

Kryptonian 100

Chapter 100 Ge Xiaolun goes completely crazy

Ge Xiaolun could not imagine or accept the fact that Du Qiangwei died in front of him.

Just thinking about it is scary, not to mention that he still hasn't come to his senses.

"Angel Yan..."

Ge Xiaolun murmured the name.

On the other side, the original plot did not happen, but now because of the addition of Luther and the Kryptonian civilization, when the angels monitored Ge Xiaolun, they discovered that Ge Xiaolun was troubled and invaded by nightmares.

"Is Morgana's nightmare invasion a spiritual attack method?"

Holy Keisha is thoughtful, Morgana is also eyeing the power of the galaxy?

No, she, an idiot, doesn't know the importance of galactic power to angelic civilization.

"Queen, in addition to the Galactic Power Ge Xiaolun, the Sun's Light Emperor Lena and the Earth's Heart Cheng Yaowen have records of being invaded by nightmares. Do we want to intervene?"

Angel Yan asked Holy Kesha. She was worried that the power of the galaxy would be affected by Morgana. You must know that Morgana's mind implantation method is not much worse than that of angels, and angels rarely use mind implantation on other people. enter.

"Don't worry, Yan. The lowest gene of Galaxy Power is blocked by technology left by the Shenhe Civilization. Thought implantation will not affect him."

Holy Kesha said, of course, even if it is affected, Holy Kesha will not care. In her opinion, these are the training that the power of the galaxy should go through. If you want to become the most advanced supreme god, of course you have to go through something different. ordeal.

His life is destined to be extraordinary. Only a god who grows up in this way can become a hope instead of becoming a demon controlled by desire.

Genetic model is one thing, whether it can grow is another, everyone knows it.

Some things are bound to happen, and what Holy Kesha needs is for what happens to happen to stay within the original plan.

"Yes, Queen Keisha."

Angel Yan was naturally convinced by the words of Holy Kesha.

Ever since, Ge Xiaolun had nightmares every day without anyone taking care of them, and he gradually realized the pain of Cheng Yaowen and Di Leina.

They can no longer distinguish between dreams and reality. Ge Xiaolun is even worse. He has been tortured to the point of having hysterical emotions towards angels.

He and Du Qiangwei joined the demon civilization in order to protect the Blue Star that was destroyed by the war. Then the demon queen Morgana of the demon civilization announced that she would protect the Blue Star, but the angels came to expel the demon civilization!

They clearly didn't show up when the war started, so why did they hinder Blue Star who was protecting him?

Especially Angel Yan, whose arrogant look was disgusting, but Ge Xiaolun discovered that even if he unleashed his potential and killed Angel Yan, there would still be other angels who would kill Du Qiangwei.

"Devils deserve to die!"

"Angels are just, Ge Xiaolun, you and Du Qiangwei have gone astray, so we angels will judge you!"

"If you don't stand on the side of justice, you will die!"

Nightmares one after another gradually gave Ge Xiaolun a ridiculous idea.

Accept the devil and kill all the angels!

"Heifeng, how's it going?"

Morgana asked about the progress.

"Both Di Leina and Cheng Yaowen can no longer distinguish between reality and dreams. In other words, they have collapsed and the implantation of malicious thoughts has been completed. As for Ge Xiaolun, he has fallen much faster than I imagined. Queen, he Can you really become the highest god?"

Hei Feng was a little doubtful about life.

It was just that Ge Xiaolun experienced the scenes of brotherly respect, harmony and beauty, brotherly unity, and the gentle and considerate queen in the demon civilization. Coupled with the angel killing Du Qiangwei, Ge Xiaolun quickly fell.

After it discovered this, it let the angels kill the demon, Du Qiangwei and the queen every time.

Morgana almost had to cut it again, but for the sake of the plan, Morgana endured it.

"Of course! This is Angel's future and hope, but he has fallen in love with Du Qiangwei. Tsk tsk tsk. Holy Kesha, Bichi's favorite thing is to let her group of roast chickens seduce men all over the universe. This time I am Let's see how her men hook up with the power of the galaxy!"

Morgana was so happy that the Power of the Galaxy actually loved Du Qiangwei deeply. When the angel killed Du Qiangwei, the Power of the Galaxy was particularly active and almost hurt Black Wind again.

Black Wind almost died last time. It didn't expect that its anti-void ability was so terrifying, and it almost died in the field it was best at.

Later, Hei Feng carefully weaved a dream, more to stimulate than to make Ge Xiaolun explode.

It knows very well how to influence a person subtly, just like Du Qiangwei changed in the later period.

The method of extorting favors was indeed very targeted at people like Du Qiangwei, not to mention Ge Xiaolun. In just a few days, Hei Feng had already figured out what kind of person he was.

"Don't worry, queen, now every angel has killed Du Qiangwei in front of Ge Xiaolun. Ge Xiaolun killed the angels crazily every time, but still couldn't save Du Qiangwei. Now he has gone completely crazy. I guess he can see it in reality. Angels will also pounce on them and kill them."

Heifeng said as if he was taking credit.

"Well done! Now this naughty boy belongs to me, the Queen!"

Morgana said with satisfaction.

"But Queen, Ge Xiaolun doesn't seem to know how to develop his Galaxy Power ability."

Black Wind reminded.

"It's okay, he can't do it. Queen, can't I do it?"

Morgana said nonchalantly, completely unaware that the void engine sword in Ge Xiaolun's hand had been replaced by Luther.

If Ge Xiaolun is not unlocked now, he will not use his anti-void ability at all.

"The angels are making big moves. That bitch Kesha has transferred a few floating islands. No armed forces have been detected yet. There are nearly a hundred angels coming. I just don't know if they are coming for us or the Kryptonian civilization."

Morgana is very troubled when talking about the current situation. The angels are staying in the outer orbit and are probably determined to wait for Morgana.

This also makes Morgana unable to do many things.

In such a vicious cycle, Morgana is even more unhappy with Holy Kesha.

"Hundreds of angels?"

Heifeng was shocked. If that's the case, then their military strength will not have an advantage!

After all, hundreds of angels are enough to kill all the mutant demon cannon fodders gathered by Morgana at this time.

"So controlling Ge Xiaolun will be of great help to us. Maybe he can help us destroy Holy Kesha. At that time, he will destroy Holy Kesha. Even if he doesn't want to surrender to the queen, he can't go to the angel civilization!"

Morgana said proudly.

Of course, she will never let go. After destroying Holy Kesha, she will start to completely transform the galactic force into her own warrior!
