

King Hall 1901

Chapter 1901 1901: Accepted Again! Woman in White Dress! The Reaction of Two People!

After leaving Chen Qinglian's small courtyard, Mu Jinyu was about to take this small piece of Heavenly Mysterious Ice Spirit Marrow to find Chen Yinlong, for him to use.

And to help him quickly refine it, enhancing his bloodline concentration.

Although this Heavenly Mysterious Ice Spirit Marrow was only a small piece, it could still significantly enhance the bloodline concentration.

Especially since Chen Yinlong had never used such Heavenly Materials and Earthly Treasures before, the effect would be extremely remarkable.

"Beep beep..."

However, just at this moment, his Identity Plaque emitted a slight vibration.

Mu Jinyu noticed this, his expression flickering slightly, then he took out his Identity Plaque and saw that once again, a question mark appeared on it.

He currently had only posted one bounty task.

It must be the task to find Heavenly Materials and Earthly Treasures to enhance bloodline concentration, which had been taken up once more by someone.

"Could that woman in a red dress have regretted it and taken up my task again?"

Seeing the question mark on the Identity Plaque bouncing, Mu Jinyu couldn't help but entertain this thought.

However, this possibility existed.

After all, he didn't think many people in Dongyue Mansion would willingly act as tools for that woman, spending a large amount of their own academic credits.

"It's a pity the Identity Plaque can't reveal who accepted my task directly, nor can it directly blacklist someone, otherwise, it wouldn't be such a hassle!"

Mu Jinyu sighed in regret.

If he could blacklist people, he would have blacklisted that woman in red, so he wouldn't need to worry about her suddenly regretting and taking up his task, making him run back for nothing.

If he could directly see who accepted the task, he could also check whether it was that woman in red, and if so, cancel her acceptance of the task on the spot.

Unfortunately, the Identity Plaque couldn't accomplish these two things, forcing him to run to the task hall personally to see who had accepted the task.

"I'll have to tell the Mansion Master later that this needs improvement!"

Mu Jinyu grumbled, then turned around and headed towards the task hall.

Before long.

Mu Jinyu arrived at the task hall again.

He stepped inside, his indifferent gaze sweeping across and noticing that most of the students inside had changed; more importantly, the woman in red was nowhere to be seen.

This made him quietly breathe a sigh of relief.

If that woman in red were still here, it would indeed suggest she had retaken his task, forcing him to decline once more, which might make her clingily entangle him—and that would truly be headache-inducing!

Although he feared nothing, if he needed to teach her a lesson, he might again be accused of bullying his juniors.

With her absent, that trouble was naturally avoided.

Scanning the people in the task hall with his eyes, Mu Jinyu couldn't identify who had accepted his task, so he again took out his Identity Plaque, giving it a gentle tap.

"Boom!!"

Suddenly, the world before his eyes seemed to dim and transform into a landscape painting.

Only he and a woman in a white dress in front of him remained vividly colorful and truly alive.

"Another woman?"

Discovering another woman had accepted his task, Mu Jinyu frowned slightly.

It's not that he disliked women, but the unpleasant impression left by the woman in red made him anxious that similar distasteful issues would arise.

"Oh well, since we haven't interacted yet, I can't be certain of her nature; let's see how it goes first... if it's not suitable, we'll break off discussions!"

Mu Jinyu slightly shook his head, deciding internally.

At that moment, the woman in white seemed to sense something, turning to gaze at Mu Jinyu with eyes as clear as water.

She displayed a hint of surprise.

Apparently, she too speculated this was Mu Jinyu's task posting.

But she was taken aback by why someone like Mu Jinyu, a pureblooded human, would need Heavenly Materials and Earthly Treasures for enhancing bloodline concentration?

Was his own bloodline not pure and rich enough?

"Senior Mu, I didn't expect you were the one who posted this task..."

The woman in white approached Mu Jinyu quickly, her voice gentle, clear, and melodious, as delightful as pearls falling onto a jade plate.

Mu Jinyu raised an eyebrow and said, "Do you know me?"

The woman in white smiled softly, dimples forming charmingly on her cheeks as she said, "Of course, now in Dongyue Mansion, who wouldn't recognize Senior Mu, aside from those long absent?"

"Moreover, not too long ago, I vividly recall your effortless ascension to a Senior Student, defeating all opponents."

"The most notable thing is that you are a pureblooded human, reaching this point relying on your own capabilities—how could we not admire you..."

The woman in white complimented sincerely.

Hearing this, Mu Jinyu chuckled silently, without further comment.

Neither the woman in white nor the recent woman in red knew that although Mu Jinyu was known as a Senior Student, he had already defeated people like Ning Ruofan and Lu Kaige, becoming the top Senior Student on the very first day.

The reason was simple: only Senior Students knew when Mu Jinyu challenged Ning Ruofan, Lu Kaige, and others.

These Senior Students, witnessing Mu Jinyu's meteoric rise, felt powerless and desperate.

They had previously targeted Mu Jinyu, betting he would stop at the top three or top five, only to be proven wrong. How could they go around promoting Mu Jinyu, announcing that this new Senior Student was awesome, toppling them on the first day as the top Senior Student!

Even if they knew that the news of Mu Jinyu becoming the top Senior Student was bound to leak, they would suppress it as long as possible.

So they remained silent about it, not actively promoting it.

Hence, the Intermediate Students and Beginner Students in Dongyue Mansion were unaware that Mu Jinyu had already defeated Lu Kaige, becoming the top student in Dongyue Mansion.

However, even with both unaware of Mu Jinyu's rise to the top, the reactions of the woman in white and the woman in red were entirely different.

The woman in red carried herself with such arrogance as if disregarding Senior Students entirely.

She was simply a Beginner Student.

Conversely, the woman in white showed a much more pleasant demeanor, displaying the posture of an admiring fan.

This naturally made Mu Jinyu feel much more comfortable.

Of course, it could possibly be the woman's way to successfully secure his task by charming him.

By increasing her chances of securing the task.

Yet Mu Jinyu wasn't concerned about these things; as long as the other party could indeed offer Heavenly Materials and Earthly Treasures or related clues to enhance bloodline concentration, and her attitude wasn't too hostile, nor she was too imposing with her conditions, Mu Jinyu had no issue with her intentions.

With a faint smile, Mu Jinyu directly got to the point: "Tell me then, do you have the goods in hand, or only related clues?"

Seeing Mu Jinyu being so direct, the woman in white adjusted her attitude, shook her head, and said, "I don't have the goods on hand, just some clues..."

Chapter 1902 1902: Choosing Cooperation! Tonglin Province! Phoenix Sun Blazing Spirit Fruit!

"Is it just a clue?"

Mu Jinyu, hearing this, didn't show much expression, slightly nodded and said, "That's also fine. So how do you want to cooperate with me? Are you planning to sell this clue outright to me, take the credits, and leave? Or do you want to collaborate, share the clue, and together split the heavenly materials and earthly treasures later?"

"Let me clarify in advance: if it's an outright sale, once your clue proves useful, I'll give you the one thousand credits. But if you choose to collaborate, where I take the lead in the search, then the task certainly won't be worth a thousand credits anymore. You know the current market price is basically one or two hundred credits..."

Mu Jinyu said solemnly.

He was just giving a heads-up to the other party.

Having been disgusted once by the woman in the red dress, Mu Jinyu wouldn't be so generous anymore.

You either choose to directly sell the clue and take those thousand credits, and afterward, no matter how many heavenly materials and earthly treasures I acquire, it would have nothing to do with you.

After all, by your own abilities, you couldn't mine these heavenly materials and earthly treasures.

Selling a piece of information for one thousand credits is more than enough.

Or you choose to join forces with me, relying on your clues and information and my strength to obtain these heavenly materials and earthly treasures. Evidently, you won't be given more credits.

One or two hundred credits are about right, that's the market price, and one thousand credits won't be given that much!

"Hmm, I understand..."

The woman in the white dress felt a trace of disappointment in her eyes upon hearing Mu Jinyu's words.

She originally thought that only by choosing to cooperate with Mu Jinyu and providing this clue, she could earn those thousand credits.

After all, she thought too much.

Mu Jinyu's issued bounty task was mainly about spending one thousand credits to buy out the clue, not about joining hands and collaborating with others.

If it was about collaboration, he would have directly adjusted the bounty back to one or two hundred credits.

In this case, Mu Jinyu, who is a newly advanced senior student, seems not the best partner for cooperation.

After all, some of the top thirty senior students have issued similar bounties, with the same one or two hundred credits.

If she wanted to look for someone to jointly acquire those heavenly materials and earthly treasures, wouldn't it be better to find those senior students than Mu Jinyu?

However, since she had already approached Mu Jinyu, she might as well continue the talk...

The woman in the white dress didn't want to show an immediate turn of face, so she continued talking to Mu Jinyu: "Senior, you go on, I'm listening."

Mu Jinyu nodded slightly and continued, "If you choose to collaborate with me, then the credits will be adjusted to two hundred credits. Then we'll set out together to find the heavenly materials and earthly treasures. By then, we will split whatever we achieve fifty-fifty..."

"Fifty-fifty split?"

The woman in the white dress originally intended to perfunctorily exchange a few words with Mu Jinyu and then end this conversation, and then find other senior students to collaborate with.

But when she heard Mu Jinyu's words, she was taken aback, not expecting such a distribution result from him.

She thought that Mu Jinyu mainly aimed to buy out the clue rather than collaborate.

Therefore, if it was collaboration to share the clue, he would adjust the bounty credits to one or two hundred, and upon acquiring the heavenly materials and earthly treasures, he would try hard to suppress the distribution for both parties.

It should be something like a seventy-thirty or eighty-twenty split.

Surely, he would take the lion's share.

After all, Mu Jinyu always emphasized he was the one doing the hard work and wouldn't allow himself to take a loss!

Unexpectedly, the distribution plan Mu Jinyu finally gave her was actually a fifty-fifty split.

This immediately made the woman in the white dress a bit tempted, feeling that this distribution plan was quite good.

Even somewhat generous.

After all, her strength is only at the Unity Realm Stage, and she would evidently have little chance to help Mu Jinyu in this process.

Instead of saying they join forces to develop this clue and obtain the heavenly materials and earthly treasures, it is better to say she only provides the clue, and then lets Mu Jinyu do the work. She shares part of the heavenly materials and earthly treasures.

She basically won't contribute much throughout, yet she can acquire half of the heavenly materials and earthly treasures.

Aren't these conditions generous enough?

The woman in the white dress felt that other senior students would definitely not offer such generous conditions.

They will definitely offer a seventy-thirty split, and at most, she can contribute some strength to help, which would adjust it to a sixty-forty split!

"Okay, I agree."

The woman in the white dress suppressed the excitement and joy in her heart and nodded repeatedly to Mu Jinyu.

"Hmm?"

Seeing the excitement on the woman in the white dress's face, Mu Jinyu looked at her with surprise.

He initially thought she would refuse.

Unexpectedly, she agreed so readily.

Was it because his conditions were too generous?

Were others actually more demanding?

Mu Jinyu couldn't figure it out.

However, he was too lazy to fuss over such a small share.

As long as the counterpart is easy to talk with and only provides the clue yet can acquire half of the heavenly materials and earthly treasures, he feels it doesn't matter.

If the counterpart is hard to talk with, even if they don't just provide the clue but also contribute, he would rather not cooperate if it means sharing forty percent or thirty percent.

After all, being annoyed to death by the counterpart isn't worth the trouble!

"Alright, now you can tell me where the heavenly materials and earthly treasures that can enhance bloodline concentration are..."

A look of surprise flashed across Mu Jinyu's eyes, but he quickly regained his calm and asked.

"Hmm, those heavenly materials and earthly treasures are located in the neighboring state domain of our Donghua Province, called Tonglin Province..."

Since the woman in the white dress chose to cooperate with Mu Jinyu, naturally, she didn't conceal from him, informing him of the location and specific position, along with much useful information.

The heavenly material and earthly treasure that can enhance bloodline concentration is called the Phoenix Sun Blazing Spirit Fruit, unlike the Heavenly Mysterious Ice Spirit Marrow, which contains intense ice attribute primordial force.

But rather a spirit fruit that contains intense fire attribute primordial force.

The origin power between the two can be said to be completely opposite.

However, their effects on enhancing bloodline concentration are almost the same.

Moreover, this Phoenix Sun Blazing Spirit Fruit is said to contain trace amounts of Phoenix bloodline, and if given to someone whose family possesses the Phoenix bloodline, it might even activate the Phoenix bloodline within their body!

Of course, the Phoenix and Dragon are legendary divine beasts that nobody in the Canglan Realm has ever truly witnessed.

The "Dragons" encountered are merely some Flood Dragons whose appearances infinitely approach those of Divine Dragons.

In reality, they are not Divine Dragons at all!

They do not possess invincible power upon birth!

And this Phoenix Sun Blazing Spirit Fruit is located within a peculiar Phoenix Tree Forest in Tonglin Province, where strange fire blazes intensely year-round without dying out.

A Fire Phoenix dwells within.

Its strength is around the mid-stage of the Life and Death Realm.

Quite powerful and terrifying!

The reason it resides in the Phoenix Tree Forest is to devour the Phoenix Sun Blazing Spirit Fruit, hoping to make its bloodline more akin to a Phoenix.

A few years ago, it fell into a slumber after consuming the Phoenix Sun Blazing Spirit Fruit.

Now, after several years, the Phoenix Sun Blazing Spirit Fruit has re-fruited and is about to mature.

And naturally, that Fire Phoenix will also awaken from its slumber.

Their only chance is to snatch the mature Phoenix Sun Blazing Spirit Fruit before the Fire Phoenix awakes and leave immediately.

However, if the Fire Phoenix awakens in time, their situation will become very dangerous!

Thus, after the woman in the white dress shared this information with Mu Jinyu, she looked at him with concern and asked in a low voice: "There is still a considerable chance of the Fire Phoenix awakening. Senior Mu, do you think we should be better prepared, or find another senior at the Life and Death Realm to help?"

Chapter 1903 1903: Arrival at Tonglin Province! Qiu Yunxin! Why are you here?

Although the woman in the white dress had heard of Mu Jinyu's battle achievements, he had once defeated opponents at the Life and Death Realm level.

But how can ordinary cultivators at the Life and Death Realm be compared to a demon beast like the Fire Phoenix?

The gap between them is truly immense.

Just like Lu Kaige and Ning Ruofan, who are also at the early to middle stages of the Life and Death Realm, ordinary cultivators at the Life and Death Realm, even at the later stage, probably couldn't withstand a few moves from them.

Therefore, although the woman in the white dress knew of Mu Jinyu's battle achievements, she was worried that Mu Jinyu would not be able to handle this Fire Phoenix at all.

Because this Fire Phoenix might even be able to contend with cultivators at the Creation Realm!

"No need, I'm more than enough!"

Mu Jinyu heard the woman in the white dress's concerns, but he waved his hand unconcernedly and said.

Although his current cultivation realm was only at the sixth layer of the Void Breaking Realm, his combat power had already soared to unimaginable heights, capable of defeating the Creation Realm!

Therefore, not to mention that this Fire Phoenix is only at the mid stage of the Life and Death Realm, even if it were at the late stage, he wouldn't be afraid!

If it were the Creation Realm, he might have some apprehensions and consider whether to team up with Ning Ruofan and Lu Kaige.

However, given their years of dominance among the top two Senior Students, they probably weren't lacking in such bloodline-enhancing items.

Of course, the so-called 'not lacking' doesn't mean they have such items on hand, but that they have consumed enough and no longer need them, just like him and Chu Huannian.

Therefore, even if Mu Jinyu went to find them to team up, they might not be willing to come.

And finding Shi Yiran or others wouldn't make much sense, so he was fine by himself.

"Alright then."

The woman in the white dress, seeing Mu Jinyu say this, although somewhat uneasy, thought for a moment—after all, if the Fire Phoenix suddenly woke up, they could just not take the Phoenix Sun Blazing Spirit Fruit.

There wouldn't be much danger, so she agreed.

Then she urged, "Senior, is there anything you need to prepare? If there is, hurry up, and once you're ready, let's go quickly, time is of the essence!"

"Hm? In such a hurry?" Mu Jinyu gave her a surprised look and casually asked.

The woman in the white dress explained, "Yes, not only is that Phoenix Sun Blazing Spirit Fruit about to mature, but the Fire Phoenix could wake up at any moment. Also, I'm not the only one who knows this piece of information; others do too, so we need to act quickly!"

"Oh, I see..."

Hearing her explanation, Mu Jinyu nodded slightly, understanding why she agreed so readily instead of negotiating with each person one by one.

After all, this lead was not solely in her hands, and timing was crucial; she indeed had no opportunity to slowly seek the optimal choice!

"I don't need to prepare anything; we can set off now." Mu Jinyu thought it over and said softly.

"Alright, since that's the case, let's go now." The woman in the white dress, seeing Mu Jinyu ready, was naturally pleased not to waste time and quickly walked out of the mission hall.

Mu Jinyu followed her out.

They had finished their discussion, but the academic credits would certainly not be given to the woman in the white dress now. Instead, they would be settled once the task was completed.

Even when Mu Jinyu accompanied Xuu Changqing to Muyun Province, he only received Xuu Changqing's one thousand credits after resolving his enemy.

And their conversation just now was all done via Divine Sense transmission, so no outsiders would hear it.

No need to worry about it leaking and becoming common knowledge in the mansion.

...

As Mu Jinyu and the woman in the white dress finished discussing and were about to leave Dongyue Mansion.

The woman in the red dress also found the right candidates, and since the students she found seemed to be in urgent need of such Heavenly Materials and Earthly Treasures, all three agreed. They would split one half and the other half would belong to her exclusively.

The woman in the red dress, although not very satisfied with this, thinking they should split thirty percent among the three and she should take seventy percent herself.

After all, without her lead, these people wouldn't have had a chance to risk their lives and obtain such Heavenly Materials and Earthly Treasures.

But there was no choice, time was pressing, and she couldn't afford to wait, so she finally agreed, and they divided it equally.

"Alright, I'll now reveal a little information. The location is in Tonglin Province. As for specific details, let's discuss it once we reach Tonglin Province!"

The woman in the red dress, with a proud look on her face, addressed the three Senior Students at the peak of the Void Breaking Realm.

"Alright then."

"Let's set off!"

These three Senior Students, although quite dissatisfied with the woman in the red dress's attitude, had no choice and had to put up with it for now, as they indeed needed her help.

With that, the four of them departed, leaving Dongyue Mansion.

...

After leaving Dongyue Mansion, Mu Jinyu and the woman in the white dress quickly adjusted their direction and headed straight for Tonglin Province!

Tonglin Province is just two state domains away from Donghua Continent. With Mu Jinyu's current cultivation, using Void Shift and bringing along the woman in the white dress, it would only take a day.

On the way, Mu Jinyu learned the woman in the white dress's name—Qiu Yunxin!

She had been at Dongyue Mansion for three years.

But was still a Beginner Student.

She thought that if she could obtain Heavenly Materials and Earthly Treasures to enhance her bloodline concentration, she might already have become an Intermediate Student.

Therefore, upon discovering this clue, she couldn't wait to find someone to team up with.

Even if she could only get half, she would be satisfied.

Mu Jinyu understood it was not just half that would satisfy her; even getting thirty percent or twenty percent of the Phoenix Sun Blazing Spirit Fruit would suffice if it gave her a chance to advance to an Intermediate Student.

And obtaining fifty percent of the quantity would make her incredibly happy.

However, although Mu Jinyu was aware of Qiu Yunxin's intentions, he had no intention of going back on his word or changing the distribution plan.

After all, he wasn't that kind of person.

Moreover, Qiu Yunxin had already told him all the specific information.

If he were to go back on his word, wouldn't that be too disgusting!

Time flew by as Mu Jinyu and Qiu Yunxin chatted.

In a flash, a day had passed.

Mu Jinyu, with Qiu Yunxin, arrived at Tonglin Province!

He didn't quite understand where the Phoenix Tree Forest Qiu Yunxin mentioned was.

If he came alone, he could take some time to find it slowly, but with Qiu Yunxin there, there was no need for him to slowly figure out the destination.

He just let Qiu Yunxin point out the direction.

Under Qiu Yunxin's guidance, Mu Jinyu proceeded forward and finally arrived at the blazing Phoenix Tree Forest.

"Hm?!"

Standing outside the Phoenix Tree Forest, Mu Jinyu felt the terrifying heat inside, which distorted and blurred the void, making him frown secretly.

This strange fire is indeed quite frightening.

And that Fire Phoenix, living here, might actually be more formidable than he imagined.

"Hm? Why are you here!"

Just as Mu Jinyu was about to step into the Phoenix Tree Forest to search for the Phoenix Sun Blazing Spirit Fruit, a suddenly bossy voice sounded from behind him.

Chapter 1904 1904: Encountering the Lady in the Red Dress Again! Unbelievable! A Schism Erupted Instantly?

"Why are you here?!"

Upon hearing an exceptionally fierce reprimand from behind, Mu Jinyu paused momentarily, recognizing a somewhat familiar voice.

Then, he turned around.

He saw a Flying Shuttle hovering steadily in the air not far behind them.

On the shuttle were four people, three men and one woman.

The solitary woman, with a cold and arrogant demeanor, blood-red lips, dressed in a flaming red skirt, was glaring at him with a face full of vigilance and fury.

It was the very same red-skirted woman who had first accepted Mu Jinyu's task.

Seeing this woman in a red skirt, Mu Jinyu was momentarily shocked, then his lips curled into a playful smile.

Seeing the other's appearance, along with her vigilant anger, Mu Jinyu quickly figured out that the Heavenly Materials and Earthly Treasures capable of enhancing bloodline concentration she possessed came from the Phoenix Sun Blazing Spirit Fruit of Tonglin Province.

Who would have thought, indeed...

Clearly, this clue wasn't exclusive, many knew about it, yet this red-skirted woman was so arrogant, demanding such an excessive price.

She asked for one thousand credits, avoided effort, and demanded eighty percent of the Phoenix Sun Blazing Spirit Fruit...

Who gave her the courage to be so brazen?!

Mu Jinyu had thought she possessed some unique, exclusive clue, unknown to anyone else, where even two percent of the Heavenly Materials and Earthly Treasures would be abundant enough to make a significant profit.

Otherwise, how could this red-skirted woman be so reckless?

But who would have thought, the clue she possessed was identical to the one held by Qiu Yunxin.

Qiu Yunxin's collaboration proposal only asked for two hundred credits, offering an equal share of whatever Phoenix Sun Blazing Spirit Fruits obtained.

This made Qiu Yunxin incredibly joyful...

This is the mindset someone with no power, holding a clue to Heavenly Materials and Earthly Treasures, should have!

"Why can't I be here?"

Mu Jinyu looked at the red-skirted woman, retracting the playful smile from his lips, and said expressionlessly.

Seeing Mu Jinyu's fleeting playful smile, the red-skirted woman saw he was mocking her, becoming even more furious!

"You, you, you... you tracked me!"

"You shameless!"

The red-skirted woman trembled with anger, finally thinking of a reason. With a face full of rage, she pointed at Mu Jinyu with a trembling hand, shouting.

Only this guess explained why Mu Jinyu, after rejecting her request, could find the Phoenix Tree Forest in Tonglin Province!

Surely he saw her price was too high, he couldn't afford it, so he abandoned cooperation, then sneaked up after she found partners...

This was so shameless!

The red-skirted woman was puzzled why Mu Jinyu, with only Sixth Layer of Void Breaking Realm cultivation, could follow them?

The three seniors she found all had Late Broken Void Realm Stage cultivation!

Normally, Mu Jinyu shouldn't be able to secretly follow them without being detected!

This puzzled the red-skirted woman.

So she could only guess Mu Jinyu used some Magic Treasure to conceal his presence and follow them secretly?

"Who tracked you?"

Mu Jinyu heard the red-skirted woman's words, thinking she was full of herself, shaking his head:
"Ridiculous!"

"Do you think you alone hold that clue? Others know nothing?"

"Laughable!"

Hearing Mu Jinyu's words, the red-skirted woman shifted her gaze from Mu Jinyu to Qiu Yunxin.

"You mean... this guy brought you here?"

The red-skirted woman's voice was icy, her eyes showed doubt and coldness at Qiu Yunxin, doubting Mu Jinyu's words.

She then activated her Cultivation Technique, unleashing a terrifying Qi towards Qiu Yunxin!

Preparing to use her might to pressure the other into revealing the truth!

Mu Jinyu frowned, intending to intervene, but suddenly noticed something interesting, stopping himself.

He coldly observed.

"Boom!!"

The red-skirted woman suddenly unleashed a formidable aura, invoking Heaven and Earth Laws, attempting to suppress Qiu Yunxin, but the three senior students beside her attacked simultaneously!

Not aiding her in dealing with Qiu Yunxin or targeting Mu Jinyu!

But rather, directly attacking the red-skirted woman!

They immediately turned on her!

"Puh!!"

As the three senior students of Late Broken Void Realm Stage acted, their aura collided fiercely with the red-skirted woman's aura.

Suddenly, like a wall crashing into a sand castle, the sand castle collapsed instantly!

The red-skirted woman's aura was overwhelmed, causing her to vomit blood, and she was thrown off the flying shuttle!

She landed in a sorry state, uncertain if alive!

But she was definitely alive!

After all, Dongyue Mansion prohibits internal conflict, no reckless killing, even with irreconcilable conflicts, the final resolution must take place on the Life and Death Platform!

Just like Mu Jinyu and Ji Fei previously!

Or choose an unknown place, unseen by others, to secretly eliminate the opponent!

But now, at her location, with Mu Jinyu and Qiu Yunxin watching them attack the red-skirted woman.

No matter how much these senior students hated her, they couldn't brazenly kill her!

Using only aura to gravely injure the red-skirted woman, the senior students were still filled with resentment, then they nodded slightly to Mu Jinyu, immediately steering the flying shuttle towards Dongyue Mansion!

They were unlike the red-skirted woman, oblivious to Mu Jinyu's current status!

As senior students, they certainly knew Mu Jinyu's prowess, now Dongyue Mansion's student number one.

They were initially interested in the Phoenix Sun Blazing Spirit Fruit to enhance their bloodline concentration!

But encountering Mu Jinyu, they knew there was no chance of seizing the Phoenix Sun Blazing Spirit Fruit from him!

Furious at the red-skirted woman's deception, claiming she alone knew, they retaliated against her and promptly departed.

Staying meant nothing!

Just wasting time!

"Uh..."

Watching the three senior students strike the red-skirted woman to the ground, then leave with the shuttle without a backward glance.

Qiu Yunxin felt dizzy, filled with questions?

What was going on?

Did they fight over the Phoenix Sun Blazing Spirit Fruit?

But why did they leave without looking back after the fight?

Chapter 1905 1905: Kindhearted Qiu Yunxin! Leave Her Be! Fire Avoidance Pill!

"Why are they fighting among themselves?"

"Why did they leave without looking back after fighting?"

Qiu Yunxin wasn't afraid when the woman in the red dress unleashed her power, attempting to suppress her. She even wanted to engage in a direct confrontation!

They're all Beginner level Unity Realm Stage students, let's see who's afraid of whom!

But when she saw the woman in the red dress suddenly get beaten by the three Senior Students she invited, she felt somewhat apprehensive.

It's not that she felt she'd done something wrong to the woman in the red dress.

Rather, she worried whether Mu Jinyu might also do the same to her later.

In Qiu Yunxin's speculation, those three Senior Students attacked the woman in the red dress because she had already led them to the destination.

Next, to seize the Phoenix Sun Blazing Spirit Fruit, they naturally didn't need the woman in the red dress anymore, so they could just eliminate her.

Then, the three could save academic credits and have one less person to share the Phoenix Sun Blazing Spirit Fruit with!

Qiu Yunxin was worried that Mu Jinyu might treat her the same way, feeling guilty and anxious...

But when she turned around, she saw those three senior students leave without a backward glance.

That feeling was like a thief ready to steal and suddenly finding a cat blocking the way, frighteningly turning around to flee.

However...

Qiu Yunxin remembered those three were in the top thirty in rankings!

Why were they so scared of Mu Jinyu, who was a newly appointed Senior Student?

Could it be Mu Jinyu made some big moves among Senior Students again?

So, Qiu Yunxin stared blankly as those three drove their flying shuttle away, and then turned to Mu Jinyu with eyes full of surprise and guilt asking.

"How should I know why they ran away?"

Mu Jinyu found Qiu Yunxin's expression rather amusing.

He naturally understood why they left.

After all, among the Senior Students, probably except Ning Ruofan and Lu Kaige, everyone else didn't have the courage to confront him!

Seeing him here, naturally, they knew they had no chance in snatching the Phoenix Sun Blazing Spirit Fruit, so they smartly chose to leave.

However, Mu Jinyu was too lazy to explain much to Qiu Yunxin.

"Why? Feeling reluctant? With them gone, isn't it a good thing? Fewer people are fighting with us!"

Mu Jinyu, seeing Qiu Yunxin still stunned, couldn't help but laugh and say.

"No, no..."

Qiu Yunxin snapped back after hearing Mu Jinyu's words, shaking her head quickly.

Though she still didn't understand why they left in a hurry, as Mu Jinyu said, it is certainly a good thing and not necessary to delve deeper.

She can't figure out the truth now, pondering would not unravel the truth!

Mu Jinyu saw her slightly frowning, seemingly pondering the truth, then casually said: "Maybe they followed that woman in red here, realized it's very dangerous, felt tricked, and beat her up before leaving."

"Yeah, maybe..."

Qiu Yunxin indeed knew this place was dangerous.

Those three seniors felt unable to deal with the Fire Phoenix, so leaving indeed could be possible.

"Let's go, don't think too much, let's go in!"

Mu Jinyu said to Qiu Yunxin.

"Okay..."

Qiu Yunxin nodded in agreement but couldn't help hesitating.

Then looked at the woman in red, lying nearby unconscious, covered in blood, looking very pitiful and miserable, saying: "Just leave her like this?"

Just facing the pressure from the red-dressed woman, Qiu Yunxin didn't concede, full of fighting spirit wanting to clash hard with her!

But now seeing her miserable state, she couldn't help but feel compassionate!

Considering everyone is classmates, the red-dressed woman might have done something bad to those three seniors, thus getting beaten, but leaving her like this doesn't seem right!

"No need to, those three held back, didn't hit too hard nor severely injure her, she'll naturally wake up in a while!"

Mu Jinyu glanced at the unconscious red-dressed woman and spoke casually.

Those three seniors were all in the Late Broken Void Realm Stage strength, if they really wanted to harshly retaliate against this red-dressed woman, she wouldn't survive, not even leaving a corpse!

Now she's just slightly hurt, temporarily unconscious, which is indeed fortunate.

"Alright then!"

Seeing Mu Jinyu wasn't planning to care for the red-dressed woman, Qiu Yunxin thought it over and found it infeasible to care.

After all, they were going into this flaming Phoenix Tree Forest to find the Phoenix Sun Blazing Spirit Fruit, unable to take care of her.

The fruit could ripen at any moment and the Fire Phoenix might awaken soon.

They absolutely can't waste too much time!

Thinking it over, Qiu Yunxin ultimately left a Magic Treasure beside the red-dressed woman.

To protect her from certain dangers and troubles while she's unconscious!

"Then let's get ready to go in!"

After leaving a Magic Treasure by the red-dressed woman, Qiu Yunxin smiled at Mu Jinyu.

Saying that, she took out an elixir and swallowed it.

"What are you taking?" Mu Jinyu asked curiously when he saw her suddenly taking an elixir.

He remembered when the red-dressed woman tried using her aura to suppress Qiu Yunxin, she was directly defeated by those three.

She wasn't hurt at all!

Why take medicine?

Qiu Yunxin heard Mu Jinyu's inquiry and replied: "Fire Avoidance Pill..."

She explained: "The flames in this Phoenix Tree Forest are intense, not something ordinary people can endure, at least I can't, but taking this elixir that increases fire resistance allows me to enter!"

Finishing, she looked at Mu Jinyu asking: "Senior Mu, didn't you prepare such elixir?"

She clearly remembered mentioning the situation here to Mu Jinyu, and explaining the extreme danger and high temperature of the Phoenix Tree Forest.

She thought Mu Jinyu would make some preparations beforehand.

But from his current reaction, seems like he made no preparation!

Thinking this, Qiu Yunxin took out another elixir, handing it to Mu Jinyu saying: "Senior Mu, if you didn't prepare, take one of mine..."

Although she felt reluctant, to smoothly obtain the Phoenix Sun Blazing Spirit Fruit, she had to bring out this Fire Avoidance Pill.

This highly effective Fire Avoidance Pill costs fifty academic credits!

Two would mean a hundred academic credits!

Thus making Qiu Yunxin feel distressed!

Completing the task from Mu Jinyu, the final credits would be two hundred, and she hadn't received them yet!

Now losing a hundred credits upfront, she felt helpless!

Mu Jinyu took a look at the Fire Avoidance Pill, shook his head slightly saying: "No need, I can withstand the temperature here!"

His Physical Body was already tempered strongly, reaching Five Jiao Dragons' Strength!

Moreover, he once claimed a Little Phoenix's Phoenix Tree in Kunlun Ruins for cultivation, once cultivating the Undying Phoenix Body!

Though the Phoenix Tree in Kunlun Ruins can't compare to Canglan Realm's, that so-called Undying Phoenix Body doesn't mean much.

It still granted him some resistance.

Making him not fear the Fire Attribute as much!

Chapter 1906 1906: Entering the Phoenix Tree Forest! Phoenix Sun Blazing Spirit Fruit! Let's Leave First!

"No need?"

Hearing Mu Jinyu's words, Qiu Yunxin became anxious and quickly advised, "This place is really dangerous, senior, don't act recklessly!"

Mu Jinyu smiled and said, "I'm not blindly confident, nor am I acting recklessly. How about I go in first for you to see? If I really can't withstand it, then I'll take the elixir, okay?"

"Alright..."

Seeing Mu Jinyu speak like this, Qiu Yunxin thought for a moment and could only agree.

Then, Mu Jinyu took steps forward, walking into the blazing Phoenix Tree Forest.

Observing this, Qiu Yunxin's gaze became tense, she couldn't help but clench her fists tightly as she continuously cheered inwardly.

If possible, Qiu Yunxin certainly hoped Mu Jinyu could withstand the intense heat here, allowing her to save a Fire Avoidance Pill.

After all, she had only bought three Fire Avoidance Pills in preparation for this journey.

After all, each one costs fifty school credits.

For a beginner student like her, it's a sky-high price, extremely expensive!

Given that even a single Low Grade Divine Weapon only costs over ten credits, fifty credits could buy a very fine Superior Divine Weapon!

But to ensure greater certainty of obtaining the Phoenix Sun Blazing Spirit Fruit, she could only make this painful preparation, spending so many credits to buy three Fire Avoidance Pills.

Three pills, she worries may not be enough for herself!

If she were to give one to Mu Jinyu.

In the end, if they lingered inside for too long and the pill's effect wore off, then what would happen with the last Fire Avoidance Pill? Who would use it?

Wouldn't someone face danger among them?

If they had to leave early to buy more Fire Avoidance Pills, would they miss the opportunity for the Phoenix Sun Blazing Spirit Fruit to mature, only for the Little Fire Phoenix to awaken and eat it, or worse, let others snatch it? This was a major concern.

So, hearing Mu Jinyu hadn't bought a Fire Avoidance Pill left Qiu Yunxin stunned for quite a while, her mind even harboring some resentment towards him.

Now, Mu Jinyu claims he doesn't need a Fire Avoidance Pill, and can withstand the Strange fire here by himself!

Though Qiu Yunxin felt somewhat incredulous, she still hoped Mu Jinyu could do it!

If so, the three Fire Avoidance Pills she prepared could all be used by herself, which would be sufficient for her to make it through this period.

"Whew whew..."

Under Qiu Yunxin's tense watch, Mu Jinyu slowly walked into the Strange fire-wreathed Phoenix Tree Forest, looking composed without feeling unbearably scorched.

Mu Jinyu then turned back, looking at Qiu Yunxin, and asked, "Would the temperature be lower here? Should I test going deeper into the forest and see if I can withstand it?"

"No... no need..."

Seeing Mu Jinyu truly able to effortlessly withstand the Strange fire scorching, Qiu Yunxin, after a moment of bafflement, shook her head and said.

The Strange fire temperature in this Phoenix Tree Forest certainly varies, becoming more terrifying the deeper you go!

And close to the Phoenix Sun Blazing Spirit Fruit, the temperature is beyond normal limits, not accessible to everyone!

But since Mu Jinyu could easily withstand the outer area, it indicated he probably would also manage the central region!

It would just be a bit arduous!

So, Qiu Yunxin let Mu Jinyu skip further testing, allowing them to go in directly!

"Alright, then you come in too." Seeing Qiu Yunxin no longer demanded him to prove himself or take any Fire Avoidance Pill, Mu Jinyu nodded with a smile.

"Mm."

Qiu Yunxin nodded and replied with a sound, before stepping along with Mu Jinyu into the Phoenix Tree Forest.

Entering, she felt somewhat tense.

While she's aware she took a Fire Avoidance Pill with a sufficient quality grade capable of enduring the high temperature here comfortably, she was still a bit scared!

But once entering the Phoenix Tree Forest, she didn't feel the high temperature, instead experiencing an amicable sensation, as if like a fish in water, causing an elated smile to adorn her face, then she pointed and guided Mu Jinyu, "Senior Mu, let's go, the Phoenix Sun Blazing Spirit Fruit is in this direction!"

Under Qiu Yunxin's guidance, Mu Jinyu led her quickly speeding inward!

An hour later.

Circling around within the Strange fire-shrouded Phoenix Tree Forest, they finally arrived at a clearing!

In this clearing, within a hundred-mile radius, there were no plants, even those outer Phoenix Trees couldn't survive here!

Because the temperature was excessively high here!

The Strange fire originally vivid red on the outside, now had turned golden.

Almost resembling True Sun Fire!

And in the center of the clearing, a golden fruit tree was growing!

Its trunk and leaves also appeared blazing gold, as if cast in gold.

On this fruit tree, ten fruits, resembling persimmons, are growing.

This is the Phoenix Sun Blazing Spirit Fruit!

Its color is presently reddish-gold.

Not completely matured yet.

Looking akin to persimmons painted with gold polish.

When it fully matures, it'll become pure gold color!

At that point, it can be picked!

One is akin to a piece of Heavenly Mysterious Ice Spirit Marrow!

"Hmm?!"

Upon arriving here, Mu Jinyu felt slightly warm, comparable to normal people under forty-degree high heat, able to sustain still!

However, Qiu Yunxin seemed less able to sustain, sweat continuously pouring, looking like an ice cream about to melt.

Especially being in a white dress, she appeared even more so!

But as soon as her sweat flowed, it instantly evaporated, making her appear immensely dry!

As if becoming a mummy!

Seeing Qiu Yunxin's reaction, Mu Jinyu said, "You should rest behind, or leave directly, and when I've picked the fruit, we can split them outside!"

"This... okay!!"

Hearing Mu Jinyu's suggestion, Qiu Yunxin showed a brief hesitance.

She was slightly worried Mu Jinyu planned to send her away, then monopolize the Phoenix Sun Blazing Spirit Fruit.

Since if she wasn't there to observe it, the question of whether the fruit matured or if Mu Jinyu picked them solely depended on Mu Jinyu's word.

He could fully return empty-handed and claim the Little Fire Phoenix awakened earlier, forcing him to retreat.

She had no way to deal with Mu Jinyu, couldn't check his Qiankun Ring after all!

But not agreeing with Mu Jinyu would leave her with no alternative either.

Firstly, she genuinely couldn't endure staying here long!

The anticipated effectiveness of the Fire Avoidance Pills wasn't as expected, even with three pills taken sequentially, she'd only withstand here for a day.

Yet clearly, the Phoenix Sun Blazing Spirit Fruit might not mature within a day!

Secondly, if Mu Jinyu truly wished to deny her, even if she insisted on staying.

Mu Jinyu could easily eliminate her and later claim a task mishap led to her demise.

And he now being a senior student, while she's just a beginner student, obviously, the tutors and institute head wouldn't severely pursue it!

Thus, after pondering repeatedly, Qiu Yunxin had no choice but to trust Mu Jinyu's character.

Hopefully, he wouldn't deceive her.

Even if only giving her a single Phoenix Sun Blazing Spirit Fruit.

That way, it wouldn't be an entirely wasted trip.

And those three Fire Avoidance Pills would be worth it.

"I'll escort you out first!"

Mu Jinyu considered it again, seeing the Phoenix Sun Blazing Spirit Fruit hadn't matured yet, in case Qiu Yunxin left alone she might encounter danger, deciding to escort her out!

Chapter 1907 1907: Family Alliances from All Sides! Waiting! Finally Ripened!

"Alright, wait outside for now. Once I obtain the Phoenix Sun Blazing Spirit Fruit, we can split it."

Mu Jinyu instructed Qiu Yunxin softly as they walked out of the Phoenix Tree Forest.

"Okay..."

Qiu Yunxin pursed her lips slightly, nodded in agreement, her expression slightly conflicted.

Mu Jinyu didn't think much about what she was conflicted about and turned around, quickly heading towards the fiery Phoenix Tree Forest.

Just as he approached the Phoenix Sun Blazing Spirit Fruit Tree, he sensed quite a number of people hiding in the shadows around him.

He also worried that if he lingered too long and the Phoenix Sun Blazing Spirit Fruit suddenly matured, these people might snatch it away, causing him a big loss.

Watching Mu Jinyu's swiftly disappearing figure, Qiu Yunxin retracted her gaze and then looked towards the woman in the red dress still lying in the grass.

Slightly furrowing her brows, Qiu Yunxin thought for a moment. After all, they were classmates; leaving her like this was really inappropriate, so she went over to help her.

Then she checked her injuries and fed her some Healing Medicine...

...

Mu Jinyu entered the fiery Phoenix Tree Forest once again. With the experience of coming once before, he found the location of the Phoenix Sun Blazing Spirit Fruit Tree much faster this time.

Arriving at the open area, shimmering with golden light and twisted by the flames in the void nearby, Mu Jinyu glanced at the Phoenix Sun Blazing Spirit Fruit Tree.

Thankfully, the fruit was still emitting a reddish-gold hue, resembling persimmons coated with gold varnish, not yet completely turning pure gold. He breathed a silent sigh of relief.

It hadn't matured ahead of time to be snatched away, which was certainly a good thing!

Next, Mu Jinyu scanned the opposite and both sides of the Phoenix Tree Forest.

In these areas, there were weak life signals, indicating either lurking Exotic Beasts or Foreign Race members, or individuals like Qiu Yunxin who were aware of this lead, and had arrived early, waiting for the right moment to pick the Phoenix Sun Blazing Spirit Fruit.

"These people hiding in the dark are inconsequential. The key is, where's the Fire Phoenix Qiu Yunxin mentioned? Why hasn't it been seen?"

Mu Jinyu withdrew his gaze from those corners and swept his eyes across the open area, but couldn't find any sign of the Fire Phoenix.

He then speculated that perhaps the Fire Phoenix wasn't in this open area but was slumbering somewhere within the Phoenix Tree Forest?

This must be the case, right?

Otherwise, why would so many dare to venture here intent on seizing the Phoenix Sun Blazing Spirit Fruit?

As Mu Jinyu observed the surroundings and searched for traces of the Fire Phoenix,

a group hiding within another section of the Phoenix Tree Forest also sensed his arrival.

"This..."

"This guy again? But the weak aura next to him is gone!"

"He must have sent that person away, right? I thought they backed down!"

"Nevermind, he's just a Void Breaking Realm junior, no need to pay much attention!"

"Yes, don't bother with him. When the Phoenix Sun Blazing Spirit Fruit matures, if he recklessly competes for it, we'll easily send him on his way!"

"..."

The group hiding in the eastern corner frowned secretly at Mu Jinyu's return and whispered among themselves.

They didn't regard Mu Jinyu as significant at all.

Quite naturally, based on the current information, the Fire Phoenix guarding the Phoenix Sun Blazing Spirit Fruit was a Mid Stage of Life and Death Realm.

It should be capable of combating someone from the Late-stage Life and Death Realm or even those at their Peak!

Therefore, anyone below the Life and Death Realm coming to this Phoenix Tree Forest was basically seeking death!

And this group's cultivation was all at the Life and Death Realm!

Some individuals even had cultivation reaching the mid or late stages of the Life and Death Realm!

They should be able to confront the Fire Phoenix head-on.

Among the Human Race, it's rare to find cultivators with Life and Death Realm.

Because to enter this realm, one must go to places like the Tiangan Secret Realm to modify their body with Creation Liquid to continue cultivating the Exotic Blood Path.

Otherwise, they would eventually be countered by the Exotic Blood within!

Thus, without coming from major families in the state domain, one wouldn't possess the Life and Death Realm foundation!

Just like the Xuu Family in Muyun Province, their clan leader and the former clan leader possessed Life and Death Realm cultivation.

Others didn't have such cultivation!

Only major royal clans and Dongyue Mansion boast two-digit numbers of Life and Death Realm cultivators!

And other Human Race forces in the Eastern Region, although they don't have many Life and Death Realm cultivators, can still foster one or two Life and Death Realm warriors with united clan efforts!

Hence, the group gathered in the eastern corner weren't from a single force!

Rather, they were an alliance from several major families near Tonglin Province from neighboring state domains.

These families, in their respective domains, had standings not inferior to the Xuu Family from Muyun Province, whose Clan Leader and Supreme Elder also had Life and Death Realm cultivation.

Although they're not equal to royal clans and Dongyue Mansion, they are still considered powerful Human Race forces.

This is why a few individuals among them have mid or late-stage Life and Death Realm cultivation!

United for gaining the Phoenix Sun Blazing Spirit Fruit, they naturally wouldn't allow other forces to contend with them.

After all, even they found the distribution of these ten Phoenix Sun Blazing Spirit Fruits doesn't seem enough for their families!

Could they really make room for other forces to share?

"This little guy is insignificant, no need to worry, keep an eye on the other directions! I sense strong Life and Death Realm presence over there; be vigilant!"

"Yes! That area likely has a family alliance from several state domains aiming to monopolize the ten Phoenix Sun Blazing Spirit Fruits, or someone will be displeased. We and they are adversaries; we can't amicably share!"

With greater confidence in securing the Phoenix Sun Blazing Spirit Fruit, family forces from several state domains nearby form alliances, intending to divvy up the ten fruits among themselves after seizing them.

Cooperating amicably with other alliances, the ten Phoenix Sun Blazing Spirit Fruits wouldn't suffice, leading to inevitable conflict.

Thus, these hidden family alliances can only have one side seize the fruits, whereas the others must either perish or concede.

No other choice!

The dialogue within the eastern corner family alliance shares similarities with those in the other Tree Forest corners among various family alliances.

Essentially, none of them paid heed to the recently arrived Mu Jinyu.

Not only did his cultivation fail to earn attention, but more crucially, he was alone!

Facing numerous Life and Death Realm powerhouses, if he recklessly attempted to compete, he was courting death!

They wouldn't mind sending him to the Western Heaven!

Their focus remained on the other family alliances!

Mu Jinyu was unaware of their sentiments, patiently awaiting the maturation of the ten Phoenix Sun Blazing Spirit Fruits.

While constantly vigilant for the possible emergence of the Fire Phoenix!

Time passed slowly.

Finally, after a day and a half,

the ten reddish-gold Phoenix Sun Blazing Spirit Fruits were on the verge of maturing!

Chapter 1908: Scramble! A Killing Strike! Impatience!

"They're finally about to ripen!"

"Very good, the Fire Phoenix hasn't appeared, it should still be asleep. As long as we push a bit harder, beat these people, and take down the Phoenix Sun Blazing Spirit Fruit early, we can get away safely!"

"..."

Seeing that the Phoenix Sun Blazing Spirit Fruit was about to ripen, all the Cultivators from the various family alliances hiding in the dark were all suddenly energized, licking their cracked lips, excitedly transmitting messages to each other with Spiritual Thought.

Mu Jinyu wasn't as worked up as they were, but he still let out a breath of relief.

They were finally going to be completely ripe.

And with the Fire Phoenix not showing up, things would indeed be much easier.

Under Mu Jinyu's gaze, the Phoenix Sun Blazing Spirit Fruit Tree rooted in the center of the clearing, with ten Phoenix Sun Blazing Spirit Fruits hanging from its trunk, was having their color slowly shift from crimson-gold, gradually turning into pure gold!

The faint red, as if a layer of vermilion lacquer clinging to fruits cast from Gold, after countless years, was finally about to peel off completely.

Revealing the truly round and plump Phoenix Sun Blazing Spirit Fruits, gleaming like they were cast entirely from Gold!

"Ssshhh..."

At last, under everyone's excited stares, after they waited another ten-plus minutes—

The Phoenix Sun Blazing Spirit Fruit Tree trembled slightly a few times, and those ten Phoenix Sun Blazing Spirit Fruits finally shed that faint trace of red completely, turning into pure gold.

At the same time, an even more terrifying high temperature burst out from the Phoenix Sun Blazing Spirit Fruit Tree, spreading toward all directions!

"Do it!!"

As the Phoenix Sun Blazing Spirit Fruits fully ripened, people from all the family alliances hiding in the Phoenix Tree Forest immediately someone whispered darkly, then they all stepped out, swallowed a Top-grade Fire Avoidance Pill in unison, and charged straight toward the golden-flame-woven clearing!

Their target was precisely the Phoenix Sun Blazing Spirit Fruits!

Mu Jinyu also moved at this moment!

"Boom!!"

"Bang!!"

As Mu Jinyu rushed toward the Phoenix Sun Blazing Spirit Fruits, the various family alliance forces didn't pay too much attention to him.

They clashed with each other first, instantly erupting into one fierce battle after another.

Once anyone was about to get close to the Phoenix Sun Blazing Spirit Fruit Tree, the other family alliance groups would definitely try every means to stop them!

And Mu Jinyu, under everyone's underestimation, very easily closed in to within twenty meters of the Phoenix Sun Blazing Spirit Fruit Tree!

"Hm?!"

"This brat!"

"Quite the guts!"

"Come die!!"

The people from four family alliances were currently fighting and slaughtering each other, madly blocking anyone else from getting close to the Phoenix Sun Blazing Spirit Fruit Tree. At this moment, seeing Mu Jinyu suddenly rush up to them, trying to cross past them and approach the Phoenix Sun Blazing Spirit Fruit Tree—

Their expressions all changed, and with a tacit understanding they all stopped their fighting and stalemate, unleashing Divine Skills to blast at Mu Jinyu!

Just a little Void Breaking Realm brat!

And he actually dared dream of snatching food from the tiger's mouth and competing for the Phoenix Sun Blazing Spirit Fruits right under their eyelids?

Doesn't he piss and take a look at himself to see what kind of crap he is!

They simply didn't put Mu Jinyu in their eyes. Even though he wore the attire of a Senior Student of Dongyue Mansion, they were fearless; kill him and that was that.

Anyway this place was rather special, they didn't even dare extend their Divine Sense. Even if Mu Jinyu died here, even with Dongyue Mansion holding his Life medallion, it would be almost impossible to discern his cause of death!

"Boom!!"

"Bang!!"

Seeing these people all strike at him together, Mu Jinyu's face remained unchanged, but his gaze gradually turned arrogant, carrying a look of condescending dominance!

He didn't even glance at them, directly made his move, both hands pushing out as the sun and the lunar star appeared in an instant, then fused together, turning into a ball of light like a Yin Yang Life and Death Fish of Tai Chi chasing each other, which he hurled straight at them!

"Rumble!!"

This one move Yin Yang Life and Death Fish from Mu Jinyu was extremely powerful. When it smashed near them and collided with the Divine Skills they'd just blasted out, it was instantly triggered and detonated!

Like thunder exploding on flat ground!

Then a mushroom cloud ten meters tall rose up from their side!

"What the hell?!"

"Whose Divine Skills is that?"

"Why is its power so huge?"

"Damn it!"

"Old Wu and Xiao Lin, they're both dead..."

The disturbance on this side was extremely fierce, immediately drawing the attention of the other groups of people who were fighting intensely.

When they saw that huge mushroom cloud dissipate, they saw quite a few scattered remnants falling from the sky.

The ones hit by the Yin Yang Life and Death Fish actually didn't even leave an intact corpse.

You couldn't even find any trace of what they looked like in life.

If they hadn't carefully counted amongst themselves who exactly was missing—

They wouldn't even know who had died!

"Damn it!"

Just as the various family alliances were mutually wary—

At this time, someone noticed that Mu Jinyu had already gotten close to the Phoenix Sun Blazing Spirit Fruit Tree and was in the middle of picking those ten fully ripe, golden Phoenix Sun Blazing Spirit Fruits!

In an instant, the dozen or so Life and Death Realm Cultivators present all had a drastic change of expression!

Their gazes at Mu Jinyu were filled with bone-deep killing intent, as if they wanted to immediately skin him alive and swallow him whole!

They now all understood.

The ones who had just died so miserably were definitely the ones who had gone to stop Mu Jinyu when he closed in on the Phoenix Sun Blazing Spirit Fruit Tree, and had ended up being killed by him!

"This guy is clearly only at the Void Breaking Realm in Cultivation, how can he be this strong?"

"What are you still dazing for? Hurry up and move, stop him from seizing the Phoenix Sun Blazing Spirit Fruits!"

"..."

While they hesitated between fear and rage, Mu Jinyu had already picked three Phoenix Sun Blazing Spirit Fruits!

This only made them even angrier!

So this moment, they all struck out together, putting aside their respective grudges and joining forces, planning to deal with Mu Jinyu first!

"Hm?!"

On Mu Jinyu's side, he was enduring the terrifying heat, gritting through the burns as he picked the Phoenix Sun Blazing Spirit Fruits. Just as he plucked the third Phoenix Sun Blazing Spirit Fruit, he felt Divine Skills fluctuations and interwoven Laws surging from behind!

This made his eyes narrow slightly, a trace of impatience flashing through them!

"Hah!"

Then Mu Jinyu directly turned around, lightly clenched his right hand, and the Riot-Quelling Sword was suddenly gripped in his hand.

"Rumble!!"

Mu Jinyu slashed out with a single stroke, and the Blood-colored Dragon-slaying Sword, ferocious and savage, crashed forward, shattering all the Divine Skills cast by those Life and Death Realm Cultivators in a completely unstoppable manner!

"Boom!!"

"Bang!!"

In the end, after smashing apart their Divine Skills, the blood-colored Sword Dragon then pierced toward their bodies!

"Ah!!"

The crowd screamed miserably in unison, completely losing the ability to resist, heavily wounded as they plummeted down!

However, because the initial might of the Sword Dragon Slash had already been greatly diminished after colliding with those terrifying Divine Skills—

When the Sword Dragon continued on to strike these people, it was unable to kill them all in one go!

It only severely injured them!

Seeing this, Mu Jinyu raised an eyebrow, then gripped the Riot-Quelling Sword again, preparing to give them another Blood-colored Dragon-slaying Sword!

He hadn't originally planned to duke it out with them, because in his eyes, these Phoenix Sun Blazing Spirit Fruits were already in the bag.

But these people were really too annoying, like locusts endlessly pestering him, so he'd given up on using Divine Skills derived from the Killing Character Secret Technique to test them.

And instead decided to just kill them all cleanly first!

Then he could quietly pick the Phoenix Sun Blazing Spirit Fruits!

"Hm?!"

Just as Mu Jinyu was about to give them another slash and send them on their way—

He suddenly seemed to sense something terrifying, his whole body tensing up, then he abruptly raised his head and looked toward the sky!

Chapter 1909: The Fire Phoenix Appears! Fierce Battle! Did They Escape?

"Hmm?!"

"That is..."

Mu Jinyu held the rusted Riot-Quelling Sword and suddenly looked up at the sky.

What he saw was the sky above, where clusters of golden flames intertwined in the void, suddenly twisting.

Then, a terrifying aura, vast enough to evoke despair and unease, gradually erupted from within!

At first, Mu Jinyu didn't react, thinking that this group could still unleash some divine skills to attack him even after being seriously injured!

But soon, he sensed something amiss!

This power was infinitely approaching the Creation Realm!

It is the Creation Realm!

This is the power and aura of the Creation Realm!

Mu Jinyu's expression changed, and he instantly understood that this must be the Fire Phoenix!

The owner of this Phoenix Tree Forest!

Qiu Yunxin's clues were wrong!

The cultivation of the Fire Phoenix is not at the Mid Stage of Life and Death Realm!

But has already reached the Creation Realm!

"Screech!"

As an involuntary trace of fear rose in Mu Jinyu's heart.

A piercing cry, as if breaking through the darkness and letting one see the light, echoed, piercing through the sky!

"Boom!!"

Then, the golden flames burning fiercely in this clearing all rioted, with clusters of flames swiftly sweeping towards the position of the disturbance in the sky!

"Boom boom boom!!"

The flames intermingled, continually weaving and shaping into splendid golden feathers.

Finally, evolving into a majestic and beautiful phoenix-like bird.

Its entire body was adorned with golden feathers, burning with clusters of golden flames, but the emitted light was dazzlingly multicolored.

Giving it a peacock-like appearance!

This!

Is the owner of this Phoenix Tree Forest, the Fire Phoenix!

Containing the phoenix bloodline!

Extremely powerful!

"Screech..."

The Fire Phoenix rematerialized from the flames, its sharp and majestic gaze instantly fixating on Mu Jinyu standing beside the Phoenix Sun Blazing Spirit Fruit Tree, filled with anger!

It let out a terrifying cry, transforming into human voice through spiritual thought!

"Vile human, dare to touch my fruit, die!!"

After saying this, the Fire Phoenix gave Mu Jinyu no time to explain, its wings flaring, causing a massive blaze of seven-colored flames to rise, swirling into a huge fireball, then descending like a meteor towards Mu Jinyu below!

The momentum was utterly terrifying!

Mu Jinyu was momentarily stunned by the appearance of the Fire Phoenix.

After all, he didn't expect the Fire Phoenix to have been in this clearing all along, merely transformed into clusters of golden flames.

Now, seeing the Fire Phoenix launching a dreadful offensive against him.

The surrounding power of laws was burned and snapped, he too regained his composure.

However, he did not show fear, his clear eyes also flickering with intense fighting spirit!

"Haa!!"

A deep shout, Mu Jinyu gripped the Riot-Quelling Sword, slashing forward fiercely, and once again launched a Blood-colored Dragon-slaying Sword!

"Boom!!"

Instantly, the fearsome Sword Dragon extended from the tip of the blade, directly striking towards the meteor shower falling from the sky!

Then the two collided, and the Blood-colored Dragon-slaying Sword was overwhelmed by the fiery meteor shower and dissipated.

However, after shattering the Sword Dragon, the meteor shower's power was nearly exhausted.

Mu Jinyu sliced it away with a few casual Firewood Chopping Saber Techniques.

"How is this possible?!"

"He can withstand the Fire Phoenix's attack?!"

"Impossible! Isn't he only at the Void Breaking Realm's cultivation?"

"This strength, could it be that he is at the Creation Realm, relying on some secret treasure to conceal his cultivation at the Sixth Layer of Void Breaking Realm?"

"It must be that way!"

"Too despicable! He even intentionally wore Dongyue Mansion's student attire to mislead us!"

"He must be some Mansion Master of Dongyue Mansion, truly vile!"

"..."

As Mu Jinyu ended his first bout with the Fire Phoenix, slightly at a disadvantage.

The members of the family alliance, injured and fallen by the Sword Dragon Slash, all stared wide-eyed, unable to believe this scene.

They found it hard to imagine that Mu Jinyu, this guy, could use the cultivation of Void Breaking Realm, crossing two major realms to battle the Fire Phoenix of Creation Realm!

Then they concluded, Mu Jinyu definitely isn't at Void Breaking Realm's cultivation, but similarly at Creation Realm, merely using some secret treasure to hide his cultivation!

His true identity must be some Institute Head of Dongyue Mansion!

This left them furious and unwilling!

Because it means their painstaking arrangements would be in vain, having come here for nothing.

With no chance to obtain a Phoenix Sun Blazing Spirit Fruit!

"Damn it!"

"We better not watch their battle; we just attempted to attack him and intended to seize the Phoenix Sun Blazing Spirit Fruit. Regardless of who wins or loses next, they won't let us go. We better seize this chance to retreat first!"

"..."

As Mu Jinyu and the Fire Phoenix concluded their initial probing and began a more terrifying battle.

Some family clan leaders finally felt panic and dread, no longer daring to stay here, abandoning the idea of acquiring the Phoenix Sun Blazing Spirit Fruit, opting for safety!

Then, they struggled to rise, preparing to quickly run away!

"Boom!!"

In mid-air, Mu Jinyu, unable to resolve the Fire Phoenix with Sword Dragon Slash, then engaged with Life and Death Twin Dragon Fist!

Also, a closely matched contest!

"Better not to get entangled, lest the Phoenix Sun Blazing Spirit Fruit gets destroyed by this beast!"

Ordinarily, Mu Jinyu wouldn't mind battling the Fire Phoenix longer, but now, beside him is the Phoenix Sun Blazing Spirit Fruit Tree, he wouldn't risk accidentally destroying the remaining seven unpicked Phoenix Sun Blazing Spirit Fruits.

Hence, Mu Jinyu decisively sought to swiftly deal with the Fire Phoenix!

"Boom!!"

Then, Mu Jinyu brought out the Corpse-Wrapping Cloth!

He then utilized this mysterious Corpse-Wrapping Cloth to unleash the Life and Death Reincarnation Diagram!

"Boom" and devoured the Gold Flame Phoenix Slash released by the Fire Phoenix!

The Corpse-Wrapping Cloth then flared brightly, releasing a significantly larger Gold Flame Phoenix Slash!

"Boom!!"

The Fire Phoenix had never encountered such a situation!

Unable to dodge in time, it was hit directly by the divine skills it unleashed in enraged anger!

Instantly, countless golden feathers scattered in the air, and large splashes of golden phoenix blood fell from the sky!

However, before hitting the ground, it naturally ignited, turning into clusters of terrifying golden flames!

"Screech!!"

The Fire Phoenix suffered a heavy blow, but since it was originally at Creation Realm, it managed to withstand this wave of divine skills backlash.

Then let out a cry filled with extreme anger.

"Human, you have angered me!"

"Die!!"

After a sharp roar as if piercing one's eardrums, the Fire Phoenix engaged in ruthless combat with Mu Jinyu!

Even willing to risk its own life to send Mu Jinyu to death!

After all, it possesses the Innate Divine Ability to undergo Nirvana Rebirth!

Mu Jinyu found it irritating, then noticed the family clan leaders who hadn't died had quietly escaped, already far from the clearing.

After thinking it over, Mu Jinyu finally brought out the Earth Emperor's Tome!

Chapter 1910: Slaying the Fire Phoenix! Claiming All the Phoenix Sun Blazing Spirit Fruits!

If it were anywhere else, Mu Jinyu might not dare to take out the Earth Emperor's Tome.

After all, it could be discovered by others, easily exposing both him and the tome.

But this Phoenix Tree Forest is somewhat special.

Within it, even divine sense is difficult to extend, let alone spy on others.

For this reason, when Mu Jinyu previously came here, he only knew someone was hiding nearby, but not who they were.

So at this moment, seeing that those people were no longer around and it was just him and the Fire Phoenix nearby, Mu Jinyu dared to decide to bring out the Earth Emperor's Tome and fight the Fire Phoenix.

Resolve it as soon as possible!

"Boom!!"

It was at this moment that the Fire Phoenix, in a rage, desperately unleashed a torrent of fiery rain, transforming into several Fire Phoenixes charging towards Mu Jinyu to kill him!

"Boom!!"

At this moment, Mu Jinyu also took out the Earth Emperor's Tome and activated it.

"Bang!!"

The first thing that appeared was the ominous Ghost Gate that resembled a giant skull, filled with unparalleled evil qi rising to the sky!

It filled the surrounding air with a sense of hostility and malice!

"Bang bang bang!!"

Subsequently, the rain of fire from the Fire Phoenix consistently bombarded the Ghost Gate.

But it was like sparks hitting a wall, with the sparks extinguishing instantly, and the wall remaining unharmed!

"Screech!!"

The Fire Phoenix, seeing this scene, couldn't help but let out a cry of confusion and fear, mixed with a bit of dread.

It didn't know what magic treasure Mu Jinyu took out, but from the depths of its being, it felt terrified, even sensing fear and despair.

It felt this large mass seemed much stronger than the Corpse-Wrapping Cloth Mu Jinyu had just used!

"Boom!!"

Just as the Fire Phoenix hesitated, unsure of whether to flee immediately.

The arrangement of the Earth Emperor's Tome finally appeared.

The Road to the Netherworld, Naihe Bridge, River of Oblivion, Three Life Stone...

Numerous scenic structures directly occupied the over a hundred miles of open space, enclosing the Fire Phoenix within.

It was as if it had fallen into the Underworld Residence, making it feel as if it had sunk into an ice cave.

"This is..."

The Fire Phoenix, seeing the surroundings, vaguely thought of some Human Race treasure, but couldn't remember immediately.

"Boom!!"

Then, with the full activation of the Earth Emperor's Tome, the formation was activated.

The Fire Phoenix was shocked to find its cultivation was forcibly suppressed.

From the Creation Realm, it began to decline to the Life and Death Realm.

It soon fell to the late-stage Life and Death Realm!

Unable to maintain its peak Life and Death Realm state!

"This is... the Earth Emperor's Tome?!"

Finally, the Fire Phoenix remembered what this magic treasure was.

It looked up along the countless ghost shadows towards Mu Jinyu, its golden eyes flickering with disbelief and astonishment.

"Screech!!"

The next second, the Fire Phoenix screeched, immediately flapping its wings, ready to escape from here.

It even forsook its Phoenix Sun Blazing Spirit Fruit!

It knew if it persisted, its life would be in jeopardy, let alone reclaiming its Phoenix Sun Blazing Spirit Fruit!

"Now you want to escape, is it too late?"

However, since Mu Jinyu had already taken out the Earth Emperor's Tome, how could he let it escape?

With a cold smile, Mu Jinyu gripped the Riot-Quelling Sword again, his eyes cold and electric, then fiercely slashed towards it!

"Roar!!"

Immediately, the mottled rust marks on the Riot-Quelling Sword flickered on and off, then a hideous, sword armor-clad giant dragon separated from the Riot-Quelling Sword.

It charged towards the Fire Phoenix, which attempted to flee on wings!

"Boom!"

The same move!

The same opponent!

But previously, the Fire Phoenix could easily withstand this Bloodlight Sword Dragon Slash without a scratch, even with spare strength.

But now, as the Fire Phoenix desperately fought back, the massive fiery rain it unleashed was instantly scattered by the furious dragon, leaving it watching helplessly as the evil dragon struck its body with a single blow.

Piercing through its chest!

"Pfft!!"

Beautiful and tragic blood sprinkled down from the air.

Turning into golden flames that soon dissipated.

Simultaneously, countless feathers flew about.

The Fire Phoenix's momentum greatly diminished, heavily injured, it was already falling from the sky, its form becoming smaller, even curling into a ball, the golden light flickering, seemingly ready for nirvana!

"Hmm?!!"

Seeing the Fire Phoenix in this state, Mu Jinyu couldn't help but hesitate.

Wondering whether to strike and finish it off or hold back.

Claim its Fire Phoenix Egg after nirvana?

At that moment, Mu Jinyu also thought of his experience in the Kunlun Ruins.

At that time, he also clashed with a Little Phoenix and eventually forced it into nirvana, ultimately making it his spirit pet.

Though not exactly a spirit pet!

The Little Phoenix simply felt it had much to gain by staying by his side, so it remained with them.

Now, should he also subdue this Fire Phoenix?

After all, it was a Creation Realm Fire Phoenix.

And it had consumed Phoenix Sun Blazing Spirit Fruit for many years?

While Mu Jinyu hesitated.

"Clang!!"

The Riot-Quelling Sword in Mu Jinyu's hands didn't hesitate, letting out a cold, murderous clang, incessantly urging.

Emitting a notion, craving blood, it desired to drink the blood of the foreign race...

Instantly, Mu Jinyu snapped out of his contemplation.

Indeed!

This is the Canglan Realm!

Not the Kunlun Ruins!

The foreign races here were not amicable with the Human Race!

This Fire Phoenix was unlikely to willingly become his spirit pet!

Mu Jinyu also recalled the first time the Fire Phoenix appeared, its eyes filled with killing intent and hatred, staring straight at him!

With an aloof disdain and contempt.

It had never regarded the Human Race at all.

"Too dangerous, and may expose the Earth Emperor's Tome, better to kill it!"

Mu Jinyu's eyes turned cold, looking at the Fire Phoenix in mid-air, curled up with a golden flame burning intensely, seemingly forming an eggshell, then tightened his grip on the Riot-Quelling Sword.

Sharing the same desire and killing intent.

Then fiercely slashed again!

"Boom!!"

Instantly, the terrifying blood dragon charged forth again!

Striking the Fire Phoenix at close range, shattering its just-formed fragile eggshell, piercing through its body once more!

"Bang!!"

Feathers scattered down in large swathes!

This time, there wasn't much blood spilling.

Because it was all absorbed by the Riot-Quelling Sword!

"Roar!!"

After the blood dragon pierced through the Fire Phoenix's body, it turned around and attacked the Fire Phoenix again.

"Boom!"

"Boom!!!"

After nine consecutive strikes, accompanied by a miserable and despair-filled cry, the once-arrogant Fire Phoenix finally turned into a clump of flames, then was completely swallowed by the Riot-Quelling Sword!

"Puff puff puff!!"

With the fall of the Fire Phoenix.

The countless feathers it shed when heavily injured now all caught fire, quickly vanishing into oblivion!

"Collect!"

Seeing this, Mu Jinyu, feeling the satisfaction and joy from the Riot-Quelling Sword in his hand, turned it over and put it away.

Then he put away the Earth Emperor's Tome.

After storing the Earth Emperor's Tome, he cautiously surveyed the surroundings and, not finding anything, he silently breathed a sigh of relief.

Then his gaze slowly turned towards the seven remaining Phoenix Sun Blazing Spirit Fruits at the center of the open space...
