Chapter 921: Never Regretted Scheming Against You!

"How is this possible?!"

"The Defensive Shield of our Blood Sword Sect can withstand the attacks of mid-late stage Fanxu Realm experts, even the Great Elder couldn't break it in a short time. How did this guy break it a few times?!"

"Since when did Yan Kingdom have such a strong expert? And when did we provoke him?"

"Ah, him, him, him... It's Mu Jinyu! The one who defeated Senior Brother Mu Jinyu!!"

The Inner Sect Disciples of the Blood Sword Sect were initially bewildered, discussing why someone would attack their Blood Sword Sect.

Suddenly, someone recognized Mu Jinyu and screamed in horror.

Then everyone focused their eyes, quickly realizing that the one who blasted through the Blood Sword Sect's light shield was indeed Mu Jinyu!

"How is this possible?! Twenty days ago, wasn't he only at the Ninth Layer of the Divine Transformation Realm? How can he break the Mountain Protection Array that even mid-stage Fanxu experts might not be able to?"

"Has he been hiding his strength all along? But we haven't provoked him, why did he come to our sect forcefully?!"

Upon hearing one person's naive and fearful words, those few who knew some secrets had a bitter smile on their faces.

Not provoke him?

They laughed self-deprecatingly, what does it mean not to provoke him? Even though Grim Elder's plot against Mu Jinyu was forcibly suppressed within the Blood Sword Sect, with few knowing, quite a few are aware of the elders' schemes against Mu Jinyu.

Mu Jinyu came over now, intending to avenge the time when he broke through to the Fanxu Realm and was plotted against by Grim Elder.

But how did this guy cultivate?

It's been only ten days since breaking through the First Layer of the Fanxu Realm, and now he can break their sect's Mountain Protection Array, leaving people utterly hopeless!

This is terrible, the Sect Leader and Great Elder happen to be away, only a few elders are left to guard, how could they withstand Mu Jinyu's monstrous abnormality?!

These people felt despair in their hearts, hoping Zhou Taiping and his group would know the situation once the Mountain Protection Array breaks and quickly come back.

Just like Grim Elder's plot against Mu Jinyu was forcibly suppressed within the Blood Sword Sect, few are aware.

Similarly, Zhou Taiping and Zhou Yun's trip to destroy the Heavenly Sword Faction remains top secret, unknown to anyone except the high-level elders and core disciples.

Therefore these disciples of the Blood Sword Sect have no idea that Mu Jinyu's current visit to the Blood Sword Sect, breaking the Mountain Protection Array and charging in forcefully,

is not only to retaliate against Grim Elder's plot but also to avenge their destruction of the Blood Sword Sect!

At ten thousand meters above the ground.

Mu Jinyu blasted the Mountain Protection Array of the Blood Sword Sect with one strike, leaving the vast Blood Sword Sect powerless to stop the attack by their Heavenly Sword Faction, his figure slowly descending from the sky.

He quickly reached the summit of the main peak of the Blood Sword Sect.

This place allowed everyone in the Blood Sword Sect to clearly see his appearance and recognize his identity.

This immediately made the Blood Sword Sect even more chaotic and boiling.

"It's him, Mu Jinyu!"

"How dare he come to our Blood Sword Sect and make trouble, isn't he afraid of provoking a war between two sects?"

"Damn, he must know the Sect Leader and others have traveled afar, that's why he's bold enough to provoke us!"

"Hmph, when the Great Elder and others return, we must make him pay the bloody price!"

The Outer Sect Disciples seeing Mu Jinyu appear were filled with anger and panic, even daring to think of making Mu Jinyu pay!

Mu Jinyu's eyes were cold, his gaze showing no mercy or anger, as he stood atop the mountain peak gazing at the masses, hands folded behind his back, speaking slowly: "Those who surrender will live, those who don't..."

"Will perish!"

The last two words "will perish" exploded like thunder, like the crackling of the bell, causing the eardrums of everyone in the Blood Sword Sect to rumble, unable to withstand the heavenly god-like pressure, and they knelt on the ground!

"Whoosh, whoosh, whoosh!!"

At this moment, several figures appeared in the sky again.

Taking a closer look, it was Xie Chenkun, Xie Yuan, and others.

Originally, when Mu Jinyu saw the entrance of the Blood Sword Sect appear in his vision, he thought of the humiliation and schemes endured at the Blood Essence Pool on that day.

Unable to suppress his anger, he took the lead, broke the Blood Sword Sect's Mountain Protection Array, leaving it unimpeded.

"My god, all the high-level members of the Blood Sword Sect are here? What's going on?! Are they really planning to destroy our Blood Sword Sect?"

"It's over, why did the Sect Leader and others choose to travel at this time, it's over, over..."

Having been struck with fear and anger but still feeling defiant inside, those Outer Sect Disciples and miscellaneous disciples now saw the entire high-level of the Heavenly Sword Faction mobilized, turning pale with desperation in their eyes.

Grim Elder hiding in the Elder's Grand Hall, seeing this scene, his heart grew cold, with all his anger, killing intent, and other emotions wholly overtaken by fear.

"Escape, must flee, otherwise I'll surely die!"

Grim Elder immediately thought of this, and without any hesitation, he rushed towards an underground hidden passage inside the Elder's Grand Hall.

This hidden underground path directly leads to the outside world of the Blood Sword Sect, and it is shielded from divine sense search restrictions.

The initial purpose of its construction was to prevent situations like today's, when the sect faces destruction, allowing high-level elders to escape the Blood Sword Sect.

And not be like turtles trapped in a jar, slaughtered by outside enemies!

Since the Blood Sword Sect rose by destroying a Great Sect and annexing its resources, they are well-versed in such tactics.

Grim Elder thinks he's moving covertly, and having not gone out to let Mu Jinyu see, Mu Jinyu should not discover him.

He angrily thought, 'Mu Jinyu, you destroy my Blood Sword Sect today, someday I'll guard near the Heavenly Sword Faction, and kill every disciple I see...'

His expression was snarly and twisted, thinking and suddenly saw a figure at the entrance of the hidden passage, freezing his expression entirely.

His heart, which warmed with fierce words, now grew icy cold as if in a cellar!

"You... you... how are you here..."

Grim Elder's face turned pale, his lips trembling as he asked.

He abandoned any thought of resistance or fleeing.

Since Mu Jinyu found him and blocked the entrance to the hidden passage, he had no chance of escaping.

Mu Jinyu looked directly at this grim-faced Blood Sword Sect elder and softly said, "Of course, I'm here to kill you!"

Grim Elder, hearing these words, raised a bitter smile, sighed and said, "Ha, you really are a monster-level genius, breaking through to mid-stage Fanxu Realm in such a short time, I suppose the Sect Leader and Great Elder are already doomed? Now I truly regret..."

"Regret plotting against me? Resulting in a doom of sect destruction?" Mu Jinyu sneered.

"No!!!"

Grim Elder shook his head, speaking firmly, "I never regret plotting against you, but regret that I shouldn't have chosen to plot against you, but directly acted, killing you before you grew up, and then such a situation wouldn't happen!"

Chapter 922: The Blood Sword Sect is wiped out! Inspect the spoils!

Facing death, the Grim Elder still showed no signs of regret.

Perhaps, he understood in his heart that even if he appeared extremely remorseful, knelt down and begged Mu Jinyu for forgiveness with tears, Mu Jinyu would never spare him. So why let Mu Jinyu trample his last shred of dignity?

And his thoughts were indeed as he expressed; he only regretted that he hadn't killed Mu Jinyu directly, fearing it would incite a war between the Heavenly Sword Faction and the Blood Sword Sect, thus he chose to ambush Mu Jinyu during his breakthrough.

If he had dared to kill Mu Jinyu directly at the Ninth Layer of the Divine Transformation Realm, even if a war erupted between the two sects, blood flowing like rivers, the Blood Sword Sect wouldn't have faced the dire situation of possible annihilation!

Sadly, no amount of regret helps him now!

"Humph, brave enough, then go along peacefully with your Sect Leader and them!"

Mu Jinyu heard the Grim Elder's words, his gaze wavered, but he did not become overly angry. He spoke lightly, clasped his hands!

Immediately, the Grim Elder's body exploded into a mist of blood, leaving only a grimacing head rolling on the ground, its face skyward, eyes glaring with endless resentment and anger.

Mu Jinyu stood there motionless, looking at the Grim Elder's head, without any expression, silently standing still.

At this moment, he realized the meaning of "the victor becomes king, the defeated becomes a criminal."

If the old fellow had indeed chosen to kill him directly in the Blood Essence Pool, he himself would have been the one bitterly regretting before dying.

And if the Heavenly Sword Faction sought revenge, starting a war between the two sects, based on their performance half a day ago when the Blood Sword Sect broke through the defenses of the Heavenly Sword Faction, they might likely lose!

At that time, if the Heavenly Sword Faction were annihilated by the Blood Sword Sect, how could the dead speak? How could he defend himself?

The Blood Sword Sect could freely pour dirt on his name, claiming he attempted to steal Blood Essence Crystals and was killed, thus leading to the downfall of the Heavenly Sword Faction!

He would be forever nailed to the pillar of shame, becoming the sinner responsible for the sect's demise!

Therefore, one can understand why the old fellow shows no remorse, only regret for not killing him directly back then.

But understanding is one thing; the situation has reached a point where the two sects have no choice but life or death!

Mu Jinyu withdrew his gaze, lifted his hand slightly upwards, holding the Grim Elder's head. With a twist of his body, he appeared once more on the mountain peak outside.

At this time, other elders of the Blood Sword Sect left to guard the sect were subdued by Xie Chenkun and others.

Mu Jinyu, holding the head of the Grim Elder, stood tall on the mountain peak, watching the disciples below still resisting desperately, and spoke again: "I say it again, those who surrender live, and those who don't... pass on!!"

The cold and merciless voice resounded throughout the Blood Sword Sect, causing the resisting disciples to instinctively look up at Mu Jinyu.

They also saw the familiar head in Mu Jinyu's hand!

"It's the Fourth Elder!"

"The Fourth Elder is dead..."

"Clang!"

"Clang!"

"I surrender!"

"I surrender too, don't kill me!"

"We surrender!"

"..."

When the identity of the head in Mu Jinyu's hand was recognized as the most powerful of the Blood Sword Sect's remaining elders, at the peak of the Second Layer of the Fanxu Realm!

Even the Fourth Elder was slain by Mu Jinyu.

Who dared continue resisting?!

One after another dropped the swords they held, kneeling on the ground, shouting their surrender.

From henceforth, the situation was completely under the control of the Heavenly Sword Faction members.

As for the subsequent abolishment of these disciples' cultivation, turning them into ordinary people, and exiling them back to nearby towns to live, dissolving the Blood Sword Sect and other affairs, Mu Jinyu did not involve himself further, but let the Heavenly Sword Faction elders handle it.

...

Currently, Mu Jinyu was following the highest-level elders of the Heavenly Sword Faction, Xie Yuan and Xie Chenkun, to inspect the Blood Sword Sect's Scripture Pavilion, Treasure Pavilion, and others.

"Crash!!"

The restrictions of the Treasure Pavilion were broken, instantly dazzling Huaguang flashed, slightly blinding.

"Let's go, see how many good things are in the Treasure Pavilion of Blood Sword Sect."

Xie Yuan laughed heartily, speaking to Mu Jinyu with enthusiasm.

At this moment, he was very grateful that when facing the invasion of the Blood Sword Sect, he chose not to betray Mu Jinyu, but fought bravely for the pride of the sword cultivators.

Otherwise, not to mention inspecting the spoils at the Blood Sword Sect now, it was uncertain whether the Heavenly Sword Faction would be engulfed in flames under Mu Jinyu's anger.

"Hmm." Mu Jinyu was also quite curious about the Blood Sword Sect's Treasure Pavilion, eager to see how many good items were in this large sect's collection.

However, to Mu Jinyu's disappointment, after exploring Blood Sword Sect's Treasure Pavilion, he found nothing that moved him.

Alchemy furnace? Mu Jinyu currently had the Top-Quality Spiritual Treasure Bi Fang Cauldron, even if the Blood Sword Sect's alchemy furnace was good, it was but a Medium Grade Spirit Treasure, how could it compare to the Bi Fang Cauldron?

As for weapons, the spiritual treasures stored here were mostly various blades, Mu Jinyu, accustomed to using swords and fists, had no interest in switching to a blade.

Thus, after a rough inspection, when faced with inquiries from Xie Yuan and others about liking any items, Mu Jinyu simply shook his head.

"Forget it, I actually don't lack anything right now, just take these few pieces, let the sect take over the rest."

Mu Jinyu casually picked three spiritual treasures, planning to give them to Wen Rou and the other two girls, and smiled lightly at Xie Yuan.

"Are you sure you don't want more?" Xie Yuan intended to let Mu Jinyu pick out the treasures he liked, only afterward giving the remaining ones to the Heavenly Sword Faction.

At this moment, Mu Jinyu naturally couldn't be treated as an ordinary disciple; he was already considered the foremost person of the Heavenly Sword Faction, not just the youngest generation's leader.

Given the fall of the Blood Sword Sect, it could be considered Mu Jinyu's sole accomplishment, even if he wanted to take all the Blood Sword Sect's treasures, Xie Yuan wouldn't be dissatisfied.

"I don't want them." Mu Jinyu again firmly shook his head.

After a pause, he added: "Taking away the Blood Sword Sect's treasures and resources, the sect can allocate more to compensate the families of fallen disciples and elders."

"Alright, I understand..."

Xie Yuan paused at Mu Jinyu's words, then smilingly nodded in agreement.

He understood that Mu Jinyu still felt some guilt towards the fallen disciples, always thinking to compensate their families more adequately.

It made him feel gratified.

No one wishes for the sect's strongest individual to be a cold-blooded, merciless person who only cares about benefits.

If that were the case, the stronger Mu Jinyu became, the more uneasy he would feel under Mu Jinyu's rule.

Afterward, they went to inspect the Blood Sword Sect's Scripture Pavilion, to see if there were any good secret manuals inside.

Mu Jinyu initially had little expectation and barely wanted to go, but thought the Heavenly Sword Faction had remarkable secret techniques like "Killing Character Secret Technique."

Perhaps Blood Sword Sect had similar secret manuals too?

So Mu Jinyu went along.

The Blood Sword Sect's Scripture Pavilion also had four layers.

They explored the First, Second, and Third Layers, finding nothing that satisfied them in terms of manuals.

The quality matched that of the Heavenly Sword Faction.

Finally, they reached the Fourth Layer.

The Fourth Layer of Blood Sword Sect's Scripture Pavilion also stored Power Transmitting Jade Slip, Mu Jinyu checked them one by one. Lastly, when examining the third to last jade slip, he showed a hint of puzzlement.

Because this manual was named "Dragon Elephant Prison Suppression Scripture!"

A Lower Heavenly Rank Grade Body Refining Technique!

Chapter 923: The Rumor of the "Dragon Elephant Prison Suppression Scripture"!

"Dragon-Elephant Prison Suppression Scripture"? How does it relate to the Dragon-Elephant Prison Suppression Technique?"

Mu Jinyu saw the name of this secret manual and naturally thought of the Dragon-Elephant Prison Suppression Technique he was cultivating, inevitably showing a hint of confusion.

Xie Yuan heard Mu Jinyu's words, a sharp gleam flashed in his eyes like lightning, and he exclaimed, "So the rumors are not false, the Blood Sword Sect does indeed have this cultivation method!"

"Hmm?!" Mu Jinyu heard Xie Yuan's voice, turned to look at him, and asked, "What do you mean?"

Xie Yuan explained, "The rise of the Blood Sword Sect came from extinguishing one of the original Four Sects of Yan Kingdom, the Yunhua Sect, becoming one of the Four Sects of Yan Kingdom, even the leading sect among them. But it was originally just a small sect, how did it manage to defeat the strong despite being weak, and replace Yunhua Sect?"

Without waiting for Mu Jinyu to express confusion, Xie Yuan continued, "That's because the Blood Sword Sect, like the Liuyun Sect, acquired a large amount of cultivation resources from a certain relic, as well as the cultivation method inheritance of the tomb owner. Among them, the strongest inheritance is this Dragon-Elephant Prison Suppression Scripture!"

"In Kunlun Ruins, the widely spread Dragon-Elephant Prison Suppression Technique is merely a Profound Rank Body Refinement Method, not worth much, and most people don't know that the Dragon-Elephant Prison Suppression Technique is actually only a small part of the Dragon-Elephant Prison Suppression Scripture, which in its complete form is truly a Top Heavenly Rank Grade Technique!"

"Although cultivating the Dragon-Elephant Prison Suppression Technique to completion would grant Dragon Elephant Power, it is fundamentally incomplete, merely a fragment of the Dragon-Elephant Prison Suppression Scripture, therefore it is impossible to cultivate to the stage of possessing Dragon Elephant Power."

"And according to records, after the Blood Sword Sect acquired the Dragon-Elephant Prison Suppression Scripture from the relic, there happened to be a genius within the sect who cultivated the Dragon-Elephant Prison Suppression Scripture to a minor completion. You could think of him as similar to Di Shitian of the Liuyun Sect; he led the Blood Sword Sect to destroy Yunhua Sect, establishing Blood Sword Sect's position among the Four Sects of Yan Kingdom in one fell swoop!"

"At one point, the Blood Sword Sect even intended to annihilate our Heavenly Sword Faction and the other three sects, to completely dominate the Yan Kingdom, but the Sect Leaders of the three sects sensed something was wrong and formed a three-sect alliance to resist the Blood Sword Sect, thus surviving the onslaught."

"At that time, the heaven's pride of the Blood Sword Sect intended to cultivate the Dragon-Elephant Prison Suppression Scripture to completion, acquire True Dragon Force, and then annihilate the Three Sects, but ultimately failed, perished!"

"With the fall of that heaven's pride, there was no one in the Blood Sword Sect who could cultivate the Dragon-Elephant Prison Suppression Scripture to minor completion, leading to the breakdown of the Three Sect Alliance and restoring the rivalry amongst the Four Sects of Yan Kingdom."

"In the following centuries, the Blood Sword Sect failed to produce another genius capable of cultivating the Dragon-Elephant Prison Suppression Scripture to minor completion, resulting in the Four Sects of Yan Kingdom maintaining a peaceful rivalry for hundreds of years."

"I once thought the records exaggerated, but now it appears they're likely accurate..."

Xie Yuan sighed, his tone carrying a hint of relief as he said, "And you just mentioned this Dragon-Elephant Prison Suppression Scripture's Power Transmitting Jade Slip categorizes it as Lower Heavenly Rank Grade. That implies the version the Blood Sword Sect acquired from the relic is indeed incomplete. Otherwise, a complete Dragon-Elephant Prison Suppression Scripture would surely be a Top Heavenly Rank Grade Technique!"

"Perhaps it was due to this incompleteness, that led the heaven's pride of those years to fail in achieving the Dragon-Elephant Prison Suppressing Body to completion and perish early on, otherwise, our Heavenly Sword Faction might have been obliterated by them over a hundred years ago!"

Mu Jinyu listened to Xie Yuan's words, his expression slightly shocked. He then nodded gently and said, "It seems like the Blood Sword Sect's Dragon-Elephant Prison Suppression Scripture is akin to our Heavenly Sword Faction's Killing Character Secret Technique, revered as a sect-protecting secret scripture while exuding endless dangers, being something ordinary people can't cultivate."

"It's pretty much like that." Xie Yuan nodded in agreement.

Mu Jinyu didn't say more, turning back to continue examining the Power Transmitting Jade Slip in his hand, softly murmuring, "Dragon-Elephant Prison Suppression Technique, Dragon-Elephant Prison Suppression Scripture..."

A tinge of bewilderment appeared in his eyes.

Since ancient times, which manual daring to use "scripture" in its title hasn't been a true classic?

Cultivation techniques, martial techniques, and divine skills in Kunlun Ruins are divided into four ranks: Heaven, Earth, Mysterious, Yellow.

Whilst among cultivation methods, there's a private ranking saying known as "Classic Technique".

"Scripture" is the strongest, "Spell" is the weakest.

Among Heavenly Rank Techniques, if further divided, generally speaking, "Spell" is Lower Heavenly Rank Technique, while those daring to call themselves "Scripture" are Top Heavenly Rank Techniques.

For example, according to the martial arts rankings in wuxia novels, "The Smiling, Proud Wanderer", "Star Absorption Technique", "Sunflower Bible", "Nine Yang Scripture" ...

Whether it's the "Nine Yang Scripture", "Nine Yin Scripture", "Muscle and Tendon Change Scripture", or "Divine Shining Scripture", which one isn't a top-grade technique?

Which one can't decisively surpass the "Sunflower Bible", "Star Absorption Technique"?

And martial arts bearing the "Spell" name are practically invisible.

If counted like this, does the Green Emperor's Wood Emperor Art I cultivate truly count as a Top Heavenly Rank Technique?

Mu Jinyu always believed the Green Emperor's Wood Emperor Art, being the cultivation method of the Five Emperors, should be a Top Heavenly Rank Technique.

But now it seems, perhaps not necessarily?

Or perhaps, the Green Emperor's Wood Emperor Art is similar to the Dragon-Elephant Prison Suppression Technique, merely a preliminary cultivation method of the "Scripture"?

There's actually a complete version, a complete Green Emperor's Wood Emperor Scripture?

Beyond the Heavenly Rank technique?

Mu Jinyu shook his head slightly, uncertain if this was indeed the truth.

But for now, the Supreme-grade Earth-level techniques he has seen still can't compare to the Green Emperor's Wood Emperor Art.

And this Dragon-Elephant Prison Suppression Scripture, complete as a Top Heavenly Rank, might be stronger than the Green Emperor's Wood Emperor Art, but the current version he's obtained is only incomplete, Lower Heavenly Rank, likely still inferior to the Green Emperor's Wood Emperor Art.

Therefore, Mu Jinyu wouldn't change his cultivation method.

However, he'll certainly practice the Dragon-Elephant Prison Suppression Scripture in tandem.

After all, it's a Lower Heavenly Rank Body Refinement Technique capable of training Flood Dragon's Power.

It's significantly stronger than the Dragon-Elephant Prison Suppression Technique he's currently studying.

Though it's incomplete, as long as he doesn't rush for immediate results aiming to cultivate it to completion, there shouldn't be any issues.

Thinking this, Mu Jinyu turned to Xie Yuan and the others, saying, "Great Elder, Sect Leader, may I first study this Dragon-Elephant Prison Suppression Scripture?"

"Hmm, no problem." Xie Yuan agreed immediately, understanding that Mu Jinyu is already cultivating the Dragon-Elephant Prison Suppression Technique and has attained Strength of One Elephant!

After nodding in agreement, Xie Yuan reminded, "However, as it's incomplete, don't delve too deeply, or else there may be issues."

"Hmm, this disciple understands." Mu Jinyu nodded lightly.

Chapter 924: Exploring the Liuyun Sect!

Mu Jinyu placed the power transmitting jade slip of "Dragon Elephant Prison Suppression Scripture" into his storage bag first and continued to inspect the last two jade slips.

One of these jade slips was useless to him, while the other was the divine skill "Blood Refining the Sky," which Mu Jinyu had sneakily learned by borrowing the "Killing Character Secret Technique"!

Therefore, it was also useless to Mu Jinyu.

However, since it had been learned secretly, there were still some details not quite right. So Mu Jinyu studied "Blood Refining the Sky" a few more times to find and fill the detail flaws.

At this point, Mu Jinyu had thoroughly mastered "Blood Refining the Sky."

"Alright, I've finished looking; elders, you can take them away now."

After taking the power transmitting jade slip of the "Dragon Elephant Prison Suppression Scripture," Mu Jinyu did not take any other jade slips. He turned back to Xie Yuan and others.

"Hmm, good..."

Xie Yuan and the others nodded in agreement, then stepped forward to inspect the secret manuals on the fourth layer of the Scripture Pavilion.

As they looked, they were all beaming, deliriously joyful.

These secret manuals were primarily obtained by the Blood Sword Sect from a relic in the past, including many lower heavenly rank divine skills.

In the future, incorporating them into the Heavenly Sword Faction's Scripture Pavilion would inevitably strengthen the faction even more!

Mu Jinyu felt it was not very interesting, and he was not in a hurry to start learning the "Dragon Elephant Prison Suppression Scripture" or the supreme-grade earth-level movement technique "Fleeting Light Shadow" he had recently acquired.

He had another task to complete.

"Sect Leader, I'll leave the collection of the Blood Sword Sect's reserves to you. I'm planning to make a trip to the Liuyun Sect," Mu Jinyu said.

"Hmm? Go to the Liuyun Sect?"

Xie Yuan and the others' smiles froze at Mu Jinyu's words, then their brows slightly furrowed, saying, "You aren't planning to continue with cultivation at the Liuyun Sect and then destroy it, are you?"

Mu Jinyu nodded and said: "Yes, there's that intention."

Originally, Mu Jinyu did not plan to extinguish the Blood Sword Sect or Liuyun Sect.

He only wanted to stay in the Heavenly Sword Faction to cultivate for a while, participate in the Hidden Dragon Conference, then find a solution to Wen Rou and Jian Ruyan's current situation, and finally return to Huaxia...

But the Blood Sword Sect had pushed him too far, leaving him with no choice but to destroy it. As for the Liuyun Sect, it did not have any particular hatred for him.

However, due to Ji Li's situation, he was now preparing to act against it.

Originally, Mu Jinyu and Ji Li were merely acquaintances. If possible, he did not mind rescuing her and bringing her back to the Heavenly Sword Faction so she could have a place to stay after Mingyue Valley's destruction.

But he would not fight the Liuyun Sect to death over this slight acquaintance with Ji Li.

That was entirely unrealistic.

Yet, after Ji Li risked her life yesterday to save him, nearly dying by Li Daochen's hands, and now that Mu Jinyu had the power to destroy the Liuyun Sect, he thought that since he had already destroyed the Blood Sword Sect, extinguishing one and extinguishing two seem the same. So, he intended to help her eliminate the Liuyun Sect and assist her in rebuilding Mingyue Valley.

Upon hearing Mu Jinyu's answer, Xie Yuan furrowed his brows even deeper, saying, "I think it's better not to go now, and wait until you've broken through further in your cultivation."

"Why?" Mu Jinyu asked, perplexed. "Doesn't the Liuyun Sect lack even a cultivator of the Fanxu Realm, and after Di Shitian's death, they don't even have anyone at the ninth layer of the Divine Transformation Realm? Shouldn't it be easier to resolve than the Blood Sword Sect?"

Actually, Mu Jinyu was quite puzzled.

Originally, after bringing Ji Li back to the Heavenly Sword Faction and informing Xie Chenkun and others of the destruction of Mingyue Valley,

they convened an emergency meeting, clearly prepared to act against the Liuyun Sect.

It seemed like they were planning to strike at the Liuyun Sect during the Four Sects Martial Meeting?

But for some reason, they never acted. Even after the meeting ended, they still did not take action.

So Mu Jinyu found it perplexing that Xie Yuan seemed more anxious about the Liuyun Sect than the Blood Sword Sect.

Xie Yuan sighed and said: "Our sect and Beixue Mountain Villa have already probed the Liuyun Sect. If it were truly solvable, it would have been devoured completely with nothing left before the Four Sects Martial Meeting even started."

"And although the Liuyun Sect doesn't have any strong cultivators of the Fanxu Realm, only worthless ones of the Divine Transformation Realm, they received recent inheritances from relics, and thus have the most spiritual and secret treasures at hand. While they may not conquer other sects as easily as they did with Mingyue Valley, defending their acquired foundations should be quite simple."

"This is why we ultimately gave up swallowing the Liuyun Sect."

"Understood." Hearing this, Mu Jinyu gently nodded and said, "However, I still plan to go and try. If it doesn't work out, I'll deal with it after the Hidden Dragon Conference ends."

"Fine, then act according to your capability,"

Seeing that he couldn't persuade Mu Jinyu, and since Mu Jinyu clearly expressed he wouldn't go to the death with the Liuyun Sect, Xie Yuan could only agree.

Because he also thought that Mu Jinyu, who could single-handedly extinguish the entire Blood Sword Sect, could venture alone to the Liuyun Sect. Even if he couldn't destroy it, he could likely retreat safely.

"Do you need us to accompany you?" Xie Chenkun asked.

Mu Jinyu gently shook his head and said: "No need, it's my personal matter, I'll go on my own, and I'll also hide my true appearance to avoid causing trouble for the sect."

"Alright then."

Xie Chenkun replied, not persuading further, he then asked if Mu Jinyu knew the current location of the Liuyun Sect's mountain gate, afraid that Mu Jinyu did not know the way.

Mu Jinyu nodded and signaled he knew the location of Mingyue Valley.

Afterward, Xie Chenkun and Xie Yuan, along with the elders of the Heavenly Sword Faction, continued to plunder the corpse of the giant Blood Sword Sect.

And Mu Jinyu left the Blood Sword Sect, heading alone to the location of the Liuyun Sect's mountain gate.

The Liuyun Sect's mountain gate had directly migrated to Mingyue Valley after extinguishing Mingyue Valley.

It took Mu Jinyu half a day to finally reach Mingyue Valley.

Then, he didn't immediately break through Mingyue Valley's Mountain Protection Array, but first used secret techniques to alter his appearance into a stranger.

Ensuring that if his assault on the Liuyun Sect failed, they wouldn't identify his true identity.

"Heh heh..."

Mu Jinyu chuckled softly, leapt into the valley entrance of Mingyue Valley, then raised his hands, causing waves of Wind Blades to appear, converging into a tornado nearly ten zhang long.

"Go!"

With a light throw of his hand, the tornado hurled towards the base of Mingyue Valley!

"Boom!!"

As soon as the tornado was cast, Liuyun Sect's Mountain Protection Array was attacked, immediately activating at full speed, revealing a layer of light silver defensive shield to combat the terrifying tornado.

However, Mu Jinyu had already broken through the Mountain Protection Array that had sheltered the Blood Sword Sect for hundreds of years; could he not break the Liuyun Sect's?

In no time, the light silver defensive shield shattered with a loud break!

Simultaneously, a sky-shattering explosion sounded, as if a level eighteen hurricane had descended upon the land, tearing through anything blocking its path!

Chapter 925: The Chief Disciple of Mingyue Valley, Xiang Yinxui!

"Boom!!"

The numerous disciples and elders of Mingyue Valley were still peacefully cultivating when an earth-shaking boom erupted, akin to a Category 12 earthquake. The earth trembled, instantly disrupting everyone's tranquil cultivation.

"Ugh!"

"Puff!!"

All the disciples of Liuyun Sect who were in a cultivation state spit blood and suffered severe injuries, experiencing backlash and becoming dispirited.

However, Fang Xiuyuan and other high-ranking elders of Liuyun Sect, protected by numerous defensive spiritual treasures, weren't significantly harmed by the backlash.

Yet, their faces were pale, and their gazes flickered with uncertainty as they pondered the cause of the tremendous shock.

"Is it an external invasion? Go out and see!"

They communicated telepathically and hurriedly emerged from their respective cave residences, witnessing the massive hurricane rampaging across the area!

As soon as Fang Xiuyuan stepped out of his cave, his pupils shrank abruptly. He saw countless Liuyun Sect disciples unable to escape before the hurricane, swept into it, their bodies shredded by countless wind blades, leaving no remains behind!

"This..."

His expression changed, and then he reacted, pinching a seal to activate the array plate of the grand formation they acquired from the relic, while simultaneously throwing out several spiritual treasures!

"Buzz!!"

With the activation of the various array plates buried within Mingyue Valley by Fang Xiuyuan, dazzling lights of different colors instantly blossomed throughout Mingyue Valley, enveloping it in a flash.

There was cyan, red, purple, black...

Making Mingyue Valley seem like it was lit up with neon lights, ready to begin its nightlife...

These formations, once activated, were named:

"Yi Wood Innate Qi Locking Spirit Formation!"

"Sudden Wind and Li Fire Great Desolation Slaughter Formation!"

"Primordial Soul Water Milky Way Formation!"

"..."

These grand formations had previously sealed the entire Mingyue Valley, leaving its disciples and elders unable to escape, and only with the self-detonation sacrifice of their Great Elder was a path barely torn open, allowing some Mingyue Valley disciples to escape.

Now, these formations activated once again, instantly trapping the terrifying hurricane Mu Jinyu had casually conjured. The "Yi Wood Innate Qi Locking Spirit Formation" restrained its spiritual energy, preventing it from growing by absorbing external spiritual energy and forcing it to shrink.

Then the "Sudden Wind and Li Fire Great Desolation Slaughter Formation" collided fiercely with the hurricane. The Southern Bright Fire, taking advantage of the sudden wind, rode the wind upward, cutting and diminishing the Elemental Qi within the hurricane.

Finally, this seemingly unstoppable terrifying hurricane was engulfed, merging into a sudden wind with the "Sudden Wind and Li Fire Great Desolation Slaughter Formation."

"Rumble!!"

At this moment, the "Primordial Soul Water Milky Way Formation" activated, and a black river appeared, spanning the sky with the might of a galactic waterfall, surging towards Mu Jinyu like a massive water dragon!

"Clang!"

Then the spiritual treasure thrown out by Fang Xiuyuan, the "Li Fire God Furnace," opened its lid, and the torrential Southern Bright Fire intertwined with the "Sudden Wind and Li Fire Great Desolation Slaughter Formation," transforming into a heaven-piercing fire dragon. Its menacing posture twisted the void with terrifying heat as it charged towards Mu Jinyu!

This "Li Fire God Furnace" was the finest spiritual treasure in Fang Xiuyuan's possession, a medium grade spirit treasure, almost reaching the level of a superior spiritual treasure.

At this moment, its outpouring divine might, combined with the "Sudden Wind and Li Fire Formation," was even more potent, likely able to rival the Bi Fang Flame from the Bi Fang Treasure Cauldron.

"Good!!"

"Kill him!"

The surviving disciples of Liuyun Sect, seeing their Sect Leader make a move, activating various grand formations to annihilate the intruder, cheered in unison.

Their eyes burned with hatred as they stared at Mu Jinyu walking through the air, their gaze filled with the satisfaction of vengeance, eager to see how Mu Jinyu would meet his end in this deadly clash of the water-fire twin dragons!

"Heh..."

Mu Jinyu stood in the void, watching his thrown hurricane failing to annihilate many Liuyun Sect disciples as Fang Xiuyuan timely intervened. His expression remained calm, as still as an ancient well without the slightest ripple.

Seeing the Li Fire Fire Dragon and the Gui Water Giant Dragon coiling and charging towards him, intertwining closer and closer, about to clash explosively...

"Pushing Sand to Embrace the Moon!"

In this critical moment, Mu Jinyu slowly extended his hands as if pushing open a window veil, causing the approaching water-fire twin dragons to tremble slightly and separate some distance.

Then, Mu Jinyu's extended hands slowly made a hugging motion, akin to performing Tai Chi, yet resembling a banished immortal pushing open a window veil, leaping to sit atop the clouds, extending his hands to embrace the moon...

Suddenly, the terrifying water-fire dragons flowed in with Mu Jinyu's embracing motion, converging into the moon that Mu Jinyu had drawn.

But this moon wasn't silver-white; it was composed of black and red, resembling a pair of Yin Yang Fish, rotating endlessly within Mu Jinyu's embrace!

Exuding a terrifying aura imbued with Dao Rhyme!

"This... this... this..."

The disciples of Liuyun Sect and Fang Xiuyuan were all dumbfounded by this scene, their eyes nearly popping out of their sockets!

"Go!"

Mu Jinyu uttered softly, pushing forward with his hands again, sending the "black-red" moon speeding towards Mingyue Valley!

"Run!"

Fang Xiuyuan realized the situation, his soul almost fleeing in fear, and shouted, repeatedly pulling out defensive spiritual treasures to shield himself.

Just as he completed his defensive actions, the black-red moon fell into the heart of Mingyue Valley and exploded violently!

"Rumble!!"

Like a nuclear explosion, a massive mushroom cloud erupted in Mingyue Valley!

Tens of thousands of disciples within Mingyue Valley were obliterated in an instant. Only a few survived by chance, merely clinging to life, severely injured and near death.

Mu Jinyu gazed at the emergence of the mushroom cloud, his expression indifferent, devoid of the slightest pity or guilt.

He held no emotional response to the deaths of the tens of thousands of Liuyun Sect disciples.

Regarding the ordinary disciples of Blood Sword Sect, Mu Jinyu was unsure if each of them participated in any heinous actions. Coupled with his enmity with Blood Sword Sect originating from high-level scheming, unrelated to ordinary disciples.

Thus, he chose not to exterminate the ordinary disciples of Blood Sword Sect but merely abolished their cultivation, turning them into mortals to live ordinary lives.

However, upon hearing Ji Li's account, Mu Jinyu knew that every disciple of Liuyun Sect participated in the massacre of Mingyue Valley.

And since he came here to avenge the destruction of Mingyue Valley for Ji Li, those culpable in the massacre had to be executed, leaving no safe path, an eye for an eye!

"Ah!!"

A few minutes later, as the mushroom cloud dissipated and the dust settled, a painful roar echoed like a wounded beast: "Who are you, why do this to us, Liuyun Sect?!"

It was the barely surviving Fang Xiuyuan, having thrown out several defensive spiritual treasures.

At this moment, his clothes were tattered, his appearance unrecognizable, resembling a beggar, standing amidst the ruins and debris, his blood-red eyes locked onto Mu Jinyu, with a seething hatred that could almost consume Mu Jinyu alive.

Mu Jinyu chuckled lightly, teasingly said, "Who am I? Hehe... I am Xiang Yinxui, the chief disciple of the annihilated Mingyue Valley, by your hands."

Chapter 926: Twin Armor Extreme Breaking Pill!

Mu Jinyu's tone was laced with a hint of mockery.

Xiang Yinxui was Jian Ruyan's real name. Mu Jinyu's mission was to destroy the Liuyun Sect. To have a legitimate reason, he naturally had to brandish the flag of Mingyue Valley. When Fang Xiuyuan questioned him, he wasn't going to use Ji Li's name.

But later, he thought that name lacked dominance, so he used Jian Ruyan's real name.

After all, Fang Xiuyuan and the others had no idea whether there was a senior disciple called Xiang Yinxui in Mingyue Valley or not.

"Xiang Yinxui?! The chief senior disciple of Mingyue Valley?!"

Sure enough, when Fang Xiuyuan heard Mu Jinyu's words, his complexion changed several times, and he kept murmuring to himself, wondering how Mingyue Valley could have such an overlooked fish?

Their strength was astonishing enough to rival an entire sect alone, even more terrifying than Mu Jinyu from the Heavenly Sword Faction.

Fang Xiuyuan's thoughts were indeed correct. Now, Mu Jinyu had reached the peak of the Third Layer of the Fanxu Realm. Having mastered the "Killing Character Secret Technique," his unmatched combat power had reached a level where he could rival a sect, even a country!

This was entirely different from when he participated in the Four Sects Martial Meeting and struggled to defeat Dao Wuming.

After Fang Xiuyuan hid near the Blood Sword Sect, hoping to ambush Mu Jinyu and reclaim the Bi Fang Cauldron but failed and retreated, he stopped paying attention to Mu Jinyu's movements.

How could he possibly know that in just a matter of ten days, Mu Jinyu had broken through from the First Layer to the peak of the Third Layer of the Fanxu Realm?

He wouldn't dare to imagine such a thing, even in his dreams.

"But, isn't Mingyue Valley said to be composed entirely of female disciples? How can there be a male disciple?"

Fang Xiuyuan asked curiously.

Mu Jinyu chuckled, "Why can't there be a male disciple? Rules are meant to be broken. With a genius like me, how could Mingyue Valley bear to keep me out?"

"So, I became the chief senior disciple of Mingyue Valley, a splash of green among a sea of flowers!"

Shaking his head slightly, Mu Jinyu's expression gradually grew colder, as if he truly took on the identity of Mingyue Valley's chief senior disciple, and with a chilling voice, he said, "But I never expected that after a period of seclusion, upon returning, you wretched lot have wiped out my sect!"

"Thus, today Xiang Someone returns home to send you usurping sparrows to their ultimate bliss!"

With that, Mu Jinyu swung his arms, left hand forming the sun, right hand forming the moon, manifesting Yin Yang Fish. A terrifying killing intent brewed within, making Fang Xiuyuan and the surviving onlookers tremble with fear!

"Attack, fight to the death!!"

Though Fang Xiuyuan also doubted whether Mu Jinyu was truly a disciple of Mingyue Valley, doubts were of no use now. It seemed clear that Mu Jinyu intended to annihilate them, giving no chance for surrender or escape; they could only fight for their lives!

"Gulp!"

"Gulp!"

The Supreme Elders of the Liuyun Sect, including Fang Xiuyuan, hastily took out an Elixir from their storage bags and swallowed it abruptly.

Instantly, their auras surged wildly, skyrocketing to around the First Layer of the Fanxu Realm in mere moments!

Their original strength was merely at the Seventh or Eighth Layer of the Divine Transformation Realm, but after consuming an Elixir, they could elevate by two to three Minor Realms, crossing a Major Realm. The effect of this Elixir was even more terrifying than the Blood Demon Life-Reducing Pill of the Blood Sword Sect!

This was one of the precious resources their Liuyun Sect obtained from some relic.

This Elixir is named: "Twin Armor Extreme Breaking Pill"!

Twin Armor refers to two cycles of sixty years, making a total of one hundred and twenty years.

The effect of this Pill is that upon consumption, it will instantly burn away one hundred and twenty years of life, used to break through the consumable's limits, achieving a dramatic turnaround.

In simpler terms, this Elixir reduces the lifespan of the consumer by one hundred and twenty years, while simultaneously activating the consumer's extreme potential, allowing them to reach the maximum level of strength they could have achieved in one hundred and twenty years of normal cultivation, within a short time.

In other words, Fang Xiuyuan and his group, if not for consuming the Twin Armor Extreme Breaking Pill, could have steadily broken through to the Fanxu Realm in one hundred and twenty years with normal cultivation progress.

But now, after consuming the Twin Armor Extreme Breaking Pill, they've compressed this one hundred and twenty years into a short period along with their lifespans, allowing them to have the cultivation level they would have a hundred and twenty years from now, possessing strength capable of turning the tide in desperate circumstances.

However, the side effects of the Twin Armor Extreme Breaking Pill are more than just burning away those one hundred and twenty years of lifespan. Because the consumer's strength reaches the level they would have in one hundred and twenty years in such a short time, neither the meridians, dantian, nor body can withstand such phenomenal changes.

Therefore, after the drug effect fades, the consumer's strength will be severely diminished.

That means, where Fang Xiuyuan originally had the cultivation of the Eighth Layer of the Divine Transformation Realm, after taking the Twin Armor Extreme Breaking Pill, his strength temporarily rose to the First Layer of the Fanxu Realm, but when the effect fades, his strength won't just fall back to the Eighth Layer of the Divine Transformation Realm. Instead, it will deteriorate to the Fourth, or even third and second layers...

Additionally, his dantian would shatter, his meridians would sever, making further cultivation in this lifetime nearly impossible.

Therefore, unless in desperate situations, these people from the Liuyun Sect were entirely unwilling to consume this "Twin Armor Extreme Breaking Pill"!

But now, they were truly out of options. Without consuming this Pill, they would surely meet their demise at Mu Jinyu's hands. By consuming it, there's a slim chance of a comeback. If they managed to kill Mu Jinyu, though they would lose a century of lifespan and destroy their cultivation, at least they would have another twenty or thirty years to live comfortably.

"Oh, another Elixir similar to the 'Blood Demon Life-Reducing Pill'?"

Mu Jinyu hovered high in the sky, his clothes fluttering in the wind, with hands gently pushing forward as if performing Tai Chi. However, the mingling radiance of sun and moon between his hands grew ever more blazing, while the terrifying destructive aura brewed to its utmost.

He saw Fang Xiuyuan and the others' power surge to the First Layer of the Fanxu Realm after taking the Elixir and knew they must have consumed a special Elixir similar to the "Blood Demon Life-Reducing Pill," yet his eyes remained indifferent, not taking them seriously at all.

Not to mention they only surged from the Eighth Layer of the Divine Transformation Realm to the First Layer of the Fanxu Realm; even if they reached the Fourth Layer of the Fanxu Realm, they would still face death!

"Form up!"

At this moment.

After consuming the Twin Armor Extreme Breaking Pill, the elders of the Liuyun Sect, including Fang Xiuyuan, wore expressions of pain and distortion but forcibly endured it.

Then, responding to Fang Xiuyuan's furious command, over a dozen surviving elders took out various Spiritual Treasures from their storage bags.

Be it swords, cauldrons, bells, or towers...

Judging by the aura emanating from these Spiritual Treasures, they were mostly Medium Grade Spirit Treasures!

"Their resources are still quite substantial," Mu Jinyu remarked, a trace of surprise flashing in his eyes.

"Boom!!"

At that moment, the Spiritual Treasures in their hands suddenly shot out beams of lights in various colors, linking together and eventually forming a Bagua Diagram-like defensive light shield, enclosing them all.

"Go!"

Unfazed, Mu Jinyu unleashed the full potential of the Sun and Moon Shine Together in his hands, and with a throw, this radiant orb shot towards Fang Xiuyuan and his group!

"Boom!!"

The radiant orb violently collided with the Bagua Light Barrier, and in an instant, Mu Jinyu's face changed dramatically.

Chapter 927: Another Punch!

"Boom!!"

The power enough to level the entire Mingyue Valley, "Sun and Moon Shine Together," suddenly collided with the Bagua Light Barrier. Contrary to Mu Jinyu's expectations, the light wave was not able to instantly obliterate Fang Xiuyuan and his group; instead, it stopped by the Bagua Light Barrier.

This was not enough to cause Mu Jinyu's face to change drastically; he only felt slightly surprised.

What truly changed Mu Jinyu's complexion was that the terrifying light wave of "Sun and Moon Shine Together" didn't cancel out with the Bagua Light Barrier; instead, it rebounded back to him like a glass marble striking tough leather!

After Mu Jinyu released the "Sun and Moon Shine Together" light wave, the terrifying power that could easily annihilate the Fourth Layer of the Fanxu Realm had already left his control.

As it reflected back, if he didn't react in time, he would definitely suffer greatly, falling into a state of serious injury, near death.

Especially, Mu Jinyu noticed that as the light wave blasted onto the Bagua Light Barrier, its power didn't diminish at all; rather, it became even fiercer.

Originally, the light wave could easily obliterate the Fourth Layer of the Fanxu Realm; now, it could easily annihilate the Fifth Layer of the Fanxu Realm!

"What is this? Eight Trigrams Array?!"

Mu Jinyu's expression was uncertain. Then he stretched out his right hand, posing as if pulling a fishing rod, "Fishing Boat Catches Dragon!"

In an instant, Mu Jinyu seemed to transform into a fisherman, sitting on a lone boat amidst raging seas, with turbulent waves threatening to crush him at any moment. Yet he showed no fear, holding the fishing rod as he fished in this giant ocean surging with waves.

"Rise!"

At this moment, a True Essence Long Rope burst from Mu Jinyu's hand, suddenly pulling on the world-shattering light wave "Sun and Moon Shine Together," restraining it, unable to detonate.

Then, Mu Jinyu lifted his hand abruptly, the action seeming difficult, like a fisherman catching a big fish, struggling to pull it up.

"Hiss!"

A few breaths later, the light wave, on the verge of detonation, emitted a scattering of sparkling light, pulled away by Mu Jinyu's True Essence Long Rope.

Instantly, the previously unstable and restless nature's spiritual energy around calmed down.

This scene felt like Mu Jinyu had finally reeled in his catch, but it wasn't a big fish; instead, it was a demon dragon stirring waves in the furious sea, which he fished out of the ocean.

As the demon dragon was pulled out, the stormy waves ceased, the sea returned to its calm state.

The sparkling light extracted from the light wave was like how the Third Prince of the Dragon King was deprived of his dragon tendons, dispelling every destructive factor.

"Hiss."

The light wave of "Sun and Moon Shine Together" dissipated into thin air.

The mighty and overwhelming energy vanished like smoke.

Anyone else facing their ultimate killing move rebounding back would never so easily eliminate it without a trace; if not awkwardly defending, they would lead it elsewhere to release its power!

Mu Jinyu's "Fishing Boat Catches Dragon" was truly meticulous, leaving Fang Xiuyuan and others dumbfounded, who initially thought Mu Jinyu would inevitably die by their hands.

"Not bad." Mu Jinyu hovered in the sky, despite surviving the great terror, he remained unflustered. He glanced over Fang Xiuyuan and the elders' positions, along with their Spiritual Treasures, softly admiring, "Separation Fire Furnace, Xun Wind Bell, Thunder Shock Bell, Duize Tower, Kanshui Cauldron..."

"All are Medium Grade Spirit Treasures, augmented by a special Bagua Formation Diagram, no wonder they could withstand my move!"

At this time, Mu Jinyu also recalled the reminders from Xie Yuan and others before leaving the Blood Sword Sect.

Liuyun Sect holds many Secret Treasures, their trump cards are endless. They might not have the capability to again annihilate sects of the Four Sect level, but it's not easy for others to destroy them either.

Seeing it now, this indeed proves true.

The people of Blood Sword Sect are at the Second and Third Layer of the Fanxu Realm, wiping them out was effortless for him. But after taking special pills, even reaching the First Layer of the Fanxu Realm, they could continuously block his various killing moves.

One could say, if he had been overly arrogant, without any defense against the reflection of "Sun and Moon Shine Together," he certainly would've suffered greatly.

"But, no matter the struggle before absolute power, it is useless!"

A cold light flashed in Mu Jinyu's eyes, then his neck stretched like a raging dragon, gathering his whole strength in the right fist, like a full moon drawn bow, with a roar hit towards the Bagua Light Barrier in front!

"Yin!!"

Faintly, a dragon's roar seemed to echo.

Mu Jinyu's punch didn't use any True Essence Power; it was pure physical strength. When he originally cultivated the "Dragon-Elephant Prison Suppression Technique," his physique was tempered to the strength of one elephant. Later, after consuming Sacred Wood Essence and refining Blood Essence Crystal, though he didn't deliberately cultivate the "Dragon-Elephant Prison Suppression Technique" to temper his physique.

There must be some progress.

Mu Jinyu hadn't specifically tested his current pure physical strength, but he guessed at least the strength of three elephants; if lucky, maybe even five elephants!

Three elephant forces approach three hundred thousand catties, which equals one hundred fifty tons, while typical heavy armored vehicles weigh forty to eighty tons.

In other words, Mu Jinyu's punch can break several heavy armored vehicles!

"Boom!!"

The terrifying fist strength surged out, changing the color of heaven and earth.

Sun and moon dim, heaven and earth tremble!

The terrifying fist strength seemed to transform into a soaring wrathful dragon, charging fiercely towards the Bagua Light Barrier!

"This...this...this..."

Fang Xiuyuan and others were frightened pale seeing Mu Jinyu's punch.

They felt that Mu Jinyu's punch carried no True Essence Power.

And the Eight Trigrams Array they formed could only block attacks from True Yuan, not from pure physical strength hits!

They were unsure if it could truly stop it, dissipating all backlash power as well.

If failed, they were certainly doomed!

"Boom!!"

Without any surprise, the Dragon Fist Strength ferociously hit the Bagua Light Barrier, causing the originally calm-like-mirror barrier to tremble rapidly.

This abnormality hadn't appeared during the previous clash with "Sun and Moon Shine Together."

"Poof!"

"Poof!!"

Then, Fang Xiuyuan and others felt that pure strength; although most of it got resolved by the Bagua Light Barrier, the speed of resolving through the Eight Trigrams Array was too slow, some aftermath still penetrated through the light shield, hitting them.

At once, they coughed up fresh blood one by one, their Essence, Qi, and Spirit sagged.

Seeing how they barely maintained the Eight Trigrams Array.

The Bagua Protective Shield finally succeeded in blocking Mu Jinyu's fist strength, letting the rippling light curtain return to its original calm state.

"Phew...still alive, huh?!"

Fang Xiuyuan and the other elders of Liuyun Sect let out a long breath, inwardly rejoicing.

Mu Jinyu chuckled softly, saying, "Not bad, then take another punch from me!"

Chapter 928: Liuyun Sect Destroyed! The Entire Sect Celebrates!

"Another punch!"

Upon hearing Mu Jinyu's words, Fang Xiuyuan, who was planning to catch his breath and quickly swap the formation map to change the formation to counter Mu Jinyu, turned pale immediately.

It was too late.

He couldn't imagine that Mu Jinyu, who delivered such a terrifying punch, could casually deliver another one.

Could his physical body be so strong that such a fearsome punch is as simple as eating and drinking?

Unfortunately, just as Fang Xiuyuan hurriedly tried to change the formation map, Mu Jinyu delivered another punch.

"Roar!"

The sound of dragon roars echoed, causing the void to tremble continuously.

The ground underfoot was carved with a long groove, four or five meters deep, as the dragon-shaped fist energy scraped over it.

The unmatched fist energy struck directly onto the Bagua Light Barrier, stirring up even more turbulent ripples, seeming as if it might shatter at any second.

Mu Jinyu's fist energy was so terrifying, akin to Gonggong's rage colliding with Buzhou Mountain, or the Immortal of Colossal Spirit overturning Sumeru Mountain, crashing down upon it. It made one wonder if anyone in this world could withstand such an iron fist.

With hearts pounding, Fang Xiuyuan and the others watched as the Eight Trigrams Array Diagram was finally not torn apart.

"Hurry up and change the formation map..."

Fang Xiuyuan, with trembling hands, prepared to change the formation map to stop Mu Jinyu's iron fist.

He had no time to think about how long he could withstand Mu Jinyu's divine killing move after changing the formation map.

He simply couldn't think that deeply; he just wanted to cling to life a bit longer.

"One more time!"

Seeing the Bagua Light Barrier still intact, Mu Jinyu laughed heartily and threw another fierce punch!

So fast that Fang Xiuyuan didn't even have time to change the formation map!

"Boom!"

With a thunderous sound, the Bagua Light Barrier finally could not withstand the successive terrifying force and shattered on the spot.

Behind the light shield, the Liuyun Sect elders, wielding various spiritual treasures to form the array, were all shattered to pieces instantly, blood mist rising into the air!

Flowers of blood bloomed, appearing both grotesque and beautifully sinister.

"Clang!"

"Clang!!"

"Clang!!!"

As they died, the medium-grade spiritual treasures - Separation Fire Furnace, Xun Wind Bell, Thunder Shock Bell, Duize Tower, Kanshui Cauldron... all fell to the ground.

Fortunately, because they were medium-grade spiritual treasures, their quality was durable enough not to be smashed into spiritual treasure fragments by Mu Jinyu!

"It's finally over..."

Mu Jinyu, with a calm demeanor, looked at the ruins below and slowly withdrew his right fist.

Then, Mu Jinyu descended into the ruins, first collecting all the dozen or so spiritual treasures into his storage bag, then gathering the storage bags of those people. Without having time to check them, he tied them to his waist before heading toward the various buildings he had intentionally preserved.

Among these buildings, as Mu Jinyu's divine sense swept over, he discovered that some had numerous restrictions, making it clear that, even if these pavilions were not originally forbidden grounds in Mingyue Valley, after Liuyun Sect moved into Mingyue Valley, these pavilions also became restricted areas, prohibiting ordinary disciples from entering.

"Let me see what's inside..."

Mu Jinyu easily dismantled the restrictions of these pavilions, then stepped inside, his divine sense sweeping through.

These pavilions were originally akin to the Scripture Pavilion of the Heavenly Sword Faction, with restrictions suppressing the range of divine sense internally. However, Mu Jinyu would abide by the rules in the Heavenly Sword Faction and wouldn't break the restrictions, but now that he had destroyed the Liuyun Sect, how could he allow his divine sense to be suppressed?!

Therefore, as his divine sense swept, he surveyed everything inside the pavilion.

"The resources aren't lacking; Third Grade Spiritual Fruit like Bi Yun Fruit, Third Grade Spiritual Grass like Six-Leaf Soul-cleansing Grass, and Third Grade Spiritual Plant like Purple Evil-Repelling Bamboo..."

Mu Jinyu was quite pleased, even though most were useless to him, but who would refuse an unexpected joy?

Not to mention, he could bring them back later for the use of the Dragon King Hall.

Thus, Mu Jinyu took out a storage bag with the largest space and moved these cultivation resources, then went to the Scripture Pavilion. After a brief inspection, Mu Jinyu found that most of the secret manuals here should be from Mingyue Valley, with only a smaller portion belonging to the Liuyun Sect, and rather inferior ones at that.

There was also a segment that clearly appeared to be tales unearthed by the Liuyun Sect decades ago in some ruins.

Mu Jinyu initially planned to gather all these secret manuals, but upon considering that he came to help Ji Li extinguish Liuyun Sect to vent her anger and assist in rebuilding Mingyue Valley.

If he took all of Mingyue Valley's secret manuals, what would Ji Li have left to rebuild it with?

However, he also found it challenging to distinguish which ones genuinely belonged to Mingyue Valley, which belonged to Liuyun Sect, and which were acquired by Liuyun Sect in the ruins.

So, contemplating a bit, Mu Jinyu decided to first collect all these secret manuals into a storage bag.

If Ji Li couldn't tell them apart later, he could enlist the Great Elder and Sect Leader to help him discern.

As for whether the Great Elder and Sect Leader would be tempted to absorb these Mingyue Valley secrets into the Heavenly Sword Faction's Scripture Pavilion?

Mu Jinyu wasn't worried at all.

After all, he was no mere disciple but someone who could genuinely influence the order of the Heavenly Sword Faction; as long as they're sane, they wouldn't mess up for such minor benefits.

Moreover, the Blood Sword Sect's collection was enough to satiate them.

After removing everything from the Treasure Pavilion and the Scripture Pavilion, Mu Jinyu looked around the ruins of Mingyue Valley, finding a few items he deemed useful, then, having found nothing more, he broke through space and returned to the Heavenly Sword Faction!

...

Half a day later.

Mu Jinyu returned to the Heavenly Sword Faction.

Among the disciples who were overjoyed at the Heavenly Sword Faction's survival and the revenge against the Blood Sword Sect, they received another fresh and shocking piece of news.

The Liuyun Sect, which had just stepped into the ranks of the Four Great Sects of Yan Kingdom and ranked third in this Four Sects Martial Meeting, was also obliterated by their Senior Brother Mu Jinyu, who single-handedly went to Mingyue Valley!

Within a day.

The Blood Sword Sect and Liuyun Sect were both annihilated.

The Four Sects of Yan Kingdom suddenly turned into two sects, and the power of the Heavenly Sword Faction was evidently a hundred times stronger than Beixue Mountain Villa!

Everyone in the Heavenly Sword Faction, upon hearing this news, fell into a daze, then erupted into joyous frenzy, if not for the absence of firecrackers and restrictions on drumming and gonging, they would certainly celebrate for seven days and nights.

They never expected that the Heavenly Sword Faction, which had nearly been annihilated by the Blood Sword Sect, could become so dominant after Senior Brother Mu awoke, consecutively crushing two other great sects.

Henceforth, the situation of the Heavenly Sword Faction reigning over Yan Kingdom was unchangeable.

And in the Elder's Grand Hall.

Upon returning, Mu Jinyu went there first, informing Xie Yuan and the others that he had destroyed the Liuyun Sect, then notifying them of his intention to help Ji Li rebuild Mingyue Valley.

"What? Rebuild Mingyue Valley?"

Just as Xie Yuan and the others were overjoyed hearing Mu Jinyu annihilate the Liuyun Sect, thinking the Heavenly Sword Faction's Scripture Pavilion would be enriched with countless secret manuals, they heard this news and were stupefied.

However, they were not ordinary people and quickly adjusted their mindset, nodding and saying with a smile, "Alright, whatever you decide to do, we will support you..."

"But..." Xie Yuan paused and then said, "Mingyue Valley was slaughtered clean by the Liuyun Sect, with at most a few hundred having escaped by luck. How do you plan to rebuild it?"

"Do you need us from the Heavenly Sword Faction to pull out some female elders to join Mingyue Valley?"

Chapter 929: Beixue Mountain Villa Submits!

"Hmm?"

Upon hearing the Great Elder's proposal, Mu Jinyu's eyes flickered. He understood his intentions clearly.

Having a portion of the female Elders from the Heavenly Sword Faction join Mingyue Valley in its reconstruction, would that still be considered Mingyue Valley?

It would essentially just be a puppet of the Heavenly Sword Faction.

Mu Jinyu initially intended to reject the offer outright, but upon reconsideration, he realized that the fate of Mingyue Valley, with or without the intervention of the Heavenly Sword Faction, wouldn't be much different either way.

After all, the upper echelons of Mingyue Valley were all slain, and only a small number of disciples managed to escape. Even with disciples like Ji Li who had reached the Divinity Transformation Realm, if he were to help Ji Li rebuild Mingyue Valley and gather back these few disciples, it was destined to become a minor sect.

And with the rise of the Heavenly Sword Faction dominating the Yan Kingdom, even the Beixue Mountain Villa, which had preserved its strength, trembled before the might of the Heavenly Sword Faction, let alone the ruined and rebuilt Mingyue Valley.

Even with his connections there, he couldn't stay in the Heavenly Sword Faction forever, much less in Mingyue Valley.

Thus, after its reconstruction, Mingyue Valley was destined to depend on the Heavenly Sword Faction to survive!

If that was the case, having the Heavenly Sword Faction participate and assist might even allow Mingyue Valley to develop better.

Moreover, considering their relationship with him, the Heavenly Sword Faction would surely not deliberately oppress Mingyue Valley.

However, this was not something he could decide. He still had to ask Ji Li to see what she thought about it.

Mu Jinyu pondered slightly and said, "I'll ask Ji Li about this later and see what she decides."

"Alright." Although Xie Yuan had some interest in the reconstruction of Mingyue Valley, he wouldn't act recklessly.

Even the Liuyun Sect, which made him a bit wary, wielded its spiritual and secret treasures. Mu Jinyu single-handedly wiped it out within half a day, how could he dare to treat Mu Jinyu as just a disciple?

So, even if Ji Li ultimately rejected the Heavenly Sword Faction's involvement, he wouldn't be angered and would still contribute to the reconstruction of Mingyue Valley.

"Okay." Mu Jinyu nodded slightly. Then when Xie Yuan asked about the details of the destruction of the Liuyun Sect, he didn't hide anything and told them directly.

The Elders of the Heavenly Sword Faction were shocked upon learning about the Liuyun Sect's means, and the special elixirs that could elevate one's realm by several levels at once frightened them as well.

Thankfully, the Liuyun Sect hadn't truly taken root and developed in the Yan Kingdom, otherwise, once stabilized, its Elders could have all reached the Fanxu Realm.

If they were to go to war with the Heavenly Sword Faction and consume such elixirs, wouldn't the Liuyun Sect pose a threat even greater than the Blood Sword Sect?

However, this latent threat had been preemptively eradicated by Mu Jinyu.

"Is there any more of that elixir?" Xie Chenkun, after hearing about the effects and drawbacks of the 'Twin Armor Extreme Breaking Pill' from Mu Jinyu, was cautious of the side effects but felt having such an elixir on hand would provide the Heavenly Sword Faction with an extra trump card.

In the event of another Blood Sword Sect-like crisis, having the "Twin Armor Extreme Breaking Pill" could prevent a repeat of the day's humiliating scene.

"There should be. I remember seeing it in their storage bags."

After annihilating the Liuyun Sect, Mu Jinyu took the storage bags from Fang Xiuyuan and the others. He hadn't thoroughly checked them yet, but he vaguely remembered seeing them.

It wasn't because there were too many storage bags and he couldn't check them all, but because he hadn't had the time. Even the storage bags from the Blood Sword Sect's Zhou Yun weren't checked; he had been busy running around.

After explaining, Mu Jinyu retrieved a few storage bags from the Liuyun Sect's members out of the dozens tied to his waist and handed over a few "Twin Armor Extreme Breaking Pills" to Xie Chenkun and the others.

The group, upon receiving them, played with them for a while, both delighted and fearful.

After Elder Cheng sniffed the fragrance of the elixir, he commented, "This should be a Third Grade Elixir. Jinyu, did you find any pill formulas?"

"I'm not sure. I haven't checked these storage bags thoroughly yet. Once I get back and if I find any, I'll send the pill formulas from the Blood Sword Sect and Liuyun Sect to you, teacher," Mu Jinyu replied.

Although Elder Cheng's strength wasn't the highest among the Elders present, he had shown Mu Jinyu the kindness of a mentor. If it wasn't for his sharing of his knowledge and a piece of the Sacred Wood Branch, Mu Jinyu wouldn't have broken through to the peak of the Third Layer of the Fanxu Realm so swiftly.

Thus, although Mu Jinyu wouldn't call him Master, he still addressed him respectfully as teacher.

"Good, then I'll await your message." Elder Cheng replied with a gratified smile, his eyes filled with anticipation.

He had no interest in the secret manuals looted by the Blood Sword Sect, but the pill formulas intrigued him. Alas, there were no pill formulas in the Scripture Pavilion; it seemed that the Liuyun Sect's Alchemist, much like him, kept the formulas to himself.

The likelihood was that the Blood Sword Sect's Alchemist had also perished at Mu Jinyu's hands, meaning the pill formulas would likely have fallen to Mu Jinyu.

Mu Jinyu didn't have time to check now, but once he did and learned them, Elder Cheng could also study the Blood Sword Sect's pill formulas.

He had always been intrigued by the Blood Demon Life-Reducing Pill from the Blood Sword Sect and wondered whether they had the formula, or if those elixirs were relics obtained from ancient ruins.

Seeing there wasn't much else to report to Xie Yuan and the others, and feeling Elder Cheng's eager look as almost a prompt, Mu Jinyu took his leave and headed towards his residence on Tianlan Peak.

On the path back to Tianlan Peak, many disciples who saw Mu Jinyu stopped in their tracks, respectfully shouting "Senior Brother," and only started excited discussions once he passed.

Their conversation never strayed far from topics about Mu Jinyu.

Quickly, Mu Jinyu arrived back at Yard No. 1 at the summit of Tianlan Peak.

Wen Rou and the three women Jian Ruyan weren't cultivating. Seeing Mu Jinyu return, Wen Rou and Ji Li gathered around, expressing their concern.

Jian Ruyan didn't move but gave Mu Jinyu a few more glances. Seeing that he was safe and appeared in good spirits, she sighed in relief.

Originally, when Mu Jinyu went with Xie Yuan and the others to destroy the Blood Sword Sect, they weren't too worried, knowing the top combatants of the Blood Sword Sect had all been decimated by the Heavenly Sword Faction.

But as Xie Yuan and the others returned and Mu Jinyu didn't, and learning that Mu Jinyu had gone to settle scores with the Liyun Sect for Ji Li, they all grew concerned.

Now, seeing Mu Jinyu return safely, Wen Rou and Ji Li couldn't sit still.

Ji Li approached, her eyes filled with gratitude and concern, asking, "Young master, are you alright?"

"I'm fine." Mu Jinyu nodded to Wen Rou and ruffled Ji Li's hair, saying, "I've annihilated the Liuyun Sect, avenging you."

"Thank you, young master." Ji Li said with gratitude, pressing her lips together.

Mu Jinyu then explained to Ji Li about the reconstruction of Mingyue Valley and Xie Yuan's proposal, leaving the decision to her whether to allow the Heavenly Sword Faction's involvement.

If they did involve themselves, Mingyue Valley's status as a vassal to the Heavenly Sword Faction would be unavoidable.

Hearing this, Ji Li had difficulty making a decision.

Rebuilding the Mingyue Valley, no matter how weak, would still be independent, but she feared whether it could stand on its own with just her and a few sisters' efforts?

While Ji Li was struggling with the decision of whether Mingyue Valley should become a vassal of the Heavenly Sword Faction, startling news arrived.

The Sect Leader of Beixue Mountain Villa, accompanied by the senior Elders, personally came to the Heavenly Sword Faction, expressing their submission and their willingness to become a vassal to the Heavenly Sword Faction from henceforth.

Chapter 930: The Uneasy Beixue Mountain Villa!

The Sect Leader of Beixue Mountain Villa, leading a group of high-ranking elders, came to the Heavenly Sword Faction to express submission and willingly become a vassal of the Heavenly Sword Faction.

This news spread within the Heavenly Sword Faction, exploding like a bomb throughout the sect.

It ignited the emotions of everyone within the Heavenly Sword Faction to the extreme!

Initially, some people were skeptical about the accuracy of this news, but after seeing the people from Beixue Mountain Villa arrive and getting confirmation from the elders, they realized their Heavenly Sword Faction had grown so powerful as to dominate the entire Yan Kingdom.

They were filled with pride, proud to be disciples of the Heavenly Sword Faction.

However, most disciples did not let this pride make them lose themselves because they all knew that this honor was not brought by the Heavenly Sword Faction itself.

It was one person, their senior, Mu Jinyu!

It was he who single-handedly subdued all Four Sects of the Yan Kingdom.

He alone destroyed the Blood Sword Sect and the Liuyun Sect, so how could Beixue Mountain Villa, one of the Four Sects, not be afraid? How dare they not submit?

...

In the reception room of the Elder's Grand Hall.

Xie Yuan was brewing tea for the Great Elder and Sect Leader of Beixue Mountain Villa.

"I have already sent someone to notify him; Jinyu should be here soon," Xie Yuan said with a cheerful smile while pouring the brewed tea for the others.

"Hmm, thank you very much."

The Great Elder of Beixue Mountain Villa, whose real name was Lin Yi, nodded slightly and responded with a smile upon hearing Xie Yuan's words.

He wore a smile, but his heart was filled with bitterness.

During the Four Sects Martial Meeting, Beixue Mountain Villa's chief disciple Lin Tianxue, who was the Defender of the Arena, was defeated by the challenger Yun Ge, which ultimately led to Beixue Mountain Villa being the last among the Four Sects, making him very unhappy.

But he was not too afraid of the Heavenly Sword Faction, as the Heavenly Sword Faction only seemed to have two talented disciples, signaling a potential revival.

He personally stepped up to encourage Beixue Mountain Villa's disciples to work hard and bring back their honor at the next Four Sects Martial Meeting.

Just when he had mobilized all of Beixue Mountain Villa's disciples, igniting their fighting spirit and urging them to strive for the next Four Sects Martial Meeting.

An earth-shattering piece of news struck him like thunder, stunning him on the spot, and extinguishing the fighting spirit of all Beixue Mountain Villa's disciples.

According to spies near the Blood Sword Sect, the Blood Sword Sect was destroyed.

And it wasn't due to an all-out battle between the Heavenly Sword Faction and the Blood Sword Sect, where both sides were nearly exhausted, leading to the hard-won destruction of the Blood Sword Sect.

According to the spies, the main force that wiped out the Blood Sword Sect was just one person.

It was Mu Jinyu, the winner of the Four Sects Martial Meeting less than a month ago!

Lin Yi's first reaction upon hearing this news was disbelief.

How could he possibly believe it? He'd be crazy to believe it.

After all, Mu Jinyu was only at the Ninth Layer of the Divine Transformation Realm, and even if he was lucky enough to break through to the Fanxu Realm in the Blood Essence Pool in one month, what qualifications did he have to single-handedly annihilate the Blood Sword Sect?

However, when the spies transmitted the images recorded using the "Profound Light Mirror" technique, he could only remain silent.

The Blood Sword Sect was indeed destroyed.

Later, following the news from the Heavenly Sword Faction's spies, it was learned that not long ago, the Blood Sword Sect had led a massive invasion against the Heavenly Sword Faction, and due to the full activation of the Heavenly Sword Faction's Mountain Protection Array, the specifics were unknown, but it was guessed that Zhou Yun and others had perished within the Heavenly Sword Faction.

This led to the scene of Mu Jinyu destroying the Blood Sword Sect.

This news made Lin Yi feel relieved, speculating that the Heavenly Sword Faction must have paid a hefty price to stop the invading Blood Sword Sect.

It must have been severely depleted as well, which might be an opportunity for their Beixue Mountain Villa.

He was then tempted, considering whether to strike the Heavenly Sword Faction with a fierce blow.

At this time, spies planted near Liuyun Sect sent news that Liuyun Sect was also destroyed by Mu Jinyu!

The "Profound Light Mirror" footage received this time plainly confirmed that the person who wiped out Liuyun Sect was none other than Mu Jinyu alone.

Initially, because of the Blood Sword Sect's destruction, it was assumed that the Heavenly Sword Faction was severely depleted, and the people of Beixue Mountain Villa, who could still remain seated and were somewhat tempted, were now completely terrified.

The Blood Sword Sect and the Liuyun Sect were both wiped out by the Heavenly Sword Faction. What was their Heavenly Sword Faction doing? Were they planning to dominate Yan Kingdom?

Would their next target be Beixue Mountain Villa?

Lin Yi and the others could no longer sit still.

They urgently convened a meeting to discuss countermeasures and ultimately abandoned the idea of leaving Yan Kingdom.

If they left Yan Kingdom with the entire sect, it would mean giving up Beixue Mountain Villa's Heaven Cave Blessed land, and even if they went elsewhere, they might not find such a Heaven Cave Blessed land.

This would only make Beixue Mountain Villa weaker, and coupled with local sects in other countries, they wouldn't allow them to develop easily, making the situation dire.

Finally, they decided to express submission to the Heavenly Sword Faction.

So, they came.

Knowing their intention of submission, Xie Yuan warmly entertained them. However, when Lin Yi inquired whether Mu Jinyu had any intent to destroy Beixue Mountain Villa.

Xie Yuan shook his head, indicating he didn't know, and implied that if Mu Jinyu sincerely wanted to destroy Beixue Mountain Villa, he couldn't stop it.

Thus, we have the scene of Lin Yi and others waiting for judgment.

Lin Yi waited anxiously, uncertain whether his submission to Mu Jinyu could preserve Beixue Mountain Villa, and how much strength and power it could maintain.

He pondered whether this step was right or wrong...

"Knock, knock!"

The sound of knocking suddenly broke Lin Yi's train of worried thoughts.

"Please, come in."

Knowing it was Mu Jinyu, Xie Yuan said with a smile.

The door opened.

Mu Jinyu walked in accompanied by Wen Rou and three other women.

"Jinyu, come, have a seat. Let me introduce you. This is the first Supreme Elder of Beixue Mountain Villa, Lin Yi, and this is the Sect Leader of Beixue Mountain Villa..."

Under Xie Yuan's introduction, Mu Jinyu nodded slightly to them, acknowledging the greeting without showing any hint of impatience.

Standing behind Mu Jinyu, Ji Li watched the once aloof elders of Beixue Mountain Villa, each now full of sycophantic smiles toward Mu Jinyu, and her thoughts were extremely complicated.

Even Beixue Mountain Villa, which had preserved its strength, expressed submission to the Heavenly Sword Faction and became a vassal sect. What reason did she, from the destroyed Mingyue Valley, have to refuse the Heavenly Sword Faction's help?

Moreover, she originally felt that rebuilding Mingyue Valley, given her strength and capabilities, might not last long and that at any time, the rebuilt Mingyue Valley could fall apart.

And those Female Elders sent by the Heavenly Sword Faction surely had more experience, and with their assistance, even though Mingyue Valley would no longer be the original Mingyue Valley, its name would at least be preserved.

This would pay homage to the sacrifice of the elders of Mingyue Valley in that battle.

After all, their selfless fight was meant to preserve some of Mingyue Valley's legacy, so it wouldn't completely become a relic of history.

Being able to rebuild in this way would surely comfort those elders of Mingyue Valley who died in battle.
