

Last Days 180

Chapter 180 Business District Base

roar *roar*

Riya looked at the so called Business District Base and her expression turned strange. This was the first time she came here, but she had the feeling that this base was really bad.

There was a wall built to block these magic beasts but that wall was basically a pile of ruins that was placed haphazardly. There were holes here and there where these people were basically rushing to kill these magic beasts that came inside.

It was chaotic.

There were many magic beasts on the outside wall and the sound of gunshots never stopped.

Who in their right mind would want to live in such a place?

Riya shook her head and then looked at these magic beasts. Well, these were only unranked magic beasts, so she patted the white tiger and beckoned for it to start moving.

"As many magic beasts you made, I'll specifically compress their magic blood essence."

Compressing the blood essence was actually the move of a demonic magician. Because they used the blood of other people but drinking those didn't seem to be good. So they learned how to compress the blood to make it into the very essence.

Riya didn't know their magic spell.

But she knew the formation to make it.

Of course, she would not use it for herself because the mana that was forcefully extracted like this would still contain some trace from where it came from.

Unless she wanted to die from mind pollution... or whatever the name was, Riya would not choose this way.

The demonic magician has a way to limit the pollution from these blood essence but they would still be affected to a certain degree. This made those demonic magician's temper to be really bad.

There might be other traits that Riya didn't know too.

After all, her contact with demonic magician was limited and Riya had no interest to test it out by herself.

It would be better for her not to come into contact with them at all.

Roar

The white tiger didn't know what Riya meant, but it still dutifully killed these magic beasts around him.

Seeing this scene, Riya nodded in satisfaction. She felt that she should prepare a space storage scroll for the white tiger so that it could bring these bodies. But that could be done next time.

For now...

Riya looked at the batch of magic beasts around her and started killing mode.

Swish! Slash! Slash!

...

Business District Base

The people from Business District Base felt tortured in the past few days. There were more and more magic beasts outside and these magic beasts refused to leave. Instead, they came to their broken wall and tried to get inside.

Can these magic beasts sense their presence?

No one knew.

And no one dared to come out in fear that they would be killed.

There were still soldiers who stood on the frontline, killing these magic beasts as much as possible. But as time passed, there were fewer and fewer soldiers because many of them were injured when fighting against these magic beasts.

Some people were sent out this morning to ask for help in the surrounding areas.

There was the official City A Base nearby and another base on the other location. If there were people coming from these two bases, they might be saved.

But even after so much time had passed, no shadow of army coming to save them could be seen.

This made the people inside felt despair.

"The Mile Family was making a move secretly."

In one of the rooms, Mr. Taylor was reading the message that was sent to him and his eyes turned cold. Mile Family was one of the few families in power in this base.

The earthquake had only happened for a short period of time, but many bases have been built. It was clear that some people were actually prepared for this kind of thing.

Who would prepare for the 'end of the world'?

Definitely those who had been informed in advance.

As for how they knew, it was not something that Mr. Taylor could possibly touch in his life. He didn't have the qualification and if it was not because he exchanged a lot of resources when he came to this base, he would not have a more comfortable position for him and his family.

But these magic beasts' arrival disrupted their plans.

The walls were still in the state of disrepair and there were many holes here and there. These magic beasts didn't seem to know the word 'giving up' as they continued to rush forward no matter how many other magic beasts had died before them.

Or they might be too stupid to realize that coming here would also mean their death.

Or they knew that if they continued to do this, those behind them might have a chance to win.

Either way, there were a lot of problems.

"Father, Sister is asking for medicine," Cero walked inside and saw his father's face was bad. He frowned. "Is there any other problem in the hospital?"

Business District Base also encompassed a hospital building, so the equipment there was complete. Thanks to this, Ciera's treatment could continue and she has been living quite well these days.

Even though it was not the best, but it was far better than before.

She just had to go to the hospital routinely and drank medicine from time to time. One could say that her current situation was indeed not very good.

But it was stable.

"No, it's not your sister's problem." Mr. Taylor frowned. If it was not because Ciera had to go to the hospital from time to time, Mr Taylor would not want to stay in this base at all.

It seemed that he had to quickly find the perfect donor for Ciera.

Now that the situation was already like this, there would be many people willing to donate their kidney as long as they could be given some food to live.
