

Kryptonian 221

Chapter 221 Choice

If we are lucky, there may be more than ten mutant elite demon generals among the second-generation demon warriors, which is equivalent to the level of third-generation warriors or even third-generation gods.

However, Morgana thinks Du Qiangwei is more attractive. While studying how to help Ge Xiaolun develop his super gene potential and engine, Morgana will go to Du Qiangwei every day to stick with her.

Luther has not appeared for a while, and Morgana is relieved.

As a result, Du Qiangwei saw the God King Luther appear again in the blink of an eye.

The last time the God King stayed for a short time and left. At that time, although Du Qiangwei wanted to ask Luther to help save Blue Star, she didn't know how to ask, and she didn't know whether Luther would help.

This time, Du Qiangwei, who had experienced so many things, had let go.

"Your Majesty Luther, please, help us."

Du Qiangwei pleaded in a very firm tone.

Luther was also very surprised to see Du Qiangwei begging him right away, but seeing that Du Qiangwei, the super warrior, was now physically and mentally exhausted, he seemed to understand why she let go so quickly.

It can only be said that Luther's plan is too targeted, and Du Qiangwei's difficulty is not difficult. If Ge Xiaolun had just taken a little more responsibility, he would have succeeded long ago.

This is a woman who was shaped to serve the country and the people, but the method and way of shaping are wrong, which makes Du Qiangwei very unreasonable in the eyes of many people.

She can talk to the enemy who killed her father.

But Du Qiangwei actually has no choice. In this environment, she can rely on and use the power. Whether it is angels or demons, Du Qiangwei will accept them all. It is also her idea to use demon civilization to save Blue Star.

It's a pity that under Morgana's precise calculation strategy, Morgana succeeded step by step.

This kind of technology god has calculated all psychology in place, knows how to repay favors, how to make you unable to resist, especially after the behavioral model and thinking model are established, it is even more impossible to escape.

Luther directly hit the place that Du Qiangwei cares about most, so that he didn't show up and communicate with Du Qiangwei, Du Qiangwei had already let go.

Morgana was stunned watching from the side. She knew there was such a possibility, and it was very big, but Morgana felt that she might not be able to attack Du Qiangwei under the calculation of Devil No. 1.

But there is a big premise, that is, Luther, the God King, should not run around again.

However, Luther appeared again, which made Morgana realize that her plan had failed, especially Du Qiangwei's current attitude. This is already handing over all the chips, you come to me!

"Qianwei, should we continue to think about it?"

Liang Bing walked up and said to Du Qiangwei.

Du Qiangwei ignored her. She knew that Liang Bing was not right. It was very likely that she was from the demon civilization, but how could the demon civilization compare to the Kryptonian civilization? There was no choice before, so Du Qiangwei let Liang Bing stay by her side.

"How do you want me to help you, and what can you give?"

Luther's eyes penetrated the tent and saw Angel Yan inside.

Now Angel Yan's heart is also very complicated.

Luther's words before he left were still fresh in his mind, and Angel Yan couldn't find Reina, and Pan Zhen was too busy with Reina's disappearance to care about Angel Yan. He originally planned to help Angel Yan, but he didn't know if there was any calculation in it.

After all, the Lieyang Civilization and the Angel Civilization were blood feuds, and maybe Pan Zhen planned to do something to Angel Yan to influence the future Angel Queen.

Therefore, Angel Yan currently has only one choice, which is to ask Luther for help.

However, Luther is very special to the Angel Civilization, especially during this period, when Ge Xiaolun was contaminated by the demon gene.

"I can pay any price!"

Du Qiangwei said.

"Can you make the decision? This king knows very well that the sovereignty of your civilization cannot be represented by one family."

Luther's words made Du Qiangwei feel embarrassed, but this is indeed a strange place on Blue Star. The sovereignty of other civilizations is not so dispersed at all, and even civilizations with two sovereignty are very rare.

Not to mention that like Blue Star, there are five sovereignty in the open, and I don't know how many there are in secret.

Moreover, the voice of these five sovereigns is not very strong, at least it is impossible to convince the people of the entire civilization.

"I can represent the sovereignty of China."

Du Qiangwei said.

Now that Ge Xiaolun is missing and the others cannot be contacted due to communication problems, the only one the Black Great Wall can rely on is Du Qiangwei.

In this case, it is not false for Du Qiangwei to say that she can represent.

"You have become the main god of Blue Star, so you are qualified to make these requests to this king. Otherwise, if this king asks you to hand over all your genetic information and resources, will you hand them over?"

Luther's main purpose is only Du Qiangwei, in order to tell Ge Xiaolun, look, Ge Xiaolun, Du Qiangwei uses it this way.

However, he can't get straight to the point right away, otherwise, it will be inferior.

It is to let Du Qiangwei know how much the price is, so that she will do her best to increase the bargaining chips a little bit, even at the cost of her own life.

To put it bluntly, it is to make Du Qiangwei think that she is just a gift and not the main body.

After all, Luther is only interested in Du Qiangwei.

"As for the idea of helping, I don't like it. There is a very good story called Journey to the West on your Blue Star. There is an allusion in it, called carrying mortals, as heavy as Mount Tai."

Luther almost said that Blue Star had surrendered, so it was impossible to help.

"I will go back and discuss it. There should be no problem."

Du Qiangwei said hurriedly.

What is carrying mortals, as heavy as Mount Tai? Now Blue Star has no choice. The support of Kryptonian civilization to Blue Star is limited to one city.

Now the whole Blue Star is confused and doesn't know where to go.

In addition, the image of Kryptonian civilization has always been very good, so Du Qiangwei naturally has no objection to Blue Star becoming a part of Kryptonian civilization.

"Then let's talk about it after you do it."

Luther didn't care. Most of the people on Blue Star might want to join Kryptonian civilization, but the sovereignty, high-level and Deno civilization people probably don't think so.

"Please don't leave for the time being, God King."

Du Qiangwei didn't dare to neglect it and said hurriedly.

Then she planned to go back to Lianfeng and others to discuss it. This was their opportunity, unique.

Liang Bing originally wanted to leave with Du Qiangwei, but after Luther, a better choice, appeared, Du Qiangwei ruthlessly abandoned Liang Bing.

Chapter 222 Liang Bing is in a panic

Liang Bing and Tian Shi Yan stared at each other.

Without Du Qiangwei, the two women who didn't get along with each other just left.

Luther lazily leaned aside. Knowing that he was a special soldier, the soldiers didn't dare to disturb him. Du Qiangwei had told him before leaving.

"Um, Your Majesty Luther, are you really interested in Lan Xing?"

Liang Bing felt that Luther couldn't recognize her identity, and she was really curious about Luther's thoughts, so she couldn't help but come over.

Luther knew that Liang Bing wanted to find out what he was thinking, but he didn't expect that he would be so bold after killing her several times.

It's still not cruel enough.

However, when he came back this time, Luther had changed his mind and thoughts, and he didn't want to kill Liang Bing.

"Do you want to figure out what I think?"

Luther stretched out his hand, controlled Liang Bing in the air, and then pulled Liang Bing into his arms.

"Hey hey hey!"

Liang Bing was panicked. She wanted to struggle, but she was afraid that if she was exposed, she would be killed by Luther.

After all, Luther's attitude towards her has always been that there is no room for negotiation, and he will kill anyone he sees, so Liang Bing doesn't know how she offended Luther.

In this situation, Liang Bing certainly didn't dare to reveal her identity. In addition, she couldn't beat Luther, and was held in Luther's arms, so Liang Bing could only beg for mercy.

"Your Majesty, don't..."

Liang Bing didn't know if anyone had dared to treat her like this before and contacted her like this. Hua Ye might have had such an idea, but he was beaten to death by Kaisha before he could implement it.

As for Carl, he didn't even dare to hold her hand. It was quite interesting. Liang Bing also felt that she had feelings for Carl, but this grandson turned herself into an illusion without saying a word.

It was equivalent to being a widow before getting married, and Liang Bing turned her face directly.

Now, feeling Luther's hands "I will search up and down", Liang Bing's divine body seemed to be leaking electricity, and there was a numb feeling of electric current stimulation everywhere, and then there was a special feeling permeating.

This feeling is something that no one can give. In simple terms, it is the suspension bridge effect. A person who can kill you at any time, such a "close and zero-distance" contact.

Liang Bing was of course nervous, trembling, and thrilling, and then this kind of seemingly true illusion and feeling would appear.

"Not bad, you are quite smooth, you can be a bonus."

Luther patted Liang Bing's August 15th round plate and said with satisfaction.

Liang Bing wanted to cry but had no tears. Could she bear it?

Yes!

"Your Majesty the God King, Blue Star...hiss...Blue Star is not worth it. Look at the angels over there, in short skirts...oh oh...Angel Nebula, Angel Civilization, there are tens of thousands of them in Melo Heaven...ah!"

Liang Bing began to speak incoherently, and her two hands crawled on her body like a snake. Isn't it the habit of snakes to get in wherever they can get in?

Angel Yan looked at Liang Bing with contempt. This spy suspected of being a demon civilization actually wanted to divert the trouble?

If the Angel Civilization was still alive, it would be able to hold on, and not be afraid of God King Luther and Krypton Civilization, even though God King Luther and the Holy Kesha seemed to be evenly matched.

But now that the Holy Kesha has been destroyed, only one Tianji King Hexi is left. Angel Yan has heard of the stories and legends of Tianji King Hexi, but she is a scientific research god, not a fighting god. Who knows if Tianji King Hexi can fight?

If Luther is eyeing this, it will not be a double whammy for the Angel Civilization, but an avalanche on top of the snow.

However, Angel Yan is also helpless about being trapped on Earth. In this situation, if she does not return to the Angel Civilization as soon as possible to take charge of the overall situation, the situation may be so rotten that it cannot be handled. Morgana and the Demon Civilization have been developing their military forces, and no one knows what they want to do.

I am afraid they want to attack the Melo Heavenly Court?

Liang Bing said that how could she lead millions of little demons to attack the Melo Heavenly Court, and she is not Hua Ye.

Luther likes Liang Bing's helpless look of wanting to resist and struggle.

Relying on the fear he created for Liang Bing before, he was sure to take advantage of Liang Bing.

Angel Yan fell into deep thought. If she asked Luther for help, she would be able to achieve her wish. The problem was that a god king like Luther would definitely not exchange equal value and provide unconditional assistance. It was normal to win a small victory with a big one.

However, her identity was not exposed. In Luther's information, she should still be just the Holy Left Wing Guard of Angel Civilization, not the King of Angels.

Therefore, even if Luther had any conditions, they should be based on this identity.

Liang Bing was dragged into the tent by Luther with a confused look on her face.

No, don't be so arrogant!

If I don't resist, you will treat me as if I don't exist, right!

Liang Bing was angry. She mobilized the wormhole for transportation, but found that nothing happened.

"What's going on?"

Liang Bing was even more panicked. She wanted to contact Devil No. 1, but found that there was no response to the dark communication.

This is the absolute magic ban that Luther completed with his own biological force field, which can also be called the absolute domain. Anyway, there is no difference between the biological force field and the absolute domain. They are all my domains and I have the final say. As long as I don't want to, your ability will not be effective.

It is too simple to prohibit wormhole transportation and dark communication.

In this case, Liang Bing has realized something.

Could it be that Luther has already known the identity of this queen?

What should I do now?

Liang Bing didn't know whether Luther knew her identity but was just playing around, or whether he knew something was wrong with him but didn't know he was Morgana?

There was a big difference between the two. If it was the first case, Luther probably wouldn't do anything to her if Liang Bing told him her identity now, after all, he could pretend he didn't know he was teasing her.

If it was the second case, then she would be courting death by revealing her identity.

However, compared to her own purity, death didn't seem to matter.

"Wait, Luther, I'm Morgana!"

Liang Bing was ready to die after she finished speaking. Fortunately, she had left behind enough dark data and gene engines, so it was easy to revive. Moreover, because she was a fourth-generation divine body, Liang Bing didn't have the overbearing aggregation effect of the divine body, but her atoms could be reborn.

In other words, her atoms recovered faster than the divine body. The divine atoms of the divine body were indestructible and could only be destroyed by black holes. Supernova explosions could only scatter but not destroy the divine atoms, so there was no need to study the recovery ability.

Liang Bing is different. Her fourth-generation divine body is more like a space-time divine body that is transported by wormholes, so the atoms are very fragile, which makes them easy to transport. In return, the atoms have a terrifying regeneration speed and ability. As long as there is enough energy, an atom can regenerate a complete Liang Bing.

Chapter 223 Du Qiangwei is in a hurry

Luther seemed to have not heard Liang Bing's words, turned a deaf ear and took off Liang Bing's clothes.

"etc!"

Liang Bing already knew what kind of situation Luther was in, so she quickly wanted to stop him.

But it was too late.

Angel Yan originally thought it was impossible for Luther and Liang Bing to roll together, but when she heard the high-pitched screams inside, she was stunned.

At this time, Du Qiangwei came back, in a hurry, as if she had come back all the way, her hair was messy.

"Where's Luther?"

Du Qiangwei asked when she saw Angel Yan.

"Busy."

Angel Yan glanced at the tent nearby.

Du Qiangwei was stunned for a moment and looked at the tent. After hearing the movement inside the tent, she pulled her hair frantically.

Are they all thrown together?

With whom?

Liangbing?

When she thought of Liang Bing, a "social butterfly", Du Qiangwei felt that she was not surprised at all. It was Luther who played so freely that made Du Qiangwei a little surprised.

In this case, can I do it myself?

No matter how you look at it, her advantage is greater than Liang Bing's. If she can exchange genetic resources for Blue Star, Du Qiangwei will not hesitate to sacrifice herself.

It can only be said that Du Qiangwei's character is a bit too much. It's not that you can't have this kind of consciousness, but that this kind of consciousness comes too suddenly and artificially.

Of course, if the character is like this, it cannot be said that Du Qiangwei is contrived. It can only be said that the screenwriting level is not good enough, which makes it appear contrived.

Du Qiangwei walked around anxiously outside, but didn't dare to go in and disturb her.

"Sit down, the fighting power of the divine body is very long-lasting."

Angel Yanyun Siji's instinct activated and he said to Du Qiangwei with a smile.

"Then, will Liang Bing be okay?"

Du Qiangwei still didn't know what was going on. Liang Bing couldn't have taken the initiative to seduce Luther, so what was Liang Bing's purpose? For Blue Star?

Or is it for the demonic civilization behind her?

Du Qiangwei is not stupid. Of course she noticed something was wrong with Liang Bing, and also verified that Liang Bing was not afraid of bullets. In addition, Liang Bing said that she was Morgana from the beginning. Even if Du Qiangwei thought it was impossible, she would still tell her that she was not afraid of bullets. Liang Bing thought about the background of demon civilization.

However, if Liang Bing is for Blue Star, Du Qiangwei will not accept Liang Bing's sacrifice with peace of mind. Du Qiangwei cannot do such things as generosity to others.

"That woman is not simple, she should be fine."

Angel Yan shook his head.

It is okay for super warriors to fight gods, unless they are mortals fighting gods. However, from the back, you can see that the angel Qingqing and the blacksmith's children are running all over the ground. There is probably no problem between super warriors and mortals. It may also be Qingqing. The demand in this area is not as strong as that of ordinary mortal women.

Otherwise, how could an ordinary human male satisfy a female super soldier, who is still a second-generation super soldier?

Du Qiangwei didn't know what to do, so she sat next to Angel Yan.

"Looking at you, there is a result. Are you Blue Star really planning to fully surrender to the Kryptonian civilization?"

Angel Yan then asked. She herself actually didn't know what to do, especially since Luther and Liang Bing were involved in the inheritance of the royal family.

"We have no choice."

Du Qiangwei nodded and said.

Angel Yan didn't know what to say. If the angel civilization was still alive, she could still say that there was an angel civilization, which was definitely better than the Kryptonian civilization.

But now, Angel Yan no longer has the confidence to say so. Although she is still obsessed with the strength of the angel civilization, it can be seen from the original plot that Angel Yan immediately launched a "holy war" after returning.

Then he recruited a large number of young angels and the civilization under the order of angels to start a war with the demon civilization and the Taotie civilization. After being sniped and annihilated by Hua Ye's Tianzha Legion.

Only then did Angel Yan realize that with the destruction of Holy Kesha, many things had changed, and the angel civilization was not as dominant as she had imagined.

In other words, the angel civilization in her hands is no different from other super-divine civilizations and does not have dominance.

If she could raise her arms and all the retired old angels respond, she might still have that kind of absolute dominance. Now, of course, it's impossible.

In the blink of an eye, five days passed.

Luther and Liang Bing also concluded their discussion on the inheritance of the Kryptonian royal family.

After Du Qiangwei saw Luther and Liang Bing finally coming out, Du Qiangwei was dumbfounded and felt uneasy.

After such a long time, Liang Bing can still walk? ? ?

I'm afraid the size and shape of the container have not been permanently expanded for such a long time.

After seeing Du Qiangwei's expression and eyes, Liang Bing's rosy and shiny expression turned gloomy.

She originally wanted to self-destruct this divine body, but I don't want this divine body anymore!

As long as you rebuild your divine body on Demon No. 1 after destroying it and delete the dark plane information, then this incident will be as if it never happened.

However, Luther showed her what it meant to be resurrected casually. If she really destroyed herself and then rebuilt herself on Demon One, then there would be two Demon Queen Morgana in this universe.

Of course, this thing mainly depends on the permissions. The reshaped Morgana must have all the permissions of the demon civilization and Demon One, as well as the dark plane of the demon queen Morgana, although she has a password.

But it is not ruled out that Morgana will change the password and kill her after discovering this.

Logically speaking, Liang Bing could not understand, but how could a person accept being destroyed by another self?

In this case, he will only become Liang Bing by then.

Liang Bing's hair stood on end. It was not that she had not thought of such a situation, and it was not that the gods and super warriors of the known universe had not thought of such a situation. But the most important thing was that the information from the dark plane would not leave any trace behind when it was transmitted. Dark plane information data.

Therefore, in theory, the possibility of giving birth to a second self is eliminated. However, Luther's ability is completely unreasonable. Not to mention directly resurrecting her divine body, even the information and data of the dark plane are directly restored. These should have been random. Formatted along with self-destruction.

She felt that she couldn't understand Luther's technology at all. In the past, there were traces of it. At least she knew what technology Luther used. Now, it's like primitive people looking at super soldiers and gods. They can't understand it at all and can only Blind worship of the power of God.

"Liang Bing..."

Du Qiangwei didn't know what to say. What did Liang Bing mean when she looked like this?

"You're back, Du Qiangwei, it seems you have made a decision."

Luther sat down. Although Liang Bing wanted to sit with Du Qiangwei, he couldn't help but sit next to Luther.

Chapter 224 Liang Bingxin feels heavy head

Du Qiangwei and Liang Bing looked at each other. When she heard Luther's question, she looked at Luther immediately.

"Your Majesty, we Blue Star are willing to join the Kryptonian civilization and are willing to hand over all the super gene information, but the Super Seminary does not belong to us, and we cannot decide the ownership of the Super Seminary."

Du Qiangwei said, and then she waited anxiously for Luther's reply.

Blue Star has paid everything it can, and even the Denuo civilization has taken out all its assets without hesitation to prove that they have no second thoughts and really regard themselves as part of Blue Star.

You know, the entire assets of the Denuo civilization are all the super gene technology and information of the Denuo civilization series!

Du Qiangwei felt that this was all the chips of Blue Star. If Luther was not satisfied with this, she didn't know what to do.

Luther knew the idea of the Super Seminary and the Denuo civilization as soon as he heard it. This is to split the Denuo civilization and the Super Seminary.

Good idea!

Since the Denor civilization claims that it has completely integrated into the Blue Star, after they agree to this condition, super genes such as the No Star War God, the De Star Spear, the Earth Heart, and the No Star Knife will be handed over to the Krypton civilization.

On the one hand, it is to show their ideas and stand with the Blue Star people completely, and they have paid such a high price.

On the other hand, of course, they really can't support it. If they continue, they will only let the Demon Civilization, the Taotie Civilization, and other civilizations that come one after another get these super genes. In this case, just choose the most powerful one!

However, the power of the galaxy is different. They don't know that Luther has shown himself to the Angel Civilization that he has become the power of the galaxy and can wholesale the power of the galaxy.

They think that the power of the galaxy cannot be handed over to Luther and the Krypton civilization. Judging from the performance of the Krypton civilization and Luther's attitude, the Krypton civilization is clearly a much more domineering God King than the Holy Kesha.

And it seems that he will also be the king of gods, the god above gods!

With such great ambitions, how can they hand over the super gene of the power of the galaxy?

So, they had to separate. The Super Seminary was the Super Seminary and Blue Star was Blue Star.

Luther knew all about this little trick and didn't say anything.

He still looked down on the Galaxy Power and the Super Seminary. He did this just for a gift that no one could have imagined.

"In that case, then hand over the information to me, and then, I will have my men clean up the demons and monsters on Blue Star."

Luther nodded and said.

Du Qiangwei had already obtained the authority and database, and could directly connect the data with Luther.

"Wait..."

What did Angel Yan want to say, this Blue Star sold itself?

What about Angel?

Oh, it seems that the future of Angel has been controlled by Luther, so it's okay.

"Your Majesty the God King, I am willing to give myself..."

Du Qiangwei ignored Angel Yan's words and said to Luther directly with courage.

Du Qiangwei was very unconfident in her heart. Even if Luther could look down on a socialite like Liang Bing, who knew how much she was worth in Luther's eyes?

Luther's eyes immediately fell on her, and he looked at her with interest.

"Give yourself? The only thing you are valuable about is the super gene in your body, but this is only the second-generation super gene."

Luther's words made Liang Bing very unhappy, but she did not refute or correct it. The fewer people know about the importance of the Space-Time Rose, the better.

Isn't it better that Luther is blind?

Du Qiangwei walked to Luther's side. After making a decision, she would not hesitate at all.

She sat down directly on the other side of Luther.

"Even Liang Bing can do it, I believe I can do it too."

Du Qiangwei's words made Liang Bing's eyes widen. This little girl actually belittled herself to set off herself?

Luther nodded.

"Your super gene is worth an equal second-generation Krypton super gene, and you are worth two second-generation super genes."

Luther did not pretend to be generous and throw out hundreds of super genes. Although this kind of thing is worthless to Luther, it is not a good thing to be too generous.

Du Qiangwei's eyes lit up. The role of super soldiers is obvious to all. If Blue Star gets these three super genes, it may be able to gain a foothold and then research its own Blue Star super gene!

Even if it can't, Blue Star has three more super soldiers, which will be of great help to them.

Thinking of this, Du Qiangwei took the initiative to hug Luther, and Luther's hand naturally hugged Du Qiangwei's August 15th Great Perfection. This big ass that Ge Xiaolun dreamed of and stared at every day is now in Luther's hands.

Liang Bing was so depressed that she was about to vomit blood. Seeing the future of her demon civilization with her own eyes, her crown prince was treated like this in front of her. What is the difference between this and the current crime?

Oh, there should be a difference. After all, she is not even a victim, and Du Qiangwei has not completely believed in her.

So now Du Qiangwei is no one, so naturally there is no such situation, but Liang Bing feels uncomfortable.

"We..."

After Du Qiangwei felt her big butt being held, she felt like Liang Bing, as if her soul was electrocuted. She smelled the pleasant smell on Luther's body and suddenly felt that it seemed not bad.

She didn't know that Luther's biological force field could allow Du Qiangwei to smell the hormones and divine charm she wanted. These two things are very useful in the world of super seminary, especially the divine charm behind it. Basically, everyone Gods and even super soldiers have them.

Similar to a substantive "inherent skill·charisma/leadership".

Liang Bing was not greatly affected. After all, she has high technological level and a lot of knowledge. In addition, Luther did not deliberately release this effect, so she could still maintain her sanity. However, under subtle circumstances, she would become obsessed with Luther.

Angel Yan looked at the scene opposite Luther hugging him from left to right, feeling like he was superfluous.

"His Majesty the God King is so elegant..."

Angel Yan said to Luther with a complicated expression.

"You can do it too, I am the future of your angels."

Luther said with a smile.

"The future of angels..."

Angel Yan was speechless and choked. No matter what, the angel civilization was just destroyed by the Holy Kesha and a lot of guardian angels died. It was not so depressed that it wanted to give up its sovereignty and join another civilization and become a subsidiary.

We have to wait until Angel Yan is severely beaten by reality.

"Your Majesty the God King, I need your help."

Angel Yan thought about it for five days, and she felt that she still couldn't delay it.

"You also need my help...about the energy of the divine body?"

Chapter 225 Angel Yan breaks out in a cold sweat

"His Majesty the God King is really wise."

Angel Yan complimented, but she knew that it was impossible to hide her situation from Luther.

"Divine body?"

Liang Bing looked confused and bewildered. This angel actually has a divine body?

But why does he seem to have no impression of the name Angel Yan?

Not just any angel can have a divine body, except for veteran angels like Ruoning, himself, and He Xi.

Therefore, the identity of the angel Yan in front of him must not be simple.

Liang Bing has realized that something is wrong. The problem is that she can't contact Demon No. 1 now, and she can't connect to update and restore the data, so she can only rack her brains to figure out who Angel Yan is.

"Why should I help you?"

Luther knew that it was impossible to deal with Angel Yan like Liang Bing and Du Qiangwei did. Angel Yan was burdened with missions and responsibilities and was very difficult to deal with.

But this is what makes it interesting. I have already collected one of the four angel kings. Well, I still have three to go.

"I'm just a small holy left winger. What does His Majesty the God King want?"

Angel Yan said pitifully.

"The divine left wing with a divine body?"

Luther said with a meaningful smile.

"This is just Queen Kesa's mercy..."

Angel Yan also knows that his biggest problem lies in his divine body. In other super-god civilizations, only a supreme minister can have this thing. Although there are actually three generations of gods as mercenaries among the cosmic mercenaries, it looks very... Outrageous.

After all, the third generation god is already the main god of a civilization. At the very least, he is a great god. He should be respected and worshiped by the civilization. However, it is outrageous that he has to work as a mercenary.

However, this situation is actually easy to understand. It is simply that our own civilization cannot have enough resources to supply a divine body.

It does not mean that once the divine body is created, it will have the ability to supply and meet the needs of the divine body. The divine body's demand for resources and materials is a large energy consumer. It is impossible for Blue Star and the Taotie civilization together to support such a large number of people on earth. A vote of super soldiers and gods.

What's more, other civilizations that have just transformed from a space-faring civilization into a god-making civilization?

Moreover, after becoming the third generation god, they probably want to go further, so they need to obtain technology and resources. Is there anything more suitable than becoming a mercenary?

You can't go to the angel civilization, but there are so many affiliated civilizations of the angel civilization, and no one has been rewarded and obtained a divine body, let alone the fourth generation divine body technology.

Lieyang civilization?

The Lieyang Civilization still has to queue up, and its own people are not satisfied yet.

Closer to home, anyone can clearly understand the number of divine bodies in the angelic civilization, because there have been so many for so many years.

When a new divine body suddenly appeared, Angel Yan knew that Luther would definitely find something fishy in it.

Now let's see if we can hide it from Luther.

I hope Luther won't think too wildly about her being the new King of Angels.

"Suddenly becoming a god, you are still a third-generation god, but if you want to be promoted, Angel Yan, you have already been promoted due to your achievements over the years. It is impossible to be promoted to a god under such circumstances. Moreover, you are already a sacred left wing, so you have to continue to move up. There won't be much space left."

But the more he fears, the more things he fears. Angel Yan is startled by Luther's reasoning and breaks into a cold sweat. If Luther really discovers this, Angel Yan can only destroy himself to prevent his authority from falling into Luther's hands. Under control.

"The problem of insufficient energy means that your divine body was promoted to the divine body after the destruction of Holy Kesha. What important mission was entrusted to you?"

Luther said with a smile.

"I know, Aenecid!"

Liang Bing suddenly screamed. After all, Luther knew her identity, and Liang Bing was too lazy to pretend. Moreover, when Luther said this, Liang Bing immediately thought about Enisid.

Otherwise, her sister couldn't leave He Xi alone and let Angel Yan be the king of angels, the king of angels with a divine body of three generations? No kidding.

All I can say is that this ridiculous thing was actually done by Holy Kesha.

"Aenecid?"

Luther felt that Liang Bing was really a good person, and Angel Yan also breathed a sigh of relief. Although Ainecid was equally important, the problem now was that he could not expose the authority of the sacred knowledge treasury and the authority of the weapons arsenal.

Otherwise, you will be a sinner of the angelic civilization!

"The future king of the angel civilization, this angel Yan, can be promoted to the third generation of divine body, probably to assist the growth of Enixid."

Liang Bing said that she originally planned to pollute Enixide, just like she polluted Ge Xiaolun, but she didn't expect that she just wanted to stick to Du Qiangwei, and then nothing happened.

"is that so....."

Luther looked at Angel Yan.

"How do you know such a thing?"

Du Qiangwei felt that Liang Bing suddenly became so strange.

"Because she is..."

Just as Luther was about to reveal Morgana's identity, Liang Bing grabbed his arm.

The speed was so fast that after Luther noticed and reacted, he cooperated and stopped talking.

"she is?"

Du Qiangwei and Angel Yan repeated this at the same time. They were both curious about Liang Bing's identity.

"It's nothing, I just know a little more."

Liang Bing comforted Luther and said.

Du Qiangwei's eyes widened. These two people were too arrogant. Even if she was illiterate, she knew what they were doing. The main thing was that they didn't hide it at all.

No, should I learn from Liang Bing? Did Liang Bing seduce Luther because of this?

Du Qiangwei thought about pleasing Luther. Can she get more super genes in return?

Angel Yan looked at Liang Bing speechlessly. It was really a way to interrupt.

"This king doesn't need any effort from you, and I won't help you. Just do it yourself."

Luther couldn't help either. There was no point in helping others in times of trouble. It was interesting to help Tianqing.

Now that the angel civilization hadn't been forced into a desperate situation, he didn't need to put his face on the cold butt.

Du Qiangwei was carried into the tent by Luther. She didn't hesitate or hesitate. She followed him in calmly.

However, there was unexpectedly a small world in the tent, a luxurious golden red bed, a huge space like a palace, and a bathtub.

Du Qiangwei's eyes widened. She looked outside the tent, then inside. Angel Yan seemed to be unable to see the scene inside, and had no special expression.

"This is..."

Du Qiangwei knew that the technological gap between Earth and Krypton civilization was huge, but the scenes that only appeared in science fiction works were indeed beyond imagination.

Chapter 226 Evil God Hua Ye

"Are you surprised?"

Liang Bing hugged Du Qiangwei and said, although she was also shocked.

After all, Liang Bing is a powerful person in the field of time and space. In the known universe, in terms of research on space and time technology, Liang Bing dares to say that he is second only to the Space Principal.

As a result, she felt that after she came to Luther, she was like Grandma Liu entering the Grand View Garden.

It makes Liang Bing doubt his life. In the unknown universe in the fringe space, the time and space technology has actually reached such an outrageous level?

Is there such a big gap between the known universe and the fringe space? ? ?

"really."

Du Qiangwei is still just a beginner in space-time technology who is not even an apprentice, and has no way of understanding this space technology.

"rose....."

Before Liang Bing said anything, Luther had already picked up Du Qiangwei. Liang Bing had to step forward to prevent Luther from bullying Du Qiangwei too hard.

She knew very well how outrageous Luther's fighting ability was.

...

Dead Song Academy.

Carl, the God of Death, looked at the books in front of him.

"My god."

Snow emerges from the darkness.

"How's the situation?"

Death God Karl asked without raising his head.

"Taotie and I have searched nearby for several light years, but we haven't found any dark information about the sun goddess Di Leina."

Snow replied respectfully.

Karl, the God of Death, put down his pen and fell into deep thought.

The only one who can hide this technology from the simulated void engine is the one from the Kryptonian civilization.

What a headache. Now that Holy Kesha has been destroyed, Death God Karl doesn't have much power on hand.

So much so that the Taotie Void Warrior and the Void Mecha Warrior Death Carl were not created in the original plot.

After all, a greater threat emerged. Di Leina was related to the plan of the God of Death, Karl. She finally had a chance to take advantage of it, but she was intercepted.

The god of death, Karl, planned to use the collected void matter and the void matter accumulated over the years to create the most powerful void warrior to deal with the threat of Luther.

As for this candidate, Karl, the God of Death, already has a target.

Hua Ye was chosen just like that. The God of Death, Karl, not only took a fancy to Hua Ye's own strength and combat experience, but also the millions of Tianzha Legion behind Hua Ye.

For the current known universe, Hua Ye is the only one who can produce such luxurious combat power.

There are millions of second-generation and first-generation super warriors. They couldn't do it even at the peak of the Lieyang Civilization. They couldn't do it at the peak of the Deno Civilization. They were only available in the Angel Civilization and Tiangong Era.

There may have been a Kamigawa civilization, but the Kamigawa civilization is gone.

Most of the angel civilization has retired, and He Xi can upgrade and recall them. However, if He Xi does not come forward, these retired old angels will not come out. That will be the time when the Tianzha Legion becomes the only one.

Such a large number of troops is enough to sweep through everything. Unless it is the operation of the Lieyang Civilization's Point Star, it is impossible to threaten the Tianzha Legion.

The Kryptonian civilization is unfathomable, and Karl, the God of Death, also needs someone to be his spy and eyes to test the situation of the Kryptonian civilization.

Hua Ye is being exiled on the planet. As a planet that is still in the Stone Age, and even the main intelligent creatures have underdeveloped brain capacity, unless there is a big explosion of intelligence or super genetic modification, it will be impossible to enter the Iron Age in a lifetime. Exiling Hua Ye is the most appropriate thing.

Moreover, all the scumbags with any brains were executed by the angels. It would be extremely difficult to restore the Heavenly Palace.

However, Ruoning brought good news that Holy Kesha had been destroyed, and Ruoning refused to accept Angel Yan as the King of Angels, so she encouraged Hua Ye to come out.

In the original plot, Ruoning only found out about Angel Yan's spiritual body's energy recovery and reconnection to spread the Holy War in the Angel Sacred Network, and then told Hua Ye.

Now, of course, it was Karl, the God of Death, who told Ruoning.

Ruoning had been by Hua Ye's side since his betrayal, and there was no way he could have known about the destruction of Holy Kesha and Angel Yan becoming the King of Angels.

The information given by Death God Carl gave Ruoning her ambition. Ruoning also knew that Death God Carl had no good intentions. He probably planned to let her use Hua Ye as a spear user.

But it doesn't matter, Ruoning betrayed Hua Ye and his men just to use Hua Ye as a gun.

In the original plot, Ruoning and Carl, the god of death, used Hua Ye as a gunman and Hua Ye as a cat and dog. Hua Ye accepted the void engine from Carl, the god of death, and knew that his backdoor and life were in the hands of Carl, the god of death. But he had no choice.

If he doesn't accept the help of Karl, the god of death, he will never be able to turn around for the rest of his life. If he accepts it, he can at least rebuild the Heavenly Palace, but the price will be to become a dog for others.

Ruoning encouraged Hua Ye to go out and seize the throne of the King of Angels. Hua Ye said that he was not strong enough, and then Ruoning said that he had a way, and they could go to the God of Death Carl from Death Song Academy for help.

Hua Ye was moved. Even though he knew there must be a trap, Hua Ye still went.

Hua Ye didn't know much about the God of Death, Karl. The Super Seminary had previously planned to establish diplomatic relations with the Tiangong Era. However, Hua Ye's father felt that the addition of the Super Seminary would affect the order of his Tiangong, so he rejected the Super Seminary and waited until later. When Carl came to the Angel Civilization to establish diplomatic relations as the mentor of the Super Seminary, the Angel Civilization had already changed hands for many years.

However, Hua Ye was still neither humble nor arrogant in front of the Death God Carl. In the original plot, he came to ask for help himself. Now, Ru Ning told him that it was the Death God Carl who told her about the destruction of Holy Kesha and the angel Yan becoming the king of angels.

Hua Ye is such a perceptive person. In other words, after sitting in that position for so many years, even a pig can become a spirit, let alone a person?

He immediately knew that the grandson of the Death God Carl had no good intentions and must have asked for his help.

Then Hua Ye must have a good grasp of it.

Death God Carl was not polite either, and directly pointed out that if Hua Ye didn't have him, at most he would not dare to leave the planet.

Even if he was the most advanced second-generation divine body in the old era, the configuration of the second-generation divine body was not even as good as that of a second-generation angel warrior after tens of thousands of years, and only rich experience could do it.

However, once Hua Ye was built with a data model by the angels, the supercomputer of a second-generation angel alone would be enough to kill Hua Ye and hang him up and beat him.

In Hua Ye's era, there were no advanced technologies such as gene engines and dark matter computers. His divine body was only a divine body relative to the second-generation super soldiers of the Tiangong era, and was stronger than the second-generation scum.

"You've made it so clear, are you still friends?"

Hua Ye said helplessly.

Two hundred and twenty-three is missing a full five hundred words, but the problem is that it's not something that's unbearable to look at. I don't understand the current cooperation mechanism.

Chapter 227: Massive Killing

"King Hua Ye is joking, I'm just a scholar."

Carl, the god of death, said who would be friends with you?

And Hua Ye is also a king after all. Would such a guy want to be friends with others?

It's impossible, okay!

"Forget it, I want to know what you can give me?"

Hua Ye said carelessly.

Death God Karl nodded, and then took out the black hole engine.

This black hole engine is much more powerful than the one in the original plot. After all, in the original plot, the imaginary enemy of Carl, the God of Death, is only the Heavenly King Hexi. He needs Hua Ye to be a troublemaker to disrupt the situation in the entire known universe, so that his void era can come as he wishes. .

Now, Luther has become the next target that Karl, the god of death, cannot ignore and must solve.

Otherwise, even if the Death God Carl gets Pan Zhen's cooperation and assistance, what if he is killed by Luther when blasting the black hole.

Luther also collects void particles, but I don't know why he doesn't collect void matter, but only void particles.

What Death God Carl wants is void particles. The original plot of the Black Hole Engine was made from the void particles obtained after exploding a black hole. But now everything has changed. Death God Carl failed to cooperate with Pan Zhen to blow up the black hole and obtain void particles, making Hua Hua The black hole engine Ye is completely made of void matter.

Although a large amount of void matter can be compared to the frequency and energy level of a portion of void particles, the consumption is also very large.

Not to mention that Hua Ye's black hole engine is more powerful than the original plot frequency. The original plot's core computing speed was 48 frequencies, and the current core computing speed is 60 frequencies!

The frequency has been increased by 12, but the cost is that the energy consumption has also increased. The void energy at this level can destroy the third generation divine body at will, and can also cause very serious damage to the sacred atoms of the fourth generation divine body, affecting the recovery of the sacred atoms. ability.

Luther is a fourth-generation god, and he is also a cutting-edge combat unit like the God of War. The God of War and the God of War are not the same concept.

No one has ever thought of a God of War combat unit becoming a god king and the main god of civilization, which makes it very difficult to deal with.

Karl, the God of Death, already knew from Luther's situation that Luther was almost indestructible. Even a supernova explosion that could destroy Holy Kesha would probably be just a gorgeous fireworks for Luther.

It is stronger, more indestructible, and more difficult to transport than the peak beast body, which makes all means of time and space technology meaningless to Luther.

He never thought that the God of War would be so troublesome after he reached the fourth generation of divine body technology. Although Holy Kesha is also difficult to transport, in front of the big skeleton made of void matter, it just redefines the spatial position. In Luther's words, he probably won't even define it. There's no way to define it.

Therefore, Karl, the God of Death, felt that he could only defeat Luther head-on. He was difficult to destroy, and on the contrary, it was also difficult to recover. This was both an advantage and a disadvantage.

"You mean, I only need to install your black hole engine to be invincible?"

Hua Ye touched his chin and said.

"It depends on King Hua Ye's strength."

Carl, the god of death, said that if it was an engine technical problem, of course there would be no problem, but the user's technical problems were none of his business.

"This king has been through countless wars, so there will definitely be no problem!"

Hua Ye said with a sneer.

In the end, Hua Ye had no choice.

After loading the black hole engine, Hua Ye also knew what he wanted to do.

"You want me to fight against the Kryptonian civilization? A super-god civilization from the fringe space?"

Hua Ye felt like he was on a pirate ship, especially after he saw Luther and Kesha confronting each other in an evenly matched manner, and Kesha took the initiative to give in. Hua Ye felt this way even more.

Even though many people knew that Kesha's concession was that she just didn't want to start a fight, Hua Ye didn't think so. Hua Ye was the kind of person who would use all the advantages he had and stay still if he didn't.

"That's right, with the strength of one million Sky Scum Legions and the powerful black hole engine, fighting against the Kryptonian civilization is not a problem."

The god of death, Karl, nodded. His purpose was very simple, which was to control a god-level civilization, then go to war, collect data, conduct research, and face the ultimate fear.

When the scum is weak, he helps the scum; when the angel is weak, he helps the angel. He even didn't let go of Morgana's demon civilization.

"Then we have to wait until I defeat Merlot Heavenly Court."

Hua Ye was immediately discouraged. He was joking. He was the guy who could confront Kesha and force Kesha to give in. Moreover, he came from the unknown universe. The God of Death, Carl, didn't even know what was going on and had to fight against her.

Is Hua Ye the kind of selfless person who works for the known universe?

It can't be okay. At the very least, we have to let the cannon fodder go first and let us know the situation first.

"This God King is more domineering than Queen Kesha. King Hua Ye should make preparations in advance."

The god of death, Karl, did not force King Hua Ye. He also needed King Hua Ye to attack the Melo Heavenly Court. Only when King Hua Ye got the Tiangong number would the millions of scumbags believe that Hua Ye had the strength and then come to pledge their allegiance.

Only then will Hua Ye be able to fight Luther.

"The king knows."

Hua Ye waved his hand and left.

After Ruoning found out that Hua Ye had installed the void engine, she knew that she had finally made the right bet. She knew about the void engine.

However, Ruoning also planned to strengthen her voice. Now that Hua Ye has risen again, her importance has suddenly declined.

If all the scumbags with some brains hadn't been executed, their status would probably be in jeopardy.

Hua Ye also planned to go to Blue Star to find his confidant Sumali. He didn't know that Sumali had been destroyed by Luther and turned into Dark Suyin and given to the Angel Civilization for a trade. Now she has probably been cut into millions of pieces.

Taking a few confidants, Hua Ye and Ruoning secretly went to Blue Star.

The reason for secretly going there was that there was Kryptonian civilization on Blue Star, and Hua Ye didn't want to confront Luther at this time.

But Luther had already come out.

Since he had secretly accepted Du Qiangwei, who was a gift on the surface but actually the main target, Luther did not hesitate and directly asked the heavenly soldiers and generals of the Kryptonian civilization, whose number had increased greatly, to eliminate all the evil spirits on Blue Star.

Tens of thousands of heavenly soldiers and generals were all upgraded to third-generation super soldiers because of Luther. These were tens of thousands of third-generation super soldiers. I'm afraid that there are not so many third-generation super soldiers in the known universe.

Wherever these heavenly soldiers and generals passed, Taotie, giant wolves, and demons were all killed.

Liang Bing was shocked. She knew that Kryptonian civilization might be very powerful, but she didn't know that Kryptonian civilization was so powerful!

Chapter 228 Angel Cold

Fortunately, Liang Bing came out with Luther and Du Qiangwei. After knowing that Luther was going to take action, she asked her men to transfer the demon army.

With millions of little demons in short supply now, Liang Bing certainly couldn't give up on them.

However, it was not easy for the demon civilization to transfer such a large number of troops, so this led to the death of hundreds of thousands of little demons.

There were really corpses everywhere, mountains of corpses and seas of blood, and floating corpses for thousands of miles.

Liang Bing felt distressed. Hundreds of thousands of little demons were gone. Even if the little demons infected by Atuo in Fraser were added, this number could not be made up. After all, it was only the barbarian kingdom that was infected, not as many people as the kingdom of Enesid.

And this is Xiao Baga, Xiao Xiba, Xiao Fake, Xiao Bitch, so many people, there are millions of little demons.

Even the lowest level of demon genes depends on the tolerance of the gene carrier. It doesn't mean that everyone can become a super gene warrior.

Even the weakest little demons can resist bullets, ignore small-caliber rifles, have great strength, and can break steel with bare hands.

More importantly, they are still flying types, which gives them the advantage of kite flying and running away.

Liang Bing said that everyone is a family, and Luther knows her identity as the Demon Queen. Can't he wait until she transfers the demon army before taking action?

Sure enough, Luther still has opinions about her and the demon civilization. Liang Bing was originally forced to follow Luther because he was held by Luther. Now seeing Luther like this, Liang Bing feels that she still needs to find a way out and a way to get out of Luther's control.

Hua Ye and Ruoning were both frightened. Tens of thousands of third-generation super soldiers swept through everything that was not convinced. The silver armor and silver wings and the gold armor and gold wings were obviously what the death god Carl had shown them, the standard configuration of Kryptonian civilization.

"These are the heavenly soldiers and generals of Krypton civilization, much more powerful than those of Lieyang civilization."

While Hua Ye was exclaiming repeatedly, he also had a feeling that a real man should be like this. If he had so many third-generation super soldiers under his command, he would be more arrogant and domineering than Luther.

"Even if you get the Heavenly Scum Corps and unify the Angel Civilization, it is estimated that you can only lose both sides with the Krypton civilization. Hua Ye, you must be calm."

Ruo Ning couldn't help but say to Hua Ye. She was worried that Hua Ye would get too excited and really fight Luther to death.

"Don't worry, Ruo Ning, I'm not that stupid. Carl's grandson wants me to fight to death with this Krypton civilization and Luther, but I can just pretend at that time."

Of course, Hua Ye couldn't do this. If there was no benefit, he would fight to death with Luther. If Luther became the King of Angels, it would be fine. After all, there was no way to avoid it.

You know, Hua Ye even wanted to cooperate with Angel Yan to deal with the God of Death Carl later, but the super gene was left a backdoor by the God of Death Carl, so there was nothing he could do.

"It's good that you know. Su Mali was exiled to Blue Star by He Xi, and I don't know where he is."

Ruoning then told Hua Ye that there was only so much information about Su Mali. Ruoning knew that Su Mali was on Blue Star, but it was impossible for her to come to Su Mali openly, and she didn't need to find Su Mali.

"I will find her myself."

Hua Ye knew what Ruoning meant, it was nothing more than getting rid of him, and Hua Ye didn't point it out.

Ruoning saw Hua Ye leaving with a few scumbags, so she went to find her little apprentice.

To increase her voice, she must find a few female angels. After reading the dark information and finding that her little apprentice was actually on Blue Star, Ruoning was ecstatic. If her little apprentice joined, her voice would increase a lot.

After all, Angel Leng is a high-level guard angel. Although he doesn't have a divine body, he is also a demigod. In addition, he has rich combat experience. As long as he continues to train, it is not a problem for him to become his right-hand man.

Angel Leng brought several sisters with him. Because they did not receive any information from the sacred network, they could only wait for arrangements. The main reason was that the network was disconnected, and they could not leave Blue Star even if they wanted to.

However, without Angel Yan's order to defend the North Star, and the situation of Krypton civilization protecting Blue Star, Angel Leng and her friends would certainly not stay in the North Star.

"Sister Leng, are we really not going to ask for help from Krypton civilization?"

Angel Yitian said to Angel Leng.

"Humph, we are angels, and we are going to ask for help from Krypton civilization? Are you not smart?"

Angel Leng said unhappily. Although it was a shame to die for face and suffer in life, and there was no way to replenish energy, who was Angel Leng? He was famous for his second son.

However, looking at the heavenly soldiers and generals who whizzed past and swept everything, Angel Leng's expression was full of fear.

The military strength of Krypton civilization was so strong that Angel civilization wanted to go to war with Krypton civilization before. If they really started fighting, they would probably suffer a great loss.

Unfortunately, they couldn't contact Melo Heaven now. Even if Angel Leng wanted to tell Melo Heaven about the situation here, he was powerless and could only worry.

"My silly apprentice, it seems that you haven't forgotten the pride of angels."

A voice made Angel Leng tremble all over, and the other angels looked over curiously.

"Black wings? Could it be someone from Kryptonian civilization?"

Angel Lingxi said puzzledly.

Although they knew that the wings of angels who were not registered in Melo Heaven were black, just like Ge Xiaolun who had not been contaminated before, but that was a special case. Only Kryptonian civilization had wings of different colors from theirs.

Not to mention that Krypton civilization also has a god of war with black armor and black wings. Who knows if this woman with black wings is the female god of war of Krypton civilization?

"It's you..."

Angel Leng looked at Ruoning with a complicated expression.

"Master."

What?

Angel Lingxi, Angel Yitian and several other angels who survived and were different from the original plot were all surprised.

Is this Sister Leng's master?

Doesn't that mean she is also a female angel? Why haven't they met?

Then they didn't agree on anything and soon started fighting. Ruoning didn't take these little angels seriously at all, and Angel Leng, who lacked most of the energy and the computing power bonus of the sacred knowledge treasure house, was not Ruoning's opponent.

In order not to alarm the heavenly soldiers and generals, Ruoning did not dare to give Angel Leng too many opportunities to struggle. After he beat Angel Leng with all his strength, he came to persuade him slowly.

However, Angel Leng naturally could not agree to join her master and welcome the Tiangong era together. She had not experienced that era, but looking at the text and the legend of Queen Kesha, she knew how dark the past was.

"If that's the case, then Master, I can only let you leave."

Ruoning persuaded her for a long time and imprisoned Tianshi Leng for a long time, but she didn't give in and was ready to die.

So Ruoning gave up.

Chapter 229 Keep the Oath

"I will remember you in the dark information and data, Leng."

Ruoning raised his sword.

Angel Leng knew that in the next moment, Ruoning would hit her fatal part, but it would not kill her directly, giving her time to upload the data.

She was suddenly very curious. She wondered how many years later, what would the younger generations of angels who read her data think of her?

If she did this, she should be considered a heroic death, right?

He just didn't die the way he wanted.

"Hey, that angel over there, if you want to die, just wait a moment."

A voice broke into Angel Leng's revolving door, interrupting her fantasy. Then when she came back to her senses, she was surprised to find that someone else had appeared at some point, and her master Ruoning was being captured by him. Lifting his neck off the ground, he was struggling continuously.

Then after taking a closer look, Angel Leng recognized who this person was.

She had seen his unbridled domineering power, his undoubted power when he fought with Queen Kesa and forced Queen Kesa to give in for Blue Star.

God King Luther!

Now that Queen Keisha has been destroyed, he is the largest god in the known universe. There is no other god. Tianji King Hexi is probably not comparable to him. Otherwise, the three kings will not rule together and become Queen Kesha alone. King Tianji Retired.

Such a great god, king level, actually appears here?

Angel Leng didn't even know if he was dreaming.

"Lu...de..."

Ruoning was even more horrified, why would Luther appear here?

It doesn't make sense!

The key is that her scumbag men who went after the female angel were also brought back.

Well, their bodies were brought back.

The female angels were intact, and they were surrounded by heavenly soldiers and generals in silver armor and silver wings, which made people feel terrified.

"Can you call him Luther?"

Luther casually evaporated Ruoning's body. Of course, the actual operation was to disintegrate her.

Seeing Ruoning die like this, Angel Leng's heart didn't waver at all.

After all, she had despaired of her master. She once thought that it was Angel Yan who became the Holy Left Wing that caused her master to betray him. This was also the reason why she targeted Angel Yan in the first place.

Although after so many years, Angel Yan and Angel Yan have become happy enemies, Angel Leng still maintains an uncomfortable and uncomfortable attitude towards Angel Yan.

Now, Angel Leng is relieved and reconciled with himself.

She always felt that Queen Kesha didn't trust her and didn't allow herself to become the Holy Left Wing because of Ruoning's betrayal and her being Ruoning's disciple. She was obviously more qualified than Yan.

However, Angel Leng will not complain, she will only try to express herself.

"Thank you... His Majesty the God King..."

Angel Leng said with difficulty.

Luther looked at Angel Leng, Zhonger Leng, and he had a reputation that was as thunderous as ever.

Then Luther still likes Angel Leng, especially since she has a single ponytail and who doesn't like a girl with a heroic appearance.

For example, isn't Zhao Yun, the Yun girl who transformed into a girl from Zhao Yunnian, also very popular?

That's why he took time out of his busy schedule to save people.

"You're welcome. I know that you angels have a guardianship oath. Come and swear to me one by one."

Luther hugged Angel Leng and said.

Angel Leng and Angel Lingxi's eyes widened immediately. Although they had a good impression of Luther, the hero who saved the beauty, after all, this god-king was a very standard male god, and even exceeded the standard.

But it is impossible for so many sisters to swear an oath of protection to one person at the same time.

Angel Leng was even more confused. She was already surprised that she was saved by Luther, but what was even more surprising was that Luther asked them to take an oath of protection.

"It is impossible for us to betray Merlo Heaven."

Then Angel Leng quickly thought of a possibility and immediately said decisively.

"What are you thinking about? I don't need you yet, and I heard the old woman just now say that the evil god Hua Ye has come out of the mountain. It seems that you angels will have too much to take care of yourself next. I have no interest in this aspect, but I want some angels."

After Luther finished speaking, he left with the others without giving Angel Leng and the others a chance to repent.

Just kidding, he is the king, he is not just playing house, getting whatever he wants.

Angel Leng and the others were of course very anxious. They had to report Hua Ye's birth to Merlo Heavenly Court. Otherwise, Merlo Heavenly Court would easily suffer a loss if they were not prepared.

But now that they have been taken away by Luther, this God-King is not an easy person to talk to, so naturally he cannot be afraid of the intimidating power of their angelic civilization.

Moreover, in this case, they should not provoke new enemies for the Merlot Heavenly Court. Originally, the Merlot Heavenly Court was more than enough to deal with the demon civilization and Death Song Academy, but if the Sky Slag Army also joined in, it would not be so easy to deal with.

If the Kryptonian civilization also joins because of them, the angel civilization will be almost in visible despair.

Therefore, Angel Leng can only keep others calm.

"Sister Leng, what should we do?"

Angel Lingxi was very weak and helpless and said pitifully.

"What else can be done... Now that Blue Star has joined the Kryptonian civilization, we are equivalent to being on their territory."

Angel Leng didn't know what to do. She had never experienced such a thing, and she had not needed to experience such a thing before. Angel Leng was not interested in intrigues, nor was she interested in commanding operations. She felt that as long as she fought well for the queen That's it.

And now she was at a loss.

"Then can we only wait for other sisters to save us?"

Angel Yitian was very straightforward, and died the fastest. Although it was much better than other sisters who died fighting against Taotie and demons, it was not much better.

"We have to find a way to save ourselves."

Angel Leng shook her head. Yan would definitely not come to save her!

Angel Leng was very sure of this.

However, it was better to say that she subconsciously did not want Angel Yan to come.

"Okay, tonight I will choose someone to take a guardian oath. Who wants to come?"

Luther said to them.

It was obvious that this was not serious. It must be more than just taking a guardian oath.

Angel Lingxi and Angel Yitian looked at each other, and Angel Leng took the initiative to stand up.

"I'll do it!"

Angel Leng said fearlessly.

If sacrificing her can save the happiness of other sisters, it doesn't matter to Angel Leng.

She was not interested in finding a male god and living a happy life.

"Sister Leng!"

Angel Lingxi and the others were greatly shocked and deeply touched.

Although Sister Leng often scolded them for being useless, she would really stand up when something happened!

"Okay, all of you stay."

Angel Leng walked towards Luther.

Chapter 230 Leng's oath of protection

"I'm so stupid, really."

Angel Leng lay on the bed with a blank expression on his face.

"I just know how to stand up for my sisters, I just know..."

Before the angel finished his cold words, he suddenly took a breath of air.

Luther said there is still time for confusion and emotion, and the explanation is not enough.

By the time it was over, Angel Leng had lost three souls and seven souls.

It's not that the greatest sorrow is death. When she first came here, she really regarded death as home. No matter what Luther did, she wouldn't frown.

Then, just like countless guys who underestimated the physical strength of Kryptonians, Angel Leng also found that he underestimated Luther's abilities.

"Devil, you are the devil..."

Angel Leng said to Luther, she felt like she was wavering. Her firm belief in Queen Kesha and her rock-solid will were being crushed and pushed forward by the huge shield machine, shaking it with an unstoppable momentum.

This made the angel extremely uneasy. This was the devil's method!

Morgana's demon civilization is best at tempting others to fall, and now Angel Leng feels that this is the case for him.

"What devil?"

Luther didn't bother anymore, Angel Leng was very nice and moist.

I have to say that he is worthy of being a high-level guardian angel, that's it!

If Qilin hadn't been transformed into a flawless god by him, and if Liang Bing hadn't been the king-level god of civilization, she would probably not be as good as Angel Leng.

Du Qiangwei was just an added bonus, while Reina was so radiant that she felt like she was almost blinded.

Luther has never played Angel yet, and Angel Leng is the first one, and it feels pretty good.

Angel Leng shivered after being hugged by Luther.

"Let my sister go, I have become your angel."

Angel Lengqiang supported his body and said to Luther.

"You haven't even taken the oath of guardianship yet, and you've already become my angel?"

Luther didn't believe it at all. Angel Leng still had thoughts and thoughts of resistance. This was normal. He didn't think he could conquer Angel Leng through this kind of thing. She was an old witch who had lived for thousands of years.

As the saying goes, people and ghosts are old and spiritual. If you live for such a long time, even a pig will become a spirit.

Not to mention Angel Leng, she looks a bit naive and a little too good-looking, but that doesn't mean Angel Leng has no brains at all.

The only ones who could win so easily were Qilin and Lena Du Qiangwei who didn't have that much experience.

And it was not won simply by relying on that kind of thing. Luther either understood it emotionally or acted rationally.

Otherwise, if it were really that easy, it would have to be in Xiao Baga's drawing books.

"I'm already your angel, so I don't need to take the oath of protection, right?"

The angel smiled coldly and said to Luther.

You know, Angel Leng admires and has the most faith in Holy Kesha, so she is also the most resistant to the oath of guardianship.

The mental imprint of so many years made Angel Leng subconsciously not want to issue any guardianship oath. Once she issued it, Angel Leng would definitely uphold the guardianship oath more than any other angel. In other words, she would restrict herself to death.

Luther naturally knew this very well. Angel Leng still refused to take the oath of guardianship, which showed that she did not care about her purity at all, and would still run away if she had the chance. Now it was just for her sisters.

Only by letting her swear the oath of guardianship, Angel Leng will have no way out. As much as she worships and believes in Holy Kesha, she will be firm in the oath of guardianship.

"Then I, the King, will go find other angels. Anyway, there will be one who has taken the oath of guardianship."

After Luther finished speaking, he stood up.

Angel Leng grabbed his hand.

Now that it has reached this point, Angel Leng certainly cannot sit idly by.

She gritted her teeth and looked at Luther.

"I am willing to swear never to betray and let go..."

Luther broke free from Angel Leng's hand. Seeing that Luther was about to walk out of the door, Angel Leng could no longer hold on.

She painfully made her oath of protection.

"I am willing to be the guardian angel of God King Luther, love what he loves, think about what he thinks, bear pain for him, and go through sufferings. No matter poor or rich, no matter humble or noble, no matter in troubled times, or God ignores me, I will Draw your sword and fight for him, fold your wings for him, and never give up until forever!"

Taking out the oath of guardianship with such pain in his heart, Angel Leng felt that he should be the first.

The next moment, Luther didn't know when he had her in his arms.

"You are so good. Since you have sworn the oath of guardianship, you are my king's angel. You love what I love and think about what I think. Come and tell me how you deceived Angel Lingxi and Angel Yitian."

Luther said to the angel coldly and gently.

Angel Leng's eyes widened, as if he was thinking about why such a shameless guy with such a gentle tone could say such shocking things?

He actually asked her to help him deceive his sisters?

So what is the significance of her sacrifice?

"impossible....."

Angel Leng opened his mouth and said.

"Did you forget the oath of guardianship you just made? Love what I love and think about what I think."

"mean!"

"Shameless!"

"Dirty!"

"Having me is not enough!"

Angel Leng couldn't bear it anymore, so he rushed over to fight Luther, but was easily crushed by Luther.

Angel Leng swore the oath of guardianship, and her mentality had changed. She really regarded Luther as her male god, so she found it very difficult to accept Luther's request.

How could she use the oath of guardianship to help trick her sisters into the fire pit?

After a few more hours, Angel Leng finally regained his senses.

If Luther is not restored, he will continue, so Angel Leng will naturally not be able to pretend to be dead.

"I can't possibly hurt my sisters for you..."

Angel Leng's attitude had softened, but she still persisted.

Luther was just teasing her. He had no interest in Angel Lingxi and Angel Yitian. Although they were both named angels in the original plot, the only ones Luther liked were Angel Yan, Angel Leng, Angel Chase, and Angel. There are several angels like Keira.

He is not so hungry that he wants to turn the entire angel civilization into his harem. There are tens of thousands of female angels. If you include retired female angels, there are millions. Luther feels that even if there are The idea, after thinking about it like this, has already given up.

He is not Zeus, he can think about such things all day and night.

All Luther wanted was to catch everyone he was interested in. For example, he was not interested in Su Xiaoli, Rui Mengmeng, and Sword Girl, and had no intention of looking for them.

"But I can do it with one."

Angel Leng suddenly changed the subject and said to Luther.
