

Last Days 170

Chapter 170 Murin, the Beastmaster

Murin?

Riya, who was listening to their conversation from the distance, had her eyes narrowed too. During her four years in that world, Riya didn't stay under the rock and naturally knew some things that happened in the outside world.

One of them was the fact that many geniuses rose on her second to third year in various fields. These people were all still in their twenties but each and every single one of them showed amazing strength.

Be it in terms of combat or in other matters, there were a group of people who started to make their name.

Among them, Samuel and Peter were quite famous.

One was a magic warrior specialized in swords and known for his great offense power. The other one was a pure body warrior who had strong defense and strong physical body. It could be said that the two of them sparred and Peter lost in the end because he was injured too badly but his offense was nothing in front of Samuel.

Riya knew a few more names and one of them was naturally this Murin. She never thought that Murin also came from the Green Planet. Moreover, he joined the Magic Association.

With their strength, they could actually climb up on their own without the need to rely on these associations or other nations. After all, their wealth of knowledge they had obtained from that world was more than enough for them to rise quickly.

Of course, obtaining help meant that they would be able to rise faster.

But at the same time, they were somewhat restrained in their actions. Because no matter what they do, they would have to pay attention to the impact it would have on the organization behind them.

The Magic Association was really brave.

It might have been stimulated by the Martial Arts Association, though.

After all, Peter was in the Martial Arts Association.

'Wait, if Murin is here.' Riya's face turned cold and then she silently took out a jade from her hand.

Murin's own physical strength was worse than rank 1 magic warrior, but it didn't matter too much for him.

Because his profession is beast master.

Swish! Bang!

The two people immediately attacked each other and the few people nearby quickly retreated. The few people from Magic Association seemed to have expected this to happen. After all, they knew Murin's temperament well.

"Tsk." Samuel looked at the magic beast that appeared in front of Murin and knew that this was the other party's defensive magic beast. "You're still as careful as ever."

"If I'm not careful, I'll end up being killed by you again." Murin sneered. From the hatred in his eyes, it was clear that he had big grudge with Samuel.

Riya: "... " so that was what happened.

When she was in that world, she had heard about Murin's fall and the conspiracy of the forces behind Murin. Unfortunately, she was not able to participate in that mess and could only watch the aftermath.

Of course, she killed several people who were left from that force to vent her anger.

Those people actually wanted to destroy the world.

Outrageous!

Even though Riya was only in that world for a few years, she still hated these people who dared to do anything and made a lot of trouble.

"Indeed." Samuel narrowed his eyes. Now that Murin was in the Magic Association, was his goal remained the same?

"Do you still want to destroy the world?"

"Nah." Murin rolled his eyes. "I better seek ways to make my beasts' stronger."

He patted the large magic beast in front of him. The magic beast had bear like appearance and there was a thick earth shield in front of him, perfectly blocking the attack from Samuel.

But Murin could sense that the magic beast had consumed a lot of mana.

'As expected of the genius with the highest offense.'

They all had only returned to this world in a short period of time, but Samuel's strength was already so high. Did he eat stimulants?

Murin complained in his heart, completely forgetting that stimulant couldn't help them much.

"So you're aiming at those magic beasts." Samuel had a look of realization in his face. No wonder Murin dared to come here.

"Those people from the Magic Association asks me to come here because they hope that I can deal with the magic beasts here." Murin raised his head and looked at Samuel. "Since there are fewer magic beasts here, doesn't it mean that there might be those who were more powerful here?"

Samuel narrowed his eyes. "The Magic Association investigated other areas?"

"The number of rank 1 magic beasts in this place is higher than other places. It seems that something in this place had accelerated their development," Murin said slowly.

'Yeah, that special formation and special magic core.'

Riya listened to Murin's words and could guess that the main reason why these magic beasts were stronger was because of the formation not far from here. The main location of one of the pillars was right under City A and the other was just outside City A.

The last one?

She was not sure but it was nearby.

In that situation, it would be strange if these magic beasts were not stronger than magic beasts in other areas.

But thanks to Riya's presence, these magic beasts were mostly eliminated before they could make trouble on the surface.

'It seems I have to pay a visit to the second cluster as soon as possible.' Riya looked at the few people from the Magic Association and felt that they were not bad. Without their reminder, she would not have thought about this so quickly.

"I see." Samuel nodded.

He had guessed some things and Murin's words only made him understood that he was right.

"You're still as arrogant as ever." Murin sneered. "Neither my family or your family will be enough to face the changes of the entire world. Join me, Samuel or you'll be likely to be left behind."
