

Kryptonian 93

Chapter 93: Falling out at the drop of a hat

If he was really that handsome, Hexi wouldn't be pure now.

At most, she is just greedy, but she has the heart but not the courage.

"I know."

Holy Kesha naturally knew that He Xi and Luther had already met once, but during the original transaction, He Xi probably did not expect that Luther would have such a noble status as the God King.

O king of gods.

This is not a title that ordinary people can get. Even Holy Kesha only claims to be the king of gods. In fact, everyone is just afraid of her sacred domain.

"Then do you want to see him again?"

Holy Kesha continued.

"Man, what bad things are you thinking about?"

He Xi immediately became vigilant on the communication side.

"Nothing, I just want you to communicate with the Kryptonian civilization and see what their purpose is."

Holy Kesha said calmly.

It's not like He Xi has never done anything like this kind of communication. This was the case when he went to Lieyang Civilization to study abroad.

"I'm retired, manly woman."

He Xi said with a sneer.

Want to trick her into a beauty trap?

Is she Hexi such a superficial woman?

"Old goblin, you are not young anymore."

Holy Kesha sighed.

"My queen, would you like me to remind you how old you are now?"

He Xi retorted.

"I can't, you know."

Holy Kesha said without hesitation.

"...It's impossible for me either."

He Xi paused.

She couldn't imagine a man-in-law falling in love, nor could she imagine herself falling in love with someone else.

That's outrageous.

They have experienced too much and are no longer the female angels who easily believe in true love.

Luther knew this very well, so he had no strategy plan for the Three Angel Kings.

This is impossible. Although everyone comes to the Super Seminary with the idea of opening a harem, it is impossible for the three angel kings to capture it no matter what.

For Luther, it would be easier to collect a group of short skirts carefully selected by angels.

Of course, he could also conquer the three angel kings through violence, but that would be meaningless.

And he found it very troublesome. There were not many women that he could actively pursue.

Just like Du Qiangwei was too lazy to look at him, Morgana was killed every time he saw her.

"I just want you to communicate. If that doesn't work, there will be others."

Holy Kesha said.

"Then just let those little angels under you go. That guy is a king. Do you think he will change his mind so easily?"

He Xi was amazed by Luther's charm, but he also knew that Luther was not a young man, nor a young male god. On the contrary, he was a god-king. With such an existence, it was impossible for any man to want of true love.

This man-in-law wants to push her into a pit of fire. After so many years of sisterly love, she has finally paid for it wrongly!

Holy Kesha said that she just wanted to sell her best friend who had been unsaleable for 30,000 years. What was wrong with her? Didn't she want her best friend to be happy?

"Forget it, it's just a simple exchange. At the very least, I want to know his purpose."

Holy Kesha is good at teaching.

"My young angels don't have the status to talk to him."

Then she blocked Hexi's words.

"identity....."

He Xi knew that this was the most boring and important thing. A king-level conversation could only be with another king.

So He Xi's resentful voice came through the secret communication.

"I can't guarantee that I can ask for anything, and maybe they will take me as a hostage. When the time comes, man, you have to come and rescue me."

Hexi frowned.

"Go ahead, I'll be right behind you."

Holy Kesha said seriously.

I don't know what He Xi's reaction was.

Since the Supreme Heavenly Court was noticed by Holy Kesha, they have not continued to hide. Of course, if the technology does not reach a certain height, there is no way to discover their existence, just like the Deno civilization and the demon civilization cannot discover it.

Angel Civilization and Death Song Academy can discover the existence of the Supreme Heaven.

When Holy Kesha encouraged her best friend to send her away a thousand light years away, there was already a visitor who visited the Supreme Heaven.

Of course, it wasn't Karl, the god of death, who came in person. He didn't have the courage yet.

Karl, the god of death, is not afraid of death, he just doesn't want to die before the arrival of the void era.

However, Snow is the same, because he brings the projection of Karl, the god of death.

"Death Song Academy..."

The Kryptonian civilization had already dealt with Death Song Academy once, but their king was very straightforward and would leave without making a deal.

Now, Karl, the God of Death, already knows why Luther can be so straightforward. Just as he had guessed before, Luther is a well-deserved king of gods. He will not fall behind when facing Holy Kesha directly. This is even the first time he has seen Holy Kesha give in. of.

Since the Supreme Heavenly Court is no longer hiding, it will not refuse visits from those who have the ability to discover them.

Karl, the god of death, also saw Luther again. Unlike before, Luther was still wearing the armor he wore when he faced Holy Kesha.

"I have met His Majesty the God King."

Carl, the God of Death, said very politely.

"Karl, God of Death, you came to visit me. What do you want?"

Luther originally thought that the people who came would be the ones in short skirts. After all, Holy Kesha would definitely want to send someone to find out his purpose, and the identity of this person cannot be low.

So he guessed that it should be Angel Yan, who had no idea that He Xi's real body had come. As for He Xi's clone on Earth, Luther knew that Holy Kesha would not do that. It would be a bit rude and too impolite for a clone to visit.

Even if He Xi sent a fourth-generation divine body clone, it would be the same.

Holy Kesha herself could not risk entering the Supreme Heaven. She was confident, but not arrogant.

"Your Majesty the God King, I just want to inquire about the void."

Death Carl said to Luther very directly.

"... Void, I remember that the known universe does not prohibit the void theory?"

Luther paused before saying.

Death Carl immediately verified his guess.

"No, it's just that Queen Kesha of the Angel Civilization prohibits the study of the void theory, and I think the Kryptonian civilization has exploded the black hole of the known universe and obtained the void matter, right?"

Death Carl continued.

Although he did not read any useful dark data from Luther in front of him, Death God Karl would not deny the possibility that Luther did not have the power of the void.

"This kind of thing, a mere projection is not enough to talk about it."

Luther raised his eyebrows, and then he waved his hand. The next moment, the terrifying dark energy was released, and the projection of Death God Karl was instantly wiped out, and Snow also disappeared with a horrified look on his face.
