

## **Cultivator in the Last Days**

### **#Chapter 81: The Continuous Rain Stop - Read Cultivator in the Last Days Chapter 81: The Continuous Rain Stop**

*Chapter 81: The Continuous Rain Stop*

For the sake of a little bit of food, people have lowering their bottom limit again and again.

It was truly pitiful.

But Yu Shi Lan held no pity in her eyes.

She had long been indifferent to this life and death's struggle.

"Meow." <Try to breakthrough, Miss?>

"Yes." Yu Shi Lan smiled.

...

It was unknown whether Yu Shi Lan's luck was really good or it was indeed time, but she managed to advance to Qi Refinement Rank 3 two days later.

And the next day, the rain stopped.

This meant that they could leave the villa resort.

"Meow..." <I don't want to go.>

Yu Shi Lan looked at the lazy cat and shook her head speechlessly. She simply picked Xiao Mao up and put her into her pocket. At the same time, she also carried a backpack that was only filled with a few plastic bags containing clothes.

When necessary, she will change the contents.

Entering the official bases might need them to pay something. After all, that was how it is in the future when she entered the base.

She didn't know if it was still free during this period of time or not.

"Meow." <Miss, there are more people coming from outside>

"Hmm?"

Xiao Mao's body had indeed not recovered yet, but her keen senses were getting better and better with time. At this moment, Xiao Mao clearly sensed the appearance of a large number of people.

Yu Shi Lan frowned and looked outside the window. Her eyes narrowed when she saw a few jeeps and other types of cars coming towards the villa resort areas.

As the people came out, her eyes were locked onto the leader.

'It's him.'

The leader of the Knife Gang.

This gang used to be a small local gang, but they managed to thrive during this chaotic period of time. Yu Shi Lan encountered them on her way to the base in her previous life and she watched as they fought with the soldiers.

She herself nearly died in their hands.

At that time, she was filled with bitterness and hatred for being so weak and couldn't do anything.

Now that she has the chance to see them again...

Yu Shi Lan's eyes flashed with killing intent.

Xiao Mao clearly sensed Yu Shi Lan's displeasure and killing intent and immediately squeezed her body smaller again. She had the feeling that Yu Shi Lan was definitely going to walk further on this path.

The killing intent was clearly getting much stronger than when Yu Shi Lan practiced in her previous life.

'Master is really bloodthirsty.'

Xiao Mao felt like sighing when she thought about this. Yet at the same time, she felt that there was no problem at all.

Yu Shi Lan likes killing, then let her kill.

Anyway, it was not like Yu Shi Lan was doing meaningless massacres and from what Xiao Mao had seen, there were only specific types of people whom Yu Shi Lan targeted.

"Get out of the villa and get all the resources!" The leader of the Knife Gang yelled loudly. "Take the women out. We shall enjoy yourself, Brothers!"

"Uooo!"

The people who followed him were clearly excited.

They had tasted the sweetness as they moved from one place to another. From robbing food, and so on, they managed to obtain a lot of resources and enjoyed life.

As for the future...

Who cares about that?

As long as they have a lot of food and resources, everyone felt that they could do this again and again.

Anyway, scavenging on the ruined city was also a good option for them to obtain a lot of resources.

These people didn't really want anything else.

It's good to be able to enjoy their lives in this chaos environment.

Originally, they should have been able to succeed and enjoyed such a life for a long time to come. Even though they were not the strongest force, but they still managed to get some weapons and with more and more people joining, they would be able to expand massively.

This way, it was hard to eliminate them and many people were harmed.

But now that Yu Shi Lan saw them...

With how they have targeted her in her previous life and now they were planning to capture everyone, how could Yu Shi Lan stay silent?

Killing everyone...

That is the only answer she will give.

Bang!

The door was forced open and the men had just wanted to come inside when two knives had flown out, each strike the two leading men's forehead, killing them instantly. Their movements froze and they didn't even know what had happened before they lost their consciousness.

The men following behind them were startled and drew their weapon but the third and fourth knife came unexpectedly.

Stab! Jleb!

Two more people died.

Four people fell and only one person was left.

After all, there were a lot of villa resort in this area and they had to allocate their manpower reasonably. It was impossible to send so many people to check one villa and the leader send five people to each place.

If they have any trouble, another team will be sent in.

The fifth person saw the four people who came earlier than him fell down and his expression looked terrified.

"Someone..."

Jleb!

A knife had landed on his forehead.

The door in front of him was ajar and he could see a young woman standing and walking in their direction. Her body was clean and her face showed that she should be a beauty.

Moreover, it was strange that she could live a comfortable life even though there was no water and electricity in the past month. Even though people could still use the rainwater, not many people really wanted to.

Because it was dirty.

But the man couldn't think too much because he felt that his vision darkened as he fell forward.

Yu Shi Lan calmly took back the five knives and snorted.

*Chapter 82: Gang Members*

Blood spurt out, dirtying the floor.

If Yu Shi Lan was still planning on staying in this villa resort, she would have to clean up this mess.

Her eyes contained indifference as she looked at the other people who rushed over when they saw the five people had fallen.

"Meow." <Miss, be careful, there are a lot of people here.>

Xiao Mao could sense that while they were all ordinary people, but they were relatively strong because of their physical training. The Knife Gang were filled with people who were used to fight on the street.

"I'm already a Qi Refining Rank 3, Xiao Mao." Yu Shi Lan smiled faintly.

If she was only at the Qi Refining Rank 1, then Yu Shi Lan will definitely figure out a way to retreat as far away as possible.

Because at that stage, she would be too weak to deal with so many people at the same time. They might be mortals or ordinary people, but when she was at Qi Refining Rank 1, Yu Shi Lan's body was still weaker than ordinary cultivator of the same ranks.

Now that she had made up her body's nutrition and also pushed her own training, her strength alone was already a few times more than ordinary people.

So when these new five people came, they didn't have the chance to see how Yu Shi Lan moved and they all had died.

Thud! Thud! Thud!

The bodies fell one after another and Yu Shi Lan walked out of the villa calmly.

She glanced at the villa on the side where there were also other people and swiftly moved on the air.

Xiao Mao knew that Yu Shi Lan was using movement martial arts.

A low ranked one that she used to learn in her previous life.

With the large knowledge reserve in Yu Shi Lan's mind, she could easily pick any powerful martial arts to study. But the Qi in her body was too low to use those high ranked martial arts, so Yu Shi Lan ended up learning a few basic martial arts instead.

For one, it could enhance her foundation.

Secondly, it could still be used in battle.

On the Green Planet, as long as there were no powerful cultivators, then Yu Shi Lan would be able to dominate.

She would not kill people needlessly.

But those who offend her...

Then she will take revenge personally.

Swish!

...

The leader of the Knife Gang was waiting outside and was very happy as he listened to the sound of many people screaming in the distance.

There were so many people living in this resort area.

Does it mean that he would be able to get a lot of resources here?

After all, more people who were able to stay alive meant that there were more resources available.

This made the leader of the Knife Gang very happy.

He seemed to imagine a luxurious life that he would be able to enjoy later.

A wretched smile appeared on his face.

In the past month, moving around different cities allowed them to know that the situation on the Green Planet should be extremely bad.

Because no city he passed by remained intact.

There were some soldiers who were helping people to evacuate, but he keenly noticed that the soldiers didn't seem to be in good condition either. Still, he didn't dare to have any conflict with them head on.

These soldiers all carried guns in their hands.

If they dared to step forward, he was absolutely sure that he would be shot without hesitation.

Now that the world was in such chaos, there was no doubt that some people required special treatment. The use of guns might no longer be so restricted, so he didn't dare to take the chance.

It's good enough for him to be able to live.

Being able to know whom he could offend and couldn't offend was his way of doing things and also the key for his survival.

Otherwise, the Knife Gang would have been destroyed countless times in the past few years.

In this chaotic world, he did feel a bit inflated, but he still didn't dare to challenge some people. After all, he knew how much he weighted.

"Hmm, what happened at the east area?" It was too quiet.

The other places were noisy because of the people's struggle, but it was relatively quiet on that side. It was as if no one was present.

Not even his men who should have been busy robbing the people.

It's strange.

"Check the east area."

"Yes."

After waiting for a few more minutes and there was still no sound, the leader of the Knife Gang decided to check in person while bringing the rest of the people. They all carried weapon with them and planned to comb through this area.

No matter what, it shouldn't have been so peaceful like this.

As they turned the corner, one of the members' face turned pale.

"Boss, it's bad..."

Jleb!

A knife pierced through the back of the man's neck and he fell down.

"We're being attacked!"

"Ahh!"

The leader of the Knife Gang wanted to order his men to rush forward and use crowding tactic, but the next moment, a few more people had fallen down. His expression changed and he raised his head.

What he saw was a young woman carrying a bloodied knife on her hand.

Her eyes were cold and when she saw the leader of the Knife Gang, she instantly attacked.

Clang!

Years of fighting had formed instinct in him. He raised his hand that held the metal pipe and blocked the attack.

But the strong force nearly pushed him back several meters.

How could a woman be so strong?

But he had no time to think about it because Yu Shi Lan had already moved once again and thrust the knife forward.

Jleb!

It pierced straight towards his heart and as the knife was pulled back, blood spurted out.

The promising gang leader died quietly.

*Chapter 83: Gang Members (2)*

Yu Shi Lan looked at the pile of corpses around her with the same indifferent expression on her face.

She felt nothing even after killing so many people.

The killing she used to do in her previous life had already formed subconscious reaction in her current life, allowing her to stay calm and even used every single killing to hone her killing intent.

Xiao Mao sensed the killing intent that was formed in Yu Shi Lan's mind and swallowed her saliva.

This...

Does Yu Shi Lan plan to become a shura?

There were so many deaths and Xiao Mao felt that it might be suffocating for others to stay close to Yu Shi Lan in the future.

As Yu Shi Lan's contract beast, Xiao Mao would not be affected that much.

But it will still make her somewhat uncomfortable when she thought about how Yu Shi Lan could easily scare children to tears without doing anything. No, not only children, even adults would be the same.

"Fun..." Yu Shi Lan took a deep breath and calmed herself down. She walked out of the villa areas and then glanced at their cars but she had no interest in these things.

The Knife Gang should have robbed a lot of people and resources along the way, but Yu Shi Lan didn't want these things.

She's only Qi Refinement Rank 3 and still needed to eat.

After all, food is also a source of energy and it would take Yu Shi Lan some time to reach the Foundation Establishment where she no longer needed to eat anymore. But right now, she didn't want to take these things.

"Meow?" <Why not, Miss?>

"It's dirty."

Xiao Mao: ???

Looking at her Miss, Xiao Mao has question marks all over her cat face. It was obvious that Yu Shi Lan had already gotten used to robbing resources back in the cultivation world and never had any qualms about this matter.

Why did she become so picky all of the sudden?

Xiao Mao didn't understand.

"I don't need this food. I'm going to go to other places to find other food," Yu Shi Lan replied calmly.

Before going to the base, it might be a good idea for her to find some other things to eat and also tested her strength.

The demonic beasts would be a good option for her to test.

Xiao Mao was confused.

She climbed out of Yu Shi Lan's pocket and rested on her shoulder, watching as they walked further and further away. As they reached a certain distance, Xiao Mao saw that there were some people who came out of the villas.

They were battered and bruised, but they were still trying their best to survive.

When they saw that the terrifying person who killed the gang members didn't care about the resources at all, they started to scramble and grabbed these resources.

Xiao Mao blinked her cat eyes.

She glanced at Yu Shi Lan.

Was she leaving those resources for the other people?

Her Miss was not exactly a kind person and Xiao Mao knew this very well. She didn't care about other people's live and death, but she was not an extremely greedy person either.

She just take what she needed and left the rest that she didn't need behind.

Perhaps, it's the same this time.

Xiao Mao thought that way to herself and then retreated back to Yu Shi Lan's pocket.

Even though Yu Shi Lan knew what the cat was doing, she ignored the other party and instead focused on looking for demonic beast. The number of demonic beast was still very few during this period of time.

They were not the main threat yet.

Instead, it was this cold temperature that threatened most people.

The rain had indeed stopped, but the temperature was still minus zero Celsius degree. Most people had to wear thick clothes when coming out.

It was not snowing.

But the temperature kept on dropping strangely.

Many people had died due to the cold temperature and to survive, they were basically taking anything that could be burn down. Along the way, Yu Shi Lan saw a lot of destroyed houses that had been looted clean.

The furniture was broken down and used as campfire.

No matter what, many people were still struggling to survive.

"There's a Demonic Ant at the front," Xiao Mao suddenly said.

Yu Shi Lan moved her eyes and the corner of her lips curled up. "Another annoying insect. It's surprising that only insects mutated on the Green Planet."

Yes, only insects were mutating on the Green Planet.

All animals were affected by the Demonic Qi, but only some insects absorbed the Demonic Qi and underwent extreme transformation to become big and terrifying like this. Even Yu Shi Lan didn't understand the reason.

In her previous life, she was not exposed to the research that the higher ups did to these demonic beasts.

But she could guess that they might have obtained some results.

Otherwise, it would be difficult for them to survive.

Then again Yu Shi Lan didn't know how long they actually survive in the end because she left this world and entered the cultivation world.

Ah...

Forget it.

Swish!

Yu Shi Lan moved quickly towards the Demonic Ant in the distance.

The Demonic Ant seemed to sensed danger as the antennae moved and then it tilted its head. It saw something approaching and quickly raised two of its legs to block.

Clang!

The knife was blocked and Yu Shi Lan smiled.

This is a demonic beast that had transformed for a while and not just a newly hatched one.

A demonic beast that had transformed for a period of time should have some fighting experience and was no longer as stupid as the newly born one.

It's perfect for practice.

Swish!

Yu Shi Lan moved swiftly and the Qi in her body started to move.

Restraining spell.

The Demonic Ant wanted to attack but it seemed as if something blocked its limbs.

Slash!

The knife cleanly cut off the Demonic Ant's neck.

*Chapter 84: Hunting*

"Meow~." <Good job, Miss.>

Xiao Mao was watching Yu Shi Lan's battle and clapped her cat paws happily. It was obvious that Yu Shi Lan was very capable and had already started using various spells to aid her battle.

Even though Qi Refinement cultivator's spells were limited in effect and range, but in a close combat, a slight delay would be more than enough to win the battle.

So Yu Shi Lan's hobby back then was to use restraining spell.

This will hinder her enemy's movement for a short period of time, allowing her to grasp the chance and kill it.

Be it demonic beasts or other cultivators, this technique worked quite well.

"Mhm~." Yu Shi Lan nodded in satisfaction. She walked towards the head of the Demonic Ant and then stabbed the knife.

Jleb!

The knife was split into two and in the midst of disgusting mess, she picked up a small crystal.

It's the demonic beast's cores.

"As expected, they have already formed these things. It's the peak of rank 1, but it's still too weak." Yu Shi Lan shook her head.

Rank 1 Demonic Beast was equivalent in strength to Qi Refinement rank 1 to 3.

The peak of Rank 1 Demonic Beast should have been comparable to Qi Refinement cultivator at rank 3, but this Demonic Ant was still too weak.

"Meow." <It lacked battle experience.>

Xiao Mao could tell that while the Demonic Ant had fought other demonic beasts and possibly also humans and other ordinary animals, it hadn't fought against other cultivators like Yu Shi Lan.

So when the Demonic Ant encountered Yu Shi Lan, it couldn't even fight back properly.

How miserable.

"Let's find more demonic beast," Yu Shi Lan said eagerly.

Aside from fighting against these demonic beasts for fighting experience, it seemed that she could also take advantage of this situation to get some demonic beasts' cores. These demonic beasts would not be so stupid and weak for a long time.

"Meow?" <How about the base?>

"It can wait." Yu Shi Lan smiled sweetly.

Xiao Mao: "..."

Then again, Yu Shi Lan will never forget her revenge, but she wanted to take advantage of this situation to get enough demonic beast's cores first. This is a good resources even though Yu Shi Lan couldn't really absorb the Qi inside directly.

Unless she wanted to become a demonic cultivator.

But Yu Shi Lan was not a demonic cultivator even though her cultivation path was filled with killing.

Xiao Mao shook her head.

Forget it.

No matter what Yu Shi Lan wanted to do, she would not stop the other party.

...

In this way, Yu Shi Lan's plan to enter the base quickly was delayed.

She spent five days hunting the demonic beasts and obtained dozens of demonic beasts' cores. They were all at rank 1 and the difference is that some of them were at the middle stage and a small amount of them were at the late stage and the rest were at the early stage.

It could be said that these demonic beasts were improving rather quickly.

But Yu Shi Lan guessed that it should be because of the Demonic Qi's concentration explosion during the earthquake not long ago.

Otherwise, it would have been impossible for these demonic beasts to improve so quickly.

"Meow." <Yawn>

Xiao Mao yawned in boredom when she saw that Yu Shi Lan had already finished killing another Demonic Mantis. There were not many variety of these demonic beasts as of yet.

It would be either the Demonic Mantis, Demonic Ants, or Demonic Spiders.

Other insects would take more time to mutate and change.

And these demonic beasts could be said to be the weakest and the most numerous.

"Sorry, Xiao Mao, are you bored?" Yu Shi Lan wanted to poke Xiao Mao, but the cat swiftly avoided Yu Shi Lan's hand.

"Meow!" <Don't touch me! You have to wash your hand first!>

Yu Shi Lan: "..."

She looked at her clean hand and then at the noisy Xiao Mao.

Swish!

With a quick grasp of her hand, Xiao Mao was caught and then rubbed by Yu Shi Lan without hesitation.

"Meow! Meow! Meow!"

The miserable cat howled and then laid limply on Yu Shi Lan's shoulder once Yu Shi Lan had finished rubbing it.

It felt that its fur was extremely dirty now.

Yu Shi Lan snorted when she saw the cat acting like this again.

"Stop acting."

"Meow." Xiao Mao glared at Yu Shi Lan resentfully and then looked at the corpse of Demonic Ants on the ground. "Meow?" <You're always leaving these dead demonic beasts behind. Don't you plan on using them for something?>

"They're only rank 1 Demonic Beasts and many ordinary things are more valuable than this." Yu Shi Lan shook her head. "And their meat is also uneatable. It's contaminated with the Demonic Qi."

While it was not impossible to process their meat and then eat them, Yu Shi Lan didn't want to waste her Qi in order to process the meat.

it's too tiring.

She would have to spend a large amount of Qi just to process a small amount of meat.

The hard work was not worth the reward.

Unless she's facing a rank 4 Demonic Beast's meat... Then Yu Shi Lan will definitely work hard to use her Qi and cleanse the Demonic Qi inside. Because the meat definitely contained Qi once she was done and it would be able to help her get stronger.

As for these rank 1 demonic beasts...

Forget it.

It's better to leave it to the people who were desperate.

Even if they knew that eating these things might end up making them crazy, there were still many people who dared to take the risk and willing to eat it.

Because in their opinion, this is what allowed them to become stronger.

"Hmm..." Yu Shi Lan paused in her steps and looked at the mountain in the distance.

For a moment, she felt a faint realm suppressions.

Is there any other cultivator in this world?

*Chapter 85: Entering the Base*

"Meow?" <Miss?>

"Xiao Mao, do you sense that?" Yu Shi Lan asked in a low voice.

"Meow?" <Sense what?>

Xiao Mao looked confused and her small cat head tilted slightly, making her look even more adorable.

Yu Shi Lan's eyes narrowed and she looked at the distance.

She clearly sensed that realm suppression that she had experienced when she was in the cultivation world.

Is there a powerful cultivator on the Green Planet?

Yu Shi Lan was intrigued.

Yet at the same time, she also knew that it was not the time for her to go there.

If there was truly a Foundation Establishment cultivator nearby, then Yu Shi Lan would only seek death if she were to go there.

'Let's come back once I'm strong enough.'

Making a mental note, Yu Shi Lan walked in different direction, intending to head towards the base that the military had built in this city. It was quite easy to find as there were a lot of signboards on various places, all pointing in the same direction.

The military might have thought that there were people who would come here and looking for them, so they just made things easier by posting these 'advertisement' all over the street.

Yu Shi Lan had to say that it was indeed useful.

At least, even someone like her who was directionally challenged could still find the correct direction to the base.

"Meow." <There are a lot of people.>

Xiao Mao peeked out of Yu Shi Lan's pocket and saw that there were dozens of people lining up in front of the base's gate. Many of them looked battered and seemed to have suffered a lot in the past month.

Then again, not everyone was lucky enough to have a sheltered place to stay quietly in the past month.

Some of them who were living at the lower areas were forced to move during the rainstorm. They had to battle with the rain and storm, enduring cold and possibly also fever.

The base itself was more like a closed city with walls built on the edge. Perhaps the threat of the demonic beasts had already made them wary and started to build the walls. But she could still see that the inside of the base was a row of apartments and other buildings.

It was obviously specifically designed to be a small safe city for people to stay.

This base was smaller than the one in her memory.

Yu Shi Lan guessed that this was because the base had experienced expansion in her previous life before she came here. Because of that, the base's size was much bigger in her memory than their current size.

Still, it's already pretty good.

Her foster parents will eventually come to this base and she will know soon when they come. Because Yu Shi Lan was absolutely sure that they would definitely try to take advantage of her father's sacrifice to take advantage of things.

Now that she had already moved her household registration, she wanted to see how they were planning to take advantage of her.

Yu Shi Lan sneered in her heart.

"Meow." <Miss, don't you want to line up?>

Xiao Mao felt a faint chill on her back and it seemed to come from Yu Shi Lan. She guessed that her Miss should be thinking about killing some people again and quickly reminded Yu Shi Lan about the important business.

After all, if Yu Shi Lan kept on increasing her killing intent, it might reach the point where her body couldn't handle it.

It will be a bit bad.

Yu Shi Lan looked at it and quietly lined up too.

To be honest, Yu Shi Lan still looked relatively good compared to the people lining up here and there were only mud and dirt on the bottom of her trousers. After all, the road to the base was not exactly clean and Yu Shi Lan was too lazy to clean up.

It would be too eye catching if she was not dirty at all.

Even though as a cultivator she could easily use cleaning spell to clean up, Yu Shi Lan wanted to hide the fact that she's a cultivator for the time being.

'Once inside, I need to inquire the news about martial artist.'

This time, Yu Shi Lan had to figure out whether these so called martial artists were also cultivators or not. If they were, then she wanted to know how come no one ever heard about them in her previous life.

Her mind wandered around and Yu Shi Lan waited patiently while carrying the backpack on her back.

It took nearly two hours before it was Yu Shi Lan's turn and there were already many people lining behind her.

"Meow." <Why are there so many people coming to the base at this time?>

Xiao Mao didn't understand.

'It's because the rain had just stopped. Many people who are living further away didn't have the chance to go to the base. They wouldn't dare to come out when the rain is too strong,' Yu Shi Lan explained to Xiao Mao.

Xiao Mao nodded in understanding.

The cultivation world didn't usually deal with this kind of things and Xiao Mao was not used to it.

After all, her hobby was to hunt other demonic beasts and then played around.

There was no time for her to do other things.

"Next one."

It was Yu Shi Lan's turn and she came forward.

"Name and if you still have ID card."

"Yu Shi Lan," Yu Shi Lan replied and handed her ID card for the person to check it. The process was fast and there was nothing complicated with it.

Once registered, she was given a new ID card and the old ID card was also handed back.

"This is the base's card and a new ID card. The ID card can put in your points and the points will be used for various things in the base. You can still exchange money for points or other resources. For further details, you can take a look at the local website."

*Chapter 86: Water*

Local website?

Yu Shi Lan was confused and her phone was not capable of connecting with the internet. This old phone should have long been eliminated from the market in the first place.

If it was not because her foster parents were too stingy, Yu Shi Lan would have long bought a better phone.

Well....

It was not like she didn't have a new one.

Yu Shi Lan silently took out a brand new phone and turned it on while she walked inside and looked around. There were some people who offered to be a guide and looking at their clothing, Yu Shi Lan guessed that they should be poor children in this base.

Before that, she looked at the announcement board.

This kind of thing was rarely used in the usual time. But considering that not everyone could have phone, there were many things posted here.

Most of it was the rules of people who wanted to stay on the base, though.

"Meow." <I can't understand any of that.>

Xiao Mao looked at the unfamiliar letters in front of her with a strange expression. The language used in the cultivation world and on the Green Planet was a bit different and Xiao Mao never actually learned how to read.

Besides, she didn't really need this skill.

It was enough for her to know things from asking Yu Shi Lan.

"The rules of no fighting, no killing, laws are still uphold and the trading rate for money to points," Yu Shi Lan said calmly.

It was impossible for the government not to use the money at all in the early stage or society will collapse. If these things were defined as waste paper from the very beginning, it would not be fair for those who had worked hard before the world collapse.

But with so many people robbing out there... money will soon become nothing more than waste paper.

Their main currency will change into contribution points.

Yu Shi Lan looked at the expensive exchange rate, but didn't care too much about it. She looked at the building in front of her and walked inside without hesitation. There were also a lot of other people here, each carrying their belongings and trading them for some points.

Instead of using money, people were using resources that they didn't need to exchange for contribution points.

Gold, food, and even various electronic appliances.

Yu Shi Lan glanced at the screen on the side that was showing the exchange rate and she blinked her eyes.

So they have been using this electronic board from the very beginning.

She thought that they only used in the future when they have secured the stable electrical sources. After all, the earthquake had destroyed many things and it was surprising that they could still use this thing.

Or they have secured a lot of generators?

Yu Shi Lan didn't know.

She saw that the price of gold to contribution point was a pitiful 500gr for 1 point.

Yu Shi Lan: "..."

If this exchange rate was given before the earthquake happened, many people will definitely cry.

She ignored it since she didn't collect gold and moved towards grains and so on.

Grains were priced at 1 point for every 1 kg, all types were allowed.

Water were more expensive. If it was bottled water, they will give 1 point for every 100 milliliters. If it was clean drinkable water from unknown source, they will give 1 points for every 0,5 liters.

And so on.

The exchange rate was indeed not very ideal and Yu Shi Lan didn't bring many things with her.

Since points are expensive, Yu Shi Lan guessed that it wouldn't be easy for her to get a private residence to stay in the base. And staying with others was definitely a big no.

'I should have collected more resources before entering the base...' Yu Shi Lan thought to herself.

She did collect some canned food from the malls and other useless items when she passed by. But the amount was not much because many things have been taken by others and Yu Shi Lan had no interest to take other things.

"Meow?" <Do you want to go out again?>

Xiao Mao would not mind going out again, though.

Yu Shi Lan shook her head and simply lined up. The people moved pretty quickly and when it was her turn, she took out a gallon of water from her backpack. This made some people look in her direction with strange expression.

The content was naturally not the real processed water, but she had replaced it with her spell.

Using basic water spell, she could easily turn her Qi into water and had filled a few gallons in her space. She originally planned to use them for making ice later since the amount of Qi she has was limited.

But since water can be exchanged for points, let's just use it for the time being.

"If it's water, we need to test the content first. Please wait on this line, Miss."

"Yes."

Yu Shi Lan waited on the side while the receptionist called the next one in the line while her water was being tested. After all, the gallon was not closed by the proper seal, so it would take some time.

But Yu Shi Lan was confident that it was drinkable, though.

She took out two gallons at the same time since one gallon contained 4,5 liters of water and two gallons meant 9 liters of water.

It should be possible to get 18 points.

While it didn't seem much but based on the current exchange rate, it seemed to be a pretty good amount of money.

Before long, the staff returned and nodded at Yu Shi Lan.

"The water is drinkable. It's worth 18 points. Would you like to exchange something else?" The staff's eyes looked a bit eager when they looked in Yu Shi Lan's direction.

It has been a while since someone exchanged water with them and the water was also drinkable.

## *Chapter 87: Encounter*

Yu Shi Lan blinked her eyes and then shook her head.

It was already eye catching enough for her to take two gallons of water to exchange for points. If she were to exchange more points, it was estimated that there would be people eyeing her.

Her bag also looked visibly smaller than before.

Though, the content was actually just some clothes since Yu Shi Lan would not put anything of real value inside.

"Thank you for your contribution," the staff said and handed her ID card back to Yu Shi Lan.

"Mhm."

Now with 18 points, Yu Shi Lan looked at the 'guides' outside, thinking in her heart whether she should employ them or not.

"Sister, if you need someone to guide you, I can do it." A young boy around 10 years old called out when he saw Yu Shi Lan staring at the group of guides. This job has always been very competitive and even children had to compete with adults.

Because this job was easy and they could also get different money depending on how rich their customers were. This young woman looked a bit clean and she might not be too poor.

"Little brother, what's your price?" Yu Shi Lan asked.

She didn't have any Green Coins, which is the currency on the Green Planet, anymore. After all, she left all of her money in that pharmacy in exchange for all of the medicines that she could obtain there.

"Just 10,000 Green Coins, Sister," the boy replied.

Yu Shi Lan was silent.

Is it too expensive?

The boy was a bit flustered because he knew that it was indeed expensive. But the value of money had long dropped and that amount was not even worth exchanging 1 points.

It could only be exchanged with 0,01 points.

That was how much the value of money had dropped in the past month.

"I don't have any money. Is it fine if I exchange it with some cookies?" Yu Shi Lan took out a packet of biscuits from her pocket, actually from her jade space.

The boy's eyes lit up when he saw the cookies and he immediately nodded. "Yes, of course you can, Big Sister! You can ask me anything and I definitely can answer."

Yu Shi Lan smiled at the boy's answer and then she asked about the living condition in this base.

"The base is divided into four regions, the north, south, west, and east. The north area is the core area and basically only the officials and military can go there. The South is where the gate is located and there are also some apartments here, but it's all sharing house that you can live in with 1 point every week and a total of 4 people will live in one room," the boy started explaining.

"Meow?" <One room for 4 people? Is it not cramped?>

Xiao Mao couldn't imagine the scene of four people living in the same room. If this happened in the cultivation world, she was absolutely sure that everyone will definitely fight because of various reasons.

Yu Shi Lan poked Xiao Mao's head and signaled her to be quiet.

For Yu Shi Lan, she was not surprised by the shared apartment that the boy mentioned because it should be arranged for people who didn't have enough money or resources.

"The west is the most chaotic, but the market is also there and people can change their resources freely. There are also the place that you can stay for free, but there will be a lot of people in one room," the boy continued.

"The East is the best but also the most expensive. There are places like mansions and also personal apartment. The personal apartment cost 1 point per day while the mansions cost 100 points per day. Between the two, there are also small residential areas worth 10 points per day."

Yu Shi Lan: "..."

Whoever designed this base definitely had business talent.

The expensive mansion was definitely arranged for people who have too much money such as the rich people before the earthquake and so on.

Through using these mansions, they would be able to get more things.

When she came here next year, there were more areas and Yu Shi Lan was dizzy to remember all of those. Not to mention her foster parents basically locked her out and didn't let her roam around afterwards aside from work.

She never had the chance to truly understand the base.

'I don't have any plan to stay here for long, though.'

"Can you let me take a look at the East area?"

"Of course! But if you want to rent the apartment there, you need to go to the housing office on the east area. I'll lead you there, Big Sister," the boy said without hesitation.

"Then I'll trouble you." Yu Shi Lan nodded.

The two of them walked forward, mainly the young boy leading the way while Yu Shi Lan following from behind. She was unfamiliar with the base during this period of time and she had never went to the most expensive place in the entire base's area before.

This made Yu Shi Lan felt a bit complicated.

"Huh? Yu Shi Lan?"

Yu Shi Lan: "..."

Hearing someone calling her name, Yu Shi Lan unwillingly looked at the side and saw a group of young men and women gathering together.

It took her a second to remember that they were her former classmates.

Some of them had already died by the time she came to this base but some others were still here and liked to make fun of her.

Remembering those days, Yu Shi Lan's eyes turned cold.

Killing intent almost leaked out again and Xiao Mao shuddered inside Yu Shi Lan's pocket. Did someone provoke them again?

The next moment, the oppressions disappeared as if it was nothing more than a dream.

No.

Yu Shi Lan couldn't attack them in the base.

She would wait until they went out of the base if she really wanted to kill them.

*Chapter 88: Mockery*

Xiao Mao blinked her eyes.

She didn't expect that Yu Shi Lan would actually hold back and secretly breathed a sigh of relief.

As long as Yu Shi Lan didn't make trouble right away, it seemed that they didn't have to leave again. Besides, Xiao Mao didn't want Yu Shi Lan to start killing people for no reasons.

"Hahaha, the poor girl is actually here."

"Tsk, it's obvious that Wang Tan Lin is looking for her some time ago. Tsk, tsk, are you finally running away from home?"

"She's just a burden for her family members."

"The Wang Family has been kind enough to take you in and you're basically repaying kindness with hatred."

"How shameless."

Yu Shi Lan looked at her former classmates who were laughing at her and her expression remained impassive. Her fingers were clenched into a fist and she really wanted to kill these people who only know how to bully others.

Her days when she was in the high school has never been short of misery because of them.

Yu Shi Lan sneered and then restrained herself once again.

Words couldn't harm her physically.

And as long as her mentality remained stable, they wouldn't be able to truly hurt her.

So Yu Shi Lan turned her eyes to look at the young boy and said, "Ignore them and continue walking."

She didn't want to pay attention to this group of unworthy students.

They called themselves as a group of people who have been educated and taught in school, but their behavior was worse than people who have never been to school.

Heh.

"Uh, ok." The boy was obedient.

He knew very well that the people who came to the base came from various background and there might be conflicts with the others. These people looked well dressed and might be staying in the East area too.

"Sister, the security in the East area is still pretty good. As long as you have enough points, you can pick a better place to live," the boy reminded.

Yu Shi Lan looked at the young boy and her eyes flickered.

It was rare for her to receive kindness from other people, especially kindness without expecting anything.

The soldier, the restaurant owner, the annoying Mu Ting Ye, and now this young boy.

Each of them seemed to be giving off kindness to others without really expecting much from her. Even if it was just a small thing, but they were still willing to say some things, small advice that might help others very much.

Yu Shi Lan patted the boy's head. "Thank you for your kindness, little boy."

"Um!" The boy grinned and then walked forward.

He didn't seem to be bothered by the group of people talking bad about Yu Shi Lan and continued to lead the way.

Yu Shi Lan herself ignored them.

But this made this group of classmates even bolder. "Heh, she only knows how to ignore us."

"I can't imagine what kind of miserable life she should have."

"Now that the Wang Family will not protect her, I wonder what she's going to do."

"Tell Wang Tan Lin that his shameless foster sister is here."

"Hahaha!"

The group of young students were laughing with each other while mocking others, not even once thinking that this was wrong. They have done it a lot when they were still in the school and the teachers never taught them that they were wrong.

It was more like, the teachers ignored them.

Because Yu Shi Lan has become the target of bullying for most people in her class and even the classes next door were also looking down on her.

Only the upperclassmen and underclassmen didn't care too much.

They have their own affairs.

Yu Shi Lan ignored this group of people.

The only good thing is that these people would not take action like those three stupid girls when they were outside. They still knew that they shouldn't do anything unnecessary because not everyone was like their biased teachers.

Their teachers have been paid by Lian Lei Xu to ignore these bullying.

But outside?

Some people with correct three views might still interfere.

Of course, when the situation turn for the worst and a long time has passed after the earthquake, it was unknown how many people would still be willing to show kindness to other people.

They would feel numb because of what the world had thrown to them.

Who would have time to be kind to others?

So seeing the young boy was still willing to be kind to others, Yu Shi Lan felt that it was really rare.

She was really not used to it.

"We're here, Big Sister!" The young boy pointed at the office. "I don't know all the available rooms because there are many people who rented the rooms. I'm afraid that you need to ask the person inside. Do you need me to take you around the area first?"

Seeing the boy was still doing his work cheerfully, Yu Shi Lan shook her head and took out two packets of biscuits and handed it over to the young boy.

"This..." The young boy was pleasantly surprised to get two packets, but the agreement was only one.

He looked at Yu Shi Lan with some hesitation.

It was not right to get more than what they agreed on in the beginning.

"Take it, it's a bonus for you because you spend more time with me today," Yu Shi Lan said generously.

The young boy's eyes lit up. "Thank you sister!"

After that, he bid his farewell and then ran back to bring the food back to his family.

Yu Shi Lan shook her head and then walked inside.

The person in charge of the housing gave a polite smile when he saw the person who walked in and asked, "Hello, would you like to take a look at the available residences for rent in the East Area?"

"Yes."

"I believe you know the prices or should I reiterate it once more?"

*Chapter 89: Settling Down Temporarily*

Yu Shi Lan blinked her eyes.

It seemed that there were also people who wanted to try their luck and came here without knowing anything.

Of course, Yu Shi Lan said politely that she wanted to take a look at the apartment areas. She just needed the apartment that can be used by one person without the need to be shared by others.

"The price is 1 point per day, this also include water and electricity, but the amount for each person is limited, so you have to pay attention. If you exceed the normal use, we will have to charge more from your card."

"I understand."

"The renting has several schemes. You can choose to pay every month, every week, or every day. You can also choose to automatically reduce your contribution points for payment until the point in your card has run out for the rent," the person in charge explained calmly.

After all, many people were not that rich, but they still wanted to live in the single apartment. They opted out for the daily payment and naturally would have their contribution points deducted as long as they hadn't checked out.

This system was really convenient.

Yu Shi Lan felt that it was really good.

She didn't have to worry about forgetting to pay the rent and then the water and electricity was suddenly cut off without her knowing.

Of course, it would be a different story if there were no point in her base cards.

But Yu Shi Lan was planning on selling more water later. This should be the easiest method for her to earn contribution points.

Besides, she didn't plan to stay in the base for a long period of time.

"I want to choose where to stay."

"Please."

After some time deciding, Yu Shi Lan picked one of the place and then left without hesitation. She took a walk on the location and after an agreement, the electronic contract was signed.

Yu Shi Lan looked at the tablet and then asked, "Is there a lot of electricity in this base?"

"I don't know much about this, Miss. There are only electricity for lighting in the apartments but for us, we have the work tablet," the person in charge replied.

"I see."

Well, the apartment was indeed empty.

There was no television, air conditioner, or anything like that. There was only one lamp in the middle of room and there was a door heading to the bathroom. The size was not that big either, but it was good enough.

After all, if Yu Shi Lan wanted a better place, she would have to pay 10 points per day.

It was not worth it.

She didn't have many materials' demand either.

So after calculating the use of electricity and water, Yu Shi Lan felt that this room was completely enough.

Once everything was settled, the person in charge left.

"Meow." <It's really small.>

Xiao Mao was not completely satisfied with this place as she jumped onto the table in the middle of the room. There were only one cupboard, one bed, one table, and one chair. No matter how one looked at it, it was really pitiful.

This was a stark contrast to the large villa resort where they stayed in the past few days.

For some reasons, Xiao Mao started to miss that villa.

At least, she could run around without the need to worry about hitting the wall.

"This is good enough. I don't plan to stay in the base for a long time either." Yu Shi Lan poked Xiao Mao's head with amusement. "I'm going to check the local website first."

Local website?

The unfamiliar terms made Xiao Mao curious and she jumped up to Yu Shi Lan's arm, looking at the new phone that Yu Shi Lan took out.

This phone was taken from the mall that Yu Shi Lan passed by.

Hmm, this is the first time for Yu Shi Lan to use this kind of phone.

She looked at the phone in front of her and it took her some time to find the browser and entered the website mentioned by the staff before. Beside her, Xiao Mao was waiting patiently and kept on waving her small paw.

Based on Yu Shi Lan's memory, Xiao Mao knew that this was Yu Shi Lan's blind knowledge.

So she was patient enough.

"Hmm, it should be this one."

Yu Shi Lan used her own Qi, transform it into lightning element and charged the phone in front of her. Even though this was the first time she charged a phone, but her operation was relatively skilled and the phone was easily charged by Yu Shi Lan.

"Meow." <It's such a waste of Qi to use it like this.>

"There's no other port in the apartment. They should have purposely done this so that the amount of electricity can be controlled..." Yu Shi Lan paused for a moment and then looked at the wall to check.

Only after confirming that they really didn't prepare an electrical port did Yu Shi Lan sat back down.

The base is really stingy!

Then again, resources are very valuable and Yu Shi Lan shouldn't be surprised by their operation.

Pushing her thoughts back to the track, Yu Shi Lan looked at the website from the phone in front of her and looked through it.

To be honest, the website looked very plain.

Whoever designed it definitely did it in a hurry and in any normal situation, no one would bother to click in at such a boring site.

But since this is the official website, Yu Shi Lan still had to check it.

'City A Base's Official Website...'

Yu Shi Lan blinked her eyes.

Has they fixed the internet?

It could be that they only made it usable in the base, though. After all, the scope was narrower and so on.

Forget it.

She didn't understand these things.

Yu Shi Lan felt that for the sake of her pitiful brain, she should not think too much.

*Chapter 90: Information*

Looking through the content of the website, the first page was the rules.

The second page was the precaution of the danger in the world outside, including the fact that the temperature has been dropping and everyone was advised to wear thick clothes and prepare enough heating.

Speaking of heater... there was no heater in this apartment.

But the bed was a kang type of bed that could be heated... what they needed should be a lot of firewood.

Yu Shi Lan looked at the bed and silently covered her face.

Why does it feel that the technology was going backwards?

Forget it.

At the very least, she knew how to use this because the shared apartments' beds were also using the same thing in her previous life. Perhaps only the houses worth 10 points a day would have heater and better electrical appliances.

As expected, only with money would it be possible to live comfortably.

The third page was the exchange rate.

As she had thought, the price was more expensive when buying from the base than donating it. This should have been done to prevent people from taking advantage of the base.

Yu Shi Lan was not that interested in it.

She looked through the third page for a while before her eyes landed on the fourth page.

This time, it contained the information about some mutated animals that they might encounter outside the base.

Seeing them blatantly spread this matter, Yu Shi Lan had the faint feeling that the higher ups wanted to let the people to stay in the base obediently. At the same time, this will also let them know that it's dangerous out there.

"Meow?" <Is there anything useful?>

Xiao Mao couldn't understand the text, so she was waiting for Yu Shi Lan to finish reading and then asked about the contents.

"I can't say that it's not useful, but it's not that important for us," Yu Shi Lan replied helplessly.

The first and second page was something that Yu Shi Lan had known for a long time. There might be some modification in the future, but it was not that important for Yu Shi Lan.

What she paid attention more was these exchange trade.

No wonder there were many people who carried a lot of things when she came here.

They should have been thinking of exchanging various things to the base.

"Meow?" <...Do you want to work for the base for free, Miss?>

Xiao Mao had a strange expression on her face when she mention this. From what she knew, Yu Shi Lan would not have any problem even if she were to live outside on her own.

In fact, it might be more comfortable.

"Of course not." Yu Shi Lan shook her head. "But there are indeed some things that I want to buy."

She had looked at the exchange rate and found some interesting things.

For example, it was possible to buy food from the base.

The price was indeed not cheap but it was still affordable for people who have enough points on the base.

Yu Shi Lan planned to buy some meat for herself.

After that, she will take a look if she could buy some herbs.

If it was not possible, then once she had finished with her revenge, she will live on the mountain and become a recluse cultivator.

The nature had provided them with resources and there was nothing wrong with her taking those things for herself.

Anyway, it belonged to the public.

City A was located near the mountain and forest.

She just need to travel there.

'But I won't go into that mountain yet and will probably pick the forest first.'

The realm suppression that she felt... She didn't want to provoke someone or something that she couldn't afford at this stage.

"Meow?" <Buy things?>

Xiao Mao's interest was aroused.

Seeing the cat like this, Yu Shi Lan smiled. "Let's go out and check the supermarket in the base."

"Meow!" <Dried fish!>

When talking about shopping, Xiao Mao naturally wanted to get more dried fish. The number of dried fish in Yu Shi Lan's jade space had decreased rapidly and the demonic beasts so far were not fish, so Xiao Mao was not interested to eat them.

She just wanted fish!

"You greedy little cat." Yu Shi Lan was amused, but she still brought Xiao Mao out.

The base was still in building progress, but there were already quite a lot of things here. From the way it looked like, the current situation was quite good. The people who came to the base could find some job in the construction site.

The pay was not that bad either.

They could get 1 point for every 12 hours of working.

Yu Shi Lan: "..."

Does this not violate the labor law?

But with the world was already collapsing outside, it seemed that no one would care about the so called labor law anymore.

At least, she didn't care.

And then Yu Shi Lan also found the canteen in the south area where people could get a bowl of porridge for 0,1 point. But looking at the thin porridge and the small bowl provided for them, Yu Shi Lan could see that the base was trying to save resources.

Water was exchanged at the higher rate than the price to sell it to the base

1 point can be exchanged for 250 milliliters of water.

In other word, working for an entire day could only earn them very little amount of water.

But for those who were working in the construction site, they would be given a bowl of porridge and a glass of water for lunch for free.

This is the reason why this work was popular.

For people who didn't have any special skills or anything like that, they simply rushed over to get this job and earn the free meal for lunch.

The dinner could be solved with the point they were given or simply saved for tomorrow.
