

Kryptonian 92

Chapter 92 Angel Investors

The Kryptonian civilization suddenly appeared and competed so strongly with the angelic civilization. One can imagine what their purpose is.

Challenge the righteous order of Divine Kesha and become the new order-setter?

In addition, does the Kryptonian civilization have other purposes?

Dukao was thinking about whether he could use the Kryptonian civilization.

Although this approach is likely to be seeking skin from a tiger or luring a wolf into the house, Dukao feels that he can control the speed inside.

"General, I personally object to this. If you still insist, I can only obey."

Lianfeng said helplessly.

"Let's take a look at the situation first. It would be better if we could learn more about the Kryptonian civilization."

Dukao did not insist on his own ideas. If he was a war madman in the past, Dukao would be stubborn.

"Besides, we don't know how to contact the Kryptonian civilization."

Lianfeng said quickly.

"Hasn't the Angel Civilization already demonstrated this to us?"

Dukao said with a smile.

Lianfeng then remembered Angel Yan's broadcast to the world to search for Kryptonian civilization.

Suddenly she didn't know what to say. This matter should not be too strange in any aspect.

However, this also shows that the Kryptonian civilization is paying attention to Blue Star. Otherwise, there is no way to explain why the angel civilization would use such an outrageous method to contact them.

...

On the angel civilization side, they are also talking about the Kryptonian civilization.

"That Kryptonian civilization dared to offend Queen Keisha, it's simply unforgivable!"

Angel Leng said very angry.

"On the contrary, I think the people of the Kryptonian civilization are pretty good, especially the male gods. All of them are stalwart real men."

Another high-ranking angel said.

"Are you a nymphomaniac?"

"I'm just telling the truth."

"Then why don't you go find those men from Lieyang Civilization?"

"Those people in Lieyang Civilization all want three wives and four concubines, but I don't want them."

Holy Kesha watched tenderly as the group of female angels under her were bickering. She felt that this was the time she enjoyed the most.

"Let's not talk about the Kryptonian civilization. Their attitude towards us is not friendly, but it is not that bad either."

Angel Yan expressed a more objective attitude.

She didn't want to cause a conflict between the angel civilization and the Kryptonian civilization because of Angel Leng. Everyone knew the nature of what happened today, but among the kings, even a tentative attack was beyond imagination.

This was the first time Angel Yan saw Queen Kesha showing such a powerful force. When she was chasing demon civilization in the past, although the Queen also showed very strong power, but because Morgana didn't fight many times, she always ran away. Today is the first time I opened my eyes.

"Yan, you can see clearly that the attitude of the Kryptonian civilization is not as extreme as imagined. They may just want the Milky Way as their new home."

Holy Kesha's step back was also a test. If Luther refused to give in, it would mean that Luther had the idea to conquer the known universe.

After all, now is the best chance to capture her. The army of angel civilization is not here, but they have only brought a dozen high-level guarding angels. With the strength of Kryptonian civilization, they can definitely deal with them here.

However, Luther did not do this, and Holy Kesa then understood Luther's attitude.

For this reason, she didn't mind abiding by Luther's rules.

"In this case, what should Sister Yan do?"

Angel Moi said.

Everyone knows that Angel Yan has been betrothed to the power of the Galaxy by Holy Kesha. Now that Blue Star is in such a situation, it is not easy for Angel to enter.

Angel investment is the most famous investment in the known universe, especially Guardian Oath, which has been built into a reputation brand by Holy Kesha.

At least judging from the performance of Angel Zhixin and Angel Yan, after taking the oath of guardianship, they can do anything for the person they protect.

Their investment is also very simple. Any super warrior or god rises at the end of his life, or has time to grow. Before that, the angel will "come down to earth", that is, he will fold his wings and accompany the person he invests in.

The beautiful angel will never leave you and will accompany you in every possible way. It is difficult for anyone to escape this kind of treatment.

At the very least, if Angel Yan hadn't been a step too late and Ge Xiaolun was attracted by Du Qiangwei's big butt, plus the infatuation gene added to him by Angel, Ge Xiaolun probably wouldn't have been able to resist Angel Yan.

Well, looking back, Ge Xiaolun actually couldn't resist.

What they want is the future, and for this they don't care what they have done before.

It's as if for the power of the galaxy, the younger generation of angels are willing to follow Angel Yan at all costs.

As usual, after the matching is completed, Angel Yan will go to Ge Xiaolun's side, silently pay attention to him and accompany him.

The original plot was that everything changed too fast. Angel Yan originally wanted to observe Ge Xiaolun for a long time and let him grow.

Holy Kesha also asked her to go to Fraser with Ge Xiaolun to deal with the sword demon Atuo, who didn't know he had become a god.

Now, because of the Kryptonian civilization, it seems that the angel civilization cannot continue to do this.

"I think it's better to just give up. That Galaxy Power looks silly."

Angel Leng heard what Angel Moi said and said immediately.

"How can you talk about Sister Yan's future like this!"

Angel Moi immediately retorted.

"Yan's future, that Yan's future is dark."

The angel sarcastically said that she looked down upon the power of the galaxy and did not want her good sisters who had been bickering for so many years to fall into a deep pit.

It's a pity that she doesn't know the significance of the power of the Galaxy to Angel. Once this super gene is activated, unless Ge Xiaolun is completely killed, there is no way to give up. If Angel Yan is not willing, Holy Kesha will arrange for others to go.

There is nothing that Angel Yan cannot accept about her fate and future. She looks bohemian, but in fact she obeys the orders of Holy Kesha and is willing to sacrifice herself for Angel's future, no matter how unbearable Ge Xiaolun is.

"Manly woman."

Just when Holy Kesha was thinking about how to communicate with the Kryptonian civilization next, a secret communication made her mouth curl up.

Hexi's real body, which he had been waiting for a long time, finally arrived.

"You came quite quickly. Why, you can't wait to meet the God King?"

Holy Kesha said with a smile.

"Already met once."

Apart from being stunning at the beginning, Hexi has now regained her composure. Even though she is a Yangou, after so many years, Hexi has not seen some beautiful men and handsome men.
