

## **Last Days 109**

### Chapter 109 New Transportation

**\*Roar\***

The white tiger roared and then lowered its head.

The appearance of mana all over the world had influenced many animals on the surface of the green planet, allowing them to gain more intelligence and power. This made those animals that were already quite smart to become even better.

This white tiger was clearly quite smart even before the earthquake happened, so it could clearly detect that Riya was far stronger than it. If it didn't want to die, it had to follow Riya's words and didn't do anything unnecessary.

So the white tiger decisively lowered its head.

Facing these three magic beasts, the white tiger was unwilling to back down because it knew that each of these three magic beasts were weaker than it. Moreover, they didn't give it any other choice but to die under their claws.

Under such a situation, how could the white tiger be willing?

In a life and death's situation, the white tiger will definitely fight until the very end and never do anything unnecessary.

But if there was another choice... then it would relent.

"Good."

Riya smiled and patted the white tiger's head. She then formed another rune spell. "Healing Runes."

The runes entered the white tiger's body and the injuries it suffered healed at speed visible to the naked eyes.

\*roar\*

The white tiger roared happily. It could feel that its body was getting better.

Riya nodded and then casted another runes, runes of control. In this way, the white tiger would be bound to her until she lifted the runes and couldn't disobey her words if it didn't want to die.

Sensing this control, the white tiger felt a bit unwilling but it couldn't really say or do anything. It was too weak!

"You can eat these three magic beasts to replenish your strength. After this, you have to become my mount." Riya grinned when she looked at the white tiger.

Mount?

The white tiger looked at Riya and then lowered its head obediently. As long as it could stay alive, so what if it becomes a mount. In any case, it would be able to live well.

As the white tiger was eating, Riya made some changes to her world and created a small separated space for the white tiger. She couldn't let this white tiger roamed free in her world or she wouldn't be able to think what would happen to her goat and the others.

'Right, now that I have reached rank 4, I can use that spell.'

Riya looked at her farm that was getting bigger and then took out one of the jade. Afterwards, Riya started to carve countless runes on the surface of the jade with her own mana and when her mana almost bottomed out, it was finally done.

These runes were a bit harder to make, but they were also very convenient for a rune master who was lazy.

\*cough\*

'Puppet runes, rise,' Riya muttered in her mind and the jade moved, collecting the earth and rocks nearby until it formed the shape of a human child, around one meter's high. The face was flat and the shape was more like a paper human rather than real humans, but it was enough.

Previously, her paper runes could only last for a short while. Now, this could last for a long time as long as there was enough mana. It was very convenient.

"From now on, you have to...."

Riya gave the puppet number 1 instruction to gather milk, put it in the processing device and then stored it in the warehouse where time has been frozen by Riya. After that, it had to prepare food for the other animals and so on.

She planned to make more puppet but it had to wait until later.

Her mana had to recover first.

Coming out of her world, Riya sat crosslegged and recovered her mana. After some time, the white tiger was done with eating and looked at Riya and roared.

"Alright, let's go."

Riya hopped on the back of the white tiger's body and ordered it to head towards City A. She also used haste talisman to make it faster and along the way, Riya would hunt the few magic beasts that she encountered on the way.

Perhaps because she had killed tens of thousands magic beasts in that crack, the number of magic beasts in City A had decreased sharply.

For Riya, this was a good thing.

But she didn't know if this would be a good thing for the others because they would need to adapt to these magic beasts sooner or later.

It was not like Riya could protect them until the rest of their lives.

'Well, it's not only my business, I guess.'

Thinking about this, Riya then shook her head and continued on her way. This time, she felt really comfortable because she didn't have to work hard and it was the white tiger that was tired.

As a reward, she gave the rank 1 magic beasts' meat to the white tiger and let it rest in the smalls space she had prepared in her world. The space was only 100x100 meters wide and there was nothing there aside from the magic beast rank 1 corpse that she threw inside.

When the white tiger was inside, it also couldn't sense anything outside of it.

This could be said to be the exclusive confinement space Riya made.

And it was also very convenient because the white tiger wouldn't be able to know the specific of Riya's space. At most, it would think that this was the beast space.

The beast space was the space exclusive to beast master.

The beast master was a special profession in that world because they learned the methods to control the magic beasts and then used these magic beasts to fight for them. The magic beasts would obey their words and shared their strength with the beast master, allowing the beast master to become stronger as the magic beasts grew stronger.

Unfortunately, Riya didn't know the methods for that.

Besides, tending for magic beasts were very troublesome. If it was not because she wanted a mount, Riya would not even take this white tiger.
