

## **Last Days 531**

### Chapter 531: One Formation is Destroyed

For this matter, Riya also felt helpless.

If she wanted to set up higher ranked formation, more resources would be needed.

A formation could not exist just like that.

It needed the foundation and resources to keep its existence.

“Making formation cost a lot of resources and my own training also consumed a lot of resources... you know, Mo, I think that this path is only suitable for a rich second generation,” Riya complained.

If it was not because she had supreme talent as rune master, Riya was sure that she would have chosen to become a magician in that world. After knowing her talent, even if it was really difficult, she studied wholeheartedly.

Swish!

Bang!

Riya raised her head and frowned when she saw the magic beast in front of her. “Mana eater?”

Mana eater is a special type of magic beast. This magic beast grew stronger through devouring other magic beasts. Even when they were born, they would consume their own siblings, truly showing the meaning of survival of the fittest.

Through the bitter competition with their siblings, there would only be one mana eater that survived and reached rank 2. Afterwards, the mana eater would find other magic beasts and swallowed them, digesting every part of their bodies to turn it into mana essence, thus strengthening the mana eater.

The process after reaching rank 2 was extremely slow.

Because mana eater's body was a bit special and it took a lot of effort to digest other magic beasts and even humans. Only when consuming other mana eater would it be possible for them to grow stronger quickly.

And because of this method, the number of mana eater is very limited.

Basically, there were only very few mana eater that could survive.

The problem is...

Their reproduction rate is too fast. It only need a week for the mana eater's mother to produce thousands of mana eater egg. Even though there would only be one mana eater that survived in the end, but considering there were a lot of mana eaters mother... their number simply multiplied quickly.

They could be considered to be one of the most troublesome magic beast among the lower ranked magic beasts.

Moreover, mana eater has one special features...

Their bodies were ethereal and could be said to consist only of mana.

In this way, the only way to defeat the mana eater is through using magic!

For warrior, this mana eater is simply their big nemesis. Because once they met mana eater, they could only escape if they didn't want to die!

Swish!

The mana eater was blue in color.

To be honest, it looked more like a ghost than anything. Because it was basically floating in front of Riya and Mo.

\*roar?\*

Mo felt danger from the mana eater in front of him and his fur stood up warily.

Riya didn't answer and only looked at the mana eater in front of her up and down as if she wanted to appreciate it slowly but surely.

"Only rank 4... it seems not too strong," Riya murmured.

But even if this mana eater was only rank 4 right now, in a few weeks, it would definitely reach rank 5 or even rank 6 because there were many magic beasts that could be eaten by the mana eater.

Riya's eyes narrowed and her finger moved.

Swish! Bang!

The mana eater sensed danger and rushed out but in the next moment, an elemental arrow blasted through its body and then the mana eater fell down with a plop.

The body was slowly fading away.

"Roar?"

Mo looked at the mana eater incredulously. This was the first time he saw something like this.

Riya looked at the scene without surprise. The mana eater was often called as ghosts by people who didn't know magic precisely because of this. When the mana eater died, its body would dissipate.

The mana contained within the mana eater's body would be the nourishment for the areas around it.

She was sure that the mana concentration in this place should be 10 times from outside.

And this would last for a few days before the mana blended again.

"Mana eater is often used as nourishment. By catching them and then killing in designated place, that place would be filled with pure mana."

Riya sighed.

She waved her hand and the disappearing mana eater was put into her world.

Since this was a good nourishment, she would naturally use it in her world. But she didn't want to put the mana eater that hadn't died yet into her world.

Because her world contained a lot of mana and if the mana eater decided to suck a lot of mana from there...

She'll be the one who suffered loss.

Inside her world, the mana eater disappeared in one second, turning into pure stream of mana.

Riya could feel her world rejoicing from the influx of mana. Even though the amount of mana from a rank 4 mana eater was not much, but it was really pure and very suitable for world's development.

She looked around, trying to find a few more mana eaters.

If she could kill a few more and put them when they were about to disappear into her world, her world could advance faster. At that time, she would be able to create a few more mana stones for her needs.

This is a good thing for Riya.

\*rumble\*

Riya's expression changed as she looked at the distance. The rank 5 formation had no problem stopping a rank 6 magic beast. This was mostly because magic beasts were not too smart and could be dealt with through the various function of the formation.

But just now....

"Rank 7 magic beast?"

Riya took out a rank 5 magic beast's core from her world and then moved towards the teleportation formation that she drew not far from the killing formation that covered the cracks.

For the sake of convenience, she naturally put a few teleportation formation.

And...

"One formation is destroyed."

Chapter 532: Rank 7 Magic Beast

Riya's expression was ugly.

A teleportation formation was special formation that could connect two teleportation formations through space. And at the same time, it was not impossible to check the situation of other connected formations.

There were 13 formations in total and Riya could sense that one of them had been destroyed.

There were many methods to destroy the teleportation formation.

But at this moment, there's only one method.

"The entire ground should be destroyed..." Riya used the magic beast's core after pulling Mo to her world and teleported to the nearest formation to the destroyed formation. If she was not wrong, the one that got destroyed was the formation closest to City J Base.

Swish!

Appearing not far from the killing formation, Riya looked at the distance and saw a big magic beast coming towards City J Base.

Riya frowned but didn't go directly.

"Why are these magic beasts seems as if they're being guided to City J Base?"

There was not only one big magic beast, but Riya felt that she saw several mana eaters rushing over in the distance. These mana eaters were too fast and considering their current distance, Riya doubted that she would be able to catch up in time.

Instead, it would be better for her to stabilize the crack and kill other rank 7 magic beasts before they came out.

But after this was over, she had to ask some question to Dina or Ruth.

Or perhaps other people but she felt that these two people were the biggest suspect. They should have done something that angered these magic beasts and attracted a huge magic beast's tide.

'It's really troublesome.'

...

City J Base

\*Rumble\*

The sudden earthquake startled many people. Some soldiers even fell down and unable to continue shooting. Thankfully, the magic beasts were also disturbed by the sudden shaking and couldn't attack properly either.

But this sudden changes caught many of them off guard.

"What happened?"

"Earthquake?"

The soldiers and the other people were confused by the sudden shaking of the ground. The magic beasts were also stopping for a moment but then they started to attack once more as if this matter would never affect them in the slightest bit.

But the magic beasts in the distance were truly frozen in fear.

"Is this an earthquake?" Stephen stopped his gun and frowned. The magic beasts around them were already killed by his shoot the moment the earthquake happened.

It could be said that his reaction speed was really fast and when there was a chance in front of him, he simply took it without hesitation. Though, his aim was a bit off at the end.

But a few shoots will do it.

These magic beasts were not going to survive for long under his rapid killing.

“No.” Samuel was looking at the distance and his expressions was solemn. He knew very well that this strong sense of suppression and sense of danger that he felt could only come from one source.

Rank 7 magic beast.

Even though Samuel had already fought against a rank 7 magic beast in that crack, he was basically cooperating with Riya. Moreover, the two of them had studied the lich’s movement and knew it’s weakness very well.

With Riya’s light element, coupled with his strong lightning element’s attack, the lich was not their opponent.

But this rank 7 magic beast...

Samuel could sense a faint sense of danger.

He didn’t know what magic beast is coming, but he knew that they had to fight with their all if they didn’t want to die.

It might be the most dangerous battle they have to face.

“...is it from the crack?” Ruben asked nervously. He felt that if they had to fight a bitter battle with the magic beast.

“Yes. You don’t have to worry about it.” Samuel took a deep breath. “If they come, I’ll deal with them.”

“Yes!”

Ruben focused his attention on the magic beasts in front him, not paying attention to this matter anymore. He took out a few more talisman that he had drawn in the past few days and threw it towards the group of magic beasts in the distance.

Bang! Bang! Bang!

Series of magic spells emerged and hit these magic beasts.

Samuel didn’t pay attention to them and instead looked at the distance. ‘You three should have realized it too, aren’t you?’

At this moment, Dina had stopped casting more magic spell and simply drank a few more bottles of blood essence. She knew very well that if there was a rank 7 magic beast coming, she would not be able to defeat it with her current strength.

‘None of us had reached rank 7... why now?’

Ruth was silent as well, standing quietly to recover her mana.

She had no way to recover her mana quickly because Continent Z didn’t have any alchemist.

On the other hand, Peter took out a few more roasted magic beast’s meat from his space storage and started eating. He didn’t care that the environment didn’t seem to be suitable for eating because he only knew that he needed to be full of energy.

The difference between rank 6 and rank 7 was really big.

If not for some special circumstance, most rank 6 would never be able to defeat a rank 7 in their entire life.

\*roar\*

The magic beasts started roaring.

From various areas, they could see the sudden gap between the magic beasts as it approached their direction.

From the sudden disappearance of these magic beasts, almost everyone's expressions changed.

"It's mana eater."

Peter took a deep breath and wanted to curse out loud. From all types of magic beasts in the entire world, why did it have to be the one that basically didn't have any 'entity' and couldn't be touched by people without mana?

If these mana eaters were to head in his direction, he would have no other option but to run away.

Because he really couldn't fight!

If he wanted to live, he had to escape!

By the way, the codes for you:

as usual, the first 10 people to redeem it can get 10 FP

Chapter 533: Mana Eater

“Brother, is it really that bad?” Sean retreated to recover his mana. He was basically panting by this time because he was exhausted.

“Yes. There are a few mana eaters coming and based on their speed... they should be at rank 6.” Samuel frowned.

If these mana eaters were to digest the magic beasts quickly, they could even surpass rank 6 and reached rank 7...

At that time, even Samuel had no confidence to defeat these magic beasts.

Because when the mana eaters reached rank 7, it would have a transformation of strength and this was not a good thing for them. No rank 6 magic warriors would be able to defeat a rank 7 mana eater.

“You should focus on your battle.”

Samuel patted Ruben’s shoulder. “You stay on the back and protect everyone. I’m sure that you have more than enough magic scrolls for defense, right?”

When these mana eaters got closer, he would have to fight them with all of his strength. There was no time for him to pay attention his siblings and all.

Because of this, Samuel hoped that Ruben could protect them.

As for why he chose him...

Samuel was 99% sure that Riya should have stuffed Ruben with a few more magic scrolls. She’s the kindest when giving magic scrolls to either Amelia or Ruben because one is her best friend and the other is her disciple.

“Yes!” Ruben nodded heavily. He knew that Samuel wanted to focus on the higher ranked magic beasts.

Protecting them was indeed important, but it didn't mean that Samuel would do it all the time. Because his ability meant that when there's a degree of danger that others could never solve on their own, Samuel would have to stand up and deal with it.

Otherwise, no one will be able to survive.

"Good."

Samuel walked on the wall towards the platform nearby and looked at the large platform. He had suspicion that these platforms were made for those magicians from the Magic Association. While it would allow them to attract more attention and see further away, this also made it easy for them to be targeted.

Then again, these magicians from the Magic Association would never let any magic beasts come near them.

So it should be fine.

He looked at the incoming mana eaters and silently transmitted his mana towards his sword. These mana eaters came from several directions and it was impossible for him to deal with them all on his own.

But the one that's coming to this wall...

"I'll be the channel of thunder, transmitting the power of lightning and projecting it towards my enemy... the great lightning spear!"

**BOOM!**

The loud sound attracted everyone's attention and the next moment, they felt as if their entire world had turned into darkness. There was only one flash of light and large number of magic beasts were killed instantly.

They were not the target but being passed by this magic spell alone was more than enough to kill most of them.

It was terrifying.

Swoosh!

No corpses were left as the magi beasts were turned into ashes instantly.

And the target of the magic spell, the mana eater, wanted to escape but it was not fast enough. The lightning strike hit it and pierced through its body, killing it instantly. The body slowly dissolved silently, turning into pure mana.

“One down.” Samuel saw this and still held his sword on his side, ready to strike for the second time should it be necessary.

“Tsk, he’s the one making the first move.” Dina, who was standing on the other platform clicked her tongue.

She knew the existence of Samuel because this man was quite high profile in City A Base. With the help of her friends, she managed to gain a lot of information about other bases and found out the existences of other returnees.

Excluding Riya, Dina knew about Samuel.

The genius swordsman with four element...

How could she not know him when she had fought against Samuel a few times in that world?

It was really annoying.

“But I won’t lose.” Dina sneered and then started to chant, “I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!”

Swoosh!

Once again, waves of dark element rushed towards the magic beasts’ tide in front of Dina. These magic beasts were not able to do anything as they were being swept away by the dark element.

Everything was gone in a short period of time.

The mana eater that wanted to make a splash was also killed in succession because of this move.

It could not defend against Dina’s attack.

“Now, it’s clean.” Dina nodded in satisfaction and then drank more blood essence. She knew that the biggest advantage she has is the fact that she could remove her mana quickly. Otherwise, her training would not keep up with those magic warriors.

But this is not enough.

If she wanted to be stronger than them, she had to advance to higher ranks faster than them.

And this is very difficult.

“Ooh, nice!” Peter yelled when he saw these mana eaters got killed instantly. The returnees were all very powerful as they have obtained more development time compared to others. Moreover, they have their own treasure that helped them to be ahead of others.

So fighting cross ranks were not that difficult.

'Dina is only rank 5, but a rank 5 magic spell can kill weaker rank 6 magic beast... is the mana eater so weak, though?'

Peter had only thought about this when he saw that there was an ethereal figure on the battlefield. It moved in their direction almost instantly after materializing.

"Dina! Use stronger magic spell! The mana eater is still alive," Peter yelled to remind Dina.

Chapter 534: Come Again!

"Damn it."

Dina didn't need Peter to inform her. Standing on top of the special platform that was built in City J Base, Dina was able to see further than others. From this direction, she could see that the mana eater was still alive.

Her magic spell was not very effective against it.

Taking a deep breath, Dina chanted once again, "I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!"

Whoosh!

This time, the dark element magic was concentrated on one point, which was the mana eater that was coming in their direction.

The dark element magic completely drown the mana eater and it was unknown whether it was still alive or dead.

Dina looked in the direction of the mana eater nervously.

Swoosh!

And there it is, coming again.

“Damn it! Come again!”

“I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!”

Hearing Dina chanting the same magic spells again and again, Peter was speechless.

Didn't she see that the magic spell didn't work?

Why did she has to repeat it over and over again?

“Are you stupid? Use other magic spell!”

“This is the highest ranked magic spell that I know that I can use, you b\*stard! Just shut up!”

“But you won't be able to kill it this way!”

“As long as I hit it several times with the same magic spell, I'll be able to kill it!”

“It doesn't work that way!”

“Just shut up, you idiot warrior!”

“You're the stupid one!”

In this way, the two people were shouting to each other while Dina was still using the same magic spell to fight against the mana eater.

The other soldiers silently focused on their task, ignoring these two people. These returnees were indeed powerful, but they were all very eccentric and impossible to control. Even the higher ups didn't give them any order to absorb these returnees into the army or anything like that.

So seeing these people fighting against each other...

They could only stay silent.

While Dina was having difficulties dealing with the incoming mana eater, Ruth was also looking at the mana eater that came with a frown. She naturally also recognized the mana eater, but she was not very good at dealing with it.

After all, a mana eater is a very troublesome magic beast to deal with.

It was also famous in that world and many magic warriors gave up attacking it because they couldn't defeat it.

Ruth used to be among them.

"But this time... I have to defeat them..." Ruth took a deep breath as she focused her attention on the mana eater in the distance.

She knew that she's only a rank 5 magic warrior and this mana eater could possibly be of higher ranks.

But she had no other choice.

"Piercing arrow."

Swish! Bang!

The arrow pierced through the mana eater and pierced the ground behind it hard. The mana crackled within the mana eater's body, but disappeared soon enough. This meant that the attack was not very effective.

Ruth clicked her tongue.

The problem is that her mana is limited and it's basically impossible for her to take care of so many mana eater at the same time. In the distance, she could see that there were more magic beasts, she meant, mana eater coming.

As these mana eaters got closer to City J Base, the situation in the base will turn for the worst.

Because she didn't have the confidence that she would be able to stop it.

'Calm down, try other method.'

Her mana has been depleted through continuous use of mana when she fought against other magic beasts in the past day. There were so many magic beasts coming that it was impossible for her not to use her mana.

Magic warriors were not exactly a profession with a lot of mana in the first place.

This made it difficult for her to use magic spell that required high mana.

But mana eater could only be dealt with using mana...

"This is really troublesome... elemental arrows."

Swish! Swish! Swish!

Following that, there was a rain of arrows coming towards the mana eater in the distance. Ruth didn't hold back in the slightest bit and continued to fire shoot after shoot. Her arrows were formed through mana and also this bow.

The making of the bow allowed her to conserve a lot of mana compared to using ordinary bows.

This was the reason why she could fight for hours.

But this didn't mean that there was no consumption at all.

Her mana has been consumed more than half and if she didn't find any magic spell that suited to kill the mana eater in front of her, then it was certain that she would not be able to survive.

"Tsk."

Swish! Bang! Bang!

Under the continuous attack from these returnees, these magic beasts were unable to come any closer. Not to mention, some of their magic spells were also affecting the other magic beasts, lessening the burden of these soldiers.

For Dina, she needed to use the magic spell for five to six times against one mana eater and then it would be killed.

For Ruth, she would have to use a few magic arrows to shoot the mana eater.

Everything seemed to be going in a good direction.

Until they saw the giant that was coming straight towards City J Base. The large golem magic beast was more than 40 meters in height and its entire body was grey in color.

Samuel's lips twitched. "That's it! Who the hell attracted these magic beasts to come out?"

Chapter 535: Run Out of Mana

"This..." the commander of the army was also confused.

He didn't know how these magic beasts could be attracted out of their lair so easily. Moreover, they didn't seem to have provoked these magic beasts.

"Did someone enter the crack a few days before this magic beast tide arrived?" Samuel asked slowly.

"Uh... Miss Dina did go into the crack a few days ago but she didn't do anything much aside from killing a few magic beasts..." the commander was a bit confused by Samuel's question, but he still answered honestly.

Samuel's eyelids twitched.

Dina went into the crack?

He looked at the rampaging magic beasts and suddenly had the urge to throw Dina out and let her deal with the mess that she had made. But considering Dina is a demonic magician and these people usually never cared for others, it would be difficult for him to coerce her into telling what she actually took from these magic beasts.

A cub?

But if it was like that, there should be only one species coming out of the crack and the other magic beasts would not follow the order so strictly...

Wait, follow order?

Samuel's eyes narrowed.

It seemed that they would have to be prepared to fight against a magic beast of the mental department. These kinds of magic beasts that relied on a different method to win was not that easy to deal with.

But...

Where is it?

Wait, before that, they better deal with that golem first.

Samuel left the commander and raised his sword forward, waiting for the golem to reach his attack range. If it was too far away, his attack would not be effective.

"Brother, this giant..."

"It's Giant Rock Golem," Samuel replied. "It's a magic beast that only know how to defend with its big body and didn't have any other remarkable feature. The only way to defeat it is to break through its hard defense."

"Defense..." Sean looked at his brother. "In terms of the offense, no one can compare to you, right Brother?"

Samuel smiled faintly.

Yes, if it was pure defense, then Samuel is confident that not many people would be able to defeat him.

The problem is, the other magic beast that might be behind this magic beast's tide would attack.

'And Riya is still out there.'

Samuel took a deep breath.

There was no point in worrying about it. Rather than thinking about unnecessary things, it would be better for him to focus on defeating this golem in front of him.

Swish! Bang!

As the mana eater came forward, the three people somehow managed to deal with it through their own way.

And the golem that came were their new opponent.

But the other three returnees tacitly didn't make a move.

"Miss Ruth... why are you...?" The commander that was guarding the wall beside Ruth was stunned when he saw her putting down her bow.

It couldn't be...

"I run out of mana." Ruth shook her head.

With her current strength, she could only deal with miscellaneous magic beasts around her. She glanced at the few people behind her and then said lightly, "Don't try to fight me, though. Even in this state, you're not my opponent."

Her voice was laced with confidence and arrogance.

But no one refuted her.

They all knew that for a rank 5 magic warrior like Ruth, dealing with rank 3 and below magic warriors were very easy. There was no need for her to use her mana in the slightest bit.

Her own physical strength and fighting instinct were more than enough to deal with them.

So no one dared to make a move.

“Tsk.” Dina saw the golem and her expression hardened. “Do I really need to escape from City J Base?”

She had been working on this base for a long time and poured a lot of resources to build City J Base from scratch. But now that she saw this large golem coming, for some reasons Dina felt that she would lose everything that she had worked on for a long time.

No.

She didn't want that.

But how could a rank 5 defeat a rank 7?

“Miss Dina, what should we do?”

“Be prepared to escape,” Dina said lightly and then he looked at Peter. “Can your attack break through that damn golem's defense?”

“You're thinking too highly of me.” Peter looked at Dina blankly.

He might be a warrior and his physical strength is stronger than ordinary magic warrior. But this didn't mean that he had stronger attack compared to them.

Because if Peter had to say, his greatest power is his strong body.

In other words, he's a proper meat shield.

"I really should not have asked you." Dina looked at Peter and sneered. "Then how about that Samuel... what's his last name in this world? Well, whatever."

Their surnames were all different in this world compared to that world. But their given name was the same, so it was easy for them to match them with the person in that world from the names, weapons, and their fighting style.

After all, there were not many people who were as famous as they were in that world.

"Samuel is famous for his strong offense. Not many people could block his attack, so... I don't know." Peter shrugged.

Dina: "..."

For some reason, she felt like taking out more magic spells and attacked Peter. If possible, she also wanted to surround Peter with her dark element like those magic beasts.

But at the same time, Dina knew very well that this tactic would never work on Peter.

Because before she could finish her magic spell, Peter would definitely come towards her and interrupted her magic spells.

This is the weakness of many magicians.

As long as they were interrupted, their attack power was basically zero.

Only some of them could use instant magic spells at high rank instantly and possibly defeat their opponents quickly.

“Anyway, I won’t make a move.”

Chapter 536: Goodbye

“You want to give up?” Peter asked back.

“No.” Dina looked at the soldiers who were already moving the people to get into the underground bunker. “It’s called strategic retreat.”

Even if City J Base ended up destroyed, the most important thing is that the people around were still alive.

She could find other chance to build the base again in the future.

Anyway, she needed these fledging demonic magicians to survive and grew. Otherwise, the power she could get from their feedback would be too small for her improvement.

That wouldn’t do.

“Tsk, you’re a coward as always.” Peter clicked his tongue.

“Better than a hot headed idiot like you who only know how to charge forward.”

“Heh.”

The two of them stopped paying attention to each other.

The golem was coming closer and Peter's body was taut. He was prepared to make a move when the golem was close and if Samuel didn't make a move.

Because he knew that the golem's attack power was not that big.

With his physical strength, it should be possible for him to block it for a period of time and during that time, Samuel's attack would be the one that play the decisive role.

...

Riya's side

Bang!

Riya arrived at the scene and she looked at the large crater on the ground with dark face. She knew very well what the meaning of this large crater is.

The entrance between the crack and the Green Planet has become bigger.

And those giant magic beasts would be able to come out through this crack.

"Damn it."

Many rank 7 magic beasts are giants and when Riya first entered the crack, she felt that they wouldn't be able to come out anytime soon. But this golem had told her very clearly that these magic beasts could forcefully make their way out.

The shield did nothing to block them.

And looking at the large number of mana eaters in front of her, Riya took a deep breath. She will have to go all out now.

\*roar?\* <Master?>

“Fight with all you got.... Don’t die.”

Swish!

Several runes plates appeared on Riya’s hand and then she threw it towards the edge of the cracks one by one.

\*roar\* \*roar\*

Countless magic beasts were killed as the killing formation was activated and then Riya used this chance to enter the crack.

When she saw the scene in front of her, she froze.

Because she could see that the entire ground seemed as if it had been forcefully opened and there was a large gap on the ground. Under the ground, which was as thick as a few kilometers away, there was a completely different world.

A world filled with rocks.

And these rocks were slowly moving one after another.

“The Rock Golem’s lair right here?” Riya asked, her tone contained disbelief and frustration. She knew very well that once these rock golems came out of the crack to the Green Planet, City J Base would have to be bombarded with nuclear weapon.

Even then, there was no guarantee that they would be able to defeat these magic beasts.

Because based on Riya's estimation, nuclear bomb's power was only somewhat comparable to rank 5 or rank 6 magician's power.

And these golems were all rank 7 magic beasts.

It's a completely different level.

Riya took a deep breath.

"How should I deal with it?" Riya looked at the golems in front of her with a frown. Right now, Mo was outside dealing with the few magic beasts that got away from the formation killing, so no magic beasts came in from outside.

If they came out from inside, then they have to deal with a few formations that Riya had activated.

The problem is...

These formations couldn't deal with these golems.

"Then there's only one method." Riya looked at these golems and then turned to a somewhat open area on the side.

She's not very smart and she didn't have strong attack power either.

But Riya knew that she could not let these magic beasts go out.

No matter what, she didn't want to see the entire planet got destroyed because of these golems.

It's strange to say.

Riya has always wanted to hide far away from others. She didn't want to be found by others about her ability and lived a relatively ordinary life. It would be very troublesome for others to come and ask her to do many things because of her ability.

Only in this way would it be possible for her to live a peaceful life.

But when Riya saw these golems, she completely understood that there were not many people who could stop them.

Perhaps, she and a few other people were the only one.

But they were not here right now.

So since she's already here....

It's better for her to deal with these magic beasts.

There was a faint helpless smile on Riya's lips. Perhaps even if she said that she didn't want to care, it was impossible for her to truly not care.

But if she was asked to sacrifice herself for the sake of strangers whom she didn't know...

Then Riya could only say that it's impossible.

She's not so noble.

Swish!

Within seconds, the formation was ready.

It was a teleportation formation and Riya connected it to another formation that she had made in the crack before.

She looked at the golems around her and then draw more runes.

Swish! Bang!

Several elemental arrows hit these golems

\*Golum\*

The golems turned their attention to Riya and then went on their rampage. There was no roar or anything like that as these golem's language was different. But they rushed over in Riya's direction and then suddenly stopped in place.

"Goodbye."

Riya smiled and then activated the formation.

Swish! Swish! Swish!

Several golems immediately disappeared.

But even with that, there were still a dozen more golems left in this place.

The number of golems in this place was not so small, after all.

Chapter 537: Pitting Others

"Now..." Riya looked at the group of golems in front of her.

With the first batch disappearing, these golems rushed forward and the formation worked once again, stopping them in place.

Riya knew that there was not much time for her, so she swiftly changed the coordinate of the formation and then activated it for herself.

Swish!

In a few seconds, Riya appeared in a completely different place.

The golems were confused

\*golum?\* <where's that midget?>

\*golum\*

The Giant Rock Golems were not exactly smart magic beasts. In fact, it was quite easy to deal with them. For example, as long as one didn't provoke these Giant Rock Golems, they would never make a move against them.

But these Giant Rock Golems were all aiming to get out.

Riya could see that too.

So she provoked them to attack her instead.

Now that Riya suddenly disappeared, the Giant Rock Golems lost the target of their hatred.

Splash!

Riya looked at the environment around her and sighed. No matter how many times she entered the crack, she would feel that this was truly a world of its own.

But that was not why she came here.

She looked at the large amount of water around her and walked out of the formation range. Taking out more rank 5 magic core, Riya activated the formation and let the water on top of the formation passed to the place where the golem was located.

Splash! Splash!

The Giant Rock Golems: ???

They didn't understand how the water came from.

Their goal from the beginning was to go out of this crack but now, their footsteps were slowed down.

The Giant Rock Golems were indeed big and powerful, but they could be slowed down if they were in wet environment. This was a common knowledge in that world, but most of the time, water mage could not make enough water to stop them.

The exception was when they were near water source.

Splash!

Riya looked at the large fish that came to her and runes were forged in the air, stopping the large fish magic beast that came on top of the formation.

"Fight," Riya said and then activated the formation.

Swish!

This is the rank 7 Shark Claw Fish, one of the few terrifying magic beast underwater. When Riya and Samuel entered the crack, they accidentally came across an area that was completely covered in water.

Riya set up the teleportation formation at the shallow water so that they could come back and explore it in the future when they have time.

The reason was because the two of them felt that this sea in the crack is dangerous.

Now...

It's indeed very dangerous.

"Rank 7 Shark Claw Fish vs rank 7 Giant Rock Golems." Riya smirked.

She really wanted to see the battle between these two magic beasts, but she didn't want to go there and provoke a battle against them. The formation that she used just now could barely halt them down.

As for the other magic beasts...

Well, she also sent them to the lair of other rank 7 magic beasts that she and Samuel found some time ago.

"A rune master's battle is always full of tricks..." Riya looked at the environment and decisively left using the teleportation formation to outside the crack.

Splash!

Some water was brought along with her and Riya was sure that she saw a light right before she came here.

“It’s really dangerous.”

Taking a deep breath, Riya looked at the crack behind her. Her expression was solemn but she had no intention of entering again for the time being. Instead, she looked at the mess outside where countless magic beasts had been killed by the formation plates that she activated.

Only Mo was staying outside the range and was still busy dealing with a few weaker magic beasts.

‘Let’s clean up first.’

Riya tossed the corpses of these magic beasts into her world and let them turned into mana for the world to grow. Naturally, she also made a few mana stone for her to recover her mana.

While it was not as effective as potion, but it was still good enough.

Once it was done, Riya sat down while holding a mana stone in her hand beside the crack.

She didn’t have any intention to fight with these rank 7 magic beasts head on.

While it was not impossible, but Riya felt that it’s unnecessary.

\*roar\* <Master, I’m done>

“Oh, you’re done?” Riya saw Mo dragging the magic beast’s body and patted the white tiger’s head. She smiled and said, “You did a good job, Mo.”

\*roar\*

Seeing Mo's happy look, Riya felt amused. The white tiger's expression was really expressive. When he was happy, angry, or sad, everything was shown very clearly on his face.

It was very amusing.

"Sit on the side and wait until the battle is over." Riya didn't know whether Mo understood her or not, but she just spoke to the white tiger. "You know, the battle tactics that I used are really despicable. The rune masters are hated not just because of the fact that they're the master of escaping but also because they're the masters of tricks."

Riya looked at the crack in front of her.

This was not the first time she used this kind of tactic.

For rune master, once they managed to reach rank 5, they were basically 'invincible'

Because once they combined the trapping formation with the teleportation formation, they could basically send away their enemies far away. At the same time, they could also use their enemies to deal with their enemies.

Isn't it despicable?

Yes, very.

But this is just how they were taught to survive.

Because comparing with their own strength, rune master was lacking in many areas.

Attack? Magic warriors, elemental mages, and even warriors were stronger.

Defense? If they could not set up their formation fast enough, then they would be nothing more than paper in the eyes of the magic warriors and warriors. Only mages were as weak as them.

#### Chapter 538: Each of Their Battle

Riya was not sure how the rune masters first existed.

But for a lone rune master, the best way for them to fight is through using the teleportation formation.

However, this didn't mean that they could fight recklessly.

"If you meet with other rune master, you have to be careful when setting up the formation because there's a chance that they would mess it up midway." Riya chuckled.

The battle between rune masters have always been the battle of resources or tactics. They would either compete in who could crack the opponent's runes and formation or they would compete in how many resources they have.

After all, for the rich one, throwing 1000 magic scroll in one go is possible.

\*cough\*

Unfortunately, Riya was not that rich.

Only those who were backed by rich family could afford so many magic scrolls.

So when these magic scrolls were not allowed to be used, the rune master's battle would be nothing more than a battle of competing of their runes and formation. Which runes could be used faster and more efficiently than the other?

That person who could arrange it the best will be the winner.

Riya is a lone rune master.

She didn't have any comrades or any backing behind her. When she wanted something, she had to do everything by herself because no one would help her.

It was also because of this that Riya developed a fighting skills based on the teleportation formation. From the moment she reached rank 5, she honed her skills so that she could draw the formation quickly and then set up special runes within her teleportation formation.

"A teleportation formation can be used by any rune master. So unless you prepare a special runes to differentiate yours with others, it's not impossible for them to crack it and used yours." Riya patted Mo's head. "Quite similar with computer if I have to say."

\*roar?\*

Mo looked confused.

Riya chuckled when she saw Mo like this and stopped talking.

Her mind just thought about her past in that world and how she was despised and cursed because of this fighting method.

Her Protective Rune Circle could recover on its own.

Her teleportation formation allowed her to move from one point to other point in an instant.

Her formation plates that she arranged to trigger at certain condition were protecting her most of the time.

This made many people hated her but they couldn't do anything against her. It took them a lot of effort to kill her in that battle because of the various protective measure that Riya put on for herself.

Splash!

Hearing the splash of water, Riya narrowed her eyes.

Have the battle between the two species of rank 7 magic beasts over?

...

City J Base

Bang!

The soldiers who were left only saw a huge flash of light before the Giant Rock Golems in front of them was split into two and fell down.

\*pant\* \*pant\*

“So cool,” Amelia muttered when she saw how the Giant Rock Golems was killed without any resistance.

Samuel didn’t answer and just regulated his breath. For that one strike, he had to use all of the strength and the remaining mana in his body. Otherwise, the attack power would not be enough to kill the Giant Rock Golems.

“There are two Giant Rock Golems,” Samuel said quietly and he looked at the other direction. The other Giant Rock Golem was in Dina’s direction and it was coming closer.

He had to recover his mana before the Giant Rock Golems arrived.

“What?”

Amelia was just relieved before she was stunned.

Samuel didn't answer and simply took out some meat from his space. Even though this method was a bit stupid and slow, but this was the best method they have to recover their mana quickly.

Eating the magic beast's meat.

The magic beasts' meat that Samuel brought with him were all rank 6 magic beasts' meat, so he should be able to recover quickly.

Ring! Ring!

Samuel picked up his phone and heard Peter's voice from the other side.

"Sam! Did you do that?"

"I did," Samuel replied and swallowed the meat in his mouth. "There's another one coming."

"I know, I see that." Peter pursed his lips. "Can you deal with it?"

"No, buy me time."

"Ok."

The call was closed and Samuel focused on eating the magic beasts' meat while feeling the mana within his body.

On the other side, Dina was watching the place where the Giant Rock Golems was located just now. She could tell that Samuel was hitting the Giant Rock Golems in one strike and split it apart.

That exceptionally strong attack power...

It's not something that she could possibly match.

"Samuel truly lived up to his name," Dina said with a sneer.

"Don't be happy too soon. There's another one coming," Peter interrupted when he walked to the platform.

Dina's lips twitched and she looked at Peter coldly. "What are you doing here?"

"This is the best place to look forward," Peter replied without hesitation.

"Get down, you b\*stard!"

"No."

"I don't want you to disturb me!"

"I'm not disturbing you and only borrowing a place to stand."

"No, this is my place, so get out!"

"No."

The two of them were about to quarrel once more when they felt the ground shook once more.

\*rumble\*

"Tch, don't tell me that there are more..." Peter looked forward and saw that the Giant Rock Golems was getting closer. He narrowed his eyes and frowned.

This Giant Rock Golems is much faster than the one before.

"It's too strong," Dina muttered.

If she was still at rank 7 like in that world, she would have been able to deal with this damn Giant Rock Golems. Unfortunately, they all had to start their journey back from the very beginning, which made her strength regressed.

But since they have reached rank 7 before they came back from that world, it meant that they were more familiar with the advancement and would be able to get back as quickly as possible.

Chapter 539: Each of Their Battle (2)

'I won't lose.'

Dina looked at the Giant Rock Golems that was coming towards them solemnly. She knew very well that it was already time for the decisive battle between them and the Giant Rock Golems. If they could not defeat this Giant Rock Golems, they would truly be defeated and would have to leave.

While Dina was thinking, Peter had already called Samuel and asked for the other party's situation.

She looked at Peter.

"Samuel can't fight now." Peter grinned. "So it's up to us."

Us?

Dina's lips twitched.

One of them was only a demonic magician at rank 5 and the other one was a warrior rank 6.

How do they think they could defeat this Giant Rock Golems?

"You're dreaming," Dina said.

"What? Are you scared?" Peter asked back without fear. He laughed. "Isn't it because these magic beasts are strong that people have to become stronger and faced the challenge?"

Dina was silent.

As the daughter of the influential demonic magician's descent in that world, Dina was aware of the world's history. There were a lot of battles between humans and magic beasts and in the beginning, people embarked on the path of magic for the sake of repelling these magic beasts.

But hundreds or perhaps thousands of years had passed.

After humans gained foothold and their population increased, they slowly forgot their original intention of their battles.

They turned against each other.

Through various factions and the fight for resources, no one truly fought against the magic beasts seriously.

Otherwise, they would not have been caught off guard by the magic beast's tide that nearly annihilated the humanity. That last battle...

Dina's eyes narrowed. "So this Giant Rock Golems is just the first step for humans to reclaim the Green Planet back."

"We can't let the Green Planet experience the same thing as that world." Peter sneered. "So the only thing that we could do is to defeat it and prevent these magic beasts from going rampart in this world. Are you ready?"

"Fine." Dina snorted. "What's the plan?"

"It's easy, you will attack it with all you got and I'll climb it up to hit it while Samuel is recharging his mana. Ah, if possible, do call Ruth," Peter added. "I'm sure that her arrows will also play a role when fighting against the Giant Rock Golems."

"Alright."

"Good."

Peter saw that the Giant Rock Golems was close and them jumped down without hesitation. There were still many magic beasts around him, but the moment Peter was about to land, the aura in his body exploded.

Bang!

What other people could see was only afterimages as these magic beasts were all punched back and a broad pathway was opened instantly in front of Peter.

Drap! Drap! Drap!

Once the path was open, Peter ran towards the Giant Rock Golems without hesitation.

"As flashy as ever." Dina clicked her tongue. These warriors thought that by going forward and fought these magic beasts head on, it would look cool and they could train their body.

But in Dina's opinion, they were nothing more than brute.

It was simply unsightly.

But as Dina looked at the Giant Rock Golems, she also started to chant, "I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!"

Swoosh!

The dark element rushed towards the Giant Rock Golems rapidly.

Peter saw that the dark element came from the other side and smirked. No matter what Dina said, she would not use her magic to harm her teammates when they were cooperating together.

Her mana control was indeed bad.

But she could just cast it through the direction where it would not hit him.

'You're really an awkward woman,' Peter thought to himself. She was the same be it in that world or this world.

He looked at the Giant Rock Golems that was swept by the dark element from the other side and slowed down.

As the dark element subsided, Peter dashed forward.

"Hyaah!"

Bang! Bang! Bang!

Series of punches and kicks rapidly hit the Giant Rock Golems. Coupled with the aura that covered Peter's entire body, the Giant Rock Golems could not move easily anymore and was halted in place.

Bang! Bang! Bang!

Peter looked at the faint dent on the Giant Rock Golems's body and his expression condensed.

He had long known that the Giant Rock Golems was famous for their hard defense and thick stone... well, the Giant Rock Golems was basically only consisted of stones. But he never thought that even when he went all out, he could not cause real damage to the Giant Rock Golems.

"Tsk, it's really trouble." Peter clicked his tongue once more but he didn't stop his fists and kicks.

Even if he was not able to defeat the Giant Rock Golems on his own, but it didn't mean that he would give up so easily. Because Peter knew very well that if he were to retreat, then the Giant Rock Golems would definitely go towards the people behind him.

That is not allowed.

He had to fight.

Besides...

It has been a long time since he could fight to his heart content.

Peter smirked and the aura from his body exploded once more. The red color seemed as if it there was a fire blazing, striking across the Giant Rock Golems's body and kept on hitting with all his strength.

Bang! Bang! Bang!

Warrior's battles have always been simple.

It's simply a battle between who had the bigger fist!

And Peter would not let anyone ahead of him.

Taking a deep breath, the aura around Peter's body changed as he grew bigger. This time, his clothes were not torn apart and Peter kept on punching towards the Giant Rock Golems, trying to bring it down.

No matter how many punches it needed, he will make sure to defeat it right here, right now!

Bang! Bang! Bang!

Chapter 540: Each of Their Battle (3)

Bang! Bang! Bang!

Seeing that Peter had turned into a giant to face the Giant Rock Golems, Dina snorted. She knew very well that Peter's strength could only be fully utilized when he was on similar size with his opponent.

But the problem is, the Giant Rock Golems was much bigger than Peter.

It was simply impossible for him to fight against it head on.

Dina took out more refined blood essence to drink and then looked at the opposite side. She knew that Ruth was in that direction and the biggest difference between her and Ruth was the fact that Ruth had severely limited amount of mana.

It was impossible for Ruth to rival them in terms of mana.

Moreover, Dina didn't have any way to recover her mana once she had used it up.

'But even if my mana recover through drinking the blood essence, this method couldn't be used all the time.'

Dina had already felt her head throbbled when she drank the blood essence just now. This was the precursor of mental breakdown.

Mental breakdown was the situation where the mages could not control their magic anymore because of mental overload. The cause was numerous but for Dina, the only way for this to happen is if she drank too much blood essence.

These blood essence came from the magic beasts and each of these magic beasts were violent in nature. They only wanted to destroy and so on, which would make their blood essence to be filled with these thoughts too.

Humans were not originally supposed to drink it.

Because of the difference between the mana contained within their blood and the fact that their blood essence could contain minutes of their thoughts.

But demonic magicians still did it.

Because this is the only method for them to get stronger. Even at the risk of losing themselves at any moment, the demonic magician would do everything they could to get stronger.

This is their methods. No matter how despicable it is, but there was simply no other way around. For people without talent, catching up with people with great talent always required them to pull more effort.

But no matter how much they worked, there seemed to be a giant wall blocking their way.

They had worked hard.

But it's never enough.

So, should they be resigned to be ordinary?

Dina is unwilling!

She didn't want to settle as an ordinary mage, lose in the crowd and never had any achievement whatsoever. She wanted to stand on the top and rival those geniuses.

For this reason, Dina didn't hesitate to follow the same path when she returned to the Green Planet. Because she knew very well that her talent should be the same as she is in that world.

After all, they didn't find any difference between their bodies in that world and in this world.

Dina took a deep breath and chanted once more, "I am the lord of the dark. May the darkness come and envelop the entire world. Block every ray of light, descend onto the world and cover every surface in the darkness. Darkness is the greatest power in the entire world. Let the darkness come, Dark World!"

Swoosh!

The dark element gushed towards the Giant Rock Golems once more and Peter, who was punching and kicking suddenly leapt back.

Bang!

The dark element swept across the Giant Rock Golems and hit it hard. His eyes narrowed at the violent mana surging in front of him.

Peter understood.

This is the last time Dina could use this magic spell.

Even if demonic magician had used various methods to recover their mana and allow themselves to stand on the same ground as other mages and so on, but they still have limitation.

It was the limitation of their mind.

Without being strong enough, they would not be able to control the mana that was surging in their body. And Dina herself was the same.

If she could not control the mana in the slightest bit, there was no point in her recovering more mana. And their source of control was their own mind. Through their meditation, their mind would be strengthened, but a demonic magician would basically be 'corrupted' in daily basis because of their method to advance.

But these demonic magicians didn't care.

They understood very well that if they had cultivated according to normal method, they would never be able to reach their current height. Moreover, for these demonic magicians, removing the influence of the magic beast's blood essence was easier than increasing their mana in normal and non harmful methods.

Bang!

Once the dark element swept across, Peter didn't hesitate and rushed towards the Giant Rock Golems once more.

\*pant\* \*pant\*

Dina was panting and took a deep breath.

She could not allow herself to show any weakness.

"Dina?" A voice called from behind.

"I'm fine Jonas, you just have to wait from the back," Dina replied in calm tone.

Jonas is her helper and the trusted person on her side. He helped her to establish City J Base and also increased her authority here. Without him, she would not be able to stay on City J comfortably and spread out the method of demonic magicians.

"It's good." Jonas smiled.

Dina took a deep breath and looked at the Giant Rock Golems in front of her. She smiled faintly.

Isn't it time?

Dzing! Bang!

An elemental arrow suddenly rushed towards the Giant Rock Golems from the other side of the base. The people could only see a flash of light before there was a loud explosion from the Giant Rock Golems's side.

\*golum\*

The Giant Rock Golems opened its mouth as its body staggered. It raised one of his hands to his face where an arrow was stuck there, still contained powerful mana that seemed to threaten to split it apart.

Even from such a large distance, Ruth's accuracy was terrifying.

After all, she was at the other side of the base.

"It's not enough to kill it, huh?"
