## *Chapter 111: Friends*

Lian Lei Xu opened his mouth and then closed it again.

At this moment, Yu Shi Lan had already retreated and looked at the bodyguards who were ready to make a move.

These bodyguards have good skills, but they were asked to protect such a disappointing young man like Lian Lei Xu.

Tsk, tsk, tsk.

What a waste of their good skills.

"How..." Lian Lei Xu looked like he was about to collapse.

Yu Shi Lan's display of skills were terrifying and this made him think that his men were utterly useless. In the past, this girl was nothing more than a timid girl who couldn't do anything and always being bullied.

How did she change so much?

...wait.

"Did you eat those mutated animals? Ahahaha! I was right! There should be a way to get stronger easily through eating the mutated animals, right?" Lian Lei Xu's expression was distorted and filled with madness.

Seeing him like this, Yu Shi Lan felt even more disgusted as she looked at the young man in front of her.

He's crazy.

"No," Yu Shi Lan denied.

She didn't dare to eat those mutated animals' meat... well, demonic beasts' meat. It seemed that she would be assimilated by the terms used on the Green Planet as time passed.

"You're lying! It must be because..."

Swish!

This time, Yu Shi Lan didn't come any closer and threw a spoon in Lian Lei Xu's direction. It hit his forehead and he fell down with a thud.

"You're noisy." Yu Shi Lan sneered.

She really want to hit him and given by his fixation towards those demonic beasts, she had the feeling that they wouldn't let this matter be so easily.

But this is also good.

She will have a good reason to kill people.

"Young Master!"

Swish!

The bodyguards wanted to attack, but Yu Shi Lan slipped to the side and Mu Ting Ye also stepped forward, kicking the nearest bodyguard close to him. The bodyguard's skills were indeed good, but they were clearly not a match against Mu Ting Ye and Lin Yuan who joined the fray.

Added with the ruthless Yu Shi Lan, the group of people were kicked and punched away.

As for the young masters who followed Lian Lei Xu?

They were standing on the side like a wallflower.

Pfft.

Their expression looked a bit loss and they looked left and right, pretending that they had never seen anything. For these people who knew how to bend and stretch, they were only close to Lian Lei Xu because of the Lian Family behind him.

As long as they pretended that they didn't see anything, they could usually get away from things.

Yu Shi Lan also didn't want to beat up ordinary people who didn't provoke her.

Anyway, she couldn't kill them here.

'What a pity that this is not outside,' Yu Shi Lan sighed in her heart. If it was outside, she could easily kill these people without caring about the consequences.

The bodyguards knew that they were not their opponents, so they scurried away while carrying the still screaming Lian Lei Xu.

"\$%9s ^&\*(O ^&\*M^&\*!"

Yu Shi Lan shook her head while listening to Lian Lei Xu's scream and yell. She had the feeling that he didn't know how to curse and his words were not hurtful at all.

"Tsk, a coward who only knows how to hide," Lin Yuan mocked the other party without hesitation.

"Um." Yu Shi Lan nodded and looked at Mu Ting Ye. "You don't really need to fight them."

They had already stopped fighting a long time ago but because she took action, Mu Ting Ye and Lin Yuan also started to take action.

It was really unnecessary.

"It's fine. We already have a bad relationship in the first place." Mu Ting Ye shook his head lazily. "Besides, we're friends, right?"

Friends?

Yu Shi Lan blinked her eyes and looked at Mu Ting Ye who was grinning in front of her. Her expression softened slightly and she laughed. "Yes, we're friends."

It was not like she had never cooperated with others.

For wandering cultivator without any background, they would also make friends and they could gather together from time to time in order to achieve some goals.

It was not surprising.

"So, can you call me with my name directly?" Mu Ting Ye asked.

Yu Shi Lan: ???

So sudden?

She looked at Mu Ting Ye and then sighed before calling out, "Ting Ye."

"Yes, Shi Lan?"

Yu Shi Lan looked at Mu Ting Ye speechlessly and felt that he was getting too friendly. While changing the way one calling each other often signified a closer relationship, they were not that close with each other in the first place.

After a moment of thinking, she decided to let it be.

It's just a name.

Lin Yuan blinked his eyes and looked at Mu Ting Ye suspiciously.

While he knew that Mu Ting Ye had his own way to get information from other people and could easily 'befriend' some people, but if it reached the point of calling each other intimately, it seemed a bit too close and too sudden, right?

Still, they have known each other for a long time and Lin Yuan would not sabotage his friend in front of others.

How they pranked each other in private was another matter, though.

"...I'm just saying," Yu Shi Lan said uncomfortably.

Mu Ting Ye shrugged and then asked, "Is it convenient for me to ask how you train if you didn't eat the mutated animals' meat?"

Yu Shi Lan blinked her eyes.

"Why don't you think I'm lying like Lian Lei Xu?"

"I have known you longer than Lian Lei Xu," Mu Ting Ye said and there was a hint of disgust when mentioning the name Lian Lei Xu. "Besides, I don't think that you will lie about something like this. Those mutated animals... are not a good thing."

While not saying it explicitly, Yu Shi Lan had the feeling that Mu Ting Ye was saying that he trusts her.

#### *Chapter 112: Friends (2)*

Lin Yuan listened from the side and nodded. "The report from the researchers stated that the mutated animals are losing their minds and attacked others crazily. Only some of them managed to retain their mind but they still follow their instincts. Whatever is changing them is definitely not a good thing."

If humans were to recklessly eat the mutated animals' meat, it was estimated that many of them would only end up dying.

This is something that Mu Ting Ye and Lin Yuan agreed with.

But some people were more courageous or reckless as they felt that it's better to try eating the mutated animals' meat and gained some advantage. In this way, there were two different groups of people.

But for the Lian Family to directly let their descendants eat it...

Mu Ting Ye didn't know what to say.

They were really reckless.

"Yes, so we can guess that it should be because of other reasons." Mu Ting Ye shrugged. "Maybe some kind of medicinal bath... it's not that uncommon."

When talking about medicinal bath, Mu Ting Ye's face turned dark. He could still remember the pain when his master gave him that thing. If it wasn't because he wanted to get stronger, he will never enter that tub.

"Pfft. Your face is really good at that time, Ting Ye." Lin Yuan laughed out loud.

"Delete it, Lin Yuan!"

"Never~."

Seeing the two people arguing like children, Yu Shi Lan didn't know whether to laugh or cry. She could see that the relationship between Mu Ting Ye and Lin Yuan should be very good.

At least, the two of them were definitely joking around right now.

But medicinal bath...

Yu Shi Lan couldn't help but think about it. She naturally knew the use of medicinal bath in some exercise, but she couldn't detect any Qi from either Mu Ting Ye and Lin Yuan. Even when these two people were fighting against those bodyguards not long ago, they never used any Qi.

She had been wondering if this was because they were truly confident with their strong physical strength.

Or... they didn't even know the use of Qi.

While this speculation was not unfounded, Yu Shi Lan truly got interested at these two people's ability to fight.

"Tsk." Mu Ting Ye kicked Lin Yuan, who avoided it narrowly and then turned to look at Yu Shi Lan. "Of course, if you don't want to tell it, you can keep silent. I wouldn't ask things that will make you uncomfortable."

Yu Shi Lan blinked her eyes and then said, "It's not that I can't tell you, but can you show me your real strength?"

"Meow!" <miss! You can't do that!>

The moment Yu Shi Lan finished speaking, Xiao Mao immediately jumped up in her pocket. She had been watching the confrontation from inside and only felt that Lian Lei Xu was such a foolish man.

But after hearing the exchange between Yu Shi Lan with Mu Ting Ye and Lin Yuan, Xiao Mao immediately felt that it was bad.

No!

The cultivation world's affair couldn't be told to others!

'Miss! If you tell others about the fact that you're a cultivator, you might end up having to face other cultivators in the future. There are restriction from the Heaven and even if we're from a completely different world, you still have to face the tribulation. What if they assassinate you at that precise moment?'

The tribulation for cultivators was basically the most important turning point for them to advance to higher realm.

Even though tribulation would still take some time for Yu Shi Lan, Xiao Mao couldn't let her take any risk.

She didn't want to put Yu Shi Lan in danger.

So it would be better not to let the other party expose the fact that she's actually a cultivator.

Yu Shi Lan: "..."

'Xiao Mao, I don't plan on telling them that I'm a cultivator but I'm planning on exposing the medicinal bath's recipe. You know that it's just a common medicinal bath, right?'

After hearing Mu Ting Ye mentioning the medicinal bath, Yu Shi Lan couldn't help but think about the one that she used before. It was very suitable for her and had been tailored specifically for her physique.

The one she gave out would be the one that she hadn't tailored.

It was just some common medicinal bath.

But it was useful up to Qi Refining Rank 3, which is her current rank. Even though the effect was already minimal by now, but Yu Shi Lan still wanted to try her luck.

If she told them about this medicinal bath, she might be able to get some ingredients.

At least, for one or two medicinal bath...

Xiao Mao: "..."

"Meow..." <Sorry for doubting you.>

Xiao Mao put her paw in front of her face and felt that she should not overestimate Yu Shi Lan's moral level.

Even though Mu Ting Ye and Lin Yuan were indeed kind to Yu Shi Lan, there was no way she would be willing to tell them everything in such a short period of time. At most, Yu Shi Lan would only share some harmless information.

This medicinal bath was included among them.

Yu Shi Lan was amused by her cat, but the two people's attention were clearly attracted by the sharp 'meow' just now.

"Is your cat alright?" Mu Ting Ye asked.

"Ah, don't worry, it just want to find the toilet," Yu Shi Lan replied calmly as she picked Xiao Mao out of the pocket and then walked towards the bathroom. The bathroom in the mall was still relatively empty.

After all, there were not many people here.

"Ah, your pet is quite spiritual." Mu Ting Ye nodded.

Xiao Mao: "... who want to go to the toilet?!"

She looked at her Master tearfully but seeing Yu Shi Lan's threatening eyes, she could only lower her head unwillingly.

It's indeed her mistake.

Xiao Mao could only accept the punishment of having her reputation tarnished.

Then again... does cat really need any reputation?

*Chapter 113: We're Here*

Yu Shi Lan didn't bother to think about it and instead turned the conversation back to the original trajectory.

"So, what do you think about it, Ting Ye?"

"Eh, I don't mind." Mu Ting Ye grinned. "I'm a powerful fighter and Lin Yuan is my junior brother...."

"Senior brother!"

"I'm stronger than you," Mu Ting Ye said smugly.

"I'm older than you." Lin Yuan sneered.

"I'm stronger than you."

"I'm studying under Master earlier than you."

"I'm stronger than you."

"Can't you give other reason than that?!" Lin Yuan was exasperated, but he was only greeted with the smug look from Mu Ting Ye.

Lin Yuan: "... his fist is hardened.

Yu Shi Lan looked at the two people who were arguing and couldn't help but laugh. She felt that these two people were really funny.

"Once the cat finished her business, let's go to the training ground."

"Ok."

So Yu Shi Lan played the drama of putting Xiao Mao to the bathroom where she basically washed her hand and looked at the water from the faucet with some surprise. Because she could tell that the water was quite clean and it was not contaminated with the demonic Qi yet.

Even though some demonic beasts have appeared, the environment still hadn't been corrupted.

'Is it because someone is slowing it down?'

She didn't know for sure.

After all, Yu Shi Lan herself didn't quite understand where these demonic Qi came from. Her knowledge from her previous life was almost nonexistent and couldn't be relied on.

The stupid her was really holding herself back.

Not that she could do anything about it.

And Yu Shi Lan didn't think that she could really ask Mu Ting Ye and Lin Yuan about this matter, so she simply kept it inside her mind for the time being.

She should just focus on getting stronger and finish her revenge first.

Once it was done...

She could try to figure out other things.

Yu Shi Lan didn't stay long in the bathroom, mainly because she just wanted to play a short set of drama with the others. Once she had finished washing her hand, she followed Mu Ting Ye and Lin Yuan out of the mall.

"Are there any public training ground here?" Yu Shi Lan asked curiously.

"Technically no," Mu Ting Ye replied. "The training grounds belonged to the military because they have to train their soldiers. But there are a few empty areas that we can borrow as long as we have enough money and connection."

Yu Shi Lan nodded.

She was sure that the latter's requirement was more important than the first one. After all, the contribution points were relatively easy to get in the early stage.

As long as they were willing to scavenge for supplies, it was not impossible to get a lot of supplies...

Well, technically, only those who knew whether the supplies were located would be able to do this. After all, the military had already cleaned the area before they implemented the contribution points system.

They should have made the plan early.

"Don't worry, Ting Ye's connection is enough to let us enter," Lin Yuan said with a grin.

Yu Shi Lan blinked her eyes.

Does Lin Yuan meant Mu Ting Ye's private connection or it was his own connection?

There was a clear difference between the two of them, but she could see that Lin Yuan didn't mean to tell her more.

Forget it.

Intelligence gathering was not her specialties and Yu Shi Lan felt headache just thinking about how to collect more information about the current situation from the other two. After all, she didn't have much advantage in this matter.

Even in the cultivation world, she would rather spend money to buy the intelligence rather than looking for it on her own.

Some intelligence dealers were unscrupulous, though.

Yu Shi Lan rubbed her cheek when she remembered how she destroyed one of their agencies for selling her fake information. She nearly died when she went there and after she came back, she simply killed everyone.

That ended up with her being chased for the next few weeks before she killed all of her pursuers.

At that time, Yu Shi Lan and Xiao Mao cooperated with each other extremely well.

Well, it was pretty good.

"We're here."

Mu Ting Ye lead them to the military grounds and after he showed his ID card, the soldiers opened the door for him. Since Lin Yuan and Yu Shi Lan were coming with him, they were not stopped either.

"Follow me and don't wander around. There are many areas that can't be accessed by ordinary people," Mu Ting Ye reminded.

"I know," Yu Shi Lan replied.

She was not so stupid.

"Meow..." <Miss, there's item containing pure Qi nearby.>

Xiao Mao peeked out of Yu Shi Lan's pocket and looked at one of the buildings. She sensed something that contained pure Qi inside, but she was not entirely sure about it.

Normally, only cultivators and items containing Qi would give her this feeling.

Since there shouldn't be any other cultivators on the Green Planet, Xiao Mao guessed that it should be item containing Qi.

Is it an artifact?

If that was the case, then it would be amazing.

Xiao Mao suddenly felt a bit greedy.

Yu Shi Lan's eyes flickered slightly when she heard Xiao Mao's words.

Artifact?

Or some kind of magic weapon?

Yu Shi Lan knew very well that any items that could contain Qi for a long period of time was extremely valuable. While she had learn some formation and the basic use of runes and so on, but it was extremely limited.

At most, she could create some low ranked formation to protect herself.

But if she had to face a foundation establishment cultivators... those things were definitely useless and would be broken within a second.

After all, she only learned these miscellaneous things in order to feed herself in the early stage since it was so hard to get resources and all.

*Chapter 114: Spar*

Yu Shi Lan pushed the thoughts back.

'Are you sure about it?' She asked for confirmation.

'Hmm, not really. The feeling is vague and if it's not any magic item or perhaps some treasure, then it should be a cultivator. But this will be the only cultivator I have ever seen on the Green Planet aside from you, Miss,' Xiao Mao explained.

Her cat eyes were still looking in the direction where she sensed the pure Qi.

It didn't change place so far.

'If there's a chance, I'll check it out.'

Yu Shi Lan's interest was piqued up. She felt that after her rebirth, she kept on encountering things that never happened in her previous life. This also allowed her to see the wider world and see other people's martial arts and possibly treasure.

The corner of her lips curled up slightly.

This is very good.

She wanted to see if it was possible for other cultivator to appear.

"Here we go." Mu Ting Ye finally stopped and turned to look at Yu Shi Lan and Lin Yuan. He clasped his fist together. "I have long wanted to beat you up again, Lin Yuan."

"Heh, who knows who will lose and won in this battle." Lin Yuan sneered.

The two of them looked like they were ready to beat up each other.

Yu Shi Lan waved her hand. "Ready? Start!"

Swish! Bang!

The two people didn't hold back at all and lunged forward to attack the other party. It was obvious that they were already impatient and wanted to finish the battle as soon as possible.

Mu Ting Ye first attacked and Lin Yuan avoided it before counterattacking.

The two of them moved extremely quickly.

Ordinary people would not be able to see their movements, but Yu Shi Lan could see it and realized that Mu Ting Ye's speed was comparable to her.

And they didn't even use Qi.

It's unscientific.

"Meow." <They're really strong. Are they physical body cultivators, Miss?>

Xiao Mao looked at Mu Ting Ye and Lin Yuan fighting against each other and asked.

Physical body cultivator?

Yu Shi Lan had heard of this term from a long time ago and knew very well that it was the term for cultivators who didn't have any spiritual roots.

Not everyone could become cultivators.

The main requirement was to have a spiritual roots that will help them to cultivate. If they didn't have any, then everything would be pointless.

Because almost all cultivator's practice had to rely on their spiritual roots.

There were many types of spiritual roots and Yu Shi Lan's spiritual roots were the common five elements spiritual roots. Most people who have five element spiritual roots were usually considered useless because it would take a long time for them to cultivate.

But Yu Shi Lan could be said to be lucky.

Because her spiritual root quality was considered to be very good, which helped to increase her cultivation speed.

Added with the treasures that she dug out and snatched in battle with other cultivators, she managed to reach Golden Core Stages within a few years, which could be considered a very good achievement.

At least, it was pretty good in Yu Shi Lan's opinion.

She didn't care too much about other people's opinion.

The problem is, not everyone have spiritual roots while many people dreamed of becoming cultivators.

Those people who didn't have any spiritual roots would figure out other ways to become cultivators. One of them was through training their body, which was why they were known as physical body cultivators.

In the continent where she stayed, physical body cultivators were rare.

And Yu Shi Lan herself has a spiritual root, so she didn't think too much about figuring out the cultivation methods of these physical body cultivators. All she knew was that they would have stronger physical strength than ordinary cultivators and that their training was often described as hellish.

Because their cultivation journey was very bumpy.

She herself is a five element spiritual roots.

If it was not because she managed to find a suitable exercise and that the quality of her spiritual roots were good, it was estimated that she would not be able to reach Foundation Establishment in her entire life.

So Yu Shi Lan already felt that she's lucky.

While her progress would definitely not be as fast as other cultivators who have one element spiritual roots and so on, she could still be a cultivators.

Rather than having her talent denied from the very beginning, which was absolutely devastating.

'What do you know about them, Xiao Mao?' Yu Shi Lan secretly communicated with Xiao Mao with her mind.

'Not much... I have only fought with them before I met you,' Xiao Mao replied as her whisker moved. 'Their physical bodies are really strong and their beginning seems to be very difficult. Once they reached Physical Body Refining Rank 10, I heard that they will have a special method to let them advance to Foundation Establishment. Since then, their cultivation will definitely be faster.'

But aside from that, Xiao Mao didn't know much.

Oh wait, there was another matter.

'They usually come from the other continents, Miss. As you know, the secret realm where I was located had two exits. One is the continent where you come from and the other is the outside continent where Qi is scarce.'

'Ah...'

Yu Shi Lan nodded.

The cultivation world is so big and the planet itself was separated by several continents. If ordinary people were to walk in one direction, they will never be able to come back to their starting point even if they were to spend their entire life.

When she entered the cultivation world, she came directly to the continent with rich Qi and there were powerful cultivators around.

Since she's just a weak mortal, no one paid attention to her.

That was how she managed to grow up and become stronger and stronger as time passed. Perhaps, they have noticed that she's a stranger in the end, but no one said anything.

*Chapter 115: Spar (2)*

After all, the cultivation world itself is so big.

Yu Shi Lan longed to explore the large world back then, but she was preoccupied with various methods to get stronger.

Coupled with the fact that many people wanted her dead...

Well, it was already good enough that she managed to become a Golden Core Cultivator in the end.

It's a pity that she failed her advancement.

Swish! Bang!

At this time, Mu Ting Ye and Lin Yuan were still fighting fiercely and Yu Shi Lan watched their movements earnestly.

She could tell that their movements were not random but there were some specific one. The use of forces, the light movements of their feet, and even the way they delivered their punches...

All of them were clearly very good.

Many cultivators were also training their bodies and was adept at fighting in close combat.

Yu Shi Lan naturally trained herself.

So if she was asked to fight against Mu Ting Ye and Lin Yuan, she might be able to hold on for some time.

'But I still can't win overwhelmingly...'

Yu Shi Lan was originally planning on teaching her parents a lesson openly and then ran away from the base. But after seeing Mu Ting Ye and Lin Yuan's skills, she deduced to postpone her revenge a bit.

Because if she were to break the law openly in front of others and then they sent these powerful martial artist...

She was sure that she wouldn't be able to escape successfully.

'The plan couldn't keep up with the changes.'

Yu Shi Lan sighed internally.

Had she known that these martial artist were actually quite powerful, she would have bid her time more before coming out to enact her revenge.

After all, it would be more cost effective to train outside the base.

'Then, let's make a good use of these two people.'

Yu Shi Lan's eyes flickered.

She had no idea why Mu Ting Ye and Lin Yuan tried to befriend her, but it would not change the fact that she just wanted to make a good use of them.

Because Yu Shi Lan knew very well that she didn't have anything that other people should covet.

Oh, the jade space...

It was nothing special honestly.

And ordinary people will never be able to find it.

Bang!

In the end, Lin Yuan was kicked out and couldn't fight anymore.

"I won~." Mu Ting Ye laughed when he saw Lin Yuan sprawled on the ground, unable to fight anymore.

"Tsk." Lin Yuan clicked his tongue and then laughed. "Your skills are getting better and better, Ting Ye."

Even though he learned under the master earlier than Mu Ting Ye, but his skills were quickly surpassed by Mu Ting Ye. As a senior, he felt somewhat bothered, but he was also happy that his friend could become strong.

In this way, his feelings were actually more complicated.

"Of course." Mu Ting Ye smiled and then waved at Yu Shi Lan. "How is it? Do you think the battle is good?"

"Yes." Yu Shi Lan nodded. "But I see that you're better at escaping compared to Lin Yuan. Your movements are faster and it's because you can easily avoid Lin Yuan's attack that you can win."

Mu Ting Ye and Lin Yuan's eyes widened in surprise.

They naturally knew the strength and weakness of each other. After all, they had been fighting against each other for a long period of time. But this was the first time for Yu Shi Lan to see their battle, so they were really surprised.

Yu Shi Lan blinked her eyes.

Did she say something wrong?

"I didn't expect that you could see it. Would you like to have a go?" Mu Ting Ye offered with a smirk.

"...You're a fighting maniac, Ting Ye." Lin Yuan already felt that it was difficult to keep up with Mu Ting Ye's pace. Moreover, this madman kept on challenging people stronger than him to the point that all seniors were unwilling to come to the training ground.

Only after their master scolded Mu Ting Ye did he stop.

Of course, not before giving this cocky brat a beating.

By now, only their master could possibly defeat Mu Ting Ye. The others were unable to do anything against him.

"Are you sure?" Yu Shi Lan was stunned.

"Yes." Mu Ting Ye nodded. "You're strong and I want to see your skills too."

The skills that Yu Shi Lan showed when fighting against the bodyguards some time ago was not enough for Mu Ting Ye to make judgement of her strength. After all, the gap between their strength was there.

Even if Yu Shi Lan is powerful, it was not obvious because her opponents were too weak.

They couldn't really gauge her full strength without an opponent of similar strength.

While Mu Ting Ye couldn't say for sure that he's Yu Shi Lan's opponent, there was no problem in trying it out.

"Well..." Yu Shi Lan rubbed her cheek.

In terms of pure physical strength, she knew that she was definitely still below Mu Ting Ye and Lin Yuan.

But in terms of fighting experience, she was definitely above them.

Because she had fought and killed countless people when she was in the cultivation world. Moreover, if she were to use various spells that she had learned, these two people might not be her opponent either.

Yu Shi Lan had no intention of using the spells, though.

Before she knew whether there were any other cultivators nearby on the Green Planet, she would not recklessly use any Qi in front of others.

"Alright, please take care of me," Yu Shi Lan said with a smile.

"Meow." <remember to be careful, Miss. He's quite strong for the current you.>

Xiao Mao reminded habitually.

Whenever Yu Shi Lan was about to fight, Xiao Mao would help to analyze her opponent's strength. Though, her evaluation was only stronger or weaker than Yu Shi Lan.

'I know, Xiao Mao.'

*Chapter 116: Spar (3)*

"Do you need any weapon?" Lin Yuan asked enthusiastically. "I usually use sword while Ting Ye use spears. But since it's just a spar, we don't usually use weapon to fight."

Besides, this place was too open and neither Lin Yuan and Mu Ting Ye had the interest to showcase their martial arts abilities in front of others.

Yu Shi Lan shook her head. "No need."

If she were to use swords...

It was estimated that neither of these two people would be her opponent.

Speaking of weapon, she didn't have any suitable weapon yet and these two people were both using weapon. Yu Shi Lan glanced at Lin Yuan and started to think about whether she could exchange something for weapon.

She couldn't make her own weapon.

And what she had in her hand right now was nothing more than some knives that definitely couldn't qualify to be swords.

Hmm, she will ask later.

In this way, there were two topics that she wanted to discuss: medicinal bath and weapons.

Tep.

Since it was agreed that they would fight, Mu Ting Ye and Yu Shi Lan stood on the opposing side on the training ground.

The moment they stood in front of each other, they sensed the faint difference of the person in front of them from their usual state.

If Mu Ting Ye was usually a cheerful and naughty brat, he looked imposing and strong. There was a tense aura around him and his handsome face was solemn. His eyes were sharp as he looked in Yu Shi Lan's direction.

And if Yu Shi Lan looked like a weak and unremarkable girl most of the time, right now she seemed to exude the aura of danger. She was still quiet, yet her eyes held a sharp glint that seemed to threaten to slice him apart.

It's really interesting.

Mu Ting Ye's eyes were shining with interest while Yu Shi Lan also had some interest on this young man in front of her.

Lin Yuan, who was outside, was the only one who didn't sense the two people's strange tension. He grinned and then shouted, "Ready? Start!"

Swish!

The two people moved at almost the same time.

Neither side were the types that were willing to wait for others to make an attack. If the situation didn't call for it, they would rather be the one to take the initiative!

Bang!

They punched each other and sensing the power behind the other party, astonishment flashed within their eyes.

Neither Mu Ting Ye or Yu Shi Lan used their full power from the very beginning, but it was at least 70% and they could sense that the other party was of similar strength.

Mu Ting Ye was surprised because he didn't expect that Yu Shi Lan would be this strong.

Yu Shi Lan was surprised because she felt that it shouldn't be this weak.

Or it was because... Mu Ting Ye didn't use any martial arts.

It was nothing more than a simple punch, a test for each other's physical strength, in their short battle.

And afterwards.

Bang! Bang! Bang!

They started to use various martial arts and launched attack after attack. The power soared and Yu Shi Lan smiled. She finally saw that his strength was indeed strong and it was not an exaggeration to say that his strength after using martial arts were almost twice of hers.

The martial arts they learned were really good.

She felt a bit itchy to figure out the reason.

But it was not like she didn't have any other methods.

Swish!

Yu Shi Lan moved agilely, avoiding all of the attacks from Mu Ting Ye while looking for loopholes. When he was attacking fiercely like this, it was almost impossible for her to block.

And if Mu Ting Ye alone was already this strong, then Lin Yuan would only be stronger.

How about other soldiers?

Were there other martial artist like them

Amidst the battle, Yu Shi Lan could still be distracted, but she didn't try to think too much about it and continued her attack without hesitation.

Swish! Swish! Bang!

Launching attack at unexpected time, Mu Ting Ye staggered and then he saw a leg had already approaching him.

Boom!

He was kicked back and his head was dizzy.

Tep.

Yu Shi Lan dashed forward the moment she kicked Mu Ting Ye away and her punch stopped right beside his neck. Her body was ready to move away if necessary, but her threatening gesture was firm and strong.

"You lose," Yu Shi Lan said.

"I can see that." Mu Ting Ye smirked as he motioned for her to move and Yu Shi Lan did as she was told. He rubbed his head that was a bit dizzy from the blow and his eyes shone with great interest.

Because he could tell that Yu Shi Lan's physical strength was definitely not as good as him.

But the battle was like a replica of his battle with Lin Yuan.

"This is outrageous," Lin Yuan said with pained look. "How did you lose in the first place, Ting Ye? You disappoint me!"

"Get lost." Mu Ting Ye rolled his eyes at his non serious friend. Couldn't he see that it was just a spar and not a real life and death battle?

Yu Shi Lan laughed. "It's just luck."

"No, it couldn't be luck." Mu Ting Ye rubbed his chin and then said, "You're really ruthless, Shi Lan. Let's have a real spar in the future."

In the future?

Yu Shi Lan blinked her eyes and then glanced at the building in the distance before nodding her head. "Sure~."

The three people laughed and agreed to fight again in the future.

And in the distance, a middle aged man was watching the battle of the three children on the training ground. They were all still teenagers, full of youthful vibe and was also very energetic.

But each of their strength was far higher than others.

"Ting Yu, did your brother have a junior sister?"

*Chapter 117: Martial Artists*

Mu Ting Yu was standing there, staying with the general in front of him. He naturally saw Mu Ting Ye coming to the base and then he was called.

After all, if there was anyone who knew Mu Ting Ye's strength the best, it would be Mu Ting Yu, his older brother.

Mu Ting Yu felt helpless about it.

His younger brother only knew how to practice martial arts and unwilling to get involved in other matters. In the past, the Mu Family was somewhat dissatisfied with this younger brother who was indeed very playful and unwilling to study seriously.

He just wanted to learn martial arts.

If it was not because the family coerced him, he might not be willing to attend school in the slightest bit.

But after they saw the mutated animals some time ago...

The Mu Family had already started to strictly train every member of their family in martial arts. Because they could tell that if they didn't have strong enough body, they might not be able to survive in the future.

When they jointly agreed to donate to the base building, the Mu Family were willing to donate many materials in order to get the best resources and preferential treatment. Because they knew that the world might change.

So far, these mutated animals were not of a big threat.

Their number was limited and their strength was not that strong. As long as the soldiers were dispatched in time, they could still deal with it.

The overall situation on the Green Planet was not very good.

But they just had to focus on their current area.

Mu Ting Yu had been in the army for a long time and naturally knew what the general meant when he called him over. He wanted to ask if Mu Ting Ye's martial arts methods could be popularized.

After all, if it was for the sake of the continuation of the human race, the soldiers had to think how to support so many people. The soldiers alone might not be enough to protect so many people.

So he wanted to try from this perspective.

How about training in martial arts?

In the past month, Mu Ting Ye and Lin Yuan had already sneaked out and deal with a few mutated animals on their own. The two children didn't want to eat these mutated animals, so they sold it out to others secretly.

Naturally, Mu Ting Yu found out about it and then dealt with the mutated animals.

The research institute was very interested in the mutated animals.

And some other rich families were also interested because they felt that they would be able to get stronger if they were to eat these mutated animals' meat.

It's a mess.

Mu Ting Yu felt headache when thinking about those things and he didn't know how his father planned to deal with it. And the matter of Mu Ting Ye's practice and so on was pushed to the back.

The Mu Family still has martial arts.

There was no need to rely on Mu Ting Ye's master and that brat's connection.

What Mu Ting Ye learned didn't belong to the Mu Family, so Mu Ting Yu refused at that time. The general felt pity and he could only try to ask other families and some other people who might be willing to share their martial arts to others.

So far, the result was not very good.

Many people were unwilling to share their family inheritance and would rather practice on their own.

Because of this, they didn't spread out this matter.

Yu Shi Lan never heard of martial arts training in her previous life precisely because the people who have access were unwilling to spread it out. By the time they were willing to let other people learn, she couldn't participate because of her family's matter.

And in the end, she left the Green Planet to the cultivation world.

Otherwise, she would have realized that the Green Planet was both thriving and suffering because of the people's decision.

Hearing General Wang's question, Mu Ting Yu looked at Yu Shi Lan who was laughing and talking with Mu Ting Ye with a strange look. He recognized that girl because he had bumped into her a few times in the past.

But...

"I haven't heard Mu Ting Ye said anything about it," Mu Ting Yu replied cautiously.

Mu Ting Yu was not close to Mu Ting Ye's master. But he knew that the other party was really powerful, which was why Mu Ting Ye ran over to learn martial arts when he was young and even neglected his other study.

It was to the point that their parents chased that brat all around the complex for a beating.

When he was older, Mu Ting Ye knew how to balance his study and martial arts practice, so the family didn't beat him up as often as they did in the past.

At the same time, Mu Ting Yu didn't usually asked Mu Ting Ye about his master's affairs. If Mu Ting Ye's master really accept Yu Shi Lan as his disciple, then Mu Ting Yu didn't know about it and would need to ask.

"Hmm..." The general nodded and looked at the three people, his eyes narrowed slightly.

He could tell that both Yu Shi Lan and Mu Ting Ye seemed to know that he was watching.

What a terrible perception.

Is this really something achievable through practicing martial arts?

General Wang had some doubts, but he would not be so stupid and ask blatantly to the two people there.

While Lin Yuan was clearly the one with the highest physical strength, his perception and intelligence didn't seem to match Mu Ting Ye and Yu Shi Lan.

When there's time, he should go and test these youngsters.

"Go back."

"Yes, General." Mu Ting Yu turned around and walked out.

He felt that the Mu Family should have a family meeting again. The martial arts that Mu Ting Ye mastered was more powerful than their martial arts...

#### *Chapter 118: Exchange*

None of the three people cared too much about the gazes that were directed at them.

Lin Yuan didn't notice while Yu Shi Lan and Mu Ting Ye knew that even if the other party wanted to do something, they would not do anything openly.

The law was still above everything else on this base.

"Are there many people stronger than you, Ting Ye?" Yu Shi Lan asked.

"Not really..." Mu Ting Ye thought for a moment and then said, "I can only think of my master."

Really?

Yu Shi Lan blinked her eyes but still decided to be cautious and wait until she advanced to Qi Refining Rank 4 before making any drastic move.

"So, can you tell us how you get so strong now, Shi Lan?" Lin Yuan asked.

Hearing that Lin Yuan also started to call her name directly without her surname, Yu Shi Lan felt a bit helpless but she didn't dislike it. It was rare to have friends, especially peers whom she could really treat as equals.

"Medicinal bath... and some practice on my own," Yu Shi Lan quickly added when she saw the contemptuous look on Mu Ting Ye and Lin Yuan's face.

It was obvious that if she only said medicinal bath, neither would believe it.

After all, her use of her strength to fight against Mu Ting Ye just now told them that she should have real practice. Perhaps, she had even fought against those mutated animals out there and the result was her victory.

Of course, they wouldn't ask too much.

"What kind of medicinal bath?" Lin Yuan instinctively asked and when he saw Mu Ting Ye's unfriendly gaze, he quickly corrected his words, "I mean, if you're willing to share the recipe, we can exchange some things."

"Can you help to look for the materials?" Yu Shi Lan asked curiously.

Lin Yuan patted his chest. "Don't worry about this. I have a lot of friends who are willing to run around doing errands as long as they're paid contribution points. Speaking of contribution points, did you trade resources with the base? You can get more contribution points if you sell the mutated animals' corpse with them."

Yu Shi Lan: "... wait, what?"

Thinking about the demonic beasts' corpses that she left behind on her way to the base, Yu Shi Lan suddenly had the urge to go back and pick them up.

She trained herself by fighting against those demonic beasts before coming to the base.

And she only have little contribution points since she didn't plan to exchange them...

'Wait, if you show your abilities openly in front of your family, they wouldn't provoke you and would instead curry favor with you.'

Thinking about the Wang Family coming over to curry favor with her, Yu Shi Lan's face almost twisted in disgust. They were nothing more than some hypocritical b\*stards and she wanted nothing more than killing them.

So let's not be so ostentatious for the time being.

If she had to watch them perform in front of her, she was afraid that she couldn't hold back and ended up vomiting on the spot. It wouldn't be good for her image to vomit in front of other people.

Even if they were people whom she hated.

So after some contemplation, she decided not to take out those demonic beasts' corpses.

Mu Ting Ye was studying Yu Shi Lan's expression and he suddenly said, "If you think it's inconvenient to sell them, you can commission the two of us to help you sell it. In exchange, we'll take 10% of the price."

Lin Yuan's eyes lit up. "That would do. A lot of people want to buy these mutated animals' meat!"

Yu Shi Lan was speechless and she asked slowly, "They're not planning to eat it, right?"

"I don't know."

"Even if they did, it doesn't really matter that much." Mu Ting Ye yawned. "Anyway, we're mostly selling to the research institute who will definitely not eat it."

Research institute...

Yu Shi Lan blinked her eyes and felt that her knowledge was really lacking. There were so many things that Mu Ting Ye and Lin Yuan mentioned but she never heard about it before.

"Anyway, do we have a deal on the mutated animals' body?" Lin Yuan asked, his eyes were sparkling.

Yu Shi Lan could only nod helplessly. "As for the medicinal materials..."

"Same."

"Let's go to the Mu Family. The security there is better," Mu Ting Ye said.

"Ok."

In this way, Yu Shi Lan entered the north area and looked around, her expression was a bit complicated. In her previous life, her foster parents relied on the fact that her father was a martyr to enter this area and when she came here, their reputation was already so bad.

She only lived in the north area for a month or two before they were kicked out because of their bad behavior.

How many people had suffered in their hands, Yu Shi Lan didn't know.

And this time, she would never let them use her father's name to commit more misdeed and possibly let many people suffer again.

She's not that kind to care for these people.

But she didn't want her father's name to be tarnished.

He had sacrificed his life for the country and yet there were people who used up his status for their own benefit.

It was too much.

"The Mu Family is over here. The Lin Family is not far from our residence," Mu Ting Ye introduced.

Yu Shi Lan nodded and looked around.

Everyone here was living in beautiful mansion, clearly showing their status. Everyone who could stay on the north area either had contributed to the country before or they were contributing to the base, allowing them to live here.

It looked like a big and peaceful community.

"How come the earthquake didn't seem to have any effect here?" Yu Shi Lan couldn't help but mutter.

"This place is build after the earthquake," Mu Ting Ye said.

*Chapter 119: ... Is not Suitable for Her*

After?

Yu Shi Lan was stunned and she looked at Mu Ting Ye in disbelief.

Is it possible?

How could they build such a big community in such a short period of time?

It was only two months after the earthquake happened and not two years, right?

Seeing the doubts on Yu Shi Lan's face, Lin Yuan laughed. "Don't underestimate the construction workers in this country. There are even underground transportation that was still working. If it's not still being cleaned by now, the communication between bases would have been much easier."

Underground transportation?

It was only after Lin Yuan mentioned it did Yu Shi Lan remember about the underground teleportation.

At the same time, she remembered the tragedy of the construction team in her previous life.

Many insects were living underground.

And after mutation, some demonic beasts also created their nest underground.

During one of the works, the construction workers stumbled upon their nest and brought out an entire army of demonic beasts out. The soldiers had to work hard to suppress these demonic beasts for a long time before things calmed down.

Yu Shi Lan frowned for a moment and then said, "Perhaps you have to be careful when you're digging underground. Many insects are living underground, right? What if the mutated ones build a nest underground?"

She asked in rather nonchalant tone.

After all, she couldn't possibly say that they will definitely encounter it or she will be invited to drink tea.

Considering that there were martial artists here, Yu Shi Lan didn't want to be so ostentatious.

It's enough to give some warning like this.

"You're right." Mu Ting Ye's expression turned solemn when he heard Yu Shi Lan's words. "I'll tell my brother to be more careful."

"Is your brother in charge of the construction?"

"Not really, but he had assigned people in this area," Mu Ting Ye replied.

The one in charge of the construction was definitely not his older brother, but Mu Ting Yu did have some connection with it. After all, the Mu Family did have some people in this area and they asked Mu Ting Yu for help in terms of the security and the likes.

"I see." Yu Shi Lan nodded.

After that she didn't ask more about the Mu Family. Even though the two people didn't think that there was anything wrong with it, she didn't think that it would be appropriate.

They made their way to the Mu Family and Mu Ting Ye's mother was in the living room.

She frowned when she saw her third son coming in.

"Mu Ting Ye, what are you doing this time?" Mu Ting Ye's mother asked sternly.

Hearing his mother's question, Mu Ting Ye pursed his lips and he stopped his footsteps. "I'm not making trouble this time, Mother."

Lin Yuan looked away and pretended that he didn't see anything. Whenever they came to the Mu Family before it was time, Mu Ting Ye's mother will definitely ask her son whether he had made some trouble.

After all, Mu Ting Ye's reputation was indeed a bit...

Hard to describe.

Yu Shi Lan blinked her eyes and sincerely wonder what Mu Ting Ye had done to make his mother even had such distrust in him.

"Are you sure?" Mu Ting Ye's mother asked as she stood up and looked at the other two children who came with her son. She swept her gaze once before focusing on her son. "Did you try to start another business?"

The last time Mu Ting Ye was with Lin Yuan, she knew that he was trying to do some business.

But the current situation had changed.

And starting a business would be dangerous.

The Mu Family might not be able to protect Mu Ting Ye this time if he were not careful enough.

"Don't worry, Mother, I don't have that plan." Mu Ting Ye shook his head.

Mu Ting Ye's mother stared at her son for a long time.

The two people watched on the side as the mother and son confronted each other in silence. Lin Yuan was already used to this and almost every single time he came here, Mu Ting Ye's mother will stop them.

Because Mu Ting Ye had just caused trouble and she didn't him to create more.

On the other hand, Yu Shi Lan was looking at these two people curiously as she couldn't understand why Mu Ting Ye's mother was so worried.

Then again, it might be a mother's worry.

'Xiao Mao, in a way, I'm actually a bit jealous.' Yu Shi Lan talked to Xiao Mao with her spiritual power.

Xiao Mao, who was licking her legs, paused in her movements. She blinked her eyes and then said, 'But Miss, you still have me and you don't have to think too much about it.'

Yu Shi Lan no longer has any parents.

Her foster parents were nothing more than scumbags who were not worthy of affection and attention. Just calling them father and mother alone could make Yu Shi Lan felt sick.

They were not worthy of being her foster parents.

Otherwise, Yu Shi Lan would not decisively chose to separate the household residence when she came back to the Green Planet.

Her past life had already told her what kind of person they were.

'Yes, I have Xiao Mao.' Yu Shi Lan rubbed the cat's head tenderly and chose not to think too much. After all, it was obvious that Xiao Mao had done the best to send her to this period of time.

As for the time when her father passed away...

It was too far away.

Xiao Mao will definitely die in the process.

And Yu Shi Lan couldn't really imagine what she would do when she was so young and in such a world of law and order.

So this timeline was indeed the best for her to survive.

She's no longer the same child as she used to be.

And living in a peaceful world... is not suitable for her.

## *Chapter 120: Mu Family*

While Yu Shi Lan's mind was wandering around, Mu Ting Ye's mother was looking at her third son carefully. Seeing his stubborn look, she could only sigh and felt that this child was really like his father.

Very stubborn.

Once he had decided on something, it was obvious that Mu Ting Ye will definitely follow through until the end. And even if it ended up disastrously and causing trouble, Mu Ting Ye would not give up so easily.

"Fine." Mu Ting Ye's mother sighed. "Don't put yourself in danger, Ting Ye."

Knowing her son's temperament, Mu Ting Ye's mother felt that it would be impossible for Mu Ting Ye not to get in trouble.

But at the very least, she hoped that Mu Ting Ye could make sure not to confront danger blindly. Hearing Mu Ting Ye's mother's words, Yu Shi Lan couldn't help but think of the time when Mu Ting Ye suddenly charged forward to fight the demonic mantis.

Yu Shi Lan: "..."

This Mu Ting Ye was indeed a reckless person.

But he was also quite strong.

Despite not having any crucial information about that demonic mantis, Mu Ting Ye could still protect himself and fought against it squarely. And through her discussion with Mu Ting Ye and Lin Yuan, she knew that the two of them had fought against a few more demonic beasts.

The result was also in their victory.

This meant that the two of them were actually strong enough to deal with these demonic beasts on their own.

As for the temperature problem...

What problem?

Martial artist and cultivators didn't have any problem with the volatile temperature outside.

"I will take care of myself, Mother," Mu Ting Ye replied tactfully. He couldn't promise that he would not get in danger at all because Mu Ting Ye knew very well how tempting it is to explore the dangerous world for him.

Even though his parents often told him that it was dangerous and even his Master advised him... Mu Ting Ye would still come forward and train hard. It was to the point that many people thought that he was a waste.

After all, in a society that cared for money the most, Mu Ting Ye's action was indeed hard to understand.

"You go." Mu Ting Ye's mother sighed and waved her hand.

Yu Shi Lan could see a hint of tiredness on Mu Ting Ye's mother eyebrows.

It seemed that she had given up on educating her child.

"Let's go." Mu Ting Ye nodded at his mother and then brought Lin Yuan and Mu Ting Ye to his room. His room was spacious and it seemed that there were not many things there.

But Yu Shi Lan's attention was directly attracted to the spears that he hung on the wall.

The weapon looked ordinary, but she felt a faint attraction. It was as if this was not an ordinary weapon but spiritual weapon in the cultivation world

How hard is it to get spiritual weapon?

Very hard.

It took Yu Shi Lan a long time to be able to get spiritual weapon because even if a weapon was of high rank, it might not necessarily awaken their spirit, which was why it was named spiritual weapon.

But this weapon in front of her... she had the faint feeling that it will give birth to spirit in the future.

It was a strange feeling.

"Meow?" <This weapon is cherished greatly by the owner and will give birth to spirit within a few years. If Qi is infused by the owner, it can even be accelerated.>

Xiao Mao peeked out of Yu Shi Lan's pocket and looked at the weapon in front of her with strange expression. At this moment, Xiao Mao felt that the Green Planet where Yu Shi Lan came from was actually a strange world.

There was no Qi before and technically speaking, cultivators shouldn't have existed.

Otherwise, how could no one know about it?

But after coming to this world, he kept on seeing the trace of cultivators... even though they were only physical body cultivators, they were still cultivators.

"Well, my room is not that good, but no one will come here without my permission," Mu Ting Ye said nonchalantly. He didn't care too much that there were almost no decoration whatsoever inside his room.

After all, Mu Ting Ye knew very well that those decorations were all useless things.

It would be better to focus on the essential.

Lin Yuan had been in Mu Ting Ye's room before, so he didn't feel anything.

Only Yu Shi Lan was here for the first time. Seeing that the girl was staring at Mu Ting Ye's weapon, the two men suddenly smiled.

"Do you like it?" Mu Ting Ye suddenly asked.

Yu Shi Lan answered almost subconsciously, "You must have taken great care of your weapon."

After speaking, Yu Shi Lan was stunned and looked at the two young men who were grinning with each other. She rolled her eyes and felt that these two people were really bad.

Tricking her like that.

"Is there anything special with the weapons?"

Mu Ting Ye didn't bother to restrain his smile as he replied, "My Master said that it's a weapon that had been inherited in his sect for a long time. It's very suitable for me, so he gave it to me."

Inherited and sect?

Yu Shi Lan was stunned when she heard those phrases and started to feel that the Green Planet in her memory was getting stranger and stranger.

'Xiao Mao, it's really rebirth and you didn't send me to some kind of strange world, right?'

Even though what happened so far seemed to be quite consistent with her memory... with some timeline differences, but Yu Shi Lan felt that there were many things that were different from the Green Planet that she knew.

'Of course it's going back to the past! I can't possibly send you to a parallel world!' Xiao Mao complained in Yu Shi Lan's mind.
