

Last Days 184

Chapter 184 Tense Relationship

The two of them continued their journey in this strange silence.

Samuel no longer tried to talk to Riya and Riya herself ignored the tail behind her. In the middle of the night, the two of them traveled and Riya stopped hunting those magic beasts around her.

Anyway, those magic beasts were also resting.

There were only some magic beasts who were still roaming around.

Just like humans, magic beasts also needed sleep and there were time when they were resting. And there were some magic beasts who were more active at night.

After all, these magic beasts were not all the same.

Some looked like wolves, some looked like a strange giant worm, some others have other kind of looks. For the time being, they were all called as magic beasts but when the classification was made, each of them would have their respective names.

Afterwards, they had to record the habit of each of these magic beasts.

From their food, habitat, active time, and so on.

The habitat thing might be a bit difficult since they were basically roaming around in this ruined place.

But it could be done later.

And when Riya saw the magic beasts around the area, most of them were the type that were active during the days. This meant that the number of magic beasts at night would decrease sharply.

At least, they would not hunt actively like before.

Tep.

Riya stopped in front of the crack. The formation was broken and there were faint blood marks there.

"I'm going down, so you should go back." Riya jumped down and patted the white tiger back.

roar

The white tiger naturally agreed. It knew that these magic beasts came from down there, but it didn't have any intention to go down and get involved in the fight or so on.

Swish!

After the white tiger was back to her space, Riya jumped down the crack without hesitation.

Samuel, who saw this scene, was stunned and quickly put down his motorcycle and rushed forward.
"Riya?"

He stood on the edge of the crack and couldn't see even the shadow of Riya at all from this position. Samuel guessed that Riya might have been deep inside.

After hesitating for a moment, Samuel also jumped down.

...

Business District Base

Bang! Bang! Bang!

Even though Riya knew that these magic beasts were not very active at night time, there were still some of them that were attracted to this place. In night time, the number might not be as many as day time but with their limited vision, it was hard to deal with these magic beasts.

Moreover, these magic beasts didn't seem to be afraid of death.

They just charged forward and ignored the other magic beasts that blocked their way.

Bang! Bang! Bang!

Yesterday, they had struggled a lot and lost many people.

Just as many people despaired, they realized that the number of magic beasts had decreased sharply. Even compared to yesterday, the decrease was more than 50%.

This meant that they were successful.

When they thought about this, these people looked like they have been injected with chicken blood and continued to shoot with renewed vigor.

They wanted to kill as many magic beasts as possible.

Bang! Bang! Bang!

"How's the situation?" After meeting with Mr. Taylor, Harry Mile went back to work. He had to say that Mr. Taylor was a smart man who knew how to do things and Harry Mile was satisfied with the agreement that he made with the other party.

The other party's daughter was also young and pretty.

But it was too soon to make any move.

Besides, he didn't lack woman at all.

For now, the most important thing was to deal with these magic beasts. Harry Mile was one of the leaders in Business District Base and there were many people under him. There were also other people in this base who could be considered the leader and every single one of them had their own forces.

They all agreed to collaborate to a certain degree.

After all, it was hard for them to dominate this entire place on their own. And it was not the time for them to make unnecessary enemies.

"Report! The magic beasts' number have decreased."

"Their number has decreased?" Harry smiled brightly when he heard that. He thought about his younger brother who went to seek for help and felt that his move was really unnecessary.

Since the number of magic beasts had decreased, it meant that they would be able to deal with it by themselves.

"Yes, Sir!"

Harry nodded and then asked, "Any special magic beasts?"

The ranking of these magic beasts had been spread out by the officials. This allowed many people to know that there were some magic beasts that were stronger than the others and that the strength of these magic beasts could increase in time.

This made them feel the crisis and also allowed them to temporarily curb up their desire for complete power.

Because for many people, they would have to pay a lot if they wanted to get it.

These people also included Harry.

He could see that there were many people who wanted to get the position of the leader in the Business District's Base, but he would never allow them to succeed.

Thankfully, none of them dared to make big move.

So it was still relatively peaceful here.

"No..." The soldiers were nervous when they thought about this.

So far, the magic beasts that they dealt with were only unranked magic beasts. The fact that they were unranked magic beasts came from the fact that they could be dealt easily with guns and other similar weapons.

It was known that rank 1 magic beast had higher defense, faster, and had more power.

But the power of these magic beasts they faced so far didn't seem to see much increase.

Harry frowned. "Check their corpses one by one. If there's any magic core, then it's a rank 1 magic beast."
