*Chapter 61: Funny Pair of Brothers*

Yu Shi Lan looked at Mu Ting Yu's leaving back with question marks all over her head. Even though she was trying to hide her confusion, Mu Ting Ye saw it almost immediately.

"Are you wondering why my brother let you off so easily?" Mu Ting Ye almost laughed out loud when he saw Yu Shi Lan's expression.

"Yes." Yu Shi Lan nodded almost subconsciously.

After that, Yu Shi Lan frowned and felt that this is not good.

She was getting too comfortable with this pair of brothers...

Maybe because one of them was a righteous police officer who had defended her before while the other one looked so silly.

If Mu Ting Ye were to know that Yu Shi Lan defined him as silly, he might end up fuming in anger at the other party.

He's clearly not stupid!

"I think my brother should know that you're a good person!" Mu Ting Ye said righteously.

Almost immediately, two pairs of eyes looked at Mu Ting Ye with a complicated look.

The first one was Mu Ting Yu, who was silently wondering how the Mu Family could end up having such a stupid brat as their descendants.

The other one was Yu Shi Lan, who felt that Mu Ting Ye was really stupid.

How could one know whether a person is good or not in just one meeting?

It's impossible.

Even Yu Shi Lan couldn't do anything like that and a person's real personality could only be found after a period of contact.

"...I don't think he will think that way," Yu Shi Lan said tactfully.

Bletak!

"OUCH!"

Mu Ting Yu had already returned and hit the back of his younger brother's head. "Don't mind him, he's just being stupid."

"Brother!" Mu Ting Ye was holding his head with resentment, but when he saw his older brother's cold gaze, he swallowed all words of complain that he was about to utter out. He was absolutely sure that if he dared to complain, his brother will definitely make things more difficult for him.

Ahh, his brother is still very strict as usual...

Yu Shi Lan: "..."

She didn't know whether to laugh or to stifle her laughter.

This pair of brothers is really funny.

Even Xiao Mao was shaking her body inside her pocket.

This made Yu Shi Lan speechless as she silently poked Xiao Mao so that she could be quiet. If she trembled so much, other people will know that she was carrying a cat inside her pocket.

"Come with us and explain why you're here," Mu Ting Yu said to Yu Shi Lan and then turned to walk once again.

Yu Shi Lan arched her eyebrows.

While Mu Ting Yu's gesture seemed to indicate that he trusted her, Yu Shi Lan knew very well that the man's back was still very tense.

It was obvious that he didn't fully trust her that much.

But it didn't matter.

They have only met each other in such a short period of time.

If Mu Ting Yu could trust her without any doubts whatsoever, then Yu Shi Lan would be more surprised.

"Yes," Yu Shi Lan replied and then looked at Mu Ting Ye.

"Don't worry, it doesn't hurt!" Mu Ting Ye hopped up again cheerfully as if his brother's blow could never hurt him in the slightest bit.

Judging from the sound... Yu Shi Lan was more inclined to the fact that Mu Ting Ye was actually hurt but the stupid boy didn't want others to know, so he hid it.

He's really stupid.

She pretended that she didn't notice it, though.

After all, it was a matter of the boy's pride.

"I'm not worried about you," Yu Shi Lan said earnestly.

Mu Ting Ye: "..."

For some reason, he felt his heart hurt at Yu Shi Lan's honesty.

Then again, the two of them were not that close to each other and it was only a few days after their first meeting.

They didn't really know each other that much.

"But I didn't expect to see you here, Yu Shi Lan." Mu Ting Ye quickly cheered up and didn't seem to care too much about this matter.

Yu Shi Lan glanced at Mu Ting Ye and said, "I didn't expect to see you here either."

"I'm just following my brother." Mu Ting Ye shrugged. It was not like he wanted to do this either, but his brother told him to follow him instead of staying in that makeshift base.

Thinking about that temporary base, Mu Ting Ye started speaking again, "Also, it might be a good thing that you left. Even though the world outside is indeed very dangerous, but it's quite unfortunate that there are a lot of troublemakers in the temporary bases. Some righteous people are thinking that it's better for them to be the one in charge of management and disregard the soldiers..."

*Chapter 62: Visitor*

Yu Shi Lan looked at Mu Ting Ye speechlessly.

Once he started, it was obvious that Mu Ting Ye wouldn't be able to stop talking at all. He basically blabbered up everything that had happened in the past few days when Yu Shi Lan disappeared.

There were some people who were thinking that they deserve better treatment and wanted to make trouble.

Some people even wanted to use their former position to make things difficult for the soldiers.

These kinds of people were really scums.

When Yu Shi Lan thought about it, she really wanted to kill them all instead. These people were just a waste that will drag other people to death with them.

But then again, she was not there and her patience was not challenged.

'I really admire these soldiers who are willing to help the people even though many of them are really troublesome like this.' Yu Shi Lan sighed to herself.

She really couldn't imagine how she would fare if she had to face a lot of troublesome people. Perhaps her first and only reaction would be to draw her sword and kill them all, which basically solved the problem and created more problems.

Yu Shi Lan has a lot of enemies in the cultivation world.

The main reason is because there were many times when she drew her sword and solved the problem that plagued her with a single strike.

Some of them who were killed by Yu Shi Lan had a powerful background.

And then these people came to find trouble to Yu Shi Lan.

Xiao Mao wanted to cry just remembering the days of running around because of Yu Shi Lan's action.

The two of them really couldn't stay quiet.

"Ting Yu? Who is it?" Lu Han Yu, another soldier and also Mu Ting Yu's friend, was confused when he saw there was an additional person coming.

"She's coming to the port for some reason," Mu Ting Yu replied and then moved to the side in order to arrange the soldiers moving the resources quickly. He didn't want them to spend so much time here.

They still have to carry the resources over to the special warehouse that had been prepared before. After all, some items would spoil easily, so they had to be careful.

By now, the soldiers had basically received information that this earthquake happened all over the world.

As for what would happen later...

They didn't know.

"Huh?" Lu Han Yu glanced over at Yu Shi Lan and then said, "Maybe she's passing by? There are already more than three groups that we encounter so far."

It seemed that the port was such an attractive place, making people wanted to come here. The first one was a group of gang members whom they have apprehended and brought way. The second one was a couple passing by when they were looking for a place to rest, so they were directed away. And the third one was a group of unruly men who wanted to take the resources here.

They have been kicked out by the soldiers some time ago.

"No matter what, she shouldn't be here," Mu Ting Yu said without hesitation.

Yu Shi Lan glanced over when she heard this and muttered, "Your brother is such a rigid man."

"...I don't think that's how the words are used." Mu Ting Ye looked like he was in doubt and then said. "But I have to agree."

"Ting Ye, if you don't want to be punished to carry the sacks, you better let your friend explain why she's here," Mu Ting Yu said with a sneer.

Does this younger brother think that he could not punish him just because they were outside?

Mu Ting Ye immediately shut his mouth.

He didn't want to challenge his older brother's patience.

Yu Shi Lan looked at Mu Ting Ye with some amusements. Even though she was full of hatred when she first came back to the Green Planet, these past few days with Xiao Mao made her calmed down slightly.

To be exact, Xiao Mao's stupidity and her own foolishness made her feel as if she has truly regain her youth.

At the age of 17 years old, who hadn't been stupid and ignorant?

Even if it was impossible for Yu Shi Lan to be truly back to be the same way as she used to be, she has more trace of youthfulness in her by now. Looking at Mu Ting Ye's antic, Yu Shi Lan still felt somewhat amused.

"Well, Yu Shi Lan, you can start telling me why you're here." Mu Ting Ye turned to look at Yu Shi Lan and gave a wink.

It was like he was asking Yu Shi Lan to tell a lie.

Yu Shi Lan arched her eyebrows, a bit surprised. She was not close to Mu Ting Ye, but the other party's desire to protect her seemed to be really strong. They have only met for a short period of time and her expression softened slightly.

"I passed by," Yu Shi Lan said, following the advice given by Mu Ting Ye.

Xiao Mao in Yu Shi Lan's pocket almost rolled her cat eyes when she heard Yu Shi Lan's words.

Of course, she knew better than anyone that Yu Shi Lan was not here because she passed by but because she wanted to find some jade from the containers. After all, the raw materials used to be transported to their city through the water passageway and it would be possible for her to take some advantage.

Unfortunately, with the soldiers here, it would be impossible for her to do anything.

From Mu Ting Yu's martial arts alone, Yu Shi Lan didn't think that this man will allow her to get closer to those large box containers.

'It's a pity, but I can accept it.'

As for food and so on, Yu Shi Lan didn't need it.

While eating more food might be able to help her make up for her body's nutrition, but what she had obtained so far was enough.

### *Chapter 63: Why Are You Helping Me?*

"See, Brother, Yu Shi Lan is only here because she's passing by." Mu Ting Ye raised his chin and complained to his brother loudly.

Seeing Mu Ting Ye like this, Mu Ting Yu's face darkened slightly.

This brat was really asking for a beating.

"Since you're passing by, you can go now," Mu Ting Yu said calmly. He had no intention of keeping these two people here.

Mu Ting Ye was only dragged along so that he would not make trouble on the temporary base. This brat only knew how to play around and never do anything serious.

The Mu Family really couldn't do anything to him.

With their grandfather's pampering to him, it could be said that Mu Ting Ye's life has always been very comfortable.

Even Mu Ting Yu was not able to do anything to his younger brother.

"Hehe, I know you're the best, Brother!" Mu Ting Ye gave a thumbs up and then pulled Yu Shi Lan away from here.

"Is it okay to just ask one question?" Yu Shi Lan was confused.

She had never dealt with the soldiers in her previous life because those people will oppress her without giving her any chance to contact with them. They were afraid that she would sue them because of their mistreatment over the years.

Fortunately, Yu Shi Lan was stupid enough.

So those people were always reassured with her.

But when Yu Shi Lan thought about this, she always felt like something was blocking her chest and she was really angry. Her stepfather and stepmother were really good, trying hard to make her stupid and unable to do anything.

By the time she realized that she should have complained about them, it was too late.

Everything was too late in her previous life.

To the point that Yu Shi Lan was being pushed to her own death by those people.

"It's fine." Mu Ting Ye grinned. "You don't bring anything but a small backpack and there's no one else around you, so my brother had no reason to detain you here."

Facing Yu Shi Lan, Mu Ting Ye was still willing to share about this matter and spoke frankly.

Just a small backpack?

Yu Shi Lan was speechless.

She thought to herself that if they knew she could make space jade, they would never think that she was only carrying a small backpack.

But she had no plan on revealing this matter in the slightest bit.

Mu Ting Ye's words also revealed other things to her.

"Are the others here to rob?" Yu Shi Lan asked.

"Maybe." Mu Ting Ye shrugged. "I don't care too much about them and there's no point talking about it anymore."

The two of them walked and turned to the other side. The large containers basically blocked them from the vision of the soldiers who were busy with the food and other important resources there.

They have brought a few trucks, apparently because they wanted to carry a lot of resources for the people in the base.

"I see." Yu Shi Lan nodded.

"Now that they can't see us, do you want to take a look at the other containers?" Mu Ting Ye suddenly pointed forward.

Yu Shi Lan paused and looked at Mu Ting Ye deeply.

Mu Ting Ye was still showing the same smile on his face as he said, "Don't look at me like that. It's impossible to pass by when you walk in so cautiously, but if you really want to take a look at these things, it's not impossible."

"Why are you helping me?"

Yu Shi Lan didn't understand.

They have no relationship whatsoever and they have only met for a short period of time.

Even if Yu Shi Lan hated Lian Lei Xu and Mu Ting Ye was happy about it, this was not a reason for him to help her deceive his own brother.

"Because I know that it's impossible for my brother to take everything here." Mu Ting Ye spread his hands. "Those people who come here are also trying their luck because they want to find something. The military want to monopolize it, but I know very well that they definitely can't do it."

Mu Ting Ye had a trace of disdain in his eyes when he spoke that he quickly restrained.

He knew very well that his brother is such a rigid person and also followed the military strictly, so he will work hard to gather all the available resources in the port.

But at the same time, Mu Ting Ye also knew that it would be impossible for his brother to do it.

The military forces in this city is limited.

Other cities were also affected by the earthquake and the rain that happened afterwards, causing countless people to fall sick and were currently dying. Many of them had even died because they couldn't get any proper treatment.

The soldiers wanted to save more people, but they were also helpless.

They were not doctors and even the best doctors wouldn't be able to do anything without enough equipment, materials, and medicine.

"You have broad vision, Mu Ting Ye," Yu Shi Lan commented.

"I thought you would say that I was playing around." Mu Ting Ye grinned.

"I have met with a few people along the way and it's obvious that they have obtained weapons from some places and their intention might not be kind," Yu Shi Lan shared the few things that she had seen along the way.

Naturally, Yu Shi Lan would conceal the fact that she had killed people to Mu Ting Ye but only said that there were people who blatantly took over various resources.

They also carried weapons.

"The local gangs," Mu Ting Ye said with affirmation. "Don't worry too much. No matter how good they are, their weapons are not comparable to the military."

"I know." Yu Shi Lan smiled. "But you're not part of them."

Mu Ting Ye was stunned and then laughed out loud.

He felt that this girl whom he met coincidentally is really good.

#### *Chapter 64: Visitor*

Yu Shi Lan also smiled when she saw Mu Ting Ye laughing out so loudly. It was obvious that her words had struck a chord with him.

"You're really good, Yu Shi Lan." Mu Ting Ye grinned. "Yes, I'm not part of the military but unfortunately, I have to go with them this time. Hey, my brother's worry is really annoying~."

At this moment, Mu Ting Ye didn't forget to diss his own older brother who was too annoying in his eyes. There was really no need for him to join in with the military, is there?

He just wanted to stay in the base camp and played around.

Yu Shi Lan could see that while Mu Ting Ye was complaining, it was obvious that he cared for his older brother a lot. It was just that this tsundere boy didn't want to admit it.

She retracted her gaze and looked along the containers along the way that Mu Ting Ye brought her in.

"Do you know the content of these containers?"

"Hmm?" Mu Ting Ye's attention was attracted and he replied, "Not all of them, but I know that the food ingredients and materials are in the areas occupied by the military. The other areas contained other things."

These containers' content should have been moved away a few days ago, but the earthquake caused many work to be stalled. Coupled with what Mu Ting Ye heard from his friends, he could guess that the situation was not very good.

Well, the situation of the world outside he meant.

The only method of contact is through the satellite phones and there was some limitation. After all, various other cables had been destroyed by the earthquake and the signal towers and so on were broken.

It was hard to get news from outside.

Many of them had to rely on the method from a long time ago just to be able to send the news out.

Yu Shi Lan didn't know that Mu Ting Ye was thinking about the situation outside. She was looking at these containers and was thinking whether to ask Mu Ting Ye about the location of the raw jade materials or not.

In the worst case scenario, she could just go to some jewelries stores.

Even though the processed jade's size was smaller and all, but it was not that useless and might be a bit more practical.

"Do you want to search for a specific thing? I don't have the list, but I know where it is," Mu Ting Ye added.

Yu Shi Lan thought for a moment before shaking her head. "Forget it. I better not stay here any longer. Your brother might not be happy with it."

"Eh, he's still busy." Mu Ting Ye smiled. "No one else is around here... uh wait, there are some people coming."

Hearing Mu Ting Ye's words, Yu Shi Lan also released her perception and tried to find other people. She glanced in one direction and was secretly amazed in her mind.

She really couldn't see it.

But this Mu Ting Ye is actually quite strong.

It's just that he behaved more normal and looked more like a reckless young master than a peerless martial artist.

Then again, the Mu Family should have their reason for releasing him...

'Why did he work as a part timer in the mall, then?' Yu Shi Lan's lips twitched when she thought about their first meeting with each other.

It was quite a mess.

At that time, Yu Shi Lan didn't even notice Mu Ting Ye's presence and only later on did she start to notice him more and more.

"Trouble..." Mu Ting Ye and Yu Shi Lan had already walked further away and in fact, Yu Shi Lan was already planning to leave.

But the arrival of this group of people immediately attracted the soldiers behind them and some people came forward to talk with them. Seeing the weapons in their hands, it was obvious that the negotiation wouldn't end anytime soon.

Yu Shi Lan shook her head. She really didn't want to participate in this kind of mess.

"Meow." <Miss, there's strong Demonic Qi from one of the containers.>

When Yu Shi Lan heard Xiao Mao's voice, her expression changed slightly and she looked at the containers in front of them. Most of these containers were still closed and she couldn't really sense anything.

After all, if the demonic beast didn't actively release their power, it was really hard for a Qi Refining Rank 1 to notice.

Xiao Mao has great sensitivity and it was even more so because of her current weak body.

This could be said to be a blessing in disguise.

Even though she has become much weaker, but her strong perception will definitely allow her to escape from other dangerous situation quickly.

"Well, let's go... Yu Shi Lan?" Mu Ting Ye saw that Yu Shi Lan had already walked towards one of the containers. He was confused and was about to call her away, but he noticed that her expression turned very bad.

"Get away from here."

"Ah?"

Even though Mu Ting Ye was confused, he still unconsciously listened to Yu Shi Lan's words and ran in the direction where they went.

The next moment, they heard loud explosion from the container.

BANG!

The container exploded, pieces of metals flew everywhere without any clear directions in full power. Some parts embedded on the ground, some parts knocked on the other containers nearby, and some others hit the unsuspecting people who had just arrived.

"Ahhh!"

Amidst the scream of the unfortunate person who was hit, Yu Shi Lan looked at the large mantis in front of her and almost cursed.

This mantis somehow managed to absorb a lot of Demonic Qi, turning from a small 5 cm mantis that couldn't harm anyone to more than 2 meters mantis with strong claws and body.

Just looking at the destroyed container behind the mantis, Yu Shi Lan could guess that this mantis should have feel suffocated and then destroyed the container where it was held with such a strong force.

"Meow!" <Demonic Beast!>

*Chapter 65: Fight*

Xiao Mao was thoroughly shocked.

Is the low concentration of demonic Qi in the air could really support the animals on the Green Planet to turn into Demonic Beast?

This was something that Xiao Mao highly doubted in the beginning.

She had seen Yu Shi Lan's memory and knew that the Green Planet was basically destroyed by some specific insects that turned into Demonic Beast. The other animals

were more or less affected by the demonic Qi but aside from suddenly turning crazy and attack humans, they were no different from ordinary animals.

It's just that some of their attack power was already very strong from the very beginning.

Even if Yu Shi Lan wanted to deal with those animals, the weak her couldn't do anything and didn't dare to do anything either.

But these Demonic Beasts were different.

They actively absorb the demonic Qi into their bodies, turning their previously harmless appearance into something that could even destroy tanks and block bullets.

Yu Shi Lan's expression was not any better.

In her previous life, she was basically staying in the hospital for more than a month and by the time she knew about these Demonic Beast, it has already spread all over the world.

There were soldiers protecting the ordinary people and she could only stand at the back.

Yu Shi Lan could still remember her original fear when she saw these insects turned into Demonic Beasts and how ferocious their appearances were. As a girl who had never truly faced danger in the world before, how could she remain calm?

She was afraid.

Yet, she also knew that if she wanted to survive, she had to take up the knife in her hand and be brave.

It's just that this bravery meant that she had to suffer for the next few years on the Green Planet.

Yu Shi Lan heard that these Demonic Beasts appeared around two weeks after the earthquake.

But now it seemed...

It only took a week for them to truly appear.

'It's too fast,' Yu Shi Lan sighed to herself and her expression was not very good.

Because she knew very well that her current physical strength was far from enough to allow her fighting against these Demonic Beasts.

But she couldn't escape.

Her current physical strength simply didn't allow it.

Yu Shi Lan: "..."

Being so weak was really annoying.

Swish!

The Demonic Mantis didn't seem to be willing to wait as it started to move and launched attack on the few other people around it.

"Ah..."

These soldiers were trained, so their speed was still faster than the Demonic Mantis.

After the initial shock faded away, their bodies reacted faster than their brain and they managed to avoid the Demonic Mantis's attack.

It was a close call.

"Get back, Yu Shi Lan." Mu Ting Ye pulled her away from the Demonic Mantis.

"It's coming here," Yu Shi Lan reminded.

For some reasons, the Demonic Mantis immediately locked onto their position and this made Yu Shi Lan wanted to scream injustice.

Why is this Demonic Mantis chasing after her?

"Meow!" <Because of the Qi, Miss. Demonic beasts are very sensitive to Qi and what you have in your bodies are the pure Qi instead of the demonic Qi in the air. They're targeting you because they want to eat you.>

Yu Shi Lan: "..." asd \$%^&F \$%^&\*R

At this moment, Yu Shi Lan felt that this Demonic Mantis was really annoying.

She might have already become a cultivator, but it was what caused these Demonic Beasts to chase after her?

Damn it!

Why did no one tell her before?

Or perhaps... Yu Shi Lan simply forgot this common knowledge.

Swish!

The Demonic Mantis raised its front leg and stabbed forward, but the two of them, Yu Shi Lan and Mu Ting Ye had already avoided its path. Mu Ting Ye's expression was not very good and he took out the gun that his brother gave to him before.

It was originally for self protection in case it was necessary.

Who would have thought that there would be a Demonic Mantis coming to chase after them like this?

This is a disaster.

"Giri giri."

The Demonic Mantis seemed angry that its attack failed and it stretched its ugly head towards Yu Shi Lan.

Seeing the Demonic Mantis was still chasing after her, she really wanted to curse.

This is never ending isn't it?

Bang! Bang!

The soldiers started shooting towards the Demonic Mantis, forcing its attention away from Yu Shi Lan. Seeing that the Demonic Mantis was angry at being attacked and rushed towards the soldiers instead, Yu Shi Lan frowned.

Would guns work on the Demonic Mantis?

Seeing the blood holes on the Demonic Mantis's bodies, Yu Shi Lan realized that low ranked Demonic Beasts could still be dealt with by guns.

She had forgotten about this.

After all, living in that cultivation world for a long time made her cognition changed somewhat.

"Giri giri."

The Demonic Mantis screamed in pain, but these various blood holes couldn't stop it at all.

"Meow!" <Miss, do you not have any information about this Demonic Mantis? Even if you don't have any strength to defeat it, you should still know how to deal with it, right?>

Yu Shi Lan's face darkened.

What do you mean that even if she didn't have any strength to defeat it?

When she get stronger, she can deal with thousands of Demonic Mantis, alright?

But even though Yu Shi Lan was annoyed because of her cat, she still calmed down her mind and focused on the Demonic Mantis.

Various information that was buried in her brain resurfaced once more.

The days on the Green Planet was not only filled with various conflicts with other people whom she 'trusted.' But there were also many information about various mutated animals that she was exposed to.

After all, in order to increase the chance of survival, the higher ups basically released the news of the mutated beasts' habit and weakness.

*Chapter 66: Fight (2)*

The problem is, Yu Shi Lan never really fought against these demonic beasts.

She was weak and basically stayed protected until the time when the base was destroyed and everyone had to migrate.

That was the event that finally led to Yu Shi Lan's death in her previous life.

Without them having to leave the base, her foster parents would never think that her presence is important. And then they pushed her off the cliff.

Heh.

Yu Shi Lan took a deep breath, trying her best to forget those unpleasantries and focused on the information of various demonic beasts that she remembered. The mutated animals on the Green Planets were different in species from the demonic beasts in the cultivation world.

While she knew that they were Demonic Beasts, she only knew that after entering the cultivation world.

Before that, Yu Shi Lan thought the same as others.

That these were mutated animals.

'Think... the Demonic Mantis... mutated mantis is an animal with most of their bodies consist of thick skin with almost no meat. They can move fast and always target whoever attacked them. The best way to kill them is to cripple their joints...'

Bang! Bang!

Yu Shi Lan opened her eyes and saw that more soldiers were shooting. She quickly said, "Aim at the joint."

Swish!

"Ahh!"

The soldiers heard her voice, but the Demonic Mantis was moving too quickly for them to aim carefully.

Unless they were sharpshooter who could shoot accurately when their target was moving around so much like this, it seemed to be difficult to deal with. Humans were not used to the Demonic Mantis' speed, so their movements were more or less restricted.

But who made them soldiers?

At the very least, they still have enough training in the past few years, allowing them to quickly do as Yu Shi Lan's said and tried their best to aim at the Demonic Mantis' joints.

Bang! Bang! Bang!

The sound of gunshots could be heard and Yu Shi Lan was staying on the sidelines.

What a joke.

Her current weak body was not enough to deal with this Demonic Mantis.

She had to think of other ways if she wanted to deal with this Demonic Mantis.

Bang! Bang!

"Yu Shi Lan, get away from here." Mu Ting Ye frowned when he saw that Yu Shi Lan didn't get away at all. The Demonic Mantis was really strong and they didn't even know what it is.

But many people had already died under its claws.

The others also might be affected if they got too close and he didn't want his new friend to die under this Demonic Mantis's claws.

"I'm fine here," Yu Shi Lan replied.

Rather, if these soldiers couldn't defeat the Demonic Mantis, then she would definitely be affected.

"Tsk."

Mu Ting Ye didn't know what he was thinking, but he took out a knife from somewhere and tried to approach the Demonic Mantis.

Yu Shi Lan: ???

No, do you want to seek your own death?

Before she could give warning, the Demonic Mantis that was under siege had already moved and flung the claws towards Mu Ting Ye. The man surprisingly reacted in time as he used the knife to block the attack, but the power was too big.

Mu Ting Ye gritted his teeth and was thrown further away, not far from Yu Shi Lan.

She looked at the young man in surprise. When he used his martial arts to block the attack from the Demonic Mantis, she could clearly sense that his ability was by no means any lower than Qi Refining Rank 2.

No, is there really martial arts here?

"Meow?" <Miss, I think that the Green Planet might have long developed some kind of body training.>

Even Xiao Mao was also surprised when she sensed the power that Mu Ting Ye used.

Is this really a mortal world?

She had the feeling that the world where Yu Shi Lan originated might not be so ordinary. Otherwise, it was really hard to explain how Yu Shi Lan could have such a great talent and could become a Golden Core Cultivator in such a short period of time.

Yes, short.

Even though it was not comparable to the peerless geniuses in that world, but Yu Shi Lan's speed was still extremely good.

Many other self proclaimed geniuses were not as good as her.

But those peerless geniuses were definitely still better.

Not only do they have enough resources, they also have heaven defying talent.

This made their cultivation's path smoother.

"I can see that," Yu Shi Lan murmured in a low voice and looked at the Demonic Mantis that was being shot.

These soldiers were quite cautious because they didn't want to hurt their comrades, so only when they have enough confidence would they shoot. Thankfully, Yu Shi Lan's warning was useful.

Bang! Bang! Bang!

The Demonic Mantis's joints were attacked repeatedly and the bullet lodged inside, making it nearly fell down. The Demonic Mantis was a demonic beast that relied on speed and sharp claws.

Their own defense was strong because of their body structure, but their joints were their forever weakness.

This was something that Yu Shi Lan heard from her previous life.

"It's quite strong..." Mu Ting Ye was rubbing his hand as he approached Yu Shi Lan.

"And you still dare to charge forward." Yu Shi Lan rolled her eyes.

Mu Ting Ye smiled. "With such a challenge right in front of me, why can't I step forward and try it?"

Yu Shi Lan blinked her eyes.

She never knew that Mu Ting Ye's state of mind was actually very suitable to become a cultivator. Many people would never be able to think that way when they saw the Demonic Mantis for the first time.

The corner of her lips curled up slightly without her realizing it.

Zi zi zi

Bang!

The bullet hit the other joint of the Demonic Mantis. It roared angrily and then rushed over towards Mu Ting Ye and Yu Shi Lan's direction.

"Watch out!"

*Chapter 67: Reckless*

Mu Ting Yu, who came forward, screamed out loudly when he saw the Demonic Mantis attacking his younger brother.

Do not!

Bang!

Swish!

Mu Ting Ye reacted quickly.

Even though he was injured because the Demonic Mantis flung him away, he was still a martial artist and naturally moved away from the attack trajectory.

For Yu Shi Lan herself, her own body might not be that strong. But the nourishment of Qi meant that she could use the Qi to strengthen part of her body temporarily. It had to be done in proportion, though.

Because if they were not careful enough, she might end up harming her own body when she was fighting.

Swish!

A knife appeared in Yu Shi Lan's hand and when the Demonic Mantis passed by her, she swung the knife towards the Demonic Mantis's neck.

There was a specific spot here that was relatively weak.

Even if she was still weaker than ordinary Qi Refinement Rank 1, she could still kill the Demonic Mantis by targeting this spot!

Slash!

The knife passed by and the Demonic Mantis was beheaded.

"Fun..." Yu Shi Lan released her Qi that was strengthening her arm and legs, feeling the surge of power and then weakness. She smiled bitterly to herself because she knew very well that she couldn't do this a lot.

Fighting against a few Demonic Mantis would be her limit.

"Meow." <Don't worry, Master. You'll regain your strength soon.>

Perhaps sensing Yu Shi Lan's faint depression, Xiao Mao quickly said to coax her. Because Xiao Mao knew that it was really difficult for a strong person to suddenly become weak again.

How could they accept their identity right away when they lost everything they have?

The feeling of having her body returned to being the mortal like how she used to be was not very comfortable and Yu Shi Lan definitely didn't like it.

But there was no other options.

Who made her fail her own tribulation?

She had to start from the very beginning again.

And this was already a blessing since she was about to die and be annihilated.

'I know, Xiao Mao.' Yu Shi Lan ignored the dead Demonic Mantis and turned to look at Mu Ting Ye.

Mu Ting Ye was fine and only holding his arm that was still somewhat numb after blocking the Demonic Mantis's attack just now. His eyes were shining and they looked like there were stars inside.

"You're amazing, Yu Shi Lan!" Mu Ting Ye said sincerely. "How did you do it? The soldiers shoot that creature... mantis whatever several times but their attacks are useless. But you only need one knife and you can directly end it!"

"Ting Ye, why did you step forward?" Before Yu Shi Lan could answer, Mu Ting Yu had already came over and he looked at his younger brother coldly.

He knew very well that his younger brother is a martial arts idiot who only liked to have fun and play around. If it was not because of his personality, he would have been thrown to the army to accompany him a long time ago.

Well, in fact, his father did throw Mu Ting Ye in.

But this brat was so capable of making trouble that he managed to get out early and then caused trouble for their own father.

Just thinking about it gave Mu Ting Yu a lot of headaches.

"Ah... Brother..." Mu Ting Ye gave a flattering smile, trying to make his brother forget about his reckless behaviors.

But it was obvious that Mu Ting Yu didn't buy it.

He glared at his younger brother with the look that said, 'I'll have a good talk with you later, Brat.'

And then he nodded at Yu Shi Lan.

"Thank you for helping my brother." Mu Ting Yu was solemn and serious, full of sincerity.

Yu Shi Lan blinked her eyes, not used to be treated so respectfully by others. Even after she had achieved a lot and become powerful, there were not many people who truly respected her from the bottom of their hearts.

They were simply convinced by her strength, so they were willing to show her enough respect and sincerity.

She was really not used to this...

"I'm just saving myself," Yu Shi Lan replied.

"Brother, get away, you're going to make her uncomfortable." Mu Ting Ye was less polite and pushed Mu Ting Yu away.

Seeing his own younger brother was like this, Mu Ting Yu really wanted to throw this brat as far away as possible.

Can't he see that he wanted to talk about business?

"Come on, you two, let's clean up this... creature first." Lu Han Yu, Mu Ting Yu's friend and also comrade, reminded the two people.

Even if they wanted to make trouble with each other, it would be better to do it later instead of now.

Hearing Lu Han Yu's words, the two Mu brothers could only temporarily reached a truce and looked at the headless Demonic Mantis that had fallen to the ground.

"What is this creature?" Mu Ting Ye asked curiously.

The blood was black and it seemed ominous no matter which direction he saw it.

"You better not touch it," Yu Shi Lan whispered when she saw Mu Ting Ye wanted to poke the Demonic Mantis.

This brat was really born fearless, wasn't he?

Even Yu Shi Lan wouldn't dare to touch an unknown creature without knowing anything beforehand, yet Mu Ting Ye dared to do this.

One had to say...

Newborn calf is really fearless.

"Um..." Mu Ting Ye was really curious about this Demonic Mantis, but he also knew that it looked dangerous. He wouldn't risk his life just for a small matter like this, so he put his gaze away and turned to look at his older brother.

"Brother, have you ever seen something like this before?"

"No." Mu Ting Yu shook his head and his face was ugly. He had heard from the higher ups that there would be some changes on the Green Planet and even his father warned him to be careful.

*Chapter 68: Join Me for Lunch*

But he never thought too much.

Seeing this creature today... Mu Ting Yu had the faint feeling that what he understood from the word 'changes' might be a bit different.

Yu Shi Lan saw their look, but she didn't want to pay that much attention.

Even if there were some animals that did mutate to become demonic beasts, their number was actually not that much. Humans could still cope up with it and even created a lot of bases for human settlement.

These demonic beasts were not the main threat.

They were still troublesome, though.

"Do you know it?" Mu Ting Ye suddenly asked.

Yu Shi Lan's eyes flickered.

Did this Mu Ting Ye guessed something?

While she only gave one reminder to them, but her subsequent performance was indeed a bit suspicious.

But they didn't really know each other that well, so Yu Shi Lan was not afraid.

"No, I just thought it's the best method to deal with that mantis," Yu Shi Lan replied.

She didn't even dare to say that the name of this mantis was actually Demonic Mantis and it was affected by the Demonic Qi. After all, she didn't know how humans on the Green Planet wanted to name these creatures.

For her, they were demonic beasts.

But for the people on the Green Planet, they were mutated beasts or animals.

That was how they named it in the future.

"I see." Mu Ting Ye didn't ask any further and seeing his brother shooed him away, he stuck out his tongue and then beckoned for Yu Shi Lan to follow him away from the corpse of that strange creature.

The two of them watched as the soldiers communicated with some people and then used some methods to bring the corpse back.

It was obvious that they were planning to study it.

Yu Shi Lan's eyes flickered.

She knew very well that the current modern equipment on the Green Planet wouldn't be able to detect the Qi. But she didn't know if there were any other equipment that they could use in order to detect the energy of Qi.

Her knowledge was simply too shallow.

"What do you think it is?" Yu Shi Lan asked Mu Ting Ye in curious tone.

"I don't know, but it's not my business either." Mu Ting Ye shrugged. "There are professionals in this area and they should be able to figure out something. Rather than that, come and sit with us to take a break and eat together!"

"Ah?"

Yu Shi Lan looked at Mu Ting Ye with confusion.

Didn't they have just told her to stay as far away as possible?

Even the new group who came here was being kicked out before they ended up encountering that Demonic Mantis.

"Anyway, I don't think my brother will refuse this time." Mu Ting Ye grinned.

"But..."

"I insist on treating you for a meal~."

Seeing the bright smile on Mu Ting Ye's face, Yu Shi Lan was speechless. Is he trying to rob people or inviting them to a meal?

His method is too forceful!

"Meow." <Miss, be careful of this human. He might not have any good intention>

Xiao Mao was wary when she saw that Mu Ting Ye was trying to detain Yu Shi Lan longer. She never had any good impression of human being, so she felt that Mu Ting Ye might have other reasons for wanting Yu Shi Lan to stay.

'You always say that, Xiao Mao.' Yu Shi Lan wanted to complain about this soul spirit cat.

No matter whom she met, even if it was only a shopkeeper whom she wanted to buy some supplies, Xiao Mao would say that they have bad intention.

But what bad intention could a shopkeeper would have?

He just wanted Yu Shi Lan to buy more things from him so that he could earn more revenue and so on.

But in Xiao Mao's eyes, it became bad humans.

'I don't care, these people will definitely have bad intention towards you, Miss! You can't let this bad human to take advantage of you!' Xiao Mao made trouble in Yu Shi Lan's mind without hesitation.

The 'bad human' Mu Ting Ye was still looking at Yu Shi Lan with the same warm smile. "Besides, I managed to contact the Lian Family and they already know a thing or two~. I plan to release the rest after I saw how they punished Lian Lei Xu. Too bad that he's still in the temporary settlement or I will be able to see how they're planning to punish him."

Seeing Mu Ting Ye's face full of regret, Yu Shi Lan's lips twitched.

But at the same time, she was a bit interested.

This Lian Lei Xu, whether it was in her previous life or in this life, has always been an extremely annoying person.

If it was not because Yu Shi Lan didn't have any power whatsoever, she really wanted to deal with him.

Her thoughts drifted for a moment before she calmed down.

She's a cultivator now.

No matter how powerful Lian Lei Xu used to be, she would be able to deal with him on her own later.

"Huh? He's still in the temporary settlement?" Yu Shi Lan was confused at Mu Ting Ye's words.

With Lian Lei Xu's background, couldn't his family members send someone to pick him up?

After all, these demonic beasts hadn't appeared yet and at most, the temperature had gotten colder and colder outside. The soldiers were still doing their activity as usual because the cold temperature didn't have much effect yet on them.

But many ordinary people were already thinking that the temperature was really unbearable.

They just wanted to stay at home and do nothing.

"Yes. Do you want to hear more? Join me during lunch," Mu Ting Ye extended his invitation again, his eyes curved slightly, showing a cunning yet warmhearted appearance.

Yu Shi Lan looked at this naughty young master speechlessly and then she laughed. She didn't dislike his little scheme, so she smiled and nodded, "Okay."

#### *Chapter 69: Friends*

"Meow! Meow!" <No, Miss, you can't do this! He definitely had a bad intention against you! You should not agree with him and you should stay as far away as possible!>

Xiao Mao completely forgot about Yu Shi Lan's instruction to let her stay in the pocket and not make any noise.

The moment Yu Shi Lan agreed to Mu Ting Ye's invitation, all reasons had been thrown as far away as possible.

Xiao Mao just wanted to pull her master away from this Mu Ting Ye.

"A kitten?" Mu Ting Ye was surprised to see the kitten in Yu Shi Lan's pocket. He actually didn't detect the cat's breath even when she was nearby.

Was it because the kitten was so small or it was because of other reason?

No matter what, Mu Ting Ye was interested in this kitten.

Xiao Mao, who was about to protest for the second time, suddenly froze. She looked at Mu Ting Ye warily and felt that this man was definitely not as simple as he showed on the surface.

Though, he did look no different from a simple and ordinary foolish young master, but Xiao Mao believed in her senses more.

This Mu Ting Ye definitely had some problem!

"I picked her up." Yu Shi Lan acted calmly and pushed Xiao Mao's head back into her pocket. She didn't want to bring this cat out and let her made trouble.

It was more than enough that this cat attracted trouble for her some time ago.

Besides, no one on the Green Planet would be able to recognize that Xiao Mao is a Soul Spirit Cat instead of an ordinary cat. After all, they were not in a cultivation world and these people might not even know the difference between these two species.

On the surface, the two cats looked like an ordinary cat.

"You picked up a cat?" Mu Ting Ye was stunned.

After the earthquake, there were indeed some people who brought their pets with them. After all, they still have some emotional attachment to their pets and so on. This was not particularly surprising and Mu Ting Ye didn't usually care that much.

It was their business whether they wanted to bring their pets or not.

But in the past few days, Mu Ting Ye had seen some pet owners who chose to kill their own pets in order to fill their stomach. Because the food distributed in the temporary base was nothing more than plain porridge that couldn't support them all.

He was also confused that his brother was really stingy.

Other relief disaster didn't seem to be this bad.

But Mu Ting Yu told him not to say anything.

So Mu Ting Ye simply kept silent and only thought that this disaster was bigger than expected, to the amount of resources distributed was limited.

Then again, some people couldn't stand it and looked for resources on their own.

And the situation might turn for the worst in the future.

So hearing that Yu Shi Lan also kept a pet, Mu Ting Ye started to wonder whether it was for additional food in the future. But he didn't think that Yu Shi Lan was that kind of person, so this thoughts were deeply buried in his mind.

He didn't dare to ask this question.

What if he guessed wrong?

He will only offend Yu Shi Lan.

"It's a cute kitten." Mu Ting Ye smiled.

Yu Shi Lan nodded in agreement.

As long as Xiao Mao kept her appearance as a kitten, she was very cute. When she became bigger and powerful in the future, Xiao Mao has nothing to do with the word 'cute.' If anything, she would look extremely domineering and annoying.

"Meow!" <You're the cute one! I'm the powerful Soul Spirit Cat and I'm definitely extremely powerful and dignified! There's no way that I can be cute!>

Xiao Mao was about to jump out of Yu Shi Lan's pocket again, but the latter suppressed her without hesitation. This arrogant cat really didn't know how to be low key at all!

How could Yu Shi Lan protect her if she kept on making trouble?

'Xiao Mao, if you don't want to be a roasted cat, you better shut up!'

Xiao Mao sensed that Yu Shi Lan was really angry, so she could only shut her mouth and stayed at the corner of the pocket, drawing circles.

She really didn't want to be called cute.

Especially by this Mu Ting Ye who might have bad intention towards her master.

Hmph!

Yu Shi Lan ignored the sulking Xiao Mao and said to Mu Ting Ye, "Well, does the Lian Family not send anyone?"

When the topic turned to the Lian Family, Mu Ting Ye's eyes immediately lit up and he became a chatterbox once again. "The Lian Family definitely wants to send someone, but the road condition didn't allow them to do so. Besides, Lian Lei Xu's position in the Lian Family is neither too high or too low. In terms of importance, he's just part of the younger generation, so...."

Mu Ting Ye continued to say many things about the Lian Family.

Yu Shi Lan was honestly speechless and amazed.

This Mu Ting Ye really knew many things about the Lian Family as if he was staring on their backyard and knew all the ins and out of the Lian Family like the back of his hand.

But she had to say one thing, though.

It's really cool!

In the end, Yu Shi Lan also asked a few more questions for clarification and Mu Ting Ye generously told her many things about the Lian Family.

So much that Mu Ting Yu had to come and interrupt the two of them.

"Take a short break and you can bring your friend, Ting Ye." Mu Ting Yu looked at his younger brother with headache. He couldn't understand why Mu Ting Ye would make friends in such a condition.

Then again, his younger brother had friends from various walks of life...

*Chapter 70: Friends (2)*

"I know, I know." Mu Ting Ye snorted. "Brother, I'm going to eat lunch together with Yu Shi Lan, alright?"

Yu Shi Lan blinked her eyes and looked at Mu Ting Yu, whose face was already as dark as ink. To be honest, having a younger brother like Mu Ting Ye really felt like challenging Mu Ting Yu's bottom line repeatedly.

"You can do whatever you want." Mu Ting Yu looked at Yu Shi Lan once and then ignored the two of them.

While he felt that Yu Shi Lan didn't look that bad and was quite strong based on the impression he had when they met in the temporary base, he was still busy and had to arrange a lot of things.

"Your brother didn't seem happy," Yu Shi Lan said.

"Eh, he's always unhappy about various things and you don't have to worry so much about him." Mu Ting Ye waved his hand lazily. He knew very well that his brother didn't approve of him making friends with others so quickly without knowing their details beforehand.

But for Mu Ting Ye, it didn't matter too much.

He could easily see whether a person is worth befriending or not after talking with them for a while.

And Yu Shi Lan was definitely belong to the former.

She's a pretty interesting person and Mu Ting Ye also shared one great interest with her: the Lian Family's black history.

"Come on, I brought a lot of food." Mu Ting Ye took out his backpack and put the food on the stone table.

As for why it's stone table... who made all the wooden tables broken and this stone looked like table, so the two of them chose to use it as a table to eat together.

The food that Mu Ting Ye brought out was really rich.

There were meat, vegetables, and rice.

It was very complete.

And the amount was definitely enough for several people to eat.

Mu Ting Ye put the food in a heat insulation box, so when he took the food out, it was still steaming.

Yu Shi Lan looked at the steaming food in surprise. "Your box is really good."

She also took out the food that she brought with her.

It was naturally the dried meat that she prepared before, nothing special and it was also the easiest to make. Her cooking skills were not that good and Yu Shi Lan didn't plan on becoming a chef either, so it was enough.

"It's the technology from the Mu Family," Mu Ting Ye replied lazily. "My uncle is not good at anything but research and he loves food so much. Come on, this is something I cooked myself. Try it."

"Then I won't be polite." Yu Shi Lan took the chopsticks and started to eat. After tasting the food, her eyes lit up.

It tasted really good.

Even though Yu Shi Lan was not a foodie, she felt that she had fallen in love with the food.

This Mu Ting Ye looked so heartless and casual person.

Who would have thought that his cooking skills were really good?

"Hehe, do you like it?" Mu Ting Ye also took Yu Shi Lan's dried meat to taste it. The meat was dried well, but the taste was a bit lacking.

"Yes. You're a good chef," Yu Shi Lan replied without hesitation.

"My brother threw me out just because he's annoyed by me. If I can't cook, I would have died out of starvation." Mu Ting Ye sneered when he thought of his past. He made a lot of troubles and then his brother didn't hesitate to kick him out and let him fend for himself.

Damn brother!

Just because he's younger by a few years, it didn't mean that he was not capable enough!

Well, it was also the truth that he ended up suffering for a period of time because he didn't know how to take care of himself.

"That's good. Oh right, the Lian Family..."

While the Mu Family was actually a relatively aristocratic family that wouldn't talk while eating, Mu Ting Ye didn't seem to care too much about his family rules and even actively breaking it.

His action really made other people speechless.

But Yu Shi Lan was not from the rich family's background, so she didn't know anything about the etiquette of the so called noble family. She felt that it was normal and Mu Ting Ye also didn't say anything.

In this way, the two of them basically got along well.

Through Mu Ting Ye, Yu Shi Lan managed to find out more about the Lian Family. This naturally also include the fact that the Lian Family is a martial artist family and that the other member of the Lian Family was better than Lian Lei Xu.

At least, most of them were better.

"Lian Lei Xu is nothing more than a pampered young master." Mu Ting Ye had a disdainful tone when talking about the other party.

Yu Shi Lan blinked her eyes.

"Mu Ting Ye, don't say that you're not the same," a voice interrupted from the side.

The two people who had almost finished eating raised their heads and saw two people wearing soldiers' uniform coming closer. From their posture, they seemed like martial artist instead of soldiers.

Besides, their aura was different from the righteous one that Yu Shi Lan could sense from Mu Ting Yu.

"It's not your turn to take care of me, Su Wan Xie and Su Wan Rou." Mu Ting Ye looked at the two people coldly.

Seeing the changes in Mu Ting Ye's aura, Yu Shi Lan took a look in his direction twice.

This was the first time she saw the young master so angry like this. It seemed that his relationship with these two people were really bad.

Su Family...

Yu Shi Lan thought about this surname for a moment before realizing that the Su Family and the Lian Family were close.
