

Kryptonian 731

Chapter 731: Opposites

After a thrilling adventure, Yoruichi Shifengyuan finally returned to the world with extremely important information.

She brought back not only news about the omniscient God King Luther and the God of Destruction Esdeath, but also everything about the mysterious world of God. This information is undoubtedly a bombshell for Urahara Kisuke.

Urahara Kisuke, once an outstanding genius of the Technology Development Bureau of Seireitei, always maintains a high degree of vigilance and curiosity about unknown things.

When Urahara Kisuke heard Yoruichi tell about how Aizen Sosuke was almost stopped in the Soul Society and even forced to use his Bankai to escape, a glimmer of surprise flashed in his eyes.

Aizen Sosuke has always been a major hidden danger in their hearts. Now that he heard that he encountered such a powerful opponent, Urahara Kisuke couldn't help but feel a little relieved.

However, this relief did not last long.

When Yoruichi mentioned the omniscient God King Luther, Urahara Kisuke frowned.

When faced with unknown things, people often feel fear and uneasiness.

The power of this God King Luther is too powerful, and may even exceed the scope of their understanding.

Urahara Kisuke couldn't help but start thinking, if this God King really came to the world, what kind of disaster would it bring?

Urahara Kisuke knew that the ability of omniscience and omnipotence meant infinite possibilities and endless threats.

Once such power is in the wrong hands, the consequences will be disastrous. Therefore, he was both curious and daunted about the appearance of Luther.

He was worried that the intentions of the God World were unclear, and he was even more worried that God King Luther would use his power to threaten the world.

At the same time, although Kurosaki Ichigo and his companions were also shocked, they were more curious and yearning for the God World.

Kurosaki Ichigo even began to imagine whether he would have the opportunity to visit the God World and explore the unknown area.

However, they were soon sent back to the world.

After all, they were all living people and could not stay in the Soul Society for a long time.

Deep in the Hueco Mundo, in the magnificent building called the Hueco Night Palace, Aizen Sosuke sat quietly on his throne, his eyes deep, as if he could penetrate the barriers of space and reach every corner of Soul Society.

His fingers gently tapped the armrests, making a rhythmic sound, which formed a sharp contrast with the quiet atmosphere around him.

His heart was surging with complex emotions at this moment.

As a self-proclaimed genius, Aizen Sosuke has always been confident in his abilities, believing that no one can match him in terms of wisdom or strength.

However, at this moment, he learned from the spy a shocking news - the omniscient and omnipotent God King Luther.

This name, like a flash of lightning that cut through the night sky,

made Aizen Sosuke's heart surge with an inexplicable fear. He knew that a God King who could predict everything and control everything was undoubtedly a huge threat to him.

He began to doubt whether his abilities and plans could still succeed, and whether it was necessary to continue to implement them.

He carefully studied the intelligence, trying to find some clues and inspirations from it.

He learned that the "God's World" is a mysterious place that only "Gods" can enter, and the rules and order there are completely controlled by the God King Luther.

Every soul that enters the God's World will be issued a "Soul Blade", which not only represents their identity and status, but also the source of their power.

In the God's World, these souls will become "ordinary gods" of the God's World, enjoying extremely high power and status.

And those souls that fail to pass the selection of the God's World will be placed in the periphery of the God's World-Soul City.

Although they cannot obtain the power and status of the God's World, they can still survive and reproduce there and live a relatively free life.

Aizen Sosuke realized that this means that the future Soul Society is likely to be polarized.

On the one hand, there is the Soul King headed by the Soul King, who controls the order and rules of the Soul Society and maintains the stability of the entire world.

On the other hand, there is the God's World ruled by the omniscient and omnipotent God King Luther, who has power and wisdom beyond ordinary people and controls the fate and future of the entire world.

The struggle and contest between these two forces will determine the fate and future of the entire Soul Society.

Aizen Sosuke knows that this struggle will be an unprecedented catastrophe, which will not only affect the creatures of the entire Soul Society, but also affect his plan.

However, what worries him more is the existence of God King Luther. This omniscient and omnipotent God King not only possesses extraordinary power and wisdom, but also can predict everything and control everything.

In front of him, Aizen Sosuke feels like a tiny existence and cannot compete with him at all.

He began to think about how to deal with this situation.

He knew that he could not compete with God King Luther by his own strength.

From the short time of meeting, it was enough for Aizen Sosuke to analyze too many things.

Aizen Sosuke began to realize the complexity and diversity of this new world.

He realized that the power and wisdom he relied on in the past may no longer be applicable in this new era.

He needs to re-examine his abilities and plans to meet the upcoming challenges.

He began to think about how to deal with this omniscient and omnipotent God King Luther. He understood that the existence of this God King would have a huge impact on his own plans and goals.

He couldn't sit back and do nothing, nor could he act rashly. He needed to find a way to protect his own interests and deal with God King Luther.

However, Aizen Sosuke also knew that he didn't have the means and plan to deal with God King Luther at the moment. He knew that he couldn't underestimate the enemy, nor could he be blindly confident.

He needed to study the Hogyoku more deeply to find a way to deal with God King Luther.

Before breaking the limit of the god of death and gaining new power, Aizen Sosuke would not think about how to defeat God King Luther, because that would just be a waste of time and it would be impossible to deal with an enemy that was currently unbeatable.

Luther's so-called soul passing qualification was actually very simple, that is, to eliminate the bad guys. Most souls did not meet this standard, so they could become ordinary gods.

This also led to the fact that the world of gods was very quiet at the beginning, and more than a thousand ordinary gods were filled in in the blink of an eye.

This was because Luther eliminated the part of the soul that had no fighting talent, otherwise there would be more.

Their skills are also very simple, which is "Divine Light". The Divine Flash used by Esdeath is now renamed "Light of the God of Destruction" or "Flash of the God of Destruction".

The Divine Light of ordinary gods is also very powerful because it is mixed with a small amount, trace, or even a tiny amount of destructive power.

Chapter 732 Entering the God World

ust like water, the water jet is mixed with particles such as sand, allowing the water jet to cut through iron as easily as mud, making it indestructible.

The destructive power of the divine light of these ordinary gods is no small matter. No matter whether it is the god of death, Hollow, Quincy or Perfectionist, it is difficult to resist the power of their divine light.

Then there is their method of movement. Hollows have no movement method, Arrancar has the ability to move, Shinigami has Shunpo, and Quincy has flying legs. Gods must also have movement methods.

Luther fiddled around with it and figured out how God moved.

flash!

Able to move a certain distance instantly, powerful gods can even run from the Seireitei to the divine world in a flash.

And it's fast enough over short distances to be nearly impossible to catch.

Luther created many skills for ordinary gods and gods of destruction based on summoner skills and hero skills.

A barrier is to protect yourself or others.

Punishment is about condensing destructive power and dealing real damage. Compared with Divine Light, there is no one better. Divine Light focuses more on destructive power, while Punishment is about real damage, and its destructive power and range are not as good as Divine Light.

Weakness is the effect that makes the opponent feel as if he has been hit by a binding method.

Not to mention teleportation, literally, long-distance teleportation.

Therapeutics are for healing.

Anyway, they are all very practical skills. If a god can really learn them all and practice them to a certain level, he will be a very comprehensive and strong person.

Not to mention the two liberating strength improvements of the Soul Blade's draw sword and return blade.

At the same time, in a corner of the divine world, Madarame Ikkaku, Gongchen and others also came here. After strict selection and training, they finally gained the qualification to enter the world of gods.

As they walked through a portal that glowed faintly, they were amazed by what they saw.

The huge temple stands tall and strange clouds float in the sky, as if the whole world is bathed in a sacred and solemn atmosphere.

They feel as if they are in a whole new world, a world of endless possibilities and opportunities.

In the temple square, they saw Zarakhi Kenpachi's figure.

The powerful captain was standing there quietly.

"Ah, it's you."

Kenpachi Zarakhi was surprised when he saw the arrival of Madarame Ikkaku and others. He didn't expect these subordinates to pursue them here so persistently.

But soon, he regained his composure and a smile appeared on his face.

"I didn't expect that you would chase me to the world of God."

"Captain, don't even think about leaving us!"

Madarame shouted excitedly, his eyes shining with determination.

"We will become stronger with you!"

"That's right."

Others also echoed. They are all elite members of Team 11. They are willing to follow Zarak Kenpachi here because they believe that only here can they become stronger.

Zarak Kenpachi nodded slightly.

After entering the world of gods, Madarame Ikkaku, Gongchen and others gave up their familiar Zampakutō without hesitation and replaced them with brand-new soul blades.

They know that in the world of gods, only by mastering the power of the Soul Blade can they truly integrate into this world. They longed to gain the ability to attack directly and become strong men in the world of gods.

Under the guidance of Zarak Kenpachi, they began to understand the secrets of the Soul Blade.

This is a weapon similar to the Zampakutō but more mysterious. After all, it was created by the omniscient and omnipotent God King. It is completely incomparable with something like the Zampakutō created by the God of Death.

The Soul Blade is similar to the Zampakutō, but has its own unique way of awakening. They need to gradually master the power of the soul blade through continuous training and fighting, so that they can awaken the abilities that meet their expectations.

It can be said that the Soul Blade gave Madarame Ikkaku and the others a chance to make a new choice. Their Zampakutō abilities were either not in line with their ideas, or were too rubbish. Now they all hope to get something better that is more in line with their own wishes. Soul Blade.

Especially prostitution.

"Drawing the sword is the key to becoming a true ordinary god."

Zarak Kenpachi told them that only when they pull out the Soul Blade can they truly integrate into the world of God and become one of them.

"And only after you draw your sword can you become the God of Destruction."

Zarak Kenpachi continued.

"Because at that time, you already had the power of destruction. No matter how weak this power is, it is still a manifestation of the power of destruction."

"The boundary between an ordinary god and a god of destruction is not clear. The key lies in the amount of destructive power. However, this is not absolute. Because everyone's total amount of spiritual pressure is different, it is possible that a guy with huge spiritual pressure, even if he only transforms Even if one percent of the spiritual pressure is converted into destructive power, it can crush ordinary gods who have already been transformed by fifty percent."

This is inevitable. Some people are born with strong spiritual pressure, while others are born with weak spiritual pressure.

"Returning to the Blade is a realm that Esdeath has not yet completed."

They have also heard of Esdeath and Madarame Kazuo mentioned by Zarak Kenpachi, but they have never seen them. After all, the story of the Battle of the Two Deaths has been spread.

The first God of Destruction transformed by the omniscient and omnipotent God King was Esdeath.

"If he can achieve the goal of returning to the edge, then God can reach the sky in one step and become the 'God of Destruction'."

Madarame Ikkaku and the others were surprised that the God of Destruction could already surpass Captain Death, let alone the Great God of Destruction?

Such power makes them yearn for it, but they also know that it is not easy to reach such a state.

In the following days, they put on the "divine clothes" exclusive to gods. These divine clothes are similar to the death suits, but the defense is stronger.

They can make the divine clothes more indestructible and tough by injecting spiritual pressure.

The efficiency of the divine clothes in using spiritual pressure is far better than their own use of spiritual pressure for defense. It can be said to be a very practical equipment.

The divine clothes are all white, which is in sharp contrast to the black death suits of the Soul Reincarnation Shinigami.

Their divine clothes are somewhat similar to the clothes of the Arrancar in style, but they pay more attention to the combination of practicality and beauty.

The divine clothes adopt the style of the SS uniform, with smooth and resolute lines, giving people a sharp and clean feeling.

Ikkaku Madarame and others also began to participate in the tasks and maintenance work of the God World.

They help maintain the law and order of Soul City and drive away those souls that cause trouble and bully others; they also kill those who try to invade Soul City;

They also look for those who have potential and try to bring them into the God World for training...

These tasks not only allow them to have a deeper understanding of the operation and rules of the God World, but also allow them to gradually adapt to the life of ordinary gods.

Chapter 733: The response of the Seireitei and the Invisible Empire

In the depths of the Soul Society, hidden in the shadows of countless darkness and secrets, the members of the Invisible Empire are like lurking cheetahs, quietly observing the wind and grass of the outside world.

Their eyes penetrated the heavy clouds, crossed the long distance, and finally focused on the mysterious place called the God World.

The news of the God World spread rapidly within the Invisible Empire like wildfire.

Everyone has heard rumors about this new world, a place where ordinary people can have extraordinary power, a stage that may change the whole world.

However, for the Invisible Empire, this news brought not only shock, but also deep worry and uneasiness.

The Invisible Empire, a secret organization composed of Quincy, has been secretly accumulating strength for many years, looking for opportunities to subvert the existing world order.

Their goal is to completely eliminate all the gods of death and rebuild the order of the world.

However, the appearance of the God World is like a sudden meteorite, breaking their original plan.

In the meeting hall of the Invisible Empire, the members of the Stern Cross gathered together to discuss how to deal with this sudden change.

Hasward, as the current leader of the Invisible Empire, his attitude is particularly critical.

He insisted that the Invisible Empire should remain calm, remain unchanged in the face of all changes, and wait for the return and awakening of His Majesty Youhabach.

In his opinion, if they act rashly at this time, it may destroy their layout and plans for many years.

However, Hasward's opinion is not recognized by everyone.

Some people believe that the emergence of the God World is a once-in-a-lifetime opportunity, and they should seize this opportunity to go to the God World as soon as possible to obtain the power there.

Only in this way can they have a greater advantage in the battle with the God of Death and the soul.

However, Hasward firmly opposed this risky behavior.

He knew the dangers and unknowns of the God World, and knew that the current strength of the Invisible Empire was not enough to cope with the challenges there.

More importantly, he was worried that the Invisible Empire had attracted the attention of the God King. If they acted rashly at this time, they might anger the God King and bring disaster to the Invisible Empire.

Hasward's heart was full of anxiety and uneasiness.

He could not be sure whether the God King had discovered the existence of the Invisible Empire.

If the God King really knew their secret, then everything they were doing now might be done under the eyes of the God King.

This feeling made him feel uneasy, and he didn't know what to do.

At this moment, he remembered what Luther had said.

Luther had specifically mentioned that the Quincy could also go to the God World and choose to become a God of Destruction.

At that time, Haschwald didn't take this sentence to heart, but now thinking back, he felt that there seemed to be some deep meaning hidden in it.

Why did Luther specifically mention the Quincy in the Soul Society, a world where theoretically there were only death gods and souls?

Has he discovered the existence of the Invisible Empire?

If so, why did he hint at them in this way?

These questions kept circling in Haschwald's mind, making him unable to rest assured.

In the next few days, Haschwald was immersed in thinking.

He kept thinking about the past, trying to find some clues and revelations.

In the end, he made a decision: he decided to continue waiting for His Majesty Youhabach to return and wake up.

During this period, they will keep a close eye on the movements of the God World and be prepared to deal with various situations that may arise. Only in this way can they ensure that the future of the Invisible Empire will not be threatened in any way.

The Soul Society has always been observing the God World, but because it cannot enter the God World, it does not know the situation inside the God World and can only understand it through the Soul City.

"At present, more than 100,000 souls have gone to the Soul City from Rukongai."

This is the data counted by the 12th Division.

In the past, they did not care about the number of these souls at all. At most, they would take action to deal with the hollows when they appeared. Even for the sake of balance, when there were too few hollows in the Hueco Mundo, they would ruthlessly clear tens of thousands of souls to balance the three realms.

As a result, now they have to calculate how many souls have left Rukongai and gone to the Soul City?

In this case, wouldn't it be better to stop them from the beginning and not let them leave?

But Captain Yamamoto asked them not to intercept, so they could only calculate the loss of souls.

What Soul Society lacks the most is Ryukon. There are not only Ryukon in Ryukon Street, but also Ryukon in the wild of Soul Society. However, with the emergence of the God World, these originally aimless Ryukon found their destination.

They all want to go to the God World and become Destroyers.

Although they don't know what a Destroyer is.

"Really? It has reached such a powerful number."

Captain Yamamoto was just sighing after knowing it.

How many of these Ryukons can become Destroyers?

At least, judging from the Destroyers who are out on missions, there are still many, but I don't know how strong they are.

Captain Yamamoto can't let the Shinigami fight these Destroyers to see their strength, which can easily cause disputes, disputes and conflicts.

"If we don't stop it and continue to let it go, it will be a matter of time before it exceeds one million."

Mayuri Kurotsuchi said bluntly that the departure of so many wandering souls would shake the foundation of the Soul Society. Although the number of Shinigami in the Soul Society has not exceeded 10,000 so far, the speed of elimination of Shinigami is too fast, and basically there are Shinigami dying every day.

This is not an exaggeration. In the past, there were more deaths, but with the continuous development of the Soul Society, the Shinigami are also constantly improving and becoming stronger, and the death rate has been reduced.

Before the invention of Zanpakuto, let alone people dying every day, there were hundreds of Shinigami killed.

Before the death hegemony was not invented, it was the same.

It is not a joke that a large hollow needs to be alerted to the royal secret service Zero Division to deal with it, but it is recorded in history books. However, the situation has changed now. There is no need for a vice-captain. A stronger officer can deal with the large hollow Gillian.

"If there is no replenishment, the Soul Society will be gone."

Mayuri Kurotsuchi continued.

"I know."

Captain Yamamoto said calmly. He was observing and waiting for the reaction of the Zero Division.

In this situation, Squad Zero will most likely send someone down to check out the details of the God World.

Rather, it would be strange if Squad Zero had no interest in the appearance of a God King who claimed to be as omniscient and almighty as the Soul King.

Chapter 734: Release a group of catfish to bring Aizen Sosuke back to life!

Esdeath has become very proficient in mastering the mountains of corpses and seas of blood.

In other words, there is no need to master this knife at all, and it is not a particularly complicated rule system.

As time went by, she gradually mastered the size, weight and style of the mountain of corpses and sea of blood, as if the knife had become a part of her body.

Moreover, she had the luxury of not removing the sword, and allowed the mountain of corpses and sea of blood to remain as they were after the sword was drawn.

However, although Esdeath has become proficient in using the Corpse Mountain and Sea of Blood, she still has no clue how to master the Return Blade.

Return of the Blade is an ability of the Arrancar in Bleach, which allows the Arrancar to return to its original form of Hollow, thus exerting greater power.

The Return of the God of Destruction is a power similar to this, but it allows the soul blade to return to itself, achieving the situation where Sosuke Aizen fused Kyoka Suigetsu in the later period.

However, this ability is a completely new field for Esdeath. She tried countless times, but she still couldn't get the hang of it.

Drawn swords and returning swords seem to be of the same origin, but in fact they are very different. According to Luther, drawn swords are at least as powerful as Captain Death and Vastod-level Arrancar, or even stronger.

As for Gui Ren, he basically competes with perverts like Captain Death and Team Zero.

The destructive power of the Great God of Destruction is too dominant. No matter what rule-based ability or what, it is essentially a spirit child structure. If the spirit child and the spirit child structure are destroyed, it will be directly transformed into nothingness.

It's just that the limitation of the destructive power is that the recovery speed is not fast, which is barely a shortcoming.

"Returning Blade...what exactly is it?"

Esdeath muttered to himself.

She looked at the mountain of corpses and sea of blood in her hands, a trace of doubt flashing in her eyes. The knife seemed to be alive in her hands, but she was unable to make it exert more power.

This made her feel a little frustrated, but at the same time, it also strengthened her determination to master the Return Blade.

"Luther, I want to go to Hueco Mundo to strengthen my ability in the mountains of corpses and seas of blood."

Esdeath found Luther.

Luther smiled slightly, stretched out his hand and lightly swiped in the void, and a divine gate appeared out of thin air.

This divine gate is not an ordinary black cavity, but a space passage defined by Luther himself, which can lead directly to Hueco Mundo, bypassing the barrier of the broken world.

There will be no such thing as Jutu, and even the power of the Spirit King cannot interfere or influence it.

"Go ahead, Esdeath."

Luther said.

"Go to Hueco Mundo to find your battle and make your mountain of corpses and sea of blood sharper."

"And, by the way, find Aizen Sosuke and give him a little excitement."

Luther said with a smile, he didn't want Aizen Soyousuke to hide and remain immobile for a hundred years.

Esdeath nodded and disappeared into the divine gate in a flash.

Hueco Mundo is a place full of dangers and unknowns, where there are many kinds of virtual beings and they are powerful.

But for Esdeath, this is an excellent testing ground.

Esdeath stepped into this strange world with her mountain of corpses and sea of blood.

In Hueco Mundo, Esdeath showed amazing strength.

She waved the mountain of corpses and sea of blood, cutting down each and every one of them to the ground. Her attacks are not only powerful, but also extremely fast, making them difficult to dodge.

They seemed to have turned into lambs to be slaughtered in front of her.

However, Esdeath was not satisfied. She knew that although these virtual strengths were good, they were not enough for her to fully grasp the potential of the Corpse Mountain and Blood Sea.

She needs a stronger opponent to stimulate her potential.

She started heading deeper into Hueco Mundo.

There, she met a more powerful Hollow. These Hollows are not only powerful, but also highly intelligent. They can use various means to attack Esdeath.

However, Esdeath did not flinch, she became even more excited. She wielded the mountain of corpses and sea of blood and launched a fierce battle with these powerful virtual beings.

The ordinary gods have received a new mission - to hunt the intelligent Hollows in Hueco Mundo, and to find powerful beings that may exist, and bring them back as candidates for the God of Destruction.

Madaramé Ikkaku and Zaraki Kenpachi were very excited after hearing the news.

That was Hueco Mundo, and for those of them who loved fighting the most, there was simply no way to refuse.

"Captain, let's go too!"

Madaramé Ikkaku said excitedly to Zaraki Kenpachi.

Zaraki Kenpachi nodded, his eyes shining with excitement.

He knew that this would be a rare opportunity for them to fight in Hueco Mundo. In the past, they would be rejected if they wanted to go to Hueco Mundo, saying that they wanted to maintain the balance of the three realms.

Zaraki Kenpachi doesn't understand these things at all. Who cares about the balance of the three realms.

As for the guards of God World and Soul City?

Just leave it to other ordinary gods.

In the depths of Hueco Mundo, there was originally a dark and unknown area. However, recently, this place has been invaded by a group of uninvited guests - ordinary gods and gods of destruction.

Their arrival swept through the entire Hueco Mundo like a storm, breaking the original tranquility and balance.

Hueco Mundo, as the gap between the world of Death and the real world, is home to countless kinds of Hollows in different forms.

Some of these voids are extremely weak and rely only on instinct to survive; some are powerful and cunning, possessing wisdom and strength.

However, no matter how strong or weak they are, they are a link in Hueco Mundo's ecological chain and jointly maintain the order here.

However, with the invasion of ordinary gods and gods of destruction, the ecological environment of Hueco Mundo was severely damaged. Their hunting behavior spread like wildfire, and wherever they went, the hollows were slaughtered.

Those hollows who survived by instinct had almost no power to resist and could only become their prey. Although the intelligent hollows could resist, they seemed powerless in front of powerful enemies.

In this disaster, the Hueco Mundo was naturally alarmed.

As a powerful force in Hueco Mundo, the Hueco Mundo has many powerful hollows and leaders.

When Tosen found Aizen Sosuke to report the situation, he was busy awakening the Collapsed Jade. Collapsed Jade is Aizen Sosuke's goal all along. It has a powerful force that can allow him to break through his own limits.

However, at this moment, Aizen Sosuke had to temporarily put down his work and face this sudden crisis.

"Captain Aizen, there are many invaders in Hueco Mundo recently."

Tosen said anxiously.

"According to the intelligence, they are most likely ordinary gods and gods of destruction from the world of gods."

Aizen Sosuke frowned, and a bad feeling welled up in his heart.

He knew very well that these gods were powerful. If they really invaded Hueco Mundo, then things would be troublesome.

Chapter 735 Virtual

"What is their purpose?"

Aizen Sosuke was in the meeting hall of Xuyue Palace, looking deeply at Tosen Kaname, and his voice revealed an indescribable sense of oppression.

Dongxian took a deep breath, calmed down, and replied: "They seem to be arresting Xu. Judging from the recent intelligence received, many Xus have been killed by them, and they seem to be particularly targeting Ya Chukas and low-level Xu were arrested."

Hearing this, Aizen Sosuke frowned, as if he could squeeze out water.

He knew in his heart that the purpose of these beings who claimed to be gods could never be that simple.

Although they have not taken direct action against Xuye Palace yet, who knows what crazy move they will make next?

"The people who informed Xuye Palace have been hiding recently."

Aizen Sosuke said in a deep voice, with unquestionable majesty in his voice.

"Yes, sir."

Tosen Kaname responded respectfully and immediately turned around to convey Sosuke Aizen's order.

Although everyone in Xuye Palace was full of uneasiness and doubts, under the leadership of Aizen Soyousuke, they still took quick action.

They know that the current situation is extremely urgent and they must be prepared to deal with emergencies.

However, Aizen Soyousuke's worries went far beyond that. He knew that these beings who claimed to be gods were extremely powerful. If they really wanted to target Xuye Palace, then he would face unprecedented challenges.

Originally, Aizen Soyousuke felt that he had plenty of time. He thought that no one would disturb him in Hueco Mundo.

After all, even if Soul Society knows its conspiracy, it is impossible to easily enter Hueco Mundo to destroy its plan.

However, he never expected that the God of Destruction would invade Hueco Mundo, and their actions were completely beyond his expectation.

Aizen Sosuke couldn't help but fell into deep thought.

He began to think about what the purpose of these gods was in capturing Xu.

Do they need Hollow's power to strengthen themselves?

Or do they have more profound plans?

These problems gave him a headache.

Don't they need to worry about the balance of souls in the three realms?

Aizen Sosuke was thoughtful, and then he came up with the answer.

They really don't need it. If the God King is really the omniscient and omnipotent God King, he will naturally be able to do what the Spirit King can do!

"It seems that I am used to seeing things from the perspective of Death. This is my limitation, but soon, I will become an existence that transcends Death and Hollow."

Aizen Sosuke reflected on himself and said some very cool words to enhance his fashionableness.

At the same time, news of the large-scale invasion of Hueco Mundo by the God World also spread to Soul Society.

This news shocked and puzzled everyone in Soul Society. They couldn't understand how these gods could invade Hueco Mundo so brazenly, let alone why they would do this.

"Don't these gods need to care about the balance of souls in the three realms?"

Captain Yamamoto's voice was full of anger and confusion.

"We don't know, we still can't grasp their motives and purposes."

"This cannot continue. We must take action as soon as possible."

Captain Yamamoto said.

"While we cannot intervene directly, we must be prepared to deal with emergencies."

As a result, Soul Society also began to prepare intensively. They mobilized a large number of elite forces to prepare for possible emergencies at any time.

Luther looked at Xu who was captured.

Most of them are crooked melons and cracked dates.

He can see the upper limit of Xu's development. After all, it is not difficult for Luther.

Xu's evolutionary path is very simple, relying on devouring to evolve.

Most have a common appearance (black body, white mask with long nose) and relatively low abilities.

They are huge in size, but their movements are very slow, and their IQ is about the same as that of wild beasts.

It is formed by a particularly powerful Hollow swallowing the spiritual power of hundreds of ordinary Hollows.

It needs to rely on constantly devouring spirits to evolve. In the process of evolving to the Achukas level, it will leave the lowest state and become a Hollow close to animal-shaped armor. There are also Hollows like Aronillo who absorb the spiritual power of other Hollows and become themselves. A special aggregation of abilities.

Then evolves into Achukas.

Achukas has high abilities, and most Arrancars are of this level.

He has a very high IQ, his combat power is several times that of Gillian, and he is responsible for commanding a huge group of Gillians.

It still needs to rely on continuous devouring spirits to evolve. Once bitten by a higher-level Great Void, it will permanently stop evolving or even be devoured and become part of the latter's power.

There are two directions for the evolution of Achucas: 1. His strength reaches a bottleneck and he cannot continue to increase his strength and he will always be Achucas;

2. Break through the bottleneck and rise to a new level of strength to become Vastod.

Among the "Ten Blades", except for the No. 9 Arrancar, which is of the Killian level, the others basically belong to Achiukas.

Finally, there is Vastod.

The highest level of Hollow is several times smaller than Hollow, and is about the same size as a human.

The first four blades in the "Ten Blades" are of this level.

He has the strongest ability, surpassing the level of a Shinigami captain, and there are only a few in Hueco Mundo. The higher the Daxu's level, the closer he is to a human body and mind. The changes in the body after liberation are also smaller.

The very demanding evolutionary route actually limits the number of "Hollows".

After all, Hollows can be said to be the most promising race in the world of Death Gods, even the Quincy cannot compare to Hollows.

The Hollows are benchmarked against the Soul King. If the Soul King is not born, the world will be swallowed by a Hollow.

Luther was curious and wanted to see if he could cultivate a "Hollow King".

The Hollow King naturally does not have the omniscience and omnipotence of the Soul King, but it can swallow everything and make itself omniscient and omnipotent.

However, at first glance, most of the Hollows that were captured have the potential of only Achucas.

The same is true for those low-level Hollows.

However, Luther accidentally discovered a low-level Hollow with the potential of Vastod.

"Forget it, the other Hollows are arranged to be ordinary gods, and this Hollow will stay."

Luther must not waste the Hollow with the potential of Vastod.

However, this low-level Hollow still has to go through the two processes of becoming a Great Hollow, Killian and Achucas.

This is easy to solve. Luther had someone capture a Great Hollow Killian and feed it. After it ate the Great Hollow Killian, it successfully upgraded to a Great Hollow Killian.

The next step is to protect it from having its mask gnawed and evolve into Achucas.

This requires at least hundreds of Great Hollow Killians, but Luther doesn't need to do it himself. The ordinary gods captured these Great Hollow Killians.

Chapter 736: Divine Gate

Under this cramming feeding, the Hollow seemed to be injected with endless life essence, and its growth rate was astonishing. Originally just an ordinary Hollow, it gradually broke through the limit and became a more powerful Achukas in the process of continuous devouring and digestion.

Achukas, this level of Hollow, is already the top existence in the Hueco Mundo. They have higher wisdom, stronger power, and more complex abilities.

However, for Luther, Achukas is far from enough. He pursues a higher realm, Vastod, which can make Hollows reach the peak.

But it is not easy to evolve from Achukas to Vastod. According to the conventional evolution method, Achukas needs to prey on more Hollows of the same level, and through continuous fighting and devouring, it can gradually accumulate strength and finally complete the evolution.

Although this evolution method is long and difficult, every step is stable and solid.

But in fact, there is a faster way, which is to devour the fragments of the Soul King.

The Soul King is the supreme existence in the Soul Society, and its power is so strong that any creature can tremble. If the Soul King fragment can be devoured, the power of the Hollow will make a qualitative leap and directly sublimate into Vastode.

But this road is also full of unknowns and dangers. The power of the Soul King fragment is too strong. If you are not careful, you will be assimilated by it and lose yourself.

This is not impossible. All the Soul King parts have become spirits, such as a single hand, a heart that turns into a human, and the parasitic Mimihachi-sama.

Anyway, Luther thinks this method can be used, but we have to wait until this Hollow evolves to Vastode.

Use the Soul King fragment to help it break through the upper limit of Vastode!

While Luther was busy cultivating Vastode and even the Hollow King, there was new movement in the Soul Society.

Unohana Retsu, the captain of the fourth division, the first generation Kenpachi, has always been known for her gentleness and kindness. However, deep in her heart, she hides a bloodthirsty soul.

Unohana Retsu is proficient in 8,000 ways of slashing people. Her swordsmanship is so exquisite that even Captain Yamamoto would be ashamed of himself.

She lives with the sword and fights for a living, enjoying the pleasure of every slash.

However, as time went by, Unohana Retsu gradually felt an unprecedented fatigue and heaviness.

She once served as the captain of the Fourth Division of the Soul Society, and won the respect of everyone with her excellent medical skills and fighting skills, but even so, she gradually reached her limit.

She found that no matter how hard she tried and how hard she improved, it seemed difficult to cross that invisible boundary.

Just as she was in deep contemplation, a shocking news exploded in her ears like thunder - Kenpachi Zaraki defected from the Soul Society. This news was like a boulder thrown into a calm lake, stirring up layers of ripples.

But what shocked her even more was another news that came afterwards - the omniscient and omnipotent God King came and seemed to have created a brand new world - "God World".

In the "God's World", the soul is no longer bound by the cycle of the three worlds created by the Soul King, and the reincarnation of life and death.

This is a brand new realm, a world full of unknowns and challenges.

For Unohana Retsu, this is undoubtedly a huge temptation and a brand new opportunity. She knows that if she wants to break through her limits, she must make changes, otherwise she will be eliminated by this world.

In the depths of the Soul Society, Unohana Retsu stood alone in her room, the moonlight outside the window sprinkled on her face, reflecting her firm and resolute look.

Her eyes stayed on the badge of the captain of the fourth team hanging on the wall for a long time. That was her identity and responsibility that she once cherished very much, but at this moment, she decided to let go of everything and embark on a brand new path.

Unohana Retsu knew that although her strength was good in the Soul Society, it was still a long way from the real strong.

She longed to become stronger, not for the struggle of power, nor for the prominent reputation, but for the pursuit of the supreme realm.

So, she decided to leave the Soul Society and go to the legendary "God's World" to find a chance to become stronger.

She gently took off the Zanpakuto hanging on her waist. It was her partner for many years and accompanied her through countless battles. She stroked the blade as if saying goodbye to it.

Then, she put the Zanpakuto and the feather on the table and turned to leave the room.

When Unohana Retsu walked out of the gate of the Soul Society, she did not look back or say goodbye to anyone.

She knew that her decision might disappoint and puzzle many people, but she was ready to meet the challenges of the future.

When Captain Yamamoto learned of Unohana Retsu's departure, he was silent for a long time.

He knew that Unohana Retsu's departure was undoubtedly a huge loss for the Soul Society.

But he also understood that Unohana Retsu went there in pursuit of stronger power. This was her choice and her destiny. He could not stop her, and could only silently wish her a safe journey.

At this moment, Unohana Retsu has already stepped into the territory of the "God's World".

She looked at the towering God's Gate in front of her. She knew that only by passing through the God's Gate could she truly enter the God's World and meet the strong and masters there.

She came to the God's Gate, which was a huge portal that flashed with mysterious light.

It is said that only those with qualified souls can enter the God's World through this portal.

Unohana Retsu is full of confidence in her soul. She believes that her soul is strong enough to pass through this portal.

However, the test of the God's Gate is not that simple.

It is very idealistic and depends on Luther's judgment.

Luther's strong thinking strength can calculate the trajectory of all microscopic particles in the entire universe in one second.

So he can also read soul information and telepathically sense the other party's spiritual information.

Then select according to preferences, all of which is infinitely shorter than a moment, close to time stopping.

When Unohana Retsu walked to the God's Gate, Luther looked at her curiously.

"Is this woman chasing Kenpachi Zaraki, or is she here for power?"

Luther guessed secretly in his heart.

Unohana Retsu is full of confidence that she can pass through the God's Gate.

She believes that her strength and will can allow her to successfully pass the test of the God's Gate.

She asked the souls around her about the information about the "God's World", and then thanked her and resolutely walked towards the God's Gate.

Those souls showed surprised expressions when they saw Unohana Retsu walking towards the God's Gate.

They tried to kindly persuade Unohana Retsu not to try rashly, as many souls had been bounced away by the divine gate, but Unohana Retsu simply smiled, expressed his gratitude, and continued on his way.

Chapter 737 Drawing the Sword

When Unohana Retsu, the Shinigami captain with both gentleness and tenacity, slowly walked to the door of the gods, her heart was not as calm as she appeared.

That seemingly ordinary door exuded an indescribable pressure.

She felt not only physical pressure, but also mental oppression. It was as if the eyes of the whole world were focused on her, expecting her to make a decision.

However, Unohana Retsu did not back down.

She is a battle-hardened warrior who has faced numerous challenges and dilemmas.

She took a deep breath, which was full of determination and courage. Then, she took firm steps, each step was so heavy yet so powerful.

The moment she stepped into the divine door, the invisible pressure seemed to be resolved by a mysterious force and disappeared without a trace.

She walked through the divine gate, and the scene before her suddenly became clear. This is a brand new world, a world full of spiritual beings. The concentration of souls here is stronger than in Soul Society, even comparable to Hueco Mundo.

Unohana Retsu closed her eyes and felt this new world.

She could clearly feel that every cell in her body was greedily absorbing these spirit seeds, as if she had returned to her youth, full of vitality and vitality. She opened her eyes, determination shining in them.

Deep in the world of gods, an ordinary god responsible for welcoming new souls saw Unohana Retsu.

He was still very idle at first, after all, there were not many souls that could pass through the divine gate, but when his eyes fell on Uozhieh Lie, he couldn't help but be startled.

"Captain Unohana???"

He couldn't help but exclaim.

"Yes, I am Unohana Retsu."

Unohana Retsu responded with a smile. Her voice was soft and firm, as if it had a power to soothe people's hearts.

"Are you a member of Squad 11?"

Maozhieh Lie asked.

She remembered that most of the members of the 11th Squadron defected to the God World.

If this ordinary god could recognize him, he was probably from the 11th Squadron.

The Ordinary God looked at Unohana Retsu and felt an ominous premonition in his heart.

He felt a different aura coming from Uozhieh Lie's body, an aura that he had never felt before.

He wasn't sure what this aura meant, but he knew it wasn't simple.

"You...what are you doing here?"

Ordinary God asked cautiously. He didn't dare to ask Unohana Retsu directly about her purpose, but he wanted to know why she appeared here.

"I'm just here to learn about things in God's world."

Unohana Retsu replied with a smile. Her smile was as warm and gentle as the spring breeze blowing on her face, but the ordinary god felt an inexplicable chill.

"this....."

The ordinary god hesitated. After all, this is an internal matter within God's world, and he cannot easily disclose this information to outsiders.

"Please rest assured, I am not here to gather information."

Unohana Retsu continued.

"I'm just here to be a god."

When the ordinary god heard this, his eyes widened. He looked at Uozhihuaharetsu in disbelief, as if he had heard something out of the blue.

"You...what did you say? You want to become a god??"

the ordinary god asked stammeringly. His voice was full of shock and disbelief.

"Yes."

Uozhihuaharetsu smiled and nodded.

"So...what do you need me to do?"

asked the common god.

He knew that as the priest responsible for guiding him, he had certain resources and information that he could provide to Uozhihuaharetsu.

"I need you to tell me something about God's world."

Maozhihuaharetsu said.

"Such as the rules, systems, culture, etc. here. I want to better understand this world so that I can better integrate into it."

The ordinary god nodded in agreement and then began to introduce the situation of the god's world to Unohana Retsu.

In her hand she held tightly the soul blade she had just obtained.

In her opinion, this sword is similar to the Zanpakutō in the Shinigami world, but it has completely different power and properties.

Soul Blade, as you can tell from its name, contains a deeper and purer soul power.

Just by drawing his sword, he possesses the power of destruction and becomes the God of Destruction.

The moment Unohana Retsu got the Soul Blade, she felt its existence.

Unlike the Zanpakutō, the Soul Blade does not require dialogue and communication. It is a trinity of identity, ego, and superego.

Unohana Retsu is a pure sword demon, murderer, and fighting madman, so he is also very pure.

"This is really... surprising."

Maozhihuaharetsu slowly pulled out the soul blade.

"Draw the sword——"

"——Behead them all."

Unohana Retsu, who was extremely thirsty for power, drew the sword that echoed this desire.

Esdeath's Corpse Mountain and Blood Sea continuously accumulates this power by killing enemies, making itself stronger and stronger.

They are purely numerical monsters and panel monsters.

However, the power that Uozhieh Lie now possesses is purely her own.

She does not need to rely on anyone or anything. As long as she has strong emotions in her heart, she can transform them into powerful power.

Convert Unohana Retsu's fighting spirit, murderous intent, resentment and all other strong emotions into strength and spiritual pressure. The stronger the emotions, the stronger the spiritual pressure and power!

Hatred, fighting spirit, resentment, etc. are all the sources of Unohana Retsu's power.

After Unohana Retsu knew the ability of this Soul Blade, she smiled with relief.

At first, she had thought about what to do if the blade she pulled out had strange abilities.

Now she feels relieved and is very satisfied with the ability of this blade, because all her emotions and feelings are her own, not the fancy rules of the rules system, nor the scene of the elements system.

It's just pure power.

"Draw the sword?"

Ordinary gods stared at this scene in amazement, unable to believe that Unohana Retsu had successfully drawn the sword just after getting the Soul Blade.

Are you kidding?

Unohana Retsu couldn't wait to find Kenpachi Zaraki to fight. Since he had such a great enhancement, Kenpachi Zaraki should have recovered his powerful strength in his youth, right?

No, he must have recovered.

The omniscient and omnipotent God King would take a fancy to Kenpachi Zaraki and take him away, which must be because he saw Kenpachi Zaraki's potential.

That kind of pure strength, unreasonable, even Captain Yamamoto wanted to let Kenpachi Zaraki take over as the captain.

Of course, Captain Yamamoto gave up later.

If Kenpachi Zaraki became the captain, it would take more than a day for the Soul Society to be gone.

The next moment, Unohana Retsu received the oracle from the God King.

It was an order that directly invaded the brain and left no possibility of resistance.

Chapter 738: All members of the Zero Squad are dispatched

The oracle's order was:

Unohana Retsu was responsible for protecting the safety of Soul City and the God World, and there must be no mistakes.

This made Unohana Retsu, who had just felt that she had broken through the shackles of the past, frown.

She became stronger, became a god, and surpassed the limits of the God of Death.

But she had to submit to the more powerful God King.

So Unohana Retsu could only temporarily suppress her inner restlessness and wait obediently for Kenpachi Zaraki and others to return from Hueco Mundo.

Anyway, I have waited for so many years, so I don't mind waiting a few more years.

At the same time, a solemn and mysterious atmosphere suddenly surged above the Soul Society.

This atmosphere instantly permeated the entire Soul Society, making all the Death Gods feel an unprecedented sense of oppression.

They knew that this was the unique breath of the Zero Squad, and this legendary force had finally arrived.

The Zero Squad, this name is almost known to everyone in the Soul Society.

As the existence above the Gotei 13, they are honored as royal spies and are the highest-level troops dedicated to guarding the Soul King and the stability of the Three Realms.

Their history can be traced back to a million years ago. When the Soul King founded the Three Realms, the Zero Squad came into being.

After the Soul King founded the Three Realms, he was attacked by the first generation of the five noble families.

They cut off the Soul King's limbs, dug out his internal organs, and then sealed him up.

Although the Soul King has lost his ability to move, he is still a wedge to stabilize the Three Realms. If he is lost, the Three Realms will collapse. Therefore, the existence of the Zero Squad becomes crucial.

Since the earliest Eye Monk, the number of Zero Squad has always been very small.

Unlike the Gotei 13, which has a large team and complex organizational structure, they only have a few people, but each of them is a top master.

Their strength, wisdom and courage are enough to shock the entire Soul Society.

Eye Monk, the leader of the Zero Squad, is a tall and strong bald old man with a thick beard.

He wore a large wide-sleeved haori and a large crimson rosary around his neck.

His eyes were deep and bright, as if he could see through all illusions. His hands were always naturally tucked into his sleeves, giving people a sense of calmness.

In addition to the monk, there are four other members in the Zero Division.

They are the sword god Oyue who created the prototype of the Zanpakutō, the great orb-shou Shutara Senjumaru who wove the death suit, the spring-yuki Kirinji Tenshiro who developed medical skills, and the valley king Hikifune Kiryu who created temporary souls.

These four members are top masters in their respective fields, and their achievements and contributions are enough to make the entire Soul Society admire them.

The members of the Zero Division usually live in the Soul King Palace above the Soul Society.

The Soul King Palace is a mysterious and solemn place, separated from the Soul Society by seventy-two barriers, and cannot be reached by ordinary means.

Therefore, the members of the Zero Division rarely descend on the Soul Society. But today, they all went out, which is rare in the history of the entire Soul Society.

When the Tenzhu Chariot, the majestic and mysterious moving tool like an ancient giant beast, quietly landed on the edge of Rukongai, the entire Soul Society seemed to have experienced an earthquake-like shock.

The Tenzhu Chariot is not only a moving tool, but also a symbol of the status of the Zero Squad. It is tall and solemn, with complex patterns carved on it, which seem to tell the long history and endless glory of the Zero Squad.

The most eye-catching thing is the unique logo engraved on the chariot, which is the logo of the Zero Squad and the symbol of their identity.

The Tenzhu Chariot slowly descended, and its momentum seemed to be able to crush everything.

The surrounding air seemed to be solidified at this moment, even the wind stopped blowing, only the dust raised by the Tenzhu Chariot when it landed slowly fell in the air.

The feeling of suffocation made every death god present feel extremely depressed.

As the Heavenly Pillar Chariot landed, the members of the Zero Squad walked out one by one.

They all exuded a strong aura, which belonged to the Zero Squad, and was the powerful power they had accumulated after countless years of baptism.

The spiritual pressure strength far exceeded that of the captain-level death god, and ordinary souls could not get close at all and would be crushed directly.

The monk with eyes, as the leader of the Zero Squad, was the first to walk out of the Heavenly Pillar Chariot.

He looked around, his eyes were like torches, as if he could see through the heart of every death god.

There was a smile on his face, but that smile revealed an unquestionable majesty.

He nodded slightly and saluted the death gods around him.

Those death gods felt an unprecedented pressure under his gaze, as if all their secrets were seen through by him.

But despite this, they still lowered their heads involuntarily and expressed their respect to the leader of the Zero Squad.

The members of the Zero Squad, their bodies have been reshaped by the power of the Spirit King.

This power not only makes their bodies extremely powerful, but also sublimates their souls.

They have now surpassed the existence of the God of Death and become a new kind of life form.

Yamamoto Genryusai Shigekuni, as the captain of the Gotei 13, naturally rushed to the scene as soon as possible.

"Sword Ghost, long time no see."

The monk looked at Yamamoto Shigekuni, stroked his beard lightly and smiled heartily.

His voice was full of boldness and kindness, as if there was no barrier between them.

Yamamoto Shigekuni looked at the monk with no expression on his face.

He did not react to what the monk said, but just nodded lightly.

He knew that people like the monk had lived for millions of years and existed in the same era as the Soul King. Their emotions had already surpassed the scope of ordinary people.

What they said and did were all based on a higher level of thinking and understanding.

Therefore, he did not want to dwell too much on these meaningless issues with the monk.

"Let's be frank. You should have made a decision about the origin of the Zero Squad, right?"

Yamamoto Shigekuni asked directly.

He did not want to waste time on useless greetings, but wanted to directly understand the purpose of the Zero Squad.

Upon hearing this, the monk also put away his bold smile and said in a deep voice: "That's right, Sword Ghost. Our Zero Squad came here this time for a very important matter."

"If a second Soul King appears, can you imagine what the world will become?"

The monk continued.

He knew that the existence of the Soul King was crucial to the stability of the entire world.

If a second Spirit King appeared, the balance of the entire world would be broken, and no one could predict what would happen.

Yamamoto Shigekuni looked at him and said nothing.

Chapter 739: The Eyed Monk

Captain Yamamoto knew that as the leader of Squad Zero, the monk had his own plans and plans. He only needed to do his own thing and cooperate with Squad Zero's actions.

"More importantly, I can't see his background."

The monk continued.

"He doesn't belong to Soul Society, the real world, or Hueco Mundo, but he also... doesn't belong to Hell. He seems to be from another world and has power that we can't understand."

Hearing this, Yamamoto Shigekuni couldn't help but be shocked.

He naturally knew that there were many unknown powers and existences in this world. But it was the first time he saw an existence like this God King who didn't belong to this world at all.

"He is like a mystery that makes us unable to figure it out."

"I haven't heard of the omniscient and omnipotent God King, but he has such power. For us, he is another Soul King."

The monk continued.

"Sword Demon, he is more dangerous than Yhwach."

The monk continued.

"Although Yhwach is powerful, his power can still be traced. As for this God King, his power seems to be everywhere, but it is unpredictable. He can predict the future, control fate, and even change the pattern of the whole world."

"That God World, even I can't see what's going on inside."

Yamamoto Shigekuni was silent for a while, then slowly said: "So what are you going to do?"

"So, our Zero Division decided to do it ourselves."

The monk stood in the meeting room of the Gotei 13 and said this with a firm look. There was a trace of solemnity on his face, and it was obvious that this decision was not made rashly.

He took a deep breath and continued: "From today on, all matters related to this omniscient and omnipotent God King will be judged and handled by the Zero Division. We understand that this is a difficult task, but we must face it head-on for the peace of Soul Society and the balance of the whole world."

Yamamoto Shigekuni, the captain of the Gotei 13, was also standing in the meeting room at this time.

He nodded slightly, indicating that he agreed with the monk's decision.

Yamamoto Shigekuni knew the strength and means of the Zero Squad. They were the top fighting force in Soul Society, and their decision must have been carefully considered.

At the same time, he also understood the seriousness of this incident. If it was not handled properly, it might lead to unpredictable consequences.

"The Gotei 13 will fully cooperate with the actions of the Zero Squad."

Yamamoto Shigekuni said in a deep voice.

He understood that this incident was of great importance and was a huge challenge for the entire Soul Society.

"But we also need more information to understand this God King."

Yamamoto Shigekuni added.

"The source of his power, his purpose, and his weaknesses... these are all what we need to master. Only in this way can we formulate a more effective response strategy."

"Of course."

The monk nodded, agreeing with Yamamoto Shigekuni's opinion.

He knew that it was absolutely impossible to deal with an omniscient and omnipotent God King without sufficient information.

"We will tell you everything we know."

The monk said.

"At the same time, we also hope to use the power of the Thirteenth Guardian Squad to jointly deal with this threat. After all, the power of this God King is so strong that none of us can deal with it alone."

The omniscient and omnipotent God King, this name seems to carry a mysterious and terrifying power in the mouth of the Zero Squad.

They know that the power of this God King is far beyond their imagination. He has the possibility of reshaping the world and changing the three realms.

For them, this is a threat that cannot be ignored.

The heart of the monk with eyes is full of heavy pressure. He knows that this incident will be the biggest challenge in his life.

This omniscient and omnipotent God King, even if he has no idea of changing the world, he has the ability to change the world. Once this power gets out of control, it will bring unpredictable consequences.

"The future that Lord Ling Wang sees must not be shaken or destroyed by anything!"

The monk with eyes firmly believes in the will of the Spirit King and believes that the future he sees is the only and correct path.

And this omniscient and omnipotent God King is the threat they must eliminate.

The atmosphere in the conference room became solemn.

"The power of the God King is indeed beyond our imagination."

Yamamoto Shigekuni said in a deep voice.

"But we can't back down from this. We must do everything we can to deal with this threat."

"That's right."

The monk nodded.

"We can't let this God King destroy the balance of this world. We must stop him, no matter what the cost."

In the following time, the Zero Division and the Gotei 13 began to work closely together to collect information about the God King. They sent a large number of spies to the God World, hoping to find clues about the God King.

At the same time, they also strengthened the defense of the Soul Society to prevent the God King from attacking suddenly. They knew that the power of this God King was so strong that once he launched an attack, it would be devastating.

However, although the five members of the Zero Division of the Soul King Palace had unique skills and guarded the peace of the entire Soul Society and the Soul Society, they could not stay in these two worlds for a long time.

The Soul King Palace, as a holy place in their hearts, is the core of their protection and the place they must guard at all times.

The five members of the Zero Division knew that this holy land was their last line of defense. Once someone broke through, the consequences would be disastrous.

Therefore, they decided to take turns to send one or two members to the Soul Society and the Soul Society to take charge, and send other members to the Soul Society for in-depth investigation and research.

Such an arrangement can not only ensure the peace of the two worlds, but also ensure the safety of the Soul King Palace.

As a wise man in the Zero Division, the Eye Monk learned that the God World was where the God King was.

In order to get a deeper understanding of this omniscient and omnipotent God King, the Eye Monk decided to go to the God World in person to find out.

The God World, located outside the Three Realms, is where the God King lives.

Everything there is full of mystery and unknown. For the Eye Monk and others, it is a place that must be understood.

They believe that only through in-depth understanding and research can they find a way to deal with this omniscient and omnipotent God King.

He said goodbye to the other members and embarked on a journey to the God World.

He soon arrived at the Soul City. This city is similar to Rukongai, but has a completely different temperament.

The souls in Soul City seem to be immersed in a kind of satisfaction, as if there is no disturbance or temptation from the outside world.

Chapter 740 Pilgrimage

The monk walked on the streets of Soul City, feeling the unique atmosphere here.

He noticed that although talented souls also felt hungry and in need, their satisfaction was far greater than that of the souls in Rukongai.

This made him fall into deep thought: Was this done intentionally by the God King, or was it the result of his casual actions?

If it was done intentionally by the God King, then he might be a person with a deep compassionate heart.

He hoped that by satisfying the needs of the souls, they could get real peace and satisfaction here.

However, such an approach might also bring unexpected consequences.

After all, the life and death of souls plays an important role in the balance of the three realms.

If the God King interferes too much with the life and death of souls, then this balance may be broken.

On the other hand, if this was just the result of the God King's casual actions, then what was his real intention?

The monk knew that as an omniscient and omnipotent being, every decision made by the God King could have a profound impact on the three realms.

Therefore, he must act cautiously and not draw conclusions easily.

After careful consideration, the monk decided to go to the God's World to find out.

He came to the God's Gate, and this towering gate exuded a solemn and mysterious atmosphere.

He stared at the God's Gate, his heart full of awe and curiosity. He knew that this door led to a whole new world, a field he had never set foot in.

"God's Gate?"

The monk looked at the gate in front of him. As a contemporary of the Spirit King, the monk found that he could not see through the reality of the God's Gate. It was just a door, but it could lead to another world.

He took a deep breath and took a firm step.

As he slowly passed through the God's Gate that exuded a sacred light, an indescribable feeling of dizziness instantly enveloped him. This feeling was as if time and space were twisted around him, making it impossible for him to stabilize his steps.

He closed his eyes and tried to resist the strong impact, but the power came like a tide, sweeping him into a whole new dimension.

After a long and chaotic struggle, he opened his eyes again.

The scene in front of him shocked him. A brand new world was unfolding before him.

This world was completely different from any world he had known before. It was a world he had never seen before, a world of God that completely surpassed his imagination.

The sky was no longer a single blue, but a gorgeous picture of countless colors, as if each color contained endless mysteries.

The land under his feet was no longer a hard rock, but a transparent crystal emitting a faint light, as if every step was on the stars.

He looked around and found a towering palace in the distance. The palace was majestic and reached the sky, as if it was the master of this world.

He realized that he had come to the legendary world of God.

In this world, he was so small, as insignificant as an ant.

However, what shocked him most was that he found that his ability was completely useless here.

He was given the name "Eye Monk" by the Spirit King, which symbolizes the power of "calling out the true name".

In Soul Society, he was the original namer of everything, whether it was "Zanpakuto", "Shikai" or "Bankai", these terms were named by him personally.

He has the ability to change the names of everything. As long as he wants, he can write the two words "Black Ant" on his opponent's body, making the opponent as weak as an ant.

However, in this world of God, his ability seemed to have disappeared.

He did not feel any signs of being banned or sealed.

His ability was lost so clearly and clearly.

"This is really... unexpected."

The monk smiled bitterly and shook his head, his heart full of helplessness and loss. He realized that this might be a warning from the God King to him.

He had not seen the God King before, but he had already lost his most important ability. This made him begin to doubt his decision, whether he should continue to go deeper into this mysterious world of God.

He raised his head and looked at the God King's Palace that soared into the sky. The palace stood in the center of the God World like a pillar to the sky, and its height seemed to touch the sky.

Its appearance is solemn and mysterious, and each brick and stone emits a faint light that makes it impossible to look directly at it.

The monk with eyes hesitated, knowing that his resurrection ability might also fail.

If he died here, he might really disappear forever.

At that time, the Palace of the Spirit King might face a huge crisis.

But he also knew that he couldn't just give up. He had to find a way to restore his ability, otherwise he would never be able to return to the Palace of the Spirit King and complete his mission.

Luther looked at the monk with eyes who chose to go to the Palace of the God King.

"Go forward with a pilgrimage attitude, this is what should be done."

Luther said pretentiously.

Otherwise, if the monk with eyes is allowed to come and go freely, won't he have face?

Now, with the heart of a pilgrim, step by step, from the underground to the top of the sky.

This throne of the sky!

The monk with eyes also began to find something wrong.

The more he moved towards the Palace of the God King, the less power he had.

It doesn't look like much, but if the number continues to accumulate, it will become very large.

Monk Yan had already figured out what was going on.

Could it be that the God King's rules for the God world are to exclude the power of the Spirit King?

So all the powers related to the Spirit King will be affected here?

The Eye Monk's body and bones have been reshaped by the power of the Spirit King, which will allow him to surpass the God of Death and the special life form millions of years ago.

But now it seems that this has become his biggest weakness.

Monk Yan gradually felt tired.

Monk Yan, who has never experienced the feeling of weakness since his birth millions of years ago, now experiences it.

The body begins to feel increasingly labored and heavy.

My body, which had been running for thousands of miles without taking a breath, was now exhausted.

The God King is too repulsive to the power of the Spirit King.

Monk Yan complained, and then he hit his knees twice, making a creaking sound.

It seemed that even Wang Jian was a little overwhelmed.

"What a mistake. It seems like we won't be able to go back for a while. I hope there won't be any trouble."

The eye monk sighed and moved on.

Luther watched the monk's embarrassment with pleasure. This monk was not a good person. Of course, he was not a bad person either. The subjective judgment of good and evil did not apply to him.
