

Kryptonian 141

Chapter 141 Tony intervenes

Bruce Banner had a bad feeling when he saw Mr. Blue, a sloppy middle-aged man wearing glasses.

"I studied your blood sample, it's incredible!"

Mr. Blue is the big boss in Marvel Comics, Samuel Stern.

However, in the comics, he is just a naturally slow high school dropout who works part-time. In the movie, he becomes an online friend of Banner, helping Banner to research the serum to eliminate Hulk, and successfully researches the serum that can suppress Hulk.

Of course, the effect of this serum is probably only able to suppress Hulk, but it is impossible to completely eliminate Hulk. Later, Hulk still appeared, and it was because of the effect of the serum that Hulk could not beat Abomination.

Otherwise, how could Abomination, who has a fixed strength that cannot become stronger, be the opponent of Hulk, who becomes stronger the more angry he is?

During the research process, Stern became very interested in Banner's blood, and wanted to study the ingredients in it and make medicine to make himself famous, and use the blood sample sent by Banner to produce a large amount of serum.

"You cloned my blood???"

Bruce Banner never expected that Sten's laboratory was full of his blood samples. He didn't send so much blood to Sten, so these were Sten's cloned blood.

"Of course."

Sten thought it was natural.

"No, you can't clone my blood!"

Bruce Banner got excited and almost turned into the Hulk.

"You sent me too little blood. If I don't clone it, I can't do research."

Sten lied.

"The inhibitory serum has been successful. Do you want to inject it?"

Then Sten changed the subject, not wanting Bruce Banner to pay attention to his blood cloning.

This blood is related to whether he can succeed.

Bruce Banner really stopped paying attention to this matter.

"Is it really successful?"

Bruce Banner can't wait any longer. He has been tortured by Hulk for too long. He can't go home and can't sleep with his girlfriend. Once he goes, he has to transform. Hulk wants to come out to play. Can Betty stand the ravages of Hulk? Of course not!

So when Bruce Banner saw another man beside Betty, he turned away with pain, understanding and relief.

If he couldn't give others happiness, should he let others stick to him?

And now, Bruce Banner felt that he finally had hope. As long as he killed Hulk, he would still be the genius he was before!

As a result, not long after Bruce Banner was injected with serum and successfully suppressed Hulk, Bronsky received intelligence and brought people to kill him, but it was a pity that the opponent he wanted was gone.

"Come out, let the beast in your body come out!!!"

Bronsky grabbed Bruce Banner's clothes and roared angrily.

He was eager to fight, and the accumulated military exploits were enough for him to sit comfortably in the office as a colonel, but he still didn't want to be promoted and refused, just to be able to fight on the front line all the time.

After finally enjoying the superhuman level of combat, he launched Compound No. 1 at Monarch Company, and used his savings for many years to borrow money from his comrades and go to the bank to get the money for Compound No. 1.

After the injection, he felt great. Not only did his peak physical strength return, but it was even stronger! ! !

But when he was full of confidence, he met the Hulk.

Then Bronski's heart was broken. After seeing that kind of power, Bronski was desperate. Even if the Imperial Company had the human body modification technology of Luther, who was more powerful, could he wait until that day?

The super bodyguard of the Imperial Company alone was better than Compound No. 1. Bronski was very envious and even thought about retiring and applying for a super bodyguard at the Imperial Company.

As a result, General Ross told him that he also had a trump card.

The super soldier serum was just a modified super soldier serum. In order to gain strength, Bronski chose to inject it directly without caring whether the super soldier serum would conflict with Compound No. 1.

General Ross did not care whether Compound No. 1 would conflict with the super soldier serum, and injected him.

It can only be said that it is a fate for two crazy people to get together.

Luther remembered that this super soldier serum was very powerful, much stronger than Captain America's version. Most importantly, Captain America and Red Skull's versions of super soldier serum did not have Bronski's recovery speed.

He was kicked by the Hulk and all his bones and internal organs were broken, but he recovered in less than one night and became stronger.

So this super soldier serum might be an optimized version.

To be honest, judging from the effect shown by Bronski, Luther wondered why General Ross didn't get a hundred or eighty super soldiers. If the effect was so good, wouldn't the American Congress be happy to death?

Then Bruce Banner was taken away, and Tony was ready to intercept him and ask General Ross for Bruce Banner.

"General Ross, Mr. Bruce Banner is a guest invited by me, Stark. What are you going to do to him?"

Tony flew all the way here in his iron suit, just because he was afraid that it would be too late.

"Stark, others are afraid of you, but it doesn't mean I will be afraid of you!"

General Ross didn't give Tony any face at all and said to him directly.

"Really, General Ross?"

Tony raised his eyebrows. He liked this kind of unruly guy the most.

"I think that the military is wasting taxpayers' money for no reason. Maybe we can ask Monarch and other companies to jointly conduct an investigation and interview."

Tony choked Ross with just one sentence.

"Bruce Banner is the property of the military, Tony Stark! You have no right to take him away!"

General Ross certainly knew what would happen if this investigation and interview was successful. The military would definitely find a scapegoat to appease these capitalists, especially since Tony was already important enough for the military to pay attention to, not to mention the addition of Monarch.

In addition, they knew very well who caused the anger. By then, even if they had connections, they would have to take off their skin if they didn't die.

And without this skin, what else could he have?

So General Ross could only argue.

"Really? Do you need me to investigate?"

The armor in Tony's hand projected Bruce Banner's information.

"As far as I know, Mr. Bruce Banner has always been a free man, but he has not signed any agreement with your military..."

General Ross gritted his teeth, not knowing why Tony was fighting him to the death.

But at this moment, a roar suddenly came from the laboratory, and then a huge yellow-green monster rushed out of the laboratory.

Chapter 142 Famous scene online

General Ross looked at the huge shit-yellow monster with a confused expression.

Little did he know that Tony was also shocked.

Isn't Hulk just Bruce Banner? Why is there another one?

The hatred that rushed out saw General Ross and Bruce Banner who had not yet left, and rushed over without saying a word.

"Fire!!!"

General Ross's men had dealt with the Hulk countless times, and they chose to open fire without saying a word.

But these bullets were like tickling the abomination, and it didn't even slow down!

The super soldier serum and compound No. 1 produced a mutated reaction. Luther was very interested in this mutated reaction. Blonsky was afraid that Blonsky was not the super bodyguard who could kill him with one punch at this stage.

As a result, Blonsky has now conducted a second crazy experiment, which makes him look even more ferocious now.

Although the original plot was already very ferocious, now, its bones are extremely prominent, and all the bones are broken out of the body, making Abomination become a corpse-like existence. The difference is that his bones have also become something like an exoskeleton.

"Keep your men back!"

Tony closed the steel mask, said to General Ross, and then he flew out.

General Ross's eyes flashed with an inexplicable light. He had already guessed who this giant was, Emil!

I didn't expect this guy to be so crazy and succeed!

Now that Tony Stark is here, can you use Tony Stark to arrest Blonsky? Then, he will be able to develop mass-produced Hulk soldiers.

Give him a hundred Hulk soldiers... no, give him ten Hulk soldiers, and America will conquer the world just around the corner!

Tony fired a missile and hit Abomination. Abomination was staggered by the explosion, but was still unscathed and became angry instead.

"Tony Stark!"

Blonsky naturally knew Tony, and he crossed the distance between the two parties with a big jump. However, the arm armor thruster of Tony's arm opened, the structure changed, and the internal hydraulic transmission rattled, which was already extremely compressed. strength!

Tony applied the principle of the hydraulic press to his steel suit, which made the punch so powerful that Tony himself could not even imagine it.

There was no way, who made his imaginary enemy be Luther who smashed the Steel Overlord with one punch?

Blonsky didn't know this, so he pounced on Tony with all his teeth and claws, trying to grab this annoying tin can and then tear it into pieces!

After gaining the power of Hulk, Blonsky was so happy that he couldn't help himself and felt that he was invincible.

Now that he is invincible, there is nothing wrong with killing a capitalist to celebrate.

Anyway, Bronsky's mind is now filled with destruction and desire for expression, and he has not considered what to do with his daily life at all.

Who cares, let's have fun first!

Then he saw Tony punch him. He didn't know if it was an illusion. There seemed to be circles of air waves on his fist. He didn't know that this thing was called a Mach ring.

But I'm the Hulk now, invincible, and I'm so scared that I'll let you punch me!

Bronski didn't even bother to dodge, he grinned and stretched out his big hand to grab Tony.

The next moment, a fist hit his face.

"boom!!!"

The air exploded, and the terrifying shock wave knocked Tony hundreds of meters away. This was despite the resistance of the propeller, otherwise he would have been thrown thousands of meters away.

The shock wave and interaction caused dense cracks in Tony's gauntlet. Even Tony himself couldn't bear this full-force punch.

After taking this punch, Bronsky flew out, and the exoskeleton of his head exploded! Crush!

He almost breathed his last, and then Bronsky, who couldn't come back, suddenly coughed violently.

It never expected that Tony, a capitalist and playboy, would have such a terrifying attack. Even with the power of the Hulk, he couldn't resist that punch!

That punch shattered its exoskeleton helmet, shattered its skull, and shocked its brain tissue into a ball of paste. If it weren't for the tenacious vitality of Hatred and the specialized recovery ability of the Super Soldier Serum, , now it is dead.

Death from shattered brain tissue.

Even so, Hatred remained silent for several minutes before shaking his head again and standing up unsteadily.

"Damn, this guy is harder to deal with than I thought..."

Tony knew that the power of his punch was not as powerful as a real hydraulic press. After all, he could not withstand such a terrible reaction force. He would probably die by then. Tony didn't want to die together with one punch or something.

Seeing Abomination stand up again, Tony had no choice.

"You guys leave quickly!"

Tony's right arm armor was completely shattered and fell to the ground.

Bruce Banner saw this and stepped forward.

"Dr. Banner, I heard that the beast inside you cannot be controlled. Are you sure you want to let it out?"

Tony didn't know about the antidote yet and thought Bruce Banner wanted to turn himself into the Green Hulk. He frowned and said.

"Besides, I have already called a very fast kid to come over. By then..."

Bruce Banner shook his head, stopping Tony's next words.

"This is my responsibility. He was born because of me. I can't escape it."

"Thank you for coming to my aid, Mr. Stark."

He was grateful that Tony came to help him, and then he walked over to Blonsky.

"Oh, I feel like there will be a famous scene next."

Luther clicked his tongue.

For example, Bruce Banner jumped out of the plane, hit the Rainbow Bridge, and died in front of Fenrir, leaving the notorious Fenrir confused.

Now that Bruce Banner has the antidote in his body that is suppressing the Hulk, it will be difficult for the Hulk to come out unless Bruce Banner is on the verge of death.

Bruce Banner tried to commit suicide by swallowing a gun and taking poison, but each time he would turn into the Hulk and endure all kinds of fatal injuries.

Therefore, the plot of Deadpool massacring the Marvel Universe is a BUG. Kill Bruce Banner before he transforms. If it were so easy to do, General Ross would have succeeded long ago.

Even though General Ross wanted to capture Bruce Banner alive at first, after so many failures and losses, General Ross has lowered the standard to the point where he can study even if he obtains the body.

Bruce Banner stepped forward and began to think about all the things that made his heart beat faster. Oh, actually, there is no need to think about it. Facing a behemoth like Blonsky, Bruce Banner's slight phobia of giants broke out.

However, this time, no matter how fierce his heartbeat was, his body did not react at all.

Chapter 143 Beating

Bruce Banner started to panic a little.

"How about we chat?"

He said to Bronski cautiously.

Blonsky showed a ferocious smile, and then just like Hulk kicked him before, he kicked Bruce Banner with a big foot, and then Bruce Banner was like a stone thrown away on land. It bounced several times and finally crashed into a wall.

The whole place was dead silent, and there was no sound!

Tony looked at this scene in disbelief, "No, where's the promised Hulk?"

"JARVIS, scan Bruce Banner's vital signs!"

"Sir, Mr. Bruce Banner's vital signs are very weak."

Tony didn't know what happened, but it must have something to do with General Ross.

"What did you do to him?"

Tony quickly questioned General Ross, trying to find solutions and ideas.

"We didn't do anything."

General Ross looked disgusted, and he didn't know why Bruce Banner suddenly couldn't transform.

They were originally annoyed and wanted to take Bruce Banner back to study why he couldn't transform into the Hulk, but Tony came to stop them.

"It seems I missed something?"

Suddenly a voice sounded above their heads. Tony and General Ross immediately looked up to the sky and found Luther passing over their heads lightly and then landed on the ground.

This makes Tony very angry, right? How old are you, and you still do this kind of thing?

A kid is a kid.

At this time, Luther was wearing a black armor. It seemed too thin to be called armor, but too thick to be called a tights.

The streamlined armor coupled with the black cape is very similar to the armor that Batman used to challenge Superboy.

It's just not that bloated, and it doesn't have that Bat Helmet.

"Luther?"

Blonsky also recognized Luther, and he became excited.

He knows that Luther is very strong, very strong, but he is also very strong now!

So he bolted towards Luther.

"Careful, Luther!"

Tony quickly reminded that Luther might not be able to defeat a monster that could stand up within a few minutes after taking his own punch.

"OK."

Luther nodded slightly, and then slapped the hateful face.

"Bang!!!!"

Like the loud explosion of a high-explosive grenade, General Ross and the others couldn't help but cover their ears. Then Bronsky flew out, smashed a house, and passed through the other side.

"That's it?"

Luther asked Tony.

Tony was stunned for a moment, because of Jarvis's analysis, Luther's slap just now was as powerful as his full-strength punch, or even stronger!

The next moment, a roar sounded, but it was not the direction Bronsky flew out, but Bruce Banner who smashed into a house and was lifeless and motionless!

A green giant grabbed the broken wall with one hand and stepped out of the shadows.

Huge body, explosive muscles, bright green healthy skin, and a head of spirited short hair.

Hulk, Hulk!

"Hulk————!!!"

The Green Hulk roared and came back again.

"Oops!"

Tony didn't expect Hulk to come out at this time.

And Bronski also came back, with a slap mark visibly sunken into his head.

But this slap mark is quickly disappearing.

Green Hulk originally looked at Tony and Luther, but after Blonsky appeared, his eyes turned to Blonsky.

Blonsky ignored Green Hulk and stared at Luther.

He didn't expect that even if he became stronger, he could be slapped away by Luther so easily, and looking at Luther, he seemed to be very relaxed.

How is this possible!

This caused Blonsky to ignore Green Hulk and rush towards Luther.

Luther put a foot on the head of Bronsky who was flying over, and stepped on it forcefully!

"Bang!"

Bronski struggled wildly after being stepped on by Luther, trying to grab Luther's feet, but Luther stepped on Bronski with a little force and fell into the ground.

At the same time, Green Hulk also rushed over.

Facing the rushing Green Hulk, Luther raised his hand and fired a Qigong wave!

"Boom!!!"

This is much better than the howitzer. After all, Luther knew that the howitzer was just tickling the Green Hulk, so he did not continue to use it.

The Green Hulk was blown away and fell to the ground. General Ross and the others easily saw that the Green Hulk was covered in blood and flesh, with green blood flowing all over the floor.

"How is that possible! Hulk is injured?"

General Ross's eyes widened. He had been chasing the Green Hulk for so many years and he knew the Green Hulk's frankness very well. But the Green Hulk was so easily wounded by Luther?

Does this mean that his efforts all along were wrong and that it was wrong to spend so many lives and resources?

Tony watched in shock as Luther fought two against each other. Originally, he thought the Green Hulk could cause trouble or even hurt Luther, but now it seems that Luther is clearly able to do so with ease.

"not bad."

Luther said.

Blonsky seized the opportunity and turned around to lock Luther with a cross, but Luther directly penetrated its body with a hand knife!

Poof!

Bronski's pupils shrank, and he looked at the center of his chest in disbelief, the arm that had sunk directly into it.

Are you kidding? It was so easy...

Bronski fell to the ground, and Luther shook his arm to shake off the blood on it. With the biological force field, there was no need to worry about sticking.

It was just that General Ross and Tony were stunned now.

Hulk was still not convinced. He was Hulk. Even if he was weak, he had to stand up!

"Hulk!!!"

Hulk could only say a few simple words now, and only learned to speak after living on Sakaar for a few years.

The word he said most often was Hulk, which was both an interjection and a way for him to express his emotions.

Hulk stood up again, and strode towards Luther with his weak body.

Luther did not dodge, but stood where he was, and then when Hulk approached, he kicked Hulk into the sky.

The Hulk danced helplessly and fearfully in the sky, then fell heavily to the ground, creating a big hole!

"Tsk, it must hurt."

Tony said.

General Ross's face turned black. He didn't expect that the Hulk, whom he had high hopes for, would be hung up and beaten by Luther.

It was a similar situation at SHIELD. Nick Fury stared at the live broadcast on the screen with his eyes wide open in disbelief. The shit-yellow giant and the Hulk were easily crushed by Luther.

At this point in the fight, everyone could see the huge gap between the two giants and Luther.

Chapter 144: Dealing with the Green Hulk

"How is it possible? Could it be that Luther's human body modification technology..."

Nick Fury couldn't calm down in his heart. He always felt that Carol was the strongest. After Carol, the Green Hulk was the second strongest. As for Luther, although he looked strong in all aspects, he shouldn't be the Green Hulk. Ke's opponent, or similar to the Green Hulk.

After all, he has a lot of information about the Green Hulk at hand, and he knows very well how terrifying this crazy green beast is.

He originally thought that Luther and Tony would join forces to fight the Green Hulk and that shit-yellow monster, and he was going to let Coulson bring out Hydra's energy weapons to support them.

What he never expected was that Luther was able to deal with the Green Hulk and the ferocious monster all by himself.

Green Hulk got up again, roaring and punching Luther crazily.

With a smile on his face, Luther easily used four ounces of force to push away the terrifying fist of the Green Hulk with both hands.

Every punch was deflected, teased, led, or crooked by Luther. This was the top level of neutralizing force!

He looked so smooth and chic that Tony was jealous when he saw it.

"How could he do this?"

"Sir, according to analysis, this is the Tai Chi of the Yan Dynasty mixed with some San Shou Bagua..."

Jarvis answered immediately.

"Tai Chi?"

Tony remembered this word and planned to program it into the Steel Suit after he returned. He also wanted to be as elegant and unrestrained as Luther. This feeling fascinated Tony. He should be like this too!

Green Hulk became more and more violent and angry, and was unable to capture and hurt Luther for a long time, allowing Green Hulk to gradually break free from the influence of the antidote.

Luther looked relaxed, actually...more relaxed.

Even if he senses that the Green Hulk is getting stronger, his body is getting stronger, and he knows that the opponent has completely gotten rid of the suppression of the antidote, what's the point?

Luther gets stronger much faster than Green Hulk, so he won't panic at all.

I even want to see where the Green Hulk's limits are.

"It's not good. Is Hulk getting bigger?"

Tony discovered this keenly.

"Hulk is the strongest. He becomes stronger, faster and more powerful with anger!"

General Ross said immediately.

He remembered that Green Hulk still had such an ability, and then said excitedly.

Yes, that's it!

"How is it possible that there is such a thing?"

Tony was anxious. Even though Luther seemed to be able to handle it now, Green Hulk was getting stronger. Luther probably couldn't deal with Green Hulk, so he was in a stalemate with Green Hulk here.

"Will the anesthetic help him?"

Tony asked General Ross.

"Do you think I haven't thought about using anesthetics?"

General Ross said to Tony speechlessly.

He must have tried this kind of thing.

Tony also slapped his head, he was really confused.

Just then, Tony saw Luther's mouth wide open.

"call!!!"

Blow out a gentle breath.

Super breathable!

Also called freeze breathing, then, visible frost appears on the surface of Green Hulk's body.

Green Hulk struggled, but the frost became thicker and thicker, finally freezing him completely.

Tony and General Ross looked at this scene dumbfounded. Bronski, who had already recovered and wanted to fight out, also retreated and pretended to be dead.

"How did you do this?"

Tony asked, looking at Luther with wide eyes.

He knew about cryobreathing, but how did Luther restore Superman's super power?

You are too reductive, Tony has always felt that Superman's superpower is very unscientific, especially the setting of blowing out a star in one breath is extremely outrageous.

As a result, after seeing Luther really restore the super breath, Tony was shocked. He understood thermodynamics, so he knew how outrageous it was to be able to do this.

Is Luther really a human body modification technology? ? ?

Or is he a very rare person with multiple superpowers?

Tony was in a state of confusion at this moment.

But then, their quarrel with General Ross began.

General Ross said that Green Hulk and Blonsky were the property of the military, and Tony was not qualified to take them away privately!

Tony said that he had evidence of General Ross's human experiments and the damage caused. Someone needed to take the blame for everything that happened tonight. He felt that it was up to the people to decide who should take the blame.

Although public opinion is not important in America, and capitalists and big men don't care, sometimes public opinion can be very useful.

Maybe the Chinese people can't understand it, after all, they are not playing the same trick.

"Stark, I'm warning you, the military is behind me!"

General Ross could only threaten Tony at the top of his lungs.

"Who cares?"

Tony said casually that although he lost his connections with the military after closing the weapons department, he was not something the military could easily offend.

Not to mention that he also has Luther as a partner.

"Let's take a step back. We will take Mr. Bruce Banner away, and you will take away your soldiers."

Luther stood up.

"Luther?"

Tony didn't understand why Luther would do this. Wouldn't it allow the military to continue to rely on Blonsky to cause trouble?

Given General Ross's character, he would never let go of the research on Hulk's power, and Bronsky would probably become his second experimental subject.

"Tony, it's useless for us to take Bronsky back. Do you want him to join us?"

Luther said to Tony.

"Of course not!"

Tony said without thinking, what kind of person is Bronsky, and is he worthy of joining his Illuminati?

"That's it?"

Luther seemed to really not care about this matter, so Tony had to give up.

General Ross did not continue to insist. Being able to get Bronsky was the best ending for him tonight. At least there was an explanation, and he didn't have to worry about being handed over to take the blame.

Luther and Tony took Bruce Banner away. After being frozen, the Green Hulk seemed to lose consciousness, and then turned back into Bruce Banner. Tony thought this was a good way to target the Green Hulk.

General Ross was annoyed that he hadn't thought of using liquid nitrogen weapons to deal with the Green Hulk before?

If he had known that the Green Hulk would be solved by cooling, it would be better.

Of course, they didn't know that it was impossible for the Hulk to be cooled down by being frozen in anger. It was just that Luther was too strong and easily dealt with the Hulk. If they were to come, even several tons of liquid nitrogen would not be able to cool the Hulk down.

Chapter 145 Hydra comes out to clean up the mess

Then, General Ross quickly called his men to take Bronski back.

Just because Blonsky retreated and pretended to be dead, it didn't mean that he didn't have the strength to resist.

What he thought was that after Luther and Tony were gone, he would run away.

With this power, where can I not be free?

As a result, General Ross's convoy was attacked halfway!

Luther also didn't expect that General Ross didn't use a transport plane to load Blonsky. Maybe he thought the transport plane couldn't fit it?

Fortunately, he also prepared a superpower with the ability to fly. Looking at it now, this effort was saved.

"boom!!!"

There was a loud noise and the armored vehicle overturned!

The overturned armored vehicle caused the unprepared soldiers inside to slam into each other and against the wall, causing fractures.

General Ross was dragged out by the soldiers in embarrassment, and then he saw several familiar figures attacking them.

"HYDRA???"

General Ross's eyes widened as he recognized these figures.

Hydra people!

Or rather, Hydra's superpower!

The guy at the head has a big gold tooth, nicknamed "King Kong", his skin has a metal-like substance that cannot be penetrated by an automatic rifle, and he is very strong.

There is also a guy who plays with a pistol called "Ghost Shadow". He is very fast and mainly relies on firearms to kill people.

Then there is a stone man with obsidian-like stones all over his body, which is very similar to the stone man in the Fantastic Four. Of course, there are no Fantastic Four yet, so it is called the "stone man".

And a guy who is emitting light to destroy armored vehicles. His name is "Ray". His ability is to absorb the surrounding heat energy and then emit plasma fluid-like rays. It is very powerful and can

explode. According to America's many tests and research, it is speculated that It has the same level of destructive power as an anti-tank infantry mine.

Just seeing these four Hydra superpowers gave General Ross a headache.

Bronsky broke free immediately, and then saw four superpowers attacking General Ross's convoy.

"Are you Blonsky? Lord Black Caesar wants to see you."

The stone man stepped forward and said to Bronsky, the abomination who had not yet returned to his human form.

"The leader of Hydra wants to see me?"

Blonsky thought for a moment. After being beaten severely by Luther, Blonsky had realized that he was not as invincible as he thought, and the same was true for Green Hulk. Therefore, fighting alone seemed not conducive to his survival in the following days.

As for going back with General Ross, Bronski had no such idea from the beginning to the end. Just kidding, General Ross would definitely use him for experiments.

After all, it is different from the original plot that destroyed New York, causing General Ross to step down and take the blame. Because of Tony's intervention, the damage caused by Abomination and Green Hulk was limited, so General Ross can still suppress this matter, so he naturally has the ability. Continue studying Blonsky.

Bronsky thought it would be good to find a powerful force to join, and Hydra, which has been wreaking havoc on America recently, but America has been unable to do anything about it, seems to be a good choice.

"Then let's go."

Blonsky agreed.

The Stone Man and the others slaughtered part of the soldiers and destroyed their vehicles before leaving openly.

General Ross's forehead was bleeding, and he stared at the direction where the stone man and the others left.

asshole! ! !

After all, he still didn't dare to shout the word.

But General Ross was very distressed.

It took a lot of effort to get Blonsky back from Tony and Luther, but now he was snatched away again. How did Hydra know?

Is there someone from Hydra in his team?

More importantly, without Blonsky, how would he explain?

I'm afraid this time I won't have to pay a lot of money to get rid of the trouble.

Bronski was taken by the Stone Man and the others, and then suddenly appeared in another place in the blink of an eye.

Blonsky was startled.

"Are you Emil Blonsky?"

A man appeared in front of Bronsky, and Bronsky recognized him as the famous Black Caesar, the leader of Hydra that now makes America miserable!

"I just look a little different."

Blonsky still looks hateful now. In the original plot, he had to be controlled for a long time before he could change back to human form. In the comics, he couldn't even change back to human form.

"Yeah, your appearance has changed a lot. So, let's give you a showdown first and see how good you are and how good we are."

Black Caesar laughed, and then said directly.

Bronski did not expect Black Caesar to be so direct, but that was exactly what he meant. Black Caesar's directness made Bronski very satisfied.

"No problem, who of you comes first?"

Bronski is very used to this. In the army, this is how the rules are set to determine the position of the boss.

"I'll go first!"

The stone man stood up.

"It seems like you are the most powerful here?"

Bronsky rubbed the bone spurs in his fists and said to the stone man.

"The most powerful one is Lord Black Caesar, not me."

The stone man said quickly.

Bronski was a little surprised, but he thought the stone man was probably flattering him, so he didn't pay attention.

"Let's get started."

Black Caesar said.

Bronski looked around the venue. He didn't know how he and the stone man suddenly came here, but the ground and walls around were made of alloy, which seemed very suitable for them to fight.

And judging from the marks on the ground, it seemed that they had experienced many battles.

"I will be careful not to kill you."

The Obsidian Stone Man said to Bronski.

"You said my lines."

Bronski grinned, then rushed up and punched the Obsidian Stone Man.

The Obsidian Stone Man stood still and let Bronski punch him in the chest.

"Bang!"

With a loud bang, Bronski was knocked back a few steps by the reaction force, while the Obsidian Stone Man did not move at all.

"That's it?"

The Obsidian Stone Man had no major scars except for a few small holes in his chest, and these small holes were healing quickly, which made Bronski's pupils shrink.

Then Bronski got angry and rushed up.

After a fierce battle, he fell at the feet of the Obsidian Stone Man.

"With this kind of strength, you can only be considered a Hydra fighter."

The Obsidian patted the cracks on his body. Bronski still caused him a lot of scars, but he was able to recover.

Although Bronski could also recover, he couldn't break through the defense to hurt the Obsidian.

Bronski really didn't expect this situation. He thought that after getting the power of the Hulk, he didn't dare to say that he would dominate the world and sweep everything, but at least he could be a cadre in Hydra, right?

Chapter 146 Nick Fury's Reluctance

Then Black Caesar got interested and fought with Bronski.

Bronski saw that Black Caesar dared to fight in person and realized that Black Caesar was probably not simple. Logically, he should know that he couldn't even beat the Obsidian Stone Man, let alone Black Caesar?

But he was eager to fight, so Bronski agreed directly.

"Be careful, Sir!"

Bronski punched Black Caesar, and the next moment, he felt as if he had hit a hard wall, his head was buzzing, and it was very painful. This tingling feeling made Bronski fall to the ground and roll on the ground.

Then after a while, he came to his senses, but Black Caesar's expression had become solemn.

"What is that?"

Bronski asked Black Caesar.

"That is the spiritual power of the BOSS, telekinesis to resist your attack, and then use spiritual power to attack your spirit. No matter how strong your body's defense is, your spirit is fragile."

Obsidian Stone Man said jokingly with his hands clasped.

Bronski was still in shock. It was the first time he had experienced the feeling of a splitting headache. He couldn't think about anything else, just the pain.

He would rather Black Caesar defeated him with a stronger power than the Obsidian Stone Man than fight with this weird power of Black Caesar again.

Psychic power?

Bronski finally understood why the Obsidian Stone Man and his friends would submit to Black Caesar.

The opponent was not easy to deal with at all.

And that kind of psychic power was very weird. I'm afraid it would be easy for the opponent to take him down if they attacked together.

"Bronski's strength is good. After you master the transformation back to human, follow them on the mission."

Black Caesar said calmly, and then disappeared.

Bronski's pupils shrank.

"This is the BOSS's teleportation. We were also teleported back in this way. As long as we think about where we want to go, we can go directly to the other side even if we are on the other side of the earth."

Obsidian Stone Man acted as an interpreter and said to Bronski.

"There is such a powerful superpower?"

Bronski only felt at this time that he was sitting in a well and looking at the sky. He saw a Green Hulk and thought he saw the strongest on earth.

In addition, he had never fought Hulk, so he thought he was about the same as Hulk. Luther beat him and Hulk, so he should be able to deal with Obsidian. I just don't know who is more powerful than Black Caesar?

However, the Hydra organization is still promising.

Nick Fury soon learned that General Ross was attacked by Hydra and Bronsky was taken away.

"Fuck, this waste!"

Nick Fury was furious. Why else could Hydra take Bronsky away?

I'm afraid that Bronsky will help Hydra next time they meet. General Ross is really more of a hindrance than a helper!

Nick Fury was so angry that he almost had a cerebral congestion. Hydra was not easy to deal with. The two cornerstones of the Avengers that they had found were now left alone. And judging from the fact that Tony and his team insisted on taking Bruce Banner away, this genius doctor might also follow Tony and his team.

Mine! Mine! They are all my Avengers!!!

Nick Fury just watched his Avengers gather together and not play with him.

In this case, is there any need for his Avengers plan to continue?

Even if Captain America is resurrected, the world is so chaotic now, I am afraid he is just a soldier who can fight a little. Even those guys who have been injected with the No. 1 compound of the Monarch Company and used the superman drug can cause him a lot of trouble, right?

So Nick Fury was even more angry, and almost fell to the ground and foamed at the mouth.

Coincidentally, Alexander Pierce in another office had a heart attack because of anger, but fortunately he took medicine in time to relieve it.

Moreover, a guy as rich as him must have been injected with the No. 1 compound, but the No. 1 compound is not a cure, it can only greatly relieve his heart pressure.

As for the reason why he was so angry, it was nothing more than getting the same information as Nick Fury, and Hydra was blamed again.

Black Caesar and his group took away Bronsky, which is Hydra's stuff! ! !

Or, it was Alexander Pierce's Hydra branch's stuff!

Black Caesar took the person away without even saying hello. It was really that the outsider Hydra was too rude!

Especially since Hydra had attracted Nick Fury's attention again, he had to take the trouble to hide Hydra and deceive Nick Fury.

Fortunately, this time it happened on the street after all, so it was not surprising that Hydra reacted so quickly. If something happened in a military base, it would be a big trouble.

Tony brought Bruce Banner back to the Stark Building he planned to build. Luther's Imperial Building made him very jealous, but at present, this building has only completed an outer frame, and the decoration inside has not been completed.

But there is no problem in using it to house Bruce Banner. It is better to say that if he loses control and goes out of control and destroys the house, Tony will not feel bad.

Bruce Banner has woken up from his coma.

"This is..."

Bruce Banner looked at the things around him blankly. When he became the Hulk, he would sometimes lose his memory and sometimes only have partial memory. So Bruce Banner was not surprised at all why he was here. He just didn't remember some of his memories, but the memory of being beaten was deeply imprinted in his mind for some reason.

"Hello, Dr. Banner."

Tony was very polite. In the original plot, the two first met on the aerospace carrier, and Tony went there with a little emotion.

This time, Tony wanted to attract people to join, so of course he couldn't say bad things about the other party.

"Mr. Stark?"

Bruce Banner recognized the famous playboy and arms dealer.

Then he saw Luther shaking a red wine glass and drinking a bubbly cola on the sofa on the other side.

Then he jumped up suddenly as if he had an electric shock.

Green spread along the blood vessels in his neck.

"Calm down, Dr. Banner, I don't want to tear this place down."

Luther said calmly.

Bruce Banner realized that something was wrong with his current situation after hearing what Luther said. He took a deep breath and sat cross-legged on the spot.

For some reason, Hulk was very stubborn this time and wanted to come out very much.

But he still managed to suppress Hulk.

"It seems that Hulk is very unconvinced."

Luther said jokingly.

Bruce Banner paused for a moment, not knowing what to say.

"Thank you, Mr. Luther."

Bruce Banner thanked Luther, after all, he stopped Abomination and Hulk.

Chapter 147 Hulk Baby's Education

"Dr. Banner, I would like to invite you to join us. We need your wisdom."

Tony extends an invitation to Bruce Banner.

"Need my wisdom?"

Bruce Banner fell into deep thought. If it were before, Bruce Banner would definitely think that they were coming for the Green Hulk, but he couldn't stand it and was rubbed by Luther, which showed that Luther had solved the Green Hulk. Gram's ability.

In this case, Bruce Banner began to consider whether to join or not. He wanted to leave and stay away, just to prevent the Green Hulk from harming others.

Every time the Green Hulk appears, he goes berserk and causes many casualties.

Bruce Banner doesn't want that to happen again.

"But I lose control easily."

Bruce Banner expressed his worried thoughts.

"Dr. Banner, don't worry, we have Luther."

Tony smacked his mouth and said.

Sooner or later he will develop Hulkbuster armor against Green Hulk!

But now we can only let Luther, the brat, take the blame.

"It's impossible for Mr. Luther to perfectly defeat the Green Hulk every time, right?"

Bruce Banner was a little moved. If possible, who would be willing to go to a remote country and bury his talent for most of his life?

He wanted to prove himself before he devoted himself to the research of gamma ray radiation. Of course, he also wanted to impress his father-in-law and recognize him, but he did not expect that this would happen.

There must be some reluctance in his heart.

"Dr. Banner, I feel that blindly suppressing and destroying the Hulk may not be the real solution."

Luther shook his head and said to Bruce Banner.

Bruce Banner always wanted to destroy the Hulk. Because the Hulk affected his life, he never thought about other ways to solve the problem.

"You are also a scientific researcher. You should know that science is a methodology. There cannot be only one way of solving problems. Just like nuclear fusion, Tony has found an unexpected cold nuclear fusion. This is a theory, and even the theory has been proven Fake."

Luther gave an example that is easy for scientific researchers to understand.

"But... is there any other way to solve the problem?"

Bruce Banner naturally knew this, so he couldn't think of any solution. Even the antidote failed. In the end, the Green Hulk was not killed, but came out.

Tony is also very interested. He originally planned to ask Bruce Banner to get some genes and cells for research to see if he can find a solution. Of course, he will definitely not speak now. At least Bruce Banner is still wary. .

But I didn't expect that Luther seemed to have different ideas.

"How about trying to communicate with Hulk?"

Luther's words made both Bruce Banner and Tony widen their eyes.

"No, Hulk can't communicate."

Bruce Banner said quickly.

Tony thought so too, but he didn't think that thing was someone he could communicate with.

"I'm different from you. Maybe it's because I'm too strong and have no fear when facing it. I can see more things. Bruce, Hulk is still a child, just a child with infinite strength. That's why we attacked because you attacked it first."

Luther shook his head and explained why he had such a ridiculous idea.

Bruce Banner didn't know what to say, this idea was crazy.

"You mean, we have to educate Hulk like a child?"

Tony raised his eyebrows, this idea was too crazy and too cool.

Why didn't he think of it? The problem is, how can they educate each other with a baby who is so powerful?

At this age, babies don't know good and evil and the value of life, right?

"There is no need for education, only communication. Hulk has the memory of Bruce Banner. Their memories are common. What it lacks is the ability to understand these memories. We have to guide him, Bruce, if you and Hulk can reach a compromise. If so, maybe Hulk won't come out to bother you so often."

Luther continued.

Bruce Banner was silent. He felt that Luther's idea was too crazy, but it was very thoughtful, and he even felt it was feasible!

"Okay, now a baby Hulk with multiple doctorates?"

Tony complained, that was even harder to deal with.

"Communicate with Hulk. Every time Hulk comes out, I lose consciousness. How can I communicate with him?"

Bruce Banner finally wavered.

"You can record what you want to say, and then let Hulk come out and show it to Hulk himself."

Luther shrugged. Such a simple way of communication is a genius. Can you not think of it?

Bruce Banner suddenly realized, yes, there is such a method.

"I'm here to help, Jarvis, record it and build a three-dimensional model of Bruce Banner. The projection is more impressive than the picture, isn't it?"

Tony then said that he just wanted to express his sense of existence and not let Luther compete.

"Thank you, Mr. Stark, and Mr. Luther."

Bruce Banner is very grateful to both men.

Good guy, this is it.

Then Bruce Banner didn't know what to say to Hulk, because for so many years, he only hated and complained about Hulk, and it seemed that he really didn't understand or think about Hulk's feelings.

Every time Hulk appears, his life is in danger, and every time he appears, the world seems to be malicious towards him.

The world is malicious towards me, and I am angry at the world?

Bruce Banner looked at the camera, as if he saw the Hulk in his body.

"Hulk... I am Bruce Banner..."

Tony and Luther watched from the side.

"Do you think this method can succeed?"

Tony asked Luther.

"Who knows? I just provided a way to solve the problem. There are too many uncertain variables in emotions and life. I can't be 100% sure before the answer comes out. After all, even data can have irrational numbers."

Luther shook his head.

"You are right."

Tony nodded. Mathematics has irrational numbers, let alone life?

Then Bruce Banner finished recording and let Hulk come out.

Hulk appeared very quickly this time, and Tony snapped his fingers.

The next moment, Bruce Banner's 3D model appeared in front of Hulk.

Hulk seemed to know what had just happened. It looked at Bruce Banner's projection very quietly.

"Incredible..."

Tony widened his eyes. The Green Hulk was so quiet, which proved that Luther's conjecture was feasible!

It is not a mad beast, it can communicate and understand.

"Banner Jr....doesn't like...Hulk..."

The Hulk said to the projection.

Chapter 148 Bruce Banner joins

Green Hulk naturally knows that Bruce Banner wants him to die, so he and Bruce Banner can't reach a reconciliation.

"Hulk... doesn't like... Little Banner..."

Green Hulk hammered the ground and said.

"OK, OK, calm down, calm down, I hate Banner too!"

Tony quickly calmed down the big man.

"I've recorded it and will show it to Bruce Banner later."

Luther said to Tony with a smile on his face.

Tony's eyes widened, "I beg you, please just be human, I'm here to coax the kids, what are you doing here?"

"Hulk, nasty, black guy!"

When Green Hulk saw Luther, he immediately stood up straight and said to Luther.

"Hahaha, black guy, do you hear that?"

Tony laughed, sharing the same hatred as the Green Hulk at this moment.

"Hulk doesn't like...tin cans either!"

The Green Hulk punched the ground and knocked Tony away.

"Tin can, you hear that?"

Luther also laughed and mocked.

"Oh, you are such a bad boy."

Tony stood up in embarrassment, and then kept his distance from the Green Hulk. He almost forgot that the Green Hulk could tear apart tanks with his hands, and probably only Luther could withstand his playfulness.

"Hulk, not bad! Fight Hulk! Bad!"

Green Hulk immediately shouted loudly, and even formed sound waves to vibrate the air, allowing Tony to enjoy free hair styling services.

"Okay, okay, okay, Hulk isn't bad!"

As Tony said this, he told Luther to think of a solution quickly, no matter what.

"Hulk, do you want people to like you?"

Luther then said to Green Hulk.

Green Hulk paused for a moment, seeming to be thinking about this issue.

"No one will hurt you, we can be friends."

Luther reached out his hand and said to Green Hulk.

Green Hulk looked at Luther's palm and knew what it meant.

"We need you, Hulk, and we will accept you. We are friends and a family."

Luther continued.

Tony stood aside and watched. He didn't dare to be like Luther. After all, he didn't have Luther's body.

After hearing what Luther said, Hulk frowned and stared at Luther with his eyes.

It hesitates.

"He's afraid."

Hulk looked at Tony. He could sense Tony's fear, so it was impossible for everyone to like him.

"No, no, no, I'm not afraid of you."

Tony said helplessly, then he thought for a moment and stepped forward like Luther.

"I, Stark, don't like bad boys, Hulk, you're a good boy, right?"

Luther couldn't imagine that Tony could say such disgusting things.

Tony was actually disgusted by himself, but he felt this feeling better, just like he complained about his father.

"Hulk!"

Hulk seemed to want to express something, but was too excited and could only say one word.

Then he took Luther's hand.

Luther's expression remained unchanged. Even if Hulk suddenly came to a green version of hell, Luther would not be easily shaken by him.

Feeling that Luther's heartbeat was normal and unchanged, Hulk looked at Tony.

"Uh, okay, I'm not used to shaking hands with other people."

Tony hesitated for a moment, and then stretched out his hand. Hulk's huge palm held his hand, making Tony's pores almost expand. He was really worried that this hydraulic machine-like palm would crush his hand to pieces.

Moreover, isn't it normal for children to not be able to control their own powers?

Unexpectedly, Hulk controlled it well and Tony gradually calmed down.

"Hulk! Friend!"

Hulk shook both men's hands, and then let go.

His body then rapidly shrunk and finally transformed back into Bruce Banner.

Bruce Banner recovered and remained conscious after his first transformation. He looked at his palms in disbelief.

"Clearly, this approach has been successful."

Luther said with his hands crossed.

Tony also finally felt that Hulk was indeed what Luther said, he was just a child who wanted to be recognized.

It was as if he wanted to be recognized by his father.

He couldn't help but clenched his fists.

"Incredible, this is the first time Hulk hasn't screwed up."

Bruce Banner breathed a sigh of relief, and then said with a complicated expression.

"Maybe you can talk to yourself in the mirror in the future, because Hulk seems to be able to hear, and you can also let Hulk come out to play often. Tony won't care about the loss of this building anyway."

Luther said with a smile.

"Listen, I will build a playground for Hulk. Children his age should like amusement park things..."

Tony rolled his eyes at Luther, he didn't care, but that doesn't mean you can't care for me.

However, this was indeed worthless to Tony, so he didn't say anything.

Bruce Banner never thought that before he married Betty, he would have to experience the feeling of being a father in advance.

He nodded helplessly.

"I understand, I will get along well with Hulk in the future...like a father."

Bruce Banner had a complicated expression.

"Okay, after working for so long, Bruce, you should be very tired. Go and take a rest."

Tony said to Bruce Banner.

"It's really strange. Mr. Tony can also comfort and care for others?"

Luther said with a smile after Bruce Banner left.

"I will only do this to people I approve of, Luther kid."

Tony retorted unhappily.

Then Bruce Banner's joining the Illuminati was obviously completed.

According to Bruce Banner's words, only here does he not need to worry about hurting others.

Even if Luther is not in Stark Tower most of the day, he can fly.

If something happens, he can probably rush to the scene as soon as possible.

Even so, Tony still bought most of the area near Stark Tower, making Stark Tower a very large industrial park.

But now Stark Industry does not have any industry that needs such a large area, let alone new energy.

This is just Tony completing his own task of building a playground for Hulk.

Of course, this playground must be specially made, otherwise it would not be able to accommodate Hulk's tossing.

Then Tony talked to Bruce Banner and found that Bruce Banner was more talented than he thought. Although they were in different fields, they complemented each other. The Illuminati did not require everyone to be in the same field, but to be comprehensive.

Tony's headache now was the problem of new materials. The alloy strength of his iron suit could not keep up.

Chapter 149 Long Live Hydra!

Compared with the calm daily life of the original plot, it is much more intense now, which makes Tony feel that his steel suit becomes outdated every time it is upgraded.

There was no other way, Tony could only keep upgrading his suit.

The problem is that his suit is limited by material problems. Even if the technical and energy problems are solved, if the material problem is not solved, his steel suit will not be upgraded.

Otherwise, Tony's punch that destroyed Abomination would not have caused his suit to break.

In this regard, Luther gave a good suggestion.

"If there are no new materials, why not develop in the direction of nanorobots? Nanorobots can adjust the structure and change the structure at will. They can also start from the microscopic field and let the nanorobots be responsible for shock absorption, impact absorption, etc. In my opinion In the future, whether it is new materials or new technologies, they will all fall into the development of the micro field. "

Luther's words made Tony suddenly enlightened, and he felt like a bolt of lightning penetrated his brain.

Yes, why didn't he think of this?

No, he could have thought of it originally, but Luther was just a little faster.

Tony is not a character who will give up easily, and he is not interested in studying nanobots with Luther.

"This suit of mine is a nanorobot."

Then Tony was caught off guard, Luther pointed at the black armor on his body and said to him.

"Nano robots, are they finished?"

Tony looked at Luther's armor with some surprise.

"After all, I also have the same trouble, that is, the clothes cannot bear my body. If I move casually, they will tear and turn into ashes due to air friction."

Luther said calmly that it was not time to bring out things like biological force fields, so of course Luther had to arrange a armor for himself, and by the way, Tony would feel that he was always living in his shadow.

I also made the nanobots before you, and none of your suits can keep up with my speed of getting stronger.

"I see, you don't have a superhuman biological force field, so friction with the air is really a problem."

It was only then that Tony realized that although Luther's supersonic movement was very powerful, it would be a big problem if an ordinary suit could not withstand it.

In particular, Tony detected that Luther's movement speed peaked at the terrifying speed of Mach 5.4. Unless he was wearing a gold-titanium alloy suit like his, ordinary suits would not be able to withstand it.

But he didn't expect that Luther had already completed the nanorobot technology one step ahead of him. Judging from the completion level of this technology, it was estimated that it was still very high.

How many surprises does this boy have... Tony feels like he has been living in Luther's shadow.

Ever since Luther was born, his reputation as a genius seemed to have been challenged. Even if he refused to admit defeat, he failed every time.

"Mr. Tony, do you need me to provide you with nanorobotics technology?"

Luther said very generously.

"No."

Tony refused directly, joking, he would not ask Luther, a brat, to help him.

"It seems that Mr. Tony is very confident, so I'm looking forward to your first nanosuit."

Luther didn't care. After Tony got the blood-edged armor of the nanorobot, he was officially qualified to enter the universe-level combat force, and he could also have back and forth with Thanos. It's just that the original plot was a little too comfortable. The combat effectiveness of the Blood Edge Armor did not fully meet the standards in the comics.

There is also the very powerful Extremis Virus suit in the comics... But the real-life Extremis Virus is hundreds of millions of points different from the Extremis Virus in the comics, and I don't know if Tony can still make that suit.

Tony had an idea, ignored Luther, and went back to tinkering.

Then Luther was bored and uploaded the video of Tony shouting "Long Live Hydra" to the Internet.

Because he discovered that Captain America Steve was running wildly on the street.

Steve, who had just woken up, used his extraordinary nerve reflex speed and keen insight to discover that something was wrong and that the nurse's acting skills were not up to par.

What's more, the game played on the radio was at the wrong time, and Steve was watching the game live.

So, why did SHIELD have such a big flaw?

No need to ask, everyone knows that it must be the fault of Hydra, or Nick Fury, a black-skinned braised egg, has insufficient knowledge.

Steve broke through the wall and rushed out. He thought he was caught by the pure, and they were going to numb him. However, when he came to the street, he found that he was surrounded by busy traffic and high-rise buildings, which made Steve stunned.

There was even a man with a mustache shouting on various screens.

"Long live Hydra!"

Such a magical scene made Steve stunned for a moment.

What happened after he fell into coma? Did Hydra win?

But hasn't Hydra been destroyed?

"That's not Tony Stark? Why would he shout Long Live Hydra?"

"It looks very embarrassed. It doesn't look like an act."

"Long live Hydra? There are still people who dare to say this now. I will report it immediately and I will get a bonus!"

"You're kidding, that's a big capitalist. If you report it, they will sue you for defamation!"

When Luther's people attacked Tony before, they didn't greet him with a face, so Tony looked a little sloppy.

Steve stared at Tony Stark on the screen.

Stark?

What is his relationship with Howard? Where is Howard?

At this moment, several black Chevrolet cars surrounded him, and the black-skinned braided egg who got out of the car also saw the screen, and his one eye suddenly widened.

What's going on?

"Are you from Hydra?"

Steve looked at the group of black agents in suits and asked coldly.

"Captain, calm down. The world is not what you think it is now. You have been... frozen for seventy years."

The black-skinned braided egg is now full of brainstorm. Why did Tony Stark shout "Long live Hydra"? Was he joking or did someone accidentally reveal his identity as Hydra?

Howard's son is Hydra?

This is the most ridiculous thing!

"Seventy years?"

When Steve heard this, his still firm expression immediately changed.

"I...I have a late dance."

Steve didn't want to believe such a ridiculous thing, but everything around him was beyond his imagination, so he couldn't help but believe it.

"Sorry, although Howard has been looking for you, it's too late."

The black-skinned braided egg was silent for a moment, and then said.

Chapter 150 The Good Man Luther

"Where's Carter?"

Steve has figured out what happened now, he ended up sleeping under the sea of ice, only to be found and recovered seventy years later.

"Ms. Carter is now older and has been admitted to our SHIELD nursing home."

Nick Fury knows that there are many things that Steve can't let go of, but the one he can't let go of the most is probably Carter.

But Carter is old now.

Steve met Carter, and then he felt that he was out of tune with this era.

S.H.I.E.L.D., Tri-Wing Building, in a very confidential room.

Nick Fury is using the advanced projector from Stark Industries in the room to explain to Steve what has happened over the years and the situation of SHIELD.

Of course, Nick Fury had no idea that this room was under HYDRA surveillance, with Alexander Pierce also watching.

He knew that Steve was unfrozen and awakened by Nick Fury. For some reason, Hydra didn't stop Nick Fury from doing this.

Maybe there are still high-level SHIELD agents who haven't been infiltrated?

For example, Coulson is solely responsible for this matter.

"Captain, we need you."

Nick Fury then said to Steve that he is the most important part of his Avengers.

So Nick Fury didn't want to see Steve sink like this.

"I don't understand, why do you want to wake me up?"

Steve asked, feeling that he was out of tune with this era and that he no longer belonged to this era.

"HYDRA still exists, and they're getting bigger, Captain!"

Nick Fury brings up heavy topics.

Steve's expression suddenly changed slightly.

"Hydra? But haven't I already eliminated the Red Skull?"

Steve still remembers that the Red Skull was destroyed by the Cosmic Cube, or maybe he was sent to an unknown place?

Anyway, with the Red Skull missing and the situation at that time, how could Hydra still exist?

"Now Hydra no longer has the Red Skull, they have a new leader named - Black Caesar!"

"He is more dangerous than the Red Skull, and Hydra has become very dangerous now!"

Nick Fury said to Steve, and by the way, he took Steve to see various Hydra events that had happened so far.

Steve's face was serious.

"Hydra may have developed a lot of powers during the years they disappeared, including these superpowers."

Nick Fury pointed to King Kong and others with a big gold tooth, and even the video of Blonsky turning into an abomination was on it.

In fact, what Nick Fury is most worried about is that Blonsky is obtained by Hydra, and then Hydra solves the problem of mass production of Hulk soldiers. This is the worst!

Originally, Nick Fury thought that the Hulk could not be copied, but after seeing General Ross and the others successfully create a second Hulk, Nick Fury realized that the Hulk plan was feasible.

The problem is that now that Hydra has snatched Blonsky away, no one can predict what will happen next.

He has also been worried about this problem. What if Hydra mass-produces Hulk?

Even if they have Hulk, they even have Luther who is more powerful than Hulk, but how can Luther deal with so many Hulks alone?

"I'm no match for them."

After reading this information, Steve was shocked to realize that Hydra seventy years later was more terrifying than before. How could he, a mere super soldier, be a match for these guys?

"I know, Captain, but I have a plan for you."

Nick Fury comes up with his Avengers plan again.

Then two people appeared on the projection screen.

One guy was a guy that impressed Steve a lot.

"I remember this guy, Tony Stark, yelling Hurray Hydra?"

Steve frowned, his first impression of Stark was not very good.

"In fact, Tony Stark has clarified this matter."

Nick Fury was also troubled by this matter. Tony Stark actually shouted "Long live Hydra". At a time when Hydra terrorism has made people panic, Tony Stark's video can be said to push him to On the cusp of the storm.

Many big shots who coveted the steel suit were dismissed one after another, but Tony didn't care about them at all. He had the confidence.

Luther and Imperial Company are on his side, so what else is there to be afraid of?

He knew how afraid those big men in America were of Luther messing around, so he placed a lot of weapons orders for Luther. Of course, all of these weapons orders are now invalid.

Even if it wasn't invalidated, Tony couldn't figure out how to deal with Luther. This guy was not normal.

Tony's clarification is that this is Hydra doing something, so don't believe it.

In fact, Tony had already prevented Hydra from doing this, but he didn't expect that Hydra would have a video. He obviously didn't see the video recorder at the time!

The picture is still so high-definition, simply amazing.

Fortunately, Luther didn't say anything and looked like he believed in him. Tony was quite moved even though he didn't say anything.

"Is he Howard's son?"

Steve saw the important part and breathed a sigh of relief. Howard's son couldn't possibly be Hydra. That would be too ridiculous.

"Yes, he invented a weapon that changed the era, the steel suit!"

Nick Fury showed off the scene of Tony's Iron Suit fighting the Iron Overlord, as well as various classic shots of the Iron Suit.

"If we had had weapons like this at that time, the Red Skull would never have succeeded."

Steve said with emotion after reading it.

"With this steel suit, it shouldn't be a problem to deal with Hydra, but it's not enough."

Steve shook his head.

"Then came the greatest surprise of the century, a genius so far unmatched."

Nick Fury still admires Luther very much, even though he embarrasses himself and refuses to meet him, making it impossible for him to even enter the gate of the Imperial Company.

But Luther is also hailed as the genius most promising to solve various human terminal diseases in this century. In fact, Emperor Company has produced a specific AIDS drug and recommended it to a charity organization. According to his investigation, this charity organization It should be normal, not the kind of money laundering.

And they are targeting patients with blood transfusion infection and maternal-fetal HIV infection. The charity organization purchased this specific AIDS drug in large quantities, and so far tens of thousands of patients have regained their lives.

Steve also saw things about the charity organization, and his favorable impression of Luther immediately increased.

Even though he knew that Tony was Howard's son, he actually still had a little grudge in his heart. In comparison, Luther was much better.
