

Kryptonian 62

Chapter 62 The arrogant licker

As the future main god of Lieyang Civilization, Di Leina's dark energy reserves and output power are naturally very large.

It's just that most of her permissions are locked by genetic locks.

Even so, Di Leina still has the god-killing combat ability to burn the divine body!

Lena has the ability to control the energy of the sun and can easily drive flare bombings. Its power is equivalent to that of N2 bombs. At the same time, the explosion does not produce nuclear radiation, but the lethality is enough to melt second-generation and lower-generation super soldiers, and it is also effective against third-generation super soldiers. Overwhelming striking power.

Generally speaking, any super body that is not specifically designed to deal with explosions and high temperatures will be destroyed.

At the same time, its destructive power has reached the atomic level, and it is a crushing blow to most of the third-generation divine bodies. This power can already destroy atoms. This is the highest technological crystallization of Lieyang Star.

And this is just "radiation-free micro-flares", there are also "micro-flare bombings" and "medium-sized flare bombings", as well as "giant solar flare bombings" and "supernova bombings".

In addition, Rena's final ability "Solar Incarnation" is not a destructive ability, but "Nirvana Rebirth".

Because the ultimate meaning of the Sunlight Plan is not destruction, but rebirth.

When Lena awakens the incarnation of the sun, she will be promoted to a "pure energy" energy body life, that is, a stellar energy body.

—The above contents are all from the "Legend of Heroes" anime and the physical book novel "Legend of Kamigawa: Heroes of the Company 1" by Sala Lei - the setting of the Battle of Tianhe.

Of course, it is important to note that the energy balls Di Leina usually uses to play with the Xiongbing Company are not radiation-free micro-flares.

Despite Reina's carelessness, in fact, she doesn't even use radiation-free micro-flares if she can. After all, she is not a sun god who is keen on destruction and destruction.

As a Kryptonian, Luther is naturally very eager to get Di Leina. This is definitely not because he is greedy for her body, but because he is greedy for her skills!

"How on earth do we get the light of the sun?"

Luther quickly thought of several ways. First, knock Di Leina away and take her away, and then study Di Leina himself in the spiritual time room.

Second, kidnap Di Leina and blackmail Lieyang Civilization into handing over the information about the Sun's Light Super Gene and the stored copy of the Sun's Light Super Gene!

Third, do nothing, wait for Lieyang Civilization to die on its own, and then take advantage of it and take Di Leina into your pocket.

"Which one seems good?"

Luther thought for a while, but he had too many research projects on hand, and he was hiding in the Spiritual Time Room to study Tireina, so he probably couldn't bear the loneliness and boredom.

More importantly, Luther didn't feel good about treating Di Leina like this. Why did he say that when he was watching the animation, he yelled that Di Leina was his wife.

"Forget it, let's solve the problem of merging Broly and Domsday first."

Luther temporarily put aside his calculations against Di Leina.

...

"Your uncle's Carl!"

Morgana is resurrected.

If there was no other way, Morgana didn't want to be resurrected, so she begged Luther for mercy and gave him the information about the fourth-generation divine body. But unexpectedly, Luther turned against him and refused to recognize him.

Even Morgana herself often does this, but this time, she is no longer that old lady... This queen is happy, we are demons, we can do whatever we want to do.

After it was his turn to be the weak one who was ravaged at will by the strong, who could not even guarantee his life, and who was destroyed with no place to reason.

With the roles reversed, Morgana, who acted recklessly and unscrupulously, realized that it was wrong to kill people indiscriminately!

"Liang Bing, I have resurrected you after all, can't you be more polite?"

On a dead planet more than N light years away from the earth, a man wearing a gay purple cloak said in a hoarse voice with a hint of helplessness.

"Call me Queen Morgana!"

Morgana said angrily.

"Yes, Ms. Morgana."

Death God Karl said calmly.

"Your uncle Karl, you don't care about credibility with this thief."

Morgana cursed directly.

"You said the earth is lagging behind? Where is it lagging behind?"

"Your queen, I have only been here for a short time, and I was raped. Tell me, how are you going to compensate me for my mental losses and medical expenses?"

Death God Karl looked at Morgana who was already in the cultivation tank and was still cursing vigorously.

"Sorry, Liang Bing, I know you are scared, but here..."

"Queen I have no fear!!!"

Morgana interrupted Karl, the God of Death.

"I actually don't know when Blue Star gained such a god..."

Carl, the God of Death, continued.

"Go away, you have the big clock in your hand. Who are you kidding if you say you don't know!"

Morgana didn't believe the lies of Karl, the God of Death.

"Liang Bing, resurrecting you is a huge resource..."

Death Carl said.

"I fucked your uncle Karl, and this queen even told me to call me Queen Morgana! I don't care, if you don't compensate me, then you can go play with Kesha by yourself!"

Morgana said sternly.

"Queen, I lost my mind and died once. Being resurrected by you probably requires you to do countless things. I'm afraid it's not all recorded on video. It's all-round high-definition. It's really scary to think about it. Do you know this feeling? "

"Ms. Morgana, I wouldn't do anything like that."

Death Karl said helplessly. If he really wanted to do it, wouldn't it be better to just make a Liang Bing figurine, or a one-to-one restored Apocalypse King Liang Bing template.

"Who knows you!"

Morgana snorted coldly.

"... Well, let me think about it."

Death Karl said helplessly.

"Kesha has been staring at me. I can't do anything too blatant."

"So?"

Morgana looked at Death Karl.

"I'll give you a dark plane."

Death Karl took out a capsule.

"Dark plane positioning technology?"

Morgana reached out to take the capsule, and after injecting dark energy, she found that the capsule was located in a tightly encrypted dark plane. Hundreds of locking programs made Morgana stunned. Demon No. 1 of the demon civilization did not have so many encryption programs!

Death Karl set the first god or super soldier injected with dark energy as the highest authority in the dark plane, so Morgana did not need to unlock these programs and directly saw the large amount of resources inside.

These resources are enough for her to revive all her subordinates again, and even re-make her own demon claws!

You have to know that the Death God Carl had actually given her the resources to resurrect his subordinates before, not to mention the resources to upgrade the fourth-generation divine body once and to resurrect a fourth-generation divine body and reshape it.

More importantly, this is a dark plane!
