Cultivator in the Last Days Chapter 71: Noisy

Chapter 71: Noisy

'But he's not the one from the Su Family who confronted me in my previous life.' Yu Shi Lan's brain turned and then she frowned.

Why did it feel as if she has so many enemies?

It was somewhat annoying.

But Yu Shi Lan was not afraid.

She will solve all of these troubles one after another and completely solved these people. Perhaps only in this way would it be possible for her to truly reach the height she had long to reach in the future.

"Tsk, Mu Ting Ye, don't act high and mighty. Without your brother and sister, you're nothing." Su Wan Xie sneered.

He disliked a young master like Mu Ting Ye who only knew how to have fun and never do anything serious. Without Mu Ting Ye's older brother and older sister, the Mu Family would have been destroyed in his hand.

As someone who had entered the military with his own ability, Su Wan Xie was extremely proud of his ability.

His own cousin sister, Su Wan Rou, was even better.

She could also enter the military and helped him in many things.

So seeing someone like Mu Ting Ye wasting food for a waste like Yu Shi Lan, Su Wan Xie looked down on them even more.

If Yu Shi Lan were to know what they were thinking, she would be speechless.

A waste?

Are you sure about that?

"It has nothing to do with the Su Family." Mu Ting Ye snorted. "Go back and just play with the Lian Family. Don't bother me if you have nothing to do."

"You..."

"Do you dare to make a move?" Mu Ting Ye had already switched his stance and his hand was holding onto a knife that he carried with him. It was not known when he took it out, but his sharp gaze looked at the two people in front of him coldly.

His posture was half sitting, ready to make a move when necessary.

Seeing Mu Ting Ye's appearance, the two people didn't dare to make any rash move. They seemed to see a beast ready to pounce on them.

This made them hesitant and didn't dare to move.

Yu Shi Lan's eyes narrowed slightly.

This Mu Ting Ye...

Even though she was a cultivator, why did she kept on feeling danger from Mu Ting Ye again and again?

Is it because she was too weak right now?

"Mu Ting Ye!" Su Wan Rou's face twisted in anger and she was about to take out her weapon, but Su Wan Xie stopped her from being so impulsive.

"He's waiting for you to make a mistake." Su Wan Xie said lightly.

With Mu Ting Ye's intelligence, how could he not know what kind punishment awaited the two of them should they really attack Mu Ting Ye openly in this place?

He knew.

And he's waiting for them to fall into this trap.

"Tsk." Su Wan Rou snorted. "It's truly a shame of the Mu Family to have you, Mu Ting Ye."

After that, she didn't hesitate to turn around.

Su Wan Xie shook his head and then looked at Mu Ting Ye. "I don't know what you're thinking. But for the sake of my sister, you better hope your action would never interfere with the Mu Family."

It was then, Su Wan Xie also left.

Yu Shi Lan looked thoughtful.

It seemed that neither side was willing to take action and she glanced at Mu Ting Ye beside her.

"They're nosy," Yu Shi Lan commented.

What Mu Ting Ye do in the Mu Family should not be the business of these two people at all. Except if they were related with each other.

She still remembered that Su Wan Xie mentioned his sister just now.

"Ah, just old routine." Mu Ting Ye sneered. "Su Wan Lin is my brother's fiancée and they didn't like me."

And Su Wan Lin was close to the Lian Family, especially that Lian Lei Xu's older brother. Since Mu Ting Ye couldn't target the other party easily, he chose to pick Lian Lei Xu who was indeed a useless young master too to make fun off again and again.

Yu Shi Lan blinked her eyes. "You don't have to explain to me."

"It's better for you to know." Mu Ting Ye shrugged. "Lian Lei Xu's mother is from the Su Family, so the two families are close with each other. Those two people can be considered as his distant cousins. So if you want to make trouble with Lian Lei Xu, make sure to do it secretly if you have no backing."

Or you will die without knowing where.

Yu Shi Lan's eyes turned slightly cold.

Had the world not change, she was originally planning on confronting Lian Lei Xu at school and put an end to the farce. That young master was chasing after her just to protect his real sweetheart, which was really disgusting.

The people in school also always sided with others.

Whenever she got into trouble, the blame would be put into her.

Yu Shi Lan had long known that the world was filled with malice towards her, but she didn't realize that the power behind Lian Lei Xu was actually bigger than that.

Two rich families gather together.

No wonder he was so rampart and no one cared.

But...

So what?

Since he dared to provoke her, then Yu Shi Lan would never let him go.

She will make sure he paid the price for messing around with her.

In a way, the change of the world was actually in Yu Shi Lan's favor as it allowed her to survive even if the price was a miserable life on the Green Planet before she entered the cultivation world.

"So it's related to the Lian Family." Yu Shi Lan nodded.

"Yes, I'll never stop making trouble for them." Mu Ting Ye grinned.

Seeing the high spirited look on Mu Ting Ye's face, Yu Shi Lan couldn't help but laugh lightly.

Chapter 72: Wait, Why are You Talking about him?

Xiao Mao was still hiding in the pocket and she glanced at her master quietly.

How long has it been since Yu Shi Lan laughed so much?

Even in their previous life, Yu Shi Lan rarely laughed because she was so determined to get stronger and stronger. Her life was filled with almost nothing but training, making it almost impossible for Yu Shi Lan to have enough fun.

Was it because she had suffered too much?

Xiao Mao peeked out once more and saw Mu Ting Ye was cleaning up the heating boxes.

Hmph!

No matter what, this is a scheming man.

Her miss had to be careful!

"I'll get going now." Yu Shi Lan saw that it was not only that pair of cousin siblings who were looking in their direction unkindly but there were also others. It was obvious that her presence was basically unwanted here.

Not that Yu Shi Lan minded that much, but she didn't want to make trouble.

Besides, she had no intention to follow the military.

"You're not coming with us to the temporary base?" Mu Ting Ye asked with some disappointment.

"No." Yu Shi Lan shook her head.

"Ehh, I thought that the temptation of seeing Lian Lei Xu miserable will bring you back."
Mu Ting Ye shrugged.

Yu Shi Lan looked at Mu Ting Ye speechlessly.

Does she look like someone who like to see other people's miserable situation?

Hmm, if it was other stranger, she didn't really like it and would ignore it most of the time because it was useless for her to have too much compassion.

But if it was Lian Lei Xu, Yu Shi Lan was indeed somewhat tempted.

Just a bit, though.

"Meow." <Miss, don't forget that you can't train in the temporary base.>

Xiao Mao became even more wary to Mu Ting Ye. She remembered that when they were in the temporary base, Yu Shi Lan kept on being interrupted by others again and again.

It was to the point that Xiao Mao felt that her Miss's luck was really bad.

Yu Shi Lan knew that.

So even though she was a bit tempted by Mu Ting Ye's offer, she would not foolishly follow him to the temporary base.

"No, I still have some things to do," Yu Shi Lan replied politely.

Mu Ting Ye looked at Yu Shi Lan's face carefully and smiled brightly. "In that case, I won't hold you back, Yu Shi Lan."

Yu Shi Lan nodded and took her bag to leave.

"Oh right." Mu Ting Ye's voice came from behind before she could walk more than five steps away. "The three girls who made trouble with you some time ago passed away a few years ago due to the lack of medicine in the temporary base."

Yu Shi Lan blinked her eyes, not very surprised.

Even though she regretted that she was not strong enough and couldn't launch fatal attack in that situation, she knew that it would be difficult for them to survive. Their injuries will be hard to heal.

"Meow?" <There's such a good thing?>

Xiao Mao was also surprised that the three girls who used to make troubles with Yu Shi Lan had already died. It seemed that her Miss had only taken action once, right?

Those people were too weak.

Yu Shi Lan didn't reply to Xiao Mao and only said, "I see."

After that, she left.

There was not even any fluctuation of emotions when the other party talked about other people's lives as if it worth nothing.

But perhaps...

It was indeed not worth anything for most cultivators who had killed so many people for various reasons.

Mu Ting Ye watched as Yu Shi Lan left and tilted his head.

As he had expected, this girl is really interesting.

The composure when facing the danger, the indifference when facing death, and the rationality when discussing with others, it was not what a high school girl could possibly have.

Rather, it was more like someone who had been in the society for a long time.

No, not only ordinary society but rather a dangerous one.

Ah~.

It was really interesting.

"Mu Ting Ye, you better not start thinking of making trouble again." Mu Ting Yu frowned when he saw Mu Ting Ye's smile when his younger brother joined with the army again.

"What are you talking about, Brother?" Mu Ting Ye gave a flattering smile.

"Don't think that I don't know how you have been making trouble in the past few days." Mu Ting Yu looked at his younger brother with a frown. "If you want to do things that are not convenient for others to see, you should not be so blatant."

After that, Mu Ting Yu left.

Mu Ting Ye stood still on his place and then restrained his laughter.

He knew that his brother is an upright and kind person, but as his younger brother, he only felt that his brother was too naive. However, he's not stupid and naturally knew what Mu Ting Ye has been doing.

Still, Mu Ting Yu said nothing and never interfered.

"Don't worry, the Mu Family will stand tall." Mu Ting Ye looked at the Demonic Mantis' corpse and felt that it was time for him to start contacting his master to find out more about these things.

...

Yu Shi Lan didn't know anything that happened between Mu Ting Ye and Mu Ting Yu after she had left.

After all, she was not that close to that pair of brothers.

She didn't have much interest to participate in the other things that she never knew in her previous life. Besides, politics and business were not her forte.

And once she left the port, Yu Shi Lan started talking with Xiao Mao.

"Xiao Mao, do you think that the demonic beasts will appear in a large amount in a short period of time?"

"Meow." <Miss, you have to stay as far away from Mu Ting Ye as possible!>

Yu Shi Lan: ???

Wait, why are you talking about him?

Chapter 73: Killing

"Xiao Mao... you seem to dislike Mu Ting Ye so much." Yu Shi Lan was honestly speechless.

She herself didn't pay that much attention to Mu Ting Ye and only chatted because she did want to find out about Lian Lei Xu's situation. Besides, Mu Ting Ye's ability to gather information was really good.

So good that Yu Shi Lan didn't even know how he managed to train his body to be so strong like that.

Oh wait, there was still the martial arts on the Green Planet that interest her.

But for now, Yu Shi Lan wouldn't ask.

"Meow!" <He's a scheming man, Miss! You have to stay as far away from him as possible! I don't want to see you get hurt because of him!>

If Xiao Mao was not so small and was being confined inside Yu Shi Lan's pocket, she would have long scratched Mu Ting Ye's face.

Hmph!

Dare to scheme against her Miss, then he had to be prepare for retaliation.

"...Forget it." Yu Shi Lan rubbed her head.

Xiao Mao was really extreme.

But this cat really complement her personality very well. It was also because of this reason that the two of them could get along well when they were in the cultivation world.

"Meow?" <Miss?>

"Back to the topic... how long do you think it'll take for those demonic beasts to appear?" Yu Shi Lan asked calmly.

"Meow." <Probably within five days, but I can't say for sure. It will depends on their ability to absorb the demonic Qi in the air. That Demonic Mantis has good qualification to be able to become bigger so quickly, but it's too impatient>

Xiao Mao shrugged.

Many geniuses for both humans and beasts have appeared thorough the ages. But not many people truly managed to climb up.

Because no matter what, talent is nothing more than potential.

If this potential is not tapped and left alone, it would definitely not yield to anything.

Yu Shi Lan had seen so many so called geniuses fell early in their lives.

So she just nodded at Xiao Mao's words.

At this moment, she headed to the nearby mall and frowned when she saw the group of people there. Seeing them carrying metal pipes and other types of weapon along with huge backpack on their back, it was easy to guess what they were doing here.

'Do you want to confront them?' Since there were outsiders, Xiao Mao didn't even bother to meow and asked directly inside Yu Shi Lan's mind.

'No.' Yu Shi Lan shook her head.

Even if one is powerful, there was nothing wrong with them being cautious.

No one wanted to overturn so suddenly and unexpectedly.

The two of them stayed still for a while until the group of people left and then Yu Shi Lan entered the mall. She directly headed to the jewelries store and then looked for the contents there.

It has been searched and many things were missing.

Tsk, it seemed that many people still knew that gold would be valuable currency, so they took it away with them.

But what they didn't know is that it will depreciate in value very quickly.

At least, for the next few years, no one would want gold even if it's shoved to their face.

Yu Shi Lan swept her gaze before landing on the safe at the back. The people who came here failed to open it, so she crouched down and then raised her finger. The Qi inside her body came out and she fiddled with the lock.

Click.

It opened.

"Meow..." <For the first time, I feel your fiddling with the Qi in the early years is not that useless.>

Yu Shi Lan's lips twitched.

What could she do?

When she went to the secret realm, there were many places that were locked with various keys and the battle to find it will definitely end in bloodsheds. She felt that rather than fighting with them, it's better to learn how to lock pick these keys first.

So she basically spent her time learning from some thieves.

Cough

This resulted in her being a very unconventional cultivator.

A very down to earth one.

And also someone whose style and demeanor would make people speechless.

However, a complicated lock would still be impossible for Yu Shi Lan to open. After all, some powerful cultivators wouldn't let others take their treasure easily, so this method didn't always work.

But for relatively simple locks, it was not a problem for Yu Shi Lan to open it.

Looking at the content inside, there was some banknotes and jewelries. Yu Shi Lan was not interested in the gold and she didn't really want to keep these things.

Who knew when they would be valuable again.

It would be nothing more than a waste.

And in the cultivation world, gold and silver were the least valuable for cultivators. They were only valuable in the mortal world and most of them wouldn't even bother taking a look at it.

What they valued most are spirit stones.

These spirit stones are basically the money that they used for transaction with each other in the cultivation world. It could also be used to meditate through drawing the Qi from inside the spirit stones.

These were the real valuable for cultivator.

Unfortunately, there were no spirit stones on the Green Planet.

No matter how much Yu Shi Lan wanted it, she knew very well that it would be impossible for her to get any of them.

'Hmm, these jades are not bad...'

Yu Shi Lan looked at the jade and after taking it, she closed the safe again. In this way, the previous owner might be able to retrieve what was left and wouldn't be left alone with nothing.

She didn't have anything to give to the other party, though.

After a moment, Yu Shi Lan turned around and planned to leave. But she frowned when she saw a few people blocking the entrance of the mall.

"Boss, there's definitely someone nearby. The position of these rocks have changed!"

"We just need to ambush them when they get out."

Chapter 74: Killing (2)

Warning: the content below might not be suitable for children under the age of 13. If you're under this age, please read with caution. (Contain: cruel murder method and description)

Yu Shi Lan's eyes turned cold.

She had long known that there were people who would definitely try to take advantage of other people after the earthquake.

Even if these demonic beasts hadn't appeared, human had to struggle due to the lack of food and all. But to think that they were even too lazy to search for resources and were already thinking of exploiting people.

Yu Shi Lan is angry.

She hated this kind of scums and a knife appeared on her hand. Even now, she still couldn't find a suitable weapon and a knife is better than nothing.

Xiao Mao sensed the strong emotional fluctuation from Yu Shi Lan and quieted down.

She knew how much Yu Shi Lan hated this kind of people. It was because they had suffered after they obtained treasures and then tried to escape. Some people guarded the exit and the two of them had to fight both the people at the front and the back.

It was a devastating battle.

One that nearly cost them their lives.

So seeing these people wanted to block Yu Shi Lan, even if it was only for a small amount of resources, Xiao Mao knew that it would be impossible to stop Yu Shi Lan.

At the same time, she didn't want to stop her either.

A cultivator had to be brave when they should be, daring when they had to, and cautious on normal basis.

Yu Shi Lan sneaked closer to the entrance and looked through the window. Seeing the number of people outside, her eyes flickered and she slipped out through a broken window.

What these people thought a very tight trap was nothing more than a loose formation in Yu Shi Lan's eyes.

'Eight people.'

It's a bit too much for her right now, but Yu Shi Lan didn't want to let such scum alive. Who knows how many innocent people will end up dead in their hands in the future.

Though, her anger was mostly because they were targeting her.

Yu Shi Lan couldn't care about other people in the future.

She just wanted to kill them all right now.

Swish!

She sneaked behind the separate two people and the knife in her hand moved, slashing through the knife of the first person from the back. The man's eyes widened and he couldn't register what had happened as blood spurt out.

Before his friend could realize what had happened, Yu Shi Lan had already moved behind the second person and performed the same trick.

Slash!

Blood spurted out.

Two people, their neck was cut open right on their arteries and blood gushed out like a waterfall, staining the ground red.

The two people have their eyes wide open as they didn't realize what had happened.

Yu Shi Lan looked at these two people coldly.

While she was affected by the memory of her first act when she saw her classmates, she had already suppressed those thoughts to the back of her mind when she first kill someone again in this world.

As a cultivator who wanted to become stronger, how could she possibly avoid killing?

It's imposible.

Thud!

The two people fell and Yu Shi Lan didn't pay attention to them anymore. She went around the mall to the other side and locked onto the two people who were staying separately once again.

A cold light flashed within her eyes.

Swish! Slash!

The two of them suffered the same fate as the previous two people.

The remaining four people were guarding the main gate and it would be difficult to catch them off guard and killed silently without alarming the others.

Yu Shi Lan's physical strength was definitely not as strong as how she used to be.

A frontal confrontation wouldn't be good for her.

But she didn't want to let them go.

Since they wanted to kill her, she will be the one to strike first. Either killing them directly or setting the condition for their own inevitable death.

The aura around Yu Shi Lan turned chilling.

Inside her pocket, Xiao Mao buried her head inside her paw and didn't dare to come out.

Yu Shi Lan looked sweet and frail, but the path she had chosen was extremely bloody and cruel.

It was really difficult for others to imagine her as a cruel murderer, but this is the truth.

Besides, there are reasons for her every kills.

Though, Xiao Mao had no intention of putting Yu Shi Lan on the righteous side.

Cultivators often followed their own set of conducts or to be precise, their own heart. While some of them still conform to the normal moral standard outside, some of them were downright evil and didn't want to do this.

They just wanted to live freely in the way that suited them the best.

Swish!

The next moment, Yu Shi Lan moved behind one of them at a tricky angle and killed the nearest person.

"Who?"

One of them had just reacted when the second person has been killed.

"Run!"

The boss saw that someone had already started killing and realized that he wasn't an opponent, so he didn't hesitate to throw his so called subordinate to block the blow from Yu Shi Lan.

His subordinate was filled with disbelief, but he still raised his weapon, trying to resist as much as possible.

His movements were clumsy and Yu Shi Lan swiftly avoided it and then stabbed the other party's heart.

Once it was done, she ran towards the last person.

The man was still running away and when he sensed someone getting close to him, he tried to turn around and swung the metal pipe. But Yu Shi Lan was faster.

Swish! Slash!

One blow and the man's neck was slashed open.

Yu Shi Lan looked at the man who fell down indifferently and wiped the blood on her knife on the man's clothes.

Cold and ruthless.

Everything was done very quickly.

Chapter 75: Cute Cat

"Meow." <Miss, how's your Qi and muscles?>

Only when everything was done did Xiao Mao showed her presence again. When Yu Shi Lan was in that killing mode, she didn't dare to disturb the other party either. This was because Xiao Mao knew very well how terrifying Yu Shi Lan could be when she's angry.

It was quite novel that other cultivators were usually quite level headed in their behavior and thinking.

But when it came to Yu Shi Lan, she was the polar opposite.

Her every movements and conducts were filled with emotions.

Yet despite her emotions often becoming her driving point, she still managed to rise high in her cultivation.

It was bizarre.

But Xiao Mao wouldn't dwell on it as long as it's a good thing for her Master.

"I'm fine," Yu Shi Lan replied as she exhaled.

Venting her anger like this was good, but it was indeed not good for her to unleash her killing intent arbitrarily. She still has to hold back because her body was simply too weak.

Thinking about this, Yu Shi Lan shook her head helplessly.

Many people were eager to get stronger so that they could learn more powerful moves. But Yu Shi Lan had to get stronger or she wouldn't be able to use the strong moves that she had already learned before.

It was quite amusing.

"Let's go to the resort that we decide before."

"Meow~." <Yes~."

Even though Yu Shi Lan said that, Xiao Mao basically didn't have to do anything and simply stayed inside Yu Shi Lan's pocket as they traveled through the familiar road.

Thankfully, there were no other incidents along the road.

While Yu Shi Lan did see some people who were roaming around either alone or in a group, she avoided meeting them. Some of them might be ordinary people and had kind heart, but many others were people whom she would never want to meet in her entire life.

Rather than provoking more people, it's better to go back and rest.

Upon arrival in the villa, Yu Shi Lan put Xiao Mao down on the sofa.

"Meow?"

Xiao Mao was stunned and then slumped on the soft sofa. She pressed her paw to prop her body, but it sink further and barely gave her enough energy.

Thud!

She fell on the sofa again.

Xiao Mao: ???

What kind of materials are these?

She looked at the fabric below her and wanted to scratch her claw on it. But after seeing her soft claw, Xiao Mao fall into silence.

Ahhh!

She just wanted to grow up quickly!

"Pfft."

Yu Shi Lan was amused when she watched Xiao Mao's antic, but then she prepared dinner for the two of them. Anyway, the dinner was simple.

A milk for her.

And a plate of canned meat for Yu Shi Lan.

It was obvious that she was too lazy to cook at this point of time.

"Meow?" <Just a glass of milk?>

Xiao Mao looked at Yu Shi Lan with disbelief. She's a Soul Spirit Cat and not an ordinary cat!

She didn't want to drink milk like an ordinary kitten!

Yu Shi Lan chuckled and then took out a box of supplies. Xiao Mao was suspicious, but she still walked towards the box and looked at it. Her eyes widened when she saw that it was a box of milk powder. Looking at it, it must be the milk powder for her because a little kitten couldn't survive drinking normal milk for some reason.

She forgot what it was.

Stomach problem, probably?

Anyway, they needed special milk in order to raise them.

"Meow?!" <Why did you even pack these up for me? I don't need it! I can eat normal food>

"You can indeed eat it, but you digested it too slowly." Yu Shi Lan pointed at Xiao Mao's stomach. "Last time you eat the meat and you nearly can't sleep at night."

Xiao Mao opened her mouth, wanting to protest again.

But seeing Yu Shi Lan's gaze, she could only lower her cat head guiltily. Because it was true that she disturbed her Master's rest because she felt restless and couldn't sleep.

It was not wrong to say that she could eat anything.

But her current body was not suitable to eat too heavy food.

"Meow?" <So I have to settle with milk?>

Xiao Mao felt that it was really bad.

"I will still prepare your snack for you," Yu Shi Lan added and then took out the dried fish. No matter what, she wouldn't mistreat Xiao Mao and let this cat grew up quickly.

The moment Xiao Mao saw the dried fish, her eyes lit up and she completely forgotten the fact that she could only drink milk and eat dried fish later.

"Meow!" <Fish!>

Seeing the cat so happy, Yu Shi Lan breathed a sigh of relief.

After settling the noisy cat, she started her own practice in the living room of the villa. She moved the furniture away to make a spacious room for her practice and started moving around.

There were a lot of things that she planned to do and before the end of this month, she had to reach the peak of Qi Refining Rank 1 or she might not be able to survive.

Those demonic beasts were indeed weak during this period of time, but they will get stronger.

Moreover, this is not the only threat present.

As days goes by, Yu Shi Lan continued her practice in the villa undisturbed.

Perhaps it was because most people wouldn't look for supplies in the villa for the time being, but no one came to pay a visit.

Yu Shi Lan herself was happy for this.

She didn't like being interrupted by others.

Aside from taking medicinal bath, which further strengthen her body, Yu Shi Lan managed to become stronger very quickly. She reached her goal of achieving the peak of Qi Refining Rank 1 by the end of the month and her appearance no longer looked so sickly.

Chapter 76: Who is It?

Instead, there was a healthy glow on her face.

Looking at her appearance in the mirror, Yu Shi Lan was satisfied.

It took her a long time to reach this stage in her previous life but now it only took a month.

"Meow." <To be precise, a month and a large number of medicine and food. With your economic situation before, you wouldn't be able to afford it, Miss>

Xiao Mao was basically busy watching Yu Shi Lan from the side and did nothing.

Yu Shi Lan pursed her lips and rubbed Xiao Mao's head in annoyance. "I don't need you to tell me this!"

She naturally knew that her economic situation before would definitely not allow her to live such a lavish lifestyle. For her body to recover quickly after a long period of malnutrition would not be easy and Yu Shi Lan didn't have much hope under normal condition.

But with the help of Qi and also plenty of medicinal herbs, it was made possible.

"Meow!" <Get away from me!>

Xiao Mao waved her paw angrily, preventing Yu Shi Lan from getting close to her. She felt that her Master is really annoying at times.

Hmph!

Her hair and fur are getting messy again.

Yu Shi Lan smiled slightly after seeing Xiao Mao in such a mess, feeling rather refreshed. After all, Xiao Mao was indeed easy to tease and it was fun to see her in such a situation.

"I'll have to look for other sources for the medicinal materials," Yu Shi Lan said with a sigh.

When she first took those medicines and left enough money behind, she thought that it would be enough.

Who would have thought that it was far from enough?

It was used up very quickly and it might only last until she reached Qi Refinement Rank 2.

The cultivators at Qi Refinement rank were still relatively weak and their use of Qi was also extremely limited. Many of them couldn't even get their Qi out of their body before it dissipated.

"Meow." <Try to look at other stores or collect it yourself. There should be some mountains, right?>

Xiao Mao tilted her head.

"Meow." <Also, you don't actually need to use the medicinal herbs for your cultivation, Miss. It's enough for you to cultivate normally.>

Neither Xiao Mao or Yu Shi Lan actually have much hope of finding cultivation resources on the Green Planet. This was because they both knew very well that the current situation on the Green Planet was very different from the cultivation world.

This might also because of Yu Shi Lan's lack of knowledge.

But they never heard of any cultivators appearing on the Green Planet and so on.

Even if Yu Shi Lan's information gathering ability was limited, she never even heard rumors about cultivators or strong men in her previous life. It has always been the soldiers who stepped forward to deal with those mutated beasts (demonic beasts).

"Yes, but my speed will definitely slow down," Yu Shi Lan said helplessly.

If she wanted to maintain her current strength improvement speed, she would need a large amount of resources.

This wouldn't be easy.

"Meow." <It's only temporary. Besides, when you reach higher realms, the most important thing will be your comprehension and not resources.>

It wouldn't do any harm for Yu Shi Lan to spend more time consolidating her foundation.

Though, Xiao Mao herself actually wished her Master to advance faster.

Because the contract with Yu Shi Lan would make Xiao Mao able to return to her original strength if Yu Shi Lan were stronger. But she was not that impatient as she believed in her master and her own intuition.

"You're right." Yu Shi Lan chuckled and then carried Xiao Mao before taking out the milk again.

Xiao Mao: "..."

She felt that being treated like a baby again after she had grown up would definitely be the most shameful experience in her entire life.

But she also couldn't say that she didn't want to drink the milk.

Her body is more honest.

She's really hungry.

Since Yu Shi Lan didn't let her eat too many strange things, Xiao Mao started to get used to drink milk. As much as she didn't want to, this seemed to be the best option. She just felt humiliated.

Though, Yu Shi Lan only felt that it was amusing.

Once she had fed Xiao Mao, she planned to focus on her training again, but her gaze moved towards the door of the villa.

There are people coming over.

In the past few days, Yu Shi Lan had been living peacefully, allowing her to focus on training and reaching the peak of Qi Refining Rank 1.

The feeling of gaining her strength back made her very happy.

After all, it was not that easy for Yu Shi Lan to practice and get stronger in a peaceful environment without anyone bothering her.

Yu Shi Lan looked at the window.

At this time, the face of a burly middle aged man was pasted on the window. He was wearing a green raincoat and looked extremely scary under the light.

But for Yu Shi Lan who had seen worse, this man was not terrifying.

Pretending to be a ghost in front of a cultivator?

If they were not afraid of being hit by a spell by the cultivators instead, they could try to do it.

Yu Shi Lan frowned and wanted to take action, but the man suddenly disappeared when he sensed their gaze.

"Meow?" <Who is it?>

Xiao Mao also raised her head and frowned.

It was raining outside and the temperature was really cold, so it was not surprising to see people wearing thick raincoat outside.

But the man behavior looked strange.

She was instantly alert, worried that someone wanted to take advantage of Yu Shi Lan again.

Before Yu Shi Lan could answer, there was the sound of door knocking from the front.

Bang! Bang! Bang!

"Please open the door, the company is delivering supplies."

Chapter 77: False Claims

Delivering supplies?

Is there such a good thing?

"Meow?" Xiao Mao looked confused.

Yu Shi Lan's brain was working at rapid speed and she glanced over at the other villa resort nearby. This area was badly hit by the earthquake, but some places were still livable.

It was not an exaggeration to say that there were definitely people living there.

And for many people, the earthquake should be an ordinary accident instead of a worldwide one. They would think that there were people who could come forward and help them when it was time, so they only needed to focus on survival.

But it has been almost a month since the first earthquake and strange rain happened.

Demonic beasts had already started to appear even if it was not around this area temporarily.

But some people might have gotten tired of waiting.

They were hungry.

So they started to use various means to obtain resources and so on.

There were no people who came here in the past few days and Yu Shi Lan didn't believe that the administrator didn't know that the person who came here was definitely not the original occupant.

"Meow." <Don't open the door.>

Xiao Mao stood in front of Yu Shi Lan as if she wanted to protect the other party.

While Yu Shi Lan was touched by Xiao Mao's action, but her lips twitched when she saw the kitten's body size.

With such a small body, Xiao Mao really think that she could deal with an adult?

Who is she kidding?

Yu Shi Lan silently pulled Xiao Mao back and put her inside her own pocket, preventing the cat from making trouble again. It would be better for her to focus on the battle without having to worry that Xiao Mao would get hurt.

Xiao Mao was stunned.

And then she sank quietly inside Yu Shi Lan's pocket.

Being such a small cat is really troublesome.

Xiao Mao really wanted to regain her big body as the Soul Spirit Cat again instead of this small kitten without any fighting power.

Yu Shi Lan didn't pay attention to Xiao Mao.

Bang! Bang!

"Please open the door, this is the company sending resources," the man repeated again, feeling somewhat impatient.

He had already seen from the window that there was indeed someone inside the room and it's just a young girl with a cat. Such a weak woman would be easy to subdue and then he could search around the room to find resources.

Thinking about it, the man knocked the door even harder.

But seeing that there was no response, he took out the card that he had obtained.

Beep!

The man was naturally not the villa administrator. After the earthquake, the villa administrator had checked every household and helped to resettle some of them. The rest were still here and they didn't have enough resources to feed everyone, so he hadn't delivered the resources in a long time.

What they hoped was for the military to arrive as quickly as possible.

In any case, when the villa administrator was resting, this middle aged man accidentally found the other party. Knowing the apocalyptic situation outside and feeling greedy for food and resources, he killed the villa administrator and obtained the card.

In this way, he could open all the villa resort.

As he pushed the door open, he found out that it was blocked by the door chain.

But this is nothing to him.

Just pick and pull would solve the problem.

The middle aged man has just been released from prison some time ago. He had originally planned to use the money given by his brother to have fun, but who would have thought that the earthquake would happen.

And the military was really slow.

They only focused on gathering resources and building the base, seemingly telling the outside world that there were no other safe cities.

The situation outside is very chaotic.

This fueled his greed and he wanted to get more resources. Seeing that there's only one beautiful girl here, he felt very lucky.

He pushed the door open and grinned. "The company sent supplies! A lot of supplies for you..."

Jleb!

The next moment, the middle aged man stopped moving.

A knife has pierced through his forehead, directly killing him.

The middle aged man didn't even know what had happened before he died. The steel pipe in his hand fell to the ground with a clang, rolled down the steps into the rain.

Yu Shi Lan looked at the middle aged man and snorted.

Opening the door without permission while carrying a steel pipe, which idiot would believe that he's here to deliver supplies?

It was more like he came here to rob people.

"Meow?" <The villa administrator is so shameless now?>

Xiao Mao looked confused.

This villa resort looked rich and the people who lived here are definitely people with a lot of money and so on.

Was there any need for them to rob these occupants?

"He's not the villa administrator." Yu Shi Lan looked at the middle aged man that had fallen to the ground and approached it calmly.

She could sense that this man was definitely not the villa administrator and he should have obtained the card through some despicable means. Bending down, she pulled the knife out and blood gushed out like a foundation.

She looked at the corpse with disgust and then kicked it out outside.

Once outside, the body was swept away by the rain and soon disappeared into the distance.

She looked at the bloody knife in her hand and walked outside to the rain to wash it.

"Meow." <Miss, don't expose yourself to the rain! Even if your body is already stronger, it's not advisable to do this>

Xiao Mao was thinking about Yu Shi Lan's words that the middle aged man was not the villa administrator that she missed Yu Shi Lan's action.

Seeing Yu Shi Lan wanted to go out, Xiao Mao hurriedly stopped the other party.

Chapter 78: False Claims (2)

"I'm only planning to wash the knife." Yu Shi Lan was speechless.

Who would want to go out in this weather?

Even though cultivators would be immune to cold and heat in the future, the current her was still too far away from that stage.

And Yu Shi Lan didn't really think that it would be possible for her to reach that stage anytime soon. Without enough resources, cultivators would take a long time to advance through ranks.

"Meow." <Oh.>

Hearing Yu Shi Lan's words, Xiao Mao stopped worrying and instead looked at the blood outside the door thoughtfully.

Yu Shi Lan had also seen it, but she didn't care.

The rain will wash everything away and she didn't need to take care of it herself.

"Let's eat something first. I'll prepare the milk for you." Yu Shi Lan didn't think too much about killing people.

Since this man wanted to kill her, then he had to be prepared to be killed back by her instead.

Kill or be killed.

Xiao Mao nodded and looked at the milk and dried fish in front of her. Without hesitation, she chose to eat the dried fish first.

She liked these more than the milk.

At the same time, Xiao Mao understood that Yu Shi Lan was going to slowly but surely follow the same path as she used to be in her previous life.

She lowered her head.

A cultivator's path is something that only the person involved could interfere.

No matter whether it's a good path or not, Xiao Mao would never interfere in Yu Shi Lan's choice.

In a way, Yu Shi Lan's mental state is very good.

Even after killing someone, she could still eat.

Ordinary people wouldn't be able to have such peaceful mental state like her.

As she was eating, Yu Shi Lan looked outside, her mind was thinking about her previous life. Around a month after the earthquake, rain will fall continuously and the water level will slowly rise.

Coupled with the fact that many people's living residences were not really adequate, a large number of people will die in the next period of time.

Series of disasters seemed to fall on the Green Planet one after another.

Yu Shi Lan lowered her eyes.

But even if she knew what would happen, so what?

It's better to focus on her own life.

Boom!

In the rainstorm, flames shot straight into the sky as if it want to block the rainstorm that fell continuously. The loud sound swept across the areas, startling everyone in the vicinity.

Yu Shi Lan squatted down and protected her head when she heard the explosion.

Her current body couldn't possibly withstand this explosion just yet.

"Meow!"

Xiao Mao was trembling and cursed out loud.

There were no cultivators fighting around but they still have to hide?

It's outrageous!

While Xiao Mao was cursing, Yu Shi Lan could sense that the ground was shaking and the windows were rattling. It was obvious that the source of the explosion was not that far away from this villa resort.

After a while, the shaking stopped.

Yu Shi Lan saw that the villa resort was still intact and guessed that whoever designed this place should have done a good job and selected the best materials for construction.

It was now cheap for them who lived here.

She walked to the window and looked outside.

Flames and smoke was billowing in the distance and Yu Shi Lan's eyes narrowed.

Because this place was still within the resort area.

So it should be one of the facilities here that was affected.

"Meow?" <Miss, will it be fine?>

Xiao Mao looked worried.

She wanted to check outside, but the rain and the cold temperature made her unwilling to do so. It was only thanks to the contract with Yu Shi Lan that Xiao Mao would not froze to death.

But if she was too far away from Yu Shi Lan, the effect of the contract will be weakened and Xiao Mao might fall into danger.

Her current body was too weak.

And Xiao Mao was simply too restless.

"Ah... there might be some conflicts out there," Yu Shi Lan replied.

She looked at the rain and her eyes flickered.

The rain will not stop until one month later and at that time, many lower areas would have been flooded. This city was located at higher grounds and the military opened up the water channel, allowing them to survive with only some specific street being flooded.

This villa resort should be fine.

"Meow?" <Do you want to intervene?>

"No."

Yu Shi Lan was not such a busybody.

And in the cultivation world, it was said that people who knew the current affairs will definitely live longer.

Knowing too much might only bring disaster.

So Yu Shi Lan didn't pay attention to this matter and chose to focus on her training.

Days passed by quietly.

With the resources that Yu Shi Lan had stocked up before, there would not be a problem for her to be a hermit for an entire year. Of course, it would be very boring, but neither Yu Shi Lan or Xiao Mao thought that it was a problem.

The two of them were extremely patience.

And Yu Shi Lan finally reached Qi Refinement Rank 2 peak and used up all the medicine that she brought with her. By now, she no longer looked sickly anymore and looked rather cute as a 17 year old girl.

Of course, people who saw her killing without batting an eyelid would never think of her as cute.

But Yu Shi Lan noticed that more and more people were coming to the villa areas.

It was obvious that the situation below should be bad with the continuous rain and many people lost their shelter. They wanted to try their luck in this place and picked the empty villa resort to stay together.

For the time being, they avoided the villa resort with people.

But Yu Shi Lan knew that this peace wouldn't last long.

Chapter 79: Asking for Help?

These people will definitely target her when they saw that she never got out.

Yu Shi Lan felt a faint headache.

She really didn't want to get involved with these people's schemes.

What she wanted just to wait until the rain stopped and then headed to the official base in order to find her foster parents and take the revenge she had long wanted to take. Once that was done, she will focus on her own life and strength improvement.

Yu Shi Lan's eyes narrowed slightly.

She looked outside at the people who were traversing in the rain and her eyes contained no emotions.

It was pure indifference.

"Meow." <Is it time to leave, Miss?>

Xiao Mao felt that with Yu Shi Lan's current strength, there would not be any problem even if she wanted to travel in the rain.

"No, the rain will stop in a few more days. That's when we'll leave," Yu Shi Lan replied.

Her strength improvement felt rather slow and Yu Shi Lan was actually hoping that she could reach Qi Refinement Rank 3. But then again, cultivation couldn't be forced and the amount of Qi that she could use had already increased.

Next time, she should find some place with higher Qi concentration so that she could train faster.

The Qi concentration in this area was not very good.

With that in mind, Yu Shi Lan nodded to herself.

"Meow!" <Then, can you improve my meal? I'm so tired with milk!>

Xiao Mao had the feeling that Yu Shi Lan was simply treating her as nothing more than an ordinary cat, which pissed her off greatly. Even though her current strength and appearance was indeed not much different from that of a kitten, but she's still a Soul Spirit Cat inside!

It just will take some time for her to recover her strength.

Yu Shi Lan glanced at Xiao Mao speechlessly. "I have already started giving you cat food and more dried fish!"

The current Xiao Mao's body was only slightly bigger than that of a kitten. Seeing Xiao Mao's current appearance, Yu Shi Lan didn't think that it would be a good idea to let her eat too much strange things.

"Meow!" <Not enough!>

"Stop making trouble." Yu Shi Lan poked Xiao Mao's head speechlessly.

She really couldn't understand why this cat really love to make trouble.

Xiao Mao looked at Yu Shi Lan with an aggrieved look.

Yu Shi Lan had never experienced the feeling of becoming so weak and pitiful like this... uh wait, if Xiao Mao dared to say this, it was estimated that Yu Shi Lan will spank her.

After all, the current Yu Shi Lan was already far weaker than her previous strength and it was only thanks to her training in the past month that Yu Shi Lan managed to reach the peak of Qi Refining rank 2.

From an extremely weak body that could be easily blown by wind to a strong body like now, Yu Shi Lan had worked extremely hard.

After all, her starting point was extremely low.

If she didn't have to make up for her body's nutrition, it was estimated that Yu Shi Lan would have been able to reach higher stage.

"Meow."

Xiao Mao moved around, trying to avoid Yu Shi Lan's hand. Even though her body was harder to control, but after more than a month of training, she could already control her body better.

In this way, the cat was nimbler and more adorable.

cough

Yu Shi Lan chuckled.

"Meow." <So, which base do you plan to go?>

There were a few official bases and with Yu Shi Lan, even if she wanted to go to other bases in other cities, it would not be a problem. There were only a few demonic beasts roaming around and the heavy rain couldn't stop her.

The temperature was indeed cold, but as a cultivator, Yu Shi Lan had her Qi regulating inside her body.

This way, the cold or hot temperature wouldn't affect her that much.

The only difference is that she will have to use more Qi when the temperature is much colder or hotter to regulate her body's temperature.

That's all.

And it was not a big problem for Yu Shi Lan.

"This city's base," Yu Shi Lan replied without hesitation. Her foster parents will be in this base and Yu Shi Lan would not let them use her father's name to make trouble anymore.

She didn't know whether they would have arrived in the base at this time, though.

After all, she came to this base after months of staying in another base due to some reasons.

Yu Shi Lan's eyes darkened slightly when she thought about the other bases.

Unfortunately, she didn't want to go there.

"Meow!" <NO! Don't go to this base!>

"Why?" Yu Shi Lan looked at Xiao Mao in confusion.

"Meow!" <That b*stard Mu Ting Ye is in this city's base! If you go there, you will definitely meet him again and then he will definitely trick you...>

Yu Shi Lan: "..."

She didn't understand why Xiao Mao hated Mu Ting Ye so much.

"I have to be in this base not because of Mu Ting Ye, but there are revenge that I have to take," Yu Shi Lan explained patiently.

Xiao Mao opened her cat's mouth and then closed it again dejectedly.

Before Yu Shi Lan could coax the cat, the doorbell rang.

Ding dong!

Yu Shi Lan was doubtful and looked at the door. Through using her magic spell, she could see that there was a very haggard woman standing in front of the door. She was carrying a baby in her arms and her entire body was wet.

Rain drops fall from the tip of her hair, making her look extremely pitiful.

She rang the doorbell again and again, hoping someone in the villa would open the door.

"Please open the door and give me something to eat... please, the child is starving."

"Please... help us."

Chapter 80: Cruelty

The woman looked extremely pitiful, but Yu Shi Lan only glanced once before she ignored the other party.

She guessed that the woman should be living nearby and also among the batch of people who came up to the villa recently. She should have guessed that Yu Shi Lan was still inside because the door was locked and there were traces of activity from inside.

After all, Yu Shi Lan was not really seriously hiding her presence.

"Meow." <Is she really calling for help?>

Xiao Mao had a strange expression on her cat face.

Yu Shi Lan shook her head, a trace of disdain appeared within her eyes. "Even the scammers in the cultivation world are a hundred times smarter than this."

If one have children, they wouldn't walk in heavy rain while holding their children, right?

Even adults would feel pain when the rain fell on their face and many catch a cold and fever if they were not careful.

Yu Shi Lan only dared to go out because she had strengthened her body and advanced to the peak of Qi Refinement Rank 2.

But even then, she chose not to.

Because she will definitely waste a lot of Qi to regulate her body.

There was no need to seek trouble.

And this woman brought a child outside in this kind of heavy rain and cold.

If a child catch a cold and has a fever and then does not receive timely treatment, he or she may die.

Would a mother who care for their child risk their child's life?

Yu Shi Lan's first reaction was not to believe the woman who asked for help outside.

"Meow." <That's true>

Even Xiao Mao was not fooled by the woman outside and instead felt that the other party was too stupid.

Besides, she was not really looking through the window or the peepholes.

Instead, she was seeing through the Qi and spell that she had learned.

So she clearly saw that there was a man who was hiding at the blind spot not far from the woman. He was ready to take action the moment the door was opened and possibly attack her.

Yu Shi Lan snorted.

Does she look so stupid in the eyes of other people?

'Stay here, Xiao Mao.'

Seeing Yu Shi Lan walking to the door, Xiao Mao knew that Yu Shi Lan was planning to solve the other party. As for how Yu Shi Lan solved them... Xiao Mao felt that there's only one answer to that question.

Ding dong!

The door kept on ringing and the woman outside kept on ringing the doorbell despite the heavy rain.

She had noticed that there's only one person inside the villa.

Just one girl.

If she could be caught, wouldn't she be at their mercy?

And considering that Yu Shi Lan hadn't come out for a long time yet hadn't starved to death, this meant that there should be a. Lot of food inside the vila.

If they were lucky, they would be able to eat enough.

This heavy rain made it difficult for them to walk around and many food has been spoiled. The military might have salvaged a lot of food in the early stage, but it was brought into the base and everyone's ration was limited.

For people who didn't even enter the base, it would be difficult for them to get this ration.

So it's better not to have much hope.

Some people had already scavenged around, but what they obtained was still extremely limited.

They were starving.

That's why they kept on ringing the doorbell and try their luck.

Click!

The door was opened and the woman's eyes flashed with joy.

The middle aged man beside her quickly slammed the door hard. But the door was only moved slightly to the back and he was startled.

He thought that there might be some door chains that blocked it, but it was not a big problem.

He was about to hit the door again when he felt pain in his forehead.

Huh?

What happened?

The middle aged man looked at loss and what greeted him was the cold eyes of a young woman.

His consciousness disappear as he fell down.

Outside the door, the woman saw the man fell down and quickly dropped the child in her arm and rushed over while crying loudly.

"Ah, husband! What's wrong with you?"

The woman looked sad and angry.

Yu Shi Lan didn't wait for the woman to finish her drama and another knife had been thrown over, piercing through the woman's forehead.

The two people died one after another.

Neat and tidy.

Yu Shi Lan looked at the pair who died and then looked at the child who was dropped by the woman. Right now, it had been washed by the rain for more than 10 meters away.

She quickly caught up, picked up the child, and checked him.

The child's face was pale, his eyes were closed and he was not breathing at all. From the child's appearance, it was obvious that he had been dead for some time.

Yu Shi Lan's guess was right.

This child was not the woman's child.

Otherwise, they would not have been willing to leave the child in the heavy rain for such a long time. Let alone throw him into the water and let him be washed by the rain.

And the most obvious clue was the fact that the child never cried even once.

Yu Shi Lan sighed and put the child back into the water, letting the rain wash it away.

At the same time, she also dragged the other two bodies into the rain.

Let the nature take its course.

"Meow." <How stupid.>

Xiao Mao shook her head and watched calmly as Yu Shi Lan finished killing them all. She could sense that there were other people who were watching them, but Yu Shi Lan clearly didn't care in the slightest bit.

"That's just how it is in the current world."
