mu Jinyu nodded, directly peeling off the skin of the Vermilion Fruit, then started sipping the juice.

Having only taken a few sips of the Vermilion Fruit's juice.

Mu Jinyu immediately felt a burning pain in his mouth and chest and belly.

It was as if he wasn't drinking juice, but lava.

This kind of pain was indeed not something ordinary people could endure.

However, he had experienced too many pains, so this kind of pain wasn't really much for him.

Mu Jinyu proceeded to activate the Humanity Path Sutra to refine the juice and see how much it could enhance his physical strength.

Soon, Mu Jinyu found that there was some effect, but it wasn't very noticeable.

"Perhaps it's because I haven't consumed enough. I'll finish this Vermilion Fruit first and see."

With this thought, Mu Jinyu sped up, drank the juice of the Vermilion Fruit, then closed his eyes, calmly operated the Humanity Path Sutra to refine his body, and observed the effect.

Chapter 1873 1873: Soul Devouring Spiritual Fruit! Massive Purchase! Purifying the Thin Exotic Blood Within?

Three minutes later.

Mu Jinyu completely refined the Vermilion Fruit, opened his eyes, and his eyes sparkled with spirit, "It's indeed effective, quite good."

After refining this Vermilion Fruit, Mu Jinyu estimated that his physical strength should have increased by Strength of Five Horses or so.

That's not bad.

If he eats one or two more Vermilion Fruits, he could increase by Strength of One Elephant.

Ten Elephants make One Jiao!

That is to say, if he eats around thirty Vermilion Fruits, he can increase by Strength of One Jiao. This effect is truly astonishing!

However, the process of consuming it is somewhat unfriendly.

"Give me two hundred and ten Vermilion Fruits!" Mu Jinyu said to the clerk.

His pure physical strength is now at Power of Three Jiaos.

To reach Power of One Dragon, he needs to increase by Power of Seven Jiaos.

And Power of One Jiao roughly requires thirty Vermilion Fruits, so getting another two hundred and ten Vermilion Fruits should raise him to Power of One Dragon.

Of course, this is only theoretically feasible.

But in reality, there's likely to be resistance to the medicine, Mu Jinyu estimates that after consuming these Vermilion Fruits, he might reach Power of Seven Jiaos, which would be close enough.

Power of One Dragon is not that simple to achieve!

"Alright then!"

The clerk heard that Mu Jinyu wanted to buy over two hundred Vermilion Fruits at once and was secretly astonished at his wealth, then respectfully agreed.

Then, Mu Jinyu paid two thousand one hundred academic credits to purchase these two hundred and ten Vermilion Fruits.

However, he didn't consume them immediately but put them into his Qiankun Ring first.

"Here you can find Heavenly Materials and Earthly Treasures that can enhance the power of Divine Sense!"

After Mu Jinyu finished buying the Vermilion Fruits, the clerk took him to another shelf and introduced, "These are Soul Crystals, containing a small amount of soul power. Refining and absorbing them can enhance one's divine soul power."

"However, because they contain many impurities, refining is quite troublesome, and there's a certain risk. Generally, not many people use them, and they are priced at one academic credit per Soul Crystal."

"This is the Life Spirit Fruit, it's said that its fruit tree absorbs scattered souls from heaven and earth and bears fruit. Its effect is similar to the Vermilion Fruit, carrying certain risks that can lead to loss of sanity and self. Thus, it is priced at five academic credits per fruit."

"This is..."

The clerk introduced several kinds of Heavenly Materials and Earthly Treasures that can enhance divine soul power to Mu Jinyu.

After all, enhancing divine soul power has numerous benefits, and most people try to enhance it while advancing in cultivation.

The physical body is secondary.

Therefore, the Treasure Pavilion has far more Heavenly Materials and Earthly Treasures to enhance divine soul power compared to those that enhance the physical body.

"Alright, give me one of each. I'll test their effects..."

Mu Jinyu subsequently spent thirty academic credits purchasing one of each Heavenly Material and Earthly Treasure that enhances divine soul power.

He then consumed them one by one to see which had the best effect.

"Ah..."

When Mu Jinyu consumed a type of fruit called the Soul Devouring Spiritual Fruit, suddenly, countless terrifying residual souls appeared in his Sea of Consciousness, attacking his soul!

These residual souls were without reason, all crazy wanting to drag him down as well, completely turning into a Madman.

However, Mu Jinyu had heard from the clerk earlier that this fruit was the most dangerous and required cautious trial, so he was prepared.

"Hiss hiss hiss!!"

Yet, before Mu Jinyu could act to eliminate the residual souls, suddenly, the Mystical Little Tree rooted in his Sea of Consciousness directly acted, extending branches to sweep away and devour the residual souls.

Then, it scattered a portion of pure soul energy, which flowed into Mu Jinyu's soul.

Mu Jinyu's soul absorbed it, and his divine soul power immediately increased significantly.

"This is the only fruit that has made the Mystical Little Tree act..."

Mu Jinyu said to himself, discovering that the danger of residual souls from consuming the Soul Devouring Spiritual Fruit, with the help of the Mystical Little Tree, instead greatly increased his soul power.

This surprised and delighted him.

"Two remaining types to try, let's give it another go..."

Mu Jinyu opened his eyes again and proceeded to try the last two types of Heavenly Materials and Earthly Treasures to enhance soul power.

He finally found that the Mystical Little Tree remained motionless, and the effect was not ideal.

"Phew..."

Mu Jinyu exhaled, opened his eyes again, looked at the shelf with the Soul Devouring Spiritual Fruit, and said to the clerk, "Just this Soul Devouring Spiritual Fruit, give me two hundred pieces!"

The effect of this Soul Devouring Spiritual Fruit in enhancing soul energy is much stronger than the Vermilion Fruit.

However, its danger is also far greater than the Vermilion Fruit, hence its price of ten academic credits per fruit.

Mu Jinyu paid another two thousand academic credits.

The clerk informed Mu Jinyu that there were no fruits to enhance cultivation left, as they had been purchased by others, but if he needed, he would notify him next time in advance.

Mu Jinyu didn't mind this, after all, his cultivation enhancement seemed beyond the reach of fruits, requiring entry into a mysterious site, and relying on mysterious factors to nurture himself.

Afterwards, the clerk notified Mu Jinyu again that there seemed to be no Heavenly Materials and Earthly Treasures suitable for pureblooded humans to enhance their bloodline, but there was a type of Heavenly Material and Earthly Treasure and asked if he needed it.

"What is it?" Mu Jinyu asked.

The clerk said, "It's a type of Heavenly Material and Earthly Treasure specially designed to remove impure blood within the body."

"You also know most people have not only human blood and the richest type of Exotic Blood, but often a portion of other rare Exotic Blood mixed in."

"This portion of rare Foreign Race Bloodline at the beginning of cultivation doesn't matter much, but later it's quite lethal. Therefore, often before the Life and Death Realm, everyone uses this type of Heavenly Material and Earthly Treasure to purify their bloodlines, leaving only human blood and the Exotic Blood with the highest concentration, expelling those useless rare Exotic Bloods from their body."

The clerk said, looking at Mu Jinyu, smiling apologetically, "I don't know how pure Disciple Mu's pureblooded human nature is, nor if there are still traces of Foreign Race Bloodline in your body, so I recommend you try this kind of Heavenly Material and Earthly Treasure as well..."

"Hmm..."

Mu Jinyu heard the clerk's words and initially wanted to say that his body had only Human Clan Bloodline, and other Foreign Race Bloodlines had long been expelled.

After all, he'd previously undergone multiple bloodline detection crystal tests, except for resonances with the Human Clan Bloodline, other Foreign Race Bloodline marks showed no resonance.

Moreover, he was an Earthling, how would he have traces of Canglan Realm's Foreign Race Bloodline in his body?

His birth environment was completely different from theirs!

But then, Mu Jinyu suddenly remembered that he initially carried traces of Dragon Clan's Bloodline.

And Xiang Mantang also bore Vermilion Phoenix Bloodline.

Seems like the environment on Earth isn't that simple either...

Perhaps he indeed has traces of other species' bloodlines, just not from the Foreign Races here in Canglan Realm, thus the bloodline detection crystals can't detect them.

Because the crystal doesn't contain these types of Foreign Race bloodline marks!

Chapter 1874 1874: Bodhi Salvation Fruit! Pure Blood Red Lotus! Buying Divine Weapons!

"All right, then show me around,"

Mu Jinyu hesitated for a moment and said to the clerk.

"Well, there are only three types of Heavenly Materials and Earthly Treasures for purifying blood. One is the Bodhi Salvation Fruit, another is the Pure Blood Red Lotus, and the last is the Green Duckweed into Red Ganoderma."

The clerk introduced to Mu Jinyu.

At the same time, he led him to the counter of the first type of Heavenly Material and Earthly Treasure for blood purification. Behind the glass counter, there were three green fruits shaped like human figures, much like Ginsengfruit.

These are the Bodhi Salvation Fruits.

"This is the Bodhi Salvation Fruit. It targets the elimination of excess Exotic Blood within the body on a large scale, but its effect is not the best. You need to take more of it to completely remove the Exotic Blood from your body. Each one is priced at one hundred fifty academic credits,"

the clerk explained.

Hearing this, Mu Jinyu nodded silently.

One hundred fifty credits, that's quite expensive.

Like the Vermilion Fruit and Soul Devouring Spiritual Fruit he just purchased, both are effective for the Life and Death Realm as well, yet each is priced only at ten academic credits.

However, each Bodhi Salvation Fruit costs one hundred fifty credits.

That's enough to buy a Superior Grade Life and Death Divine Weapon.

And it isn't effective immediately; it requires continuous consumption.

Even for the top Intermediate Student, there might be only about a thousand academic credits awarded each month, which wouldn't be enough to indulge.

However, Mu Jinyu still had nearly one hundred and ten thousand academic credits, so he didn't have to be so restrained.

"I'll buy one first and then see..."

Mu Jinyu thought for a moment and bought one Bodhi Salvation Fruit first.

Afterward, the clerk led him to another counter, where they saw rows of bright red lotus blossoms alluringly on display. The clerk introduced, "This is the Pure Blood Red Lotus. Its effect is different from the Bodhi Salvation Fruit. It doesn't purify all the thin Exotic Blood in the body; instead, it specifically purifies a certain bloodline. The consumer needs to control it so as not to accidentally purify their most important Exotic Blood, hence it requires constant vigilance and carries some risks."

"The price of each is two hundred credits."

After listening to the introduction, Mu Jinyu hesitated and looked at the Bodhi Salvation Fruit in his hand and said, "I'll buy it later."

He mainly didn't know if he had any thin foreign race bloodline in his body.

If he consumed the Bodhi Salvation Fruit and found none, buying a Pure Blood Red Lotus would be a waste, wouldn't it?

'Eh, but if the Pure Blood Red Lotus is truly this effective, wouldn't it be much better than cutting off the bloodline oneself? It could also improve Chen Yinlong's aptitude?'

Mu Jinyu's thoughts suddenly shifted, and he promptly inquired to the clerk.

"Of course, the Pure Blood Red Lotus is indeed more reliable, even though it carries certain risks. But it's ultimately controllable, whereas cutting off one's Exotic Blood could cripple oneself!"

The clerk solemnly reminded, advising Mu Jinyu not to choose cutting off the bloodline, as it is much more dangerous than the Pure Blood Red Lotus.

Hearing his words, Mu Jinyu felt a bit peculiar inside.

Because he had already cut off Exotic Blood several times.

However, he didn't feel proud for having been unharmed but instead felt some anxiety.

After all, he had not only cut off his Exotic Blood but had also done it for Ji Xiaoyun and Chu Huaxiu.

He knew there would be certain risks doing this at the time but had not expected it to be so dangerous.

If he had known beforehand and had access to the Pure Blood Red Lotus, he definitely wouldn't have done so.

Instead, he would have pooled some credits to buy several Bodhi Salvation Fruits and Pure Blood Red Lotuses for Ji Xiaoyun and Chu Huannian.

"Alright then, give me two Pure Blood Red Lotuses," Mu Jinyu thought for a moment and said to the clerk.

"Sure." The clerk agreed and went to fetch two Pure Blood Red Lotuses for Mu Jinyu, handing them to him.

Mu Jinyu successfully transferred four hundred credits to him.

"What effect does the Green Duckweed into Red Ganoderma have?" Mu Jinyu asked the clerk.

The clerk replied, "The effect of Green Duckweed into Red Ganoderma is essentially a combination of the Bodhi Salvation Fruit and Pure Blood Red Lotus, but more gentle. Its price is two hundred fifty-five credits per piece."

Hearing this, Mu Jinyu shook his head slightly, losing interest, and said, "Forget it, if needed, I'll come back to purchase it."

Then he turned and slowly stepped away from the Heavenly Materials and Earthly Treasures area.

After leaving the area, Mu Jinyu still felt a bit of heartache.

The recent purchase cost him four thousand six hundred sixty credits, which felt like money spent like running water.

"Regardless, it's all earned credits anyway; let's just consider these Heavenly Materials and Earthly Treasures gifts from others,"

Mu Jinyu shook his head slightly, forcefully altering his mindset, which eventually made him feel less troubled.

He nodded and said, "Hmm, now it's time to buy a handy weapon. I can't be destroyed again with a few hits!"

Although he still had two magic treasures, the Earth Emperor's Tome and Corpse-Wrapping Cloth, with quite powerful abilities, he didn't necessarily need other weapon treasures.

However, these two magic treasures remained somewhat sensitive.

This time, when encountering Ning Ruofan and Lu Kaige, he used the Corpse-Wrapping Cloth, and not many people noticed its peculiarity, but what about next time?

What about in the future?

He couldn't constantly rely on others' blindness to prevent them from noticing the unusual nature of the Corpse-Wrapping Cloth, right?

Therefore, he still needed a weapon that was both handy and not too conspicuous.

Preferably a Life and Death Divine Weapon to a Creation Divine Weapon that could enhance his combat power without being easily broken or attracting too much attention.

"Forget about guns and swords. Ever since buying that Long Sword Divine Weapon and Long Spear Divine Weapon last time, I haven't used them much. The Divine Skills I've created are related to the Way of the Sword, so I'll directly follow the Way of the Sword in the future."

"Once I reach a bottleneck in my Cultivation of the Humanity Path Sutra, I'll try breaking through with the Armament Martial Scripture!"

Mu Jinyu whispered to himself before changing direction and moving toward the area dedicated to selling sword-type magic treasures, following the direction signs.

"Welcome, what do you need?"

Upon arriving at the sword-type magic treasures' area, many clerks greeted Mu Jinyu.

Mu Jinyu scanned the room, failing to spot the clerk who served him last time, so he casually pointed at someone to attend to him, "Uh, hello, I want to buy a sword-type magic treasure, preferably a Creation Divine Weapon. If not, a Top-Quality Grade Life and Death Divine Weapon would do. Do you have any here?"

"Yes, we do,"

The clerk's eyes lit up upon hearing Mu Jinyu's request for a Creation Divine Weapon, nodding continuously.

"Please follow me, senior,"

The clerk quickly led the way, signaling Mu Jinyu to follow.

Mu Jinyu stepped forward to follow.

Meanwhile, other clerks who hadn't attended to anyone sighed upon hearing their conversation.

Soon, Mu Jinyu followed the clerk, passing by the area for Heaven-reaching spiritual treasures, then the ordinary Divine Weapon area, and finally the Life and Death Divine Weapon area.

Here, Mu Jinyu observed with more interest in his eyes.

He had been here before and had seen several impressive sword-type Divine Weapons. At that time, he was quite fond of them but unable to afford anything other than a Medium Grade Divine Weapon level firewood knife due to financial constraints.

Now, though...

He still really liked these Life and Death Divine Weapons, but...

Compared to Creation Divine Weapons,

he liked Creation Divine Weapons more.

Let's just say, the bond between them was too shallow!

Chapter 1875 1875: The Price of Creation Divine Weapons! Buying a Holy Weapon! A Special Holy Weapon!

Soon, the attendant led Mu Jinyu past the area of the Life and Death Divine Weapons once more.

They arrived at the section of Creation Divine Weapons.

The reason the attendant complied so readily, taking Mu Jinyu wherever requested,

was because Mu Jinyu was currently wearing the attire of a senior student, indicating his ability to make such a purchase.

Otherwise, had Mu Jinyu still been dressed as a low-level student,

even if he truly intended to purchase a Creation Divine Weapon, upon asking for one,

most attendants would be reluctant to serve him.

Only a few attendants with better manners might attend to him, but would still require him to present his identity plaque to verify his purchasing eligibility.

"Here we are, all the weapons in this area are Creation Divine Weapons."

The attendant introduced as they arrived in a space roughly the size of a study room.

Compared to the vast area for regular divine weapon sales, spanning dozens of acres, and the Life and Death Divine Weapons being housed in a football-field-sized area, this Creation Divine Weapons section seemed quite modest in size.

However, given the rarity of Creation Divine Weapons, a space this size was adequate for display.

"Rust Spring Sword, Lower Grade Creation Divine Weapon, priced at 25,000 academic credits."

"Heavenly Demon Slash, Medium Grade Creation Divine Weapon, priced at 38,000 academic credits."

"Gale of Disaster, Medium Grade Creation Divine Weapon, priced at 39,800 academic credits."

"King's Lament, Superior Grade Creation Divine Weapon, priced at 52,000 academic credits."

"..."

The attendant stood quietly to the side, rather than actively introducing to Mu Jinyu.

Mu Jinyu scanned the shelves displaying various sword weapons.

Each sword displayed had a label, showing the name and specific price of these Creation Divine Weapons.

Mu Jinyu could not help but click his tongue.

They were indeed very expensive.

A Lower Grade Creation Divine Weapon costs over 20,000 in academic credits.

Medium Grade Creation Divine Weapons approach 40,000 academic credits.

Superior Grade Creation Divine Weapons exceed 50,000, nearly reaching 60,000 for slightly better ones.

Top-Quality Grade Creation Divine Weapons approach 80,000 academic credits.

Mu Jinyu mused internally, they're selling Creation Divine Weapons at such high prices, how many students here could afford them?

If it weren't for making a fortune through betting, escalating from a few thousand credits to nearly 100,000 credits, he wouldn't have the chance to even look around.

And if it wasn't for luck snatching this amount from Mo Yunqiong, even as a senior student who defeated Lu Kaige, earning 3,000 credits monthly,

even without spending on food, secret cultivation chambers, or heavenly materials, he would need years to acquire a Superior Grade Creation Divine Weapon.

Even as the top senior student...

If he were an ordinary senior student, there wouldn't even be the bonus 300 credits.

How long would it take to buy a Lower Grade Creation Divine Weapon?

'Seems like these Creation Divine Weapons aren't designed for students, but rather for the mentors,' Mu Jinyu speculated in his heart.

Just then, noticing Mu Jinyu had nearly finished browsing the weapons, the attendant began introducing several Lower Grade Creation Divine Weapons.

Clearly, based on experience, even senior students with purchasing capability typically opt for lower-grade Creation Divine Weapons.

Medium Grade to Superior Grade and Top-Quality remain out of reach.

"No, I don't want a Lower Grade Creation Divine Weapon!"

Mu Jinyu shook his head at the attendant's introduction.

"Don't want one?"

The attendant paused, wondering if Mu Jinyu was among those affluent senior students.

"Oh, perhaps I should introduce these Medium Grade Creation Divine Weapons to you. This Heavenly Demon Slash is priced at 38,000 academic credits, made from special materials granting it an advantage over the Devil Clan. If your opponent possesses Demon Tribe Bloodline, they'd be severely restrained..."

"Regarding Gale of Disaster, it costs only 39,800 academic credits, it contains Calamity Yin Wind with powerful force, nearly reaching the level of a Superior Divine Weapon..."

Mu Jinyu interrupted, "Not at all, I'm not interested in Creation Divine Weapons. Do you have more advanced magic treasures for sale here?"

"That would be Holy Weapons for Chrono Light Realm experts then?"

Upon Mu Jinyu's inquiry, the attendant instinctively replied, "Yes, we have them, but they're scarce, and even the lowest priced low-grade Holy Weapon is 150,000 credits!"

"The minimum is 150,000, huh?"

Mu Jinyu sighed upon hearing this from the attendant.

Initially observing the Creation Divine Weapons, even the best Top-Quality examples required nearly 80,000 credits.

So he wondered, could his 100,000 credits buy a superior Holy Weapon?

As it turns out, the Holy Weapons' tier escalated not by just 20,000 credits, but almost twice that.

The lowest tier costs a full 150,000 credits.

That's far beyond his purchasing capability.

After speaking, the attendant noticed Mu Jinyu's expression, confirming he couldn't afford that many credits.

Isn't that obvious?

Even Lu Kaige, having been the top senior student for years, couldn't muster that sum.

How could Mu Jinyu, a relatively unfamiliar senior student, suddenly produce 150,000 credits?

Yet, to prevent Mu Jinyu from getting too embarrassed, the attendant kindly asked, "Senior, how many credits do you have? If the budget is limited, buying a Creation Divine Weapon is fine—it's fitting for our current Void Breaking Realm cultivation, really not much difference between Creation Divine Weapons and Holy Weapons, the latter being better suited for Chrono Light Realm experts."

Mu Jinyu casually replied, "I have just over 100,000 credits."

"Oh, then..."

Upon hearing Mu Jinyu's words, the attendant first assumed he only had three to five thousand credits, intending to encourage Mu Jinyu towards a Medium Grade Creation Divine Weapon.

Quickly realizing, the attendant was shocked to learn Mu Jinyu actually had over 100,000 credits!

He couldn't help but wonder how Mu Jinyu accumulated so many credits without using secret cultivation chambers or heavenly materials.

Despite finding Mu Jinyu peculiar for amassing such credits, the figure of 100,000 in relation to Holy Weapons...

the attendant suddenly recalled a special Holy Weapon in the Holy Weapons section.

That Holy Weapon was priced precisely at 100,000 credits.

Perfect for Mu Jinyu.

After hesitation, the attendant tentatively asked, "Senior, if you truly have 100,000 credits, perhaps you'd be interested in purchasing a Holy Weapon. That particular one is unique and might not be as powerful as a top-tier Creation Divine Weapon, also with some side effects, would you consider it?"

Chapter 1876 1876: The Special Holy Weapon That Devours Its Master! Just What I Wanted!

"A special sacred weapon, only 100,000 credits, but with some side effects..."

Mu Jinyu listened to the introduction, wondering why it felt so unreliable?

However, considering it's a sacred weapon, if possible, he still wanted a sacred weapon rather than a top-quality Creation Divine Weapon.

"Alright, let's go and take a look..."

Mu Jinyu hesitated and nodded to the attendant.

He didn't rush to ask what was special about this sacred weapon and what side effects it had.

This way, he can take the opportunity to go directly to the sacred weapon section to see the condition of those weapons.

If he asked in advance and found out there were issues with this special sacred weapon, and the attendant saw his change in expression, he might not get the chance to see them.

So, he decided to ask later after he took a look.

"Alright."

The attendant agreed and then respectfully asked, "However, to visit the sacred weapon section, we need to verify in advance whether you have enough credits. Usually, to enter the sacred weapon section for viewing, you need at least 150,000 credits, but since you want to purchase that special weapon, only 100,000 credits are needed."

"Oh, that's no problem."

Mu Jinyu didn't make things difficult for the attendant and directly showed his identity plaque, demonstrating the credit balance on his card.

When the attendant clearly saw that Mu Jinyu's identity plaque indeed had over 100,000 credits, he showed a hint of surprise, which he quickly concealed, and returned the identity plaque to Mu Jinyu, turning to lead him away from the Creation Divine Weapon area.

"Buzz!!"

Soon, they left the area one after the other, then walked to a place with a silver-white glowing light screen.

The attendant took out a specially designed card from the Qiankun Ring and pressed it against the light screen.

Mu Jinyu observed as the frequency of the twisting movement of the light screen changed, and the previously dangerous aura disappeared.

The attendant turned back to Mu Jinyu and explained, "This is the sacred weapon area, which must be carefully guarded. Without the specific incantation and key for entry, attempting to go inside will

inevitably lead to being crushed. It's said even the great ones in the Chrono Light Realm find it hard to escape unscathed."

"Hmm, so now the restrictions are lifted, and we can go in?" Mu Jinyu inquired.

"Yes." The attendant nodded and then took the lead, stepping into the light screen.

Mu Jinyu followed, feeling as if he was passing through a secret realm, experiencing a sensation of spatial shifting.

After entering, he saw that the space inside was smaller, originally the area for placing Creation Divine Weapons was at least as large as a study room.

Now, the area for placing the magic brush was only as big as a bathroom.

Altogether, five wooden boxes were placed inside.

They must hold five sacred weapons.

Mu Jinyu glanced at the labels on these wooden boxes.

"Huanglong Silver Moon Slash! Medium Grade Sacred Weapon, priced at 200,000 credits!"

"Assassin's Blade! Low Grade Sacred Weapon, priced at 167,000 credits!"

"Moonlight Frost! Low Grade Sacred Weapon, priced at 158,000 credits!"

"National Mourning! Low Grade Sacred Weapon, priced at 169,000 credits!"

After reading the brief descriptions on the four labels, Mu Jinyu clicked his tongue in astonishment; they were indeed too expensive.

Even among the top ten senior students, none could afford them.

Finally, Mu Jinyu looked at the last wooden box.

This wooden box had no label, nor did it indicate its price.

It should be the special sacred weapon the attendant described, which only required 100,000 credits?

"This sacred weapon is the special one I mentioned for only 100,000 credits!"

After entering the space, the attendant did not introduce the other four sacred weapons, knowing that Mu Jinyu couldn't afford them, hence there was no need for introductions.

He directly pointed to the unlabelled wooden box, a hint of apprehension and fear flashing in his eyes, as he softly explained.

"Its name is Riot-Quelling Sword. Its special feature is that it's entirely covered in rust, and no matter how it's cleansed, it can't be removed. Moreover, it requires sufficient foreign race blood for nourishment; otherwise, it will devour the master, consuming the exotic blood within the master's body!"

"Very frightening!"

He then looked at Mu Jinyu, offering a somewhat apologetic smile, "I noticed you're quite unique, seemingly a pureblooded human race? It's said you don't possess a foreign race bloodline within, plus you desire a sacred weapon, and you only have 100,000 credits, so I recommended this sacred weapon to you. I believe it might not pose a threat to you, unable to devour you, but if you don't want it, just take a look..."

Mu Jinyu had been speculating why this special sacred weapon was unique, why it was priced 50,000 credits lower.

Upon hearing the explanation, he understood instantly; it turned out to be like this.

It requires nourishment from foreign race bloodlines, and if not provided, it will directly devour the master, consuming the exotic blood within the master's body.

No wonder its price is lowered by 50,000!

In the current cultivation environment of Canglan Realm, who dares take action against foreign races?

Moreover, it's not an occasional requirement but demands constant nourishment with exotic blood.

This inevitably makes one an enemy to foreign races!

Even Wei Qiankun might hesitate to make such a decision.

And once unable to provide nourishment, the foreign race bloodline within oneself will be counterattacked by the sword weapon.

This isn't something ordinary people can handle.

Yet, according to the attendant's claim, it does seem somewhat suitable for him.

After all, he assumes he doesn't possess a foreign race bloodline; even if there's some exotic blood remaining he isn't aware of, having it devoured by the Riot-Quelling Sword would be better.

Unlike others, he isn't afraid of his exotic blood being devoured by the sword.

"Hmm, not bad, indeed not bad, then let me take a look..." Mu Jinyu nodded in satisfaction, addressing the attendant.

The attendant complied softly and then made a few difficult attempts on Mu Jinyu, finally lifting the restrictions.

After lifting the restrictions, he turned to Mu Jinyu with a sheepish smile, "Sorry, senior, this sword has been here for a long time, and I dare not touch it..."

Mu Jinyu understood his implied meaning and nodded sternly, "Alright, no worries, step aside, let me try..."

He wasn't underestimating the Riot-Quelling Sword, assuming he could easily suppress it, but rather, it was because he possessed the Corpse-Wrapping Cloth and the Earth Emperor's Tome, top-grade magical treasures. If there truly was any danger, he could counter-suppress the Riot-Quelling Sword instantly.

"Creak!"

Standing before the wooden box, Mu Jinyu steadily began to open it.

This revealed a sword inside, seemingly ordinary in style, somewhat resembling a Tang Sword, fairly straight with the tip slightly curved, but it was entirely covered in rust, appearing battered, as if a random flick would shatter it into pieces.

"So, this is the Riot-Quelling Sword?"

Mu Jinyu gazed at the rusty sword, his face filled with seriousness, then cautiously reached out to grab the hilt.

"Hiss!"

As soon as his fingers touched the hilt, he immediately felt a stabbing pain, as though an invisible thorn was piercing his finger.

After piercing his finger, it crazily attempted to devour the blood within his body!

Chapter 1877 1877: Bought the Demon Sword! 100,000 Academic Credits Gone! Posted a Bounty Mission!

"Huh?!"

Mu Jinyu sensed the Riot-Quelling Sword's restless urge towards him, his eyes narrowing with brilliance spilling out. He was immediately ready to suppress this Demon Sword with the Corpse-Wrapping Cloth and Earth Emperor's Tome.

As for whether revealing the Earth Emperor's Tome would be seen by the clerk and cause trouble, he wasn't too worried. After all, this was a relatively isolated space.

If worst comes to worst, he could just use the Earth Emperor's Tome to brainwash the person, erasing the memory of taking out the Corpse-Wrapping Cloth and Earth Emperor's Tome!

"Boom boom!!"

At that moment, Mu Jinyu suddenly felt his bloodline within him also raging, as if a dragon's roar was faintly echoing. He immediately understood that the Blood Dragon was surging within him.

"Clang!"

With the movement of his Blood Dragon, the Riot-Quelling Sword, which had attempted to devour his bloodline, emitted a clang and then quieted down.

As if it had truly become an ordinary rusty sword.

What Mu Jinyu had felt earlier—the surge and bloodthirstiness—was merely an illusion.

But Mu Jinyu knew it was no illusion.

The Riot-Quelling Sword indeed had surged, trying to invade his body to swallow his bloodline!

However, it ultimately failed.

It was suppressed by his Blood Dragon.

"Eh, there's really nothing wrong, so it seems this Demon Sword is indeed quite suitable for you, senior..."

The clerk standing behind Mu Jinyu appeared oblivious to the turmoil. Seeing Mu Jinyu touching the sword handle without issue, the clerk was thrilled and started promoting the sword.

He began explaining that although the sword seemed rusty and fragile, it was actually potent. If one could resist its devouring, it could unleash power equivalent to a Medium Grade Sacred Weapon.

Just like that, you earn 100,000 credits, senior!

Listening to the clerk's persuasion, Mu Jinyu felt the guy was quite a mastermind!

Nevertheless, it was indeed the case for him.

Since he couldn't afford other Holy Weapons, he might as well buy this peculiar Riot-Quelling Sword instead of a Top-Quality Creation Divine Weapon.

"I'll take it then."

Mu Jinyu decided to grip the handle directly instead of just touching it, grasping the entire rusty Tang Sword-esque Riot-Quelling Sword.

"Mm, mm."

The clerk was delighted seeing Mu Jinyu choose this Demon Sword and hurried to complete the purchase process for him.

Due to its wicked nature, the Treasure Pavilion had a rule that anyone who sold it would receive considerable rewards.

Having finally sold it, he was naturally pleased.

"Beep beep!"

Soon, the transaction was completed.

Mu Jinyu's Identity Plaque instantly plunged from over 100,000 credits to just over 3,000 credits.

This change left him a bit uncomfortable.

"Sigh, it's like going back to the pre-liberation era."

Mu Jinyu sighed softly, then put the Riot-Quelling Sword into his Qiankun Ring, planning to refine it later.

Then, Mu Jinyu left the small space storing Holy Weapons and exited the Treasure Pavilion.

Since he only had 3,000 credits left, he couldn't buy anything good, so it was unnecessary to linger.

After leaving the Treasure Pavilion.

Mu Jinyu headed straight to the task hall.

The Treasure Pavilion didn't have the Heavenly Mysterious Ice Spirit Marrow or similar items, and he wasn't sure where such Heavenly Materials and Earthly Treasures could be found outside, leaving him to issue a reward.

To see if he could purchase it directly or if someone could provide him with leads.

Then he could follow the leads to search for such Heavenly Materials and Earthly Treasures.

Before long, after leaving the Treasure Pavilion, Mu Jinyu arrived at the task hall.

The task hall was still bustling, with many people standing in front of the massive stone wall, searching for suitable tasks.

Mu Jinyu had once accepted a task from Xuu Changqing here, earning 1,000 credits.

Even though this had happened not long ago, it felt like an eternity to him.

Back then, 1,000 credits were a lot for him.

He even took a few days off to go to Muyun Province and killed a Life and Death Realm expert from the Xuu Family.

Back then, Mu Jinyu found it odd why Xuu Changqing offered 1,000 credits for help but didn't approach suitable senior students directly.

He thought senior students would be willing as well.

At the time, he couldn't figure it out.

But now, he understood why senior students wouldn't take Xuu Changqing's task, even with an increase from 300 credits to 1,000. There wouldn't be suitable senior students to accept it.

Because 1,000 credits were too little for senior students.

If Mu Jinyu saw Xuu Changqing's task now, he probably wouldn't give it a second glance either.

After all, he once held nearly 110,000 credits!

Slightly shaking his head, Mu Jinyu withdrew his gaze from the people searching for tasks on the task wall, smiled, and then looked at a nearby staff member.

"Hello."

Mu Jinyu approached the staff member and spoke softly.

"Mm, what can I do for you?"

The staff member saw Mu Jinyu approaching, noted his senior student's attire, and cordially inquired without dismissing him.

"Mm, I want to issue a task; how do I proceed?"

Mu Jinyu inquired.

"What kind of task do you want to issue?" the staff member asked.

The staff member wasn't surprised or astonished, remaining calm and poised.

Evidently, senior students mainly came here to issue tasks, so he was used to it.

Mu Jinyu replied, "Um, it's about finding the Heavenly Mysterious Ice Spirit Marrow or similar Heavenly Materials and Earthly Treasures. Leads are fine, but it would be best to provide such treasures directly..."

"Mm, such a task is feasible and can pass the review easily. How many credits are you planning to offer for the reward?" The staff member nodded slightly after hearing Mu Jinyu's response and asked.

Mu Jinyu countered, "How much do you think it should be?"

If he still had 110,000 credits, he certainly wouldn't mind spending a few thousand or 10,000 on a reward.

However, he now only had over 3,000 credits left.

He wasn't sure if this amount was enough to reward such Heavenly Materials and Earthly Treasures.

So, he thought to ask the staff, who must have seen many issuing similar tasks and would know the general reward credits.

Then he could offer a third more credits to make the reward appear higher.

Also showing more sincerity.

"How many credits?"

Hearing Mu Jinyu's inquiry, the staff member gave him another look and answered, "Normally, those issuing this reward task offer two to three hundred credits. If you want to get information sooner, you could add a bit more, around 500 credits..."

"Hmm?" Mu Jinyu nodded lightly, murmuring, "500? That's a bit low, right? Let's make it 1,000 credits!"

Chapter 1878 1878: Bounty Complete! No Going Back! Mo Yunqiong's Astonishment!

"One thousand credits?"

The staff member looked slightly surprised upon hearing Mu Jinyu's words and couldn't help but ask, "Are you sure?"

He thought to himself, even senior students who rank in the top ten and receive over a thousand credits as a monthly reward usually don't spend that many credits on bounty tasks.

After all, once they get credits, they don't just hoard them; they also need to go to various secret cultivation chambers to cultivate and buy some spirit fruits to consume and such.

That's why he asked Mu Jinyu, hoping he wasn't joking with him.

He didn't want others to actually provide clues only for Mu Jinyu to not have enough credits to reward them.

"Yes, one thousand credits will do."

Mu Jinyu nodded in agreement.

Saying that, he directly took out his identity plaque to show the staff member, assuring him that he wasn't joking and indeed could afford to spend a thousand credits for the bounty.

"Still nearly four thousand credits... Truly lavish..."

Seeing the amount on Mu Jinyu's identity plaque, the staff member muttered with some envy.

Little did he know, just an hour ago, Mu Jinyu's identity plaque had nearly one hundred ten thousand credits.

If he had seen that exaggerated credit amount himself, his eyes would've surely popped out of their sockets in shock.

"Alright, I'll submit this task for you. Once it passes review, it'll be automatically posted on the task wall..."

After saying this to Mu Jinyu, the staff member added, "Give me your identity plaque for a moment. I'll handle some operations, and when the task is successfully published, those one thousand credits will be frozen and temporarily unusable for you."

"Okay."

Hearing the staff's explanation, Mu Jinyu agreed that it made sense and handed over his identity plaque.

The staff member took his identity plaque, then went to the side to perform the operation.

Soon, Mu Jinyu wasn't sure what he did, but the staff member returned the identity plaque to him.

Mu Jinyu took the identity plaque, examined it closely but found nothing amiss, thinking the one thousand credits hadn't been frozen yet.

When the task passes review and appears on the task wall, then the one thousand credits will be frozen.

However, what if I don't have one thousand credits on the plaque at that time?

Is it possible to exploit a loophole, or will the task fail to publish due to insufficient credits?

Mu Jinyu felt it unlikely that he could exploit this loophole.

Evidently, the staff's operation has already done something to his identity plaque, preventing any sort of advantage.

Retrieving his identity plaque, Mu Jinyu bid farewell to the staff member and turned to leave.

"Take care."

The staff member also bade him farewell.

"Was that person a senior student just now?"

"Yes, it's indeed the attire of senior students. I wonder what task he issued?"

"I think I heard something; it seemed like he offered a bounty of one thousand credits!"

"Whoa, one thousand credits? Really?"

"Looks real; I heard it too."

"That's quite a lot. Ah, if I could complete this task, wouldn't it be amazing? I could buy any Heavenly Materials and Earthly Treasures!"

"That's true..."

"We'll wait and see soon what kind of task it is and whether we can take it on."

"You guys are too naive, aren't you? It's a task issued by a senior, with a bounty of one thousand credits, not something we can complete."

"Hey, could you not discourage us? Can't we even dream a little? Honestly..."

"Sigh, really wish I had those one thousand credits..."

Seeing Mu Jinyu leave, the students in the task hall couldn't help but discuss quietly.

Each of them really wanted to get those one thousand credits from him.

...

Mu Jinyu left the task hall.

Thinking now the task has been published, awaiting review, and not knowing when someone will provide clues, with nothing else to do, it's best to go back to cultivation.

After all, he just bought a bunch of Heavenly Materials and Earthly Treasures and a Sacred Quietus Blade, which are yet to be refined.

He made his way towards the advanced student area to cultivate.

Upon reaching the advanced student area, Mu Jinyu headed to his Heaven Cave One Hundred and Twenty-One, finding Chen Yinlong standing alone pathetically at the entrance.

"Hey? Why aren't you going inside?"

Seeing Chen Yinlong standing at the door, looking pitiful, Mu Jinyu asked with surprise.

He remembered setting the restrictions inside the cave when leaving, to allow Chen Yinlong and Chu Huannian inside.

Seeing Mu Jinyu finally return, Chen Yinlong exclaimed excitedly and joyfully, "Senior, you finally came back. It's not that I don't want to go in; I just can't get in..."

He ended with an expression of grievance and pity.

"How could it be? Let me try?"

Mu Jinyu, surprised, attempted to enter Heaven Cave One Hundred and Twenty-One.

However, as Chen Yinlong said, he couldn't get in.

Even he himself couldn't enter.

"This isn't right! How is it possible?"

Mu Jinyu found it odd and then took out his identity plaque, pressing it on the Heaven Cave Stele, trying to see if any detection was needed to enter.

But no detection was possible.

At this time, Chen Yinlong weakly reminded, "Senior, I just thought, we can't get in possibly because now you're the top senior student, so your cave has become the First Cave Heaven, not this one, that's why we can't enter."

"Hmm? Is that the case?"

Hearing Chen Yinlong's suggestion, Mu Jinyu found it reasonable.

However, if that's so, Wang Yeqing and others advised me not to go to the First Cave Heaven yet to avoid provoking Lu Kaige, and to wait a few days until Lu Kaige can retrieve his belongings before moving into the First Cave Heaven.

But now, not even able to reside in Heaven Cave One Hundred and Twenty-One, where should I go?

Will I have to return to the intermediate student area and temporarily stay at Chu Huannian's courtyard?

Mu Jinyu pondered and felt uneasy.

"Forget it; I'll just stay in someone else's cave temporarily!"

Mu Jinyu wanted to ignore everything and move into the First Cave Heaven directly.

But thinking about it, having agreed with Wang Yeqing, it wouldn't be appropriate, so he decided to borrow someone's cave.

As for whose cave...

Mo Yunqiong's smile came to mind first.

After all, he wasn't familiar with anyone else among the senior students.

The few senior students he knew were all beaten up by him.

Only Mo Yunqiong was relatively familiar, and there was no conflict.

"Then let's borrow this guy's cave, surely he'll welcome me."

Thinking this, Mu Jinyu smiled brightly and then said to Chen Yinlong, "Let's go. We'll stay in someone else's cave temporarily."

Soon, Mu Jinyu brought Chen Yinlong to the front of Cave Heaven Eleven.

Unsure of how to knock, he pressed his identity plaque onto the Heaven Cave Stele.

"Buzz!!"

Soon, notified, Mo Yunqiong came out of the cave, staring in astonishment at Mu Jinyu.

"Hey, it's you?"

Seeing Mu Jinyu, the alertness in Mo Yunqiong's eyes faded away, asking in surprise, "Brother, what are you doing? Are you going to challenge me? But you're already the top; there's no point in challenging me!"

Chapter 1879 1879: Settling In! Bamboo Grove Retreat! Refining the Riot-Quelling Sword!

Mu Jinyu saw Mo Yunqiong, his face broke into a bright and friendly smile, and he said, "I'm not here to challenge you, I just want to stay at your cave heaven for a few days."

"Oh? I see..."

Upon hearing Mu Jinyu's words, Mo Yunqiong was slightly stunned at first, but quickly understood the reason.

It must be because Mu Jinyu had promised Wang Yeqing, so he temporarily didn't want to return to the First Cave Heaven, and as a result, even his original lower-ranked cave heaven was now inaccessible to him due to his ranking.

So, having no other choice, he came to me for a temporary stay.

Understanding this, Mo Yunqiong didn't refuse, he nodded with a smile, "Sure, you're welcome, feel free to stay. But when you go to the First Cave Heaven later, take me with you, I'd love to see what the First Cave Heaven looks like too!"

Because Lu Kaige was rather unsociable, Mo Yunqiong never had the chance to go to the First Cave Heaven, and had no idea what it looked like.

Now seeing that Mu Jinyu was approachable, and considering he owed him nearly a hundred and ten thousand academic credits, he figured Mu wouldn't refuse him, so he brought it up.

"Sure, no problem."

Mu Jinyu naturally wouldn't refuse Mo Yunqiong's request and agreed readily.

Next, Mo Yunqiong invited Mu Jinyu and Chen Yinlong into his Eleventh Cave Heaven.

"Hmm, it really is much stronger than the One Hundred and Twenty-First Cave Heaven..."

Upon entering this Cave Heaven Eleven, Mu Jinyu felt the extremely dense Heaven and Earth Origin Qi and praised uncontrollably.

Chen Yinlong felt the same way. He had gone with Mu Jinyu into the One Hundred and Twenty-First Cave Heaven before, and at that time, he loved the environment dearly.

Now discovering that compared to this Eleventh Cave Heaven, the One Hundred and Twenty-First was not even on the same level, he was even more astonished.

"This is nothing!"

Mo Yunqiong smiled and shook his head, "The top ten are truly formidable. I was once invited to the Fifth Cave Heaven, which is ten times stronger than mine!"

"I imagine the First Cave Heaven is even more terrifying, but unfortunately I never had the chance to go there before!"

In the end, there was a hint of regret in his tone.

Mu Jinyu laughed, "In a few days, Brother Mo's dream will come true."

"Yeah," Mo Yunqiong laughed heartily, then extended his hand and said, "Come, choose yourselves, see which pavilion you want to stay in."

"In this pavilion, the Demonic Qi is denser, in that one, it's filled with more Divine Qi, this little courtyard has more Demon Qi..."

Mo Yunqiong explained to them.

Chen Yinlong quickly chose a pavilion that suited him.

Mu Jinyu then asked Mo Yunqiong, "Is there a room here with more spiritual energy? If not, then any will do."

"Yes, yes," Mo Yunqiong nodded, "Although the nature's spiritual energy in the Canglan Realm has become much more sparse, making it impossible for people to follow the spiritual energy cultivation path, it's not entirely depleted. I do have rooms here with slightly richer spiritual energy, but it's still far from comparable to those pavilions filled with Demonic Qi, Divine Qi, and Demon Qi."

"Alright, then take me to have a look..." Mu Jinyu said.

Then, Mo Yunqiong led Mu Jinyu to a Bamboo Grove Retreat.

The spiritual energy here was indeed much stronger than outside.

However, it was still very faint, not at all comparable to the environment Mu Jinyu had in Yinlong Mountain.

But Mu Jinyu didn't mind.

After all, with his current cultivation, he didn't need spiritual energy, so the richness or sparseness didn't affect him much.

The reason he sought a room with spiritual energy was purely because, compared to those pavilions filled with dense Demonic Qi, Demon Qi, and Divine Qi, he was more accustomed to this kind of environment.

"Well, would you like to tour around my cave heaven some more?" seeing Mu Jinyu quite satisfied with the environment, Mo Yunqiong asked again.

"No need." Mu Jinyu gently shook his head, "I'm just staying a few days, maybe not even for long."

He thought, since there was currently no news about those Heavenly Materials and Earthly Treasures that can enhance bloodline concentration, he'd just focus on cultivating first.

If he got new information, he might stop cultivating to seek out those Heavenly Materials and Earthly Treasures to improve Chen Yinlong's aptitude, making his future path smoother.

This way, he could repay Teacher Chen for the care they received during the past.

"Alright then, I'll head out. If you need anything, just call me..."

Hearing this, Mo Yunqiong didn't try to persuade Mu Jinyu, he nodded, gave a reminder, and then left the Bamboo Grove Retreat.

After Mo Yunqiong left, Mu Jinyu began to take out a series of items he had just purchased from the Treasure Pavilion.

Vermilion Fruit, Soul Devouring Spiritual Fruit, Bodhi Salvation Fruit, Pure Blood Red Lotus...

Among them, he bought two hundred and ten Vermilion Fruits, two hundred Soul Devouring Spiritual Fruits, just one Bodhi Salvation Fruit, and two Pure Blood Red Lotus plants.

"Clang!"

The Riot-Quelling Sword, rusty and speckled, was drawn by him, and it emitted a resonant clang, sharp yet filled with a chilling murderous intent.

It made the hairs on Mu Jinyu's arms stand up, and goosebumps emerged.

"This sword didn't seem to have this sharpness just now!"

Mu Jinyu looked at the slender Riot-Quelling Sword, furrowing his brows slightly.

He originally thought of consuming these Heavenly Materials and Earthly Treasures to enhance his strength first, and then proceed to refine the Riot-Quelling Sword.

But now, he felt that the Riot-Quelling Sword seemed to be releasing the murderous aura that had been suppressed by the restrictive wooden box it was kept in, making it difficult for anyone to approach or touch it.

He suspected that if he delayed any longer, he wouldn't be able to handle this Demon Sword.

So, after some thought, Mu Jinyu decided to refine the Riot-Quelling Sword first!

"At that time, this Riot-Quelling Sword tried to devour the blood in my body, but it was suppressed by the Blood Dragon condensed by my bloodline, indicating it couldn't devour my bloodline!"

Mu Jinyu whispered softly, then gently cut the tip of his right index finger, letting drops of red blood trickle down onto the Riot-Quelling Sword.

His expression was solemn, ready at all times to suppress it with the Earth Emperor's Tome, should the blood refinement prove impossible.

Mu Jinyu believed that a Holy Weapon wouldn't be able to resist the Earth Emperor's Tome, so he was rather reassured.

"Sizzle, sizzle, sizzle!!"

Under Mu Jinyu's tense and solemn gaze, his blood dripped onto the Riot-Quelling Sword and was slowly absorbed, but strangely, the Riot-Quelling Sword didn't become more violent or crazed because of it.

Instead, it became calm, and the murderous intent that had overflowed began to be restrained.

"Huh? The blood refinement was initially successful?"

Mu Jinyu was surprised by how simple it was.

He thought it must be due to his Pureblooded Human Race bloodline, right?

He didn't have any foreign blood in his body, so after absorbing his blood, the Riot-Quelling Sword became stable, without any restless, crazed bloodthirst.

"I remember that attendant told me the Riot-Quelling Sword was discovered in some ruin, not forged by modern arms craftsmen like other Holy Weapons!"

"It seems this Riot-Quelling Sword was once the life-bound magic treasure of a Human Race predecessor, hence its thirst for foreign blood?"

Mu Jinyu looked at the now calm Riot-Quelling Sword, whispering his guess.

Then, he shook his head slightly, not bothering to overthink, as long as he could refine it.

Next, he began using the Soul Refining Method and Elemental Refining Method to simultaneously refine the Riot-Quelling Sword.

A day passed by like this.

"Clang!"

The Riot-Quelling Sword let out a clang, exuding feelings of joy and excitement, devoid of its previous craziness and bloodthirst.

Chapter 1880 1880: Successful Refining! Gained 2 Flood Dragon Power! Enhanced Divine Soul Power!

"Clang!!"

Once the Riot-Quelling Sword was refined, it emitted a clear ringing sound. Its initially wild and fierce killing intent was now restrained and became very calm.

Mu Jinyu reached out to grasp the Demon Sword, feeling a wonderful sense of bloodline fusion with it.

"Strange, why hasn't the rust disappeared after the Riot-Quelling Sword was successfully refined?"

Mu Jinyu mumbled to himself, puzzled as he looked at the mottled rust on the sword.

Many magic treasures discovered from relics often have various rust and grime on them that are hard to remove. However, as these treasures are successfully refined, the rust and grime accumulated over time usually falls off, revealing their true appearance.

Mu Jinyu originally saw the mottled rust on the Riot-Quelling Sword and guessed it was such a case, so he didn't mind and simply bought the Demon Sword.

But now that the Riot-Quelling Sword had been refined and became his magic treasure, the rust on the blade hadn't peeled off at all, which felt strange to Mu Jinyu.

Could it be that the Riot-Quelling Sword was forged to be like this from the start?

Was the bladesmith intentional in forging it this way?

Perhaps to add a tetanus effect on the Riot-Quelling Sword?

One slash, and even if it doesn't kill, it would infect with tetanus from the rust!

Mu Jinyu speculated oddly in his heart.

Then he shook his head, too lazy to think about it anymore.

After all, he wasn't particular about appearances. Even though the Riot-Quelling Sword was entirely covered in rust and a bit ugly, a holy weapon is a holy weapon after all, so there's nothing to complain about.

He even used an unknown Corpse-Wrapping Cloth as a magic treasure, so why fear a rusty sword?

Mu Jinyu stored the Riot-Quelling Sword into his Dantian Qi Sea to slowly nurture it with his blood essence.

Then he took out the Heavenly Materials and Earthly Treasures he had purchased and began consuming them to enhance his strength.

First was the Vermilion Fruit.

The Vermilion Fruit was indeed good. Although consuming it caused immense pain throughout the body, the enhancement was very noticeable.

Previously, Mu Jinyu had purchased and consumed one Vermilion Fruit from the Treasure Pavilion, which increased his strength by about the Strength of Three Horses, or approximately three thousand jin of force.

In his calculations, the best scenario was that consuming all two hundred and ten Vermilion Fruits would elevate his physical strength to the Power of One Dragon.

However, he knew this was likely difficult, as tolerance to the antidote builds over time, so reaching the Power of Seven Jiaos would be satisfying.

"Crunch!"

Mu Jinyu pierced the skin of one Vermilion Fruit and began devouring its juice.

A Vermilion Fruit, as large as a coconut, was quickly consumed by him.

This made him feel like his whole body was boiling, as if his blood had been ignited.

"Hoo..."

Meditating with the "Humanity Path Sutra" to refine his physical body and absorb the Vermilion Fruit juice.

In just a short while.

Mu Jinyu opened his eyes, and his pure physical strength had improved further.

He gained an additional Strength of Three Horses.

However, Mu Jinyu frowned slightly.

It was indeed as he had imagined; the effect of the Vermilion Fruit juice was not as potent as the first time he consumed it, with the potency slightly reduced.

Although not very obvious, there was a noticeable weakening.

He figured that after consuming several more Vermilion Fruits, it might take two Vermilion Fruits to achieve the effect of one.

"Oh well, it's still a gain, so no reason to complain,"

Mu Jinyu shook his head slightly, then immediately pierced ten Vermilion Fruits at once and began to gulp down the juice.

"Ha..."

After spending an hour refining the medicinal power of these ten Vermilion Fruits,

his pure physical strength increased by Three Elephants Five Horses Strength from what it was before he consumed the Vermilion Fruits.

That is, he gained thirty-five thousand jin of force!

But with diminishing effects.

Each Vermilion Fruit was supposed to provide the Strength of Three Horses, and he had consumed twelve altogether, theoretically gaining Three Elephants Six Horses Strength.

Yet in the end, he was lacking the Strength of One Horse.

Though it seemed insignificant, it meant the tolerance was building.

Initially insignificant, now it was missing the Strength of One Horse.

By the time he consumed the hundredth Vermilion Fruit, the effect was expected to be only half of what it originally was.

"Sigh..."

Mu Jinyu couldn't help but sigh softly, then accelerated his consumption of the Vermilion Fruits.

Soon.

Half a day later.

The remaining two hundred Vermilion Fruits were all consumed and refined by Mu Jinyu.

And his pure physical strength, far less than expected, even if he couldn't reach the Power of One Dragon, should've at least become the Power of Seven Jiaos, right?

But in reality, he only increased from the Power of Three Jiaos to Five Jiao Dragon Strength!

The later it got, the less effective the Vermilion Fruits were for him.

"Fine, for over two thousand academic credits, gaining the Power of Two Jiaos is not bad, don't be greedy!"

Mu Jinyu shook his head slightly.

He knew that the limited effect at the end was not only due to the tolerance developed against the Vermilion Fruits but also because physical body refinement becomes harder at later stages.

According to the attendant's introduction, a normal cultivator consuming a Vermilion Fruit should gain at least seven to eight thousand jin of strength.

That's an increase of seven to eight horses of strength.

Yet since he started consuming the Vermilion Fruit, he only gained the Strength of Three Horses.

This was because his physical body refinement had reached a certain level, and even without prior consumption of Vermilion Fruits, it would greatly reduce their effectiveness on refining his physical body.

"Now, it's time to consume the Soul Devouring Spiritual Fruit!"

Mu Jinyu turned his gaze to another type of fruit placed to the side, speaking with gleaming eyes.

His expectations were higher for the Soul Devouring Spiritual Fruit.

After all, his current Divine Soul Power was only approximately at the Late Broken Void Realm Stage nearing its peak.

He greatly hoped to consume the Soul Devouring Spiritual Fruit to raise his soul cultivation level to the Life and Death Realm.

To gain an early understanding of the Life and Death Realm.

"Crunch!"

The Soul Devouring Spiritual Fruit wasn't as big as the Vermilion Fruit; it resembled a mangosteen in appearance, but its skin wasn't as thick. Mu Jinyu consumed them one by one.

Very quickly, he consumed ten Soul Devouring Spiritual Fruits in succession.

If the attendant and others who had consumed Soul Devouring Spiritual Fruits saw his actions, they would probably be terrified.

No one dared to consume Soul Devouring Spiritual Fruits like this!

Consuming these fruits was extremely perilous; one careless mistake could allow the latent residual souls within the fruit to attack, causing one to fall into a demon state, resulting in mental collapse.

But Mu Jinyu had no such concerns or worries.

Because the Mystical Little Tree would take care of all those post-consumption worries for him.

It could even devour those residual souls, turning them into purer medicinal power and feeding it back to him.

This meant there was no risk in consuming the Soul Devouring Spiritual Fruits for him; instead, their medicinal power was much stronger than for others.

"Crunch crunch!!"

In an instant, Mu Jinyu consumed thirty Soul Devouring Spiritual Fruits, then checked the state within his Sea of Consciousness.

He saw that with the consumption of so many Soul Devouring Spiritual Fruits, his Sea of Consciousness now had hundreds of residual souls howling and roaring, their cries horribly chilling.

It was like a Night Parade of One Hundred Demons.

It turned his originally golden Sea of Consciousness pitch black, as if it were the Underworld!

"Hiss hiss hiss!!"

At this moment, the Mystical Little Tree began its action.

It stretched out a golden branch covered in various runes and laws, sweeping across like chains of order.

It swept away all obstacles effortlessly.

"Bang bang bang!!"

The terrifying residual souls were instantly shattered by its golden branch, turning into starlight dots, then devoured by the branch, transforming into more refined soul fluid, feeding back to Mu Jinyu.
