

Last Days 69

Chapter 69 Magic Beasts? (2)

The three of them returned to the room and sat down on the floor. The situation in Amelia and Riya's room could be said to be the best.

The main reason was because of Riya's magic formation protecting the room. But Riya definitely wouldn't admit it even if she was asked to death.

Because she knew very well that the existence of magic might cause many disruption in this world.

Thus, Riya was determined to keep this secret to death.

But with these magic beasts appearing, there might be a chance for her to come forward and showed her magic.

"There's no signal here." Amelia tried to contact her brother and was in despair when she saw that there was no signal on her phone. Even if she wanted to contact her brother, she needed a method to contact him.

Seeing those magic beasts outside, the only thing Amelia wanted to do was to contact her brother and let him come here to help them.

No matter how much she quarreled with her brother, she knew that he was the most reliable person she could look for.

"What should we do now?" Ruby asked.

She was also trying to calm herself down from whatever she was seeing. No matter how unreasonable those magic beasts looked like, Ruby knew that this was the reality she had to accept.

Because even if she couldn't accept... she had to accept it within a few days.

"Build some protection in case they come up here even if the chance is low," Riya said and then sat down. "We have some food here and the electricity is still on for the time being. We can either stay here to wait for rescue or to come out and face those... magic beasts?"

The electricity was not cut off.

The earthquake was not enough to cut down all of the existing cables. Some connection might not be very stable right now, but for their dormitory, the electricity still existed.

Thus, if they wanted to stay here for the time being and waited for rescue, it was entirely possible.

Of course, if they didn't want to, there was also the option of coming out and face those magic beasts.

Riya herself could see that they were only unranked magic beasts. The strongest of unranked magic beasts was only equivalent to rank 1 magician. Not long ago, Riya had already advanced to rank 3, so even the strongest magic beast was nothing in front of her.

But if they had to fight, then Riya would have no other option but to expose her magic.

Because if they were to fight with their physical skill...

Hey, Riya silently raise a white flag.

Her physical skills were only enhanced by mana, which allowed her to do some things that were usually difficult to do. It was far from comparable to warrior and those magic warriors.

"Fight those magic beasts?" Amelia quickly shook her head.

She might have learn some martial arts and also swords skill from her brother, but if she was asked to fight these magic beasts, she actually had no confidence. After all, Amelia didn't know how strong they were and how strong she is.

Not to mention, the sight of the student being torn apart in front of them not long ago...

It was terrifying.

There was indeed some distance between them and the student because they were on the fourth floor. But the scene was presented in front of them and made them feel cold in their heart.

"Then we're staying here for the time being." Riya furrowed her eyebrows. "Do you know any other method to contact your brother?"

"There's no signal and I have no idea." Amelia smiled bitterly.

Riya thought about the transmission tower and felt that the tower might have long fell down because of the earthquake. After all, the ruins outside was not a joke.

In this situation, it would be hard for them to escape.

"In this case, let's gather our resources and then put them all in a backpack, ready to be brought out to escape. And if we plan to stay here, we need to put some blockade on the window and stairs to prevent these magic beasts from coming here," Riya said slowly.

The other two listened and then nodded.

It might not be the best option, but this was all they could do.

"I'll push some table outside. I hope you don't mind me taking some things out of your room, Ruby."

"No, I don't mind." Ruby shook her head. "I'll collect the food and put them together. The food that need freezer will be eaten first."

Thankfully, after experiencing the period of that mist, Ruby was already quite familiar with this matter. After all, when they were facing the mist, they had to sort their food and made sure they had enough to last for a long time.

"I'll help to gather the materials from our room to block the route," Riya said.

The others nodded.

With this, their division of labor was done.
