

King Hall 1891

Chapter 1891: One Punch Ruins Chi Yanyu! I Really Didn't Mean It!

Mu Jinyu actually hadn't said whether he would accept Chi Yanyu's challenge.

Yet, seeing them make the decision after just a few words, he felt quite frustrated.

However, it might be good to give it a try.

He was really puzzled as to why that combat puppet was so fragile, exploding with just a hit from him.

Could it really be because his strength had increased so much?

Since Chi Yanyu's cultivation was just at the peak of the Life and Death Realm, he wasn't that afraid, so he decided to fight a round.

At worst, he would just take out the Corpse-Wrapping Cloth and the Riot-Quelling Sword, to see which of them would suffer more.

However, Mu Jinyu still decided to cover his bases in advance, and asked, "Institute Head, is the combat evaluation with you only assessing the punch I used to destroy the combat puppet, or can I use all techniques in the duel?"

Upon hearing Mu Jinyu's words, Chi Yanyu glanced at him, her eyes full of disdain and contempt.

She thought, "You're just a little guy at the Fifth Layer of the Void Breaking Realm, and you actually dare to consider dueling with me?"

Truly, he doesn't take me seriously at all!

"Anything goes, if you want to duel with me, go ahead. But I strike hard, and if you really choose to fight me, you'll be in for some pain!" Chi Yanyu said dismissively.

"Alright then." Mu Jinyu nodded, and shyly said, "Then I won't duel you. But since you're going to assess the power of that punch, to see if it's reached the peak of the Life and Death Realm, you shouldn't dodge like that combat puppet did, right?"

Hearing Mu Jinyu's words, Chi Yanyu wanted to immediately deny it.

She didn't want to be a punching bag, letting Mu Jinyu attack her as he wished.

However, just like when Mu Jinyu fought the combat puppet, it seemed that was indeed the case.

The combat puppet malfunctioned, its momentum faltering, and though Mu Jinyu seemed like he wanted to flee, he ultimately stayed and delivered the punch that exploded the puppet.

So, if she wanted to evaluate the power of Mu Jinyu's punch to see if it had really reached the peak of the Life and Death Realm, she wouldn't be able to evade, she could only stand there and passively let Mu Jinyu attack her.

Thinking this, Chi Yanyu was really frustrated!

She had eagerly come to assess Mu Jinyu's strength, but it seemed she couldn't seize the opportunity to teach him a lesson. Instead, he would get a free shot at her as his punching bag.

No matter how you looked at it, it was a raw deal!

"Institute Head, get ready, I'm coming!"

Mu Jinyu didn't care how Chi Yanyu felt. After giving her a gentle reminder, he immediately activated the Blood Dragon and Bone Dragon, performing the Life and Death Twin Dragon Fist.

"Boom!!"

Red and white light swirled around Mu Jinyu's fists, merging into a majestic Divine Dragon, radiating an imposing and fearsome presence, before charging towards Chi Yanyu.

"Clang!!"

Of course, Chi Yanyu wasn't foolish enough to stand still and do nothing while letting Mu Jinyu attack her.

Upon seeing Mu Jinyu unleash the Life and Death Twin Dragon Fist, although she didn't think the punch would harm her, she still took out her life-bound magic treasure, a Heart Protecting Mirror.

The brilliant divine light enveloped her entire body, shielding her from harm.

With this, if Mu Jinyu couldn't even shake her, then his earlier claims would be moot, and he'd have to pay a massive amount of academic credits to compensate Dongyue Mansion for the loss of the combat puppet!

"Boom!!"

However, just as Chi Yanyu finished her preparations, Mu Jinyu's dragon charged forward, smashing into the radiant Heart Protecting Mirror in front of her.

"Crack..."

The mirror's divine light shattered under the dragon's assault, with fine cracks appearing on the mirror's surface.

It looked devastating!

"Pfft!!"

And then, unable to endure the backlash from her damaged life-bound magic treasure, Chi Yanyu spat out a mouthful of blood!

"Clang!!"

At this moment, the dragon seemed to possess a spiritual wisdom of its own, fiercely sweeping its tail to send the Heart Protecting Mirror flying away from Chi Yanyu!

Then with a "boom," it crashed directly into Chi Yanyu.

"Bang!!"

Chi Yanyu was knocked away on the spot!

Even the institute head's attire she wore was shredded in many places, exposing large areas of pale skin.

"Huh?!"

Wang Yeqing, seeing this, was momentarily stunned.

Unexpectedly, even someone like Chi Yanyu, an institute head, was knocked away with a single move by Mu Jinyu, sustaining significant injuries!

It was simply unbelievable.

Especially since Chi Yanyu wasn't doing nothing—she defended herself with a Creation Divine Weapon, yet Mu Jinyu's strike still left cracks on it, causing her to suffer a backlash!

With this perspective, was it possible that Mu Jinyu's punch truly possessed the power of the Creation Realm?

Wang Yeqing felt it was amazingly hard to believe.

But after a brief moment of bewilderment, he quickly responded, waving his hand to release a white ribbon that wrapped around Chi Yanyu, transforming into clothing, covering up the previously exposed view caused by her torn attire!

"Mm-hmm!!"

Though Wang Yeqing managed to save Chi Yanyu in time, she was still gravely injured, continuing to vomit large amounts of blood before rolling her eyes and passing out!

Seeing this, Wang Yeqing felt a sense of helplessness, but he promptly took out healing pills and had her consume them to facilitate her recovery.

Mu Jinyu, observing Chi Yanyu's sorry condition, was also somewhat surprised.

He hadn't expected Chi Yanyu would be so vulnerable.

Initially, he had even prepared for the scenario where the punch wouldn't be enough against Chi Yanyu, and if she started to retaliate, he'd use the Riot-Quelling Sword to show her a thing or two about prowess and brutality.

Yet, another single punch had rendered Chi Yanyu half-dead, just like the way he recently blew up that combat puppet.

Mu Jinyu wondered if, without the Heart Protecting Mirror, Chi Yanyu would have died instantly.

He felt this was quite a likely possibility!

At this moment, Mu Jinyu remembered the Blood-colored Dragon-slaying Sword he recently used.

Back then, its power, due to his purer bloodline concentration, far exceeded that of the White Dragon Sword Dragon Slash!

Could this be why the originally strong Life and Death Twin Dragon Fist had now surpassed everyone's expectations?

"You little rascal, you really are... sigh..."

Just as Mu Jinyu was musing over his power, Wang Yeqing, having stabilized Chi Yanyu's condition, stood beside Mu Jinyu with a sigh of helplessness.

He genuinely didn't know what to say to Mu Jinyu.

He had just blown up a combat puppet.

And now he nearly rendered an institute head half-dead!

How truly invincible.

Seeing Wang Yeqing approach, Mu Jinyu snapped back to reality, quickly asking, "Lord of the Wang Residence, you saw it too, right? I didn't do it on purpose. I don't even know why I've become this strong, but honestly, I didn't intend to destroy the combat puppet, so can the academy not make me pay academic credits?"

Hearing Mu Jinyu's words, Wang Yeqing was at a loss for words.

Goodness gracious!

You just dealt Chi Yanyu such a blow, yet you didn't even mention her?

You're solely concerned about whether you'll need to compensate for the combat puppet's loss.

Seemingly, in your eyes, that combat puppet is far more valuable than Chi Yanyu?

Chapter 1892: The Mansion Master as Sparring Partner? No Compensation If You Can Prove Yourself!

"Whether or not compensation is needed isn't my call either; I have to discuss it with the Mansion Master."

Wang Yeqing said to Mu Jinyu, his face a bit dark.

After speaking, he had someone take Face of Jade away for treatment first.

As for himself, he went to find Mansion Master Wei Qiankun to ask what should be done about this.

After Wang Yeqing left.

The Institute Heads who had been making snide Yin and Yang remarks at Mu Jinyu just now all gave him a strange look, didn't dare say anything more, and hurriedly left with Face of Jade.

Face of Jade counted as the strongest among their little group, yet even she couldn't block a single punch from Mu Jinyu.

If they still dared to keep sniping at him, they really wouldn't have a shred of confidence to back it up.

"Phew..."

Seeing everyone had left, Mu Jinyu let out a light breath, his expression still feeling very helpless.

He'd clearly already fought a full bout with Face of Jade, and in the end it was still uncertain whether he had to compensate.

How was he supposed to feel at ease like that?

"Ai, forget it, whatever. If I have to pay, I don't have any credits anyway, I'll just owe it first."

Mu Jinyu thought for a moment and simply decided not to worry about it.

After all, he didn't have that many credits to pay back with.

Thinking this way, Mu Jinyu started to feel more justified. He looked at the mentor whose expression was a bit odd and asked, "Mentor, is there an even more advanced level combat training room here, like with battle puppets at the Creation Realm level?"

He didn't know why, but he was now able to easily deal with cultivators at the Peak of the Life and Death Realm.

But whatever. Since handling Peak Life and Death Realm was no longer hard for him, if he wanted to try using the Riot-Quelling Sword to execute moves like Sword Dragon Slash, then clearly the Advanced Combat Training Room was no longer sturdy enough to withstand his abuse; he could only see if he could find battle puppets at the Creation Realm level.

"No. Battle puppets at the Life and Death Realm level are already the top-grade ones."

The mentor looked at Mu Jinyu speechlessly in the end and shook his head.

It wasn't that he was afraid Creation Realm battle puppets would also be wrecked and scrapped by Mu Jinyu and that he'd have to shoulder responsibility; it was that they really didn't have puppets of that level here at all.

"None? Then forget it..."

Hearing this, Mu Jinyu let out a light sigh, very depressed.

Ever since purifying his bloodline, he'd wanted to know exactly how much his true combat strength had increased. First he'd gone to Cave Heaven Eleven and destroyed half of someone's bamboo forest, and had no choice but to come here to the combat training rooms to test his strength.

The result? The final outcome seemed to be the same: the battle puppet exploded, and Face of Jade, this Institute Head at the Peak of the Life and Death Realm, ended up heavily injured and face-down as well.

And he still hadn't figured out what level his true combat strength had actually reached.

How could he not feel depressed?

So he'd basically just come here to waste time!

"Sigh..."

Mu Jinyu let out a long sigh, said goodbye to the mentor, and was about to head back to Cave Heaven Eleven first.

"Whoosh!"

Just then.

The void gave a slight tremor.

After that, two figures appeared in this combat training room that now had no battle puppets.

The newcomers were precisely Wang Yeqing and Wei Qiankun.

Wei Qiankun arrived, looked at Mu Jinyu with a trace of surprise in his eyes, and asked softly, "Kid, I heard you blew up the battle puppet? And even beat Institute Head Chi Yanyu into serious injury?"

"Uh, hehe... something like that..."

Seeing the Mansion Master personally arrive and then hearing him recite his own glorious battle results, Mu Jinyu scratched his head somewhat guiltily, speaking a bit embarrassed.

"Not bad!"

Wei Qiankun nodded lightly and said, "I heard you've been worried you'd have to compensate if you broke the battle puppet?"

"Yeah..." When Mu Jinyu heard this, his Spirit immediately lifted. He hurriedly asked, "Do I have to compensate? I don't have many credits right now, I probably can't afford it..."

Wei Qiankun didn't answer that question, and instead asked, "When I was coming over just now, I think I heard you asking if there were Creation Realm battle puppets here?"

"Yeah..." Mu Jinyu nodded and replied, "Because those Life and Death Realm battle puppets and people, it seems... it seems they can't really test out my combat strength, so I wanted to see if there were Creation Realm battle puppets to try against!"

Wei Qiankun chuckled lightly and said, "Then I'll be your sparring partner."

"Huh?!"

Hearing Wei Qiankun's words, Mu Jinyu couldn't help but freeze, staring at him in astonishment, so shocked he couldn't even speak.

He had never thought of having Wei Qiankun be his sparring partner.

Not only did that sound terrifying, it also made him afraid to agree.

Wasn't this Wei Qiankun planning to seize the chance to give him a brutal beating?

Mu Jinyu didn't understand what Wei Qiankun meant. After coming back to his senses, his gaze drifted uncertainly as he looked at him.

Wei Qiankun said with a grin, "Relax, I won't use my peak combat strength to spar with you. Didn't you say you needed someone at the Creation Realm level to test your hand? I'll only fight you with Early Creation Realm level strength. How about it?"

"I..." Listening to him, Mu Jinyu was actually a bit tempted, but still felt it was very weird, and so he hesitated, wanting to say something.

Wei Qiankun laughed and said, "Aren't you worried about the compensation problem? If I spar with you and you can fight me to a standstill, or even if you're at a disadvantage but don't lose too miserably, then I won't hold you accountable for destroying an academy battle puppet!"

"We'll count it as you really did destroy it unintentionally!"

"But if you can't do it, then forget it—you'll have to compensate for the loss!"

Hearing this, Mu Jinyu opened his mouth, wanting to say something.

But Wei Qiankun directly cut him off, still smiling as he said, "Don't say you don't have credits or whatever. I know you spent 100,000 credits to buy that Riot-Quelling Sword!"

"If you don't have credits, then use that Holy Weapon to pay off the debt!"

"I don't mind letting it go back to the Treasure Pavilion to eat dust again!"

Wei Qiankun said indifferently.

"Alright..."

Hearing the slightly threatening tone of the Mansion Master, Mu Jinyu had no choice but to agree.

"Good, then let's head out."

Seeing Mu Jinyu agree, Wei Qiankun suddenly waved his sleeve, and space trembled slightly.

After that, the mentor and Wang Yeqing saw the figures of Mu Jinyu and Wei Qiankun directly vanish from the combat training room, nowhere to be seen.

Clearly, Wei Qiankun had taken Mu Jinyu somewhere else to spar as his training partner, but didn't want others to see it, so he directly took Mu Jinyu away.

Wang Yeqing shook his head slightly. Although he was also quite curious about their upcoming battle,

since Wei Qiankun clearly didn't plan on letting any third party know about it, he wouldn't insist on chasing after them to watch.

"Let's go. Clean up the puppet remnants on the ground. They can still be melted down and reforged."

As he prepared to leave, Wang Yeqing glanced at the Combat Puppet Remnants on the floor and then reminded the mentor before abruptly departing.

The mentor had no choice, gave a bitter smile, and waved a hand to gather up the Combat Puppet Remnants on the ground.

Then he shut down this Advanced Combat Training Room, left this Advanced Combat area, and returned to the outer hall to sit again.

Chapter 1893: Even Wei Qiankun Can't Withstand It! Breaking the Shackles! The Power of the Chrono Light Realm!

"Buzz!!"

Once the sensation of void shifting faded, Mu Jinyu.

Found himself and Wei Qiankun in a silent land of nothingness.

He didn't know where this place was.

Still unsure if it was within that secret realm of Dongyue Mansion.

"Come on, now that there are no outsiders, we can begin!"

Wei Qiankun stood with his hands behind his back, maintaining a certain distance from Mu Jinyu, and spoke mildly.

"You strike first, and I'll see how it goes."

Wei Qiankun added another sentence.

With that, he began to suppress his own cultivation.

Instantly, Mu Jinyu felt his aura shift from powerful to weak.

Quickly transitioning from an unreachable peak to a level that made Mu Jinyu uncomfortable but bearable.

He suppressed his cultivation from the Chrono Light Realm to the Creation Realm.

Most likely around the Early Stage of the Creation Realm.

"Alright!!"

Seeing this, Mu Jinyu's apprehension about Wei Qiankun began to fade, and a fierce fighting spirit gradually welled up in his eyes.

From the previous bamboo forest, combat puppet, to Chi Yanyu, none could give him the exhilarating thrill, or gauge his actual combat strength.

Now with Wei Qiankun personally as his sparring partner.

This was a great opponent, and Mu Jinyu didn't have to worry about injuring him seriously.

He could definitely fight to his heart's content.

At the same time, gauge his combat strength!

"Hah!!"

Mu Jinyu did not employ any other techniques, still using the Life and Death Twin Dragon Fist that had previously defeated combat puppets and Chi Yanyu.

With a thunderous "boom," the dragon roar was powerful and resonant, echoing throughout, assaulting Wei Qiankun.

Wei Qiankun, having seen Mu Jinyu's Life and Death Twin Dragon Fist before, naturally understood its terror.

Yet at this moment, seeing Mu Jinyu execute the Life and Death Twin Dragon Fist, he couldn't help but show a gleam in his eyes, tinged with admiration.

"Boom!!"

Then, Wei Qiankun slightly raised his fist.

Seeing runes interweave and flicker on his fist seal, quickly forming into a Bagua Qiankun Seal, fiercely striking towards the majestic divine dragon!

The clash of the fist seal and the dragon head produced an overwhelmingly intense booming sound, with terrifying qi waves instantly spreading millions of miles away.

Were it not for the unique nature of their location, a silent land of nothingness, the mountains and rivers for miles around would have crumbled at this moment!

"Good!!"

Finally, the animated divine dragon gradually dissipated.

Transformed into mottled light and shadow, disappearing.

And Wei Qiankun's body swayed slightly before involuntarily stepping back a few steps.

Seeing this, Mu Jinyu was very delighted.

Currently, only Wei Qiankun could receive this strike unharmed!

Moreover, Wei Qiankun seemed to be struggling, his body swaying slightly, stepping back a few steps.

Of course, Mu Jinyu understood that if Wei Qiankun hadn't suppressed his own power, such a precarious situation wouldn't have occurred.

But this also proved that his Life and Death Twin Dragon Fist could indeed blast those at the peak of the Life and Death Realm!

Even cultivators at the Early Stage of the Creation Realm would struggle to withstand it!

"Again!!!"

Mu Jinyu said joyfully, flipping his hand to reveal the Riot-Quelling Sword!

Among the various techniques and divine skills he currently used, without weapons or magic treasures, the Life and Death Twin Dragon Fist was the strongest.

If using magic treasures, excluding the Earth Emperor's Tome, a Human Ancestral Weapon, it would be the Life and Death Reincarnation Diagram executed with the Corpse-Wrapping Cloth as the basis.

Next would be the Sword Dragon Slash executed with the Riot-Quelling Sword!

But since it's a spar, Mu Jinyu naturally wouldn't use the Life and Death Reincarnation Diagram right away.

He would certainly start with something slightly weaker!

"Clang!!!"

"Roar!!!"

Mu Jinyu gripped the Riot-Quelling Sword and directly executed the Blood-colored Dragon-slaying Sword.

Instantly, a terrifying blood dragon, even more fearsome than the divine dragon manifested by the prior Life and Death Twin Dragon Fist, surged towards Wei Qiankun with overwhelming momentum!

In the practical training room, Mu Jinyu had tested the Blood-colored Dragon-slaying Sword executed with ordinary divine weapons, which was already approaching the power of the White Bone Sword Dragon Slash.

Now, having changed to the Sacred Quietus Blade.

The power of the Blood-colored Dragon-slaying Sword at once far surpassed the regular Sword Dragon Slash he was accustomed to.

And even surpassed the level of the Life and Death Twin Dragon Fist.

Reaching an even more terrifying degree!

"Boom boom boom!!!"

The Blood-colored Dragon-slaying Sword rushed mightily towards Wei Qiankun.

Giving him the most intense sense of oppression.

"Hah!!!"

At this moment, Wei Qiankun dared not be negligent, his face solemn, then raised both fists, moving like performing Tai Chi Fist, seemingly slow yet quick in drawing Yin-Yang and Qiankun across the void.

Eventually, runes interwove, launching a sudden punch forward!

"Boom!!!"

Instantly, a virtual pattern of the Qiankun Yin Yang Creation Diagram appeared in the void.

Subsequently, the Blood-colored Dragon-slaying Sword roared ferociously, colliding violently with his Qiankun Yin Yang Creation Diagram.

Flash! Qi surged, heaven and earth shook!

As if the universe was opening, like the world's demise.

The Qiankun Yin Yang Creation Diagram shattered with a bang, broke into brilliant light, and vanished.

Wei Qiankun seemed to suffer backlash too, a wisp of bright red blood seeping from the corner of his mouth.

Then, seeing the blood dragon, having breached the Qiankun Yin Yang Creation Diagram, still retaining its force, mightily charging towards his body.

Wei Qiankun sighed softly, breaking open the shackles suppressing his power, restoring it to the peak state!

"Boom!!"

Afterward, without any apparent action, the fiercely charging Blood-colored Dragon-slaying Sword just disintegrated and collapsed.

Twisting and disappearing right before him!

"Hmm?!"

Seeing this scene, Mu Jinyu's pupils slightly contracted, revealing a look of uncertainty and surprise.

Very quickly, he realized.

Wei Qiankun must have used Chrono Light Realm powers.

Involving the Time Law.

Hence the occurrence of such a bizarre state.

Effortlessly disintegrating his Blood-colored Dragon-slaying Sword!

However, although his Blood-colored Dragon-slaying Sword ultimately didn't hit Wei Qiankun, didn't see its actual power, Mu Jinyu was still very exhilarated!

After all, he forced Wei Qiankun to break the shackles on his power, which sufficiently indicated that if Wei Qiankun hadn't done so, he might have been seriously injured.

Even if not seriously injured, likely he would have faced a dire and wretched situation, hence Wei Qiankun had to break his power lock to avoid the disaster!

"Shall we go again?"

Mu Jinyu's expression was excited, considering whether to use the Corpse-Wrapping Cloth and activate the Life and Death Reincarnation Diagram.

To see if he could defeat Wei Qiankun.

"Boom!!"

However, just as Mu Jinyu considered using the Corpse-Wrapping Cloth, he felt the surrounding flow of time seemed to slow down.

Subsequently, Wei Qiankun suddenly appeared in front of him.

Raising a hand to gently tap his chest.

"Poo!!"

Mu Jinyu couldn't react at all, taking a palm strike from Wei Qiankun, and then spitting out a mouthful of blood.

Aghast, he was.

So this is the power of a Chrono Light Realm expert?!

Too terrifying, they can manipulate the flow of time between two entities; ordinary people facing them truly have no means of countering, only left to be slaughtered!

Chapter 1894: The Wooden Dummy That Doesn't Strike Back! Time to Learn More Divine Skills!

"Buzz!!"

Just when Mu Jinyu felt himself in a dislocated time-space.

He heard a buzzing in his mind, then Wei Qiankun's voice, "Alright, let's stop here. Your combat power has indeed reached the level close to the Creation Realm!"

Upon hearing Wei Qiankun, Mu Jinyu realized that the flow of time between them had become synchronized again.

"Mansion Master, you're so strong..."

Mu Jinyu put away the Riot-Quelling Sword and didn't consider bringing out the Corpse-Wrapping Cloth to display the Life and Death Reincarnation Diagram. He spoke admiringly.

Compared to before, Wei Qiankun's face was slightly pale. He waved his hand towards Mu Jinyu, shaking his head, "This is nothing at all. If it weren't for breaking the restrictions to restore my original cultivation, I would have been utterly defeated by you!"

After saying this, he couldn't help but praise, "Your strength is truly remarkable. Just reaching the Fifth Layer of the Void Breaking Realm, yet you can already crush those at the Life and Death Realm. That blade just now could even oppress cultivators at the Early Creation Realm, making it difficult for them to bear. I really look forward to seeing you go further in the future!"

"Well, I don't know why it's like this either..."

Mu Jinyu said a bit embarrassedly.

Originally, the power of the Life and Death Twin Dragon Fist was much stronger than the Blood-colored Dragon-slaying Sword.

But just now, with the Riot-Quelling Sword's enhancement, he also noticed that the power of the Blood-colored Dragon-slaying Sword had already surpassed the Life and Death Twin Dragon Fist.

And not just slightly stronger, but much, much stronger!

Therefore, he originally calculated that the Mansion Master suppressing his cultivation to the Early Creation Realm should have been enough for him to practice techniques freely.

Unexpectedly, only two moves in, and Wei Qiankun couldn't continue.

Thinking this, Mu Jinyu felt a bit reluctant, so he spoke, "Mansion Master, how about... you spar with me using your Chrono Light Realm cultivation? I still have a few moves that I haven't tested yet..."

By the end, his tone turned somewhat embarrassed.

After all, Wei Qiankun was the Mansion Master of Dongyue Mansion, busy with numerous affairs, and he was asking him to be his sparring partner, letting him hit without retaliation—it was quite a demanding request.

He didn't know whether Wei Qiankun would agree to his unreasonable request.

Hearing Mu Jinyu's words, Wei Qiankun, who was about to leave, pondered for a moment, then nodded, "Alright, but do it quickly!"

"Huh?"

Mu Jinyu was astonished as he looked at Wei Qiankun.

He hadn't expected him to agree.

He then looked full of joy, nodding repeatedly, "Okay, okay, Mansion Master, please wait a moment!"

Saying so, Mu Jinyu distanced himself from Wei Qiankun, preparing to use the Riot-Quelling Sword to display the White Bone Sword Dragon Slash to see how much power he could enhance.

He had an answer in his mind; it probably wouldn't surpass the Blood-colored Dragon-slaying Sword but would certainly be much stronger than the White Bone Sword Dragon Slash he had performed using an ordinary Divine Weapon.

Wei Qiankun looked at Mu Jinyu's excited and enthusiastic expression, feeling amused, and shook his head secretly.

After all, Mu Jinyu was now the first student of Dongyue Mansion as long as his requests weren't unreasonable, he had no issue sparring with him when free.

Just like Lu Kaige and Ning Ruofan, most people didn't know that they had sparred with him a few times in secret.

Currently, Mu Jinyu's sparring was also in a special environment where no one could witness their fight.

So what reason did he have to directly refuse Mu Jinyu?

"Hah!"

"Boom!!"

At this moment, Mu Jinyu executed the White Bone Sword Dragon Slash, striking towards Wei Qiankun.

Seeing this, Wei Qiankun didn't suppress his cultivation but raised his hand to condense the Qiankun Creation Chart to receive Mu Jinyu's move.

Analyzing finally, "This move, ordinary late-stage Life and Death Realm cultivators can't withstand it. It's slightly inferior to your punch..."

"Hmm." Mu Jinyu lightly nodded, having already estimated this.

Then, Mu Jinyu continued to practice techniques with Wei Qiankun.

He took out the Corpse-Wrapping Cloth, executing the Life and Death Reincarnation Diagram.

The Life and Death Reincarnation Diagram conjured by the Corpse-Wrapping Cloth wasn't just for receiving others' moves, then counterattacking back aggressively!

It's directly a massive killing move!

"Boom!!"

The Corpse-Wrapping Cloth directly collided with Wei Qiankun.

The void trembled and collapsed, extremely intense!

"This move, it's hard for even mid-stage Creation Realm cultivators to withstand!"

Wei Qiankun praised, "And if it can receive an opponent's killing move and counterattack, it could even unleash the might of the late-stage Creation Realm!"

"No wonder Lu Kaige lost so disastrously against you; you truly are extraordinary!"

"Thank you, Mansion Master..."

Mu Jinyu smiled and thanked the Mansion Master.

Thanking him for being his sparring partner, he finally understood the power limits of his divine skills.

"Alright, do you have any other moves?" Wei Qiankun inquired.

"No more..." Mu Jinyu replied, a bit embarrassed, with a soft laugh.

His repertoire of techniques and divine skills was indeed somewhat lacking compared to others.

The Firewood Chopping Saber Technique he often used before was no longer needed.

Currently, he could still use the two Sword Dragon Slashes, the Life and Death Twin Dragon Fist, and the Life and Death Reincarnation Diagram.

The two Sword Dragon Slashes were almost unable to keep up with him before, but after his bloodline purified, the Blood-colored Dragon-slaying Sword became stronger than the Life and Death Twin Dragon Fist again.

Therefore, these were the only three moves he could use.

Wei Qiankun was slightly surprised by Mu Jinyu's words.

Then he recalled Mu Jinyu's challenges against the top three senior students not long ago.

It seemed that he indeed only repeatedly used those few moves.

Thinking about it, Wei Qiankun advised, "Just these few moves? A bit too few. You might want to visit the Scripture Pavilion when you're free..."

"Okay, I got it." Mu Jinyu nodded.

Actually, even without Wei Qiankun's suggestion, he had considered visiting the Scripture Pavilion.

Although the Scripture Pavilion of Dongyue Mansion mostly contained cultivation methods and divine skill manuals about foreign races.

But these could also be observed for inspiration.

Moreover, the Human Race section had many cultivation manuals.

The most important thing was, the elder Ji Wudao, who followed the Humanity Path Cultivation Path, was also there.

Perhaps he could learn some divine Humanity Path powers from him?

"Alright, let's leave for now."

Wei Qiankun said softly, with a gentle wave of his hand.

Mu Jinyu immediately felt the surrounding void twist.

When his vision cleared, he was already back at the combat training room's entrance.

"Eh, how did I end up back here?"

Mu Jinyu was surprised, muttering to himself, finding himself there again.

He originally thought, after exiting the land of emptiness and nothingness, Wei Qiankun would directly send him to the Scripture Pavilion's entrance.

Little did he know, Wei Qiankun sent him back to the starting point again.

And Wei Qiankun himself was nowhere to be seen, who knows where he went.

Thinking about it, Mu Jinyu roughly guessed a reason.

Perhaps, the previous land of emptiness and nothingness was a spatial domain directly condensed by Wei Qiankun?

Chapter 1895 1895: Encountering Ji Wudao Again! Find a Way to Drain Him Empty!

"By the way..."

After returning here, Mu Jinyu thought of that problem again.

He had destroyed that combat puppet; should he compensate for it?

Earlier, when he was fighting with Wei Qiankun, Wei Qiankun had said that if he could prove his strength far exceeded expectations, he wouldn't have to compensate.

But even after their battle ended, Wei Qiankun never gave him an answer to this question.

Does he have to compensate or not?

"Forget it, maybe I don't have to..."

Mu Jinyu thought with a headache, and since he had proven himself to Wei Qiankun, if someone still came asking for compensation, he would just go find Wei Qiankun.

He shook his head slightly, stopped dwelling on the issue, and turned around to quickly leave the training room.

"Oh, you're back again..."

When Mu Jinyu reached the hall of the Cultivation Area, the mentor saw him come out, looked at him with surprise, made a comment, and said nothing more.

Mu Jinyu nodded to him and quickly left the area.

"Phew..."

After exiting the cultivation hall, Mu Jinyu took a long breath.

Thinking to himself, without a complete guarantee from Wei Qiankun, he always felt somewhat embarrassed and guilty when facing this mentor.

Walking out of the Cultivation Room area, Mu Jinyu regained his confidence, held his head high, and walked with a spring in his step.

Soon, after winding around, he arrived at the entrance of the Scripture Pavilion.

Then he stepped inside.

Because he wanted to look at more Secret Manuals and gain some insights.

After entering the Scripture Pavilion, Mu Jinyu did not head straight to the Human Race section but casually picked up a jade slip from beside a bookshelf and observed it with his brow against it.

While watching, he glanced at the label hanging on the shelf.

"Feathered Transformation Clan!"

This clan seemed to be ranked in the top one to two hundred or so among species.

Quite reputable.

Thinking this way, Mu Jinyu's Divine Sense immersed into the jade slip.

"Screech!!"

As his Divine Sense entered the jade slip, he immediately heard a sharp, earsplitting scream that seemed to pierce through the clouds.

Then he saw on the azure sky, a strange person with a human body and a bird's head, with six wings on their back, performing techniques!

"Whiz whiz!!"

In an instant, this member of the Feathered Transformation Clan vigorously flapped the wings on his back, and at once feathers of various colors fell off, accompanied by dazzling divine light, shooting forward like arrows!

"Boom!!"

In front was a giant bearing a mountain on his back and holding a pagoda in his hand. Facing the attack of the Feathered Transformation Clan member, he suddenly lifted his body, raising the mountain, which collided with the raining feathers.

Amid a fierce roar, the mountain was finally crushed to powder.

And the giant was shredded by the transformed whirlwind of feathers...

"Splash!"

After watching this scene, Mu Jinyu's Divine Sense automatically withdrew from the jade slip.

Because the previous scene he watched only showed the power and form of this Divine Skill. To learn the teaching methods and core techniques, he would have to spend academic credits to view them.

However, that was necessary for Beginner Students and even Intermediate Students.

After Mu Jinyu became a Senior Student, the Cultivation Technique Manuals in the Scripture Pavilion could essentially be viewed freely.

Except for a very few particularly special or dangerous Secret Manuals, which required confirmation from the Mansion Master before viewing.

For the most part, he could view them at will.

However, after watching the scene of this Divine Skill, Mu Jinyu lost interest.

He didn't possess the Exotic Blood of the Feathered Transformation Clan, so he could only gain some insight from the technique.

But he had no feathers, so how could he gain insight?

Thus, Mu Jinyu stopped randomly browsing the jade slips of Secret Manuals.

After all, many Divine Skills of the Foreign Races were indeed hard to draw parallels from.

He focused on viewing the Divine Skills of human-like Foreign Races.

Like the War Clan, Fighting Spirit Tribe, and other species!

After watching for a while, Mu Jinyu felt he had gained a lot.

Eventually, he decided to visit the Human Race section again to see some Cultivation Manuals he hadn't viewed before.

Arriving at the Human Race section,

Mu Jinyu picked up a few jade slips, immersed his Divine Sense into them, and began to watch carefully.

Then, he selected a few targets and swiped his Identity Plaque, unlocking the restrictions on the jade slips without paying academic credits, allowing for unrestricted viewing.

He studied all the way until noon.

"What are you doing?"

At this moment, Ji Wudao suddenly appeared, standing beside Mu Jinyu, curiously asking.

Upon seeing the old man appear, Mu Jinyu's expression lit up with excitement. He smiled and said, "I realized that the Divine Skills and techniques I know are too few, so I came here to see if there might be any Secret Manuals suitable for me to learn a few more moves..."

Hearing Mu Jinyu's answer, Ji Wudao furrowed his brows and said, "What's so good about these Secret Manuals? Divine Skills and Techniques should focus on quality, not quantity. Moreover, they are created by predecessors and most suited to their Divine Skills, which may not necessarily suit us. There's no need to learn them directly! Just observing is enough..."

As he spoke, he looked at Mu Jinyu, earnestly advising, "Aren't the few self-created moves you have quite excellent? Their power is sufficient, and others can't learn them. Why bother learning these useless Divine Skills?"

Listening to Ji Wudao's advice, Mu Jinyu deeply agreed, as it indeed seemed to be the case.

However...

Mu Jinyu slightly shook his head and said, "Some of the few Divine Skills I've created are indeed not bad and can be improved continuously, but in the end, the number is still too few, only two or three!"

"Initially, I thought it was enough, but not long ago, when I challenged the top three Senior Students, I found myself unable to deal with them using several of my Divine Skills. Fortunately, I suddenly conceived a Divine Skill during the battle, which I then created to barely defeat the first one..."

"But I don't think I can always rely on such good luck in the future; I should be better prepared before battles. So I came to see if there's anything suitable, even if not directly useful for Cultivation, it might inspire me to create a new Divine Skill..."

Saying this, Mu Jinyu slightly shook his head, regretfully saying, "But there isn't. I've been here half the day, seeing many interesting Divine Skills, but none truly suitable for me..."

After listening to Mu Jinyu, Ji Wudao slightly nodded, then furrowed his brows again, giving Mu Jinyu a look full of meaning, saying, "I think you, kid, find these Secret Manuals inadequate and want something good from me, right?"

"Hehe..."

Hearing Ji Wudao's words, Mu Jinyu couldn't help but laugh out loud, then quickly put on a straight face, shaking his head, saying, "No, I didn't mean it that way..."

"I just feel regretful because of my reflections." Mu Jinyu shook his head in denial.

"Never mind, if you feel that these Secret Manuals can't provide you with inspiration to create suitable Divine Skills, then I'll teach you a few of my Divine Skills and techniques, and see if it gives you any insights!"

Chapter 1896 1896: Ji Wudao's Divine Skills! Better to Create My Own!

Ji Wudao still shows great care toward Mu Jinyu.

Although the two are not in a master-disciple relationship.

And their acquaintance is quite brief.

Yet, because Mu Jinyu treads the same Humanity Path Cultivation Path, Ji Wudao feels a good affinity towards him, hoping Mu Jinyu can walk this path more smoothly.

He hopes Mu Jinyu can pave a cultivation path suitable for the Human Race!

Thus, many of the divine skills Ji Wudao had originally not intended to teach others, he now decides to share upon seeing Mu Jinyu's longing.

Next, Ji Wudao raised his hand, placed his forefinger and middle finger on Mu Jinyu's forehead, and said, "Take a good look, I hope it's useful to you..."

Even though Mu Jinyu knew Ji Wudao was about to teach him divine skills, he instinctively wanted to avoid the touch on his forehead.

However, Ji Wudao's movement was swift and precise, landing right on Mu Jinyu's forehead, making any evasion impossible!

This made Mu Jinyu's body instantly tight and stiff, feeling quite uncomfortable.

Clearly, isn't Ji Wudao's cultivation at the Creation Realm?

How does he feel more difficult to deal with compared to Mansion Master Wei Qiankun, whose cultivation is suppressed to the Creation Realm?

No time to think more.

Then, Ji Wudao quickly transmitted several magical techniques he had created.

"Boom!!"

In thunderstorm weather, Ji Wudao stood proudly in the void, holding a Cold Sword, suddenly raising it to the sky.

Then gently strike forward.

In an instant, the world trembled, ten thousand bolts of lightning fiercely fell, drawn by his sword's aura, and violently attacked forward!

It resembled a galaxy falling from the sky!

"Bang!!!"

As Ji Wudao struck forward with his sword, the rushing thunder turned the mountain before him, a thousand meters wide, into dust!

A true mountain-cleaving sword!

Seeing this scene, Mu Jinyu couldn't help but be excited and greatly yearn for it.

Then, Ji Wudao transmitted the insights and realizations he had when he created this sword, sharing them with Mu Jinyu.

Only then did he teach Mu Jinyu the core technique of performing this move.

This made Mu Jinyu feel as if he himself experienced this creation and ultimately established this sword technique.

This was far superior to those secret manuals and jade slips he had viewed in the Scripture Pavilion.

After all, those jade slips only recorded how to cultivate and use.

They did not record the creator's insights during creation.

While Mu Jinyu quietly pondered.

A new image turned in his mind.

Next, was the scene of Ji Wudao proudly standing atop a mountain.

He slowly moved, raising his fist, posing with the open-hand stance.

It subtly resembled the stance of a great roc spreading its wings!

"Boom!!"

Then, his entire body began to emit dim golden light, as if he was cast in gold, very magnificent.

Afterward, Ji Wudao leapt into the air like a roc bird, swung his arms, the void stirring, and punched forward fiercely!

With a thunderous sound, the void directly collapsed under his punch, becoming an area of pitch-black nothingness.

Then, his black hair danced wildly, also beginning to radiate brilliant golden light.

"Swish, swish, swish!!"

Next, Ji Wudao's hair broke off, each strand seeming to contain cosmic truths and universal principles, eighty thousand strands of hair possess endless terrifying power, shooting forward violently!

It was like eighty thousand golden arrows fired simultaneously, with a thunderous sound, piercing through the sky, chaotic void currents continuously spilling in, the world quivering restlessly!

"This move..."

After watching Ji Wudao perform this move, Mu Jinyu felt a familiar sensation stirring in his heart.

Then, he thought of a move he had seen from the Feathered Transformation Clan before, wasn't it quite similar?

Moreover, when Ji Wudao performed this move, his actions and aura were very much like a roc bird, it seems this was a divine skill he comprehended from the Peng Clan within the Demon Race?

As Mu Jinyu was reflecting, Ji Wudao promptly passed on his insights and realizations, along with the performance method of this move, to Mu Jinyu.

After viewing it, Mu Jinyu finally understood why Ji Wudao had created a move similar to the Peng Clan's technique.

It turns out he once harbored potent bloodline from the Divine Race, which resembled a roc bird. This was the innate divine ability that the divine blood he possessed back then endowed.

He had wielded it quite comfortably.

Thus, after severing his Foreign Race bloodline, he continuously pondered on how he could again unleash such a move.

He spent many years before finally creating this divine skill; its power may not compare to the past, but it still held two-thirds of its original might.

It remained quite formidable!

Mu Jinyu, after watching Ji Wudao's journey with this move, felt it did not suit him.

So without much thought, he directly abandoned it.

Because he never possessed this Divine Race blood, nor experienced the innate divine abilities of that Divine Race.

Therefore, even if he learned Ji Wudao's move, its power would far fall short of Ji Wudao's display.

It may even be inferior to his own White Bone Sword Dragon Slash!

Which made it entirely unnecessary to waste time on it.

Subsequently, Ji Wudao taught Mu Jinyu four or five more powerful divine skills.

All of which were applicable by the Human Race, not requiring Foreign Race blood.

They all possessed considerable power!

But the more Mu Jinyu watched, the more awkward he felt.

Because...

They mostly didn't suit him!

Only then did Mu Jinyu realize what Ji Wudao had just conveyed to him, that the divine skills suitable for oneself are the best; there's no need to learn too many, especially those that don't suit oneself.

Mu Jinyu also felt that compared to the divine skills Ji Wudao taught him.

It would be better to delve deeper into the divine skills he already knows, develop them to their higher potential and potency!

"How do you feel?"

Finally, when Mu Jinyu opened his eyes, Ji Wudao asked him with a smile.

"Indeed your divine skills mostly don't suit me, so I think I'll go deeper into my known divine skills. If those aren't enough, I'll look for a way to create my own..."

Mu Jinyu replied to Ji Wudao with a smile.

His tone was much calmer.

"Yes, but you can also look at more; it may offer more references when you create your own divine skills..."

Ji Wudao nodded with a smile.

Then, his figure appeared ethereal, slowly departing from the Human Race area.

Mu Jinyu watched the old man leave, his gaze calm with a hint of gratitude.

Promptly, he no longer viewed those secret manuals and jade slips, turning and exiting the Human Race section.

Then, walking out of the Scripture Pavilion, he headed towards his temporary residence at Dongtian No.11!

He felt today's gain was ample enough, no need to further browse the manuals.

Soon, he was at the entrance of Dongtian No.11.

Because of Mo Yunqiong's arrangements, Mu Jinyu didn't need to disturb him, inviting him to receive himself into the place, he could directly walk through the light curtain and enter the Heaven Cave inside.

Back in the Heaven Cave, Mu Jinyu headed straight to the room with denser spiritual energy in the Bamboo Grove Retreat, entering to reflect silently.

He digested the divine skills and techniques he observed today, lastly, those magical techniques he learned on Earth.

"Hmm? Got it..."

After lengthy contemplation, suddenly a thought struck Mu Jinyu, resulting in his eyes opening with a brilliant gleam!

Chapter 1897 1897: Entering the Inner Scenic Area Again! Bold Guesses About Realms! Picking Up the Intent Domain Once More!

"Back on Earth, the move I used most smoothly and instinctively should be that 'Killing Character Secret Technique.'"

As Mu Jinyu's thoughts turned, he felt endless emotion for those days in the Kunlun Ruins on Earth.

At that time, he had repeatedly used the Killing Character Secret Technique to unleash killing moves, evolving all sorts of Techniques and Divine Skills, such as Sun and Moon Descent, Sun and Moon Fall Together, Rising White Dragon, and so on...

The Divine Skills and Techniques evolved from the Killing Character Secret Technique back then were also incomparably powerful.

He almost didn't need any other Techniques; from a single move he could evolve ten thousand, nothing remained unbroken!

Unfortunately, later on, the Killing Character Secret Technique gradually began to lag behind his Realm.

He also began to get used to fighting with the Dragon Spear forged from a single drop of Silkworm King Essence Blood, and it was still nothing it could not pierce!

After arriving in the Canglan Realm, the Dragon Spear was taken away by Yin Li, he was separated from them, and he could only start arduously cultivating and using other Divine Skills.

Only after he finally mastered the Firewood Chopping Saber Technique did life slowly get easier.

He also gained two kinds of Sword Dragon Slash, the Life and Death Twin Dragon Fist, as well as the Life and Death Reincarnation Diagram...

But all these Divine Skills had limitations; they were never as handy and free as the Killing Character Secret Technique!

At this moment, as Mu Jinyu pondered deeply, he still felt that the Killing Character Secret Technique was better—free enough, and full of endless possibilities!

He ought to dig deeply into this Divine Skill!

"The Killing Character Secret Technique... it really has been a long time since I used this move..."

The sharp light in Mu Jinyu's eyes slowly withdrew. With his eyes lowered, he slowly contemplated how to improve the Killing Character Secret Technique.

Next, he slowly moved his hands, and in the palms of both hands a sun and a moon condensed.

"Boom!!"

In the end, he smashed the sun and moon together, detonating a terrifying burst of power.

But at the instant of eruption, Mu Jinyu cut it off in time, so that the might did not fully explode, and it died in the womb.

"As expected, the power is a bit small!"

Mu Jinyu let out a low sigh.

Back in the Kunlun Ruins, the Killing Character Secret Technique he unleashed was still very strong; among those of the same level, there were hardly any who could withstand it!

But now, his Realm had increased too much, while the Killing Character Secret Technique had not advanced; once it was unleashed, it was easily cut off!

"The Killing Character Secret Technique is a variety of killing moves deduced from an Intent Domain, but at the Realm I'm in now, Intent Domain no longer means much. Can I use the Heaven and Earth Laws to transform the Killing Character Secret Technique?"

Mu Jinyu murmured softly, starting to mull over the possibility of modifying the Killing Character Secret Technique.

If he could, then this Killing Character Secret Technique would absolutely surpass the White Bone Sword Dragon Slash and the Life and Death Twin Dragon Fist; whether it could catch up to that slightly strange Blood-colored Dragon-slaying Sword was uncertain!

"Hah!"

Mu Jinyu's eyes flickered, then he began to forcibly manipulate the Heaven and Earth Laws, attempting to use them to deduce all sorts of killing moves.

"Pff!!"

But he failed, and instead suffered a violent backlash, immediately opening his mouth to spit out a gush of blood.

"No good..."

"Again!"

Mu Jinyu once more began to attempt it.

But in the end, he failed again and again.

In the blink of an eye.

A day had passed.

Mu Jinyu tried using all kinds of Power of Laws to deduce an entirely new Killing Character Secret Technique, but he failed every time.

This left him feeling very dejected.

Could it be that his idea was simply impossible?

Was this nothing but wild fancy?

"No!"

"It definitely can be done!"

Mu Jinyu's eyes turned resolute, and he said softly, "The reason I keep failing is that I chose the Humanity Path Cultivation Path and did not continue along the old road. I cannot achieve Unity of

Heaven and Man; I have to forcefully manipulate the Heaven and Earth Laws. In that case, how can I smoothly and freely deduce all kinds of killing moves?!"

"So, what I should do—is it to dig deeper into the potential of Intent Domain? Or to find some other way to enhance the Killing Character Secret Technique?"

Mu Jinyu's eyes flickered uncertainly as he pondered how to create a Killing Character Secret Technique most suited to him.

"Intent Domain..."

He whispered the words, and his gaze suddenly turned icy cold and indifferent, carrying a silent dominance.

Above and below heaven, Only Me is supreme!

This was precisely the My Way State of Mind he had once cultivated.

However, after he stepped into the Unity Realm Stage and came into contact with the Heaven and Earth Laws, he had basically ignored this Intent Domain.

The power of the Heaven and Earth Laws was far stronger than a mere Intent Domain.

This was also common consensus.

From moves originally infused with Intent Domain, once one stepped into the Unity Realm Stage and could infuse Heaven and Earth Laws, one would basically choose to disregard Intent Domain.

Thus one's moves and Divine Skills were all based primarily on the Power of Laws!

"Intent Domain, Intent Domain..."

"This Intent Domain power that has always been neglected by people—is it really inferior to the power of Laws?"

"The Heaven and Earth Laws are ultimately external. Even with Unity of Heaven and Man, you're only borrowing the power of Laws. But Intent Domain is something you yourself comprehend..."

Mu Jinyu muttered under his breath, his gaze growing more and more confident.

"Rumble!!"

And at that very moment.

He suddenly stepped once more into that empty, tranquil, and void-like Inner Scenic Area.

Mu Jinyu had once entered the Inner Scenic Area before; by relying on the difference in time flow within, he had spent dozens of years cultivating the Marrow Nourishment Chapter, and in the end pushed his cultivation from the Fourth Layer of the Void Breaking Realm to the Fifth Layer of the Void Breaking Realm!

After that, he tried in countless ways to step into the Inner Scenic Area again, but could not.

He also knew this Inner Scenic Area was not easy to enter, so he no longer forced it, letting it happen as fate willed.

He hadn't expected that while he was pondering the Killing Character Secret Technique today, his insights would actually lead him to successfully step into this Domain again!

Having arrived in this Inner Scenic Area, Mu Jinyu looked around at the desolate, ruined surroundings, and his consciousness became very clear and calm.

He suddenly thought that Intent Domain might not be simple, and might not necessarily be inferior to the Heaven and Earth Laws, for it was the fundamental source of strength for humans after they first come into contact with cultivation.

And after the Divinity Transformation Realm, the Fanxu Realm—the Domain that should be contacted then—might also not be that Domain based primarily on Elemental Qi.

But precisely this Inner Scenic Area?

This Inner Scenic Area might be the Domain that the Fanxu Realm is supposed to set foot in?

At this thought, Mu Jinyu couldn't help being startled by his own speculation.

If cultivation was supposed to proceed in this way...

Then had his previous cultivation actually been on the wrong path all along?

Or rather, although his cultivation now appeared to have reached the Void Breaking Realm...

In truth, had he always remained within the Divinity Transformation Realm?

Never having truly come into contact with the Fanxu Realm?

Everyone was the same, not truly knowing the precise division and differences between Realms.

They had simply taken many Minor Realm distinctions within the Divinity Transformation Realm and forcibly labeled them as other Realms, stuffing them into the Fanxu Realm and the Unity Realm Stage?

As Mu Jinyu made all sorts of conjectures, he began to realize that this possibility was very high.

Then, might the so-called Merging Paths not be merging with heaven and earth, stepping into a state of Unity of Heaven and Man...

But instead merging oneself with this Inner Scenic Area.

Once you grasp the different time flow within this Inner Scenic Area, you equivalently master the Time Law.

And this was mistaken by cultivators in the Canglan Realm as the Chrono Light Realm?

So, could it be that the so-called Void Breaking Realm, Life and Death Realm, Creation Realm, and Chrono Light Realm were originally nothing more than Minor Realm branches within these four fundamental Realms?

Mu Jinyu speculated.

After quite some time, Mu Jinyu came back to his senses.

He shook his head and stopped thinking further.

"Whatever the case, it wasn't easy to enter this Inner Scenic Area again. I'd better not waste time—start cultivating..."

Mu Jinyu calmed himself, stopped letting his thoughts run wild, and began cultivating the Marrow Nourishment Chapter while immersing himself in the My Way State of Mind.

He was going to pick up the cultivation of Intent Domain once more!

Chapter 1898 1898: Void Breaking Realm Sixth Level! Advancement Achieved! The Task Has Been Accepted!

Time passed slowly.

In the blink of an eye, Mu Jinyu had been in the Inner Scenic Area for decades.

Mu Jinyu sat cross-legged in the Land of Nothingness, his eyes bright and spirited, exuding an unspeakable air of confidence.

At this moment, his cultivation had successfully advanced to the Sixth Layer of the Void Breaking Realm.

"Boom!!"

As Mu Jinyu's cultivation successfully advanced to the Sixth Layer of the Void Breaking Realm, he stood up and stopped practicing the "Marrow Nourishment Chapter," instead taking a stance and beginning to slowly deduce the "Killing Character Secret Technique"!

"Boom!"

His fists glowed brilliantly, as if holding two suns and moons, and then struck together, unleashing extraordinary divine power!

Failed!

This strike of slaughter still did not exhibit power beyond that of a Void Breaking Realm cultivator.

But Mu Jinyu was not disheartened. He remained calm, confident, and continued to deduce it repeatedly.

"Boom!!!"

Finally, when Mu Jinyu performed the three hundred and sixty-seventh deducing attack of the Killing Character Secret Technique, he suddenly stirred the surrounding Heaven and Earth Laws, delivering a punch that caused the silent and still Inner Scenic Area to oscillate.

It was like a tsunami surging in waves!

Succeeded!

The power of this punch was not inferior to the White Bone Sword Dragon Slash!

"Hah!!"

Although Mu Jinyu was in a very peculiar state, infinitely calm and clear-minded, at this moment he couldn't help but feel extremely excited and joyful.

Though this emotion lasted only a moment, disappearing in an instant.

Mu Jinyu calmed himself, once again returning to a state of neither sadness nor joy, and continued to practice.

He was a bit worried that the punch just now was a fluke.

So he had to seize the good state he was in, grasp that inspiration, and thoroughly master the advanced version of the Killing Character Secret Technique!

"Boom!!"

Three punches were thrown consecutively, accompanied by a fierce booming sound, instantly shattering the entire Inner Scenic Area!

"Buzz!!"

Mu Jinyu abruptly opened his eyes, looking bright yet somewhat confused, feeling a buzzing in his mind.

"Damn, I was careless..."

Mu Jinyu shook his head slightly to clear his mind and couldn't help but curse.

Originally, according to his calculations, he should have been able to stay in the Inner Scenic Area for a few more years.

Though it was impossible for him to directly advance from the Sixth Layer to the Seventh Layer of the Void Breaking Realm.

Still, staying there for a few more years would have been good.

However, he deduced the Killing Character Secret Technique a few hundred times and ended up breaking through the Inner Scenic Area.

This made him feel heartbroken!

After all, entering the Inner Scenic Area was quite challenging.

It was also by a stroke of luck that he got in this time, who knows when he'll be able to enter again?

"Forget it, since I'm already out, there's nothing I can do. At least I brought up the 'Killing Character Secret Technique' again, so my strength has increased!"

Mu Jinyu's eyes were clear, and he quickly dissipated the feelings of frustration and reluctance, speaking to himself calmly.

"I wonder what it would be like now if I were to spar with the Mansion Master?" Mu Jinyu's eyes flickered as he spoke.

However, Wei Qiankun was not so easy to contact.

So Mu Jinyu didn't plan on finding him immediately for a spar.

"Beep Beep!"

At this moment, Mu Jinyu's identity plaque emitted a slight vibration.

Upon seeing this, Mu Jinyu's expression shifted, and he immediately took out his identity plaque.

"The task has been accepted, please head to the Mission Hall to contact the person, and analyze whether the task item is genuine..."

This message showed up on the identity plaque.

Mu Jinyu's mind stirred, realizing that the task he posted in the Mission Hall to find Heavenly Mysterious Ice Spirit Marrow or similar items to enhance bloodline concentration had finally been approved and accepted by someone.

"Great, let's go have a look..."

Mu Jinyu stood up, ready to head over to the Mission Hall to see if the person who accepted the task had the actual item or could only offer clues.

At present, he felt quite compassionately towards Chen Yinlong's situation. If he could help him enhance his bloodline concentration and promote him to an Intermediate Student, it would fulfill Teacher Chen's wishes...

Quickly, Mu Jinyu walked out of Cave Heaven Eleven.

Then he proceeded to the Mission Hall.

Upon reaching the Mission Hall, there were hundreds of people coming and going, some standing and waiting for employers to arrive.

It was difficult to determine who accepted his bounty task at a glance.

However, there was a method to identify them.

Otherwise, how would Mu Jinyu have found himself when he accepted Xuu Changqing's task back then?

"Beep Beep!"

Mu Jinyu held his identity plaque and pressed it lightly.

At this moment, the identity plaque displayed his over three thousand academic credits, along with a flashing question mark.

This question mark indicated that after someone accepted his posted bounty task but hadn't identified their identity, he could gently press it a few times to signal the identity plaque of the person who accepted the task.

This would make it easier for both to identify their respective employer and employee.

As Mu Jinyu pressed the question mark,

he instantly felt a clear perception within the Mission Hall.

The feeling was peculiar; amidst the crowd, everyone else's figure dimmed, leaving one person's figure particularly distinct.

That was a woman in a red dress, her red hair blazing like flames.

However, she had her back to Mu Jinyu, making it difficult to see her features.

Upon sensing Mu Jinyu's press on the identity plaque, the woman in the red dress turned around to look at Mu Jinyu.

It was a rather enchanting face, with full red lips seemingly stained with fresh blood.

Mu Jinyu felt that her aura and charm closely resembled Mei Yinxue.

This stirred a sense of melancholy in him, wondering how Mei Yinxue and the others were doing, and whether her child had been born, and if it was a boy or a girl...

"Are you the employer? The senior who posted the bounty for enhancing bloodline concentration with Heavenly Materials and Earthly Treasures?"

The woman in the red dress walked slowly to Mu Jinyu, frowning slightly as she asked.

She found Mu Jinyu's gaze disconcerting, feeling as though he was looking at her while thinking of someone else.

"Yes, it's me..."

Upon hearing her speak, Mu Jinyu snapped back to reality, smiled a bit apologetically at her, and replied softly.

After finishing, he became thoroughly clear-headed, setting aside irrelevant thoughts, and asked, "Might I ask, do you have the actual item, or just a clue?"

The woman in the red dress replied, "Of course it's just a clue. If I had the actual item, why would I offer it for a mere one thousand credits to you?"

"Not enough, we can negotiate more, can't we..." Mu Jinyu said casually.

Having said that, he asked again, "So, do you mean you have a lead on Heavenly Materials and Earthly Treasures that can enhance bloodline concentration? Are you planning to sell the clue outright, letting me find it myself and earning these credits? Or will you share the clue and we search together, splitting the Heavenly Materials and Earthly Treasures?"

"Of course, we'll share it together. What are you thinking?" The woman in the red dress gave Mu Jinyu a glance and remarked matter-of-factly.

Upon hearing this, Mu Jinyu slightly furrowed his brow.

Although Heavenly Materials and Earthly Treasures that elevate bloodline concentration are quite rare, and even the clues are valuable.

However, if one does not sell the clue outright, but rather shares it, the acquired Heavenly Materials and Earthly Treasures would have to be shared as well.

In that case, the clue certainly wouldn't be worth one thousand credits!

After all, given the woman's behavior, she simply couldn't acquire the Heavenly Materials and Earthly Treasures through her own power!

She still needed to find external help to possibly acquire them.

Doesn't this mean she's saving the cost of finding external help and even earning a thousand credits?

Chapter 1899 1899: Monopolize 80%? No Way! Find Someone Else!

This thought made Mu Jinyu feel uncomfortable.

After all, he was usually the one taking advantage, and rarely did anyone take advantage of him.

However, Mu Jinyu now really wanted to obtain this heavenly material and earthly treasure that could enhance bloodline concentration as soon as possible. After some thought, he decided he could overlook the matter of the one thousand credits.

After all, without the clues provided by the other party, he wouldn't even have the chance to contribute and then obtain even a small portion of the heavenly materials and earthly treasures.

One cannot be too greedy!

Thus, Mu Jinyu relaxed his brows and chose to accept the situation where clues would be shared, and heavenly materials and earthly treasures would be distributed among them.

However, he had one question he needed to clarify before agreeing.

Mu Jinyu looked at the woman in the red dress and softly asked, "Sharing the clues is fine, but how will the final distribution be done? Will it be based on each person's contribution to the effort, or how?"

The woman in the red dress, full of pride, replied softly, "Of course, we will allocate now. No matter the amount of those heavenly materials and earthly treasures, you can only receive twenty percent, while I get eighty percent!"

Saying this, she seemed to realize it might be somewhat excessive and added as a reminder, "Remember, without the clues I provide, you wouldn't even get twenty percent of the heavenly materials and earthly treasures!"

"One should learn to be content!"

The woman in the red dress said earnestly.

Hearing her distribution method, Mu Jinyu couldn't accept it.

If he spent one thousand credits and then shared her clues to gain the heavenly materials and earthly treasures, and they split it fifty-fifty, or allocated based on contribution, he could accept that.

But clearly, this woman had only reached the third layer of the Unity Realm Stage, just a beginner student. From her demeanor, she obviously didn't have the ability to acquire the heavenly materials and earthly treasures on her own, not even with his cooperation!

Yet she wanted to monopolize eighty percent of the heavenly materials and earthly treasures?!

Even if the clue was indeed provided by her, so what?

It's not like he didn't contribute anything!

She really thought one thousand credits wasn't a big deal!

That's enough to buy a low-grade Creation Divine Weapon!

For a beginner student, that's a vast amount!

Shaking his head slightly, Mu Jinyu said, "Sorry, I can't accept this allocation plan!"

Hearing Mu Jinyu's words, the woman in the red dress raised her eyebrows and scolded, "What do you want then? A fifty-fifty split with me? Or based on contribution?"

"You should know, without my clues, who knows when you would find another lead? You're already in the middle stage of Void Breaking Realm; can you afford to wait without enhancing your bloodline concentration?"

With a confident posture, the woman in the red dress reprimanded Mu Jinyu.

Mu Jinyu remained calm and replied indifferently, "Then you should find someone else. Don't take on this task with me; find someone willing to accept this plan!"

Hearing Mu Jinyu's words, the woman in the red dress glared at him in displeasure and said, "Oh, you think I can't compete for those heavenly materials and earthly treasures on my own, so I shouldn't get a larger share? Even though I provided the clues? And you're unhappy spending one thousand credits, yet only getting twenty percent? Do you think I'll suffer more if I have to find someone else to help me compete for those heavenly materials and earthly treasures? Do you feel shortchanged?"

Mu Jinyu nodded without expression, "Yes, that's the case, but it doesn't matter what you think anymore. I don't want you to take on this task, and I don't believe only you have clues for heavenly materials and earthly treasures that enhance bloodline concentration, and no one else does. Let's just leave it at that!"

After saying that, Mu Jinyu couldn't be bothered to waste any more words with the woman in the red dress. He directly took out his identity plaque and swiped it over the question mark.

Immediately, the question mark disappeared, and the task was no longer claimed but returned to the center of the task wall, waiting for someone else to choose it.

Then, Mu Jinyu turned and walked out.

He wouldn't take this kind of crap!

After all, he didn't need those heavenly materials and earthly treasures that enhance bloodline concentration right now.

The one who truly needed them was Chen Yinlong.

And Chen Yinlong wasn't in a rush to enhance his bloodline concentration immediately.

Spending a bit more time didn't matter!

He wasn't about to let himself be belittled to repay someone else's favor.

Spending one thousand credits and exerting effort alone, yet only receiving twenty percent of the heavenly materials and earthly treasures! Only an idiot would agree to that!

"Ugh, wa wa wa..."

Seeing Mu Jinyu resolutely remove the task he claimed and turn away, the woman in the red dress was furious, screaming internally with her face flushed!

Her eyes glaring at Mu Jinyu's departing figure seemed to be spitting flames.

"Damn bastard!"

"It's just someone in the sixth layer of Void Breaking Realm, nothing special! Why are you acting so arrogant?!"

"Do you think you're the only one here offering credits for heavenly materials and earthly treasures that enhance bloodline concentration?"

"If it weren't for your high credits, I wouldn't even consider taking on your task!"

"Damn, I shouldn't have looked at your high credits and accepted this task, making myself suffer this crap!"

"..."

The woman in the red dress kept cursing, seething with anger!

This drew frequent sidelong looks from the people around her, who didn't know what had happened to her.

For quite some time.

The woman in the red dress calmed her anger, then snorted coldly and chastised the surrounding people staring at her, "What are you looking at? Never seen a pissed-off beauty?!"

Someone replied with a chuckle, "Only saw someone angry, but no beauty!"

"Yeah, it's rare to see an ugly girl angry!"

A few others chimed in.

This again made the woman in the red dress fume.

But these people were wearing intermediate student and even senior student uniforms, so she only dared glare at them more but didn't dare to lash out directly!

Like when she was in front of Mu Jinyu, although she acted spoiled and self-assured, wanting to claim eighty percent of the spoils, even when enraged by Mu Jinyu, she only dared curse him in her heart, not out loud.

Muttering curses in her heart, the woman in the red dress ignored their mockery and quickly walked to the task wall.

Then she began to pick from the tasks offering rewards for heavenly materials and earthly treasures that enhance bloodline concentration.

However, the more she looked at these tasks, the more disappointed and discouraged she felt.

Because apart from Mu Jinyu's task, which stood out with a reward of one thousand credits, most tasks only offered one hundred or two hundred credits.

None even offered three hundred credits, let alone half of Mu Jinyu's credit offer!

"Forget it; even though the credit rewards are a bit low, it's negotiable. Let's agree on a meet-up..."

The woman's eyes flickered, eventually picking a task with a reward of two hundred credits.

Preparing to meet the employer first and see if the credits could be raised to one thousand.

In the end, she failed.

The other party refused to increase the credits and demanded a fifty-fifty split of the heavenly materials and earthly treasures, not agreeing to an eighty-twenty distribution.

This left the woman thoroughly disappointed.

She had initially thought if no one was willing to budge on the credits, she could find several people and collectively take on their tasks.

Then she'd take fifty percent of the heavenly materials and earthly treasures, leaving the rest to be divided among the group at their discretion!

But judging by their firmness, it seemed hard to get them to agree!

However, the woman in the red dress didn't regret being rejected by Mu Jinyu.

After all, the people she chose all had the late stage of the Void Breaking Realm cultivation.

Much stronger than Mu Jinyu's middle stage of the Void Breaking Realm.

Chapter 1900 1900: Ask Chen Qinglian—She Actually Has It! The Peculiar Mirror!

Mu Jinyu left the mission hall without regretting his refusal of the conditions offered by the woman in the red dress!

The conditions were simply too harsh, he couldn't accept them.

There's no way he could accept such conditions!

If others can accept it, let them do it!

"By the way, I wonder if Chen Qinglian still has any Heavenly Mysterious Ice Spirit Marrow left unused?"

Mu Jinyu pondered this question on his way to Cave Heaven Eleven.

But then he thought it should be used up by now...

After all, he had helped Chen Qinglian and Chu Huannian accelerate the refinement of the Heavenly Mysterious Ice Spirit Marrow, helping them quickly enhance their bloodline concentration.

Even if Chen Qinglian secretly saved a bit of Heavenly Mysterious Ice Spirit Marrow, it probably wasn't much.

And during the time he left Dongyue Mansion, the other students had bullied Chu Huannian aggressively for the Heavenly Mysterious Ice Spirit Marrow.

There's no reason why they would spare Chen Qinglian.

Since Chen Qinglian seemed fine, she either let them inspect her Qiankun Ring or handed over the remaining small portion of Heavenly Mysterious Ice Spirit Marrow!

"Forget it, though there's a high chance she doesn't have any, I should still go and ask, right?"

Mu Jinyu thought, figuring since he had nothing else to do, he might as well go and ask Chen Qinglian.

He then took out his Identity Plaque and sent Chen Qinglian a message.

In the Secret Realm of the mansion, they had once exchanged Communication Insignia Marks, though afterward, they hadn't contacted much.

But now that Mu Jinyu wanted to find Chen Qinglian, he didn't need to go to the Intermediate Student area and search one by one.

Directly asking Chen Qinglian would suffice.

Once Mu Jinyu sent his message.

He initially worried Chen Qinglian might be cultivating in the training room or cultivation room, perhaps unable to respond promptly.

Unexpectedly, Chen Qinglian replied quickly.

Informing him of her current location.

She resided in Courtyard No. 455 at the Intermediate Student residence.

"Alright, I'll come find you now."

Mu Jinyu chose to go directly to her rather than inquire about these through the Identity Plaque.

Soon, Mu Jinyu arrived at Courtyard No. 455.

"Creak!"

As Mu Jinyu approached, the gate of the courtyard swung open, revealing a stone path leading inside.

"Senior Mu, please come in."

Chen Qinglian's serene voice echoed within.

Mu Jinyu nodded slightly and stepped inside.

Chen Qinglian's courtyard, the Heaven and Earth Origin Qi contained within, couldn't compare to the Courtyard No. 96 Mu Jinyu once lived in.

But Chen Qinglian managed to live quite contentedly.

She didn't feel anything was amiss, nor did she consider moving to the Courtyard No. 96 where Chu Huannian lived.

"Senior Mu, it's been a while. May I ask what brings you to see me today?"

Chen Qinglian sat on a stone bench in the pavilion, holding a cup of fragrant tea. Beside the pavilion lay a small lake, dotted with Qinglian lotuses.

She watched Mu Jinyu enter the courtyard and put down her teacup, gazing at him with a calm demeanor, asking softly.

Mu Jinyu smiled and said, "It's nothing, really. I just wanted to ask if you have any remaining Heavenly Mysterious Ice Spirit Marrow?"

"This..."

Upon hearing Mu Jinyu's question, Chen Qinglian's expression subtly slackened, hesitating before nodding lightly.

Thinking about how the Heavenly Mysterious Ice Spirit Marrow was originally given by Mu Jinyu, otherwise, she wouldn't be qualified to obtain it, and how she relied on the marrow to significantly enhance her bloodline concentration, soon becoming an Intermediate Student.

Now, if Mu Jinyu needed the Heavenly Mysterious Ice Spirit Marrow, she should give it to him!

Thus, without hesitation, Chen Qinglian flipped her hand over, making a mirror appear.

Unexpectedly, Chen Qinglian manipulated it somehow, and eventually a small portion of Heavenly Mysterious Ice Spirit Marrow manifested on the mirror's surface.

Finally, the small portion of Heavenly Mysterious Ice Spirit Marrow floated from the mirror, becoming real on its surface.

"There's truly some left!"

Mu Jinyu, seeing Chen Qinglian produce this small portion of Heavenly Mysterious Ice Spirit Marrow, remarked with a bit of surprise.

He initially just wanted to ask, perhaps catch up with Chen Qinglian.

Unexpectedly, Chen Qinglian indeed had a small portion left, surprising him considerably.

Chen Qinglian smiled gently and explained, "I'm sure you're curious about how I've managed to keep this piece of Heavenly Mysterious Ice Spirit Marrow, Senior Mu."

"Actually, back when Senior Sister Chu was confronted by other senior students demanding the non-existent Heavenly Mysterious Ice Spirit Marrow, I too was confronted!"

"However, unlike Senior Sister Chu whose hands truly had no Heavenly Mysterious Ice Spirit Marrow left, I still had this small piece."

"As for Senior Sister Chu, you know her character, Senior Mu, she's steadfast and wouldn't easily let anyone search her Qiankun Ring? That's why things escalated, she was heavily injured!"

"I didn't share her steadfastness, so when things took a turn, I hid the last small piece and let them inspect my Qiankun Ring."

"That's how I avoided trouble..."

"..."

After hearing Chen Qinglian's explanation, Mu Jinyu understood why she retained this piece of Heavenly Mysterious Ice Spirit Marrow.

It was mainly because of her rather extraordinary mirror Magic Treasure.

Making it impossible for others to find.

Quite impressive.

Had Chen Qinglian not actively operated the Magic Treasure, he wouldn't have noticed anything peculiar about the mirror!

"Since you need the Heavenly Mysterious Ice Spirit Marrow now, take it, Senior Mu! No need to be polite with me."

Chen Qinglian lifted her hand, offering the piece of Heavenly Mysterious Ice Spirit Marrow to Mu Jinyu.

Mu Jinyu considered, although the piece was quite small, it would still be useful, so he decided to accept it.

"Alright, I'll take it, thank you..."

Mu Jinyu said and asked Chen Qinglian to take out her Identity Plaque.

So he could transfer some academic credits to her.

"No need, Senior. Originally, this Heavenly Mysterious Ice Spirit Marrow was a gift from you. I'm just returning it now, there's no need for excess courtesy!"

Chen Qinglian understood Mu Jinyu's intention, directly shaking her head to refuse his kindness.

"I've benefited enough from your generosity, Senior. Without the Heavenly Mysterious Ice Spirit Marrow you gave me, I wouldn't have become an Intermediate Student so quickly, nor have my own quiet courtyard for cultivation!"

"So please, don't feel you're indebted by taking this piece of Heavenly Mysterious Ice Spirit Marrow, it's unnecessary!"

"If you still insist on transferring credits, I'd feel uncomfortable about it!"

"..."

With Chen Qinglian's repeated persuasion.

Mu Jinyu was eventually convinced, sighed lightly, and put away his Identity Plaque, no longer insisting on transferring Chen Qinglian any academic credits.

"Alright then, I'll take this piece of Heavenly Mysterious Ice Spirit Marrow. If you have any trouble in the future, feel free to reach out to me!"

"Also, I'm planning to pursue some leads on tasks involving Heavenly Materials and Earthly Treasures that enhance bloodline concentration. If I find any, I'll send some over, don't refuse then!"

With that, Mu Jinyu left Chen Qinglian's courtyard.
