Chapter 942: Boros massacres the Hidden Mist Village

The Hidden Mist Village, a mysterious place shrouded in thick fog all year round, is now shrouded in unprecedented shock and despair.

The villagers looked at each other, their eyes full of disbelief and grief, as if the whole world had lost its color at this moment.

Their leader, the strong man known as the "Water Shadow" - Yagura Kujitsu, was actually defeated head-on by an outsider with amazing power in full view of the public, and the fire of life was suddenly extinguished.

The scene of the battle is still vivid, like a nightmare entangled in everyone's heart. Yagura Kujitsu, as the Jinchūriki of the three-tailed Isobu, his power should have been the pride and guardian of the Hidden Mist Village.

When he completely transformed into a tailed beast and turned into that behemoth, the mountains and rivers trembled, the rivers flowed backwards, and the Tailed Beast Ball carried the power of destroying the world, enough to scare any enemy.

However, all this glory and terror seemed so pale and powerless under the impact of Boros's invincible energy.

Boros, this powerful man from another world, although not as big as the tailed beast, the terrifying energy surrounding him is hard to look at.

Every attack of his seems to tear the space apart and turn all obstacles in front of him into nothingness.

When the two energy waves that were enough to shake the world collided in the air and burst into a deafening roar, everyone held their breath and waited for the judgment of fate.

But the result was so cruel - Yagura Kujitsu, along with the three-tailed Isobu in his body, disappeared in this earth-shaking collision, leaving only a mess and endless sorrow.

The fall of Yagura Kujitsu was like a boulder thrown into a calm lake, stirring up layers of ripples.

After a brief shock, subtle changes began to appear in the Hidden Mist Village.

Some forces that originally had different intentions were ready to move. They saw the opportunities brought by the power vacuum and attempted to compete for the right to speak in this chaotic moment, or even replace it.

And more people, out of their love and protection for their homeland, resolutely stood up, ready to use their flesh and blood to resist foreign invasion and defend the land that gave birth to them.

However, Boros's strength far exceeded their imagination.

Every time the cosmic overlord swung his fist, he harvested lives like the scythe of the god of death. The elites of the Hidden Mist Village, those awe-inspiring ninjas on weekdays, were as fragile as ants in front of Boros.

Their ninjutsu, taijutsu, and even the most proud secret techniques, all seemed so powerless and ridiculous in front of Boros's overwhelming power.

Boros ran rampant in the Hidden Mist Village, and wherever he passed, there was destruction and wailing.

His power was beyond the scope of what mortals could understand. Every time he swung his fist, it was accompanied by the distortion of space and the explosion of energy, turning solid buildings into dust and ruthlessly extinguishing the fire of life.

But surprisingly, he did not continue this indiscriminate massacre.

He looked around, the devastation was all over the place. The once prosperous village was now only left with broken walls and ruins. The cries and cries for help intertwined into a sad symphony.

But in this ruin, he could not find anything that could arouse his desire to fight.

Those forces that had tried to resist him were nothing more than ants in his eyes, and could be easily crushed. This invincible loneliness made him feel unprecedented emptiness and boredom.

After confirming that there was no opponent who could fight him here, the overlord who once galloped across the universe seemed to have lost interest in simple killing.

So, after leaving behind a ruin and countless sorrows, Boros turned and left, leaving only a series of heavy footsteps echoing in the empty streets.

With Boros's departure, the Hidden Mist Village seemed to gradually wake up from a long nightmare. But the reality was more cruel than the dream. The fall of the elites almost collapsed the village's defense system, and the prosperity and tranquility of the past were gone forever.

The villagers struggled to survive in the ruins. They either bowed their heads and cried, or looked up, trying to find a ray of hope from this despair.

Yuanshi, the elder of the Water Country who valued both wisdom and power, showed his calmness and decisiveness at the critical moment. He knew that this was the critical moment to revitalize the Hidden Mist Village, and someone must stand up to lead everyone out of the predicament.

So, Yuanshi, with his confidants Aoi and Gonbei, emerged from a hidden place and quickly took over the power of the Hidden Mist Village. He used his prestige and wisdom to stabilize the people's hearts and organize the remaining forces for reconstruction.

At the same time, he also began to investigate the origin and purpose of Boros, trying to learn lessons from this disaster and pave the way for the future of the Hidden Mist Village.

"This guy named Boros is simply a moving natural disaster, a human-shaped tailed beast!"

Yuanshi naturally did not die. This shrewd elder chose to endure and lie dormant when Boros was wreaking havoc.

Directly confronting Boros is tantamount to hitting a rock with an egg. Only by waiting for the opportunity can the Hidden Mist be revitalized.

When Boros finally disappeared from sight, Yuanshi acted quickly, using his deep prestige and wisdom to quickly stabilize the situation and take over the power of Kirigakure.

He knew that Kirigakure needed a strong leader to lead them out of the haze and rebuild their homeland.

As the elder of Kirigakure in the Land of Water, he had the same power and status as the Mizukage, and was in charge of all Kirigakure affairs. The most important matters in the village had to consult this elder.

The original work also managed everything in the village for many years after the death of the fourth generation Mizukage. He was respected by countless villagers. He would be consulted on all major issues in the village. He had two close followers, Ai and Gonbei.

So naturally he took charge of Kirigakure Village without any surprise.

On the other side, Uchiha Obito was filled with anger and unwillingness after learning about the death of Goju Yagura.

As an important chess piece that he carefully arranged in Kirigakure Village, Goju Yagura's death undoubtedly disrupted his overall plan.

The death of Goju Yagura not only means that his layout in Kirigakure Village has been frustrated, but may also trigger a series of chain reactions that will have a profound impact on the structure of the entire ninja world.

"Damn it, what happened?"

Uchiha Obito was anxious.

Hei Jue knew what happened, he had already gone to check the information.

"There was a strong man named Boros who attacked the Kirigakure Village and slaughtered thousands of Kirigakure. Then, when Gotachibana Yagura was completely transformed into a tailed beast, he used an unknown ninjutsu to defeat Gotachibana Yagura's head-on. Tailed Beast Tama killed the three-tailed Iofu and Goju Yagura, and is now missing. "

Hei Jue said in a deep voice, he was shocked when he heard this.
