

Kryptonian 86

Chapter 86: Showing off at someone else's door

"If they don't even have the ability to detect us, then they are not worthy of being our opponents."

The God of War, known as the General, said calmly.

The actions of Holy Kesha left the people on board the Grand Canyon at a loss.

"Holy Kesha!"

Dukao said that he was being ignored and quickly shouted at Holy Kesha.

However, Holy Kesha ignored him, and the angels also ignored him, and instead took off again.

Now that they have discovered the Kryptonian civilization, the Kryptonian civilization must be more important.

Holy Kesha looked helplessly at the actions of her angel, "I brought you on a blind date, but the result was a tense situation."

But now these don't matter anymore.

"If the Kryptonian civilization wants to see it, let them see it. The most important thing now is Morgana."

Holy Kesha soothes the uneasiness of her own angels.

They are all staring blankly now, using their eyes of insight to try to find the location of the Kryptonian civilization, but naturally there is no result.

"The Queen...has located Morgana's specific location. Will she execute the grand trial?"

After Angel Yan failed to discover the Kryptonian civilization, he quickly returned to the side of Holy Kesha.

Even if they know that this is the sacred domain of Holy Kesha, any enemy will be solved by the silver wings of the holy domain, but as a high-level guardian angel and a holy left-wing guard, Angel Yan naturally does not allow anyone to approach Holy Kesha under their protection.

To put it simply, the unobservable technologies and methods of the Kryptonian civilization made the angels stressed.

The Kryptonian civilization can observe them, but they cannot observe the Kryptonian civilization. This experience is unprecedented.

"It's not surprising that there is such technology in the edge space. In that place, the most important thing is to hide yourself."

Holy Kesha said calmly.

Her words were to appease her angels and to show her confidence.

The unknown is the greatest fear, and if you understand the enemy's methods, you will not have such a big fear.

Sure enough, after her words were heard by the angels, the angels thought that Queen Kesha had understood the methods of Kryptonian civilization, and the tense atmosphere dissipated.

"As for Morgana, let the people on Earth decide for themselves."

Holy Kesha continued.

When she came to Blue Star, she immediately located Morgana. This was inevitable. No matter whether Holy Keisha wanted to experience what surprises the Death God Karl and the others could bring to her, as long as she could do it, she would still do it. Defeat Morgana without hesitation,

After all, only in this way can the possible heavy casualties be reduced.

Whether it was the casualties of the Blue Star people or the casualties of the angels.

The situation is changing rapidly. This is the lesson that Holy Kesha has accumulated over the years, especially since there was once a Holy Left Guard who came to an end. That was also the only time that Holy Kesha did not personally lead the war with Morgana.

Since then, Holy Kesha has become resolute and resolute. Sacrificing the lives of one million people in exchange for Morgana's life is a good deal in the eyes of Holy Kesha.

But now that Morgana has been promoted to the fourth-generation divine body, the Great Trial can no longer destroy her.

"Queen, the attitude of Kryptonian civilization towards Blue Star is unclear..."

Angel Yan said worriedly.

Ask people on Earth for their opinions?

What opinions can people on earth have, unless they look at the power of the galaxy, the future main god of the galaxy?

It would have been easier to say before, but now there is an additional Kryptonian civilization in the Milky Way.

No one knows the Kryptonian civilization's thoughts and purposes for the Milky Way. What if the Kryptonian civilization wants to become the main god of the Milky Way?

Even if the angels are very optimistic about the future of the Galaxy Power, he will be the highest god in the future of the known universe, the Supreme God, but the Kryptonian civilization doesn't know that. The Kryptonian civilization comes from the fringe space. Who cares about your three major creations? God's work, what hope against ultimate fear.

I'm afraid I won't directly kill the power of the galaxy to study it.

It is difficult to say whether Holy Kesha is coming to Blue Star now to protect the future of the Angelic Civilization of Galaxy Force.

There may not have been this purpose before, but after becoming aware of the existence of Kryptonian civilization, Holy Kesha probably had this purpose.

"If the Kryptonian civilization wanted to interfere with Blue Star, it would have taken action long ago. We will not let that crazy woman Morgana cause trouble."

Holy Kesha said calmly.

What's more, she is Holy Kesha, the most powerful god recognized in the known universe. How can she give in? She has to fight.

When Angel Yan thought of this, he felt that it seemed right. The devil had been wandering around for so long, and he didn't even look at the Kryptonian civilization. I guess the Kryptonian civilization looked down on Blue Star?

Or do you just care about the super genes on Blue Star? Or maybe he doesn't care at all and just stays here?

"Running to other people's homes to show off their power. Is this how the angelic civilization of the known universe is so arrogant?"

Suddenly a voice appeared, resounding throughout the sea and sky where the Grand Canyon was located, making the angels change their expressions.

"Damn, this guy is so domineering!"

Morgana had just hung up the secret communication due to Holy Kesha's bickering. Now after hearing Luther's voice, she immediately decisively chose to watch the show.

"At the doorstep?"

Holy Kesha looked at a behemoth that slowly appeared, which was a huge asteroid.

"Battle Celestial Bodies!"

Angel Yan and the others were surprised, but this time the angels also came out with a combat celestial body, but the thing on the opposite side looked very difficult to mess with.

Luther sat on a throne in the heavenly palace of the Supreme Heaven, and the black-armored black-winged gods of war were neatly arranged in two rows, and then below were the super warriors with peak beast bodies and invincible bodies of golden armor and golden wings.

Angel Yan, Angel Zhui, and Angel Moyi saw some changes in the expressions of the black-armored black-winged gods of war, but they soon realized that they did not match the black-clothed black-winged god who attacked them.

Holy Kesha also took a glance and did not match the data uploaded by Angel Yan, so she did not care.

On the contrary, Holy Kesha was a little surprised that Krypton civilization actually had so many male gods, and those black armors... were all dark alloys that incorporated the rarest material, dark titanium.

It cannot be tracked by satellites, radars, thermal imaging and other main world tracking tools; only reconnaissance guards can capture its position, and reconnaissance guards are reconnaissance equipment at the level of Shenhe civilization.

In addition to providing powerful defense, this kind of armor itself does not generate combat energy, but can store energy and decompose energy.

When the huge attack force and impact force hit the dark alloy armor, it did not rely on hardness to dissipate the power, but relied more on dark energy conversion to dilute the energy into the surrounding dark space.

More importantly, they also have a dark silver coating!
