

Last Days 161

Chapter 161 Melly's Condition

Not that Riya cared that much.

After all, the white tiger better have a lot of magic elements. No matter what element he has, Riya had the confidence to teach the white tiger.

As for Melly...

Riya chose to use the non elemental magic core so that the magic element that Melly took would be the one most suitable for her body. In this way, Melly would be able to grow to be much more powerful.

"Can I take a look?" Riya asked.

She was not a vet, but she had seen beast masters in that world. Of course, she herself was not a beast master.

However, a beast master required a contract between the master and the magic beasts. This contract was actually a form of formation or runes, which many rune masters knew and had studied a bit.

But rune master didn't like forming magic beast's contract.

Because they would have to take care of the beasts and their own ranks would be affected by the magic beast's development.

How could they be willing?

They were already quite powerful themselves and there was no need to drag them down because of a magic beast.

"Of course." Sophia nodded with a smile and brought Riya to her room.

A big black and white dog was lying on Sophia's bed. Melly was a big shepherd dog, Riya was not sure the specific type, though. And from the rhythmic breath, it was clear that Melly was only sleeping.

Riya looked at Melly for a moment and then slowly formed runes with her hand when she was close to Melly.

'Inspection.'

Inspection was the rune master's magic that replaced appraisal magic in close range. It could inspect a person's condition, animals' condition, and even various other information of an item.

Appraisal magic was a high ranked magic that only some people knew. Because this was the type of magic that probe into a person's secret. Many people would consciously avoid people who knew appraisal magic to avoid having their entire secret found out.

After all, depending on how their appraisal skills were, the other party could even find out their entire magic spells' list and ranks.

At that time, how could they keep any hole card?

Everything was known to the enemy!

Fortunately, learning appraisal spell had a high requirement and not many people could learn it in their entire life. After all, this was a spell that pried into the secret of others and if they were not careful enough, they would be backlashed.

The inspection magic was a branch from appraisal magic.

It was easier to learn but it also had more requirement such as having to have physical contact with the object they wanted to inspect.

'Hmm...fusing process is 94%.'

Seeing that the fusion process was almost over, Riya knew that Melly would become a magic beast soon. At that time, Sophia would have someone to protect her.... Well, a dog.

Melly's condition was also relatively stable but she would need to have a lot of nutrition.

"Melly is fine," Riya said and then looked at Sophia. "But you might want to prepare a lot of food. She should wake up in around 2 to three hours."

"That's great." Sophia was relieved when she heard that Melly was fine. She has been worried because Melly was sleeping for a long time and couldn't wake up at all.

"Also, do you want to become a beast master?" Riya suddenly asked.

"Beast master?"

"Yes." Riya nodded and thought for a moment. "A beast master didn't need to practice on their own because their strength depends on their magic beasts. Through a contract, the magic beasts' cultivation will be shared to you, which will allow you to become stronger."

A contract...

Sophia was somewhat at loss when she heard Riya's words.

Her own meditation training hasn't been going well. After all, Sophia was not a person who could sit down and meditate for a long time without doing anything. In this way, she was actually quite similar to Amelia.

The two of them couldn't stay quiet and had to find something for them to do.

Because of this, her family was a bit worried that Sophia would be weaker than the others.

As for physical training?

Don't hope for it.

Sophia could barely do anything after exercising for a period of time. And this was still under the condition where she didn't push herself too hard and let herself take a break from time to time.

With her own practice method, it would take a long time for her to grow up.

But if Sophia were to form a contract with Melly...

Sophia looked at Melly who was still sleeping and then asked, "How do you know... well, how do you know how to form the contract?"

"I can say that it's a type of formation and runes," Riya said helplessly. Making this formation was definitely not her main occupation and Riya had no intention of using this for herself. But she could also teach others so that they could make it.

"This..." Sophia hesitated.

As much as she wanted to become stronger, she didn't want to drag Melly back. She loves her dog and wished that Melly could protect herself well.

"Of course, you don't have to answer now." Riya took out a paper and handed it to Sophia. "I know you have a little bit of mana. As long as you want to form a contract with Melly, you only need to infuse mana into this formation and put it on Melly's forehead. The two of you will be able to communicate and if the two of you agreed, you can form a contract with each other."

The contract that Riya handed to Sophia was the equal contract between the beast master and the magic beasts.

There was also the slave and unequal contract, but she didn't take them out.

Considering how much Sophia loves animal, she would never be able to accept that unequal contract.
